MOYER CONFIDENT FEDERATION WILL ACCEPT MINERS

Head of Western Organization Believes Struggle for Admission Into American Federation Is Won.

(By Morning Journal Special Leased Wire) St. Louis, Nov. 27.—The Western Federation of Miners' application for a charter in the American Federation of Labor, will be settled in some manner tomorrow, according to an impression among labor leaders here tonight. The executive council of the federation heard the arguments for and against the proposition today but no announcement was made except that the hearing would be continued at the session tomorrow.

Charles H. Moyer, president of the Western Federation of Miners, was optimistic over the probable outcome. He said that if his organization was not admitted to the American Federation directly, he was sure it would be only a matter of a short time before it would enter into affiliation via the United Mine Workers of America. Most of the opposition to the proposition has disappeared, it was said tonight, leaving President James O'Connell and the International Association of Machinists, practically alone in the fight.

WELLS FARGO LOSES TREASURE; THREE EMPLOYEES DEAD

Five Thousand Dollars in Silver and \$11,000 in Unsigned Currency Disappears From Safe.

(By Morning Journal Special Leased Wire) Muskogee, Okla., Nov. 27.—Three employees of the Wells Fargo & Co. express are held pending an investigation into the mysterious disappearance of an iron chest containing \$5,000 in silver and \$11,000 in unsigned currency. The chest was removed from the express office here today. The padlock of the door had been broken, the employees stating they were all absent at the time of the robbery.

YOUNG GIRL FACES TRIAL FOR MURDER

Seventeen-Year-Old French Canadian Miss Charged With Killing Her Employer.

(By Morning Journal Special Leased Wire) Cambridge, Mass., Nov. 27.—A wife of a girl, Hattie Le Blane, just 17 years old, will be placed on trial in the Middlesex county superior criminal court tomorrow charged with the murder of her employer, Clarence F. Glover. The girl was a domestic in his family, was found three days later under a bed in the Glover home.

MURDERED BODY OF WOMAN FOUND IN ROADSIDE

Denver Italians Declare Victim Was Slain to Prevent Her Giving Information to the Police.

(By Morning Journal Special Leased Wire) Denver, Colo., Nov. 27.—The Italian quarter is wild with excitement tonight over the discovery of the body of one of their countrywomen, frightfully murdered, in a roadside ditch, six miles north of Denver. Giuseppe Cella, a member of the colony, said tonight that he believed the body to be that of his wife, Mrs. Dorotea Lattuada Cella, who has been missing nine days. The police say the woman was probably murdered to keep her from divulging information desired by the authorities.

Detectives, who were rushed to the scene in automobiles, found the woman's throat cut from ear to ear. The work had not been smoothly done, and the neck was gashed below the principal wound. A bit of blanket, found about the victim's wrists, showed that her hands had been held.

DECISION EXPECTED ON IMPORTANT LITIGATION

Amalia, the wonderful Jap.

This Week's Work of Supreme Court Expected to Settle Cases of Widespread Interest.

(By Morning Journal Special Leased Wire) Washington, Nov. 27.—With the re-opening of the supreme court of the United States after its Thanksgiving recess, it is expected the court will announce several important decisions.

Among the cases under consideration are those involving the constitutionality of the Crampton amendment to the interstate commerce laws making initial carriers liable for loss of shipments on connecting lines; the constitutionality of the Missouri passenger rate law; the constitutionality of the "full crew" acts of Arkansas and Indiana; the constitutionality of the "labor contract" law of Alabama; the validity of the so-called "Panama canal bill" indictments of the Press Publishing company of New York; of the indictment of Gustave E. Kiesel of Philadelphia for alleged violations of the Sherman anti-trust law; of F. Augustus Holmes of New York for alleged violation of the national banking laws; and of James T. Barber and Sumner G. Moon, both of Eau Claire, Wis., on charges of violating the land laws.

The court will listen to arguments early in the week in several Indian cases. These involve the validity of legislation allowing the enrollment of about 5,000 Cherokee Indians born after September 1, 1902, when the roll of Indians for the allotment of lands was perfected, and also the validity of the legislation extending the restrictions of sale on lands allotted to Cherokee Indians from five to twenty-five years.

GOMPERS ACCUSED OF MALICIOUS SLANDER

Mayor of Tampa Resents Utterances of Labor Leader and Calls on Governor of Florida to Investigate.

(By Morning Journal Special Leased Wire) Tampa, Fla., Nov. 27.—The discussion of the Tampa cigar strike situation before the American Federation of Labor and the renewed representations made by Samuel Gompers and other labor agitators, are respectfully invited to visit our city at your earliest convenience, make a thorough investigation and give your findings to the public.

COUPLES HOME RULE AND SOCIALISM

Leader of English Conservatives Declares These Two Forces Back of Movement to Abolish House of Lords.

