DIPLOMATIC
RELATIONS
RESUMED

Russian and Japanese Officials Meet in Washington.

BRIEF EXCHANGE BETWEEN
BARON ROSEN AND TAKAHIRARussia Now About to Send Eighteen
Hundred Japanese Home in Return for Her 64,000 Prisoners.

Washington, Oct. 4.—Diplomatic relations between Russia and Japan were resumed at the state department for a short time today. Baron Rosen, the Russian ambassador, and Mr. Takahira, the Japanese minister, discussed the form of ratification of their respective countries. The call was made by appointment at the request of Takahira, who desired to see the Russian form of ratification. Accordingly, Secretary Root sent for Mr. Smith, chief of the diplomatic bureau of the state department, who brought to the diplomatic room a copy of the Russian extradition treaty which gave Mr. Takahira the information he desired.

The envoys remained for a few minutes in conversation with Secretary Root without further exchange. They bowed pleasantly as they parted outside the diplomatic room.

It would seem from this that the ratification of the peace treaty are to be exchanged at Washington.

RATIFICATIONS OF TREATY WILL BE EXCHANGED IN WASHINGTON

Washington, Oct. 4.—Ratifications of the treaty of Portsmouth will be exchanged at Washington tomorrow between Baron Rosen, the Russian ambassador, and Mr. Takahira, the Japanese ambassador, as soon as these important documents are received in St. Petersburg and Tokyo. The ratifications will contain the French and English texts of the treaty.

The approval of the treaty by the privy council at Tokyo in effect ratifies the convention and it is expected that the formality of the emperor's signature will follow shortly. As the treaty becomes effective as soon as ratified, the exchange of ratifications is only a formality.

The Japanese will be ready to exchange as soon as the emperor's signature is affixed, as the formal ratification can be prepared and delivered at the legation here. It is not believed that the Russian ratification will be long delayed.

RUSSIA AND JAPAN AGREE TO EXCHANGE OF PRISONERS

St. Petersburg, Oct. 4.—Russia today agreed to the Japanese proposition to exchange prisoners of war whereby 1866 Japanese prisoners in Russia will be delivered at some point on the western frontier of Russia and 64,000 Russian will be delivered at the ports of Kobe, Nagasaki and Yokohama, whence they will be conveyed to Vladivostok in ten Russian transports now interned at Shanghai and Saigon and two or three other ships which are being sent from Odessa.

CROWE ADMITS DUEL WITH OMAHA POLICE

MUCH HUNTED KIDNAPPER SAYS HE WENT TO BUTTE PURPOSELY TO SURRENDER.

Butte, Mont., Oct. 4.—Pat Crowe today admitted that he was in Omaha six weeks ago and that he engaged a pistol duel with the police, during which an officer was shot. He says the police fired 16 shots at him before he replied, and that he opened fire to save his own life. He says he was object in coming out here was to surrender, believing that he had better give himself up at a distance from home so that in yielding to extradition he might make terms favorable to himself with the Nebraska authorities. He denies absolutely the alleged confession, published in Butte this morning, and refutes the statement that he said to extort money from Cudahy, senior.

Says the Boy Was Willing.
Butte, Mont., Oct. 4.—An interview with Pat Crowe published here indicates that his defense, brought to trial for kidnapping Eddie Cudahy, will be that the boy was willing to participate in the affair, and that no force was used to keep him from home.

Deny Crowe's Story.
Omaha, Oct. 4.—The alleged confession of Pat Crowe, of kidnapping Eddie Cudahy five years ago, in which he implicates the boy in the conspiracy to extort \$25,000 from the boy's father, Edward Cudahy, receives little credence here. Eddie Cudahy denied the story emphatically.

Edward A. Cudahy, father of the abducted boy, said today the statement attributed to Crowe was certainly untrue and was at variance with his previous statements in letters to him.

BANK OFFICIAL KILLS HIMSELF

ILLNESS AND FORCED RETIREMENT DRIVES SAMUEL BEAVER TO SUICIDE.

San Francisco, Cal., Oct. 4.—Samuel Beaver, for many years the paying teller of the Bank of California, shot and killed himself this afternoon at his rooms on Grant avenue.

Beaver had been ill for a long time and was placed on the retired list of the bank on account of his sickness. This is supposed to be the cause of his committing suicide. He was one of the best known men in local financial circles. Beaver was 65 years of age.

VON BULOW PREPARING TO SPRING NEW COMBINATION

BERNHARD VON BULOW,
CHANCELLOR OF THE GERMAN EMPIRE.
FROM THE EDIN.

KING-EMPEROR HAS NOT YET GIVEN UP CHERISHED PLAN

Francis-Joseph Adheres to Original Scheme.

WILD SCENES IN LOWER HOUSE OF AUSTRIAN PARLIAMENT

Vienna, Oct. 4.—General Baron Fjedorov, the Hungarian premier, has another interview with the king-emperor today, but it is believed his majesty has not yet reached a decision regarding the ministerial program.

Riot in the Austrian House.

Vienna, Oct. 4.—A disorderly scene occurred in the lower house of parliament today, resulting in the suspension of the sitting and a general uproar. While Baron Fjedorov was speaking during the debate on the government's declaration of policy, he was continuously and audaciously interrupted by Dr. Wolff, the pan-German leader. Von Sternberg appealed to Dr. Wolff to desist, but the latter persisted. Finally von Sternberg lost his temper and threw a water glass at Dr. Wolff, striking him on the chest. A great uproar followed and the president of the house called von Sternberg to order. The German members were not satisfied with this measure and collected a demand that von Sternberg apologize. This the latter refused to do and the president being unable to restore order, declared the sitting suspended. The uproar continued until von Sternberg left the house.

TEN NEW CASES IN PENSACOLA

YELLOW FEVER REPORTS SHOW DISEASE TO BE WAXING RAPIDLY.

Pensacola, Fla., Oct. 4.—The official yellow fever report for today is as follows:
New cases, 10.
Total to date, 183.
Deaths, 1.
Total, 184.
Cases discharged, 72.
Under treatment, 11.
The New Orleans Report.
New Orleans, La., Oct. 4.—The yellow fever report for today is as follows:
New cases, 22.
Total to date, 3,094.
Deaths, 1.
Total, 3,095.
Under treatment, 194.
Discharged, 2,600.

JERRY SIMPSON'S DAYS ARE NUMBERED

ROSWELL MAN DENIED TO VISITORS AND DEATH PREDICTED SOON.

Wichita, Kas., Oct. 4.—Ex-Congressman Jerry Simpson, who is ill in the St. Francis hospital in this city, is not improved.

Dr. Minick, the attending physician, said tonight that the blood vessels extending from the heart in the chest are enlarged and it is only a question of time until death will result.

No visitors are allowed in the sick room.

SAYS LIBERTY IS DEAD IN CUBA

GOMEZ DECLARES CONDITIONS WORSE THAN EVER UNDER SPANISH RULE.

New York, Oct. 4.—"Liberty is dead in Cuba and the condition of affairs there is worse than it ever was under Spanish rule, even in the most ferocious periods of Spanish government. Financial ruin faces the people if things continue as they are, and the nation will be converted into one of hereditary rule."

This declaration was made by General Jose Miguel Gomez, governor of the province of Santa Clara, and candidate of the liberal party for the presidency of Cuba, who arrived from Havana yesterday. He said the government assassinated the people if things continue as they are, and the nation will be converted into one of hereditary rule.

San Francisco, Cal., Oct. 4.—Samuel Beaver, for many years the paying teller of the Bank of California, shot and killed himself this afternoon at his rooms on Grant avenue.

Beaver had been ill for a long time and was placed on the retired list of the bank on account of his sickness. This is supposed to be the cause of his committing suicide. He was one of the best known men in local financial circles. Beaver was 65 years of age.

CRAFTY GERMAN DIPLOMAT SHAPES NEW ALLIANCES

Forecasts Early Combination With France and Russia.

MIGHTY GAME HAS BEGUN ON OLD WORLD CHESS BOARD

Paris, Oct. 4.—Chancelleries here and throughout Europe are taking the keenest interest in the possible and even probable formation of a new European alliance consequent upon the termination of the eastern war and the conclusion of a closer Anglo-Japanese alliance. This has advanced beyond discussion in the newspapers and has already reached the stage of discreet diplomatic soundings.

The various proposed realignments of European powers are divided into three main movements, first, the British inclination toward an accord with Russia; second, a German-Russian movement for an alliance offsetting the Anglo-Japanese alliance; and third, Russo-German overtures to induce France to join the latter grouping.

