OJO CALIENTE
(HOT SPRINGS)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 100.34 grains of alkaline salts to the gallon; being the richest Alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the numerous cures effected in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:30 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. MANILA SITUATION

Two Weeks' Time Will Exhaust Supply of Provisions—Food Denied Spanish Volunteers.

REBELS CONTROL COUNTRY

United States Troops Anxiously Expected—Admiral Dewey Refused to Allow German Ships to Land Supplies—Threatened to Fire.

New York, May 24.—A copyrighted dispatch to the World from Hong Kong, dated May 24, says:

The situation in Manila is desperate. Food is scarce, meat exhausted, while all canned stuff is nearly gone. Two weeks will exhaust all available supplies. The volunteers demanded food, but the Spanish government authorities refused to give it and riots are threatened. A delegation is said to be preparing to wait on United States Consul Williams, as citizens fear an outbreak. The insurgents control the surrounding country and Chief Aguinaldo has arrived with his staff to organize the rebels. All classes are waiting anxiously the arrival of our troops. There is no sickness on our ships.

Dewey's Nerve Continues.

New York, May 24.—A dispatch from Manila says the German consul there tried to land provisions from German ships, but Admiral Dewey refused to permit it. The consul then declared, according to the dispatch, he would force a landing under the protection of two German cruisers. Admiral Dewey threatened to fire upon the cruisers and the attempt to land supplies was abandoned.

PREPARING FOR TROUBLE.

Believed That Crisis in the War is Imminent and Jamaica Will Be Directly Affected—Provisions for 18 Months Are Being Stored.

New York, May 17.—A dispatch to the World from Kingston, Jamaica, says:

The signing of a treaty of defense between the United States and Great Britain was announced in a dispatch received here on Saturday by the military authorities. It is believed a crisis in the war between America and Spain is imminent and Jamaica will be directly affected. All leaves of absence of military and naval officers have been cancelled, and supplies and provisions sufficient to last 18 months are being stored in Kingston.

ITALIAN OFFICIAL DEAD.

Rome, May 24.—Benedito Brin, inspector general of naval engineering and minister of marine, died today.

CONDEMN AN ALLIANCE.

United Irish Societies of Chicago Have Passed Condemnatory Resolutions Concerning Suggested Anglo-American Defensive Treaty.

Chicago, May 24.—The United Irish societies of Chicago, at a big mass meeting presided over by John M. Smythe, adopted resolutions emphatically condemning the suggested alliance between the United States and Great Britain.

SPANISH RE-ENFORCEMENTS.

Reserve Squadron Under Camara Preparing to Sail.

New York, May 24.—A dispatch to the World from Tangier, Morocco, says: The following vessels of the Spanish reserve at Cadiz under Admiral Camara are preparing to sail: Battleship Pelayo, armored cruiser Emperador Carlos V, protected cruiser Alfonso XIII, torpedo gunboat Destructor, torpedo boat destroyer Proserpina, auxiliary cruisers Patria and Rapido, (formerly Hamburg-American vessels) transport ships, and three vessels, the names of which are unknown. It is reported that instead of going to the Philippines, this squadron will probably cross the Atlantic to re-enforce Admiral Cervera's squadron, which is understood to be at Santiago de Cuba.

MARKET REPORT.

New York, May 24.—Money on call nominally 1 @ 1 1/2 per cent. Prime mercantile paper, 4 1/2 @ 5 1/2. Silver, 57 1/2; lead, \$3.50; copper, 11.
Chicago.—Wheat, May, \$1.65; July, \$1.09 1/2. Corn, May, 34 1/2; July, 34 1/2. Oats, May, 28 1/2; July, 34 1/2.
Kansas City.—Cattle, receipts 7,000; market, steady,—to shade lower; native steers \$4.00 @ \$4.95; Texas steers \$3.35 @ \$4.45; Texas cows \$3.00 @ \$3.90 native cows and heifers, \$2.50 @ \$4.65; stockers and feeders, \$4.00 @ \$5.50; bulls, \$3.00 @ \$4.35. Sheep receipts, 3,000; market, firm; lambs, \$3.85 at \$6.50; muttons, \$3.00 at \$4.20.
Chicago.—Cattle receipts, 2,500; market, quiet but steady; beefs, \$3.00 @ \$5.15; cows and heifers, \$3.50 @ \$4.60; Texas steers, \$3.80 @ \$4.35; stockers and feeders, \$3.00 @ \$4.85. Sheep receipts, 9,000; market, strong to 10c higher; natives, \$3.35 @ \$4.60; westerns, \$4.00 @ \$4.55; lambs, \$4.00 @ \$5.90.

CABLEGRAM FROM DEWEY.

Situation in Manila Unchanged—Great Scarcity of Provisions—Outbreak of Spanish Soldiers Feared.
Washington, May 24.—The Navy department today received a cablegram from Admiral Dewey, as follows: "Manila, May 30, via Hong Kong, May 24.—Secretary of Navy, Washington.—Situation is unchanged. A strict blockade continues. There is great scarcity of provisions in Manila. Foreign subjects fear an outbreak of Spanish soldiers and they will be transferred to Cavite by the foreign men of war in the harbor. General Aguinaldo, the rebel chief who was brought here from Hongkong on the McCulloch, is organizing a force of native cavalry, and may render assistance that will be valuable. Dewey."

MANY REPORTS FROM MANY MEN.

Rumors Fly Thick and Fast Concerning Fleets—Lack Confirmation—Battle Expected to Occur This Week.

New York, May 24.—The Key West correspondent telegraphs the Evening World, that he has information from unimpeachable authority, that the Spanish fleet is still at Santiago de Cuba.