(By Morning Journal Special Leased Wire) London, Nov. 27.—The election address of Arthur J. Balfour, leader of the opposition in the house of commons, is a brief document. It declares the unionist program to practically the same as at the last general election, and asserts that behind the single chamber conspiracy lurks socialism and home rule.

RYAL FACTIONS RIOT IN DUBLIN; SEVERAL KILLED

Dublin, Nov. 27.—John Redmond's campaign in Cork against William O'Brien has led to serious rioting in the rival factions. Several persons were injured there last night and again tonight.

When a Bonaparte procession tried to march through an O'Brienite quarter of the city, a riot broke out. Fighting ensued and about thirty persons were injured. A great demonstration was held in Dublin tonight with torchlights, bands and fire-works in honor of the return of Joseph Devlin, who addressed an enormous crowd on college green on the success of his mission to America.

SERVED COUNTRY ON MANY BLOODY BATTLEFIELDS

General Oaks, Who Saw Service in Mexican and Civil Wars and Against Hostile Indians, Expires Suddenly.

(By Morning Journal Special Leased Wire) Washington, Nov. 27.—General James Oaks, who was retired in 1879, after thirty years of active duty, including service in the Mexican and Civil wars as well as in Indian uprisings in the southwest, sank unexpectedly to the pavement today near his home, and died twenty minutes later at a local hospital, death being caused by heart trouble.

He was born near Limestone, Pa., April 4, 1829, and was educated at the University of Pennsylvania, and the United States military academy. He served for a time in the faculty of the academy, but at the outbreak of the war with Mexico, accompanied General Zachary Taylor and was brevetted first lieutenant. He was later assigned to frontier duties against the Indians in northern Arizona and in 1861 reached the rank of lieutenant colonel, being assigned to the Fourth cavalry. He became colonel of the Sixth cavalry that same year after distinguished service in the Tennessee and Mississippi campaigns. He was made brigadier general by brevet March 30, 1865.

At the close of the civil war, he was head of the Freedmen's bureau at Austin, Texas, and later again saw service against the Indians of the southwest. He was retired at his own request on April 29, 1879, and spent most of his time since in New York, Pittsburg and Washington.

Minstrel man. Gen. tonight. You funny nigger, Tom Rogers.

INCOMING VESSEL REPORTS BAD STORM AT SEA

Wireless Apparatus of Liner Celtic Carried Away Cutting Off Communication With Shore.

(By Morning Journal Special Leased Wire) New York, Nov. 27.—The White Star liner, Celtic, arrived today from Liverpool via Queenstown and reported a heavy gale. On Friday a storm her wireless apparatus in the rigging was carried away, cutting off all communication with the shore as the vessel neared port.

WHISKEY FUMES TO CURE PLAGUE

Evaporated Booze Recommended By Disciple of Barleycorn for Relief From Tuberculosis.

(Special Correspondence to Morning Journal) Portland, Ore., Nov. 26.—Of cures for the great plague there is no end, but Portland man has sprung a new one that he declares is efficacious. This is none other than the fumes of whiskey. He says a sufferer from tuberculosis of the lungs should inhale whiskey vapor as much as possible, and particularly before retiring at night.

E. W. Moore, a well known photographer of this city, has made known the above treatment. He says that he has demonstrated in two instances that it is effective and he feels confident that it gives a fair trial it will cure the dread disease. "A year or so ago," said Mr. Moore, "I had a friend who was afflicted with tuberculosis and who went to Arizona in the hope that the climate might effect a cure. He failed to improve, and returned home to spend the last days with his relatives. While he was in Arizona, I had heard of a quack remedy which I had never before heard of being tried. Physicians often prescribe whiskey for persons with affected lungs, but I had never heard of the small percentage of the drug that reaches the lungs in a vapor. I thought that by inhaling the fumes it better result would be obtained. I secured a small cask that had contained whiskey and poured a small quantity of liquor into it to make the odor stronger. I induced my friend to inhale the vapor through a rubber tube. After a few months he was cured. He weighed 125 pounds, today he tips the beam at 135 pounds."

"I have another patient who I am treating similarly and the results are so satisfactory that I am confident that the remedy is a success."

DEEPEST NO LIVES WERE SACRIFICED IN ALASKAN FLOOD

High Hills Along Behring River Valley Afforded Prospectors Opportunity of Escaping Rushing Waters.

(By Morning Journal Special Leased Wire) Cordova, Alaska, Nov. 27.—Although several prospectors and loggers were at work along the shores of the Behring river when the glacial flood which swept down the valley several days ago started, the forestry department believes that no lives were lost. The high hills that border the river made it easy for the prospectors and homesteaders to get out of the danger zone.

Forest Ranger Johnson will leave Cordova next week for a tour of the flood-swept district to ascertain the extent of the damage. He will also investigate conditions in the glacial district in order to discover the origin of the flood. Five great glacial lakes form a chain between Carbon mountain and Behring glacier. Those familiar with conditions in that district believe that the action of the glacier cut under the rim of one or more of these lakes causing them to empty with a rush into the valley below. The chain of lakes is ten miles long. The lakes are about a quarter of a mile wide and have an average depth of two hundred feet.

