Remarkable Time Over the Union Pacific from Denver to Council Bluffs—Fast Run on Santa Fe and Burlington.

Missouri Valley, Ia., Feb. 7.—The Chicago special, the new fast train from Denver over the Union Pacific, Denver & Gulf and Chicago & Northwestern railroads, reached Omaha at 7 o'clock this morning, on time. The train ran 562 miles from Denver to Omaha in 14½ hours, allowing for one hour's difference in time.

At Council Bluffs, the train passed to the tracks of the Chicago & Northwestern and was boarded there by a party of Northwestern officials.

Boone, Ia., Feb. 7.—The Union Pacific and Northwestern Chicago special, from Denver, reached Boone, the Northwestern division headquarters, at 11:30, three minutes ahead of time. A large party of Iowa newspaper representatives are on board.

Remarkable Run on Santa Fe.  
Topeka, Kas., Feb. 7.—What is regarded as a remarkably fast run for a western road was made by the Santa Fe east bound limited yesterday. The train left La Junta, Colo., at 8:50 a. m., five hours late, and arrived at Dodge City, Kas., at 12:37, making 201½ miles at the average rate of 53.12 miles an hour.

Burlington Flyer Reaches Chicago.  
Denver, Feb. 7.—A special to the Times from Chicago says: The first Chicago special on the Burlington route pulled into Chicago today on time to the tick of a second, having averaged 38 miles per hour that without any apparent effort. ## THE LATTIMER TRIAL.

Sensational Outbreak Between Attorneys Rebuked by Court—Newspaper Misrepresentations Denounced.

Wilkesbarre, Pa., Feb. 7.—Hundreds of persons, anxious to hear what action Judge Woodward would take in reference to the sensational outbreak, on Saturday, between Attorneys Gorman and Lenahan, opposing counsel in the Lattimer shooting case, thronged the court room today. Judge Woodward spoke of the incident, saying that, after he left the bench and before the court adjourned, an altercation had arisen between two of the lawyers engaged in the trial, which the court did not fully hear nor realize until it was seen in the newspapers.

"Had we heard," said the judge, "what was said, we should have dealt with the lawyers in a summary manner as the affair deserved."

Then came severe denunciation of the sensational issues of certain newspapers in endeavoring, as the court said, to prevent justice by exaggeration of the facts and incidents of the trial. He said that if these astounding falsehoods and misrepresentations continue, representatives of the papers will find the door of the court closed to them.

Unimportant testimony was taken. Just before the noon adjournment, the court accepted bail for all of the accused deputies and the sheriff in the amount of \$5,000 in each case, making \$45,000 in all. Bail was furnished by the Philadelphia Surety company.

Foreclosing a Railroad.  
Topeka, Kas., Feb. 7.—The United States Circuit court will arrive in Topeka tomorrow to sign the decree of foreclosure of the central branch of the Union Pacific running west from Atchison. The decree has been agreed upon and there will be no controversy. This is the first step in the foreclosure of the mortgage on the road.

## FIRE AT ATLANTIC CITY.

Half a Block of Buildings Went Up in Smoke—Origin of Fire a Mystery.

Atlantic City, N. J., Feb. 7.—The fire, which originated in the Academy of Music this morning, destroyed a half block of buildings and entailed a loss of about \$65,000. The origin of the fire is still a mystery.

Officer Robinson discovered smoke issuing from under the board walk in front of the Academy of Music. A general alarm was sent in, but before the engines arrived the Academy of Music was enveloped in flames. The fire spread rapidly to Lapre's confectionery store and then communicated to the rear of the Bryn Mawr hotel. The flames quickly spread to adjoining buildings. The heaviest losers are: Academy of Music, \$30,000; insurance small; Lapre's confectionery store, \$5,000; Bryn Mawr hotel, \$10,000. The Academy of Music was destroyed by fire once before, namely, in 1893.

## IN FOREIGN LANDS

Trial of Emile Zola Excites Unusual Interest in the Capital of the French Republic.

## THE DEFENDANT IS GLOOMY

Complains That He Is Being Unfairly Treated—Lady Somerset on Government Regulation of Vice—Destructive Fire in Manila.

Paris, Feb. 7.—The trial of M. Emile Zola, who is being prosecuted by the government, as a result of the letter he wrote last December to Mr. Aurrea, strongly reflecting upon high officials connected with the Dreyfuss case, opened today in the assize court of Stene. Hundreds of people surrounded the court, anxious to gain admittance. The police measures to insure order are most rigorous.

