Blood Mad Mob Wreaks Vengeance on Murderers

BLACK SLAYER OF GIRL AND WHITE WIFE MURDERER LYNCHED

Four Thousand Infuriated Men
Roam Streets of Cairo Seeking
Third Victim Spirited
Away by Sheriff.

GOVERNOR OF ILLINOIS
RUSHES TROOPS TO SCENE

Hope Held Out That Arrival of
Militiamen Will Avert Repetition
of the Race War of
Springfield.

MAYOR AND POLICE CHIEF
BESIEGED IN THEIR HOMES

Sheriff With Third Prisoner
Disguised as Policeman
Roams City Closely Pursued
by Band of Lynchers.

[By Morning Journal Special Leased Wire]
Cairo, Ill., Nov. 12.—With two men
lynched by an angry mob, another in
imminent danger and the streets filled
with wild-eyed men, thirty for more
blood, Cairo, after a sleepless night of
murder and riot waited anxiously to-
day for the hundreds of soldiers that
are on their way to quell the mob at
the orders of Governor Deneen.

Will (Froggie) James, a negro, con-
fessed murderer of Annie Pelley, was
hanged, riddled with bullets and
burned, early last night after a thou-
sand determined men had chased
Sheriff Davis and the negro for twenty-
four hours and seized the prisoner.

Henry Salzer, white, held for some
time in the county jail and hanged and
shot by the infuriated men, who up to
that time were unsuccessful in cap-
turing Arthur Alexander, a negro im-
plicated by James as an accomplice in
the slaying of Miss Pelley.

Alexander was at last found by the
police, who succeeded in eluding the
mob by a ruse.

Although the horrors of a race war
had not broken out during the night,
peaceable citizens had begun to fear
that a repetition of the Springfield
riots of last year was imminent.

With the arrival today of armed
troops it is thought that further rioting
will be avoided. The four thou-
sand men roaming the streets until
daybreak had access to many saloons,
which remained open all night.
Mayor Parsons and the chief of police
were unable to close the saloons be-
cause they were shut up at home by
the mob. Soldiers of the Cairo militia
finally went to guard the homes of
the municipal officers and kept the
rioters in some restraint.

Orders from Governor Deneen
through Mayor Parsons were received
to close all saloons until further no-
tice.

The situation in Cairo at 2:45 a. m.
is very quiet in the downtown section,
and no evidence that a mob has run
riot can be seen. The mob has dis-
persed to a great extent but the search
for Alexander still goes on in the up-
per part of the negro section of the
city and his capture would be the
cause for an immediate mob alarm
and he would be lynched at once.

WHITE MAN HUNG FOR MURDER OF WIFE

Cairo, Ill., Nov. 11.—Tonight Cairo
is a seething mob. Henry Salzer, a
white man and a photographer by
trade, who killed his wife last July
with an axe, was taken out of the
county jail at 11:40 by the mob and
hanged to a telegraph pole and his
body riddled with bullets. This lynching
followed closely that of Will
James, a negro, earlier in the evening.
The mob gave Salzer a chance
to confess after the rope was around
his neck, but he was so frightened
that he could only mumble that his
sister did the killing.

The mob became furious at this and
it was hard work to keep them away
from Salzer long enough to give him
a chance to pray. The mob finally
subdued and a short religious service
was held, after which he was struck
up, the rope being placed over a tele-
graph pole at Twenty-first and Wash-
ington streets.

Salzer, who was born and raised
here, was the son of William Salzer,

a hide and wool buyer. He had been
married about two years. It was
known that he had had trouble with
his wife and it is said gave her no
money for food for herself and two
small babies.

Last July Salzer's wife was found
at her home with her skull fractured
and a bloody axe was found under the
bed. The two babies were playing in
the blood.

Evidence pointed to Salzer as the
slayer of his wife and after the crime
was discovered Mrs. Salzer recovered
enough to accuse her husband of the
crime.

The public was incensed against him
and while a part of the mob was
scouring the city for the negro, Alex-
ander, time hung heavy on the hands
of the others and when someone sug-
gested Salzer, the mob rushed for the
county jail where he was confined in
a steel cage.

The sheriff and his crowd of de-
puties were pushed aside and the door
battered down with a sledge hammer.

The mob found some difficulty in
breaking the cage but after a half
hour's attack it gave away and Salzer
was taken. The mob rushed him out
of the back door of the jail, which is
in the basement of the court house and
out into Washington avenue and up
to Twenty-first street, which is a
corner and has a public
are. Salzer cried and begged pit-
tously for his life but his appeals were
met by cries and blows from the mob.

When Salzer was asked for his last
statement, a stranger in the crowd
stepped forward and said he believed
Salzer was innocent. Whereupon the
mob fell on him and it was with diffi-
culty that his life was saved.

He was compelled to beg mercy
from the mob and announced in a loud
voice that Salzer should be lynched,
after which he was driven from the
crowd.

After Salzer was hanged and while
the body was being riddled with bul-
lets the rope broke and the body fell
to the ground where it now lies.

MURDERER HAS BRIEF TASTE OF LIBERTY

ESQUIBEL NABBED AT
DOOR OF VICTIM'S HOME

Mora Jailbird, Confessed Man-
killer, Scales Prison Wall and
Makes Way to Widow of
Man He Slew.

[Special Correspondence to Morning Journal]
Las Vegas, N. M., Nov. 11.—Jose
Esquibel, confessed murderer, after a
successful escape last night from the
county jail of Mora county at Mora,
N. M., was recaptured cleverly by
Sheriff Gandert a short time after-
ward when the fugitive for some un-
known reason knocked for admittance
at the door of the ranch home of the
man he had murdered.

Shortly after dark Esquibel was
sent into the jail yard to get some
wood by Sheriff Gandert. Esquibel
improved the opportunity to scale the
high wall and fled. Gandert trailed
the fleeing man to the ranch home of
the man he had killed and telling the
widow of his mission secreted him-
self in the house. About midnight
Esquibel knocked at the door and
asked for admittance.

When he entered the sheriff
promptly slipped a pair of handcuffs
on the man and took him back to
Mora.

Sabbath Schools to Close.
Today the board of health request-
ed the various Las Vegas churches to
close their Sabbath schools during the
scarlet fever epidemic here, which
will be complied with. The situation
is well in hand and it is now believed
that no real epidemic will ensue.

When he entered the sheriff
promptly slipped a pair of handcuffs
on the man and took him back to
Mora.

and the negro lynched at once but
it was finally decided to bring him
into Cairo and give the townspeople a
chance to help with the work. Relat-
ives of the murdered girl took part
in the lynching.

Major Parsons tonight called on
Governor Deneen for state troops to
restore order here.

Miss Pelley was an orphan girl, 22
years old. Her home was formerly at
Anna, Ill., but for two years she had
made her home with her sister, Mrs.
John C. Coffman, of Cairo. She was
employed as a salesgirl.

On Monday evening she left the
store where she worked and walked
with her chum, Ella Dolan, as far as
Miss Dolan's home, where she took a
car. It was raining and to avoid a
muddy stretch of sidewalk, she left
the car at Twenty-eighth and Elm
streets, instead of Twenty-ninth street, as
was her custom.

The finding of the handle of her
umbrella in the front yard of the
residence of Harry Lips, at 424
Twenty-eighth street, three doors
from the corner, indicates that this
was where she was first attacked. It
is supposed that when she was con-
fronted she struck the man with her
umbrella and the handle flew into the
yard.

It is believed that the man thrust
the gag into her mouth and carried
her back to Elm street and half a
block to the alley. Marks on the
ground show that she was dragged
seventy-five feet to the spot where
she was strangled to death. Her fear-
fully bruised and lacerated throat and
face show that she fought desperately.

The alley is narrow, barely wide
enough for a wagon to pass through
and is little used, and it was after 8
o'clock the next morning before the
body was found.

Katherine Booren, the three-year-
old daughter of W. C. Booren, crossing
the alley to visit her grandmother,
came upon the body Tuesday morn-
ing and ran back to call her father.
Miss Pelley's clothing were almost
completely torn from her body. The
deep imprints of the fingers that
throttled her were on her throat.

Beside her was her hat and broken
umbrella. Not far away was found
her book of street car tickets. Some
postcards she had been carrying in
her pocket were found. Her hand
bag and a dress pattern she had pur-
chased were gone.

In his confession James told of the
assault on Miss Pelley and declared
Alexander had some of the jewels
taken from Miss Pelley.

As soon as the negro finished a
man who had climbed to the top of
the arch turned on the electric light
and a rope was thrown to him. He
dropped it over the arch and an end
of the sagging line was held. Many
women seized the end and tugged with
the men.

Four companies take
past trains to scene

Chicago, Nov. 12.—Governor De-
neen was informed over the long dis-
tance telephone from Cairo early this
morning by a deputy sheriff that it
had been reported that the mob had
lynched the negro Alexander.

Alexander, it is said, had been cap-
tured at a private house. The report
of the lynching could not be verified.
The governor announced that he ex-
pected several companies of troops to
meet at Ashley, Ill., early this morn-
ing and follow the Carbondale reg-
iment into Cairo within a few hours.

Acting Adjutant General F. S. Dick-
son of Springfield reported to Gov-
ernor Deneen by telephone at 1
o'clock this morning that at least four
companies of the Fourth regiment, Il-
linois National guard, were well on
their way to Cairo and that he ex-
pected the company from Carbondale to
reach the scene of the rioting about 2
o'clock this morning.

State troops rushed
to mob ridden town

Chicago, Nov. 11.—Governor
Charles S. Deneen, who is in Chicago,
talked on the telephone to Sheriff
Frank Davis, of Alexander county, at
Cairo, at 11 o'clock tonight and re-
ceived the report that conditions in
the southern Illinois city were so
alarming that troops were needed at
once to prevent a disastrous out-
break.

"The streets are filled with people
and they are crazy," the sheriff re-
ported to the governor, who was at
his rooms in the Union League club,
and they are trying to batter down the doors.
I called for volunteers to help suppress
the rioting and not a soul would help
me. I must have troops."

Governor Deneen, who has already
been in communication with the state
department at Springfield, giving or-
ders that all militia companies in
southern Illinois be held in readiness,
told the sheriff to utilize the com-
pany of militia at Cairo immediately.

Territory of New Mexico,
Office of the Secretary.

Miscellaneous Certificate.

I, Nathan Jaffa, secretary of the
Territory of New Mexico,
do hereby certify that:

Whereas, on the 23rd day of
March, A. D. 1909, the Albu-
querque Citizen was designated
as the Official Newspaper of
New Mexico;

Whereas, said Albuquerque
Citizen has ceased publication;
Now, therefore, public notice
is hereby given that: in com-
pliance with section 5, chapter
75 of the laws of 1909, requir-
ing the Secretary of the Terri-
tory to designate an Official
Newspaper of New Mexico; the
Albuquerque Morning Journal is
hereby designated as such
Official Newspaper of New
Mexico.

Given under my hand and
the Great Seal of the Territory
of New Mexico, at the City of
Santa Fe, the Capital, on the
fourth day of October, A. D.
1909.

(Seal)
NATHAN JAFFA,
Secretary of New Mexico.

DEFENDANT IS SEIZED WITH CONVULSIONS

DRAMATIC INTERRUPTION
OF READ BLACKMAIL CASE

Denver Woman Accused of At-
tempt to Extort \$100,000
From Mrs. Phipps Suddenly
Stricken in Courtroom.

[By Morning Journal Special Leased Wire]
Denver, Colo., Nov. 11.—Seized with
violent convulsions in her trial on a
charge of obtaining \$100,000 from
Mrs. Genevieve Chandler Phipps, on
the threat of death by dynamite, Mrs.
Allen F. Read lies at the point of
death at the home of her sister, Miss
Jennie Campbell, tonight. Mrs. Read,
who is a victim of a drug habit, was
seized with convulsions in the recess
of the court at noon, but was revived
by her physician and re-entered the
courtroom when court convened. A
few moments later she again became
unconscious and was removed to the
home of her sister.

At the opening of court this morn-
ing, Mrs. Phipps, complaining witness,
again took the stand and was cross-
examined by Mrs. Read's attorneys.
In answer to questions by Attorney
Waterman regarding methods by
which Mrs. Read had obtained an in-
terview with her Mr. Phipps said that
Mrs. Read had told her that a spy in
the Phipps household who was en-
deavoring to secure material for a ac-
count to Joseph Medill Patterson's book
"A Little Brother of the Rich," had
been placed there by Henry Phipps of
New York, an uncle of her divorced
husband, Lawrence Phipps, in an ef-
fort to prove that she regarded money
far beyond her children and that she
was an unfit person to have the cus-
tody of her two daughters.

In spite of the grilling cross exami-
nation Mrs. Phipps adhered strictly
to the story which she told yesterday
on cross examination. She again told
the story of how Mrs. Read had pro-
posed to return the amount she at-
tempted to force from Mrs. Phipps by
insuring her life for the same amount
and committing suicide by dynamite
while visiting a marble quarry.

Mrs. Read was surrounded by
allistons this morning and should she
be able to face the tribunal after her
seizure this afternoon, her attorney
will introduce the plea of insanity.
The deals put through in Chicago
prior to her arrival in Denver, which
are said to involve prominent people
there, may be used to evidence her
state of mind prior to her attempt to
force money from Mrs. Phipps.

