TUESDAY, AUGUST 2.

Spanish honor must have been satisfied to such an extent that the surrender of Cuba, Puerto Rico and a few more islands is regarded as getting even with the enemy by heaping coals of fire on his head.

Hereafter the "Yankee Pig," when traveling in foreign countries, will be the whole hog. The war with Spain has increased respect for the stars and stripes in a wonderful degree. The war has cost a whole lot of money and many precious lives, but it begins to look as if the results finally would be worth it all.

Colonel W. Jennings Bryan, with his regiment of Nebraska soldiers, passed through Atlanta, Ga., one day last week, and the Atlanta Constitution's local man said, after gazing at the colonel's classical features, that "he is a Daniel Webster and Henry Clay combined." If those two noted and talented gentlemen were on earth the Constitution would have a couple of libel suits on its hands quicker than wink.

Boss Croker, of New York, is of the opinion that troubles never come singly. He lost a lot of money on the English race tracks and came home to retrieve his fortunes, only to find that Colonel Theodore Roosevelt was a great, big possibility as a candidate for governor. The boss has had some experience with the colonel and the prospect of again meeting him in politics is the most cruel blow of all.

The abundance of money in the country is beginning to have its effect on interest rates in some sections of the west. Mortgage loans which have commanded a rate of 8 per cent in the past few years are being rendered, where opportunity is offered, at 6 per cent and less. With the gathering and marketing of this year's crops it is thought that rates for money loaned on good real estate security will go as low as 4 per cent, in the middle western states.

With a fruit evaporating and cider making plant in operation, the fruit growers of Santa Fe county will be able to realize more from their orchards than has been possible in the past. The Santa Fe Fruit Company should be aided in every possible way in order that it can go into the market and buy every pound of fruit offered at the works. Ready money in a community is what brings prosperity, and no other enterprise now in sight will put as much money into circulation as the evaporating of fruit.

The honest and prompt taxpayers of the territory have it within their power to make the dodging of taxes and the showing of favors to friends by county commissioners and tax collectors impossible. A few petitions to congress and a little work with the members of that body will result in federal legislation which will bring matters to a focus in a hurry. Unless some of the county collectors and boards of commissioners do their duty in collecting the revenues of the counties better, something of the kind will have to be done.

The Democrats of the territory appear to be cock sure of electing the delegate to congress next November. The Republican party is in a position to nominate a representative man and elect him, if the right man is nominated. The year 1898 is not a good Democratic year, judging from all indications and the Republicans of New Mexico will show a lack of energy and organization if they allow their friends, the enemy, to elect the delegate. All that is necessary to succeed in the fall election is for the Republicans to "keep still and saw wood."

Years of Prosperity Ahead.

The United States in the past six months, has passed through an entirely new experience for the republic, that of carrying on a war which has necessitated the invasion of territory other than on the American continent. That experience has cost millions of dollars and yet the country never had as bright prospects. Peace is in sight, the war is virtually over, and soon the normal conditions of the land will be resumed in the pursuit of peaceful occupations. When has there been such a conjunction of fortunate influences of the first magnitude?

Although the war has ceased to be a serious drag on business, the stopping of war expenditure of something like \$1,000,000 a day will in a short time do away with many of the taxes now collected, unless new complications should arise, and that is something approaching the impossible.

The acquisition of Puerto Rico will add to the wealth of the country in no

inconsiderable degree. That island with a population of 2,500,000, in area contains 50,000 square miles of wonderfully productive soil, yielding coffee, sugar, fruits, nuts and tobacco. It has an export and import trade amounting to \$36,000,000 a year, and is capable under American control and management of increasing enormously in population and productiveness.

The United States has a credit balance abroad of \$600,000,000 for the fiscal year ending June 30, and the country owes far less in the European money centers than for the past fifteen years, for the reason that American securities have been bought back in large sums and bought at a low figure, and the interest charges which have been a heavy drain on the people are reduced accordingly. Already gold imports have begun, a most unusual thing for this time of the year. But Europe has no other way of paying its debts to this country. The offsets which used to eat up the trade balance are unequal to caring for the enormous sum of \$600,000,000.

