FILIPINO STEAMER SEIZED

Chances Are That the Entire Native Fleet
Will Be Gathered In As They Fly
No Recognized Flag.

Manila, Sept. 26.—The United States
cruiser McCulloch captured the insurgent
steamer Abbey, formerly Pasig, 60 miles
south of Manila, after the Abbey, it is
believed, had loaded 7,000 rifles. The
insurgent boat followed the American
vessel into Cavite. Now the Americans
contemplate taking possession of the en-
tire insurgent fleet because vessels flying
an unrecognized flag are liable to seizure
as pirates by war vessels of any nation.
American cruisers have gone north
where the steamer Philippines is landing
troops.

Two steamers, just arrived here,
brought many Spanish officials and refu-
gees from the southeast part of the
island of Luzon. They report the in-
surgents as overrunning the country,
destroying the country and hemp crops.
Sanguinary conflicts have taken place
at Cebu and Iloilo.

There has been an outbreak of small-
pox in the California regiment, but only
six cases of a mild type are reported.

Sensational Sick Reports Denied.

Washington, Sept. 26.—The War de-
partment has received a dispatch from
Major General Otis, at Manila, report-
ing the health of the troops as gener-
ally good and the per centage of sick-
ness small.

BEHIND CLOSED DOORS.

The War Department Investigating Com-
mission Sitting with Reporters Absent
—Wide Scope of Investigation.

Washington, Sept. 26.—The commis-
sion selected by the president to investi-
gate the conduct of the War department
held its first formal session today with
all members present. No paper repre-
sentatives or others not connected with
the board were admitted.

An adjournment was taken until 10
o'clock tomorrow. The proceedings
were limited to outlining a general
policy and formulation of list of letters
of inquiry which will be made public
tomorrow. The letters decided upon
are to be addressed to the secretary of
war, quartermaster general, commissary
general, surgeon general and chief of
ordnance. They will consist in the main
of inquiries intended to bring out facts
that can be given relative to the or-
ganization of the volunteer army. There
will be an especial effort to develop
motives that actuated the War de-
partment in choice of camp sites, as there
have been charges of favoritism to rail-
road companies.

The commission also considered sev-
eral letters of complaint from persons
professing to have information bearing
upon the subject of investigation, and
decided to address replies to writers re-
quiring them to put their charges in
specific shape and informing them of the
scope of the inquiry.

The commission also expects to extend
its inquiry before it closes work to the
extent of summoning before it the com-
manding officers of the various divisions
and brigades and probably the colonels
of regiments from which complaints
emanated.

Dr. Phineas S. Conner sat with the
commission today.

CIRCUS TRAIN WRECKED.

Sells & Forepaugh Outfit Ditched with
Fatalities—Elephants Rolled Down
the Embankment.

Huntington, W. Va., Sept. 26.—Sells
Brother's and Forepaugh's circus train
was wrecked today on the Wilmington,
Norfolk and Western railroad. James
Doyle of Philadelphia, and Harrison
Kippes of Virginia, were fatally injured,
and Pat Forepaugh was seriously hurt.
The car of elephants rolled down the
embankment, and the animals were
injured, but none killed.

Must Die Tonight.

Dedham, Mass., Sept. 26.—According
to his physician's report today, Thomas
F. Bayard can not live 24 hours longer.

Dons to Haul Columbus' Bones Back to
Spain, Which Originally Had No
Use for Him.

Havana, Sept. 26.—At 10 o'clock this
morning the official exhumation of the
remains of Columbus took place in the
presence of General Blanco, Secretary
Govin, the civil governor, the bishop,
dean of the cathedral and other author-
ities. The general public were excluded
from the church.

PUERTO RICO HEARD FROM.

Major General Brooke Cables Good Advice
As to the Handling of Troops
in the Island.

Washington, Sept. 26.—The following
cablegram has been received at the War
department: Ponce, Sept. 25.—The
cable regarding sickness and want of
rations received. That there are men
sick is a fact. A small proportion are
bad cases, but there has been no want
of food. The last report gives the total
sick at 2,359, 400 being typhoid; 498 ma-
larial fever; 297 diarrhoea, other diseases
1,334; percentage 23. I think the re-
turn of regiments now here is not ad-
visable, as others coming would have to
go through the same acclimating pro-
cess.

