SPORTS

Ed Davis of Denver, Who Will Wrestle Simon Deschler Here December 1st.

CLASSY MATCH FOR MENAULS AND HIGHS
DECEMBER FIRST
ON BOARDS

Simon Deschler and Lightweight Champion Davis of Denver Go to Mat at Elks' Theater First of Month.

Big Crowd of Enthusiasts See Final Contest This Season Between Evenly Matched Teams of Local Schools.

Having vindicated his prowess in the recent sensational match with McCray of Colorado, Simon Deschler, the Albuquerque blacksmith, may be expected to give a good account of himself in the forthcoming match at the Elks' theater in December first, with Ed Davis of Denver, lightweight champion, who weighs in at 150 pounds and who is said to be one of the greatest and most skillful wrestlers in the west. Davis has wrestled with McCray and has met other eminent talent and Deschler will have no easy proposition.

With a victory to the credit of each, the Menaule and High school eleven battled for supremacy at Tracton park yesterday afternoon, but the third game of the series ended 9 to 0, leaving the championship between these two teams unsettled for this season. The game was played before one of the largest and most enthusiastic crowd of football fans gathered at the park this season and was closely contested by such evenly matched squads that the issue remained in doubt to the last minute of play.

BIG CROWD SEES
CADE'S DEFEAT
FARMERS

Roswell Scores on Intercepted Forward Pass, Running Length of Field for Touchdown; Final Score 5 to 0.

(Special Dispatch to the Morning Journal) Las Cruces, N. M., Nov. 24.—By a score of 5 to 0 the New Mexico Military Institute eleven of Roswell, defeated the College of Agricultural and Mechanical Arts here this afternoon in one of the most interesting football games ever played on the local field. It was witnessed by the largest and most enthusiastic crowd ever seen at a local game.

OKLAHOMA TEAM LEADS
IN RIFLE COMPETITION

Kansas City, Nov. 24.—Oklahoma team No. 1 lead all competitors in the first day's event of the Mid-western Interstate rifle association tournament which opened today at Third Missouri regiment range here. Missouri, Kansas, Oklahoma and Iowa National Guards were represented.

Both teams were well drilled in the new rules and there was very little penalizing. Both squads relied on forward passes and punts to great extent and the game of each were made about evenly on these plays. Line dashes proved unpopular as a result of the splendid interference put up by both teams. Little was taken out during the first quarter which was started by Wigley kicking off for the Highs. During the second quarter Menaule succeeded in putting the ball back of the High goal for a touchdown but this was deflected a foot. In the third period the Highs put the ball within ten yards of the Menaule goal but did not succeed in crossing the line. In the last period each squad carried the ball within scoring distance of the goal but there was no chance for either to score.

Punting by Wigley and carrying the ball on forward passes by Hesselton were features of the High school playing. While Quirebach, Candelaria, Rodriguez, Candelaria and Bernall were the stars for the Menaules, La Prick and Balcomb of the Highs were effective throughout the game. Absence of roughness was a marked feature of the game, although two of the Menaule players were put out for a short time. Ortiz was put in at right tackle for Menaule to replace Dominguez, who was retired. The officials were: Hamilton, umpire; Fischer, referee; Wylder, field judge. The line up follows:

KANSAS AND MISSOURI
TIE; CROWD IS 20,000

Kansas City, Nov. 24.—Before a crowd of 20,000 persons, Kansas and Missouri played a tie game here today. The University of Missouri team scored a touchdown but failed to score in the first half. The Kansas university eleven after an uphill fight scored a few minutes before the final call of time was made, also failing to score. Both teams used the forward pass to good advantage, Missouri scoring by its use and Kansas gaining much ground with it. The play which tied the eleven was a fake which sent the ball within touching distance of the Missouri goal.

PENNSY DEFEATS
CORNELL BY
12 TO 6

Quakers Win but Score is Disappointment, as Dash Is Lacking and Fumbles Frequent.

(By Morning Journal Special Licensed Wire) Philadelphia, Nov. 24.—In a hard and fast game, in which there was a mixture of good and bad playing, the University of Pennsylvania football team defeated Cornell on Franklin field this afternoon, 12 to 6. The Quakers' score was made on two touchdowns and goals and Cornell's on two goals from placement by Quarterback Butler.

Despite the fact that Pennsylvania won, the score was a disappointment to the followers of the Philadelphia eleven. The red and blue teams at times lacked the dash it had shown in several games this season and some of her plays were marred by fumbling and the poor handling of punts.

On the other hand, Cornell played a more dashing game than was expected. Her interference to help the runner with the ball was at times almost perfect. On several occasions it looked as if the Ithaca men would succeed in carrying the ball across the goal line for touchdowns, but the Pennsylvanians braced when Ithaca looked dangerous and held the big red team from New York state repeatedly. Then Cornell would resort to a goal from placement, but it succeeded only twice in the five or six times it was tried. Pennsylvania's back field was a disappointment, as it failed to play up to the form shown in previous games. This was due in large measure to men who had been injured, again becoming incapacitated as far as first class football was concerned.

Scott played poorly compared with his brilliant work here before, being outplayed by Butler and frequently fumbling punts. The Cornell team as a whole gave a fine exhibition of helping the runner, easily bowling over Pennsylvania's tacklers before they were able to touch the man with the ball. Cornell's playing was also quite free from fumbles.

Except a wing shift used by Cornell, the game brought out no new football features. The forward pass failed almost as often as it gained, Cornell being more successful with this play than Pennsylvania.

Pennsylvania won the toss and took the kick-off. Pennsylvania got the ball on Cornell's thirty-yard line and by a dashing play through the line and a forward pass took the ball to Cornell's three-yard line, where it was fumbled and Cornell got it. Cornell immediately punted to their own thirty-five-yard line. After one play Menaule took the ball around Cornell's right end and ran thirty yards for a touchdown. Ramsdell kicked the goal.

The play during the remainder of the period was in Pennsylvania's favor. The ball was in Pennsylvania's fifteen-yard line in Cornell's position when the period ended. Score: Pennsylvania, 6; Cornell, 0.

When the second half began, Butler, who had failed in two attempts for a goal, tried again and succeeded in a pretty kick from placement on the twenty-five-yard line. A feature was the running back of a punt by Gass for thirty yards and a twenty-five-yard dash by Ramsdell to Cornell's thirty-yard line. Butler, who took Scott's place, in three dashes took the ball to the seventy-yard line and then Sommer, on a delayed pass, made a touchdown. Ramsdell kicked goal. Score: End second period: Pennsylvania, 12; Cornell, 0.

Although St. Louis played brilliantly the team could not overcome the great work of Wilkinson, left half back, and Waldron, quarter on the Syracuse eleven.

Marquette and Notre Dame Tie. Milwaukee, Wis., Nov. 24.—Marquette and Notre Dame universities played a five to five tie this afternoon. The teams were evenly matched and it was anybody's game until the final whistle was blown.

Notre Dame made its only touchdown through a fumble by Marquette in the fourth quarter. The game was a series of tackle plunges and forward passes. Notre Dame and Marquette both failed to kick goal.

Ames, 2; Drake, 0. Des Moines, Ia., Nov. 24.—Jack was with Ames in the annual Ames-Drake game today. Ames winning 2 to 0. In the first ten minutes of play Ames punted over Drake's goal line and downed a Drake man when he attempted to return the punt.

Neither team was in striking distance of goal after the first few minutes of play.

Colorado College, 6; Denver, 0. Denver, Nov. 24.—University of Colorado had no difficulty in winning the annual football game here with the School of Mines today, the score being 6 to 0. The game was played at Union park. The state team showed its superiority from the start. Rich kicking a Princeton soon after the start, while the fine work of McFadden and Gilligan of the game progressed making it hard for the Miners to get any headway.

The university men had only three points for their portion in the first quarter, but early in the next period McFadden got in a seventy-yard run for a touchdown. Another touchdown was made in this period by Carmichael after McFadden had worked in another long run.

McFadden scored another touchdown in the third period but in the final quarter the Miners managed to keep their opponents from scoring.

Creighton, 6; Des Moines, 2. Omaha, Nov. 24.—Creighton defeated Des Moines college in the football game, 6 to 2. All the scoring was done in the first half, a touchdown and goal for Creighton and a touchdown for the Iowa team. In the last half the visitors had a scoreless game.

The Creighton team had a decided advantage in weight.

At Cincinnati: University of Cincinnati, 28; Denison, 12. Ames, 2; Drake, 0. Syracuse, 6; St. Louis university, 0. John Hopkins, 9; Washington college, 0. Missouri, 5; Kansas, 5. Auburn, 26; Georgia, 0. Vanderbilt, 23; Sewanee, 6. Central, 1; State, 6. Chattanooga, 27; Franklin and Marshall, 6. Georgia Tech, 6; Clemson, 0. Marquette university, 6; Notre Dame, 5.

Creighton, 6; Des Moines, 2. Nebraska, 12; Haskell, 0. Lincoln, Neb., Nov. 24.—The Haskell Indians were disastrously defeated by the State University of Nebraska on Nebraska field today, 12 to 0. It was a one-sided game. The Haskell team failed to offer any effective resistance to the Nebraskaans and were smothered from the start. Only the fact that the visitors built Nebraska for downs. Minor made one of the most spectacular plays of the day. Eluding the Indians on an end run he dashed eighty yards for a touchdown. The entire Haskell team at his heels.

8000 PERSONS SEE
TERRAZAS PARK
OPENING

Taboo Wins La Independencia Handicap; Big Juarez Meet Starts Under Good Auspices.

(By Morning Journal Special Licensed Wire) Juarez, Mex., Nov. 24.—Before a crowd of 8,000 persons, Taboo, favorite at 1 to 2, won the La Independencia handicap, mile and an eighth, the feature of the opening at Terrazas park today. The opening day of the Jockey club Juarez began under the most beautiful auspices, the weather was delightful, being like summer, and the track was very fast, owing to the delay in getting some horses across the border the handicap was reduced to only three starters. Jack Atkin opened up favorite, but was soon displaced by Taboo. Harrison jumped into the lead at the start and led by three lengths over Jack Atkin with Taboo away back. Harrison held his advantage at the turn into the stretch, but here Taboo came with a rush and catching Harrison 20 yards from the wire won by half a length. Jack Atkin stopped badly and was eased up all through to stretch.

