14 INSURGENT  
SENATORS TO  
DE BALANCE  
OF POWER

Small Group of Progressives  
That Are in the Upper House  
Will Become Court of Last  
Resort.

ADVANCED LEGISLATION  
STANDS GOOD CHANCE

Neither Democrats Nor Old  
Guard Can Pass Law With-  
out Aid of Cummins-Bristow-  
La Follette Coterie.

Morning Journal Bureau,  
612 Munsey Building,  
Washington, D. C., Nov. 15.

Next to the size of the democratic majority in the next house of representatives, the greatest interest in the election discussion has been attached to the probable strength of the republican insurgents in the house and senate. Many republican members of the house, who were re-elected after promising their constituents that they would not vote for Cannon for speaker, designated themselves as progressive. For purposes of rule revision, however, these republicans are eliminated from the list of insurgents, who can be counted upon to assist wars against the existing rules of the house.

The republicans who were consistent insurgents during the last session of congress, and the newly elected members of the house who are known to be progressives, and who are counted upon to vote with the insurgent leaders as Norris and Murdock, will present a more formidable front than it was possible to muster, except upon rare occasions, during the last session of congress.

It is now estimated that there will be at least thirty out-and-out republican insurgents in the next house. They are: Haves, Stephens and Kent of California; Fickert, Hays, Good, Kendall, Brody, Woods and Follett of Iowa; Mitchell, Jackson, Reese, Young, Madison and Murdock of Kansas; Ames and Gardner of Massachusetts; Anderson, Davis, Lindbergh, Volstead and Miller of Minnesota; Norris, Kindred and Dean of Nebraska; Martin of South Dakota; Howland of Ohio; Cooper, Nelson, Kopp, Cary, Morse and Lemuel of Wisconsin; Warburton and La Follette of Washington. Total, 32.

In the senate, the insurgent republicans in the next congress will be Cummins and his colleagues, to be elected from Iowa, Kansas, Wisconsin, Minnesota, Georgia, of North Dakota, Pointexter, of Washington, Bern, of Idaho, Townsend of Michigan, Nelson, of Minnesota, and Keady, of Nevada, and Charles, of California, the probable selection of the Lincoln-Congress league. Senate insurgents are strongly counting upon the support of Senators Bourne of Washington, and Dixon of Montana, both of whom showed tendency toward insurgency at the last session, and who are believed to have assurance that they will forsake the old guard leadership to cast their lot with the progressives.

In the matter of legislation, the insurgent senators will be confronted with problems of great importance. One then will depend, in large measure, upon the amount and character of legislation written on the federal statute books during the two years preceding the presidential election in 1922.

That there will be an immense amount of radical legislation sent to the senate from the house goes without saying. Even with a gain of eight seats, the democratic senators will be unable to help their political brethren in the matter of the tariff. It is therefore true that the conservative republican senators will be unable to stop democratic legislation if the insurgent republicans manifest a desire to adopt much or little of that which is received from the house. This small group of republican senators will absolutely control throughout the course of the Sixty-second congress. With the democratic in control of the house it is considered extremely doubtful if any member of that party in the senate will dare to go to the rescue of the republican leaders, a performance which has not been at all unusual during the past two years. Assuming, therefore, that the senate democrats will vote solidly and consistently to support the bills passed by the democratic house, the insurgent republicans will find themselves in the position of a court of last resort, always excepting, of course, the possibility of a veto at the hands of President Taft.

Many of these insurgent republicans have made it a point of their intention to work with the democrats in passing legislation which has been frowned upon by the old guard of both houses. It is apparent, therefore, that the future of the Sixty-second congress entering upon a dead-lock with the result that no legislation will be enacted, there will be far more legislation of a really progressive nature than it was possible to enact into law during the last session of congress, when insurgent republicans in the house and senate were at the helm of their power.

There are many insurgents who declare that since the fight against the rules was vindicated at the polls, the insurgent republicans should not wait for the democrats to come into power to finish the work begun by progressive republicans. These insurgents take the position that the credit for rule revision should

be gained by the men who alienated themselves from their party leaders and risked political oblivion for the sake of the cause for which they were fighting. It is these men who are expected to resume hostilities at the earliest possible moment.

Postmasters appointed in New Mexico: James W. McMichael at Flora Vista. Fred Bloomer Strong at Ute Park. Sarah H. Boyd at Mount Vernon. Jose G. Romero at Hilarito, San Miguel county. John A. Logan at Nohai. Minnie B. Wilson at Thoreau. Charles W. Justis at Jai, Eddy county. Samuel Loyla at Trampas.

Three postmaster appointments were made in Arizona as follows: James A. McGrath at Franklin. Robert H. Justice at Portal. Tolar R. White at Valentine. Alvin H. Fortridge, Apache county, Ariz., will be abolished on the last day of this month.

SHOTS ARE FIRED  
AT ITALIAN WORKMEN

Great Harrington, Mass., Nov. 12.—Five shots fired from a swamp thicket at a group of Italian workmen who were laying rails today near the scene of last Saturday's hold-up and robbery, gave new impetus to the search for the bandits who relieved the passenger line of the Worcester Construction company of \$26,000 in cash and checks.

One of the shots struck Veto Martelloni in the abdomen. He is in a critical condition.

An armed posse was organized and started to hunt the underbrush, but the only result was the discovery of freshly loosened earth which the officers believe indicated the spot where the stolen money had been hidden.

TWO ROADS FIGHT  
REDUCTION IN  
FREIGHT RATE

Santa Fe and Southern Pacific  
Ask That Commission Be Re-  
strained From Carrying Out  
Its Order.

San Francisco, Nov. 15.—An action to prevent the enforcement of the reduction in freight rates over railroads west of the Missouri river was begun today when the Southern Pacific and the Atchafalaya, Texas and Santa Fe railroad companies with twenty other companies petitioned Judge Morrow of the United States circuit court for an injunction restraining the Interstate Commerce commission from carrying out its order to cut the charges on the hauling of commodities.

The rates will go into effect on November 24. They were established after two years' investigation and were announced in the new class rate schedule on June 4 of this year. The petition for the injunction is accompanied by the personal affidavits of R. O. McCormick, vice-president of the Southern Pacific company and other officials in which it is said that under the new orders the railroad will lose profits amounting to \$1,000,000 a year.

The case will be heard next Monday before Judges Morrow, Gilbert and Ross. The ultimate hearing of the matter will be before the interstate commerce court of appeals.