Mrs. Phipps' two daughters, Helen
and Dorothy, the first of whom was
held as a hostage by Mrs. Read, while
her mother negotiated the securing of
the money from the bank, sat in the
courtroom this morning, accompa-
nied by Mrs. Phipps' father, C. H.
Chandler of Bellingham, Wash.

and that he would rush further
troops to the scene.

"I have ordered company D from
Carbondale and company G at Effing-
ham to proceed to Cairo with all pos-
sible speed," said Governor Deneen,
after his telephone communication
with Sheriff Davis. "The other com-
panies I have ordered to assemble and
all preparations to be made for their
transportation to Cairo and to go as
soon as I get further word from the
sheriff."

"When I first heard of the lynching
and rioting I immediately called
Cairo on the long distance phone and
tried to get the sheriff. I talked with
the police sergeant who told me ev-
erything was quiet and that the mob
had dispersed."

"As soon as I got Sheriff Davis on
the telephone I found that I had been
deceived. The sheriff expressed great
alarm and told me that at that minute
the mob was trying to break into the
jail. I had already ordered the troops
in readiness and I sent telegrams or-
dering the first two companies out at
once."

"My first information of the rioting
came from my secretary, Mr. Tinney,
at Springfield, who had received a
message asking for troops from
Sheriff Davis earlier in the night. I
will stay up all night and will be here
in the Union League club to watch
movements and to direct troops."

The telegram sent by Sheriff Davis
to Secretary Tinney was communi-
cated to Governor Deneen, who de-
livered an address here tonight on the
North Side, in the following message:
"Springfield, Ill., Nov. 11.—Just re-
ceived following telegram. Mob took
prisoner away today and executed
him. I am unable to preserve order.
Send troops at once. Frank A. Davis,
county sheriff. Have wired Captain
Greney to order out company K and
report to sheriff. Company goes to
Cairo on first train. C. M. Tinney."

Upon receipt of this message, which
he received at 10:25 tonight, Gov-
ernor Deneen wired the state depart-
ment at Springfield to prepare for the
movement of troops and to await in-
structions in case of emergency. He
also put in long distance telephone
calls for Sheriff Davis at Cairo and
the police department at Cairo.

He could get no connection with
the sheriff's telephone at once, but
shortly before 11 o'clock talked to the
police department.

The police reported to the gov-
ernor the facts concerning the lynching
of James, but added that the negro
population of the town was remain-

ALLEGED LAND FRAUD CASES UP IN LAS VEGAS

Chief Deputy Sheriff of Union
County Pleads Not Guilty to
dictment; Trial Set for Later
Date.

DEMURRER IS FILED
IN COAL LAND CASES

New Suits Brought Against Un-
ion County Residents Allege
Illegal Filing Upon Lands in
That Section.

[Special Dispatch to the Morning Journal]
Las Vegas, N. M., Nov. 11.—Cases
of alleged land frauds bid fair to oc-
cupy the greater part of the time of
Judge W. J. Mills sitting in the dis-
trict court here. Among the indict-
ments returned this morning, four in
number by the United States grand
jury is one against George Snell, chief
deputy sheriff of Union county, whose
home is in Clayton. This true bill
is in connection with cases of alleged
land frauds.

Snell when arraigned before the
court entered a plea of not guilty and
the trial of the case was set for a
later date.

Snell was indicted on a previous
occasion for perjury, it is understood
in connection with these same mat-
ters.

In the case of the United States vs.
Henry Wilson and Attorney A. C.
Voorhes of Baton, charged with con-
spiracy in connection with coal land
acquisition, a demurrer was filed by
counsel for defendants arguments up-
on which will be heard by the court,
December 23 next.

The United States attorney secured
a dismissal of the case of Walter H.
Weatherly, charged with irregularities
in coal land matters. Several
new suits have been filed in the court
against other well known residents
of Union county, charging illegal fil-
ing upon lands in that county.

The old conspiracy case against L.
J. Meyer, charged with tampering
with Santa Fe locomotives was dis-
missed by the court but continued
against several other defendants.

A number of civil cases have been
continued to the next term of court.

TERROR REIGNS IN CHINESE QUARTER

TONG WARRIORS DRIVE
PEACE LOVERS TO COVER

Row Over Abduction of Slave
Girl in San Francisco Threat-
ens to Involve Slant Eyed Al-
iens in Bloody Conflict.

[By Morning Journal Special Leased Wire]
San Francisco, Nov. 11.—Nearly
half a hundred uniformed, plain
clothes men and detectives are
patrolling the streets and alleys of the
Chinese quarter tonight in the effort
of the police to prevent a continua-
tion of the tong war which has cost
five lives since the first of the month.

The stores and dwellings of the mem-
bers of the Yee family and On Yick
tong men are closed and the dim-
inished number of Chinese on the
quarter indicates the tension which
prevails and the expectation that the
gun men are but biding their time to
renew the blood feud.

The

ALDRICH FAILS TO CRITICIZE CUMMINS

EXPECTANT IOWANS
SADLY DISAPPOINTED

Rhode Island Senator Confines
His Des Moines Address to
Explanation of European
Credit Systems.

(By Morning Journal Special Leased Wire)
Des Moines, Ia., Nov. 11.—Senator
Nelson W. Aldrich, of Rhode Island,
chairman of the National Monetary
commission, continued his series of
western addresses on finance tonight
in a speech before the Bankers' club.

Des Moines is the home of Senator
Cummings, one of the "insurgent" re-
publican leaders, but those who ex-
pected the Rhode Island senator to
make any uncomplimentary allusion
to the Iowan were disappointed.

Mr. Aldrich spoke extensively of the
growing importance of the west as
affording the best reason why people
of Iowa should demand a stable
banking system. He gave more at-
tention than heretofore to the im-
portance of commercial paper in the
banking systems of Europe. In dis-
cussing this feature of foreign bank-
ing, Mr. Aldrich said:

"In Germany all notes, taxed or un-
taxed, must be covered by an amount
of specie equal to one-third of the total
issue and an amount of bankable
bills equal to the other two-thirds.
These bills are what we would call
commercial paper. They must bear
the name of two solvent parties and
must not run for more than 90 days
to answer the standard fixed for
bankable bills. In France, they have
a provision that what are bankable
bills there, must bear three names and
must have the same limit as to time
as the German bills.

In Great Britain the custom is to
require two names of English citi-
zens, each of which must be acceptor.
Of course, you are aware of the
difference in terminology of our com-
mercial paper and theirs. Our people
the promissory notes, either with a
single name or with endorse. No
such thing as a promissory note is
known in the older experience of
those countries. They give a form
of obligation with mortgages and
sometimes with collateral, which is
perhaps the closest approximation to
our form of promissory note. There,
if a dealer sells a customer any article,
the merchant makes a draft upon
the purchaser and that draft is
accepted and the paper is known as a
bill of exchange. It is for a real trans-
action and those bills are bankable
and are the foundation of the credit
system of the countries I have named.

Mr. Aldrich explained that in re-
ferring to foreign banking systems he
had no intention of urging the adoption
of any of them.
In making this statement to you
as to the character of these banks I
do not want to leave any opportunity
for any misunderstanding whatever,"
he said. "It is not the purpose of the
commission—it certainly is not my
purpose—to try to make any part of
the American people believe that any
of these systems could be adopted in
the United States, certainly not with-
out important modifications.

"The habits of the one people, the
relations between banks and borrow-
ers and bank and depositors, the 25-
000 independent institutions in the
United States, all related to the de-
velopment of various communities
must be considered. No system
can be adopted in this country that
does not recognize that the continued
existence of the banks and the prosper-
ity of their business must be main-
tained.

If we have any credit or organiza-
tion, at all, we propose that it shall
be the servant and not the master of
existing banks. Any institution or
organization that we may adopt must
be one that can be fitted into the ex-
isting system; and any changes at all
radical in their nature—and I am in-
clined to think that in some respects
we should have to make some changes
that will be scientific and radical in
their character—must be made with
a view of adjusting them to our ex-
isting system."

BLOOD MAD MOB WREAKS VENGEANCE

(Continued from Page 1, Column 5.)
ing quiet in the negro quarter, and that
the mob in the streets, which earlier
had threatened to storm the jail
where other negroes were held, had
dispersed. This report relieved the
governor somewhat, but five minutes
later he received the alarming news
directly from Sheriff Davis and took
immediate action to fill the town with
troops.

At midnight Governor Denison was
approached to a second time by Sheriff
Davis, after the mob had succeeded in
its furious vengeance and dragged
Henry Salzer, a white man from the

jail. Davis declared he was incapable
of coping with conditions and that he
feared wholesale murder.
The governor immediately issued
an order for five more companies of
the Illinois national guard to rush to
Cairo. Eleven companies in all were
ordered to Cairo at midnight.

"I have directed General Wells of
Decatur to take charge of the troops
and he leaves Decatur in a special
train at once," said Governor Denison
at midnight. "Sheriff Davis reported
to me that the mob had broken into
the jail."

**COURAGEOUS SHERIFF ONLY
DELAYS MOB'S VENGEANCE**
Cairo, Ill., Nov. 11.—That "The
Frog," as James was known, did not
come from the Hustler's Arch, at
Eight and Commercial streets, last
night was due to the cleverness of
Chief of Police Egan and Sheriff
Davis in getting him out of the city.
The departure of northbound Illinois
Central train at 7:15 was well timed
to further the carrying out of their
plans.

At that hour scarcely a score of
men were about the station. He was
huddled into the patrol wagon and the
wagon was dashed up Twelfth street
before the watchers realized what had
happened. They started on a run after
it. Sheriff Davis and Deputy Fair-
bank had arranged to have the train
stopped at Fourteenth street. The
wagon and train reached Fourteenth
street at the same time. The trainmen
were on the steps ready to assist
Chief Egan and his men, but the
wagon had distanced the pursuers and
James was hurried on board and the
train pulled out as the first pursuers
arrived.

Before the rear lights of the train
were but of sight a dozen men had
hurried up to the telephones on the
second floor of the freight house
nearby and were calling Mounds and
Anna. One of the men called a friend
at Mounds and urged him to notify
the people at Anna that the negro was
on the train.

When connection with Anna was
obtained a man there was told to or-
ganize a mob and take James from
the train.

Sheriff Davis and his men left the
train at Cairo Junction.
The destination of the sheriff and
his prisoner was supposed to be Mur-
physboro, but a telegram from Anna
informed him that a mob was gather-
ing at Anna and he left the train at
Dongola and drove in the direction
of Mill Creek, on the Mobile & Ori-
ole railroad. A crowd of several hundred
was at the depot at the former home
of Miss Peley, when the train reached
there, but no attempt was made to
search the train for the negro.

When the mob began to gather in
front of the Cairo police station, after
the negro had been taken away, most
of the crowd refused to believe that
the negro was not there.

Two men were selected to look
through the station cells. They were
told they could not do so until Chief
Egan returned. When Chief Egan re-
turned, Joe Peley, a brother of the
murdered girl, made his way to the
chief and said:

"Chief, I am a brother of the girl. I
want to look through the cells."

Peley and another man were per-
mitted to go through. While they
were searching the mob outside made
a rush into the police station. Chief
Egan and his men made a stand with
the door of the cell and stopped the
first three.

After leaving the train, the sheriff,
his deputy and the prisoner hid in the
woods near Karnak, twenty-seven
miles from Cairo. A train passed
through Karnak a little later, and the
conductor telegraphed back from the
next station that he had seen the de-
puty and the hand-cuffed negro be-
side the railroad track a mile beyond
Karnak.

When a telegram was received by
the brothers of Miss Peley that the
trio were in the woods, there, a box
car train was seized by a mob of 200,
who rode it into Karnak. The negro
was captured and brought back to
Cairo.

RODY OF UNFORTUNATE YOUNG WOMAN LAID TO REST

Anna, Ill., Nov. 11.—Miss Annie
Peley, who was murdered in Cairo
Monday night, was buried here this
afternoon. Her body was followed to
the grave by her former schoolmates.
She was graduated from the local
high school.

Funeral services for Miss Peley
were held at Cairo this morning be-
fore the body was taken to Anna. A
large gathering attended the services.

TERROR REIGNS IN CHINESE QUARTER

(Continued from Page 1, Column 6.)
of the Chinese revolutionists in this
country and is said to be an influen-
tial member of the Chinese reform
party, of which Dr. Sun Yat Sen, for
whose head the Chinese government
has a standing reward of \$50,000, is
the leader. Chong is well educated,
speaks good English, and during the
war between the Chinese Educa-
tional society and the combined tongs
several years ago, moved out of the
Chinese quarter because a price of
\$5,000 was offered for his death. It
is not claimed either Ong or Chong
fired any of the fatal bullets, but
members of the Yee family alleged
that they were instrumental in the in-
vestigation of the murders.

Should the Ring Kongs join the
fight from motives of revenge in re-
sponse for the death of one of their
members last night, the coast is
threatened with the greatest long war
it has ever known.

FARMER CONFESSES TO MURDER OF WIFE

Indianapolis, Nov. 11.—Edward
Hoff, a farmer, confessed to the police
tonight that the body of the woman
found in the river near here last
Monday was that of his wife. He con-
fessed that he had caused her death
by pushing her from the bridge of the
Indiana Union Traction company, which
crosses the river at Broad River,
just north of the city.

Hoff, according to his confession,
was returning with his wife from In-
dianapolis to their home and was
crossing the bridge when his wife
started to take morphine.