First race, all ages, five and a half furlongs: Trance won; Meadow, second; Queen Queen, third. Time, 1:07. Second race, two-year-olds, five furlongs: One won; Luck, second; Winner Wolf, third. Time, 1:02. Third race, selling, 4-year-olds and up, 7 furlongs: Pedro won; Marion Casey, second; Harniss, third. Time, 1:24.

Fourth race, La Independencia handicap, value \$2,000, 1-1/8 miles: Taboo won; Harrison, second; Jack Atkin, third. Time, 1:54 3/5. Fifth race, selling, 3-year-olds and up, 6 furlongs: Leonard won; Chippewas, second; Clint Tucker, third. Time, 1:14 1/5. Sixth race, selling, 3-year-olds and up, one mile: Fred Mulholland, won; Dornick, second; Orelis, third. Time, 1:41 1/5.

At Pensacola. Pensacola, Fla., Nov. 24.—Racing began at Kipling park today. Close and exciting finishes featured some of the races, the public feeling well. Autumn Rose annexed the feature event easily.

First race, 5 furlongs: Altheon won; Blue Tie, second; Demond, third. Time, 1:04. Second race, 6 furlongs: T. H. McRide won; Sissy, second; Cherokee Ross, third. Time, 1:19. Third race, inaugural dash, 4 furlongs: Katana, Ros won; Esplend, second; Alice, third. Time, 1:13 3/5. Fourth race, mile and a sixteenth: Whip Top won; Sam Bernard, second; B. M. Robo, third. Time, 1:54 1/2.

Fifth race, selling, 5/16 furlongs: Lady Chilton won; McAndrew, second; Ostran, third. Time, 1:11 3/5. Sixth race, selling, 3/16 mile: Official Mike won; Gersando, second; Rebel Queen, third. Time, 1:05 2/5.

At Jacksonville. Jacksonville, Fla., Nov. 24.—Donald McDonald, carrying top weight of 124 pounds, and favorite in the betting at 3-1, won the Thanksgiving handicap, the feature of the opening day on the Moncrief park course today. About 8,000 persons attended the first day's racing. Nineteen bookmakers were in line and speculation was brisk.

First race, inaugural dash, six furlongs: Hoffman won; Jack Parker, second; T. M. Green, third. Time, 1:13 1/5. Second race, six furlongs: Ida D. won; Tom Shaw, second; Joe Gallions, third. Time, 1:15 1/5. Third race, five and a half furlongs: Adrian won; Jack Deamat, second; Pharaoh, third. Time, 1:08 1/2.

Fourth race, handicap, one mile: Donald McDonald won; Friend Harry, second; Mary Davis, third. Time, 1:52. Fifth race, selling, 3/16 mile: Leo Double, second; All Red, third. Time, 1:12 1/5.

Sixth race, selling, 3/16 mile and a sixteenth: Avimer won; Egan, second; St. Joseph, third. Time, 1:04 1/5.

Mass Play Ends in Football Fatality. Connecticut Boy Dies of Fractured Skull Few Minutes After Scrimmage at Winsted; Head Hits Stone.

(By Morning Journal Special Licensed Wire) Winsted, Conn., Nov. 24.—Harry Lee, aged 17 years, was killed here today in a football game between the Trolley club and an independent team composed principally of Gilbert Preparatory school students. His skull was fractured and he died in a few minutes after the accident. The fatal accident occurred after a mass play which both teams agreed to stop. Lee had been running with the ball. He was tackled and downed and arose after the pile of players had settled up. He took a step, staggered and fell to the ground unconscious. Water was immediately applied to his head and a call made for a doctor. He died on the field, within five minutes after he received the injury. The field which was used for the game is the baseball field of the Gilbert Preparatory school and is rocky in spots. It is thought that when Lee was tackled his head struck a stone, which resulted in the fracturing of his skull. The game was stopped at once. The score stood 6 to 6.

Adler's Collegian Clothes

are the garments for refined dressers. They portray good style in a sane way, avoiding oddities and extremes, yet providing style of the type that meets the approval of men who know what is really correct. Character and genuine quality are combined in Adler's Collegian Clothes, and while it is easy to pay more for your clothes—you can't get more. Foremost dealers in all sections are showing our overcoats, suits and raincoats at \$15.00 to \$40.00. Our style book will thoroughly post you. Mailed upon application.

AVIATOR DREXEL TESTS TOFF HERO LARGEST BATCH OF LOST IN WILDS OF OF SANTA MONICA INDICTMENTS IN NEW JERSEY ROAD RACE SEVEN YEARS

Star Attraction at Quaker City
Air Meet Gets Mixed Up on
Rivers and Is Forced to Land.

(By Morning Journal Special Leased Wire)

Philadelphia, Pa., Nov. 24.—Followers of aviation in Philadelphia were kept busy today watching the fortunes of J. Armstrong Drexel, who yesterday established a new world's altitude record and of Graham-White, an English aviator, who brought to a close a series of successful exhibitions at the Point Breeze race track.

Drexel again proved to be the star attraction. He attempted to fly back from Trenton to Philadelphia in the same Bleriot monoplane in which he reached a height of 8,300 feet yesterday. He became lost and was forced to land in Trenton Junction, four miles from Trenton, N. J.

Oreland is about thirteen miles from Philadelphia, but Drexel, in his flight of one hour and ten minutes, traveled twenty miles.

Mr. Drexel landed because of a shortage of gasoline. He mistook the Delaware river for the Schuylkill and traveled north instead of south.

Graham-White and several thousand persons were awaiting Mr. Drexel in Point Breeze when word, which proved to be untrue, was received that the aviator was coming down the river. Mr. White alone in one of his machines and sailed up the river to meet him. This gave hundreds of persons, whose homes are south and west of Philadelphia, a thrill. After his successful flight, of Mr. Drexel's landing was received.

WRIGHTS TO PROTEST AT DREXEL PERFORMANCE.

San Francisco, Nov. 24.—Thomas F. Jackson, one of the representatives of the Wright Brothers on the Pacific coast and who is in San Francisco negotiating with a local committee for flights by the Wrights there, on the aviation meet to be held in this city in January, declared tonight that the Wrights would protest to the Aero Club of America against the acceptance of the flight by J. Armstrong Drexel in Philadelphia yesterday as the world's record altitude flight.

"While not questioning Mr. Drexel's veracity in the matter," said Jackson, "the fact remains that he did not comply with the conditions required for record flights, and I do not think that his figures of 9,370 feet will be accepted by the Aero Club of America as an official record. It is the intention of the Wrights there to enter a protest against the records being allowed to stand officially."

"The conditions for official records require that the flight must be made within sight of the judges and the aviator must land where he started from, or at least near the starting point. Mr. Drexel landed twenty-two miles away. Ralph Johnston, who was killed in Denver one week ago, was killed in Philadelphia yesterday as a matter of fact, but I do not think that we are going to give to Mr. Drexel unless he makes a flight complying with the official requirements as did Mr. Johnston."

NAVAL CADETS END FOOTBALL PRACTICE

Annapolis, Md., Nov. 24.—Football work in Annapolis for 1910 closed today with the final practice of the midshipmen on Wooden field. Tomorrow, the navy squad numbering thirty-five players and substitutes, will leave for Philadelphia, where the big game with the army will be played on Saturday.

The team is one of the heaviest and most evenly balanced that has ever won a wing averages 174 1/2 pounds and the back field averages 171 1/2 pounds, making the team average 174 1/2 pounds.

Captain Bowyer, superintendent of the academy, will be unable to attend the game. So far, there has been little or no betting, though some small bets were recorded, at even money.

TIZ-For Sore Feet

Tired, Aching, Swollen, Smelly, Sweaty Feet? Corns, Calluses or Bunions? TIZ is the only Sore Feet Remedy that is sure.

Quick and Certain.

You Will Enjoy Using TIZ. The Most Pleasant Remedy You Ever Tried and Moreover It Works.

At last here is instant relief and a lasting permanent remedy for sore feet. No more tired feet. No more aching feet. No more swelling, and no more smelly feet. No more corns. No more bunions. No more calluses. No matter what ails your feet or what under the skin, you've tried without getting relief, now use TIZ.

TIZ is totally unlike anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudation which causes sore feet. Powders and other remedies merely plug up the pores. TIZ cleanses them out and keeps them clean. It works right off. You will feel better the very first time you use it. It's a week and you can forget you ever had sore feet. There is nothing on earth that can compare with TIZ for sore feet at all. Druggists 25 cents per box or direct if you wish from Walter Lather Drexel & Co., Chicago, Ill. Recommended and sold by B. Ruppel, 242 W. Central

Driver of Lozier Car Bests Five Competitors and Comes Within Ace of Breaking World's Record.

(By Morning Journal Special Leased Wire)

Santa Monica, Race Course, Cal., Nov. 24.—Teddy Tetzeloff of Los Angeles, in a Lozier car, was the hero of the second annual Santa Monica road race. He not only piloted his big racer to victory in the stock car event, winning over five competitors, breaking the American stock car record and coming within one mile an hour of the world's record, but also started a few minutes later in the 202.5 mile free-for-all against seven other entries and duplicated his victory.

In the race for heavy stock cars, which was over a course of 151.506 miles, he established a new record for this course by averaging 72.29 miles an hour. In the next race over the longer course he averaged 71.4 miles an hour. This latter average would have been higher had he not been so far in the lead near the finish that he did not try to make the last lap at better than a mile a minute. Bert Duncley in his Pope-Harford, was second in both the heavy stock car and free-for-all races.

The Maxwell was the victor in the 16-250 cubic inches displacement class and the Duro car with J. McKean of the wheel took the 220-300 class event. The small car events were 101.004 miles each and were run simultaneously.

The Lozier time for the 151.5 race was 2:04:19.45. The 202.5 mile race was made in 2:49:59.

The speed honors of the day for cars went to the Fiat car which came here from the Hawaiian races. After a misfortune at the start which cost the foreign machine fully eight minutes in the first five laps of the free-for-all, Duncley began pushing the powerful racer forward at a clip which surpassed 74 miles an hour, lap after lap. While the Lozier maintained a steady speed of between 72 and 74 miles an hour, the Fiat was reeling off laps under 5:40, the fastest being 5:10.4 in 6:25, an average of 72 miles an hour.

The Knox was the only other car running at the finish of the free-for-all, and was stopped by Referee Stevens after completing twenty-two laps.

A remarkable feature of the racing was the entire freedom from serious accidents. But one car ran off the course. The Cadillac, with George Clark at the helm, left the track in the small car race, but no one was hurt. The spectators kept the course fairly clear, despite the fact that fully 10,000 people were packed along both sides of the eight miles of roadway.