THE FLEET ARRIVES.

New York, May 24.—A dispatch to the Tribune, from Newport News, Va., says: The auxiliary cruiser, Buffalo, formerly El Cid of Morgan line and later the Nichero, of the Brazilian navy, will arrive at the ship yard here either Wednesday night or Thursday morning. The officials just received notice to this effect. The Buffalo will be converted from a dynamite cruiser into an auxiliary cruiser.

REPORTED SINKING OF SPANISH SHIPS.

The Evening World correspondent at Port au Prince telegraphs that a dispatch boat from Port de Paix on Sunday, says that a rumor was current there that the Spanish cruiser Vizcaya and auxiliary cruiser Alfonso XIII have been sunk by United States warships.

DEFINITELY LOCATED.

Key West, May 24.—The Spanish fleet has been definitely located, but no engagement has as yet taken place.

ENGAGEMENT EXPECTED THIS WEEK.

The movements of the United States fleet, which are known here, make it absolutely certain that no battle has as yet occurred, but an engagement is expected to occur this week.

PREPARATIONS FOR DESTROYING SPANISH FLEET.

Every preparation has been made to destroy the Spanish fleet, which is off the coast of Cuba.

LEE GOES TO THE FRONT.

Richmond, Va., May 24.—General Fitzhugh Lee will leave here today for Tampa.

WARSHIPS KEPT BUSY.

A special from Key West to the Commercial Advertiser says: Key West has not been so deserted by warships for weeks as this morning. It will never be complained that the vessels were kept inactive when there was a prospect of a fight.

ONE CABLE IN WORKING ORDER.

Cape Haytien, Hayti, May 24.—The cable from this place to Guantanamo and Santiago de Cuba is in working order, showing that it has not been cut.

SPANISH FLEET SAILED FROM SANTIAGO DE CUBA.

Copyrighted by Associated Press, Port au Prince, Hayti, May 24.—According to current rumor here, the Spanish Cape Verde squadron, commanded by Admiral Cervera, which arrived recently at Santiago de Cuba, subsequently sailed from that port, the destination being unknown.

ANOTHER RUMOR OF DESTRUCTION TO SPANISH VESSELS.

Los Angeles, May 24.—The Times here has received a copy of a telegram sent by Senator Jones, who is in Washington, to a friend at Santa Monica, which says it is known positively in Washington that the United States fleet has destroyed the Spanish squadron under Admiral Cervera.

WILL SAIL TOMORROW.

Three Big Steamships Loaded with Troops and Supplies Leave San Francisco in the Morning for Manila.

San Francisco, May 24.—Four companies of the 14th United States Infantry (regulars) a full regiment of Oregon volunteers, and a picked battalion of California heavy artillery left Presidio this morning and boarded the transports City of Sydney and Australia, preparatory to starting for Manila. An enormous crowd saw them off, and made the Oregon men feel they had friends here. About noon the steamers left the docks and anchored out in the stream, near the City of Peking. Tomorrow morning the three big steamships will start for Manila.

CONTRACTS FOR ARMOR PLATE.

Bethlehem & Carnegie Company Will Furnish Armor for Three Battleships in Course of Construction.

Washington, May 24.—Bids were opened today for supplying armor for the three battleships, Illinois, Alabama and Wisconsin, now in course of construction at the Union Iron works, Newport News and Cramps yards. The contracts will go to the Bethlehem & Carnegie company at \$400 per ton, the maximum allowed by law.

APPAIRS IN SPAIN.

New Minister of Foreign Affairs—Admiral Camara's Fleet May Have Sailed from Cadiz—Persistent Rumors of Battle in Windward Passage.

Madrid, May 24.—A dispatch from Havana says: Secret orders have been given Admiral Cervera what course to pursue in the event the Americans attempt to cut communications between Cuba and Spain. The Americans continue to occupy positions outside of Havana, Cienfuegos, Cardenas, and Santiago de Cuba. There are now 19 American warships before Havana. It is reported the Spanish government has purchased another vessel to be used as an armed cruiser.

NEW MINISTER OF FOREIGN AFFAIRS.

Duke Almedovar de Rio has accepted the portfolio of minister of foreign affairs, which was declined by Castillo, Spanish ambassador to Paris. The duke says he does not desire the office, but accepts it on patriotic ground.

OFFICIAL ANNOUNCEMENT CONCERNING SPANISH FLEET.

Madrid, Noon.—It is officially announced that the squadron of Admiral Cervera was still at Santiago de Cuba yesterday. According to the published news here, Admiral Camara, commanding the Cadiz squadron, has been fully instructed and returns to Cadiz tonight.

ADMIRAL CAMARA'S FLEET.

London, May 24.—A dispatch to the Evening News from Madrid says:

No news is allowed to leave Cadiz. Although it is announced today that Admiral Camara starts hence tomorrow to rejoin the fleet, it would not be surprising to learn that the squadron had already left and the presence of Admiral Camara as well as the official announcements about the fleet soon sailing westward, have been a hind to the departure. There is some anxiety here as to whether Admiral Cervera's entire squadron has been able to re-unite in Cuban waters.

PROGRAM REGARDING PHILIPPINES CHANGED.

A special from Madrid today says it is evident the program in regard to the Philippine Islands has been changed. It is believed there will be no immediate engagement in Cuban waters, but Admiral Cervera will draw off the enemy while the Cadiz fleet relieves Havana.

OFF IN THEIR RECKONING.

London newspapers take it for granted that the ships reported yesterday by Lloyds agent at Para, Brazil, as having arrived there at 9 o'clock Monday morning from Rio Janeiro, are the Oregon, Marietta and Nichero.

