RUSSIA AND JAPAN ARE AT PEACE

Formal Conclusion of Negotiations Effected.

DIPLOMATIC RELATIONS TO BE RESUMED MONDAY

Ratification Accomplished Through Assistance of Diplomatic Machinery of France and the United States.

Paris, Oct. 14.—Premier Rouvier, acting on behalf of the Russian government, tonight signed the peace treaty with Japan. The Japanese government, the emperor of Russia had today signed the peace treaty, thus completing Russia's part in the conclusion of peace between that country and Japan.

Early in the day the foreign office received notification from St. Petersburg that Emperor Nicholas would probably sign the treaty during the day and would ask France to communicate the fact of his ratification to Japan.

Premier Rouvier accordingly remained in his office throughout the day for the purpose of immediately transmitting the treaty to the emperor. The signing of the treaty at St. Petersburg did not reach here until 6 o'clock this evening, when the Russian embassy received a dispatch saying that Emperor Nicholas had affixed his signature to the document and requesting that France be asked to transmit the information to Japan.

In the absence of the ambassador, M. Nekliouff, went to the foreign office at 7 o'clock this evening and met Premier Rouvier, whom he informed of the signing of the treaty.

War Officially Ended. The emperor of Russia and the emperor of Japan today signed the treaty, thus officially ending the war.

Becomes Effective Monday. Tokyo, Oct. 14.—It is confidently expected that the treaty of peace will become effective Monday or Tuesday next, when notices of its ratification will have been exchanged.

Japan's Emperor Signs Treaty. Washington, Oct. 14.—The emperor and empress of Japan today signed the treaty, thus officially ending the war.

Togo Withdraws at Sea. Tokyo, Oct. 14.—Vice Admiral Togo landed today at Ise bay and proceeded to the Great Ise temple where he worshipped. He will stay at Ise bay until he is joined by other ships.

Trouble in Santo Domingo. Washington, Oct. 14.—Smuggling between Haiti and Santo Domingo is not only lessening revenues, which Colonel Colton, receiver of duties, can collect for the benefit of American and foreign debtors of Santo Domingo, but it threatens to involve him and other Americans who are working under commissions from the Morais government and to involve this country also in the difficulties with either or both of the republics.

General Morais, to seat himself more firmly as president, gave to Rodriguez domination of the province of Monte Cristi. When the United States became receiver of customs Monte Cristi saw an opportunity for money making. Goods for Haiti were bonded through Monte Cristi, taken across the border and then taken back to Monte Cristi without having paid a cent of duty.

Should H. F. Worley and Marion E. Beall, employees of the bureau of insular affairs, insist upon the arrest and punishment of the smugglers, they likely would cause a conflict with Rodriguez and another between Rodriguez and President Morais, in which the United States might be forced to support Morais.

SEEKS TO ENJOIN ROYAL ARCANUM

JUDICIAL COMMITTEE OF PROTESTING MEMBERS SEEKS TO STOP RATE INCREASE

Portsmouth, Oct. 14.—Captain Nelson W. Evans, member of the judicial committee of protesting members of the Royal Arcanum, filed today, naming himself as plaintiff and the supreme council of the Royal Arcanum as defendant, to enjoin the collection of additional assessments due to the recent increase in rates.

INSURANCE COMPANIES ARE SAFE IN TEXAS

COMMISSIONER SAYS STATE HAS NO CAUSE FOR ACTION AGAINST BIG THREE

Austin, Tex., Oct. 14.—State Insurance Commissioner Clay today made a report to Governor Lanham of his investigation into the condition of the insurance companies now under examination in New York. He recommends to the governor that Texas has no cause for action against them. The governor stated that pending further developments he would take no official steps to deprive the companies of any of their permit rights in Texas.

Czar Invites Pope to Participate

Rome, Oct. 14.—It is learned from the highest authority that the czar has sent an autograph letter to the pope inviting him to send representatives to the peace conference. It is not expected that the Italian government will object, owing to the improved relations between the Vatican and the Quirinal, and also because the Ger-

man chancellor, Prince von Buelow, has strongly urged the Italian foreign minister, Signor Tittoni, to smooth the way to a definite reconciliation. The pope has not yet sent his answer to the czar.

Gave Poison for Tonic

Tacoma, Oct. 14.—Mrs. Taylor, wife of Judge A. J. Taylor, is dead, at Walla Walla as the result of accidental poisoning. Mrs. Taylor has been an invalid for years, and last night her daughter, Mrs. Wann, gave her a teaspoonful of carbolic acid instead of a tonic. Mrs. Wann at once discovered the mistake and immediately summoned a physician. He administered antidotes, and when he left Mrs. Taylor seemed out of danger. Later she asked to be lifted to a chair and appeared to be much better, but while her daughter stepped to the dining room to get a glass of water she died.

EARTHQUAKE MADE PEOPLE DIZZY

JAMAICA ROCKED LIKE A SHIP AT SEA FOR MINUTE AND A HALF

Kingston, Jamaica, Oct. 14.—Two earthquake shocks of unusual duration and affecting the whole island of Jamaica were felt here this week. The first shock was on Thursday evening, and lasted nearly a minute. The second and most severe occurred today and lasted for a minute and a half. The undulating motion of the ground made some persons ill. There was no damage to property.

PORTLAND FAIR WILL PAY DIVIDEND

LEWIS AND CLARKE EXPOSITION WILL GIVE STOCKHOLDERS BACK 50 PER CENT

Portland, Ore., Oct. 14.—Today was "officers' and stockholders' day" at the Lewis and Clark Centennial exposition and is the last of the exposition. It is probable the total attendance at the fair will exceed 2,500,000. President Good has announced that stockholders will receive a dividend of 50 per cent, a better record, it is said, than ever made by any exposition in the world.

Mrs. Borden Heads the Temperance Union

LAS VEGAS MARSHAL SHOTS AT DOG AND HITS HIMSELF

Special to the Morning Journal

Las Vegas, N. M., Oct. 14.—Mrs. Mary J. Borden of Albuquerque was re-elected president of the Women's Christian Temperance Union of the territory in the meeting this afternoon.

The other officers are Mrs. J. R. Bean, Kennedy, vice president; Mrs. S. C. Long, of Las Vegas, secretary; Mrs. G. E. Wilson, of Albuquerque, corresponding secretary; Mrs. Ada Morley, of Dallas, recording secretary; Mrs. Ella O. Wood, of Santa Fe, treasurer.

The sessions of the union closed with a rally tonight, but the churches of the city will hold a temperance meeting under the auspices of the organization tomorrow evening.

The address of Mrs. Borden is spoken of as an uncommonly brilliant and able effort. It dealt with the work achieved during the past year by the union and pointed out the difficulties under which the organization must labor.

General Morais, to seat himself more firmly as president, gave to Rodriguez domination of the province of Monte Cristi. When the United States became receiver of customs Monte Cristi saw an opportunity for money making. Goods for Haiti were bonded through Monte Cristi, taken across the border and then taken back to Monte Cristi without having paid a cent of duty.

Should H. F. Worley and Marion E. Town Marshal Shoots Himself. Town Marshal David Sandel last night, while attempting to shoot a dog that had not been properly licensed to breathe Las Vegas air, managed to put a bullet through his own hand. The member is badly lacerated and several small bones are broken. The dog is still alive.

"TADDLES" MAY GO WITH THE MOTHER

BUT CHILDREN OF UNHAPPY TAGGARTS WILL REMAIN UNDER JURISDICTION OF COURT.

Woolster, O., Oct. 14.—Judge Eason today decided that "Tiddles," the youngest child of the Taggarts, shall be left in the care of her mother at Wooster. The elder child may go with the father, who is now located at Columbus barracks. Judge Eason added that both children would remain under the jurisdiction of the court.