The crowds increased in number all the morning. The arrival of Henri Rochefort was the signal for shouts, "Viva Rochefort," and counter cries, "A bas Rochefort."

M. Zola, who arrived in a carriage shortly afterward, was greeted with vehement shouts, "Conspuez Zola!" Spat upon Zola.

An individual, who shouted, "Viva Zola," was promptly hustled and suppressed.

The proceedings commenced at 1 p. m., under the presidency of M. De Lorgue, who announced that the court would be cleared if there was any demonstration.

Although the court was thronged, quiet was maintained owing to the knowledge that a company of municipal guards had been placed at the disposal of the judge to preserve order.

While the jury was being selected, M. Zola entered the dock. He was pale. A few cries of "Viva Zola" were promptly suppressed by the vigorous protests of a majority of the audience.

After reading the indictment the advocate general explained that the charge was strictly limited to the passage in M. Zola's letter denouncing the Esterhazy court martial.

The advocate general said that it was impossible to prevent the proceedings from wandering, and "thus playing in to the hands of the accused, whose aim is to get a revision of the Dreyfuss affair by a circuitous route."

The court decided to allow the accused to call evidence in support of the other charges contained in his letter, including the accusations he made against Colonel Paty du Clam and General Mercier Boisdore, Billot and Pellieux.

M. de Laguerre read a number of letters of abuse from witnesses summoned. The hearing adjourned at 5 p. m. There were no sensational incidents.

## Zola Interviewed.

London, Feb. 7.—David Christie Murray, novelist and play-wright, had a column interview yesterday with Emile Zola, which is published today in the Daily News. Zola appears, we are told, but hopeful of the outcome of his trial, and said: "I know everything about the Dreyfuss case, but it is impossible to describe the pressure to impose silence upon men who are able and ready to reveal the truth; important documentary evidence was not even looked at and many witnesses have refused to testify or have been ordered to be silent. The facts are clear and absolutely beyond denial; but the authorities refuse to allow us to produce our evidence and then hold up the feebleness of our cause to the derision of the public."

## Serious Fire at Manila.

## ALBUQUERQUE NOTES.

Frank de Thoma, who has so ably handled the editorial columns of El Nuevo Mundo for several months past, has resigned his position with the paper.

Charles Pilkey, one of the locators of the Washington mine in the Golden Cochiti, who has been down in the Yaqui gold country, returned to Albuquerque on Saturday evening.

In case No. 4926, Bruna Montoya de Martinez vs. Jose Juan Montoya y Martinez, for divorce, a final decree of divorce was entered and the custody of the two minor children given to the plaintiff.

The United States grand and petit juries for the Third judicial district, consisting of Bernalillo and Valencia counties, were drawn on Saturday for the federal court which will meet in this city on March 7. The county grand and petit juries for the District court were also drawn on Saturday.

Dr. A. L. Mahaffey, the physician and surgeon at the government Indian school, says that he vaccinated 150 Indian pupils, and that the virus took on all but three. He also reports the health of the scholars first-class, and no serious illness of any kind among them.

Emiliano Sandoval, of Cabezon, and Miss Teresa Gonzales, of this city, were united in marriage at the church of Immaculate Conception, at 9 o'clock this morning. The contracting parties are members of two of the best and most influential families of central New Mexico, and the wedding was a brilliant affair.

H. H. Tilton, city circulator of the Citizen, left on Saturday to attend the grand lodge of Odd Fellows of Texas, which convenes at Fort Worth, Tex., on Monday next. Mr. Tilton is the official instructor of the grand lodge and aide-camp to the grand sire. He will be absent until the latter part of next week.

In the District court an order and judgment was made in the case of Ellen Lockhart et al. vs. the First National bank of Albuquerque, striking out the motion of the intervenors, A. C. Emery, O. G. Emery and Louis Emery, and ordering the defendant to pay to the clerk of the court \$104.74, said amount being the amount claimed by the plaintiff, and directing the clerk to pay the same to the plaintiff.

Frank Gilmore, whose leg was amputated just above the ankle by Dr. Francis Crosson three weeks ago, was able to be upon the street for the first time yesterday. This operation, which was made necessary by an aggravated case of tuberculosis of the ankle joint, has proved remarkably successful, and Mr. Gilmore's many friends are glad to see him in better health than he has ever before enjoyed in Albuquerque.