HOPE THE RUMORS WILL PROVE TRUE.

London, May 24.—Persistent rumors were in circulation here early today to the effect that a great naval battle had been fought in the vicinity of the Windward Passage, between the eastern end of Cuba and the western part of Hayti, in which both American squadrons closed in on the Spanish Cape Verde squadron, and completely destroyed the Spanish ships.

PROCEEDINGS OF CONGRESS.

Bills Passed by the House—Appointments Made by the President.

Washington, March 24.—Mr. King (Utah) called up and the house passed the senate bill authorizing the appointment of a commission to allot to the Uintah Indians certain lands on their reservation, and to secure from them a cession of their remaining lands. The house passed a bill granting 3,125 acres of land to Santa Barbara, Calif., for the purpose of water works; also the senate bill for the temporary increase of the number of army hospital stewards.

THE SENATE SPENT THE DAY DEBATING THE PARAGRAPHS IN THE WAR REVENUE BILL RELATING TO CORPORATION TAXES.

PRESIDENTIAL APPOINTMENTS.

War—Appointment in Signal Corps—To be colonel, Lieutenant Colonel Henry H. C. Dunwoody; to be lieutenant colonel, Captain James Allen.

Captains to be Majors—Richard P. Strong, 4th artillery; George H. Seriven, signal corps; Wm. A. Glassford, signal corps.

First Lieutenants to be Majors—J. E. Mayfield, Frank Green, Samuel Reber, of the signal corps.

P. Morrill Griffith, of Ohio, consul at Matamoros, Mexico.

Dewey C. Bailey, United States marshal, district of Colorado.

FINE HAVANNA.

Finest line of Havana cigars at Schourich's.

CUBAN EXPEDITION

Official Information Received of Sailing of Native Cubans for the Island.

COAST TELEGRAPH SERVICE

Atlantic and Gulf Seaboards in Constant Communication with Navy Department—Cable at Santiago de Cuba and San Juan Out.

Washington, May 24.—Official information has been received from the Cuban legation of the sailing last Wednesday from Tampa of the first important expedition by native Cubans. The expedition was commanded by General Jose Morlet, consisted of Morlet and about 400 men. With the expedition are General Julio Sangulillo and Wm. Astor Chandler. The Florida carried 30,000 Springfield rifles and some rapid firing guns of the Hotchkiss type. These arms will enable General Garcia not only to equip 30,000 additional troops, but also to supply his own men with ammunition, for which they have been in such urgent need.

NO NEWS AT ALL.

It is stated by the Navy department that no news has been received here of an engagement between the fleets and no news of the arrival of the U. S. S. Oregon at Key West has come.

COMPREHENSIVE COAST TELEGRAPHIC SERVICE.

After several weeks' work along the entire stretch of the Atlantic and gulf coasts, the Navy department has completed the most comprehensive and efficient system for observing the approach of a hostile fleet that has ever been put into operation. A new bureau has been created for this purpose, known as the coast signal service, in charge of Captain Bartlett, who attends to this as well as the work of the naval board of information. The system has the service of 2,300 men stretched along the coast from Bar Harbor, Me., to Galveston, Tex. These are divided into 34 central stations about 60 to 100 miles apart. The stations are in turn connected directly by telegraph with the signal office of the coast navy department and operators are on duty night and day, keeping the navy department in constant telegraphic touch with the entire stretch of Atlantic and gulf coasts.

CABLES CUT BY CRUISER ST. LOUIS.

The Navy department this afternoon posted the following bulletin: The department has no reason to believe a battle occurred in Windward passage. The auxiliary cruiser St. Louis has cut the cable at Santiago de Cuba and San Juan de Porto Rico.

SUSPICIONS OF CAMARA'S MOVEMENTS.

The Navy department has received advices from Cadiz that the torpedo boat destroyers, Destructor and Proserpina, have been put in order and are ready to start with Admiral Camara's fleet, so soon as it reaches Cadiz en route to the Philippines. The Alphonso XIII and Pelayo are expected to remain at Cadiz with the home squadron. The Navy department is suspicious of the news for as far as it relates to Camara's movements.

GASOLINE EXPLOSION.

Twenty Men Employed in a Steel Foundry Badly Burned.

St. Louis, May 24.—A gasoline tank in the American steel foundry at Granite City, Ill., blew up today, burning 20 employees. Kuehns, the company's chemist, is fatally hurt. The explosion was caused by a fire which burned the smelter and a part of the moulding department. The loss is estimated at \$75,000.

HANS LARSEN FATALLY INJURED.

Special to the New Mexican.

Cerrillos, N. M., May 24.—Hans Larsen was fatally injured last night about 12 o'clock at the Ortiz mine, near Dolores, resulting in death this morning at 4 o'clock. Larsen was tramping and the ore car jumped the track on a trestle, he falling with it a distance of twenty feet to the ground. One arm and one leg were broken and he was also severely injured internally. Larsen was well known in this territory especially in southern Santa Fe county, where he was universally respected. He came here about fifteen years ago.

CHEAP RATE TO INDIAN PUEBLO.

At any time a party of five or more desires to visit the San Ildefonso Indian pueblo, a rate of one fare. The round trip will be made to the Rio Grande station.

Tickets limited to date of sale and one ticket to cover entire party.

and has followed mining and prospecting continuously. He was a Dane and has no relatives in this country as far as known. He was about forty five years old.

BOLD TRAIN ROBBERY.

Two Young Cowboys Held Up Santa Fe Train Near Belen Last Night and Secured Considerable Money—Sheriffs and Poses in Pursuit.