BROWN BEATS CARLISLE INDIANS 15 TO 6

Providence, R. I., Nov. 24.—Brown found the Carlisle Indians a stubborn proposition today and although the local eleven twice crossed the opposite goal and added three more points on a field goal, it staggered before the onslaughts of the visitors in the third period when the Indians also scored, the game ending with Brown the winner, 15 to 6.

For the first two periods everything went Brown's way.

The Indians rallied in the third period, after Sprackling had failed at a second field goal, the visitors, by changing into the lines marked by a fake kick formation, tossed the Brown team aside for repeated gains until a first down was gained on Brown's one yard line. Another plunge by Hauser carried the ball over the goal line.

Early in the fourth period Hauser came near tying the score, missing a field goal by a few feet.

This ended the Indians' chances for a tie, and a fumble gave Brown the ball on the 25 yard line. Two fine forward passes gave Brown her second touchdown.

It was a finely played game, brilliant with trick plays, forward passes and end runs behind good interference.

The kicking was less than usual.

We heard and care for horses. The best of care guaranteed. W. L. Trimble & Co., 112 North Second St.

SPELL BOUND WINNER OF HANDICAP AT OAKLAND

Oakland, Nov. 24.—In the presence of the largest crowd of the season, Spellbound won the Thanksgiving handicap from a high class field at Emeryville today. There were eight starters during the afternoon, but the favorite for the handicap, which was at a mile and a furlong, Spellbound, a considerable ground through failure to obtain clear sailing and was unable to catch Spellbound when it came to the straight through the final quarter.

First race, six furlongs—Nyxar, second, Arcturion, third, Donald, third, Time, 1:14 1/2.

Second race, five and one-half furlongs—Pay Brock, second, Arcturion, third, Medial, third, Time, 1:07 1/2.

Third race, five furlongs—Molton, second, Prudent, second, Bitter, third, Time, 1:01.

Fourth race, Thanksgiving handicap—Spellbound, second, Spellbound, second, Bolding Water, second, Chester, third, Time, 1:31 1/2.

Fifth race, mile, selling—Honey, second, Can, second, Sir Angus, third, Time, 1:44 1/2.

Sixth race, six furlongs—No Quarter, second, Tiltwhistle, second, Quinley, third, Time, 1:12.

With 83 True Bills, Grand Jury in Roswell Breaks All Records in Chaves County; "No" Bills Returned.

(Special Correspondence to Morning Journal)

Roswell, N. M., Nov. 24.—The grand jury made its final report last night, returning eighteen additional true bills, bringing the total up to 83, which is the largest in seven years in Chaves county. A total of eleven "no" bills was returned and the report states that as many cases were considered in which no action was taken.

One of the true bills returned last night was against W. T. Wells, who is accused of subornation of perjury, with Jim Walker. Mr. Wells was arrested and pleaded not guilty. His trial has not been set. Dr. C. L. Parsons, president of the territorial medical board, is charged with the charge of practicing medicine without a license. All these have been indicted. Several others that were indicted have not been arrested.

The Wells case is a famous one. Wells shot and killed Dr. Shriver, over labor organization troubles when Wells was building an apartment house in Roswell. He was tried for murder and the jury held that the killing was justified. Afterward, W. D. Day, one of the star witnesses for Wells made what purported to be a confession that Wells, through Attorney J. B. Eldridge of Roswell, Idaho, and Jim Walker, a go-between, offered to pay him \$1,500 for certain testimony, that Day gave the desired evidence, and that Wells paid only a small part of the bribe. This alleged confession was made early last spring.

The jury failed to believe Wells and the others, and Judge Wm. H. Pope brought the case to the attention of the present jury.

The district court is still working on the murder trial of Matt Harris, the negro who killed C. W. Merchant, Jr., and all of yesterday was taken up in hearing evidence.

The Chaves county board of commissioners met yesterday, named the board of registration and called an election for the vote on the constitution.

Innocent Thief Caught.
Jim Magill, the young man who returned only a few weeks ago from an insane asylum in Texas, and accused of robbing the store of Price and company here of \$400 worth of goods, was captured yesterday at Clovis and brought here last night to answer an indictment for the robbery, of which he has made a confession. Part of the stolen goods were recovered. Magill told the officers where he hid the rest, but upon making a search, the police did not find the missing items where Magill said he had put them.

Woman In Jail.
Mrs. Della Rapier, charged with aiding in passing a worthless draft for \$1,000 at the First National bank in this city, was last night placed in jail, her bondsmen, J. N. Akin and Hugh Davis, a sheep breeder, with drawing from the bond of \$1,250. Mr. Akin is president of the Peoria Valley Trading company and the by-laws of his company will not allow him to be a bondsman. He only recently made the discovery in the by-laws. Mrs. Rapier says friends in Texas will put up a cash bond for her.

Journal Readers NEED NOT HAVE BAD STOMACHS

Indigestion, Dyspepsia, Gas and All Stomach Distress Will Go Five Minutes After Taking a Little Diapepsin.

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order, stomach five minutes afterwards.

If your meals don't tempt you, or what little you eat causes a full, bloated, or lumpy feeling in your stomach, or if you have heartburn, this is a sign of Indigestion.

Ask your Pharmacist for a 50-cent box of Diapepsin, and take a little just as soon as you can. There will be no sour rising, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debility, Headaches, Dizziness or intestinal griping. This will all go, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery at any drug store, waiting for you.

These large 50-cent boxes contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other Stomach trouble.

LUNATIC MAKES ATTACK ON DOCTOR WITH KNIFE

Denver, Nov. 24.—Joseph Koshier, a mentally patient at the county hospital, attacked a physician with a knife, and was only subdued after a long struggle, during which Dr. Koshier was injured. The patient was badly beaten by Koshier.

RECLAMATION SERVICE AT WORK ON BIG CANAL FOR SACATON INDIANS

Phoenix, Ariz., Nov. 24.—No work is being done by the reclamation service at present in what is known as the Salt River valley. The only work that is in the field is constructing a new canal on the Sacaton Indian reservation.

For several years the service has been building bridges and laterals, enlarging and cleaning canals. Now all the work has been done, but the odds and ends will be attended to later. Only one big piece of work remains to be done, and the actual construction will be performed by the Salt River project on the ditch.

This is the building of what is known as the Salt River canal, about five miles west of the city. It will extend north and south between the Grand and Salt.

The reclamation service will survey this lateral and do all the engineering work in connection with its construction. It is expected that the water users will be ready in a short time to begin work on the ditch.

The canal at Sacaton will furnish water to most of the reservation. It was originally planned to be about twelve miles in length, but afterward it was decided to make it shorter.

At present it is about half completed. Its capacity at the head will be 4,000 inches discharging down to a few hundred at the lower end.

If there is any water to spare it will be allowed to run out upon a wide, uneven desert at the lower end. In this desert are many holes and low places which make it useless for farming purposes in a country where irrigation is necessary. It is hoped that in the course of years the waste water will fill the low places with silt and form some very fine ranch land.

The Indians themselves are supplying most of the labor necessary to build the canal, but government bosses are in charge.

RICH ORE STRIKE ON BLACK HAWK

Seventy-Five Per Cent Native Silver and Will Run Between \$5000 and \$7000 in White Metal.

Denver, Nov. 24.—Horace W. Clarke, vice-president and general manager of the Denver and Rio Grande railroad, brought to Denver this morning reports of unusual prosperity in northern New Mexico. He has just completed an inspection trip over the company's narrow gauge lines in that state in company with the heads of departments of the system.

"Nearly every agent on the road said they had doubled their business during the past year," said Mr. Clarke. "Reports like these certainly spell prosperity. I don't know what caused the increase except the people are making plenty of money and the country is growing."

Mr. Clarke said the officials will make a try over every line belonging to the system. While data are being gathered concerning numerous improvements needed he does not think there will be started to any extent until after the holiday season, which usually comes in the spring, is past.

HUGE KENTUCKY LUNATIC PUTS UP A TARRIFIC FIGHT ON A TRAIN

Tomlinson, Ariz., Nov. 24.—After a domestic fight with a lunatic, Deputy Sheriff Allie Howe arrived here with his prisoner who was incarcerated in the county jail. He is W. H. Cundiff, of Thompson, Ky., a giant in physique and height, and a thoroughly figured in a shouting scrape, possibly in feudal difficulties in Kentucky. Deputy Howe was in his way to Benson and was notified of Cundiff's presence on the train by the conductor who stated Cundiff had been acting in an odd manner. Howe set to watching the man and soon came to the conclusion that Cundiff was either suffering from some mental trouble or from excessive drinking.

Howe took up a seat near the man so as to be ready in case of emergency. He had hardly seated himself when Cundiff, rushed towards the door of the coach and threatened to hurt himself from the train. Howe grabbed the man and had a fierce struggle before Cundiff was overpowered and placed in a seat.

The officer sat beside the lunatic, who continually referred to a shooting scrape. He would not tell where the fight occurred, but said he did not do any of the shooting. He also said he advised those who did shoot not to do so. He stated that one man had been killed in the fight.

After sitting with the lunatic for a while the officer noticed Cundiff frequently made efforts to slip his hands under the seats and peek. Closer investigation revealed a knife with a four and a half inch blade and as keen as a razor. Howe disarmed the man of the weapon. Cundiff pleaded for his return, stating that there were a number of men on the train who sought to kill him.

"I got something down here that will fix 'em," said Cundiff in a hysterical outburst and he immediately thrust his hands down his trousers. Howe bent him to it and found the lunatic had concealed an automatic Colt revolver in his sock. The gun contained ten loaded shells.

Cundiff next attempted to hurt himself from a window in the coach, by sliding his fingers were on the train later to kill him. The officer had another hard struggle to overpower and quiet him.

At Benson, Howe took his prisoner off the train and they repaired to a restaurant. Cundiff ate a small quantity of soup and then he refused to proceed, stating the food had been poisoned. At the table behind him and the officer were four traveling salesmen. When Cundiff saw them he leaned over the table and went at them. Howe grabbed him and an exciting tussle followed. The lunatic was almost too much for the officer. He grabbed a chair and started to strike at his antagonist. It required the combined efforts of three men to restrain him. Sheriff Anderson of Graham county happened to be in the restaurant and helped Howe control the prisoner.