"You might as well be dead as to

GENERAL GRAND CHAPTER IN SESSION AT SAVANNAH

Savannah, Ga., Nov. 11.—Promo-
tion were the order in the election of
officers of the general grand chapter
of Royal Arch Masons today. Follow-
ing are the officers:

General grand high priest—Nathan
G. Kingsley, Austin, Minn.
General grand king—George Cor-
son, Washington, D. C.

General grand scribe—Frederick
W. Craig, D. M. Moines.

General grand captain of the host—
William E. Kuhn, St. Joseph.

General grand principal journeyman—
Hester G. Brown, Topeka, Kan.

General grand royal arch captain—
Charles N. Nix, Hot Springs, Ark.

General grand master of the third
col.—J. Albert Blake, Boston.

The general grand master of the
second veil and the general grand
master of the first veil will be elected
tomorrow. These are the only two con-
tended officers.

Burglars Busy at Globe.
Globe, Ariz., Nov. 11.—The safe of
the Globe Ice and Cold Storage com-
pany was blown today by burglars,
who got only ten dollars.

SAYS SYRIANS MAY BECOME CITIZENS

SECRETARY NAGEL RULES
ON NATURALIZATION ROW

Declares Court Decisions Fav-
orable to Peoples of Near
East Have Been Rendered in
Widely Scattered States.

(By Morning Journal Special Leased Wire)
Washington, Nov. 11.—Secretary
Nagel of the department of commerce
and labor, in discussing today the
functions of the naturalization divi-
sion of his department, took a position
opposite from that embodied in a
recent ruling of Chief Campbell of
that division on the naturalization of
Syrians. Mr. Nagel declared that the
function of the naturalization divi-
sion was to present facts and not to at-
tempt to enforce any particular inter-
pretation of the law.

Mr. Nagel said there was no reason
for any action on the part of the de-
partment antagonistic to any race of
immigrants. Court decisions have
been rendered in states as far apart
as California, Louisiana and Rhode
Island favorable to the Syrians.

STARVATION STRIKE COLLAPSING

Socialist Captives in Spokane
Jail Seek Release by Habeas
Corpus Route; Test Cases to
Be Made.

(By Morning Journal Special Leased Wire)
Spokane, Nov. 11.—Habeas corpus
proceedings are planned by the at-
torneys of the Industrial Workers of
the World in behalf of the prisoners.
Two writs were issued today by
Judge Hinkle on petition of Bruce
Rogers, a Portland attorney, one in
behalf of Joseph Duddy, charged
with vagrancy and the other for Ar-
thur Edge, charged with disorderly
conduct.

Mr. Rogers asked for habeas corpus
writs for 59 prisoners but Judge
Hinkle said that he would take one of
each kind of offense as a test case.

The starvation strike is collapsing.

Mrs. Taft Attends Theater.
Washington, Nov. 11.—Mrs. Taft,
accompanied by her sister, Mrs. Moore
of Cincinnati and Secretary Car-
penter, occupied a box at the Columbia
theater here tonight to witness the
performance of Rose Stahl in "The
Chorus Lady."

ANOTHER WOMAN IN WARRINER CASE

Defaulting Big Four Treasurer
Declares This One Can Ex-
plain Disappearance of the
Railway's \$643,000.

(By Morning Journal Special Leased Wire)
Cincinnati, Nov. 11.—The mystery
that enveloped the relations of Chas.
L. Warriner, the defaulting local
treasurer of the Big Four railroad,
with the two women and a man whom
he asserts have systematically black-
mailed him for several years, was
deepened late today when it was
learned from one of the railway of-
ficials that another woman whose
name has not been previously men-
tioned, was involved.

This official who has been detailed
to investigate the \$643,000 shortage,
confessed to the woman who enters as a new
factor into the case, had, as far as he
knew, no criminal connection with the
embezzlement but could give import-
ant information. Her name has been
given to Prosecutor Hunt and she will
probably be summoned before the
grand jury.

Reports of Mr. Warriner's break-
down in health were reiterated today.

TAFT LEAVES FOR NEW ENGLAND

VARSITY ELEVEN TO PRACTICE SIGNALS THIS AFTERNOON

Heavy Scrimmage Work Will be Tabooed in Final Work-Out Today Cadets Arrive This Evening.

The final practice for their game with the New Mexico Military Institute tomorrow will be held by the University eleven at Traction park beginning at 4 o'clock this afternoon. Every man in the varsity squad, including Otero, the big fullback, who was sidelined in the Boulder game, will be out this evening. Heavy work has been the rule for practice during the week and Coach McBirnie will let the men off tonight with a stiff drill on signals, trick plays and a few light scrimmages. The cadets will arrive from Roswell at midnight tonight and will be met at the Santa Fe station by a committee of varsity men. The strength of the soldier eleven is unknown as they have not engaged in any games with outside teams this season. If the cadets have an eleven anything like that of former years, however, the varsity will be called upon to play ball and will have to bring all their trick plays out of the refrigerator.

Socorro's fine showing against the El Paso Military Institute last Saturday, when the miners worsted the soldiers 24 to 9, has caused the varsity men to do some all thinking. The Institute had the same men in the game against Socorro last Saturday as they did against Albuquerque three weeks ago. The varsity worsted them 15 to 0, while the miners almost doubled the score, beating them 24 to 6. If Socorro beat the El Paso bunch 24 to 9, what will be the result of the Socorro-Varsity game next Saturday? Is the question now haunting the U. N. men.

The game between the varsity and the Roswell eleven will begin promptly at 3:30 o'clock tomorrow afternoon and it is expected that the largest crowd of the season will be on hand to see the kick-off.

The second U. N. M. team and the Indian school scrubs will engage in a gridiron battle after the big game.

BASEBALL MAGNATES CONCLUDE SESSION

Memphis, Tenn., Nov. 11.—The extension of the life of the National Association of Professional Baseball Clubs until September 8, 1924, and the selection of Chicago as the next meeting place were the principal features of the closing session of the annual meeting of the association here today. The national board of arbitration will probably remain here until Saturday, disposing of the large number of cases on its calendar.

The National association made one or two changes in its constitution concerning the signing of contracts, the promotion of the welfare of the players and the punishment to be meted

out to those who fail to live up to their contracts or violate their reserve clauses. Suggestions concerning the flat drifting price from all leagues and a change in the method of classification were referred to the national board. It was decided that henceforth the national board should meet several days before the National association and clear up all minor cases before the big meeting starts.

A. D. Heinz, of the Roanoke club at the Virginia league, asked that the classification of a league be based upon average population of its circuit. The question was referred to the national board. Heinz said that the present rule is unfair to the leagues having only four or six clubs in their circuits.

The national board decided the following cases today:

Application of the Southern California league, with headquarters at Santa Ana, for territory and membership—acted upon favorably.

Application for territory and membership of the Southwestern Texas league, composed of Austin, Laredo, Ray City, Brownsville, Corpus Christi, Beeville and Victoria—granted.

The national board appointed Norris L. O'Neill, president of the Western league, a member to fill the vacancy caused by the resignation of Joseph O'Brien, president of the American association, early this year. The election of O'Neill to membership in the national board of arbitration now gives class A full representation on the board.

RECORD SMASHED AT ATLANTIC TRACK

Daring Driver Does the Twenty Miles in Trifle Under Seventeen Minutes; Oldfield's Time Lowered.

By Morning Journal Special Leased Wire

Atlanta, Ga., Nov. 11.—John Aiken, at the wheel of a National forty, lowered another American track record at the speedway today. In a furious drive of twenty miles, every moment of which he was closely pressed, he set the new mark of 16:42.76. This is 21.4 better than Oldfield's record at Indianapolis.

George Robertson, at last was able to enter a race and finish it. Yesterday and Tuesday he averaged in several events but never lasted more than a lap or two. He spent his time searching for some minute, elusive defect which seemed to keep him in hiding in practice, only to hob up as soon as a race was on.

The big blonde driver, smiling as he had smiled all through his ill luck, withdrew from the twenty-mile handicap at the end of the first mile, but came back grinning and faced the wire in the ten-mile handicap, the latter in an Apperson. Time, 7:47.71.

Robertson promptly repeated this performance in the ten-mile free for all handicap, although his time was slower, 8:39.8.

Disrow, in his Hanter, won the twenty-mile handicap in a clapped time of 17:36.15, or 0:53.39 slower than Aiken's pace in the stock car at that distance.

Detroit Defeats Havana. Havana, Nov. 11.—The Detroit American baseball team again defeated the Havana's today, 2 to 0.

CRYSTAL MAID WINS FEATURE RACE AT LATONIA

Latonia, Nov. 11.—Crystal Maid came big to form today and won the feature race at Latonia, a mile handicap, from Belle Wether in a hard drive. Boca Grande again annexed first money in his race against a fair field of two-year-olds. The next meeting will be held Monday, the track being engaged for the three days for an aviation tournament.

First race, 5 furlongs. Polyphone won. Harry Summers second. Sign third. Time, 1:08.15.

Second race, 1 mile and 70 yards. Othello won. Osorone second. Sil Walter Rollins third. Time, 1:44.45.

Third race, 1 mile. Bruce Blue won. Pecosito second. Sin Fran third. Time, 1:39.45.

Fourth race, 1 mile handicap. Crystal Maid won. Belle Wether second. Martin Doyle third. Time, 1:39.45.

Fifth race, 6 furlongs. Boca Grande won. Sir Ormonde second. Long Hand third. Time, 1:12.25.

Sixth race, 1 mile, selling. Robert Cooper won. John E. McMillan second. Kokomo third. Time, 1:41.

Papke Fights Six Round Draw. Pittsburgh, Nov. 11.—The best of the National Sporting club members could give Billy Papke, the Illinois thunderbolt, after his fight of six rounds tonight at the Duquesne gardens with Frank Kline, the East Pittsburgh mid-dleweight, was a draw. A large crowd greeted the boxers.

KID MC COY BEARS BID OF PARIS PROMOTERS

New York, Nov. 11.—Norman Selby, better known as "Kid" McCoy, the former pugilist, arrived in New York tonight on the Lusitania carrying a bid from a Paris syndicate for the Jeffries-Johnson fight.

We hope to persuade the champion to fight in the Circle de Paris next June during the week of the Grand Prix," said Selby. "I am authorized to offer \$250,000 franc (\$38,000), and other inducements. The Circle de Paris will seat 7,000 and has standing room for 3,000 more. If the fight goes there, the occasion will be made a great society event and a third of the spectators will be women."

Thanksgiving Wrestling Match. Buffalo, N. Y., Nov. 11.—It was announced tonight that the wrestling match for the world's championship between Frank Gotch and Zbasco the Polish champion will take place in Buffalo on Thanksgiving night.

HUESTON OUTPLAYS KLING IN POOL GAME

Kansas City, Mo., Nov. 11.—In the third night's play in the 800 ball match for the pool championship of the world between Champion John C. Kling and Thomas Hueston, of Saint Louis, Hueston increased his total lead to 129 balls. Hueston scored 194 to Kling's 125. The total series for the three nights' play now stands, Hueston, 463; Kling, 474. The final block will be played tomorrow night.

Marshall Wins Chess Contest. Lexington, Ky., Nov. 11.—The third game of the American chess championship series between Frank J. Marshall of Georgetown, Ky., today resulted in a victory for Marshall.

BRITISH CAVALRYMEN HORSE SHOW HEROES

New York, Nov. 11.—Commenting on the social side of the National Horse show tonight, Mrs. Sophie Loeblinger, the English suffragette leader, criticized the ostentation of the occupants of the boxes.

Before the biggest crowd the show has drawn since the visit of Prince Henry of Prussia, the British cavalry officers won their victory tonight in the jumping competition open to all nations. Lieutenants York and Seabag-Montefiore, riding abreast in full uniform on government horses, were first over the obstacles.

Lieutenants Gordon Johnson and L. S. Martin of Fort Riley, Kan., were second.

KOREAN INSURGENTS SLAUGHTERED IN FIGHT

Victoria, Nov. 11.—According to mail advices from Korea there is great activity in the campaign against the Korean insurgents, and in the operations in October in Chollado, 334 are said to have been killed and 1,065 captured. The Japanese loss was only three killed.

China is reported to have notified Japan that the Peking government will not consent to Japanese railway guards for the Antung-Mukden railway, proposing to place Chinese railway guards instead. China, it is said, will propose an arrangement whereby Japan and China share equally in guarding the line.

PHILIPPINE TOWNS LAID WASTE BY GALE

Washington, Nov. 11.—The destructive character of the recent typhoon that passed through Tacloban, in the Philippines, is indicated by a cablegram received today from the governor general of the islands, stating that it laid waste to numerous towns of northern Leyte, thence passed through Capiz and out through over the China sea. The army post at Dagami was destroyed.

ATTACK ON GOMPERTS ENDORSED BY KNIGHTS

Once Powerful Labor Organization Criticizes Conduct of Its Successor.

Washington, Nov. 11.—The Knights of Labor today adopted the report of Master Workman Boris censuring the American Federation of Labor and its leaders, but the part discussing socialism went over until the next meeting.

It was recommended that a bill be submitted to congress, proposing an addition of a new feature of the judicial system, authorizing the president to appoint a court of arbitration to settle strike and corporation matters.

It was also proposed that efforts be made to have a law enacted making all federal, state and municipal election days holidays.

The convention declared for a genuine compulsory liability act, holding the present law entirely inadequate.

DENVER MUTES WOULD ORGANIZE CHURCH

Denver, Colo., Nov. 11.—The deaf mutes of Denver are appealing for help and encouragement in organizing a church. At present the only religious services which they may attend are bible classes held the third Sunday of each month at St. Mark's chapel. These classes are conducted by Rev. Kohler, of the Southwestern Mission for the Deaf.

