MARINES HELD PRISONERS ON DELAWARE MUD FLAT

All Efforts to Release Troopship Prairie, Bearing Seven Hundred Fighting Men to Nicaragua, Prove Futile.

ZELAYA IGNORES STATE DEPARTMENT ULTIMATUM

Sending Emissaries to Washington With View to Influencing Congressmen Is Dictator's Latest Move.

(By Morning Journal Special Leased Wire)

Philadelphia, Dec. 3.—Despite the large amount of coal and other heavy supplies removed today from the transport *Prairie*, the ship at a late hour tonight is still aground on the mud flats of Pea Patch island in the Delaware river 35 miles below Philadelphia. The *Prairie* went aground last night while proceeding to Panama or possibly Nicaragua with about 700 marines. The marines are still on the vessel. Six powerful tugs tried to pull her off into deep water today, but were unsuccessful. Another attempt will be made at high tide about 4 o'clock tomorrow morning.

ZELAYAN EMISSARIES TO WORK ON CONGRESSMEN

Washington, Dec. 3.—President Zelaya has not only refused to take official communication of Secretary Knox's note which was practically an ultimatum, but he is declared to have dispatched special agents to Washington to endeavor to have the ultimatum set aside, first by appeals to the state department and second by direct appeals of members of congress.

The state department is entirely aware of the presence and identity of these emissaries. While they are being watched in a general way, the United States is maintaining over them, nothing that could be construed as espionage.

In addition to this it was reported today that any attempt that Zelaya might make to escape from Nicaragua might receive the direct and vigorous attention of the American warships now lying off the coast of that country. Secretary Knox's note intimated that the state department looks upon Zelaya as the man responsible for the capture and death of the two Americans, Groce and Cannon.

The plan to defeat the American program with reference to Nicaragua came to light this afternoon. Senator Fernando Sanchez and Dr. V. M. Roman, the former accompanied by his family, arrived here and registered at a leading hotel. Neither Senator Sanchez nor Dr. Roman would talk. They gave their addresses as New York.

Members of the Central American diplomatic corps, however, were in a flutter when they discovered the new arrivals. Senator Sanchez, they declared, is a partner of Zelaya in many business ventures in which he has managed to amass a fortune of between four and five million dollars in gold. Dr. Roman, the report continues, had been Senator Sanchez's business adviser, and he, also, is a close friend and adherent of Zelaya.

During the afternoon and early evening more than a score of telegrams were dispatched from Senator Sanchez's rooms. Almost an equally large number were received. This telegraphic activity in the Central American insula, is aimed at member of congress, with a view of winning over enough of them to render the administration's program inoperative in the event it is presented to congress.

Dr. Salvador Castillio, diplomatic agent of the provisional government and representative of the revolutionists here today made a formal request to Secretary Knox that he be received on equal terms with the agents of the Zelaya government. While the state department has not rendered any decision in the matter it is generally believed that Castillio's request will be granted.

While making all preparations for action, the government has resumed the only that preceded the issuance of Secretary Knox's note. There were no developments in the state department today and Secretary Knox appeared bored when Nicaragua was mentioned. To all appearances the department is now "marking time."

In explanation of the status of American consular officers in Nicaragua, it was said today that in all probability the Nicaraguan consuls in this country would not be disturbed at present, nor was it thought that the American consuls in Nicaragua would be required to leave that country.

The United States steamship *Eagle* has arrived at Bluefields according to a dispatch received at the navy department today.

This vessel is fitted out for surveying and according to officials at the

navy department "has not a gun aboard as large as a pop gun." Her mission is explained as being for surveying purposes alone.

Although the Nicaraguan coast is very well surveyed it is valuable from the point of view of navigators that frequent visits be made to the coast in order to locate possible obstructions or the position of shifting sands.

BODIES OF GROCE AND CANNON CREMATED

New Orleans, Dec. 3.—The bodies of Leroy Cannon and Leonard Groce, the two Americans executed by order of President Zelaya of Nicaragua, were burned, according to passengers arriving here today from Nicaragua on the steamer *Dictator*.

It was reported that incineration was resorted to to prevent identification. Afterwards, it was said, Zelaya found it impossible to conceal the fact that the Americans had been killed and was forced to make a report to this effect to Washington.

GUNBOAT PRINCETON RESUMES HER VOYAGE

San Francisco, Dec. 3.—The gunboat *Princeton* which has been ordered to Corinto and is now on its way south from Bremerton, Wash., will arrive in San Francisco at 10 o'clock tomorrow morning, according to wireless dispatches. Orders for the gunboat to proceed to Mare Island have been cancelled and the *Princeton* will not stop here.

The gunboat is under orders to take on coal and stores, provisions and ammunition at California City.

It is believed that the *Princeton* will sail for Central America early Sunday morning. The gunboat was delayed more than 24 hours by running around on a sand spit off Willapa Harbor Monday night.

INSURGENT LEADERS DENY ZELAYAN VICTORY

Bluefields, Nicaragua, Dec. 3.—The insurgent leaders deny vigorously President Zelaya's announcement that the battle Monday at Zahine was a victory for the government and reassert that it was a decided defeat for the Zelayan forces.

RECEIVER FOR CENTRAL AMERICAN STEAMSHIP LINE

New Orleans, Dec. 3.—Elmer E. Woods was appointed receiver of the Bluefields Steamship company tonight by the federal court.

The appointment of a receiver for the company comes on the heels of a report here that General Estrada, leading the revolutionist forces in Nicaragua has revoked the concession of the concern.

It is believed this action in connection with the formation of another company here yesterday for the handling of fruit from the Atlantic ports of Nicaragua will form the basis of an issue to be presented to the state department at Washington.

SARCASTIC COMMENT ON KNOX ULTIMATUM

Mexico City, Dec. 3.—The Mexican press, commenting editorially on the Nicaraguan question, speak in sarcastic terms of the actions of the United States in severing relations with the southern republic.

Accusations, a recently established Spanish newspaper, declared that the state department is entirely aware of the presence and identity of these emissaries. While they are being watched in a general way, the United States is maintaining over them, nothing that could be construed as espionage.

In addition to this it was reported today that any attempt that Zelaya might make to escape from Nicaragua might receive the direct and vigorous attention of the American warships now lying off the coast of that country. Secretary Knox's note intimated that the state department looks upon Zelaya as the man responsible for the capture and death of the two Americans, Groce and Cannon.

The plan to defeat the American program with reference to Nicaragua came to light this afternoon. Senator Fernando Sanchez and Dr. V. M. Roman, the former accompanied by his family, arrived here and registered at a leading hotel. Neither Senator Sanchez nor Dr. Roman would talk. They gave their addresses as New York.

Members of the Central American diplomatic corps, however, were in a flutter when they discovered the new arrivals. Senator Sanchez, they declared, is a partner of Zelaya in many business ventures in which he has managed to amass a fortune of between four and five million dollars in gold. Dr. Roman, the report continues, had been Senator Sanchez's business adviser, and he, also, is a close friend and adherent of Zelaya.

During the afternoon and early evening more than a score of telegrams were dispatched from Senator Sanchez's rooms. Almost an equally large number were received. This telegraphic activity in the Central American insula, is aimed at member of congress, with a view of winning over enough of them to render the administration's program inoperative in the event it is presented to congress.

Dr. Salvador Castillio, diplomatic agent of the provisional government and representative of the revolutionists here today made a formal request to Secretary Knox that he be received on equal terms with the agents of the Zelaya government. While the state department has not rendered any decision in the matter it is generally believed that Castillio's request will be granted.

LITTLE LIGHT ON BATH-TUB MYSTERY

INSURANCE COMPANIES REFUSE TO PAY POLICIES

Not Satisfied That Corpse Found in Deserted House at East Orange Was That of Unfortunate Mrs. Snead.

(By Morning Journal Special Leased Wire)

New York, Dec. 3.—The three great companies in which Mrs. Okey Wardlaw Martin Snead held life insurance for upwards of \$30,000, announced today they would refuse to honor the policies until it had been proved that the body of the half starved young woman found in the bath tub of an unoccupied house in East Orange, N. J., last Monday is that of Mrs. Snead.

The policy for \$24,000 on the life of her husband, Fletcher Snead, who is missing, is also unpaid, and no claim has been put in for the insurance. A company agent detailed to the case said today:

"We don't believe Snead is dead. We don't know that Mrs. Snead is dead. It seems incredible that any woman not hypnotized or drugged could be persuaded to endure such indignities of mental suffering and bodily privation as this poor girl now in the morgue underwent, and, if she had any claims on the ties of blood and family and devotion."

"We do know that three separate sets of policies in duplicate on the life of young Mrs. Snead were issued in favor of her aunt, Miss Virginia Wardlaw, now under arrest at East Orange, on the plea, in each instance, that the previous set had been lost. Was money borrowed on these duplicates? We do not know."

The police today were busy with a bundle of papers and scattered memoranda left by Miss Wardlaw in a drug store and recently discovered. They contained thousands of words of a compilation on insurance policies and what could be borrowed on them, mingled with letters of recommendation from some of the foremost educators of the country and all testifying to the refinement of sensibility and intellectuality of the grim old woman who now sits mute in a cell.

Such names are signed to them as Alice S. Freeman, president of Wellesley college; Alexander T. Ormond, president of medical school at Princeton university; Charles Young, professor of English literature at Columbia university; and others. The papers also indicate that young Mrs. Snead was the daughter of Colonel Robert Martin, who once lived handsomely in New York and left her a fortune of \$100,000, which has completely disappeared.

Dr. Jacob Wachsmann told the Brooklyn police tonight that on September 7 last he called on Mrs. Snead at the instance of Julian Caraballo, the attorney who drew her third will. The young woman, he said, was apparently under hypnotic influence. He found her suffering from neurasthenia produced by hypnosis and starvation.

WHIPPED CONVICT TO DEATH IS CHARGE

Texas Prison Superintendent Indicted for Murder by Grand Jury; Alleged Offense Committed in 1905.

(By Morning Journal Special Leased Wire)

Hillboro, Texas, Dec. 3.—T. E. Durham, assistant superintendent of the state penitentiary, was today indicted by the Hill county grand jury on a charge of murder. The indictment charged that Durham while sergeant of the Hill county convict farm in 1905, whipped a convict so severely that death resulted in a few hours.

LANDS DESIGNATED FOR 320-ACRE HOMESTEADS

Washington, Dec. 3.—Secretary Ballinger today designated 110,800 acres of land in Wyoming as subject to disposition under the enlarged homestead law. The localities affected, it is said at the interior department today, are not considered susceptible of successful irrigation at a reasonable cost of any known source of water supply. Including those announced today, 12,256,950 acres of land in Wyoming have been designated as subject to disposition under the homestead law.

Veteran Jockey Passes Away

Mexico City, Dec. 3.—Frod Carter, a well known jockey died at La Blanca, near Guadalajara, a few days ago according to information received today. At one time he was a trainer for J. R. Keane. Carter was 54 years old and trained several horses for prominent Mexican citizens.

CURRY CALLS ON CONGRESS TO MAKE GOOD

Governor's Annual Report Calls Attention to Party Pledges for Immediate Admission of the Territories.

(By Morning Journal Special Leased Wire)

Washington, D. C., Dec. 3.—Despite the agitation to close some of the navy yards along the Southern coast, Secretary of the Navy Meyer will oppose any such step for the present. This much was made plain in his annual report submitted to President Taft today.

Secretary Meyer says that he is not entirely convinced that the government can advantageously give up sites, in which large expenditures have been made, until after the opening of the Panama canal, when it definitely can be demonstrated which are likely to be of the greatest value.

"It is not unknown in the history of the government," says the secretary, "that national reservations have been given up and later were bought back at increased cost." Again, in discussing the same subject, he says that "the completion of the Panama canal, the development of trade in the Gulf of Mexico and the whole Caribbean region, and the probable increase of the naval establishment to meet our national responsibilities in that area will probably call for supply stations, in part for the heavy fleet, but principally for the torpedo craft and submarines and the smaller vessels needed there."

He urges the "extreme desirability" of developing the naval station partly established at Guantanamo, Cuba. "With the opening of the Panama canal, the Caribbean sea will become the scene of the great commercial activity and our responsibility as to the police and maintenance of an adequate naval repair base in that locality."

The secretary reviews in detail his proposed plan for the reorganization of the navy, and in addition makes many recommendations for the conduct of affairs in his department. Two more battleships of the all-big gun type are recommended to be constructed, but on account of the desire to keep down the expenditures, he asks only for a repair ship in addition to those two proposed plants of the navy.

The completion of the big dry dock at the Brooklyn navy yard is urged, and furthermore the secretary says that "it is clear that one dock on the Atlantic coast for docking our largest battleships, is not sufficient since that one might be injured." In this connection, he points out that provisions for docking of heavy vessels injured or damaged in action of by stranding are almost entirely lacking, and that but few navy yards exist on either coast which have sufficient water to dock an injured battleship drawing four or five feet more than its ordinary draft.

Ship construction at the navy yards of the United States is opposed as a principle by the secretary. "Only occasionally as a check on costs of particular types does he believe that the United States should build a ship. Shipbuilding concerns should be encouraged, in his opinion, so that the government can profit by their experience and resources, and also because ordinarily the work is done more economically by them than at navy yards."

Furthermore, Secretary Meyer is opposed to Congress restricting the construction by one shipbuilding company to one battleship, or to requiring one battleship to be constructed at a navy yard, or on one coast of the other.

Estimates for the coming fiscal year were included in the report. They are \$10,011,000 less than the total amount appropriated for the present fiscal year.

The senior officers of the navy are too old, according to the secretary. He announces in his report that he soon will send to the president some recommendations as to new legislation for remedying this defect. "The senior officers of our navy are too old for the responsibilities and arduous duty required in the modern battleship," says the secretary. "They are much older than similar officers in the other principal navies of the world. Not only is this the case, but flag officers arrive at the grade of rear-admiral so late that even those of longest possible service do not get adequate training as subordinate flag officers before assuming the chief command."

Recommendations for the legal establishment of a naval reserve of officers and men and in regard to the development of a naval militia are also promised.

EPOCH MARKING ENGLISH PARLIAMENT PROROGUED

London, Dec. 3.—King Edward's second parliament, which appears destined to become a memorable one in the country's history, was prorogued today with the customary formalities. It will soon be dissolved and writs issued for new elections to the house of commons. The pollings will begin January 12 and extend

KEEP ALL NAVY YARDS SAYS SECRETARY

Two Great Battleships Asked for in Annual Report; Wants Younger Men for Admirals and Captains.

(By Morning Journal Special Leased Wire)

Washington, D. C., Dec. 3.—Despite the agitation to close some of the navy yards along the Southern coast, Secretary of the Navy Meyer will oppose any such step for the present. This much was made plain in his annual report submitted to President Taft today.

Secretary Meyer says that he is not entirely convinced that the government can advantageously give up sites, in which large expenditures have been made, until after the opening of the Panama canal, when it definitely can be demonstrated which are likely to be of the greatest value.