Alfred Grunsfeld, of the wholesale dry goods firm of Grunsfeld Bros., is back from New York and other eastern cities, where he has been purchasing a large spring and summer stock. He reports eastern weather as seeming extremely hot and disagreeable to one accustomed to the balmy air and overhanging sunshine of New Mexico. Mrs. Grunsfeld and the children, however, determined to brave the cold, and were left at Chicago, where they are visiting relatives and friends, says the Democrat.

## Strictly First Class.

The Ellen L. tunnel is making more rapid progress than at any time heretofore, and is now within a very short distance of completion.

William Sayer, for whom Joseph Rottledge is producing 200,000 feet of lumber at his sawmill near Allerton, and which is being rapidly disposed of to builders in Bland and at the Albemarle, made a business trip to Albuquerque recently.

MONDAY, FEBRUARY 7.

A RECENT biography of the Prince of Wales says, "the prince is fond of all kinds of people." True indeed, especially when they are women, pretty and young.

THE solid south is certainly not as solid as the Democrats would like to have it. The largest political club house in this country has just been opened in Baltimore.

A KANSAS CITY preacher recently preached a long sermon on "How to Go to Hell." Might have saved himself this trouble. Most people are fully posted on that subject.

OUR pious and moral friend, John Wannamaker, wants to make another political fight on Senator Mathew Stanley Quay. And some people are mean enough to say that it is another instance of the pot calling the kettle black.

LOUISVILLE, KY., is becoming a very moral city and believes in being virtuous and being happy. But the saloon keepers of that town right now are neither virtuous nor happy. A grand jury in session there has just returned indictments against 186 of their number.

JUDGE LAUGHLIN deserves credit for cleaning up the criminal docket of this county and relieving the county jail of a lot of prisoners and the county from expense. During his term as a judge on the bench in this district, Judge Laughlin has certainly been a hard worker and has dispatched the business of the court with energy and alacrity.

THE political pot is beginning to boil: It is reported from Albuquerque that Messrs. Thomas Hughes and T. A. Finckel, who represented Bernalillo county in the council of the Thirty-second legislative assembly, are not averse to again running on the Republican ticket from their home county for the same positions during the coming campaign.

DELEGATE FERGUSON'S bill, granting the territory public lands in aid to the support of its educational institutions and public schools in advance of statehood, should pass both houses of congress and become law. Right, justice and public necessity are on the side of the bill and it cannot be enacted any too soon to do the territory good and to help our educational institutions and public schools.

It will be remembered that as soon as Democratic judges took office a few years ago, they allowed no grass to grow under their feet and appointed Democratic clerks of courts without delay whatever. The Republican judges, recently appointed, should follow the example thus set them and that speedily. There is neither rhyme nor reason in delaying such appointments and certainly there are lots of candidates to choose from.

NEW YORK states gives a bounty of 1 cent per pound on all beet sugar manufactured within its borders. The way to encourage a new industry is to encourage it. In the meantime, New Mexico, the ideal section for the profitable manufacture of beet sugar, allows golden moments to hurry by without taking advantage of its great natural opportunities for the raising of sugar beets and the manufacture of beet sugar.

The law passed by the Thirty-second legislative assembly, providing for the funding of county indebtedness, and establishing the procedure that all county accounts shall be paid quarterly and pro rata, is working well wherever carried out and is proving a beneficial measure. There may have been some corruption in the Thirty-second legislative assembly, but it must be admitted that the legislation passed by that body was in the main very good and proper. The proof of the pudding is in the eating.

THE Jeffersonian Democrats league of Denver seems to be all sorts of a fool. It now opposes the passage of the immigration restriction bill, recently passed by the United States senate, and in the resolutions, it has adopted, in opposition thereto appears the following fool reason for its action:

"Whereas, Said bill denies the natural right of migration to the continent of the first white settlers, who may seek to avail themselves by honest toil, of the measureless and inexhaustible natural resources of this undeveloped country, ample in the present state of the arts of wealth production to support in comfort 1,000,000,000 of people."