Another great crop this year is ready to pour its products into the markets and exports of grains and food supplies will equal those of 1897.

The output of the gold mines of the United States last year reached \$90,000,000, and that of the silver mines \$33,000,000, and the present year will see those figures exceeded. The money circulation has increased, and cheap money, which stimulates business, has become the rule in commercial and industrial circles.

Silver Dollars at Santiago.

Some days ago the silver papers of the country were doing considerable talking about the demand for American silver dollars in the Philippine islands, and arguing that the demand was sufficient to prove the correctness of the free coinage theory and the rascality of the "gold bugs." Last week General Shafter telegraphed to the treasury department that the merchants of Santiago were refusing to accept the "dollars of our daddies" except at a discount of 50 per cent. Up to date the silence of the free silverites on the Santiago silver incident has been positively oppressive. Whether, because it happened so near home, it is not worth noticing, or because the effect of it was contrary to the tenets of free coinage, caused that silence is not known, and really makes but little difference.

The reason the Santiago merchant refuses to take American dollars at par is that he has been accustomed to handling silver money which is based on silver and is therefore worth only its bullion value. The anomaly of having two silver dollars, the Mexican and that of the United States, one worth twice as much as the other, circulating side by side, is a puzzle to the people of the island, and until the difference of the standard upon which those two dollars is based is understood, the American silver money will be of little use in Cuba and Puerto Rico. In Cuba, Spanish gold and silver coins circulate at their bullion value, and the bank notes are at a fluctuating discount, and American money will be regarded with suspicion by the business men on the island until time has been had to thoroughly impress on their minds the fact that in the United States and the greater number of the nations of the world American money is worth its face value in gold, because it is based on gold.

If the free silver papers wish to be honest in dealing with the money question they should take up the Santiago silver matter and thoroughly and truthfully explain it to their readers. Unless they do their sincerity to bring about free silver will be subject to grave suspicion.

They Will Be Captured.

(Eddy Argus.)
The editor of the Lordsburg Liberal has no great love for officers of the law, and is constantly applying more especially to deputy United States marshals, but he is frank to acknowledge that Sheriff Pat Garrett, of Dona Ana county, is a competent and model officer, and will most certainly capture Gilliland and Lee.

A Very Pertinent Question.

(Springer Stockman.)
O'Neill, Cavanaugh, Casey, Rafferty were among the officers who led the American vanguard to bloody victory up San Juan hill, and in the ranks which followed them, Irishmen were numerous and conspicuous. In peace and war the ardent Celt is always to the fore.—St. Louis Republic.

To say that Irishmen are patriotic and will fight, is like asking the question: "Can a duck swim?"—Moberly (Mo.) Democrat.

The foregoing names are for the heroic "Rough Riders" taken from the territories, and still the latter paper says we are unfit for steechhold. How can it be with such heroes as residents?

New Mexico Military Institute.

(Eddy Argus.)
Professor James G. Meadors, of the New Mexico Military Institute at Roswell, was a passenger north, Tuesday, returning home from a visit to the western and northern part of the territory in the interest of the institute. He was well pleased with the result of his trip. Certainly he was well received, for every newspaper in the towns he visited made lengthy mention of the school which is to open for its initial term in September. The Pecos Valley is very fortunate in securing the establishment of this territorial educational institution in its midst. It is not only affords excellent facilities for the young men who are already here, but will attract them from all over the country, and will be an added inducement to people contemplating emigration to the west to come to a section where every provision is made for the education of their children. Professor Meadors is working diligently that the school may be a success from the very first, and he is being assisted in that ambition by the people of the Pecos Valley and the entire territory.

NEW MEXICO STOCK CONDITIONS.

Ranges in Splendid Condition—Prices Range High—Ranches Receiving New Cattle—Prospects Flattering.