"It is not unknown in the history of the government," says the secretary, "that national reservations have been given up and later were bought back at increased cost." Again, in discussing the same subject, he says that "the completion of the Panama canal, the development of trade in the Gulf of Mexico and the whole Caribbean region, and the probable increase of the naval establishment to meet our national responsibilities in that area will probably call for supply stations, in part for the heavy fleet, but principally for the torpedo craft and submarines and the smaller vessels needed there."

He urges the "extreme desirability" of developing the naval station partly established at Guantanamo, Cuba. "With the opening of the Panama canal, the Caribbean sea will become the scene of the great commercial activity and our responsibility as to the police and maintenance of an adequate naval repair base in that locality."

The secretary reviews in detail his proposed plan for the reorganization of the navy, and in addition makes many recommendations for the conduct of affairs in his department. Recommendations for the legal establishment of a naval reserve of officers and men and in regard to the development of a naval militia are also promised.

EPOCH MARKING ENGLISH PARLIAMENT PROROGUED

London, Dec. 3.—King Edward's second parliament, which appears destined to become a memorable one in the country's history, was prorogued today with the customary formalities. It will soon be dissolved and writs issued for new elections to the house of commons. The pollings will begin January 12 and extend

throughout to January 24. The new parliament will assemble about the middle of February.

STRIKING FOREIGNERS FLAUNT BLACK FLAG

Officer Who Attempts to Haul Down Pirate Emblem is Mortally Wounded.

Pittsburg, Dec. 3.—For pulling down a black flag in defiance of the edict of a mob of striking foreign workmen of the Cabotus Steel company's plant at Monaca, Deputy Sheriff Conway Crowley was shot today and probably fatally wounded.

Striking workmen after taking down the American flag, placed the black flag on a pole and gathered about it, during the police officers to take it down.

MEXICO CITY TO HAVE HIPPODROME TRACK

Mexico City, Dec. 3.—The minister of the interior has granted a concession to Mrs. Josephine and Laureano Lopez Negrete to build a hippodrome race track in Mexico City to cost more than a million dollars.

SUPREME COURT ALONE CAN SAVE JOHN R. WALSH

Chicago, Dec. 3.—John R. Walsh, convicted of misapplying the funds of the Chicago National bank, of which he was president, was today denied a rehearing of his appeal to the federal circuit court of appeals here by Judges Grosscup, Seaman and Baker.

This leaves Walsh without any recourse than the supreme court of the United States to stay the execution of the sentence committing him to five years in Leavenworth prison.

Walsh's fight for freedom has been one of the hardest ever fought and the ex-banker is showing the effects of the severe strain.

TRAINMEN DEMAND 10 PER CENT. WAGE INCREASE

Thirty-Two Railroads East of the Mississippi Must Settle With Brotherhood; Strike Not Improbable.

(By Morning Journal Special Leased Wire)

New York, Dec. 3.—Officers of the Brotherhood of Railroad Trainmen, who announced yesterday that they will demand a general increase of ten per cent in pay from thirty-two railroads east of the Mississippi, said tonight that the men positively will not go out in sympathy with the western switchmen. They will decline, however, to take the places of the strikers.

"We expect," said Vice President Murdock, "to present our demands on the eleventh of this month, and the wage conference will begin on the fifteenth. Although every effort will be made to avert a general strike, it is impossible to predict what the outcome of the conference will be."

DISAPPOINTED MOTHER BURIES BABY GIRL ALIVE

Mexico City, Dec. 3.—Because her first born was not a boy, Maria Isabel Hernandez, added by two other women, it is charged, buried her baby alive in the walls of an adobe house a few minutes after its birth last Monday. Today the three women were arrested.

DOLLIVER HURLS HOT-SHOT AT STALWARTS

(By Morning Journal Special Leased Wire)

Chicago, Dec. 3.—Senator Jonathan P. Dolliver of Iowa, a leading member of the insurgents, fired a shot into the senate in a speech at the Illinois club today.

Mr. Dolliver declared the most hopeful sign about the last congress was not what it did but the fact that it did not act unanimously. He believed President Taft's attitude toward the "insurgents" at the coming session would be friendly.

"The time when a 'skin game' can be worked on the people with the unanimous consent of congress will never come again," said Mr. Dolliver. "When I am asked why I do not vote with the majority, I say: 'Not until I have made a chemical analysis of it. It will be a queer state of public mind when representatives of the people are successfully read out of a party in order to secure a solidarity organized around private interests.'"

lowan Predicts Insurgents Will Find Friend in President Taft at Coming Session of Congress.

(By Morning Journal Special Leased Wire)

VESSEL SWEEPED TO DOOM; ALL ON BOARD PERISH

British Steamer Thistlemore Founders During Terrible Gale on English Channel; Thirty Go Down to Death.

SMALL CRAFT AT MERCY OF ELEMENTS

Mail Bags and Empty Life Belts Washed Ashore Give Rise to Fear That Another Disaster Has Occurred.

(By Morning Journal Special Leased Wire)

London, Dec. 3.—In a terrific gale that raged today over the British Isles the steamer *Thistlemore* went to her doom off Appleby in Banstable bay. It is believed tonight that her entire crew of thirty men perished. Four bodies already have been washed ashore. The steamer was in command of Captain Yeo and was bound from Liverpool for an American port.

Small vessels everywhere were at the mercy of the elements and Lloyd's reports tonight, having been driven ashore, were few and far between.

The British steamer *Thistlemore*, which arrived at Falmouth today, reports that in the storm her captain, mate and one seaman were washed overboard by the seas. The seaman was picked up but the captain and mate perished.

The *Thistlemore* left Barry, Wales, Thursday with a cargo of coal. She caught the gale half way up Bideford bay, where she foundered. Another vessel was in distress in the same vicinity but proceeded on her way and it is hoped she may have saved some of the *Thistlemore*'s crew, whose chief engineer is said to be Barry.

It is feared another disaster occurred in the Irish channel. The tale of *Man* steamer *Ellen Vannin*, with a crew of twenty-one and twelve passengers, left Ramsey, Isle of Man, for Liverpool at midnight Thursday, but has not since been heard from.

A mail bag and two life belts washed ashore on the banks of the Mersey leave little doubt that she foundered. One of the *Vannin*'s passengers, Mark Joughin, was going to America to get a fortune left him there.

The *Thistlemore* was 4,000 tons and was built in 1906 at Stockton, England. She was owned by the Albany line of Sunderland.

WARRINER HELD IN BONDAGE BY BOLD BLACKMAILERS

Defaulting Cashier Forced to Pay \$25,000 in Effort to Escape Clutches of Hungry Horde of Extortioners.

(By Morning Journal Special Leased Wire)

Chicago, Dec. 3.—Charles L. Warriner, according to developments today, was compelled to make a lump cash settlement of \$25,000 to escape being held in the clutches of black-mailers for seventeen years in come.

Prosecutor Hunt has in his possession 250 demand notes for \$100 and they are alleged to have been presented by a woman to Warriner for immediate signature September 26, 1905.

These notes bear dates from September 22, 1905, up to August 21, 1922. The notes are said to be part of a statement of blackmail by which Warriner was to have been held in financial bondage, as it were, for seven years.

But Warriner balked at discounting the future, it is said, and paid the entire \$25,000 at once instead of \$100 in installments over a period of seven years.

Warriner's refusal to sign the notes did not free him from the grip of the blackmailers, as he later was compelled to pay various sums ranging from \$250 hotel bills to \$1,000 for expenses for the benefit of a woman.

Also the Brooklyn, missing stenographer from the United States collection of encumbrances, will appear before the grand jury next Monday or Tuesday. At attorney has given this assurance to Prosecutor Hunt, since she disappeared November 17 her whereabouts were unknown until a detective agency located her last night. It is believed she went to Chicago and New York to confer with interested persons.

STRIKERS SEE VICTORY IN SIGHT

DISCREDIT CLAIMS OF MANAGERS' ASSOCIATION

Movement on Foot in St. Paul to Effect Amicable Settlement Has Hearty Co-operation of Governor of Minnesota

(By Morning Journal Special Leased Wire) St. Paul, Dec. 3.—Officials of the switchmen's union said today they were not alarmed at the reports received from the west today of members of the Brotherhood of Railway Trainmen going back to work.

Union officers received word that everything was still tied up in Seattle despite the report that the Trainmen had decided to go back to work. The switchmen say that whatever action was taken by the Seattle Trainmen, will make no material difference, as there are only a few of them in the Seattle yards and that, in fact, 97 per cent of the switchmen in the northwest are members of the Switchmen's union.

President Hawley spent the day in Minneapolis where he had a conference with Governor Eberhart. In this conference were Secretary Martin, of the executive committee of the switchmen and E. W. Decker, president of the Minneapolis Clearing House association.

Governor Eberhart announced later that a well defined movement had been begun to effect a settlement of the strike. A statement was published quoting the governor as saying he believed the strike would be settled in three days. Governor Eberhart, when asked as to the truth of the interview, said he had been incorrectly quoted. He said he had met some of the Minneapolis men who had talked with him regarding the possibility of getting both sides to the controversy together and he thought that a movement was on foot in that direction.

President Louis W. Hill, of the Great Northern when asked of his knowledge of the situation, said there could be no truth in any talk of settlement even with individual railroads as the general managers had decided that they would all stand together. Mr. Hill said the road could get enough men in the east to fill the places of strikers but that they did not want to bring them all in now, preferring to give the old men a chance to return.

President Hawley of the switchmen's union also said that nothing definite was accomplished at the Minneapolis conference and that the prospects of a settlement were no better tonight than they were before. Regarding the defection of the men in Duluth, Mr. Hawley said he had a message from Duluth today saying that only three of the Brotherhood of Railway Trainmen had returned to work and that it was believed they would go out again tonight.

Mr. Hawley again reiterated his statement that there was no possibility of arbitration under the Erdman act.

Freight here is being moved with difficulty and there is congestion in the local yards.

It was announced that about 1500 men had been imported into the Twin Cities today and that the railroad officials said they were satisfied that conditions would be normal in a few days.

The situation shows material improvement," said General Manager Gruber of the Great Northern. "The men of the old men returned during the day. We worked fourteen engines in the Twin City terminals as against six yesterday, and will have twenty tomorrow. This is over fifty per cent of our normal number at this season. We opened up our freight houses in both cities also in Superior and Duluth."

"We are now taking freight from connecting lines at the Twin Cities for points west, and expect to bring in some freight tonight from the head of the lakes."

"All local trains are moving out of the Twin Cities and head of the lakes terminals, and some extra in addition. We expect a considerable number of new men tomorrow. We did considerable switching on industry tracks today, including some from elevators and mills at Minneapolis, and expect to increase this tomorrow."

GOVERNOR OF IDAHO NOT ANXIOUS TO BE ARBITRATED

Idaho, Dec. 3.—Governor Brady today disavowed the plan suggested that the dispute between the northern railroads and their switchmen be referred to an arbitration board composed of the governors of the states which are feeling the effects of the strike. He said:

"I do not think it would be wise for the five governors to attempt to arbitrate the strike but would suggest that a committee be five composed of conservative business men and labor leaders be agreed on to see if it is possible to harmonize the differences between the Northern Pacific and Great Northern and their switchmen."

SITUATION AT SEATTLE

Seattle, Dec. 3.—The switchmen's strike caused much less inconvenience today to the Great Northern and Northern Pacific railroads than on former days. The freight blockade is being broken and operating officials believe normal conditions will be restored in four or five days, even if the strike is not declared off.

The Northern Pacific employed 100

teen new men today and has now a force of fifty of whom many are undergoing instruction.

The Great Northern dispatched two trains to St. Paul. Perishable freight in limited amount is being received and dead freight is being accepted subject to delay.

Members of all unions not involved in the strike had given the railroads every assistance asked for in the movement of trains.

ROADS NOT YET READY TO ACCEPT FREIGHT FOR WEST

Chicago, Dec. 3.—No formal meeting of the conference of railroad general managers was held here today although the switchmen's strike occupied much of the attention of railway officials. The question of lifting the restriction against receiving freight for shipment to different points within the strike zone was taken up by the different roads. Officials of the Chicago, Burlington, and Quincy this afternoon announced that the road would accept freight to all points in the northwest and Minneapolis. The Chicago, Milwaukee & St. Paul, however, will accept only goods of a non-perishable character for western points.

FIVE THOUSAND MEN IN MONTANA LOSE EMPLOYMENT

Butte, Mont., Dec. 3.—The mines and smelter of the Pittsburgh-Montana Copper company closed today through lack of fuel, affecting between 400 and 500 men. About 5,500 men are now out of employment in this state on account of the strike.

HELENA THREATENED WITH FUEL FAMINE

Butte, Mont., Dec. 3.—Local Great Northern railway officials tonight received instructions from the superintendent of the car service at St. Paul to remove at once all embargo on the acceptance of freight. The strike of switchmen locally shows no change on the surface.

Helena is threatened with a fuel famine, as the coal supply under present weather conditions will not last a week. There is no change in the strike situation there. The yardmaster has succeeded in getting practically all accumulated cars out of the yard.

The Great Northern switch engines started in the yards at Great Falls today with a switching crew being made up of other employees. It also managed to get in a trainload of coal from the Sand Coulee mines for local consumption. The one switch engine has managed to handle a few carload shipments to local people, but has made very little impression on the situation. A few freight trains were moving today on the Bitter Root division, both east and west, but none on the Burlington extension nor over any of the Great Northern branches except the coal trains mentioned.

The coal mines at Belt, Stockert and Sand Coulee all closed today, throwing about 1,200 men out of employment, to remain closed until cars are available. Specials to the Great Falls-Tribune say that switchmen are working at Glasgow and Cut Bank, on the Great Northern, and that six or seven switchmen at Havre will go to work.

RECRUITING MEN IN OHIO TO BREAK THE STRIKE

Cleveland, Dec. 3.—Grand Chief Stone of the Brotherhood of Locomotive Engineers announced today that he is keeping count on the number of strike breakers recruited by local agencies for service in the northwest. "Only sixteen have so far been enrolled for strike-breaking service," he said, "and it is not certain that there will all remain."

Chief Stone said the engineers are not concerned in the strike. A total of 1,700 men are asked for by the employment and detective agencies here for service on the Burlington and Great Northern railroads. 200 of them for duty as guards.

SUBJECT TO DELAY

Chicago, Dec. 3.—Traffic managers of the various railroads running through the northwest today issued orders to receive all freight consigned to points on their lines without restriction. The "subject to delay" notices posted when the strike began were withdrawn. The managers declare that within a few days conditions will be normal.

RAISING CASH FOR SAN DIEGO SHOW

San Diego, Dec. 3.—At a mass meeting held in this city tonight, an announcement was made that a campaign of several days devoted to sale of stocks of the Panama-California exposition to be held here in 1915, had resulted in a fund of over \$100,000, representing three-tenths of the amount to be raised by popular subscription.