Albuquerque, May 24.—The south-bound passenger train on the Santa Fe railway, was held up and robbed this morning at 7:45 o'clock, near Belen, by two young cowboys. They boarded the train at Belen and compelled the engineer to run the train down the road about four miles, where a stop was made. Taking the engineer and firemen with them, they went back to the express car, threw one of the safes out of the car and blew it open with dynamite. After securing a considerable amount of money from the wrecked safe they mounted horses, which were near by, and rode rapidly toward the mountains in the west. The express messenger, a young man by the name of Hiseck, was not molested, neither were the passengers. The men who perpetrated the robbery were not over 20 years of age, both smooth-faced, about five feet six inches, and weighed about 160 pounds each. The sheriffs of Valencia, Socorro and Bernalillo counties, with posse, are in pursuit.

DEWEY DAY CELEBRATION.

Attractive Program Determined—Singing, Speaking, Fireworks—Hall Decorations.

The work of the committee on arrangements for the Dewey day celebration is progressing nicely, all the members from the chairman, Judge A. L. Morrison, down, are working faithfully to make the affair a success. The decorations for the hall will be grand and beautiful. A magnificent lot of fireworks is to be set off after the meeting adjourns to the open air.

The committee on music met last evening and with three members of the committee on arrangements, namely, Judge A. L. Morrison, Hon. Manuel Rito Otero and Mr. H. L. Ortiz, arranged for a very complete and exhaustive program of music and songs; none but patriotic songs will be rendered and the committee is now hard at work practicing such. There is a great deal of musical and vocal talent and skill among the members of the committee and patriotic songs will be rendered on the evening of June 1 by this committee as they never were in Santa Fe before. The committee consists of the following: Miss Morrison, chairman; Mrs. W. M. Tipton, Misses Gulliford, Amy Gulliford, Lamy, Blanchard, Keller and Otero, and Messrs. McCord, Johnson, A. L. Morrison, Jr., Crichton, Roy Crichton, Berge, Tipton and George A. Johnson.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.
Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Fifty cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted.

TUESDAY, MAY 24.

It is said that 150 Ohio men have already applied for the postoffice at Manila. Holy smoke; no wonder the president is worried.

It is positively laughable to see attacks on the conduct of the war in such papers as the Las Vegas Optic. But that is about all that ought to be or can be said on the matter.

The Texas Democrats will nominate Congressman Sayers as a candidate for governor of the Lone Star state. That seems to indicate that they do not love Mr. Bryan, as they did in good old days of yore.

Subscriptions to the paper, "El Nuevo Mexicano," published by the New Mexican Printing Company, are coming in at a very gratifying rate. The Spanish-speaking people of the territory want the news from the American-Spanish war.

The Bryan candidate for governor of Texas has withdrawn from the race. He saw defeat in the air, found he could not be nominated and concluded that discretion was the better part of valor. Bryanism is not as strong as it was two years ago, not by a good deal.

How the conduct of this journal does worry some people. But it was ever thus. A paper that does its duty by the people and stands up boldly for what it considers right and its party principles, can not but have enemies. That is as natural as that water should flow down hill.

The volunteers, now assembling in San Francisco for departure to Manila, are being treated with characteristic hospitality and generosity by the people of the city of the Golden Gate. California is great in all directions and in patriotism and public spirit it is behind no section of this great Union.

The Balloons, the Stewards, the Joneses, the Allens and the like yellow statesmen in the congress of the United States who urged war and howled and yowled for war are now holding back in furnishing the government with the sinews of war. They want free silver and unlimited greenbacks or see the war a failure. There is genuine, pure, unadulterated patriotism for you.

Admiral Dewey's fleet is to be reinforced and 20,000 troops under General Merritt are to be dispatched to the Philippine islands. That is business and within a month the country will hear more glorious news from Dewey and Merritt and their men. It is to be hoped that Spain will send as many reinforcements as possible to Manila. The more the merrier and the greater will be the victory.

Why Manila is now being spelled with one "i" is being explained by a New York paper as follows as the Denver News remarks:

"In the old geographies Manila was spelled Manila. Whatever controversy might have arisen because of this difference has been removed, says a correspondent of a New York paper, by Dewey, who knocked 'i' out of it."

It must be admitted that the explanation answers all practical purposes.

The state of Massachusetts has furnished its full quota of volunteers, fully armed, clothed and equipped to the federal government and in addition, at its own expense, is keeping three regiments of infantry, two troops of cavalry and a regiment of heavy artillery in service as a garrison of the several forts in Boston harbor and on the sea coast of the state. Massachusetts has the only heavy artillery regiment in the National Guard of the United States and this regiment is now in garrison at Fort Warren and the other forts in Boston harbor at the state's expense. Quite a difference between Massachusetts and North Carolina, for instance, which has hard work to fill its quota and has not raised half of it yet.

Tammany is reorganizing the police department of Greater New York to suit Tammany, and the decent people are kicking and groaning and howling thereat. Serves them right. They have no kick coming. They helped Tammany to succeed last November by staying away from the polls and they are getting what they knew they would get. They should have sense enough to take their medicine without such a lot of noise. New York is getting to be the laughing stock of the country and it serves to be such.

The yellow journals, the peace-at-any-price people, the free silver shouters and the Spanish sympathizers in this country were just chuck full of apprehension for the U. S. battleship Oregon while on

her voyage from Rio de Janeiro to the West Indies. The captain and crew of the ship said nothing, but were confident of their ability to whip anything afloat that Spain could send against the ship, and pursued the even tenor of the ship with speed and skill and the result shows that they were right.