SHERMAN WAS CANDIDATE FOR SUPREME BENCH

Washington, Nov. 11.—Vice President Sherman came to Washington to submit to the president the name of Judge Alfred C. Cox, of the Third circuit court, as a candidate for the supreme bench position vacated by Justice Peckham's death.

Judge Cox was appointed a United States district judge by President Arthur. President Roosevelt appointed him a circuit judge. He is in his 62nd year.

Calogus's Brother Drops Dead. Aberdeen, Wm., Nov. 11.—Frank Calogus, aged 46 years, elder brother of Leon Calogus, the assassin of the late President McKinley, died of heart disease Tuesday at his home in a Polish colony near here.

FEDERATION URGED TO JOIN EUROPEAN LABOR CONGRESS

Street Railway Employees Present Resolution for International Affiliation; Report on Industrial Education.

(By Morning Journal Special Leased Wire) Toronto, Ont., Nov. 11.—Affiliation of the American Federation of Labor with the International Labor congress of Europe and other international bodies was proposed in a resolution presented at today's convention by the delegation of the Association of Street and Electric Railway Employees of America. More than fifty resolutions in all were offered at the close of the afternoon session.

One resolution introduced by the Piano and Organ Workers suggested that the time has come for the wage worker to become a factor in politics and urged the early formation of a labor party.

The longshoremen want the deep waterway projects throughout the country endorsed, the street railway men would have the convention declare in favor of a universal label for all affiliated organizations, and the Alabama State federation wants the establishment of a national tuberculosis sanitarium considered.

P. J. McCardle, president of the Iron, Steel and Tin Workers, introduced a resolution requiring all organizations affiliated with the organization to appropriate 25 cents per capita per year for a national defense fund in aid of organizations engaged in strikes or boycotts.

A feature of the day was the report presented by John Mitchell on behalf of the special committee appointed to investigate the subject of industrial education.

"It is believed," says the report, "that the future welfare of America largely depends upon the industrial training of our workers and protecting them. The inquiries of the committee seem to indicate that if the American workman is to maintain the high standard of efficiency, the boys and girls of the country must have an opportunity to acquire educated hands and brains, such as may enable them to earn a living in a self-selected vocation and acquire an intelligent understanding of the duties of good citizenship. We favor the establishment of schools in connection with the public school system at which pupils between the ages of 14 and 16 may be taught the principles of the trades, not necessarily in separate buildings, but in separate schools adapted to this particular education and by competent and trained teachers."

"The course of instruction in such a school should be English, mathematics, physics, chemistry, elementary mechanics and drawing. The shop instruction for particular trades and for each trade represented, the drawing, mathematics, mechanics, physical and biological science applicable to the trade, the history of that trade and a sound system of economics, including and emphasizing the philosophy of collective bargaining. These will serve to prepare the pupil for more advanced subjects and in addition disclose his capacity for a specific vocation. In order to keep such schools in close touch with the trades there should be local advisory boards, including representatives of the industries, employers and organized labor."

The committee recommends that any technical education of the workers in trade and industry being a public necessity it should not be a private but public function, conducted by the public and at the expense of the public."

The continuation of progressive development of supplemental trade education as inaugurated by trade unions is also recommended. The committee advises the continuation of its life and final report to the convention of 1910.

"The one trouble of America today," says the report, "is that too many of our youths who have graduated from the grammar or high school are misfits industrially. If we are to secure industrial supremacy or even maintain our present standards in the industrial world we must in some way in our educational system acquire an equivalent to our old apprenticeship system."

"Organized labor's position regarding the injustices of the narrow and prescribed training in the selected trades by both private and public instruction and the flooding of the labor market with half trained mechanics for the purpose of exploitation is perfectly tenable and the well founded belief in the viciousness of such practices and consequent condemnation is well nigh unassailable."

In regard to the better sanitary conditions in factories and workshops and its continued efforts toward safeguarding women and minors have been the subject of wide discussion and much helpful legislation.

"It is advocacy of free schools, free text books and the raising of compulsory school age have been religiously adhered to and closely allied to these subjects is that of industrial education, and any serious discussion of the proper kind of vocational training promotes discussion of the former."

"Experience has shown that manual training school teachers without actual trade experience do not and cannot successfully solve this great problem and that progress will necessarily be slow, as new teachers must be provided, a set of new text books will have to be written and the subjects taught in a sympathetic and systematic manner."

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and frequent urination that if neglected might result in Bright's disease or diabetes. J. H. O'Reilly Co.

STEINHEIL MURDER TRIAL NEAR END

Presentation of Case by Prosecutor Terrific Arraignment of Accused Woman.

(By Morning Journal Special Leased Wire) Paris, Nov. 11.—That Mme. Steinheil, aided by some unknown accomplice murdered her husband in order to obtain her freedom to wed the wealthy and infatuated Maurice Borederel, but that the killing of her stepmother was unpremeditated and mere, by incident to the tragedy is the theory of the state as outlined by Toard Biele, the judge advocate in opening the argument for the prosecution this afternoon.

Driven to desperation by her financial and domestic situation, the judge advocate contended, Mrs. Steinheil saw in Borederel a savior with whom, once rid of her husband, she could live in luxury as his wife. If possible, or his mistress. Seeking to simulate in a graphic manner that her husband had been assassinated by burglars, who had bound and gagged herself and her stepmother, he argued, the defendant had brought Mme. Japy to her home but in the feverish haste, the binding of the mother had been overdone and the murderers found her dead when the slaying of Steinheil had been accomplished.

The judge advocate admitted that the crime of parricide did not appear to be sufficiently established, but he was convinced that the prisoner had killed her husband and had assisted in his murder. The prosecutor joined in the earlier declaration of M. Devalles, the presiding judge that he would raise before the jury, the genuine question of the complicity of the accused. This was interpreted as an acknowledgment that the evidence was not sufficient to maintain the charge that Mme. Steinheil was the principal and that therefore he would ask for her conviction as an accomplice.

Throughout the crushing arraignment today, Mme. Steinheil sat with bowed head, dejectedly buried in her arms on the rail. The testimony was restricted to statements by a few friends of the defendants, who considered her incapable of the crime.

A lawyer, M. Palsant, who was an old friend of Mme. Steinheil described her as a veritable angel of love toward her husband and declared that her entire life had been a heroic struggle against adverse circumstances.

The judge advocate will conclude his arguments tomorrow afternoon. M. Aubin, counsel for the defendant will follow and a verdict probably will be returned Saturday.

MEDICAL OFFICER IN COMMAND OF SOLACE

Roosevelt Policy Concerning Hospital Ships Meets Approval of Meyer.

Washington, Nov. 11.—Secretary Meyer today settled the controversy as to whether a line officer or a medical man shall be placed in command of the hospital ship Solace by designating Surgeon George Pickrell of the medical corps to command the vessel.

The navigation of the ship will be in charge of a merchant sailing master.

In this decision Secretary Meyer adheres to the policy of the Roosevelt administration which stirred up much criticism from line officers.

PANIC FOLLOWS FIRE IN PICTURE THEATER

Ossining, N. Y., Nov. 11.—Five hundred spectators, mostly women and children, narrowly escaped serious injury here tonight in a fire panic in the Olive opera house, when films in a moving picture machine caught down the single narrow flight of stairs to the exits were bruised. The fire burned itself out without great damage.

Two Killed in Explosion.

New York, Nov. 11.—Two persons were killed and nine injured in an explosion at the Charles A. Hetsel comb factory today. Forty girls were employed by a shirtwaist firm on the same floor. Despite the mild panic all these escaped without injury.

ALBUQUERQUE - - - NEW MEXICO

BETTER THAN A RAILROAD.

Referring to an article in the Morning

Journal two days ago, urging the

county commissioners to have the

lands in this county, and especially of

that portion of the county in the Rio

grande valley, surveyed and platted

so that they can be let for taxation,

and so that when a man wants to buy

a piece of land he can know what he

is getting for his money, one of the

most prominent business men of the

city said to us yesterday:

"That policy, if carried out by the

county authorities, will be worth more

to Albuquerque than the building of

a new railroad into the town, because

it will be the means of surrounding

this place in a very few years, with

a thrifty suburban population, pro-

ducing hundreds of thousands of dol-

lars' worth of stuff every year to be

shipped out, bringing money in, thus

supplying the greatest want the town

has, and also building up the city,

and making business for our mer-

chants and freight for the railroad to

haul out, whereas the only business

the road gets from us now is in haul-

ing in stuff for us to consume, and

hauling away the little money that

we happen to have in circulation

among us. Our one great want is to

have something that will bring in

money, and the policy you advocate

will supply that want. For that reason

the practical people of the town

are all praying that you will keep up

your lick, and we all believe that if

you will stick to it you will get there,

because we have seen the Morning

Journal bring about reforms in our

local affairs which were a great deal

harder to accomplish than the wak-

ing up of the county commissioners

in this matter. You can be assured the

people of Albuquerque are with you,

and want to see you keep hammering

away at it till you get there."

The gentleman quoted above, and

all other citizens of the place, may

be assured that the Morning Journal

will not allow the movement in ques-

tion to be forgotten. It is a matter of

too much importance to the town and

the county to be neglected. At present

the city has to carry almost the en-

tire burden of supporting the county

government in addition to support-

ing its own local government, and the

interfere with and even interrupt completely the operation of telegraphic lines in France, England, Belgium, Germany, throughout all of Europe, in Asia, in America, and in the southern hemisphere as well as the northern; in a word, throughout the entire world.

In Paris, for instance, it was impossible to guarantee the transmission of any dispatch from noon up to nine o'clock at night. The synchronism between the apparatus of sending stations and those of receiving stations got out of order every minute. The intensity of the telluric currents was fifty milliamperes, whereas the apparatus was operated with ten to twelve milliamperes. The entire terrestrial globe was plunged into a magnetic field of powerful intensity—drowned, so to speak, in a dynamic ocean. This derangement of the telegraphic lines, appearing suddenly, disturbing and threatening to paralyze them, will remain memorable in the annals of science.

But everybody seems to be ignorant of the fact that the sun governs the planets, including ours; that it holds us captive in its rays, at a distance of 149,000,000 kilometres; that its radiation, luminous, calorific, electric and magnetic, surrounds us; that we are subject to the effects of its storms; that the whole earth has been attacked by the same fever; that there is here no local phenomenon; that it is a cosmic fact. And astronomical ideas are still so little spread abroad that the most diverse interpretations have been imagined without any one, it appears, having thought the right one.

Of the different theories proposed to explain the phenomenon the most likely appears to me to be that of Sir Oliver Lodge, who in 1899, following a suggestion published by Fitzgerald in 1893, attributed these magnetic disturbances to the arrival of a torrent of electrons projected from the sun and meeting the earth with a velocity of several thousand kilometres a second. In the high altitudes of the atmosphere electric currents are produced which disturb the normal magnetic condition. The phenomenon is the more intense when these emanations, hurled from the radiant orb, arrive more directly upon our planet. When they pass by on one side nothing abnormal is noticed.

Certainly no one has ever seen the electrons, the ions, the electric particles with which the contemporary physics is concerned at present, and this is doubtless only a convenient hypothesis which in future will meet the fate of all the others. But words are nothing. That which is certain is that these cosmic agitations have the sun for their origin and that Phoebe Apollo holds us all in his hand.

A WORTHY INSTITUTION.

One of the many eleemosynary institutions, located at this point and one of which the public hears but little, is the Heald Institute, located about five miles south of town, and which devotes itself to the work of educating young men in the practical affairs of life—teaching them how to make an honest living in any useful calling to which they seem to be best adapted. As an illustration of the useful work being done by the institution in question, one practical incident will suffice. By reason of the heavy rains of last summer, a long section of the road from the city to the district in which the school is situated, was totally impassable. The county commissioners made an appropriation for mending the road. The "supervisor" called out his forces, and after spending about seventy-five per cent of the appropriation succeeded in making the road a little worse than it was before. Then the job was turned over to the principal of the school, who put his boys to work at it, and by the use of the fraction of the appropriation that was left gave the people living in that section a first class road to town.

Education along such lines is greatly needed in this country and the Heald school is doing a valuable work.

TO BE, OR NOT TO BE.

After disposing of a full docket, the other day, the police judge of Washington, D. C., thus soliloquized: "Poor humanity! It feels good and then has to get a drink. It feels so good that it has to take another drink. If not a drink, then it has to smoke a pipe of pipe or a cigar. When we go to the workhouse our system is toned up, our stomach feels fine, and when we get out again we are feeling so tremendously fine that we have to take two drinks, and after that we go down again."

LAST OF THE LIGHT BRIGADE.

Well may the satirist crack his lash at Great Britain in consequence of her treatment of her soldiers, which hardly redounds to her credit. Perhaps her indifference to the men who have made her what she is has never been more strikingly illustrated than in the story of the "Noble Six Hundred" who took part in the charge of the Light Brigade at Balaclava.

A correspondent of the New York Herald calls attention to the fact that Monday of last week was the fifty-fifth anniversary of the gallant deed immortalized by Tennyson and applauded by the world, and yet, he says, twenty-two of the thirty-three survivors of that episode are dependent for support on the relief fund established by Mr. T. H. Roberts twelve years back.