Many of the larger business houses and corporations have not responded to the appeal of the finance committee, but it is the belief of the exposition management that the full fund of \$1,000,000 will be available within a few weeks. The larger part of the sum subscribed has been in amounts ranging from \$10, the cost of a single share, to \$100, although several firms and individuals have invested as much as \$25,000 in the project.

MEXICAN LIEUTENANT GOVERNOR LOSES OFFICE

Lower California Official Deposed for Allowing American Prisoner to Escape

San Diego, Cal., Dec. 3.—Lieutenant Governor Villalino of lower California was removed from office today by Governor Noyes. The removal grows out of the escape from this city and later from lower California of Earl Lennell, son of a prominent furniture dealer of this city who wanted to answer the charge of killing Earl Davis in a quarrel over a girl.

Lennell fled to lower California, where he was placed under surveillance. Later he disappeared and Prosecuting Attorney Cates of San Diego at once preferred charges against Villalino, holding him responsible for the escape.

FED HUSBAND WITH ARSENIC, CHARGE AGAINST WIDOW

Mrs. Dora Doxey Brought to St. Louis on Warrants Issued at Instance of Her Dead Husband's Sister.

(By Morning Journal Special Leased Wire) St. Louis, Dec. 3.—With Mrs. Dora E. Doxey in the custody of Sergeant Matthews of the St. Louis police department and accompanied by a trained nurse, a lawyer, her husband, Dr. L. B. Doxey and her father, enroute from Columbus, Neb., to face a charge of murder, the coroner late today completed arrangements to hold an inquest over the body of William J. Erder.

The state claims that Mrs. Doxey put arsenic in Erder's food. She lived with him as his wife. Circuit Attorney Jones today continued his search into the life of Mrs. Doxey, who is charged with having married Erder in April. He died July 10 after an illness of four days.

Miss Kate Erder, sister of the dead man, today told the circuit attorney that Dr. Doxey had been here in company with Mrs. Doxey a few days after Erder died.

Miss Erder furnished the state a list of witnesses and they will be examined by the circuit attorney tomorrow. Mrs. Doxey's three arrests on statutory charges, murder and bigamy charges, are the result of the detective work of Miss Erder.

ACCUSED WOMAN GOES BACK WITHOUT REQUISITION

Omaha, Dec. 3.—L. L. Albert, attorney for Mrs. Doxey, passed through here tonight on his way with his client to St. Louis. Mr. Albert said:

"I have advised Mrs. Doxey to return to St. Louis without requisition because I felt that was best to have the trouble over. Persons in a position to know the facts in this case believe the \$2,500 life insurance is of more importance to those behind the prosecution than is the death of Mr. Erder. It is possible that Dr. and Mrs. Doxey have not been smart enough to anticipate all the complications that might arise and for that reason have not acted wisely in neglecting to take steps that might have prevented this trouble."

"I am convinced, however, that the matter can be easily adjusted and no great amount of litigation will be necessary."

FAST MAIL STRIKES BROKEN RAIL

Half a Dozen Postal Clerks and Three Passengers Hurt in Serious Wreck on Pennsylvania.

(By Morning Journal Special Leased Wire) Louisville, Ind., Dec. 3.—While speeding along at the rate of fifty miles an hour, fast passenger train No. 24 on the Pennsylvania was wrecked near this place tonight. Six mail clerks and three passengers were injured, none fatally.

The accident is supposed to have been due to a broken rail which caused the mail car to leave the tracks and go down an embankment. The smoking and parlor cars were derailed.

The train is one of the fastest on the Pennsylvania system and runs between St. Louis and New York. Louisville is 25 miles west of Richmond.

SCHOONER THAT CARRIED COOK REPORTED LOST

Birney Cove, N. F., Dec. 3.—The schooner John R. Bradley, widely known as the vessel that carried Dr. Cook's Arctic expedition, is reported missing from the fishing fleet and it is feared that she is lost.

FIVE HUNDRED PAIRS OF BUTTERMILK QUENCH FIRE

Pennsboro, Wis., Dec. 3.—A plentiful supply of buttermilk saved the little town of Patch Grove, from destruction by fire when the plant of A. F. Huberman Creamery company was destroyed. When the 500 people of the town realized that the creamery could not be saved they set all efforts on saving the home of Wesley Garlach, a local farmer. A bucket brigade was formed and with five hundred buckets of buttermilk rescued from the creamery the Garlach home was saved. Had the fire communicated to the Garlach home it is probable the town would have gone.

Alleged Leper Still Held

Washington, Dec. 3.—John R. Early, the alleged leper, who was arrested here yesterday under the authority of an act of congress to prevent the spread of contagious diseases in the district of Columbia, remains under quarantine. He declared today he would fight against his detention.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This Liniment is one of the best and most remarkable preparations in use. Sold by all druggists.

FLOOD VICTIMS IN WASHINGTON SUFFER

Intense Cold Follows Torrential Rains; Refugees Huddled in Water-soaked Camps Have Trying Time.

(By Morning Journal Special Leased Wire) Bellingham, Wash., Dec. 3.—Yesterday's estimate of flood losses in northwest Washington are almost doubled today as the waters recede and outlying districts are heard from. Many place the loss at \$2,500,000 in Skagit and Whatcom counties. The upper Skagit valley will be out of the flood of the work is retarded and built.

Many towns have received no mail for six days. Resumption of train service into this city is not expected for eight or ten days.

Every shingle and lumber mill on the Skagit and Nooksack rivers is shut down, many of them being partially wrecked. Several million feet of logs are floating in Puget sound and scores of logging camps and miles of railway have been obliterated.

Bitter cold weather has succeeded the flood, the mercury falling to 15 degrees above zero. There is great suffering among refugees camped in the foothills and huddled in second stories of houses on the submerged lowlands.

SPOKANE MILLIONAIRE BLOCKED GUGGENHEIMS

Inquiry Into Cunningham Coal Claims in Alaska Continued.

Spokane, Wash., Dec. 3.—Charles Sweeney, the mining man and millionaire of Spokane and New York, was the man who prevented the Guggenheim group of thirty-three rich coal claims in Alaska, according to testimony given today. At the hearing before United States Commissioner McGee, H. W. Collins testified that immediately after he had placed in evidence a deed for his coal claim while the deal with the Guggenheims was pending, he received an offer of \$22,000 from Mr. Sweeney for his interest. Collins promptly took his deed out of escrow and tore it up. He claims that other claim holders took about the same course, abandoning the Guggenheim deal. This occurred July 16, 1907.

Minutes of the meetings of holders of coal claims on that date were made public for the first time today. These show that it was unanimously voted to send a committee to Salt Lake to negotiate with the Guggenheim interests, this committee being given full power to act.

Boxing
AthleticsVarsity Undisputed Gridiron
Champions of New Mexico
Arizona and West TexasAGGIES UNABLE TO
SCORE AGAINST
THE U. N. M.FARMERS GO DOWN TO
DEFEAT, 51 TO 0Eleven From Mesilla Park Plays
Gritty Game But Is Over-
whelmed by Magnificent
Work of the Albuquerque
Team.

By defeating the Agricultural college eleven on the Barcelona gridiron yesterday afternoon by the overwhelming score of 51 to 0, the University of New Mexico gained undisputed title to the championship of New Mexico, Arizona and West Texas.

The Varsity victory yesterday, witnessed by a crowd of nearly a thousand people, was a fitting culmination to the unprecedented success which the U. N. M. eleven has had on the gridiron during the season. When the referee blew his whistle announcing the end of the contest yesterday afternoon, it marked the closing of the football year for the University—a year that has been replete with brilliant victories at home and abroad. The only defeat the U. N. M. suffered during the season was at Boulder, where they were downed before the mighty University of Colorado eleven by the score of 23 to 0. The U. N. M. victory over the Farmers yesterday, however, was absolute and convincing evidence that the local eleven has the southwest outclassed.

The Farmers lost to a football team that was worth losing to, and they should not let the sting of defeat go too deep under the cuticle. The Farmer boys fought the Varsity back all the way, up and down the gridiron, were in every play all the time, and it was not because of a lack of fighting material that they were defeated.

Starting the game the Aggies showed brilliant form and promised to give the boys from the hill a mighty struggle. The clever trick plays of the Varsity, assisted several times to a successful execution by Duke Forline, coupled with brilliant individual playing and machine-like team work, overwhelmed the Aggies and made them unable to stand, whitewashed, being unable to score even one single solitary point during the two halves of thirty minutes each.

The game started at 2:40, and notwithstanding the low-sided score it was sufficiently full of ginger to make the most critical football fan glad that he ventured down to the Barcelona grounds, where the contest was held, because of the extremely muddy and sticky gridiron at Tracton park.

Cornish started things moving at the beginning of the contest by kicking the ball to the fifteen-yard line. The Aggies secured the ball and advanced up the field in perfect formation, the interference being excellent. By a series of brilliant forward passes the Farmers carried the ball to within fifteen yards of the U. N. M. goal and it looked as though the Farmers would work the ball into the end zone, but the Varsity worked the forward pass with such great success that those who had predicted a big game for the Varsity began to get rather dubious of the prospect of a touchdown so soon after the kick-off. Forward passes by Floyd to Redding brought the pigskin to the ten-yard line, where it changed hands on downs.

It was at this stage that the Aggies were electrified by witnessing the successful execution of what was probably the most brilliant forward pass ever attempted on a local gridiron, and which resulted in the first score for the Varsity within six minutes of play. Before the Farmers had fully lined up Cornish had sent the sphere sailing through the air, high over the heads of the waiting Aggies. Allen caught the ball and was off for the goal posts like a Marathon runner running against time on the second lap on a half-mile track. With almost a clear field ahead of him Allen ran like the wind, threw off interference, and before the Aggies knew what was being pulled off the Varsity captain had scored a touchdown. Allen kicked goal and the score was 6 to 0.

The Farmers kicked goal on the kick-off and the Varsity decided to take a scrimmage at the twenty-five-yard line. On an attempt at a forward pass the Varsity was penalized fifteen yards, which backed them up against the Farmers' goal line with a wayward of only ten yards. Cornish punting and the Farmers were downed in their tracks. Hamilton, left guard for the Varsity, intercepted a forward pass which had been qualified and

made a forty-yard run to a touchdown. Allen missed goal and the score was 11 to 9 in favor of the Varsity.

Although the piling up of two touchdowns on what may be called almost pure football luck, of course had its effect on the Farmers, they shook that uncomfortable hoodoo feeling off and started again, kicking off to the Varsity. In a scrimmage Hall, right end for the Aggies, was laid out, and Carlisle finished the game for him. The Varsity was penalized fifteen yards on an unsuccessful forward pass. The Farmers got the ball on a fair catch, on a punt by Cornish, and started things moving in the direction of their goal again by gaining thirty yards. The Varsity recovered the ball when it was within ten yards of the Farmers' goal. Cornish punted for forty yards, Silva carried it ten yards of a forward pass and Cornish gained fifteen yards on a fake run around right end. The eleven little quarter then made the visitors sit up and take notice by sailing a beautiful forward pass straight and true to the waiting arms of Galles, who jumped two yards to a touchdown. A successful kick by Allen made the score cards read 17 to 0.

With three minutes to play the Farmers kicked to Allen, recovering the ball on a punt. Realizing the futility of an attempt to smash their way to a touchdown in so short a time, the Aggies tried to kick a goal from the field, which, however, was unsuccessful by a very small margin, the ball just passing outside the goal posts.

The second half.

Things happened with startling rapidity in the second. The Varsity succeeded in making a touchdown almost before the referee had finished blowing his whistle announcing the beginning of the second half of the battle. The Aggies kicked off and Price recovered the ball on the ten-yard line. With Otero for interference he carried it ten yards and was brought to a halt by a sizzling third by a husky Farmer boy. Looking very innocent, Cornish received the ball and hurried it twenty yards, where Galles was on the job, with a clear field ahead of him. The Farmers were left at the post and realized that fact only too well. One Aggie made a desperate attempt to catch up with the fast end but there was nothing doing and "Pat" carried the ball over the line. An attempt to kick goal by Allen proved a fizzle, making the score 23 to 0.

The Aggies kicked over the line on the kick-off and the Varsity punted in preference to a scrimmage. A triple pass by the Farmers, which resulted in a touchdown, was discredited because the pass had not been completed within the lines, it being claimed that the second man who handled the ball was outside of the sidelines when he passed it on to the third player. The Aggies punted, and by a series of end runs and short forward passes, the Varsity worked up to another touchdown, which was scored by McConnell on a line smash. Allen kicked goal and the score was 28 to 0.

Galles and Cornish, both of whom played invincible ball yesterday, then pulled off another sensational stunt, assisted by the forward pass. Cornish executed a successful throw to Galles, who carried it down the line for sixty yards, being within two yards of the goal when he was brought down. Otero was sent through the line for the necessary two yards. The score was 34 to 0 when Allen kicked goal.

The Farmers kicked off to Price, who was downed in his tracks. McConnell carried it fifteen yards on a forward pass. "Doc" Cornish and Galles then worked the same old forward pass stunt in a beautiful manner, so easily and cleverly that the Farmers were almost unable to grasp the significance of the play until it was too late. Galles was where Cornish wanted him to be, waiting for the pigskin, and it was carried to within two yards of the line. McConnell carried it over, Allen failed to kick goal and the U. N. M. men had piled up 39 points.

The next twelve points were scored in a rush and a hurry. Line plunges, end runs and forward passes brought the ball on the twenty-five-yard line and Arens was sent around the end for a touchdown. McFie and Price were out of the game with ten minutes to play and Lemke went in for McFie and Bryan substituted for Price. Lemke distinguished himself at end, and Bryan played a hard game at half. With less than three minutes to play the Varsity scored another touchdown on the forward pass system, Cornish giving free transportation to Lemke, good for another score. Allen kicked goal on the last two touchdowns, making the final score 51 to 0.

The Farmers were game losers and took their defeat with good grace, congratulating the U. N. M. boys on their magnificent playing. The Farmers were in turn congratulated by the locals for the gameness which they manifested throughout.

The perfection of the forward pass and its successful execution almost everywhere it was attempted was undoubtedly what piled up the big score for the locals. Playing an almost entirely open game, they avoided line smashes as much as possible and end

POOR DAY FOR THE
TALENT AT
JUAREZOnly One Favorite in Money;
Masterly Ride of Jockey
McCahy Brings Lighthouse
to Victory.

(By Morning Journal Special Leased Wire.)
Juarez, Dec. 3.—Lighthouse, backed down from 5 to 1 to 2 to 1 was the only favorite to score during the afternoon at Juarez today. His victory was mostly due to the masterly ride of McCahy. He let The Thorn cut out the pace to the stretch, when he came fast on the outside and won by a head. It was the second killing of the meeting for Jimmy Blute. Summaries:

First race, selling, six furlongs—Congo, 104 (Warren), 7 to 1, won; Star Thistle, 102 (McCahy), 12 to 1, second; Flashback, 104 (Rice), 4 to 5, third. Time, 1:20 2-5. Dalesman, Pocotaligo, Hollow, Execution, Apologize and Oriflame also ran.