I would advise that certain sick be
sent home whose recovery would doubt-
less be quickened. If other regiments
are sent to take the place of those now
here, special attention should be given
to selecting such as are under good
discipline and having a full quota of of-
ficers. By this means, men may be con-
trolled and sanitary precautions en-
forced in the small detachments which
necessarily must be made. Signed,
Brooke, Major General.

STARVING TO DEATH.

The Last Horses and Mules Killed to Feed
the Cuban Sick in Santa Clara
Province.

Washington, Sept. 26.—Telegrams
were received at the Cuban legation last
night from the commissioners, who ar-
rived at Key West, and sent to this coun-
try by General Gomez. Cuban insurgent
leader, depicting the situation in the
province of Santa Clara as most critical.
The Cuban army is said to be starving.
The vegetables are almost gone and the
last mules and horses have been killed
to feed the sick. Old people and chil-
dren are said to be dying by dozens
every day. Gomez appeals for aid. The
Spanish are doing all they can to make
the insurgents' situation more terrible,
and it is feared serious results may arise
from this. The Cubans cannot be
blamed if forced to take the necessities
of life. This they can do by capturing
towns.

French Fork in the Fork.

London, Sept. 26.—A special to the
Globe from Hongkong says it learned
from a trustworthy Filipino source that
France has promised to recognize the
Filipino republic. It is added that nego-
tiations on the subject are proceeding at
Manila, where there are three French
warships.

TO HAVE A NEW HEARING.

Captain Dreyfus' Friends Successful in
Reopening His Case, and He May
Yet Be Free.

Paris, Sept. 26.—At a meeting of the
cabinet this morning, all the ministers
being present, a decision was taken in
favor of a revision of the trial of
former Captain Dreyfus and the docu-
ments in the case will be sent to the
court of cassation.

The crowds outside of the ministry of
the interior, where the cabinet council
was held, loudly cheered the ministers,
and there were shouts of "Vive Bris-
son!" "Vive la revision!"

The cabinet ordered Minister of Jus-
tice M. Sarrien to lay before the court
of cassation the petition of Madame
Dreyfus, wife of the prisoner on Devil's
Island, for revision of her husband's
case. The court therefore will decide
the legal question whether the first
trial of Captain Dreyfus was secured by
the forgery committed by the late Lieut-
enant Colonel Henry, who was a wit-
ness before the court martial, and who
confessed to having forged the docu-
ment in the case.

Receiver Appointed.

New York, Sept. 26.—Otto T. Ban-
bury was today appointed receiver of
the New England Loan & Trust Com-
pany by Judge Shipman of the United
States circuit court, on a suit brought
by the Real Estate Trust Company of
Philadelphia and Washington, Allen, of
St. Albans, Vt. The company was a large
lender of money on western mortgages.

PREPARING FOR BUSINESS.

The New Squadron Will Leave This Month
for Manila via Honolulu.

New York, Sept. 26.—A dispatch to
the Herald from Washington says: In-
structions given by the Navy depart-
ment to Captain Barker, commanding
the battleship Oregon and senior officer
of the squadron under orders to proceed
to Manila, require him to sail during
the present week for Honolulu.
The Oregon is ready for her voyage.
The Iowa will be in condition to sail to-
morrow. The supply ship Celtic, the
distilling ship Iris and four colliers
which will accompany the battleships,
will be ready during the next few days.
The department is considering the ad-
visability of attaching the engineering
repair ship Vulcan, which did such ex-
cellent work in Cuban waters, to the
squadron. Admiral Dewey is in need of
such a ship.

Fresh From Santiago.

New York, Sept. 26.—The transport
Yucatan arrived today, from Ponce and
Santiago with 134 officers, privates and
civilians, the latter mostly discharged
laborers and packers. The returned
officers and men are mostly convales-
cent, sent home to be discharged or
mustered out.

