## HURRY ORDERS ISSUED.

Departure of Expedition to Philippines Will Be Hastened—Commodore Schley's Report Received—Troops Sailed for Key West.

Washington, June 3.—Assistant Secretary of War Meiklejohn has telegraphed General Merritt at San Francisco to hasten the departure of the Philippine expedition. Orders have been issued to leave one transport behind if necessary, to insure immediate sailing. Effective measures have been taken by the administration which will shortly render Manila harbor impregnable against any Spanish attack.

Schley's Report Received. Commodore Schley's official report of the Santiago de Cuba fight was read at today's cabinet meeting. He says there is no reasonable doubt that Admiral Cervera's fleet is inside the harbor; that his firing was to develop the enemy's batteries and was in that respect entirely satisfactory. None of his vessels were hit and there were no casualties on our side.

There seems to be no doubt it is the purpose of the government to push forward with the greatest possible haste the military and naval movements against Santiago de Cuba and Porto Rico. The purpose is to make the movement overwhelming in strength and numbers, crush the enemy at every point, and bring the war to a speedy termination.

## DESTRUCTION OF AMERICAN VESSEL.

Reported That Auxiliary Cruiser Has Been Sunk in Trying to Enter Harbor at Santiago de Cuba—Loss Not Known.

New York, June 3.—The New York Journal prints, under Cape Haytien date, the following, which is affirmed to have been cabled verbatim, to Europe today from Santiago: This morning there was heavy cannonading from 3 to 4 o'clock. An American transatlantic steamer tried to run over the first line of torpedo defenses. The Spaniards let her do so, but when the American ship, which had already got into the pass, attempted to run over the second torpedoes, the Spaniards set fire to one of these, and the American ship sank immediately after the explosion. An officer, an engineer and six seamen have been made prisoners. The name of the American ship is unknown, as well as the number of victims of the wreck.

## SPANISH PORTS AS TARGETS.

After Coaling and Provisioning the Swift Ocean Greyhound Will Put to Sea Again to Resume Scout Duty in Cuban Waters.

New York, June 3.—The auxiliary cruiser St. Paul passed Sandy Hook this morning bound for her dock. It is believed she has come for additional armor, guns and supplies.

After visiting Commodore Bunce at the navy yard, Captain Sigsbee relaxed his reserve sufficiently to say: "I had target practice right along from the first day I arrived at Santiago de Cuba, May 22, and while none of my men have been in the service long, I am well satisfied with their work at the guns. On the 25th we captured the Restormel. I knew the Spaniards needed coal badly and made every effort to see that they did not get it. While off Santiago with Commodore Schley I saw two more Spanish cruisers and Commodore Schley saw two torpedo boats. There is no question but they are bottled up tight as can be in Santiago de Cuba harbor. I went so close that I made sketches of their fortifications, which I am sending to Washington.

Their guns could easily have reached me, but the batteries made no attempt to fire, for what reason I do not know. It may be the Spaniards did not want to reveal their strength and the location of their guns. I am going to Washington with dispatches from the fleet. So soon as we have the coaling and provisioning done, we will be out for three or four days. So soon as I arrived outside the harbor of Santiago de Cuba there were indications of the presence of Admiral Cervera's fleet on the inside, beyond the hills. I hugged the mouth of the harbor so closely that I would have been impossible for anything about to sneak out without our seeing them. So soon as we arrived off the harbor I announced my presence by a salute, taking as a target a Spanish fort.

The fort evidently did not accord me the courtesy due in respect to the time I was at Santiago de Cuba, between May 22 and May 29, Commander Schley came and went several times, cruising a little to the westward, but the St. Paul remained off Santiago de Cuba harbor eight days. On May 29 both Commodore Schley and myself saw again positive evidences that the Spanish fleet was still bottled up inside the Santiago de Cuba harbor. When I came up with Commodore Schley's fleet we both signalled the fleet—Commodore Schley to me and I to him.

## EXPEDITION CAPTURED.

Dominican Government Shoots One Rebel Leader and Will Send the Entire Expedition Into Exile.

New York, June 3.—A dispatch to the Herald from Puerto Plata, Dominican republic, says: A revolutionary expedition was landed at Monte Cristi from Hayti under the leadership of Senor Jimenez, formerly a merchant in New York. The government had been advised of the movement. Troops were waiting for the party and all were captured. Leader Jimenez was reserved for examination and General Augustin was shot without delay. President Heureux will arrive at Monte Cristi tomorrow. It is almost certain that the whole party will be executed.

## TRAGEDY IN MAINE.

Joseph Glendon Fatally Shot Louis Martels and Then Fired a Bullet Through His Own Heart.

Alfred, Me., June 3.—Louis Martels, who was released from jail this forenoon, having completed the term to which he was sentenced for a misdemeanor in which Mrs. Joseph Glendon was involved, was shot and probably fatally injured by the husband of the woman. Glendon, when he found he could not escape, fired a bullet through his heart.

## HARBOR ENTRANCE FORCED.

Rumored in Madrid That Second Attack Has Been Made at Santiago de Cuba—Claimed That Spanish Fleet Is Going to Philippines.

Madrid, June 3.—The Pals says it is rumored that the United States fleet has made a second attack upon Santiago de Cuba and the Americans forced an entrance into the harbor. The report is not believed to be true. All Madrid newspapers maintain that Admiral Cervera's fleet is sailing in the direction of the Philippines.

## RE-ENFORCEMENTS FOR CERVERA.

Reported at Port Antonio That 16 Spanish Warships Will Reach Santiago de Cuba Tomorrow.

Kingston, Jamaica, June 3.—The correspondent here of the Associated Press has been informed from apparently an authentic source at Port Antonio that a Spanish fleet of 16 warships will be off Santiago de Cuba tomorrow to reinforce Admiral Cervera.

## ORDERED TO THE PHILIPPINES.

Colorado and Pennsylvania Troops at San Francisco Will Embark on Tuesday Next.

San Francisco, June 3.—Orders have been issued by Major General Otis, commanding the Colorado and Pennsylvania troops, now at Camp Merritt, that these troops will go on board ship for the Philippines on next Tuesday.

## A JOKE ON DEWEY.

According to Madrid Reports Admiral Cervera Has Never Been in American Waters, But Will Reach the Philippines Saturday.

Paris, June 3.—The correspondent of the Gaulois, at Madrid, telegraphs that he has learned from the highest authority that Admiral Cervera has never been at Santiago de Cuba, and that the Spanish ships there belong to Captain Villamil's torpedo squadron.