OWENS TAKES CARE OF ALL CHECKS ISSUED

Roswell Man Returns From Vaughn and Makes Good on All Paper; He Heir to Snug Fortune.

(Special Dispatch to the Morning Journal) Roswell, N. M., Nov. 27.—Solon M. Owens, who was yesterday accused of issuing a number of bad checks, has returned here from Vaughn. The amounts of the alleged worthless checks have all been made good by him, and he returned from Vaughn of his own accord. He is the heir to the Owens estate, estimated to be worth in the neighborhood of \$25,000. Reports that Owens carried a Winchester rifle the past week are now declared to be false.

MICHAEL CUDAHY SUCCEUMBS TO PNEUMONIA

Remarkable Career of Man Who Rose From Butcher Boy to Head of Great Packing Concern.

(By Morning Journal Special Leased Wire) Chicago, Nov. 27.—Michael Cudahy, founder of the packing firm bearing his name, died at 8:45 o'clock tonight at a hospital here of double pneumonia.

Mr. Cudahy had been ill five days, the disease becoming serious Saturday morning. Mr. Cudahy was born in Cathlamet, county Kilkenny, Ireland, December 27, 1842. He came to the United States with his parents in 1849, the family settling at Milwaukee. In 1865, while a boy of fifteen, Mr. Cudahy became an employee in a Milwaukee packing house and this marked the beginning of his career in the industry in which he took a prominent part.

From a butcher, Mr. Cudahy moved up rapidly to foreman, packing house manager and meat inspector. At this time he attracted the attention of the late P. D. Armour, and at the latter's solicitation came to Chicago. In 1873 Mr. Cudahy was made a partner in the firm of Armour & Co. He continued in this connection until 1890, when he was instrumental in organizing the Cudahy Packing company of which he was made president. His associates, John and Patrick, were associated with him.

The firm established numerous branch houses and became well known in Milwaukee, Chicago, Kansas City, Omaha, Los Angeles, Sioux City, St. Louis and other packing centers. Mr. Cudahy also was interested in various other lines of business. He was one of the chief organizers and presidents of the North American Transportation and Trading company. He was known as a club man and fond of amateur sports. He was an enthusiastic yachtsman and golfer, and a member of the Union League Club, Yacht, Knickerbocker, Glenview Golf and Sheridan clubs, all of Chicago and vicinity.

ORATOR BLOWS OUT THE LIGHTS

Three Dollar Jury Award in Case at Ft. Sumner, Wherein Peanuts and Sweet Potatoes Figure.

(By Morning Journal Special Leased Wire) Ft. Sumner, N. M., Nov. 27.—The justice of the peace court had a hard day of it Saturday, being in session until after midnight. The occasion was a dispute of civil action entitled *Mannan v. Brown*, and about all of Fort Sumner's legal talent was arrayed on one side or the other, and law, as it is practiced in Fort Sumner, was exemplified to its finest point. One of the orators in a thundering burst of eloquence related the atmosphere to such an extent that the lights went out, as did also the spectators who could go away one case scholar.

Mannan v. Brown was a case wherein the plaintiff was awarded \$3 by a jury. Peanuts and sweet potatoes appeared to be the principal bone of contention and one of two of the legal lights went out. The case was a dispute over the value of the Pecos valley goods that he will hereafter be known and possibly rise to fame on his reputation as a "peanut lawyer."

WEALTHY CHICAGOAN WILL TAKE 50,000 ACRES OF NEW MEXICO LAND

(By Morning Journal Special Leased Wire) Raton, N. M., Nov. 26.—The fact that an unprecedented interest is being rapidly stimulated in New Mexico agricultural land throughout the east, is attested by a multitude of fresh evidences that are daily calling attention to the focusing of the land hungry eyes to the west. The following letter published in the Raton, just received from the president of the Graham Lumber company of Chicago, a large concern cutting over four billion feet of lumber per year, is a fair illustration of the nature and pretensions of the interest being turned to Colfax county and entire New Mexico:

"Chicago, Ill., Nov. 21, 1910. 'Commercial' Clarendon, N. M. 'Gentlemen:—I am looking for a large tract of land, from 5,000 to 50,000 acres, suitable for ranch or general farming purposes. I want cheap undeveloped land that can be bought for less than \$10 an acre. Land suitable for irrigation would also be considered. If you will forward me lists of any such proposition in your territory, or will refer my request to people who have such propositions for sale, the same will be very much appreciated by yours truly, R. E. GRAHAM."