The National Tribune of Washington, D. C., has this to say to the men who volunteered for the 1st regiment, U. S. volunteer cavalry, known as Teddies "Rough Riders."

"There is one thing most commendable about Roosevelt and his rough riders. They are largely made up of young men of wealth, education and social position, who are acting like true Americans, and enlisting directly in the ranks, to take whatever comes to a private soldier. They are the most flattering contrast to those who are taking advantage of their wealth or parentage to get soft positions on the staff, where the only service that they need actually render is to wear their uniforms at receptions. The people's heart is with the Roosevelt crowd."

W. G. Hamilton, assistant general manager of the Pecos Irrigation & Improvement company, was this week appointed manager with full authority and charge of all company business. Since the retirement of Mr. Faulkner the office has been vacant and the naming of Mr. Hamilton to the position is both fitting and necessary. He has an intimate knowledge of the conditions of the entire valley, the interests of the company thereto, is in full sympathy with the farmers, and will give careful attention that all portions and all interests shall grow and prosper.—Eddy Argus.

The New Mexican heartily agrees with its contemporary at Eddy concerning the appointment of Mr. Hamilton as general manager of the Pecos Irrigation & Improvement company. Mr. Hamilton has been with the company as assistant general manager for about five years and has shown himself in that capacity to be very competent for the position. His general knowledge, ability, tact and experience are proof positive that he will make a success as general manager and will be found the right man in the right place.

Sue Not the Government.

The Denver News is of the opinion that suing the U. S. government is losing business and regarding the proposed suit for damages to be brought by the Rio Grande Land & Irrigation company against the United States, remarks:

"The big Rio Grande Dam company in New Mexico, whose construction was stopped by an injunction suit last year brought by the federal government, is said to be preparing a suit against the United States for damages caused by delay in the construction of the dam and attendant irrigation works."

"There is no question but that the suit brought against this company was an unjust one, and was instigated by rival interests. The News freely discussed the issues involved at the time, and the decision rendered by Judge Bantz in favor of the company and subsequently affirmed by the Supreme court of New Mexico, was approved in these columns. Undoubtedly the irrigation company suffered great loss, but as against the United States it has practically no redress. It cannot sue the United States for damages in any of the federal courts. It might bring a suit in the court of claims, but if a judgment was rendered in its favor it would then have to obtain a special appropriation from congress. The reluctance with which congress passes appropriations of this nature is well known. The great-grandchildren of a man with a claim against the government may realize some benefit out of it, but he never will. The Rio Grande Dam company is advised to waste no money on such a suit. Better apply it to the construction of its irrigation system, and realize some benefit out of it."

The Franco-Spanish Alliance.

The report sent out yesterday from London that an advance in the price of Spanish bonds had been caused by the knowledge of those on the inside of matters diplomatic, who had information that an alliance between France and Spain would soon be announced, apparently has but little value except to call attention to the situation in France regarding the attitude of that country toward the United States at this time.

The result of several recent exchanges between the officials of the State department and those of the French embassy at Washington is an understanding which clearly assures a continuance of the traditional friendliness existing between the two countries, in so far as the government of France is concerned. Whatever difficulty or unpleasantness may have arisen out of the seizure of the steamer Lafayette by the blockading fleet off the coast of Cuba has all been straightened out, the delay of cable messages from Martinique has been explained satisfactorily, and there is no danger at the present of any serious misunderstanding between the two governments.

On the other hand there is a feeling of animosity among the different classes of the French people toward the Americans which may later on cause some trouble of minor importance. Among the aristocracy the total failure of the incursion into Mexico for the purpose of establishing an empire on American soil, in the '60s, and the death of Maximilian, still rankles and there is a latent desire to get even with the United States for the part in the affair played by this government. It is in the ranks of the bourgeoisie, however, where the feeling against the Americans is to be found in its real strength. That antagonism is not the outcome of a friendliness for Spain so much as it is the result of investment in Panama canal stock and Spanish bonds. And it is those same matters which have caused so much adverse criticism of this country over the war in the press of Paris. The tradesmen, artisans and poorer classes invested over 100,000,000 francs in the Panama canal bubble and lost it all. The same people have invested in Spanish bonds about \$400,000,000, and it is the thought of losing their savings through the defeat of Spain that

has brought about the sympathy for that country.

If a Republican form of government in France is stable and strong enough to withstand the pressure of a majority of the people there is no danger of trouble from the French nation at this time, despite reports of an alliance with Spain.

Creditable Progress After All.

To many people the progress of the war seems slow; the failure to bring about decisive battles on the sea, and the delay in occupying Cuba is almost exasperating and many adverse remarks on the subject are heard. The fact is that this feeling is the result of impatience to have done with an unfortunate state of affairs and not the result of slowness on the part of the government.

It is but 33 days since war was actually declared and a call made for 125,000 volunteers. In that short time over 100,000 men have been mustered into the service, arms and equipments contracted for and partially delivered, a navy of strength and effectiveness has been evolved out of almost nothing, manned and placed in actual service. An amount of work that is certainly amazing when all the conditions are considered. Nor is that all which has been accomplished in a month's time. The nations of the world that have for the past quarter of a century sneered at the United States as a fourth-rate power and a nation of dollar chasers, have been taught to respect and defer to the stars and stripes. Any people which can in 33 days place an army of over 100,000 men in a shape to take the field in a few days after the oath of allegiance has been taken; that can secure transports and start an army for the antipodes ready for service the moment land is touched; that can rise in naval strength from a minor factor in the politics of the world to a position where it holds the balance of power in that short time is entitled to respect and deference, and is feared as a disturbing element in land grabbing schemes which have heretofore been carried out without molestation.