There is surely something ironic in

the poet's line, "When can their glory fade?" and the irony is deepened by the statement of Mr. Roberts that though Queen Alexandra, always pre-eminent in good works, lends her aid as a patron, "I have come almost to the end of my tether, for my fund seems to be forgotten in the tumultuous times through which we are passing."

The bulk of the 1600 a year required to maintain the veterans is obtained from the annual performance, which was given in the Alhambra theatre on Monday afternoon. Only twelve of the survivors, who are scattered over the country, were strong enough to travel to London this year—and small wonder, for the youngest is seventy-six and the oldest eighty-seven—but these were gathered around Mrs. Clement Scott when she recited "The Charge of the Light Brigade."

How little would it cost the government to provide for these old men for the rest of their lives!

POLITICAL BANKING.

Every few days the telegraph holds up to the public view a new object lesson, to warn the inexperienced banker against the ruin that awaits the man who attempts to mix politics with the banking business. It takes longer to get there in some cases than in others, but they all reach the same destination eventually. The latest case of the sort was reported from California, by the dispatches of yesterday morning, telling of the arrest of a former member of congress and his partner for bank wrecking. In making "dummy" loans, ostensibly for legitimate purposes, but in reality to be used in politics. When the political hookworm gets into a man's system he ought to get out of the banking business as soon as possible. The temptation to "assist" the party, or "feed" the party organ, or pour other people's money into various other political rat holes, is stronger than the average man can resist, and the only safe course for him to pursue is to quit the business. He can fool away his own money without being guilty of anything worse than a want of sense, and that's not a felony, but when he begins to squander other people's money he commits a crime against the community, and takes the road that leads inevitably to trouble and disgrace. Cut it out.

WASTED EFFORT.

The following attempt to inculcate a little domestic science is by the Washington Star-man. Of course it is futile, and we merely copy it to show how void of discretion a mere man may be, to thus waste his efforts upon the impossible. The Star says:

The handbag habit of the ladies is a bad one. But the victims of this habit seem to be unable to overcome it. Perhaps they have no inclination to do so. It is fashionable for ladies not to have any pockets and therefore there are no pockets. It is fashionable to carry handbags, therefore handbags must be carried. The case is settled. And if the ladies insist on handbags, why, of course, men must concede the point and declare that handbags are charming.

Handbag snatching is a regular employment with petty thieves. Yet it can scarcely be called an employment. Handbag snatching is so easy that it might be called a recreation with thieves.

The Sunday Star recorded another case of handbag snatching. Cases of this kind are so common in big cities that the police think of them as incidents.

A lone woman and a swaying, dangling handbag present a temptation to the loitering, thievish vagabond. Ladies ought not to carry them; ought not to carry money and other valuables in them. But what is the use? The handbag is a fashion.

AN AMERICAN CLASSIC.

The following beautiful sonnet, lately reprinted by the Boston Journal, was composed by the late U. S. Senator John J. Ingalls of Kansas. Senator Ingalls, it is well remembered, was a class mate and life-long friend of the late President Garfield. He was a brilliant orator and a devoted man of letters. It is said a manuscript copy of the above poem, the last manuscript copy of it that came from the author's hand, only a few months before his death, now embellishes the library of Andrew Carnegie. The only other existing manuscript of it belongs to Theodore Roosevelt, who, while president, kept

the poet's line, "When can their glory fade?" and the irony is deepened by the statement of Mr. Roberts that though Queen Alexandra, always pre-eminent in good works, lends her aid as a patron, "I have come almost to the end of my tether, for my fund seems to be forgotten in the tumultuous times through which we are passing."

The bulk of the 1600 a year required to maintain the veterans is obtained from the annual performance, which was given in the Alhambra theatre on Monday afternoon. THE MONETARY COMMISSION.

The National Monetary commission will meet in Washington a week from tomorrow when the work for the coming winter will be outlined. The commission will also receive a report from its subcommittee which has been engaged during the summer and fall investigating the banking conditions of Canada.

Also there will be laid before the commission a large number of reports and documents gathered in recent months relating to the financial systems of European governments. These reports will be collated, published and in the end summarized for comprehension of the plain people.

Miss Emily Clifton as "Texas West"
at Elks Theater Tonight

"TEXAS" TONIGHT'S SHOW AT ELKS THEATRE

Virile Western Play in Four Acts
Tells Simple Love Story
Which Delights the Audience;
Picturesque Atmosphere.

"Texas," the virile and picturesque play of real western life—not the dime novel kind—is the attraction of the Elks' theater for tonight, and a good house is looked for.

It is a drama by J. Maudlin Feil, whose knowledge of that locality was acquired by being born in the Lone Star state. The play is in four acts and tells a simple, natural love story in a manner that captivates the audience. It is a play of dramatic situations, flavored with the spice of comedy and romance. It has its intense moments as well as its flashes of wit, but the events are so natural that those who appreciate realism will find in it an ideal that they will witness with pleasure. This is the sixth year of "Texas" in the east and the second season in the west. The production is under the personal stage direction of the author.

**COHAN PLAY CAPTIVATES
AUDIENCE IN TUCSON**

The Tucson Star has the following to say of the gay Cohan production, "Fifty Miles From Boston," which appears here tomorrow night:

"Fifty Miles From Boston," depicting thoroughly George W. Cohan, the noted and eccentric playwright, at his best, was played to a large and enthusiastic audience at the Tucson opera house last night. The company was not as large as some of the musical organizations touring the west this season, but what might have been lost in quantity was more than made up for by the quality of the cast.

As is found in all of Cohan's hits,

the music is captivating. The chorus work in the company performing here last night, both in song and drill, proved a revelation. Drachman and Hawks are to be congratulated on their selection. The few empty seats should have been filled. The production was deserving of the "S. R. O." sign.

The leading feature of the production and one that literally took the house by storm, was the appearance of the University of Arizona flags and a reproduction of the local college yell.

MIND-CURE METHODS BEING TAUGHT

Two years ago there was not a medical school in the country that offered to its students any instruction in the treatment of diseases by psychic means. Today all the leading institutions are taking it up. Cornell has a full-fledged psychotherapeutic clinic, with Dr. Beatrice Hincley, an expert teacher of neurology, in charge. Within the last year lecture courses have been given at Tufts college by Dr. Morton Prince and Rev. A. H. Shields; at Clark university by Dr. G. Stanley Hall; in the vicinity and medical schools at Yale, and before the Young Men's Christian association at Johns Hopkins. The lectures of the last-named course have been issued in book form, with an introduction by Dr. Lewellyn F. Barker, successor of Dr. Osier at Johns Hopkins university. During the coming season the subject will be dealt with in the Harvard medical school by Dr. James J. Putnam, Dr. Richard C. Cabot and Dr. P. C. Knapp. A chair in psychology and medicine has been established in the University of Wisconsin, and a similar department will shortly be inaugurated in the University of Pennsylvania under the guidance of Dr. S. Weir Mitchell by means of the Phelps fund of \$500,000. Francis Maude Bjorkman in Van Norden Magazine.

Another Annoying Incident.

"How did you enjoy your trip to Europe?"

"First rate," answered Mr. Cumrox, but the homecoming was a disappointment.

"Did you have trouble with the customs people?"

"Yes. They placed such a low valuation on our stuff that mother and the girls were positively insulted."

Washington Star.

Applied Medicine.

Mr. de Club—My dear, a great German physician says women require more sleep than men.

Mrs. de Club—Does he?

Mr. de Club—Yes, my dear—um—er—would better not wait up for me tonight.—Tit-Bits.

Your Music is in the Edison Phonograph

Do you know how much you are losing by not owning an Edison Phonograph?

This instrument was made for you by Mr. Edison. It is intended to bring music into your home. It will help you entertain your guests. It will amuse you during your leisure hours. It will help you to bring up your family to love music.

This is what Mr. Edison meant when he said that he would like to see a Phonograph in every home.

How can you let any consideration of money stand in the way of your owning one of these great entertainers? The Phonograph will give you so much more in return for the money than you can get by spending it in any other way.

Do not take our word for it. Go to a dealer today and hear the Edison Phonograph play the Amberol Records, and you will know why we are so positive that you cannot afford to do without it.

Edison Phonographs - \$12.50 to \$125.00
Edison Standard Records - 35c
Edison Amberol Records (twice as long) 50c
Edison Grand Opera Records - 75c

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogs from your dealer or from us.

National Phonograph Company, 75 Lakeside Ave., Orange, N. J.

THE proprietor of a Portland, Ore., dry-cleaning establishment writes:

I have used Ivory Soap for over two years, for all kinds of cleaning and dyeing, with the most perfect results. As a dry-cleaning soap, it acts like magic and is far superior to any of the benzine soaps supplied to the trade. It removes dirt, without injuring the most delicate color or fabric.

SANTOS ORTIZ GETS ANOTHER REPRIEVE OF SIXTY DAYS

CONDEMNED MAN WILL
APPEAL TO SUPREME COURT

Work on Santa Fe-Albuquerque Road to Begin Immediately; The Three Mill School Levy.

[Special Dispatch to the Morning Journal]

Santa Fe, N. M., Nov. 11.—Governor Curry today granted another reprieve, this time for sixty days to Santos Ortiz, who was to have been hanged at Silver City on Sunday when his first reprieve of thirty days would have expired. The reprieve is granted to give Ortiz time to perfect an appeal to the supreme court. Another man convicted of murder at the same time of court and sentenced to be hanged, because in better financial circumstances, had his sentence stayed by appeal and Governor Curry thought it no more than fair to give Ortiz the same opportunity to have his case reviewed by the territorial supreme court.

Notary Public Appointed.

Governor Curry today appointed Simpson E. D. Sears of Willard, Torrance county, a notary public.

Incorporation Papers Filed.

Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by The New Mexico Reduction company of Carrizozo, Lincoln county. The directors and incorporators are J. Luther Peacock of Chicago, 99,998 shares; Frank J. Thurner of Carrizozo, 1 share, and Alfonso Davis of Chicago, 1 share. The capitalization is \$100,000 divided into 100,000 shares.

Territorial Secretary Nathan Jaffa returned last night from a brief trip to Albuquerque, where he attended the funeral of the late A. M. Whitcomb.

District Court.

In the district court for Rio Arriba county, Ferdinand Westheimer and Sons of Ohio today brought suit against Martinez and Velarde, on a note for \$136.85 given by Sebero Mirera on which defendants were endorsers. The balance due on the note is \$112.91.

Franklin L. Frazier, executor of the estate of Elizabeth C. Gayer, filed application in the district court for Santa Fe county to sell the real estate of the deceased on Manhattan and Webster avenues to meet indebtedness against the estate.

Another Automatic Gauge.

Territorial Engineer Vernon L. Sullivan has received another automatic stream measuring gauge which will be installed in the San Juan river at Bloomfield.

Santa Fe-Albuquerque Road.

Good Roads Engineer C. H. Neal left for Santa Domingo this morning to arrange for tools and machinery to begin work on the Santa Fe-Albuquerque road immediately.

Appointment of Three Mill School Levy.

Superintendent of Public Instruction J. E. Clark is preparing a circular in answer to many inquiries, explaining that the territorial levy of three mills for public schools is apportioned only among such school districts which themselves have made a levy of at least three mills. The \$27,000 apportioned last week by the superintendent was not from the three mill levy but was derived from the leasing of the public school lands.

More Good Advertising.

The Scrap Book for November devotes two pages to a description by Dr. Edgar L. Hewett, of the prehistoric cave dwelling discovered by him and refers to him repeatedly as a resident of Santa Fe and also refers to the School of Archaeology here.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed some frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy."

NUANES ADMITS HIS GUILT AND ALSO IMPLICATES PFEIFFER

PRISONER DENIES ALL
KNOWLEDGE OF CRIME

Efforts Made to Prove Alibi and Discredit Witnesses for Prosecution; Case Goes to Jury Today.

One of the strongest links in the chain of evidence which the prosecution has forged in the case of the Territory vs. Florencio Pfeiffer, charged with assault upon Mrs. Goldie Majoribanks, came out yesterday afternoon when Procopio Nuanes, arrested for complicity in the crime, testified that both he and Pfeiffer were guilty as charged. Nuanes corroborated in almost every detail the testimony of Mrs. Majoribanks and her husband regarding the crime. The testimony given by Nuanes yesterday was the strongest evidence presented for the prosecution during the trial. Having pleaded guilty, Wednesday to all the indictments returned against him by the grand jury, charging complicity in the assault, Nuanes proceeded, under questions by District Attorney Klock, to give a detailed story of what happened from the time he first met Pfeiffer some time after 7:30 in the evening of June 24, until they parted shortly before midnight at the Alamo saloon on South First street.

The testimony given by Nuanes coincided almost exactly with that of other witnesses for the territory, notably that of Mr. and Mrs. Majoribanks. Nuanes did not attempt to shield himself from blame, but intimated at various points in his story that Pfeiffer was the leading spirit in the affair; had suggested it to him and taken the prominent part all the way through.

Pfeiffer Takes the Stand.