Present prospects for the sheep and cattle men in New Mexico are very flattering. Ranges are in splendid shape, prices range high for all kinds of stock, while the demand for feeders does not lessen. In fact, it appears now that the supply of lambs will fall far short of what the markets will call for. The disposition on the part of buyers and feeders not to pay the prices that were last fall asked for sheep and lambs has the opposite effect on the market from what was intended. The owners have, as a rule, refused to sell at the figures offered and the buyers are beginning to weaken, in some instances paying the top price of last season for good lambs. Among the cattlemen, while prices are not expected to go much higher, the demand promises to exceed that of last year and the market will be exceedingly brisk for stock that is in fair to medium condition. In some sections of the territory cattle are being shipped in on the ranges in large numbers and very few, if any, sales are being made. The cattlemen are endeavoring to enlarge their holdings in order to increase the herds for coming years and sales will be largely restricted on that account. The fall round-ups may result in the sale of large numbers of old stock, but the young cattle will be held for future deliveries.

Territorial Stock Notes.

It is estimated that Sierra county has 50,000 head of goats grazing on its hills and valleys.

The troops at Fort Bayard will be supplied during the coming year, with fresh beef by Frank Jones.

New Mexico will hardly furnish lambs for Colorado feeders this year. They are worth too much right at home.

"The ranges around Hagerman in Chavez county are simply perfect," states a cattle man from that section.

McKee Brothers shipped 1,700 head of fine sheep from Grant county this week. They brought \$3 per head. J. O. McKee has bought the Denton Robertson herd of goats. There are 775 head of goats in the herd and Mr. McKee paid \$1 per head for them.

The Bloom Cattle Company of Lake View, in the Pecos valley, has received a large consignment of cattle from Arizona.

The ranges of southeastern New Mexico have not been in as fine condition as now for a score of years, say stock men in that neighborhood.

The ranches and cattle at Pleasant and Dry Creek belonging to Isaac Siglins have been bought by T. H. and J. D. Wilson. The ranches are in Grant county.

The Gross, Blackwell and Browne & Manzaneros' Companies warehouses at Las Vegas, are busy places these days. Large numbers of wagons loaded with wool are discharging their freight at their doors.

The grass is growing so finely and high over near Roswell that F. G. Bloom, of that place, facetiously remarked that there would be danger of the cattlemen losing their calves in the tall grass.

A Folsom man thinks that the number of lambs in the territory this year is far fewer than last year. He also says there are no wethers worth mentioning, they having been bought up very close last fall.

It is reported from Springer that the wool clip from northeastern New Mexico for this season will be 35 per cent greater to the same number of sheep than it was during 1897. One firm at Springer will handle 1,000,000 pounds of wool this year.

The Right Sentiment.

(Eddy Argus.)
A strong pull, a long pull and a pull altogether, and Eddy and Eddy county can be made to grow and push ahead in the march of progress as never before. Do your part.

RECORD AND BRIEF WORK.

Transcript, record and brief work for attorneys at the New Mexican printing office for the approaching session of the Territorial Supreme court, printed at the lowest possible figures and in the neatest, best and most acceptable style. Patronize the New Mexican Printing Co., and you will get first-class work, besides supporting an institution that is at work daily for this city, this county and the entire territory of New Mexico.

Notaries' Records.

The New Mexican Printing company has on sale blank records for the use of notaries public, with the chapter of the Compiled laws governing notaries, printed in the front. Will be delivered at any postoffice or express office on receipt of \$1.25.

SILVER CITY REDUCTION COMPANY, Silver City, Grant County, N. M.

This plant has been purchased and will be operated in the future by the estate of the late Senator George Hearst, of California, under the general management of D. B. Gillette, Jr.

It is the intention of the present management to largely increase the capacity of the plant and equip it with every modern appliance for the successful production of the best quality of silver and concentrates. Consignments and correspondence solicited. Advances will be made on ores.

Controlling the Price of Wheat.
Events during the past few months in the Chicago wheat pit has shown how powerful one man can be. Throughout the whole of civilization the increase in the price of bread has been felt. This power of a single man, however, is not so great as that of one single medicine in relieving and curing many diseases. This is Hostetter's Stomach Bitters, and its influence for good extends to all lands. When the mouth tastes bad in the morning, when appetite is lost, when dizziness comes on, when you are easily tired and have no desire to work, take a wine glass of the Bitters before meals and you will feel like a different person. This one medicine controls the health of everybody.

