## ROSENFELD BRANDED AS A CRIMINAL

Head of Western Indemnity Life Company Basted.

POLICYHOLDERS CLAIM HE HAS ABSORBED ALL THE FUNDS

Chicago Life Insurance Concern in the Lime Light Shows That Treasury Has Long Been a Vacuum.

Chicago, Oct. 2.—Individual bankruptcy proceedings were begun today against E. L. Rosenfeld, manager of the Western Life Indemnity company, already the subject of much investigation on the part of several policy holders, and if the new move meets with success, Rosenfeld will be compelled to testify concerning his interests in the Western Life Indemnity company. The involuntary bankruptcy proceeding against Rosenfeld, individually, was filed in the United States district court by Attorney Salmon Levison for the complainants, while Judge Kohlsaat in the United States circuit court was hearing arguments by Attorney Isaac Mayer, defending Rosenfeld, General Moulton and the insurance company, against an accounting, the appointment of a receiver for the insurance company and the reference of the entire difficulty to a master in chancery.

Rosenfeld Branded as Criminal. Chicago, Oct. 2.—R. L. Rosenfeld, general manager of the Western Life Indemnity company, was described as a "trafficker for his own personal profit and in utter disregard of the rights of policy holders" in the intervening petition presented before Judge Kohlsaat, in the federal court today. Rosenfeld is charged with making \$50,000 by his purchase of a contract as general manager, and the assets of the company are set forth as vastly smaller than its liabilities. The Security Life and Annuity company with which it is proposed to merge the Western Life Indemnity company, is a "concern which has not sufficient strength and financial ability to perform the policy contracts of the Indemnity company."

The intervening petition was drawn in behalf of Mrs. Ida Straton, widow of James Straton, of New Orleans, who, it is alleged, holds an unpaid death certificate for \$4,000 against the Indemnity company. The assets of the company are set down on the first of the year as \$488,000 and are said to have dwindled under Rosenfeld's management until they are now but \$312,000. The bill asserts that there are thousands of outstanding policies amounting in the aggregate to \$12,000,000. It submits that the assets of the company are nowhere near sufficient to pay the liabilities. It asserts that since May last, Rosenfeld has refrained from sending to policyholders the customary monthly statements regarding the condition of the company's funds.

"The proposed merger," says the bill, "would mean the transfer of the members and assets of the Western Indemnity Life to Rosenfeld." It is alleged that under the law the Security and Annuity company has no right to assume the contracts of the Western Indemnity company and that death claims under such a transfer would be null and void.

Stand May Now Take Charge. Chicago, Oct. 2.—William H. Stand, attorney general of Illinois, may now take complete control of the investigation in the affairs of the Western Life Indemnity Insurance company, which will be agreeable to the policy holders. While attorneys for the appointees of a receiver for the company, and an accounting were in progress before Judge C. C. Kohlsaat, in the United States circuit court today, Attorney Walter W. Stand, attorney general of Illinois, declared that a movement is on foot whereby the policy holders and officials of the company will each place in the hands of the attorney general all of the charges and information concerning the company.

Two new intervening petitions were presented before this action. One, by the State Insurance Examiner Plouffe, has made his report on the condition of the Western Life Indemnity company at the close of business August 31. The gross assets of the company are \$274,944; total liabilities and deductions \$121,462; balance to protection contracts, \$223,482.

## DAMAGING EVIDENCE AGAINST CARTER

OFFICIAL REPORTS INTRODUCED TO SHOW FALSE STATEMENTS OF FORMER OFFICER.

Chicago, Oct. 2.—At the Carter case before Special Examiner Wyman today, the government attorneys introduced Captain Carter's official report made at the time of his arrest, to show that he was on duty in Savannah throughout the month of January, 1905, when as a matter of fact, he was in New York January 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31. "I was in New York on the days mentioned but did not report the fact in my official statement, although my superior officer knew I was absent from my station," replied Captain Carter.

Records were produced showing that Captain Carter disbursed \$29,000 to the Atlantic Contracting company, the Gaynor and Greene concern, in New York, January 17, 1905, and that subsequently \$10,000 was deposited in the Union Trust company to the credit of R. F. Westcott. This is supposed to represent Captain Carter's interest of one-third in the amount paid the contractors for government work in Savannah harbor. Deposits aggregating this sum were made on January 11,

## ANGRY MOB FORCES JUDGE TO WITHDRAW HIS ORDER

People of Denver Suburb Favor Unrestricted Operation of Slot Machines and Side With Town Marshal—Court Attempts to Escape on Engine.

Denver, Col., Oct. 2.—The spectacle of a member of the judiciary being dragged about by a mob and forced to rescind an official order, ended a day of turmoil today at Brighton, Col., the county seat of Adams county, adjoining the city limits of Denver. A. H. Guthrie, county judge, hauled the mayor, marshal and members of the town board before him this morning and delivered a lecture to them for their alleged failure to enforce ordinances against gambling and Sunday liquor selling. Following this, he ordered the sheriff and marshal to gather the slot machines in the town of Brighton, and when they appeared later with the report that they could find only one, Judge Guthrie departed two miles to arrest them for contempt. In the meantime both the sheriff and marshal disappeared. The report of the judge's action concerning the two police officers spread through the town and caused much excitement.

## HYDE HAD NO RIGHT TO SELL EQUITABLE STOCK

NEW COMPLICATION APPEARS TO TROUBLE THE CONTROL OF RYAN.

New York, Oct. 2.—The transfer of the stock of the Equitable Life Assurance society, from James H. Hyde to Thomas F. Ryan, was attacked in an amended plea filed Saturday with the court by the society's counsel, representative Herbert G. Tall, of Philadelphia. Tall's suit was to determine the ownership of the surplus of the surplus of the Equitable society. The amended plea states that Mr. Hyde could not give a good title of 502 shares of stock to Ryan, because it was merely held in trust for him until he was 30 years old, which age he had not yet reached. This it argues, Ryan was unable to give a good title to stock to the trustees, Grover Cleveland, Justice Morgan, J. O'Brien and George Westinghouse.

## NORWAY WILL SOON BE INDEPENDENT

ONLY THE FORMALITIES REMAIN TO MAKE TREATY OF KARLSKROG BINDING.

Stockholm, Oct. 2.—After the king's speech from the throne had been delivered at the opening of the Riksdag today, the government introduced a nation requesting the house to approve a proposal that the arrangements entered into between Sweden and Norway should go into force from the date which was left blank in the treaty. The king will submit a proposal authorizing the dissolution of the union and conferring on his majesty full power to recognize Norway as an independent state. When this is done the treaty of Karlstad will become binding.

## MISSISSIPPI NOW FEVER CENTER

SPREAD IN SEVERAL CITIES BECOMES CAUSE FOR GRAVE ALARM.

Natchez, Miss., Oct. 2.—Today's record shows a rapid spread of yellow fever in the last twenty-four hours, six new cases being listed on the local map. One case is in "Factory Row," which is in the first ward, thus infecting every one of the four wards of the city. As the disease in "Factory Row" are close together, it is feared the disease will spread rapidly there.

## OMNIPRESENT PAT CROWE NOW A PRISONER IN BUTTE

Butte, Mont., Oct. 2.—Pat Crowe, wanted by the Omaha police for the kidnapping of the young son of the millionaire packer, Cudahy, in 1900, was arrested in this city tonight. Crowe's identity has been made complete through photographs sent to the authorities by Omaha officers. Crowe acknowledged he was the fugitive, becoming alarmed when he feared the authorities were going to shoot him. Captain of Police McGrath and Detective McInerney made the arrest, placing the muzzle of his revolver against his stomach as he emerged from a saloon in the Tenderloin section of the city. Crowe declared he would return to Omaha without requisition papers. He cursed bitterly at his arrest, expressing chagrin at his apprehension in a town he said he had traveled the world over and evaded capture in all the large cities.

## ROCKEFELLER HANDS OVER TEN MILLIONS IN CASH

New York, Oct. 2.—The \$10,000,000 gift of John D. Rockefeller to the general education board, which was announced last June, was paid to the board by Mr. Rockefeller in cash today. In his letter of last June Mr. Rockefeller announced that this gift would be forthcoming on the 1st of

## ANGRY GREEKS TEAR UP RAILROAD TO FARMINGTON

Laborers on Rio Grande Line Into New Mexico Quit Work When Pay Is Cut and Threaten to Destroy Whole System—Big Posse on Guard.