Great Britain's desire for an approach with Russia has brought about the distinct diplomatic suggestion that Great Britain is ready to give fuller recognition to Russia's privileged position in southern Turkey notably at Constantinople and along the Bosphorus. Russia's ambitions in that direction have heretofore encountered strong opposition in England. The view in French official quarters is distinctly favorable to an Anglo-Russian rapprochement. It was one of the projects of M. Delcasse, when foreign minister, to have King Edward visit Emperor Nicholas as a means for furthering the reconciliation of Russia and Great Britain. Since the retirement of M. Delcasse this project has been in abeyance, but the officials continue favorable to an Anglo-Russian entente.

Concerning the proposed German-Russian agreement strong elements in both countries favor an accord as a counterpoise to the Anglo-Japanese alliance. The Temps tonight prints an unauthenticated interview with Prince von Bulow, the German imperial chancellor at Baden-Baden, openly advocating a German-Russian rapprochement. The prince says:

"It is natural and traditional that we should have the best relations with Russia. Why should France take umbrage? We do not take umbrage, because of the Franco-Russian alliance. A system of pacific alliances would assure the equilibrium of Europe. The Franco-Russian alliance is not an anti-German character, nor should a Russo-German rapprochement have an anti-French character."

In connection with French participation in a Russo-German rapprochement it can be definitely stated that France, before considering a new alignment of the powers, intends to await the final determination of the controversy with regard to Morocco in which country Germany first interrupted the French program.

Afterward France might consider German overtures, but until Morocco's future is assured French bonds of sympathy will continue with Russia and Great Britain.

DECLINES TO ALLOW POLICE INSPECTION

WESTERN UNION REFUSES TO ALLOW SUSPECTED WIRES TO BE WATCHED.

New York, Oct. 4.—The Western Union Telegraph company today refused to grant unrestricted inspection of its wires by the New York police in places where the police might suspect that these wires were in use for illegal purposes.

McAdoo recently sent to the Western Union a request that the company issue credentials to policemen who were to be selected by the commissioner in places that they might gain entry to suspected places for the purpose of securing evidence.

The New York Telephone company, to which a similar request was made by McAdoo, replied that it was not at present in a position to give a definite answer.

BRYAN PAID TAX OUT OF HIS FEES

MAKES UP DIFFERENCES IN THE REQUESTS OF LATE PHILIP S. BENNETT.

New York, Oct. 4.—Statements showing how trust funds were distributed in accordance with the provisions of the will of the late Philip S. Bennett, by William J. Bryan and his wife, Mary Helen Bryan, acting as trustees, were filed today in the probate court.

Bennett left \$10,000 to be distributed among the pupils of twenty-five colleges as prizes for the best essays discussing the principles of the government. Two additional funds of \$10,000 were left to aid needy boys and girls in securing educations.

Mr. Bryan, says in his report that the payment of the succession and transfer tax occasioned the loss of \$152 out of each fund of \$10,000, but that he has made this amount good by paying \$1,419 out of his fees as executor of the estate.

Gaynor and Green Surrendered.

Montreal, Oct. 4.—The warrant of surrender for Colonel Gaynor and Captain Greene was signed today by the attorney general at Quebec, promptly mailed to Sheriff Thibault, and should reach him early tomorrow morning.

I DON'T THINK THAT MERE MONEY GETTING IS ALL THAT THERE IS IN THIS WORLD

NICHOLSON MADE VICE-PRESIDENT OF THE SANTA FE

Passenger Traffic Manager Gets Morton's Job.

HAS COME UP FROM OBSCURE POSITION AS A RATE CLERK

Chicago, Oct. 4.—George T. Nicholson, passenger traffic manager of the Atchafalaya, Topeka & Santa Fe has been appointed second vice president and will have charge of the freight and passenger traffic of the road. This is the position formerly held by Paul Morton.

Mr. Nicholson is about 42 years old. He began with the Santa Fe about 20 years ago as rate clerk in the general passenger office at Topeka. After filling the position of chief clerk, he became assistant general passenger manager. Nicholson, who was today appointed to the second vice presidency of the road, Black declines to talk about the matter.

"JERRY" BLACK SLATED TO GET NICHOLSON'S PLACE

Topeka, Kas., Oct. 4.—It is reported here that W. J. Black, general passenger agent of the Atchafalaya, Topeka & Santa Fe railroad, is to be appointed passenger traffic manager to succeed George T. Nicholson, who was today appointed to the second vice presidency of the road. Black declines to talk about the matter.

GENERAL AUDITOR WHITE QUILTS SERVICE OF THE SANTA FE

Topeka, Oct. 4.—John T. White, general auditor of disbursements of the Atchafalaya, Topeka & Santa Fe railroad, today resigned, effective October 12. White has held his position since 1902. L. Conrad, general freight agent of the Peoria Valley lines of the Santa Fe, with headquarters at Amarillo, Texas, has been appointed general auditor of disbursements to succeed White. J. F. White will go to California to engage in private business.

ITALIAN STEAMER ON DIAMOND SHOALS

CITTA DI PALESTRINA STRIKES OFF CAPE MATTERAS IN THE DARK.

Norfolk, Va., Oct. 4.—The Italian steamer Citta Di Palestrina, bound for New Orleans with a valuable cargo from Italy, stranded on the Diamond Shoals, one mile from the Cape Hatteras life saving station last night, and wrecking tugs have gone to her assistance.

The crew were landed today. The wreck was due to a mistake in taking the Cape Hatteras lights for the Diamond Shoal lightship. Wrecking expedition will begin its efforts to float the vessel tomorrow morning with good prospect of success.

HAYMEYER FIGURES IN MINE EXPLOSION

"POP" SHOT FIRED WHILE SUGAR MAGNATE WAS SEEING THE PORTLAND.

Colorado Springs, Colo., Oct. 4.—The reports circulated that H. O. Haymeyer, the sugar magnate, and his daughter were in a dynamite explosion in the Portland mine today are grossly exaggerated. President Irving Haymeyer says a "pop" shot or black powder used to round off rough corners in tunnels was carelessly left unguarded by workmen. A small miner hit W. B. Thomas, of Boston, who was with the party, in the face. No one else received as much as a scratch.

Senator Teller's Brother Dead.

Denver, Colo., Oct. 4.—William Teller, brother of United States Senator Henry M. Teller, and a leading member of the bar of this city, died tonight of arterio-sclerosis. He was 70 years of age. He was widely known as an authority on corporation and mining law.

FREE RENT FOR FAMILY OF McCALL

Sons Occupied Flats Owned by New York Life.

MEANWHILE INVESTMENT EARNED ONE-HALF OF ONE PER CENT

Startling Revelations Follow in Quick Succession on Return of the Man With a Conscience to the Stand.

New York, Oct. 4.—That John R. Heggeman, president of the Metropolitan Life Insurance company, borrowed \$50,000 from the New York Life Insurance company at one and one-half per cent interest, a rate below the market rate, was brought out in the insurance investigation last week, but President John A. McCall, of the New York Life, testified that he in turn had borrowed \$75,000 from the Metropolitan at the same rate. This was in January, 1903; the loan was renewed in January, 1904, and ran until March, 1905, when the rate of interest was advanced to 2 per cent, at which rate it is still running.

McCall testified that he was a director of the Metropolitan Life Insurance company, but not a stockholder. The fact of his being a director, McCall continued, did not deter him from procuring a loan at as low a rate of interest as possible when it was to his interest to do so.

Hamilton Checks Disappear.

Some what of a sensation was caused in the late hours of today's session of the legislative committee, which is investigating the methods of the insurance companies, when N. F. Towner, of Albany, was called to the stand and disclaimed any knowledge of the whereabouts of the cancelled checks of John Andrew Hamilton, of Albany. Towner testified that he was associated with Judge Hamilton in the practice of law in Albany. The Hamilton account was again under investigation and Mr. McCall had been excused for a few minutes while Mr. Towner took the stand.

Towner testified that he made checks for Judge Hamilton, but not that he had taken some cancelled checks from the Albany Trust company early in September and had thrown them into a drawer in Judge Hamilton's desk. He had had no occasion to look at them again until last week, when he received the subpoena to appear before the committee. He was asked to bring these checks with him, but when he looked for them they were gone. He had no knowledge, he declared, of where they could have gone, or who could have taken them. Pressed by Mr. Hughes, he said almost any body had access to the drawer in which they were placed.