It appears from information gathered by the Gaulois' correspondent that Admiral Cervera, after leaving the Cape Verde islands, "maneuvered so as to deceive the Americans and then started at full speed for the Philippines, where his fleet is to arrive Saturday or Sunday. His orders are to destroy Admiral Camara's squadron may be expected to join Admiral Cervera's fleet in the Philippine islands in a few weeks."

## Still Talking Autonomy.

Madrid, June 3.—A dispatch just received here from Havana says that in the chamber of representatives there Senor Giberja, the autonomist leader, has presented a motion urging the government of Cuba to request the insurgents to accept autonomy, on the ground that the insurgents themselves assert the country is not yet ripe for independence. The president of the chamber declared the government would entertain such a motion.

## NEWSPAPER MEN RELEASED.

British Consul at Havana Has Secured Freedom for Two Countrymen Captured by Spaniards on Cuban Soil.

Havana, June 3.—The English newspaper correspondents, Whigham and Robinson, recently captured on Cuban soil, after having been landed on the coast from a yacht, have been released owing to the representations made by Alexander Gollin, the British consul.

## More Troops Sent to Tampa.

Mobile, Ala., June 3.—The 3d cavalry will break camp at 3 o'clock, one squadron to ship on the transport Mattawean, the other two on the Stillwater and Morgan. The 30th infantry will go on board the Mattawean. These vessels will sail under sealed orders, but it is supposed they will go to Tampa.

## CONFLICTING REPORTS.

Reports from Santiago de Cuba Regarding Naval Engagement Unsatisfactory.

New York, June 3.—The Tribune posts the following bulletin: Port au Prince, Hayti, 11:15 a. m.—News has reached here that a battle was fought at Santiago de Cuba before 9 o'clock this morning.

## Reports of Battle Unconfirmed.

Port au Prince, Hayti, June 3, 8:50 a. m.—As this dispatch is sent no news has reached Port au Prince from any quarter, of further fighting at Santiago de Cuba, and the reported attack by the insurgents on that city from the land side has not been confirmed.

## SENATE FOR SILVER.

Wolcott Amendment to War Revenue Bill Providing for Coinage of Seigniorage Passed.

## PROVISIONS OF AMENDMENT.

United States Proposes to Have Great Navy—Atlantic and Pacific Coast Cities Entitled to Protection—Presidential Appointments.

Washington, June 3.—The senate committee on public lands has completed a favorable report on the Ferguson New Mexico land grant bill. The committee accepted the bill exactly as it passed the house of representatives.

## Senator Wolcott's Amendment Adopted.

The senate agreed to the substitute offered by Mr. Wolcott as an amendment to the war revenue bill for the finance committee's provision in regard to the coinage of the silver seigniorage to the extent of \$24,000,000, which is the amount first coined. The vote stood 48 to 31, as follows:

Yeas—Allen, Bacon, Bate, Berry, Butler, Cannon, Carter, Chandler, Chilton, Clark, Cockrell, Daniel, Faulkner, Gray, Hansbrough, Harris, Helfeld, Jones (Ark.), Jones (Nev.), Kyle, Lindsay, McEnery, McLaughlin, Mallory, Martin, Mills, Mitchell, Money, Morgan, Pasco, Perkins, Pettigrew, Pettus, Prichard, Rawlins, Roache, Shreve, Stewart, Teller, Thuyton, Tillman, Turpie, Vest, Warren, White, Wolcott—48.

Nays—Aldrich, Allison, Baker, Burrows, Caffery, Cullum, Davis, Deboe, Fairbanks, Foraker, Frye, Gallinger, Gear, Gorman, Hale, Hanna, Hawley, Hoar, Lodge, McBride, McMillan, Mason, Morrill, Murphy, Nelson, Platt (Conn.), Platt (N. Y.), Proctor, Sewell, Spooner, Wetmore—31.

## Provisions of the Amendment.

The Wolcott amendment adopted today provides for the coinage of all the silver bullion in the treasury at the rate of not less than \$4,000,000 per month, and the issuing, on account of seigniorage derived, of not exceeding \$42,000,000 silver certificates.

## Appropriations for Life Saving Stations.

The bill authorizing the secretary of the treasury to keep certain life saving stations on the Atlantic and Gulf coasts open and manned during June and July, appropriating \$70,000 for the necessary expenses, passed. The senate concurred in the house amendment to the bill removing all disabilities imposed by the fourteenth amendment to the constitution. The consideration of the war revenue measure was resumed.

## War Revenue Debate.

In a brief colloquy concerning priority amendments yet to be considered, Mr. Jones (Dem. Ark.) expressed the opinion that all revenue features of the bill ought to be passed upon before the bond provision was passed upon, because the amount of revenue raised might have great weight in the determination of some other pending amendments.

Mr. Hale (Rep. Maine) inquired whether Mr. Jones thought the small amount comparatively which would be raised by the pending revenue amendments would be sufficient? "I have no doubt," he continued, "if this war lasts a year it will cost the government \$200,000,000 and \$300,000,000." Mr. Jones said so much money might be spent, but he did not think so. He was satisfied that the issue of bonds was unnecessary. "I do not believe," said he, "the war will last a year, six months, or anything like that time."

Mr. Teller (Colorado) reviewed the legislation of the past ten years, and said it was evident that this bill was not to be a temporary measure. It was to all intents and purposes to be a permanent law. The United States proposed to have a great navy. The coast along the Atlantic and Pacific coasts had a right to demand protection from foreign invasion. The expenses of the government were great now, but would certainly be greater at the close of the war.

## Issue of Greenbacks Rejected.

The senate agreed to the amendment offered by the Republican minority of the finance committee, substituting the bond provision for an issue of greenbacks, as reported by the majority. The vote stood 45 to 31.

## Presidential Appointments.

The president today sent these nominations to the senate: To be volunteer army brigadier generals, Colonel John N. Andrews, 19th U. S. Infantry; Leonard W. Cady, Nebraska; Roy Stone, New York; Colonel Robert P. Hughes, inspector general U. S. A.; Lieutenant Colonel John B. Babcock, assistant adjutant general, U. S. A.; Henry T. Douglas, Maryland.

Charles O. Whitmore, attorney for the district of Utah.

## Terrible Storm in South Dakota.

Aberdeen, S. D., June 3.—The most terrific storm in the history of this place struck this morning. Many windows and minor buildings were wrecked and the Wisconsin house was unroofed. Great damage was done in the surrounding country.