ALL over the country, during the past year, there has been a general recuperation of business, except in one

instance, and that is, the cotton manufacturing business in New England, which has been overdone. In all other branches there is increased employment, and, as a rule, increased wages and fuller time. The woolen, silk, linen, leather, steel, iron, machinery and building trades are all right, but in thrifty New England, in a class of work which has been successful for two generations, things have come to a standstill, and in several of the cotton manufacturing centers in New England strikes are in progress. However, our Democratic and Pop friends cannot well make political capital out of this state of affairs, although they are trying to. Everybody at all posted or with average common sense understands the cause of the situation. It is not the gold standard, it is not that silver is quoted at 50 cents an ounce, it is not the circulation of good money or bad money, and the currency question has nothing to do with it. It is simply the fact that production of cotton goods in New England has been overdone for some time and that the advantages of the southern cotton goods manufacturers and the cheap labor they use have cut in on the business of the New England manufacturers.

## The Appointment of a Clerk for the Third District.

Judge Parker announces, that he will appoint Mr. James P. Mitchell, of Hillsboro, Sierra county, clerk of the court of the Third judicial district as soon as Mr. Mitchell can take the office. The latter is now postmaster at Hillsboro and has sent in his resignation to the postoffice department. The NEW MEXICAN believes that the choice of Judge Parker is good. Mr. Mitchell has been engaged in mining in Sierra county for several years and is well and favorably known in Sierra county. He was appointed postmaster at Hillsboro about four months ago. He is a good and hardworking Republican and is a member of the Republican territorial central committee from his county. He is competent for the position. There were several applicants from Dona Ana and Grant counties for the place, among those Messrs. Oscar Lohman, H. B. Holt, and Harry L. Miles, of Dona Ana county, each of whom was backed by leading Republicans of that county and no agreement between the several candidates could be reached.

Judge Parker made his own selection and chose a man from his own county. He observed the principle of home rule, made an appointment from the Third judicial district, where it properly and justly belonged, and selected a good man and a strong and hardworking Republican. Such a course cannot but meet with approval and meets with approval. It is to be hoped that the other Republican judges will act as prudently and as sagaciously as did Judge Parker in the matter of the appointment of clerks for their respective districts.

## The Gain in the Money Circulation.

The political managers who propose to make the currency question the leading issue in the congressional campaign this year will probably find themselves somewhat embarrassed by the fact that the money in circulation at this time is more than \$200,000,000 in excess of the amount in circulation at the date of the adoption of the Chicago platform, which the Democratic congressional committee reiterated as the campaign cry for 1898. The following table, taken from the official statements of the Treasury department shows the amount of money of various classes in circulation in the United States on July 1, 1896, just one week before the adoption of the Chicago platform, and also on January 1, 1898. The gain in 18 months is, it will be observed, \$214,665,674, nearly \$100,000,000 of this being in gold coin.

## Politics in Socorro County.

In county politics ambitious men are already at work laying out plans. Asessor Cipriano Baca is credited with a desire to become sheriff, and the present sheriff would like the nomination for commissioner for the district composed of Socorro and Socorro counties. We were under the impression that this plum belonged to Sierra this year, but some people appear to have a different idea about the matter.—San Marcial Bee.

## Nomination Number Two.

The Raton Range names Mr. A. M. Blackwell, of Las Vegas, for the consideration of Republicans at their nominating convention to select a candidate for delegate to congress next fall. The suggestion of the Range is all right, but Mr. Ferguson will be renominated by his party for the congressional job, we believe his political opponent should be a lawyer and a resident of the same city. Therefore, a very good plan it would be for the Republicans to nominate that stalwart Republican, popular general of Sierra and gifted attorney, Hon. Thos. A. Finckel. It would be a pretty race, and the outcome would show Mr. Finckel well in the lead.—San Marcial Bee.

## Ninety Per Cent of the People Satisfied.

Fully 90 per cent. of the people of the territory are well satisfied with the bill providing for the permanent location of the capital of New Mexico at Santa Fe. There was a time when many of the voters of the territory would have favored the removal of the capital to Albuquerque, but when that place had an opportunity to get the capital, it wanted to proceed on the take all and give nothing principle and failed to get what it wanted. Now that the new capital building is well under way it is quite proper that the capital question should be settled finally. The taxpayers of New Mexico do not want to pay for the erection of a third capital building in the near future, and this is just what they would have to do should the capital be removed from Santa Fe.—Silver City Eagle.

