NO WORD FROM WELLMAN'S PARTY

WIRELESS CAN'T LOCATE
THE AIRSHIP AMERICA

Steamers Report No Sign of
Balloons Which Were Last Re-
ported Off Coast of Mass-
achusetts.

[By Morning Journal Special Leased Wire]
Saugus, Mass., Oct. 17.—Five
westbound Atlantic liners, all in touch
with each other and all anxious for
news of Walter Wellman reported to
the wireless station here today that
they had seen nothing and heard nothing
either directly or indirectly of
his dirigible airship America.

The first ship to call the operator
here was the Finland, then 116 miles
west of Nantucket at 5:05 this morn-
ing. Then came in succession the
Maine, the Philadelphia, the Ryndam,
the Niagara and finally the Kron-
prinz Wilhelm for New York.

Not a word had they heard. All
five ships had sent out the prearranged
"W" at frequent intervals but
no word out of the silence had come
back to any of them. They had fol-
lowed the regular westbound line for
trans-Atlantic travel and taking in
the reckoning their distance from
each other, the wireless zone covered
an area which they thought should
have included Wellman if he was able
to reply.

Just before the America drifted out
of touch with the world her wireless
operator warned the station here that
"the airship was missing." The gasoline
motors were not then running and he
was depending for his sending spark
on the reserve supply in the storage
batteries. If the America were still
running before the wind with power
shot off it was therefore thought here
today that she might be husbanding
her strength for a crucial need, un-
willing to expend it in gossip, however
interesting to those ashore.

All the steamers in this chain and
all vessels reporting tell of heavy
rains and a violent electrical storm
on Sunday evening, followed by con-
tinued fine weather and a calm sea.

FAMILIES OF VOYAGERS EAGERLY AWAIT NEWS

Atlantic City, N. J., Oct. 17.—News
is being anxiously awaited here to-
night by the families of men aboard
the America as to whether they will
attempt a dash for Europe or return
to their homes in the eastward wind
now prevailing.

Leroy Chamberlain, son-in-law and
secretary-manager for Walter Well-
man, said he believed that Wellman
and his party would decide before
daylight whether to attempt a des-
perate trip over the ocean or return
to America.

The hangar here will be kept in
readiness to receive the America
should Wellman and his men decide
that it is impossible to attempt the
voyage to Europe.

DOLLIVER'S DEATH AFFECTS LA FOLLETTE

Rochester, Minn., Oct. 17.—The
news of Senator Dolliver's death
caused a slight setback to the favor-
able condition of Senator Robert M.
La Follette.

The close relationship
between the senators in their careers
made the Iowa's death a great sor-
row to La Follette and it seemed to
cause him to worry. His condition is
by no means serious and it is thought
the slight turn for the worse will be
overcome very shortly.

THREE MEN ARRESTED FOR ASSASSINATION

Albany, Ky., Oct. 17.—Samuel Lee,
Thomas Lee and their father, John
A. Lee and James Means were ar-
rested and lodged in jail here today
on the charge of assassinating D. E.
C. Moxley, who was shot from ambush
October 8 as he was riding to court
to testify in the trial of Samuel Lee.
Samuel Lee was charged with violat-
ing the revenue law and Moxley was
expected to be the most important
witness in the prosecution.

TACOMA DENOUNCES DURAND'S CENSUS FIGURES

Tacoma, Wash., Oct. 17.—At a mass
meeting of the business men of this
city today resolutions were adopted
denouncing the figures on Tacoma's
population issued by the census de-
partment. The resolutions demand
that the government make another
census of the city and ascertain if
there has been fraud. If any has been
committed the resolutions declare
the city of Tacoma will do everything
in its power to bring the guilty persons
to justice. A joint committee repre-
senting the Commercial club and the
chamber of commerce probably will
go to Washington and present the
resolutions to the census bureau, the
department of commerce and to Pres-
ident Taft.

PARIS STRIKE IS FORMALLY CALLED OFF

STRINGENT MEASURES BY
BRIAND ARE SUCCESSFUL

Chief Demands of Wage-
workers Are Granted; Bomb
Throwing and Mob Work
Blamed on Anarchists.

[By Morning Journal Special Leased Wire]
Paris, Oct. 17.—The strike com-
mittee of the railroaders' union at a
meeting tonight formally called off
the strike of the railroad employees
which has extended over several of
the most important systems in
France. Work will be resumed on
all lines tomorrow.

The collapse of the strike was pri-
marily due to the stringent measures
taken by Premier Briand, who called
to the colors the majority of the
strikers, thus compelling them to do
service as reservists. The premier
also placed under arrest many of
the strike leaders and used the military
forces without restraint for the
protection of life and property. After
having broken the back of the strike,
M. Briand, successfully arranged a
practical settlement, whereby the
chief demands of the men were met.

A serious situation arose through
the throwing of bombs and attempts
at train wrecking, responsibility for
which the strikers denied.

According to the police these out-
rages were planned by anarchists and
fighting revolutionists, who hoped to
take advantage of the strike agitation
to terrorize the police. The entire
press in France with the exception of
certain revolutionary organs were
opposed to the strike and supported
Premier Briand in the settlement of
a serious economic and social crisis.

ATTEMPT MADE TO WRECK TRAIN WITH BOMB

Paris, Oct. 17.—Bomb outrages in
connection with the railroad strike,
reached a climax today in an attempt
to wreck a passenger train at Ver-
sailles.

A bomb was thrown at the entrance
of the tunnels to the Chantiers sta-
tion at a moment when a passenger
train was due from Drancy. The bomb
struck the limb of a tree and bound-
ing off landed beside the tracks with
a terrific explosion.

A group of soldiers guarding the
tracks nearby had a narrow escape
from injury. They report having
seen three persons on the bridge just
before the explosion. Neither the
tracks nor the tunnel were damaged.
So great was the force of the ex-
plosion that all Versailles was shaken.
Thousands of people rushed to the
scene and police guards were im-
mediately strengthened along the
line. This and other outrages have
spurred the police and military au-
thorities to new efforts to fight their
secret foes. The police attribute the
bomb-throwing to anarchists and
fighting revolutionists. They do not
believe the rank and file of the strik-
ers responsible and the frequency of
the attempts convinces them that they
are confronted with a far-reaching
conspiracy on the part of anarchists,
who are taking advantage of the
strike agitation to destroy property
and terrorize the public.

Attempts at train wrecking are re-
ported from various parts of France
and serious catastrophes have been
narrowly averted. Dynamite was
found today strewn along the tracks
near Miramas and an attempt was
made to blow up a bridge spanning
the river Loire nearby. A bomb was
found under the railroad bridge near
Firmigny, which was intended to ex-
plode upon the passing of the first
train. Another bomb was found in a
first-class compartment of a train
near Reuilly. The bomb contained
enough dynamite to blow the train
to atoms.

The express from Marseilles for
Nice, was derailed and the working
parts of several trains were found
to have been tampered with. Half a
dozen bombs have been exploded in
the city of Paris and although the
damage has been slight, the people
are apprehensive and the authorities
are doubling their precautions.

Tonight police were notified that
a small box, containing powder, nails
and a lamp with fuse had been dis-
covered in the vestibule of a public
kindergarten at Vaugoussier, a southern
suburb of Paris.

The police have arrested several
additional strike leaders on the charge
of fomenting disorders. A large num-
ber of strikers have been sent to
prison for interfering with the free-
dom of labor. The garrison of Paris,
which has already been reinforced,
was further strengthened today by
two regiments and the troops will be
employed for the protection of property.

Six hundred women, the wives of
strikers, attempted to parade to-
night. They carried placards, sum-
moning the women of France to op-
pose "the scandalous oppression of the
founders, and help to alleviate the
misery of the small wage earner." The
police dispersed the women and ar-
rested several.

ROME AND PARIS EXPRESS NARROWLY ESCAPES WRECK

Chambery, France, Oct. 17.—The
Rome and Paris express narrowly es-
caped being wrecked last night. The

compressed air connections had been
cut, supposedly by train wreckers,
and for a time the train ran wild.
The express had taken the down
grade between Modane and Sam Jean
de Maurienne when the engineer dis-
covered that the brakes would not
work. The momentum increased rap-
idly until the train had attained a
frightful speed.

The engineer was unable to stop
until a long stretch of level track had
been covered. None of the passen-
gers was injured.

JEALOUS HUSBAND USES A REVOLVER

Joliet, Ill., Oct. 17.—After she had
been pursued through half a dozen
states, Mrs. J. J. Payne, was prob-
ably fatally shot tonight by her jeal-
ous husband, who shot himself dead
directly afterward in the court house
square.

Payne had lived in El Paso, Mem-
phis, Los Angeles and other places.
He was a yard master for the South-
ern Pacific at Los Angeles at one
time. His wife left him in the west
and finally went to the home of a
sister, Mrs. Chris Bruggeman, at Man-
hattan, a suburb of Joliet. Payne
traced her through several cities and
at last met her in the street tonight.

RAILROADS FIGHT FOR VALUABLE LAND

Washington, Oct. 17.—Lands in
Colorado, Kansas and Nebraska, val-
ued at millions of dollars will be the
stake for which railroads and indus-
trialists in Colorado will contest before
the supreme court.

The tribunal today decided to re-
view the finding of the circuit court
of appeals for the eighth circuit,
which supported the contention of
the Union Pacific railroad that its
right-of-way through the lands of
Thomas Stuart and Charles H. Mur-
ray should be 400 instead of 100 feet.
The decision of the supreme court is
expected to establish a precedent
that will have far-reaching effect in
the three states named.

President Taft in New York

New York, Oct. 17.—President
Taft arrived at the Grand Central sta-
tion here at 5:55 tonight and went to
the house of his brother, Henry W.
Taft. Accompanying him were Mrs.
Taft, his daughter, Helen, and his
sister-in-law, Mrs. Thomas K. Laugh-
lin, Jr.

Considerable Fear is Also Entertained For Residents of Tampa, Fla., Oct. 17.—With com-

munications with all points south
here cut off and wireless stations out
of commission, Tampa and all that
territory between Tampa and the
Florida Keys, is being storm-tossed to-
night. It is impossible at this hour
to estimate the damage, no reports
having been received from nearby
towns. In Tampa, up to 11 o'clock the
damage is confined to telephone and
electric light wires and minor dam-
ages to shipping.

Grave fears are felt for forty-six
members of the Plant City artillery
encamped at Egmont Key. The com-
pany landed there this afternoon and
soon after the tents were pitched,
the wind blew them down.

Considerable fear is also enter-
tained for residents of Passaic, N. J.,
a report on the bay. There are at
least fifty persons there and it is be-
lieved they will feel the full force of
the disturbance.

Fortunately the four days' warning

FLORIDA KEYS BEING SWEEP BY FIERCE STORM

Grave Fears Entertained For
Safety of Soldiers on Land
and Sailors at Sea.

HURRICANE DEVASTATES
THE ISLAND OF CUBA

Reports From Havana Say That
It Is Impossible to Estimate
Material Damage; Thousands
Homeless.

[By Morning Journal Special Leased Wire]
Tampa, Fla., Oct. 17.—With com-
munications with all points south
here cut off and wireless stations out
of commission, Tampa and all that
territory between Tampa and the
Florida Keys, is being storm-tossed to-
night. It is impossible at this hour
to estimate the damage, no reports
having been received from nearby
towns. In Tampa, up to 11 o'clock the
damage is confined to telephone and
electric light wires and minor dam-
ages to shipping.

Grave fears are felt for forty-six
members of the Plant City artillery
encamped at Egmont Key. The com-
pany landed there this afternoon and
soon after the tents were pitched,
the wind blew them down.

Considerable fear is also enter-
tained for residents of Passaic, N. J.,
a report on the bay. There are at
least fifty persons there and it is be-
lieved they will feel the full force of
the disturbance.

Fortunately the four days' warning

given by the weather department
served to put all shipping on guard.
Not a boat has sailed in that time.
It is feared the schooner Brazos,
which sailed several days ago, is lost,
as no tidings of her have been receiv-
ed. She was bound for Cuban ports,
lumber laden. Untold damage is be-
ing done to the oranges, which gave
promise of a bumper crop. The trees
were loaded with fruit.

Passengers arriving this afternoon
from Sarasota and other points south
report considerable damage along the
railroads. The wireless is working but
its range is limited.

A steady gale is blowing at the
rate of fifty miles an hour and in-
creasing in intensity every moment.
Indications, however, are that the
storm will pass a little to the south
of Tampa. It is probable that it will
spend itself somewhere in the Ever-
glades.

Wind Attains Fierce Velocity.
St. Augustine, Fla., Oct. 17.—At
this hour, no serious damage had been
done here but the velocity of the
wind is constantly increasing. Thus
far no lives have been reported lost.

Last reports received here indicat-
ed that the situation along the Flori-
da East Coast railroad was hourly
growing worse but the workmen were
given warning early of the approach
of the hurricane. Several barges of
the roads' extension have been sunk
and three miles of roadway were
washed out south of Jupiter.

The last message received from Key
West, early tonight, reported a wind
velocity of ninety miles an hour.

Tide Two Feet Above Normal.
Galveston, Texas, Oct. 17.—While
the tide at Galveston tonight is two
feet above normal the local weather
observer declares there is no indica-
tion that the tropical disturbance will
approach the Texas coast.

Wires Down South of Jacksonville.
Jacksonville, Fla., Oct. 17.—All
wires on the east coast of Florida are
down south of Port Pierce, 140 miles
from Jacksonville, and it is impossible
to get news from that section, de-
spite the fact that the wind was re-
ported blowing at an estimated velocity
of sixty miles an hour.

Late advices from Port Pierce and
Titusville state that the waves are
breaking over the lowland and flood-
ing exposed places. The track of the
East Coast railroad is washed out in
at least a dozen places.

Padre Island Inundated.
Brownsville, Texas, Oct. 17.—A de-
vastating storm from Point Bea-
uport has been raging in the Gulf of
Mexico since last night and it is be-
lieved they will feel the full force of
the disturbance.

Fortunately the four days' warning

was given by the weather department

served to put all shipping on guard.

Not a boat has sailed in that time.

It is feared the schooner Brazos,

which sailed several days ago, is lost,

TEN BALLOONS ASCEND AT ST. LOUIS

FOUR COUNTRIES ARE
REPRESENTED IN RACE

Aviators Make Good Start as
Weather Conditions Are Ideal
and Will Attempt to Make
Distance Records.

[By Morning Journal Special Leased Wire]
St. Louis, Oct. 17.—The fifth inter-
national balloon race was launched
here this afternoon when ten monster
aerostats, representing four countries
ascended amid the plaudits of thou-
sands of enthusiasts. They sailed to-
ward the north and northwest and
were out of sight within a few min-
utes.

Under ideal atmospheric conditions,
amply provisioned for fifty hours or
more and ballasted with the utmost
care the balloons arose gracefully and
speedily. There was not a hitch in
the arrangement though the Ham-
burg III of Germany, Lieutenant Vogt,
pilot, got a false start and the Million
Club, St. Louis, St. Louis, St. Louis
von Phul, pilot, narrowly missed col-
liding with a grand stand.

The balloons were released at inter-
vals varying from one minute to twenty
minutes.

The balloon Condor, an entrant
from France with Jacques Faure, pi-
lot, and Ernest G. Schmoll, aide, as-
cended at 4:40 o'clock.