Farmington, N. M., Oct. 2.—Yesterday eighty-five Greeks, who have been employed by the Denver & Rio Grande railroad in construction work here on the Durango-Farmington line, were informed that their wages would be reduced from two dollars to one dollar and sixty cents per day. On receipt of the news they all decided to quit work. Today the auditor came down to Flora Vista, where the Greeks were in camp, and paid them off. After receiving their pay they demanded passes to return to Durango, which were refused them. The Greeks at once began to tear up the tracks. A special train to Durango brought Sheriff Thompson and twenty deputies and representatives of the railroad agents to the scene. The Greeks then refused to go or allow the tracks to be repaired unless they were granted passes to Durango.

## CHICAGO IS FIRST WITH MUTUALBANK

Distinct Novelty in the Financial World.

DEPOSITORS SHARE ALL PROFITS WITH STOCKHOLDERS

New Savings Institution Carries Profit Sharing Idea a Little Farther Than Ever Before Attempted by a Bank.

Chicago, Oct. 2.—Chicago capitalists today gave to the financial world something claimed to be distinctly novel, when they opened a new institution to be known as the Mutual bank.

The new institution is asserted to be the first of its kind in the country, which, organized under existing law, as a bank and owned and operated by the stockholders, divides its profit equally with its savings depositors. The mutual profit sharing plan under which the new bank is to be operated contemplates sharing profits equally between stockholders and savings depositors after the usual guaranteed 5 per cent semi-annual dividend has been paid to savings depositors and 5 per cent has been distributed to the stockholders. This profit sharing goes to the point where, if at any time the management of the bank desires to carry any surplus out of the earnings to the profit and loss account, it must be done out of the stockholders' share of the profits and not from that of the depositors.

## JIM HILL'S BRIEF NOT RESPECTABLE

JEROME MAKES CAUSTIC COMMENT ON LATEST MOVE IN PATRICK MURDER CASE.

Albany, N. Y., Oct. 2.—The cause of Albert T. Patrick, who since March 26, 1902, has been under conviction for the murder of the aged millionaire William Marsh Rice, New York city, in 1900, was again before the court of appeals today in an aspect as remarkable as any of the previous phases of the case, which throughout has been one of the judicial curiosities of the criminal history of this state.

## GREAT NORTHERN TRAIN HELD UP

BATTLE BETWEEN TRAIN CREW AND BANDITS FOLLOWS BLOWING UP OF EXPRESS CAR.

Seattle, Wash., Oct. 2.—The east-bound Great Northern passenger train leaving Seattle at 8 o'clock tonight, was held up by a gang of bandits ten miles out from this city. Hundreds of shots were exchanged between the train crew and the robbers, and the express car was blown up by three charges of dynamite. Sheriff Smith is organizing a posse to go to the scene. No word as to whether anyone was killed has been received.

## IMPORTING JAPANESE WOMEN

San Francisco, Oct. 2.—An organized gang having its headquarters in this city, with agents in San Francisco, and the various cities along the coast of Japan, is believed by immigration officials to be responsible for the large number of women arriving on each voyage of the vessels coming from Yokohama and other ports. In the past year the Japanese population of Seattle has gradually grown larger and immigration officers assert that in the restricted district the increase among Japanese women inmates of questionable resorts has been fully 200 per cent.

## UPHOLDS EIGHT-HOUR LAW

Reno, Nev., Oct. 2.—The supreme court of Nevada today handed down a decision upholding the constitutionality of the eight-hour law. The law was contested by several of the large mine owners.

## NET CLOSING ON GAYNOR AND GREENE

Ottawa, Ont., Oct. 2.—A warrant for the extradition of John P. Gaynor and R. P. Greene has been signed by the minister of justice and forwarded to the lieutenant governor of the province of Quebec.

## SAIORS MAKE DARING RESCUE

New York, Oct. 2.—A rescue which the officers of the battleship Albatross declare was one of the most heroic that has taken place in the navy in many years, was effected by three seamen of that battleship off Provincetown, Mass., Saturday. The man rescued was Andrew Anderson, a seaman, the rescuers were Edward Wagner, William Brannon and R. V. Anderson. Andrew Anderson was untangling the battleship's anchor chain, when the controller of the drum around which

## NO CHANCE TO SAVE BIG STEAMSHIP

Alameda's Engine Rooms Now Full of Water.

WRECK ON GOLDEN GATE ROCKS GOING TO PIECES

Much Freight Has Been Removed But Engineers Fear the Loss Will Still Be Very Heavy.

San Francisco, Cal., Oct. 2.—The steamer Alameda's engine room is filled with water and the flooded hull is sinking. Expert divers have discovered that the vessel's plates have been torn away in many places and that it will be impossible for the pumps to remove the inflow of water.

The greatest injury sustained by the Alameda was at the point where she first struck the rocks. Since then the tides have redoubled the strain upon her plates and torn her bottom hopelessly so that the engines are at last engulfed and the chances of rescue are materially lessened. It is the opinion of experts who have examined the wreck that the Alameda will go to pieces in a short time. The freight that is now being saved is for the most part undamaged. The forward hold has been held clear of the water thus far and the underwriters will be able to record a substantial saving from this point. The after hold is for the most part submerged and the freight there may be a total loss.

## NOT IN WOMAN'S PRISON

St. Petersburg, Oct. 2.—Disorder broke out today in the women's section of one of the political prisons here.

## TWENTY-SEVEN COAST GUARDS PERISHED

REPORTS FROM STORM SWEEP PHILIPPINE COAST GROW MORE DISCOURAGING.

Washington, Oct. 2.—In a cablegram received from the Philippine department today the governor general of the Philippines gives the latest reports on the disastrous storm that swept those islands in September 26. The dispatch says that 27 men perished on the coast guard cutter Legay and that the reports of the damage wrought by the storm are generally discouraging.

## ONE MORE STEAMER AND PASSENGERS REPORTED LOST

Manila, Oct. 2.—The inter-island steamer Cantabrigia, 1097 tons, was sunk in the recent typhoon off Ticao island, one of the Visayan group. Apparently all on board were lost. She carried 100 American, 100 Spaniard and a crew of 97 men and officers.

## EMPEROR CONFERS RANK OF COUNT ON WITTE

St. Petersburg, Oct. 2.—An imperial decree issued today formally announcing the bestowal on M. Witte of the rank of count adds that the distinction is given "in recognition of his services to the throne and fatherland and the admirable manner in which he has discharged a task of the highest importance to the state and as a mark of the special favor of the emperor."

## SEVERE COLD WEATHER BEGINS IN MANCHURIA

Godavayudi, Manchuria, Oct. 2.—Severe cold weather has set in. Troops are demolishing fortifications, buildings and military bridges to obtain fuel, much of which will be necessary until the regiments can be transferred to winter quarters in the rear.

## ART FOR FEDERAL BUILDING

Washington, Oct. 2.—The treasury department has decided to spend \$45,000 for a group of allegorical statues as an additional embellishment to the new federal building in Indianapolis. That sum was left over from the appropriation for the structure, and negotiations were concluded today for the purchase of the statues from J. Massey Rhind, a New York sculptor. The figures are each twelve feet high and made of Tennessee marble. They represent art, peace, justice and agriculture.

## MILWAUKEE BODILERS ON GRILL

Milwaukee, Oct. 2.—Thirty-eight indicted officials, against whom are hanging 173 indictments returned by the last grand jury, appeared before Judge Brases in the municipal court today, and made pleas of not guilty in nearly every case. Several of the defendants demanded immediate trial.

## General Strike in Berlin

Berlin, Oct. 2.—Negotiations between the electrical companies and their employees who sought higher wages were broken off today and a general strike has been ordered for tomorrow. Some employees of power and lighting works went on a sympathetic strike today. Half the street cars stopped. Troops have been ordered to guard the city against any measure against violence.

New Secretary of State Takes the Oath.