THE FILIPINOS WANT A HEARING

Before the Paris Peace Commission, and a
Special Envoy is En Route to
Washington.

Chicago, Sept. 26.—The Tribune's staff
correspondent on board the Overland
Limited, telegraphs from Carroll, Ia.,
that Felipe Angonello, the first
accredited emissary of Aguinaldo's
revolutionary government to any foreign
power, will, upon reaching Chicago,
solicit recognition to lay before
President McKinley an appeal of the
Filipinos for representation on the
commission at Paris.

If official representation on the
commission cannot be granted, he will
urge the administration, in justice to
the people of the Philippines, that it
should secure for him the right to be
heard by the commission in order that
any unjust charges or false accusations
against the Filipinos which Spanish
members of the commission may set
forth, shall not go unanswered.

READY TO FORGIVE.

General Nunes Ready to Forgive Spaniards
As Men, But Will Not Tolerate
Weyer or Valmaredo.

New York, Sept. 26.—A dispatch to
the Press from Washington says: A
statement was given by General Nunes,
the Cuban commander, refuting the
story of the Cubans being in league
against the Spaniards and against the
Americans. He says: "I will be one of
the first to pardon the Spaniards for
what they did to Cubans and forgive
them as men, but would be the last to
forgive the atrocities of Weyer,
Valmaredo and others to the extent of
never again allowing those partisans to
have a hand in political affairs in Cuba."
"American influence, far from being
harmful, is exactly what is wanted in
Cuba. Cuba desires to become a
republic."

MORE FRENCH SENSATIONS.

Henry Rochefort Charges Major Esterhazy
With Having Been Bribed by a
Dreyfus Syndicate.

Paris, Sept. 26.—In Le Intransigeant
today, Henry Rochefort accuses Major
Esterhazy of having been bribed by the
so-called Dreyfus syndicate to "cover
himself with dishonor by confessing to a
forgery of which he was twice acquit-
ted."

Rochefort adds that he paid Ester-
hazy 1,000 francs for copies of all docu-
ments in the case and that in addition,
with two other newspaper men, he paid
Esterhazy, who was literally without a
centime, 300 francs monthly to prevent
him from dying with hunger while
waiting to obtain a pension. Continuing,
Rochefort says: "Recently, with-
out an apparent incentive, Esterhazy
mysteriously went to London, abandon-
ing his 300 francs monthly. Who paid
for his journey? With what money has
Esterhazy paid for his meals?"

Libre Parole asserts that Esterhazy
telegraphed the minister of war pro-
testing against the story published in
the Observer, of London, purporting to
be a confession, made by the major, the
substance of which was that he was the
author of Bordereaux, a document
said to have furnished the proof of the
guilt of Dreyfus.

French Successes in Africa.

Paris, Sept. 26.—An official dispatch
from St. Louis, French West Africa,
says the Soudanese sharpshooters in the
French service, commanded by Lieuten-
ant Wolf, defeated an army of Sofas,
under one Samory, a chief, capturing
5,000 men, seizing 300 Gras rifles and
quantities of ammunition. It is added
that the French had one sharpshooter
wounded.

VERY HARD LINES.

Great Suffering Among the Unfortunate
Gold Dreamers at Dawson—Some
Doleful Stories.

Port Townsend, Wash., Sept. 26.—
The steamship Topeka arrived last night
from Lyan canal port with 150 Klond-
ikers, 90 per cent of whom have little
or no dust. They all express them-
selves as glad to get out alive. Three
thousand cases of typhoid fever is the
estimate placed on the number of sick
in Dawson, September 6.

A large number of deaths occurred
daily, of which no record is made.
It is estimated that 9,000 people joined
the rush to Stewart river, nearly every
foot of available ground has been pros-
pected, but no gold found. Among the
Topeka's passengers was Joseph Ladue,
founder of Dawson. He says that many
who return ate men; also that, even if
the country was one solid mass of gold,
they would not make anything.

GONE TO THE DEVIL.

A Rapist and Would-Be Murderer Given
Haman's Dose Over in Tennessee.