SUE TO ESTABLISH  
TITLE TO COAL CARGO

San Francisco, Nov. 15.—An echo of the Russo-Japanese war was heard in the superior court here today in a case where a cargo of coal consigned to the Russian cruiser Lena, which took refuge in this port.

The cruiser was detained and compelled to anchor here until the month treaty was signed. The captain of the warship refused to accept the assignment on the ground that such acceptance would be a violation of the neutrality laws. Later the coal was sold in open market and the coal was brought for the difference in price which would have been obtained if the coal had been delivered to the cruiser.

EACH COUNTY GETS  
SUPREME COURT

Arizona Delegates Adopt Judi-  
ciary and Executive Proposi-  
tions With Many Amend-  
ments.

Phoenix, Ariz., Nov. 15.—By holding three sessions today, one of them at night, the constitutional convention at Phoenix made excellent progress by the tentative adoption of the judiciary and executive propositions. Both were unanimously amended. The judiciary proposition, as favorably acted upon by the committee of the whole, provided for the creation of the supreme court in each of the four counties, the salaries ranging from \$3,000 to \$5,000 according to population. The salary of the supreme court justice was fixed at \$5,000.

At night session an effort to establish the four years term for state officers failed. The two years term for the governor and the two years term for the legislature in the state prior to the adoption of the constitution was maintained. The measure also limits the pardoning power of the governor. The annual payroll of the state was adopted totals nearly \$120,000.

PANAMA CANAL  
COMPLETED  
IN 1913ANOTHER APPROPRIATION  
WILL NOT BE NEEDED

Money Already Authorized Is  
Sufficient to Do the Work;  
Formal Opening Delayed Un-  
til 1915.

[By Morning Journal Special Leased Wire]  
Panama, Nov. 15.—The Panama canal will be completed December 1, 1913. This information was given to President Taft today while inspecting the famous Gatun dam. The official date of the opening remains unchanged, leading the year in which to train the canal tenders and to get the machinery working smoothly.

Ships in the meantime will be granted the privileges of the canal, but at their own risk. It was announced by the colonel that the report that President Taft's visit was the forerunner of a request for another \$100,000,000 from congress was unfounded. The canal will be completed in 1913, he said, within the \$375,000,000 already authorized.

The president was pleased at the outlook for the early completion and the Colonized Colonels Goethals. He expressed amazement at the work accomplished since his visit in February, 1909.

He displayed a knowledge of the technical details of the canal, dating back to the time he was secretary of war, when he advocated a lock canal as against a sea level system. He was greatly surprised at the immense work done in the last few years. He said that the canal was under way nearly three hours on the spur tracks overrunning the great hill.

The visit of President Taft has utterly dispelled any fears of financial or sentimental respect for the stability of the dam base, which is half a mile wide and so gradually shaped that it could never be recognized as a dam.

Colonel Goethals explained that the opening of the canal in 1913 necessitated immediate action on the part of congress relative to toll rates, because eighteen months would be required by shipping interests to adjust their rates to the new routing. The president expressed himself as delighted to find the efficiency of the workers increasing daily. The canal is beginning to take the form of a waterway and the completion of interest of the employees, thus hastening completion.

Colonel Goethals is not officially promising that the canal will be completed in 1913, but contractors are confident that the canal will be ready to receive the first ship in 1913, and that the canal will be ready to receive the first ship in 1913, and that the canal will be ready to receive the first ship in 1913.

The president also rode over the railroad bridge, the American engineers engaged in the canal work at the reception given under the auspices of the Young Men's Christian Association and the Red Cross.

Tomorrow he will inspect the canal cut and in the evening will dine with President Roosevelt on the home-land trip, the president will arrive at the canal cut and in the evening will dine with President Roosevelt on the home-land trip.

DIRECT PRIMARY IS  
SATISFACTORY

Chicago Man at National Muni-  
cipal League Meeting Says It  
Is Accomplishing Its Purpose.

[By Morning Journal Special Leased Wire]  
Buffalo, N. Y., Nov. 15.—The best method of conserving the public interest in the granting of franchises, nomination and convention reforms, and municipal health and sanitation, was among the important subjects discussed at today's sessions of the annual meeting of the National Municipal league.

William D. Foster, of Richmond, Ind., was unanimously chosen president to succeed Charles J. Bonaparte, of Baltimore. Louis M. Greeley, of Chicago, spoke on "The Present Status of Direct Nominations." He reviewed in detail the progress of the movement in all the states and court decisions affecting direct nominations. "The general result of recent experience," said Mr. Greeley, "leads to the conclusion that the direct primary will accomplish the purpose for which it was intended—the democratization of nominations, the resulting of control of party nominations from the party bosses or machine."

Issue Crop Reports Soon.  
Washington, Nov. 15.—December crop reports of the United States department of agriculture announced today are: Report on the acreage and condition of winter wheat and corn on December 1, will be issued on Wednesday, December 7, at 1 p. m. An estimate on the cotton crop of 1910-1911 will be issued on Friday, December 9, at 2 p. m. The final estimate of the acreage, production and value of important farm crops of the United States in 1910 will be issued on Thursday, December 13, at 2 p. m.

FOODSTUFFS IN ATLANTA  
REMAIN AT OLD PRICES.

Atlanta, Ga., Nov. 15.—Foodstuffs in Atlanta show no appreciable decline in prices. Retail meat dealers say old time prices prevail on choice beef cuts, but the price of the lower grades of cuts is still high.

TERKEYS ARE CHEAPER  
THAN A YEAR AGO.  
Months Ago, Nov. 15.—Smoked and cured meats were quoted today a cent cheaper than yesterday. Turkey were off 9 1/2 cents per pound compared with the same time last year.

DECLINE HASN'T REACHED  
LOUISVILLE MARKET.  
Louisville, Ky., Nov. 15.—The decline in the cost of meat and provisions has not reached Louisville. Only one dealer could be found today who announced their prices—decline of 2 cents on the choice cuts of fresh meats.

PORK IS REDUCED;  
BEEF REMAINS THE SAME.  
San Antonio, Tex., Nov. 15.—The wholesale price of pork here has been cut from 1 to 1 1/2 cents a pound in the last few days and retail dealers have consequently slightly reduced prices to consumers. The price of beef remains unchanged.

BEEF IN TEXAS LOWER  
THAN A YEAR AGO.  
Fort Worth, Tex., Nov. 15.—Compared with prices of a year ago, all cuts of beef are down half a cent a pound today while livestock on the hoof is quoted from 10 to 15 cents lower per hundred pounds. There was also a sharp decline in fruits and cereals.