Cundiff was lodged in jail at Benson for the night and today he has brought here to the county jail. He will be examined Thursday. Today he said he had made peace with his God and begged several persons to kill him. Cundiff's baggage was checked to Bakerfield, Cal. The officers made an effort to get in communication with his relatives.

Phoenix, Ariz., Nov. 24.—Victims of turkey spreads caused the constitutional convention to adjourn early today after disposing of twenty-four of thirty-two of the propositions on the calendar. Three of these were adopted, final action on the remainder being indefinitely postponed. The propositions adopted today were:

Creating a bureau of legislative research similar to that of Wisconsin as an aid to the legislature and the people in drafting laws; juvenile courts with a maximum age limit of 15; a militia measure.

SCARED IMPORTERS IN MAD RUSH TO CONFESS

Spectacular Government Raid
Has Frightened Those Who
Profit by Customs Frauds;
Revenues May Increase \$10,-
000,000.

(Special Correspondence to Morning Journal)
New York, Nov. 22.—Ten million dollars is a fair estimate of the amount that the federal revenues are likely to be increased by the panic that has seized the big importing firms of this city, since the government officials made their raid on one of the largest and wealthiest of art importing establishments on Fifth Avenue and arrested prominent members of the firm. For a long time the authorities have been certain that vast amounts have been practiced upon the customs by the undervaluation of imported merchandise and that some of the importers were implicated in these frauds. For several months past rumors have been flying about the wholesale district of the city that the government was collecting evidence both here and abroad against a number of firms. This has led to great uneasiness among importing firms who were willing to profit by this form of graft as long as there seemed little danger of detection, but who would rather sacrifice millions than to have their business standing exposed by exposure. The policy of the federal authorities in giving liberal rewards to informers has increased this uneasiness since it was practically impossible to carry on these frauds without the knowledge of certain employees, and a clerk who knew that a fortune of \$50,000 or \$100,000 might be his for a mere tip to the federal officials naturally would be tempted to grasp such a rich prize. When the spectacular blow of the Fifth Avenue raid fell the question "Who next?" naturally presented itself to the importers with guilty consciences and threw them into a blue funk. The result has been a grand rush to get aboard the immunity wagon and Collector Loeb has been kept busy for the past ten days listening to confessions, promises of restitution and pledges to be good. The interviews have been carefully guarded but some of the facts have leaked out. Some of these officers may be accepted, but the present disposition of the government authorities is to make "horrible examples" of a few more big firms for the moral effect it will be likely to have.

To what an extent New York has become a city of hotel dwellers was indicated this week by the statement of a department store head of long experience that the total amount of buying done by the public wants in Manhattan was far greater than the combined purchases of the occupants of individual homes, although the majority of the latter are persons of far more than average incomes. In view of the fact that the number of great hotels is multiplying with each season while the number of private houses is actually falling off, this assertion is not so incredible as it appears at first glance, especially in view of the fact that each of the larger hotels, buying for a clientele of many hundreds of persons daily makes purchases a thousand-fold greater than those of the individual family. For instance, in the new Hotel Rector, now approaching completion on Broadway at Times Square, something like half a million dollars has been spent in providing the furnishings needed for setting up housekeeping on the elaborate scale contemplated by its proprietor. The hotel, for though one of the most complete and elaborate, is by no means one of the largest of the city's hotels, but this amount would be sufficient to start a thousand newly-wedded couples, allowing \$500 for each pair. Incidentally the same department store authority explained as one of the reasons for this change which is leading more and more New Yorkers to give up private homes in favor of the hotel life the fact that the hotel buyer, dealing in vast quantities, is able to do much better than the individual purchaser and so is in a position to secure for his patrons more for their money than they could obtain themselves.

While the automobile has nearly displaced horse-drawn vehicles on many of the city's streets, it has also been adapted to lightening transportation burdens in a number of other novel ways. One of these is in operation at the Grand Central station where the motor has been called into play to ease the baggage handlers' toll. While the new station is under construction it is necessary to handle the terminal business on a smaller number of tracks than will be in use when the structure is completed. To

OLD SOLDIERS ARE FAST PASSING OVER DIVIDE

Only 900 Employees of Pension Bureau as Against 1,700 Formerly and Work Is Much Lighter.

(Morning Journal Bureau.)
613 Munsey Building,
Washington, D. C., Nov. 22.
That the old soldiers of the country are rapidly passing away is not only indicated in the manner in which the work of the Pension Bureau has been brought up to date, and the fact that its former force of 1,700 employees has been gradually reduced until now the number is in the neighborhood of 900 men and women.

Formerly there were five separate divisions in the Pension Bureau. These have been consolidated into two divisions, namely, the old war and navy division, and Civil War division. Unless there is future general pension legislation passed by congress, or another war, the two divisions can soon be reduced to one.

It has not been a long time since there were 250 special examiners in the field. Now there are less than 75 of these officials traveling about the country.

On the pension board of review in 1906 there were 200 employees drawing salaries ranging from \$1,800 to \$2,000 a year. Now this board has been reduced to less than 100, and many of its members who have no duties to perform on the board are engaged in the menial job of removing old paper files in the bureau.

It is stated on good authority that at least 300 employees of the Pension Bureau stand to lose their jobs on July 1 next year. This action will be taken on the ground that there is not enough work in the bureau to keep them employed. It is said that this number of the bureau force could easily have been spared even last July. Fearing their dismissal might have some effect on the pensioners, the pensioners have been kept in the past campaign, action toward the removal of these employees was deferred until next year.

President Taft will undoubtedly recommend to congress the winter some kind of a retirement bill for government employees. Should no action be taken by congress, it is understood there will be a general weeding-out of the aged employees, not only in the Pension Bureau, but in every department of the government.

The president wishes to place the whole responsibility of congress in solving the question of what is to be done with the aged employees.

In the Pension Bureau there are many employees who receive today, as they have received for many years past, good salaries, but they give the government little return for it. The situation there is different than in other departments of the government, in that there is not enough work for the number of people employed. In years past these same clerks were expected to adjudicate from a dozen to fifteen or twenty pension cases a day. Now, it is said that each clerk seldom has more than one or two cases a day to pass on, and then the balance of the day is unemployed officially. They spend their idle time in reading newspapers and magazines, and "visiting" among one another.

The situation concerning the aged and incapacitated employees in other departments is different. There they are employed in more active atmosphere, and compelled to produce a certain amount of work each day. Said a say that hundreds of old men and women, drawing substantial salaries too, have a long time since passed their days of usefulness to the government and are kept on by their superiors.

The service of these old employees are not worth one dollar a day, yet they are retained right along from year to year and given easy, unimportant positions.

Last winter Senator Aldrich told the senate if he were running the government departments he would install business methods and save annually at least \$200,000. Taking his cue from this remark, President Taft urged each of his cabinet officers to economize as much as they possibly could without injuring the efficiency of the public service. The results is, that some of the departments have gone through a "cutting" process which will reduce their annual expenses many thousands of dollars.

It is confidently hoped that the pruning process in the various departments will result in a saving of \$200,000, the amount which Senator Aldrich claimed he could save the government each year.

It is noteworthy to mention that no dismissals have been made in any of the departments in the effort to cut down expenses. But wholesale dismissals are being planned in many cases, particularly in the field service. Cabinet officers are instructing their chiefs to make a thorough investigation into various branches of the local and field services with a view of dispensing with employees where their duties are light and unimportant, and can easily be doubled-up with the work of other employees.

In some of the departments have already consolidated divisions and reduced the salaries of officials in charge of them. They have also, to some extent, reduced the pay of old men and women in cases where it is thought these employees have outgrown their usefulness.

"In the sense that he has done much in this direction, in the sense that he has not reflected credit on him, the lady may reflect credit on him. He has had a great share, probably greater than any other man in the country, in stirring up the people to the idea that it is time for political reform, for the breaking down of the alliance between special interests and political machines. His critics say his course is too often at variance with what he preaches. It is not necessary, however, to defend this every day what he has done and advocated has been to promote the cause of progress, to arouse dissatisfaction with the old, selfish, corrupt political machine, to cause a public determination to replace the old corruption-loving regime in the republican party with a new and better one.

Should no action be taken by congress, it is understood there will be a general weeding-out of the aged employees, not only in the Pension Bureau, but in every department of the government.

The president wishes to place the whole responsibility of congress in solving the question of what is to be done with the aged employees.

In the Pension Bureau there are many employees who receive today, as they have received for many years past, good salaries, but they give the government little return for it. The situation there is different than in other departments of the government, in that there is not enough work for the number of people employed. In years past these same clerks were expected to adjudicate from a dozen to fifteen or twenty pension cases a day. Now, it is said that each clerk seldom has more than one or two cases a day to pass on, and then the balance of the day is unemployed officially. They spend their idle time in reading newspapers and magazines, and "visiting" among one another.

The situation concerning the aged and incapacitated employees in other departments is different. There they are employed in more active atmosphere, and compelled to produce a certain amount of work each day. Said a say that hundreds of old men and women, drawing substantial salaries too, have a long time since passed their days of usefulness to the government and are kept on by their superiors.

The service of these old employees are not worth one dollar a day, yet they are retained right along from year to year and given easy, unimportant positions.

Last winter Senator Aldrich told the senate if he were running the government departments he would install business methods and save annually at least \$200,000. Taking his cue from this remark, President Taft urged each of his cabinet officers to economize as much as they possibly could without injuring the efficiency of the public service. The results is, that some of the departments have gone through a "cutting" process which will reduce their annual expenses many thousands of dollars.

It is confidently hoped that the pruning process in the various departments will result in a saving of \$200,000, the amount which Senator Aldrich claimed he could save the government each year.

It is noteworthy to mention that no dismissals have been made in any of the departments in the effort to cut down expenses. But wholesale dismissals are being planned in many cases, particularly in the field service. Cabinet officers are instructing their chiefs to make a thorough investigation into various branches of the local and field services with a view of dispensing with employees where their duties are light and unimportant, and can easily be doubled-up with the work of other employees.

In some of the departments have already consolidated divisions and reduced the salaries of officials in charge of them. They have also, to some extent, reduced the pay of old men and women in cases where it is thought these employees have outgrown their usefulness.

"In the sense that he has done much in this direction, in the sense that he has not reflected credit on him, the lady may reflect credit on him. He has had a great share, probably greater than any other man in the country, in stirring up the people to the idea that it is time for political reform, for the breaking down of the alliance between special interests and political machines. His critics say his course is too often at variance with what he preaches. It is not necessary, however, to defend this every day what he has done and advocated has been to promote the cause of progress, to arouse dissatisfaction with the old, selfish, corrupt political machine, to cause a public determination to replace the old corruption-loving regime in the republican party with a new and better one.

