First Regiment of California Volunteers Boarded the City of Pekin This Morning.

ENTHUSIASTIC FAREWELL

Tomorrow, Oregon Troops, United States Regulars and Heavy Artillery Will Board City of Sidney—Two Vessels Will Probably Sail Together.

San Francisco, May 23.—California said good-bye to her 1st regiment of volunteers this morning. They left camp at 8 o'clock and marched to the Pacific Mail dock, where the big steamer City of Pekin lay ready. By noon the soldiers were all on board and before night everything will be in readiness for departure. Every street from the Presidio to the Pacific Mail dock, a distance of about five miles, was lined with people who, after the soldiers passed, fell in their wake and marched with them to the docks. The entire police force of San Francisco fell in ahead of the soldiers.

Many weeping women followed the soldiers as though loath to let them out of their sight, and even men were not ashamed to show emotion. Bombs were fired, steam whistles blown and every device imaginable for making noise was put into full operation. The jam at the dock was terrific. Tomorrow the 2nd Regiment of Oregon volunteers, a battalion of the 14th Infantry, United States Regulars, and a detachment of the California heavy artillery, will board the City of Sidney, and it is probable the Pekin and Sidney will depart in company.

CUTE ADMIRAL CERVERA.

Left Santiago de Cuba Harbor Before Arrival of American Fleet—Went in Northerly Direction.

New York, May 23.—A dispatch to the World from Kingston, Jamaica, says: Direct Santiago de Cuba advises say the appearance of the Spanish fleet off that port compelled the four American cruisers bombarding it to retire. On entering the port Admiral Cervera discovered that when the Americans returned in force his fleet would be entrapped, as only one ship at a time could pass the channel, so the ships quickly sailed and went out, purposing to try to catch the American ships separated if possible, or at any rate to give Admiral Sampson battle on the open sea. The fleet went in a northerly direction.

SPANISH BARK CAPTURED.

Prize Taken by American Cruiser Near San Juan de Porto Rico—British Coal Steamer Fired On by Spanish Warship.

Copyright by Associated Press, St. Thomas, D. W. I., May 23.—The British steamer Aldeborough, Captain Farrar commanding, which arrived at Porto Rico on May 6, from Montal, Scotland, reached this port from San Juan de Porto Rico, yesterday morning. She reports that an American cruiser captured a Spanish bark six miles north of San Juan Saturday morning and the prize was towed north. The Spanish cruiser Isabel II, while at San Juan fired on the British steamer Both, which arrived at Porto Rico after the bombardment. It is alleged the Spanish ship fired on the Both, which was loaded with coal, with the intention of crippling her and thereby preventing her departure. The officers of the Isabel II claim the firing was the result of an accident.

SPANISH CAVALRY DEFEATED.

Battle on Cuban Soil Fought in Sight of Blockading Ships—Cubans Victorious.

New York, May 23.—A Key West special says: The Cubans are fighting their way to the coast, where they will join our forces of invasion. Three hundred Cubans engaged a squadron of Spanish cavalry on Thursday 15 miles west of Matanzas. The battle was fiercely waged in sight of the blockading squadron. On Friday morning the Spanish cavalry, which had been reinforced during the night by a battalion Havana, were seen retreating towards Havana. The Cubans then approached rapidly to the coast to join with our landing troops.

FRANCO-SPANISH ALLIANCE

Second Squadron of Spanish Navy Reported Ordered to Philippine Islands—Report That Franco May Give Aid to the Dons.

Madrid, 3 p. m., May 23.—From a discussion in the Spanish senate today, it appears that Spain seriously contemplates having recourse to privateering in the near future.

The Debate.

In the senate Count Almona vehemently protested against the alleged action of American warships in displaying the Spanish flag in order to deceive the garrison at Guantanamo, as announced on Saturday in a dispatch from Captain General Blanco, who added that the American ships were "immediately recognized and repulsed." The count asked if the government had notified the powers of this incident. The minister of the interior, Senor Capellan, replied that he had notified the powers and described this reported action as "cowardly and iniquitous."