ARMOUR PREDICTS PRICES  
WILL GO STILL LOWER.  
Chicago, Nov. 15.—J. Ogden Armour, said today the whole tendency in the price of stock and products was for a lower schedule. He also said the descent would be gradual and warned the public from too hastily accepting the belief that a drop the highest to the lowest was due.

The packers' price to the retailer, he pointed out, is not the price the consumer pays for the live animals, said Mr. Armour. "Generally speaking, prices are lower and I believe they are working towards still lower level. The present situation is the result of the enormous corn crop and of previous high prices that stimulate a everybody to raise live stock."

"The public is getting to the point of present conditions and should get further benefit as the increased supply of livestock reaches the market."

"The recent high price of meat and packing house products cannot be attributed in any way to the packers or to any combination of persons or firms engaged in the packing house industry. It has been due to conditions that developed from a scarcity of live animals for some time past."

"Conditions in livestock raising are better than any packer or set of packers. The packers welcome lower prices. Our prices are based on what we have to pay for livestock and the lower the price the better it will be for everybody."

LOS ANGELES PRICES  
HAVE DOWNWARD TENDENCY.  
Los Angeles, Cal., Nov. 15.—Although the local market prices are not governed by the eastern, the present tendency is toward reduced prices. This is particularly noticeable in the case of hogs, which have dropped from 18 to 16 cents a pound. Bacon and ham have fallen off 1 1/2 cents, but as yet this does not effect the retail price. The price of the Thanksgiving turkey, dressed, is 25 cents a pound, which is 2 cents higher than a year ago, but the dealers say the grade is higher as weather conditions have permitted the birds to mature better.

POULTRY THREE CENTS LESS  
IN MEMPHIS TERRITORY.  
Memphis, Tenn., Nov. 15.—There has been no appreciable cut in prices of fresh meats and poultry in the Memphis territory, except poultry, which is 3 cents a pound cheaper than last week.

DROP IN MEAT PRICES  
FEELT AT WASHINGTON.  
Washington, Nov. 15.—The reduction of meat prices reported in various parts of the country has struck Washington. Wholesale dealers said today that prices were taking a tumble. Retailers are reluctant to give relief for the housewife along other lines of food supplies.

In the wholesale district it was said the price of beef had been reduced between four and five cents a pound. The price of pork has gone down about three cents.

It remains a problem whether the reduction in prices will result in a corresponding drop in the price of foodstuffs in Washington. Wholesale dealers said today that prices were taking a tumble. Retailers are reluctant to give relief for the housewife along other lines of food supplies.

## TOLSTOI'S CONDITION SATISFACTORY, SAYS PHYSICIANS

Novelist Is Extremely Weak and Has Been Joined by Family and Representative With Whom Wife Quarreled.

[By Morning Journal Special Leased Wire] Tula, Russia, Nov. 15.—Count Leo Tolstoy is suffering from bronchitis, and owing to a high fever, is in an extremely weak condition. A message from his daughter, Alexandra, who is nursing him at Astapova, giving this information, adds that the physicians say no immediate danger threatens.

Tolstoy suffered from a severe attack of bronchitis in the winter of 1909, and as a result, was susceptible to the disease again when he exposed himself to a long journey in the cold and rain.

The home of the stationmaster at Astapova is quite comfortable and the patient is receiving skillful attention at the hands of Dr. Makovsky and another physician, in addition to the care of his daughter.

According to the diagnosis of the physicians, Tolstoy is suffering from a catarrhal inflammation of the lower lobe of the left lung. His heart action is good. The maximum temperature today was 102, falling at times to 99, which is practically normal; pulse, 104, dropping to 90, respiration, fair. The physicians add that expectation and diuresis are sufficient and that the patient has enjoyed tranquil sleep, is in good spirits, and is resting quietly.

Although this is considered a satisfactory report, particularly in view of the high temperature which was maintained yesterday, and the symptoms of mental distress, which Tolstoy was said to have developed.

Countess Tolstoy, after the first shock caused by her husband's abandonment of his home and family, displayed astonishing energy this morning and insisted upon being taken to the count's apartment at the station.

The illness of the author brought about the reconciliation between the countess and Tolstoy, whose embittered feelings in recent months, have caused Tolstoy much anguish. Count Tolstoy was summoned by telegram to Yasnaya Polyana, where he joined the countess and her sons. Tolstoy himself, in a letter, had expressed a desire for Tolstoy's presence.

The differences between the countess and Tolstoy arose over Tolstoy's literary legacy. Tolstoy had collected a large quantity of unpublished material, copies of Hadji Murat, Tolstoy's latest work, and other stories, as well as various documents, which he had been forwarding for safe keeping to England.

These he intended to offer for free publication, in pursuance of the author's wishes. The countess Tolstoy, in behalf of the family, has been insisting that Tolstoy procure a copyright for all his publications, the returns from which would move to add the very numerous family, instead of filling the pockets of the publisher.

Serious family misunderstandings ensued and in consequence, recent visitors to Yasnaya Polyana have remarked the clouds over the customary serenity of the place.

The health of the countess suffered seriously, and a professor of nervous disorders, from Moscow, visited her several times prior to Tolstoy's pilgrimage.

### SUSPECTED MURDER TRIES TO END LIFE

[Special Dispatch to the Morning Journal] Phoenix, Ariz., Nov. 15.—Ed Murphy, brought here yesterday from Tempe, suspected of having murdered a policeman at Joplin, Mo., a year ago, attempted to commit suicide yesterday by hanging himself with a strip of blanket in his cell. He was discovered in time to save his life.

Murphy sticks to his first confession, that he killed a fellow convict in the Texas penitentiary at Huntsville, where, he says, he was serving a term for killing two policemen in Moberly, Mo.

### LONG AND SHORT HAIL CLAUSE IS DISCUSSED

New Orleans, Nov. 15.—The long and short hail clause of the new federal railroad statute as ruled upon by the interstate commerce commission occupied the attention today of the Southern Railway Association and the Southern Railway valley association in joint conference here.

The assertion was made that the enforcement of this clause would upset rate plans it had taken railroad years to formulate and arrange, while some predicted that it would result in commercial paralysis.

### OLD NAVAL OFFICERS ARE BEING REPLACED

Washington, Nov. 15.—Retired navy officers who have been engaged in active duty on full pay are being relieved gradually by younger officers. Secretary Meyer taking this step in line with the advanced policy of economy and business efficiency in the navy department.