WORLD-WIDE BABY EXCHANGE IS PROPOSED

New York to Have Unique
Organization; City Soon to
Have World's Greatest Opera
House, Costing \$12,000,000.

(Special Correspondence to Morning Journal)
New York, Nov. 22.—An international baby exchange, through the activities of which youngsters will be traded much as securities are now traded on the stock exchange, is shortly to be established here, according to present plans. It is not, however, as the name might seem to indicate, to be a medium of bartering children for profit to the dealers, but to the children themselves. While the exchange will be the first of its kind in the western hemisphere the idea has been in operation in Europe for some time. In its essential principle, this unique exchange is one of opportunity rather than of children, since any trade would be merely temporary and calculated to meet some educational need of the child. If, for example, a New York mother has a son with a desire to study art, or wants her youngster to learn the French language, the exchange will endeavor to discover a French mother with a son who wants to study art, and swap the youngsters, so to learn the French language.

An interchange may thus be effected for a year or more through the medium of the new organization. Thus an American child through the exchange of children would be enabled to learn as many foreign languages as desired at practically no expense. What as the idea may seem, there has been for some years an interchange of children among these lines between England, France and Germany, and similar arrangements are common among the German Swiss and the French Swiss, since in Switzerland it is necessary to be able to speak both French and German, and only local mothers and German mothers are not sufficient to supply the demand for the exchange.

Just how the exchanges through the medium of the new organization will be effected remains to be seen, but there seems to be no doubt that New York is soon to have a new and unique market on which it will be no uncommon thing for a five-year old American boy to be offered in exchange for one year for a foreign youngster of the same age.

It now seems certain that New York is soon to have the largest opera house in the world, and as a result the settling of the local opera children which has been a complex matter for some time, will be simplified. Those all over the country as well, may finally be settled. After three seasons of conflict between two rival grand opera productions the power that has been decided upon will be efficient and give better results. Accordingly the present season opened with only one. Two weeks, however, have sufficed to demonstrate that the present opera house is not sufficient for the city's needs, and will be practically every act is sold to local season subscribers, leaving little chance for the out-of-town visitor to hear the high-souled song birds. And so the situation will have to be modified, and once more it is stated that the city is to have a new opera house. In this case, however, it will not conflict with the existing one, since according to reports the new house of high-priced song is completed. The projected building when with its site will probably cost in the neighborhood of \$12,000,000, will be able to accommodate almost twice as many as the present building with its capacity of 1,000, thus giving the transient visitor a chance to obtain good seats.

The building which is to be abandoned is a four-story structure with the ground on which it stands is today valued at about \$7,000,000. Just what use will be made of it when the new opera house is completed is as yet unknown, but it is believed that it will have more than one grand opera company next season. The new \$12,000,000 opera house may not be ready by then, but if it is not the old one will be turned to some other use.

Every year sees important additions to the fleet of big liners devoted to trade and travel between the United States and the Caribbean and South America. With the Hamburg and other points in the West Indies, another large steamship will be added to this service. The great increase in the number of persons anxious to make pleasure or business trips to the southern half of the western hemisphere is of course responsible for these changes and indicates the decided growth in business and in their interest on the part of Americans in the countries south of them.

One of the strangest professional careers which has ever been discussed in this city has been brought to an end, at least temporarily, by the arm of the law, and "Banana Anna" is facing trial with a possible jail sentence. And yet her only crime was to realize that banana skins and apple cores were useless by-products and to discover a remunerative use for them. As a result in the last three years she has netted about \$4,500 by applying her discovery and using perhaps ten cents worth of the material needed. Indeed she has run a single banana skin up to \$1,000, and an apple core up to \$500. Her method was simple. She merely sold these articles to transportation companies. She sold them, however, at the top of the market, carrying a small stock but containing a number of these by-products. It was her custom to board a train, ferryboat or street car, drop sudden start or stop, step on it and fall. The rest was her earnings at the rate of \$1,500 a year show, was

ALBUQUERQUE NEW MEXICO

UP TO DIAZ

The situation in Mexico, although endangering heavy foreign interests, admits of no interference until it has been shown the Diaz government cannot cope with it. At present it looks as if the uprising were to be promptly crushed. The El Paso Times says:

Things have been happening in Mexico in the last few days with a swiftness decidedly un-Mexican. The revolutionists were quick to seize upon the burning of Antonio Rodriguez for the brutal murder of a woman in Edwards county as a pretext for demonstrations against American in Mexico, very well aware that the government of Mexico would be held responsible for it. They followed this up with attacks upon Mexican officials or Diazists.

The time was ripe and the revolutionists seized upon it for a general outbreak—so general and so widespread that it will give the Mexican government considerable trouble if it does not tax its resources to crush it.

When the revolution broke out demonstrations against the Americans at once ceased, proving that the attacks on the Americans were by the revolutionists for the sinister purpose of embroiling the two governments.

Except in so far as the interests of the Americans living and having investments in Mexico, and the menace to the Americans along the border of marauding gangs of fugitives, the Times has no concern in the affairs except in connection with the public which must deplore internecine strife and its accompanying horrors, but it will still hope that through the intervention of the powers having vast sums invested in Mexico, civil war may be averted and the matters at issue be settled by arbitration.

Since this is an outbreak against the Diaz government by citizens of the country of which he is the ruler, it would appear officious and offensive to propose to intervene, unless it be some apparent that Mexico cannot crush the rebellion and protect the interests of citizens of other governments. Then intervention would become a duty.

It is not too much to say, however, that American and other foreign interests are going to be protected whatever the consequences may be and whatever rule of propriety may stand in the way.

In this connection the Guadalupe Times says:

The political disturbances of the past week indicate strongly against this wonderful country as a place of investment for foreign money—something that everybody knows in need for its development. But in the temporary suspension of big deals it is refreshing to note the firm stand being taken by the Diaz government to repress the first indication of revolution. What is demanded just now is patience and confidence in the intelligence of the best Mexicans to work out their problems in their own way.

MR. FERGUSSON AND STATEHOOD.

In a communication elsewhere in this paper, Mr. H. B. Fergusson explains that he is not against statehood, but is against the present constitution. There was no desire to place Mr. Fergusson in the position of opposing any kind of statehood. We believe, however, that his position amounts to that in the final analysis.

There is no doubt that the adoption of the present constitution will mean immediate statehood. The fate of statehood, if we reject it, is to say the least problematical. We repeat that delay is dangerous and to risk another constitutional convention is to take longer chances than the people desire with the goal so close.

The Morning Journal has never said and does not believe the constitution is perfect. We do believe, that, considering the widely different views of the delegates, there has been an excellent spirit of compromise and that the organic act is as fair as we could ever possibly get from a convention in this territory. We do not believe it "enslaves the people in political bondage," or that, as Mr. Fergusson believes, it is "shamefully framed, the corporate representatives for selfish interests." In this we are backed up not only by the republicans of New Mexico, but by a large proportion of the democrats.

We have never doubted Mr. Fergusson's honesty. In his proposed fight on the constitution, however, we have seen he is seriously looking for judgment.

Christmas is a month distant. It is time that Albuquerque slippers took note of the fact. Now is not too early to begin buying the presents. It will save trouble and confusion all around. Get busy.

THE DANCES AND DR. COOK.

It is not surprising that the Dances desire to hear nothing further from or of that justly celebrated member of the Anasazi club, Dr. Cook. When he returned with his caudal from the Arctic regions, they gave him the most triumphant welcome an explorer ever received. Stanley, returning from Central Africa, was not fêted and acclaimed as was the supposed conqueror of the pole. Like the duke's father in "Huckleberry Finn," the doctor was even invited to the palace to have a cup of tea. Garlanded with roses, he took royal children upon his knee to tell them his fascinating fairy tale of the mysterious north.

No wonder that, when the fraud was exposed, and something was "rotten in the state of Denmark," those who had implicitly trusted the doctor's doctored data were unspasmodically indignant. The commission of the University of Copenhagen, that gave a jury trial to his reports of his observations, is not to be blamed for saying that it does not care to inspect any more documentary evidence unless it is of indisputable authenticity. Dr. Cook administered an affront, not merely to the authorities of the Danish university, but to his countrymen, and undoubtedly his persistent refusal to emerge from concealment and face in person his arraignment in the wisest course he could have chosen.

The action of the state department in requesting the cancellation of a proposed debate between two Los Angeles schools on the question, "Resolved, That the United States Should Annex Mexico," was well taken. The relations between the United States and Mexico have for a long time been of the most cordial nature, and President Diaz' friendship for this country has been frequently shown. Such a debate as that proposed would be in exceedingly bad taste. And if the students should decide to annex Mexico the situation would become seriously complicated.

Announcement is made from time to time that a method has been discovered of preserving human bodies indefinitely. Such an announcement happens just now to be on its rounds. Nobody has taken the trouble to explain the utility of bodies thus preserved. It is true, that by ancient and forgotten process representatives of other times have been enabled to secure museum engagements, but modern ambition is for the most part along other lines.

Another alien aviator has declared that recent matches here were arranged for Americans to win. So far as these arrangements included possession of better machines and more adroit operators, there may be something in the charge. Beyond this they represent, doubtless, the "kick" of a "bad loser," if being understood that atmospheric conditions were the same for all.

Japan is buying built the biggest dreadnaught thus far constructed, at a cost of \$12,500,000. It is rather an expensive luxury for a country not very well fixed financially, but the desire to be in the prevailing fashion is not likely to be overcome by considerations of that sort. Japan must have her big gunboats, even if the taxpayer has to sweat to pay for them.

Religious item from the Hedge Corner (Mass.) Herald: Jim Nixon went to church last Sunday on his steam thrashing traction engine. Jim said he had got good and derved tired of talking to the ditch with his horse and wagon every time he met one of those dand-dashed automobiles, and thought he would ride down the road, in a rig they couldn't jar.

The San Antonio Express says: "Governor Mills of New Mexico says the territory looks forward to an era of prosperity under state government. This will probably be realized if crops and cattle produce well, and probably will not be realized if they don't." Clear off. We expect to prosper, whether we are prosperous or not.