After the territory had announced the completion of its case, the work of presenting the defense was commenced by John A. White, attorney for Pfeiffer. Efforts were made through the testimony of several witnesses to prove an alibi for Pfeiffer. Pfeiffer was placed on the stand in his own defense and swore that he was not at Alamo on the night of June 24 and that he had never seen Mrs. Majoribanks or her husband until 5 o'clock on June 25, when he saw them at the city police station. Led by the questions of Attorney White, Pfeiffer gave a detailed account of his movements from the morning of June 24 until midnight of that same day. Pfeiffer declared he spent the morning at home and in the afternoon had driven his mother and another lady to Alameda, where he remained until 6 o'clock, returning to Albuquerque between 6:30 and 7. It was after 7 when he finished his supper. After that, he said, he fixed his buggy and then went to town, where he visited several saloons on North Third street, meeting George Harris, colored, and Procopio Nuanes. Between 8:20 and 9 o'clock the three men, according to Pfeiffer's testimony, went to the Crystal theater on Gold avenue, saw the show and then visited other saloons, separating for the night some time before midnight.

Pfeiffer was questioned by Mr. White regarding his past life. The prisoner stated that he had been convicted for assault upon a man in 1904 and that he had served eight months in the Santa Fe penitentiary as the result of the conviction.

Pfeiffer's mother testified regarding his movements on the day and evening of June 24; a woman named Aneta Garcia testified that she saw the defendant about 8 o'clock in the business section of the city; Felipe Trujillo, a deputy sheriff, living at San Jose, testified that on the evening of June 24 George Rossmann, a witness for the territory, stated to him that the two men whom he saw leaving Mrs. Majoribanks away looked to him like Americans.

W. P. Willets, at present awaiting sentence for larceny, was brought from the county jail and placed on the stand as a witness for the defense in order to testify regarding a certain letter, written by Willets for Procopio Nuanes, to Attorney White, declaring that he, Nuanes, had made a statement or written confession in the presence of District Attorney Klock which was not true. Willets' testimony, however, was less effective than it might have been, because of the fact that Nuanes, during his turn on the witness stand, testified that he had written the letter at the request and solicitation of Pfeiffer, who told him that they could both get out of the trouble if they could get the communication.

On cross-examination Willets admitted that he had pleaded guilty in court Monday to stealing a team of horses from J. E. Bell, that he had embezzled \$125 from W. S. Lowe, and that he had signed the name of "Jack" Bishop to bills of sale.

At 5 o'clock an adjournment was taken until 9:30 this morning, at which time Pfeiffer will be turned over to the territory for cross-examination. It is expected that two hours of this morning's session will be devoted to the work of introducing rebuttal. Closing arguments by counsel will require some three hours, and it is not likely that the case will go to the jury before 3 or 4 o'clock this afternoon.

Captain Warren was in Holbrook from the Aztec ranch this week, bringing the news that the artesian well recently bored at his ranch, was flowing at the rate of over two hundred gallons per hour.

INVESTIGATE THE CLAIMS OF BELEN

With the inauguration of daylight train service between Albuquerque and El Paso there will come a period of prosperity to the Rio Grande valley such as it has never before known.

Belen is the newest, liveliest town on this route. With the completion of the Coleman extension of the Santa Fe it becomes an important division point on the line from San Francisco and Los Angeles to Galveston and New Orleans. It is now on a direct line from Denver and the north to Mexico. It is the crossing of the two great transcontinental highways from North to South and from East to West.

The Santa Fe railway is spending thousands in the construction of terminal facilities. New depots, both passenger and freight, new eating houses and other extensive improvements now are nearing completion.

The music of the saw and hammer is heard on every side. Dozens of residence buildings are in course of construction. Brick blocks are rising as if by magic. New enterprises are establishing themselves daily. This great activity is due not only to the fact that the town has such bright future prospects, but that The Belen Town and Improvement company is selling lots within the reach of all.

The church and school facilities are second to none in New Mexico. Seven teachers give instruction to over 300 pupils in one of the best buildings in the territory.

Four Protestant denominations are establishing work and three new churches are building or soon to be begun.

The people are friendly and social.

BONDS FOR A SEWER SYSTEM VOTED IN TUCUMCARI

VICTORY FOR PROGRESS
NOISILY CELEBRATED

Only Forty-Nine Votes Against;
Plaza Hotel Destroyed by
Fire in Spite of Work of the
Fighters.

[Special Correspondence to Morning Journal]

Tucumcari, N. M., Nov. 10.—This city has been very much wrought up for the past few weeks over the approaching election which was held yesterday for the purpose of voting bonds for a sewerage system. The citizens as a whole almost were in favor of sewerage, but the disagreement arose on the part of some few citizens over the franchise granted the Water and Light company and over the water rates. The fight was decidedly the hottest in the history of the city, both newspapers taking an active part and much personal feeling being engendered. Numbers of meet-

Big Sale of China Ware

We wish to close out our stock
of China and Glassware

Sale begins Monday,
Nov 15th to the 20th

WAGNER HARDWARE CO.

ings were held in the court house to get the sentiments of the voters pamphlets and searchheads were issued and both sides canvassed actively.

On last Thursday W. H. Bullock, an expert engineer from Kansas City arrived in the city and made a survey and furnished the city council with plans, stating that he never saw a town with such natural advantages for a perfect sanitary sewer system. His arrival was the signal for a series of citizen meetings and for a time it looked as if the issue was doubtful, but the election decided the matter for and time, only 49 votes being polled against sewerage bonds. The sum of \$75,000 was voted to bond the city and when the result of the election was known the city was in a furor of excitement, bond-fires were built last night and the citizens of Tucumcari rejoiced.

To know that their town would not fall behind in the onward march of progress. The issue with the water and light company was happily settled, they agreeing and guaranteeing in case the sewer system is put in to reduce the water rate to \$1.50 per month and to accept a city franchise establishing the water rates as such. Which all goes to prove that Tucumcari is all right and her citizens are public-spirited and progressive.

Last night a little after 11 o'clock the fire alarm sounded the fire city, who had just gotten through celebrating the election for sewerage, from their beds to the heart of the city, where an alarming fire was raging with a high wind from the south. The Plaza hotel, run by Mr. Collins, near the depot was a mass of flames and though the volunteer fire company did their best it was too late to save the building with such a high wind to contend with. Very little was saved and as few people were in the house no one was injured, though at first it was reported that a woman was burned. The building was insured. Several little shacks in the vicinity of little value were also burned. Quay county in general and Tucumcari in particular are highly elated over having captured the \$100 prize on fire alarm exhibits at the El Paso fair and international exhibit. The exhibit was in charge of C. H. de Yampert, who has a claim a few miles from Tucumcari. Mr. de Yampert also captured a number of first prizes on kaffir corn, sorghum, water-melons, field corn and other products. Mr. de Yampert will take the exhibit to the International Dry Farming exhibit at Chicago.

A MAMMOTH Auction Sale

We will sell at Auction,
Wednesday the 17th of
November, at 607 West
Silver avenue, beginning
at 10 a. m. the following
property:

One 5-room brick house, lot 30x142, well built with cellar underneath, splendid barn 20x40, 4 tons of fine hay; 1 double seated spring wagon; harness of all description; 2 big stags; 29 chickens. Also the furnishings of a 5-room house, all of which is up-to-date, consisting of fine dressers, beds, book cases, rug extension dining table, leather upholstered chairs to match, linoleum, refrigerator, fine piano, comparatively new, ranges, heaters and in fact things too numerous to mention. Besides—A team of Blooded Horses of splendid size, one three and one four years old, gentle and well broken to harness; perhaps the prettiest team of horses in the city. This team of horses can be seen at 10 a. m. and 2 p. m. at 117 West Gold avenue.

PORTALES DETERMINES TO GIVE SON OF THEODORE WATER SUPPLY AT IRRIGATION A TRIAL

HONORED WITH A TOWNSITE

PORTALES IS UNLIMITED

Elaborate Tests of Several Wells in Various Sections of the District Demonstrate That Underground Water Supply Is Practically Unlimited and That Pumping for Irrigation Is in Every Way Practicable; Six Thousand Acres Pledged to Central Power Plant Project.

[Special Correspondence to Morning Journal] Portales, N. M., Nov. 11.—After having made a complete survey of farming without irrigation Portales people have determined to make their district just a little better and to go in for irrigation. They are going in a way that promises immediate and very gratifying results and it will be surprising if the season of 1910 does not show an irrigated district here which will be attracting the attention of the country.

As a dry farming district the Portales district was one of the pioneers shortly after the possibilities of farming without irrigation were discovered in New Mexico a few daring farmers and homesteaders tried it near Portales. The results were immediately satisfactory and within a period of time so short as to make the growth almost miraculous the whole region was transformed into a populous farming district. In 1903 when Roosevelt county was created there were only about 800 people in the county. Last winter when Curry county was created chiefly from Roosevelt county, the old county had a population of about 10,000 and Portales had grown from a whistling post to a flourishing town of 2,000 people, which is about its present population.

But the past season has been one of light rainfall. Crops have not done as well as in the average year and this has drawn the attention of the farmers sharply to the possibilities of irrigation by pumping. It has been known for a long time that there was a strong flow of water not far below the surface of this whole district. Numerous shallow wells have demonstrated this and one well of artesian character has demonstrated the strength of the flow. Not a great deal of irrigation water is needed here. The rainfall in an average year is ample to mature all crops, but with a water supply to fall back on at the proper time or in case of drought the yield can always be greatly increased.

The result of this condition has been a series of tests of the underground water supply which have shown to the complete satisfaction of every one in the district and to many outsiders who have looked into the matter, that with a central power plant furnishing power for pumps at reasonable prices irrigation by pumping is in every way practical. The outcome of this will be an irrigated district here. It may take some time to work out the plans but the volume of the water and its reliability have been thoroughly proven and pumping on a large scale will come in the immediate future. The first step has been the contracting of 6000 acres of land for a central pumping plant which is proposed to build here at a cost of \$210,000, the farmers pledging their lands to insure the cost of the project.

Government experts have investigated the water supply and have reported favorably on it. It is estimated that with the power available there are 160,000 acres in this district which may be irrigated by pumping.

The prospect of an irrigated district added to its natural farming resources has added new life to Portales, already one of the most flourishing of the eastern New Mexico towns. The new spirit is shown by the revival of building. Recently a fire destroyed six business houses. They were cheap frame structures, but their owners had made money in them. These owners are now planning to construct solid buildings of brick and cement to take the place of the old shacks. The First National bank is soon to build a new home, which will cost \$75,000. The city has just sold \$75,000 worth of bonds at a premium of \$1,000 to be used for construction of a modern water works system. Sewerage and electric lights will follow.

Portales has a live commercial club, which is doing a great deal to forward the interests of the town and surrounding country. Its three banks have combined deposits of more than half a million. Its general merchandise grocery and other stores are supplied with new and complete stocks and the town is supplied with all the comforts

WOULD MAKE KERMIT ROOSEVELT COUNTY SEAT

Clovis Now Has Fully Recruited Military Company and Is Going After an Armory as Soon as Possible.

[Special Correspondence to Morning Journal] Clovis, N. M., Nov. 11.—Kermit is the name of the new town that is just being opened by the Pittsburg brothers, prominent realty holders and pioneers of Clovis. Kermit lies south of Portales, between that place and Elida, and is said to be in a very nice location, surrounded by a most prosperous farming country. "If you ask me if there is anything there," said Mr. Pittsburg in speaking of his new town today, "it would be obliged to say to you that there is nothing but one of the most promising prospects for the most thrifty little farming town in the whole country. There is nothing there. That is why we are trying to get our friends at Clovis and elsewhere interested so as to help us put something there. We planned Kermit for the future county seat of Roosevelt county."

NEW CLOVIS MILITARY COMPANY IS ORGANIZED

The Clovis military company is at last a full and complete reality. Under the able leadership of Captain Mendenhall the company has been organized and volunteers up to the required sixty received, all in the very small space of four months. In the week all of the guns, ammunition and paraphernalia were received and at the next regular meeting of the company this will be distributed among the boys. "There is only one thing that the Clovis military company wants which has not yet been granted," said Captain Mendenhall. "We want an armory and a good one and that is the only unfinished business with us. However," he continued, "we have every reason to believe that if we make a sufficient showing and the people of Clovis take the required amount of real interest in our company, the next legislature can be persuaded to grant us an armory."

The old skating rink on North Main street had been used as a temporary armory until the beginning of school last month, when it was necessary to convert this into a school room which will be used until the new high school building is completed.

Dr. J. Foster Scott, who was among the first of Clovis pioneers and who has been very prominent in political circles in Roosevelt and Curry counties, has just returned from an extensive trip throughout the territory and Texas and says that he becomes more and more impressed with the plains country of eastern New Mexico. He says that Curry county's last year's crops compare most favorably with the choicest dry farming districts in the west.

O. L. Owen, one of the pioneers of this city and a man who has aided much in the building of Clovis and the development of this county, has just returned from a four weeks' trip through the northwest and a visit with his people at his old home in Kansas. Mr. Owen said that nowhere on his trip did he see conditions so inviting to the prospective settler or business man as greeted his eyes upon his return here yesterday.

"Clovis and Curry county for me, every time," remarked Mr. Owen in conclusion.

PHYSICAL ENCOUNTER INTERESTING CLIMAX TO NEWSPAPER WAR

Jerome, Ariz., Nov. 10.—A physical encounter on the streets of Jerome Sunday about noon between the son of Mrs. Laura Nihell, editor of the Jerome Copper Belt, and W. S. Adams, editor of the Jerome News, marked a sensational climax to a bitter newspaper war which has been waging here for the past six weeks between the two weekly papers. At this point spectators interfered and put an end to the fight.

The newspaper war began originally over an agitation that was started against Chinese restaurants in Jerome by the Jerome News, the Copper Belt taking the opposite view. Bitter words have been hurled back and forth between the two newspapers, finally culminating in the publisher's encounter in this town yesterday.