Since Secretary Meyer became head of the navy department, thirty-five retired officers out of 175 who were being active duty have been placed on the retired list, and it is expected that thirty-five of them will remain.

The fact that caffeine—the drug in coffee—causes many obscure, annoying ills. Has induced thousands of thoughtful persons to change to well-made POSTUM

## DEMAND ON BANKS WILL BE LARGE NEXT MONTH

But Treasury Officials Believe National Institution Will Be Found to Have Fortified Themselves for Exigencies.

[By Morning Journal Special Leased Wire] Washington, Nov. 15.—The condition of the 7,200 National banks of the United States will be revealed about December 1 in the reports called by the comptroller of the currency two days ago.

They will reflect the condition of the banks at what is regarded as probably the critical time of the year. Many officials of the treasury department believe the banks will be found to have been fortified to meet the exigencies of the autumn months.

That the demands upon the banks will be large is generally conceded. It is estimated that in addition to being called upon to finance some important operations, the banks will have to make the usual year-end settlements, reaching \$150,000,000 or \$175,000,000 before December 31.

Great interest attaches to the condition of the southern banks after the season's operations in cotton and also in the extent which the banks of the west have reduced their loans.

It seems generally known among bank officials that a great deal of money belonging to the interior banks placed on call in Wall Street, probably will be withdrawn before the end of the year and the best advice today that Wall Street bankers are anticipating such withdrawals, already have begun arranging for loans from abroad.

Reports from the west and the northwest are that local money stringencies appear to be caused by speculators and farmers holding crops for higher prices. In many cases banks have been reported carrying such situations at high interest.

The information available on December 1 will show what the condition of the banks was on November 15, and in the exigencies of a crop moving season there is plenty of room for change before the next call is made.

It is freshly predicted a great portion of the millions held in the large banks of the central reserve cities will find its way back to the country banks.

## CRIME PREVENTION IS DISCUSSED

Leader of W. C. T. U. Department Declares Great Progress Has Been Made; Prohibition Is Gaining.

[By Morning Journal Special Leased Wire] Baltimore, Md., Nov. 15.—Methods of preventing continued crimes in this country were discussed by delegates to the W. C. T. U. convention which, the subject being suggested by the report of Mrs. J. K. Barclay of Rhode Island, superintendent of the penal reformatory and police station work.

Mrs. Barclay reported that much effective work had been done, and that the prohibition might safely claim an increase of almost 100 per cent in preventative and constructive measures.

Mrs. E. N. Graham of New York, national superintendent of the railway commission, said the program of prohibition last year has had its influence upon the railway world, until practically every railroad system in the United States demands that its employees be temperate.

The work among the soldiers and sailors was described by Mrs. Ella Hooper Thatcher of New Jersey who reported on increased interest in that department. Thousands of "confidential informants," reports, etc., were distributed and nearly \$7,000 was expended in carrying on the work of the department.

The report of the department of scientific temperance instruction, by Mrs. K. J. Davis of Wisconsin, declared that "human life and energy have been increased in the last three decades through the careful teaching in many schools of scientific truth as it relates to the problem of 'How to Live'."

Great interest was reported in the prize essay contest and it was said about 15,000 teachers have signed cards pledging themselves to total abstinence and to teach temperance in the nature and effect of alcohol.

## BIG HAMBURG LINER LOSES PROPELLER

Crippled Steamer Is Creeping Along Toward New York, 600 Miles East of Bermudas.

[By Morning Journal Special Leased Wire] Washington, Nov. 15.—The big Hamburg-American liner, Cheruskia, is creeping painfully along under full steam, unable to stop, for the big propeller, which already had broken all of her large hawsers in the effort to make a tow from a British steamer nine days previously.

When the Wheeling parted company the Cheruskia was making good weather. She had four weeks provisions and the Wheeling supplied some extra food.

The navy department has reported the facts to the Hamburg-American office in New York and it is presumed the company will dispatch tug immediately from the nearest port to bring in the steamer.

It is charged that the existence of the liner in question affords legal excuse for British and French citizens to engage in the traffic in China.

## EXCITEMENT ALONG MEXICAN BORDER SUBSIDES

No Further Disturbances Are Reported and Mexican Government Is Prepared to Cope With Situation.

[By Morning Journal Special Leased Wire] Laredo, Texas, Nov. 15.—Everything is quiet along the border in the vicinity of Laredo and there is no semblance of disorder, either anti-American or anti-Mexican. Consul Diebold says that in the event of a disturbance the Mexican government is fully prepared to cope with the situation.

The border is protected on the Mexican side by infantry and cavalry.

## BANDIT SUSPECT IS FREED OF CHARGE

Witness Cannot Identify Howley as Man Who Robbed Great Northern Express Car.

[By Morning Journal Special Leased Wire] Seattle, Wash., Nov. 15.—Richard Howley, on trial charged with having robbed a Great Northern express car in this city May 12, 1909, was discharged today at the request of the prosecuting attorney whose witnesses could not identify Howley as the robber.

The robbery was a sensational crime. Soon after an eastbound train left the Union station, two men, one dressed as a trainman, entered the express car, struck down the messenger and stole \$5,450, mostly in currency.

The thieves left the train when it closed up at Interbay. Detective James Rybo, formerly of Detroit, obtained Howley's arrest and showed to the Great Northern officials a statement by Miss Marie Sutherland of Tacoma in which she said that Howley had made a complete confession to her. A reward of \$5,000 for conviction of the express robber is outstanding.

George Ebeling, serving a term in the Missouri penitentiary for having robbed a Missouri Pacific train at Glenwood, Mo., has confessed that he was one of the Seattle robbers.

## 83 ARE STRANDED ON ISLAND

Crew and Passengers of Wrecked Steamer Cannot Be Reached by Rescue Party.

[By Morning Journal Special Leased Wire] Cordoba, Atlantic, Nov. 15.—Eighty-three persons, comprising the passengers and crew of the wrecked steamer ship Portland, which was beached in the mouth of Katalla river Saturday, are stranded on Kutalla Island. The storm which broke soon after the wrecked vessel is raging with increased fury and all efforts to go to the aid of the marooned passengers have proved unsuccessful.

There are few people living on the island, and the food supply is small. It is feared that the passengers and crew of the Portland are not taken off, they will be forced to undergo great hardships, owing to the failure of the food supply.