The Condor was 1,000 feet in the
air, going northwest when the Million
Club, one of the entries from the United
States rose from the ground at
4:55 o'clock. It was delayed by too
much ballast.

The Million Club left with the band
playing Yankee Doodle. Balloon
Aurea, representing Switzerland as-
cended at 5:07 o'clock. The wind
velocity was eight miles an hour.

Harburg III, the first German en-
trant was the fourth to cut loose at
5:14 o'clock.

The late de France got away at
5:24 o'clock. The Condor and Million
Club went out of view at
5:35 p. m.

The balloon St. Louis No. 4 left the
ground at 5:26 o'clock.

The Helvetia, the second Swiss en-
try started from the ground at 5:27
o'clock. Colonel Theodore Schaeck,
the pilot won the 1908 race.

Three of the seven balloons were in
sight when the Dusseldorf II the sec-
ond German balloon followed at 5:36
o'clock.

Pilot Gericks was working in the
rigging when the Dusseldorf went up.
The America II, the third entry from
the United States rose at 5:47 o'clock
to the tune of "America."

President Cortlandt F. Bishop of
Aero Club of America was in charge
of the contest. The race is for dis-
tance, which is to be air line meas-
urement from St. Louis, the winner
receiving the James Gordon Bennett
cup and \$2,000. The second and third
prizes are \$1,500 and \$1,250.

Under the rules a landing is made
if the basket touches the ground or
the drag rope becomes entangled in
trees or trails along the ground for
more than fifteen minutes or if the
balloon descends in fresh water. It
is disqualified. The velocity of the
wind when the race started was eight
miles an hour and the direction south-
west to north-east. Weather Observer
Hayer expects higher altitudes.

Balloon Travels at Low Altitude.

Pearl, Ill., Oct. 17.—A balloon passed
over Pearl at 10 p. m. It was go-
ing north at a low altitude and the
occupants could be plainly heard
singing in a foreign language. Pearl
is eighty miles from St. Louis.

The balloon Aurea was seen near
here at about 9 o'clock. Two other
balloons passed over this point with-
in the next ten minutes. All were go-
ing due north, flying at a height of
about 1,400 feet.

Eighty-Five Miles Out.

Winchester, Ill., Oct. 17.—The bal-
loon America II, A. B. Hawley, pilot,
passed over Winchester at 10 o'clock
tonight at an altitude of about 200
feet. Winchester is eight-four miles
from St. Louis.

Representative Wilson Appears Again

Chicago, Oct. 17.—State Representa-
tive Robert Wilson, alleged distrib-
utor of the "jackpot" who the Lord-
mer investigating committee of the
United States was unable to locate
during the hearing here, walked into
the office of United States Marshal
Hoy today.

"I understand there is a subpoena
for me to appear before the sena-
torial committee," said Mr. Wilson.
"No, we have no summons for you,"
replied the marshal.

To reporters he said he had been
away from the city for a month be-
cause of trouble with his eyes. He
declined to be kept for weeks in
a dark room.

Ancient Probate Case Settled.

Boston, Oct. 17.—The longest con-
tested probate case in the world, it is
claimed, was settled tonight when
William Blake Russell, of Dickinson,
N. D., was his brother and co-pi-
lor with him to the \$500,000 estate of his
father, the late Daniel D. Russell.

The acknowledgment was made in
writing and thenceforth the claims of
the alleged Daniel Blake Russell of
Pismo, Cal.

(Continued on Page 2, Col. 5.)

COMMITTEE IS AGREED UPON PREAMBLE

ORATIONS OF LEADERS
MAY NOT BE PRINTED

Resolution Adopted Expressing
Regret Because of Death of
Senator Dolliver of Iowa
Yesterday.

[Special Dispatch to the Morning Journal]
Santa Fe, N. M., Oct. 17.—"We, the
people of New Mexico, grateful to Di-
vino Providence for the virtues we
enjoy, in order to form a perfect and
substantial government and promote
the general welfare, do ordain and es-
tablish this constitution of the state
of New Mexico."

This is the preamble of the consti-
tution of the state of New Mexico,
which has been agreed upon by the
committee on preamble and boundar-
ies. This committee was expected to
report at today's session of the con-
vention. The report was delayed, how-
ever, owing to a slight difference be-
tween the members on the defini-
tion of the eastern boundary of the
state. This eastern boundary, it will
be recalled, has heretofore been the
occasion of some little controversy
with the state of Texas.

This afternoon's session was brief,
but members found time to introduce
some half dozen different propositions
for the initiative and referendum,
which propositions are calculated to
keep the committee on legislative de-
partment, to which they were refer-
red, busy for some little time.

A resolution by Delegate Crist,
which was referred to the ways and
means committee, provides that a ver-
batim record of each day's proceed-
ings be printed and that five copies

to elections. Referred to the committee on elective franchise.

No. 58, by W. E. Lindsey, pertaining to election. Referred to committee on elective franchise.

No. 59, by G. B. Patterson, relative to initiative and referendum. Referred to the committee on legislative.

No. 62, by Nestor Montoya, relative to bill of rights. Referred to committee on bill of rights.

No. 63, by Nestor Montoya, relative to education. Referred to the committee on education.

No. 64, by G. A. Richardson, relative to irrigation. Referred to committee on irrigation.

No. 65, by W. B. Wallon and A. H. Harle, relative to primary election. Referred to committee on elective franchise.

No. 66, by J. R. Gilchrist, relative to election of United States senators. Referred to the committee on legislative.

No. 67, by F. E. Wood, relative to the initiative. Referred to the legislative committee.

No. 68, by F. E. Wood, relative to the referendum. Referred to the committee on legislative.

Committees Making Progress.

Nearly every important committee of the convention held meetings today, and in nearly all cases, satisfactory progress is reported by the chairman. The committee on public lands held an open meeting this morning. This committee is working on a plan, by which it is hoped that the lands granted the new state may be conserved and put to the best possible use. At the same time, the members of the committee, who are all business men, are seeking a method which will not retard the development of the country. It was suggested before the committee today and the suggestion meets with favor, that at the earliest possible moment, the lands should be classified and appraised as to their value.

At a public hearing of the committee on corporations, held this afternoon in the senate chamber a representative of the ore shippers appeared and argued for a railway tariff on ore, based upon weight instead of upon value. This gentleman declared that if assured that this would be done, he would at once place five hundred men at work on his properties in the vicinity of Santa Fe.

The sub-committee of the corporation committee is still busy with the corporation commission article. They expect to have a report ready for the full committee by next Thursday. The committee on bill of rights, while its work is almost complete, is still struggling with the question of the abolition of the grand jury. It is now believed that the bill of rights will contain no mention of the grand jury, thus leaving the subject entirely to future legislatures. It is likely that the committee will recommend that nine out of twelve jurors in civil cases be empowered to return a verdict.

On the committee on judiciary, the sub-committee on methods of prosecution has made its report. The judiciary committee, as well as the bill of rights committee, is considering the grand jury problem, and the sub-committee recommends the retention of the system. If this report be adopted, the grand jury will consist of seventeen men and the agreement of twelve of them will be necessary for indictment. Defendants may be presented for trial with their own consent on information sworn to by the district attorney and approved by the court. In county courts and justice of the peace courts, in both civil and criminal cases, juries shall consist of six men. In civil cases, the agreement of five shall be sufficient to return a verdict.

The committee on counties and municipalities has announced a public hearing for tomorrow morning, at which all parties having matters which they desire to present before the committee, are invited to appear. This is the committee to which has been referred the provision for the separate submission of statewide prohibition. It is not known whether or not the representatives of the prohibition party and Anti-saloon league now, here, will take advantage of the committee's invitation.

The committee on taxation and revenue provided for by Dr. Cunningham as usual, held an all-day session today.

Pay Day in the Convention.
Today was pay day in the convention and the members and employees received checks for their first fifteen days' services. Several of the delegates expressed the intention of preserving their checks as relics of this historical occasion.

Important Rolling Made.

Washington, Oct. 17.—Federal officers elected to constitutional conventions may attend them and draw their salaries both as a federal employee and as a delegate to the convention, according to a decision handed down today by the comptroller of the treasury. The case just passed upon was that of two justices of the territorial supreme court of New Mexico.

EIGHT KILLED IN ELECTION RIOT

Twenty-Five Wounded During Fights at Basse Terre; Police Shoot Into Crowd.

(By Morning Journal Special Leased Wire)

Basse Terre, Guadalupe, Oct. 17.—Five men and three women were killed and at least twenty-five others persons were wounded, six of whom will die, during rioting at yesterday's elections.

Of the dead, one woman seventy years old, was shot behind the closed doors of her home, which stands opposite the town hall. It is supposed

that many others injured fled to the woods.

The rioting occurred in the Petit Bourg district of this city, the capital of the island.

The trouble began through the election from the town hall of the representatives of the radical party at the moment the voting ceased and the inspection of the ballots was to begin.

The radicals attempted to force an entrance and assembled the twelve gendarmes who stood in their way. The gendarmes fired a volley over the heads of the radicals and then shot indiscriminately into the crowd.

A detachment of twenty-five soldiers has been brought here from Pointe à Pitre as the situation is still threatening.

Bankers Postpone Action.

New York, Oct. 17.—There was another meeting today of the American bankers, convened in the European cotton bill of lading controversy. No action was taken, however, because of the absence of Sir W. H. Holden, the representative of the European interests.

THREE MEN SCALDED ON TORPEDO BOAT

Explosion of Salt Water Evaporator Injures Men in Boilers Room; All Will Survive

(By Morning Journal Special Leased Wire)

Santa Barbara, Cal., Oct. 17.—Three men were seriously injured by the explosion of a salt water evaporator on board the United States torpedo boat destroyer Truxton off Santa Barbara yesterday and were brought here today. They are Frank Leo Howard, 22, fireman, Salt Lake City; Harry W. Bailey, 24, machinist, Washington, D. C.; and Thomas Joseph Kierman, 26, electrician, Albany, N. Y.

The men were working in a boiler room when the explosion occurred, boiling water and steam being hurled upon them. They are burned on the head, face, back and hands.

The surgeon of the Truxton says all of them will survive.

The Truxton is one of six torpedo boats engaged in sub-cadre practice off the channel islands here during the past week.

FOSS IS CANDIDATE FOR GOVERNOR

Files Nomination Papers at Boston Though Democrats Cannot Choose Between Four Aspirants.

(By Morning Journal Special Leased Wire)

Boston, Mass., Oct. 17.—Notwithstanding that a mail canvass of 93 1/2 per cent of the chosen delegates to the democratic state convention made by the state committee showed a large majority in favor of the nomination of Eugene N. Foss for governor, the committee of four appointed by the convention to select a candidate in place of Frederick W. Mansfield, was still deadlocked when it adjourned tonight. The mail vote results as follows:

E. N. Foss, 455; Charles S. Hamilton, 484; Charles F. Readman, 31; James H. Vahey, 31; F. W. Mansfield, 11. Blank, 3.

While the vote was being counted, backers of Mr. Foss for governor and Thomas P. Riley and Thomas F. Cassidy for lieutenant governor, were hustling about for signatures to nomination papers and a few minutes before 5 p. m. when the time expired for the filing of nominations for state offices by such methods the necessary number of names had been obtained, certified and filed with the secretary of state.

In a statement tonight Foss said he will be a candidate at the polls under the name of democratic progressive.

Mr. Riley's papers are styled democratic citizen and those of Mr. Cassidy democratic independent.

As Mr. Mansfield is the actual democratic candidate for governor and has stated that he would not withdraw before 5 p. m. next Thursday in favor of Mr. Foss, whom he strongly opposed because of the latter's labor record, it looked to the party leaders tonight as if there would be two candidates for governor as well as two for lieutenant governor from their ranks.

All of these candidates have until Thursday night to withdraw and substitutions may be made up to 5 p. m., October 24.

ENUMERATOR DENIES THE TACOMA PADDING STORY

Portland, Ore., Oct. 17.—Stacey Corwin, the Tacoma census enumerator, whose name has been prominently set forth in connection with the alleged padding of the census returns of that city today made known his presence in this city. He is in the employ of a gas company and asserts that his Portland address has been known to the census bureau at all times.

"There is absolutely nothing in the charges concerning a great padding of the enumeration in Tacoma," said Corwin tonight.

"If the census officials have decreased the population of Tacoma to 22,812, they have done Tacoma a great injustice."

"Concerning the campaign conducted by the civic bodies, I wish to say that they probably turned in 12,000 names of persons who asserted that they had not been counted by the enumerators. I then investi-

gated every name and probably 2,000 of this number were added to the rolls. The rest of the names were thrown out."

"IT BEATS ALL."

This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first dose gave great relief and one bottle completely cured me." Contains no opiates. FAMOUS DRAMATIST PASSES AWAY

William Vaughn Moody, Author of Many Books and Builder of Clever Plays, Dies in Colorado.

(By Morning Journal Special Leased Wire)

Colorado Springs, Colo., Oct. 17.—William Vaughn Moody, the famous dramatist, died in this city shortly after midnight following an extended illness. Mr. Moody came here several weeks ago, accompanied by his wife and a Miss Birch of Chicago and registered at a local hotel, his identity being concealed by the substitution on the register letters "H. C." for his proper initials.

A week ago he moved to a house at No. 5 West View Place on which he had secured an extended lease and where his death occurred. He was a Christian Scientist and it is said did not have any treatment.

The widow and Miss Birch went to Denver today where it is understood that the body will be cremated in accordance with his wishes.

Mr. Moody was in the west recuperating and had secured, some months ago, a leave of absence from the University of Chicago where he was professor of English literature. When he arrived here he was in very feeble health.

Tumor of Brain Causes Death.

Chicago, Oct. 17.—Private advice received here late today made known the death of William Vaughn Moody, author, playwright and authority on English literature. He died at Colorado Springs, Colo., after an illness lasting over a year.

The malady that caused Mr. Moody's death manifested itself while he was on a cruise with his wife off the South Atlantic coast. Specialists whom he consulted found it difficult to diagnose but was finally pronounced tumor of the brain. Mr. Moody was born at Spencer, Ind., in 1869. He graduated from Harvard in 1893, taking a master's degree in 1894. He lectured on literature in English and rhetoric in Harvard and Radcliffe colleges, coming to the University of Chicago in 1909.

As a playwright and author he has been best known. Among his best known writings are "The Masque of Judgment," a lyrical drama, a history of English literature, the "Green Di- vide," and "The Faith Health."

JULIA WARD HOWE IS DEAD AT AGE OF 91 YEARS

Authoress Succumbs to Attack of Pneumonia at Her Home in Rhode Island; Funeral Thursday.

(By Morning Journal Special Leased Wire)

Providence, R. I., Oct. 17.—Julia Ward Howe is dead. Bowled under the weight of a ninety-one years, the noted philanthropist and authoress succumbed peacefully today to an attack of pneumonia at her summer home here. The funeral will be held at the church of Disciples Thursday.

Those who knew her said that Mrs. Howe's unflinching optimism was the great source and support of her manifold activities. Born in a cultivated home in New York city and educated with care, she showed only a remarkable avidity for study and superior literary tastes.

She was but twenty-two years old when she came to Boston and met Dr. Samuel Gridley Howe, the great philanthropist, and two years later they were married. From that time until Dr. Howe's death in 1876, this remarkable couple showed a never-fading co-partnership of activity in all things making for the uplift of mankind.