Oscar Again on Throne. Stockholm, Oct. 14.—King Oscar, formally resumed the reins of government today. On August 10th last he appointed the crown prince Gustavus regent, while he went to Marstrand for his health.

REMOVED LOUIS NAPOLEON HAS BEEN ASSASSINATED

Paris, (Sunday) Oct. 15.—The Petit Caporal this morning publishes a rumor that Prince Louis Napoleon, governor general of Caucasus, has been assassinated at Tiflis.

There is no confirmation of this rumor in official or other sources.

One More Dougherty Victim. Peoria, Ill., Oct. 14.—The Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration by worry over the disclosures compromising his bank and the fear of disastrous ruin, Nelson Burnham, a stockholder of the Peoria National bank, died suddenly last night. He was 79 years old.

Calve Sang While Great Storm Threatened Liner

New York, Oct. 14.—An experience with the same storm which caused the loss of five passengers on the Campania, was reported by the steamer La Savole on her arrival here today.

Last Wednesday the La Savole ran into a northwest hurricane. Madame Calve was a passenger on the steamer, and when the storm was at its height and the passengers were locked in the cabins, many of them badly frightened, Mrs. Calve appeared and announcing her faith that the storm would be passed through in safety, she sang until her fellow passengers were again in good spirits.

John Graham, of Milwaukee, was one of the passengers lost. The others were two Irish girls, a Danish boy and a man of unknown nationality. Miss Cotes, Stewardess, and a deck steward, heroically saved the lives of several children who were being washed toward the opening in the rail.

Agnes Carlsen, a young Swedish woman, who suffered a fracture of both thighs and internal injuries, died in a ship's hospital an hour before the Campania was docked today.

St. Petersburg Workmen Again in Turmoil.

St. Petersburg, Oct. 14.—The storm center of the political and labor agitation may next week be transferred from Moscow to St. Petersburg, where the printers and employees of several large establishments are now debating the question of a strike.

A strike of printers has been declared in the government of Saratoff and no newspapers are being printed. A bomb was thrown today, but there were no fatalities.

The printers of St. Petersburg will hold a general assembly tomorrow at which delegates from Moscow will be present. It will be determined by the assembly whether a strike shall be called. The employees of the big Baltic and Nevsky shipyards are on the verge of a walkout. A majority of the St. Petersburg workmen are apparently desirous of continuing work, but if a strike is declared they are apt to be forced, through sympathy or intimidation, to join it.

Work has been resumed in a number of factories in Moscow and others will reopen on Monday, but the strikes of the printers and in some of the factories may drag on for several weeks, with constant liability of minor disturbances between the police and the workmen.

CONFERENCE TODAY TO DETERMINE PEACE OR WAR

St. Petersburg, Oct. 14.—The press of London, Paris and Berlin continue to give prominence daily to the international diplomatic situation. The Paris Matin's articles on the Franco-German relations. The disavowal of their author, M. Luzzanne, that the articles were inspired by ex-Foreign Minister Delcasse is regarded as a journalistic fiction, while the denial by the Matin's London correspondent of Great Britain's reported undertaking to assist France militarily has not killed the original story or prevented an outburst of wrath from the German press.

The Berlin correspondent of the Standard now claims to have authoritative information that, while no responsible person in Germany believes that Great Britain voluntarily offered to help France in the armed conflict, suspicion is caused in Germany by the revelations and is now dispelled by M. Delcasse's primary responsibility for them. Communications passed between the British and German governments, says the correspondent, regarding the revelations. These satisfied Germany no far as they went, but they were verbal and informal. Similar communications passed between France and Germany, but did not result in clearing matters to the satisfaction of Germany, who seems to expect more definite official assurances.

While it is not believed that Great Britain volunteered to support France in the event of an attack by Germany, it is thought possible that England answered M. Delcasse's inquiry in a manner justifying the impression that he could rely upon the British, and the German newspapers expect a formal statement on the subject from Prime Minister Balfour and Foreign Secretary Lansdowne when the British parliament meets.

EUROPE IS RESTING ON A VOLCANO

Likely to Break Through Surface at Any Moment.

FRANCE AND GERMANY MISSED WAR BY HAIRSBREADTH

Sensational Stories of the Delcasse Incident Serve to Revive Bitterness in France Against German Diplomats.

Paris, Oct. 14.—Public opinion has been wrought up during the present week by alleged revelations of Great Britain's readiness to invade Germany on behalf of France. These revelations following the Franco-German controversy over Morocco and the open declaration of Prince von Buelow, the German imperial chancellor, favorable to a Russo-German rapprochement have created a feeling that France was the center of dangerous enemies and coalitions. Although the alleged disclosures did not receive the slightest official recognition they have become the theme for discussion throughout Europe and the initiative taken by former Minister Delcasse was responsible for them led to violent attacks against him, one journal going so far as to accuse him of treason. M. Delcasse's resignation of the cabinet followed by the semi-official note of Friday saying that the "published reports upon the incidents accompanying the resignation of M. Delcasse, and notably details regarding the cabinet council preceding his resignation, are incorrect," checked the sensational bubble, but it has none the less served to excite the intense political bitterness of French statesmen to the maneuvers of various European powers to readjust their interests at the expense of France.

The more of contradictory revelations and denials the fact stands out that the Morocco controversy took Germany and France dangerously near the verge of war and that Great Britain, while not officially promising military aid, stood ready to give France her loyal support. The bitterness aroused by the incident is indicated by the calling of a special meeting of the association of French journalists for October 18 to consider charges made that certain journalists under influence and in the pay of foreign governments.

Germany Expects Denial. London, Oct. 14.—The press of London, Paris and Berlin continue to give prominence daily to the international diplomatic situation. "ARIZONA DESERTS STATEHOOD"

Say All of Congressman Tawney's Party.

BUT A LITTLE MORE POPULATION IS NEEDED

Much Hot Air But Little Definite Assurance From Speakers at Murphy's Banquet in Prescott Last Night.

Prescott, Ariz., Oct. 14.—The congressional party, headed by Hon. J. A. Tawney, arrived here this afternoon and will remain over Sunday. The congressmen passed through rich valleys and a wealthy gold region this morning, including a visit to the Congress mine, in the Wickenburg district, and the noted Vulture mine, one of the oldest in the territory. At Wickenburg Congressman Tawney asked for a vote of the people at the platform relative to jointure with New Mexico and every person voted against it. Tawney said this was more convincing than anything he had seen against jointure, these people being out in the mountains away from the politicians and their sentiment certainly came from the heart.

Congressmen Adams, Marshall and Tawney delivered addresses. Every member of the party has now expressed himself opposed to jointure except Tawney. Some of them favor statehood at once, but Steenerson and Adams suggested a few years for increased population.

"WE ARE SATISFIED THAT NO STATE IN THE UNION HAS MORE INTELLIGENCE OR PATRIOTISM THAN ARIZONA," said Steenerson, "BUT WE DO NOT BELIEVE YOU HAVE POPULATION ENOUGH YET."

Adams said, "I do not blame Arizonians for wanting separate statehood and for every member of the party I can say we will fight for your rights, as he never spoke after his collapse in the hotel where he died. Members of the company now recall that Sir Henry showed signs of exhaustion during the week, which did not attract particular attention at the time."

Deep Sorrow in New York. New York, Oct. 14.—To actors, managers and the theatrical public the news of the death of Sir Henry Irving from a sudden attack of apoplexy after playing Becket at Bradford, England, last night, came as an overwhelming blow. You are told that the stage has lost its greatest friend, and the drama one of the most marvelous interpreters that ever lived.