Second race, selling, seven furlongs—Cheswardine, 105 (Small), 3 to 1, won; Bon Ton, 99 (Garner), 8 to 1, second; Ada O. Walker, 104 (Rice), 12 to 1, third. Time, 1:34 4-5. R. I. Smith, Black Hawk, Deuce, Cull and Posing also ran.

Third race, selling, six furlongs—Kyle, 102 (McCahy), 5 to 1, won; Radation, 105 (Kennedy), 2 to 1, second; Lord Clinton, 103 (Austin), 3 to 1, third. Time, 1:19 1-5.

Results at Jacksonville, Fla., Dec. 3.—Only two favorites, Court Lady and Goldconda took first money today. Court Lady was heavily played at 9 to 5; Topsy Robinson in the same race, was almost played off the boards at 11 to 5. The second event which was won by Goldconda, probably was the most exciting race of the afternoon. The weather was disagreeable, but a large crowd was in attendance. Summaries:

First race, 5 1-2 furlongs, selling: Fend Heart won; Austin Starvation, second; John A. Mura, third. Time, 1:19 1-5.

Second race, 6 furlongs, purse: Banister won; Sir Orlando, second; Chapsack, third. Time, 1:09 1-5.

Third race, 5 1-2 furlongs, selling: Edgely won; Earl Court, second; Cleotroth, third. Time, 1:09 1-5.

Fourth race, 7 furlongs, selling: Court Lady won; Topsy Robinson, second; La Reine Indio, third. Time, 1:20.

Fifth race, 1 1-16 miles, selling: Pocotaligo won; Hoyle, second; Jack Baker, third. Time, 1:54 4-5.

Sixth race, 1 mile and 1 furlong, selling: Goldconda won; Heist of Hyacinth, second; Mamie Algot, third. Time, 1:55 2-5.

Tampa, Fla., Dec. 3.—Three favorites came home in front today at Tampa, one of the three at good prices and well played, backed into the position after the opening price. This was Banck Bob, who made a game stretch run and beat Eschbach out by two lengths. The day was ideal, the thermometer being up to 85. Summaries:

First race, 5 furlongs, selling: Calhoun won; Albusch, second; Pirate Duane, third. Time, 1:06 2-5.

Second race, 6 furlongs, selling: May Latz won; Lorian, second; Green Bridge, third. Time, 1:19 3-5.

Third race, 5 furlongs, selling: Jack Deemer won; Sir Court, second; Flashing, third. Time, 1:12 2-5.

Fourth race, 6 furlongs, selling: Orphan Lad won; The Clown, second; My Love, third. Time, 1:21.

Fifth race, 1 mile and 1-16: Maximum won; Huertano, second; Delotoma, third. Time, 1:54 1-5.

Sixth race, 5 furlongs, selling: Banck Bob won; Eschbach, second; Elston, third. Time, 1:06.

New Date Fixed for Fight.
Kansas City, Dec. 3.—The ten-round fight between "Cyclone" John Thompson and "Fighting Dick" Hyland will take place here December 17, it was decided tonight. The fight was originally scheduled for December 13.

POLISH WRESTLER WINS
DESPITE ROUGH WORK
Kansas City, Dec. 3.—Zysko, Polish wrestler, defeated Raoul de Rouen, a Frenchman in a rough contest at Convention hall today. Referee Dave Porteous gave Zysko the first fall on a foul after twenty minutes, eleven seconds. Zysko won the second with a cross body and tosses hold after 20 minutes, 35 seconds.

De Rouen resorted to almost every unfair tactic known to the game. He gouged the patient Polisher in the eyes, twisted his nose, pinched his body and slugged him. When De Rouen learned he had fouled he snarled away with his fists, clinched and threatened Porteous. Zysko was showered with flowers.

Zysko tried hard to throw his opponent with a toe hold in the second fall, but De Rouen broke him every time. Four thousand saw the contest. Zysko weighed 235 and De Rouen 235 pounds.

Journal Want Ads. Get Results.

Farmers Are Entertained.
The Aggies were guests of honor at a pretty and informal society function given by the University students in the Elks' hall room last night. The dance was attended by a large number of University boys and girls and friends of the institution.

third, Time, 1:20 1-5. Corso, Tipster and Juddy Page also ran.

Fourth race, selling, one mile—Lighthouse, 100 (McCahy), 2 to 1, won; The Thorn, 105 (Garner), 7 to 2, second; Servile, 105 (Molesworth), 5 to 2, third. Time, 1:50 1-5. Dr. Nash, Landlord, McNally and Cotto also ran.

Fifth race, five and one-half furlongs—St. Dunstan, 107 (Creery), 5 to 1, won; J. H. Houghton, 106 (McCahy), 5 to 2, second; La Dextra, 105 (Wilson), 7 to 5, third. Time, 1:13 1-5. Blusive and Short Order also ran.

Sixth race, selling, five furlongs—Hancock, 110 (Molesworth), 15 to 1, won; Kopek, 113 (Fisher), 10 to 1, second; Acequia, 105 (Austin), 7 to 2, third. Time, 1:05 3-5. Bonnie Hays, Brougham, Lady Adelaide, Miss Gratitude and E. M. Frey also ran.

Results at Emeryville.
Oakland, Dec. 3.—Well balanced fields faced the starter at Emeryville today and the sport was witnessed by a good crowd. Interest centered principally in the seven furlong event, for which Sonia was the favorite. She got away very poorly, suffering interference at the start and almost all chance. Lewiston cut across the field and after carrying Miss Picnic wide won from Binocular. May Sutton was one of the favorites to win. The weather was clear and the track heavy. Results:

First race, five furlongs, purse: Arthur House won; Chan, second; Elodia, third. Time, 1:02 3-5.

Second race, six furlongs, selling—Deneen won; Ampedo, second; Colbert, third. Time, 1:15 1-5.

Third race, six furlongs, selling—May Sutton won; Biskra, second; No Quarter, third. Time, 1:14.

Fourth race, seven furlongs, purse—Lewiston won; Binocular, second; Miss Picnic, third. Time, 1:25 2-5.

Fifth race, six furlongs—Priceless Jewel won; Fordella, second; Burleigh, third. Time, 1:14 2-5.

Sixth race, five furlongs, purse—Dr. Dougherty won; Banorella, second; Directiole, third. Time, 1:02.

Results at Jacksonville, Fla., Dec. 3.—Only two favorites, Court Lady and Goldconda took first money today. Court Lady was heavily played at 9 to 5; Topsy Robinson in the same race, was almost played off the boards at 11 to 5. The second event which was won by Goldconda, probably was the most exciting race of the afternoon. The weather was disagreeable, but a large crowd was in attendance. Summaries:

First race, 5 1-2 furlongs, selling: Fend Heart won; Austin Starvation, second; John A. Mura, third. Time, 1:19 1-5.

Second race, 6 furlongs, purse: Banister won; Sir Orlando, second; Chapsack, third. Time, 1:09 1-5.

Third race, 5 1-2 furlongs, selling: Edgely won; Earl Court, second; Cleotroth, third. Time, 1:09 1-5.

Fourth race, 7 furlongs, selling: Court Lady won; Topsy Robinson, second; La Reine Indio, third. Time, 1:20.

Fifth race, 1 1-16 miles, selling: Pocotaligo won; Hoyle, second; Jack Baker, third. Time, 1:54 4-5.

Sixth race, 1 mile and 1 furlong, selling: Goldconda won; Heist of Hyacinth, second; Mamie Algot, third. Time, 1:55 2-5.

Tampa, Fla., Dec. 3.—Three favorites came home in front today at Tampa, one of the three at good prices and well played, backed into the position after the opening price. This was Banck Bob, who made a game stretch run and beat Eschbach out by two lengths. The day was ideal, the thermometer being up to 85. Summaries:

First race, 5 furlongs, selling: Calhoun won; Albusch, second; Pirate Duane, third. Time, 1:06 2-5.

Second race, 6 furlongs, selling: May Latz won; Lorian, second; Green Bridge, third. Time, 1:19 3-5.

Third race, 5 furlongs, selling: Jack Deemer won; Sir Court, second; Flashing, third. Time, 1:12 2-5.

Fourth race, 6 furlongs, selling: Orphan Lad won; The Clown, second; My Love, third. Time, 1:21.

Fifth race, 1 mile and 1-16: Maximum won; Huertano, second; Delotoma, third. Time, 1:54 1-5.

Sixth race, 5 furlongs, selling: Banck Bob won; Eschbach, second; Elston, third. Time, 1:06.

New Date Fixed for Fight.
Kansas City, Dec. 3.—The ten-round fight between "Cyclone" John Thompson and "Fighting Dick" Hyland will take place here December 17, it was decided tonight. The fight was originally scheduled for December 13.

POLISH WRESTLER WINS
DESPITE ROUGH WORK
Kansas City, Dec. 3.—Zysko, Polish wrestler, defeated Raoul de Rouen, a Frenchman in a rough contest at Convention hall today. Referee Dave Porteous gave Zysko the first fall on a foul after twenty minutes, eleven seconds. Zysko won the second with a cross body and tosses hold after 20 minutes, 35 seconds.

De Rouen resorted to almost every unfair tactic known to the game. He gouged the patient Polisher in the eyes, twisted his nose, pinched his body and slugged him. When De Rouen learned he had fouled he snarled away with his fists, clinched and threatened Porteous. Zysko was showered with flowers.

Zysko tried hard to throw his opponent with a toe hold in the second fall, but De Rouen broke him every time. Four thousand saw the contest. Zysko weighed 235 and De Rouen 235 pounds.

SALT LAKE MAY
STAGE BIG
FIGHTWAY DISCOVERED TO GET
AROUND LAW IS BELIEFFinal Articles Signed by Jeffries
and Johnson Provide for
Contest Either in California,
Utah or Nevada.

(By Morning Journal Special Leased Wire.)
New York, Dec. 3.—The Jeffries-Johnson fight for the heavyweight championship of the world will be fought either in Salt Lake City or in the vicinity of San Francisco, on July 4.

Final articles for a 44-round contest were signed by the principals today in a hotel at Hoboken, N. J. Neither of the contestants, according to the articles, is to engage in any boxing event before the big fight. This effectively eliminates the possibility of Johnson meeting Langford or of Jeffries fighting Kaufman between now and then. Both it is further stipulated, must enter active training at least 90 days before the fight. Five ounce gloves are to be used and the contest shall be governed by straight Marquess of Queensberry rules. The referee is to be selected at least sixty days before the contest.

If Jeffries, Johnson and Tex Rickard and John J. Gleason, the two last named, the successful bidders, cannot agree on a referee, Jeffries and Johnson are each to select two men and from these four Rickard and Gleason are to make any selection they desire. The referee is to be paid \$1,000, the contestants paying him two-thirds, the promoters the balance.

Jeffries and Johnson have each deposited \$10,000 as a forfeit to the promoters if they fail to appear, while Rickard and Gleason have deposited \$20,000 to stand as a forfeit in case they fail to stage the fight and to apply on the purse of \$101,000 offered. Sixty days before the fight Rickard and Gleason are to deposit an additional \$30,000 of the purse and the remaining \$71,000, forty-eight hours before the contest.

Robert W. Murphy, a New York hotel promoter, is the temporary stakeholder and he may serve permanently. Both fighters wanted to have a western bank serve as stakeholder, but it was said that difficulty was encountered in getting one to assume the responsibility.

This stakeholder question was debated for several hours in the New York offices of Henry I. Kovalsky, a San Francisco lawyer. Johnson, ever cautious, suggested a safe deposit box with three locks, each of the contestants to hold one key and the third to be held by a disinterested party. The promoters objected to this and the plan outlined above was finally adopted. Johnson throughout seemed fearful lest some one defamed him.

Rickard said on Thursday morning he did not believe the laws of Utah would permit the fight to be held in that state. But today when he had read several messages from prominent Salt Lake men, he said:

"I believe the fight can and will be held in Salt Lake City. The law there is not very stringent and I am assured that it can be altered satisfactorily. I have had a talk with the governor of Utah, but I am not at liberty to make the matter public."

Jeffries is anxious to have the fight in or near San Francisco and sporting men here believe, notwithstanding the Salt Lake City talk, the fight will go to California. The feasible articles give the promoters the right to stage the fight in Utah, Nevada or California, but Nevada has not been considered seriously.

The moving pictures, which are expected to bring in the most money, will be managed and controlled by a stock company to be formed with Jeffries and Johnson each holding a one-third interest and with Rickard and Gleason holding the other third.

George Little, manager for William Fox, said today that Johnson was willing to accept "Eddie" Grady, of San Francisco, and one of the unsuccessful bidders for the fight, as referee. Rickard and Gleason are also favorable to Grady. It is understood.

WILLIAMS MURDER CASE
RESULTS IN MISTRIAL
Roswell, N. M., Dec. 3.—After being out more than forty-eight hours the jury in the case of John Williams, the well known stockman on trial for the murder of John Armstrong, manager of the N. T. ranch, reported last night that they were utterly unable to agree. The trial, which took place at Canyon City, Texas, attracted widespread interest in eastern New Mexico and the Texas Pan Handle, owing to the prominence of both the victim and his alleged slayer. It is said that the jury stood nine for acquittal and three for conviction.

ABANDON HOPE FOR
MISSING BLUEJACKETS
Washington, Dec. 3.—Absent from their ship for nearly seven days and nights, the five members of the deck crew of the gunboat Marietta, now off Port Limon, who were driven to sea in a helpless whaleboat, last Friday night, still are unaccounted for. Practically all hope of their rescue has been abandoned.

Indispensable.—There are some simple remedies indispensable in every family. Among these, the experience of years assures us should be recorded Perry Davis' Painkiller. For both internal and external application we have found it of great value, especially in cases of colds, rheumatism, or fresh wounds.—Christian Era.

Only One

There is only One Oil Heater for the housekeeper who wants the Best. By best is meant thorough, all-around work and faultless efficiency down to the smallest detail.

This work must be performed day after day without fuss and fume and without smoke.

PERFECTION
Oil Heater

(Equipped with Smokeless Device)

No other oil heater in the world has attained the high heat efficiency and the sure smokeless performance reached by this splendid achievement of modern science.

Turn the wick up as high as it will go—there's no smoke—as low as you please, there's no smell—no fuss.

In raising, the wick is checked before it reaches the point at which it would smoke, by the new, quickly-removed

Automatic Smokeless Device

The flame is at its zenith of power, when the wick is locked, thus getting the heater's full capacity.

The heat is as cleanly as that which comes from a steam radiator—and more certain. You may have it just where you want it—beside the window—in the library—in the bath room or in the living room.

Brass foot holds 4 quarts of oil—burns 9 hours. Finished in nickel or Japan. Various styles and finishes. Damper top—cool handle—aluminum window frame.