After her husband's death Mrs. Howe continued her work by pen and voice for many a worthy cause up to the very end. She had shared her husband's labors for the Greeks in their struggle for independence; she had assisted him in his anti-slavery work and fired the nation with her "Battle Hymn of the Republic"; she had joined heartily in the crusade for woman suffrage; then in the last year of her life she pleaded the cause of the little children by participating in a public hearing at the state house and urging that action be taken to insure pure milk for infants.

Mrs. Howe was the author of many poems of which she had published several volumes and of many works. Her works included volumes recounting her travels with her husband in Greece and Cuba.

Mrs. Howe leaves four children. Mrs. Florence Howe Hall, a prominent woman suffrage worker; Mrs. Laura E. Richards, an author; Mrs. Maude Howe Elliott, wife of John Elliott, the artist and professor Henry Howe, professor of metallurgy at Columbia university.

DELEGATES NAMED TO MISSISSIPPI CONGRESS

Governor Mills Appoints Prominent Men in Various Parts of Territory to Go to San Antonio Meeting.

(Special Dispatch to the Morning Journal)

Santa Fe, N. M., Oct. 17.—Governor W. J. Mills today appointed forty-two delegates to represent New Mexico at the Transmississippi congress which will convene in San Antonio, Texas, on November 22. The proclamation and list of delegates follows:

Whereas, The 21st Annual session of the Transmississippi Commercial Congress will convene in the city of San Antonio, Texas, November 22nd, 1910; Now, therefore, I, William J. Mills, governor of the territory of New Mexico, by virtue of the authority in me vested, do hereby appoint as delegates the following named residents of New Mexico:

George Curry, Tularosa; L. Bradford Prince, Santa Fe; H. J. Hagerman, Roswell; Thomas D. Burns, Tularosa; Amarilla; Jose Ortiz y Pino, Galisteo; Joshua S. Reynolds, Albuquerque; George L. Brooks, Albuquerque; Jesus Romero, Albuquerque; John Becker, Belen; Perfecto Armijo, Albuquerque; J. H. Crist, Monero; E. A. Drake, Socorro; J. S. MacTavish, Magdalena; A. S. Harris, Kingstons; C. Loughren, Deming; Ralph C. Ely, Deming; J. W. Fleming, Silver City; H. H. Betts, Silver City; J. Rounit, Jr., Las Cruces; Albert Fountain, Las Cruces; R. J. Taupert, Las Vegas; R. S. Connell, Tularosa; Manuel Aragon, Lincoln; A. S. Pratt, Carlsbad; Tito Melendez, Mora; Margarito Romero, Las Vegas; Cicero Stewart, Carlsbad; M. Murray, Roswell; Isaac Davis, Las Vegas; Robert Martin, Cuchillo; Luther George, Clayton; A. L. Hobbs, Raton; A. C. Voorhees, Raton; M. R. Goldenberg, Tucuman; Jay Turley, Antec; Donald Stewart, Tucuman; Will Robinson, Roswell; H. W. Crawford, Clovis; Gregory Page, Gallup; E. A. Miera, Cuba; Don H. Keelzie, Lordsburg.

Delegates to Monetary Conference.

Governor Mills this morning appointed the following men to the National conference on the monetary situation in the United States which will be held in the city of New York, in connection with the thirtieth annual meeting of the Academy of Political Science, on November 11th and 12th, 1910:

E. A. Cahoon, Roswell; D. T. Hoskins, Las Vegas; J. B. Herndon, Albuquerque.

A RELIABLE MEDICINE—NOT A NARCOTIC.

Get the genuine Foley's Honey and Tar in the yellow package. It is safe and effective. Contains no opiates. Refuse substitutes. O'Reilly & Co.

FLORIDA KEYS BEING SWEEP BY FIERCE STORM

(Continued from Page 1.)

Heavy Wind at Savannah. Savannah, Ga., Oct. 17.—North-eastern storm warnings were ordered up here today. The barometer fell rapidly during the last twelve hours. Advisory messages issued by the weather bureau indicate that the storm is moving northward toward Tampa. A heavy wind has been blowing here all afternoon.

Key West Is Cut Off.

Jacksonville, Fla., Oct. 17.—At 7:30 p. m. tonight the Western Union Telegraph company reported wire communication cut off owing to the storm.

TERRIBLE LOSS OF LIFE AND PROPERTY IN CUBA.

Havana, Oct. 17.—The island of Cuba has probably sustained the greatest material disaster in all her history in the practically continuous hurricane which began with light rains on Thursday morning, developed into torrential floods and hurricanes and continued until this evening. The western half of the island suffered more severely than the east.

The first storm of which there was some warning, had hardly abated on Sunday night, when suddenly the wind, which up to then had been southeast, changed to southwest. Cyclonic winds swept over Matanzas, Pinar del Rio and Havana provinces, completing the destruction wrought by the first storm.

It is impossible to estimate the amount of the damage, which doubtless will aggregate millions of dollars. Many thousands of peasants in the three western provinces have been rendered homeless and it now seems probable that the republic may be compelled to request international aid.

While all communication with the interior has been cut off there is reason to hope that Oriente, Camaguey and Santa Clara have escaped the greatest fury of the storm.

In the city of Havana the losses probably will exceed a million dollars, mainly due to the destruction of the customs house sheds which were filled with perishable goods, to the sinking of scores of lighters, many of them containing valuable cargoes, which had been unloaded from steamers and to the submerging of about one square mile of the residential section of the city.

NEWS CONCERNING STORM IN INTERIOR ARE LACKING

Havana, Oct. 17.—For hours during the night and all through this morning Cuba was in the grip of a storm which blew up with great violence from the southwest and attained its greatest force shortly before noon.

Then the wind shifted to the west and the sea began to rise, the waves sweeping in upon the city. Within an hour the waters broke a breach through the Malecon sea wall. The waves engulfed the Malecon driveway and flooded the handsome residence district for a distance of a mile.

The water, still rising, invaded all the seaward part of the city until 3 o'clock in the afternoon when one section was several feet under water. The residents of the lower floors were forced to seek refuge on higher levels, while detachments of soldiers and others with boats dragged from the harbor hastened to the submerged district and rescued hundreds from buildings that threatened to collapse.

Vedado, a residential suburb, was exposed to the full fury of the storm. The sea averaged some hundred yards inland demolishing many small structures and probably causing loss of life.

The rumor that the city had been struck by a tidal wave added to the general panic, which was allayed shortly after 3 o'clock when the wind abated and the water ceased to rise. The fall at the foot of the Prado was completely surrounded by water and the prisoners, with fear, clung to the barred windows clamorously demanding to be taken to a place of safety.

All the steamers in the harbor remained at anchor with engines working.

Practically all communications with the interior were levelled and therefore news concerning the effects of the storm in other parts of the island is lacking, but it is feared the damage was enormous, especially in Havana and Pinar del Rio provinces. Small streams in the vicinity of this city are over their banks, flooding the lowlands and carrying off huts, barns and cattle. Probably many people lost their lives in these sections. A large containing all the outfit of the divers working on the wreck of the battleship Maine was carried away and stranded on the rocks of Morro castle.

Arrangements are being made to quarter the homeless in the barracks and other government buildings. Wind and rain have ceased tonight.

JUDGE PARKER OPENS THE STATE CAMPAIGN

(Continued from Page 1.)

New York alone, making a difference of 100,000 votes in the general result.

"Replying to a letter of Mr. Bryan Mr. Roosevelt said:

"You have shown by this letter that if this man Harriman's contribution to the campaign fund of 1904 had been known before the election you and your supporters would have endeavored to use the facts of its having been made as an insinuation and argument to show that I could not be trusted to deal out exact justice to Mr. Harriman."

"Mr. Roosevelt," continued Mr. Parker, "wished the public to understand that while it was true that the executive department of the federal government had a certain measure of regulation and control over the railroad dominated by one of Wall street's leaders, Mr. Harriman, his action was not in the least affected by it. Mr. Roosevelt, however, made no move against either Mr. Harriman or his railroads for a period of nearly two years."

"It is very evident that Mr. Harriman expected at least some appreciation for his compliance with the request to raise the large sum of money to help on the campaign and his failure to receive what at least seemed to him his due led him later to open his heart to a member of his political family."

Mr. Parker then declared that the political contributions bill passed by congress did not provide imprisonment as a penalty and that imprisonment alone would suffice to check contributions out of corporate treasuries expecting to gain by the investment.

HEARST AND INDEPENDENT LEAGUE COMPLICATE MATTERS

New York, Oct. 17.—The New York state political campaign jumped into full stride tonight when the party to be reckoned with seriously in the final count—the Independent league—formally took the field with two mass meetings of notification and ratification in Manhattan and in Brooklyn.

What effect the activities of the league will have on the two old line parties—from which of them it will draw most votes—has been a matter of much speculation in the councils of both. It was the independent campaign of William Randolph Hearst, now candidate of the league for lieutenant governor, that elected an entire fusion ticket in New York city a year ago, Mayor Gaynor excepted.

The principal speakers tonight were John J. Hopper, candidate for governor, and Mr. Hearst.

In accepting the nomination, Mr. Hopper declared that he appreciated it the most because "he profers came from room 121 nor had the 'big stick' any place in our deliberations."

Mr. Hearst was one of the last speakers to take the platform.

"Some two months ago Mr. Roosevelt declared that he would drive the bosses out of the republican party in New York," he said. "Then he went out to Colorado to do it."

"After a couple of weeks' waiting I wrote an article telling Mr. Roosevelt that if he was sincere in his fight against the bosses, he should come home to New York and attend to that important business."

"Mr. Roosevelt read an extract from that article and said that he was going home to fight the bosses. But he did not go. He lingered loitering in Illinois, listening to the music of the cheers. He wanted precious time peacocking in Pennsylvania. He arrived in his own state only two days before the primaries. And when the reporters gathered to catch the clarion call he declared that he could not say anything until he had brushed off his clothes."

"Mr. Roosevelt won his personal

point, but he won no victory for the people. He wrested the control of his party from the hands of enemy boss Barnes, and reposed it in the hands of his personal friend, Ross Root.

"As for the democratic ticket, Mr. Hearst said:

"I was brought up a democrat and I might even be voting for the democratic ticket in this campaign if I could find any democrats on the ticket to vote for."

"I endorse every candidate upon the state independent league ticket, even including the lieutenant governor," he concluded.

TO ELIMINATE THE "WILD CAT" SCHEMES

Proposed By Delegate Ellinwood of Arizona Convention to Put Ban on Irresponsible Promoters.

(By Morning Journal Special Leased Wire)

Phoenix, Ariz., Oct. 17.—Constitutional provisions designed to eliminate "wild-cat" corporations and curb irresponsible promoters who take advantage of the present liberal incorporation laws of Arizona will be proposed by Delegate Ellinwood at tomorrow's session of the constitutional convention. As drafted, the proposed constitutional articles make stockholders liable for corporate debts as well as unpaid portions of capital stock and provides a corporation tax in proportion to capitalization.

Another section is designed to prevent foreign corporations from doing business in the new state under more favorable conditions than domestic concerns.

Thirteen propositions were presented today, including three for the initiative and referendum, and one embodying the Oregon plan for a school system which requires segregation for the sexes.

A petition signed by 500 workingmen of Globe, was read to the convention. It asked for constitutional provision that would compel corporations to employ at least eighty per cent American labor.

PHILADELPHIA WINS FROM CHICAGO FOUR TO ONE

First Game in World Championship Series Witnessed by 30,000 People; Bender and Baker the Stars.

(By Morning Journal Special Leased Wire)

Philadelphia, Oct. 17.—In a clean and sharply played game the Philadelphia American league champions defeated the Chicago "Cubs," the premier team of the National league at Shibe park today, 4 to 1, in the first contest of the series to decide the world's championship. Nearly 30,000 persons saw the game.

To Charles Albert Bender, the Chippewa Indian pitcher, and to Frank Baker, the third baseman, Philadelphia largely owes its victory.

"The Chief" never showed better form than he did when he faced the Chicago men this afternoon. Baker's contribution was his hard and timely hitting. The Americans found Overall rather easily and after the third inning Manager Chance retired him and sent McIntyre into the box. The latter promptly stopped the "Athletics" and held them without a hit until the eighth inning, when Baker hit to the right field wall for two bases.

Bender, who won the only game the Athletics took from the New York Nationals in the world's series in 1905, allowed the Chicago men but three hits, one in the first inning by Schulte and two in the ninth and not one Chippewa reached second base until the final inning. If it had not been for the muffing of Tucker's foul fly by Thomas in the ninth inning, the Cubs would have been disposed of with but two hits, as the little shortstop hit the next ball for a clean single and took second on Strunk's single.

The big Indian was as steady as a clock and appeared to be the muster at every stage of the game. Besides getting only three hits the Nationals were able to work him for only two bases on balls and Schulte got both of these, one in the fourth and the other in the ninth. Overall got away with the first inning in fine shape, though Collins singled, but he got into deep trouble in the second when the home team batted him for three hits, one a double. He also gave a base on balls in this inning. In the third he was found for a single and a double. Third baseman Baker was the only man on either team to get more than one hit. He landed on the ball for two doubles and a single, scoring one run himself and sending home two others of the total of four. Lord was the only other man to hit for an extra base.

Except for a hard running catch by Sheppard of a long fly off Murphy's bat in the seventh inning and several hard stops by Baker and Berry, the fielding was not sensational.

The only stolen base was by Murphy who reached second base on a high pitched ball which Kling could not bring down in time for a try to the center bag.

"The Athletics" much discussed weakness behind the bat did not show itself as Thomas hit the ball down to second ahead of the runner each time a steal was tried. Only two attempts were made, both by Schulte.

The official count of the attendance was 26,891 and the total receipts, \$17,424.50. Of this amount the players will receive \$20,209.25, the club owners \$13,472.82, and the National commission \$2,742.45.

The bleachers were packed and several thousand persons were crowded behind the ropes in right and left fields.

The bleachers were filled two hours before the game began, several thousand having spent most of the night at the gates of the park to get good seats.

Outside the grounds enterprising householders whose homes overlooked the field, erected bleacher seats on the roofs and sold them at from \$2 to \$5 each.

The big game was late in starting, due to a long conference over ground rules owing to the crowd in the field and over the question of permitting moving picture men on the field when the game was in progress.

It was finally agreed to permit the photographers to place their cameras against the grand stand behind first and third bases. Bender was given a splendid ovation. His great record for the season was remembered by the crowd and the Philadelphia rooters settled back, confidently believing that the chief would continue to show his great form.

and was headed off by Thomas' beautiful throw. Hoffman was an easy out.

In the Athletics' half, Strunk and Lord were easy outs, but Collins hit to left. Collins, like Schulte, also went down on the first ball pitched, and Kling's deadly arm had the ball to second ahead of him by a good margin.

Chicago was easily disposed of in the second inning. Baker, the first man up for Philadelphia, brought the spectators to their feet by a two-base hit into the left field crowd and was sent to third on Davis' pretty sacrifice. "Hit 'er out Murphy," the crowd cried as the hard hitting right fielder stepped to the plate and Murphy responded with a single down the left field line, bringing home Baker with his first run. The crowd cheered wildly as Baker crossed the home plate.