McCall, resuming, was asked about a deposit to the credit of Judge Hamilton of \$103,041 on September 1, 1905.

Mr. McCall said the New York Life Insurance company had paid Mr. Hamilton no money, but suggested that part of it might have come from the state comptroller's office by reason of an assignment of tax money which would come to the judge by reason of his securing the repeal of the tax law which relieved the New York Life from the payment of taxes. Judge Hamilton was to have one-third of the amount that would rebate to the company a sum of \$273,000, netting Mr. Hamilton about \$90,000.

Another interesting point was brought out by Mr. Hughes just before the committee adjourned for the day. Edward Devlin, real estate manager for the New York Life, was again called to continue his testimony of the last week relative to the real estate values in his country and abroad. Devlin had had to consult records and he presented a number of transcripts of records.

It developed that the New York Life had acquired by foreclosure an apartment house in one of the most desirable residential sections of this city, and the value of the property, as determined by the appraisers, was \$205,955. The net income from this property was found to be 23 per cent on the investment. Among the improvements in the building of the apartment house were one of nine rooms with two baths. These were rented for \$1,500 and \$1,800 a year.

It then developed that four of the tenants were the immediate family of President McCall, three sons and a son-in-law. Devlin was asked who had the rental of this property, and he said he discussed it with McCall.

McCall withdrew the day's proceedings further when he said that there was no record on the books of the New York Life Insurance company of \$150,000 paid the republican national committee for contributions for the presidential campaign. While he had no personal knowledge that the money was paid, he assumed it was because he had told the treasurer to make these payments.

Earlier in the day McCall, in detailing the general legislation work of Judge Hamilton and the counsel he employed, denied any knowledge of the legislative pool which was disclosed in the examination of Alfred W. Maine, auditor of the Equitable Life Assurance society last week. McCall on this question made the startling assertion that three-quarters of the bills affecting life insurance companies were in the nature of blackmail. "The officers of the companies were worried at the beginning of each year," he said, "by the proposal of laws that would hamper these companies, and these officers really trembled at what they would have to endure during the first six months of each year."

While Hughes was engaged in looking up some documents Chairman Armstrong took the opportunity to ask McCall if he had ever given any thought as to the feasibility of a standard policy that should be written up by all companies. McCall said

RATHER BE ROCKEFELLER THAN ANY SAINT ALIVE

Chicago, Oct. 4.—"I would rather be John D. Rockefeller today, divested of his wealth, and with his lovable personality, than any of the crew of saints and sinners who are attacking him."

The foregoing is a quotation from an interview published today from Dr. D. K. Pearson, the Chicago millionaire, nationally known as a philanthropist. Dr. Pearson said the cry of "limited money," is "unfair, not American," and is "the rallying cry of socialists, drones and discontented members of society."

Dr. Pearson recently received a letter from Mr. Rockefeller which contained the following: "Thank you for your kind words, good friend. I appreciate them. Life is short and you and I have too much to do in this world to be diverted from our purpose to try to make things better. Let us keep right on and do our best in our way and generation. Rejoicing in the beautiful sentiment expressed by our lamented Lincoln, 'With malice toward none and charity for all.'"

SKINNING THE POLICYHOLDER

WAS THE CHIEF ACCOMPLISHMENT OF THE WESTERN INDEMNITY PRESIDENT.

Chicago, Oct. 4.—Long sought in vain by policy holders of the Western Life Indemnity company, the contract under which it has been proposed to merge the Western Life Indemnity company with the Security Life Assurance company of Philadelphia, was read in Judge Kohlsaat's court today after Attorney S. K. Gregory had termed the proposed merger a "petty and contemptible steal" the scheme of an "insurance wrecker." Continuing Attorney Gregory said:

"This whole case is a small chapter in the history of the misuse of other people's money by a corporate interest. The courts have shown no great solicitude to prevent mismanagement to men of high finance who have abused their trust, stripping policy holders and leaving them destitute in their old age."

Attorney Mayer read the contract under which the proposed merger was to be effected. By the terms the new company would "operate" in a separate class, the policy holders being transferred. The new company was to have the right to fix the rate of assessment.

DENVER BANKERS UNDER INDICTMENT

OFFICERS OF DELINQUENT DENVER SAVINGS BANK CHARGED WITH LARCENY.

Denver, Colo., Oct. 4.—The grand jury today handed down a number of indictments, including one against Charles B. Willey, former president of the Denver Savings bank, now in the hands of a receiver. Mr. Willey was not connected with the bank when it was forced to close its doors about two months ago, but was president when certain transactions appearing on the books of the bank are alleged to have occurred.

Charles Wood, who was cashier of the Denver Savings bank when it quit business, was also indicted. He was arrested and subsequently released on bonds of \$10,000. Wood is at present an employee of the receiver of the bank, assisting in closing up the affairs of the bank. Both Wood and Willey are charged with larceny as bankers in the indictments.

BURNS DEFEATS BAPTISTE.

Des Moines, Iowa, Oct. 4.—Farmer Charles of Big Rock, Iowa, defeated George Baptiste, of St. Louis, in a wrestling match for the middleweight championship of America tonight.

Baptiste took the first fall in 26 minutes and 34 seconds. Burns won the next two.

HEARST AND PARKHURST IN NEW YORK CAMPAIGN

New York, Oct. 4.—William Randolph Hearst was named as candidate for mayor at the Municipal Ownership mass meeting tonight in Grand Central station and a committee appointed by J. G. Phelps Stokes, who presided, will select the remainder of the ticket.

Resolutions denouncing both the old parties as being dominated by trusts and interests and declaring that the people of New York should elect officials to oppose the corporations were adopted with much cheering, followed the reading of a letter from Dr. Charles Parkhurst in which he praised the

On West Railroad Avenue

ONE FISH CAR CAN TRANSPORT TEN MILLION SHINERS

Capt. Pierce Tell Something
of Work of Commission.

OVER FORTY HATCHERIES NOW
MAINTAINED BY UNCLE SAM

Car No. 3 of the United States fish commission, which arrived here Monday night in charge of Captain T. J. Pierce, will remain until Friday and possibly later. Captain Pierce is now awaiting the return of Messenger W. H. Brittain and assistant George L. Hopper, who have been sent with consignments of black bass and rainbow trout to Flagstaff, the Grand Canyon, Lordsburg and Benson, Arizona.

The fish commission is one of the most useful departments maintained by Uncle Sam and the benefits derived by the country at large for the scientific breeding of fish and their systematic distribution over the country cannot be overestimated. A huge appropriation for the purpose is made by Uncle Sam every year, and there has never been anyone to question the fact that it is money well spent.

The fisheries car is an extremely interesting institution. Captain Pierce kindly showed a Journal representative through car No. 3 yesterday and talked interestingly of his work and that of the fisheries department. The car is a complete traveling home for men and fish, equipped with every possible convenience and comfort for the human and the finny passenger alike.

In one end of the car is Captain Pierce's private office, with typewriter, cupboard, desk and chair, which is convertible into a bed, wall cabinet, and numerous other devices with a steam, air and water gauge connected with the plant in the other end of the car. The captain can thus sit like a pilot in a steamboat and direct operations from his chair.

The other end of the car contains a complete plant for the purpose of furnishing steam, to heat the car and air pressure to aerate the fish tanks, the cook's galley, which is as complete as that on a dining car and various other paraphernalia. There is also on the car a large refrigerator carrying a ton and a quarter of ice, used chiefly in keeping the fish cool in hot weather and also to refrigerate the provisions used by the crew. Pullman berths are ranged along both sides of the car above the rows of tanks. Comfortable legless chairs are placed on the tanks and a movable dining table is placed in position between them, the whole arrangement being remarkably ingenious and compact.

Roadside Captain Pierce on car No. 3. The crew consists of Messenger W. H. Brittain, Assistant Messenger George L. Hopper, Car Laborer L. H. West and H. B. Shorter, the genius who presides over the big range in the kitchen.

Ranged along the sides of the car and about a convenient height to sit on are the fish tanks. Square tanks with a small glass top in the middle each cover four big cans resembling milkmen's cans with wide mouths. In these the fish are kept. In car No. 3 the fish are comparatively large, being last spring's hatch from the hatcheries at St. Joseph, Missouri, and Meredosia, Illinois. They are black bass and rainbow trout. Each of the 110 cans in car No. 3 has a capacity of 125 fish of this size. The cans can be carried this way for any distance, even when they are so small as to be almost invisible to the naked eye," said Capt. Pierce. "The fish can be carried between ten and fifteen miles at one time, those being just barely hatched and so small as to be almost unnoticeable."