Every Dealer Everywhere. If Not At Yours, Write for Descriptive Circular to the Nearest Agency of the

CONTINENTAL OIL COMPANY

DEMAREST VICTOR
IN BILLIARD
CONTESTChicago Youth Takes Final
Game and the Championship
From George Sutton in Easy
Fashion.

(By Morning Journal Special Leased Wire.)
New York, Dec. 3.—Calvin Demarest of Chicago won the final game and the championship tonight, defeating George Sutton of Chicago in the world's professional series at 18.2 ball billiards by 200-65 in the fourteenth inning.

Demarest won the bank and blanked Sutton on the first ball and missed an easy one. Demarest took 47 and Sutton responded with another blank. Sutton was visibly nervous and could not get down to his game. In the following inning the count of 21 was his highest run of the game.

Demarest had to accept two zeros but took them unconcernedly and in his eighth inning began a smashing run of 117. He played with what seemed reckless rapidity but the precision of his control showed in the accuracy with which the balls tipped in and out of bank into perfect position. Sutton was never in the running thereafter and Demarest sent out with an unbroken run of 82 in the fourteenth inning.

AMERICAN SHOOTERS
TO ATTEND OLYMPIAD

New York, Dec. 3.—The first national association for the encouragement of trap shooting today decided that this country should have a representative team of amateur trap shooters at the Olympic games in Athens, next year. Tom Macdonald, manager of Kithsburg, Ill., was authorized to pick the team. The grand American handicap for 1910 will be held in Chicago next June and the Pacific coast handicap at Seattle early in September.

PHYSICIAN LEVIES
ATTACHMENT ON PURSE

Up to Tex Rickard to Settle His Debt for Bill Before Pidding Off Fight.

New York, Dec. 3.—A constable shipped an attachment on the stakeholder

of the Jeffries-Johnson fight tonight to make sure that Tex Rickard pays a judgment for that amount issued against him last September in Nevada.

The plaintiff in the case is a physician who alleges that professional services rendered Rickard's family while they lived in New York in 1907 were never paid for. It is expected that the matter will be adjusted.

BUSH FIRE MISTAKEN
FOR FLAMING STEAMER

Los Angeles, Dec. 3.—A brush fire in Torrey canyon above Santa Monica tonight gave rise to a rumor that a ship was on fire off Point Dume, near the place where the steamer St. Croix burned some days ago, and caused the revenue cutter McCulloch to go to the scene. The fire was of small consequence.

TRUTH TRIUMPHS

Albuquerque Citizens Testify for the Public Benefit.

A truthful statement of an Albuquerque citizen, given in his own words, should convince the most skeptical of the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, sleeplessness, urinary disorders or any form of kidney ill, the cure is at hand. Read this:

Mrs. Charles Thomas, 101 E. Lead avenue, Albuquerque, N. Mex., says: "Our knowledge of the merit of Doan's Kidney Pills dates back some eight years ago and since that time we have rarely been without a supply on hand. I suffered a great deal from backache, caused by disordered kidneys. I was all run down, had no ambition and felt miserable in every way. The first dose of Doan's Kidney Pills brought relief from the pain in my back and continued use restored my kidneys to a normal condition, making me feel like a different person. Doan's Kidney Pills have also been taken by another person in our house who at times had much difficulty in straightening after stooping on account of the pain across the loins. Relief soon followed the use of this remedy. Whenever Doan's Kidney Pills have been taken since then, they have given prompt and positive benefit."

ALBUQUERQUE - - - NEW MEXICO

MEANS MORE THAN IT SAYS.

Readers of the Morning Journal

probably noticed in our news columns

a day or two ago, a semi-official an-

ouncement to the effect that the St.

Louis & San Francisco, and the Chi-

cago & Rock Island railroads had dis-

solved partnership, and that the

Frisco had been purchased outright by

a combination of capitalists, abun-

dantly able to handle the property,

and "carry out the designs of the

original company."

According to private reports from

St. Louis, that announcement means,

especially for this section of the coun-

try, a good deal more than appears

upon the face of it. The ostensible

reason for the dissolution, as given in

the report of the transaction, was

that since the two roads were paral-

lel lines, and owned and operated by

the same company, they were in great

danger of coming in damaging col-

lision with the interstate commerce

law, and therefore they deemed it

prudent to separate. No doubt that

was one reason for the dissolution,

but it was not by any means the prin-

cipal one, because the railroads, as a

rule, know many means of getting

around little difficulties of that sort.

The "true inwardness" of the situa-

tion, as well known to those on the

inside, is that St. Louis feels that she

has been getting the cold shoulder

from the big continental lines, and

she has finally been aroused to the

necessity of getting a move on her-

self, in order to avoid getting out-

and the large holdings of her people

in the consolidated roads enabled her

to force a dissolution for the purpose

of taking hold of the "Frisco," and

causing that line to "carry out the

designs of the original company"—

the same being the construction of a

road under St. Louis influence and

control which would give that city

a chance to secure a square deal by

means of a direct line of her own

from the Mississippi river to the Pa-

cific ocean, and it is confidently be-

lieved by those who are supposed to

have inside information in the mat-

ter, that long before the close of the

present season we shall see active op-

erations going on all along the line,

having in view the ultimate purpose

of pushing the "Frisco" through to the

Pacific, possibly over the Santa Fe

tracks west of Albuquerque, and

possibly coming into this place by

way of Texas canyon.

St. Louis is one of the richest cities

on the continent. She has felt for

some years past that she was gradu-

ally being left on the side track to the

great railway systems. She is

provisionally slow, and it takes her a

long time to make up. But she is

evidently awake at last.

A PITIFUL PICTURE.

There has been for some time past

a strike in progress among the op-

erative of the textile mills at Ludlow,

Massachusetts. These workers are

mostly all members of a Polish colony

that settled at that point some years

ago, and the most of them live in

houses owned by the same company

that owns the mills. When it was

made clear that there was no possi-

bility of their returning to work on

the old terms, other workers were

employed to take their places, and

then it became necessary for the com-

pany to erect the garrets occupying

the houses belonging to the company.

In order to accommodate the new

comers. And in consequence of this

action, the stories that are told of the

suffering prevailing among the evicted

workers and their families, are truly

heart-rending.

It must be remembered that the win-

ter climate of Massachusetts does not

resemble that of New Mexico. In this

territory, a temporary shelter suffic-

ient to protect one against the severity

of the average winter weather, can

be very easily provided, but in Mas-

sachusetts the situation is radically

different, and it is turned out, af-

terwards in December means physical

suffering of the most acute character.

A newspaper report, written from

Ludlow, next day after the eviction

made:

"Of the 250 persons made homeless

at least 25 slept in the open. Whole

families huddled about feeble fires

built of wood from the cellars of

evicted families.

"Some of those evicted are without

shoes and few of the men and only a

part of the women have stockings.

Women with infants in their arms and

women about to become mothers have

walked the streets dividing their time

today between the streets and the

shelter of homes of unevicted fami-

lies.

"At least 10,000 sightseers visited

Ludlow today, the incoming popula-

tion being three times that of Lud-

low. The household furniture piled

promiscuously in the streets presented

a pathetic spectacle. Keepers were

trampled ruthlessly in the mud. A

man of eighty years, supporting him-

self with a cane, spent the greater

part of the day ruefully surveying the

remains of a woodpile which he had

cut and split. The children of the

evicted families overhauled piles of

furniture in search of their toys, and

the finding of a doll or a ball was the

signal for exclamations of delight.

"Many of the evicted families were

absent last night by friends in the

Polish colony in Indian Orchard. Po-

lish families in Ludlow which still

have roofs over their heads have been

liberal donors of provisions. The town

of Ludlow, however, must face in the

immediate future the problem of pro-

viding not only for those now home-

less, but for hundreds of others who

are to be turned into the streets be-

ginning tomorrow.

"Outwardly there were no signs of

disorder today. But it is known, the

strikes are in an ugly mood, and fear

of an outbreak is constantly felt, but

the presence of at least 400 armed

men in town makes any resistance

hopeless."

If a story like that should go out

from this territory, every member of

congress from the New England states

would point to it as evidence of our

unworthiness to associate with civil-

ized people, and as proof positive of

the unfitness of New Mexico for state-

hood. But in New England it is dif-

ferent. Boston statehouse is the head

of the universe, and Massachusetts is

the center of American civilization.

Therefore, let the poor devils freeze in

the street, while we take up a collec-

tion to send missionaries to the

heathen.

PARKHURST AND THE WOMEN.

According to the current report

from New York Dr. Parkhurst's

Thanksgiving sermon against "wom-

an's suffrage" has stirred a good deal

of feeling among the New York suffra-

gettes.

Dr. Parkhurst took his text from

Genesis—"In the image of God created

He him, male and female created

He them"—and he proceeded to ask

why it was that God created mankind

male and female. Was it simply a

physiological contrivance for the pro-

duction of population?

Having thus suggested that there

might be a reason for the two sexes

that had nothing to do with reproduc-

tion, he went on to say that, as far as

our knowledge at present went, pro-

gress lay in a further development of

this originally fundamental distinction

between sexes instead of in its oblit-

eration.

Biologists tell us that the higher

we go in the scale of animal

life the more the respective func-

tions of the two sexes become dif-

ferentiated—more and more

widely separated from each other.

In their quality, aptitude and mis-

sion. From which we have to

conclude that the finer the type

of human civilization the more

widely apart man and woman

will become in all that relates to

the ingredients of their personali-

ties and therefore to their interests

and their respective spheres of

service.

He added that the first criticism to

be passed on what was now happening

—that is, the suffrage movement—

was that it was not being conducted

on the basis of principles that have been

thoroughly canvassed; that an attempt

was being made to accomplish some-

thing without first "discovering whether

it fits into the framework of soci-

ological principle and historic trend."

The absence of all such effort was

to him, he said, the distinctive fea-

ture of the recent meeting at Carn-

egie hall, "which did not deal in fund-

amentals, but was simply one grand

accumulated bombast for the hal-

lot," and which might aptly be char-

acterized not as a "movement," but

as an eruption.

It is possible that the suffragettes

might have passed all this over in

silence and scorn. But Dr. Parkhurst

was very far from thinking the sub-

ject exhausted with an argument

along the preceding lines. Still re-

fering to the Carnegie hall meeting,

he proceeded to indulge in some point-

ed references which must be regarded

as polite muckraking.

What may have individually

troubled between ladies in that

audience and members of the other

sex that rendered them so

cheerfully responsive to reflec-

tions and innuendoes inflicted

Live News From New Mexico and Arizona
What's Doing all Over the Great SouthwestSILVER CITY MAN
PRESIDENT OF
CONVENTIONBAPTISTS HAVE BUSY
WEEK IN LAS VEGAS

Convention Sermon by Portales Minister; Gathering Most Successful in Annals of New Mexico Denomination.

[Special Correspondence to Morning Journal]
Las Vegas, Dec. 2.—Promptly at 9 o'clock the New Mexico Baptist convention was called to order by President B. T. Link. The first part of the morning was given over to a devotional service, appointment of committees, the introduction of visitors and enrollment of messengers. Then came the convention sermon, which was preached by Pastor E. P. Aldredge of Portales, who is also the editor of the New Mexico Baptist.

Pastor Aldredge had for his theme, "The Wilderness Preacher, or Some Lessons From the Life of John the Baptist"—Luke 3:1-11; 7:24-29. The convention re-elected B. T. Link of Silver City as president, but in the absence of former Clerk Marcus Watkins, Pastor E. S. Atwood was elected secretary.

The afternoon session began by hearing reports on the Bible schools, the publication society and religious literature. Following these reports there were two addresses on the prayer meeting problem, the first by E. P. Aldredge of Portales, whose topic was, "Is the Prayer Meeting Worth While?" The second address was, "How to Make the Prayer Meeting Worth While," by George R. Varney, for some time secretary of territorial missions, but at present pastor of the Baptist church at Raton.

TIME EXTENDED TO
FARMERS AT
CARLSBAD

Reclamation Service Order Gives Beneficiaries of Project Four Months' Chance to Get Payments Ready.

[Special Correspondence to Morning Journal]
Carlsbad, N. M., Dec. 1.—A telegram has been received from the director of the reclamation service that the first installment of the building charge under the Carlsbad project, which under the regular public notice becomes delinquent today, will not be delinquent until March 31, 1910. This action taken by the department is of much importance to the farmers under this project, giving them an additional four months' time on the first payment of the building charge. It is the experience of the water users that it is difficult to get crops harvested and marketed before December 1. They will, therefore, now have an opportunity to dispose of their crops to better advantage under this change of date of payment.FINE HIGH SCHOOL
GOING UP AT
CLOVIS

Badly Needed to Accommodate School Population; Clovis Newspaper Is Right Up to Date.

[Special Correspondence to Morning Journal]
Clovis, N. M., Dec. 2.—The Clovis Journal has installed this week one of the largest and best cylinder presses in eastern New Mexico. It is a drum cylinder Cranston with all of the latest improvements. The Clovis Journal is also installing other new and improved machinery and this will be one of the best-equipped plants in the country.

The new \$18,000 high school building, which is one of the most splendid structures of its kind in this portion of the country, has begun to look like a real building. The third story has been reached in the outside walls, and in two weeks the roof will have been put on. The work on the building is being rushed with all reasonable dispatch and it is hoped that it can be occupied early in the year. As it is now, the different grades are very badly congested in various parts of the city wherever an available church or residence can be found. There are more than seven hundred children enrolled in school here, and there would be more but for the fact that the quarters are so badly crowded.

OLD TIME CATTLEMAN
CAN'T GET RESIGNED
TO THE DRY FARMERS[Kansas City Livestock Journal.]
W. L. Popejoy of Raton, N. M., has been in the southwestern range country long enough to be classed among the natives, although he was born and raised in Green county, Missouri. That country was very new when he landed there. In those days there were no fences and no talk about dry farming. When he located, Mr. Popejoy supposed he was far enough away to be forever out of the way of farmers in an exclusive cattle country. "But the settler found us, and he is there," he said. "It makes no difference whether that was intended by Providence for the cattlemen exclusively or not, so far as this settler is concerned. He is bound to go in anyway. And he is in, and it looks very much as if he would stay. We tried to discourage him, but he is not that kind that is easily discouraged. He wants to stay. I am opposed to dry farming, and try to make myself believe it will prove a failure. I may not succeed in holding to that belief always, but I do not see how it can win. We have a very light rainfall down there and then we are about a mile and a half nearer heaven than you people down here. I have raised bumper potato crops on my land, and have raised cabbage whose heads weighed thirty-eight pounds. That is some cabbage, and the potatoes were the finest I ever saw. But I have not attempted to do any dry farming for the reason that I think it is a waste of time. Others have attempted it, and in some cases they have raised very good crops. I am not much on the experiment. I want results right away, and no fooling. But we have a most delightful climate up there, a little more than 8,000 feet above sea level. And this has been a fairly successful year all through, and the people are doing well."SAWDUST FLOUR BOX CAR PILFERER
CONSERVATION
MEASURE

Forest Service Recommends It Not for Biscuit-Making But as Ingredient of Dynamite and Other Useful Things.