"The Evil That Men Do Lives After Them."

Sympathetic Attentions.
Didn't you feel sorry for poor Mrs. Badger—her husband is in Cuba.
Yes, I sent her a lot of lovely poems about men who were killed in battle.

A Soft Snap.
Talk about snaps, said the man on the \$11.98 bicycle.
And just then it snapped.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co., W. Va. For sale by A. C. Ireland.

Why They Became Extinct.
Noah—Are all the animals on board? Japheth—All but two—the Icthy—Ichthy—Ichthy—a pencil. Writes, Ichthy—Ichthy—the Plesiosaurus—there! Noah whispering—Don't say a word about them; they never will be missed.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by A. C. Ireland.

A Scared Veteran.
Major Duffick is making a great war record isn't he?
I'd like to know how you make that out. He's still here.
I know, but he is making all the flag presentation speeches as the various companies are being sent away to the front.

The Best Remedy For Flu.
Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flu, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by A. C. Ireland.

Consolation.
Ethel—He doesn't seem to take our engagement a bit seriously.
Grace—Jack always was reckless. But never mind, dear; he probably will later on.

We have used Chamberlain's Cough Remedy in our home for many years and bear cheerful testimony to its value as a medicine which should be in every family. In coughs and colds we have found it to be efficacious and in croup and whooping cough in children we deem it indispensable.—H. P. Ritter, 4127 Fairfax ave., St. Louis, Mo. For sale by A. C. His Only Complaint.
Do you suffer much in the summer? I was getting along all right until my nephew sent me a railroad pass that I can't get time to use.

FIGHT OF EL CANEY.

HOW OUR TROOPS DROVE THE SPANISH FROM THEIR TRENCHES.

Honore Laine, a Correspondent, Finds the Bodies of General Vara del Rey and His Aide—Valuable Papers Discovered and Taken to Headquarters.

Under date of July 2, writing from the front, Mr. W. R. Hearst, editor in chief of the New York Journal, describes the second day's fight at El Caney, near Santiago, as follows:
The fierce struggle to drive the Spaniards from the last intrenchments around Santiago continued all day, but with far less fury and a much smaller loss of life than on Friday. In my dispatch of last night I told of the guidance which The Journal correspondent, Honore Laine, had given to me to Caney. From there Laine pitched into the heart of the firing line. Tonight he returned here with his handsome face aglow with enthusiasm. Among the dead and wounded on the battlefield he had found, by the index finger of a Spanish prisoner, the body of the general who had commanded the forces of the enemy about Caney on the day before.

Amid the tall weeds and wire grass Laine had found the dead bodies of General Vara del Rey; his brother, near by, desperately wounded; two of his three aides and two other officers dead beside him, and even their horses and mules killed in the same deadly hail. They were close to a high cut fence, behind which they were evidently seeking shelter when caught by a volley from the American line. "Abandoned on the field!" cried Laine triumphantly. "Deserted by his men of the crack Battalion Constitution!" he added with fine scorn. Laine was unaffectedly happy as he held up to our gaze valuable papers which he had himself taken from the pockets of the Spanish commander. They told of the Spanish fortifications, troops and plans, and were turned over to General Garcia. The originals will be saved for The Journal. Laine beamed the joy that he felt as he tapped his camera and exclaimed, "I have here a photograph of him just as the vultures were flying from his body."

Laine is a daring correspondent, always alert to the demands of his newspaper, but before that—before every other consideration—he is a Cuban soldier. Of massive frame and classical face, he is a type to command admiration everywhere, but in the saddle, girl with the trappings of a trooper, the barrel of his rifle catching the rays of the soft Cuban moon, he seems to have ridden directly from the pages of Scott or Stevenson.