"The fish are not fed en route and can go three or four weeks without nourishment without any difficulty. The water has to be aerated regularly, however. In each compartment is a small air cock with a detachable hose with four nozzles, one of which is dropped into each can and the air turned on."

"There are six of these cars in service of the commission now. I presume each car costs between \$12,000 and \$15,000 to build and equip. Each one of these cars is kept busy eleven months out of the year distributing fish from the forty or more hatcheries which the government maintains in various parts of the country. Each car is sent to all parts of the country and car No. 3 has been all over the United States. The cars do not do one-tenth of the work of distributing fish, however, because individual messengers are sent to all directions from the hatcheries in charge of care of fish. Each consignment sent in this way, generally in the baggage car, has to be carefully watched by the attendant, and regularly fed and aerated. It is an easy matter to keep the fish in good shape if they are kept at an even temperature and light and given plenty of air, but they have to be carefully watched."

"The consignment sent out to Flagstaff amounts to 2,500 brook trout. Mr. Brittain has charge of that shipment, and has been delayed out there so that we will have to wait until at least Friday. I am also preparing to send a bunch to Santa Fe, to Carrizozo, to Tucuman, Moriarty and elsewhere. When we return here we will return direct to the station at Flagstaff. All the fish brought on this trip are for New Mexico and Arizona streams."

Some Sensible Advice.
It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed, before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

ACETYLENE HEADLIGHTS SUCCESSFUL

Colorado and Wyoming
Makes Experiments.

NEW ILLUMINANT PROVES
CHEAPER THAN ELECTRICITY

Colorado and Wyoming engines will soon go blazing across country like meteors as a result of a test of new headlights which has just been made. Lights at either end of the locomotives and the necessary carb lights burning from early evening until daylight the following morning, will cost the company but eighteen cents per light per day, according to the tests. A light which exceeds that from an all lamp by some sixty per cent, and which rivals electricity in brilliancy and steadiness, and at a fraction of the cost of either of those mentioned, is the result of experiments at the steel works, and the result is obtained from the use of acetylene gas which is generated directly upon the engine.

In the cab, directly in front of the engineer, is a small carburetor, bearing into contact with the carbide, a small reservoir of water. The carbide generates the gas and fills the receiver. As this is used, the receiver gradually contracts to a point where a "click" is opened and the water is again released, more gas being generated. The production of the gas is continuous, and the small carburetor, which has been installed in the cab of the engine, has been found sufficient to provide a continuous flow of the gas enough to keep the lights steadily burning throughout the night.

Acetylene gas is by no means a new discovery, and it is probable that never before has an attempt been made to apply it to a locomotive to provide light for both cab and headlights. The new system has been found remarkably effective and thoroughly safe, and in addition to these, its cost has been found to be far less than any other light, while nothing but electricity can be compared with it in power, and electricity upon a switch engine would be altogether too expensive, both in installation and in maintenance, to be thought of.

So successful has been the experiment of using acetylene gas as a lighting medium for engines that the Colorado and Wyoming will place the new light upon all its engines, and it is probable that it will not be long before the new engine light will have driven the oil lamp from off all the railroad in the country.

Ready-to-Wear Department

SECOND FLOOR

50-inch Coat Suits at \$15.00—These suits are made of chevrons and gray mixtures in the desirable double-breasted coat style; coat collar applied velvet. The coats are strictly man-tailored, half taffeta lined and finished with bone buttons. The skirts are plaited and very becoming.

50-inch Coat Suits at \$25.00—These suits are especially attractive, being made of pearl gray worsted, in the new collarless coat effect, finished at the neck with silk and self-strap, embellished with many rows of stitching; new full sleeves with cuffs; plaited skirts.

50-inch Coat Suits at \$35.00—These suits are made of men's wear worsteds, in pretty grays; the coat is tailor made and lined throughout with taffeta; it has the new fly front, velvet collar, self-cuffs and bone buttons; the skirt is plaited.

Readiness in the Skirt Department—Walking Skirts of light-weight materials being the demand, we have given special attention to their selection. Shown are the new grays and blacks, in styles that have fashion's approval. Plaited and tailored styles, priced from \$4.00 to \$13.00

Newness in Women's Rain Coats—So important a garment is not to be overlooked by the well-dressed woman. The best that designers and manufacturers can produce is offered our trade at prices that make popular this department. In all rain-proof materials, priced from \$10.00 to \$25.00

Evening Coats—Of imported broadcloth, in white and champagne, in three-quarter length loose-fitting models; lined with satin and elaborated with braid and velvet. Special value at \$35.00

The New Ready-to-Wear Hats

Developed to a Point of Extreme Excellence

[ON OUR SECOND FLOOR.]
The growing demand for correct, moderately priced millinery is more than satisfied in the rich and varied showing now ready for the inspection of our patrons. Specially priced at \$5.00 to \$10.00

TUCSON, ARIZONA.
W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.
Very sincerely,
W. E. NEAL.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE
W. E. NEAL, Albuquerque, N. M.
General Agent for New Mexico, Arizona and Western Texas.

We are receiving daily large shipments of
new, fall pack, "good things to eat."

THE FALL CAMPAIGN IS FAIRLY ON.

Our well chosen stocks signal their readiness to serve the people better than they have ever been served before. The exhibit embraces the richest, best and brightest styles that were ever produced—as well as the conservative and less costly creations for ordinary use. Being leaders we are not working on theories—nor inflating balloons with gaseous advertisements. The people want the facts. They want the proper stocks—in the proper styles—in the proper variety—at the proper prices—all of which we give them here. No words can convey more than an imperfect idea of the procession of style and elegance—artistic creations and matchless values passing from our counters to consumers day by day. This is the result of accumulated knowledge of years of experience in catering to the wants of the people of this city. Read on.

Infants' & Children's Coats & Bonnets

AUTUMN LINES ARE COMPLETE

(Second Floor)

Wonderfully fascinating is this delightful new showing of exquisitely dainty wears for the little folks. Never before such preparation here to meet the requirements of the most exacting mamma. Withered, indeed, must be the soul that can find no delight in this exhibit of hundreds of "just the dearest" little garments possible to conceive—and you are welcome.

Infants' and Children's New Embroidered Silk Bonnets, prettily trimmed in lace, fur and hemstitching, for 50c.

Infants' New Long Coats, in Bedford Cord, made with large circular cape, prettily trimmed with ribbon or braid, \$2.50, \$2.75, \$3.50, \$4.50.

Children's New Beaver and Felt Hats, also New Beaver Pokes, some handsomely trimmed, from \$1.50 up to \$7.50.

Children's Angora Fur and Crochet-ed Silk Bonnets for \$1.25 and \$2.00.

Children's New Reefers and Coats, white and colored, in Serge, Broadcloth and Zibeline, made one to five years, for \$4.00, \$4.50, \$6.00 and \$7.50.

A handsome new assortment of Children's Coats in Peasack, Ripple Plush, Cashmere and Silk, handsomely trimmed and embroidered—from \$4.50 up to \$25.00.

Waists for 'Immediate Wear

Early Fall demands waists of a little heavier fabric than for summer, and here they are. Stylish, dressy fresh, natty.

Early Fall Waists in in Velle, Nun's Velling and Brilliantine, best of styles and shades, \$1.75 and up.

Waists of Nun's Velling and Poplin, plain and fancy trimming, all the popular fall shades, \$2.75 and up.

Plaid Waists in Silk, the best assortment of patterns, new style sleeves and stock, \$4.95.

Plaid Waists in Mohair material, fancy shirred yoke, large sleeve with deep cuff, \$2.95.

New Silks and Dress Goods

FALL OF 1905

Our collections are now complete in every detail. With largely increased selling space in our Dress Goods section we are now in a position to serve our patrons better than ever. Style, quality, variety, value—that's all you want, and that's what we have to offer.

42-inch Henrietta, in all colors, specially priced this week at 65c.

45-inch German Henrietta, all colors and black, per yard, \$1.00.

45-inch Prunella and Melrose, all colors and black, per yard, \$1.00.

All-wool Panamas, Poplins and all the wanted weaves.

Broadcloth, in chiffon weight, 52 inches wide, at \$1.00, \$1.25, \$1.50, \$2.00 and \$2.50 a yard.