Mountain City, Tenn., Sept. 26.—
About 2 o'clock this morning, 100 men
overpowered the Johnson county jailers
and took John Williams, a negro who
seriously stabbed Sherman Dunn and
raped Mrs. Mollie Shelton a week ago,
from the jail, and then hung him to a
tree about a mile back of the town. The
body is still hanging to the tree with a
large crowd about it.

HOBSON SUCCESSFUL.

He Raises Cervera's Flagship, the Maria
Teresa, and Now Will Try
the Colon.

Washington, Sept. 26.—Acting secre-
tary Allen received a cablegram today
from Captain Goodrich, the senior officer
of the station at Guantanamo, saying
that the Spanish flagship Maria Teresa
was raised last Saturday. The work of
raising this ship was directly in
charge of Constructor Hobson. He has
been instructed to resume work on
the Colon and to begin operations to-
wards wrecking the Reina Mercedes
which lies within the mouth of Santiago
harbor, close to the Merrimac, in smooth
water and well situated for successful
wrecking. The Teresa will be brought
probably to Norfolk as soon as she is
in condition to undertake the voyage.
The wreckers who successfully accom-
plished this work have earned a large
sum of money under the salvage laws.
It is the purpose of the department to
place the Teresa in commission as a
United States naval vessel, and follow-
ing the English custom, her name is
likely to remain unchanged, to carry in
the future the glory of an American
victory.

The Inspection Ended.

Savannah, Ga., Sept. 26.—Secretary
Alger concluded his inspection of south-
ern camps and hospitals today, and will
reach Washington tomorrow.

Another Cruiser for Manila.

Washington, Sept. 26.—The Navy
department has decided to send the
cruiser Buffalo, now at New York, to
the Pacific station. She will probably
go to Honolulu and in the event of
being needed to reinforce Dewey's fleet,
can receive orders at that place by
dispatch boat. The Buffalo goes under
the command of Commander Hemphill,
late of the navigation bureau.

BOOMS DON'T PAY.

Investing in Boom Town Properties Is
What Busted the New England Loan
& Trust Company.

Kansas City, Sept. 26.—The New En-
gland Loan & Trust Company for which
Otto T. Hannard, of New York, treas-
urer of the Continental Trust company
has been appointed receiver, had its
headquarters in this city. The concern
dealt in city and farm mortgages in the
west. Its capital is given at \$825,000 and
the last printed statement shows a sur-
plus of \$100,000. The company is said
to hold \$5,000,000 debentures, \$5,000,000
loans, and to have \$175,000 cash on
hand. The receivership is said to have
been forced by the company's inability
to close on loans made in 1888 and 1889
on boom town property in Omaha,
which have proved a loss.

The company is composed mostly of
New York, Philadelphia and Des Moines
men, with the home office at Des Moines,
although the main office is in New York
city. Besides a branch here, there are
branches at Dallas and Oklahoma City.
John C. Hall is the company's attorney
in Kansas City.

"The cause of the failure," he said,
"was inability to keep up our losses on
loans made on western city property in
1888 and 1889. The company was or-
ganized in 1876. It did a profitable busi-
ness in farm loans until 1888 when it
began making loans on property in Omaha,
Sioux City, Salt Lake and Ogden.
When the boom went to pieces, fore-
closure became necessary and we found
ourselves so burdened with depreciated
city property that it has taken more
than the profits on our farm loan busi-
ness to keep up the interest, taxes and
repairs. If we had another year or two to
catch up, we could have pulled through all
right and we may yet if the securities
behind our debenture bonds don't fail us."
The company's securities were sold
almost entirely in the east.

MANILA BOYS ALL RIGHT.

Major General Otis Sends An Official Report
Showing Conditions Excellent for
That Latitude.

Washington, Sept. 26.—The following
cablegram was received at the War de-
partment today:

Manila, Sept. 26.—I understand that
reports sent exaggerated accounts of
sickness. The total in the hospital to-
day, the highest of any day, is 529; the
typhoid patients numbering 59, all doing
well and mostly convalescent. About
1,200 men have been excused from duty
for mostly light ailments, showing the
condition fair for this latitude. There
has been 19 deaths from disease this
month, and 24 in August.