## NEW MEXICO AT OMAHA.

Mining Exhibit at the Exhibition—Fine Display.

(Omaha World Herald.)

New Mexico will fill plumb full her allotted space with minerals of all kinds, Mr. J. J. Leeson, who had the territorial exhibit at Nashville, took the premium for the best general collection of minerals. That guarantees what this display will be. There is enough now to keep one looking for weeks, but there are four carloads more coming. Twelve thousand dollars' worth of gold bullion is coming by Monday, and the whole exhibit will be ready in a day or two. New Mexico produces the greatest variety of ores under different formations, from common dull gray sulphides to the most delicate forms of crystallizations, in addition to rare gems and precious stones such as turquoise, ruby, garnets and amethysts and 40 other kinds. These, of course, make an interesting display. The commercial value of this exhibit alone is fully \$50,000, and the value of the specimens is more than \$100,000 additional. Not only is the mineral department of interest, but here will be found a collection of ethnological relics that are priceless. A valuable relic of the days when Spain held firm sway over that part of the United States is a bottle made in 1300 and used to carry important documents to and from Spain and America. It was also used to bring "holy water" to this country to baptize the children of the governor of the country. But people must see for themselves all the things here displayed, and as the exhibit is near the entrance from the Auditorium it will naturally have the first attention of those coming into the building from that direction.

## RELIEF FROM PAIN.

Women Everywhere Express their Gratitude to Mrs. Pinkham.

Mrs. T. A. WALDEN, Gibson, Ga., writes: "DEAR MRS. PINKHAM:—Before taking your medicine, life was a burden to me. I never saw a well day. At my monthly period I suffered untold misery, and a great deal of the time I was troubled with a severe pain in my side. Before finishing the first bottle of your Vegetable Compound I could tell it was doing me good. I continued its use, also used the Liver Pills and Sanative Wash, and have been greatly helped. I would like to have you use my letter for the benefit of others."

Mrs. FLORENCE A. WOLFE, sig Hubbard St., Lancaster, Ohio, writes:

"DEAR MRS. PINKHAM:—For two years I was troubled with what the local physicians told me was inflammation of the womb. Every month I suffered terribly. I had taken enough medicine from the doctors to cure anyone, but obtained relief for a short time only. At last I concluded to write to you in regard to my case, and can say that by following your advice I am now perfectly well."

Mrs. W. R. BATES, Kansas City, Mo., writes:

"Before writing to you I suffered dreadfully from painful menstruation, leucorrhoea and sore feeling in the lower part of the bowels. Now my friends want to know what makes me look so well. I do not hesitate one minute in telling them what has brought about this great change. I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is the greatest remedy of the age."

## WINDING UP AFFAIRS.

Dewey Day Committee Closes Its Business and Passes Resolutions of Thanks.

The committee on arrangements of the Dewey day celebration met last evening at the office of General Bartlett, audited accounts, finished its business and, after passing the following resolutions, adjourned sine die:

Resolved, That the thanks of this committee are hereby tendered to the NEW MEXICAN for its report of the Dewey day festivities; for its kindness to us during the preparation for the same; for its services to the people of New Mexico in general and to the people of Santa Fe in particular.

Resolved, That the thanks of this committee are hereby tendered to the ladies who, by their splendid singing and constant labor, contributed so much in making the Dewey day festivities the pronounced success it undoubtedly was.

Resolved, That the thanks of this committee are hereby tendered to the orators of the evening, Hon. T. B. Catron, Hon. O. A. Larrazolo, of Las Vegas; Hon. B. M. Read and Hon. G. P. Money for their eloquent and patriotic addresses which added so greatly to the entertainment of the evening.

Resolved, That the thanks of this committee are hereby tendered to the generous people of Santa Fe who so liberally aided us financially in providing the people with the beautiful exercises of last night.

Resolved, That the thanks of this committee are hereby tendered to Mrs. R. L. Baca, to the good ladies who assisted her, and to the pretty girls who formed the loveliest feature of Dewey day in their representation of Admiral Dewey and his gallant crew.

FRIDAY, JUNE 3.

Concerning the war with Spain so far, there seems to be something very rotten in the state of Spain.

Colonel W. Jennings Bryan is attending to war preparations and getting ready to go to the front. That is the best business he has been engaged in since attaining manhood.

Cervera made a lively sprint to get into the Santiago de Cuba harbor and now he is trying to get out. It is dawn upon the haughty Spaniard that he succeeded in making a fool of himself and will have to pay dearly for his foolishness.

The army press censors at Key West, Tampa and other places where troops and ships are doing service have about smashed Cardinal Richelieu's aphorism, that the pen is mightier than the sword. The latter seems to be boss just now in those localities.

Under the president's second call this territory is entitled to a battalion of volunteers of three companies with a major, a surgeon and nine line officers. The 1st Battalion New Mexico Infantry, it ought to be. The War department should recognize this just claim, and New Mexico should not be juggled out of its rights and privileges in this matter.

They are having quite a hard time of it in the national house of representatives, because Major General Joseph Wheeler, U. S. volunteer, draws a salary of \$7,500 per year as such and also one of \$5,000 per annum as a congressman from the sovereign state of Alabama. It must be admitted that this is a rather soft snap for old Joe Wheeler and a little touch on the treasury of the United States.

Senor Sagasta gravely announces that Spain will not fight the United States until the army of this country invades the sacred soil of Cuba! "When 50,000 Americans are gathered around Havana, then the chivalry of Spain will rally to the support of the national honor and crush the presumptuous Yankees into the earth." In the mean period, Senor, the time for crushing will have passed, and the moment for surrendering to the Yankees will have arrived. America, in many respects, is like truth; the more it is crushed the more it rises.

If C. P. Huntington, of the Southern Pacific railroad, the corporation that transported the 1st U. S. volunteer cavalry from San Antonio to Tampa, could have been gotten hold of by the troopers, Roosevelt's Rough Riders would have become Roosevelt's Rough Riders and taught old Huntington a lesson that would have lasted him for the remainder of his life. As usual, that blood-sucking corporation, the Southern Pacific, cared nothing for the comfort and the convenience of the troops it transported; all it wanted was the business and all the traffic would stand and "blowed by the men."

## The New Agent of the Mesalero Apaches.

Dr. Walter McM. Luttrell, who was yesterday appointed agent of the Mesalero Apaches in the southern part of the territory, is a native of Tennessee and a young man a little over 30 years of age. He is at present the agency physician and was appointed to that position under the civil service rules in August, 1895. Prior to this appointment he served for several years as a clerk in the bureau of pension records in the War department. While in this position he studied medicine and was admitted to practice in Washington.