LOOMIS EXPLAINS RECENT DIPLOMATIC SITUATION

Will Hold His Job a Few Days Longer to Make Details Plain—President Back at Work.

Washington, Oct. 2.—Mr. Root today formally took up the important duties of the office of the secretary of state. He came early to the state department as did Mr. Bacon, the new assistant secretary and presented the latter to Mr. Loomis, the retiring assistant secretary. Naturally there was much for Mr. Loomis to discuss with Root and Bacon as neither of these gentlemen had kept close watch on the recent developments in international relations and it remained for the retiring officer to place them in possession of a multitude of facts con-

UNDERSTOOD PRESIDENT WANTS TO TALK OVER THREATENED ANTHRACITE MINE STRIKE.

New York, Oct. 2.—John Mitchell, president of the United Mine Workers, arrived in this city today on his way to Washington to have an interview with President Roosevelt.

It was understood that the president had sent for Mitchell to talk over the troubles among the miners in the anthracite coal region and to see what steps are to be taken to avert the threatened strike.

## CORNERSTONE FOR GUGGENHEIM HALL

SMELTER MAGNATE'S GIFT TO COLORADO STATE SCHOOL OF MINES UNDER WAY.

Golden, Col., Oct. 2.—With the impressive ceremony of the Masonic fraternity, participated in by all of the grand lodge officers of the state and in the presence of three thousand people, the cornerstone of Simon Guggenheim hall, the new administration building at the State School of Mines, was successfully laid this afternoon.

Inside the corner stone which was laid up in the hollow of the stone, were placed photographs of Simon Guggenheim, his wife and young son, and the address delivered by Mr. Guggenheim today.

## Jenkins Ensk for the Turk

London, Oct. 2.—Alfred Madrell, the Turk, defeated Tom Jenkins, the American wrestler, in two straight falls here this afternoon. The match which was catch-as-catch-can, was for \$500 a side, and a purse of \$750. The Turk, who is both taller and heavier than the American, had all the advantage. He secured the first fall in 19 minutes and 45 seconds, and the second in 22 minutes and 46 seconds.

## POSTMASTER HAS APPLIED FOR TWO NEW MAIL CARRIERS

Rapid Growth of City Makes  
Step Necessary.

MR. HOPKINS ESTIMATES OUR  
POPULATION AT 15,000 PEOPLE

Postmaster R. W. Hopkins has entered an application with the postoffice department for two extra mail carriers in Albuquerque. Mr. Hopkins finds that the installation of two new routes is made almost imperative to properly and promptly distribute the mail to the people of the city.

"The town is growing so rapidly that it is already too much work for the present force to deliver the mail properly," said Mr. Hopkins yesterday. "In a few months more it will be practically impossible to get along without more carriers. I have accordingly applied to the department for two more. I have quoted the population of the city conservatively at 15,000 people."

It will be seen that the estimate is quite conservative. Certainly the corporate limits now include fully that many people, and taking into account residents outside the corporate line, there are several thousand more people than that in what is properly the city of Albuquerque. All this causes the Albuquerquean to rub his hands and reflect that two are growing more. Within the next few years Albuquerque will have a safe wager, close to 25,000 inhabitants. If the present rate of one new house a day keeps on, it certainly will have

## HESTER ANN ALEXANDER SMITH HAS NEXT MOVE

NEW YORK MAN CLAIMS HER AS  
HIS FIFTY YEARS LOST COUSIN.  
BUT SHE GIVES NO SIGN.

It is up to Hester Ann Alexander Smith to come forward and declare herself.

According to dispatches from Middletown, New York, Hester Ann Alexander Smith, of Albuquerque, N. M., has been identified by Thomas Paddock, of Middletown, as his long lost cousin who wandered off after a grand organ man when she was eight years old. That was fifty years ago, according to Tom, who has been vainly searching for her relatives ever since, not remembering where she lived when she stole away, enticed by the alluring music of the hand organ and the daze.

The Morning Journal has received inquiries from New York regarding Hester Ann Smith. The Journal has been asked to look up the lost cousin, but if she is in the city, she is maintaining a painful silence. Perhaps she doesn't want to win Tom a new cousin. But if she has been living any old kind of a relative for fifty years she ought to be willing to accept him.

## CONLEY SENTENCED TO BE HANGED AT TAOS

MURDERER OF BEEDING AND  
PURDY MUST PAY DEATH PEN-  
ALTY FOR BRUTAL CRIME

Special to the Morning Journal.

Santa Fe, N. M., Oct. 2.—This morning Judge John R. McPhee in the first judicial district court for Santa Fe county, sentenced John Conley, convicted of the murder of James Beeding and James Purdy, in Taos county, to be hanged by the neck until dead in the yard of the jail in Taos, October 21.

The attorneys for the convicted murderer at once entered a motion for an appeal, which was granted by the court and which will act as a stay of sentence.

Judge McPhee on Saturday overruled the motion for a new trial made by the defense. This was made on the ground that the evidence had failed to show premeditation on the part of the prisoner, thus making his crime murder in the first degree.

In the old days it was sometimes considered fashionable to be delicate, pale and faint at the least provocation. It is different now. America is raising a strong race of vigorous and healthy mothers. When a woman becomes nervous, suffers from backache, sleeplessness, general tiredness and dragging down, pains, she turns to the right remedy. She is positive she can get relief and assistance from Doctor Pierce's Favorite Prescription.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietor of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money to the United States, for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Single and married women very often find it is repugnant to their feelings to consult their family physician. In such a case they can write and get perfect confidence in Dr. Pierce, who has made such a success in the treatment of women's diseases, for he will give you the very best advice possible, and without cost to you.

Mrs. Edith K. Hoxie, (care of Carrier at E. V. D. Hamstead, Md., writes: "In April I was taken sick and suffered from ulceration of the bowels. Got so bad I had to give up house-keeping. Commenced to take Dr. Pierce's Favorite Prescription, 'Lotion Tablets' and 'Soporifics' as advised. Today I feel like another woman. I realized a great change after taking the first bottle. Had doctor with our home physician all summer before trying your medicines. As soon as I commenced to take your remedies I began to feel better. Have faith enough to believe that by continuing with your treatment I will be entirely cured. I cannot too highly recommend Dr. Pierce's medicines."

Married women should have a medical book handy, for knowledge is power. A standard work in the National People's Common Sense Medical Adviser, by E. V. Pierce, M. D. Send 31 one-cent stamps for the cloth-bound book, or 21 cents for the paper-covered volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

## THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge, and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c per bottle. One size only.

## TROOPS ORDERED OUT TO STOP BURNING

ANGRY TEXANS STILL SURE  
THEY WILL CAPTURE MONK  
GIBSON.

Houston, Tex., Oct. 2.—Governor Crampton tonight ordered two infantry companies from Houston, to Edinburg where the citizens threaten to burn the statue of Mark Gibson, the negro assassin of the murdered of the Condit family. The soldiers are still confident of capturing the negro.

The soldiers are still confident of capturing the negro. The soldiers are still confident of capturing the negro. The soldiers are still confident of capturing the negro.

With the troops at Edinburg, there is no longer a possibility of burning, but it is very probable that the negro will be put to death if he is caught in the hands of the troops. These men are very wary and are from the best of the state, and are not inclined to turn the negro over to the officers.

Next Move Up to Powers. Constantinople, Oct. 2.—The press reports in its unobscured columns regarding the control of Macedonia. Replying to the note of September 23 from the six powers, declaring their decision to maintain international control of Macedonia, the British government has made a reply which is regarded as an unwelcome addition to the scheme. A deadlock has been reached, necessitating fresh measures on the part of the powers.

The Cincinnati Safe. Washington, Oct. 2.—The navy department today received a cablegram announcing the arrival of the cruiser Cincinnati at Manila and stating that the vessel would sail for Shanghai. No reference was made to any mishap or to her striking on a reef off the Bungo coast.

Trouble Over in New Orleans. Yellow fever is so certainly being wiped out that the authorities are now confident that at the close of the month not a vestige of the disease will remain. The record of the week ending last Saturday was the best since August 1, with a total of 132 cases and 23 deaths.