KNIGHTS OF COLUMBUS IN BISBEE PLANNING FINE LODGE BUILDING

(By Morning Journal Special Leased Wire) Bisbee, Ariz., Nov. 26.—The Bisbee Council of Knights of Columbus has purchased two lots lying between the Lockie house and the W. Wallace property, across from the Central school building, upon which they will shortly commence the erection of a club house and lodge building. All arrangements for the start have been made, funds for building purposes having been arranged for yesterday. The building when completed will represent an expenditure of between \$300 and \$10,000.

The building is to be two stories and will occupy a ground space of 20x75 feet. The club rooms will be located on the second floor. The first floor will be devoted to lodge purposes. The material to be used in the construction of the building will be cement block and brick.

The building will be drawn at once and construction begun during the month of December. It is expected that the building will be ready for occupancy by the middle of March, 1911. In order to carry through the financial arrangements without a hitch, a building association will be organized among the lodges.

GENERAL THOMAS IS ORDERED TO THE FRONT WITH INFANTRY COMPANY

Prescott, Ariz., Nov. 26.—General Thomas, with company B, of the Eighteenth Infantry, Captain Miller commanding, left for the Mexican border. It is understood that the general will go to Douglas and that the detachment of infantry will be ordered to Fort Huachuca. The cavalry at Fort Huachuca has been ordered to the border to assist in maintaining the neutrality laws.

VALUABLE DATA ON PRECIPITATION IN NORTHEAST

Weather Bureau Issues Useful Climatological Information on District From Mountains to Texas Border.

(By Morning Journal Special Leased Wire) Albuquerque, N. M., Nov. 27.—Valuable climatological data on the northwestern New Mexico district, accompanied with precipitation charts and tables is given in a bulletin just issued by the weather bureau, which is in part as follows:

Northeast New Mexico includes the region from the crest of the Sangre de Cristo range to the Texas border, and from the southern boundary of Guadalupe county (about 34 degrees, 25 minutes north latitude) northward to the crest of the Sangre de Cristo range in western Colfax and western Mora counties. It has a very large amount of broken and comparatively high altitude country. The main range along its western border places an immense barrier there, which, however, slopes toward its southern end into the low mountains of the Federal. The cross ranges are insignificant, except the Raton range, along the northern border of the state, which continues in a series of broken mountains and high plateaus far into eastern Colfax county. Several peaks are about 8,000 feet above sea level. The main range in the district is the Cimarron mountains in western Colfax county and the Turkey mountains in western Mora. Low mountains and high plateaus, with many abrupt and often deep canyons, are quiet general over the district, except in the extreme south where the Arkansas and two of much importance, the Canadian and the Pecos, rise in the northern and western parts of the district.

Well within the plateau region there are many miles of comparatively level country, scores of more or less extensive mountain valleys, and mesas that afford many thousands of acres of fertile land throughout the east, cultivated, and that is rapidly being reclaimed by irrigation enterprises, or by improved farming methods. Considerable timber covers the mountain slopes, while most of the high plateau country is more or less covered with dwarf pine, pinon, and cedar, but the lower plateau country and the plains are barren.

The precipitation of the district is mostly received in the form of local showers during the months from April to September, inclusive; July and August being the months of greatest rainfall. In almost all of the district within the state, the smallest precipitation of the district occurs in a strip passing through its center north and south along the eastern slope of the Raton range, and the central San Miguel, and eastern Guadalupe counties. In this strip the average annual precipitation falls below thirty inches in most places. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. To the east the annual precipitation increases to seventeen or eighteen inches in Union and Pecos counties, with the one marked exception of extreme northeast Union county, where the annual fall is less than thirteen inches, partaking of the dry conditions of extreme southeast Colorado. To the west of this strip of low precipitation the annual average increases to eighteen inches over the rest of the strip. DIAMOND THIEF IN TOILS; DOES NOT SEEM INSANE

OWENS CAUGHT WITH
\$640 CASH AND GEMS

Taken Back to Roswell to Face
Trial for Issuing Five Thousand
Dollars Worth of Bad
Checks.

[Special Correspondence to Morning Journal]
Roswell, N. M., Nov. 27.—Charged
with issuing worthless checks here to
the extent of five thousand dollars,
Solon M. Owens was brought back to
Roswell today from Vaughn with his
automobile in which he fled last
night, six hundred and forty dollars
in cash, two big six-shooters and
plenty of ammunition and the four
thousand dollars worth of diamonds
which he bought in Roswell with the
bad paper before leaving. Owens was
captured at Vaughn by a deputy
sheriff who at once wired here, and
Deputy James Johnson went over and
got the man. This afternoon Owens
gave bond in the sum of twenty-five
hundred dollars for his appearance
before Justice R. D. Bell, Monday
morning. Bond was given by George
M. Slaughter, Mrs. Myrtle Lewis and
Mrs. Nellie Chevalier, sisters.
Since Owens' return here generally
believed that he is not insane as at
first thought, but only a particularly
naughty crook. He has nothing to
say.