Major General commanding.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown,
N. J., writes:

"DEAR MRS. PINKHAM:—I cannot be-
gin to tell you how I suffered before
taking your remedies. I was so weak
that I could hardly walk across the floor
without falling. I had womb trouble
and such a bearing-down feeling; I
suffered with my back and limbs, pain
in womb, inflammation of the bladder,
piles and indigestion. Before I had
taken one bottle of Lydia E. Pinkham's
Vegetable Compound I felt a great deal
better, and after taking two and one
half bottles and half a box of your
Liver Pills I was cured. If more would
take your medicine they would not
have to suffer so much."

Mrs. JOSEPH PETERSON, 515 East St.,
Warrren, Pa., writes:

"DEAR MRS. PINKHAM:—I have suf-
fered with womb trouble over fifteen
years. I had inflammation, enlarge-
ment and displacement of the womb.
I had the backache constantly, also
headache, and was so dizzy. I had
heart trouble, it seemed as though my
heart was in my throat at times chok-
ing me. I could not walk around and
I could not lie down, for then my heart
would beat so fast I would feel as
though I was smothering. I had to
sit up in bed nights in order to breathe.
I was so weak I could not do any-
thing."

"I have now taken several bot-
tles of Lydia E. Pinkham's Vegetable
Compound, and used three pack-
ages of Sanative Wash, and can say
I am perfectly cured. I do not think
I could have lived long if Mrs. Pink-
ham's medicine had not helped me."

SANTA FE BOYS EN ROUTE EAST.

Large Number of People from Santa Fe Meet the Territorial Regiment at Lamy—Soldiers in Good Health and Spirits.
Nearly 200 Santa Fe people went to Lamy yesterday to meet the boys in the 1st territorial regiment on their way east from Whipple Barracks. The first section of the train, bearing the field officers and staff, the regimental band, the Santa Fe company and the Tucson company, reached Lamy at 3 o'clock in the afternoon and remained 30 minutes. The greetings between parents and sons, husbands and wives, and sweethearts were for the most part happy, although a few affecting scenes were witnessed. The boys are all in good health, hearty and brown, and in the best of spirits. While they feel that the war is over and would be glad to return home, they say that having enlisted for two years they have no complaints to make, and willingly remain in the service until the expiration of the term, or until the government sees fit to muster them out honorably.

Every one on the train from Santa Fe was accompanied with a generous sized lunch basket, many carrying two, and when the train left Lamy it was fairly loaded down with good things to eat. Some of the boys had only a single sandwich to eat on Saturday, and the lunches they received were appreciated, not only because they wanted something to eat, but because "mother put them up."

The second and third sections of the train did not reach Lamy until after 6 o'clock, and many of the excursionists remained until that time to see men in the other companies with whom they were acquainted. The day was thoroughly enjoyed by those who went, even if every one did return home thoroughly tired out.

VERY LOW EXPRESS RATES.

Denver & Rio Grande Express Company Willing to Aid Fruit Growers—Twenty Cents Per Hundred on Windfalls.
Ex-Governor Prince has received the following letter from Mr. D. D. Mayo, manager of the Denver & Rio Grande Express Company, which is of interest to fruit raisers in the Rio Grande valley along the line of the D. & R. G.

Hon. L. Bradford Prince, President Horticultural Society, Espanola, N. M., Denver, Colo., Sept. 22, 1898.—Dear Sir: Mr. A. S. Hughes, traffic manager of the Santa Fe, has just shown me your letter of the 19th inst., wherein you ask for a lower rate on shipments of fruit for Santa Fe, such as seconds or windfalls.

The freight rate on such shipments is now 30 cents per hundred. By permission from the traffic department, they have allowed me to quote you a rate of 20 cents per hundred by express, as an experiment for 30 days, ending October 22. If we find you can handle this fruit for evaporating purposes, we will consider the matter of continuing the rate during the balance of the season.