Prosperity Returns to Japan. Tokyo, Oct. 2.—A sharp rise in prices took place today in the local share market, with every indication that business activity will gradually overcome the depression caused by the treaty of peace. The new alliance with Great Britain has inspired a feeling of perfect confidence in the future tranquility of the situation in commercial circles and much activity is expected in all lines of business.

Loss Almost a Million. Tokyo, Oct. 2.—It is officially reported that the damage caused by the fire to the army storehouse at Hiroshima amounted to \$1,000,000.

Clever Check Forger Caught. New York, Oct. 2.—A check in police headquarters with his full confession in possession of Captain John McCauley, a young man who, by means of forged checks, last Wednesday obtained from the National City Bank securities valued at \$125,000. He was arrested yesterday on the way to church. Captain McCauley has secured one-half of the stolen securities and the remainder has been located. The

young man, whose name is Henry Amrose, has not been connected with the bank which was robbed, or with Pearl & Co., who had hypothecated the securities that were purchased. He was for several years transferred to a well known brokerage firm on Wall street and was soon to have been married according to his confession he plotted and committed the crime unaided. He was identified by a stamp maker who made the stamp with which the check from the bank was cashed. The young man was a law student. He said that it had not been his desire at any time to commit theft, but that he had been tempted to show the full value of the present surface methods of banking.

Job Printers on Strike. St. Paul, Minn., Oct. 2.—About 200 job printers here are on a strike today because the employers refused to grant an eight-hour day.

Jerome Will Call Grand Jury. New York, Oct. 2.—District Attorney Jerome announced in court today that he would make a public statement in regard to the necessity for an extraordinary grand jury to consider Equitable Life Assurance Society matters.

When She Failed. A Kansas City girl, according to the Times of that city, has the usual curiosity of her sex, especially about men, whom she has just met. She ascertains the facts about them, too, by a simple method, without subterfuge. If she wishes to know a man's business whether he has mentioned it or not she'll ask: "What did you say your business was?"

He had not mentioned his business and she knew it. With a perfectly solemn face he replied: "I am a gig catcher for a greengrocer down in Walnut street, Miss Blank."

The Deadly Congo Country. Captain Bocard, who was sent by the king of Italy to the Congo country to investigate its desirability as a region into which to direct the stream of Italian immigration, reported adversely, and intimates that it is so insalubrious that even the black race fall to its doom. He says: "I must state first of all that, certainly, as regards climate and salubrity, as well as fertility, the region which the Congo state has officially offered to Italian colonization is without a parallel, and the most favored part

of any of our territory; or, rather, not the whole of it, but that part which lies between the mouth of the Congo river and the foothills of Lake Kivu, keeping, however, during the first part of the rainy season, not to the southern valley of the Congo, but to the sides of the mountains that bound it on the west."

Insomnia and Indigestion Cured. "Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tallahassee, Ontario, Canada. For sale by all druggists.

## TRAIN CREW ROLLS DOWN MOUNTAIN SIDE IN ENGINE CAB

Another United Verde Locomotive Tumbles.

## MEN HAVE MIRACULOUS ESCAPE FROM TERRIBLE DEATH

That Engineer John Hawkins and Fireman Robinson, of the United Verde railroad, are now alive in one of the miraculous features attending the capsizing of their engine Saturday afternoon about 2 o'clock.

The Prescott Journal-Miner this describes the accident: The train was heading toward Jerome, and was at a point known as Bridge No. 17, near Horseshoe Bend, when the engine left the rails and tumbled over on the side of the track next to the embankment. Hawkins was severely injured, but was not seriously injured, and did not even have a broken bone to show for his thrilling experience.

Robinson was on the side of the cab that fell toward the upper side. He was pinned under the engine, but managed to crawl out of a space barely large enough, it is said, for a jack rabbit. He emerged from the hole a badly scared man, and was amazed to find that he had not been injured in any particular.

Two flat cars and a coke car, also were derailed, but no damage occurred. Word was wired to Jerome from a signal box, and a special train left that point for the scene of the accident, the expectation being that there had been a great disaster. The trainmen on the special were greatly relieved upon finding that matters had turned out so fortunately.

After some work, the track was cleared, and the afternoon train for the junction pulled out on schedule time, and it returned in the evening without any delay occurring.

The Hawkins family seems to have been born under a lucky star, for the brother of John, who is also an engineer, rolled down the canyon a few years ago with his engine, and escaped with his life.

**TO TRY NEW COUPLER.**  
Invention of Charles Botkin Will Be Tested by Santa Fe.

J. E. Hurley, general manager of the Santa Fe, has arranged to have samples made of a new coupler which has been invented by Charles E. Botkin, of Osage City, Kansas. Letters patent have been granted Mr. Botkin on this coupler by the United States and Canada. It is expected that the coupler will prove a great success. It is simple in all respects and is not burdened with the many and dangerous complications found on similar devices, says the Topeka Journal.

It is the intention of Mr. Hurley, after the sample couplers are made, to put them on some of the engines used in the Topeka yards, and thereby give them the most severe test that can be imagined. In yard work the coupler will come in contact with all sorts of couplers and its efficiency under all conditions will be tested thoroughly.

If these tests are successful, and Mr. Hurley and the officers of the mechanical department of the Santa Fe, as well as inventor Botkin, are sanguine that they will be, the coupler will be adopted immediately by the Santa Fe. Mr. Botkin, the patentee, is not a stranger to Topeka. He worked in the Santa Fe shops here until five years ago when he went to Osage City. He has been working on the coupler for a long time and it was only a few days ago he received the patents on it. If it is a success, and there is no reason to believe that it will not be, Mr. Botkin will make a big fortune, as all the railroads in the country are on the lookout for a simple coupler that will do the required work.

**OIL RESERVOIR AT NEEDLES.**  
Considered Dangerous to Use Tanks in Santa Fe Yards There.

Santa Fe engineers are at Needles, Cal., this week making surveys for the purpose of drawing plans for a new oil reservoir, which will have a capacity of 400 thousand barrels. It is proposed to locate this reservoir at a sufficient distance west of the city as to give it gravity delivery to the shops and engine supply tanks in the yards.

At the present time the oil needed for the engines on this division is stored in tanks in the yards and it is considered that this is dangerous because of the great quantity of sparks from engines which are continually flying about.

**Some Sensible Advice.**  
It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

## ARIZONA ROUND-UP A SAD SAD SCENE

OLD TIMER HAS NO PATIENCE WITH LADYLIKE PRESCOTT METHODS.

The round-up in the Oro Blanco country last week looked not unlike a funeral procession, says the Nogales Oasis. It was tame. Even the horses knew there was something wrong and went about their work in a lack-spirit manner. The cheery "Hello, Bill! How's she going?" was changed to "Good morning, William. How are you this morning?" Occasionally an outlaw cowboy would toss his head, look at the peaceful looking travelers and throw a great loud horse laugh. Men who for years had ridden the ranges with all the dash of centaurs and with defiance flashing from their eyes, sat as stiff and still in their saddles as mutton-chopped Britishers and with faces more solemn. Truly, the change from the old, rough-and-ready happy-go-lucky bunch was great. It could have been hardly greater. There were no guns in the party. The edict and gone forth that roundups would hereafter be regarded as public gatherings and the laws of Arizona (madections on the meddlers that travelers, mutters Blatz Rube) forbid the carrying of weapons at public gatherings. Rangers Olds and Coffee of Nogales visited the round-up gang during the week and found the atmosphere so gloomy and oppressive that they were back in town three days before a cheerful expression returned to their faces.

**After the War.**  
Now that peace has been declared between Japan and Russia the entire world will have something serious to think about in regard to the strength of the Japanese. In fact, a commanding nation has sprung into being, with which the powers must reckon in the future. If you neglect the stomach and bowels and allow the system to become weak and rundown, Nature always requires a reckoning, and which in some cases results in a long, serious sick spell. You cannot afford to take chances and for this reason we urge you to commence taking Hostetter's Stomach Bitters at meal time and bed time, and give it a fair chance to make you well again. Thousands have been cured during the last fifty years of indigestion, dyspepsia, heartburn, costiveness, bloating, sour stomach, female ills or malaria by using the Bitters promptly. Start today.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. ## A Conspiracy of Plunder

IT MIGHT be apparent that in the sale or marketing of large amounts of securities, such great buyers as these big insurance companies would be the most sought of all buyers—the most hunted of all the markets—and would thus be able to command the best terms, says the Springfield Republican. And this would be the case if the insurance companies stood upon their advantage and compelled the sellers of bonds to come to them. But not. The spirit of graft has rested too heavily upon them. They have been forced by officers and directors into needless underwriting alliances to help all concerned to a profit. Their vast funds have been made use of to assist bankers and brokers in these commission operations, and officers and directors of the companies in many cases have not hesitated to join individually with the bankers and brokers to share the gain which the companies themselves have been employed to promote.