Laine loves war—he is unhampered by dreams of home comfort or release from the desperate hardships which our troops have encountered in this rain sodden, fever stricken jungle of south Cuba. Laine has done nothing else than make war for so many months that it is his normal existence. He reveals in his barbarities and extracts genuine pleasure from the most trying hardships he enforces. As he reported on the condition of Creelman and asked for news from Edward Marshall's outside, he spoke of joining the column of Garcia in their march to cut off Pando's column and with an equanimity that held no thought of danger for himself.

Laine had much to tell. He had ridden over all of the battlefield about Caney. In addition to finding the body of General Vara del Rey he had learned from the Spanish prisoners that Commander Romero of the famous Civil Guard of Spain was desperately wounded. He had seen the boys of the Seventy-first New York discover and fairly riddle a sharpshooter perched high in a spreading mango tree. He had witnessed the firing of Spanish guerrillas on Shafter's headquarters early in the day, and at dusk had reported to Shafter the death of General Vara del Rey. These things he told in matter of fact fashion, but when next he spoke his eyes lighted with intense interest.

"In the blockhouse where I was with you yesterday," he said, "I found this morning a few Spaniards. They were popping away, doing some damage and giving much trouble. I found a Spanish prisoner and told him to go to the blockhouse and tell those inside that the Americans were about to fire a dynamite gun at them and they had best surrender. Forty of them came out, and the Americans kindly turned them over to me for the Cubans."

His eyes flashed. "And what did you do with them?" He sniffed contemptuously. "We cut their heads off of course." And yet behind this air of vengeance, bred in the bone by a century of suffering, the Cuban is tender and gentle. One seldom finds a man of more generous and gracious impulses than this same Laine. His hour has come, and he is lost in the almost savage enjoyment of it.

The fighting today has been rather intermittent. Our forces are securing themselves more firmly in their intrenchments. The boom of big fieldpieces in the Spanish lines emphasizes anew our weakness in artillery. But our troops have received their baptism of fire, and no army of Spaniards can dislodge them from the ground they have won or stay their steady march toward Santiago itself.

In Session.
Commencement exercises should not be delayed long at Havana.—New Orleans Pickayune.

PHILIPPINE RESOURCES.

American Electrical Apparatus in the Islands—Purchases For Manila.

Mr. L. D. Hilles of Yokohama, in a recent conversation with a representative of The Electrical Review, gave a number of interesting facts about the Philippines.

"These islands should by all means remain in the possession of the United States," said Mr. Hilles. "Their commercial possibilities and native resources are almost unbounded. The sharpest competitors of the Americans and the Englishmen there are the Germans. Our firm has installed a central electric lighting station in Manila, which supplies current for 12,000 incandescent and 260 arc lights. The machinery is of American manufacture. I am now making large purchases of American steam and electrical apparatus to be installed in the far east, a part of which goes to Manila."

"There are about 720 miles of telegraph in the islands and only 70 miles of steam railway. Manila has a telephone system equipped with English instruments. All electrical conductors are carried on overhead pole lines with porcelain insulators. There is also a horse railway in Manila, which would have been changed over to a trolley road had not the war occurred. The concession for this road has already been acquired. There is a wonderful chance for Americans in many industrial undertakings in the Philippines, and I hope our government will hang on to them."—New York Electrical Review.

SOLDIER'S UNIQUE CAREER.

Mason Mitchell, a Wounded Rough Rider, Has Had a Varied Existence.

One of the wounded in the recent valorous attacks upon the fortifications about Santiago was Mason Mitchell, a private in Troop K of Roosevelt's rough riders. Just how badly Mr. Mitchell is wounded the meager dispatches fail to state, but he has many friends in the profession who hope that his injuries are not serious. Mr. Mitchell has had a most picturesque career. He has been actor, manager, hunter, scout, tourist, writer, and among other exciting incidents in his life was an attempt at suicide through jealousy of an actress with whom he was in love.

Twelve years ago, when Reilly's Canadian rebels plunged the Dominion into war, Mr. Mitchell was playing with Kate Claxton at Winnipeg. Learning that the Canadians were in need of scouts and being familiar with frontier life, Mitchell left Miss Claxton's company and enlisted. In the 70 days of the rebellion he was in every engagement and distinguished himself by dauntless bravery. In July of 1895 he was engaged as business manager of the Garrick theater by Richard Mansfield. Prior to that he had been a member of Mrs. Potter's company and had traveled nearly all over the globe.—Philadelphia Press.