During his three years' service at the agency, Dr. Luttrell has shown himself to be a good official and a successful physician and surgeon. His experience during these years, together with his intimate personal acquaintance with every Indian on the reservation, will prove valuable factors in his subsequent handling of the affairs of the reservation.

The past record of the appointee in government service will be a sufficient guarantee of a successful and satisfactory administration of the affairs of the agency upon the lines laid down by his predecessor, 1st Lieutenant V. E. Stottler, U. S. army, who in three years and a half brought about a most wonderful change for the better in the moral and material condition of the Mesalero Apaches. Lieutenant Stottler himself informs the New Mexican, that he considers the appointment most satisfactory and eminently fit and proper.

## An Ancient Weapon Again in Use.

The matter of raising money for the war is causing much discussion in congress and "sussing" in the various quar-

ters where the different taxable articles are made and sold.

Corporations don't want to be taxed because they are only aggregations of individuals; banks having large capital don't want to pay any tax for the reason the small banks are not taxed pro rata; brewers object to an increase of the internal revenue upon beer upon the ground that the poor consumer will have to pay the additional tax, either by paying more for what is swallowed or swallowing smaller quantities for a nickel.

And so it goes on through the list, until it seems as if there was no patriotism in the country and the old flag might go hang itself unless it can wave on the breeze without any other support.

But, by gum, there is one interest in the country which is ready and willing to stand up to the rack and pay its share of the expenses necessary to lick the Spanish, and that is the chewing gum industry. Hereafter the girls will be permitted to chew gum on the streets, in the home, at church or while riding the wheel. It is pretty tough luck for a country so grand in every thing that goes to make an independent nation to have to depend upon jaw bone for the sinews of war, but it is not the first time in the history of the world that a victory has been won with that instrument—Sampson, not Admiral Sampson, but the fellow who let a good looking girl bamboozle him into getting a hair cut, once sang vent, vid, viel after flourishing an implement of that kind for a short time.

## The Wool Market.

The prediction made by western wool dealers, some time past, that the war would interfere with the sale and shipment of western fleeces, has been realized and the market for that staple has gone into seclusion, but there is no reason for any large amount of worry by sheep owners. Of course the unsettled state of the market coming at the time when the new clip is ready for the buyer is causing considerable inconvenience to those who had incurred obligations, depending upon the new wool to meet them, but the present state of affairs can be only temporary, as the inquiries the past week indicate.

In the Boston market, last week, the inquiries for "territorial wool" was a noticeable feature, and the market is certainly working into better shape. This is particularly true in unwashed wools. The heavy imports made into the stocks of these wools have brought supplies to within moderate dimensions, and holders have been able to command full rates. The Chicago and St. Louis markets show a much firmer tone, and there is more inquiry than for some time past. Mills which have secured government contracts are large buyers on the open market, and sales have been largely increased by the requirement of the large contracts recently awarded.

Every condition of manufacture and demand indicates that in the near future there will be a return to better prices and greater activity in movement. The new clip is beginning to attract the buyers' attention, and the turn in the lane cannot long be deferred. Now Mexico wool men have no occasion to feel "blue" over the outlook, by any means.

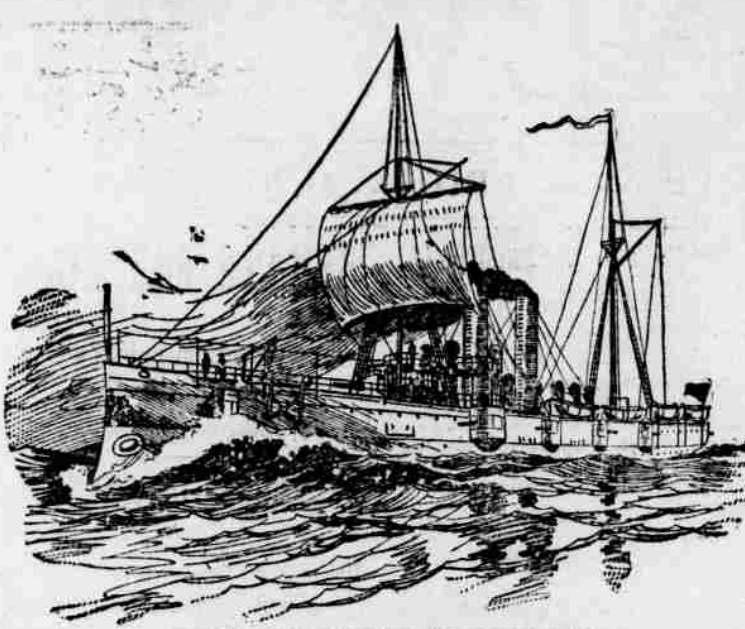

## The Philippine Islands Question.

Quite a number of the learned and good college professors of the country are very much exercised over the Philippine islands, and insist that for the government of the United States to retain them after the close of the present unpleasantness with Spain, would be a violation of the traditions of the country and in opposition to the advice of Washington, Jefferson, Adams and a few more of the statesmen of the early days of the Republic.

It would seem that these theoretical statesmen are a little premature in their worry. In the first place the islands have not yet been subjugated, although they probably will be in a short time, and in the next instance the American people have grown out of all proportion to anything that was expected by the sages of the 18th century. It may be decided to retain permanent possession of the Philippines after the close of the war, and it may not; that is a question to be decided in the future, but the talk that this or that action in regard to territory would not meet with the approval of Washington or Jefferson, were they alive, is growing wearisome.

The state papers prepared by the founders of the republic are wonderful for the clear insight into the future, and it may be true that the United States will never again raise statesmen of the ability and perspicuity of those who have gone, but at the same time it must be remembered that conditions, financial and commercial, have changed during the past 100 years, and the policy of the government must be modified to meet those changes. To retain the Philippines may prove a mistake, to allow them to pass from the control of this country, may in the end, prove a greater mistake; that matter will have to be governed largely by future developments.

If, after driving the Spanish from those islands, it is found that the peace of the world at large can be preserved by surrendering them to some other power, or even by allowing Spain to again resume control, then this country will have no right to them; on the other hand, if peace can best be maintained by their retention, then it becomes the duty of the United States to hold them. This war was not initiated for the purpose of acquiring territory from the vanquished foe, but in the name of humanity, to prevent war, and many things may have to be done to carry out the grand object of the conflict which may not meet with the approval of the theorists. These matters will all be settled in the proper time by the American people in a manner which will

The loss is covered by \$525 insurance. Almost at the same time the Schultz house was burning, a small building near by, occupied by a Chinese laundry, was discovered to be in flames. The firemen made short work of the blaze, and the Chinamen sustained but little loss.