Issue Taylor Dead. Kansas City, Mo., Oct. 14.—Issue Taylor, actor, singer, actor, stage coach driver, and one of the first men to make the trip overland from Kansas to the Pacific coast, died here yesterday, aged 84.

GOVERNMENT ASKS RAILROAD TO HELP IN EFFECT TO CHECK SMUGGLING ALONG THE MEXICAN BORDER.

San Francisco, Oct. 14.—The sequel to the indictment of two Southern Pacific freight conductors at El Paso, by the federal grand jury for smuggling Chinese in freight cars from Mexico into the United States, and especially California, is a request from Secretary of Commerce and Labor, Nelson A. Rockefeller, to the Southern Pacific officials to aid his immigration agents in stamping out the smuggling of Chinese on its westbound freight trains from El Paso.

Smugglers Again Active. El Paso, Tex., Oct. 14.—Smugglers are active in the republic of Mexico, and customs officials of the Mexican government are making the utmost vigilance is needed at present to prevent goods from entering the republic without the payment of the lawful duties.

At all points, the customs officials of the sister republic have been warned to be especially alert, and every effort is being made to put a stop to the unlawful importation of goods.

The abolition of the zone some is playing a part in the usual amount of smuggling at present, and yet most Mexican officials say that the smuggling from this cause is much less than had been anticipated.

"I must admit," said a Juarez official, "that there is far less smuggling as the direct result of the abolishment of the free zone than I had looked for. We expected that there would be an unusual amount of attempting to elude the customs officers when the free zone line was abolished and the zone of activity for the smugglers was moved from Villa Ahumada to Juarez. In this we were pleasantly surprised."

"It may be, however, that the stock of goods on hand before the abolishment of the zone became effective is still holding out, and that the incentive for smuggling has not become as great as it will be later."

"There is much smuggling, it is true, but it is not of the class of goods which would be most affected by the free zone."

Hit in Morocco Program. Paris, Oct. 14.—Although the foreign office has not yet been definitely informed on the subject, there is reason to believe that the choice of Algerias, Spain, as the place for the Moroccan conference encounters the opposition of the Sultan of Morocco, who favors Tangier, not wishing to have the conference take place outside of Morocco.

This may renew the controversy on the subject of the place of meeting, France favoring Madrid, while Germany sides with the Sultan in advocating Tangier.

WARDEN'S CLAIM EL PASO DEFEATED

El Paso, Texas, Oct. 14.—Judge Swayne of the federal court today instructed the jury to bring in a verdict against W. J. Warden, who for years has pressed a claim to the greater part of southern El Paso. This practically ends litigation extending over many years.

DEAD MARCH PLAYED IN THEATERS WHILE PEOPLE STAND

Ellen Terry Participant in Marvellous Actor's Greatest Successes Broken With Grief at His Sudden End.

London, Oct. 14.—The body of Henry Irving will reach London at 3:20 o'clock tomorrow morning. It will be conveyed here in a funeral car attached to the regular train from Bradford, accompanied by his sons, Henry B. and Lawrence, and Bram Stoker and other members of his business and personal friends. Immediately on its arrival the body will be taken to Mr. Irvin's residence.

Notwithstanding the requests that no flowers be sent, several have been given place on the funeral train.

Flags were placed at half mast at many of the theaters of London today and the afternoon and evening performances in the theaters throughout the country closed with the orchestra playing a dead march. At the Queen's Hall Chopin's funeral march was played, the vast audience standing.

Ellen Terry, who is playing at the Birmingham, is reported to be completely prostrated with grief and did not appear at tonight's performance. A meeting will be held in London at which a proposition for a national memorial will take shape. It is understood to be extremely probable that Sir Charles Wyndham will propose the establishment of a national theater in Irving's name.

Seldom has the death of a public man in England called out such universal expression of sorrow as has followed the tragically sudden demise of Sir Henry Irving. His last words on the stage as the curtain was rung down on the death of Becket were: "Into Thy hands, Oh Lord, into Thy hands," as he never spoke after his collapse in the hotel where he died. Members of the company now recall that Sir Henry showed signs of exhaustion during the week, which did not attract particular attention at the time."

NEW YORK WINS CHAMPIONSHIP AND BIG MONEY

Four to One Against the Philadelphia Team.

MATTHEWSON PITCHED THREE OF THE FOUR GREAT VICTORIES

New York, Oct. 14.—Amid the frenzied plaudits of more than 24,000 base ball enthusiasts, the New York National league champions won the world's professional base ball championship on the polo grounds today, by defeating the Philadelphia American league team in the fifth game of the post season by a score of 2 to 0.

Of the four previous games, New York had won three and Philadelphia one. With Matthewson pitching New York took the opening game in Philadelphia, but lost the second on the Polo grounds with Bender pitted against McGlinchy. Matthewson relieved this defeat in the ensuing game at Philadelphia, making the record two for New York against their opponent's one, and in the next game on the home grounds, New York with McGlinchy in the box added another victory.

Matthewson and Bender confronted each other today in what proved to be the final contest. In the opening inning the New York pitcher was apparently not at his best, while his Indian adversary afforded a splendid exhibition of the pitcher's art. Matthewson, however, soon rallied and although he contributed the only two fielding errors in the game, he held the visitors safe. The victory, however, was not due so much to his effectiveness as to the clean, sharp fielding of the New York men. The visitors weakened in the infield and after his brilliant opening, Bender lost control.

Attendance, 24,200. The division of receipts will net the winning players \$1,142 each, and the losers, \$420. The score: R. H. E. Philadelphia..... 0 0 0 New York..... 2 0 0 Batteries—Bender and Powers, Matthewson and Bresnahan.

Americans Win at Boston. Boston, Oct. 14.—The Americans won the last two games of the local series today, 8 to 2 and 4 to 3. The Nationals only took one game of the series played. Scores: R. H. E. First game—Americans..... 8 1 0 Nationals..... 2 0 2 Batteries—Gibson and Armstrong, Young and Needham. Second game—R. H. E. Americans..... 4 1 0 Nationals..... 3 0 2 Batteries—Young, Harris and McGovern, Fraser and Moran.

Nationals Win at Chicago. Chicago, Oct. 14.—The Chicago Nationals today defeated the American league team by a score of 8 to 5. The Nationals have won three games and the Americans one of the series. Score: R. H. E. Nationals..... 8 5 0 Americans..... 5 9 2 Batteries—Landrum, Reubbs and Kling, Owen, White, Smith, Sullivan and McFarland.

Nationals Win at St. Louis. St. Louis, Mo., Oct. 14.—Shannon's triple followed by Sneed's infield hit after two were out in the ninth inning won today's game for the National league. The post series now stands 3 to 2 in favor of the Nationals, with a double-header carded for tomorrow. Score: R. H. E. Nationals..... 5 9 2 Americans..... 3 4 3 Batteries—Glade and Spencer.

PLOTTED RAID ON BERKELEY HOMES

MAN THOUGHT TO BE CUTLER MOUNTAIN MURDERER WAS RIFE FOR CRIME.

Berkeley, Cal., Oct. 14.—William Ellis, who is recovering from wounds inflicted by the man known variously as Brush, Curtis and Andrews, today told the story of his escape from death. It differs in a few details from the statements he had previously made. He stated today, in opposition to a former assertion that Brush, or Andrews, never directly admitted killing a woman in Colorado. He now qualifies his assertion made previously by saying that Brush once told him of having quarreled with his wife at Colorado Springs, and of receiving a shot from the woman who subsequently died of pneumonia.

The further statement was made by Ellis that he never suspected Brush of any crooked work until they arrived in Berkeley. He declares Brush always treated him with kindness up to the time of the attack. An important point was given out by Ellis that on last Monday night he seized at the house Brush and Andrews, who were there for the purpose of robbing him. He was there Brush broached to him a campaign of crime in the cities about the bay.