The American people have no reason to be ashamed of the accomplishments of the government officials in preparing for a war for which the nation was totally unprepared at the time the Maine was destroyed in Havana harbor. It is safe to assert that the United States will never again be caught in such a defenseless state, the lesson has been thoroughly learned, and that is an item on the war bill that must not be overlooked.

WEEKLY CROP REPORT.

A Not Very Favorable Week—Absence of Rain Felt—Fruit Very Promising.
(Santa Fe, N. M., May 24, 1898.)

The week ending with May 23, on the whole, has not been so favorable for the growth of crops, the weather being cool, cloudy and windy, and without rain. The effects of preceding favorable conditions, however, are still apparent, and crops and ranges, as a rule, are in fair condition. The several light frosts of the week caused little general damage; some unprotected vineyards, and fruits in exposed places, being slightly injured.

The absence of rain is beginning to be felt, especially in eastern and southern sections. Although as yet there is sufficient water in the irrigation ditches there is some apprehension of a drought before the summer is through. Ranges particularly are beginning to feel the drought.

Corn, wheat and barley have made fair growth. First crop of alfalfa is being cut in the southern districts, and near the center of the territory is just coming into bloom. The effect of the cool nights is beginning to show on the corn. Wheat, barley and oats are heading nicely in southern localities. Gardens generally are in fine condition and well advanced for the season.

Fruit continues very promising. The high, dry winds and cool nights have caused some setback, but on the whole the prospects are very good. It is expected that small fruits will be scarce in some southwestern localities, but a full crop of apples and peaches. Fruit is not expected to ripen as early as last year, but it is thought that the product will be of a much finer quality. Cattle are reported to be in prime condition, although in some localities the ranges are beginning to get short. The lambing season is over, and all reports are such that it was an extremely satisfactory season.

The following extracts from the reports of correspondents will be found of interest:

Albuquerque—M. Custers—Not a very good week for growing crops; rather cold and but a 34 per cent of sunshine. No rainfall.

Bernalillo—Brother Gabriel—Dry weather during the week; quite warm during the day, and nights unusually cool. Frost night of 20th caused considerable damage in unprotected vineyards, especially in dry sandy soil. Vineyards where vines have proper and convenient shelter the vines are vigorous and laden with grapes, branches alight ready vary from six to eight inches long. Fruit trees are fine, after having been sprayed several times, and look healthy. Apples are quite large; cherries beginning to ripen. On the whole, there is only about one-half the yield that there was last year, but the fruit is much larger and healthier. Gardens in general look very well, notwithstanding the cold nights and occasional west winds. Early cabbages, turnips and onions are very large. Sweet corn is well along, advancing quite rapidly. In some places alfalfa just beginning to bloom. Wheat is in a very fair condition. The river is low but sufficient water supply for our irrigation. Ranges progressing, and cattle generally in a very fair state. Coldest night 38 degrees. No rainfall.

Cliff—T. J. Clark—Light frost for the past four nights, but did little damage. Peaches and apples will be a full crop, but other fruit will be light. Water in the Gila sufficient for all purposes. High water last fall took out all river dams, making farmers late on account of replacing dams. No rain, and ranges in need. Cattle in prime condition. Espanola—P. H. Leese—Generally favorable. Light frost night of 20th, but no damage to fruit. Fruit is quite promising. Water is abundant; there is a good deal of snow on the ranges yet. Frisco—C. Hightower—Variable weather, cold, and with considerable wind. Crops making good progress; stock in good condition. Not much

Doctors now agree that consumption is curable. Three things, if taken together, will cure nearly every case in the first stages; the majority of cases more advanced; and a few of those far advanced.

The first is, fresh air; the second, proper food; the third, Scott's Emulsion of cod-liver oil with hypophosphites. To be cured, you must not lose in weight, and, if thin, you must gain. Nothing equals Scott's Emulsion to keep you in good flesh.

SCOTT & BOWNE, Chemists, New York.

snow in the mountains but an abundance of water in the streams. Gallinas Springs—James E. Whitmore—Crops and grapes suffering from the dry winds. Rain needed badly. Las Cruces—C. E. Mead—Pleasant and agreeable weather but cold nights retarded the growth of vegetation somewhat. Farmers are still cutting the first crop of alfalfa. Barley, wheat and oats are heading out nicely. Water is very low in irrigation ditches, and people look for a shortage during the summer. No rain.

Ojo Caliente—A. Joseph—A remarkably cool week for this time of the year, and fears are entertained that fruit has suffered from the cold. Grass on the ranges needs rain badly, but there is an abundance in streams for irrigating purposes. Corn, wheat and alfalfa are looking well. No rain.

Ojo—Cyril James Collier—Good growing weather continued, but the nights have been cooler. All growing crops are growing well. Hay is claimed to be two weeks early. Fruits continue promising. Water, plentiful; rainfall, trace. San Marcel—J. W. McCoats—Crops generally look first rate, excepting that corn is inclined to look a little yellow owing to the cold nights. Stock doing nicely on the range. No rainfall.

Watrous—M. C. Needham—High winds, cool nights and the absence of rain have been unfavorable conditions for stock and crops.

Notaries' Records.
The New Mexican Printing company has on sale blank records for the use of notaries public, with the chapter of the Compiled laws governing notaries, printed in the front. Will be delivered at any postoffice or express office on receipt of \$1.25.

Monogram Note Paper.
Monogram note paper is the correct thing for private correspondence. The New Mexican Printing company can furnish the latest styles of this paper and at very low prices. Call and see samples.