The Black Goods Section is complete in all the wanted weaves, such as Broadcloth, Drap de Ete, Mohairs, Lansdowne, Crepe de Paris, Etamines, Eolienmes, Panamas, Albatross and Nun's Velling at all popular prices, ranging from 50c for Albatross to \$2.50 for imported Chiffon Broadcloth.

All-wool Imported Flannel, in neat dots figures and effective Persian designs and colors, for house gowns, dressing gowns and kimono, at 50c the yard. SEE WINDOW DISPLAY.

Women's Fine Gloves

The famous Trefousse, leaders in fashionable stores of all cities, without a peer in fit, finish and superlative quality. Prices no higher than for other kinds. Every pair carefully fitted and fully warranted. Many effects and finishes, ranging at \$1.50, \$1.75 and \$2.00 per pair.

Other handsome and serviceable Gloves at \$1.00, \$1.25 and \$1.50.

Neck Ruchings & Rufflings

We are showing a very attractive line of Neck Ruching in black, white and all shades, in new, effective patterns. Also a full line of Rufflings, in all widths, at 10c, 15c, 25c, 35c per yard and up.

WOMEN'S NEW NECKWEAR

The newest production of the season in Stocks, Collars and Collar and Cuff Sets, in lace, embroidery, silk and washable materials. Special values at 35c, 50c, 75c, \$1.00 and up to \$2.00 each.

ALBUQUERQUE - - - - - NEW MEXICO

THURSDAY MORNING, OCTOBER 5, 1905.

Where Are We At?

CHIEF JUSTICE MILLS, of the supreme court of New Mexico, has decided in the Hubbell habeas corpus case that he has no jurisdiction in the matter and remands the case back to Judge Abbott.

Judge Mann, who is an associate justice on the territorial supreme bench, assumes jurisdiction, and orders the issuance of a writ commanding Judge Abbott to release Mr. Hubbell. That makes Judge Abbott the object of two decisions in direct conflict with each other, though with the weight of authority on the side of the chief justice, since being the higher official, his opinion is entitled to greater force. Now, would it be wiser for Judge Abbott to be governed by the opinion of the chief justice and continue to punish the ex-sheriff as his offense deserves, or waive the question of jurisdiction and obey the writ of Judge Mann to discharge the prisoner—in case such writ shall be issued. Mr. Mills acted in the capacity of a district judge, and Mr. Mann acted in the capacity of a justice of the supreme court. That may have some bearing upon the question, but to the lay mind it is a distinction without a difference. In the meantime, however, we are willing to let Judge Abbott wrestle with the problem, not doubting that he will solve it in the right way.

SPEAKING of boomerangs: the beef trust paid the fines of those convicted packers; the beef trust just charges it up to the people; and the people are the ones who started the inquiry which resulted in the fines being imposed.—Topeka Herald.

A Drastic Remedy

THE present wage contract between the eastern coal mine owners, and the mine workers union will expire the first of next April, and there is a report from Pittsburgh, apparently reliable, to the effect that when the contract terminates, every anthracite and bituminous coal mine in Pennsylvania, Ohio, Indiana, Illinois, West Virginia and a part of Kentucky will be shut down for an indefinite period. The action, it is said, has been practically decided upon, although a meeting of the operators in that district will be held in Chicago November 22 to make final arrangements.

There is no secret that the purpose of this gigantic shutout is to head off the anticipated demands of the miners and to break the strength of the miners' union. It is proposed to forestall the demands for a new wage scale by informing the 400,000 miners that they can get along without wages for a few months, or until they get tired of remaining idle. But besides these 400,000 miners, about 100,000 other workmen will be affected, making a total of about a half million workmen who will not be drawing wages. In the meantime, from now until April, the operators propose to store vast quantities of coal, which will be sold to the public at a substantial advance. In this way the operators plan to protect themselves from losses incident to the closing of the mines.

This is by far the most drastic measure ever suggested in this country in the struggle between corporate organization and organized labor, says the Kansas City Journal. If it is carried out it will entail more suffering and possibly more bloodshed than any previous strike or lockout. The operators have taken possession of a powerful weapon, their ability to forego dividends for a few months, if necessary, in order to starve the miners into submission. In such a case the public sympathy will be with the miners. Two wrongs never make a right. If the unions are at times arrogant and arbitrary through the power of their organization, it does not appear that corporations may become brutal and oppressive and expect to be upheld by public opinion. If this alleged plan of the coal operators is carried out it will prove a powerful reactionary influence against themselves. The fair minded public will espouse the cause of the impoverished miners as against the giant operators who conspire to bring all this misery about. It is to be hoped, for the sake of justice and humanity, that this reported plan of the eastern coal operators, if it has really been formed, will be abandoned in favor of more pacific and just measures.

SENATOR MORGAN of Alabama will oppose the measure for government control of freight rates on interstate railways, because it is a "violation of states' rights." Senator Morgan is old enough to remember that the right of any state to do anything in contravention of the rights of the people as a whole, was overruled in the court of last resort, about forty-five years ago. The senator ought to pull himself up to date. A good many things have happened since the adoption of the "resolutions of '88."

Know Their Business

A SHORT time ago the Morning Journal took occasion to refer editorially to the grand exhibition of energy and public spirit, as well as indomitable pluck, shown by the people of Galveston, in practically rebuilding their city after the terrible disaster of a few years ago. And now comes a letter to the editor from the "Galveston Business League," which reads as follows:

Galveston, Texas, September 20, 1905.

Dear Sir,—At a recent meeting of the board of directors of the Galveston Business League, I was instructed to express to you their appreciation of your recent editorial on our city, and which has been recently republished in the Galveston News.

If at any time our league can serve you, it will be deemed a pleasure to do so, in appreciation of your good words, which are certainly helpful to a city which is rebuilding itself.

With kindest regards, I am,

Yours very sincerely,

W. A. GARDNER, Secretary.

Editor Albuquerque Morning Journal, Albuquerque, N. M.

Thousands of times in the course of half a century in journalism we have taken occasion to write a few good words for the encouragement of some deserving community, but this is the first instance, according to our recollection, in which such a favor has been formally recognized—and we presume our experience has not been materially different from that of nearly all other newspaper writers. Practically all the papers in the United States are constantly doing such work, as a matter of duty, but at the same time it is no more nor less than human that we should all like to see our efforts appreciated—and it just as naturally follows that the man or the community that shows a proper appreciation of a favor is much more likely to get another, than the one who receives it as a matter of course, and without so much as a "thank you."

In addition to their admirable pluck and energy, those Galveston fellows evidently have a discriminating sense of what's what, and they are using the information in their business. A town under the guidance of such men can always be trusted to get there.

Solos

by the
Second
Fiddle

The people are drawing a long breath over the thought that this time last year we were just getting ready for the fair.

"What is this writ of prohibition I hear so much about?" asked a puzzled citizen yesterday. "Are they actually going to close the saloons?"

It is really a stupendous thought when one considers how many gigantic fish stories are potentially contained in that fisheries car now in the city.

"The Hubbells only got one out of eleven precinct elections," announced one citizen yesterday to another. "The Hubbells?" rejoined Citizen No. 2, in surprise. "Why are they still in politics here?"

Manager Pickard says they charged the vaudeville company \$1.15 per star for tough steak in Las Vegas. To which the Optic retorts that there were lots of cigars, cans and beer bottles found in the wings.

A band of desperate convicts tried to saw their way to freedom through the bars of the kitchen window of the penitentiary. This is a potent cure to burst to use Perfecto Armijo's celebrated ten-penny nail method in keeping prisoners in line.

D. K. Pearson says that he would rather be John D. Rockefeller without his money than any of the "saluts and sinners" who are attacking John. But that is an impossible hypothesis, John and his money are now and forever, one and inseparable.

The Phoenix Gazette says the new Arizona land office in Phoenix consists of nothing but a table and a chair. That's nothing. Mr. Strum, county superintendent of schools, for several days had no office but a suit of clothes and a hat and a warrant book.

The Las Vegas Optic learnedly informs the somewhat ignorant public that there is no puzzle at all, at all, about the finding of traces of the Chinaman in a Toltec ruin in Mexico. This will be a relief to the excitement in the scientific world over the discovery.

A Kansas man who recently passed into the mysteries of the hereafter has had the following inscription put on his grave: "This man died without praying or psalm singing on this lot. Keep off." He might have added: "No hunting or fishing allowed."

That strange odor which pervades the city and environs just at present is not Albuquerque's habitual fragrance, but it is said for the enlightenment of strangers within her gates. It is merely the smell of moth balls and various and sundry other substances used in preserving the Common Geese's year before last's overcoat.