"Brush said it would be easy to make a goodly profit by robbing the houses of wealthy people in Berkeley and surrounding cities," said Ellis. "He declared it would be much easier to make money that way than by following our plans to engage in horse racing. Brush, who held great influence over me, I did not upbraid him for his nefarious plans, but merely said I was content to make my living by racing horses."

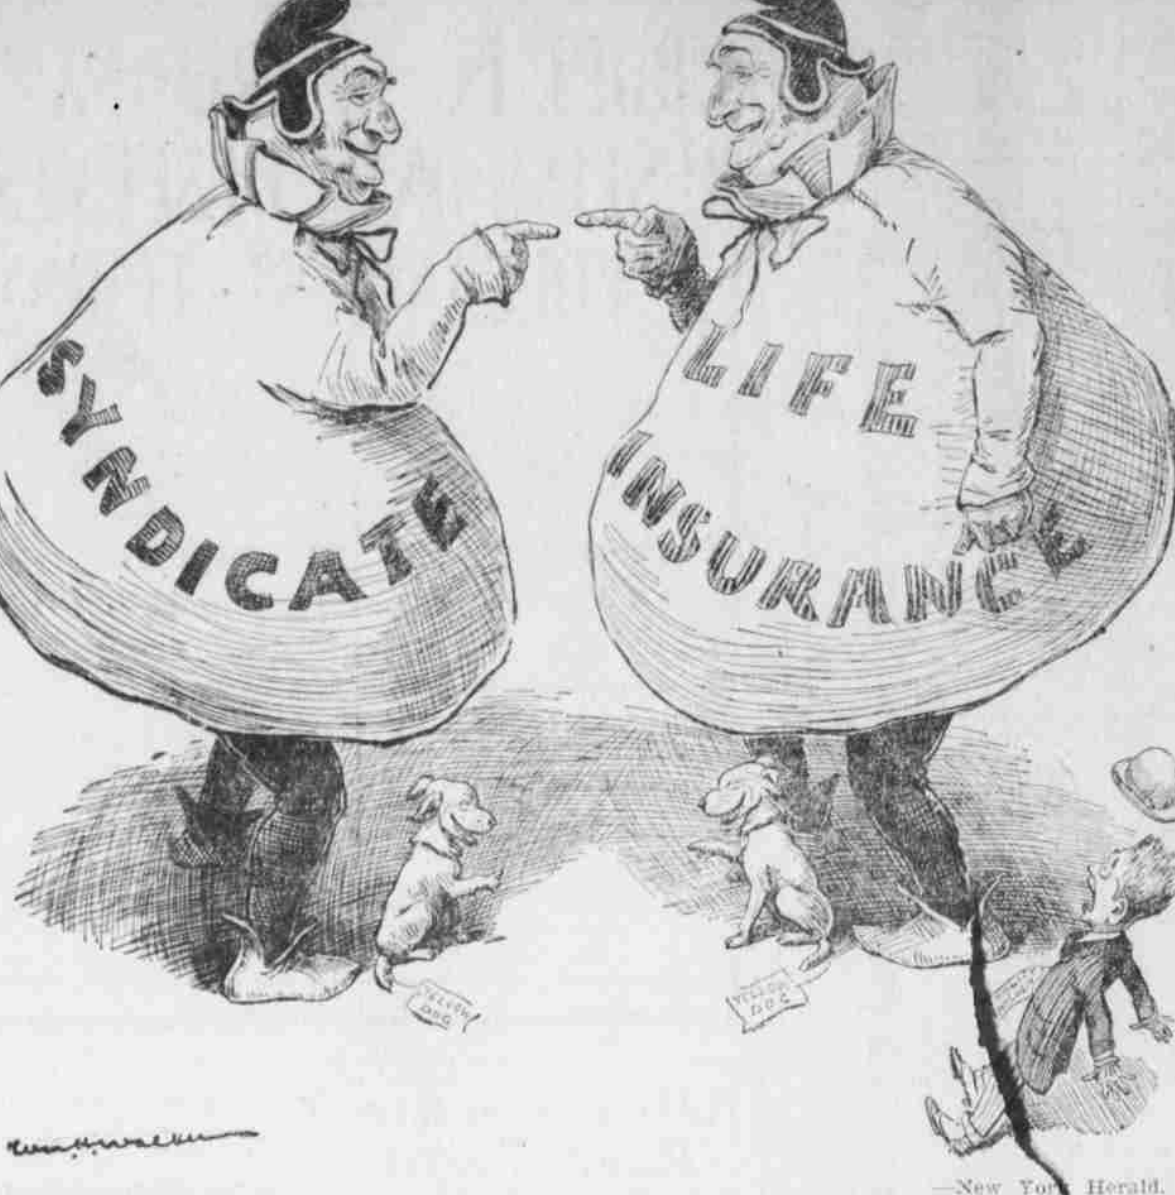

According to the story told by Ellis today, Brush told him he was anxious to return to Colorado Springs, where he had considerable money deposited in a bank. Another reason for wishing to return there, was that he had a wife buried there.

Bomb Throwers Kill Police. Warsaw, Poland, Oct. 14.—A bomb was thrown today at the villa of an English manufacturer. The cook and gardener were killed. The house was damaged. The bomb throwers fled, pursued by the police. When closely pressed, the fugitives shot and killed three officers and then escaped.

Hungry Laborers Sack Village. Seville, Spain, Oct. 14.—Over 8,000 farm laborers, made desperate by famine, invaded the market place at Ecija, 48 miles from Seville today, seized the entire stock of goods and money, destroyed the market and threw the town into a panic.

UNIVERSITY WINS SECOND GAME

DEFEATS EMBURY HIGH SCHOOL TEAM BY SCORE OF SIXTEEN TO NOTHING.

By three touchdowns, one of them on a fumble, the others after hard, though rather uninteresting play, the University football team defeated a mixed team made up mostly of High School players, at the fair grounds yesterday afternoon. The University had a long advantage in weight and in practice, the opposing team having had but a week of practice. The High School crowd was also handicapped by the loss of Decker, who went out early in the game with a bad knee. Dumbly made two of the University's touchdowns and held the other. The High School could not score. The lineup follows:

University: First—H. Scholt. Second—R. B. Decker, Capt. Allen. Third—R. H. Benjamin, Smith. Fourth—L. H. Lembo, Clancy. Fifth—J. G. Wright. Sixth—R. G. Wright. Seventh—R. G. Wright. Eighth—R. G. Wright. Ninth—R. G. Wright. Tenth—R. G. Wright.

NEGRO APPOINTED MINISTER TO HAYTI

PRESIDENT NAMES WILLIAM H. FURNISS TO SUCCEED MR. POWELL.

Washington, Oct. 14.—The resignation of William H. Powell as United States minister to Hayti has been submitted to the president and accepted. As his successor the president has determined upon William H. Furniss, of Indiana, a prominent negro. Furniss is the present consul in Bahia, Brazil. He will assume his duties as minister to Hayti about November 15.

SERIOUS TROUBLE FOR THE FISHERMEN

ONLY ABSENCE OF THE FISH AVERYS CRISIS OFF NEW FOUNDLAND COAST.

St. John's, N. E., Oct. 14.—The situation on the west coast created by the abrogation of the special privileges granted to American fishermen is becoming serious. Two American vessels are now at Bonine Bay in quest of herring, but as there are none now in the bay no trouble has arisen. The fisheries department warden states that he will be powerless unless help is given to the herring to strike the bay, for the people have expressed their intention of selling back to these vessels the penalty of purchasing back the concession of the vessel and outfit.

ONLY ONE BROKEN LEG IN RACE FOR VANDERBILT CUP

Marvelously Poor Exhibition of Slaughter.