Annual Meeting American Medical Association, Denver, Colo., June 7-12, 1898.

Passengers can now make the through trip to or from La Luz the same day.

A. S. GATTO, General Superintendent.

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign" beginning November 15th, 1896, and closing February 15th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Pecos Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is applied to the crop WHEN NEEDED.

THE SUN SHINES more hours in the day and more days in the year in Eddy and Chaves counties, New Mexico, than in any other section of the west.

NEWS FROM THE BROWNIES

Appreciating Colonel Knaebel's Cigars--Hot and Plenty of Mosquitos--Colonel Wood and Lieutenant Colonel Roosevelt Strict But Straight.

Captain Cooper a Noble Man--Notes and Items.

Captain Muller's Letter.

Hon. G. W. Knaebel, Santa Fe, N. M.

San Antonio, Texas, May 19, 1898.

Dear Colonel: I have received your letter, also the cigars. You have no realization how proud the Santa Fe boys feel when I read your kind letter to them and passed the cigars around.

They at once gave three cheers for Colonel Knaebel and I tell you, colonel, some of the boys showed tears in their eyes.

There are about 900 troopers here at present. Last Sunday I was officer of the day; there were about 8,000 visitors in the park, about 600 buddies and you may know what kind of a time I had to keep the whole camp in order.

We have 18 posts all over camp. We expect to move most any day now as we have all our horses and complete outfit.

Colonel L. Wood and Lieutenant Colonel Roosevelt are perfect gentlemen toward officers and men, strict, but straight. Nights we have but little rest, for the mosquitoes are here by the millions.

My troop is the happiest lot of men you ever saw and, to be sure, I am proud of them. They do what I say and I stand by them as long as I am able to.

I will close now, again thanking you for your kindness in remembering the boys, hoping that we may be able to return your kindness some day. Captain Cooper is still here and I tell you that I do not think there is a better man in the United States army today.

He has treated us finely, especially my troop, and in every way he could show us a favor he has done so. He is a noble man.

Excuse writing as I had only a candle and a poor one at that. Your old friend, Capt. Troop E, 1st U. S. Vol. Cavalry.

Notes.

There is very little sickness among the troops and the health of the command is remarkably good.

The strength of the regiment is now about 1,000 men, about 70 men having enlisted in the city of San Antonio; these are mostly Texas cow men.

The regiment has not had an easy time of it by any means, but the roughness of the situation has stirred the boys up and is making soldiers out of them.

The New Mexican arrives on time daily and the dozen copies sent here are greatly appreciated and every line of the paper is read with avidity and interest.

First Lieut. Kane, of troop K, has command of a section of two rapid firing Colt's mountain guns, which he and some other New Yorkers have presented to the regiment. The two guns cost \$8,000.

News from San Antonio is to the effect, that drill of the 1st regiment, U. S. volunteer cavalry, is going on steadily and constantly, and that the volunteers are improving daily in drill, discipline and military bearing.

At the regular meeting of Santa Fe lodge No. 2, K. of P., this evening, very important business will be transacted, and all members are requested to be on hand. Visiting knights invited.

Several of the eastern swells have been promoted. Maxwell Norman, of Boston, who is a millionaire, has been made 1st sergeant of troop K; Hamilton Fish, Jr., of New York, 2d sergeant, and Craig Wadsworth, also of New York, a corporal in the same troop.

E. troop, Captain Muller's, has received its horses, they are sorrels. The regiment has about 900 horses and 300 pack mules; every day practice is had in putting packs on the mules and there is lots of kicking on the part of the mules and lots of fun and swearing on the part of the boys.

No. 1 Kansas City meats, which is the best, received on Monday, Wednesday and Friday at A. Walker & Co.

Death of Mrs. J. W. Crumpacker.

Last night at 10 o'clock at Albuquerque, occurred the death of Mrs. J. W. Crumpacker, wife of Associate Justice Crumpacker, of the Territorial Supreme court. The deceased has been ill for a year, most of the time bedridden. Her removal to New Mexico from La Porte, Ind., a few months ago, did her some good, but the change for the better was not permanent. Deceased was 45 years of age and leaves a sorrowing husband and two children to mourn her untimely loss. The body will be taken to La Porte, Ind., tonight accompanied by Judge Crumpacker, the funeral will take place there and the remains interred in the family lot. The judge returns to New Mexico in about ten days from his sad mission.

Minor City Topics.

U. S. weather bureau forecast for New Mexico: Fair weather tonight and Wednesday.

Antonio Bustamante has sued Pedro Sandoval for \$6.50, which he claims is due him for labor.

A new roof is being placed on the Lamy block at the corner of San Francisco and Shelby streets.

L. F. Frankenburg is acting as mail clerk on the D. & R. G. in the place of C. A. Carruth, who is taking a lay off.

The beautiful prayer book raffled for the benefit of Mora Sisters of Loretto convent was won by Miss Candida Read. The raffle took place at the convent of Loretto, in this city, yesterday, under the direction of Sister Mary Xavier. The many generous persons in this city who took chances are accordingly notified of the result.

Delicious ice cream soda at Fischer's every day.

Everything used in making our soda water and syrups is of the best quality that can be bought. Try it and be convinced. Fischer & Co.

Funeral Services.

The funeral of Samuel Emerson Black took place at the residence of Hon. T. B. Catron, this morning at 10 o'clock. Rev. George S. Madden conducting the services. The members of the bar and a large number of friends of the deceased were present, and after the services the remains were taken to Fairview cemetery for interment. Judge McFie adjourned court out of respect to the memory of the deceased and the sad occasion.