Is the baby too thin?  
Does he increase too slowly in weight?  
Are you in constant fear he will be ill?  
Then give him more flesh.  
Give him more power to resist disease. He certainly needs a fat-forming food.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign," beginning November 16th, 1898, and closing February 18th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Pecos Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is applied to the crop WHEN NEEDED.

THE SUN SHINES more hours in the day and more days in the year in Eddy and Chaves counties, New Mexico, than in any other section of the west.

#### Fourteen Millions Left to Charity.

An eminent clergyman has prepared comparative tables showing the amount of money left for benevolent purposes by testators in the United States during the past three years. He finds that the bequests for 1907 are \$1,000,000 in excess of those of 1906. In the former year they were upward of \$13,000,000, in 1907 more than \$14,000,000. Beneficence has other forms than that of money. Great remedies are among the most precious legacies. Prominent among these is Hostetter's Stomach Bitters, a most effective remedy for and preventive of malaria. Equally efficacious is the Bitters in cases of dyspepsia, constipation, rheumatism, nervousness, biliousness and loss of appetite and sleep.

#### Result of Experience.

When we are young and trusting, said the matron thoughtfully, we regard a readiness to believe every protestation and excuse of man as nothing less than sublime faith.

Isn't it? asked the maid anxiously. And when we are older and have been married a few years, continued the matron, ignoring the question, we regard it as simple foolishness.

**MAGICALLY EFFECTIVE TREATMENT FOR WEAK MEN OF ALL AGES**

**FREE TO ALL MEN**

**THE TRIUMPH OF CHRISTIANITY.**  
I never saw such impudence as young Dash has. A pretty girl was getting out of a carriage as he came by, so he went and kissed her.  
What did she do?  
Told him he was no gentleman.  
What did he say?  
Said he was a Christian, anyway, and kissed her again to show he wasn't angry with her.  
What did she say?  
Said she was as much a Christian as any one else, and offered the other cheek to prove it.

Mr. John Bevin, editor of the Press, Anthon, Ia., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for fifteen years, have recommended it to hundreds of others, and have never known it to fail in a single instance. For sale by A. C. Ireland."

**Her Obnoxious Pedigree.**  
It was the year 3588 A. D. Presently it would be 3589. The Princess Mayme had no time to lose, and yet she was forever exalting herself because of her birth.  
I am descended from pork packers! she would say, laughing scornfully every day for the prince who sought her hand.  
As for the other princesses employed in the store they laughed at her pretensions, and maintained that any one might trace a lineage as distinguished, provided one went back far enough.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftest fellow will wait until necessity compels it and then run his best horse going for a doctor and have a big doctor bill to pay, besides one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by A. C. Ireland.

**In the Ranks.**  
Mrs. Buswick—Did your husband occupy an important position in the army during the civil war?  
Mrs. Buswick—Very important position. He was employed by the government in a private capacity.  
Mrs. Buswick—Indeed.

Mr. P. Ketchum, of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by A. C. Ireland.

**Patriotism and Business.**  
I like this pattern well enough, said the customer who had dropped in to look at some gingham, but I'm afraid the colors will run. Run, ma'am! indignantly answered the salesman. Red and white and blue? They never run! Whereupon the woman with the flag pinned to her jacket bought forty-three yards.

I was seriously afflicted with a cough for several years, and last year had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. Mary A. Beard, Claremore, Ark. For sale by A. C. Ireland.

#### A PENNY FOR A PEN.

That Was the Price, but the Order Surprised the Clerk.

A sharp eyed, close observing, keen witted, sensible sort of a young woman, who would have told you if you had asked her that she was 25 years of age, went into a Louisville stationery store the other day, and the first thing that she saw was a duds looking clerk whose manners didn't please her at all. She tried to find some one else to wait on her, but she failed, and he came up with a smile and a bow that would have suited some people to a dot, but it only provoked her.

"Have you any pens?" she inquired rather curtly.  
"Yes, miss," he answered with a flourish of manner.  
"What kind, please?"  
"Any kind, miss," said the clerk breezily; "every kind, all kinds. We strive to please, miss, and we keep a full and complete assortment. You may rest assured, miss, that whatever you want in the pen line you can get in this house."

"What price?"  
"Have your choice, miss, at a cent apiece."  
"Ah, thanks!" she murmured. "I want a pippen. Here's the money. Send it up at once, please. Good morning!" And she went out, leaving the clerk in a condition which was really painful to contemplate.—Louisville Courier-Journal.

**The Elopement.**  
"And you will always be kind to me, dearest Speckles, won't you?"

"The church and the parson are waiting, dearest, and now we are safe."

"Betrayed!"

"Farewell!"—Pick Me Up.

**A Successful Author.**  
Returned Tourist—By the way, Mrs. de Beauti, I have not seen your charming daughter since my return. When I left, she had determined to submit her first novel to The Heigh-ton Magazine. Has she been successful in her literary aspirations?

Mrs. de Beauti—Perfectly. She married the editor.—New York Weekly.

**Had Him There.**  
"Woman," he hissed, "between you and me it shall be a duel to the death!"  
The lady smiled.  
"As the challenged party," said she, "I have the choice of weapons. Let it be bat-pins."

Battled, the villain threw his cloak around him and fled into the gathering darkness.—Chicago Enquirer.

**The Teacher Taught.**  
Father—Do you think my son possesses any ability as an artist?  
Instructor—Well, yes. In one branch of drawing he can give me pointers.  
Father (promptly)—Indeed! In what branch?  
Instructor—Drawing corks.—New York Journal.

**Recognized Her Own Picturesqueness.**  
He—Do you think I would take a good photograph?  
She—Perhaps not, but I am going to keep mine under lock and key, just the same.—Chicago News.

**Beginning of Hostilities.**  
Mr. Perkley—Oh, if you could only learn to cook as my first wife did!  
Mrs. Perkley—If you were as smart as my first husband was, you'd be rich enough to hire the best cook in the land.—Cleveland Leader.

**Spring Sounds.**  
"What is that horrid noise in the hall?"  
"Henry, I suppose, falling over our bicycles; he forgot that he brought them down out of the attic this morning."—Chicago Record.