THREE YEAR OLD CHILD SHOT BY OWN HAND

LAS VEGAS INFANT DIES
FROM AWFUL ACCIDENT

Arthur Raymond Thinks Six
Shooter Is Pretty Toy and
Pulls Trigger With Fatal Re-
sults.

[Special Correspondence to Morning Journal]
Las Vegas, N. M., Nov. 26.—Shot
through and through by a revolver
bullet in his head this morning, the
three-year-old Arthur Raymond
Lyons, child of Mrs. Laura Lyons,
who lives on a ranch two miles south
of Las Vegas, died in the hospital
here this afternoon. The bullet
passed through the baby's abdomen
and the boy died a few hours after-
ward. The widowed mother and the
sixteen-year-old sister, Edna, kept a
revolver to shoot coyotes, and Edna
was in the habit of having it under
her pillow. She left it there this
morning when she arose, and later,
forgetting about the gun, laid the
baby in her bed. No one saw the
accident. The sound of the shot
brought the mother and sister run-
ning in, and they were almost paral-
yzed with horror to find that the
baby, evidently thinking the revolver
was a new kind of toy, had accidentally
discharged it. The accident is the
saddest because the father died only
a few months ago.

ORGANIZATION OF THE ESTANCIA IRRIGATION DISTRICT A CERTAINTY

[Special Correspondence to Morning Journal]
Estancia, N. M., Nov. 26.—A ma-
jority of the land owners within its
proposed boundaries have signed the
petition for the organization of the
Estancia Irrigation district under the
irrigation district law and the suc-
cess of the project is now assured.
The publication of the petition will
be commenced next week as required
by law.
The matter of issuing bonds in suf-
ficient amount to install a central
plant will be taken up and threshed
out before the voting on the bonds.
A number are of the opinion that in-
stead of running it will be better to
install their own power plant, while
others think for the sake of present
economy, it were better to purchase
the power at least at present. This
matter will be put before the people
signing the petition to be decided by
the mass of the interested parties.
A meeting will be held on Satur-
day, December 3, at 2 o'clock, at
which time a number of things of
importance along this line will be
discussed. All interested in the propo-
sition are invited to attend.

GINGER GERM AT SKYLIGHT CITY

Agitation Under Way for Live
Organization of Boosters for
Flagstaff, Arizona.

[Special Correspondence to Morning Journal]
Flagstaff, Ariz., Nov. 26.—The ginger
germ has wandered out along the
coast lines and it is believed, has
found a permanent lodgment here.
The Flagstaff Sun says:
There is one thing more than any
other needed in Flagstaff at the pres-
ent time it is an association of boost-
ers, commonly called a chamber of
commerce. The general good of the
town should be looked after as strenu-
ously as the private enterprise of the
individual. The success of one means
the success of the other. At the pres-
ent time inquiries for residences are
being made at this office at the rate
of one or two a day. We need more

INHUMAN TORTURE FOR RANCHMAN MAY BE FATAL

OSCURO FARMER DRAGGED
FROM HORN OF SADDLE

Officers of Lincoln County
Scouring Hills for Men Who
Beat Allen Nearly to Death
and Then Roped Him.

[Special Correspondence to Morning Journal]
Cayton, N. M., Nov. 26.—Charged
with taking part in an inhuman as-
sault on F. E. Allen, at Texas Park,
a small settlement in the Cayton
mountains, Pen Leslie, Jr., has been
arrested by deputy sheriffs and a
house is being searched for two
other ranchmen named E. L.
Owen and R. J. Wood, also accused
of participation in a crime which may
yet result in the death of the victim.
It is said that Allen was first as-
saulted by the three men, beaten, il-
most into insensibility, then roped
and tied with a lariat to the horn of
a saddle, and dragged over rocks for
a distance of a hundred yards before
being abandoned. He was discovered
by a passer-by and taken to Dr.
Law's sanitarium at Lincoln, where
he is reported in a critical condition
with a fighting chance of recovery.
Allen, who has a small ranch near
Cayton and is well known in the
county, had taken a small bunch of
stock to Simpson's ranch at Texas
Park for winter range.

houses badly; we need more concen-
trated boosting on the part of busi-
ness men; we need more enterprise
among citizens and the way to get it
is by concerted action of the people,
instead of one or two endeavoring to
do all the boosting. It is a profitable
enterprise to all, and the burden of
boosting should be distributed among
those who receive the benefits. Now
is the time to do it. Get started now
and be ready by spring to take care
of a town with at least 1,000 more
inhabitants and bid for more. Every
additional family that locates in Flag-
staff adds just that much more to
the property of each individual own-
er, whether in business or not. Flag-
staff is the richest town in northern
Arizona; has more advantages and
more men individually wealthy than
any, according to statistics. Its popula-
tion and wealth has been steadily in-
creasing every year; it is coming to the
front more rapidly now than ever, and
only needs a small effort to start the
city on its era of prosperity. The Sun
can boost, but it can't take it all.