Here is a situation of the gravest import—revealing the existence of a plundering "money power" in a more tangible form than most people had regarded as possible, and demanding instant and severe correction. So far from being "necessary," it is merely a conspiracy of plunder. One of the first things, evidently, to be done is the exclusion from the directorate of the life insurance companies men who are connected with brokerage institutions which are engaged in promotion of enterprises and the floating of securities.

IT IS now said in Washington that President Roosevelt will not accept a renomination in 1908, but will not object to being again taken up after a "four years' retirement," which will doubtless be devoted to travel abroad and to literary work. And that's all right. The unwritten law against a third term doesn't prevent a man from taking as many terms as he can get, provided he doesn't try to get more than two in succession. In the case of Mr. Cleveland, for instance, he might be elected in 1898, and re-elected in 1902, and while it would be a remarkable freak of judgment on the part of the people, it would be no violation of the third term principle, though it would give him four terms.

THE Memphis Commercial-Appeal says that 30,000 Iowans have moved into Tennessee. And surely as many more have come to California. What's the matter with Iowa that people should be deserting it in such large numbers.—Los Angeles Times.

"THERE is no such thing as joking in the United States senate," says a Washington syndicate writer. What does he call the preparation of a railroad rate bill by Senator Elkins.—Houston (Tex.) Post.

THE Chicago Tribune heads a hearing committee, "M. de Witte on Mosquitoes," but a reading of the article shows that the trouble grew out of mosquitoes on M. de Witte.

## Not a Trimmer

IN SPEAKING of the part taken by Secretary Bonaparte in building the Maryland platform the Charleston News and Courier says: For our own part we believe Mr. Bonaparte is conscientiously and profoundly opposed to negro domination and social equality between the races, and we give him credit for manhood enough to say so in a party platform or anywhere else. When the Maryland platform was being written he refused to agree, as so many other republicans have done, to feel one thing on this subject while he pretended to feel another. Mr. Bonaparte did not compromise with the popular prejudice; he was simply honest enough and courageous enough to tell the truth on the subject concerning which republican statesmen have been accustomed to trim, fawn, and remain silent when making platforms for their party.

THE protocol of the treaty between Norway and Sweden recognizes the principle of arbitration in the settlement of international affairs and provides for the reference to The Hague tribunal of all differences that cannot be settled between the two countries. This is a great and splendid endorsement of The Hague as a high court of justice between nations and will do much to establish that institution upon a permanent basis.

PANAMA is to be paved with vitrified brick. It had already been paved with dead man's bones, but it is evidently the impression of those now in charge of things down there that brick is more practicable.—Los Angeles Times. From its similarity to another country we read of it, it would be more in accord with the fitness of things to have it paved with good intentions.

EVERYBODY may not know what a "cineh" is, and it may therefore be explained that a perfect thing of the kind is to be found in the possession of those brokers who got into "joint-account" with the New York Life Insurance company—the company putting up all the money and they talking half or more of the profits.—Springfield Republican.

## The Other Fellow's View

IT IS gratifying to observe the alacrity with which the press is responding to the demands of patriotism in casting aside political differences for the furtherance of statehood. It is not a time for party wrangling, but for concerted action. The voice of the people is powerful and sure of accomplishing results when it is harmonious; but so long as we engage in altercations as to the form in which it shall be given, so long will congress have an excuse for procrastinating. Single or double statehood, says the Nation Gazette, may be distasteful to us, but the other fellow's view always has some advantage and a little effort will make us see it his way. Furthermore, in the present instance, it seems assured that congress has determined upon joint statehood, so it behooves us to exercise intelligence and in the name of patriotism champion statehood, unqualified and unlimited.

MISS ELIZABETH THIELMAN, a New York girl, has just completed two years' work as a street contractor, and she has made a profit of \$50,000. The New York papers print Miss Elizabeth's picture, and there isn't a girl in Albuquerque who would have such a homely face for twice \$50,000. But Lizzie got there, all the same, and that's what counts.

JOHN T. TROWBRIDGE, the author and poet, last week celebrated his 77th birthday at Arlington. His wife is still with him, and they have a son, Arthur T. Trowbridge, who is a senior in the Massachusetts Institute of technology, besides two married daughters.

"The Street Life," by How to Run a Territorial Fair, by Col. D. K. B. Sellers. With ten full page illustrations in eighteen colors, by Col. W. H. Greer, embellished with a frontispiece of the Bucking Bull and a cover design representing the famous Trotting Strider. Price, \$1.00. All news stands.

"Reveries of a Recluse, or the Southwest From a Cell Window," by Thomas S. Hubbell, author of "Jails I Have Visited," and "Who's Who in the Court House." La Bandera Publishing company. Price, bound in Hubbell sheep, only 10c. In paper, 5c.

"Reminiscences of My Blood Be Spattered and Bullet Struck Career in the Wild and Woolly Southwest," by Miguel A. Otero. Almanac Publishing company, Santa Fe, N. M. This splendid book is a most absorbing and blood curdling account of the administration of Mr. Otero while governor of New Mexico. It contains thrilling accounts of the governor's experiences with savage outlaws, desperadoes, cut-throats and political criminals in the territory. Following are some of the chapters: "How I Felled the Bold, Bad Kidnappers," "My Hair-Breadth Escape From Gory George and His Gang in My Automobile," "How I Drove Grangers Out of the Southwest," "My Desperate Fight With Don Francisco's Bandits," "How I Terrorized the Bad Men," and "How I Purified Politics." There are many others equally as absorbing. Should be in every home.

As a magnificent special offer, the Almanac Publishing company will send this momentous work with "Bills That Became Law," eighty-two elegant volumes, for the low price of \$3.00; or, the book and Bound Volumes of the Almanac for the last fifty years, only \$1.20. A rare bargain.

The Curious Fable of the Buzz-Saw. "As to the 'Gov.' and 'Burse' and the New Mexican, the Albuquerque Corporation sheet may rest assured that they can take pretty good care of themselves and that the fellow who runs amuck against them is up against a powerful and strong buzz-saw with very sharp teeth."—The Almanac.

There was once a Buzz-Saw which was composed mostly of Buzz. Once upon a time this Buzz-Saw got into printing, and when some folks attached a belt to the Motive Power in a distant city, it began to Saw Wood. After sawing for a Short Time Buzz-Saw had to be loaded on a train and taken to a Quiet and Refined Place where it could have its Teeth Sharpened and be otherwise Patched Up. But it is feared that this Buzz-Saw has seen Better Days and that it will be necessary to get a New Instrument if any more work is to be done.

The humming of this saw is done by a second hand Keyhole Saw called Max. The Buzzing, however, resembles the sound produced by a large Horse Fly or Mosquito. In fact, in spite of this fact, the Buzz imagines that it makes the Saw go, whereas when the Saw ceases to Revolve Max will be out of a Buzz.

# COMMITTEE TO LOOK INTO FRAZZLED FAIR FINANCES

Five Members of Executive Board Selected at Meeting Last Night to Make Complete Investigation of All Bills—Deficit Still Growing.

Gloom in considerable quantities was injected into the already gloomy situation surrounding the financial affairs of the twenty-fifth territorial fair when at the meeting of the executive committee last night the fact developed that the deficit of the fair just closed had grown from \$1300 to \$1800, and that there is a pretty good prospect for a still further increase when the bills are all in and all collectible subscriptions collected and turned into the treasury.