The steamer Alameda tried for twelve hours to enter the storm-tossed harbor, but was finally compelled to give up the attempt and turn back. The telephone line, the sole means of communication with the island, went down late today and the stranded passengers are entirely cut off from the outside world.

The government has been appealed to for aid, requests having been made for a revenue cutter to be sent to Katalla at once to take relief to the storm-bound people.

## CHINESE ASK BRITAIN TO QUIT OPIUM TRADE

Washington, Nov. 15.—What is described as a "master appeal" is being drawn up by the Chinese, urging Great Britain to abrogate the treaties with China which permit British interests to engage in the opium trade. Word to this effect was received here tonight by the International Reform League from its field secretary in Peking, the Rev. Dr. E. W. Thwing. The petition will be submitted simultaneously to the British and Chinese governments.

It is charged that the existence of the treaties in question afford legal excuse for British and French citizens to engage in the traffic in China.

## THE EFFECT OF Scott's Emulsion

on thin, pale children is almost magical. It makes them plump, rosy, and active.

Scott's Emulsion contains no drug, no alcohol, nothing but the purest and best ingredients to make blood, bone and solid flesh.

The manifestation of public sentiment in Mexico, which would have been easily explicable within reasonable bounds, exceeded the limits required by law, but my government, acting with the utmost promptness, repressed such unexpected disorders. The American government was not responsible for the said crime committed, and is my government responsible for the punishable acts

## TEST OF EXPLOSIVE BADLY DAMAGES MONITOR

Nitro Glycerine Cracks Turret and Springs Side Plate; Rear End of Vessel Sinks to Bottom.

[By Morning Journal Special Leased Wire] Fort Monroe, Va., Nov. 15.—High explosive tests on the monitor Puritan anchored in Hampton Roads, today damaged the vessel so seriously that it was necessary to send a hurry call to the Norfolk navy yard for tugs to tow the battered warship to dry dock. The tests were required by a provision in the ordinance appropriation bill passed by the last session of congress.

Two explosions were made, each with 300 pounds of nitro-glycerine, unconfined except as to thin covering of sheet iron. In the first test the high explosive was placed against the side of the after-turret of the monitor; in the second against the side of the vessel just above the water line.

Savoy officers and experts present acknowledged that more damage was done than they anticipated.

The first explosion cracked the side plate of the turret which was eight inches thick and forced it inward about eight inches. A cat and two chickens placed inside in the same positions that the gunners and sighters would occupy, were not killed.

The second explosion bent in so badly the fore- and side plates of the vessel, thereby opening a big hole below the water line, that the rear end of the boat sank to the bottom in less than two minutes after the explosion.

The Puritan dived 15 feet and was only 15 feet of water, she did not disappear below the surface. But in a few minutes at least one of the big compartments was almost filled with water which, pouring up from below deck and over the stern.

Until the vessel is dry docked it will be impossible to determine the exact extent of the damage below the water line or how much of the lower part of the vessel was flooded. It was not believed, however, that the armor plate was cracked, although it was bent and stove in.

The water was pouring in, it was thought, through holes below the armor belt, which extended 3.12 feet by the tearing apart of the plates. At the point where the second test was made, the vessel's plate was ten inches thick.

Of the two explosions the second was the most severe, the nitro-glycerine causing the monitor to shake as if she had been struck by a small earthquake and it was even felt slightly by other vessels lying 200 yards away.

As Captain Austin M. Knight, president of the special naval ordnance board, who remained on the Puritan to discharge the explosive, said the shocks were severe.

While it was not shown positively that the explosion had caused the destruction of the monitor, the fact that the vessel was sinking was a serious matter.

Most of the navy and army officials and powder experts who went down to witness the tests were aboard the tug Washburn. Among them were Rear Admiral William C. Clegg, chief of the bureau of ordnance; Chief Constructor Watt, of the navy; Major O'Hara, of the ordnance department; and General Arthur Murray, chief of the coast artillery.

As soon as the Puritan is dry docked the special board of naval ordnance, composed of Captain Knight, president; Lieutenant Commander R. M. Jackson and Philip R. Alger, professor of mathematics at Annapolis, will examine her injuries carefully and make a report.

### Henry Not a Candidate.

Washington, Nov. 15.—Representative R. L. Henry of Texas today announced that he was not a candidate for the speakership of the sixty-second congress. "Uppermost in my mind is democratic harmony and unity," said he. "I would rather see this country blessed with democratic victory in the selection of a president, United States senators and representatives than to have the highest honor the party could now confer upon me."

## MINING ENGINEERS ENDORSE CANAL BUILDING

Present Plan Is Practicable and the Best That Could Be Devised Under Conditions Imposed, They Say.

[Special Correspondence to Morning Journal] New York, Nov. 15.—Approval of the way in which the Panama canal is being constructed is given by more than 100 members of the American Institute of Mining Engineers who returned to New York today from the canal zone.

The institute chartered a steamer for the trip, which occupied twenty-five days. Of the 120 members who inspected the canal, almost all of them signed a report which was given out on their return.

The present plan of the work is clearly practicable, says the report, "and the best, in our judgment, that could be devised under the conditions imposed."

At a lower level, and especially at sea level, is virtually out of the question, the report continues, since one cannot estimate its cost of guarantee its satisfactory completion and maintenance at any cost. Even a level canal would be inferior to the present lock canal by reason of its necessarily narrow and tortuous channel and its liability to many disturbances from the shifting of the bottom.

There is no reason for any anxiety as to the stability of the great Gatun dam.

"We are unanimous in our praise of the manner in which sanitation, education, transportation and construction are being performed with rapidity, skill and economy."

The report continues: "A spirit of loyalty, emulation, industry and pride seem to animate employees and officials alike."

Among those in the party of engineers were: Dr. Henry S. Drinker, president of Lehigh university and David G. Miller of Denver.

## DEMOCRATS RULE LEGISLATURE OF MONTANA

Numerous Candidates Will Fight to Succeed Carter in Senate and Contest Promises to Be Long.

[By Morning Journal Special Leased Wire] Helena, Mont., Nov. 15.—Official counts made today in various close counties of the state, insure democratic control of the next legislative assembly which will elect a successor to United States Senator Thomas H. Carter. The official returns give the democrats 54 votes on joint ballot. Fifty-two votes are necessary to a choice in the election of a United States senator.

The official count completed today in Silver Bow county confirmed the election of one democratic senator, eleven democratic representatives and one republican representative.

Republicans in Helena tonight admit the election of a democratic legislature. Senator Carter refused to make any statement for publication.