FRENCH DRIVER WON IN EXCITING FINISH

New York, Oct. 14.—In a driving finish, with the next man only a few seconds behind him, Hemery, of the team of French automobile racers won the race for the W. K. Vanderbilt Jr. cup over the Long Island course today. Hemery made the distance of 255 miles in 276 minutes, elapsed time. George Heath, an American, driving a French car, was second, while Tracy, another American, but not of the French team, was third. The race of the Italian team fourth. Hemery won from Heath by a minute and 22 seconds, elapsed time.

This was the second race for the Vanderbilt cup, but today's event was marked by no serious accidents as was the race last year. The race started at 6 o'clock this morning, leaving in Robert Graves' German 120-horse power car was the first off followed by eighteen others at one minute intervals. The course is 2.52 miles around, and was covered ten times, making the total distance 252 miles. Foxhall Keene, who started second, ran into a telegraph pole near Bulls Head. He broke a wheel, but was unhurt.

Lochin in an Italian car of 110-horse power, who got away No. 4, was far ahead at the end of the seventh round, making 13.1 miles in 145 minutes and 42 seconds, but collided with Christie. He got back in the race, however. Christie's car, started a complete reverse. The machinist in Christie's car had a 750 broken. Christie's right leg was fractured. The elapsed time of the four leaders were: Hemery, 4:36:08; Heath, 4:56:26; Tracy, 5:00:00; Keene, 5:00:00.

Miss Mackay the Champion. New York, Oct. 14.—Miss Pauline Mackay, of the Oakley Country club, Watertown, Mass., won the woman's national golf championship today, defeating Miss Margaret Curtis of the Essex Country club, Manchester, Mass., by one up in eighteen holes.

Automobile Ran Into Tunnel. New York, Oct. 14.—Miss Vio Bruner and Miss Roscoe Boyd were severely injured this morning when an automobile in which they were riding plunged through an iron fence and into the tunnel at Park Avenue and Twenty-third street. Charles Gelhaus, owner and driver of the automobile, was also severely injured, but after being cared for, he was placed under arrest. Gelhaus was taking a party of friends to and bathing on the river for initiation took up much of the time.

FRANCE STILL HOLDS OUT FOR SETTLEMENT

WILLING TO GIVE CASTRO ANOTHER MONTH TO COME TO TIME.

Paris, Oct. 14.—The view prevails here that a month may elapse before a decision is reached as to what steps shall be taken against Venezuela. This indicates that there is a desire on the part of France to give President Castro ample opportunity to make amends and to exhaust all diplomatic recourse before resorting to other means. France is seeking with the co-operation of the United States, to devise a means for a diplomatic adjustment of the situation.

Webb-Pullitzer Wedding. Shetburn, Va., Oct. 14.—Frederick Vanderbilt Webb, daughter of Dr. and Mrs. W. Seward Webb, and Ralph Pullitzer, son of Joseph Pullitzer, owner of the New York World, were married in the Trinity Episcopal church today. Right Rev. Arthur C. Hall, Episcopal bishop of Vermont, officiated.

Principal E. J. Vert of the Las Vegas Normal school, arrived at that he Alvarado from the Meadow city last night. Paul Kempenich came up from Pecos yesterday and will remain in the city over Sunday visiting relatives.

ELEGANT BANQUET CLOSING DOINGS OF THE SHRINERS

Brilliant Affair at Elk's Hall Last Night.

LARGE CLASS INITIATED INTO INNER MYSTERIES OF ORDER

The Nobles of the Mystic Shrine wound up their day's program yesterday with a brilliant banquet in the spacious banquet hall of the Elk's theater. The big room, beautifully decorated for the occasion, was crowded by the guests, and every part of the territory was represented in the assemblage.

After all sorts of good things to eat and drink had been thoroughly discussed, the Nobles pushed back their chairs and for an hour or two there was fun galore. Dr. J. H. Wright was toastmaster. Among those who responded in sparkling vein to the calls of the masterly bards were Attorney W. B. Childers, David Rosenwald, Dr. J. P. Pearce, W. H. Dexteryne, of Denver, and others. The banquet was one of the most enjoyable that the Shriners have held. The musical orchestra dispensed excellent music.

The feast was preceded by the ceremonial session of the order, at which the following candidates were taken across the lot: Abram L. Pratt, Carlsbad; Herman Benson, J. M. Harrison and C. J. Kerr, San Marcos; J. W. Carter, W. H. Deane and J. C. McMillan, Silver City; Thomas Hudson and Richard Hudson, Deming; H. B. Holt and W. Parker, Las Cruces; R. H. Dean, Clayton; H. F. Brock, Aden, N. M.; and Daniel Burns, R. Jones, C. T. Deane and F. J. Holmes, of Albuquerque.

At the business session in the Masonic Temple in the morning yesterday various routine matters were discussed and in the afternoon the class for initiation took up much of the time.

Illustrious Potentate W. H. Hahn, of Ball's Ahyad Temple, of this city, who has been master of ceremonies, has won golden opinions on account of the success of the annual meeting this year, which was largely due to his skillful management. One of the most appreciated features of the day's program was a splendid dinner served in the lodge rooms at noon yesterday. Week's Masonic Program.

The grand lodge will meet on Monday morning and its sessions will occupy the whole of Monday and Tuesday, closing Tuesday night with a banquet tendered the grand lodge by Temple lodge No. 2 at Masonic Temple.

Bank Cashier Aids Cattle Thieves. Fargo, N. D., Oct. 14.—W. B. Denney, cashier of the First National bank at Williston, is under bonds for appearance in the district court, having been arrested on a charge of assisting cattle thieves known to have been stolen. This arrest was made in connection with the cattle stealing case. Recently reported in the northwestern part of the state, and in which other prominent men are said to be implicated.

300 MEN AT WORK ON COAST LINES IMPROVEMENTS

Between Albuquerque and Laguna Station.

SIX WORK TRAINS BUSY HAULING GRAVEL FROM RIO PUERCO PITS

The improvements now in progress on the Santa Fe coast lines between Albuquerque and Laguna are on a more extensive scale than is generally known.

There are between 250 and 300 men at work ballasting the main line, putting in new ties and heavier steel, and otherwise improving the roadbed. When the work is completed the track of the Santa Fe in western New Mexico is to be the finest in the southwest and will compare favorably with the famous roadbed of the Lake Shore and other "crack" eastern lines.

There are a number of big camps about six miles east of Laguna and six work trains are kept busy carrying ballast from the big pits at Rio Puerco. This gravel makes the finest track ballast available anywhere in the territory, and there is an inexhaustible supply of it in the pits at Rio Puerco.

George Henry Thomas, the veteran conductor, has charge of the work trains and the track is literally kept hot by the six big strings of ballast cars every hour of the day. In the vicinity of Laguna, passengers coming in say it looks as if a new railroad was being built. Big steam shovels are kept on the move in the gravel pits and altogether it is evident that the company is going to spare no expense to make the coast lines one of the finest specimens of the railroad builder's skill in the country.

RIPLEY SAYS ROAD IS IN BEST SHAPE EVER

Topeka, Kas., Oct. 14.—Notwithstanding adverse conditions existing during the past fiscal year, President E. P. Ripley, of the Santa Fe railway, reports that both track and equipment are in better shape than ever, and the road is now ready to handle promptly and efficiently the large business in prospect.

New lines from Owsoso to Tulsa, 1. T. eleven miles, and from Riverbany to the terminus of the Sierra railway at Oakdale, Cal., six miles, were put in operation this year. The Phoenix & Eastern has been completed to Dudleyville, ninety-two miles east of Phoenix, Ariz. The Jasper & Eastern, which has been graded nearly the entire distance from Kirbyville, Texas, to De Ridder, La., and on which rail has been laid from Kirbyville to the Sabine river, is expected to be entirely completed during the present year.