Soon after the meeting was called to order last night Secretary Sellers announced enough new bills to increase the deficit to \$1800, and during the meeting an additional \$200 was put up with the understanding that the games were to be allowed to run. The games were closed down, and by the sheriff, but not until after he had cashed the \$200 license check. The association hopes to secure the return of one county gaming license which it may be possible to negotiate for a consideration. Under present conditions, however, the sheriff has the money and the association has an additional \$200 deficit. This, however, was but one gloomy incident of last night's gloomy meeting.

President W. H. Greer called the meeting to order shortly after 8 o'clock with all but one or two members of the committee present.

Mr. Greer opened the meeting by calling upon the chairman of the executive committee, Mr. W. T. McCraith, of the Daily Citizen, to state to the meeting what rumors of mismanagement, etc., had been in circulation in connection with the fair. Mr. McCraith said he did not believe he was in a position to make such a statement, when Mr. Greer mentioned the fact that he had read of such rumors in Mr. McCraith's newspaper. Mr. McCraith replied with a motion that the chair appoint an auditing committee with power to investigate all details of the last fair. This motion was seconded, when Mr. McCraith suggested that the proper procedure would be to first hear the report of the secretary and then determine whether the services of such a committee were needed. This suggestion prevailed and the motion was withdrawn.

No Final Report Ready.

The secretary said he could not make a final report as there were no funds to pay remaining bills, as all bills were not in and all collections had not been made on subscription. He then read substantially the report of the first meeting last week, with the addition of bills which increased the deficit by three hundred dollars. The reading of these bills occupied some time, the secretary being frequently interrupted by members of the committee with requests for information about some of the accounts. One bill came in for board for the New Mexico mounted police for five days. President Greer stated that he had made the arrangement with the captain of the mounted police and that that arrangement called for board for the men, but for one day. The motion was passed over for future consideration. In this way some two hours were consumed, when the secretary passed to a reading from his check book of bills that had been paid. It was shown by this reading that the \$2,000 deficit of last year's fair had been paid by the secretary out of this year's receipts, that all purses, prizes, etc., had been paid, that most of the bills for labor had been paid, including \$200 of the salary of the secretary, and that some bills for advertising and material had been met. This reading also brought to light that there are about \$500 of unpaid subscriptions and that the fair association's balance in the bank is just \$14.

When all outstanding subscriptions have been paid in, all bills thus far received and unpaid added, the deficit for this year, added to the deficit for the fair of a year ago, leaves the association with a total deficit of something over \$4,500, or to be exact \$4,525. And if to this the gaming license check is added, the deficit amounts to \$4,725. It was at this point in the meeting that the gloom became general and all pervading.

The secretary then passed to the reading of a general statement of receipts and expenditures. This statement showed that approximately \$2,295 had been paid out for racing; \$450 for Indians; \$602.45 for cowboys; fruit exhibits, \$450; Jeffries, \$579.50; the mounted police, \$121. The soldiers' \$706; advertising, \$1,200; stenographers and clerks, \$278; electric lights, \$550; care of grounds, \$108; base ball \$1,859; ostrich, \$550; starter, \$200; exhibit hall expense, \$250; care of track, \$215; bands, \$450.

These are the largest items of expense and are approximate, the statement of the secretary being informal. He went on into the receipts showing \$864 realized from concessions this year, \$1,250 last year, subscriptions \$5,225 this year against \$7,200 last year, entrance fees for races \$569 this year against \$1,500 last year; gate receipts \$4,249.45 this year against \$2,560.05 last year.

At this point the secretary was questioned as to bar and restaurant privileges in the fair grounds, developing the fact that the association received no return from these privileges this year, which in past years have brought considerable sums.

The secretary called attention to the fact that the showing for this year would have been much better had he not been required to pay the \$2,000 deficit of last year, but the committee facing its \$4,500 deficit, could get no great comfort from this view of it.

Suggestions were then made by several of the committee as to ways and means to wipe out the deficit. The matter of pro raising the bills yet unpaid was brought up, but it was shown that this method could not be entertained, some of the bills having already been paid in full.

An investigation needed.

It was at this point that Vice President George Arnot came forward with the only definite action resulting from the meeting. Mr. Arnot said that there was no use discussing plans for raising money to raise the deficit while the present rumors as to the management of the fair were in circulation. He then went on to state that he believed that this and all other rumors of similar nature must be investigated and wiped out before any move could be made toward paying the deficit, that the investigation must be full and complete and the report published in detail, so that there could be no mistake as to the facts; so that the subscribers to the fair and the public generally could know whether or not the fair had been properly managed. President Greer said briefly that Mr. Arnot's suggestion was right, that an investigation committee with full powers should be appointed and that its report should be full and public.

Committee Appointed.

P. F. McCanna then took the floor and said that since the idea of the investigating and auditing committee seemed to be the prevailing one in the meeting, that he moved the appointment or election of such a committee. He named such a committee, leaving his name carefully out of it. An amendment was immediately offered placing Mr. McCanna on the committee, which was unanimously accepted by the meeting. The committee as finally selected is as follows:

D. A. Macpherson, chairman; W. T. McCraith, P. F. McCanna, Felix Lawrence and B. H. Briggs.

The committee is to first receive a full and detailed report from the secretary, with all bills paid and outstanding, and with power to examine into all accounts, books and records. It is to report its findings back to the executive committee. In the meantime the officers of the association are to endeavor to collect outstanding subscriptions and to develop ways and means for raising the deficit. The committee is expected to begin its work at once and to make its report as speedily as possible.

While the gloom is somewhat general and rather deep, it is not of sufficient weight to cast any permanent shadow over the association, for already the heads of the executive committee and the officers are at work to find a way out of the present difficulties and into clear sailing, and there is no doubt that they will succeed. Plans were suggested last night, none of them very feasible, but all showing

Fifty Years the Standard

that there is a determination to find a way out.

Secretary Has Lottery Plan.

Secretary Sellers came forward with the most elaborate plan suggested last night. He outlined to the committee a scheme by which 2,000 tickets should be issued to merchants, each worth one dollar, and that these tickets be given away with every purchase of sufficient amount. When \$5,000 had been sold, there would be \$4,500 for the deficit, and \$500 remaining. This \$500 would be awarded to the lucky man in the drawing. The plan looked good and a hopeful smile spread over the faces of some of the committee, when suddenly the still small voice of an attorney seated behind a desk piped up: "You're likely to get pinched for that; the government won't allow lotteries."

The hopeful smile vanished. There were other plans, but the committee deemed it best to hold them all in abeyance pending the report of the committee.

USEFUL DISCOVERIES

Are Not Always Startling, Neither Do They Create the Most Talk.

It is not always the greatest, most startling discoveries of science that are most useful to the human race.

Comparatively few people were directly interested in Herschel's findings of the new planet Uranus, but many thousands have been benefited by Prof. Ure's experiments, which proved beyond a question that Dandruff and Baldness are the results of the invasion of a parasitic germ which invades the roots of the hair.

The discovery of the true cause of baldness made Newbro's Herpicide possible. Herpicide effectively kills this germ. Destroy the cause you remove the effect.

BOND ISSUE MEANS LARGE  
EXTENSIONS IN NEAR FUTURE

The Albuquerque Traction company has placed on record in the office of the county recorder a trust deed for \$250,000, covering the company's lines, real estate and other property in Albuquerque. The instrument is one of the largest of the kind recorded in this county in recent years, and is understood to cover a bond issue which will be made in the near future. Of much more interest to the public, however, is the fact that this bond issue will provide for several large extensions and improvements which will be under way in the near future and which it is hoped to complete in six months.

President W. H. Greer, of the Traction company, who returned to Albuquerque yesterday declined to give the Morning Journal details of these extensions. He said that the filing of the trust deed had direct bearing on the improvements planned and indicated that the company proposed to spend from \$75,000 to \$100,000 in Albuquerque within the next six months. He said, in fact, that the expenditure of this sum in improvements and extensions had been agreed upon by the company.

Asked if the appropriation contemplated the extension of the trolley line into the Highlands, Mr. Greer declined to say. He said all plans had not yet been completed and that he would not be ready to give them out for some time.

## HUBBELL DEPARTS FOR RATON WITH LARGE ENTOURAGE

To Appear at Hearing Before  
Judge Mills This Morning.