REMARKABLE TESTS OF THE PUMPING CAPACITY

Portales Men Who Have Thoroughly Investigated Water Resources Declare Government Report Injustice.

A Review and Criticism, by Editor Portales Herald.

The Editor Albuquerque Morning Journal: Dear Sir: I am sure that in the publication of the government's recent bulletin on the resources of Portales valley, violence has been done to the facts and incalculable harm has been done to this section of the territory. For, although there is good authority for believing this bulletin trustworthy and doubtless there was no intention other than to give the widest publication to this circular, no person set forth in this circular, no geological survey of the Portales valley has been made recently and certainly none was even attempted by Mr. O. E. Meinzer, upon whose authority the government is supposed to have issued this bulletin.

Mr. Meinzer did make a survey relative to the 320-acre settlements in this and other adjacent sections and he did visit and look over most parts of the Portales valley. In addition to this, Mr. Meinzer has no information, except that voluntarily given him by the people of Portales, who tested for his benefit the Humble well here in town, which is an eight-inch well with four and one-half inch discharge pipe and was pumped with six-inch centrifugal pump for thirty-seven hours. The water level was lowered twelve feet in the first minute and never lowered another inch during the thirty-seven hours of continuous pumping in which it yielded 450 gallons per minute. Now, Mr. Meinzer witnessed this test, made note of the facts, which he considered remarkable, and as indicating unlimited water supply. In addition to this Mr. Meinzer questioned many farmers and residents of Portales who testified that in their six to eight years of residence here the water supply had not been reduced an inch, but, on the other hand, had increased with the years they had been pumped with windmills. Mr. Meinzer talked with the men who drilled the artesian well on the court house facts, that this well reached the first stratum of water at 18 feet; another at 30 feet, and an artesian flow at 285 feet, which, although not strong, ran out over the casing. Mr. Meinzer saw no well dug, and only the one above mentioned tested, and expressed himself again and again as being confident that the water supply here was inexhaustible, assuring the people: "Go on with your pumping proposition—there is no doubt about your water supply."

But we could not afford to rely upon Mr. Meinzer's guess, and accordingly determined to make the most thorough and unqualified test possible. We began two months since, have spent some \$2,000 and have kept an expert hydraulic engineer and a crew of six men at work for all this time. The first well was sunk on Mr. Coppage's place, one mile southwest, which was 14 inches in diameter and 122 feet deep and enough not pumped long. It yielded 1500 gallons per minute without diminishing the supply. The next well was an eight-inch well on the Lindsey place, two miles west of Portales. This well yielded 650 gallons per minute. The third well was a 14-inch well, drilled 100 feet deep, located within ten feet of the second well. This well was pumped for nearly a week and delivered from 750 to 1,000 gallons per minute. The fourth test well was located on the

AVIATION STATION IS PROPOSED FOR PEAK IN HUACHUCA MOUNTAINS

[Special Correspondence to Morning Journal] Phoenix, Ariz., Nov. 10.—That Arizona may become the center of important aviation experiments by the United States army is indicated by the fact that the war department is seriously considering the establishment of an aviation station on "Nigerhead" peak, up Post canyon in the Huachuca mountains, where aerial navigation will be studied. The same other drills given the enlisted men. These aerial maneuvers will be confined to the infantry only, and the crews of each troop, which will consist of ten men from a troop, will be selected and a new branch of Uncle Sam's fighting force will be created. Work on the aviator, it is believed, will be commenced early in the coming spring, and will be completed by May 1. Ten airplanes of the Wright brothers' type have been contracted for and will be on hand in time for the use of the soldiers selected for the experiments.

Vanity. First Sportsman—Well, how do you like that new hat of yours? Second Sportsman—Oh, fairly well. But I when I had bought a horse, she's always stopping to look at herself in the puddle.—Tit-Bits.

Elliott farm in the Bethel community, some eight miles west of Portales. It is 14 inches in diameter and 98 feet deep, and yields from 1150 to 1250 gallons per minute by actual measure. Enclosed find postcard photograph of this well with pump in operation.

As against this government circular, therefore, we desire to submit the following facts: (1) No geological survey of the Portales valley has been made recently and no such survey even attempted by Mr. Meinzer. (2) Mr. Meinzer's guess is discredited, first by the fact that he expressly declared himself as believing the water supply sufficient and practically inexhaustible, and, second, by the fact that he saw but one test made and that one diametrically contradicting the conclusions of this alleged geological survey. (3) Mr. P. E. Fuller of the agricultural department and located at Phoenix, Ariz., who perhaps has no superior on pumping propositions for irrigation, has made a study of the water supply around Portales and has given us his unqualified assurance of the sufficiency of the water supply here, giving it as his conviction that it exceeded that of Garden City, Kan. Furthermore, he publicly declared that the Portales valley afforded one of the most splendid opportunities for irrigation by means of a central electric power plant to be found in the whole United States. He came to Portales and spent some ten days studying the plant which is to be installed here, acted as attorney for the farmers in this vicinity in drafting the contract with the Western Construction company of Wichita, Kan., and volunteered to make the statements referred to. (4) Finally, we submit the facts of the recent tests which are set out above and which are to continue for the next thirty days, and we challenge the United States to produce an example of higher capacity test of water supply.

Yours very truly,

PORTALES, NEW MEXICO.

POTATOES WIN IN THE WILLARD DISTRICT

Surprising Results from Eight Acres in Spite of the Dry Season; Net Profit \$50 Per Acre

In spite of a season of almost continual drought potatoes have made good this season in the Estancia valley and the results from some of the carefully cultivated farms are surprising, reaching as high as \$50 an acre not with about half a stand throughout the valley.

B. O. Wright of the Morning Journal who owns a farm near Willard, received a letter yesterday from Joe Sams, owner of the adjoining farm in which the latter states that from a half stand of potatoes he has harvested 17,000 pounds, from a tract of eight acres. The net profit to Mr. Sams from this crop is \$50 per acre. Four acres of potatoes on the Wright farm adjoining, which did not have careful cultivation, did almost equally as well. This is but an instance of what has been done in the Estancia valley this season. The potato crop has been splendid all up and down the valley wherever the crop has been carefully tended.

G. H. Van Stone of the Hughes Mercantile company at Estancia, has just completed a shipment of 1,000 of potatoes which will be shipped in the New Mexico space at the United States Land and Irrigation exposition in Chicago which opens November 20. These potatoes are the equal of any grown in the west and are certain to attract attention.

The past season has finally demonstrated the adaptability of the Estancia valley to potato culture and is likely to lead next season to the planting of a very extensive acreage.

ARIZONA TAXPAYERS TIRED OF PAYING THE BOUNTY ON POLECATS

[Special Correspondence to Morning Journal] Phoenix, Ariz., Nov. 10.—The bounty paid on skunks is a disgraceful blot on the nostrils of the taxpayers, judging from the action taken by the people of Gila county, where the money to pay the bounty on slaughtered specimens of the polecat falls it is alleged has assumed the proportions of a burden under which the people groan; and rather than pay which they would cheerfully allow the festive skunk to run riot in the chicken coop, to multiply and replenish the earth and perfume the clear air of Arizona with its odoriferousness. In short the people of Gila county are tired of the polecat bounty, and are taking steps toward inducing congress to annul the act of the Arizona legislature which established the bounty. From the Globe newspaper the information is gathered that under provisions of the act \$200 per day or more is being paid out of the county treasury for skunk hides, and it is estimated that the aggregate will reach \$10,000 per year.

The following article touching the proposed remedy is from the Daily Globe:

Within the next day or two the board of supervisors will meet and instruct District Attorney Shute to draw up a bill which will be submitted to Delegate Cameron, with the idea in view of putting a stop to the skunk bounty as it now exists. The bill which Mr. Shute will be instructed to draw up will be a measure to be introduced by Cameron in congress, setting aside that part of the Arizona law which is considered detrimental to the best interests of the people of the territory in general.

The Gila county supervisors will also draw up a petition to congress, which will be submitted to each of the other twelve boards in the terri-

ADLER'S COLLEGIAN CLOTHES

have style, as well as quality. The latter is decidedly an essential, but quite valueless without the former. It may not be so difficult to produce a garment made of good cloth and lined with good material. Any honest maker can give you this. Our kind of style however, means exceptional ability; the best designers in America.

We lay stress on the fact that style in your clothes is just as vital as quality. You will find in the Adler Collegian garments a combination of both of these features, possessed to a like extent by no other brand in all America. Will you test the merit of these garments? The autumn and winter fashions in suits and overcoats are now being shown by the most representative clothiers in all parts of America. Prices range from \$15.00 to \$40.00.

SANTA FE BRAKEMAN DIES AS RESULT OF INJURIES

George Davee of Winslow Meets Death in Unfortunate Manner in Gallup Yards.

[Special Dispatch to the Morning Journal] Gallup, N. M., Nov. 11.—George Davee, a well known Santa Fe coal lines brakeman, running between Gallup and Winslow, died here at 7:40 o'clock this evening as the result of injuries sustained at 5:15 this afternoon, when he was knocked down and run over by engine 824. Both legs were severed between the knees and the thighs and no hope was held out for recovery from the first. The injured man was taken to a caboose and arrangements had just been completed to run him into the hospital at Albuquerque on a special train when he died.

The exact manner in which Davee was injured is not known. He had arrived from Winslow on a red ball freight and it is believed that he was crossing the track in front of engine 824, which was on its way to the roundhouse, when the engine hit him.

Deceased is survived by a wife and two children who live in Winslow and who have been notified of the accident.

The news of the death of Mr. Davee was received in Albuquerque last night with much regret. Deceased was a member of Albuquerque lodge No. 579, Order of Railway Trainmen, and lived in Albuquerque for more than two years preceding last month, when he was transferred to Winslow. A committee of the Trainmen had made all arrangements for an ambulance to meet the special train which was bringing Mr. Davee to the hospital here, and which was scheduled to arrive at 10:15 last night, when a telegram was received announcing his death. Mr. Davee was popular with his fellow employees and the sympathies of many friends and acquaintances will go out to the bereaved widow and other surviving relatives in their sorrow.

The sheriff and immigration officers at Tucson are busily searching a mysterious murder story, involving a slain Chinaman and a Mexican murderer. One man is already under arrest and other arrests are expected.

Merrill McGeeley, a pumpman employed at the Arizona Commercial Copper company's mine, was killed Saturday evening when he pitched headlong from the main shaft and landed on the rocks a hundred feet below.

C. P. Fernandez, who owns a large ranch twelve miles above Laguna

CHILDREN

In disorders and diseases of children drugs seldom do good and often do harm. Careful feeding and bathing are the babies' remedies. Scott's Emulsion is the food-medicine that not only nourishes them most, but also regulates their digestion. It is a wonderful tonic for children of all ages. They rapidly gain weight and health on small doses.

FINANCE AND COMMERCE

Wall Street.

New York, Nov. 11.—The money position was the dominant influence on the stock speculation again and the topic of principal interest.

The retention of the 5 per cent Bank of England rate was accepted with satisfaction, but the feeling of certainty yesterday that this course would be followed had allowed action to anticipate it. The influence on the price of stocks therefore was short-lived.

There were fresh withdrawals of gold for South America and a violent drop of 2 cents in the sterling exchange rate at Paris indicated the waning power of one influence in the recuperation. This sign of the narrowing of the point of ingress to the Paris money market added to the effect of the tightening money situation in New York as depriving the speculative contingent of hopes of recovery to other sources to replace the credits which are being withdrawn in New York. The week's export of gold from New York helped to deplete the slender surplus reserve of the clearing house banks to a point which is forcing them to reduce their loan account.

While the money rate began to rise in New York in response to the first demands of the interior for crop moving currency, interior banks made loans in New York on a large scale on their own account to take advantage of the higher interest rate. The effect of this was to relieve the requirement upon the New York banks and to form a large factor in the enormous loan contraction effected in New York during that period.

The halt in the speculative activity and the dribbling of liquidation, such as came into the stock market today seem an inevitable consequence of these conditions.

The reception tendered new stock issues sufficiently proves the distaste of the investment appetite for the offerings.

Rumors of an early offering of St. Paul debentures have gained credence from the application of the company to the stock exchange to add to the list from time to time, but prior to July 1, 1910, \$22,000,000 additional of those bonds on official notice of sale besides the \$28,000,000 of the total authorized issue already sold.

The special heaviness of Union Pacific today was partly due to disappointment over retaining the present dividend rate in the Southern Pacific distribution. Holders of Southern Pacific preferred stock who converted their 7 per cent bonds into common stock when it was called for retirement have hoped for an increased Southern Pacific common stock dividend from the 6 to the 7 per cent rate.

HAIR HEALTH

If You Have Scalp or Hair Trouble,

Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall's "92" Hair Tonic and continue to sell it as we do, if we were not certain that it would do for us what we claim it will. Should our enthusiasm carry us away, and Rexall's "92" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

Therefore, when we assure you that in your hair is beginning to unhealthily fall out or if you have any scalp trouble, Rexall's "92" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

Out of one hundred test cases Rexall's "92" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the baldness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely sterile.

Rexall's "92" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring hair growth and hair health. It is not greasy and will not gum the scalp or hair or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall's "92" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded without question or quibble if it does not do as we claim. Certainly we can offer no stronger argument. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store.—The Rexall Store. The J. H. O'Reilly Co.

canvassers to complete their work.
Divine service at Temple Albert will commence this evening at 7:45 o'clock. Rabbi Chapman will officiate and preach. Everybody is cordially welcome.