With democratic control of the next legislative assembly assured, a fight for the senatorship now held by Thomas H. Carter will occupy the democrats.

There are numerous active and receptive candidates, but the narrow margin of democratic control leads many to believe that the contest will be long drawn out. Among the most active candidates are W. G. Conrad, the Helena and Great Falls capitalist, and T. J. Walsh, a Helena lawyer. W. R. George of Billings, who has just been elected to the state senate, is mentioned as a possibility. There is also some talk of Governor Edwin T. Norris and it is disconcerted that he would make a strong candidate were it not for the fact that the lieutenant governor is a republican and Norris, election to the senate would give the republican complete control of the state administration.

## WOMEN SHOULD VOTE TO PROTECT SEX INDUSTRIALLY

Federation of Labor Delegates Cheer San Francisco Suffragist Who Wants Ballot Given to Women Wage Earners.

[By Morning Journal Special Leased Wire] St. Louis, Nov. 15.—"Women should be able to vote in order to protect their own sex industrially," declared Miss Maude Younger, of San Francisco, before the American Federation of Labor, late this afternoon. T. statement was greeted with enthusiastic applause by the delegates.

Miss Younger is connected with a San Francisco Wage Suffrage convention. Her address was one of the important features of the day, the other being the address of Governor Bradley, in which he urged that on third of the judges, and one-half of the lawyers, of the country were necessary.

Miss Younger was presented to a convention by President Gompers, after he had completed the reading of his annual report, and her appearance on the platform was the signal of enthusiasm.

Male wage earners have two methods of improving their condition, she said, "by unionizing and by the ballot. Women wage earners have but the one means—by forming unions. Women go out of the home to work because they have to, not because they want to. They should therefore, be protected with a weapon, including the ballot. Women are hard to unionize, because all of them have their eyes on matrimony as an escape valve."

"If the men help the women a ballot, the women will in turn employ the ballot to help the men."

## CATHOLICS STRONGLY OPPOSE DIVORCE EVIL

New Orleans, Nov. 15.—The American Federation of Catholic societies today strongly reaffirmed its position against the divorce evil, commending work looking to increased immigration and efforts for protection of immigrants against unscrupulous labor agents.

At a public school made a plea for clean journalism and pledged support to a vigorous crusade against the white slave traffic. Columbus, Ohio, was selected as the next convention city.

## Mexican Demonstrations Directed Against Diaz, Declares Local Man

Americans Afford Excuse, Says Dr. Lukins, for Malcontents to Make Trouble; American Settlers and American Dollars Welcomed in Southern Republic and There Is No Sentiment Against Yankees Among Mass of Citizens of Land of Manana, According to Albuquerque Man Returning From Sonora.

The alleged anti-American demonstrations of recent occurrence in Mexico are in reality directed, not against the Americans, but against the government of Mexico," was the positive statement made yesterday in this city by Dr. Charles E. Lukins, superintendent of the Children's Home Society, who has just returned from a short business trip to the northern republic as far as Hermosillo and Guaymas, Sonora.

"Allague misstatement of Mexican citizens in the United States," said the Albuquerque man, "were only a subterfuge, upon which the turbulent element in Mexico may vent its antagonism to the governmental regime. Leading citizens and business men of Hermosillo and Guaymas have assured me most positively that there is no general sentiment against Americans. That on the contrary the people of Mexico welcome them as settlers and as helping hands to develop the country. There is no feeling at all toward Americans and no desire except those looking for trouble and seeking to embarrass the government. They take part in the demonstrations at Mexico City, Guaymas and Hermosillo. The present movement taken by the Mexican government, it would seem, indicates that the government wishes the true situation. I do not think there is any possibility that these citizens will cause any general sentiment against Americans. The general sentiment of the people of Sonora, for instance, toward Americans is friendly and there is no friction between the races.

## APOLOGIES DUE TO THAT OLD OWL

Communication From Celebrated Bird Which Will Go to Chicago Corrects Unintentional Slander.

The following communication appeared for their:

Albuquerque, N. M., Nov. 15.

Anthropologist Editor Morning Journal.

Yo white, tachin!

In this age of satire taking I suppose I ought not to complain; but when a self-respecting owl is described in a newspaper of the wide circulation and influence of the Morning Journal as "stuffed" and a "fine specimen of taxidermy," even an owl has a hot coming. If any member of your nature taking force will call

around I shall take pleasure in demonstrating that I am far from a dead one and stuffed after meals. I am about to leave for the Chicago land show in the endeavor to do some effective boasting for New Mexico and to assist the New Mexico delegation in their futile attempts to look wise. I shall have above my head the legend "Get Wise—Come to New Mexico," and may say in closing that there are going to be no dead ones in the New Mexico department. Kindly correct statement that my insides are composed of excelsior and oblige.

Yours for New Mexico Old Owl,  
Yours for New Mexico,  
OLD OWL.

Care John Lee Clark  
P. O. 1—Leave on November 17th  
Get wise

## JOE AND MRS. BREN ARE DUE TODAY

Rehearsals for "Inside Inn" Will Proceed Merrily; Does Anyone Here Know How to Warble?

Can you sing or make a noise that sounds like a bird in distress? Just as your voice has the bird-like quality, or if you are convinced of the fact, and have never been able to make your friends see the matter in the same light, here's your chance to show them. Since the chorus rehearsals are good looks along with an ability to make a noise like a song the Elks' show committee is still hunting birds and men to fill up that "thirty-two strong" chorus.

Joe Bren, the famous, and Mrs. Bren, a local footlight favorite, are coming today on No. 2 and the rehearsals will proceed merrily and conscientiously until the big show. Mr. Bren will look the part over tonight with a critical eye and select others for the minor parts. The chorus will be definitely lined up this evening, so today is your last chance, if you want to take part in the best show of the season.

Rehearsals up to date have been all to the good, and the local cast includes the best home talent and some with professional ability. Mrs. Bren, who is to sing the lead, possesses a voice that many a high soprano would envy and Mrs. Bren as Trilby will be worth the price of the ticket. Miss "Countess" Sellers promises to be good as Blahet, the pigst girl, and besides being one of the prettiest girls in the city, has a sweet voice which will be heard to good advantage in a catchy little song.

Viette, the dainty little French maid, will be ably portrayed by Mrs. John Colbert.

That completes the rest of the "cast," save the part of the old maid village gossip, which strangely enough, seems the hardest part to fill. It's up to Mr. Bren to discover her today.