MONEY WITH MERRITT.

About \$3,000,000 Taken to Manila on the Newport.

The steamer Newport, which has sailed with General Merritt for the Philippines, will bring joy to the hearts of our troops in Manila, as it carries a large sum of money for the payment of the soldiers and the purchase of needed supplies. It is said that the steamer carries for \$1,000,000 to \$3,000,000 in gold. It will be remembered that General Merritt, in addition to the money necessary for the use of the troops in the near future, asked the president for \$100,000, to be used by him as an emergency fund at his discretion. This \$100,000 is probably included in the coin shipment on the Newport.—San Francisco Call.

Military Hymn.
[Air, "Greenland's Joy Mountains."] From Cuba's broad plantation, From Puerto Rico's shore, Where long the Spanish nation Hath spent the land in gore; From Philippine's dark daughter, From Caroline's fair strand, The cry comes o'er the water, "O, save the tyrant's hand!"

What though the ground down Cuban, Starved out, crawls off to die, Though crimes the most inhuman Have drawn the Malay cry; Though long the distant thunder Hath told the conqueror's story, Yet Spain, by crime and blunder, Hath stifled just reform.

Shall we whose arms are strengthened By freedom dearly bought Permit the season lengthened Ere Spain be better taught? On with the righteous thunder Of cannon, ball and shell! While old world nations wonder Deal justice full and well.

Flash, flash, ye wires of lightning! Resound, ye telephones! For freedom's star is bright'ning And Spain's dark tyrant grunts. "Humanity forever!" Let fair Columbia sing, Till freedom, dying never, Alone be Cuba's king.

A Friend Indeed!
"A friend in need is a friend indeed"—not much?
How is that?
When you find a friend in need it is ten to one he will tackle you for a live.

A magnificent example of what a man is capable of when he is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" is eighty-six years of age, retained his intellectual vigor unabated, and had not lost the strength of his grip with which he fastened upon any subject that interested him.

Nearly every man has it in his power to live to a green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little out of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and are restless during the night, and find their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and, in many cases, fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects the cause. It makes the appetite keen and active and the digestion perfect. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Piercel, of East Bethlehem, Washington Co., Pa., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Peller" is a gentle laxative, and two a mild cathartic.

Reflections of a Bachelor.
The only way to get even with a woman is to keep ahead of her.

There are lots of branches to the tree of knowledge that won't bear you.

If it weren't for the five and a half chickens the women would get spells every once in awhile of shooting at the men.

A girl never put on a glove with a button off but some man that she thought never saw things noticed it.

They Took the Hint.
The officers of the "Teenth" hussars were graciously pleased to accept the invitation of a witty Irish yeoman to a dance. They attended, but played the part of passive spectators until their hospitable hostess came to their assistance and offered to find them partners. In response to her endeavors the senior officer present thanked her, but explained that "the 'Teenth don't dance."

"Don't they?" returned the lady. "Then I sincerely hope they can march." "Then which they did.—Nuggets.

The Sad Result.
"So you let Dora learn to play the piano after all. I thought you hated it." "So I do, but there's a young fool wanted to court her, and so I thought I'd let her drive him off."

SANTA CLARA FEAST.

Round Trip Tickets from Santa Fe \$1—Five Hours at the Pueblo.

The annual Indian Feast of the Pueblo of Santa Clara occurs on Friday, August 12. For this occasion the D. & R. G. R. R. has decided to make a very low rate. One dollar for the round trip. Tickets will be good between Santa Fe and Espanola on that date. Children under 12 years, 50 cents.

Extra equipment will be attached to the regular train leaving Santa Fe at 10:10 a. m., and Santa Clara about noon. Returning, regular train will leave Espanola at 4:35 p. m., and will stop at Santa Clara to pick up passengers, thus allowing visitors about five hours to visit the pueblo and Indian festivities.

This is positively the last excursion for the season. For further particulars address the undersigned.
