## REBELS INVAD STREETS OF CHIHUAHUA

### SMALL SQUAD GIVES NOTICE OF ATTACK

City Garrisoned by Strong Force  
of Mexican Troops and Stub-  
born Resistance Is Promised  
If Insurrectos Appear.

(By Morning Journal Special Leased Wire)  
Chihuahua, Mexico, Dec. 23.—An  
American who has been ten days with  
the insurrecto forces, returned today  
bringing news that the latter recently  
executed ten civilians hostile to the  
revolt. While the revolutionists sur-  
round Navarero at Pedernales, his sit-  
uation according to this informant is  
not precarious. He could march out  
with his force and do battle, but he  
is waiting reinforcements. When he  
wishes fresh beef he is compelled to  
send a good fighting force for small  
parties are not safe.

General Brander, the Mexican Her-  
ald correspondent, who has been with  
the rebels, and for whose safety  
grave fears have been entertained,  
returned here last night. He left the  
insurrecto forces after a week's stay  
and he was otherwise un-  
hurt. A daring squad of four insur-  
recto scouts rode into this city last  
night distributing circulars stating  
that citizens should remain within  
their doors after 5 o'clock tomorrow  
afternoon as the rebels intend to enter  
the city. The warning is not regarded  
seriously. A patrol of eight soldiers  
who fired many shots drove them  
from the streets and they disappeared  
in the direction of the mountains.  
More than a thousand reinforcements  
are now in the city. A wireless tower  
has been erected at the penitentiary  
and troops arriving today brought  
material for another tower to be  
erected in the disaffected district.  
Government troops which started  
within two days' march of Chihuahua  
have one of the insurrecto strong-  
holds.

### PASSENGER TRAIN FORCED TO RETURN TO JUAREZ

El Paso, Texas, Dec. 23.—The  
south-bound passenger train on the  
El Paso and Northwestern railroad,  
which left Ciudad Juarez at 1 o'clock  
this afternoon found the track torn  
up at Guzman, seventy-seven miles  
south, and is coming back to El Paso.  
The train has 150 passengers.  
The locomotive and passenger  
coach which the revolutionists took  
last night twenty-five miles south of  
Juarez is somewhere in the south.  
The wires are all down south of Guzman.  
Fifty soldiers arrived here this  
morning from Chihuahua to add to  
the garrison in Juarez.  
Soldiers out scouting returned this  
afternoon and reported having found  
a deserted camp of insurrectos only  
twelve miles west of Juarez, but no  
glimpse was obtained of the insur-  
gents.

### MORMON COLONIES NOW IN ZONE OF HOSTILITIES

El Paso, Texas, Dec. 23.—The  
great wire of the Mexico North-  
western railway was opened for a short time  
tonight and it was learned that the  
engine and train stolen by insurrectos  
Thursday was at Guzman station,  
and that fully 1,000 armed men were  
camped there. Communication over  
the wire was stopped before details  
could be learned. Considerable un-  
certainty is felt here for the Casa  
Grande, which is now included in  
the hostile zone.

### MEXICAN NORTHWESTERN RAILROADS BLOCKED BY REBELS

El Paso, Texas, Dec. 23.—The Mex-  
ico Northwestern passenger train  
which left here this morning for Casas  
Grandes, running without orders, re-  
turned late tonight, and reported  
that a dozen of bridges had been  
burned below Loma station. The train  
was first stopped sixty-five miles be-  
low Juarez by a section of dynamite  
track. An eight-foot trestle between  
Loma and Conchos has been burned  
and every bridge of importance for  
miles was in flames.

### AVIATOR MAKES TRIP OVER SAN PEDRO HARBOR

Los Angeles, Dec. 23.—Aviator  
Arch Hoxsey made an inspection  
from his Wright bi-plane of the in-  
ner and outer harbors of Los An-  
geles, from a height of 2,300 feet to-  
day. From this distance he appeared  
a mere speck in the sky to those be-  
low. Hoxsey reported afterward that he  
was able to see the ships and docks  
distinctly from that distance and  
could have directed an accurate war-  
map of the entire territory if his  
hands had been free. He was in the  
air twenty-eight minutes and made  
an average speed of more than forty  
miles an hour.

### TO MAKE CROP REPORT INTELLIGIBLE TO PEOPLE

Washington, Dec. 23.—To enable  
everyone interested in the monthly  
crop reports of the department of  
agriculture to realize the full meaning of  
the crop estimates in the growing  
season, Victor H. Olmstead, chairman  
of the crop-reporting board, contin-  
ues including quantitative interpre-

tation of the figures for important  
crops.

Heretofore the reports have been  
expressed in percentages. The fig-  
ures representing the condition of  
each will be promulgated monthly, as  
heretofore, and in addition, the quan-  
tity of the year's final production, as  
indicated by the condition figures,  
will be given.

This addition probably will not be  
included yearly in the season, but in  
the reports giving the conditions as  
the crops approach maturity, the  
final production will be estimated.

The ultimate production of any  
crop cannot with certainty be fore-  
told, but it has been demonstrated  
that from the condition reports, final  
estimates can be made.

### GERMAN CLAIMS UNITED STATES WANTS CUBA

Berlin, Dec. 23.—The political sit-  
uation in Cuba is discussed in this  
evening's Post, which says:  
"The object behind the biased and  
highly colored dispatches regarding  
Cuba is quite clear. The Americans  
land hunger is not satisfied with the  
present dependent position of Cuba  
and they are striving for its complete  
annexation by the United States as  
soon as possible."

## WOMAN PLEADS OWN CASE IN VAIN

### JURORS WEEP BUT FIND FAIR DEFENDANT GUILTY

Convicted of Attempt to Dyna-  
mite Home and Family of  
Judge Who Decided Against  
Her in Insurance Litigation.

(By Morning Journal Special Leased Wire)  
Oakland, Cal., Dec. 23.—After de-  
liberating nine hours, the jury in the  
case of Mrs. Isabella J. Martin,  
charged with having dynamited the  
home of Superior Judge Ogden on  
March 11, 1907, returned a verdict  
of guilty tonight, recommending the  
defendant to the extreme mercy of  
the court.

The verdict marks the end of the  
second trial. In the first trial, at  
which testimony was given that the  
woman had plotted to kill several pub-  
lic men, she was convicted and sen-  
tenced to life imprisonment. An ap-  
peal to the supreme court brought  
an order for a new trial.

During the trial just closed the ac-  
cused woman conducted her own case  
and displayed a deep knowledge of  
the law, and its practice. She made  
her own plea to the jury and her elo-  
quence brought tears to the eyes of  
several jurors.  
The evidence in the case showed  
that Mrs. Martin arranged to de-  
stroy the residence of Judge Ogden  
while he and his family occupied it,  
because of the judge's alleged unfair-  
ness toward her in the trial of an in-  
surance case in which she was inter-  
ested. She employed the service of  
"Baby" John Martin, whom she has  
variously claimed to be her child, the  
son of the Princess Chimay, and of  
unknown parents. "Baby John" tes-  
tified at both trials that he set the  
dynamite and fired the fuse under  
fear of death at the hands of Mrs.  
Martin if he failed to accomplish the  
deed.

### Jewish Philanthropist Dead.

St. Petersburg, Dec. 23.—Baron  
David Gumbel died here today  
from cancer. He was 54 years old  
and a son of Horacio Osipovitch  
Gumbel, president of the central  
committee of the Jewish Colonization  
company, who died in 1909. Like his  
father, he was famous for his bene-  
factions to the Jews and Jewish  
causes.

### New President of Chile.

Santiago, Chile, Dec. 23.—Ramon  
Barros Luco was today inaugurated  
president of Chile with the usual  
ceremonies and before a great con-  
course of Argentine sent a delegation  
of diplomats and military and naval  
officers.

President Luco was elected October  
15 to succeed President Montt, who  
died in Europe August 16.

## HATTENS SEEK TO BORROW MILLIONS

Sum Needed to Pay Arrearages  
of Salaries of Officials in  
Black Republic.

(By Morning Journal Special Leased Wire)  
Washington, Dec. 23.—The Haytian  
commissioners who are in this country  
seeking a loan to enable their gov-  
ernment to pay the salaries of their  
government officers, have been in  
conference here with the Haytian  
minister.

The amount is \$1,000,000 and it is  
said the commissioners have favor-  
able prospects of negotiating it. It is  
not known here whether this action  
has any bearing on the proposed es-  
tablishment of a bank in Hayti by a  
French syndicate, which called forth  
a protest from the United States.  
It is believed, however, that it does  
not indicate a failure of the French  
proposition, but rather that it is an  
advance measure to tide the Haytian  
government over until the problem  
relating to the French bank has been  
settled.

## BALDWIN GOLD COULD DO ANYTHING

### PARTING SHOT OF MRS. TURNBULL FROM STAND

Star Witness in \$2,500,000  
Will Contest Thus Explains  
Presence of Stack of Letters  
She Claims Are Forgeries.

(By Morning Journal Special Leased Wire)  
Los Angeles, Cal., Dec. 23.—"Lucky"  
Baldwin's gold could do anything  
against a defenseless woman."

This was one of the parting shafts  
launched at the opposing attorneys  
before she ended her testimony  
today in the contest of her daughter,  
Beatrice, for nearly a quarter of the  
\$11,000,000 estate of the old turfman left  
when he died two years ago.

The record of the woman's testi-  
mony at the trial of her \$75,000 suit  
against Baldwin has been destroyed,  
and the attorneys for the state were  
endeavoring to secure her present ver-  
sion of that testimony preparatory to  
introducing evidence for impeach-  
ment, when she shot the above retort  
in reply to a query as to what reason  
there might be for so many forgeries  
of her letters.

Seventeen more of her alleged let-  
ters were introduced and she de-  
clared everyone of them "base, atrocious  
forgeries, perpetrated by a vil-  
lain in the employ of that treacher-  
ous man, James R. Wood." Wood is  
the Boston detective employed by  
Colonel Robert Pope, whom Mrs.  
Turnbull previously declared, "sold  
me out to Baldwin."

One of the letters contained this  
sentence:  
"I resisted Lucky Baldwin more  
than I did Colonel Pope, for I loved  
Colonel Pope. I shall never betray  
his name. A woman never betrays  
the man she loves. Never."

Mrs. Turnbull declared she never  
wrote this or anything like it, although  
it is quoted as part of the evidence in  
the decision rendered by Judge  
Charles Slack, who presided in the  
seduction case.

Former Judge Slack will be one of  
the chief witnesses for the defense  
when the case is reconvened January  
4.

Mrs. Turnbull said she did not tes-  
tify regarding her alleged marriage  
by contract to Baldwin in the former  
case because she had not been asked.  
"Did you testify that there had  
been a promise of marriage?" she  
was asked.

"No," Mrs. Turnbull replied, "I did  
not so testify. I did say there had  
been a promise of marriage,  
which was true. Mr. Baldwin mar-  
ried me without making a promise.  
He did it out of hand, as quickly as  
he could write the contract."

Mrs. Turnbull also denied that she  
had ever admitted an alleged con-  
tract between herself and A. H. An-  
derson, Baldwin's former advertising  
agent, to give Anderson 10 per cent  
of whatever sums she could recover  
from Baldwin, in return for his tes-  
timony in the betrayal suit. She was  
shown the alleged contract.

"That's another forgery, probably,  
because I never saw it before and I  
never signed it," she said.

However, it bore identification  
marks of having been introduced in  
the seduction case.

Mrs. Turnbull was also asked  
whether previously to her meeting  
with Colonel Pope she had met a man  
named John Osborn and whether  
she had "done Boston" for a period  
covering an entire week.

"I did not," replied the witness.  
"In your previous case did you not  
admit that a picture introduced in evi-  
dence was of you and Osborn in a  
loving attitude?" she was asked.

"I remember a picture that Osborn  
said was of himself and me," she re-  
plied, "but as a matter of fact, the  
picture was of him and his daughter,  
the Duchess of Osborn's landlady. Inciden-  
tally, Mr. McNab, it was the picture  
that nearly cost Lucky Baldwin his  
life when it was shown. My sister  
shot him then."

## INCARNATION OF HONESTY AND CHARITY

This is How Witness Describes  
"Count" and "Countess"  
D'Aulby, Charged With  
Swindling American Duchess.

(By Morning Journal Special Leased Wire)  
Tours, France, Dec. 23.—"An amaz-  
ing court drama of passion and  
pathos," is how a local paper tonight  
sums up the trial of "Count" and  
"Countess" D'Aulby, who are charged  
with having swindled the Duchess  
de Choiseul-Praslin, formerly  
Mrs. Charles Hamilton Paine  
of Boston.