Hats went into the air, horns were blown and a terrific din set in as Shortstop Barry came to the bat. Overall appeared unsteady and on a high pitch that Kling just managed to catch, Murphy stole second. He advanced to third on Barry's out. Thomas drew four balls and "Chief" Bender came up. The Indian sent a single to center and Murphy scored the second run.

The Chicagoans went out in one, two, three order in their half of the third, but Philadelphia added another run to their total in their turn at bat. Lord opened with a two-base hit to center, went to third on Collins' sacrifice and came home on Baker's second hit, a single to left.

In the next inning Schulte got to first on balls and was caught stealing second to the delight of the crowd. The other two batters were easy outs. When the Philadelphia came to bat they found a new pitcher in the box. Overall in his three innings had been touched up for six hits and for a total of three runs. McIntyre, the newcomer, showed excellent form.

The fifth, sixth and seventh innings passed without anything sensational. Both Bender and McIntyre were working in championship form and not a man on either team saw second base. But in the eighth the Americans added another run to their score. Strunk and Lord, the first two men up, failed to reach first, but Collins was given a base on balls. Collins, who is the champion base stealer of the American league, failed to worry McIntyre as he took a long lead off first base. Twice the Chicago pitcher shot the ball to Captain Chance to catch the fleet-footed Collins, and on the second throw almost had him.

Then McIntyre tried again. This time he threw wild and the ball rolled to the bleachers. Collins was off in an instant and did not stop until he reached third. He scored a moment later on Baker's hard drive to the right field wall for two bases. Davis hit to McIntyre and was thrown out at first.

The ninth inning was the most exciting of the entire game. As Bender walked on the field the crowd, which had started to leave, called on him to shut out the Nationals, but he was doomed to be disappointed.

Tinker, the first man up, hit to center field for a single and took second when Strunk fumbled the ball. Kling singled and Tinker scored.

With one run in and one man on base and no one out, the crowd became anxious. But the Indian did not waver. Beaumont went in to bat for McIntyre and the heat he could do was to send a weak grounder to Collins who tossed him out. Sheppard struck out amid tremendous cheering. Schulte drew his second base on balls and then came Thomas, always a dangerous man at bat.

With two on the bases, a home run over the fence would tie the score, but Bender still calm, tightened up and the fast center fielder sent a grounder to Baker. The latter stepped on third and Kane, who was running for Kling, was forced out, ending the game.

Brown probably will pitch for Chicago tomorrow and Coombs for Philadelphia.

RACING RESULTS

At Louisville, Ky., Oct. 17.—Beginning this afternoon the purses were increased by the jockey club from \$400 to \$500. The fourth race, a handicap at 6 furlongs, resulted in a great surprise. Melandine, winner over Jack Aikin last Saturday, finished third. T. M. Green getting the verdict. The last named was second, a nose in front of Melandine.

First race, 6 furlongs: Ada Meade won; Home Run, second; Tommy McGee, third. Time, 1:14.
Second race, 6 furlongs: Detect won; Beatrice, second; Starry Night, third. Time, 1:14 3-5.
Third race, mile and twenty yards: Topland won; Colonel Ashmead, second; Fair Louis, third. Time, 1:12.
Fourth race, handicap, 6 furlongs: T. M. Green won; Royal Captive, second; Melandine, third. Time, 1:12.
Fifth race, 6 furlongs: Labolt won; Crux, second; Any Port, third. Time, 1:14.
Sixth race, mile and a sixteenth: Pirate Diana won; Queen Marguerite, second; Claudia, third. Time, 1:47 2-5.

At Pimlico, Oct. 17.—Love Tie, at odds of 4 to 5, easily won the Oriole handicap, the day's feature at the Pimlico track.

First race, 5 1-2 furlongs: Chilton Squaw won; Miss Jonah, second; Rystraw, third. Time, 1:38 2-5.
Second race, mile: Joe Kenyon won; Danhill, second; Huetsmo, third. Time, 1:41 3-5.

Third race, 1-16 miles: M. Cambron won; Gracie, second; Blackford, third. Time, 1:47 3-5.
Fourth race, the Junior steeplechase two miles: Meadow Boy won; The Speaker, second; Glopper, third. Time, 4:17.

Fifth race: The Oriole handicap, 6 furlongs: Love Tie won; Cohort, second; Pauntenoy, third. Time, 1:12.
Sixth race, mile and forty yards: Sandrian won; Unova, second; Saterlin, third. Time, 1:42 1-5.

MORE COIN NEEDED FOR FOOTBALL SEASON

Only Twenty Public Spirited Citizens to Rescue Varsity; Boys Working Hard to Raise Funds.

"No, the amount has not been raised, I am sorry to state," said Dr. McQueen Gray when asked yesterday about the financing of the University football season which has been undertaken this year by private subscription. "Twenty men of the city have come nobly to the rescue and the boys who feel they have splendid material among them are working hard to make up the required sum. There exists," he continued, "some misunderstanding among those who have been asked to contribute as to the amount each one is expected to give so for that reason I am writing again explaining that five dollars from each

one will assure us of a football season with no aftermath of debts. It will be a good season, for what the team lacks in heavyweight qualities they will make up for in determination and aggressiveness."

When asked if the season would go through if the amount could not be raised he replied: "We are not considering the dire possibility but are forced to admit that football as a part of the university life this year is in the balance."

It is to be sincerely hoped that the money will be forthcoming and that by Thanksgiving New Mexico and Arizona may stride for supremacy on the gridiron for a football game in as much a part of the day as the day as the turkey and pumpkin pie.

Stanley Knocks Out Bowker.
London, Oct. 17.—"Tigger" Stanley of London tonight knocked out the former bantam champion, Joe Bowker, in the eighth round before the National Sporting club. The fight was for the bantam weight championship of England and a purse of \$4,000.

Australian Knocked Out.
Winnipeg, Man., Oct. 17.—C. Robinson tonight knocked out Arthur McLaughlin of Australia in the second round of what was to have been a ten round fight.

GALVAN GUILTY OF HORSE STEALING

Defendant Convicted in District Court at Raton; Prince Williams Exonerated of Assault.

(Special Correspondence to Morning Journal)
Raton, N. M., Oct. 17.—Jose Galvan, arraigned in the district court here before Judge Abbott on the charge of horse stealing has been found guilty by the jury of having unlawfully appropriated a horse belonging to Springer and company last June. The jury was out for one hour.

Prince Williams Acquitted.
In the case of the territory vs. Prince Williams, charged with assault to rape Aurelia Alarad, wife of Cruz Alar, the jury, after being out about half an hour returned a verdict of not guilty. The evidence against the defendant was very weak and the testimony as to the character of the prosecuting witnesses was such that the jury evidently did not believe the story of the assault.

Trinidad Ortiz, a Mexican youth, about 19 years of age, who was indicted for forging a railroad pay check, withdrew his plea of not guilty and pleaded guilty. Sentence of one year was imposed and suspended during good behavior.

O'Neill Case Called.
The case of the territory vs. Theo. O'Neill was called for trial and a jury was being empaneled when court adjourned until Monday.

The case will probably occupy several days this week.

EMPLOYEES OF CIVIL SERVICE ARE WARNED AGAINST POLITICS

Morning Journal Bureau,
613 Munsey Building,
Washington, D. C., Oct. 16.
Following the practice which has been observed on the eve of previous political campaigns, the civil service commission has made request upon all the executive departments and independent offices for the issuance of a circular of warning against activity in politics by employees in the competitive classified service and against illegal collection or payment of political assessments.

The commission called attention to the provisions of the civil service, while retaining the right to vote as they please and to express privately their opinions on all political subjects, shall take no active part in political management or in political campaigns.

The commission cited a number of forms of activity in politics which have been held to be forbidden by this provision and also called attention to the penal provisions governing the collection or collection of political contributions by one federal official or employee from another, or the payment of such contribution by one federal official or employee to another, and to the enactment prohibiting the collection or political contributions upon federal premises by any person whatsoever.

The civil service commission stated that it will employ every legitimate and available means to secure the prosecution and punishment of persons violating these provisions and requested the co-operation of all persons having knowledge of such violations.

THE QUALITY OF MERCY

Miss Canisius—My friends should be very thankful to me.
Miss Canisius—For what?
Miss Canisius—At the very great number of disagreeable things I think of, but don't say.

MANY TEACHERS ARE AWARDED LIFE CERTIFICATES

Territorial Board of Education Adjourns After Passing Upon Applications and Adopting Resolutions.

(Special Correspondence to Morning Journal)
Santa Fe, N. M., Oct. 17.—The territorial board of education adjourned Saturday afternoon after passing a number of resolutions and awarding life certificates to some eighty teachers.

The board adopted a resolution to excuse the city and town teachers from attending county institutes providing that the city or town superintendent gives at least one half of his time to supervision and holds at least one general and one grade teachers' meeting per month. The following were granted certificates: Life, J. E. Walker of Santa Rita, Mrs. Lora Brent, of Gallup; Lucile Holt of Deming; Five years professional, Mrs. Ida W. Booth of Metcalf, Arizona; Principal W. B. McFarland of Silver City; Mrs. Mary McGinn of East Las Vegas and Mary E. Hackett, of Wagon Mound. County, first grade, Fred H. Bailey, Clovis; R. C. Bonney, Springfield; May Buell, Medilla; Nancy Crossland, Roswell; T. N. Russell, Estancia; Lewis R. Haight, Cuervo; Mrs. J. H. Elder, Elmer; Michael Hendrichson, Madera; Marvin Holland, Reserve; Grace Jeffrey, Tucuman; Mary Kelley, Deming; Gertrude Kootz, Deming; Mrs. Hattie Dye, Heaton; Josephine Sandusky, Willard; Myra Seymour, Deming; Mrs. Edith Spyring, Tucuman; O. B. Staples, Paria; Matilda Thompson, Farmington; Hiram Turner, Knowles; Virgie Rice, Worrell, East Las Vegas; Edith Marjorie, Gallup; C. F. Miller, Carlsbad; Elizabeth Aviles, Dayton; Mae Mixson, Ranger Lake, County. First grade, upon satisfactory statement of institute attendance, Mrs. J. H. Mower, Naraviva; Ida May Ruid, Springfield, Ariz.; Katherine Budd, Springfield, Ariz.; Caroline Bell, Hudson, Monument; Ola Enley, Kenton, Okla. Incorporation.

Incorporation papers were filed today by the Farmers' Irrigation company of Langston, Roosevelt county. The capitalization is \$250,000 divided into 28,832 shares of \$12 each. The directors and incorporators are: Charles N. Joyner of Lacy, president; W. A. Siller of Langston, vice-president; S. W. Miller of Langston, secretary; L. M. Tinker of Lacy, treasurer; Pearl Payton of Lacy; Mrs. L. M. Tinker of Lacy, each 80 shares.

Adjutant General at Work.
Adjutant General A. E. Brooks was at his desk again today after an absence of almost two weeks on account of serious illness. He met this afternoon with the committee on military affairs which held its first session at four o'clock.

Who Pays the Taxes?
In Curry county it isn't the railroads as yet which carry most of the burden. The assessment percentages for 1910 are as follows: as compiled by Traveling Auditor Charles V. Safford: Agricultural lands and improvements, 2.84; city lots and improvements, 20.82; houses and mules, 6.28; merchandise, 5.51; household goods, 3.55; banks, 2.37; railroads, 3.22; cattle, 2.37; wagons, implements and harness, 1.87; money, 52; telegraph and telephone, .59; sheep and swine, .47; all other classes, 3.57.

RANDOLPH GLOOMY OVER OUTLOOK

Says Railroad Interests Hope Taft Will Veto Constitution of Arizona Radicals.

Committing himself rather liberally on Tucson and Arizona matters, if quoted correctly, Colonel Randolph, appears to not expect much railroad building in Arizona in the near future. He is also quoted as expecting the present convention to draft a constitution which Taft will veto if it is drawn as he believes it will be drawn.

The El Paso Times quotes Colonel Randolph as follows:

"There is some southwestern railroad talk over that way," said Mr. Randolph, "but so far I've seen no grading in progress or rails being laid. The Times is mistaken as to our attitude in the matter, however. We couldn't if we would, and we wouldn't if we could—explain our position with reference to keeping additional railroads out of Tucson."

"As a matter of fact, Mr. Randolph continued, 'I think there will be very little railroad building in Arizona for several months, at least until it is ascertained what the constitutional convention is going to do. The convention is an extremely radical body and it is not at all unlikely that the constitution will be of such a nature as to prohibit the investment of capital in the new state. Of course capital already invested will take what steps are necessary to protect itself.'"

Mr. Randolph takes a rather pessimistic view of the trend of affairs at the present time and the attitude of the Arizona constitutional convention does not meet with his unqualified approval.

"Our one hope is," he asserted, "that Taft will veto the constitution if it is too bad and thus kill the statehood project. Taft promised to do it some months ago, but (there the railroad president lapsed into deeper gloom) 'the insurgents and so-called progressive seem to be in the saddle now and nothing is considered too

radical so long as it is aimed at capital and men of property."

Mr. Randolph stated that his company was doing but little building in Arizona at the present time. The line through the Gila Box canyon south of Globe is under construction, but slow progress is being made on account of delay on the part of the government in approving the right of way. The work will not be completed for at least a year.

KILLED BY FALL FROM CLIFFS

Body of Visitor at Farmington Fair Found After Two Weeks in Advanced State of Decomposition.

(Special Correspondence to Morning Journal)
Farmington, N. M., Oct. 17.—After lying for two weeks at the base of some fifty feet cliffs south of Farmington, the body of Henry Parr, a well known resident of Archuleta county, Colorado, was found by accident this week. Parr, who left Simpson's Trading post for Farmington two weeks ago, after negotiating for the sale of some sheep, evidently lost his way and his eyesight being poor he stumbled over the precipice and his skull was crushed when he alighted head first on the rocks at the bottom. Death was evidently instantaneous.

The horse he was riding was found two weeks ago by Navajo Indians. The body when found was so badly decomposed that it could be identified only by papers found in the clothes, forty dollars in money being also on the corpse. Two sons of the deceased who arrived from Pagosa buried the remains where they fell as they were too much decomposed to be moved.

In a most speech Mr. J. Sam Houston, the prince of hoisters, landed the baby to the fortunate young man.

"Oh, isn't he too sweet for anything," said Mr. Wirtz, blushing again, as he accepted the baby, the audience joining in the fun with laughter and appreciative applause.

Carefully and tenderly Mr. Wirtz took the baby back to his seat, but left the theater as soon as he could do so without attracting too much attention. The baby was dressed in good taste in clothes selected by J. Sam. A pretty cap, a white knitted sweater and a skirt of warm white cloth, with dainty red shoes, were the most notable features of attire.

Just what Mr. Wirtz will do with the baby is not known. It is such a pretty little pig that it would be a shame to make a couple of pork roasts out of it.

Not changing the subject from pigs to vaudeville, but just mentioning things incidentally, there will be an entire change of vaudeville at the Gem tonight. It will be one of the big nights at the Gem and everybody will be there. Maybe you won't draw a baby, but you will draw some hearty laughs and see some very clever vaudeville sketches.

Flushing a deep crimson, Mr. Wirtz arose from his seat at the rear of the theater when his name was announced and advanced to the stage.