In the face of the American's conduct we must not show consideration for them." The speaker protested against Spain's adherence to the Geneva convention, whereupon the minister of the interior replied that Spain had not yet entered the convention.

Reported Franco-Spanish Alliance.

London, May 23.—The St. James Gazette says: "In the foreign market this morning several leading dealers were said to be in possession of advance news of the forthcoming announcement of a Franco-Spanish alliance, hence the rise in Spanish stocks. It is currently reported that the recent speeches of Marquis Salisbury and Joseph Chamberlain did not refer to West Africa, but to this impending alliance, against which Mr. Chamberlain's allusion to an Anglo-American alliance was intended as a counter-blast."

Spanish Vessels May Go to the Philippines.

MUSTERING PROGRESSING.

Volunteers to the Number of 108,000 Have Taken Oath of Allegiance—Two Congressmen Will Go to the Front—Naval Situation Uncertain.

Washington, May 23.—Mustering figures received at the war department show, up to this time, that 106,000 volunteers have taken the oath of allegiance.

No Important News From the Front.

Senators and representatives who saw the president early today left without gleanings any new facts about the war situation. So far as official dispatches indicated there was an entire absence of important advices from the front.

Congressmen Authorized to Go to Cuba.

Representative Edward Everett Robbins, from the 21st district in Pennsylvania, and Representative Robert E. Broussard, from the 3rd district in Louisiana, have been given authority to go to the front in the Cuban invasion. Mr. Robbins is appointed captain and assistant quartermaster of the United States volunteers, and Mr. Broussard was authorized to raise a company of Louisiana Immunes.

Naval Experts Discouraging.

Naval experts believe that Admiral Cervera's squadron is rapidly exhausting its coal supply, and that as many ports are now closed against it, the Spanish squadron will not be able to long elude our fleets, unless it gets coal at sea from colliers.

Naval Situation Uncertain.

It is said by those best acquainted with the naval situation that a decisive fight may occur within a few hours, or may not occur for several days, possibly weeks. At the same time the authorities believe the chances are greatly lessened of Admiral Cervera's prolonging his elusive plan for any considerable time. The main reason for this is that the Spanish have made inroads on their coal supply.

SUSPICIOUS BRITISH STEAMER.

The Ardnamhor Seized by Gunboat Osceola—Was Supposed to Be Trying to Enter Havana Harbor—Released This Afternoon.

Key West, May 23.—The British steamer Ardnamhor, Captain Dana commanding, came into port this morning in charge of an ensign from the auxiliary gunboat Osceola, which seized the Ardnamhor yesterday off the Cayrfort light, because she was supposed to be trying to enter the Havana harbor. She was here several weeks ago with a cargo of cattle for Havana, having been turned back by the blockade fleet. The Ardnamhor, which is chartered by James E. Ward & Co. (New York and Havana Mail Steamship company) then proceeded to New York, unloaded the cattle and cleared for Nassau and Mexican ports, including Vera Cruz. She stopped at Nassau on the way south and when captured yesterday was far out of her course, if bound for Vera Cruz. At 1:15 this afternoon the Ardnamhor was released by order of Commodore Kenney.

Reports Resembling Heavy Cannonading Heard in Windward Passage Friday and Saturday.

New York, May 23.—A dispatch to the Herald from Mole St. Nicholas, Hayti, says: Frequent reports resembling heavy cannonading were heard in the Windward passage Friday afternoon and Saturday, and gave rise to the rumor that a naval engagement was in progress between the squadrons of the United States and Spain. As no man of war has been seen outside the harbor, however, and none have entered it, it has been impossible to learn whether a naval battle actually took place.

TO MRS. PINKHAM

From Mrs. Walter E. Budd, of Pat-chogue, New York.

Mrs. BUD, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"DEAR Mrs. PINKHAM:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now I feel so well and strong, have no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."