## That Grand Jury Investigation.

The result of the investigation as to the alleged bribery of members of the last legislature is simply a Scotch verdict of "not proven" and, so far as the members of the late legislature are concerned, the investigation has amounted to nothing. The effect of the investigation, however, will be excellent. Members of future legislatures will bear in mind when they are tempted to take a bribe, that there is a provision for the punishment of legislators who so far forget the duty which they owe to their constituents, that they are willing to sell their votes to the highest bidder. It is more than probable that, should there be reason to believe that bribes have been taken by legislators, after the close of the next session of the legislature there will follow a prompt investigation. This will not give promises to successful crookedness memories quite so good an opportunity to forget as they had this time.—Silver City Eagle.

## NOT TO BE OUTDONE.

### The Colonel Didn't Propose to Let a One Horse Regiment Beat Him.

"It is very amusing to me," said a gentleman recently, "the way people act when they are asked to subscribe to any fund of any kind. The way to catch them is to tell them that somebody else whom they know very well and who is about equally well off has given a large sum—that is, of course, if the person solicited does not mind acting the role of Ananias, if the cause is a good one, as for charity or something of the kind. If Mr. Moneybags has given \$50 toward the fund, it must be magnified into \$100 in order to make Mr. Closest give the same amount. If Mr. Moneybags has given \$50 originally, it should be brought to his attention that Mr. Closest has just doubled the amount, and the chances are Mr. Moneybags will also give \$50 extra. Competition is not only the life of trade, but of the subscription business," continued the gentleman. "It is only by working both ends against the middle that the successful end is reached. This reminds me of something which happened during the war. Two regiments were stationed on opposite sides of the river. A chaplain went to wait on the men composing the regiment stationed on the north side of the river with good success. A number of the men were converted, and he left that regiment and went to continue his missionary work in the regiment on the south side of the river. After laboring some time, a longer time than he had done with the other regiment, he found that he would not be so successful. Only about a dozen men were baptized from the last regiment. The chaplain had a talk with the colonel and mentioned the fact that so few of the men had been baptized. 'How many men did you say were baptized in the other regiment?' the colonel asked the chaplain sharply. 'Twenty-four,' was the reply from the chaplain. 'The colonel turned quickly around to his orderly with the quick command: 'Take 35 men at once to be baptized immediately by the chaplain. I don't propose to let any one horse regiment get ahead of us in any way. We've got a reputation to sustain.' 'It is needless to say the order was carried out, and by the laying of the additional 35 men just about double the number were christened as were in the other regiment.'—Washington Star.

## As to New Journalism.

"Why don't you believe he is a representative of the new journalism?" "Because," replied the senator with conviction, "he talked with me for ten minutes without trying to explain my business to me or give me some advice for the president of the United States."—Chicago Post.

## A Double Murder.

"Now," said Mr. Grogan as he read the headlines, "how could there be a 'double murder?' Oh, I see," he continued after reading a little. "Sure, I thought it meant the man was kilt twice."—Indianapolis Journal.

Too Much of a Bad Thing. "You are regarded as one of the shrewdest confidence men in the country," said the court, "and yet you are here."

## HOME DECORATION.

### Fancies of the Moment in the Way of Household Adornment.

Cushions, or, rather, couch pillows, of painted bolting cloth are seen in great variety this season, and they are usually of a most elaborate character, the bolting cloth being placed over satin and the pillow being trimmed with frills, folds and

FUR BLOUSE.

puffings, to say nothing of lace and embroidery. Such cushions are, of course, utterly useless, as they are too delicate to be handled, much less leaned upon, but they are expensive and dainty and catch the eye of the lavish purchaser. Cushions covered with bagdad stripes or other substantial oriental fabrics, not too light in color, are also greatly liked, and are much more practical, as they can be put to real service.

Moths always find some special attraction in particularly valuable articles, and they show a decided preference for costly eastern rugs, as the owners of such articles of luxury but too frequently learn to their dismay. Formerly it was difficult, if not impossible, to get these rugs properly repaired, but lately firms of Armenians have established themselves in the shopping districts of most of the large cities and make a specialty of mending rugs, curtains and similar oriental goods in the oriental fashion. Eastern rugs are so much more used than they were formerly and are so liable to moth ravages that this innovation is most advantageous.

Sachets of all kinds—for gloves, handkerchiefs, vells and nightgowns—are works of art this season, and the most costly materials and the finest work are put into them. Panels of bolting cloth, decorated with water color paintings, are a favorite ornamentation, as they are for pillows, and heavy silk cord, lace ruffles and satin platings form a fringe at the edges.