Work is progressing at three points on the Eastern Railway of New Mexico, from Mexico to Rio Puerco which will afford a through route shorter than the present line via Trinidad, and will avoid two mountain ranges between Trinidad and Albuquerque. The Arizona & California, to extend from Wickenburg, Ariz., to Bering, Cal., has been constructed to the extent of forty miles.

A total of 161 miles of new second track was authorized during the year, of which sixteen miles are already in operation and the remainder will be completed within a few months. By the end of the calendar year the Santa Fe will have 323 miles of double track in use.

On a Tour of Inspection.

General Superintendent I. L. Hibbard is now engaged in an official inspection of the California lines of the Santa Fe. He is being accompanied on the trip by Division Superintendent Hitecock, the roadmasters and other minor officials. The trip is being made by special train.

LOCAL SHOP NOTES

D. M. Lewis, general air brake inspector of the Santa Fe system, arrived in the city from the north last night on air brake inspection car No. 9995. Mr. Lewis' headquarters are in Chicago, but he has been for several weeks at his home in Trinidad recovering from a severe attack of pneumonia, which kept him in the hospital at Las Vegas for two weeks or more recently. Mr. Lewis and his car will go to Gallup Monday night.

Thad. Van Horn, traveling passenger and freight agent of the Santa Fe, returned last night after a few days' business trip to this city. Mr. Van Horn says that his lines are doing an immense amount of business and that the company's freight and passenger traffic from this city is increasing greatly.

H. L. Brumbaugh, who has been night yardmaster in the local yards for several months, has resigned and will leave in a few days for Little Rock, Ark., where he will take a similar position in the Iron Mountain yards. He will be succeeded by James Walters, who has been in charge of one of the switch crews in Las Vegas.

Superintendent of Motive Power S. L. Bean arrived in the city yesterday morning from his headquarters at Los Angeles and will remain in the city for some days attending to business connected with the motive power of the coast lines of the Santa Fe. He was accompanied by Mrs. Bean and his private stenographer, C. H. Smith.

Henry Engelbreth, the popular young fireman, returned last night from a trip to Chicago, where he has been seeing metropolitan sights for the past two or three weeks.

Train No. 1 arrived from the east last night in two sections, with one of the biggest loads of passengers which has passed through since the low rates went into effect.

Master Mechanic S. L. Bean, of the coast lines, formerly in charge of the Albuquerque shops, arrived last night from Los Angeles accompanied by his wife.

Charles Watlington, one of the old-time conductors on the south end, is leaving off for a few days to attend the grand lodge meetings.

Superintendent John Stein, of the Harvey system, arrived at the Alvarado last night from his headquarters in Las Vegas.

L. A. Carr, the official carpenter for the Santa Fe at San Marcel, is in Albuquerque attending the Masonic gathering.

R. W. Hoyt, of the Santa Fe auditing department, arrived in the city from Las Vegas last night.

FIFTY NEW ENGINES GOING INTO SERVICE

ALL OF THE MACHINES ARE
BADLY NEEDED TO HANDLE
THE BUSINESS.

The local round house and machine shops have their hands full this month setting up the big locomotives that are arriving every day or so from the Topeka shops. Four more of the monster balanced compound engines left Topeka yesterday, consigned to the local shops. They came in dead and are erected and fired up here. The 1226 and the 1227, the first two of these new engines to be sent out have already arrived. They are similar to the rest of the 1200 class now in use out of the city, but which are simpler machines. There are few speedier machines and more powerful passenger locomotives in the country. Besides the six now out of the Topeka shops twenty-four more of these engines are being turned out as rapidly as possible and will arrive here in batches frequently from now on.

Twenty of the huge 1600 class decapods have been ordered altogether and thirteen have already arrived. The rest of the order, all oil burners, are expected to put in an appearance soon and will be set up here and sent west. These engines are identical in size with the 900 class decapods, differing only in a few minor details.

All these new engines are needed, as fast as they can be secured, owing to the rush of business in freight and passenger traffic, which is now on "No danger of being too many engines," said a well known official of the mechanical department yesterday. "There is more business on the road than I ever saw before at this time of the year. I don't know how they are going to handle the rush when the oranges begin to go through. The volume of business is simply phenomenal."

TO SELL THE ROAD.

English Capitalists to Buy Parral and Durango Line.

The Parral and Durango line and some valuable mines and large tracts of timber lands, all situated in western Mexico, and which are owned by a syndicate of Pittsburgh capitalists, are to be sold to a syndicate of English capitalists. Several million dollars are involved in the deal. The English capitalists recently secured an option upon these properties and they now have experts on the ground making an investigation as to the value and future prospects of the railroad and the mines. If these reports are favorable the transaction will be consummated. The Parral and Durango railroad runs from Parral to the town of Las Mesas de Sandoa, with a branch line from Rincon to Minas Nuevas, a total length of about seventy-five miles. It is planned to extend it to Guadalupe, where it will connect with the Tepic branch of the Mexican International railroad. J. I. Long, American consular agent at Parral, has been the manager of these properties for the Pittsburgh people for many years.

Some Sensible Advice.
It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that L would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. BIDS FOR STAR MAIL ROUTES IN NEW MEXICO

Four Year Contracts Soon To Be Let.

NOW SERVICE HAS GROWN UNDER NEW SYSTEM

The postoffice department has issued advertisements inviting bids for carrying mails on all star routes in New Mexico from July 1, 1936, to June 30, 1940. The bidding is limited to persons living within the delivery districts of offices supplied from routes on which proposals are made who will, if awarded a contract, live on or near the route and give the service their personal supervision.

Contracts awarded under these advertisements will require carriers on mail routes to collect and deliver mail to all persons living along roads traveled by them who comply with certain requirements of the department. This will give a service similar to regular rural delivery service.

Formerly professional or speculative contractors were awarded contracts on many routes which they usually sublet to persons living on the routes or resulting in poor service. This system finally became very unsatisfactory and was discontinued through an order of Hon. W. S. Shalenger, second assistant postmaster general, limiting the bidding to persons who would agree in their bids to live on or near the routes and personally supervise the service if awarded a contract. This order practically barred the professional contractor and the improved service throughout the country is evidence of the wisdom of the department.

He further improved the service by establishing delivery and collection of mail by carriers on star routes making it efficient and satisfactory.

All postmasters in New Mexico have pamphlet advertisements with lists of all star routes and instructions to bidders. Any person desiring to make a bid on a route should call on a postmaster for blank proposal and instructions as to making bids.

Bids will be received at the office of the second assistant postmaster general, Washington, D. C., until 4:30 p. m. December 5.

The following is a list of star routes in New Mexico with present pay per annum, by counties, on which bids are invited:

Greater Albuquerque Must Expand

Every Dollar Invested Will Earn an Additional Dollar Within Two Years' Time.

There is no outlet for growth towards the river, houses must be built somewhere and there is but one practical direction — EASTERN ADDITION. HIGHLANDS—twenty-five to forty feet above the lowlands. No danger of floods, pure antiseptic air, free from city dust and smoke, beautiful residence lots, 50 feet wide, 142 feet deep, level and suitable for immediate building purposes at the ridiculous low price of \$100, \$150 and \$200 per lot; \$10 down and only \$1.00 per week until full payment is made. A good city lot is the very best form of investment; it cannot burn or be stolen; an economical housewife can save the payments every month. See The Surety Investment Company, owners, no commissions. TERRITORIALISMS

Excepting Albuquerque, Las Vegas weather in October beats the world—Optic.

There are nearly as many active newspapers supporting jointure now in Arizona as there in New Mexico.—Bisbee Review.