It is rumored on the streets that Judge Mills has issued a restraining order against Judge Pope to prevent him from allowing Judge Parker to permit Judge Mann to consent to Judge McGee's holding a writ of prohibition against Judge Abbott in the Hubbell case. Meanwhile Tom is wandering wearily over the territory trying to find a nice comfortable jail where he can pass his last days in peace and quiet.

HANDKERCHIEFS ARE SMALLER.

Had Right Now Is for Ten-Inch Mus-

lin Squares.

From the New York Press.

Are average sized handkerchiefs to be added to the list of things one likes to cannot have? The fact for muslin squares of about ten inches seems to be growing and before long it may be hard to find other sizes in shops. The reason these small handkerchiefs are carried is because they are the right size to tuck in a glove, where there is little danger of losing them. Some of these dainty squares of linen, lawn or other material have tiny embroidered monograms and are edged with lace, or otherwise, one's purse settling that point. But the plain ones, which are like cubes in texture, are the most favored by women of good taste.

Life Insurance Costs Too Much.

In an article in the September Political Science Quarterly, Allan H. Whitely makes a long and elaborate study of the actual cost of life insurance as compared with the premiums really charged. Mr. Whitely concludes: "Whether we reach our results by an analysis of the elements of the income of insurance companies and the relation of each element to the purpose to which it is theoretically assigned, or examine directly the gain and loss account of the insurance companies, the same conclusion is forced upon us, that the premium rates are unnecessarily high. The average experience of twenty-four companies shows a net income on mortality of over 20 per cent, an excess of interest earnings of nearly or quite 1 per cent, and a generous profit from lapsed and surrendered policies, while the loading is just sufficient to cover the cost of carrying on the business. The gain and loss exhibit indicates that but for the depression of securities during the year 1903 the insurance operations of the companies would have brought in to the policy holders or added to the surplus, with no improvement in the methods and practices of insurance companies a reduction of 20 per cent or 25 per cent in premium rates is possible for a company managed with average care and efficiency, and is in every way desirable.

"But to bring insurance rates down to the present cost-level is only half enough. The cost itself ought to be lowered. It is demonstrable that some of the practices of insurance companies tend to increase their mortality loss, that a higher net of interest and mortality would result from a wider utilization of insurance by people of small or moderate income."

Breaking It Gently.

To illustrate a point of statecraft which need not be raised here, Sir Henry Campbell-Bannerman has been telling his constituents a story of a small boy who went to his mamma and asked him to lead him a pencil.

"But," said the mother, "I left a pen and ink for you to do your lessons with on the nursery table. Why don't you use that instead of a pencil?"

Clarence hesitated for a moment. "Don't you think, mamma," he said at length, "that the Times is a very useful paper?"

"Of course I do," answered mamma, "but what?"

"Well, you see," the little lad explained, "I want a pencil to write to the editor and ask him what'll take link stains out of a carpet."

FAIR COMMITTEE BEGINS ITS WORK OF INVESTIGATION

Takes Up Association's Bat- tered Financial Remnant.

LIKELY THAT DEFICIT WILL STILL ENJOY SOME GROWTH

The investigating committee, appointed by the executive committee of the Fair association at its meeting last Monday night to make an examination of the affairs of the twenty-fifth New Mexico fair as to its financial and management, began its work last night. In a meeting in the office of P. F. McCann, who is a member of the committee, Chairman D. A. Macpherson, W. T. McCright, Dr. B. H. Briggs and Attorney Felix Lester, the full committee, were present.

A report was received from Secretary Sellers, setting forth in detail the receipts and expenditures of the officers on account of the late fair, together with all bills submitted to the secretary, stubs of checks issued and paid, stubs of checks issued and unpaid, and accounts yet to be met. As a result of the first meeting, the committee has found that its task will not be an easy one and that the deficit of \$4,500 reported to the executive committee Monday night, is likely to grow to still further proportions. There are still some \$500 of unpaid subscriptions outstanding, and until all of this which is collectable has been received and applied, the committee will not present its final report, should it have completed its examination of the accounts by that time.

SERENO M. PAYNE SEES ROSY FUTURE FOR ISLANDS

NEW YORK CONGRESSMAN TALKS
ON TRIP OF THE TAFT PARTY
THROUGH THE ORIENT.

Congressman Sereno M. Payne, of New York, republican leader on the floor of the house of representatives, accompanied by a party of friends passed through the city yesterday on his way east from a trip to the Philippines with the Taft party. Mr. Payne was met at the train by a number of local people.

When Mr. Payne was asked concerning the results of the trip to the Philippines and concerning conditions there, he spoke most optimistically of the future of the islands. "The trip was a very pleasant one for all of us," said Mr. Payne with enthusiasm. "And I'm glad to say we all were able to remain above decks during the passage both ways. Everything seems to be quieting down in the provinces and the people are coming to have an entirely different idea of the Americans and their intentions."

"The prestige which the United States is gaining in all the eastern countries and especially in China and Japan is wonderful and we were all impressed chiefly by the 'bigness' of our country and its president in the eyes of the Orient. This was the factor in making the Chinese boycott a fizzle."

After the War.
Now that peace has been declared between Japan and Russia the entire world will have something serious to think about in regard to the strength of the Japanese. In fact, a commanding nation has sprung into being, with the powers most reckoned in the future. If you neglect the stomach and bowels and allow the system to become weak and rundown, Nature always requires a reckoning, and which in some cases results in a long, serious sick spell. You cannot afford to take chances and for this reason we urge you to commence taking Hostetter's Stomach Bitters at meal time and bed time, and give it a fair chance to make you healthy. Thousands have been cured during the last fifty years of indigestion, dyspepsia, heartburn, costiveness, bloating, sour stomach, female ills or malaria by using the Bitters promptly. Start today.

Did you get a souvenir at the Albuquerque Hand and Co's store this week? See their advertisement in this paper.

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

CALIFORNIA FIG SYRUP CO.

Louisville, Ky. San Francisco, Cal. New York, N.Y.

TERRITORIALISMS

Only Room for One.

Days Day suggests that one fair is enough for San Juan county and we think Davis is right. As Farmington has the oldest fair in New Mexico, even exceeding the Albuquerque one in years, we cannot believe that we should quit. In fact, it has become a fixed habit with us. We are willing to give Aster the Fourth of July, St. Patrick's Day (and we're Irish, too), Halloween and Easter Sunday, but the fair we can't part with.—Farmington Hustler.

Torrance County Land Open.

The best news in the county of Torrance has come to us in a message from the United States land office at Santa Fe stating that the several townships immediately surrounding Estancia will be open for filing on the 16th of November. These townships were surveyed during last year, and the plats have been in the general land office at Washington for approval some time. The numbers of the four to be opened at that time are: Townships 5 and 7 north, range 8 east and township 4 north range 9 east. These are the ones to the south and to the north of Estancia and the one in which Willard is located.—Estancia News.

Boy Loses a Foot.

The five-year-old son of E. W. Kuster had his right foot cut almost off, above the ankle, at 11 o'clock this morning at his father's farm at the end of Lover's Lane, east of town. The father was moving kafir corn and the boy ran to meet him, rushing through the field, right into the sickle before his father saw him. Both bones were cut in twain and the flesh all but severed. Coming on a run to town, surgical attention was immediately rendered, and it is hoped that the foot will be saved. The loss of blood was enormous for a child of five years. The patient is being cared for by Mrs. Wright, the nurse at the J. T. Evans residence on Richardson avenue. The child's mother died recently.—Roswell Record.

"And Then New Mexico."

"And then New Mexico. There is where they first irrigated ground within the boundaries of the present Union, and where they raised the first alfalfa; known then to the army mule as 'Mexican clover'; and as something

Claves County Bar Association.

The lawyers of Claves county held a meeting in the chambers of Judge Wm. H. Pope yesterday afternoon and formed what they have named the Claves County Bar Association. The organization of the association was occasioned by the fact that the Territorial Bar Association is to meet in Roswell next August, and the local members of the bar want to be prepared to properly entertain the gathering. The following officers were chosen: W. C. Reid, president; H. S. Bateman, vice president; K. K. Scott, secretary; Karl Snyder, treasurer. An executive committee was named as follows: W. W. Gatewood, R. E. Lund and James Hervey. A committee on by-laws was named as follows: Emmett Patton, Frank Williams and J. T. Evans. The association adjourned to meet upon call of the president.—Roswell Record.

A Mystery Never Solved.