LEGAL NOTICES

(Small Holding Claim No. 014077—
James Forest Coal Land)
Notice for Publication of the Interior, United
States Land Office, Santa Fe, N. M.,
November 14, 1910.
Re-Publication.

Notice is hereby given that the fol-
lowing named claimant has filed no-
tice of his intention to make final
proof in support of his claim under
sections 16 and 17 of the act of March
2, 1891 (26 Stat., 824), as amended by
the act of February 21, 1892 (27
Stat., 470), and that said proof will
be made before Juan C. Sandoval,
United States Court Commissioner,
at Cuba, N. M., on February 10, 1910,
viz.: Valentin de Baca, of Can-
N. M., for the W. 1-2 SW. 1-4, NE
1-4 SW. 1-4, Sec. 17 and SE. 1-4 SW.
1-4 Sec. 15, of T. 21 N., R. 1 W., N. M.
P. M.

He names the following witnesses to
prove his actual continuous adverse
possession of said tract for twenty
years next preceding the survey of the
township, viz.: Manuel Aragon y Lu-
cero, Juan Jose Salazar, Celes Sando-
val, Francisco Antonio Lobato, all of
Cuba, N. M.
Any person who desires to protest
against the allowance of said proof, or
who knows of any substantial reason
under the laws and regulations of the
Interior Department why such proof
should not be allowed will be given an
opportunity at the above mentioned
time and place to cross-examine the
witnesses of said claimant, and to
offer evidence in rebuttal of that sub-
mitted by claimant.
MANUEL R. OTERO,
Register.

A Bright Shine for Nickel Plate

Most substances professing to keep
plated ware in bright, shiny condition
contain harsh, gritty substances which
scratch the nickel and silver plate. Warm
suds of Gold Dust washing powder and
water will, however, clean these fixtures
thoroughly and safely. When dim, rub
a little of the Gold Dust directly on the
surface, rinse and rub dry with a piece
of soft linen or flannel. Nickel, lightly
washed each week in Gold Dust and
water, and wiped with a soft cloth, will
never get dull or need hard rubbing.

LEGAL NOTICE

Territory of New Mexico, County of
Sandoval, in the District Court,
Pueblo de Santo Domingo, plaintiff,
vs. Teofilo Rivera, Rafael Rivera,
Bonetacio Rivera, Emeterio Rivera,
Remigio Carrillo, Jose Dimas,
Diego Rael, Cosme Carrillo,
Jose Romero and Guadalupe Car-
rillo, and the Unknown Claimants
in the premises hereinafter de-
scribed adverse to the said plain-
tiff, defendants.—No. 225.

NOTICE OF SUIT.
The defendants and each of them
will take notice that the above-
named plaintiff has filed the above
named suit in the above named court,
where the same is now pending.
The general object of said suit is to
establish the title of said plaintiff
and quiet said title as against the
adverse claims of said defendants and
each of them, in and to the land and
real estate situated in the County of
Sandoval and Santa Fe, Territory of
New Mexico, commonly known as the
Santo Domingo Grant, which said
land and real estate is bounded and
described as follows:

Beginning at a point from which the
spire of the church in Pena
Blanca bears north 8 deg. 5 min.
west and the belfry of the church in the
Cochiti Pueblo bears north 106
deg. 20 min. west, said beginning
point being marked by a stone with
S. D. P. (beg. cor. 1) on the side
facing the grant, also said point is
marked by a mound of stones hav-
ing a base of ten feet and a height of
one-half foot high from which be-
ginning corner the line runs south
87 deg. 58 min. east to the north-
east corner, 10 miles, 53 chains and 13
links, and from said beginning cor-
ner the line runs south 87 deg. 58 min.
east, 12 miles, 20 chains and
20 links to the northwest corner, and
from the northwest corner south 3
miles, 14 chains and 70 links to the
southwest corner, and from the
southwest corner the line runs south
8 miles, 27 chains and 73 links, and
on the southern boundary, commencing
with meander corner, one which
is 208.33-1-3 chains east and 250
chains north of the line to the Santa
Fe, New Mexico; and the said de-
fendants and each of them are hereby
notified that unless they enter their
appearance in said cause on or before
the 26th day of January, A. D. 1911,
judgment will be rendered in said
cause against them and each of them
by default.

(SEAL)
THOS. K. D. MADDISON,
Clerk of said Court.

Nov-28-Dec-5, 1910

Territory of New Mexico, County of
Bernalillo, in the District Court,
Bernardo Bils, Plaintiff
vs.
Bank of Commerce, Plaintiff
vs.
A. J. Feezer, Defendant.

NOTICE OF SUIT.
To the Above-Named Defendant:
You are hereby notified that a suit
by attachment has been commenced
against you in the above-named court
and county by the above-named plain-
tiff, praying for judgment against you
on account of a promissory note for
\$45, with interest from January 16,
1906, said note having been endorsed
and delivered to plaintiff by The Rio
Grande Woolen Mills Company.