The Baltimore Sun's musical editor acknowledges the receipt of sheet music to try on his piano, as follows: (a) "The Baby's Growing Whiskers Now, the Slipper's Laid Away" (b) "Mother Spent Our Last Month's Rent to Buy a Set of Puffs" (c) "We've Sold the Grand Piano to Make Room for Lucy's Hat."

The fact that a person named John Henry Smith is a distinguished citizen goes to show a name is not an insurmountable obstacle. John, who was a prominent figure at the irrigation congress in Albuquerque, has been equally prominent at the commercial congress at San Antonio this week.

A Hungarian government agent says conditions in Pennsylvania are bad and he may recommend that his government takes measures to reduce emigration of subjects to this country. If he thinks that will make Americans sherry he has another guess coming.

London's arrested suffragettes found and missed the tribunal that dismissed them without trial. When a woman has had herself measured for a corset, and observes the tape being unrolled away, naturally she loses her temper.

Every dog has his day, but the night belongs to the cats—the cat, and on the political situation. Ponder: Find the cat. — San Francisco Chronicle.

The Kansas City Journal says 29,000 Republicans voted against Stables and for his opponent. In spite of the post mortem it is nevertheless quite evident that a man named Stables, who is governor of Kansas, is "in our midst," so to speak.

A French critic thinks the military master of American battleships graduate an "ungracious" effect. The term does not seem to fit any known conditions of naval construction. The critic might as well have called the masts impolite.

One of the New York pitchers will get \$15,000 next year. That amount would support twenty-five preachers in comparative luxury. But there is a world of difference in the drawing powers of pitching and preaching.

Society item—Mrs. Tom Thumb gave a small party in Boston Wednesday on the occasion of her 59th birthday. Each of the guests received a miniature finger bowl.

Colonel Roosevelt has bought a Kentucky bluegrass saddle horse named Kaiser. That, at last, makes him the "man on horseback." But can he ride back?

The proprietor of a Limburger cheese factory has donated half a million to charity. His business motto is, "When you do a thing do it with all your might."

By the bye, what has become of Thomas W. Lawson, who used to give the public daily half page bulletins on how to put the rollers under the system?

Jack Johnson is suffering from a nervous breakdown. No blame attaches to the distinguished Californian, Jim Jeffries.

President Diaz seems to think the iron hand operates more satisfactorily when unnumbered by a velvet glove.

England seems to hesitate a good deal about parting with so ornamental an institution as the house of lords, but it will do so sooner or later.

Suspense finally killed Crippen.

HE'S NOT AGAINST STATEHOOD, SAYS FERGUSSON

Well Known Democratic Leader Makes Clear His Position on the Constitution.

Albuquerque, N. M., Nov. 24, 1910.

Editor Morning Journal:

In the issue of the Morning Journal of this date you use, among other expressions relative to the undersigned, the following words:

"He has announced that he will fight the constitution, and thus fight statehood, because the document enslaves the people in political peonage."

The words to which I particularly object are these: "And thus fight statehood," which words place me, and all others who object to the constitution as just promulgated by the convention, in the attitude of opposing statehood.

To show that this accusation is incorrect, some of it inadvertently made, I quote briefly from the enabling act of congress authorizing our admission to the Union with Arizona, to-wit:

"If a majority of the legal votes cast at said election shall reject the constitution the said canvassing board shall forthwith certify said result to the governor of said territory, together with the statement of votes cast upon the referendum or rejection of said constitution, and also a statement of the votes cast for or against such provisions thereof as were separately submitted to the voters at said election, whereupon the governor of said territory shall, by proclamation, order the constitutional convention to reconvene at a date not later than twenty days after the receipt by said governor of the documents showing the rejection of the constitution by the people, and thereafter a new constitution shall be framed and the same proceedings shall be taken in regard thereto in like manner as if said constitution were being originally prepared for submission, and submitted to the people."

It is therefore plain that in opposing this constitution, the first offered to the people, I am not opposing statehood, even under the present enabling act.

That enabling act provides for a referendum of the first draft of a constitution to the people, to be by the people passed upon, and if the people reject it, the constitution will amount to instructions by the people to their servants, the delegates composing the constitutional convention, to write another constitution.

I stood by at every session of the constitutional convention, and saw the instrument made, and know also its most significant omissions. I believe, from intimate acquaintance, not only with the every provision, but with the manner and conduct with which the majority turned down every progressive principle, that the constitution as so far framed is in the hands of the new state, and that if the people will reject it under this independent referendum provided by congress, the delegates will, on reconvening, make a better constitution, and that long before the next presidential election we shall become a state, under the enabling act, and under a constitution which will insure to the great, moral, progressive public opinion of our state some order in governing the state of New Mexico.

That is the kind of statehood I am for, and it is the kind of statehood which we are getting. If we show the masses and ourselves that the people have nerve as well as intelligence. H. B. FERGUSSON.

How the Settlers Look at It.

Albuquerque, N. M., Nov. 22, 1910.

Morning Journal, Albuquerque:

I gather from the general news that you are proposing a form of government more nearly founded on common sense than on the rule of "one man power" and "solid South" ideas which prevail here. Can you send me a copy of your constitution and any other information at hand on lines which would be of benefit to a possible settler in your state?

Yours truly,

H. Y. THOMPSON.

Editor of the Albuquerque Morning Journal, Albuquerque, N. M.

Your subscribers and the people of New Mexico generally look to you for the truth about the removal of the settlers surrounding the removal of George S. Kibbe, regardless of where it may lead.

Give us the facts, no matter who may be hit.

Faithfully yours,

ELMER E. STUDLEY.

In reply we would say to Mr. Studley that the Morning Journal has published all it knows about this episode and if he is in possession of any further information we should be glad to have it. We believe the facts on both sides of the case have been tolerably well covered in this paper.

PLAN TO EDUCATE PEOPLE ON DIRECT LEGISLATION

San Juan County League Thoroughly Organized to Disseminate What It Believes to Be True Gospel.

(Special Correspondence to Morning Journal)

Albuquerque, N. M., Nov. 22.—The San Juan County League, which was held at Pajarito last Saturday was attended by about thirty voters, in spite of the bad weather. The meeting was presided over by Robert Woods as president and William Butler as secretary.

This was a temporary organization, and was followed by brief statements of the objects of the meeting by L. C. Van Hook, Wm. Butler and others.

The objects as stated are the dissemination of information among the people of what direct legislation means. It is a movement to educate the voters along lines of popular government, which have proven effective in other states.

The name of the organization will be the direct legislation league, and its temporary officers are: Robert Woods, president; L. C. Van Hook, vice president; G. W. Lawrence, treasurer; Wm. Butler, secretary.

A board of seven directors, who will also act as a membership com-

ALREADY PLANNING FOR MOUNTAINAIR CHAUTAUQU

Arrangements Under Way to Make Fourth Annual Meeting of Assembly Bigger and Better.

(Special Correspondence to Morning Journal)

Mountainair, N. M., Nov. 22.—The fourth annual meeting of the Mountainair Chautauqu will be held August 2 to 12 next year. The normal in connection with the Chautauqu will begin two weeks earlier and last four weeks and the Santa Fe has granted a rate of one and one-fifth fare for thirty days beginning with the date of the normal. This makes an ideal arrangement for conventions and all kinds of summer meetings and the hospitality of the Santa Fe, including the use of the magnificent lake, is an additional attraction.

Chautauqu park for any educational or religious organization during this period. Mountainair is centrally located and has a summer climate unsurpassed in the entire Rocky Mountain country and in addition has many places in the immediate vicinity of historical interest and there is no better place in the southwest to spend a summer vacation.

The normal in connection with the Mountainair Chautauqu will begin next year, July 17, two weeks before

Cottolene

Perfect Piecrust

A lady recently visited a friend in Keene, N. H., whose husband was very delicate, and yet she noticed that he could eat all the pie he wanted. She began to wonder how it was that he could do it, when she had to give up this delicacy because of disagreeable after-effects. She writes as follows:

"I found it was because the pies were made with Cottolene; and as I am a great lover of pie, I began using Cottolene, and have never had a bit of heart-burn since that time. I now enjoy my pie, as it does not give heart-burn as formerly."

Cottolene makes crisp, flaky, digestible piecrust, that tastes good, and that can be digested by any stomach. The reason is that Cottolene is a pure, vegetable oil product, containing no hog-fat.

Cottolene shortens your food—Lengthens your life

Made only by THE N. K. FAIRBANK COMPANY

RINCON BOOMING; STEADY INFLOW OF SETTLERS

Modern Methods of Agriculture
Revolutionizing Conditions in
Southern Part of Rio Grande
Valley.

(Special Correspondence to Morning Journal)
Rincon, N. M., Nov. 23.—Things appear to be working by the rule of contraries in Rincon. While other sections of the country are suffering a general depression of business it is more active here than it has been for years. Instead of hard times it appears to be on the eve of a genuine boom. To this agreeable condition of affairs several things contribute. First, its location with reference to the Elephant Butte dam, being the first shipping point south of the dam, its accessibility to market by reason of the railroad junction, the amount of land around it now in cultivation, the water supply which rarely fails, and last, but not least, the low price of land. Having done little advertising or boosting, there has been nevertheless a steady inflow of new people, not speculators but actual settlers, practical farmers who are buying out the natives and installing modern methods of agriculture. New homes are going up, increased acreage put in cultivation, and during the past six or eight months the entire aspect of the valley has undergone a change. The town of Rincon is just beginning to feel the effects.

The large stone store building belonging to J. M. Hoy has been leased recently to Alexander Fraije, who represents a company of foreign capitalists who are going to open a general mercantile and produce business. They will not only retail to the local trade, but do a jobbing business with outside towns and rural communities. They expect to build alfalfa sheds and storage barns at an early date. This will enable the valley farmer to dispose of what he grows for cash at the highest market price, and will supply the impetus to farming which this section has long needed.

Ground was cleared this week for an opera house and public assembly hall which is being erected by Judge E. C. Priest. It will be of concrete construction and a thoroughly modern up-to-date building of its kind. Work on the big reservoir which is being installed by Wm. Palmer, Jr., is nearing completion and when it is finished Rincon will have a good water works and ample fire protection.

It is expected that the electric light plant which has been shut down for several weeks will be in operation in a short time.

J. M. Hoy, whose hotel and residence were burned a few months ago, has been busy engaged building a residence on his ranch near town and making other improvements. He expects to install a pumping plant for domestic water supply and irrigation purposes, and will put a considerable increase in cultivation next year.

The Royal Neighbors will hold a public entertainment and lunch tonight at A. O. U. W. hall. Light refreshments—everybody invited. Admission ten cents.