TAXPAYERS' SUIT WILL BE  
HEARD FRIDAY MORNING

Former Sheriff Tom S. Hubbell, his counsel, and a deputy sheriff, left last night on the No. 3 Santa Fe train for Raton, where the hearing on the writ of habeas corpus issued by Judge Mills on Friday, will be heard this morning at 10 o'clock before the New Mexico Chief Justice. Hubbell is in charge of one of the deputy sheriffs who will personally conduct the tour, at least up to the time Judge Mills makes his ruling.

A large and representative gathering of citizens of Albuquerque, and especially of Old Town, was at the station last night when Mr. Hubbell was escorted to his private quarters of the rear Pullman by Sheriff Perfecto Armijo. In fact there was such a jam by the time the train pulled out that it was almost impossible to make one's way through the crowd. Not a drum was heard, not a funeral note by the crowd which stood in respectful silence while the cortege boarded the train, and rubbed quickly through the windows at the party. All that was visible of the erstwhile sheriff was the back of his bald head framed artistically in the round glass window of the end compartment of the Pullman. The scene was observed with much interest by the throng.

In the other end of the car sat the solemn state. Frank A. Hubbell, brother of the prisoner, Attorney Neil B. Field, with immobile countenance and folded arms, and a number of other gentlemen, all pervaded by the same funeral solemnity. It was suggested that someone ought to have had the band playing, "I Don't Care If You Never Comes Back," but others frowned upon the suggestion. W. H. Childers and A. B. McMillen of counsel for Hubbell, went with him to conduct the hearing today. E. W. Dobson, the third of the Hubbell lawyers, remains in Albuquerque, as one of his associates, said yesterday, to go to jail for them should it become necessary. It is impossible to forecast the time likely to be consumed in the argument before Judge Mills, or what a decision will be reached, but the decision from Raton will be waited with lively interest.

**Hubbell Is Given a Bath.**  
The important ceremony of allowing the former sheriff of Bernalillo county a bath and shave was performed yesterday, aided under the personal supervision of a deputy sheriff. Early in the day Mr. Hubbell gave evidence of his desire for a bath and the attention of a barber in anticipation of his journey out of the county. The matter was taken before the court, who issued an order for the service required and permitting the prisoner to leave the jail while the ceremony was performed. Further details are lacking.

**Taxpayers' Case Friday.**  
The suit of W. B. Childers and others, taxpayers of Bernalillo county, to enjoin the county commissioners from borrowing money with which to conduct the present term of court, which money has already been borrowed, will come up before Judge Abbott on Friday. Yesterday a motion was entertained and taken under advisement to allow the plaintiffs to modify their petition. Several other formal motions and rulings in the county office case were made by the court and it is not probable that anything else in connection with these cases will come up pending the result of the trial in Raton and its decision by Judge Mills.

**Ramona Tomorrow Night.**  
Ramona, tender and true, will visit Albuquerque for the second time tomorrow night.  
The Elks' theater will undoubtedly be crowded tomorrow evening when this beautiful story will again be given. The play, company, the scenic effects and the story have been the talk of the city since last Saturday.  
As a play, "Ramona" is filled with action, pregnant with dramatic climaxes, with a love story that has been fully developed and a plot that has been worked out with unimpeachable power.  
The sale of seats now on sale at Matson's news store promises to be unusually large and the audience will be a select one.

## PIKER ADVERTISING SHOULD BE STOPPED BY THE GOVERNMENT

Some daily newspapers in the large cities derive a large part of their income from classified advertising that is very deceptive in its nature. A firm will advertise for a competent sales representative and a plot that has been worked out with unimpeachable power.  
The sale of seats now on sale at Matson's news store promises to be unusually large and the audience will be a select one.

When the southern manager of the Consolidated Gas and Electric company called the Albuquerque office a few days ago to place his classified advertisement, he was referred to H. B. Mitchell, of the Mitchell company. After a careful investigation, the Mitchell company ordered a very large stock of goods and will have them on exhibition in a few days. They guarantee to furnish you light or heat or fuel for cooking for less than one-half the price you are now paying. Although Mr. Mitchell has had control of the business for only a few days, the proposition is so attractive, that many have already become interested. We believe this is worth investigating.

No matter how large or how small the book required, we can make it for you and guarantee satisfaction. The Mitchell company.

EMELIO M'CLURE  
ENTERS PLEA OF  
NOT GUILTY

Charged With Brutal Double  
Murder on Rio Puerco.

NUMBER OF PRISONERS ARRAIGNED  
BEFORE JUDGE ABBOTT YESTERDAY

Emelio McClure, who is charged with the brutal double murder of two fellow sheep men on the Rio Puerco, near this city, some five months ago and around whom a binding chain of circumstantial evidence has been wound, was arraigned before Judge Abbott yesterday morning in the district clerk, on the indictments of the late grand jury charging him with the double crime. McClure entered a plea of not guilty to both charges, his counsel reserving the right to withdraw. He was then remanded to jail. His trial will begin this afternoon.

The territorial petit jury was empaneled yesterday morning and a large number of prisoners arraigned to plead.

Milton W. Wilcox, charged with obtaining money under false pretenses, pleaded not guilty.

Charles Kelly, charged with larceny, pleaded not guilty.

William K. Lee, charged with assault with intent to murder, pleaded not guilty.

Thomas Moore, charged with larceny, pleaded guilty and was remanded to jail to await sentence.

Thomas Meacham, charged with larceny, pleaded guilty and was remanded to jail to await sentence.

Donald, charged with obtaining money under false pretenses. Both men were sent back to jail to await sentence.

Jose Baca, the accomplice of Claude Doane, in his cattle stealing raids in this county last summer, and who was caught with Doane in north New Mexico, pleaded not guilty.

E. L. Draylinton, charged with larceny, pleaded not guilty.

Samuel Gordon, charged with carrying a deadly weapon, pleaded not guilty and his case was set for hearing this morning.

Jose Peralta, charged with larceny, pleaded not guilty.

Trojillo and Chavez, charged with dealing sheep, pleaded not guilty.

Active work in the trial of criminal cases on the present docket will begin this morning and the court will probably be occupied with the trial of criminal cases during the rest of the week.

**RELIABLE INFORMATION**  
From Our Local Druggists, J. H. O'Reilly & Co.

We want the people of Albuquerque to know that we believe the most valuable preparation of cod liver oil—the best tonic, reconstructive, blood-purifier and strength-giver known to medicine today is Vinol.

Vinol, he it understood, is not a patent medicine, as everything it contains is named on the back label of every bottle. We guarantee Vinol contains in a concentrated form all of the medicinal, curative and body-building elements of cod liver oil actually taken from fresh cod livers but without a drop of oil to clog the system, upset the stomach and retard its work. This is why Vinol is so far superior to old fashioned cod liver oil and emulsions.

We do not believe there is a man, woman or child in Albuquerque whom Vinol will not benefit at this season of the year.

Vinol has become so well known and so highly regarded by the profession that it is actually guaranteed by over two thousand leading druggists of the United States to create health and strength for old people, weak, sickly women and children, nursing mothers, and after a severe sickness, and for hacking coughs, chronic colds, bronchitis and all throat and lung troubles, also to create an appetite and make those who are too thin, fat, rosy and healthy.

It costs nothing if it fails. J. H. O'Reilly & Co. Druggists.

WEEK OVER IN THE  
MONEY MARKET

Wall Street Is Breathing  
Easier Once More.

YESTERDAY'S TRADING ALL  
IN INDUSTRIAL STOCKS

New York, Oct. 2.—The course of today's money market justified last week's speculative confidence that the tone would relax after the special requirements of the close of last week had been met. These requirements included those for the turn of the month and for the quarter and also for very large syndicate transactions which were put through. Syndicate payments on the large railroad bond issues were evidently re-deposited immediately and became available in today's money market.

Movements of any extent were confined to industrial stocks of little prominence and to a few railroad stocks which have been subject to pool operations for a long time past. Closing:

## 200 MORE PUPILS IN PUBLIC SCHOOLS THAN A YEAR AGO

Superintendent Gives Some  
Gratifying Figures.