FRED WIRTZ DRAWS THE BABY

"Just Too Sweet for Anything," Said Well Known Young Man When He Was Lucky at the Gem.

The little orphan baby, given away by the Gem theater last night, was awarded to Fred Wirtz, of the Parr Meat company, he being the fortunate one in the crowd of several hundred which packed the popular playhouse last night.

Flushing a deep crimson, Mr. Wirtz arose from his seat at the rear of the theater when his name was announced and advanced to the stage.

THIS WILL STOP YOUR COUGH IN A HURRY.

Save \$2 By Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready-made for \$2.50. A few doses usually conquer the most obstinate cough—hoarseness, bronchitis, asthma and all throat and lung troubles.

The effect of pine on the membranes is well known. Pine is the most valuable concentrated compound of New England white pine extract, and is rich in ginkgo and all the natural healing pine elements. Other preparations will not work in this formula.

This Pine and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pine or will get it for you. If not, write to The Pine Co., Ft. Wayne, Ind.

In a most speech Mr. J. Sam Houston, the prince of hoisters, landed the baby to the fortunate young man.

"Oh, isn't he too sweet for anything," said Mr. Wirtz, blushing again, as he accepted the baby, the audience joining in the fun with laughter and appreciative applause.

Carefully and tenderly Mr. Wirtz took the baby back to his seat, but left the theater as soon as he could do so without attracting too much attention. Just what Mr. Wirtz will do with the baby is not known. It is such a pretty little pig that it would be a shame to make a couple of pork roasts out of it.

Remarkable Crop Results in New Mexico Chronicled in Spite of a Poor Season

State Newspapers Telling of Money Making Agriculture in Estancia, Pecos, Portales and Mimbres Valley; Cabbages, Cotton, Cantaloupes and Alfalfa Breaking Records and Men With Small Acreage and Grit Are Doing Wonders to Demonstrate Fertility of the Soil.

To those who are pessimistic about New Mexico's agricultural prospects, it is interesting to read the state newspapers of the dry season past. It is revealing, refreshing and encouraging to glance over the New Mexico rural newspapers and the weekly papers in the smaller towns. It is impossible to pick up one without reading of the success of some enterprising farmer with small resources, or of some crop record being broken again. It is encouraging, therefore, to find that these results are everywhere getting into the newspapers and that the latter are all boasting each its particular section. Following are a few of these, every one worth reading, and all together showing that prosperity in the farm has not gone glimmering from New Mexico by a long shot.

MOVEMENT OF PECOS VALLEY COTTON CROP FINALE OF PROSPERITY

With the starting of the cotton gin last week, commenced the grand finale of the evolution of the numerous resources of the Pecos valley. Beginning in the early spring the sale and movement of the cotton which fattened on the pastures during the winter months opens the business activities of the year; this is followed by the planting and growing of one of the finer crops of cantaloupes which are grown abundantly in the United States. Just as the cantaloupes season draws to a close the farmers begin the cutting and marketing of thousands of tons of alfalfa hay and the harvesting of a seed crop of alfalfa which commands the highest market prices, as this seed threshed from alfalfa grown in an irrigated district has become recognized as far superior in quality to that grown in a rainfall country. Following close in the wake of the alfalfa crop is the cotton crop which ranks next to none grown elsewhere in the United States and which each year tops the market in price. The absence of rainfall, irrigation at proper intervals and the dry, late fall makes the cotton grow in industry in the lower valley, one second to no other crop grown.

FIVE FINE ALFALFA CROPS ON MIMBRES IN FOUR MONTHS

On May 20th, Mr. Schwing of the Mimbres valley put his first alfalfa crop on the market and on September 8th he cut his fifth crop and by actual measurement and weight the yield was slightly more than 1-1/2 tons per acre, which Mr. Schwing has sold for \$15 per ton or better. His last cutting was contracted for \$16 in advance. These are plain facts. It took 142 days to develop five elegant crops of alfalfa, some of the stalks measuring four feet in length, according to the writer's own measurement. A good many people have observed Mr. Schwing's magnificent crops growing and will be personally interested in the story of his success. Mr. Schwing pumps by electricity directly connected and figures that one hundred twelve fifty per acre is good enough for him.

The rapid growth of alfalfa is shown on the Hicks farm, where by actual measurement a stalk now "on file" in an office grew 24 inches in twelve days.

WHAT ONE PORTALES VALLEY FARMER HAS DONE WITH WINDMILL

G. W. Wood, who is gardening in Portales, has kept track of the production of his alfalfa crop. It is a record of 48 by 122 feet, a little less than one-tenth of an acre. He planted this alfalfa early in the spring and has in the same ground planted cantaloupes. He sold 140 worth of cantaloupes which he needed for home use. When the cantaloupes were

some the cantaloupes came on and during the past month he has been selling them, having marketed \$28 worth up to date, besides what they used at home. This makes products to the amount of \$78 from one-tenth of an acre, or at the rate of \$780 an acre. This is certainly making the land yield money, and is merely an illustration of what can be done with this land when water is applied. Mr. Wood has worked under many disadvantages, securing the water for irrigation from a windmill and at times just when he wanted water the wind would not blow. He will probably put in an engine next year, or secure electric power from the town plant. Meanwhile Mr. Wood is making a reservation for use next year.

EIGHTEEN THOUSAND DOLLARS WORTH OF FEED ON THE MIMBRES

Farmer Lee O. Lester is authority for the statement that there will be cut this year from the farms along the Mimbres Valley Irrigation company's ditch twelve to fifteen hundred tons of feed, which will be worth to the growers fifteen to eighteen thousand dollars. This is simply the overflow of the Mimbres river and has nothing whatever to do with pumping.

2,500 SQUARE FEET PRODUCES OVER \$100 IN FINE CABBAGES

J. F. Curry, south from Texico, has a small crop record which bears considerable fruit of some of the Portales farmers. Mr. Curry has a small plot just 50x50 feet square, or 2,500 square feet—a little more than an eighth of an acre, under irrigation from a windmill this year, and planted the lot to tomatoes and cabbages. He has sold already over \$60 worth besides what a large family ate. He will yet market about \$50 worth, besides what the family will put up for home consumption. Making a very conservative estimate of what the family consumed, the patch produced at least \$125 worth of these vegetables this year. This, in a patch a little larger than an eighth of an acre is a yield of about \$2.40 an acre. This may sound big, but it is an actual fact. Mr. Curry is one of the best farmers, and his reputation for veracity could not be doubted. Some people say that cabbages don't grow here, but the largest heads in this little irrigated patch of his pulled the scales down to 14 pounds. This is a small size for Mr. Curry, owing to the lateness of the season; last year his best heads weighed, when weighed at the outside leaves, just a little over 20 pounds of fine, tender, sweet cabbage.

MIAMI FARMERS GET FIRST MONEY AT THE COLFAX COUNTY FAIR

The splendid silver cup offered by Hon. Geo. H. Webster at the county fair at Springdale last month was won by a Miami farmer whose home is a few miles south of Cimarron. The prize is a handsome silver cup costing the donor \$100 and was offered for the best exhibit of cereals. The winner must hold the cup three years in succession to gain permanent ownership. It went this year to B. P. McDonald of Miami.

The list of premiums will show that most of the agricultural premiums went to Miami farmers which demonstrates beyond question the claim of the Farmers' Development association that Miami is the richest valley in Colfax county. The company this year is doubling the capacity of the big reservoir and forty or fifty more homes will be established there for the next crop season. This state is running in the colony this year.

year on first year land forty to eighty bushels per acre; wheat 25 to 35 bushels; corn 40; alfalfa three cuttings and everything else in proportion. This company is demonstrating what the possibilities of irrigation are in the Cimarron country and is going to be the means of bringing many new settlers this year.

42 BOXES OF BIG RED APPLES OFF ONE TREE IN CHASE ORCHARD

At the Chase orchard near Cimarron last week were gathered forty-two boxes of big red apples off one tree. These apples sold in the market at \$2 a box, making a yield from one tree of \$84. Is that some apples or not? Acres of the winter apples are running two to three dozen boxes each tree and there are sixty-five acres in this orchard.

ALL KINDS OF COIN IN CANTALOUPE IN THE PECOS VALLEY

Portions of the Pecos valley have thoroughly demonstrated this year that there is money in growing cantaloupes. Lakewood has shipped about 15 cars this year, and growers netted over \$100 an acre on the output. According to the statement of a man who had worked at it, 150 crates are an average yield per acre and they net 30 cents per crate on the crop. This puts the figures at \$135 per acre, and it looks good.

TO CURE A COLD IN ONE DAY TAKE LUXATIVE BROMO QUININE TABLETS. DRUGGISTS REFUND MONEY IF IT FAILS TO CURE. E. W. GROVES SIGNATURE IS ON EACH BOX. 25c.

SOUTHWEST NEWS NOTES

Horses Croak on Beans. Due to eating too many meagre beans, a number of valuable horses have died lately in the Las Animas valley section. The bean crop is heavier than usual, and owing to the scarcity of grass, the animals have taken to eating quantities of the beans.

The Boy and the Gun. A youth named Funk, who lives in Hagerman, had an experience with a gun the other night that he will never forget. With a number of other boys it seems he was fooling with the weapon, and for some reason he shoved it into his pants pocket when it was accidentally discharged, the bullet passing downward through his thigh for a distance of about twelve inches, then into the other leg, making a nasty wound.

Hit by a Tarantula. William Gossage, a prospector of the Castle Rock district, arrived in Prescott with a badly swollen hand, which he states is the result of being bitten by a tarantula while in his camp near Briggs. He was sitting on the ground in front of his cabin at the time, reading a newspaper, his left hand lying beside him, when he was startled by seeing a small sized tarantula striking its fangs into the flesh of the middle finger.

Big Sheep Deal. One of the heaviest sheep transactions in recent months in Arizona was closed when Levi Young of the Black Hills sold his large herd of interests to W. Wilcox of Dewey for the sum of \$16,300. Included in the deal is a vast amount of personal property. Mr. Young says that he will retire from the industry in the Mogans mountains and along Ash Creek. As enumerated there are 2,700 ewes, 1,500 lambs, 90 bucks, 200 goats, 2 horses, 45 burros, 26 pack saddles, 5 tents and other camp outfit.

Auto Party Coming. Three automobiles parties, composed of P. J. Hayek and family, Joseph Hayek and family, and Walter Huesterman and family, of Redfield, South Dakota, passed through Las Animas on Friday morning on the way to Los Angeles, Cal., where they will spend the winter. The cars were two E. M. F. "30s" and an Auburn "45" which had so far stood the trials of the long trip with no accident worth mentioning, outside of several punctures and a "blow-out" or two. They will be in Albuquerque this week.

The pleasant negative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all druggists.

Education in Iceland

The largest and finest building in every town is the school, and Iceland is doing much in the way of education for the present generation. In the primary schools the children are taught reading, writing, arithmetic, history, natural sciences, geography and the Icelandic and Danish languages. In the larger schools languages, manual training and cooking for the girls are taught. Only as much religious instruction is given as is required for the obligation of children from 10 to 14 in all towns and villages, and the larger schools have classes for younger children. As there are no villages in the interior, only farmsteads, the instruction for the most part is given there at home by ambulatory teachers, who for several months or weeks, as the case may be, gather around them all the children in the given district. It is not incumbent on the clergy to see that all children can read, write and do elementary arithmetic. Public instruction, given often under great difficulties, is a rule in the school, and people unable to read are scarcely to be found in any part of the country. Every year education is improving, and better superintendence and higher salaries for the teachers are giving still more favorable results. There are middle schools in Akureyri and Isafjordur, and in Reykjavik there is a higher school where students can get certificates for the special schools and for the University of Copenhagen. These special schools in Iceland are: One for navigation, one for technical training and one for commerce. There are also a theological school, a medical school and a school of law. The three latter will soon be united, and with the addition of chairs of philosophy, Icelandic literature, philology, and history are to constitute the first Icelandic university. Certificates from these schools give the right to hold office in Iceland. Many of the students go to the University of Copenhagen to finish their studies. For physicians this is obligatory—Southern Workman.

With Five Thousand People Tucumcari is 9 Years of Age

A Few Years Ago Only a Wide Place in the Road: Quay County Fair Edition of Tucumcari News Shows Hustling Little City in Eastern New Mexico Is Now One of Great Railroad Centers of State and Increasing Rapidly in People and Prosperity.

(Special Correspondence to Morning Journal)

Tucumcari, N. M., Oct. 17.—Tucumcari, which has grown in four years from a pin point on the map to a big chipping and industrial center with five thousand people, which was founded only nine years ago and which is now a thriving, modern, growing little city, has come to stay. The county seat of Quay county, with four railroads, and a rich surrounding agricultural country, Tucumcari's growth and prosperity is based on the most permanent foundation. The closing of the annual Quay county fair and the publication of the fair edition of the Tucumcari "News" have brought out before the people of New Mexico most strikingly the advancement of this city, which has made a record equaled by few towns in the southwest, even the boom towns of Oklahoma.

Four years ago the town was composed of a few stores and some very cheap frame dwellings, today there are some of the best business houses in the territory, and her beautiful residences are numbered by the hundreds. Tucumcari has the very best railroad facilities of any city in the territory. Twelve passenger trains leave the Tucumcari depot daily. The shops and roundhouses of the E. & P. & S. W. are located here, and four passenger and freight divisions have their terminals here. Tucumcari handles more money at her depot than any point between Liberal, Kansas, and El Paso, Texas. She has a payroll of \$75,000 per month, and as most of the employees of the different divisions live here, nearly every dollar of this money is spent in this city.

The Big Fair Edition. The fair edition of the "News" is one of the best special editions of a newspaper, daily or weekly, ever published in New Mexico. It is 25 pages in extent and filled with interesting and profusely illustrated matter showing forth the progress of the city and environs. Among other things in the following resume of what Tucumcari, at the age of nine years, now has:

Tucumcari will have one and perhaps two other roads within the next twelve months. Persons may ask why all the roads want to go to Tucumcari. It is because the great coal deposits of the territory are north of Tucumcari only a hundred miles, and the question of fuel is one that is not ignored by railroads.

We have miles of cement sidewalks, and thousands of beautiful trees have been planted, are growing nicely and soon we will have one of the most beautiful cities in the south land.

Last year a splendid sanitary sewer system was installed at a cost of \$75,000. This insures the city against any epidemic that might be brought about because of the unsanitary conditions of the city. Statistics show that we have as healthy a city as can be found in the United States.

Tucumcari has a splendid waterworks, and the mains have been extended to nearly all parts of the city. The water is first class and the supply is large enough to furnish a city of twice the present population of Tucumcari.

We have an up-to-date electric light system that supplies the business houses with light and power.

Tucumcari has two banks with a paid-up capital of \$100,000 carrying deposits of half a million dollars, and these banks were among those who, during the panic of 1907 never refused to pay all checks in full as presented if the money was on deposit.

Tucumcari has a land office which handles hundreds of thousands of dollars each year.

Tucumcari has two of the largest wholesale houses in eastern New Mexico, and her retail establishments would be a credit to a city of 25,000 people.

Tucumcari has one of the largest ice plants and storage houses in the southwest.

Tucumcari has a thirty thousand dollar high school building, with an equipment second to none in the state. There are four other school buildings besides the high school building.