MURDER IN SECOND DEGREE, VERDICT IN HARRIS CASE

Negro Who Killed Well Known
Cow Man Near Carlsbad
Recommended to Clemency
of Court.

(Special Dispatch to the Morning Journal)
Rowell, N. M., Nov. 24.—After being out over night the jury in the Harris case returned a verdict early this morning of murder in the second degree, and recommended the clemency of the court. Harris is a young negro who killed Kluge W. Marchant, Jr., a cowman, at the Washington ranch, twenty miles south of Carlsbad, last August. Harris killed Marchant with an ax, but claimed self-defense.

The Rowell high school this afternoon held the second term of the New Mexico Military Institute on the cadets' gridiron, 6 to 0.

FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Cures.

The active medicinal ingredients of Rexall Orderlies, which are entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c and 50c. Sold only at our store—The Rexall Store. The J. H. O'Reilly Co.

NEAR DEATH BY SMOTHERING

Patched Up Relief Temporarily,
But Insistent Husband Finally
Effects Deliverance.

Stewart, Va.—"There never has been," says Mrs. Helen Dalton, "and never will be, a medicine to compare with Cardui. I suffered for years, and would often almost smother to death. Medicines patched me up for a while, but then I would get worse again. Finally my husband wanted me to try Cardui, so he bought me a bottle, and I tried it. It did me more good than all the other medicines I had taken. I have induced many of my friends to try Cardui, and they all say they have been benefited by its use."

If you are weak and ailing, think what it would mean to recover as rapidly and surely as did Mrs. Dalton.

Cardui will certainly do for you what it has done for thousands of others, with similar troubles.

No medicine without merit could remain in such constant use and show such a continued increase in sales, as Cardui has done. Judge a medicine as well as a man, by success. Cardui is successful.

Cardui has brought health and happiness to thousands of weak women. Why not to you?

Try it.

MINSTRELS STRIKE FUNNY BONE IN THE SOUTH

Big Aggregation of Laugh-
Makers at Elks' Theater
Saturday Night; "Arizona"
This Evening.

The remaining offerings of the week at the Elks' theater are "Arizona" tonight and the famous Georgia minstrels Saturday night. The Nashville Tennesseean says of the latter performance:

Richard & Pringle's famous Georgia minstrels gave a very enjoyable performance at the Ryman Auditorium last night before a good house.

The company was composed of real live negroes, who sang and danced with a continuous round of applause.

The songs, as usual with musical negroes, were superb and the orchestra was also above criticism. The minstrel team was arrayed in dress suits, while the regular minstrel performers were clothed in dapper green garments, which set off to surprising advantage their murky countenances and carmine lips.

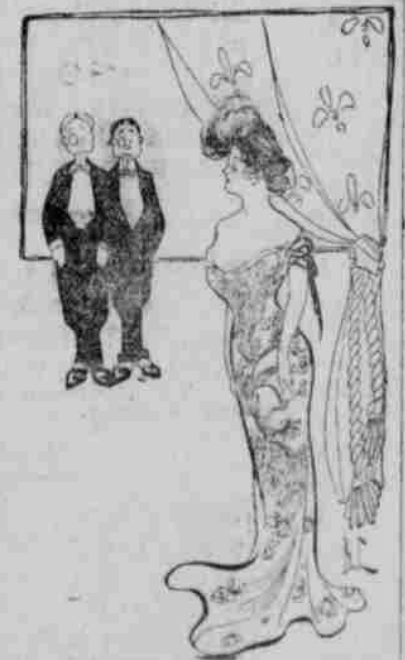

"The Humble Bee," "Songs From the Old Church Choir" and the rest were beautifully rendered and many of the voices would have done credit to any vocalist in this city. The songs, from baritone to tenor, were well-toned and showed the results of good training, besides a natural clearness and ear for music.

The voice of the leader was a baritone which had a truly remarkable range. He sang a solo in which he had to run two scales.

The jokes and the dialogues were about the best ever put on by a minstrel company here, for none of them was of the mossback class, but were new from start to finish. Dr. Cook came in for his share of reflected glory in the witty sayings of the black comedians.

On the whole the show is a great credit to the company, and no one could spend a more pleasant hour than in listening to the songs and music of this well-trained company.

HE WAS GLAD.

Jack—Her father cried all during his daughter's marriage ceremony.
Jim—That was a bluff. He was laughing so much in the vestibule he could hardly keep his face straight when he entered the church.

ARABIC NOBLES IN SPECTACULAR PROCESSION

STREET PARADE GREETED
BY A REAL OVATION

Large List of Victims Crosses
the Blistering 'Dobe; Brilliant
Banquet Ends Day's Pro-
gram.

Seldom in the history of Shrinism in New Mexico has there been a more spectacular street parade than that held yesterday afternoon, starting at two o'clock, by Ballut Abayad Temple, A. A. O. N. M. S., in Albuquerque, the opening stunt of a half day crowded to the limit with Shriners' stunts. The parade was witnessed by a good sized crowd and did great credit to the Shriners' ingenuity for which the Shriners are noted.

A large class of hapless candidates which later hopped singly and plaintively across the super-heated desert sands, was a feature of the parade.

Most of the afternoon and evening was given over to the ceremonial session, the duties of which were reasonable and arduous, judging from the appearance of the Shriners and the candidates when the ball was over. The prolonged session made the more welcome the brilliant banquet in the evening at 10 o'clock at the Alvarado, the appointments and menu being such as have made the Alvarado and Manager Southern famous and calculated to refresh the inner man, mentally and physically.

Imperial Potentate Fred A. Hines, just arrived from big things at Austin, Texas, was the guest of honor and the attending members of the Shriners, but Abayad was distinguished one.

A dispatch from Austin, Texas, dated November 21, says:

The Shriners of Texas today had the most successful day in their history, when the four Texas temples, Ren Hur, El Mado, El Mina and Hella, joined in a joint ceremonial and inducted into the mysteries of the order eighty-one novices from all parts of this state.

Imperial Potentate Fred A. Hines, of Los Angeles, Cal., was here for the meeting, which he pronounced the most successful state meeting ever held, and he addressed the Shriners in their secret chamber and was made an honorary member of all four Texas temples.

Crowd Numbers 1500 to 2000. Last night's dispatches told of the arrival of the grand procession from Galveston and Houston. Morning trains brought those from San Antonio, El Paso, Fort Worth and other points, and between 1500 and 2000 Shriners were in the city for the occasion.

Among the Shriners came a number of their wives and daughters from all portions of the state, and they were amply cared for by the Austin nobles. In the morning they were the guests of an informal tea. Later they were taken for an automobile ride over the city and tonight were the guests at one of the most brilliant receptions and balls ever given in Texas. The ball was held in the Drabill hotel and fully 1200 persons were in attendance.

The initiation of the eighty-one novices took place in the hall of the representatives of the state, and the guests of the ceremony were willing to testify that they were really initiated. The Hella patrol from Dallas temple carried out the first part of the work, while the El Mina patrol from the Galveston temple carried out the "horrorplay."

STAR OF NEW STATE PROMINENT AT BANQUET.

The Alvarado dining room, so many times the scene of brilliant affairs, was last night at the Shriners' banquet unusually beautiful and rang with the cheer of fraternity and good fellowship. Probably a more elaborate scheme of decoration was never attempted in the history of the state, and the interior than that of the present shaped table at which the Imperial Potentate presided. The flag with a New Mexico star formed the background and surrounding the table were flowers, formed of flowers. A huge fish made of red carnations and everlasting was suspended over the head of the potentate and similar extended to the ends of the room, and the walls were covered in a wealth of roses and greenery.

E. C. Allen, illustrious potentate of Ballut Abayad temple, and Dr. J. W. Elder, toastmaster, sat at the table with Mr. Hines, imperial potentate.

The table faced three long tables and covers were laid for one hundred and twenty-five guests. Decorations throughout the whole interior were superb, consisting of flowers, evergreens, and the stars and stripes draped over the mantle and doors.

Throughout the course of the elaborate spread guests were responded to by Mr. Hines, Noble Cutter of Rath, A. B. McAllen, T. N. Wilkinson, El Mado, Noble Bees of Louisville, Ky., and Noble Shurtle of Medina temple, Chicago.

There was a beautiful toast to absent members and the banquet ended with the singing of "Auld Lang Syne." The menu was as follows:

Blue Points, Mignonette.
Clear Green Turtle, aux Duennelles.
Celery, Salted Almonds, Olives.
Sweetened Peas, Macaroni, Eggs.
Asparagus, Hollandaise, French Peas.
Sorbet, Fennel.
Breast of Malted Duck, Cumberland.
Potatoes, au Gratin, Current Jelly.
French Endive Salad.
Glacéed Sausage, Chicken Cakes.
Cheese.
Toasted Crackers.
Coffee.
Mandarin, Krug Private Curry.
Cham, Cigarettes.
The Big Parade.

Thinking of the future and many others who came down today especially for the occasion viewed the Shriners' parade yesterday afternoon. It was a gorgeous display and an interesting character and comedy stunts as well as a more clever localization.

There were twenty automobiles in line, in one of the most brilliant appearances of the most illustrious potentate Fred Hines was given. Wheelbarrows and other ridiculous modes of conveyance were the instant approach of the large crowd lined up on each side.

COLBURN'S EMPLOYMENT 210 West Silver Ave.

THINK THIS OVER
We advertise no cut prices or special sales, for these reasons:
We have never learned the art of haggling prices. In the second
place we have no dead ones that we have to sell at a trusting
customer. And last, but not least, we believe in giving you your
money's worth and we intend to do that by selling you an under-
side or an inferior article at less money. Our prices, however,
are so low as to be practically unobtainable elsewhere.

Mr. W. Turner, residing near Los
Padillas, one of the city, passed in
Albuquerque yesterday for treatment
of two serious carbuncles on the left
hand, which have been giving him
considerable trouble. Mr. Turner will
return to his ranch Saturday.

The "Mystery of Life," will be the
topic of the concluding sermon in the
"mystery series," delivered at Temple
Albert by Rabbi Mendel Silber at the
Thanksgiving service at 7:15 this
evening. The public is cordially in-
vited, and as these splendid addresses
have proved most interesting to all,
the attendance will doubtless be large.

L. R. Lewis of Socorro, who is
spending a day or two in the city on
route home from Santa Fe, received
last night the sad news of the death
of his mother in England.