Noting that this will be satisfactory and will enable you to ship what fruit is now liable to go to waste, I am yours very truly,
D. D. MAYO, Manager.

The Santa Fe Fruit Company's evaporator is ready to receive all fruit which may be sent, and will pay the highest market price possible for it. The orchardists of the valley can save that part of the fruit crop which has heretofore been waste by sending it to the evaporator, and thereby increase the returns from their orchards, or in other words make clear profit out of that which has been thrown away. The rate of express made by the express company is low enough to permit large shipments at comparatively no expense, and ought to result in a large business for the evaporator from the Espanola valley particularly.

At all events it is worth while for the fruit growers to try the experiment, which cannot but prove a success.

Indian Progressiveness.
Clerk Frank Kyselka, of the Indian agency at Fort Lewis, returned Friday morning to his station. He says his experience with the noble red man has been that unless you can educate him for some useful trade or calling, there is danger of his drifting back into his former condition, and then his education will be of no benefit to him. Mr. Kyselka agrees with Mrs. Quinton that the time of opposition to Indian education has passed, and nearly all of the tribes are now anxious to learn all they can. A number of them tried to get into the "Rough Riders" at Durango, and would have succeeded but for the crankiness of the recruiting officer who gave it out cold that he did not want any Indians. Mr. Kyselka now looks for rapid and satisfactory development among the American Indians. Only two tribes are really opposed to advancement, one of whom is the southern Utes, and they will not keep up their opposition very long.

Porfirio Trujillo, the escaped convict, is reported still hid-up in the Santa Cruz country, but he will not be able to escape, as the moment he emerges from cover he will be gathered in.

During the absence of John V. Conway, secretary of the school board, the present week, all matters pertaining to the schools will be left in the care of Manuel Delgado, who will act for the secretary.

According to the Kansas City Journal, the man who planted the American flag on San Juan's ramparts was "Rough Rider" Rolla A. Fullinwider, of Katon. A bursting shell grazed his chest, and another threw mud all over him, but he got there just the same.

The family of Jack Miller, a "Rough Rider" from Madrid, who died in Cuba, have received a letter of condolence from Colonel Roosevelt and his check for \$40. This is the season of the great feast with the Hebrews, the day of atonement, and the Jewish places of business not only in this city, but all through the country and world, are closed until 6 o'clock this evening. The Hebrews are very particular about this feast, and strict in its observance.

The Postal Telegraph Company have just furnished the office in this city with a new code book of 656 pages, containing 30,000 code expressions in words and phrases. It is for use both in the domestic as well as the foreign service, and required 18 months in which to get it up. The code is not merely a convenient thing, but it is a money saver in reducing the size of messages for transmission. It is understood that the Western Union is preparing a similar book.

The residents on the north side of the river should make a strong effort to secure the post hall, on the government reservation, for use as a school room the coming school year. The financial conditions of the schools will not permit of renting a building for the purpose, but it is thought that the government will readily donate the use of the hall if the request is made. Custodian Walpole will return home tonight from the northern part of the territory and the matter should be laid before him at once.

A Pueblo Indian bought him a shirt Saturday in this city, and wishing the town to see what a good thing he had got hold of, and how proud he felt over his new acquisition, he wore the entire garment on the outside of his lovely person. He quote a somewhat white whiskered expression, he "was the cynosure of all eyes." But this was a case of "where ignorance is bliss, 'tis folly to be wise."

There was an interesting Y. P. S. C. E. meeting yesterday afternoon at the penitentiary. The leader of the occasion was David Norman whose term of imprisonment runs out tomorrow. He said that while he was sullen and disgruntled on his entry to the institution, and inclined to think the courts had taken advantage of him and everybody was against him, a great change for the better had come over him; and the occasion of this was his experiencing religion and an embracing of the Christian faith. He was now ready to believe that his getting into trouble was his own fault, and if he fell from grace hereafter it would be his own fault. The speaker made a good impression, and the participation in the meeting was general. Mr. and Mrs. Woods were present to say a word of cheer to the convicts.