You are further notified that your
money and effects in the hands of the
Chicago, Rock Island & Pacific
Ry. Co., have been garnished, and that
unless you enter your appearance in
said cause on or before the 26th day
of January, 1911, judgment by de-
fault will be entered against you, and
the money and effects garnished will be
applied and disposed of as provided by
law to pay the plaintiff's claim.

The plaintiff's attorney is W. Moore
Clayton, whose postoffice address is
Albuquerque, N. M.

NOTICE OF SALE.

In the District Court of the County
of Sandoval, Territory of New
Mexico.
Epifanio Miera, et al., plaintiffs; vs.
J. W. Akers, et al., defendants.
No. 120.

Notice is hereby given that in ac-
cordance with the order of sale here-
before entered in the above cause, the
28th day of May, 1910, reference to
which is hereby made, I will, on the
5th day of January, 1911, at the front
door of the sheriff's office, in Ber-
nalillo, Sandoval County, New
Mexico, offer for sale and sell to the
highest and best bidder for cash, the
following real estate situated in the
County of Sandoval, Territory of New
Mexico, to-wit:

A tract of land situated in the
County of Sandoval, Territory of New
Mexico, and known as the Canada de
Los Alamos Land Grant, situated
south of the Luis Jaramillo Grant,
and about midway between the Ce-
bolleta Grant and the Bernabe M.
Montano Grant, being known in the
office of the United States Surveyor-
General for New Mexico as Reported
No. 98, and containing, according to
an official survey thereof, four
thousand one hundred and six (4,106)
acres of land; reference to which
survey is hereby made for more par-
ticular description.

Said sale to be free of the lien of
the United States for survey, all
taxes, and all other liens or encum-
brances.

HARRY P. OWEN,
Special Master.

There will be a meeting of the Modern Woodmen of America tonight, with degree work and a social time.

S. E. Bussler. superintendent of the Santa Fe reading room service, accompanied by Mrs. Bussler, passed through Albuquerque yesterday on his way to Chicago.

Miss Margaret Holloway. who has been in Albuquerque for the past few days, the guest of her brother, Harry O. Holloway, leaves this afternoon for her home in Sheridan, Wyoming. Miss Holloway is enroute to her home after a prolonged visit in Mexico.

Through a typographical error in this office, the date of the constitutional election, printed in the governor's proclamation, was given as January 21, 1910. It should, of course, have been "1911," and the fault was in this office, and not in the governor's.

Will happen at Gem tonight.

DEATHS AND FUNERALS

Funeral of Carl E. Gray. Funeral services for Carl E. Gray were held yesterday afternoon at 2:30 o'clock in the Borders chapel and were attended by a large number of friends of the youth, whose untimely death brought sorrow to them. The services were conducted by Archdeacon W. E. Warren and were unusually impressive. Mrs. C. A. Frank sang a solo. Flowers were sent in profusion by friends, and the casket was completely covered with floral pieces. Interment was in Fairview cemetery. The Sheet Metal Workers union attended the services in a body. The pallbearers were Thomas B. Vickery, E. Elchar, Henry Reed, George Reed, and Joseph Pringle.

Funeral of Mrs. Hopping. The funeral of Mrs. Elizabeth Hopping took place at 2 o'clock yesterday afternoon, services being held at the Congregational church, of which she was a member. Mrs. Hopping possessed many friends and as a citizen, she was completely covered with floral pieces. Interment was in Fairview cemetery. The Sheet Metal Workers union attended the services in a body. The pallbearers were Thomas B. Vickery, E. Elchar, Henry Reed, George Reed, and Joseph Pringle.

The funeral of Mrs. Hopping. The funeral of Mrs. Elizabeth Hopping took place at 2 o'clock yesterday afternoon, services being held at the Congregational church, of which she was a member. SENATOR CLARK RATTLES VENOM AS GOING HOME TO HIS NEW HOUSE

Copper Millionaire Returns East From Inspection of Arizona Properties to Enter \$4,000,000 Shanty.

Former Senator William A. Clark, of Montana, several times a millionaire, through the medium of copper, was in Albuquerque a short time yesterday morning, enroute to New York from Jerome and other points in Arizona, where he inspected the United Verde mining properties, and other groups in that section. Senator Clark was traveling in his palatial private car, attached to train No. 18. He was met here by his old friend, John M. Moore, of this city, who had a pleasant chat with Mr. Clark at the station. The copper magnate is going home to New York to assume charge of his celebrated new residence in that city, completed at a cost of four million dollars, and which, he said, has caused a loud outcry among the architectural and artistic fraternity in Gotham.

Good Results Always Follow.
The use of Foley Kidney Pills. They are upbuilding, strengthening and soothing. Tonic in action, quick in results. J. H. O'Reilly Co.

Card of Thanks.
We wish to extend our sincere thanks to those who so kindly assisted us during the illness and death of our son and son-in-law, Mr. and Mrs. AND MRS. GRAY & SON.