The epigram was based on today's  
sensational developments of the trial  
which so moved the auditors that the  
customary scenes of disorder, laugh-  
ter and cheering changed to a burst  
of weeping.

the contract for the sale of the pic-  
ture "Antiope" to the late Mr. Paine  
testified that D'Aulby insisted on the  
insertion of a clause guaranteeing the  
authenticity of the picture.

M. Diot also said that neither  
D'Aulby nor his wife had any idea of  
business or of the value of money of  
which they received \$12,000 almost  
every year from Boston. They were  
passionately fond of music and lived  
a happy family life until Mrs. Paine  
entered D'Aulby's life, which until  
then had been irreproachable.

D'Aulby, the witness said, was the  
victim of the wiles of others who  
were now trying to ruin him. As M.  
Diot gave instances of D'Aulby's al-  
leged charities sobbing was heard in  
various parts of the court room. The  
witness said it was always D'Aulby's  
intention to forward the wine for  
which Mr. Paine had given him \$2-  
700.

Every witness called by the prose-  
cution today turned out to be a de-  
fector of the defense, while the tes-  
timony of M. Desmoulin, a member  
of the jury of the Beaux Arts salon,  
Paris, plainly produced an impres-  
sion most favorable to the accused.

D'Aulby, who under the French  
system is constantly questioned on  
various points brought out by wit-  
nesses, shows signs of breaking down,  
as a result of the ordeal. As M. Diot  
and others lauded him today, D'Aulby  
sat with his head bowed on his knees,  
and his handkerchief hiding his features.  
It is announced that he has spent eight  
months of his prison life in compos-  
ing music and in writing his mem-  
oirs.

## NO TIDINGS OF LOST BRITISH AVIATOR

### NORTH SEA SCoured IN VAIN FOR YOUNG GRACE

Only Hope That He May Have  
Been Picked Up by Passing  
Vessel and Carried Toward  
Some Distant Port.

(By Morning Journal Special Leased Wire)  
London, Dec. 23.—With the ap-  
proach of midnight and no tidings yet  
of Cecil S. Grace, the intrepid young  
aviator, who disappeared Thursday af-  
ternoon while attempting a return cross-  
channel flight from Calais to Dover  
in an aeroplane, the belief generally  
prevails in London that the old North  
Sea holds somewhere on its turbulent  
breast the story of a tragedy.

Every nook and corner on shore  
and inland—where it was thought  
young Grace might have landed, was  
searched today, but unavailing, and  
the boats that churned the channel  
and portions of the North Sea on the  
lookout for the young aviator or  
wreckage of his machine likewise report their  
search had been in vain.

Grace carried with him petroleum  
sufficient for a flight of about five  
hours. His biplane was not fitted  
with pontoons, and wore a cork  
jack, but in case of a fall into the  
water he would have been cumbered  
by his heavy fuel-laden foot boots.  
The general belief is that it would be  
impossible for his machine to float for  
any great length of time and that un-  
less the aviator was rescued by a ship  
bound for some distant port, there  
is slender hope that he escaped death  
in the sea.

Confederate Records Lost.  
Norfolk, Va., Dec. 23.—The loss in  
the Old Fellows hall fire here last  
night will not exceed \$40,000, accord-  
ing to conservative estimates made  
today. The danger is that the Con-  
federate records lost in the fire, which  
records that can never be replaced.

## CHICAGO CITIZENS RAISE FUND FOR FIRE VICTIMS

Expected Quarter of a Million  
Will Be Subscribed for Fam-  
ilies of Men Killed in Stock-  
yards Holocaust.

(By Morning Journal Special Leased Wire)  
Chicago, Dec. 23.—Alexander D.  
Lannon, captain in the fire depart-  
ment, injured at the stock yards fire  
here yesterday, died today. This  
makes the official list of dead twenty-  
four.

Coroner Hoffman, following a day's  
investigation with members of the  
jury, announced that the inquest  
would be opened next Wednesday  
morning. A particularly pathetic scene  
occurred at the fire this afternoon  
when the body of Captain Dennis  
Doyle, the last to be removed, was  
taken from the ruins. Pipeman Ed-  
ward Doyle, a son of the captain, col-  
lapsed when his father's body was  
found. Edward Doyle had been at  
the fire for nearly thirty-six hours.  
He had assisted in finding the body  
of his brother, Nicholas Doyle, also  
killed in the fire and refused to leave  
until that of his father was recovered.

The Citizens' Relief committee of  
which Harlow N. Higinbotham is  
chairman, and John J. Mitchell, treas-  
urer, established headquarters at a  
down-town bank today. It was an-  
nounced that a fund of \$150,000 is de-  
sired. Of this \$50,000 had been sub-  
scribed when the committee's offices  
closed for the day.

## HURRIED RACE TO ASYLUM OR GRAVE

### CRYING NEED FOR LESS HUSTLE IN AMERICAN LIFE

Medical Men Plan Campaign  
Against Causes of Insanity  
Similar to That Now Being  
Waged Against Tuberculosis.

(By Morning Journal Special Leased Wire)  
New York, Dec. 23.—The records  
of American life, and more especially  
of American hustle, are to be found  
in the many insane asylums of the  
country, is the opinion of Dr. N. Allen  
Starr, who addressed the Academy of  
Medicine here tonight.

"The crying need of the present  
day," continued Dr. Starr, "is a real-  
ization that we live too fast, that we  
work too hard, that we strive too in-  
tensely; that we feel too keenly  
moderation, not excess, leads to  
health."

The meeting was called to discuss  
the prevention of insanity, on the  
able are the result of comparatively  
trivial causes, which if their sequelae  
had been wisely foreseen, might have  
been checked before they become ir-  
remediable. Dr. Albert Warren For-  
ster, president of the state lunacy  
commission, estimated that almost  
half the cases of insanity under ob-  
servation in state hospitals were the  
result of loose living and nervous  
strain.

### CONVICTION IN COLORADO BASED ON VIOLATION OF STRIKE INJUNC- TION PROHIBITING PICKETING OR GATHERING IN GROUPS.

(By Morning Journal Special Leased Wire)  
Denver, Dec. 23.—Sixteen mem-  
bers of the Lafayette, Colorado, union  
of the United Mine Workers of America,  
today began serving a year's sentence  
each in the county jail, imposed late  
this afternoon, by District Judge Gre-  
gory M. Whitford, for violating a tem-  
porary injunction, restraining striking  
miners of the northern Colorado coal  
district from interfering with non-  
union men, a stay of execution and  
the privilege of bonds pending appeals  
were denied.

Early in November Judge Whit-  
ford enjoined the members of the  
miners' unions in the four mining  
towns of the northern district—Lafay-  
ette, Louisville, Marshall and Superior  
—from picketing the mines where  
strikes had been declared, as well as  
attempting to induce strike breakers  
to quit work, and even from gather-  
ing in groups at the stations or upon  
the streets. The attorneys for the  
unions fought the application for an  
injunction, which was made by the  
Northern Coal and Coke company in  
behalf of itself and several other  
companies, on the ground that Judge  
Whitford was without jurisdiction, the  
mines all being located in Boulder  
county, and the members of the unions  
being resident therein. This conten-  
tion was overruled by Judge Whit-  
ford and a temporary injunction  
granted.

In the meantime, union leaders were  
preparing to request a change of  
venue. On Saturday last a conflict oc-  
curred between strikers and non-union  
miners and sixteen of the former were  
charged with violating the injunction  
issued against the union members.

### MACK ENDORSES SHEEHAN CANDIDACY FOR SENATE

Buffalo, N. Y., Dec. 23.—Norman E.  
Mack, democratic chairman, returned  
to Buffalo today after a ten days' ab-  
sence from the city. Referring to the  
candidacy of William F. Sheehan for  
the United States senate Mr. Mack  
said:

"While I am not advancing the  
claims of any individual, I am natu-  
rally pleased at the handsome tribute  
paid to a former Buffalonian by so many  
of our leading citizens. I think Mr.  
Sheehan well qualified for United  
States senator."

### NORRIS SEEKS TO AGAIN AMEND HOUSE RULES

Washington, Dec. 23.—Representa-  
tive Norris of Nebraska, the insur-  
gent republican whose resolution in-  
augurated the rules fight in the house  
last March, will after the holidays,  
introduce the proposed amendment  
to permit reading the title only, in-  
stead of the entire bill, on a motion  
to discharge a committee from fur-  
ther consideration of a measure.

Mr. Norris and other republicans  
have been in conference since Speak-  
er Cannon rendered his ruling a few  
days ago that on such motions the bill  
must be read in its entirety. Mr.  
Norris said the speaker's decision was  
wrong.

### CHICAGO CITIZENS RAISE FUND FOR FIRE VICTIMS

Expected Quarter of a Million  
Will Be Subscribed for Fam-  
ilies of Men Killed in Stock-  
yards Holocaust.

(By Morning Journal Special Leased Wire)  
Chicago, Dec. 23.—Alexander D.  
Lannon, captain in the fire depart-  
ment, injured at the stock yards fire  
here yesterday, died today. This  
makes the official list of dead twenty-  
four.

## STEAM FIRE ENGINE QUETS UNRULY PRISONERS

Industrial Workers of World At-  
tempt Demonstration in  
Fresno Jail and Are Drenched  
by Powerful Stream.

(By Morning Journal Special Leased Wire)  
Fresno, Cal., Dec. 23.—To quell a  
howling mob of twenty industrial  
workers of the world, penned in the  
county jail, a steam fire engine was  
called into action this afternoon.  
With full force turned on, the stream  
bowed over in quick succession every  
speaker as he attempted to rise and  
climb to the windows to shout at the  
people outside. The demonstration  
lasted twenty minutes. When the I.  
W. W.'s finally gave in, the floor of  
the prison was six inches deep with  
cold water, and the industrials and  
their bedding were thoroughly  
soaked.

The industrialists started their  
demonstration last night and in con-  
sequence of this today, were placed  
on a bread and water diet. When  
the jailers appeared with the bread  
the industrial workers of the world  
prisoners threw the bread in their  
faces.

Later they took all of their mat-

resses and improvised ladders to  
reach the high windows, from which  
they addressed the crowds in the  
court house park.

Warned to desist by the jailers, they  
refused, and cursed them. Jailor  
Jones turned a weak prison hose on  
the industrial workers. But this had  
no effect. Then the chief of police  
summoned a fire engine. Shouting  
defiance, the prisoners still appeared  
at the windows and made effort to  
talk. But the full force of the fire  
stream soon laid them low.

### ROMAN CATHOLIC PRIEST MURDERED BY CHINESE

Hong Kong, Dec. 23.—Father Mer-  
goli, who had been a French mission-  
ary in China since 1903, was murder-  
ed Thursday by natives in Yunnan.  
The province of Yunnan. An in-  
vestigation into the cause of the mur-  
der is proceeding. The district about  
Yongpeth is unusually quiet.

Admiral Howard Entertains English.  
Gravesend, Eng., Dec. 23.—Rear-  
Admiral Howard and the fourth  
division of the United States Atlantic  
fleet gave a reception and  
deck dance on board the battle-  
ship Georgia tonight. Five hundred  
guests were present.

## UNION MINERS SENTENCED TO JAIL

### TO SERVE TWELVE MONTHS FOR CONTEMPT OF COURT

Conviction in Colorado Based  
on Violation of Strike Injunc-  
tion Prohibiting Picketing or  
Gathering in Groups.

(By Morning Journal Special Leased Wire)  
Denver, Dec. 23.—Sixteen mem-  
bers of the Lafayette, Colorado, union  
of the United Mine Workers of America,  
today began serving a year's sentence  
each in the county jail, imposed late  
this afternoon, by District Judge Gre-  
gory M. Whitford, for violating a tem-  
porary injunction, restraining striking  
miners of the northern Colorado coal  
district from interfering with non-  
union men, a stay of execution and  
the privilege of bonds pending appeals  
were denied.

Early in November Judge Whit-  
ford enjoined the members of the  
miners' unions in the four mining  
towns of the northern district—Lafay-  
ette, Louisville, Marshall and Superior  
—from picketing the mines where  
strikes had been declared, as well as  
attempting to induce strike breakers  
to quit work, and even from gather-  
ing in groups at the stations or upon  
the streets. The attorneys for the  
unions fought the application for an  
injunction, which was made by the  
Northern Coal and Coke company in  
behalf of itself and several other  
companies, on the ground that Judge  
Whitford was without jurisdiction, the  
mines all being located in Boulder  
county, and the members of the unions  
being resident therein. This conten-  
tion was overruled by Judge Whit-  
ford and a temporary injunction  
granted.