Tucumcari has two weekly newspapers with a circulation of 2,800 each and these papers are liberally patronized by the business men of the city.

ated, and the Christian congregation has purchased lots near the court house and will build sometime in the future. The Episcopal church has a chapel and will build a church in the near future.

Nearly all of the fraternal organizations have lodges in the city, and a number of them meet in the large hall over the International bank. Tucumcari has the best climate, the best location, the best women and the prettiest children and the brightest future of any city of its size on top of the earth. It is the future of Tucumcari that will appeal to the investor. There is no doubt as to the future of the city, and as history repeats itself, those who will locate here now can do what those who came in the earlier days have done. There are many men in Tucumcari today who had only a few dollars when they reached the city a few years ago, and by trading in real estate have become independent. The opportunities are greater today than then because of the fact that there is no longer a question as to the future of the city.

Tucumcari needs a broom factory, a machine shop, a creamery, a woolen mill, more people and more money. The broom factory will not be long in coming as the corn is grown here and cheap labor for the manufacture of brooms can be gotten. The woolen factory can be easily induced to come when it is known that we are one of the greatest wool producers in the United States. We believe the creamery can soon be located, for we are sending our money to Kansas and other states for butter for our tables, when it can be made here cheaper than in the northern states, and the farmers of the county are waiting for a market for their cream and will increase their herds when the creamery is located within their reach. The people and the money will come, time is coming and will continue to come when they learn of the opportunities that are waiting for capital.

The statehood bill, the constitutional convention now in session, the securing of statehood will put us in the lime light, and people who have only known of New Mexico as one of the territories of the United States, will learn of our wonderful resources and will come to cast their lot and make their homes in the wonderful "Land of Sunshine," and in another few years we will be again writing the history of Tucumcari and telling of the opportunities grasped and the fortunes made by those who were fortunate enough to cast their lot in the beautiful city.

NO MORE STOMACH TROUBLE AFTER TAKING THIS

Indigestion, Heartburn, Gas, Dyspepsia and Other Stomach Misery Relieved in Five Minutes With a Little Diapiesin.

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapiesin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the most acute stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 50-cent case of Diapiesin, then you will readily understand why this promptly cures Indigestion and removes such ailments as Heartburn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations, Headache, Bilelessness and many other bad symptoms, and, besides, you will not need laxatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas, or your food doesn't digest, and your meals don't seem to fit, why not get a 50-cent case from your druggist and make life worth living? Absolute relief from stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and, besides, one case is sufficient to cure a whole family of such trouble.

Surely a harmless, inexpensive preparation like Diapiesin, which will always, either at bedtime or during the night, relieve your stomach, misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

It is in time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all druggists.

Anxious to Learn It. "I have been in office holder for twenty-five years, and no man can show where I ever took a dollar dishonestly."

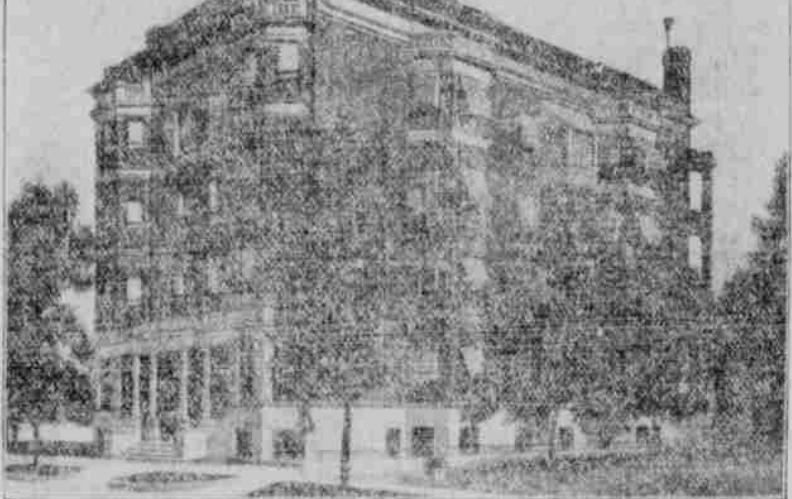

THOMSON'S "CLOVE-FITTING" CORSETS

THREE DAYS KILLS ALL CRAVING FOR THE STIMULANT

Neal Institute Here, One of 47 in United States Has Made Good on Its Claims to Cure Alcoholism.

Many people when asked about the Neal Institute in this city will likely say, "Oh, it's just one of those 'cure' cures," or something to that effect and it is quite likely that few people outside the "cure" circles realize that this local institute is a part of one of the greatest and most successful enterprises in America for the cure of alcoholism, which annually leaves a trail of devastation across this country comparable only to that of the White Plague. There are now forty-seven of these institutes all over the United States, with two more in Canada. The enterprise means the annual expenditure of hundreds of thousands of dollars and is really a tremendous thing, all growing out of the discovery by one man, Dr. E. E. Neal, of a treatment which in three days kills the craving for alcohol without any further desire for alcoholic drinks.

So completely is the revelation that even the smell of liquor is said to be more than the "cure" can bear. The local institute of which Mr. Edward

The splendid Chicago Hospital of the Neal Institute Company, costing \$100,000.

Seidel is manager, was established five months ago and in that time has turned out twenty patients all of whom are permanent "cures," at least they are cured to date and the experience of the institutes in treating thousands of people is that there are very few relapses. "Out of 2000 cases reported a few years ago, just two per cent relapsed after taking the treatment," said Mr. Seidel. "And this percentage is holding good today."

The local institute has received patients from all sections of New Mexico and Arizona as well as from this city.

"Our treatment," said Mr. Seidel, "is entirely an internal one, and elimination process without any hypodermic features or anything of that sort. We have a regular registered physician and trained nurse in attendance as well as a full complement of other help. The patient sees no one except the physician and nurse while he is at the institute. Everything is strictly confidential, and all correspondence is kept secret. We always ask the co-operation of the medical fraternity, and the patient is asked if possible to come attended by his own physician or anyone he wishes. The physician is requested, if he wishes to do so, not only to see the treatment started, but to remain with his patient through the treatment. If any patient is not thoroughly satisfied at the end of three days we refund his money and our guarantee provides that where the patient after discharge, inadvertently relapses into the craving, we will give a second treatment free—something that is practically never found necessary by the institutes. We execute a legal contract making these and other provisions with each patient."

"The reason an institute has been located here is because the city is centrally located and most convenient for the people of the southwest. While it is the smallest of the forty-seven, it is thoroughly equipped and the treatment is identical with the best that can be obtained in any of the larger cities. New York or San Francisco included. For those unable to come to the institute we furnish a home treatment which will prove equally effective if the printed instructions are carefully followed out."

A visit to the local institute on North Second street reveals a large, airy, comfortable building with spacious high-ceilinged rooms, comfortably and tastefully furnished, with every thing absolutely clean and sanitary, as much as in the best regulated hospital. The building, formerly occupied as a residence is splendidly adapted for its present purpose and its interior is most attractive and restful in appearance.

Dr. E. E. Neal, founder of the enterprise in the United States, is president of the "Neal Institutes of the U. S. A." James E. Bruce, U. S. senator from Iowa, is president of the local institute and of a large number of others in the middle west, and is also treasurer of the Neal Institutes of the U. S. A. C. W. Bruce is vice president of the Albuquerque institution. The principal offices of the company are in Des Moines, Iowa, and the finest of all the institutes is the Chicago hospital, one of the best equipped institutions of the kind in the world. E. E. Consigny is secretary of the Albuquerque institute.

That the institute here is ably conducted and is doing a most useful and humanitarian work in the southwest there is no room for doubt.

ALBUQUERQUE NEW MEXICO

WELLMAN AND THAT BLUFF

Walter Wellman, who on Friday shot out over the Atlantic ocean in a daring attempt to cross the sea and put Christopher Columbus in the annals of time, has been doing vocal flights for so long a time that people have come to consider him a joke, while admitting his genius for publicity. At this writing the last heard of Wellman and his party were some 800 miles out over the Atlantic. But it doesn't matter how much further he gets or what the reports are this morning on the success of his attempt. He has followed years of conversation with an actual performance which will win him the respect and admiration of every American. The feat he has attempted is one that takes more daring and determination than the average citizen possesses and there will be no more carping criticism of Wellman's courage.

If Walter doesn't fall into the sea and sea waves and comes back alive—for there is little danger of his making Europe—we shall be willing to shake his hand and offer congratulations with a little admonition on the side that he doesn't talk so much about it next time. Just to show how the press has been roaring him, the following from the Kansas City Journal is a snicker:

For several days a more or less expectant nation has waited for dispatches from Atlantic City, which would recite the thrilling details of how Walter Wellman, that intrepid near-explorer, had sailed in his airship out over the dreary waters of the broad Atlantic in an effort to discover Europe by aerial route. At last the moment came and the excitement was supposedly intense. At 5 o'clock on the morning of the anniversary of the day on which that other great explorer, Christopher Columbus, discovered America, all was ready at Atlantic City. The engineer took a last look at his gasoline tanks, the wireless operator adjusted his instruments, the workmen loosened the fastenings in the great hangar—which is the name for the kind of garage in which a gas bag is housed—and word was sent to Wellman's hotel that only his presence was wanted and the start would be made.

At exactly 8:30 a. m. Mr. Wellman appeared on the scene. It was an impressive spectacle. The reporters sent out bulletins of the last preliminary arrangements that preceded the momentous event. Wellman was most carefully and respectfully attended for the photographers. He wore a pair of goggles and a cap. What a fetching picture for the newspapers!

He, the intrepid Wellman, at the final moment of departure upon a mighty voyage through the air to death or endless fame! The reporters were awed into silence, but when they did get their voices and approached the great man to inquire when he was going to take the gas bag out of the hangar and get away, they were sharply told to "go to hell." How Wellmanque! How truly characteristic of an immortal devotee of science! With what fine contempt did this commanding genius wave away the representatives of a regular and inquiring press. What does Wellman care for publicity, and especially in that solemn moment when he is about to step into the car of a dirigible and journey out over the vast deep?

But Mr. Wellman did not sail. And the fact of his not sailing was not disappointing in any way to his country. The thing was carried out just as those who have followed Wellman's adventures have expected it would. At the instant when he could delay no longer he suddenly discovered that the wind was too high. Ah, how natural that was. Of course, the wind was too high. Back went the bag to the hangar and back went Wellman to change his clothes, and back went the reporters to New York to tell a pulsating world all the details of how the great Wellman had not started. It is possible that Mr. Wellman will never really start his flight across the Atlantic? Not only possible, but altogether probable. That is the Wellman of it.

BILL IS HARD UP.

The Farmington Times Hustler, William Foster, editor, under the caption, "The cost of corruption," takes the census statistics on the various counties and by a process of reasoning, it is to say the least brilliant.

he arrives at the conclusion that boss rule has kept new settlers out of all the republican counties, and that ideal government and the near-millennium regime in the democratic counties has enabled them to show a much more gratifying increase in population. The Times Hustler shrewdly points to the contrast between the rate of gain in Rio Arriba county, up in the woods and in Eddy county, the very gateway through which the stream of immigration comes and where irrigation has gone farther than anywhere else in New Mexico.

Bill has opened our eyes to a painful state of affairs. Gang rule has choked the wheels of progress in the republican counties so that Escondido has hardly gained one inhabitant—and look at the way Roswell is growing! Espanola, also, has fallen behind Carlsbad. Cuba, Sandoval county, and Abiquiu, cursed with republican administration, have lagged to the extreme rear and sat down, while Silver City and Artesia are disappearing around the bend ahead.

This ought to make the gangsters stop and think. It will be a factor for the corruptionists. Bill has sounded the anti-toxin. Things have come to a terrible pass and we better repent and join the party of progress in a hurry.

PASSING OF "BILL BARLOW."

Morris C. Barlow, the genial editor of "Bill Barlow's Budget," and "Sagebrush Philosophy," published at Douglas, Wyoming, has died suddenly of heart disease, while yet in his prime.

Barlow was possessed of a considerable fund of original humor and punning vice and folly with an unerring pen. He didn't pretend to be a saint himself, so he felt free to criticize hypocrisy in others when he discovered it.

Although born at Scranton, Pa., he passed 45 years of his life in Nebraska and Wyoming and may therefore be considered a western product. The fact that his early education was extremely limited did not deter him from making the most of his opportunities. He forged ahead in his chosen field and was easily the most pungent writer in the west when he died.

On the title page of "Sagebrush Philosophy" there is printed the motto, "Live, laugh and love—there'll come a time when you can't." That time has come to "Bill Barlow," and so, farewell.

A TOWN THAT HAS MADE GOOD.

The Quay County Fair edition of the Tucuman News, which has just reached this office is sufficient demonstration that this little city over in eastern New Mexico is high in the list of those towns which have made good. The edition is a credit to Tucuman and would be a credit to a city of twenty thousand. Reading it over, one at once gets the impression not only that Tucuman is modern, progressive, aggressive and prosperous, but that its people are working together as one man for the best interests of their home town and to make it bigger and better and more prosperous.

Tucuman has made the best of its resources; and not only this but it has worked day in and day out to increase its resources. Its advancement is not only a tribute to the boosting spirit of its citizens but speaks eloquently of the progress of agriculture, principally dry farming in the great and rich county of Quay.

Tucuman has made good. But her people properly regard present achievements as but a starter and are working hard for much bigger and better things.

Maurice Maeterlinck, writing in the September Forum, says that insect pests come from another planet. The old earth is again vindicated. She is goddess of producing the mosquito, the lagrippe bug and the hookworm. There is a heavy reckoning in store for the guilty planet which is the real culprit.

"What's all this trouble about the long and short hair?" demanded the secretary of the women's club. "It's this way," explained the treasurer. "Some dressmakers say a train ought to be six feet in length. Others say three feet is enough."

A Rhode Island man has begun suit in the supreme court of New York to protect the reputation of his cow. Even the patient and unobtrusive cow, it seems, is not safe from the character assassins.

Lajpat Rai, leader of the Arya Samaj, is prominent, we are informed, in the politics of the Punjab. This confirms our suspicions of the state of affairs over in this interesting neck of the jungle.

The Alentian volcano Bogoslov has made another outbreak, so that the bogus part of its name may be regarded as bogus.

"Ferguson speaks," is a large headline in the Santa Fe Eagle. Yes—to my the least.

Alfred Henry Lewis, writing in a current and prominent magazine tells

us that Hughes is a fraud, a hypocrite, a grand stand player, shallow, self seeking and generally N. G. This was a long time in coming, but Mr. Hughes has escaped the muck rakers for so long that we rather apprehended it. A careful reading of Mr. Lewis' article leads to the conclusion that his chief prejudice against the new supreme court justice is based on his whippers and his plety. He is apparently so good that he has got on Alfred's nerves.

A newly perfected milk preserving process is said to crush the fatty globules and mix them so thoroughly with the "watery components" that they cannot be separated. No hint is given of the quantitative relation of the watery components to the fatty globules, a phase of the matter which is really of the most interest to milk consumers.

"Mr. Ferguson in his Tuesday speech voiced the correct sentiment of the territory when he stated that we had better wait for statehood rather than adopt a constitution that would limit our state government."—Tulsa Tribune. This shows how the land lies. The democrats want unlimited government.

A San Francisco man, answering the divorce complaint of his wife alleges that she went off and left him to eat his mother's cooking. How this allegation could be in the nature of a cross complaint is a mystery. It looks like a solution of the mooted question of how to be happy though married.