As for the male cast, the members of Lander's Gambiner and Scott's are enough to put the stamens of public approval on the show, so well are they

known as semi-professionals. Herb Asselle and Geo. Rankin are not so well known to local theatrical world, but both are said to be hitherto undiscovered stars. Among the members of the chorus selected are many really fine voices and the "chorus girls" and "chorus boys" are to be no small part of the show.

The music of "The Inside Inn" is the catchiest on the market, the kind you will whistle on the way home.

Good music, good acting and the best coach out of Kansas City—small wonder that the Elks' show, scheduled for Thanksgiving eve and night, is looked forward to as the event of the theatrical season.

Save your money for Block Day, November 17th and to 21st.

## FIRST DOSE WILL END MISERY IN STOMACH

Indigestion, Gas, Dyspepsia, Heartburn and All Stomach Trouble Relieved in Five Minutes With a Little Diapepsin.

As there is often someone in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent cases of Diapepsin. Then you will readily see why it makes indigestion, sour stomach, heartburn and other distress go in five minutes, and relieves at once such miseries as belching of gas, eructations of sour, undigested food, nausea, headaches, flatulency, constipation and other stomach ailments.

Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have almost made up their minds that they have something else wrong, or believe there is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is what you eat does not digest. Instead, it ferments and sours, turns to acid, Gas and Stomach poison, which poisons the digestive tract and intestines, and besides poisons the breath with nauseous odors.

A hearty appetite with thorough digestion and without the slightest discomfort or misery of the stomach is waiting for you as soon as you decide to try Diapepsin.

We board and care for horses. The best of care guaranteed. W. L. Trimble & Co., 112 North Second St.

## Quality and Value

OUR New York people, in selecting for us our fall and winter stock of Ladies' Ready-to-Wear Garments, have succeeded in furnishing us with the classiest and most dressy line of coats, silk and wool dresses and skirts that we have ever been able to show here. The lines were so tempting that they, with their wide experience, overbought. Result, we are overstocked. It is now up to us to dispose of these goods before the season is too far advanced. To do this we have used the knife unmercifully. Cost price has been forgotten in this sale, and profits are a mere memory. Such underpricing you have never seen. Come to-day and take advantage of this unprecedented bargain selling event, that you may have no regrets. Here are the facts in plain figures.

A Fine Line of Tailored Suits That Were Sold for	Long Coats
\$16.00 and \$18.00 will be sold for	of a very good quality, in black and colors, worth \$12 to \$14. . . . . \$6.50
20.00 and \$22.00 Suits for . . . \$11.50	Also a few of same with fur collars at the same price.
25.00 and \$30.00 Suits for . . . \$18.50	

Our beautiful line of Taffeta and Messaline Silk Dresses and our Cloth and Wool Dresses of the latest patterns and shades will be sold for ONE-HALF of their former prices. We have about 250 skirts on sale that will be divided into three lots.

Lot 1---	Lot 2---	Lot 3---
\$5.00 and \$6.00 Skirts will go at this sale for . . . \$2.95	Which is \$7.50 and \$8.50 will go at this sale for . . . \$4.25	Voile, Panama and Diagonals of the finest makes, worth from \$9.50 to \$12.50, for . . . \$6.50

Don't Forget the Number, 205 South Second, Near Gold Avenue

It is a satisfaction to handle  
and try on STEIN-BLOCH Even-  
ing Clothes. They are so soft,  
the silk is so beautifully sewn,  
the clothes are such high-grade  
examples of real tailoring.

Few tailors can make them,  
you know. STEIN-BLOCH  
make the best. No tailor at  
your command can approach  
them. It is a sin to let an ordi-  
nary tailor touch full-dress suits  
or a Tuxedo for the winter's  
festivities, come to us before  
you make up your mind. The  
price question, aside from the  
high quality we can show you,  
will afford you interest.

**NORTH AND SOUTH  
SETTLEMENT NOT  
CAUSE OF SPLIT**

BAPTIST DIVISION MERELY  
ADMINISTRATIVE MATTER

Local Delegates Return From  
Tucumcari; Bolters Seek,  
They Say, Church Independ-  
ence.

According to the local delegates  
who have returned from the Baptist  
convention meeting at Tucumcari,  
the split in the New Mexico organ-  
ization was not, as many think, the  
result of northern and southern dif-  
ferences of opinion, but merely to  
varying ideas as to the administration  
of the church affairs in New Mexico,  
which have hitherto been under the  
supervision of the American Baptist  
Home Mission board with headquar-  
ters in New York City. For twenty  
years the church in New Mexico has  
been aided by this board which has  
spent much money in the territory,  
noting \$15,000 into the local church  
and expended on churches in New  
Mexico last year \$26,000. The  
American Baptist Publication Society,  
also affiliated with the northern  
board, has put in \$7,000 to maintain  
the five colleges, now in New  
Mexico and other work.

At the Tucumcari convention, a  
movement started last year at the  
Cruise meeting and which it was  
thought had disintegrated was re-  
vived, to place the New Mexico  
churches under the supervision of  
the southern Baptist mission board  
which includes Oklahoma and other  
western territory. This sentiment  
appears to have been stronger among  
the smaller churches of the territory,  
one of the leaders in the movement  
being Rev. Mr. Aldridge, pastor of  
the Baptist church in Fortales. Sec-  
retary Lave, of the southern board,  
was present at the meeting and his  
speech in the New Mexico churches  
was given such substantial and steady  
support in the New Mexico churches  
the wishes should at least be consid-  
ered.

The southern faction, however,  
took the stand that the church in  
New Mexico should be absolutely  
independent in the making of any  
decision of church affairs. The bulk  
of the delegates, however, pointed  
out that as the northern mission board  
has given such substantial and steady  
support in the New Mexico churches,  
the wishes should at least be consid-  
ered.

It is expected that the minority  
may affiliate with the southern  
board temporarily, but many profess  
to believe that in a year or two the  
branch will have been healed and the  
church reunited. The split, it is  
thought will not affect the usefulness  
of the church work to any appreci-  
able degree, the division being as  
stated solely along lines of adminis-  
tration and not sectional sentiment in  
any degree.

Rev. J. J. Runyan, pastor of the  
local church, has returned with Mrs.  
Runyan, among the others who at-  
tended the convention from here, and  
they report a gathering highly im-  
pressive and full of spiritual and political  
benefit in spite of the unfortunate  
episode of the division. Every at-  
tempt was made to reconcile the dif-  
ferences, both by New Mexico Baptists  
and by the national and state  
conventions. The split, it is  
thought will not affect the usefulness  
of the church work to any appreci-  
able degree, the division being as  
stated solely along lines of adminis-  
tration and not sectional sentiment in  
any degree.