In the meantime, union leaders were  
preparing to request a change of  
venue. On Saturday last a conflict oc-  
curred between strikers and non-union  
miners and sixteen of the former were  
charged with violating the injunction  
issued against the union members.

# DIAMONDS

## The Gift of All Gifts

It commands the appreciation of the recipient, and affords the satisfaction to the giver, as does no other gift.

### We Believe

that we have sold more Diamonds in the past year than ALL THE OTHER DEALERS IN ALBUQUERQUE COMBINED. "There's a Reason."

### 10 PER CENT DISCOUNT

This is the Harvest Season for dealers in desirable Christmas Gifts, and as our stock is immense, we want to make this our banner year, and at the same time convert our stock into money as far as possible before taking our January inventory. Therefore we have decided, on all diamond purchases FROM NOW UNTIL NEW YEARS, to give a TEN PER CENT DISCOUNT on all prices marked.

Our Diamonds are Procured for Cash. We loan money on them, necessarily less than they are worth. Regular dealers buy on sight, ten and twelve months' time. Somebody Pays Interest. We Pay No Interest, get our goods Cheap, and Sell Them Accordingly.

## NEW BORDER WOULD MEAN ENDLESS LITIGATION

### TEXT OF TAFT MESSAGE ON TEXAS BOUNDARY

Clark Lines Have Been Legally Run, Marked, Established and Ratified, Declares the President.

Morning Journal Bureau, 613 Munsey Building, Washington, D. C., Dec. 23.—The following is the text of the special message sent to congress by President Taft about the boundary dispute between Texas and New Mexico:

To the Senate and House of Representatives: The constitutional convention recently held in the territory of New Mexico has submitted for acceptance or rejection the draft of a constitution to be voted upon by the voters of the proposed new state, which contains a clause purporting to fix the boundary line between New Mexico and Texas, which may reasonably be construed to be different from the boundary line heretofore legally run, marked, established and ratified by the United States and the state of Texas, and under which claims might be set up and litigation instituted of an unnecessary and improper character. A joint resolution has been introduced in the house of representatives for the purpose of authorizing the president of the United States and the state of Texas to mark the boundary lines between the states of Texas and the territory of proposed state of New Mexico or to re-establish and remark the boundary line heretofore established in 1858, and to enact that any provision of the proposed constitution of New Mexico that in any way tends to annul or change the boundary line between Texas and New Mexico shall be of no force or effect until the adoption of such joint resolution.

The Act of June 5, 1858, Volume 11, United States Statutes, Section 110, authorizing the president of the United States in conjunction with the state of Texas, to run and mark the boundary lines between the territories of the United States and the state of Texas, under which a survey was made in 1858-1859, by one John H. Clark, and in the Act of Congress, approved March 2, 1891, Volume 25, United States Statutes, Section 971, "The boundary line between said public land strip and Texas, and between Texas and New Mexico, established under the Act of June 5, 1858, and hereby confirmed," and a joint resolution was passed by the legislature of Texas, and became a law March 25, 1891, "confirming the location of the boundary line established by the United States commissioners between No. Man's land and Texas, and Texas and New Mexico, under the act of congress of June 5, 1858." (Laws of Texas 1891, page 183, resolution.)

The commission on Indian affairs in its report of May 2, 1910, No. 1258, 61st congress, second session, recommended a joint resolution in the fourth section of which appears the following: "Provided, that the part of a line run and marked by monument along the 22nd parallel of north latitude and that part of the line run and marked along the 103rd degree of longitude, west of Greenwich, the name being the east and west and north and south lines between Texas and New Mexico, and run by authority of Act of Congress approved June 5, 1858, and known as the Clark line, and that part of the line along the parallel of 34 degrees and 30 minutes of north latitude forming the north boundary line of the Panhandle of Texas, and which said parts of said lines have been confirmed by acts of congress of March 2, 1891, shall remain the true boundary line of Texas and Oklahoma, and the territory of New Mexico, provided further, that it shall be the duty of the commissioners appointed under this act to remark said old Clark monuments and lines where they can be found and identified.

The lines referred to in the paragraph above are the same as contained in the proposed joint resolution above referred to. Under the act of congress, approved June 28, 1910, "An Act to enable the people of New Mexico to form a constitution and state government and be admitted to the union," etc., volume 24, United States Statutes, Section 4, it is provided that when a constitution has been duly ratified by the people of New Mexico, a certified copy of the same shall be submitted to the president of the United States, and in section 5, it provides that after certain elections shall have been held and the result certified to the president of the United States, the president shall immediately issue his proclamation, upon which the proposed state of New Mexico shall be deemed admitted by congress into the union, by virtue of said Act of June 29, 1910.

The required acts have not taken place and therefore to all intents and purposes the proposed state of New Mexico is still a territory and under the control of congress. As the boundary lines between Texas and New Mexico is established under the Act of June 5, 1858, and confirmed by congress under the Act of March 2, 1891, and ratified by the state of Texas, March 25, 1891, and as the territory of New Mexico has not up to the present time fulfilled all the requirements under the Act of June 29, 1910, for admission to the union, there is no reason why the joint resolution should not be adopted as above provided, and I recommend the adoption of such resolution for the purpose of conferring indisputable authority upon the president in conjunction with the state of Texas to establish and re-mark a boundary already established and confirmed by congress and the state of Texas.

## TAFT AMONG TARDY SHOPPERS

President Completes His Christmas Purchases by Tour of Stores in National Capital.

Washington, Dec. 23.—President Taft finished his Christmas shopping today. Matters of state made him a tardy shopper. Altogether he devoted three afternoons to the task, which was not a small one by any manner. Captain Hunt, the president's aide, yesterday carried three boxes of gifts to the White House for him.

Mr. Taft believes more in the sentiment of Christmas giving than in the intrinsic value of the gifts. In consequence he does not confine himself to a small coterie of relatives and friends and his gifts mount up into the hundreds.

Outside of the large circle of relatives and friends, the president gives presents to the various White House clerks. He also presents turkeys to the married employees about the executive mansion offices and grounds.

To the three secret service men who are assigned to look after his welfare the president always gives a personal remembrance.

## SMOKE BUBBLES FROM FISSURE IN KANSAS

Volcanic Eruption Near Dodge City May Divide Interest With Eruptions of Governor Stubbs

Dodge City, Kan., Dec. 23.—Professor Erasmus Haworth, of the University of Kansas, today made an investigation of some peculiar fissures which lately have appeared in the earth on the J. E. White ranch, twenty miles southwest of here.

The professor was unable, after his cursory examination, to determine the cause of the phenomena. He will make a more extended inquiry within the next few weeks.

The largest of the fissures is about 200 yards long and three feet wide, another is about fifty yards long and two feet across at the widest point. A forty foot rope did not touch the bottom of the fissure.

On the occasion of the appearance of the smaller cracks, smoke issued from them, and the ground nearby trembled and shook.

Several years ago there were several volcanic eruptions, 200 miles west of here.

found snow around a crater near the summit melted for half a mile and the ground covered with ashes. This phenomenon was noticed for several nights during which the top of the peak was strangely lighted and was taken as evidence of a minor eruption.

## JANITOR DECORATING CHURCH DROPS DEAD

Denver, Dec. 23.—Just after he had put the finishing touches on the Christmas decorations in the Twenty-third Avenue Presbyterian church to-night, William C. Hutchinson, the janitor, fell from the bottom step of a ladder into the arms of Miss Hazel Moore, dead. Heart disease is believed to have been the cause.

## ROYALTY WORRIED OVER SHORTAGE OF ERMINE

Winnipeg, Man., Dec. 23.—Fear of a scarcity of ermine for King George's coronation in London next June has resulted in special inducements being offered to trappers by the trading companies, but owing to the mild weather in northern Canada, the fur catch has been the lightest in many years.

Indians are bringing in very little from their fall hunt and the Christmas shipment of furs will be far below the average.

## REPUBLICANS AND DEMOCRATS ALIKE SOLD VOTES

Price Ranged From \$10 to \$20 in Ohio Where Eight Hundred Pleaded Guilty.

West Union, O., Dec. 23.—One hundred additional indictments, charging citizens of Adams county with bribery in connection with the recent election, were returned by the special grand jury late today bringing the total for the day to 272 and the grand total for the week to 833.

More than 200 arrests have been made, and in every instance the defendant has pleaded guilty. In the majority of cases the court has imposed a fine of \$25 and costs and a jail sentence of six months, with the loss of the right to vote for five years.

So far as the evidence discloses the guilt is about equally divided between members of the republican and democratic parties.

It appears that the price for a vote ranged from between \$10 and \$20.

## MacVeagh Greets Money Makers.

Washington, Dec. 23.—Four thousand employees of the bureau of printing and engraving received personal holiday greetings today from Secretary MacVeagh.

The secretary went to the government's money factory just at the time the day shift went off duty and the night shift came on. The hundreds of men and women assembled in the large lunch room where Secretary MacVeagh told them of the appreciation of their work and wished each of them a Merry Christmas and Happy New Year.

## LABORERS CRUSHED; ONE DEAD UNDER WALL

Newark, N. J., Dec. 23.—The collapse today of a temporary steel structure supporting the roof of an old theater undergoing reconstruction, brought down a large portion of one wall upon seventy laborers working beneath. One man, a Pole, was killed and two others sustained serious injuries.

## REUNITED AFTER FIFTY YEARS

Couple Who Quarreled at Outbreak of Civil War Start on Second Honeymoon Trip in Mexico.

St. Paul, Minn., Dec. 23.—George W. Roberts and his wife quarreled at the outbreak of the civil war, he joining the union army, who following the confederate cause, becoming a nurse. They lost track of each other. Not long ago a patient of Mrs. Roberts recognized a picture of Mr. Roberts in a pocket worn by the nurse.

The couple were reunited today. As they had been married in Mexico in 1878, they applied for a license to marry, but being told their marriage bonds had not been broken, they left the court house happy and are now preparing to take another "honeymoon" trip to Mexico. Mr. Roberts is 72 years old and his wife is 75.

## GIFT TO AMALGAMATE UNIVERSITY AND HOSPITAL

New York, Dec. 23.—George L. Rives, chairman of the board of directors of Columbia university, and Robert W. DeForest, president of the Presbyterian hospital, announced to-night that \$1,500,000 had been pledged to perfect an affiliation between the hospital and the medical school of the university. The name of the donor is not announced.

The gift comes through Edward S. Harkness, a member of the wealthy family of New York and Cleveland, who adds \$200,000 for the erection upon a site belonging to the hospital of a surgical pavilion containing 125 beds.

Edward S. Harkness was graduated from Yale with the class of '87 and is a director of several banks and corporations. His brother, Charles W. Harkness, is director of the Standard oil company and it is commonly believed that some member of the Harkness family also makes the larger gift.

## THIEF GRABS GEMS WORTH SMALL FORTUNE

Falls Into Hands of Cincinnati Police Fifty Minutes After Daring Deed; Most of Loot Recovered.

Cincinnati, Dec. 23.—Ten thousand dollars worth of diamonds were stolen from a jewelry store in the center of Cincinnati's business district to-night.

Fifty minutes later the police arrested John Cane, aged 35, of Chicago, the proprietor of the store identifying the diamonds found upon him as the gems stolen from the window. Two rings were missing. These were valued at about \$500.

The theft was effected by the smashing of a heavy stone display window, the thief grabbing three trays of diamonds. Cane was found in an alleyway within half a block of where the theft was committed.

## STIFF SENTENCE FOR KIDNAPER IN SEATTLE

Seattle, Wash., Dec. 23.—Bert Schuman, alias Herbert Robinson, kidnaper of 11-year-old Henry Wellman, was found guilty by a jury today in the superior court and given an indeterminate sentence of from twenty to forty years in the Walla Walla penitentiary.

Schuman entered the Wellman boy from his home here last July. He made him walk overland several hundred miles before taking an east-bound train. Schuman and the boy were found in Omaha in September.

## WINNIPEG STRIKE SYMPATHIZERS SMASH CARS

Serious Rioting Attends Attempt to Operate Trolley Line in Manitoba Capital.

Winnipeg, Man., Dec. 23.—Thirty street cars were stoned and smashed and one was burned tonight by sympathizers of the striking car men. The cars were taken possession of by Canadian Pacific employees for whom the cars had been sent to the outskirts of the city at the close of the working day. The car crews fled.