If the report that Manuel was glad to quit the throne is correct, an element of the tragedy seems to vanish from the situation. There has been considerable sympathy showered upon him which it might be well to shift now to the gentlemen trying to run the government of Portugal.

A careful survey of our exchanges indicates that the last lingering rural paper has echoed the paragraph found in every metropolitan journal that "King Manuel couldn't come back." Any further repetition now will be punished by expulsion from the union.

William A. Barnes, of New York, admits that Roosevelt has shocked him, and the remark seems to have a tinge of ad surprise. There is no good reason apparent for the surprise. When Mr. Barnes grabbed a live wire he ought to have known what to expect.

Having taken an aeroplane ride, the list of spectacular stunts by which the colonel may keep the excitement at the proper pitch is rapidly narrowing down to climbing Mount McKinley or joining Buffalo Bill's show and shooting glass balls.

A gentleman picked up by the police declares he was dragged in Kansas City and woke up in St. Louis. The first experience might not be wholly undesirable but the awakening must have been terrible.

William Dore has been appointed state insurance commissioner in Utah. The natural query will be the well known inquiry of the comedy Dutchman, "didn't he die it?"

It has been announced that they are going to plant lobsters in the Pacific and the feelings of a large number of citizens, it is reported, were immediately hurt.

The Tularosa Tribune points with pride to Judge A. B. Fall of "Salina." Evidently the judge has as many residences as the late King Edward.

There seems to be a general disposition among the delegates in Santa Fe to revise that ninety day estimate.

Same old story. A chorus girl was at the bottom of the troubles of the king of Portugal.

Has anyone here heard anything lately about Crippen?

France's troubles appear to be mostly rhetorical.

A TEST OF MEN.

In their overwhelming mistortone the Minnesota settlers are giving to the nation an example of manliness and that staid hardihood upon which the greatness of America was built.

Their homes and cities are destroyed. The work of years is reduced to ashes. But they march up to the relief trains, get a tent and an ax and will begin life anew.

The history of this country, says the San Antonio "Express," teems with

A CONUNDRUM.

Why do people who do not eat pork as meat continue to use it in the form of lard? Lard is just as indigestible as pork. In a recent article on cooking fats, Dr. Paige Emery, the eminent specialist, writes as follows:

"The healthful and economical solution of the cooking fat problem is the use of Cottole. Cottole is purely a vegetable product, is easily assimilated, and aids digestion. Dietetic experiments have shown conclusively that when a vegetable oil is used in cooking in preference to animal fat, it is more easily assimilated and yields far more nourishment to the body."

Cottole is not only wholesome; it is economical as well, one-third less being required.

instances of the homes of settlers being destroyed by Indians or the ravages of wars. But the dead were buried and new cabins rose in the places of those destroyed. It is a spirit that is essential to the building of any commonwealth and to the happiness of mankind. In their simple philosophy these woodsmen are the wisest of the wise. How silly it is, indeed, to admit any kind of defeat. All that a man can obtain from his material wealth is food, shelter and clothes. His other asset is peace of mind and joy in living. The forest fire cannot destroy either. It devolves upon him to destroy them, if they are to be lost. And the backwoodsman has too much of the wisdom of simplicity to do that. They are going to cut more logs and build more homes.

Professor Woodrow Wilson, candidate for governor of New Jersey, is about to resign his position at the head of his great university. Professor Wilson has at least the courage of his convictions. "There's many a slip 'twixt the cup and the lip," as a famous King once discovered. Also, discretion is the better part of valor.

Greater caution in automobile racing should be suggested by the fact that in order to stand a chance for figuring as a prize winner, a man must at least be a survivor.

Dr. Wilson has arisen to remind the world that New Jersey contains more than summer resorts and corporation directors' offices.—Washington Star. What, mosquitoes?

Looks like a lively scrap between the small but pugnacious Teddy-bear and the large and ferocious but somewhat infirm Tammany Tiger.

No man can be expected to make speeches by the thousand and say something brand new every time.

At least the government will let us ride on aeroplane pases.

Public Forum

Regarding Railroad Assessments.
Constitutional Convention,
Territory of New Mexico.
Santa Fe, Oct. 16th, 1910.
Editor Morning Journal.

Dear Sir: In connection with your editorial in this morning's issue I would like to submit to you some figures regarding railroad assessments which, I believe, will not be quite as flattering to those companies, as the serial recently published by Trusting Auditor Safford.

The annual report of the Atchison, Topeka & Santa Fe shows the following figures:
Common stock outstanding, \$165,518,500, par value.
Preferred stock outstanding, \$114,175,730, par value.
Bonds outstanding, \$202,004,951, par value.

Mileage, 10,969.68 miles.
The market value of the common stock at yesterday's quotations was 105 3/8, and of the preferred 100 7/8 per share. The market values of the bonds I can not quote as I have not the quotations at hand. The bonds probably sell around par. For the purposes of this argument we will assume an average value of par for the entire capital, stocks and bonds, as the market value is constantly fluctuating and par represents a fair average for these securities for some time past.

In adding stocks and bonds we find that the total capitalization of the road equals \$581,697,181, or \$53,031 per mile of road. This is not necessarily an excessive valuation as the cost of building and equipping a railroad is generally figured at from \$40,000 to \$60,000 per mile in a mountainous country and from \$20,000 to \$30,000 in a level country.

The total assessed valuation of all the railroads in New Mexico is placed by Mr. Safford at \$15,750,589.11. Taking the average value per mile of road as shown by the Atchison, Topeka & Santa Fe annual report and dividing the total assessment by this average value per mile we find that if this assessed valuation represented the full value of the railroads there would be only 297 miles of railroad in the territory.

As a matter of fact the total mileage of railroads within the territory is nearer 5,000 miles. In other words the railroads are returning their property at about TEN PER CENT of its TRUE VALUE.

EDWARD D. TITTMAN.

For needed improvements in the exigencies of the time suggest, thus overcoming those opposed to a tax limit on the ground that it will hamper progressiveness in the conduct of the state's business.—Silver City Enterprise.

You Have a Few in Texas.

Cattle and horse thieves are active in parts of both Arizona and New Mexico, but officers of the law are equally active in running them down. The day of the cattle and horse thief is over in the great southwest.—El Paso Times.

You Ought to Beat It.

According to the census returns made public a week ago, Socorro county now has a population of 14,761 as compared with 12,195 ten years ago. That is a gratifying increase, but if only a tenth part of the county's natural advantages should be utilized the rate of increase would be doubled next time.—Socorro Chieftain.

A Small Pork Barrel.

It is gratifying that it is possible to commend the constitutional convention's solution of the employee problem. It is to be hoped that future state legislatures will be inspired by this illustrious example and will just as summarily brush out the swarm of political vermin that is sure to infest the nooks and corners of the capitol every time the legislature meets.—Socorro Chieftain.

And Now It's 60 Days, No?

The New Mexico constitution, brought out by Postmaster General Hitchcock and approved by the state legislature, will be introduced, debated and passed by the republicans whenever President Spiess takes it from his inside pocket and gives the signal to his corporation cohorts. As soon as the constitution is adopted, but why wait so long? Produce the official draft and let the army to over.—Silver City Independent.

Mr. Hearst, Old Grouch.

There is an old grouch somewhere up about New York by the name of William Hearst whose business for several years has been to raise some sort of political dust, the object being to befog the atmosphere and prevent good men from following their own political inclinations. He has recently broke out again, and is raving about the corruption of both old political parties. Of course Mr. Hearst is pure (?) and undiluted (?) and as such the people should leave him severely alone in his incoherence.—Lakewood Progress.

Appropos of Mr. Ferguson.

We have noticed there are those who are somewhat at sea concerning the length of time Mr. Ferguson consumed in making his immortal speech before the convention. Friends say a brief half hour; confamulous detractors "a long hour." Who is better able to judge than Mr. Ferguson himself and the delegates who were entertained? And furthermore, why should we object if Mr. Ferguson feels better, and the Tribune-Citizen has been furnished with sufficient ground for another fortnight's trading crusade?—Raton Range.

An Exciting Personage.

"It suppose you find life easier since the summer boarders have gone?" "Nope," replied Farmer Cornstock; "we're workin' an' worryin' just as much as ever tryin' to keep the hired man contented."—Washington Star.

HE WAS THINKING OF CHICKEN

Miss Snow—Don't you think it is time to ramble about on a beautiful moonlight night?
Mr. Black—Well, I guess that depends on what you're rambling for.

Housewren is a child subject to group is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the cough has appeared, it will prevent the attack. Contains no poison. Sold by all druggists.

Dry Your Clothes on a Wet Washday With a New Perfection Oil Heater

When clothes can't be hung outside, and must be dried in a room or cellar, the New Perfection Oil Heater quickly does the work of sun and air. You can hang up the wet clothes, light your Perfection Oil Heater, open the damper top, and the heat rises and quickly dries the clothes.

Do not put off washing to await a sunny day in order to avoid mildew. Dry your washing any day with hot air from a

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

It gives just as much heat as you desire. It is safe, odorless and smokeless. It has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. Burner body or gallery cannot become wedged, because of a new device in construction, and can always be easily unscrewed for reworking.

An indicator shows the amount of oil in the font. Filler-cap does not need to be screwed down, but is put in like a cork in a bottle, and is attached to the font by a chain. Finished in Japan or nickel, strong and durable, built for service and yet light and ornamental. It has a cool handle and a damper top.

Dealers Everywhere. If not at your store, write for descriptive circular to the nearest agency of the

Cough Remedy. Sold by all druggists.**

FINANCE AND COMMERCE

Wall Street.

New York, Oct. 17.—Last speculative advance in the stock market was carried forward in the new week today in a manner to impress sentiment with the power and resources embarked in the movement and the strength of the convictions on which it was based. Realizing sales were very heavy.

The most important addition to the general causes accountable for the recovery in stocks was the publication since Saturday of the statistics of the country's foreign trade for September. The small excess of import over export values which had resulted from the varying operations of the first eight months of the calendar year is transformed by the results of the single month of September, which piled up a favorable trade balance of \$5,587,979. The significance of the showing was somewhat marred by the large part played by the record exports of cotton in making the result.

Assumption remained unshaken that a foremost private New York banking house was the principal influence in furthering the rise in prices. This assumption includes that of a widespread market organization and fostering and protecting measures for the money market as well as the movement of stock prices, especially United States Steel. That stock again absorbed practically one quarter of the total dealings, keeping up the ratio covered by the whole of last week's transactions.

Time money rates were firmer in New York and the private discount rate rose in London. The call money market here was earlier, with the passing of Saturday's dividend requirements.

New York Exchange.

Chicago, Oct. 17.—Exchange on New York, 10c discount.

Chicago Board of Trade.

Chicago, Oct. 17.—Rains in Argentina and an unexpected large increase of the visible supply in the United States and Canada gave a long, outward swing to the wheat market today. The close was at a net loss of 7-8 to 1-8-9 1/2-1-2. Latest figures for corn were one to one to 1-8-8 down, with oats off 1-2 to 3-4c. Provisions finished all the way from 1-2c up to 1-2-2-2-2c decline.

December wheat fluctuations were between 3-8-8 and 95-5-8 with the close 1-8-8-9 1/2-1-2c down at 94c.

Corn closed at the lowest point in four years. Fine weather made short sellers bold and discouraged the owners. December ranged from 45c to 47c and closed easy 1-8-1-8c off at 46c 46 1/2-1-2c. The cash market was weak. No. 2 yellow finished at 48 1-4-4-8 3-4c.

Oats "went into the twenties" today—that is, sold at less than 20c a bushel, a level which has not been seen before in this market in many years. Selling for country account was the immediate reason. In the December option the low and high figures touched were 29-8-8-9 3-4c with the last sales 30-8-8-9 1-8c, a net loss of 3-4c.

Work closed unchanged to 1-2-2-2-2c off, hard down 5 to 5-8-1-2c, and rice varying from 7-1-2-2-2c loss to 12-1-2c advance.

The Metals.

New York, Oct. 17.—Standard copper, firm; spot and October, \$12.40 to \$12.60; November, \$12.42 to \$12.62; 1-2; December, \$12.47 to \$12.67; 1-2; January, \$12.25 to \$12.67; 1-2. London, firm; spot 157, 8s, 9d; futures, 158, 6s, 3d. Local dealers report a firm market. Lake copper, \$12.87 to \$13.00; electrolytic, \$12.75 to \$12.87; 1-2; casting, \$12.57 to \$12.67; 1-2; arrivals reported at New York today, 1,733 tons; customs-house returns showed exports of \$10,157 tons so far this month.

Lead, quiet; \$4.40 to \$4.50 New York; London spot, 113, 10s, 3d; Spelter, quiet; \$5.50 to \$5.59 New York; \$5.40 to \$5.45 East St. Louis. London spot, 123, 17s, 6d.

St. Louis Spelter.

St. Louis, Oct. 17.—Lead, higher; \$4.27 to \$4.40.

Spelter, firm; \$5.42 to 1-2.

St. Louis Wool.

St. Louis, Oct. 17.—Wool, unchanged; medium grades combing and clothing, 23 1/2c; light, 13 1/2c to 21c; heavy fine, 15 1/2c to 17c; tub washed, 25 1/2c to 28c.

New York Cotton.

New York, Oct. 17.—Cotton closed easy at a net loss of from 25 to 30 points.

Chicago Livestock.

Chicago, Oct. 17.—Cattle—Receipts, 42,000. Market 10 to 15c off. Buves, \$4.65 to \$4.80; Texas steers, \$2.40 to \$2.60; western steers, \$2.15 to \$2.30; stockers and feeders, \$1.25 to \$1.50; yearling calves, \$2.25 to \$2.40; calves, \$7.50 to \$10.00.

Hogs—Receipts, 20,000. Market steady for light, others 5 to 10c off. Light, \$8.65 to \$9.20; mixed, \$8.20 to \$8.40; heavy, \$8.05 to \$8.25; rough, \$7.50 to \$8.00; good to choice, heavy, \$8.25 to \$8.50; pigs, \$8.25 to \$9.00; bulk sales, \$8.40 to \$8.80.

Sheep—Receipts, 75,000. Market 10c lower. Native, \$2.30 to \$4.20; western, \$2.15 to \$2.25; yearlings, \$4.20 to \$4.40; Native lambs, \$4.05 to \$7.00; western lambs, \$4.75 to \$8.85.

Kansas City Livestock.

Kansas City, Mo., Oct. 17.—Cattle—Receipts, 21,000, including 1,200 southern. Market steady. Native steers, \$4.50 to \$5.00; southern steers, \$3.75 to \$5.10; southern cows, \$2.75 to \$4.25; native cows and heifers, \$2.60 to \$3.50; stockers and feeders, \$2.40 to \$3.75; bulls, \$3.00 to \$3.25; calves, \$3.75 to \$8.00; western steers, \$4.00 to \$7.75; western cows, \$2.75 to \$5.00.

Sheep—Receipts, 12,000. Market steady to 10c lower. Muttons, \$3.50 to \$4.50; lambs, \$5.50 to \$6.50; fed weaners and yearlings, \$4.00 to \$5.25; fed western ewes, \$3.40 to \$4.00.

Corn Thrust.