Morning Journal Bureau,
613 Munsey Building,
Washington, D. C., Dec. 1.

Flour from sawdust is another step in the movement for the conservation of forest resources. The United States consul at Christiania, Norway, has sent to this government a suggestion along this line which may be of value to American lumbermen who are wrestling with the problem of sawdust waste.

The flour in question is not the kind which goes into the making of light, fluffy biscuits, and the other kind which are not light, or flaky pastry, but it is an ingredient of dynamite, linoleum, xylite, which for the information of the man on the street is a kind of artificial flooring, and other things. It is not put forward as a new discovery, for it has been in use for several years in Europe, and to a small extent in this country.

The wood flour is ground in a cheap mill, very similar to those which grind corn and rye. Pine and spruce sawdust is used in Europe, and after passing through the stones and the bolting chest, it is sacked or baled for shipment. It is then worth twelve to thirteen dollars a ton.

The flour has a number of uses, one of which is in the making of dynamite. It is the absorbent for the nitroglycerine, which is the explosive but it is an ingredient of dynamite. Inferior to that made with industrial earth as the absorbent, but it serves many purposes, and is cheaper. But dynamite is one of the smallest prospective uses for the product. Linoleum makers mix it with linseed oil and give body to their floor coverings. It is not considered quite equal to ground cork for this purpose, as it is less elastic; but it is cheaper and meets requirements for medium grades.

The flour fills an important place in the manufacture of xylite, a kind of artificial flooring, resembling wood in weight, and stone in other respects. It is used for kitchen floors, and in halls, corridors, cafes, restaurants and public rooms. It is impervious to water, and is practically fire-proof. It is floor material in some of the German war vessels. It is so used because it is not liable to take fire or splinter if struck by shells.

Many additional uses for wood flour will probably be found. The amount of sawdust to be had in this country is practically unlimited, and millmen will welcome any plan that will lessen the waste at the sawdust dump. Norway exports thousands of tons of this sawdust flour yearly, and the United States takes some of it. Germany is a large manufacturer also, and has been for years. England is an extensive buyer, and much goes to France.

IRELAND WINS OUT;
MORIARTY IT
REMAINS

Vandal Hand of Uncle Sam Is Stayed and Estancia Valley Town Is Still Namesake of the Judge.

The vandal hand of the government has been stayed and the flourishing little town of Moriarty over in the Estancia valley, whose title the postoffice department would unfeelingly change to "Carson," remains Moriarty. It is a triumph for Judge Moriarty of Moriarty, no kin to Terence Moriarty, and another feather in the cap of the old and, if one could thus mingle his metaphors, perhaps one might even say that it is another leaf for the shamrock.

It came about in this wise. Two weeks ago, regardless of tradition and of the sentiment of the Estancia valley denizens, the postoffice department ruthlessly and without warning, deliberately changed the name of Moriarty to Carson. If this was in honor of Kit Carson it was all patriotic enough, but then there are plenty of postoffices up around Taos or otherwise which could be changed to Carson. The pioneer pathfinder of the Estancia valley was not Kit Carson but Judge Moriarty.

Backed by the united sentiment of his town, Judge Moriarty picked up his shillelagh and came across the mountains to Albuquerque hot foot. He waited on Delegate Andrews without delay. The delegate expressed the warmest sympathy and shook his head solemnly over the situation. Bidding the Judge he of good heart he packed up his grip and was off post-haste to Washington.

As has been frequently stated on numerous occasions Mr. Andrews is the "Man Who Does Things." He don't do it. The order was revoked, the blot was removed from the "scutcheon," the government and its minions backed up and headed in and carefully closed its switches after it. The name

JOHN WILLIAMS SENT
UP FROM ALAMOGORDO
IMPOSING ARRAY OF LEGAL TALENT
AT DISTRICT COURT SESSION;
JUDGE COOLEY HAS STRENUOUS
EXPERIENCE.

Imposing Array of Legal Talent at District Court Session; Judge Cooley Has Strenuous Experience.

[Special Correspondence to Morning Journal]
Alamogordo, N. M., Dec. 2.—In the United States court yesterday the only trial by jury was the case of United States versus John Williams, under an indictment charging breaking into and pilfering a car of merchandise at Carrizozo. The jury after a short deliberation returned a verdict of guilty. The defendant looked to be not more than 19 years of age, and on account of his youth the court imposed the light sentence of six months and a day in the penitentiary. J. H. Smith, United States deputy marshal, left on the limited for Santa Fe with the prisoner.

There were four cases tried by the court, in which the United States as plaintiff prayed for an order to remove fences which were being unlawfully maintained on the public domain, and for an injunction to restrain the replacing of the fences. The court ruled for the plaintiff in all four cases. Only one case was appealed. J. Frank Curran, special agent of the general land office, was the principal government witness.

There being no further cases to be tried at this term, the petit jury was discharged and court adjourned. Captain Leahy and his assistant, Herbert Clark, left this morning for Las Vegas. Alamogordo has never before entertained so large and imposing an array of legal talent as was in attendance at this double term of court. The following out of town attorneys were here: Captain David J. Leahy, United States district attorney, Las Vegas; Herbert W. Clark, assistant United States district attorney, Las Vegas; Major W. H. H. Llewellyn, special agent to the United States attorney general, and territorial district attorney; Morgan O. Llewellyn, deputy district attorney, both of Las Cruces; Col. Pritchard, ex-attorney general of New Mexico, Santa Fe; Judge John W. Thompson, Kansas City; Mark H. Thompson, ex-district attorney, Las Cruces; H. B. Hamilton, Carrizozo; Tom Lea, Jr., W. B. Ware, Dan M. Jackson, George Estes, El Paso; Joseph F. Bonham, Las Cruces; Reed Holloman, V. W. Moore, E. G. Welch, Tucuman; Harry N. Daugherty, Socorro; J. Frank Curran, Werner Gibson, Santa Fe; J. M. Elliott, Memphis, Texas; Earl A. Mayo, Tulare, Calif.; P. Blair, Groesbeek.

Judge Alfred W. Cooley had an attack of illness after dinner last evening, and as a consequence is not able to preside in court today. Major Llewellyn, district attorney, telegraphed last night to Judge Frank W. Parker at Las Cruces, requesting him to come to Alamogordo to preside until Judge Cooley recovers. It is hoped that Judge Parker will reach here on the limited this afternoon to preside in the territorial court.

The exact nature of Judge Cooley's illness is not known, but it is not thought to be in any way serious. For the past few months Judge Cooley has been laboring under a strain peculiarly trying. The sessions of court at Tucuman, Carrizozo and the two at Alamogordo have been practically a continuous performance, with little or no time to rest and recuperate. Then there occurred the sad death of Mrs. Cooley's sister, Miss Dalton, after a long, hard siege of typhoid fever. Judge Cooley was presiding at Carrizozo at the time and could not possibly leave his post. Mrs. Cooley accompanied her sister's remains to Boston, and has not yet returned to Alamogordo. Under such circumstances it is no wonder that Judge Cooley, serving his first term upon the bench, is indisposed.

Moriarty was restored and Moriarty, by the way, she will remain for years after the shamrock waves green over the grave of Judge Moriarty of Moriarty. And long may the Judge live before he dies, at all. But wouldn't you think Postmaster General Hitchcock was a better politician than to make a break like that?

[Special Correspondence to Morning Journal]
Melrose, N. M., Dec. 1.—The snow that fell for more than two days early in December means more to the farmers of this section of the dry farming belt than can easily be estimated. There are thousands of acres of wheat in the trade belt of Melrose. Most of this was put in excellent winter condition by the rains about three weeks ago, and now that this heavy snow has fallen it insures a bumper crop of wheat for the Melrose district next year.HEAVY SNOW MEANS

There are thousands of acres of wheat in the trade belt of Melrose. Most of this was put in excellent winter condition by the rains about three weeks ago, and now that this heavy snow has fallen it insures a bumper crop of wheat for the Melrose district next year.

Health and Vigor

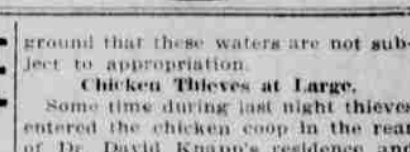

Miss Edna Buckler, a Prominent Young Lady of Hume, Ill., Praises Duffy's Pure Malt Whiskey for Restoring Her to Health and Vigor After Being Very Weak and "Run Down"—She Recommends It to All in Need of a Tonic Stimulant That Makes the Old Young and the Young Energetic and Vigorous.

Miss Buckler recently wrote: "I was very weak and run down, had no life or energy, was very much in need of something that would tone up my system and enrich my blood. On the advice of friends I began taking Duffy's Pure Malt Whiskey, and it immediately put new life into me. I feel wonderfully better, and would advise any one needing a tonic stimulant that will make them strong and vigorous to take Duffy's Pure Malt Whiskey." Every testimonial is published in good faith, and is guaranteed. Men and women in all walks of life testify to the great good derived from the use of Duffy's Pure Malt Whiskey, the world's greatest tonic stimulant.

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only never in bulk. Price \$1.00. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for a free illustrated medical booklet and free advice.

WOULD IRRIGATE
BIG TRACT WITH
SACRAMENTOPROJECT PROPOSED
IN OTERO COUNTY

Natural Reservoir Site Sixty Miles North of Alamogordo Be Improved; Some One Stole Tom Catron's Chickens.

[Special Dispatch to the Morning Journal]
Santa Fe, N. M., Dec. 3.—A certified check for \$2,578 accompanied the application of the Oasis Development company to the Carey act board today for the segregation of 30,180 acres for one of the most feasible irrigation projects thus far branched in Otero county. Clarence T. Ullery is the president and John C. Enfield the secretary of the company, which proposes to turn the flood waters of the Sacramento river, some sixty miles south of Alamogordo into a natural reservoir site that covers 4,540 acres and will hold 103,430 acre feet of water. A canal of only 2,000 feet in length needs to be dug to carry the water into an arroyo which would sweep the flood waters into the reservoir which would be created by the construction of an earth embankment 5,510 feet long. The diversion dam in the Sacramento at proposed place will be only sixty feet wide. The estimated cost of the project is about \$175,000.

The quarterly report of Territorial Treasurer M. A. Otero is made public today. Shug balances remain at the end of the fiscal year after all debts of the territory had been paid. The total is much larger than it was a year ago and proves that the commonwealth is exceedingly well off in a financial way.

Notary Public Appointed.
Governor Curry today appointed Clara M. Fulchum of Raton, Colfax county, a notary public.Delegate to Rivers and Harbors Congress.
Governor Curry today appointed the following delegates to the National Rivers and Harbors congress which will meet at Washington, D. C., on December 8: M. A. Otero of Santa Fe, W. H. Andrews of Albuquerque, W. A. Fleming Jones of Las Cruces and Charles A. Spices of Las Vegas.Incorporation.
Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by the Santa Fe Abstract, Realty and Insurance company agency, with headquarters in room 19, Catron block, Santa Fe. A. B. Benahan is named as the New Mexico agent. The capitalization is \$15,000, divided into 150 shares. The company will commence business with \$10,000. The incorporators and directors are: A. B. Benahan, forty-four shares; E. P. Davies, forty-four shares; George M. Kinsell, seven shares; Paul Butt, five shares.Must File Proof of Publication.
Many applicants for water rights are losing their priority rights by failing to file in the office of the territorial engineer the proof of publication required by the law. It may some day prove a serious matter to the water user, who imagines he is secure in his water right because of having made prior application, but who failed to file the required proof of publication.Water Applications Rejected.
Territorial Engineer Vernon L. Sullivan today rejected the applications of Mrs. Caesarina A. Lewis and C. H. McLanathan of Carlsbad, Eddy county, for waste waters that had accumulated in the shape of a lake, on the

ground that these waters are not subject to appropriation.

Chicken Thieves at Large.
Some time during last night thieves entered the chicken coop in the rear of Dr. David Knapp's residence and stole a large number of chickens. Many of the stolen fowl were thoroughbreds and the total loss to Dr. Knapp is fully seventy-five dollars. The fact that thieves had been at work became known this morning when it was noticed that the back yard, the alley entrance and the alley were strewn with chicken heads and beheaded with blood. The heads were all of young chickens just being raised. Why the thieves pulled off their heads and not those of the larger chickens is a mystery. The thieves left absolutely no trace behind them. Recently chickens have been stolen from John W. Mayes, T. B. Catron and R. J. Crichton.SCRATCH FEED TO
MAKE THE HENS
COME ACROSS

Balanced Ration Contains All That Hen Needs and She Will Lay With Gusto When She Eats It.

Are your hens doing their duty? Are they laying, or are they laying down on the job?

If the lady members of your poultry yard are not earning their pail, there is an easy way to put them back on a paying basis. There is a Scratch Feed manufactured right here in this town which is warranted to make the hens come across and there are plenty of people who have used it that will corroborate the statement. It really works wonders.

Some people think when a hen goes on a strike that the thing to do is to stuff her with wheat, or with oats, or corn or some other one grain. When this fails of the desired effect the hen is blamed for the result, when, in fact, she is innocent as anything. To secure a large supply of eggs the fowls must be fed egg-making food. Scratch Feed fills the bill.

The first few eggs laid pay for the cost of production; the "few more" eggs form the profit. Scratch Feed brings the "few more" that make the chicken business pay.

This is a well balanced ration ready mixed for the daily feed, palatable and highly nutritious. It is manufactured to meet the demand of poultrymen, who, as a result of experience with foods manufactured from by-products and inferior or damaged grain, have discovered the importance of using only foods produced from perfectly sound grains. Poultrymen who wish to obtain the greatest food value for their money will realize that it is to their advantage to buy of manufacturers who are specialists in the production of poultry foods. Remember this: There is a big difference between poultry food made up of the leavings, the sweepings of stock food and breakfast-food manufacturers, and the whole grain ground specially for the hen.

Scratch Feed is for sale by E. W. Fee, the feed man, on West Lead avenue, across from the High school. Mr. Fee has all the necessary machinery for preparing the feed and has a plentiful stock of the best of the necessary materials. It will pay any chicken raiser to try it and see how the hen acts. She will surprise you.

If you are suffering from biliousness, constipation, indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain Medicine Co., Des Moines, Iowa, with your name and address plainly on the back and they will forward you a free sample of Chamberlain's Stomach and Liver Tablets. Sold by all druggists.

Noble Work Will Bring Merry Christmas to Needy Urchins

YULE SEASON HAS DARK SIDE SAYS MRS BOOTH

KNOWS OF HOMES THAT LACK CHRISTMAS CHEER

How Great Salvation Army Worker Plays Partner to Santa Claus Where Santa Claus Is Almost a Stranger.