## CHANCE TO GET MARRIED IN GEORGIA FOR NOTHING

Atlanta, Ga., Dec. 23.—The liberality of magistrates in Youngstown, Me., and Nashville, Tenn., in cutting rates for performing marriage ceremonies during the holidays, has been eclipsed by the mayor of Covington, Ga., who today issued a card offering not only to perform the service free, but also to furnish the license free of charge on Christmas day.

## DEAD LETTER OFFICE SALE NETS \$8,739.75

Washington, Dec. 23.—The sale of articles accumulated in the division of dead letters of the postoffice department in the last few days embraced 2,941 items, aggregating \$8,846.88, or an average of \$1.33 for each parcel sold, according to a report of the postmaster general. The net revenue was \$8,739.75, which will be deposited in the fiscal year department to the credit of the postal revenue.

The merchandise disposed of embraced undelivered matter of salable value for which owners could not be found, received in the fiscal year ended June 30, 1909, and represented salable articles found in 130,495 parcels and letters.

## DUKE OF CONNAUGHT NEEDED AT HOME

King George Finds That Uncle is Too Valuable to Be Spared as Governor General of Canada.

Ottawa, Ont., Dec. 23.—That the Duke of Connaught will not be the next governor general of Canada is the growing belief in Ottawa circles. A substantial hint of a semi-official nature, received from the mother country.

It was announced shortly after the death of King Edward that it had been his wish that his brother, the Duke of Connaught, go to Canada as governor general.

King George is said to have discovered that the duties devolving upon a king of England, are too numerous for one man. King Edward was assisted in official functions by the Duke of Cornwall and Prince George of Wales. King George, however, finds he has only one competent assistant to represent him and this is his uncle.

## TWO MEN CAPTURE QUARTETTE OF ROBBERS

Bold Hold-Up Men Lose Courage After One of Their Number Is Wounded by Determined Officers.

Sand Point, Idaho, Dec. 23.—After a night and a day of trailing, Sheriff Merritt and Deputy Wilcox this evening arrested four men who are supposed to have held up and robbed the postoffice and store at Colburn, Idaho, last night. The arrests were not made, however, until one of the men had been shot through the body.

The holdup was a bold affair. Four men, all heavily armed, lined up six persons who were in the store at the time, forced them to give up their money, amounting to about \$150, and escaped. A light snow, which had fallen shortly before the robbery, aided the officers, who followed the trail over the mountains and through the woods to a shack on the outskirts of Kootenai. When the sheriff remained on guard his deputy went to summon help.

One of the men, Jess McClellan, made an attempt to escape from the shack and was shot. The others then offered to surrender and as they came from the building at one at a time they were handcuffed by the officers and later brought to Sand Point. The three who surrendered gave their names as Tom Johnson, Harry Doyle and Robert Brauberry. McClellan will probably be tried.

## CHILD BITTEN BY MAD DOG DIES OF RABIES

Boone, Ia., Dec. 23.—Mayor Wilder has ordered that all dogs in the city be muzzled for a period of one year from this date.

This order is the result of the death from rabies of a four year old child and the injury of nearly a dozen citizens by being bitten by mad dogs within the last few months. Mayor Wilder is considering the advisability of ordering all dogs in the city killed.

## IMMIGRANT'S CELEBRATE FIRST CHRISTMAS HERE

New York, Dec. 23.—This was Christmas day for 2,000 immigrants on Ellis Island, gathered from the seven seas. And the clamor of many tongues, the music of the island made it a day long to be remembered.

The celebration was held in the big dining room. Christmas greetings were given in varied languages, then candy, fruit and trinkets were distributed by the patriarch from the Steppes.

While the throng laughed and

**Ohio Bank Closes Doors.**  
Urbana, O., Dec. 22.—The Farmers and Merchants' bank of Roswell closed its doors today. The court appointed O. F. Girkhold receiver. The bank was organized a year ago. It is said the depositors will be protected in full.

San Francisco, Dec. 23.—Christmas eve will be made notable in San Francisco this year with what will probably be the largest open air concert ever held in the west. If the weather is favorable when Madame Luisa Tetrazzini, the famous opera singer, will sing in the streets tomorrow night. A large platform was erected tonight at Lotta's fountain, at the corner of Broadway, Kearney, Market and Third streets, in the heart of the downtown section, from which the diva will sing Christmas carols. Street car traffic will be stopped during the concert and no automobiles allowed within several blocks.

There are still plenty of democrats in congress and congressional offices, don't know it is all over. They will find out about it later. The important fact is that it is all over, the committee making move is going to be taken away from the speaker by the next house. If it isn't taken away, don't know one and that's the only way inside the democratic party will have won its first big victory.

Poor Champ Clark, who was the speaker retain the power the now exists, feels mighty peeved of the success of the insurgent democrats.

### TAX COLLECTIONS OF PAST YEAR BREAK THE RECORD

Twenty-Six Counties Gather in  
Nearly \$676,000 According to  
Figures of Territorial  
Traveling Auditor.

[Special Correspondence to Morning Journal]  
Santa Fe, N. M., Dec. 22.—Up to December 1, according to the records of Territorial Traveling Auditor Charles V. Sanford, the twenty-six counties of the territory collected for 1909 a larger sum than in any previous year. The tax collections for 1909, too, are 1 per cent higher than for last year, being 23.9 per cent, but in some counties running up to 45 per cent. Of 1909 taxes, three counties collected more than \$50,000, namely: Chavez, \$56,806.92; Colfax, \$54,106.50; and Bernalillo, \$50,725.29, while Grant county was a close fourth with \$49,672.95, and San Miguel, fifth, with \$43,940.70. The counties that contributed between \$24,000 and \$40,000 to the 1909 expenditures of the territory were: Dona Ana, \$37,867.28; Eddy, \$37,758.61; Otero, \$28,766.56; Luna, \$27,128.76; Lincoln, \$26,850.69; Quay, \$26,624.92; Union, \$26,369.89; Santa Fe, \$25,145.04; Socorro, \$24,608.45. The following counties contributed between \$10,000 and \$25,000, being: Curry, \$19,165.78; Guadalupe, \$18,123.70; Valencia, \$16,937.49; Sierra, \$16,156.61; Roosevelt, \$16,137.94; Mora, \$12,819.41; McKinley, \$12,723.06; San Juan, \$12,496.19; Rio Arriba, \$11,719.12; Torrance, \$10,642.87, while Sandoval county with \$5,256.08 and Taos \$7,902.15 are at the bottom of the list.

## SHOULD A MAN GET MARRIED ON \$18 PER WEEK?

Morning Journal Will Give Prizes to Those Who Tell Best How Two People Can Live on That Sum.

Should a man get married on \$18 a week?

Curious question. No more curious than if you asked me to answer the question, "Should a man be careful in the choice of his parents?"

On this all-absorbing topic George Gordon, the well known theatrical man, said yesterday to a Morning Journal representative:

To those to whom this answer seems involved I will make it plain. A man, ordinary man, exercises as little control over his getting married as he does over his birth. He simply can't help it. Ask those who have tried to interfere.

The one person to answer the question, "Should a man get married on \$18 a week?" is the boy who has gone and done it. He is an expert. What is the use of asking me this question when large cosmopolitan papers have employed lady experts to give this advice to the love-lorn? Who could tell to the dot whether a man should get married on \$18 a week or on \$4 a week?

Ah, but you see I am told "We want to hear from a man of the world; a man much traveled and much tried. His answer will have human interest; his answer will not be coldly calculating and scientifically adjusted. We want you to speak as an ordinary human being, who finds himself waking up some fine morning and grinning over his bedstead and seeing his fate with a pointed finger asking, 'Should a man get married on \$18 a week?'"

Well, now that depends. It depends on the man and on the woman. It depends on their antecedents, the environment in which they have lived; in which they have been brought up. It affects the man in the city differently from the man in the country. It affects the laborer differently from the clerk, and then the temperament of both contracting parties enters largely into the affirmation or negation of the question. I am a married man myself, but I did not marry on \$18 a week. As a married man I couldn't if I would—and I wouldn't if I dared, proclaim marriage other than a good thing. Marriage is a good thing, and every man and woman some time in life should marry. It is a duty and without it society cannot exist. But again comes the all-important and often asked question, "What is the income that will permit a man to marry?" and this is the question that I am called upon to answer. No man has a right to tell another how he should live. To one man a dollar means more than it does to another.

Ambitious careers have without end been derailed by the attempt of two people to live on what has been only sufficient for one. So how can one poor mortal man answer such a momentous question? It is too much to expect and the only fair and adequate answer I can give is that it entirely depends on the man and on the woman. Take for instance the case of Joseph Brooks in "Pride in Fall." That presents a more impressive sermon on the subject under discussion than any labored elucidation of my own. The experience of Joseph Brooks is that of thousands among our people and might well serve as a beacon of light to those who court matrimony on \$18 a week.

When a man thinks he wants to get married the whole world looks pink to him and he thinks it is going to be one rosy dream from now on and eternity. And then without a thought of how and when and where the money is coming from to buy wifely the new dresses in which she looks so well and how the grocer and the butcher and the candlestick maker will be paid, their eyes turn up like those

of a sick calf with the colic and splined they get.

Question: Should a man get married on \$18 a week?

Answer: Sure, if he wants to.

"Quod erat Demonstrandum."

It is with the idea of testing this great and very important question that the Morning Journal has decided to offer a prize to the reader giving the best written answer to the question of "How can two people live on \$18 a week?" The terms of this contest will be found in tomorrow's paper, together with the list of prizes offered for the best solution of this problem.

**COLORADO MAN IS MET AT DEPOT BY DELEGATION**

Frank Q. Wiley Greeted at Santa Fe Station By Several Officers and Arrested on Advice From Denver.

When Frank Q. Wiley, traveling on a ticket from Denver to Los Angeles issued to Art Moore, stepped from Santa Fe passenger train No. 1 to secure a lunch last night, he was met at the bottom of the steps by several Santa Fe and city officers, all of whom gave him the glad hand and told him that Sheriff Alexander Nesbitt, of Denver county, Colorado, was anxious for him to return to that state.

Wiley at first declared he was the victim of a practical joke or there was some terrible mistake somewhere, but finally concluded to accept an offer to spend the night in the city jail as the guest of the municipality.

The telegram received by Chief of Police McMillin asking that Wiley be arrested, stated that the man was wanted in Denver for "false pretenses." The telegram was not explicit and Wiley refused to impart any information which would throw any light on the question. He said, however, that he will return to Colorado without extradition papers.

Sheriff Nesbitt has been notified of the capture of the man and will likely send an officer for him today or tomorrow.

**MESSENGER BOYS MADE GLAD BY USEFUL GIFTS**

President Mackey of Postal Telegraph-Cable Company Presents Each Youth With Comfortable Sweater.

Joy reigns among the scores of thousands of messenger boys employed by the Postal Telegraph-Cable company in its 5,000 offices throughout the United States, the reason thereof being the generosity of Mr. Clarence H. Mackay, president of the company. Mr. Mackay is a believer in Santa Claus and as an evidence of his faith in that venerable old saint, decided to help him out in his good work by presenting each messenger boy in the employ of the company with a handsome sweater, a Christmas gift which will be appreciated by the boys who are forced to be out in all kinds of weather, bringing messages of joy and sorrow to the people of the United States. This is not the first time that Mr. Mackay has evidenced his interest in the welfare of the army of employees of the great telegraph and cable companies under his management.

**Blanche Walsh Is SUPERB OTHER NEW PLAY**

Famous Emotional Actress Displays Great Talent to Much Advantage in "The Other Woman."

Displaying her gift for emotional acting to a splendid advantage, Miss Blanche Walsh and supporting cast last night presented, "The Other Woman," to a packed house at the Elks theater. Especially written for her, the new play gives Miss Walsh every opportunity to use her extraordinary ability. Throughout the play the star as "Eleanor Gates," "The Other Woman," was, of course, the dominant factor.

"The Other Woman" is a story which is not unique in the every day existence of men and women. Time and again Miss Walsh struck home with lines and sayings which found an answering chord in the hearts of the women and of the men in the audience.

Much different in general plot from "The Test," presented in Albuquerque by Miss Walsh last year, this play last night afforded her even greater scope for emotional acting. Miss Walsh was in better voice than when here last season and seemed to have developed even greater strength in the art of playing upon the heart-strings of her hearers.

"The Test," "The Other Woman," is small, numbering altogether a half dozen. Miss Anne Cleveland, as Mrs. James Harrington, "the wife," although not as brilliant as the leading lady, was splendid in her interpretation of the different role of the neglected wife. George W. Howard was strong and masterful as "James Harrington," "the husband."

Altogether, "The Other Woman" was one of the best of the season's offerings. A play that was intensely interesting throughout. Miss Walsh has many warm admirers in Albuquerque and should this city be fortunate enough to be included in her itinerary next season, she will be assured of a crowded house.