E. G. Mansfield, the postoffice inspector who is in the territory in connection with the letting of the contracts for the star mail routes, yesterday morning returned to the city from Prescott. He left this morning for Holbrook and the district south of that point to investigate the case of one of the mail carriers named Jurgeson. It will be remembered by the readers of the Republican that Jurgeson mysteriously disappeared some eight months ago and no trace of his body was ever found. He was at the time traced to the opening of the Canyon Diablo, but a terrific snow storm made further efforts to follow him impossible. Jurgeson was never settled with by the government for his quarterly salary and he never made a settlement with the postmaster at his initial point for considerable of an item in the way of supplies. To adjust this will be Mr. Mansfield's work.—Phoenix Republican.

Nambe Indians Prosperous.

Mr. and Mrs. C. M. Surfas, of the Nambe Indian pueblo, were in the city

upon which it was well for him to get full while he had it by him. New Mexico remains still an almost undeveloped country, yet one where there has been a Christian civilization for 300 years. It is full of opportunities for its almost unknown valleys, lying amid charming scenery, and traversed by its little inadequate Mexican ditches, are beginning to attract attention, and the brown son of the soil will give way to the man who does things, not because he has to but because he wants to.—From "The Star."

A Judicious Inquiry.
A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

IMPROVEMENT THE WORD IN CHURCHES OF ALBUQUERQUE

Congregational Church to
Remodel Its Building.

PIPE ORGAN ONE OF THE
IMPROVEMENTS PLANNED

Improvement is the order of the day in the churches of Albuquerque. During the past year there has been almost an epidemic of church building and the results of the spirit of progress are seen in the handsome new church of the First Methodist congregation; in the German Lutheran church, the corner stone of which was laid last Sunday and in the beautiful building for the Presbyterian congregation, the walls of which are now beginning to rise at the corner of Fifth street and Silver avenue.

And now another church has come forward with the announcement that it is going to improve. At a meeting of the members of the Congregational church held last night in the church parlors and at which a majority of the congregation was present, it was determined to remodel the building which is already large and convenient to reseat the main auditorium, to install a pipe organ, to fresco and otherwise decorate the interior and to turn the building into a thoroughly modern structure.

The meeting was called last night by the orders of the trustees of the church and the pastor, Rev. J. H. Barron, presided at the meeting. The matter of the proposed improvements was gone over thoroughly, every member present taking part in the discussion. There was practically no opposition to the program outlined. It was determined to furnish the church with pews instead of the chairs now in use, to install the organ as soon as possible and to make the church one of the most attractive in New Mexico. To this end the following committees were appointed:

On Finance—Messrs. F. H. Strong, E. L. Washburn, N. E. Stevens, William Furr.

On Pews—Messrs. Fox, Bullard, Stone, Tschetter.

On Organ—Messdames Washburn and Leicester, and Mr. Pillsbury.

On Furnace—Messrs. Bryce, Hoppling, Palmer, Leighton.

On Painting and Decorations—Messdames Borders, Hodgkin, Barron and Heald.

The work of the several committees will be to take up the matter of the improvements projected and to advise with the finance committee and the officers of the church on the expense to be incurred.

LEE FOUND GUILTY OF ASSAULT AND BATTERY

FOR CARVING UP ONE REUTIG
LUNA WITH A SHARP KNIFE
LAST JULY.

Late last evening the jury in the district court returned a verdict of guilty of assault and battery in the case of the Territory against William J. Lee, charged with assault with intent to murder one Reutig Luna.

The assault in question took place on the second day of last July in Sturges' restaurant. Lee was employed in the capacity of a waiter and the defendant was at the time filling the role of dishwasher at the same place. An argument between the two men culminated in a tooth and nail fight during the course of which Lee slashed his adversary in the forearm with a knife, inflicting injuries so severe that it was feared that Luna would die. An artery was severed and he almost bled to death.

Luna was fined \$10 in police court and Lee was given sixty days in the county jail. Lee was later indicted by the grand jury for assault with intent to murder. He is an American of pure African descent. Felix Baca was appointed by the court to defend the prisoner.

The criminal docket was called at 9:30 yesterday morning and a long list of cases were set for trial. The trial of the Lee case occupied the court's time all the rest of the day.

DYNAMITE WRECKS BIG EL PASO STORE

TERRIFIC EXPLOSION FRIGHT-
FULLY MANGLES ONE MAN AND
INJURES SEVERAL

At 4 o'clock Tuesday afternoon a terrific explosion at the corner of Texas street and Mesa avenue startled the whole city of El Paso says the El Paso Herald. Several boxes of dynamite caps in the El Paso Hardware company's store exploded.

The explosive was in the central part of the store. What caused the explosion is not known, but the force was great enough to smash every pane of glass in the doors and windows. It also brought down all the plaster in the Van Blarmon apartments upstairs, and turned things topsy turvy in the rooms.

The man who was the worst injured is an American, Major Sweden, a driver for the City Transfer company. He was close to the keg, and he was badly burned and mangled about the face and upper part of the body, and his leg is broken. It is feared that he will die.

So far as known one Mexican named Stefano Penas, is the only other man injured; he was hurt about the legs and head. It is thought that the walls of the building were not damaged.

A horse in front of the building had his eyes cut by flying glass and will have to be killed.

The boxes that exploded contained several boxes of dynamite caps, 190 to the box. R. G. Chenoweth, of Chenoweth & Brown, was near the boxes when they blew up and was thrown to the ground. He cannot account for the explosion; some men were moving a counter near the caps at the time.

Three thousand people gathered around the scene of the explosion in a few minutes.

Insomnia and Indigestion Cured.
"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by all druggists.

PIERCE WAIVES EXAMINATION

TICKET CLERK'S CASE GOES OVER
TO GRAND JURY ON EMBEZZLEMENT CHARGE.

After several postponements the preliminary hearing of Guy Pierce, the former Santa Fe ticket clerk, who is charged with embezzlement of company funds, came up before Judge Crawford in police court yesterday afternoon.

T. N. Wilkerson, counsel for the defendant, waived the preliminary hearing and Pierce was released on a \$350 bond which he furnished. The case goes to the next grand jury. E. W. Dobson appeared for the railroad company. A number of checks paid at the ticket office while Pierce was in charge were introduced in evidence yesterday, among them a \$70 check of the Fair association, for railroad tickets for Jim Jeffries which is one of the amounts included by the railroad in its charge of embezzlement.

Read Albuquerque Hardware Co.'s advertisement in this paper and you will not wonder why they have such a crowd's every day.

WOULD TAKE WEAPONS TO FIGHT ALLIGATORS

VERSATILE INDIVIDUAL WANTS
INFORMATION ABOUT CANAL
WORK.

Washington, Oct. 4.—A most curious letter has been received by the Isthmian canal commission from an individual who wants a position as carpenter in the canal zone. The writer asks for information on all manner of topics, and especially wants to know if there are alligators or wild savages and cannibals to contend with.

My Experience at Carpenter Work is such as Building Houses, Barns, Bridges, Mills, sidewalks, Fences, Docks, Boats, Passenger Coaches and Freight Cars. I am very skillful in other works to numerous to maintain such as Rail Road Building, Rail Roads, Lumbering, Steam Boating, Saw Milling, Stone Milling, Farming, Building Pavements, Concrete Docks, Water Foundations. Although I do wonder if I can take part in the erection of Gods Temple eternally in the Heavens. As in observation made not by Hands, But framed by the Word of God.

Now I wish you to write me the truth. Because I do not know. But it may be a scheme to get People to go there. Merely to Populate the Place. Now, Uncle Sam, you will not Forget. I will send you my Photo. Taking this last June. Please give me an Eye Opener as to the merits of this affair.

As I have Tools, Maybe it would be best to buy them there. Will I need

anything to fight alligators with. Or Sharks. Is there any there that Eat Men. Them kind that Bolt Men in Kettles, Or wild savages. What is the people like. Can they talk United States. Have they churches there. And Preach. Have they any schools and teachers for the children. What have they got, and what is it like. All of this, and something more. I am very brave, and I do not wish to be duped, Or enticed into a Hoax. As I have a good position here, and drink the purest water on Earth. Born here and unto the Cline, Home, Friends, People, magnificent surroundings. Learned to love the Government, yet. Do not love its Customs. Because they are not wise. How can they be. They Chew Tobacco, Drink Intoxicants, Play silly games, cannot learn nothing in College.