(Special Correspondence to Morning Journal)
Chicago, Dec. 3.—"Now, as I face Christmas and the cold season, of which it is the beginning, I almost shudder to realize how much that is sad and bleak and dreary the angel visitants must behold," declares Maud Wellington Booth, who has told "The Shadow Side of Christmas" in the December "Woman's World," relating her experiences during years of work among the poor to whom Christmas only makes more bleak and gruesome their poverty and hardship.

"There are still, thank God, the lovely, happy homes where Christmas will be merry as the chiming bells and where happy, guarded little ones know nothing of cold, hunger or cheerless poverty," she adds. "But I have lived many years with my eyes open to the other side. It surely is the side that would make the angels at my child pictures turn away with dropping wings and tear dimmed eyes."

"For several years now, on behalf of the men whom I have learned to know within prison walls, I have come in touch with the sad, desolate homes where their wives and children are bearing the heavier and of the burden. The story I could tell of many of them is heart-breaking in the extreme."

"Yesterday I went shopping for a mother who has seven little ones. She lives on the third floor of a squalid tenement house in New York City. I was buying the tiny garments that will be needed this month for yet another year scrap of humanity, and, oh, the misery of it, the husband and father has just been sent away to prison for thirty-eight years for burglary. Not much Christmas gladness in that home, and I can hardly picture my glittering angels of the white, snow-covered gardens, crowding up those pathos, dirty stairs or floating outside the fire escape and looking in at those uncurtained windows. Yet in reality is not that just the place that angels and divine pity would seek out and to which they would speed the most swiftly?"

"There is another poor little woman who comes to mind when I think of what Christmas is going to mean. She is so brave and uncomplaining, always speaking with such gratitude of those who have been kind to her, and smiling cheerfully whenever we have seen her, and yet her sad heart and frail shoulders carry a burden all too heavy. She has four little children to care for, the eldest of whom is only six and the youngest a babe of three months. She has a father dying of cancer to care for and her husband is in prison for two years. She gets her rent free, as caretaker of a house, and they have lived this summer on three and one-half dollars a week. Does she speak bitterly of the husband far from her, she tells what a good father he was, how kind and thoughtful to her when he had work, how fond of his home and his little ones. Then all this home-blighting disaster happened through his being out of work, discouragement followed by despair, sympathizing friends of the wrong sort who offered drink when he was wandering the streets, and hunger, then arrest through being in the wrong company, and prison followed."

"Down in North Carolina, twelve miles from the nearest town or railroad, is another little family where the mother is struggling to provide her little ones with food and shelter. The father is in a western prison, serving a three years' sentence for perjury. He is so ignorant that when he writes me he has to do it through the pen of another, signing it with X. His work is to mine, and he is very doubtful if he is able to realize the nature of his crime when he committed it, as he is evidently an utterly illiterate and ignorant man. But for all that he was a hard worker and the only support of his family. In a letter that lies on my desk the mother says: 'I work on a farm to support myself and children. Crops are very poor in this community this year and we are having a hard time. I am compelled to work in the field in the very cold weather to get my children something to eat. My husband has been gone about eighteen months. Our clothes that we had when he left are worn out. We are almost naked and barefooted, too. I have four children, three girls and one boy. I am trying to bring them up right the best I can. I tell them if their father has done wrong, we cannot help that, we must try to do the best we can and ask the good Lord will help us in our lonely hours.'"

"It is in such families as these that I have had the joy of playing Santa Claus' partner. If you could see the Volunteer Prison League department at headquarters in Twenty-eighth street, New York, during the whole of December, you could realize what Christmas means to us. Last year we paid out about \$3,000 for clothing and groceries. Our friends supplied us with toys and we packed several hundred boxes that were not only delivered in these poor homes in and around New York, but were sent by express to many parts of the country."

placed on sale, have found other means of rendering valuable assistance in the Red Cross stamp campaign.

The Billposting Sign company, 814 Walnut street, has taken 100 posters, which it will put up free of charge in prominent positions in this city and the suburbs.

At many vaudeville and moving picture theaters lantern slides of the Red Cross stamp will be used at each performance during December. Theaters where this will be done are: The Colonial, Fifteenth and Chestnut streets; The Family, Thirteenth and Market streets; The Unique, Twelfth and Market streets; The Bijou, Twelfth and Market streets; Keith's Theater, Twelfth and Chestnut streets.

Wm. J. Anderson, 2111 Orleans street, has taken seven lantern slides to exhibit at his various moving picture entertainments. He also purchased 100 stamps for his personal use.

Enthusiasm in State.
In the state, outside of Philadelphia, the enthusiasm still grows. Chester is the largest city to signify its desire to have a Red Cross sale.

Secretary J. Byron Deacon, of the Pennsylvania Society for the Prevention of Tuberculosis, will go there tomorrow to organize the work in that locality.

A citizen of the town of St. Benedict has ordered 2,000 stamps and will conduct the sale alone. The \$20 realized in this way will be spent to send a poor consumptive to a sanatorium.

The order from other cities to date, are: Allentown, 20,000; Wilkesbarre, 20,000; Hazleton, 50,000; Portville, 150,000; Easton, 100,000; Bradford, 100,000; Sellersville, 10,000; Reading, 200,000; Oil City, 30,000; Erie, 150,000; Harrisburg, 50,000; Chester, 10,000; St. Benedict, 2,000.

The agencies represented in selling the stamps in various communities of the state comprise anti-tuberculosis societies, associated charities, and groups of citizens who are to sell the stamps and hold the money in trust until after the holidays, when the Pennsylvania Society for the Prevention of Tuberculosis will organize anti-tuberculosis work in those communities.

Everywhere the enthusiasm for Red Cross Christmas stamp campaign is intense. The fact that the bulk of money realized from the stamp sale is to be kept for local use, instead of being returned to the National Red Cross, as was necessary last season, has made the idea of a stamp sale received with favor in cities which could not adopt it last year.

The following dispatches to the Philadelphia North American show how the movement has spread all over the state:

At Wilkesbarre.
Wilkesbarre, Pa., Nov. 27.—Needling \$2,400 in addition to the regular annual subscription and donations, to carry on the work that has been undertaken, the directors of the Wyoming Valley Society for the Prevention and Treatment of Tuberculosis are making a general appeal for aid, and have also arranged to place on sale many thousands of Red Cross stamps in this city and vicinity. The national and state organizations will receive one-third of the proceeds of the sale of these stamps, and the local organization will get two-thirds.

During the past year the society maintained seventeen tuberculosis patients at White Haven sanatorium, and sent seventeen others to the Mont Alto sanatorium, besides assisting in the work of the state dispensary in this city.

Much was also done to secure an improvement in the milk supply, a laboratory and milk stations are in operation; the milk committee of the medical society has been organized and an energetic sanitary committee is enforcing the milk ordinance passed by council. A laboratory for the purpose of supplying modified and pasteurized milk for infants has also been established, and during the summer there was a reduction in the prevailing infant mortality in this city of 41 per cent.

Unless the additional funds can be secured, the society will have to close down the milk depot during the coming summer.

HARRISBURG TO ROOM CHRISTMAS STAMPS
Harrisburg, Pa., Nov. 27.—Harrisburg will undertake to dispose of 50,000 Red Cross Christmas stamps this year. E. Z. Wallover is chairman of the local committee in charge of the sale, and he is being assisted by Robert Fox, J. Clarence Funk, Joseph F. Melick, Lee A. Laubenstein, A. G. Kennedy, Jr., Robert Troup, John Herman, George Reed, Paul Smith and Alvin Dinamore.

The stamps will be on sale by every important store in the city and vicinity, and may also be placed in the corridor of the Harrisburg postoffice.

The Associated Charities, which is the headquarters for all local charity work, will co-operate with the local committee in every way possible, one of the plans of the campaign being to have the local newspapers print from day to day stories of suffering from tuberculosis that have come under the notice of the Associated Charities.

BERKS WHITE PLACED FOR TO SELL STAMPS
Reading, Pa., Nov. 27.—The Tuberculosis Aid Society of Berks county is planning to distribute Red Cross Christmas stamps. They will be sold to secure funds to equip and maintain the proposed Neversink mountain sanatorium for the treatment of white plague sufferers.

Judge H. William Hland, president of the society, has appointed a committee to draft resolutions expressing the gratitude of the organization to the Rev. George Hornemann, rector of St. Paul's Catholic church, for the grant of the Neversink mountain hotel property for sanatorium purposes.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all druggists.

Handsome is as handsome does. Wrote the poet, but it wasn't very long 'er he found out. Handsome is as handsome doesn't. —St. Louis Star.

SUGGESTS PUBLIC REFUSE TO BUY ANY MILK

NOVEL PLAN TO BUST THE LACTEAL TRUST

How Would It Do to Utilize the Tin Store Cow for a Few Days? Says the Common Geezer.

That the public get even with the Milk Trust by refusing to drink cow milk for a while is suggested by a citizen in a communication to the Morning Journal. It isn't such a bad idea at that. The milkmen have so far offered no valid excuse for shoving up the price of milk and it is the general opinion that this is merely a concerted agreement to give the public the worst of it. Further investigation of the feed question develops the fact that most of the dairymen buy the bulk of their feed in the summer time anyhow when it is cheap, and that their summer feeding in pasture time doesn't amount to much so it is hard to see where the feed question cuts any ice. A well known feed merchant said yesterday that taking it on the average for a period of say the past six years there has been no steady advance in the price of feed and the dairymen are practically paying no more than they ever did. The sentiment that if we are going to have a better price we must have better milk is gaining ground rapidly and the council will probably be asked to raise the official city milk standard. Well anyhow here is the boycott suggestion, which is at least worthy of pondering over.

Editor Morning Journal:
Wouldn't it be a good joke on the milkmen for us all on a certain date—say tomorrow—to call sweetly, "No milk today," and keep it up for a few days, substituting condensed milk? It wouldn't take long for this remedy to prove effectual.

Some great celebrity, Lincoln, Shakespeare or Mat Hanson has said "You can fool all of the people some of the time, and some of the people all of the time, but you can't fool all of the people all of the time."

Yours truly,
HAWK EYE.

NIGHT SESSION IN LASATER TRIAL FOR MURDER

Court Works Overtime in an Effort to Make Headway in Valencia County Criminal Case.

A night session of the district court was held last night in the case of the territory versus J. L. Lasater, charged with the murder of Nicholas Simeros, at Tome, N. M., on September, 1938.

The trial was begun before Judge Ira A. Abbott Thursday afternoon and providing good headway is made with the case today it may go to the jury before 6 o'clock, thus avoiding another night session tonight.

Lasater was indicted by the Valencia county grand jury on the charge of killing Simeros at a fiesta in Tome, it being alleged that Lasater stabbed the native with a knife, inflicting wounds which caused his death.

The presentation of the case for the prosecution occupied nearly the entire day yesterday, several pre-trial officers, who were present when the affair took place, being principal witnesses for the territory. Each witness was cross-examined at length by counsel for the defense.

The defense was begun last evening and will be continued today. Self-defense will be Lasater's plea.

J. T. Keogh granted divorce.

Judge Ira A. Abbott, in the district court yesterday, handed down a decree in the divorce case in which J. T. Keogh asked for a divorce from his wife, Pearl Keogh, on the ground of abandonment. The court granted an absolute divorce to the plaintiff, no defense being offered. The court decreed that the three children, James Thomas, Mildred Pearl and Katherine Wallace, should be placed under the care of Mrs. Annie Keogh Fox of St. Louis, a sister of the plaintiff, to be educated and cared for at the expense of Mr. Keogh. The father and mother will be permitted to visit the children once a week if they so desire, and may also have them for a visit during the summer vacation, with the privilege of taking them out of the city of St. Louis. Mrs. Keogh was also granted \$250 alimony, \$250 cash and \$250 to be paid in installments of \$25 per month.

The decree yesterday, it is understood, is the result of a stipulation entered into between the plaintiff and defendant, through their attorneys.

WHY GENUINE GAS COKE IS CHEAPER AND BETTER IN EVERY WAY THAN ANY OTHER HEATING FUEL

It is solid carbon, the substance remaining after gas is taken from coal in gas retorts.
It makes a smokeless fire and therefore does away with the worst kind of a furnace nuisance.
It gives off more heat units per ton than a ton of any other fuel.
It insures a steady, sure, continuous fire, requiring but little attention.
It removes one of the worst troubles of the furnace—clinkers. No clinkers in coke.
It represents, per ton, more value than a ton of hard coal, but is far cheaper.
It will make your total fuel bill for winter much less than if you used other fuels.

THOUSANDS BUY THE RED CROSS STAMPS

Anti-Tuberculosis Crusade Enthusiastically Supported by Newspapers, Unions and Public in the East.

Never before has any philanthropic movement aroused the enthusiasm of the crusade against tuberculosis which is being forwarded all over the country by the sale of the Red Cross Christmas stamps. These stamps have been placed on sale until Christmas in the best book and drug stores by the Northwestern Presbyterian sanatorium which has been designated the official agent in the northwest.

Rev. Hark A. Cooper, pastor of the Presbyterian church here, who is now in Philadelphia sends The Morning Journal clippings from the Philadelphia newspapers showing the great enthusiasm which the movement has aroused there. The Philadelphia Evening Times has the following:

Thousands of Thankgiving letters, postals and packages bore the Red Cross holiday stamps today as a token of good will has actually commenced and that helpfulness for the tuberculosis poor is to be one of the distinctive marks of this year's holiday cheer.

Hand in hand with the good work of pushing the sale of the stamps went the arrangements for the Evening Times benefit matinee for the anti-tuberculosis crusade. Frank Howe, Jr., manager of the Walnut street theater, where the benefit will be given, was enthusiastic in predicting a big success and M. T. Middleton, business manager of the "Paid in Full" company, hustled like a beaver in forwarding the arrangements.

Printers' Union Helps.
The Philadelphia Typographical Union No. 2 sent a check for \$10 to pay for 1,000 stamps. These will be used not only on all mail of the union during December, but during Christmas week a stamp will be placed on the pay book of every member.

Other unions have been asked to take like action, to show their appreciation of the immense benefit the anti-tuberculosis crusade is to the working man.

Firms whose stamps cannot well be

FINANCE AND COMMERCE

WALL STREET.

New York, Dec. 3.—Prices of stocks turned upward today without any well defined reason for the reversal from yesterday's course. The influence in the market were renewed assertions of changes in the course of events which were depressing the market yesterday. Reports were circulated that the switchmen's strike in the northwest was not destined to a long continuance. Late in the day came a report from Chicago that it had been settled. The hopeful feeling on this matter relieved the market from considerable pressure. There have been reports circulated at various times of a general movement on the part of eastern railroads to advance wages as a concession to possible demands expected. Since the switchmen went out in the northwest, the four points grow the trouble would spread and overturn the arrangements for smoothing over troubles. There was a change of feeling on the subject of the forthcoming message of the president to congress. It was said today that reports from Washington of radical recommendations to be incorporated in the message were not well founded.