**TWO INTERESTING BULLETINS FROM THE EXPERIMENT STATION**

The time of year is at hand when the rabbits will begin to do damage to young shade and fruit trees where they are not protected by some means. Considerable loss occurs each year by the rabbits gnawing the trees. Painting the trunk of the trees with either of the washes mentioned in the following formulas will prevent the injury if properly done and in time.

Formula No. 1. Slack in water over night the quantity of unslaked lime needed for the work. In the morning add enough water to make a good thick wash. Stir the mixture well and to each quart add one-half gallon of the wash and two tablespoonfuls of Paris green. Take care to mix well in the wash. Apply to the trunk of the tree with an ordinary paint brush; keep the wash stirred up so the ingredients will not settle to the bottom of the pail.

Formula No. 2. Slack the lime as above and stir in just before using in place of the Paris green from one-half pound to one pound of arsenic of lead to each pailful of the wash. A handful of salt added to the wash will make it stick better to the trunk of the tree. Apply this wash in the same manner as in No. 1.

Formula No. 3. Take equal parts of unslaked lime and cow manure and add enough water to make a thick wash, and apply with a brush. This makes a cheap and effective remedy to keep rabbits from gnawing young trees.

Formula No. 4. Make a wash of equal proportions of sulphur, stove soot, and one quart of arsenic of lead in enough water to make a thick paint. Apply with a brush in the ordinary manner.

It takes no extraordinary skill or practice to make and use any of the washes given in the above formulas. All the care that will be necessary will be to mix them carefully and apply in a workmanlike manner. In formula No. 1 and 2, two ounces of Paris green may be added instead of the Paris green or arsenic of lead.

**Storing Cabbages.**

The storing of the cabbage crop for winter use and market is one of the problems that the grower has to consider at this season of the year. While the cabbage crop is one that is comparatively easily grown and kept, nevertheless the grower should like to have some additional information upon the subject.

To insure proper keeping, the heads should be firm and should be left standing in the field as long as the season will permit without endangering the crop by severe freezing. The length of time the crop may be safely left in the field depends upon the locality. As a general rule, it is safe to say that until the first of November or a little later will not be too long.

There are many ways of putting up the crop. Some growers make a trench in the field where the crop is grown and bury the heads there. The trench is made about six inches deep and wide enough to take from three to four rows of heads side by side, as long as needed. The heads are dug up root and all and after shaking off some of the surplus dirt the leaves are folded tightly around the heads and then placed in the trench. The heads should be packed in close together, and then be covered over with straw or hay to a depth of three or four inches. On top of this a light covering of dirt should be put, which should not be over two or three inches to start with, unless the weather is very cold. This covering of dirt is added to from time to time as the weather grows colder. Care should be taken not to cover too deep on the start or undue heating may result.

Another method, which is practically the same as the above, is used. But instead of burying the cabbage in a trench, a place is leveled off and the heads placed on this and covered as above, with the same precautions.

In the warmer sections of the territory, like the Rio Grande valley, it would be better not to use the trench method, as loss might occur from overheating. When buried on the top of the ground, as in the other method, the covering of straw or hay will be all the protection necessary to start with. When colder weather comes

on, a covering of earth should then be added.

Cabbage can also be kept nicely by wrapping the heads tightly in newspapers and placing in a room where they will keep cool. Instead of wrapping the heads in the paper they may be covered with straw.

In the colder portions of the territory where frost weather is somewhat constant storing the heads in good cellars offers an easy means, and a satisfactory one for keeping the crop. In practicing any of the methods of storing mentioned above should be kept in mind that cabbages keep best in cool temperatures.

**BRONZE DOORS OF CAPITOL NOW COMPLETED**

Apotheosis of America Allegorically Represented By Artist Who Receives Prize of \$10,000 for Design.

Morning Journal Bureau, 613 Munsey Building, Washington, D. C., Dec. 22.

Seven years ago congress awarded to L. Amato a prize of \$10,000 for the design, declared by a board of judges to be the most meritorious, for the western doors of the capitol building at Washington. The doors have been completed and cast in bronze. They are now on view in the Corcoran Gallery of Art, where they will remain for a few months before being hung.

It is seventy-two years since the first bronze doors were placed at the eastern portal of the capitol. They were by Rogers, and are known as the Columbus doors. Afterward the Crawford bronze doors, on which were designs depicting scenes in the history of the republic, were placed at the senate and house entrances.

The doors designed by Mr. Amato represent the apotheosis of America. They contain designs which bring the history of the nation down to the present time. The panel representing the transom of the doors shows an allegorical figure representing America seated in a chariot and drawn by the four great powers of the world. The transom is led by a child—symbolizing the superiority of the intellect over brute force. Following the chariot are figures representing a scholar, architecture, literature, painting, music, sculpture, mining, commerce and industry.

On one side of the transom is a statue representing Thomas Jefferson. On the other side another represents Benjamin Franklin. There is a medallion in each corner, and these represent Peabody, the educator-philanthropist; Emerson, the sage, philosopher and thinker; Horace Mann, the educator, and John Hopkins, the merchant philanthropist. Below the transom are panels in relief, four on each side. On these panels are depicted allegorical representations of jurisprudence, science, art, mining, agriculture, electricity, engineering, naval architecture and commerce.

On the sides are statues of famous Americans. Others are depicted on the corner medallions. The top panel on the left side represents jurisprudence. The subject is a session of the supreme court, with John Marshall, as chief justice, presiding on the occasion of a famous decision. The science panel shows effigies of the greatest scientific investigators from the time of Hipparchus, the Egyptian astronomer, to Darwin, the inventor of the telephone, and Morse, the inventor of the telegraph.

The panel devoted to art, presents the counterfeits of the presentments of Homer, Virgil, Dante, Shakespeare, Goethe, Hugo, Palestrina, Beethoven, Rossini. A flying figure typifies genius. In the medallions are representations of Poe, Thornton, Stuart and other men famed for their genius.

Panel No. 4 is symbolic of mining. Brown and James W. Marshall, who discovered gold in California; Alexander W. Holey, the mining expert; E. B. Chase, A. Hewitt, and Clarence King are shown here.

On the right side the top panel represents agriculture with a harvest scene. The men chosen as typical of the genius which has advanced the science of agriculture are Samuel G. Morton, the ethnologist, and James Wilson, present secretary of agriculture. The medallions represent the late Senator Morrill, L. P. Norton and Bureau, the founders of agricultural chemistry.

Typical scenes are chosen for the panel representing iron and electricity. Here are found Peter Cooper and H. A. Rowland, one on either side of the panel. There are medallions of Baldwin, the locomotive builder, and Edison, investigator in the realm of electricity.

The laying of railroad tracks, with a great bridge in the background, forms the subject of the panel devoted to engineering. Among the engineers chosen as typical among those who have attained the highest engineering marvels of the last century are: James B. Eads, General Thomas I. Casey, Army Engineer, Roebling, builder of the Brooklyn bridge, and Stevens of transcontinental railroad fame.

For the panel representing naval architecture and commerce, the artist chose a figure typifying the former, which is shown in the act of pointing out on a globe to another figure, typifying commerce, industries and agriculture, the places where the products of the nation can be marketed. Fulton, Erickson, Cyrus W. Field, Eli Whitney, Elias Howe, J. P. Ives, the pathfinder, and J. Lenthall are the men immortalized in the side figures and medallions.

The doors will be set in a frame of bronze decorated in harmony with the remainder of the general design.

Washington ranks as the first city of the nation for its wide and magnificent streets and avenues. It has more miles of smooth asphalt pavement than any other city probably in the world. Recently the commissioners of the District of Columbia purchased a large number of street-washing machines which will no doubt revolutionize all present-day methods of cleaning pavements of this character. The machine is claimed to be the most sanitary invention of its kind now in use. In the one operation, it sprinkles and "squeegees" the pavement, completely removing all dust, filth, and even oil stains caused through dripping from automobiles and other vehicles. Besides having a sprinkler in the front of the machine, water flows from the tank in the rear upon heavy, pliable rubber rollers, which "squeegees" against the asphalt and produces a perfectly clean and almost dry surface.

The government printing office is working on one of the largest and most complete analysis of conditions among immigrants than any other government has made for 24 volumes, and 16,827 folios of copy are now in hand, which is estimated at about one-half of the total number. The volumes will contain all the information gathered by the special committee appointed by congress.

Another large work in the hands of the government printing office is the report of the monetary commission, which is being printed in parts devoted to financial conditions in different countries. Fifty-one parts have already been printed. The different "parts" are written by noted financiers in the countries represented.

These two big jobs have done much to keep the printers from being furloughed during the past summer. The government printing office, which is the largest printery in the world, employs over 3,000 men and women, the population of an ordinary county seat.

**OLDEST U. S. SURGEON AND INDIAN FIGHTER RETIRES ON CHRISTMAS**

(Special Correspondence to Morning Journal)

San Antonio, Texas, Dec. 18.—Christmas Day, the oldest surgeon in point of service in the United States army and an old-time Indian fighter, in the person of Colonel Joseph B. Girard, chief surgeon of the department of Texas, will retire, December 25th, he reaches the age limit of sixty-four, and it will be the forty-fourth Christmas he has spent in the service of his adopted country.

Following the cavalry in continued and arduous pursuit of Indians, mile after wearying mile, and month after month, sleeping in gullies and ditches without cover, and attending the wants of the sick and wounded while the troops snatched a few hours of repose, and not conducive to the preservation of youthful vigor, yet Colonel Girard has come through such privations still in his prime.

Born in central France, Christmas Day, 1846, Colonel Girard came to the United States when fifteen years old. He studied medicine and May 14, 1867, was appointed assistant surgeon in the United States army. Three years later, to the day, he was made captain. September 7, 1867, after having been made successively major-surgeon and lieutenant colonel, he was made colonel of the medical corps. He is ranked only by the surgeon general of the United States, and in point of service, he is several years in advance of the latter.

His first service was in Colorado and Wyoming, and later in Arizona, where the red men were making a last stand against the encroachments of the whites, and fighting bitterly. It was no open warfare, as hitherto, but the conquest of small desperate bands requiring forced marches of days and nights without rest. Colonel Girard was with General George Crook in the famous campaign of '73. For four months the cavalry fought without rest, finally subduing the Apaches and placing three-fourths of them on reservations. In the early '80s he served a good share of the time in Arizona under General E. A. Carr, a famous Indian fighter, who recently died. Colonel Girard has seen service in Hawaii and the Philippines. In 1897 he returned to the states, and after being stationed at Atlanta, Ga., came again to San Antonio where ever since he has been chief surgeon of the department of Texas.

Every family has need of a good, reliable liniment. For sprains, bruises, soreness of the muscles and rheumatic pains there is none better than Chamberlain's. Sold by all dealers.

ST. LOUIS, U. S. A.

**IMMENSE IRRIGATION PROJECT UNDER WAY IN YAQUI VALLEY**

Douglas, Ariz., Dec. 19.—An irrigation project which will bring under cultivation the greatest tract of land in northern Arizona, and which also will irrigate a million acres in long famed for its fertility; of this tract half a million acres can be put under irrigation, and in addition to the company holdings there are lands totaling another half million acres which also can be irrigated from the great reservoir which the company proposes to build.

This dam, if the surveys completed indicate its location, will be built at Agua Prieta, a point two miles from the Tigre mining camp, on that upper portion of the Yaqui known as the Baviya river. At this point the mountains form a very narrow gap, not more than a hundred feet at the base, and the river flows on either side almost a thousand feet high. Nature has thus provided an ideal site, the valley opening out immediately above this gap into a wide stretch of level land. Provision will be made for the farm land submerged, including some of that owned by the Wheeler Land company.

Engineers have been located at the dam for almost three months, and the lines of survey are already indicated. It is calculated to consist of a concrete breast wall 185 feet high and this height will back the waters up the Baviya river a distance of forty-five miles. The water at the Tigre crossing will be 35 feet deep, and a ferry will be operated at this point to carry on the transportation between the Tigre camp and Yuma. It is proposed to build a branch road from the Calabazas road leading to La Antigua mine, into the field of construction. In the building of the dam 400,000 barrels of cement will be used, and a thousand men will be employed on the contract.

The river bed will be used largely to bring the waters from the dam to the irrigable land. The water never ceases to flow at Yuma, but in the periods of drought the flow is not sufficient to irrigate such a large tract, hence the necessity of a great storage reservoir. It is estimated that the project will cost \$4,500,000, and this fund, it is stated, will be advanced by the Mexican government, to be redeemed by the cost of irrigation, much as the United States reclamation service finances projects of like nature in this country. Many Americans have already settled on the lands of the Yaqui corporation, and some of the land is already irrigated from ditches run from the Yaqui river at a point farther south-west.