P. S. Can a man Purchase Tools There. Or is it that we will have to take them from here.

Inspect your library and select the volumes in need of repair, then take them to Mitchell's where they can be made good as new at a nominal cost.

Always fresh. Always good. Always cheap. P. G. Pratt & Co., Grocers, 214 S. Second St.

ALBUQUERQUE, NEW MEXICO

MAJESTIC BAKING DEMONSTRATION NOW GOING ON

We heartily invite our friends to call at our store any day during this week where we are demonstrating the superior qualities of the

New Majestic Malleable and Charcoal Iron Ranges

The MAJESTIC MALLEABLE and steel range as formerly turned out by the Majestic people has been considered throughout the entire country par-excellence, and far ahead of any other range made. But with the NEW CHARCOAL IRON BODY in place of Steel making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal Iron, you can readily see that if quality is considered, the Majestic leads by a big margin. WE WANT YOU TO CALL at our store THIS WEEK, and let us explain this new feature: CHARCOAL IRON BODIES; let us explain why it is the best material for range bodies, and incidentally, why it is not used on other ranges. We want you to call if you intend to buy or not, as the information gained will serve you in the future.

HANDSOME SOUVENIR—FREE

As long as they last we propose to give each prospective customer a neat souvenir, something that has not been offered before. If you intend to buy, call early and get one of these souvenirs.

HOT COFFEE AND BISCUITS—FREE

Come any day during this week and have buttered hot biscuits and hot coffee. Biscuits baked on a Majestic in three minutes while you wait.

HANDSOME SET OF WARE—FREE

With every range sold during this demonstration we will give absolutely FREE one set of Majestic ware worth every cent of \$7.50. This ware is on exhibition at our store. Everything useful, ornamental and durable. Come in and see it and you will agree with us that it cannot be bought for a cent less than \$7.50, and it is cheap at that.

Come in any day, you are welcome whether you intend to buy or not

MAJESTIC RANGES SOLD IN ALL OF THE ABOVE COUNTRIES

Albuquerque Hardware Co.

321-323 Railroad Avenue

WE WANT our store to be the one which always comes to your mind first when you want something just a little nicer and better than you can get anywhere else.

Not always the cheapest, but always the best, and always as cheap as the best can be sold for. We have just increased our Diamond Stock by several thousand dollars worth, and now offer by far the finest line ever shown in Albuquerque. Call and see these beautiful goods. Cash or easy payments. We are surely Headquarters for wedding presents.

FINE WATCH WORK A SPECIALTY.

John A. Rosch, of Las Vegas, was down from that city on business yesterday.

R. H. Hoke and Burke Holbrook were among the Las Vegas registered at the Alvarado last night.

Division Superintendent Otto Hahn of the Harvey news system, has returned from an eastern trip.

R. Romero, Pedro Elguera and Charles White, all of Chulit, came in from the mountains yesterday.

Santa Fe Live Stock Agent H. S. Van Slyke, of El Paso, spent yesterday in the city on official business.

J. N. Wheatley, in charge of the Lantry-Sharpe construction out of Belen, was in the city yesterday.

The regular semi-weekly dance of the Commercial club was held last night. The attendance was small.

Mrs. V. Peltier and Mrs. M. Grubbs left yesterday morning for Kansas City, where they will hereafter make their homes.

A benefit performance will be given at the Casino Sunday evening for the vaudeville organization at present playing there.

Assistant United States Attorney D. J. Leahy, who has been here for a short time on business, left last night for Alamogordo.

Vice President George L. Ulrich, of the White Oaks National Bank of White Oaks, Lincoln county, is in the city for a few days.

Assistant United States Attorney E. L. Medley, who has been seriously ill with typhoid fever, was out for the first time yesterday afternoon.

James Graham McNary, editor and manager of the Las Vegas Optic, was in the city yesterday on business matters. He left last night for El Paso.

W. C. Westbrook, of Westbrook & Co., contractors, arrived in the city last night from Thoreau, where he is now doing work for the American Lumber company.

Mrs. Sam Neustadt entertained a small party of little people in her home on West Gold avenue yesterday afternoon in honor of the third birthday of her son Alfred.

Joe Miller, who recently had his hand badly mauled in a boxing machine in the shops, is now officiating as clerk in the big machine shop during the absence of Mr. Short.

S. B. Grimshaw, assistant to the general manager of the Santa Fe Central railway and traveling freight and passenger agent A. L. Grimshaw of the same road, were in the city on railway business yesterday.

Alejandro Sandoval, of Corrales, has let to Wallace Hensel the contract for the erection of four modern houses at the corner of First street and Fruit avenue. The improvements on this property are to aggregate close to ten thousand dollars.

William Parr, of Parr's meat market, has returned from a trip to the Imperial valley of California. He returned by way of Lordsburg, where he purchased a big consignment of cattle to send to the Imperial valley to be fattened.

The funeral of John A. Conley, whose death occurred Thursday afternoon, will take place Friday afternoon at 2:30 o'clock from the family residence on William street. Rev. Wilbur Fisk of the Methodist church will conduct the service.

Mrs. M. J. Jordan, president of the New Mexico Woman's Christian Temperance Union, left for Las Vegas last evening to complete arrangements for the eighteenth annual convention of that organization, to be held in Las Vegas October 13, 1905.

F. G. Plummer, of the United States forest reserve service, arrived in the city last night from Santa Fe. Mr. Plummer is at present going over the records with a view to correcting boundary lines of forest reserves in New Mexico and his work will have an important effect on the present limitation of the reserves.

The wedding of Rufus Goodrich, of Los Angeles, private secretary to General Superintendent I. L. Hibbard, of the coast lines to Miss Mae McDonald, daughter of Mr. and Mrs. W. W. McDonald, of this city, will take place at the home of the bride's parents on South Third street this evening. Rev. Wilbur Fisk, of the Lead Avenue Methodist church, will perform the ceremony, which will be witnessed by a few favored friends and relatives of the popular young people. Mr. Goodrich arrived in the city yesterday from Los Angeles. After the ceremony Mr. and Mrs. Goodrich will leave at once for their home in Los Angeles stopping en route to view the Grand Canyon.

Congressman Llewellyn Powers, of Maine, left yesterday morning for Washington after an extended stay in this city. Governor Powers' visit here was on account of the serious illness with typhoid of his son, who is now convalescing in St. Joseph's hospital. Mrs. Powers who arrived in the city some time ago will remain with her son until he is able to resume his journey east.

Rev. J. W. Barron received a telegram yesterday from Chicago, saying that Dr. H. H. Tenney would be in Albuquerque next Saturday night and would occupy the pulpit of the Congregational church on Sunday morning. Dr. Tenney is the secretary of the American board in California with offices in San Francisco. The people of Albuquerque should not miss this opportunity of hearing this distinguished speaker.

W. H. B. Kent, John Kerr, and a small party of the United States forest service, arrived in the city yesterday from the Jemez reserve. The men are engaged solely in taking levels and determining altitudes at various points in the territory, and will leave here for the vicinity of Silver City and the Gila reserve.

P. A. Lawrence, of Raton, is registered at the Sturges.

MAXIM'S MAXIM.

Modest Claims Often Carry More Conviction Than Loud Boasts.

When Maxim, the famous inventor, placed his gun before a committee of judges, he stated its carrying power to be considerably below what he felt sure the gun would accomplish. The result of the trial was therefore a triumph of surprise. Instead of disappointment as it might have been if he had overestimated the gun's efficiency.

Our claim regarding Newbro's Herpicide is based on actual scientific facts.

If a living germ is causing your hair to fall out it's the most sensible thing to kill that germ.

Newbro's Herpicide does this quickly and effectively. Destroy the cause you remove the effect.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. R. H. Briggs & Co., special agents.

Don't fail to read carefully the Albuquerque Hardware Co.'s advertisement in this paper.

The Rhinoceros is too thick-skinned to be easily convinced. So is the average business man. It takes more than low prices to convince an intelligent person that they are going to get a good enduring plumbing job for their money. We always try to quote low prices, but behind it we can show a reputation for always giving each customer a square deal.

Off With the Old On With the New

That Good Old Suit Has Seen Its Best Days

GET ANOTHER ONE THAT HAS THE good shoulders and close fitting collar characteristic of our clothes. Possibly the "good old suit" is one of ours and you know the new one will be even more satisfactory, because they are better each season. If the "good old suit" is not one of ours, then you have paid more for it than for the same quality, style and fit in our make. At any rate, see our Fall line and get posted on the new styles and effects.

Prices Range \$10.00 to \$30.00