Marine Artist—Yes, here is my latest picture, entitled "The Private Ship." If I keep on trying my canvases may yet attract attention in the marine world.

Miss Tabasco—Yes, if you sewed enough of them together they might make a right fair-sized boat sail.

MINES AT GALLUP NOW EMPLOYING 1,500 MEN

New Colliery Just Opened Up at Carbon City; 50 Houses Built in a Year Is Gallup's Record.

[Special Correspondence to Morning Journal] Gallup, N. M., Oct. 17.—A new mine has just been opened up at Gallup. Several cars of coal were shipped out last week for the first shipment. Mr. E. J. Keller of Socorro, was employed lately by this mining company to sink some wells at the mine. There are five or six large mines in operation here now, which, together employ about 1,500 men. The Gibson mine is not in operation at present on account of an underground fire which has been raging for months.

Within the last year about fifty houses have been built within the city limits. Quite a number of large business places have also been established.

Palmer Kether, one of Gallup's most energetic grocers, has lately moved with his family to Salt Lake City. Mr. Kether and family will be greatly missed by the citizens here.

On Friday evening, Oct. 14, a very interesting program was given at the public school building the object being to bring the parents together in a social way as well as to give them an evening's entertainment. The program was short and consisted mostly of music. The school brass band played two selections to add to the enjoyment of the evening. This band consists of about 20 of the school boys. After the program given by the pupils, several speeches by citizens were given, in which great satisfaction was expressed in the success of the school. The people of Gallup have much regard for their school and its advancement.

BODY OF SUICIDE INCINERATED IN HIS HOUSE

Remains of Hagerman Ranchman Burned to Crisp; Believed to Have Been Mentally Unbalanced.

[Special Dispatch to the Morning Journal] Roswell, N. M., Oct. 17.—Edward V. Kennedy, residing on a ranch near Hagerman, south of here committed suicide Sunday night. He shot himself after setting fire to his dwelling and the body when recovered was charred to a crisp with both legs burned off. In preparation for his death he had previously cut up the galvanized iron water tank, buried his harness and destroyed all other chattels about the place. A note found nailed to the fence stated that "no one was blamed for death, that the world was against him and he was tired of life."

Kennedy was forty years old and unmarried. He was fined in district court last spring for carrying a gun for an imaginary enemy and was considered at the time of unsound mind, a belief which has been verified by subsequent actions. No relatives live in this section of the country and his farm was heavily mortgaged. Just a few months ago he advertised in the Roswell papers for a wife.

FORESTRY SERVICE MAN MAKING LONG TRIP

Reaches Magdalena With Outfit En Route Overland From Carson Forest in Colorado to Tucson, Arizona.

[Special Correspondence to Morning Journal] Magdalena, N. M., Oct. 17.—Dust-battered and sun-tanned by many days exposure in traveling across New Mexico plains and mountains Frederick R. Starr reached Magdalena today enroute from Colorado to Tucson, Arizona. Mr. Starr is a member of the government forest service and has for the past few years been on the official force of the Carson national forest, with headquarters at Antonito, Colorado. A few weeks ago he was ordered to transfer himself to the Coronado national forest in Arizona, and since he had an outfit of considerable size together with three dogs and a desire to see the country from the horseback deck of a buckboard rather than through the double glass and limited space of a Pullman car window, a trek overland was decided on for him. The three dogs are thoroughbreds, one being an Ardena terrier and the other two Scotch shepherds, and they have had a rather hard time of it with the native mongrels encountered in the villages along the route. Mexican dogs do not take kindly to thoroughbreds anyway and Mr. Starr's migrating kennel is somewhat disfigured as a result of dog fights. One of the stagehands has quite a severe wound to remind him of a chance meeting with a Bel-

liever's dog. Starr seems to be hugely enjoying the trip and is enthusiastic over the country already traversed. He says it is really the only way to travel and see things as they are, and it would be fine going if a fellow did not have so much trouble in keeping on the right roads; the lack of signboards and unreliable information has delayed him several days and caused him many miles of unnecessary travel.

First Caddie—Do you think he'll ever be able to play de game?

SIXTY MASONS IN ROSWELL FOR ANNUAL MEET

Fifty-Third Yearly Session Convened With Good Attendance for First Day of Week's Doings.

[Special Dispatch to the Morning Journal] Roswell, N. M., Oct. 17.—The fifty-third session of the New Mexico Masonic Grand lodge opened in Roswell yesterday. Frank Johnson, grand master of San Marcial presided and sixty visiting Masons from different parts of the territory were in attendance. The session promises to be very successful. It will continue through Friday. Dr. McQueen Gray, grand chaplain of the grand chapter, will be unable to attend on account of giving preparatory work to the candidates in the Rhodes scholarship examination at the University of New Mexico.

C. E. Palmer and R. W. Griffith, both of Chicago, are among yesterday's arrivals and think of remaining for the winter.

Miss E. V. Cook, of the United States Forest Service, has been detailed to the Alamogordo office for two weeks.

C. A. Day and wife of Big Springs, Texas, are in the city and looking Albuquerque over with prospective residence intentions.

A. A. Trout of El Paso, who is a frequent visitor in the Duke City, arrived Sunday and will spend a few days looking after business interests.

Mrs. D. D. MacDonald has returned from the east and says there is no place like Albuquerque. Lake Superior and Michigan beaches are all right in summer.

Nelson L. LeGrand, an expert lumberman for the United States Forest Service, left last night for the Zuni mountains, where he will spend several weeks on cruising work.

There will be a regular review and reunion of charter members of Alamo High No. 1, L. O. T. M., this afternoon at 2:30 at Odd Fellows' hall. A full attendance is requested.

Special occasion of Rio Grande Chapter No. 4, R. A. M., this evening at 8 o'clock for work in the M. M. and P. M. degrees. All visiting companions are welcome. By order of the H. P. Harry Braun, secretary.

A. J. Devlin, machinist foreman of the local shops, has been promoted to take charge of the locomotive system between Santa Fe and Newton, and his friends in the shops last night presented him with a handsome diamond ring. He will be succeeded in the shops by William Nye.

Antonio Hernandez, Salvador Hernandez and Refugio Aguilar, three natives of Old Mexico, arrested Saturday night on a charge of having stolen \$275 from Eugene Lopez, also of Old Mexico, were discharged yesterday morning. Lopez was unable to sustain his charge that he was robbed.

D. Karl Petroschek, and son Karl Petroschek, members of a wealthy and prominent family in Vienna, Austria, left yesterday for California after spending several days sightseeing in Albuquerque and vicinity. The Petroscheks are seeing the United States and will tour Mexico and South America before their return to Austria.

Mrs. George Higginbotham and daughter, Mrs. O. C. Taylor, have returned from Neosho Falls, Kan., where they attended the funeral Thursday of their husband and father, Mr. George Higginbotham, whose death occurred recently in this city. Mrs. L. L. Atter, sister of Mrs. Higginbotham, died six hours after the Higginbotham funeral at her home in Iola, Kan.

Felix Bach, attorney for Isaac Berth, filed a suit in the district court yesterday asking judgment against the Santa Fe railroad in the sum of \$1,200. It is alleged that the Santa Fe company failed to provide cars promptly for a shipment of sheep requested by the plaintiff and that the amount asked as damages was lost as the result. The shipment was made at Gallup in December, 1909.

W. C. White, of Philadelphia, prominently connected with the Pennsylvania railroad, with his mother, Mrs. A. B. White, and sister, Miss White, arrived yesterday and will spend the winter in Albuquerque. They are friends of Mr. and Mrs. E. J. Strong of this city and came to New Mexico on their recommendation. It is possible Mr. White and family may locate permanently here.

There are two candidates this year from the University in the Cecil Rhodes scholarship contest. Harold Marsh and Karl Korren, both of whom are making every effort at qualification. The examinations began on the 24th of this month and Dr. Gray is giving the boys personal instruction and help that they may make a good showing. Instructors and pupils are confident of ultimate victory.

A recently filed trench on Second street between Field and Central avenues proved a pitfall for the big automobile owned by Dr. J. F. Pearce, yesterday afternoon. With Dr. Pearce at the wheel, the machine was sent close to the curb and one of the front wheels went back deep into the hole with which the trench had been recently filled. It was necessary to put a block and wedge into operation before the big wagon could be extricated.

Miss Barbara Chaves of this city has left for Santa Fe where she will accept a position in the St. Vincent's orphanage. Miss Chaves will not become a student at the Loretto Academy.

any at Santa Fe as was erroneously stated.

Mr. and Mrs. Joseph Barnett have returned from an extended tour of the Pacific coast cities.

The city council failed to meet last night because of the lack of a quorum. A meeting will be held at 8 o'clock tonight providing the necessary number of aldermen are present.

Mr. Claude R. Aiken, former student at the New England Conservatory of Music, Boston, wishes to announce that he will accept a limited number of piano pupils the present season. Instruction also given in harmony and counterpoint. Phone 950 or call at 416 S. Third.

Beauty Culturist, Massene.
Miss H. V. Moore has opened her parlor at room 25 Barnett building, or she will call at private residence, by appointment. Phone 996.

DEATHS AND FUNERALS

Henry Lewis.
Henry Lewis, twenty-four years old, the son of Mr. and Mrs. J. G. Lewis of 823 South Fourth street, died at 2:30 o'clock yesterday morning in a hospital in Oklahoma City, death resulting from general peritonitis. Mrs. Lewis, the mother, was present when death came, having gone to Oklahoma City two weeks ago. The body will be brought to Albuquerque for interment and announcement of the funeral will be made later. Young Mr. Lewis was born and raised in Albuquerque and up to three years ago made this city his home. Numerous friends will regret to hear of his untimely death and the family will have the sympathy of many in their sorrow.

Amos Hedrick.
News was received here yesterday of the death of Amos Hedrick, of the United States Forest Service, who died in Las Vegas Sunday afternoon, following an operation for stomach trouble. Mr. Hedrick was quite well known in Albuquerque. Interment will probably be in Las Vegas.

Funeral of Mrs. Apodaca.
Funeral services over the remains of Mrs. Ruperto Montano de Apodaca, wife of Nicholas Apodaca, of 1221 E. Central road, were held from the church of the Sacred Heart at 9 o'clock yesterday morning. Rev. P. Tommasini, S. J., celebrated requiem high mass. Interment was in Santa Barbara cemetery. The funeral was largely attended by relatives and friends. Mrs. Apodaca died Saturday morning following an illness of some time.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substances and always gives prompt relief. Sold by all druggists.

"AMERICANITIS" IS ROBBING WOMEN OF POISE

"Rest Call," Subject of interesting talk by Mrs. J. J. Runyan at Y. W. C. A., Meeting Sunday.

The Y. W. C. A., world-wide in its work of betterment for young womanhood, is becoming a great moral factor in the upbuilding of Albuquerque.

Not only does the association furnish a comfortable home, well-cooked food and recreation in all healthy forms, but literary and spiritual life as well. Believing in a broad mental life and thorough development of the spiritual nature the association has introduced a new feature for the Sunday afternoons. Men and women prominent in educational and religious life will give a series of talks during the coming winter months which will be calculated to interest the members of the association.

Last Sunday Mrs. J. J. Runyan, wife of Rev. J. J. Runyan of the Baptist church and formerly dean of the Y. W. C. A., Granville, Ohio, addressed the girls on "Christ's Rest Call." Mrs. Runyan is possessed of a wonderfully pleasing personality and is a brilliant woman with perfect command of the language. Her talk was abnormally interesting and held the close attention of her hearers. Among other things she said:

"In the rush and hurry of modern life with its multitude of calls for service in so many directions, we American women are losing an essential characteristic of the ideal woman—namely, poise. Some of us are visiting our country visiting the various parts of our people diagnosed this disease as Americanitis."

Mrs. Runyan called attention to the difference between the world's call for men and Christ's call as voiced in the great Rest-Call. Quoting from Phillips Brooks, she said: "The world's purpose rest by the respect of the body. The Redeemer gives rest by giving us the spirit and power to bear the burden. Not refusing the struggle but conquering in it."

Mrs. Runyan then spoke of the elements of a restful life. Nothing is more important than the spiritual, especially at the immortality of the soul, and how the thought of this will comfort hearts into an eternal peace. She concluded with Christ as the great example of a well-poised character of whom it has been said: "The power of a soul that has come out of eternity seemed to be His."

At the conclusion of the talk Mrs. Roy McDonald sang in her usual fine voice, after which tea was served to the large number who had listened to the interesting and helpful afternoon.

Albuquerque, N.M.

SEVEN PASSENGER TRAINS LOADED TO THE LIMIT

Tremendous Crush of Tourists Pass Through the City En Route for the Golden West.

The final rush of passengers for the west on the colonist rates, occurred last night when seven Santa Fe trains, loaded to the utmost capacity, passed through the city between 8 and 12 o'clock. No. 1 was run in three sections, No. 7 in two sections and No. 9 in two sections. Each section consisted of at least five chain cars and five sleepers and local passengers from Albuquerque for points west had much difficulty in securing even standing room on the outgoing trains. The colonist rates expired last night as far as purchasing was concerned and the final limit for reaching the destinations will expire tomorrow. It would be difficult to estimate the number of people who passed through Albuquerque last night. The great majority had tickets reading Los Angeles, although a number were bound for San Francisco, Portland, Seattle, and other northwest cities.

UNCONFIRMED REPORT OF A JOY RIDE THAT WAS DISASTROUS

Vague rumors are rife of a disastrous joy ride which occurred Sunday when a gay and festive party consisting of Herbert Brooks, guide, pathfinder, chauffeur and mechanical; Melville E. Summers, assessor of the county of Bernalillo, territory of New Mexico as aforesaid; Leslie Shaw, not the secretary of the treasury, and Frank Kruske set sail blithely and with the gasoline tank full, across the mesa in search of a diamond mine. There was no thought of a catastrophe or of grief, the hampers were well loaded with refreshments, alleged to be all of the non-liquid variety, everything was lovely, the weather was fine and the sparker working merrily.

Well—rumor doesn't go into a detailed list of the adventures of the bunch. It is understood that everything happened that was ever known to an automobile or a joy rider. Suffice it to say that the experience of the party could not but move the hardest of the city. The road was last several times, the machine went to the bad, the lunch gave out, and other things are said to have happened, for which it will be necessary to consult with the crowd.

CHAMIZAL DITCH AGAIN IN THE LIMELIGHT

Contests Filed in the District Court Yesterday Alleging That Mayor and Commissioners Were Illegally Elected.

The annual scrap between the residents of Alameda, over the Chamizal and Alameda ditches, is now on in full blast, suits being filed in the district court yesterday by various unsuccessful candidates for the positions of mayor, judge and commissioners alleging that the mayor, judge and commissioners declared elected as the result of the election held on October 2 are illegally holding office, having been elected by fraudulent votes. Attorney M. C. Smith and John A. White represent a number of clients in the various contest suits. Manuel Tabara, Emiliano Salas, Constantino Lucero and Solomon Chavez, Pablo Garcia attempted to oust Roman Lopez Y. Sanfilippo and Eleazar Martinez, attempting to have Pedro Romero declared not a legal holder of office.

The complaints in each case allege that the men now holding office secured their election as the result of ballot, which according to the laws of the several departments, in effect stole the election from the voters. The court is asked to declare the offices of mayor, judge and commissioners vacant and to seat the petitioners.