Greek War Over. The Greek war in San Juan county wasn't quite as long as the famous Trojan war but was just as strenuous.

New Slim Gauge. The rumored building of a narrow gauge railroad from Romero near Las Vegas to the mountains in the neighborhood of Mineral Hill, seems to be assuming tangible shape.

Bridges or Bust. The Panama Eastern says that the determination to have one or more bridges across the San Juan river should be grounded in every citizen of Farmington and the San Juan valley.

A Slap. "The only town in New Mexico where gambling is prohibited," is one of the best advertisements sent out in the literature published for the Santa Fe, and is one of the hardest slaps at the rest of the territories.—Las Vegas Optic.

How About Those Greeks? Next week will be court week in San Juan county, the first for a year, and we expect to show the world, the territory and home-seekers that we are about as respectable a community as can be found anywhere in the—Farmington Enterprise.

Monuments Control. The United States land office has recently rendered a decision to the effect that in the event of any error in the description of any mineral claims surveys or of the line tying the claims survey to a government land survey, monuments must control.

Pulling Wires. The Western Union gang of linemen have charge of the work of changing the Santa Fe wires to new poles. The old poles have all been replaced by new ones between Las Vegas and Albuquerque, and the work of changing the wires is progressing rapidly.

Bitter Dose for Review. Our esteemed contemporary, who at present is laboring under a severe attack of capitalized mendacity, threw another fit in the double column department last evening in an effort to convince the people of Bisbee that we are doomed to be joined with New Mexico in the distasteful bands of joint stanchhood.—Bisbee Review.

Almanac Has a Thought. The Almanac hates to believe that the Santa Fe system will compel the city which gave it its name and part of its fame, to wait much longer for a respectable station edifice for which neither the railroad nor the city need to apologize every time a traveler steps from an incoming Santa Fe train.

Stole March on Antic. As soon as the congressional train left Albuquerque the other day the friends of jointure notified the friends in Arizona, and they flooded the congressmen with postal letters at the different towns where they stopped, advocating the jointure of the two territories, and sent them bunches of the newspapers of Arizona containing editorials on the subject.

Not So Bad. An Artesian man two years ago invested \$50 in taking up a farm, spent another \$50 for half the cost of bringing in an artesian well, made a good living for two years and the other day sold out for \$9,500. He oughtn't to be too much discouraged over this. He probably didn't understand farming and high finance in their proper correlative proportion. He will do better next time.

Fence Cutters in Hoc. There are now seven prisoners in the county jail at Las Vegas on the charge of fence cutting on the Beck grant. Day before yesterday Sheriff Romero brought in Francisco Cruz T. foray, and yesterday Mounted Police A. E. Dudley landed Pablo Lopez in the county jail. Sheriff Romero says these are last of the prospects in San Miguel county, but that Guadalupe county still harbors one or two who will probably be captured within a few days.

Slashed His Horse. The following advertisement appears in the Tombstone Prospector: I will pay a reward of \$250 for information that will lead to the arrest and conviction of the depraved cowardly dastard who slashed my buggy horse with a knife in the lower part of the thigh or gaskin, the evening of the 26th or the morning of the 27th of September, 1905, near my camp east of Dos Cabezas. Wound twelve inches long and four inches deep, and took twenty-two stitches to draw it together. John J. Howard, Wilcox, Arizona.

WILD TEXAS STEER LANDED HARD ON TROUTMAN'S JAW

Stock Yards Foreman Put
Out of Business.

WILL WEAR FACE IN
SLING FOR SEVERAL DAYS

Stockyards Foreman George Troutman, of the Santa Fe, in this city was kicked in the left jaw yesterday by a wild Texas steer. He was knocked insensible and it was a first thought that his jaw had been broken. The injury was a very painful one and Mr. Troutman will wear his jaw in a sling for some time. He has a bad case of "stump jaw" and says that he does not owe his lucky escape in any manner to the steer. His articulation will be badly impaired for some time.

After loading a number of cars for the east, one of the cars was found to have a couple of slats broken. Mr. Troutman went to the car for the purpose of repairing it. He got too close to the hole in the car when suddenly the steer landed a swift kick on Troutman's jaw, which put him down and out. The car was finally repaired and Mr. Troutman came to this city. He was attended to by a physician who advised him to stay in bed for a few days. Troutman went back to the yards regardless of the advice, as this is the busy season in cattle and sheep shipments. He will be more careful in the future and keep out of range of Texas steers' heels.

Mr. Troutman is well and favorably known here, where he has been in the employ of the Santa Fe Co. for several years, having filled the position of depot master before going to the stock yards to take charge.

HOBOS GIVE BRAKEMAN LIVELY HALF DAY

DUG THEIR WAY OUT OF CAR
IN WHICH THEY HAD BEEN
IMPRISONED.

A man giving his name as Walter Carr, was brought into Albuquerque last night by Charles Maize, Santa Fe officer, at Jaleta, and lodged in the county jail, charged with breaking into a sealed car. Carr is one of two hobos who pried open the door into a sealed car near Laguna yesterday morning. They proceeded to investigate the contents of the car, when a brakeman happened along, and after a struggle succeeded in locking both men in the car. The train kept on its way to Albuquerque, but the hobos were restless and finally smashed out the rear end of the car, making their escape when the train was nearing Jaleta. One of the men got away, but Carr was caught by the officer at Jaleta and landed in jail.

Insomnia and Indigestion Cured.
"For years I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. CAN DIG HOLES IN INDIAN RESERVATION

ARCHAEOLOGISTS AT WORK IN
ARIZONA ARE SET OF LUM-
MIS' EFFORTS.

Los Angeles, Oct. 14.—The New York City Librarian Charles F. Lummis has been notified by the interior department of the success of his efforts to have the Indian reservations in the southwest thrown open to exploration by the Smithsonian Institution, the archaeological institute of America, and Mr. Lummis is highly jubilant in consequence.

"This is the most signal victory ever won by a like organization," said Mr. Lummis yesterday. "It was a hard fight, and we won out only after the chamber of commerce had come to our aid and after we had made a personal appeal to President Roosevelt. The result is a complete reversal of the interior department's attitude so far as we are concerned."

"The department's order gives us the right to make excavations anywhere where we please," said Mr. Lummis, "except in the forestry reserve, which is now under the control of the agricultural department. What is more, we expect to have the reserve thrown open to us within a few days. The privilege granted us has been denied for years to everyone except officials of the government bureau of ethnology."

"Dr. F. M. Palmer, curator of the society's museum in Arizona at present, at the head of an expedition sent out by the society. He will be notified at once of the permission granted. It will be good news to him and I confidently expect that it will result in the uncovering of much valuable and highly interesting information regarding the peoples which made their homes in the great southwest long before the Europeans appeared upon the scene, and of whose civilization, interesting as it is, we know comparatively little."

"Dr. Palmer probably will begin his work on one of the reserves at once, and I shall be very much surprised if his results do not astonish everybody, the bureau of ethnology officials included."

MCKINLEY COUNTY IS SOLD FOR JOINT STATEHOOD

Gallup Will Tell Tawney
a Thing or Two.

COUNTY ELECTS COMMITTEEMAN
TO JOINT STATEHOOD LEAGUE

Correspondence Morning Journal.
Gallup, N. M., Oct. 14.—According to official announcement a meeting of the republicans of McKinley county is to be held tonight at the O. O. F. hall to elect a committeeman from this county to the joint statehood league. It is intended to make this meeting a rousing one and to take action toward giving the congressional party a few pointers when they reach Gallup on their return trip east. McKinley county is practically solid for joint statehood and it is the desire of the people of Gallup to impress this fact forcibly upon Congressman Tawney and his friends.