**Why He Opposed It.**  
"Why are you opposed to women on juries?"  
"Well, I think the aim of our jury system should be to have fewer instead of more disagreements."—Chicago Post.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before probate clerk of Rio Arriba county, at Tierra Amarilla, on June 15, 1898, viz: Braulo Trujillo, for the s. 1/4, s. 1/4, s. 1/4, sec. 34, T. 36 N., R. 10 E., S. 10 E.

#### SUMMER SILKS.

They Supersede Thin, Tailor Made Woolen Costumes.

Tailor made gowns, although they will never "go out"—they are too neat, serviceable and convenient to be abandoned—are not so universally worn as they were—this is, they are more strictly confined to ordinary use, not appearing so frequently on formal occasions. There was a time when tailor made gowns appeared everywhere except at a ball. Now the more feminine silk attire, with its fluffs and furbelows, is preferred for calls, afternoon receptions and similar occasions.

There are many very pretty designs in foulards, India silks and tulle for summer wear, among them some charming plaids and stripes, to say nothing of the fine oriental patterns, close, intricate and of harmonious coloring, which are old, but still acceptable. The latest novelty is perhaps the shadow silks, which have a glass effect in combination with shaded

**GIRL'S COSTUME.**  
tints, the whole being subdued and pleasing in aspect. The shading is in the form of wide stripes, which run lengthwise or crosswise of the goods, but stripes seem too hard a word for the graduated bands of color, which have no defined limits, but melt imperceptibly from light to dark and back again.  
The picture shows a frock for a girl of 10 years. It is of pink and white striped tulle, three bands of narrow black velvet ribbon being run in around the foot of the skirt, finishing with rosettes at the side. The blouse has a yoke of guipure over pink silk and a bertha of tulle trimmed with black velvet ribbon. The tulle sleeves are also decorated with black velvet bands and rosettes, and the bodice is lined in front with black velvet.

JUDIE CHOLLET.

#### FLANNEL WAISTS.

**How to Keep Them Soft and Pretty in Spite of Washings.**  
The time approaches when for seaside and mountain wear and for tennis, rowing and other athletic amusements thin flannel shirts and shirt waists will be in demand. The laundering of these articles is often a difficult, however, as they require to be washed frequently, and if this is not properly done every successive washing shrinks, hardens and disfigures the goods. Flannel with which cotton is interwoven is by far the best for shirts and shirt waists, as it shrinks much less and in the case of a white ground keeps whiter longer. The first thing to be guarded against in washing woolen material is rubbing it. This thickens it at once. Warm, but not hot, water should be used and should be made into suds with mild, white soap before the flannel is put into it, the soap not being rubbed directly on the goods. The flannel should then be shaken, stirred and squeezed in the hands until it is clean, but it must not be twisted. Sometimes the process requires to be repeated.

**MORNING JACKET.**  
peated in fresh suds. When the goods are clean, the soap may be rinsed out in warm water, the water pressed out and the flannel hung where it will dry quickly.  
The shirt waist flannels worn this season are chiefly checked and plaided, the blocks being small and mingled with many white threads. There are also French flannels having a printed design, usually of an oriental character, but these flannels are rather thick for the purpose. Scotch flannels in solid colors, chiefly pale pink and pale blue or in fine stripes, also make very pretty waists.  
The morning jacket illustrated is of straw silk with black lines. It has a bolero yoke of black velvet, and the collar and opulents are of velvet also, all being bordered by a black satin roche. The cuffs of the shirt waist sleeves are similarly edged. The girle is of straw ribbon.

**Fancy Work.**  
Does your wife do much fancy work? Fancy work? She won't even let a porous plaster come into the house without crocheting a red border round it and running a yellow ribbon through the holes.

**Commendable.**  
Jasper—Whenever a great man dies Longhair writes a poem about him.  
Jumper—Well I must commend his judgment in not writing it before the great man dies.

**Feeding the Fire.**  
The most powerful engine must stop if the fires are not fed. Man is the most wonderful piece of machinery in the world, yet no matter how strong and well-made his bodily frame may be, if the fire of life within him is not constantly fed his limbs and muscles become powerless and useless. The reason men become helpless and diseased is because the food they eat, which is the fuel of life, is not properly digested and appropriated by the stomach and nutritive organs. It is not completely transformed into the strength and working power which is to man what steam is to the engine.

That wonderful power-making "Golden Medical Discovery," invented by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., imbues the human digestive juices and blood-making glands with capacity to extract abundant nourishment from the food. It builds up organic tissue, nerve fiber, hard muscular flesh and working force. It gives a man steam.

What it did for Mr. F. S. Hughes, of Junction, Hunterdon Co., N. J., is given in his own words. He writes: "I received your kind letter, and in reply would say that mine was a bad case of kidney and liver trouble, and that six bottles of Dr. Pierce's Golden Medical Discovery and four bottles of 'Little Pills' effected a complete cure. It is well known that almost every engineer is troubled more or less with kidney trouble, especially on our fast express trains. I run one hundred and forty-four miles on these trains every day in the week, and have had no return of the trouble since taking the remedies, nearly three years ago."

### ARRIVED AT TAMPA.

Delays and Hardships of the Trip Owing to Mismanagement by the Southern Pacific Railroad—Great Time Through Texas—Arrived in New Orleans on Tuesday—All Well.

Special to the New Mexican.

Tampa, Fla., June 3.—Colonel Lorenzo Wood, with his Rough Riders, the 1st U. S. volunteer cavalry arrived in Tampa this morning, 1,087 strong, all mounted and with a pack train of 200 mules. The regiment went into camp at West Tampa. The men are well armed and equipped, well mounted and made a fine soldierly appearance.

Special Correspondence to the New Mexican.

On the way from San Antonio to Tampa, May 30, 1898.—The Southern Pacific has again showed its hoggish nature, and the "Fighting First" has a large kick to receive.

Under instructions from the War department, Colonel Wood made arrangements with this rotten C. P. Huntington's corporation to transport the regiment to Tampa, Fla., and was assured that the railway would be ready to carry us through on Sunday. Revell's sounded at 4 p. m. and in a short while the troops had broken camp and were prepared to move. The Arizona squadron started for the railroad depot at 10:30 a. m. and were loaded and away by noon. Colonel Wood then ordered the New Mexico squadron to move out, but as the railway company failed to furnish cars for the troops promptly the order was countermanded and we did not leave camp until 5:45 p. m. On arrival at the depot we found stock cars for our horses waiting us, but no passenger cars. After loading the horses, we camped in the street and had a light lunch (3:30 p. m.) of hard tack, beans, Texas. During this time the third squadron, under Major Dunn, had been coming in and by midnight the last horses were loaded and still no passenger cars. At 5:30 this morning the delayed cars arrived and we at once got aboard, but did not get away until after 6 o'clock. A short fatiguing breakfast served just before leaving San Antonio.