Several papers were included in  
the delegation which arrived last  
night.

**NAM-PE-YO AND HER  
FELLOW HOPIS  
ARRIVE HERE**

TEN MESA DWELLERS ARE  
EN ROUTE TO CHICAGO

Braves and Squaws From Far  
Walpi and Mishongnovi  
Reach Albuquerque on Way  
to the Great Paleface Show.

Nam-pe-yo, the matchless pottery-  
maker of the Hopis, and nine more  
of the picturesque Indians from the  
far-away pueblos of Walpi and  
Mishongnovi, in northern Arizona, ar-  
rived in the city last night on train  
No. 8 from Winslow and after re-  
freshments here, proceeded on their  
way to the great city of the paleface  
on the shores of Lake Michigan to  
advertise the Santa Fe route at the  
Chicago Land and Irrigation ex-  
position. Leaving for their first time  
their native land, these interesting Indians  
will afford the visitors at the land  
show a chance to see real Hopis at  
work at their craft in the Santa Fe  
exhibit, dressed in native costume,  
with surroundings made as nearly as  
possible to counterfeited those amid  
which the Hopis live when at home.  
The Indians appeared to be enjoying  
their first railroad trip immensely,  
and "Luka," one of the braves,  
expressed his desire to see the city  
and the country, and to see the  
great system with a grain of wheat  
side as he had learned the in-  
coming train to welcome the visitors and  
speed them on their way to Chicago.  
Arrived with coffee, past and cups  
they did not get out of the refresh-  
ment car until after midnight, when  
they were escorted to the hotel where  
they will be housed for the night.

Mr. Schwesinger, recently made a trip  
to the Hopi country and made all the  
arrangements for the trip to Chi-  
cago.

The Indians who went through last  
night will be accompanied by H. W.  
Miller of this city to Chicago. An-  
other such Hopi was expected to  
arrive at Winslow and come in  
this morning or tomorrow morning,  
but owing to the fact that the Hopi  
legation to Chicago, Mr. Tom and  
Silla made the big trip last year,  
the contingent from the Hopi pueblo  
having failed to show up, as expected  
by Mr. Schwesinger, it is likely that  
some of the Oraibi from the Hopi  
house at the Grand Canyon will also  
make the trip. Albert Siver went  
out to Winslow yesterday to look for  
the second bunch of redskins and if  
he finds them will go to Chicago with  
them.

Several paperoses were included in  
the delegation which arrived last  
night.

No piece with-  
out this Trade  
Mark on it is  
genuine.

**Announcement**

Prior to that day we intend  
to hold a special Thanksgiving  
sale of Sterling Silver and sil-  
ver-plated tableware. Knives,  
Forks, Spoons, and all access-  
ories for the Thanksgiving dinner  
table. Our stock is very large  
and as we have need of the  
room for our holiday wares we  
shall offer some remarkable val-  
ues on this silverware. We shall  
announce the date of this spe-  
cial sale together with special  
prices later. To those house-  
wives who delight in bright sil-  
ver and sparkling cut glass this  
sale will offer a rare opportu-  
nity.

**ESCAPED CONVICT  
SPENDS NIGHT IN  
JAIL HERE**

Henry Bell Proves Troublesome  
Prisoner and Is Closely  
Guarded; Goes Back to Pen  
Today.

Henry Bell, colored, arrested in El  
Paso as a fugitive from justice Mon-  
day, was brought here yesterday by  
Officer Andy Storts of the Santa Fe  
penitentiary and after he had given  
the officer the slip once here, was  
recaptured and placed in the city  
jail for the night. He will be taken  
to the penitentiary today to serve out  
his term. Bell, who was sent up  
from Alamogordo for larceny, es-  
caped from the territorial prison sev-  
eral months ago and had been at  
large until seen and apprehended in  
El Paso.

He was closely guarded last night  
as he has a reputation somewhat the  
color of his skin and the officers will  
take no chances until he is hauled in  
Santa Fe.

**HORSE STEALING IN  
VOGUE IN COUNTY**

Mounted Policeman Returns  
One to J. M. Sandoval and Is  
Looking For Owners of Four  
Others at Alameda.

That the horse stealing industry is  
growing a slight foothold in Bernalillo  
county is indicated by the fact that  
Hafael Gomez, mounted policeman,  
has just returned one stolen animal to  
J. M. Sandoval and is now look-  
ing for the owners of four others,  
which he seized at Alameda. It is cer-  
tain that the animals were stolen, but  
their brand marks have not yet been  
identified. Officer Gomez has just  
returned to Santa Fe after a little  
trip over to the Rio Puerco and  
through the central Rio Grande val-  
ley, looking quietly for certain horses,  
which had turned up missing. It is  
understood there are several others  
as yet undiscovered.

Flaming Cafe—Regular dinner  
from 11:15 to 1:15, 25 cents. Short  
orders and lunch served from 6 a.m.  
to 2 a.m. Also furnished rooms.  
111 South First street.

**Wise Talks by the  
Office Boy**

I wonder how it would seem to be a  
regular dude and have nothing to do  
except to dress up and smirk and  
swish a cane—stand around on the  
streets and strut like a peacock? Wake  
up, Willie—gee, that was a narrow  
escape. I hope you won't ever get  
the dose held, for if there's any-  
thing I hate it's a sleepy man or a  
stuck-up man. A pretty girl with a  
pretty figure is entitled to all the ad-  
miration she can get by zolly. I will  
look at one myself—not for a man to  
think he has "such a much" that every-  
body is looking at him is more than  
I can stand. Of course when a man  
pots on our kind of clothes and is  
really "dressed up" he isn't such a  
sight as he might be—his about right.  
Take a Hart, Schaffner & Marx suit  
and put it on any wild kind of a man  
and he is changed into a pretty decent  
looking specimen of humanity. Sales  
alive! Nearly every man you meet is  
wearing one of our new sweater coats.  
Well, they are very comfortable this  
kind of weather, and you can't blame  
folks for wanting to keep comfortable.  
We keep up with the comfort pro-  
cession, and keep a sharp lookout for  
all the new fads and fancies as they  
apply to men's and boys' wearables.  
When you want the really latest  
you come and see us—L. S.—us.