**THANKSGIVING IN
ALBUQUERQUE
ENJOYABLE**

Perfect Weather and Plenty of
Good Turkey Cheer; Interest-
ing Services in Various
Churches.

Thanksgiving day in Albuquerque
passed off about as could be ex-
pected. The day was about as perfect
as Albuquerque's weather could ever
be and the morning was a general and
school-morale. The weather, in fact,
was so suitable to spending that
there will be little of the proverbial
second-day afternoon of left-over turkey
in Albuquerque homes.

The events of the afternoon were
the southern parade and the football
game at the city park and everybody
must by shop and turned out to have
a good time. Interesting services were
held in the churches in the morning,
notably the union service at the First
Methodist church, which was largely
attended. "A Way to Know God,"
by Rev. J. J. Ramsey, pastor of the
Episcopal church, was the sermon for
the morning, and a thoughtful and
earnest effort. Rev. R. H. Talbot,
Rev. C. C. Hackett and Rev. S. E.
Alison also participated in the ser-
vices, the musical program being re-
specially well selected and rendered,
participated in by Mrs. Roy McDon-
ald, Mrs. C. A. Frank, Mr. Charles
Andrews and Mr. Samuel French,
with Mrs. Himee at the piano and Mr.
Stanley Seider, organist.
The following Thanksgiving pro-
gram was given at the Immaculate
Conception school:
Thanksgiving Joy . . . Chorus
The First Thanksgiving . . . Recitation
The Rain . . . Recitation
Five Fat Turkeys . . . Recitation
Revelation by Little Ones
Over the River and Through the
Woods . . . Chorus
Sugar Toothed Marie-Clara Recitation
Thanksgiving . . . Reading
A Boy's Town . . . Recitation
Thanksgiving Story . . . Little Ones
Thanksgiving Song . . . Chorus

**COMMERCE COMMISSION
MAKING INVESTIGATION**

Washington, Nov. 24.—The claim of
the Railway Business association that
its members would be put out of busi-
ness unless the railroads were per-
mitted to increase freight rates will be
investigated by the interstate com-
merce commission.
Subpoenas were issued today for
George A. Post of New York, presi-
dent of the association and A. H. Mol-
lath of Chicago, vice-president, to
appear in the pending rate hearing
before the commission.

**THE "INSIDE INN" BARTH WILL WORK
NOW PLEASANT MEMORY FOR ADOPTION OF
ORGANIC ACT**

Crowd at Second Production
Larger and More Enthusiastic
Than First and Clever Show Is
Little Bit Better.

Richly and masterly the "Inside
Inn" has passed into the "land of
nostalgia." There was a larger
crowd last night than on the one
preceding, and it was a responsive
crowd, every member of the audience
during the performance nor bonquets
of speech as they would from the the-
ater and home-made. The show was
not in the least stingy with the
applause.

The show was worth every bit of
it, and goes down in the theatrical
annals as the best home talent pro-
duction ever staged in this city. First
of all, "Inside Inn" is a musical
masterpiece of the high opera cal-
vary with really good music, clever
lines and comedy specialties. It
would score a success, professionally
staged, and would be on the road
save for Bren's desire to keep it ex-
clusively for the best people.

Then Albuquerque is fortunate in
possessing some excellent talent, who
worked hard and consistently under
the direction of Mr. and Mrs. Bren
in their effort to do the best. The
show was a real show, a rattling
good one.

They failed in neither intention
and Lodge 461 and the public are
simply and properly appreciative
and tremendously pleased with the
result. It was a fitting conclusion
to a Thanksgiving Day of brilliant
sunshine and good dinners, and the
receptive mood of the audience lent
itself to the show. The show was
applauded each and every song.
The lodge showed their appreciation of
the work of the principals (the ladies
in a most satisfactory manner
in the great clusters of flowers which
they carried and every song. Sum-
ming it all up, it is hard to say which
was best and which part most perfect
in the impersonation. Perhaps the
chief charm of the opera was the dif-
ferent sort of song to suit each char-
acter part, and all were so well sung
that it would be impossible to say
dumbly better than Landolfi,
or vice versa. Both were splendid in
their work as were the other prin-
ciples—Constantine, Sellers, Mrs. Col-
bert, Mrs. Winchester, Violet De
Tullo, Joe Scotti, Herb Arnold,
George Rankin, and Dave Combs. It
was an all-star cast. "All to the
good," and no dissenting voice will
be heard. Mrs. Bren, who sang
and danced and sang her way straight
into the hearts of the audience, and
there is not the slightest bit of doubt
that a warm welcome will always
await her in Albuquerque. Last night
the chorus work was worthy of
a column of write-up, did space per-
mit, and the singing, dancing and
other pretty action did much toward
making the play the huge success it
proved to be.

Mr. and Mrs. Bren leave this morn-
ing for Santa Fe where the "Inside
Inn" is to be staged this week follow-
ing. They are both talented and well
adapted to their work, and constitute
a working team hard to beat. They
can round up a cast of principals in
an inconceivably short space of time
and the results testify eloquently to
their ability.

Just the name Joe Bren, who as-
sisted by Mrs. Bren means a good
show. This is their second in Albu-
querque and here's hoping they come
back next year and every year after-
ward.

ALCOHOL IN MEDICINE.
Alcohol is the best known preserva-
tive of medical compounds, and the
average proprietary medicine con-
tains from 1 per cent to 25 per cent
which is the smallest possible amount
to preserve the ingredients, while the
average doctor's prescription con-
tains from 25 per cent to 50 per cent.
Such standard preparations as
Lloyd's Eucalypti, Compound, com-
pound contain but 15 per cent and
they even put the Compound up in
tablet form, which the over-scrupu-
lous woman, who objects to alcohol
in any degree, may use.

Chairman of County Demo-
cratic Committee Will Use
Influence for It; Meeting of
Committee to Be Called.

Issue Barth, Chairman of the demo-
cratic central committee of Bernalillo
county, was asked by a reporter of the
Morning Journal, yesterday, what his
position was on the ratification of the
constitution.

"Speaking solely as an individual,"
said Mr. Barth, "I am of the opinion
that while the constitution lacks some
very important and essential provisions,
primarily that of the initiative, and
while there are embodied in the con-
stitution as written, some matters
which do not meet with my approval,
on the whole the constitution is a good
one, and compares favorably with any
constitution adopted by any of the
lower states. It would, of course, be
impossible for any body of men to
write a constitution that would suit
everybody in every particular. And I
think that the proposed constitution
is as good a one as could have been
adopted under existing circumstances
by this convention."

"Furthermore, having staidhood in
mind, and being anxious that state-
hood should not be delayed, it is my
intention to do every thing in my
power, and use whatever influence I
may have, in favor of the adoption of
the constitution."
"I do not know what the attitude
of the democratic party of the terri-
tory will be, but it is my present in-
tention to call a meeting of the demo-
cratic central committee in this city
within the next few days, for the pur-
pose of holding a county convention
in this city, at which will be elected
delegates to the territorial convention,
called by Chairman W. E. Walton of
the territorial committee at which
is to meet at Santa Fe, December 17th."

"Lastly, I am for the state of New
Mexico, and I doubt that even if this
present constitution were defeated,
that we could get any better one, and
for that and the other reasons that I
have given you, I am going to support
the constitution."

**Holiday
Buying**
HAS BEGUN EARLIER THAN
USUAL

People are coming more and
more to see the advantages of
choosing earlier—when the
selections can be made from
ample stocks and at leisure.
This is specially true for:

**THANKSGIVING BALL
IS BRILLIANT**

Big Dance Under Auspices of
Best People Largely Attended;
Music and Appointments
Splendid.

In point of attendance, brilliancy
and appointments the big Thanksgiv-
ing ball at the Elks' building last
night was a notable social success and
one of the big successes of the sea-
son. The splendid music by the Cav-
ernagh-Fuhrmeyer orchestra of six
pieces was largely instrumental in
making the evening enjoyable, and
the committee in charge are entitled
to the highest praise for their able
management of the affair.

Week-End Specials

Below are a number of very special items that
we are offering for today and tomorrow, among
which you are pretty certain to find something
that will delight you and be a revelation in value-
giving.

Curtain Special
About 75 pairs of Curtains in a variety of
weaves, bought from one of our foremost Cur-
tain manufacturers, at a sacrifice, in lengths
from 2 1/2 to 3 1/2 yards, in white, ecru and
Arabian. Values \$2.50 to \$3.00 at \$2.00 the
pair. See window display.

Ribbon Special
We have just received two lots of fancy warp
printed ribbons, which will be of unusual interest
to those making dainty little ribbon novelties for
the holidays. We have priced these two lots at
35c and 60c a yard. They are usually sold at
50c and 75c a yard.

Handkerchiefs at Less
Three lots of Lawn Handkerchiefs in hem-
stitched, embroidered edge or embroidered cor-
ners; our 12 1/2-c and 15c numbers, on sale at
10c each. Not less by the dozen.
New lines in uncommonly attractive designs and style
now on display.

Hosiery Special
WOMEN'S extra quality, medium weight, black
cotton hose, made from fine quality Waco yarn.
Our 25c number for . . . 20c
Our 20c number for . . . 15c
CHILDREN'S Black Silk Lisle Hose, GORDON
DYE. Our 35c number, until Saturday night, at
25c a pair.
It will be an easy matter to find exactly the quality
you want and the price you want to pay for hosiery in
our complete stock.

**Wise Talks by the
Office Boy**

I heard some boys arguing about
the longest word they would think of.
The decided "smiles" was the long-
est because there was a "mile" be-
tween the first and last letters.
Cheerful people move through life as
a band of music moves down the
street, flinging out pleasures on every
side through the air to everyone, far
and near, who can listen. There are
some salesmen whose first speech to
a prospective customer is like the ad-
vent of spring, after a hard winter.
They bring a burst of sunny
weather. It is as if someone had
opened a window in a stuffy house.
Our salesmen are awfully pleasant
and obliging. You'll like them. I
know you will. Then our goods are
so good and reliable, and so reason-
ably priced, our store is so well kept
and our service so good and every-
thing has the air of prosperity. We
say to ourselves every day, the peo-
ple of the west ought to use our
goods. It will be to their advantage
to do so. They don't know it, or
they would all be customers of ours
now. It's my job to show them, to
make them want our goods. We
know we can give them better values
and better service, and we are de-
termined to make them realize it. It
may not be good taste to be so per-
sistent, but the boss is terribly in
earnest.