However, the men stood it with calmness, hoping for a better deal when we got to Tampa.

All the delay and confusion could have been avoided had the Southern Pacific officials dealt squarely with Colonel Wood. If they had told him the cars could not be had until today, the troops would have been held in the camp and properly rationed and the horses given better attention. But being afraid of losing their contract the agents of the C. P. Huntington corporation resorted to a mean trick to induce the colonel to start the first two trains of troops and thus put him in a position where he could not rescind the contract and take his troops over another road. The Southern Pacific road is vastly inferior to that of the Santa Fe. The cars wherein the regiment was transported were dirty, old and stuffy and extremely uncomfortable. The service was poor and the officials insolent.

The contrast between these cars and the chair and tourist cars of the Santa Fe is very striking and has caused much disgust on the part of the men.

Had Colonel Wood formed any idea of the treatment he and his men were to receive at the hands of "The Great North American Hog," he certainly would have gone over another road.

Lieutenant Colonel Roosevelt was untiring in his efforts to get the men off safely and promptly and when the last horses were loaded at midnight he came over to troop E and dropped down on the bare ground, without a blanket, to sleep. The only accommodation he would accept from the men was a nose bag which he placed as a pillow under his head. There in the dirt, and with no cover except the starred canopy of heaven, the sturdy Teddy, unmindful of the myriads of mosquitoes, slept soundly until morning.

"Viva Cuba Libre!" "Viva Teddy Roosevelt!" "Come."

En Route to Tampa, New Orleans, June 3.—Arrived here in good shape. Despite all hardships and hunger, heat, and dirt, the men are in good condition and jubilant at going to the front. Had a great trip through Texas. Crowds of people, flowers and lunch at many stations. The regiment was enthusiastically received everywhere. More news from Tampa.

### PERSONAL MENTION.

H. P. Smith will go to Denver tonight.

Hon. Sam Eldred went up to Chamita this morning.

J. M. Jacobs, of El Paso, Tex., is a Claire visitor.

Mrs. S. G. Cartwright and Cartwright, Jr., are improving rapidly.

Mrs. P. Bodonello is stopping at the Palace, from Albuquerque.

S. M. Root, a Denver commercial traveler, is at the Palace hotel.

J. D. Quinn, a New York commercial traveler, is stopping at the Palace.

W. G. McAfee, sheriff of Grant county, is registered at the Claire from Silver City.

H. Bagman, of New York City, representing a clothing house, is registered at the Palace.

Sheriff T. S. Hubbell, of Bernalillo county, is registered at the Palace, from Albuquerque.

Charles Lewis and family went up to Alamogordo this morning, where they will reside in the future.

Miss Louise Wood, who has been at the sanitarium for the past three weeks, went to Denver last night.

Judge A. L. Kendall, of Cerrillos, manager of the Dugrow lumber yard, is in the city from Cerrillos.

E. G. Wilson, of Las Vegas, manager of the Continental Oil company, for New Mexico, is a Palace guest.

Miss Carrie Stern, of South Bond, Ind., is in the city visiting Mrs. Samuel Eldred. She will remain some time.

F. A. Reynolds has gone to Kansas City for the purpose of settling up matters in connection with placer workings on the Chama.

W. D. Fuller, of Denver, arrived in the city last night, and is the guest of his friend R. M. Hargrave, of the weather bureau.

W. M. Frazier, a healthseeker from Denver, who has been spending the past six months in this city, returned home this morning.

S. B. Hamill, a commercial traveler representing a Chicago crockery and glassware house, left on this morning's Rio Grande for Colorado points.

J. T. McCarthy, of New York, is in the city and will remain for some weeks. He is here for the benefit of his health. He is a friend of Collector A. L. Morrison.

A. A. Grant, owner of the Albuquerque Democrat and other Albuquerque institutions, is in Albuquerque from California and will remain there several weeks. He is accompanied by his son.

Lieutenant E. V. Stottler, of the 10th regiment of infantry of the regular army, was a through passenger for Santa Fe last night. This clever young officer has proven himself to be the best Indian agent the Mesquero Apaches have ever had. In less than three years his vigorous policy has been instrumental in transforming them from brutal savagery to a self-supporting civilization. At the first call for volunteers Lieutenant Stottler was offered a colonelcy, but was unable to get the Interior department to relieve him at that time.—Albuquerque Democrat.

F. H. Brigham, special agent of the general land office and inspector of surveys, has finished the several examinations of United States surveys, that have been referred to him in New Mexico and leaves tomorrow afternoon for Los Angeles, Calif., en route to Portland, Ore., which is his home and where he has resided for seven years. At Los Angeles he will be joined by Mrs. Brigham and they will travel together to Oregon. Mr. Brigham has built up for himself a very enviable social position in Oregon since his settlement there and is spoken of as a prominent candidate for appointment of surveyor general of the state upon the expiration of the term of office of the present incumbent, Mr. J. H. Rogers.

### Dewey Day, Other Days and Religion.

Editor New Mexican.

Santa Fe, N. M., June 1, 1898.—After a residence of less than seven months, I dislike to appear as a critic, but certain impressions have recently been made that trouble me, and I ask the courtesy and columns of your useful paper for a brief space.

A stranger coming to Santa Fe, and witnessing the exercises in God in the program. No place for a public prayer or reading of the scriptures. Now did God not have much to do with Dewey's great victory? Should not one of our clergymen have been asked by the committee to offer prayer? Singing is no substitute for this, even if his hymns are sung. The minister is God's spiritual representative of the people. A few weeks ago our brave soldier boys went to fight for humanity and the flag. Everybody showed interest in their departure. Patriotic speeches were made, but there was no one to bid them not to forget God, no one to breathe upon them, as they left, the soothing, cheering benedictions of prayer.

Memorial day was observed five days ago. On the Sabbath evening before a special service was held in the Presbyterian church and was attended by almost all the old soldiers. Father Gay had charge of the services, the pastor being quite ill. Of this service no mention appears in our daily paper. An excellent report of all the other proceedings occurs, but no reference whatever of the religious features.

A few Sabbath evenings ago, in the M. E. church, an excellent Cuban meeting was held, at which Judge Laughlin, I am told, gave a clear and most interesting statement of the political state of the subject from the beginning. No report of this meeting was ever given in any of our papers, to my knowledge. Suppose it had occurred in the hall and on another day.