A picture is given of a blouse of breast-schwartz. It has a valois collar and revers and a short, plain basque. It is lined with white satin and belted with a girdle of silver filigree set with colored stones. The toque of ultramarine velvet is trimmed with shaded violets and black coq plumes.

## VARIOUS NOTES.

### Items of Interest Concerning the Wardrobe and the Toilet.

The hands may be kept soft and white by the use of almond meal. After the hands have been well soaped with fine toilet soap they should be rubbed with the meal and washed in warm water. Shoes of white satin or kid, adorned with a satin bow and a tiny tuft of orange

GIRL'S MOURNING HAT.

blossoms, are the correct wear for a bride. Fashion no longer favors wedding prayer books having covers of pearl, ivory or white silk, illuminated covers in the metal style being the latest fancy for the wedding ceremony.

Sideboards and side tables are now covered with linen or silk cloths, heavily embroidered, and small squares, ovals or rounds, embroidered also, are placed under the doaners, etc. Some very elaborate sideboard sets are made of corn silk, embroidered with flowers and bordered with silver, but these are not very practical, as they cannot be washed. More useful ones are of granite linen or damask, embroidered with linen or wash silk and trimmed with heavy guillemots or cut work in the fancy for very heavily decorated china has decreased, and the most elegant services have now no great amount of painting or gold upon them. A small bunch of flowers at the side, a little water scene or figure, or, better yet, a simple, painted border in which fine threads of gold appear, is the adornment most in favor among persons who entertain. The bordered plates often have a small elpher or monogram in the middle.

The illustration which is given today shows a mourning hat for a young girl. It is of a sailor shape and is covered plain with crape. A drapery of crape passes around the crown, the top of the crown being covered by full coquilles of crape, which form an aigret at the side.

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign," beginning November 15th, 1896, and closing February 15th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Peccos Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is applied to the crop WHEN NEEDED.

THE SUN SHINES more hours in the day and more days in the year in Eddy and Chavez counties, New Mexico, than in any other section of the west.

GOOD SOIL makes the seed germinate. WATER makes the plant grow. SUNLIGHT puts the sugar in the beet.

THE ONLY THING left to be desired that the Peccos Valley has not on hand in abundance is PEOPLE. We need thrifty farmers; 500 heads of families each on a 40-acre farm.

NO FINE print terms or conditions of sale of beet and fruit lands were ever made. WRITE for particulars.

## Highwaymen on Wheels.

A wheelman of West 14th street, New York, was attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated accounts of robberies by men mounted on wheels have appeared in the papers in various parts of the country. Those depredations of the health, diseases of the kidneys and bladder, will likewise escape arrest, and pursue their atrocious career unchecked, unless they are arrested by the potent intervention of Hostetter's Stomach Bitters, the finest digestive, as well as tonic, known to modern times. It is at the start, that disease is the more easily overcome. The use of the Bitters is followed by the happiest results in dyspepsia, liver complaint and nervousness.

#### DEATH'S REMORSELESS HAND.

Edward D. Franz Passed Away in St. Louis  
This Morning—Death Results from an  
Accident—Hamilton Pope Died  
Suddenly at the Claire.

A telegram from St. Louis brought the sorrowful intelligence that Edward D. Franz, for many years engaged in business at Los Lunas and at Santa Fe, N. M., died suddenly at his home on Benton Heights, in St. Louis, this morning, at 6 o'clock, of heart failure, following an attack of fever. He was about 68 years old.

Mr. Franz came to New Mexico before the civil war and was for many years the head of the great general merchandizing firm of Franz & Hunning at Los Lunas. About 26 or 28 years ago he sold out his interests there, and, having acquired a comfortable competence, returned to the home of his boyhood in St. Louis, and has ever since made that city his home.

However, he did not abandon New Mexico, but established an extensive hardware business in this city, which he carried on successfully until his store was burned a few years ago. Since then he has not been engaged in active business. It should be added that for a time he maintained a branch of his Santa Fe store at Alamogosa. He was a man of superior business qualifications and enjoyed the confidence and respect of all with whom he dealt.

He leaves a wife, five daughters and four sons, besides a large circle of warmly attached friends in New Mexico as well as in St. Louis. One of his daughters, Mrs. Eugene A. Fiske, of this city, will leave for St. Louis with her little boys this evening to attend the funeral. Two of the sons, G. A. Franz and E. W. Franz, are located respectively at Los Lunas and Albuquerque.