Fischer & Co. serve the purest and coldest soda water to be had anywhere.

PERSONAL MENTION.

Joe Antonger went to Cerrillos today.

A. F. Christian, of Denver, is stopping at the Claire.

G. W. Griffith, of Kansas City, is at the Exchange.

L. R. Brown, of Kansas City, is registered at the Claire.

A. D. Ashbaugh, of Denver, is registered at the Palace.

A. C. Ireland returned from a short stay in Denver, last night.

Judge J. R. McFie returned last night from a short visit to Las Cruces.

Manuel Baca, a well known citizen of Pena Blanca, is here on business.

L. J. Lyson, a knight of the grip from Pueblo, is registered at the Palace.

Otis Welch, a Denver mining man, is in the city. He registers at the Exchange.

A. D. Allen, a drummer from Lawrence, Kas., is displaying a line of shirts at the Palace.

E. B. Leamer, representing a general dry goods house in Kansas City, is a Palace guest.

Frank Feith, a traveling man, is in the city from La Junta. He registers at the Bon-Ton.

Chief Justice W. J. Mills, of Las Vegas, is in the city the guest of Governor and Mrs. Otero.

Frank P. Chaves, a leading citizen of Rio Arriba county and who is well known in this city, is here on business and on a visit to relatives.

Miss Pringle, who has been teaching in the Indian school here, left last night for her home in New York.

Rafael Romero, formerly interpreter of the court under Judge Laughlin, is in the city from Mora.

Hon. Sam Eldred went up to Chinita this morning to look after his business interests.

Geo. A. Vincent, a commercial traveler from Denver, is registered at the Claire.

F. W. Dudley, a traveling man from Howell, Mich., is showing local merchants a line of clothing.

Demetrio Leyba and Camilo Leyba, two sheep men from Galisteo, are in the city on business, stopping at the Bon-Ton.

Fred Caffell, who works for Bond Bros. at Espanola, was in the city yesterday. He left for home on this morning's Rio Grande.

E. C. Chaves and wife, of Glenwood Springs, tourists, are registered at the Claire. They are en route to California for an extended pleasure trip.

Joshua Reynolds, the Las Vegas banker, was a passenger south for El Paso last night on train No. 21, that was held up early this morning near Belen.

President E. T. Jeffery, of the Denver & Rio Grande railroad, is in Alamosa today in his special car. He is accompanied by several of the road's officials.

Geo. Gallup and John G. Zane, of Escanaba, Mich., arrived in the city last night and registered at the Exchange. They are looking up a location in the territory for a home.

Cole Lydon, superintendent of the Alamosa division of the Denver & Rio Grande railroad, was in the city yesterday, a guest at the Palace, and left this morning for the north via the narrow gauge.

Frank Hudson spent Sunday in Colorado Springs and on the way home stopped off at Alamosa yesterday morning to see the artesian well, leaving his baggage in charge of A. C. Ireland, who brought it home. Mr. Hudson is expected home tonight.

Governor Otero will spend the last three days of this month in Las Vegas in attendance at the encampment of the Otero Guards at the Hot Springs and thereafter will visit Colfax county on official business.

E. Burlingame, the well known Denver assayer and mining man, was in the city last night at Tucson, where he goes to be a witness in a land case. He was on the train that was held up, but lost no valuables.

Hon. J. F. Hinkle, of Lower Pecosco, Capt. W. H. Jack, of Silver City, and Frederico Otero were passengers for Las Vegas last night to attend a meeting of the Cochiti cattle sanitary board, meeting in that city today.

Mr. McIntock, the A. T. & S. F. railway agent at Pueblo, Colo., who recently went through the novel experience of being presented with a dynamite bomb and whose hand was somewhat injured upon opening the package, went south last night to El Paso, Tex.

J. P. Whitney, of Boston, owner of the Coach Line, left for Belen this morning, en route to Prescott, where he will remain a few days, going thence to southern California for some weeks.

Bon-Ton Restaurant.

All kinds of Kansas City meats, fish and game in season, can be found at the Bon-Ton Restaurant, don't fail to notice their show window.

REPAIR THE SIDEWALKS.

Dilapidated Streets Not Approved by Residents and Homeowners--Emulate

Baton's Example.

An irate citizen exposed a barked skin to a New Mexican reporter today and remarked:

"That comes from the infernal condition of the sidewalks here. No, I didn't fall through a hole. I was walking down the street with a friend the other day and he stepped on one end of a plank, throwing the end of the sidewalk up on which I was walking."

"It's a wonder though, that somebody doesn't fall in a hole somewhere and break a leg. This city needs one or two damage suits to cause it to realize the importance of good sidewalks."

"I see by the New Mexican that in the little town of Raton, above here, the city council has given property owners 60 days to build up their sidewalks, and in event of failure to effect the improvements, the city will do it for them. Now, that's enterprise. It savors of the metropolitan and shows that those fellows are up to snuff."

"Another thing: It's an inducement for visitors to locate here. Nobody wants to make a home in a place where their children are in danger of breaking limbs, and where their own necks are in jeopardy from dilapidated sidewalks."

"The city is following a course of false economy when a desire to run a cheap administration causes the powers that be to neglect improvement. Money spent in looking after the health and convenience of the citizens is always good policy and is sure to be commended by anyone who has a lick of sense."

"The sidewalks are in better shape and ought to be fixed right away."

The irate citizen limped off cursing the streets and the city alternately, and when last seen was telling his grievance to a crowd on the corner.

TERRITORIAL TOPICS

Albuquerque.

Mrs. G. F. Graves, wife of the popular station agent at Isleta, will leave for California in a few days for an extended visit.