Mrs. George Parker, of Pullman, Ala., and Mrs. H. G. Wilson, of San Francisco, are guests at the home of their brother, Otto Heidelberg, 318 West Lead avenue. They will remain in this city several days.

E. E. Carter, of Washington, D. C., assistant forester of the United States forest service, arrived in the city yesterday from Arizona, where he has been looking after some timber sales on the national forests, and left last night for the national capital.

Mrs. Nellie Thompson, wife of Frank Thompson, chief clerk to General Manager A. G. Wells, of the Santa Fe coast lines, left last night for Los Angeles, after a pleasant visit here with her brothers, Harry O. and Frank H. Strong.

The Burnham-Munger Dry Goods company of Kansas City, through R. W. D. Bryan, its local attorney, filed a suit in the district court, yesterday, seeking judgment against J. M. Jacobson of Gallup, for \$154.92, alleged to be due on account of merchandise sold and delivered to the defendant.

Mrs. Frank Selee, widow of the former manager of the Pueblo Indians, at one time manager of the Chicago White Sox and during his lifetime one of the best known men in the baseball world, is in the city visiting friends. Mrs. Selee has been spending some weeks at Paywood Hot Springs, N. M.

Monsignor John H. Fox, a distinguished prelate of the Roman Catholic diocese of Trenton, N. J., accompanied by Rev. W. A. Giffailan, pastor of the Catholic church in Sayreville, N. J., arrived in the city yesterday for an indefinite visit. Mr. Fox will probably spend a portion of the winter here at St. Joseph's sanitarium.

Heacock & Longbray, attorneys for Manuel Garcia and Teodoro Garcia, filed a suit in the district court yesterday, asking judgment against A. B. McMillen and Amado Chaves for \$500, alleged to be due on account of the action of the defendants in permitting a thousand head of cattle to destroy a watering station owned by the plaintiffs on the Rio Puerco.

Mrs. Marice Thomson, who for some years was the general secretary of the Young Women's Christian association of Des Moines, Iowa, was a guest at the Young Women's Christian association home yesterday afternoon, where several ladies called to meet her. A pleasant hour was spent in discussing association work. Tea and cake were served.

Miss Victoriano Armijo, eighteen years old, for the past two years an employee of the Imperial Laundry company, died yesterday afternoon, following an operation. Deceased was a daughter of Mr. and Mrs. Fernando Armijo, of 411 North First street. The remains will be taken today to Corrales by Strong Brothers, who will conduct the funeral from the family home there Sunday morning.

Try our home-made mince meat, 2 lbs. for 25 cents. Carcass mutton 6 1/2 cents per lb. Western Meat Co.

"MACBETH" SUBJECT OF DISCUSSION BY THE WOMAN'S CLUB TODAY

"Macbeth" is the play of Shakespeare which will be discussed at the regular meeting of the Woman's club this afternoon, under the auspices of the literature department, with Miss Chapman as leader. Choice quotations from the play will be given by various members preceding the discussion. In the latter Mrs. Dolan will take up the character of Duncan; Mrs. Strumpquist that of Macbeth; Mrs. Benedict, Lady Macbeth, and Mrs. Morley, Macduff.

JAPANESE TERRORIZED BY ARMED BANDITS

California Towns Raided and Homes Ransacked by Thieves.

Auburn, Cal., Nov. 11.—The Japanese sections of the towns of Penryn and Loomis near here were raided today by four men who aroused the residents and ransacked their houses. At Penryn they obtained \$400, and at Loomis \$100. The Japanese were cowed with revolvers.

The robbers who were either negroes or whites who had blackened their faces, escaped on horses toward the mountains. Sheriff McCauley and Deputy Sheriff Dunn left Auburn today at the head of a posse and a report reached here late that two of the robbers had been surrounded in a vacant house. They are heavily armed and a fight is expected.

KEMPENICH'S SALE ATTRACTS WISE SHOPPERS

Best Assortment of Dry Goods, Ladies' and Gentlemen's Garments Offered at Unprecedented Prices.

With only one more week left in which to make purchases at the great closing out sale at the store of L. Kempenich, at the corner of Central avenue and Third street, where the greatest offer of real bargains are to be had that has ever been offered to shoppers of this or any other city, the wise shoppers are taking advantage of the golden opportunity, and are laying up supplies to last them for a long time to come, because it will be a long time before such prices will again be offered.

The sale not alone includes one of the best assortments of dry goods, both for summer and winter wear, but also includes a fine selection of ladies' and gentlemen's ready-to-wear garments, furs, gloves of the very best make, hats, shoes, trunks, suit cases and bags, blankets, comforts, and almost any other article that one can usually find in a first class general store, and all of the best quality.

None of the goods are old, shopworn and out of season kind, but new up to date merchandise of the very latest fashion and worth not less than fifty per cent on the dollar more than they are being offered at. The only reason that this opportunity was ever offered was that Mr. Kempenich's health is not good and he is going to retire from business.

Mr. Kempenich states that all of the goods are marked in plain figures, showing the regular retail prices and the reduced prices, and that he will gladly refund the purchase price of any article that is not satisfactory. Remember, the sale will positively not last longer than Saturday, November 20th, and those who have not visited the store should do so at once and save on articles that will be useful in the future, even if not actually needed now.

If you desire a clear complexion take Foley's Ointment for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. J. H. O'Reilly Co.

BIGGEST ENGINE IN THE WORLD FOR THE SANTA FE

Enormous Machine for Use in California Turned Out by Baldwin Locomotive Works to Pass Through Here.

The largest locomotive in the world is now en route to southern California, to the order of the Santa Fe railroad company, and is expected to pass through here in a short time on the way west. The monster locomotive, turned out by the Baldwin locomotive works, weighs with the tender, 360 tons, in working order, and has a hauling power one-half greater than the most powerful passenger locomotive now in use.

Apart from its tender this locomotive weighs 374,150 pounds and is 65 feet long. The tender carries 12,000 gallons of water and 4,000 gallons of oil, which is the fuel the monster locomotive will use. This will run the engine about one hundred miles without stopping for water or fuel. Total length of locomotive and tender is 105 feet. The traction power of this locomotive is 53,000 pounds.

It is built for speed as well as great hauling power. There are five pairs of driving wheels, seventy-three inches in diameter, which work in two sets, the locomotive being of the Mallet articulated compound type. The three pairs of wheels in the rear set are driven by the high pressure cylinders, while the two pairs in the forward set get their power from the low pressure cylinders.

The locomotive has a steam making area of 4,736 square feet. A feed water heater raises the water temperature above boiling point before it is admitted to the boiler. Steam passes through a superheater before going to the high pressure cylinders, and, exhausted from them, goes through a reheater before entering the low pressure cylinders.

In the boiler proper are 284 tubes.

NOTICE

I wish to take this opportunity to thank the good people of Albuquerque for their liberal patronage during the past two years. It has been very generous. Indeed, considering our cramped quarters. We thought it best to start out in a small way and grow up instead of down. We have now rented more floor space and we are able to make a better display than before.

We have just bought out the entire F. J. Houston Co. stock, on Central avenue, and have it all now stowed away. This additional stock combined with what we had already ordered for Fall Trade makes one of the biggest and most complete stationary stores in the Southwest. If you need stationery, we can show you a line that can not be excelled. Blank books—everything from a 1000-page Journal or Ledger down, in any ruling or binding. Remember we carry the Kiggins & Tooker line. Nothing better made in Blank Books. Pocket Memorandums in all sizes and styles—from a 3-cent article to the best loose leaf binding.

We carry everything in Office Supplies, including Filing Cabinets.

We very respectfully solicit the patronage of the F. J. Houston Co. patrons. We will gladly carry in stock any line you may have been using from the old firm. If you will call our attention to the matter.

19 feet long and 2 1/4 inches in diameter. The feed water heater contains 314 tubes seven feet long. This locomotive is the first for passenger service to be built on the Mallet type, and the first to combine feed water heater, superheater and reheater in one machine, and its firebox is built upon a new plan which eliminates stay bolts.

Announcement has been made by the management of the Santa Fe railway of changes in the passenger service to take effect January 1, with a view of enabling through, transcontinental trains to make their fast schedules and of relieving them of much of their local work. The new transcontinental trains will make the run from Chicago to Los Angeles and San Francisco in seventy-two hours, the time now being made by the Santa Fe's California limited. This train will leave Chicago at 9:30 a. m., and the Kansas City train now leaving Chicago at this hour will be extended across the continent. Out of Chicago there will be a new local train leaving there about 3:30 in the afternoon and running to Kansas City. East-bound a new train will leave Kansas City at 8 p. m., and will arrive in Chicago at 1 p. m., doing all the local work. Westbound out of Kansas City a new Denver train is to be put into service and a new train to the southwest.

SPLENDID CONCERT BY BISPHAM

Famous Singer Charms Audience With His Wonderful Voice and Gives Taste of His Great Dramatic Power.

If the other events in the series of notable musical entertainments which are coming to Elks' theater during the winter are as entirely pleasing and satisfying as the program which David Bispham gave last night, Albuquerque will have cause for congratulation, and especially that portion of Albuquerque people who care for great music. Mr. Bispham is almost as wonderful in concert as he has been for many years in the greatest of grand opera roles. Beginning with Handel last night, he went through all the register of great names in song, ending with numbers by American composers and a little explanatory talk to the audience in which he referred to his pride in the fact that there are American composers whose work is worth singing. Almost any composition would be worth singing as Bispham sings it. Some of his songs are more pleasing than others, but it is all a matter of degree. His concert was in every way about the most satisfying musical event Albuquerque has ever had. The artist was extremely gracious, evidently appreciated the warmth of his reception, and gave numerous encores, in lighter vein, for the most part, but altogether charming.

The closing number, his reading of "The Raven," with a piano accompaniment, was a revelation to those of the audience who had never seen Bispham in any of the great roles which made him famous. Under his interpretation the classic takes on a new, and, if terrible, none the less interesting meaning. After hearing and seeing it one is quite convinced that Bispham is almost as great an actor as he is a singer.

It is a matter for regret that the theater was not packed to hear this artist. True, there was a very fair attendance, the theater was well filled; the difficulty is to understand why it was not packed. The pleasure of last night's audience and its evident appreciation of the artist will insure that there will be no empty seats here when he comes again.

YOUNG men's special styles are a particularly strong feature this season in our selections in suits and overcoats. We have the smart models, the broad-shouldered athletic shapes, and the snappy cut which young fellows want; college men, high school men, young business men.

Hart Shaffner & Marx

are masters of style in this field as in others; they've created for us some extremely attractive models for young men.

Older men, of course, may want styles a little less extreme; don't worry; we've got the right things for everybody.

Smart grays, and blues; swell fabrics in overcoats and raincoats; all wool.

SUITS \$22 TO \$35. OVERCOATS \$18 TO \$30.

This store is the home of Hart Shaffner & Marx clothes.

Strong Representations from Washington Secure Release of American Launch Seized at Porto Cortez.

[By Morning Journal Special Teamed Wire]

Washington, Nov. 11.—Strong representations on the part of the state department have resulted in the release by the government of Honduras of the American gasoline launch Perlas, which was seized and held at Puerto Cortez.

The launch, which is the property of the Port Perlas Banana Plantation company, of New York, was recently pressed into service by the revolutionists at Bluefields. When the launch arrived at Puerto Cortez, en route to Puerto Barrios, the vessel ran out of fuel and was obliged to put in. One passenger was on board and the launch was seized by the Honduras authorities on the ground she carried a sympathizer of the Nicaraguan revolution and that her clearance papers were irregular.

The United States, however, insisted that the vessel be returned to its owners, but only after repeated representations was the restoration accomplished.

There seems no doubt that the troops of the Nicaraguan government, now fighting the revolutionists, have invaded Costa Rica, on the southern bank of the San Juan river. The government of Costa Rica, the state department is informed, has asked Nicaragua for an explanation.

Recent developments seem to indicate that Honduras is in full sympathy with the Zelaya government and that she has given substantial aid in the operation against the revolutionists. This would be a violation of article two of the Washington convention.

The state department is watching the development in the disturbed section. Costa Rica is believed to be acting in good faith and Zelaya's invasion of her territory is thought to be without her knowledge or connivance. Dispatches to the state department indicate that the revolutionists are making substantial headway.

ANOTHER CRIME LAID AT DOOR OF MURDER SUSPECT

Bellingham, Wash., Nov. 11.—John P. Logan, held in jail at Colville, Wash., charged with the murder of his housekeeper and the cremation of her body has been identified as Frank Romandorf, wanted here for the murder of John F. Logan, at Maple Falls, in the autumn of 1906.

For two years alleged proof that Romandorf committed the murder has been held there but the man could not be located. Logan and Romandorf were neighboring ranchers near Maple Falls. In October, 1906 Logan disappeared and a few days later was followed by Romandorf. Shortly afterwards a letter was received which purported to come from Logan telling a friend he was

Californian Killed in Duel.

Santa Cruz, Cal., Nov. 11.—Edward Pierce was shot and killed by John P. Garst today in a revolver and rifle duel at the Garst home, in Valencia, twelve miles from here. Garst had objected to attentions paid by Pierce to Mrs. Garst and alleges that the latter began the combat.

Glavis Case Before President.

Washington, Nov. 11.—The Glavis charges bearing on the attitude of the interior department toward the Alaska coal lands were brought to the attention of President Taft by Secretary Ballinger today.