With the power obtained at the flood gates electricity will be generated, and available for uses throughout Sonora and southern Arizona.

Entered as second-class matter at the postoffice at Albuquerque, N. M., under act of Congress of March 3, 1879.

THE MORNING JOURNAL IS THE LEADING REPUBLICAN PAPER OF NEW MEXICO, SUPPORTING THE PRINCIPLES OF THE REPUBLICAN PARTY ALL THE TIME, AND THE METHODS OF THE REPUBLICAN PARTY WHEN THEY ARE RIGHT.

Larger circulation than any other paper in New Mexico. The only paper in New Mexico issued every day in the year.

TERMS OF SUBSCRIPTION: Daily, by mail, one month, \$1.00; three months, \$2.50; six months, \$4.50; one year, \$8.00. In advance, by carrier, one month, 60c.

"The Morning Journal has a higher circulation rating than any other paper in New Mexico."—The American Newspaper Directory.

ALBUQUERQUE NEW MEXICO

## GRATIFYING RESULTS.

The Morning Journal is especially pleased at the prompt action of the city physician and health authorities, following the publication in this paper of an article showing the need for a reorganization of the sanitary administration of the city's affairs. Statements in the article are corroborated in their tenor by the city physician who states that physicians have not lived up to the special ordinance requiring the prompt reporting of cases of infectious disease.

The activity among the physicians yesterday, in reporting numerous cases hitherto not on the records, was another evidence of the need of a better enforcement of sanitary and health regulations. While the application of the ordinance to the case of one physician for an alleged failure to report a case four or five months ago is a little tardy, probably action is better late than never, and the developments following the inauguration of a crusade for better health and a lower death rate form a most hopeful sign. Expressions from many private citizens show that the move is a most popular one and that any action looking to a more healthful city will receive the strongest popular support.

The folly of a stand pat policy in a matter so important as the public health is already demonstrated. With conditions as they are now, they would undoubtedly become serious enough in the course of a few months to make their inevitable exposure a bad thing for the city. As things are now, all that is needed is common sense, the strict enforcement of common sense regulations and preparation for a health administration on a larger, more effective and more modern scale. That the city administration and physicians are anxious to co-operate has been demonstrated and there is reason to believe that the next few months will see a radical change in the city's sanitary regime. The co-operation of the county authorities is imperative and there is no doubt that they will give it as there are conditions in the outskirts of the city which need in many cases heroic treatment.

The most important thing, however, is the re-operation of every citizen of Albuquerque. Without it no change can be effected. If every man will help by taking the most solicitous care of his own premises the problem is in a fair way to be solved. Any attempt to inject political or personal issues into the matter cannot be too strongly condemned.

As to the short-sighted gentlemen who say, "This is what hurt the city," we would call their attention to the fact that the city is in twenty-four hours time, in a much stronger position to advertise its health advantages. The fact that the city has taken drastic measures and issued a warrant for a prominent practitioner in the task of enforcing the health regulations would indicate to the casual observer that Albuquerque means to be a healthful city and intends to enforce its health regulations. Moreover, the people at large may know more about us than we know ourselves. The visitor, health seeker, or not, who comes and goes, knows real conditions and tells them abroad. Other newspapers in New Mexico have been exploiting Albuquerque's typhoid and scarlet fever under headlines. Probably conditions are no worse here than in these other towns; but it behooves us to place ourselves above criticism. The very best advertisement for this city as a health center is the fact that a sanitary crusade is meeting with strong popular approval and will work a much needed change in local conditions.

## THE PLACE HUNTERS.

One particularly pleasant aspect of the ratification of the New Mexico constitution will be the rebuke administered to the political schemers who are opposing it for selfish reasons. The Baton Range on this subject has the following, which will prove of interest to some of our democratic friends:

If New Mexico had prepared a radical constitution like that of Arizona—neither safe or sane—it would hardly have met the approval of the president or the houses of congress, and there are not enough votes obtainable in the next congress to force the issue over the president's veto.

If Arizona really wants statehood,

her constitution makers should have remembered this fact. If the recent elections had resulted differently, and there was still a republican majority in the house of representatives, the present opposition to the constitution by certain politicians of the territory, who call themselves democrats, would not have matured. It is because these place hunting politicians think they see a chance for more pay that they wish to undo the work of the convention, put the territory to the expense of another election—for your Uncle Sam will not pay the bill a second time—and take a gambler's chance on statehood.

If the draft of the constitution had been made to conform to the wishes of the varied bunch of kickers, it would never have passed congress or received the president's signature.

The democrats in congress, as well as the so-called insurgents, are not so crazy as the job hunters of New Mexico seem to think for they realize one fact: if such measures as those advocated by Arizona were to become effective, neither the democrats nor republicans would control the state, but a combination of all the cuts would bar the Fergussons, and their brand of democracy, even if they flopped to that one of the parties which gained the ascendancy. They are marked with the brand that won't come off.

A democratic congress would not pass a freak constitution for a new state any sooner than a republican majority.

If New Mexico's voters want statehood they will vote for the constitution as it stands.

If this bunch could defeat the constitution, they think that a democratic majority in congress would give them a crack at the territorial offices, which, according to their way of thinking, is far better for them than to have statehood (for the people).

There should be no politics in this election—simply the question of statehood, and the majority of voters has already declared in favor of the men who drafted the constitution, and that they want statehood.

And we're going to have statehood under a splendid constitution, and fool the schemers—if the voters do their duty.

## THE WAR IS OVER.

Mr. Chief Justice White of the United States supreme court was a confederate soldier. Mr. Justice Lurton of the same court was a confederate soldier. Both of them honestly fought to dissolve the union which they are now doing a mighty work to preserve. Both of them were appointed to their present position by a republican president.

There could be no better answer to the question: "Have the war issues disappeared?"

Except as a sacred memory in the mind of every patriotic American, north and south, the war of the rebellion is at last forgotten. Forgotten, that is to say, points out an exchange, by everybody except the rampaging Senator Heyburn of Idaho. Senator Heyburn still boils and insurges and paws up the ground, at thought of the "sacrilege" of placing in the capitol building at Washington a statue of Robert E. Lee, the confederacy's greatest soldier—and one of the greatest soldiers the English speaking race has produced.

It would seem, however, that the country can stand to have a statue of the great rebel in the capitol, if it can stand—as it cheerfully does—to have the constitution expounded from the supreme bench by two former rebels.

The activity of the foes of Gifford Pinchot in trying to place at his door responsibility for the big forest fires is only another indication that Gifford is a fair sized man. You may sometimes gauge the caliber of a man by the number of his enemies.

Governor Foss is accused of keeping all references to himself in scrapbooks and he now has about 16,000,000 records. Who would choose to keep all these materials for an obituary notice that must be written by a careless hand some day?

El Paso is getting more hazardous every day. Thursday a lone bandit—the typical lone bandit—held up a train right in the heart of that thriving city. Or at least that is what the correspondent reported.

A Philadelphia man who tried to slap his wife received a bullet as a result. Such a reckless attempt would be surprising anywhere, but in such a conservative old burg as Philadelphia it is startling.

Mme. Thebes, the French clairvoyant, says neither Taft nor Roosevelt will be the next president of the United States. Mr. Root will be delighted to know that his prophecy has received efficient support.

Gift babies are worth more than boy babies, according to the findings of a Kansas City expert. We will not venture any statement as to the relative value of the two after they have grown up.

The Mauretania has broken the record again and made the trip in twelve days. If aeroplanes are to revolutionize transatlantic travel, it will be necessary for them to hurry up.

Eastern New Mexico, at any rate, can hardly be having a beet sugar factory. Meanwhile, it is of interest that we can raise better sugar beets here than they can on the Pecos.

The hearing of the will case in Los Angeles is not very savory reading, but the conclusion is unavoidable that Lucky Baldwin was a gay old sport.

The fever of many persons will subside when they learn that the robber who held up a bank at Paradise, Kas., stole only \$2,500.

Texas gets only one federal building out of the new appropriation. We would not wish to speak harshly, but the United States should remember that it was annexed more or less as an

experiment and should be appreciative of the honor bestowed.—San Antonio Express.

Socorro county is getting on the band wagon.

Now it's the boll weevil that is marching through Georgia.

The fact that the United States wants to lend China \$50,000,000 merely goes to show that there is money in the laundry business.

Lorimer is entirely, utterly, and completely exonerated of any corrupt practice in securing his seat in the senate. It is a great year for exonerations.

Nothing more admirably shows the culture of New Mexico than the absolute quiet and contempt with which news has been received that a noiseless spoon has been invented.

## LEAD WILL DEFRAY COST OF GETTING VANADIUM SUPERINTENDENT OF BIG CUTTER PLANT IN CITY

Oxide Plant Will Start Going February 1, and Be in Full Blast a Month Later Says Official.

"We expect to have part of the oxide plant at Cutter running by the first of February and to have the whole works in full blast by March 1," said L. S. White, superintendent for the Vanadium Mines company, in this city yesterday. Mr. White is in charge of the construction of the big \$150,000 establishment at Cutter which will extract, from ore mined in the company's nearby holdings, the valuable vanadium which is used in the manufacture of the toughest and strongest steel in the eastern mills. Mr. White is an experienced man, having been in charge of the plant at Bridgeville, Pa., the only similar one in this country. After transacting a little business here Mr. White will return to his headquarters at Cutter Sunday night.

"We have three furnaces in position and completed," said Mr. White, "and the lead burner will start the first of next week. We are working a big force of men on the plant and at the mines, and pushing operations along steadily and as fast as practicable."

According to the superintendent, the mines yield 50 to 60 per cent lead sulphate with 8 to 15 per cent vanadium and there is sufficient profit in the lead to pay the expense of running the plant. While the ore from Peru, the only other source of supply, will run almost twice as rich in the vanadium, nevertheless, in consideration of the cost of importation and in view of the profitable lead ores at Cutter, the company, which is backed by heavy eastern steel interests, regards the New Mexico venture as a highly worth while proposition. New Mexico in a couple of months will boast of having one of the only two vanadium mills in the country, and the enterprise is one of the most important ever inaugurated here. The supply of vanadium bearing ore is said to be unlimited.

## SEAT SALE FOR "JULIUS CAESAR" STARTS TODAY

Forty pounds of TURKEYS FOR THE ELKS

Frederick Warde, Veteran Shakespearean Actor and Eminent Citizen Will Present Best "Brutus" Ever Seen

The advance sale of seats for "Julius Caesar" of which two performances, matinee and night, will be given by Frederick Warde on Monday, starting this morning at 2 o'clock. It is superfluous to say that the demand for seats will be instant and aggressive. The popularity of "Julius Caesar" has never waned on the American stage and no man has had more to do with its popularity than Mr. Warde, whose "Brutus" has become famous. Add to this the great interest in Mr. Warde's own attractive personality and you may be sure he will have two full houses next Monday.

## GRUNSFELD HANDS IN RESIGNATION

Deputy to County Treasurer and Collector E. Pinny to Be Succeeded on January 1 by J. L. Perea.

Frederick Grunsfeld, for some time deputy to County Treasurer and ex-Office Collector E. Pinny, has resigned the position and will be succeeded on January 1 by J. L. Perea, now in the treasurer's office in Sandval county.

It is understood that Mr. Grunsfeld will devote his entire time and attention to private business affairs. Before being connected with the treasurer's office, Mr. Grunsfeld was county assessor.

See the excellent line of Perfumes at the Alvarado Pharmacy.

## Cars to Run to Highlands in Not to Exceed 60 Days

Deal Whereby Albuquerque Traction Company Acquires East Side Track Finally Closed Yesterday and Work of Completion Starts at Once; Twenty Minute Service Assured and New Car, It Is Expected, Will Be Purchased for Line.

"Electric cars to the Highlands will run from the corner of First and Central in not over sixty days, and perhaps in thirty-five days," said Manager M. O. Chadbourne of the Albuquerque traction company yesterday afternoon, a short time after pocketing the final deed to the property of the Citizens' Traction company, executed yesterday to the old company. By the provisions of the transfer, as finally closed up yesterday, the Albuquerque Traction company acquires the completed track from the Elks' delivery, near the corner of Gold Avenue and Sixth street to the city limits, at the southern end of South Edith street in the Highlands; a fifty-year franchise for operating an electric car line and a twenty-five-year light and power franchise.