On Monday we read our papers, and got no church news. The readers might suppose that there were no churches in the city. There is never a report of what they are doing. I hope this is simply an oversight and will be remedied, but it has been an omission that amazed me ever since my coming. I trust that no one will think that I wrote from personal pique. I am on my back as I write with feeble hand, and could not have taken part in any of the recent public exercises. I write in the interests of true citizenship and discipleship. Can we afford whom God has so blessed to make no grateful recognition of his love and power. Ought our public demonstrations to be so conducted? I am interested in Santa Fe and wish to see it a God-fearing place.

W. HAYES MOORE,  
Pastor Presbyterian Church.

### Code of Civil Procedure.

Every practicing attorney in the territory should have a copy of the New Mexico Code of Civil Procedure, bound in separate form with alternate blank pages for annotations. The New Mexican Printing company has such an edition on sale at the following prices: Leatherette binding, \$1.25; full law sheep, \$2; flexible morocco, \$2.50.

### Notaries' Records.

The New Mexican Printing company has on sale blank records for the use of notaries public, with the chapter of the Compiled laws governing notaries, printed in the front. Will be delivered at any postoffice or express office on receipt of \$1.25.

### MINOR CITY TOPICS.

Mrs. W. Locke is seriously ill with pneumonia.

The New Mexico Medical society meets in Las Vegas tomorrow.

U. S. Weather Bureau—Forecast for New Mexico: Fair tonight and Saturday.

Ignacio Sena and Marcelino Ortiz went out to Sulphur Springs this morning on pleasure trip.

The sprinkling wagon should have been in use this forenoon. It was dry, dusty and windy.

Petra Pena, of Pajarito, San Miguel county, has been granted a pension at the rate of \$8 per month.

Elections for school directors in the county precincts take place next Monday throughout the territory.

J. P. McFadyen, formerly of this city and lately of Cerrillos, has opened a restaurant at Albuquerque, called the Midland.

The court of private land claims meets in this city on next Tuesday. It is believed that the session will be lengthy and that considerable business will be cleaned up, as the term of the life of the court expires next March, unless an act of congress for its continuance is passed.

Jose Antonio Anaya, a prominent citizen and large sheep owner at Galisteo, spent the day in Santa Fe on business matters. He reports that the increase in the flocks in his vicinity this year is fully 90 per cent, and that the price of wool is constantly advancing.

The passenger, freight and express business of the office of the A. T. & S. F. Railway in this city for the month of May of this year shows a very satisfactory increase over the business done in May, 1897. Score another one for the capital of the territory. The town is more than holding its own.

Last evening, in an altercation over personal matters, Juanito Herrera struck Avaristo Duran in the face with a rock, inflicting an ugly looking wound. Deputy Sheriff Huber arrested Herrera, and this morning Justice Garcia fined him \$10 and costs. In default of payment Herrera was committed to the county jail for 60 days.

Wm. McKean and Frank Cotton, deputy United States surveyors, and Postmaster F. C. Stevens, of Red River, who are in the city as witnesses before the United States grand jury, have presented the New Mexican office with a number of fine mineral specimens, which attest the splendid mineral resources of that new but booming district.

At its regular semi-monthly meeting held recently, Carleton post, G. A. R., adopted resolutions returning thanks to the ladies of the Woman's board of trade and other patriotic women who aided so much in making Memorial day in Santa Fe such a success this year. Thanks were also extended to the citizens generally who aided the post, especially to Rev. Father Gay for his admirable sermon delivered at the Presbyterian church on Sunday night, and to the members of the choir which furnished the fine music for both occasions.

### THE OLD RELIABLE.

South Santa Fe County Mines Being Worked Steadily with Very Satisfactory Results.

In an interview with a New Mexican representative, J. B. Mayo, ex-chairman of the board of county commissioners of Santa Fe county, and general manager of the Old Reliable Mining company, which owns the Old Reliable, Broad Gauge, Narrow Gauge and Grand Central mines, said:

"The feeling among mining men in the Golden region is that the section is destined to become one of the most important factors in the New Mexico's gold production in the near future. Many efforts are being made to secure properties there and the mines and placer workings are showing good results with developments. As soon as affairs are amicably settled between the operators and the Ortiz grant mine people satisfactory results may be looked for all around.

"The Old Reliable is now working eight men. The property has four shafts varying from 75 to 80 feet in depth, all in mineral. Developments show fully 600 feet of vein matter. It is in reality a quarry—a blanket deposit, of free milling gold ore. Three teams are now hauling ore to the Graves mill at Golden, a distance of two and one-half miles from the mine workings. The mill has a capacity for treating 15 tons of ore per day. Three men can take down enough ore to supply the mill.

"At present only low grade ore is being shipped—ore that averages 88 per ton. As soon as possible, arrangements will be made to treat 50 tons of ore per day.

"R. C. Chapman, of Chicago, and myself are sole owners of the lease on the Old Reliable, Broad Gauge, Narrow Gauge and Grand Central mines. The lease runs for a period of 99 years. We control 38 acres of ground.

"Carley & Aranda are working their Gold Standard property steadily and treating the product in their mill. The property shows very high grade ore.

"A big steel tank for water storage purposes is being built by the Monte Cristo Placer company.

Mr. Mayo exhibited a gold retort weighing one pound, which was the result of a 50 ton mill run of ore taken from grass roots. The retort is valued at \$19 per ounce, and was worth \$228. The deposit is so easily worked and of such stupendous proportions, that it can be classed one of the most important gold discoveries ever made in the west. No hoisting is required and the ore can be mined for less than 81 per ton.

### THE TRI-CENTENNIAL CELEBRATION.

One Fare to Chamita for July 13 from All Points in New Mexico—Also One Fare for the Horticultural Society Meeting September 10.

Hon. L. R. Prince has received notice from the A. T. & S. F. railroad authorities as to rates of fare over that road for the tri-centennial celebration at Chamita on July 13. There will be a rate to Santa Fe from all points in New Mexico and from El Paso, of one fare for the round trip. As the D. & R. G. railroad will have a very low excursion rate from Santa Fe to Chamita, this makes a very favorable arrangement for all who wish to attend.

The A. T. & S. F. company has also conceded a one fare rate for round trip to Santa Fe at the time of the horticultural fair, including the days from September 6 to 10. This should be remembered by all societies and organizations that are arranging for meetings, as it affords an opportunity to meet in Santa Fe at a pleasant season and cheap rates.