#### Death of Mrs. Helwig.

Mrs. Caroline Louise Helwig, the venerable mother of Robert Helwig, of this city, whose skull was fractured in a runaway accident at 11 o'clock on Friday morning, died at St. Vincent's hospital, yesterday, at 11 o'clock, after a long illness of several days. The funeral will take place from the house of Robert Helwig at 11 o'clock tomorrow morning and the body will be buried in the Odd Fellows' cemetery. Mrs. Helwig was 70 years old, but was remarkably active and vigorous up to the time she suffered the sad accident recorded in these columns on Friday afternoon, scarcely ever failing to drive into the city every morning with a load of ranch produce. She was respected by all who knew her.

#### Sudden Death at the Claire.

His brother is physician in charge of the sanitarium at Louisville, Ky., and his wife is in Colorado. News of the sad event has been wired to the relatives and information sought as to the disposition of the body.

Mr. Karl Burg, the young gentleman from Washington, D. C., who has such a remarkably fine base voice was a student of Professor Simpson, of New York, and later studied in Paris under Professor Bon-Jean. Mr. Burg is a son of Professor Karl O. Burg, of Washington, D. C. He will assist Miss Claude Albright at her concert Wednesday evening at the court house.

The managers of the Mary Mining & Smelting company's new reduction plant at Cerrillos say in effect to all mine owners: "We are not quite ready to start up our furnace yet, but, if you have any pay ore to sell, ship it to Cerrillos and get your money for it," which seems to be a fair enough proposition. It may be added, however, that the smelter will be blown in as soon as 1,000 tons of ore are accumulated in the bins.

A daily reader and steadfast friend of the NEW MEXICAN, who drops into figures as easy as a duck into the water, affirms without fear of successful contradiction, that Saturday evening's issue of this paper, besides the regular Associated Press report, editorial articles, local leader on going away of Archbishop Chapelle and up-to-date Co-chitral special correspondence, contained 106 different paragraphs in its social, personal and home news departments, and as usual eclipsed all of the other daily papers in the territory. Then the management succeeded in doing precisely what it aims to accomplish every day in the week, and it rarely fails.

Professor N. DeMauro, who will assist Miss Claude Albright in her concert, is an unusually talented violinist, by far superior to any in the west, having played in the greatest orchestras in France, Italy and in this country.

The current number of the Sunshine Land, printed at Los Angeles, and edited by Charles F. Lummis, formerly of this city, contains a deeply interesting and finely written article, entitled "The Prince of Impostors," wherein the true story of James Addison Reavis' effort to secure confirmation of an alleged grant of 12,000,000 acres of land in Arizona and New Mexico is told with much vividness by William M. Tipton, special agent of the United States court of private land claims, and an expert in figuring out the hidden meaning of worm-eaten and musty manuscripts.

It appears that Mrs. Leonarda Romero, who was run over and badly hurt by Ike Nowell's hack, on Saturday, was more seriously injured than the New Mexican represented. Besides having four ribs broken and being badly bruised otherwise, her skull was so fractured that it is believed she cannot live. In view of this fact and the conflict as to the culpability of Nowell in the premises, the authorities concluded not to release him on a \$500 bond. So he is still in jail.

The Berardinelli brick building on San Francisco street, now occupied by A. Walker & Co., was today transferred to S. R. Hiney, the purchase price not being named. This substantial business block was erected ten years ago at a cost of \$11,000, the site costing \$4,300 extra.

The United States court of private land claims held a brief session this forenoon, but no business was transacted.

#### CATARH OF THE STOMACH.

A Pleasant Simple, But Safe Effective  
Cure for It.

Catarh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery rising, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headache, fickle appetite, nervousness and a general played out, languid feeling.

There is often a bad taste in the mouth, coated tongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach.

To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux. Golden Seal and fruit acids.

These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine, can be used with perfect safety and assurance that a healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Boober, of 2710 Dearborn St., Chicago, Ill., writes: "Catarh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom, passing backward into the throat, reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years a bad taste in the mouth without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling."

I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

Yesterday Morning.

Like all of the writings of the archbishop, its diction was pure, eloquent, and elegant and its sentiments earnest, tender and ennobling.

Monsieur Chapelle departed last night to assume the duties of archbishop of New Orleans. Pending the appointment of a new archbishop here, which may not occur for a number of months, the Very Rev. Anthony Fourchegu, the most worthy vicar general, will administer the affairs of the archdiocese of Santa Fe.