Promptly on the final close of the deal, Manager Chadbourne wired in orders to Worcester, Mass., Cleveland, Ohio, and Denver for copper wire and accessories and overhead equipment to get the new line ready for service. He expects anywhere from a fifteen to a thirty-day delivery on the stuff. The poles are already here and work can be started at once. Barring earthquakes or other acts of providence, there is every reason to expect the cars to run by March 1.

Later on switch connections will be made on First street and the line will be run around Sixth street from Gold and connected on Central avenue. It will take at least four months, according to Mr. Chadbourne, to get the necessary switch connections on the ground. They will be ordered by January 1. In the meantime, a service shall be started with a separate car from the corner of First and Central to the end of South Edith street, and Mr. Chadbourne promises a twenty-minute schedule at the outside, and possibly a fifteen-minute run or less. It is understood a new car will be purchased in a short time after the service starts. The company expects a good traffic out of the east side and the route of the track will make the run an easy one, and permitting of as fast time as is desired.

Traffic Has Been Increasing. "The traffic on the street car line has been showing a steady increase right along since the year 1907," said Mr. Chadbourne yesterday. "I suppose the daily record of passengers will average now about 2,000, including transfers, and the increase appears to continue. The rolling stock is good, the conductors are efficient, and the cars are in good condition. We shall continue to give the public the best service we can and it will be steadily improved as the business increases and the city grows."

The extension of the city's street car system has opened up a wide field for speculation among citizens as to future extensions. It is pointed out by some, while "dealing in futures," that a line out North Fourth street as far as the Menaul school will in the course of time become necessary, as the city grows in that direction, and the farming community north of the city becomes more thickly settled. As to the extension to the university, it is understood that the offer of the Citizens' Traction company to cancel the \$2,550 note tendered in part payment of the \$5,750 purchase price for the extension to the university is a variety is completed in a year, still holds good; and there is a possibility, although not a likelihood that the old company will take advantage of it. The problem of hauling cars up the hill would be a serious one and would take much better power facilities than the company has at present. At any rate, the foundation for a splendid trolley system has been laid and the new cars will run to the Highlands in six weeks or two months has been good news to the public.

Big Spread for Best People at Saturday Night Lunch Tonight; the Elks' Busy Calendar for Christmas Season.

Forty pounds of turkeys have been ordered for the Christmas lunch to be served at the Elks' clubrooms tonight, the regular Saturday night event being made one of the most elaborate spreads ever pulled off. It lasts from 10 to 12 p. m., during which time a terrific amount of roast Christmas bird is to be disposed of.

The Elks are going to have a busy holiday season. Tomorrow, Sunday morning, Christmas morning, from 9 to 12, open house will be held by the lodge, with refreshments consisting of nut and fruit cake.

Sunday evening happens the big Christmas tree entertainment for the boys and girls, which is going to dislodge more youthful happiness than Albuquerque youngsters have had for years.

Wednesday night, the 25th, there will be a big meeting, with the inclusion of a large class of candidates, the usual large class, only more so.

New Year's morning the Elks will also keep open house with things to make the scattered ones happy and a registry book will be provided for all brothers to jot down their resolutions for the year.

These, in brief, are a few of the things that the Elks have on hand to make merry the Yuletide season.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. This remedy contains no alcohol or other narcotic and may be given as confidently to a baby as to an adult. Sold by all dealers.

## SPLENDID MUSIC AT THE MIDNIGHT MASS TONIGHT

Well Known Choral Leader Will Celebrate 25th Anniversary of Work at Church of Immaculate Conception.

The Christmas service at the Church of the Immaculate Conception will be, as usual at this church, very fine. A most select program will be rendered at the midnight mass, and on this occasion Mrs. Shinkie will celebrate the twenty-fifth anniversary of her taking charge of this choir.

In 1885 the Morning Journal spoke very highly of Mrs. Shinkie's grand voice, when she came here from the Cardinals Cathedral in New York. Her closing service there was the great requiem mass for the death of Cardinal McCloskey. During all these years here the Immaculate Conception choir has been the leading choir of the territory. The church may well feel proud of such a fine record. Mrs. Shinkie continues to hold her splendid voice and proves she has the secret of caring for it. The program for midnight mass will be as follows:

Prelude, "Pensil Patheticus," Messina.  
Organ, violin, flute and clarinet.  
"O Holy Night," (Adams). Tenor Solo and Chorus.  
St. Clair's Mass.  
"Kyrie," Tenor and Bass Solos and Chorus.  
"Gloria," Grand Chorus.  
"Qui Tollis," Soprano and Tenor Solos.  
"Quoniam Tu Solus," Quartette and Chorus.  
"Credo," Grand Chorus.  
"Et Incarnatus," Soprano Solo.  
"Et Resurrexisti," Full Chorus.  
"Offertory," "Adeste Fideles," (Novello).  
"Sanctus and Benedictus," (Gloria).  
Duet, Tenor and Bass.  
"Agnus Dei," Tenor-Bass Solos.  
"Don Nobis," Soprano, Alto Solos and Chorus.  
"Meditation," (Grunwald).  
Postlude, Prayer, (Kaiser).  
Organ and Orchestra.  
The soprano soloists are Mrs. T. J. Shinkie and Mrs. Charles S. White. Altos—Mrs. J. Yrizarri and Miss Elsie Letarte. Tenors—Mr. J. Kelly and D. D. McDonald. Basses—B. Appodaca and M. Palladino. Organist—Mrs. Thomas Delahoye.

SPLENDID MUSIC AT HIGH MASS ON CHRISTMAS DAY. At the high mass at ten o'clock at the Church of the Immaculate Conception the celebrated mass by Theobald von La Hache will be sung for the first time in this city.

This melodious mass is written for and will be sung by an exclusively male choir.

Program.  
Kyrie, La Hache.  
Gloria in Excelsis, La Hache.  
Credo in Unum Deum, La Hache.  
Offertory, Adeste Fideles, Novello.  
Sanctus et Benedictus, La Hache.  
Agnus Dei, La Hache.  
At benediction following mass:  
O Salutaris, Brock.  
Tantum Ergo, Wigan.  
The choir will be composed of the following gentlemen: Tenors—Mr. John Jeneski, from New York recently by Mr. Donald D. McDonald, Mr. Gilbride, Mr. Herbert Asselin, Mr. Byrnes and Mr. M. P. Kelley. Basses—Mr. Millholland, Mr. J. B. Burg, Mr. Kennedy, Mr. Wallace Hesseldein. Organist—Miss Lillian Hesseldein. Director—Dr. Smart.

Low mass on Christmas morning will be celebrated at 8:30 o'clock with music by the junior choir.

Glory to God, Choir.  
Silent Night, Choir.  
Adeste Fideles, Choir.  
Angel Voices, Solo, Choir.

## SMART CASE WILL BE HEARD ON DECEMBER 30

Physician Accused of Violating Health Rule, Waives Service of Warrant for Arrest; Sanitary Crusade Popular.

Accompanied by his attorney, Francis E. Wood, Dr. Robert Smart appeared in Judge Craig's court at 10 o'clock yesterday morning to voluntarily answer for a charge brought against him by City Physician Solomon L. Burton, alleging violation of the health ordinance requiring that cases of tuberculosis be reported. A warrant was issued for Dr. Smart's arrest, but he waived service of the warrant. The city physician was represented yesterday by City Attorney H. J. Collins. Mr. Collins agreed with Mr. Wood upon December 30 as a date for the hearing of the case and Judge Craig set it for 10 o'clock on that day.

Sanitary Crusade Popular. The activity of the city health authorities following the publication of an article in the Morning Journal, on the need of better sanitary precautions, met with considerable approval among the people of Albuquerque yesterday and there are all sorts of

## You Can Work Near a Window

in winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

## PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

## MATSON'S

suggestions as to plans for making the city more healthful. Numberless instances of gross carelessness have been mentioned. Some time ago, it is said, a hawk conveyed a child to the detention hospital, suffering with scarlet fever, and it is said that the hawk returned to its stand and resumed business without fumigation.

A small, patient, it is said, was sent through the streets by one physician to the office of the city physician. Another little girl suffering with scarlet fever was removed from a hospital to her home by the father who afterwards came around and asked the sanitary inspector for a quarantine notice, and eventually mentioned that the hawk had returned to its stand. The inspector immediately hunted up the hawk and had it fumigated, but in the meantime there is no telling what chance it had to spread the insidious scarlet fever infection. Such instances of carelessness do not happen every day, but they happen, and it should be made impossible for them to recur. It has been demonstrated, as stated by this paper, that there is vast room for improvement in the city's sanitary administration, and there is no doubt that the awakening will have most beneficial results and be the beginning of a movement that will make Albuquerque one of the most healthful cities in the country.

Residence :: :: 715 East Central

**FINANCE AND COMMERCE****Wall Street**

New York, Dec. 23.—The volume of business on the stock exchange touched the lowest level reached in any full day for a long time. During the greater part of the session sales barely averaged more than 20,000 shares per hour.

The trend of prices was downward, practically all the speculative selling lower than yesterday. The pressure on United States Steel, the copper issues, Reading and Lehigh Valley was most pronounced, though in no instance, severe, while such specialties as Consolidated Gas, Western Maryland common preferred and American Beet Sugar were strong with gains of a point or two. The whole movement lacked initiative or purpose, however, and the closing was dull and heavy.

Forecast of the weekly cash movement indicated a gain by local banks of \$5,000,000 or more, due primarily to the recent inflow of money from the middle west.

A statement issued by the department of commerce indicates the changing character of our foreign commerce in the last few months. The increase in exports of manufactured articles and the decrease in exports of foodstuffs are the most noteworthy features of this exhibit.

News of the day had little or no market influence, aside from an interview attributed to J. J. Hill, in which that magnate takes a less pessimistic view of the general condition. The backwardness of business in general was again shown in the figures submitted by a leading commercial agency, which show a decline in bank exchanges of more than 15 per cent compared with the corresponding week last year. **The Metal Markets**

New York, Dec. 23.—Standard copper dull; spot, December and January, \$12.15@12.25; February and March, \$12.15@12.30. London, dull; spot, 13s. 12s. 6d; futures, 13s. 7s. 6d. Custom house returns show exports of 23,224 tons so far this month. Lake copper, \$13.00@13.25; electrolytic, \$12.75@13.00; casting, \$12.50@12.75.

Lead, dull; \$4.45@4.55 New York; \$4.35@4.40 East St. Louis; London lead, 11s. 5s. 9d. Spelter, dull; \$5.55@5.65 New York; \$5.32 1-2@5.42 1-2 East St. Louis; London spot, 12s. 4d.

**St. Louis Spelter.**

St. Louis, Dec. 23.—Lead, quiet; \$4.37 1-2; Spelter, weak; \$5.37 1-2.

**St. Louis Wool**

St. Louis, Dec. 23.—Wool, steady; medium grades, combing and clothing, 22@23; Eastern, 20@22; heavy, fine, 15@17; tub washed, 20@22.

**Boston Wool Market.**

Boston, Dec. 23.—The Commercial Bulletin will say of the wool market tomorrow:

Territory wools have again held the center of attraction this week. The movement in these grades being considerably increased, and the price of the amount sold varying from four to six million pounds. One mill is said to have cleaned up two million pounds of territory wools and one or two mills have helped matters along by large purchases, while there has been some speculation among the dealers also.

Considerable Montana sold at a range of 18 to 20c, while a lot of fine Montana staple is reported sold at a secured price of 62@63c. A moderate amount of fleece wools have also changed hands, washed and unwashed Delanes at 24 and 26c respectively.

**New York Cotton.**

New York, Dec. 23.—Cotton closed steady at a net decline of 2 to 5 points.

**Chicago Board of Trade**

Chicago, Dec. 23.—With shipments growing light and with no measure of export activity in northern Texas, wheat today showed strength, but in a moderate way. At the end of the session prices were 1-8 to 2-8@1-12 higher than last night. Corn closed a sixteenth to a half cent up, oats were a shade off to a shade higher, and provisions unchanged to 1c lower. May wheat ranged from 95 1-8@96 1-2c, with last sales at 95 1-8@96 1-2c. May corn fluctuated between 47 1-4 and 48c, closing firm 1-8c higher at 47 7-8@48c. Cash corn was firm. No. 2 yellow closed at 47@47 1-2c. May oats varied from 34@34 1-8 to 34 1-4c, with last sales at 34 1-8@34 1-4c, a net gain of a shade. Provisions were easy. After trading eased, pork was left unchanged to 7 1-2c off; lard, 7 1-2 to 10c down, and ribs at a decline of 5@7 1-2 to 10c.