Hexamethylenetetramine
Is the name of a German chemical, one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and anti-septic for the urine. Foley's Kidney Remedy promptly at the first sign of kidney trouble and avoid a serious malady. J. H. O'Reilly Co.

GREAT HAPPENING FOR ALBUQUERQUE THIS WEEK

No doubting it when we say we have the strongest features this week that has appeared in vaunderbilt at the Gem. As a rule, the perfect form of Japanese in her wonderful tests, is wonderful. She will give her first performance this afternoon. Then comes that tiny black face comedian, Tom Rogers. He is a minister all by himself. He will capture grace and grace. The Pughlist's Child and many good pictures will make the Gem the heart of amusement this week.

Flaming Cafe.—Regular dinner from 11:15 to 1:15, 25 cents. Short orders and lunch served from 8 a. m. to 2 a. m. Also furnished rooms. 211 South First street.

The city of Albuquerque is out of debt and money in the treasury, good officials with level heads, why not boost Greater Albuquerque first and the world afterwards.

Miss Bangs is located at 114 S. Armo. Scoring at reasonable prices.

Let us boost for the Santa Fe proposition, say the Gem.

The best saddle horses to be had in the city are at W. L. Trimble's, 112 North Second street, phone 2.

The people's show, Gem.

If you need a carpenter, telephone Hesseid: phone 377.

Minstrel man, Gem tonight.

We say, with a clear conscience, we have the best life and the Coffee in town. Have a little confidence and try it. C. & A. Coffee Co.

Tom Rogers, funniest black face ever happening, Gem.

Stylish horses and buggies furnished on short notice by W. L. Trimble & Co., 112 North Second street, phone 2.

What is two hundred thousand dollars donation for a tower of twenty thousand like Albuquerque. Let's start a block day for the Santa Fe. Why not start a fifty thousand club. The Gem will boost to the extent of its means.

HARDWOOD LUMBERS FOR FINISH AND CABINET WORK—CLEAR AND SEASONED

SUPERIOR LUMBER AND MILL CO.

LOCAL MAN CLAIMS POSSESSION OF 200 CAPSULES EXTRACTED BY RATTLESNAKE PETE IN THE CATSKILLS.

A new and startling cure for the great white plague is described though not advocated, by a well known Albuquerque man, who broke it to a reporter yesterday that he had two hundred capsules of pure extract of rattlesnake venom secured by Rattlesnake Pete, the famous New York naturalist, whose hobby and chief vocation is capturing the reptiles in the Catskills, Adirondacks, Albany and other untamed sections of the Empire State.

There is a friend of mine in Rochester, New York," said the local man yesterday, "who was at the point of death from tuberculosis and given up for lost when some epeler told him the tale of the wonderful curative powers of the rattlesnake poison when taken internally. He says that he tried it and in a short time his lungs, what was left of them, were entirely healed. He is trying to get me to introduce the cure in this section, but so far I have kept the capsules in a safe and expect to let them remain there. It is claimed that when taken internally the venom separates into its constituents, each of which when regulated is harmless, and the whole is claimed to be a counteracting agent to the germs of tuberculosis. This friend of mine," continued the local man, "says he has raised forty-two pounds from catnip, snake and poison and has started the manufacture and sale of the dope, turning out fifty to one hundred capsules a day. These capsules sell for fifteen cents apiece. Dr. S. Weir Mitchell is quoted as authority for the statement that the poison is a species of albumin which disintegrates and becomes beneficial when taken into the stomach."

The gentleman in question, who, to avoid publicity, asks that his name be withheld, will not part with any of his capsules; but, of course, anyone is welcome to kill a rattler and try it for himself.

See the crowds attracted by the two big acts. Gem tonight.

Concerning Christmas Shopping

Our all-the-year prices are on everything. No one pays here a higher rate, because "you know it's CHRISTMAS." A higher culture in goods, character and LOWER PRICES wherever possible—the key to our endeavor.

Permit us to suggest the advisability of shopping early in the morning. We like to take more than just enough time for each visitor. The morning hour is the test of the day's success.

We are open every evening now. Won't you come in?

All happens for ten cents.

COMMITTEE GOES TO EL PASO

City Officials Will Inspect Pavement and Report to Council at Next Regular Meeting.

A committee composed of Mayor Lester, City Attorney Collins, City Engineer Gladding and Chairman Reidy of the street committee, left last night for El Paso, where they will today inspect the El Paso street paving, paying particular attention to the method of paving and the wearing qualities of the pavement laid in the Paso City.

The committee was appointed by the council at a special meeting Friday night for the purpose of gathering data in El Paso to guide the council when street paving is undertaken in Albuquerque. The council is now ready to start the work of paving and it is expected that work will begin in the business district shortly after the first of the year. The committee may spend two days in El Paso if it has not sufficient time today to visit all the investigating deemed necessary.