OVER FIFTEEN HUNDRED NOW  
UNDER MR. CLARK'S DIRECTION

At the board of education meeting in the Central school last night, Superintendent J. B. Clarke, of the city schools, submitted a report that is of the greatest interest to every citizen of Albuquerque. There were approximately two hundred more pupils in the public schools on the first of October this year than there were on the first of November last year. This is a most significant and interesting fact. At the present rate it is likely that by the first of November the number will show an increase over corresponding date last year of close to 300 pupils. This is a remarkable increase for one year and shows in the most convincing way to the most skeptical that Albuquerque is growing, and growing like a weed.

The fourth and third ward school buildings are crowded to overflowing and the board now has under consideration plans for relieving the congestion. In this connection it must be remembered that last year eleven new rooms were provided for the accommodation of the increasing army of school children in Albuquerque. Of the sixteen new rooms, all but two are now occupied and full. In the fourth ward there are now 60 pupils in one room and in another there are 56, entirely too many for one teacher to take care of. The two vacant rooms will probably be utilized in one and it appears now that at the end of the present month they will be well filled.

According to Superintendent Clarke's report the board last night there are over fifteen hundred pupils enrolled altogether. The increase in enrollment is equally divided among all the ward schools.

This splendid showing should be a source of gratification not only to the school board, but to every one who is interested in the growth and progress of the Duke City.

At the board meeting last night it was voted to appropriate a general fund of the school money for the purpose of purchasing new supplies and apparatus for the chemical and physical departments in the Central High school.

A resolution was also passed that hereafter all parents of school children residing outside the city limits paying taxes in the city for school purposes shall have the amount of their taxes deducted from the tuition charged.

A considerable amount of other routine business was transacted and the board adjourned about ten o'clock.

## TWO MORE BUILDINGS FOR NEW GAS PLANT

REPORT HOUSE AND PURIFYING  
DEPARTMENT TO BE COMPLETED OCTOBER 20.

Work on the new gas plant which will supply the consumers of Albuquerque with that necessity is now going forward rapidly and it should not be many weeks until the company is ready to do business at the new stand. The plant is being erected near the old electric light plant on the east side of the railroad tracks.

A. Van Pitt commenced work yesterday on two more buildings for the company on the new site. One will be a report house 12x60 feet and 24 feet high and the other will be a purifying house and meter room 23x34 feet. It is announced that these buildings will be completed by the 20th of the present month.

The buildings are being built of the stone manufactured by the Laughlin Hydraulic Stone company and are to be adequate to the needs of the plant for some time to come. With the tank and other apparatus the plant is to be one of the most complete and up-to-date in the southwest.

## ACEQUIA ELECTIONS WERE HELD YESTERDAY

NO OPPOSITION IN THE OLD  
TOWN, BUT HOT TIME IN OUT-  
SIDE PRECINCTS.

The annual acequia elections were held in the rural precincts of Bernalillo county yesterday. The election of the mayor and the election of the commissioners is an important event in the farming precincts. It is often the ground for hot local political battles. Yesterday the elections were comparatively quiet, although hot times are reported from one or two precincts. In Old Albuquerque, precinct No. 12 there was no opposition, the following ticket being elected by a practically unanimous vote: Commissioners, John Mann, S. Luna, Antonio Jose Garcia; Mayor, Domo. Leonard. Hunick. Tickets were also elected without opposition in Baretas, precinct No. 8 and in precinct 35.

In precincts 3 and 4 there was lively tussle for the offices and up to last night the final returns had not been received.

A Judicious Inquiry. A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

## BIG GOVERNMENT FISHERIES CAR ARRIVES IN CITY

Distributing Many Thousands  
of Bass and Trout.

UNCLE SAM STOCKING STREAMS  
IN NEW MEXICO AND ARIZONA

Fisheries Car No. 3 of the United States department of fisheries arrived in Albuquerque last night attached to the first section of passenger train No. 1, and will remain in Albuquerque several days, while several consignments of young fish are sent out to various points from this city.

The car is in charge of Captain T. C. Pierce and is fully equipped with tanks and other paraphernalia sufficient to transport thousands of fish. Car No. 2 is stocked with black bass and rainbow trout and is accompanied by a corps of experienced men who are adept in the difficult and delicate task of handling the young fish during a long journey across the country in a jolting railway car.

"Our car will remain here several days," said Captain Pierce to the

Journal reporter last night, "until we have time to send from here a big batch of fish to Flagstaff, the Grand Canyon, southern Arizona and elsewhere. I will send 2,500 fish to Flagstaff, to be placed in oak creek and elsewhere; 25,000 to the Grand Canyon to stock ponds in that vicinity; and tributary streams to the Colorado; 5,000 to Benson, Arizona; 5,000 to Lordsburg; quite a number to Santa Fe, and consignments to Moriarty, La Veta and other places. These are all black bass and rainbow trout.

"Our last stop was at Glorieta, where we sent 5,000 up the Pecos to be placed in the headwaters of that stream and its upper tributaries, the Mora, Panchuela, and Windsor's creek. We left 500 at Springer and 500 at Maxwell City to stock ponds and streams near there. The car started from the fisheries stations at Neenah, Missouri and Mercedon, Illinois, with 12,000,000 young fish on board."

Territorial Fish and Game Warden Page B. Otero has been busy transferring the young fish to their new homes in the crystal waters of the Pecos and other streams in the Santa Fe mountains. The work is done with extreme care. The government's action in favor of New Mexico with a big bunch of its young fish will mean much for the lovers of good trout fishing. The fish multiply with great rapidity and several hundred placed in the upper Pecos and its tributaries will mean thousands more of the spotted beauties in the course of a year or two.

Sick headache is caused by a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

## COUNTY COMMISSION APPROVES BILLS

COMMISSIONERS HEAR SAD NEWS  
THAT CORRALLES BRIDGE IS IN-  
SIDE BERNALILLO COUNTY.

The Bernalillo county commission held its regular first of the month meeting in the commissioners' room in the court house yesterday, the session lasting practically all day. Most of the time was taken up with auditing bills of which there were the usual number. A number of bills were sent back with requests for amendment, among them a bill for printing from the Public Citizen, for which double the commercial rate had been charged the county.

Although County Surveyor Rankin has not yet made any official report on the Corralles bridge matter referred to him some time ago, he has informed the commission unofficially that the bridge is well within the boundary of Bernalillo county and it follows that this county will have to fix up the bridge. The expense will be quite heavy, but the bridge is one of the most important in the county and in central New Mexico.

## New Majestic Malleable and Charcoal Iron Ranges

The MAJESTIC MALLEABLE and steel range as formerly turned out by the Majestic people has been considered throughout the entire country par-excellence, and far ahead of any other range made. But with the NEW CHARCOAL IRON BODY in place of Steel making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal Iron, you can readily see that if quality is considered, the Majestic leads by a big margin. WE WANT YOU TO CALL at our store THIS WEEK, and let us explain this new feature: CHARCOAL IRON BODIES; let us explain why it is the best material for range bodies, and incidentally, why it is not used on other ranges. We want you to call if you intend to buy or not, as the information gained will serve you in the future.

## SANTA FE MEN WOULD BE POLICEMEN

RAILROAD OFFICERS ASK ALBUQUERQUE CITY GOVERNMENT FOR COMMISSIONS.

Requests have been made upon the mayor and chief of police of Albuquerque for commissions, as special policemen for all Santa Fe street service and special officers employed in Albuquerque and vicinity. The reason for these requests is not quite plain since all of these officers hold deputy sheriff's commissions under both Armiño and Hubbell, but they are supposed to have been made upon the advice of the Santa Fe attorneys, who fear that while the office of sheriff of Bernalillo county is in dispute and in the courts, arrests made and warrants served under either of the men claiming the office, may be proved illegal and may not stand in the courts. It is feared that should Hubbell's claim to the office finally be held just by the courts, that all acts committed under Armiño's commissions might be held legal. It is therefore asked that the Santa Fe men be made special policemen with powers of the regular department men. If the request is granted some seven or eight men will be sent to the local force. The matter has been taken up by Mayor McKee and Chief McMillin with City Attorney Hickey who will decide whether the chief has the right to make such appointments to the local force. The matter must be taken up with the city council and sanctioned by that body.