**The Livestock Markets**

Chicago, Dec. 23.—Cattle.—Receipts, 2,000; market weak to 2c lower than Wednesday. Steers, \$4.50@7.25; Texas steers, \$4.10@6.25; western steers, \$4.00@5.25; calves and heifers, \$2.40@6.15; calves, \$8.10@9.25. Hogs.—Receipts, 22,000; market 5 to 10c lower. Light, \$7.50@7.90; mixed, \$7.55@7.90; heavy, \$7.50@7.90; rough, \$7.50@7.90; need to choice heavy, \$7.65@7.90; plus, \$7.10@7.85; bulk of sales, \$7.70@7.85. Sheep.—Receipts, 12,000; market 2 1/2 to 5c lower than Wednesday. Native, \$2.40@4.15; western, \$2.75@

4.10; yearlings, \$4.50@5.50; lambs, native, \$4.25@6.25; western, \$9.75@9.75.

**Kansas City Livestock.**

Kansas City, Dec. 23.—Cattle.—Receipts, 1,000, including 300 southern; market steady. Native steers, \$5.00@6.00; southern steers, \$4.50@6.00; southern cows, \$2.00@4.50; native cows and heifers, \$2.75@6.00; stockers and feeders, \$3.75@5.50; bulls, \$3.75@4.50; calves, \$4.00@8.25; western steers, \$4.50@6.00; western cows, \$2.75@4.75. Hogs.—Receipts, 3,000; market 5 to 10c lower. Bulk of sales, \$7.70@7.80; heavy, \$7.75@7.85; packers and butchers, \$7.70@7.80; light, \$7.45@7.75. Sheep.—Receipts, 1,000; market steady. Mutton, \$3.50@4.50; lambs, \$5.25@6.15; fed wethers and yearlings, \$3.50@5.40; fed western ewes, \$3.25@3.50.

The quicker a cold is gotten rid of the less the danger from pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation of cough medicine for colds. I have recommended it to my friends and they all agree with me." For sale by all dealers.

**GOLDEN RULE WILL SHORTEN HOURS OF EMPLOYEES**

Commendable Action Taken by Big Dry Goods Store; Will Close at 5:30 P. M. Beginning Next Tuesday.

The big Golden Rule Dry Goods company store has set a most commendable example in announcing that beginning Tuesday, December 27, it will close its doors every evening at 5:30 until further notice. This action is taken for the benefit of the employees and that it will be greeted with enthusiasm and gratitude by the salespeople there is no doubt. The Golden Rule management has found through its "shop survey" that the people are glad to co-operate with the store to give the employees a little easier time, and they believe that the early closing plan will have the effect of causing patrons to do their shopping more generally in the morning hours. The store, it is announced, will be closed all day Monday, December 26th.

**ENGINEER DANCE ON DECEMBER 29**

B. of L. F. and E. to Entertain Members and Friends With Brilliant Ball and Banquet Next Thursday.

One of the big post-Christmas social events, eagerly anticipated by the sixth annual ball to be given by the Brotherhood of Locomotive Firemen and Engineers, in the Elks' ballroom on Thursday evening, December 29. The ballroom will be brilliantly decorated and the appointments, music and programs, as well as the many other details, will be perfectly arranged. An elaborate banquet will be served in the banquet hall adjoining the ballroom, at which a menu will be provided which will prove delightful to the most fastidious. The firemen and engineers are noted as entertainers and expect to make the coming event a remarkable success. The night of the dance, extra men will be in demand, and it is safe to say that every "order" man who can possibly be in Albuquerque on December 29 will be here and will be at the ball, late permitting.

**PRISONERS TAKEN TO SANTA FE**

Seven Men Committed to Penitentiary Leave to Begin Sentences Yesterday Morning

Sheriff Jesus Romero and Deputy Dick Lewis left yesterday morning for Santa Fe, having in their custody seven prisoners committed to the penitentiary by Judge Ira A. Abbott Thursday afternoon. The men were Jesus Sedillo, one to two years for larceny in a shop; Duke Choate, for the same offense, one to two years; Margarito Candelaria, for murder, ten to fifteen years; Manuel Aguilera, seven months to one year; Charles Jones, one year; Gavino Garcia and Enrique Saveria, one to two years.

"I had been troubled with constipation for two years and tried all of the best physicians in Bristol, Tenn. and they could do nothing for me," writes Thos. E. Williams, Middleboro, Ky. "Two packages of Chamberlain's Stomach and Liver Tablets cured me." For sale by all dealers.

Don't forget that during the holiday rush we are taking good care of our drug trade. Alvarado Pharmacy.

The Postal Telegraph company has a large force of reliable messengers who will deliver your Christmas presents at reasonable rates. Phone 26.

**HUGE APE BUMPED BY STREET CAR**

Star Performer in Los Angeles Jungle Show Has Experience Common to Humans and May Die as Result.

[By Morning Journal Special Licensed Wire] Los Angeles, Cal., Dec. 23.—"Big Ben," a huge long tailed Sumatran ape had a very human experience to date when he got away from the "jungle show" on South Main street, joined the Christmas shoppers on the street, and finally ended in a building, finally collided with a street car and wound up at a hospital with a fracture of the skull.

Ben created quite a commotion when he first joined the throng on the street, and in the excitement started to run across thoroughfares. An on-coming car hit him, knocking him senseless. The unconscious ape was picked up and carried into a building where an interne from a nearby hospital, with bandages and needles, attended to his hurts. It is believed Ben will die.

**VERIFY IT**

The Proof Is In Albuquerque Almost at Your Very Door.

The public statement of an Albuquerque citizen is in itself strong proof for Albuquerque people, but confirmation strengthens the evidence.

Here is an Albuquerque citizen who testified years ago that Doan's Kidney pills relieve sick kidneys and now states the cure was permanent. Can any suffer from kidney ills ask better proof? You can investigate. The case is right at home.

Mrs. J. A. Grubb, 717 S. Fourth st., Albuquerque, N. Mex., says: "I recommend Doan's Kidney Pills as strongly today as when I first publicly testified in their favor two and a half years ago. I had severe pains in my back, always worse after any sudden movement. My kidneys were weak and the secretions from these organs were unnatural. Doan's Kidney Pills completely rid me of those troubles and I have been in good health since."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

We say, with a clear conscience, we have the best 35c and 40c Coffee in town. Have a little confidence and try it. C. & A. Coffee Co.

**LEGAL NOTICES**

## LOCAL NEWS OF INTEREST

**Weather Forecast.**  
Washington, Dec. 23.--New Mex-  
ico, Arizona and West Texas--Fair  
Saturday and Sunday.

Born, December 22, 1910, to Mr.  
and Mrs. John G. Otero of 201 South  
Edith street, a baby boy.

Albuquerque lodge No. 59, Frater-  
nal Union of America, will not  
meet this evening, but will meet De-  
cember 31 instead.

E. H. Clapp, assistant United States  
forester of the third district, returned  
yesterday after a brief official trip  
to San Francisco.

Attorney Robert H. Crews, of Fer-  
guson & Crews, left last night for  
El Paso, where he will spend the  
holidays with relatives.

James M. Mullen, assistant super-  
visor of the Manzano national forest,  
has returned from an extended trip  
through the northern part of the forest.

Miss Sarah Maher, a well known  
milliner of Santa Fe, arrived last  
night to spend the holidays with her  
mother and sisters, of 321 North  
Fourth street.

O. F. Cole, deputy supreme organ-  
izer of the Fraternal Mystic Circle,  
left yesterday for Kansas City after  
successfully organizing Benefit Rul-  
ing No. 2193 in Albuquerque.

Captain Fred Fornoff, of the New  
Mexico mounted police, was in Al-  
buquerque yesterday en route to San-  
ta Fe, returning from a brief busi-  
ness visit to Cutter and Engle.

The county commissioners will hold  
a meeting in the court house on Fri-  
day, December 30. The meeting will  
be the last quarterly meeting of this  
year and all persons holding claims  
or accounts against the county, are  
requested to hand them in for audit-  
ing.

Herbert McGaffey, son of Mr. and  
Mrs. A. B. McGaffey, returned last  
night after being away from Albu-  
querque almost two years, attending  
a preparatory school in the east. He  
will spend the holidays with his par-  
ents here, returning east after the  
first of the year.

## DEATHS AND FUNERALS

**William F. Wadley.**  
William F. Wadley, thirty years old,  
died yesterday morning at 11 o'clock  
at his residence 117 North High street  
after a lengthy illness. Mr. Wadley  
was the son of Rev. F. M. Wadley,  
pastor of the First Baptist church of  
Carrizozo, N. M. Deceased came to  
this city from Leavenworth, Kan., in  
August, 1909, hoping to benefit his  
health by the change of climate. In  
Leavenworth Mr. Wadley was for  
several years a salesman in the em-  
ploy of Wolf & Wing, shoe dealers.  
He was also a prominent member of  
the First Baptist church of that city.  
Besides his father, Mr. Wadley is sur-  
vived by his wife, who before her  
marriage, in 1905, was Miss Sibyl  
Alkene, and two children, Mary and  
Richard.

The funeral will occur from Bor-  
der's chapel at 2:30 o'clock Sunday  
afternoon. Rev. J. J. Runyan, of the  
Baptist church, and Rev. F. H. Culp,  
will conduct the funeral services.

Home-made pies and cakes, old-  
fashioned home-made fruit cakes.  
Bittner's, corner Fourth and Central.

tion. John S. Beaven.

**Wise Talks by the  
Office Boy**

Some men are born great and some  
have to be elected. The principal  
trouble about "fame" is, it keeps a  
man's creditors on his trail. To do  
right brings good--to do wrong  
brings misery. You'll find that when  
your sins find you out they always  
hang around until you come in  
again. When a man gets up near  
the top of the ladder, and then slips  
back, there is usually a woman at the  
bottom of it. I want to whisper in  
your ear that the new winter suits  
are now on display at our store and  
they are worth slipping on your back.  
That's about the only hunch it's nec-  
essary to give a man, if he has ever  
worn a Hart, Schaffner and Marx  
suit. There are still a few men in  
town who have never allowed us to  
demonstrate the good points of our  
clothing. They have an idea our  
clothing is the same as they see in  
every store window. Well, it's not.  
We don't care who your tailor is, all  
we ask is for you to step in at our  
store and try on a few of our late  
models. You will be treated cour-  
teously and will be under no obliga-  
tions to buy. Our suits will speak  
up for themselves.  
Plenty of Holiday Goods still on  
tap.

OPEN EVENINGS.

## FERGUSON & COLLISTER

ALBUQUERQUE'S DRY GOODS SHOP.

**A Gift is a Message From  
Heart to Heart**

For this reason alone, we are careful of our choice  
of gifts.

There is also a wisdom in gift giving as in every-  
thing else, concerning the gift, its kind, its value and  
appearance, the style in which it reaches you. In-  
variably the gift reflects the sentiment of the gift  
giver.

## To Hurried Purchasers

In this last three days of Christmas shopping, there are sure to  
be many who must make hurried purchases. They must rely in  
great measure upon the representation of the salespeople from  
whom the gifts are purchased. Your past experience will  
undoubtedly assure you that at our shop you will find satis-  
faction as to gifts: their kind, value, appearance and the  
manner in which it reaches you.

## Pretty Dressed Dolls

All kinds of pretty Dolls, dressed as little mothers would like  
to have them dressed. Taste and good workmanship are dis-  
played in every one of them. Some can be dressed and undressed  
when desired; priced from 10c to \$3.50.

## Silk Petticoats for Gifts

What gift would be more acceptable to a woman or girl, than  
a Black Silk Petticoat? We have a very attractive line from  
which to make your selections. A guaranteed Silk Petticoat at  
the extremely low price of \$7.00.

## Silk Hosiery for Women

There is no article of wearing apparel which lends itself so  
readily to the purposes of adulteration as Silk Hosiery. On the  
other hand there is nothing so essential to a perfect toilet as  
good and tasteful Silk Hosiery, carefully chosen, for each oc-  
casion. Our line ranges in price from that of the modest, plain  
Silk Hose to the more elaborate hand-embroidered ones; prices  
to meet the requirements of every purse.

## Our Gloves Are Correct

Our Glove business is enormous. Gloves at all prices for men  
and women; every leather, every color, every style find repre-  
sentation in our display.

We have a complete line of White Kid Gloves for party and  
evening wear. Street Gloves in the newest tan shades as well  
as a complete line of shades to match the newest suit colors.

## Merchandise Certificates

This is a very popular and practical method of giving. The  
recipient selects merchandise from any section up to the face  
value of the certificate. Especially recommended for our Glove  
Section.