The announcement of the acquisition of a majority of the stock of the Equitable Life Assurance Society by J. P. Morgan, together with the control of the Equitable and the Mercantile Trust companies involved, was of important effect.

The transaction was viewed in connection with the earlier acquisition of the Guaranty Trust company by a partner in the firm of J. P. Morgan & Co.

A resumption of the concentrated operations in United States steel on a rising scale was not dissociated from this feeling. Subtreasury operations, including deposits for telegraphic transfer to San Francisco, have absorbed \$6,476,000 and the gold outflow to South America has taken \$5,350,000 more. Gold has gone to Canada also in large volume during the week, yet bankers compute a sufficient return from various domestic points to cut down the net decrease in the cash item to less than \$2,000,000. The loan changes are obscured, owing to the effect of the December 31 disbursements and the deposits against the settlement of Chicago, Rock Island and Pacific railroad collateral \$8 in connection with the sale of the St. Louis & San Francisco. The call money rate did not get above five per cent.

Chicago Board of Trade.

Chicago, Dec. 3.—Reports of wet weather in Argentina and a rumor of a settlement of the switchmen's strike caused a flurry in the wheat market today, but the advance was not maintained. Provisions closed easy.

Wheat closed with December at \$1.08 1/2, and May, \$1.06.

Corn closed unchanged to 1/2 cent higher.

Oats closed a shade to 1/2 cent higher.

St. Louis Wool.

St. Louis, Mo., Dec. 3.—Wool, unchanged. Medium grades, combing and clothing, 24¢; light fine, 22¢; heavy fine, 12¢; tub washed, 26¢; 28¢.

The Metals.

New York, Dec. 3.—Standard copper on New York metal exchange was weak today. Spot and December closed at \$12.75 and 12.85; January and February, \$12.75 and 13.00. London market closed steady, spot 158, 76, 64; futures, 159, 10, 51. Silver there were local dealers quote lake, \$13.25 and 13.50; electrolytic at \$13.12 1/2 and 13.37 1/2; casting at \$13.00 and 13.25.

Lead, quiet; spot, \$4.37 1/2 and 4.42 1/2; New York and East St. Louis, \$4.20 and 4.25. London unchanged, \$12.17 1/2 and 6.27.

Spelter weak, spot, \$6.10 and 6.20; New York and East St. Louis, \$6.25 and 6.30. London unchanged, \$23. Bal silver, 51 1/2¢; Mexican dollars, 42¢.

St. Louis Spelter.

St. Louis, Dec. 3.—Lead, \$4.30 and 4.35; spelter, \$6.20.

Chicago Livestock.

Chicago, Dec. 3.—Cattle—Receipts, 250; steady; beefs, \$8.50 and 8.75; Texas steers, \$7.75 and 7.85; western steers, \$8.00 and 8.10; cows and feeders, \$5.10 and 5.25; calves, \$2.10 and 2.25; hogs—Receipts, 19,000; steady; light, \$7.75 and 7.85; mixed, \$7.80 and 7.90; heavy, \$7.90 and 8.00; rough, \$7.90 and 8.00; good to choice heavy, \$8.10 and 8.20; pigs, \$6.50 and 6.75; bulk of sales, \$8.10 and 8.30.

Sheep—Receipts, 8,000; strong; native, \$2.75 and 2.85; western, \$2.80 and 2.90; yearlings, \$2.50 and 2.60; lambs, native, \$2.75 and 2.85; western, \$2.50 and 2.60.

Kansas City Livestock.

Kansas City, Mo., Dec. 3.—Cattle—Receipts, 2,000; including 300 southern; strong; native steers, \$8.75 and 8.85; southern steers, \$8.50 and 8.65; southern cows, \$2.40 and 2.50; native cows and heifers, \$2.50 and 2.60; stockers and feeders, \$2.10 and 2.25; bulls, \$2.50 and 2.60; calves, \$2.50 and 2.60; western steers, \$2.80 and 2.90; western cows, \$2.75 and 2.85.

Hogs—Receipts, 6,000; steady; bulk of sales, \$7.90 and 8.20; heavy, \$8.15 and 8.25.

The 20th Century Fuel Saver

We have on demonstration at 117 West Gold avenue, the crude oil burner, which is fast becoming the wonder of the day. It speaks for itself. Come and see it. From 8 a. m. to 6 p. m. Agents wanted.

J. M. Sollie,

8.25; packers and butchers, \$8.00 and 8.20; light, \$7.50 and 8.10; pigs, \$6.50 and 7.50.

Sheep—Receipts, 2,000; steady; muttons, \$4.50 and 5.50; lambs, \$6.00 and 7.50; range wethers and yearlings, \$4.00 and 6.75; range ewes, \$3.50 and 5.25.

Boston Wool Market.

Boston, Dec. 3.—The Commercial Bulletin of Boston will say of the wool market Saturday:

"Business is still comparatively small with carded wool of the mills operating more steadily than worsted mills. All kinds of territory coming and carded wools are moving in moderate quantities at full prices, while fine fleeces are attracting more attention. Sales are being made quietly of new cross-bred wools to arrive and dealers are stronger on values."

New York Cotton.

New York, Dec. 3.—Cotton closed steady, net advance of 6 to 12 points.

FIRST MATE CHARGED WITH INSULTING WOMEN

Grave Misconduct by Officer of Bureau of Steamers St. Croix Alleged at Inquiry Into Disaster.

San Francisco, Dec. 3.—First Officer Frank Mills of the steamer St. Croix, destroyed by fire off southern California, was charged today with having been intoxicated on the bench after the landing from the steamer and with having insulted one of the women passengers. The charges were made by H. Cummings, a passenger on the steamer, who testified before the federal inspectors investigating the destruction of the vessel.

The witness further charged that the officers and crew of the St. Croix made no serious effort to subdue the flames and said that he believed the steamer could have been saved had they shown any desire to do so.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all druggists.

LEGAL NOTICES

Territory of New Mexico, County of Bernalillo, In the District Court.

Wm. P. Metcalf, Plaintiff vs. Charles C. Hurd, Defendant.

To Charles C. Hurd, defendant in the above cause:

You are hereby notified that a suit by attachment has been commenced against you in the District Court of Bernalillo County in the Territory of New Mexico by Wm. P. Notice of application of E. Weyman Strother and Minna Strother Waddell for a United States patent to the Abajo Placer, building stone, mining claim.

Notice is hereby given that in pursuance of Chapter 6, of Title 32 of the Revised Statutes of the United States, that E. Weyman Strother, of Annapolis, Md., and Minna Strother Waddell of Columbus, Georgia, are claiming and are about to make application, through their attorney, Richard H. Hanna, of Santa Fe, New Mexico, for a United States patent for twenty acres of placer mining land containing building stone and being the N. 1/2 of N. E. 1/4 of N. W. 1/4 of section 22, township 10 N., range 5 E. of N. M. P. B. & M., situated in the Santa Maria Mountains, Tijeras Canyon, mining district in the county of Bernalillo and territory of New Mexico and known as the Abajo Placer mining claim, a plat of the same being herewith posted.

The notice of said location of said Abajo Placer claim is of record in the office of the recorder of Bernalillo County, at Albuquerque, New Mexico, in Book "J," folio 632.

The said mining premises hereby sought to be patented is bounded as follows, to-wit: On north and east by vacant, unoccupied public land, on the west by patented land, known as Whitcomb, on the south by unpatented mining claim Rex.

Any and all persons claiming adversely the mining ground, premises or any portion thereof so described, platted and applied for are hereby notified that unless their adverse claims are duly filed as according to law and the regulations thereunder, within the time prescribed by law, with the register of the United States land office at Santa Fe, in the county of Santa Fe, territory of New Mexico, they will be barred in virtue of the provisions of said statute.

Any and all persons claiming adversely the lands described, or desiring to object for any reason to the entry thereof by applicant should file their affidavits of protest in this office on or before the 15th day of December, 1909.

MANUEL R. OTERO, Register.

Items, begins at half past two o'clock. Ladies as well as gentlemen are welcomed.

The Brotherhood of St. Paul has elected as officers for the ensuing year the following: President, Peter McCallum; vice president, John A. White; secretary, S. Houghton; treasurer, John Wilson.

There will be a regular meeting of G. K. Warren post at Odd Fellows hall this evening, December 4, at 7:30. Election of officers. All members are requested to be present. By order of H. B. Steward, P. C. J. G. Caldwell, adjutant.

Mrs. Frederick Winn, wife of Mr. Winn, of the United States forest service, arrived yesterday from Magdalena and will assist in the Elks' memorial tomorrow afternoon. Mrs. Winn is a guest at the Alvarado hotel.

Mrs. W. C. Elliott wishes to take this method of expressing her sincere gratitude for kindnesses extended to friends at the time of her bereavement in the death of her husband. Especially are thanks extended to the Brotherhood of Locomotive Engineers and Firemen.

Many friends will receive with grief the news of the death yesterday morning at 9:20 o'clock from typhoid fever of Mrs. Clayton, wife of Dr. R. M. Clayton, at the Clayton home at 115 West Gold avenue. Her death is particularly sad in that four small children are left motherless. The deceased was formerly Miss Ella Paley and her girlhood home was in Shubuta, Wis. After completing a university course here she was married to Dr. Clayton in 1900. The bereaved husband and children will have the deepest sympathy of the public. Telegrams were sent yesterday to the mother and sister of the deceased in Palo Alto, Cal., and pending advice from them the funeral arrangements will not be definitely announced.

Attend the grand opening at Wetzel's Saturday eve. Elegant lunch served. 111 N. Second St.

An Anglo-American Unity of Thought; Aim of Cecil Rhodes

Eminent Englishman Visits City in Connection With Scholarships in Tour of the States; Pure Democracy Exists Alone in Britain Says Dr. Parkin Who Corrects Erroneous Impression of Functions of the House of Lords.

back and worry you" were the words of Rhodes before his death in talking of his great plan, according to Dr. Parkin. "It was at first his idea," said Dr. Parkin, "to select the most robust in mind and body, the most promising and vigorous material from the younger generation in the British colonies throughout the world, take them to Oxford, add to their native gifts and capabilities the polish and the broader view given by the university education and then send them back to the colonies to be more effective in spreading the rule of Britain over the globe. His plan, first confined to the empire, took on a broader scope when he determined that as it will be the English speaking race that rules the world, the future leaders of thought and action in England and America should be educated together at the oldest and most famous seat of learning of the Anglo-Saxon race." The idea was that it would broaden and unify the grasp of world affairs for the Briton and the American.

The Rhodes scholarships outside of the United States are apportioned as follows and all are of the value of three hundred pounds, sterling, or \$1,500 except those in Germany: Rhodesia, nine; Cape Colony, twelve; Natal, three; Australia, eighteen; New Zealand, three; Canada, six; Newfoundland, three; Bermuda, three; and Germany, fifteen.

"The aim of Mr. Rhodes," said Dr. Parkin, "was to win out from the people of these various lands the men giving the most promise of being leaders in later years, strength of character and physical fitness setting into the qualifications as largely as successful passing of examinations. The examination in fact as I have often told the boys is one school boy might pass. The idea is however to make the appointing committee so impartial and so competent as to make the selection of the best men inevitable. You have no idea of the difficulty I experience in eliminating politics and other bias from these

ARTS AND CRAFTS SHOW AT SHOP OF INDIAN HORSE

Artistic and Beautiful Is Splendid Collection of Leathers and Metals at John Lee Clarke's Store.

People in Albuquerque do not generally realize that there is in this city an Arts and Crafts shop which can show a thing or two to the flower-decked and an establishment that turns out some of the most beautiful and artistic products in the country. There will be a revelation for many at the Shop of the Indian Horse this afternoon and evening when the John Lee Clarke company places on exhibition some of the things that have been produced in the home shop in the past few weeks. Leather novelties of all descriptions, some expensive and some cheap, designed with the hand of an artist and executed with cunning craftsmanship, of harmonious colors, decorative in the extreme and real works of art. It is hard to realize that they have been executed right here at home. The leather goods will be displayed today in a novel and unique show case just installed in the front of the big store and will undoubtedly be surrounded by an eager crowd during this reception or opening in which Mr. Clarke will extend his Christmas greeting to the holiday shoppers. There is a rare collection of metal arts and crafts work, including the popular new green finished brass and copper work. It is by far the finest collection of metal and leather Mr. Clarke has ever displayed, backed always by the magnificent stock of Navajo blankets and Indian goods of all descriptions, hammered brass and pottery, beadwork and drawwork and all the other alluring things for which the Shop of the Indian Horse is famous.

Mr. Clarke wants everybody in the city to call and visit the store and look at the bewildering variety of pretty things this afternoon and tonight. It will be a real treat even if you don't want to buy anything. But there are Christmas ideas here that will fairly drive you crazy and it won't do to fail to come.

Wanted to buy good horse and saddle. Apply 215 West Silver.

YOU can't be too particular about personal appearances; a well dressed man counts for more in every way than one who is carelessly dressed, or lacking in small matters of neatness.

**Hart Schaffner & Marx**

clothes are made for men who are particular; and for men who ought to be, and are not particular enough.

Such clothes help a man; they add to his force by giving him a sense of being well dressed; it's like being in good society to wear good clothes; stimulates a fellow to do his best.

You ought to wear Hart Schaffner & Marx clothes; you ought not to wear anything else; the best isn't too good for you and you think so yourself.

MISS HEACOCK WINS FIRST PRIZE IN CONTEST

Splendid Talk on "Industrial Education in the Public Schools," Declared Best of Five Orations Delivered.

That the oration, "Industrial Education in the Public Schools," delivered by Miss Helen Heacock, was the best of five orations delivered in the annual Albuquerque High School oratorical contest held in Elks' opera house last night, was the decision reached by the six judges selected to pick a winner.

David Rosenwald was awarded the second prize, his oration "The Conservation of Our National Resources," being declared second best. Fred Calkins who delivered, "Leaders, Ancient and Modern," won the third prize; Edgar Jaffa, who spoke on, "A National Problem," was awarded the fourth prize and Ralph Gibson who delivered an essay on, "The Men Who Made Our Nation," was declared winner of the fifth prize.

All the orations were splendidly delivered and proved very interesting to the large audience which filled the theater.

Miss Heacock's address, in thought and composition, was excellent and her delivery could hardly be improved upon.

"The Conservation of Our National Resources," one of the burning questions of the day was dealt with in an able and scholarly manner by David Rosenwald, winner of the second prize.

"Leaders, Ancient and Modern," by Fred Calkins proved to be a highly interesting subject and gave evidence of careful study and research in its composition.

Mr. Jaffa, handled his subject, "A National Problem," in a very able manner and proved himself a clever platform speaker.

"The Men Who Made Our Nation," was a scholarly effort by Ralph Gibson, the subject indicating that the young man had carefully prepared his oration.

Miss Viola Blucher, Miss Lola Neher and Miss Charlotte Pratt rendered pleasing vocal solos during intermissions, all three young ladies being repeatedly cheered.

Music for the occasion was furnished by the High School orchestra.