The County Is Sold.
The McKinley County Republican published at Gallup, is one of the best and most wide-awake weeklies of the territory. It has developed into one of the most vigorous and effective champions of joint statehood among the New Mexico press and is helping the movement along right royally. The fact that McKinley county, one of the largest and most prosperous counties of the territory, is solid for joint statehood with Arizona is conclusively set forth in the following article from the last issue of the Republican:

McKinley county is for joint statehood; the county has declared itself for the measure. At the next meeting of congress the senate of the United States will surely put the bill through out of Arizona and New Mexico will come the great state of Arizona and only in size to Texas.

In Arizona there is a pronounced opposition to the jointure, but within the last few months there has come a change and many who heretofore have been against the jointure are now for it. Two of the leading papers of Arizona are open in advocating the measure and within a short time one of the leading republican dailies of the territory will come out flat-footed for the bill. This paper is located in a part of Arizona where the very mention of joint statehood throws the people into a rage of indignation. The editor of that paper stated that he would take up the fight for jointure because he believes that it will result in the end in a great advantage to the two territories.

Just at present Arizona has another reason for wanting joint statehood and that is the governor; Governor Kibbey is not popular with the Arizona people, and a car in his rule of the state territory and has already exercised his dictatorship in a manner that has the ruling interests both large and small against him. He has removed men from office, not because they were not doing their respective duties, but because they did not do the exact bidding of "Car" Kibbey. Such abuse of his executive power has aroused a strong feeling of resentment against Kibbey and many to escape his harsh methods of dealing with public affairs and public office are turning to statehood as a relief, single if they can get joint statehood if they cannot get the single statehood.

The papers of Arizona that are against the bill are doing everything in their power to arouse a feeling of excitement against the people of New Mexico in some instances statements are made that are not true, and conditions are described which would result in the jointure that are made so obvious that if they were true the people of Arizona would be right in fighting to the last ditch; but the facts are over drawn and the people of Arizona are made to believe statements that are rank misrepresentations. The very of this territory is for the jointure, with very few exceptions, and while it is a fact that some of the New Mexico papers have not given a clear statement of the conditions in Arizona for the most part the papers of this territory have kept within the bounds of stating the New Mexico side of the affair.

THE POWER OF STEAM.
Many May See But It Takes Genius to Realize.

When James Watt saw the steam issuing from the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the steam issue from the kettle and regarded it as an explained mystery.

ONLY HAD COAL MINE IN TERRITORY CLOSED FOR GOOD

Famous Madrid Property
Goes Out of Business.

ONLY ABOUT TWENTY MEN
THROWN OUT OF EMPLOYMENT

Correspondence Morning Journal.
Madrid, N. M., Oct. 14.—The anthracite mine closed down for good Tuesday of this week. This mine has been a great producer and has borne the distinction of being the only hard coal mine in New Mexico that has been any kind of a paying proposition. A statement appeared in a Denver paper recently that upon the when in fact only about twenty men were thrown out of employment, when in fact only about twenty men were temporarily laid off and those who desired positions obtained work the next day in the Cook and White cuttings mine. This mine is now the only producer here, getting out about 200 tons per day.

John W. Sullivan, of Hagan, passed through Madrid Saturday on his way to Corralles.

George Yoakam, brother of Dr. F. H. Yoakam, of Corralles, was in Madrid Friday evening of this week.

Miss Minnie Partridge was in Bernillo Friday and Saturday the guest of Mr. and Mrs. S. C. Clarke.

Miss Emma Partridge has been employed by the local school authorities for several years as an assistant teacher to Miss McNulty. She has charge of about twenty day scholars.

Mr. Gallon, previously general auditor of the Santa Fe Railway Co., accompanied by Mr. Ferris, were in camp Saturday of last week. Mr. Gallon has not been in Madrid for over five years and says he notices a great change in the surroundings. Mr. Gallon left Madrid Saturday night for Albuquerque.

Inspect your library and select the volumes in need of repair, then take them to Mitchell's where they can be made good as new at a nominal cost.

ONLY HAD COAL MINE IN TERRITORY CLOSED FOR GOOD

Famous Madrid Property
Goes Out of Business.

ONLY ABOUT TWENTY MEN
THROWN OUT OF EMPLOYMENT

Correspondence Morning Journal.
Madrid, N. M., Oct. 14.—The anthracite mine closed down for good Tuesday of this week. This mine has been a great producer and has borne the distinction of being the only hard coal mine in New Mexico that has been any kind of a paying proposition. A statement appeared in a Denver paper recently that upon the when in fact only about twenty men were thrown out of employment, when in fact only about twenty men were temporarily laid off and those who desired positions obtained work the next day in the Cook and White cuttings mine. This mine is now the only producer here, getting out about 200 tons per day.

John W. Sullivan, of Hagan, passed through Madrid Saturday on his way to Corralles.

George Yoakam, brother of Dr. F. H. Yoakam, of Corralles, was in Madrid Friday evening of this week.

Miss Minnie Partridge was in Bernillo Friday and Saturday the guest of Mr. and Mrs. S. C. Clarke.

Miss Emma Partridge has been employed by the local school authorities for several years as an assistant teacher to Miss McNulty. She has charge of about twenty day scholars.

Mr. Gallon, previously general auditor of the Santa Fe Railway Co., accompanied by Mr. Ferris, were in camp Saturday of last week. Mr. Gallon has not been in Madrid for over five years and says he notices a great change in the surroundings. Mr. Gallon left Madrid Saturday night for Albuquerque.

Inspect your library and select the volumes in need of repair, then take them to Mitchell's where they can be made good as new at a nominal cost.

Miss Hatie Johnson, of Chicago, has returned to this city to spend the winter months.

Mrs. George S. Klock, 615 West Fruit avenue, gave a most delightful at home Tuesday afternoon.

Miss Constance L. Abbott is in Haverhill, Mass., where she went to attend the wedding of a friend.

Mr. and Mrs. W. A. F. Jones, of Las Cruces, are spending a few days in this city the guests of friends.

Mrs. Avery Turner, of Amarillo, Texas, is visiting the family of her brother, Clarence Ten Eyck, at 1115 Kent avenue.

Mr. and Mrs. W. H. Cheatham of the Alvarado have returned from a pleasure trip spent at Los Angeles and Coronado Beach.

Dr. and Mrs. A. B. Henderson, of 412 East Railroad avenue, entertained at dinner Friday night in honor of Mrs. Abrams, of Silver City.

Mrs. R. C. Ten Eyck, accompanied by her sister, Dr. Edith Haigh, have returned from Long Beach, Cal., where they spent the summer.

Mrs. F. H. Lee, of North Twelfth street, entertained about twenty-five ladies Thursday afternoon at the second of a series of whist parties.

Mr. and Mrs. E. J. Gibson left the first of the week in Mr. Gibson's private car for Los Angeles to be absent two weeks on a business and pleasure trip.

Mrs. Alfred Grunfeld will return from Chicago in a few days, where she went two weeks ago to place her daughter, Miss Regina Grunfeld, in school.

Mrs. W. W. Strong, 810 Park avenue, entertained the Summer club last Saturday afternoon, October 7, in honor of her guest, Mrs. Regina N. Strong, of Denver.

Mr. and Mrs. E. L. Washburn have returned from the Grand Canyon. They accompanied Mr. Washburn's brother a week ago, who continued on to the Pacific coast.

Invitations are out for the wedding of Miss Laura Hayden, daughter of

Cochran, who spent the past three winters here and who is now traveling in Europe greatly benefited in health by his stay in the southwest.

One of the best concerts of the season was given at the Elks' theater Thursday night under the auspices of the ladies of the St. John's Guild. Edward Holmes Sickles, the famous blind musician, of Reno, Nev., proved himself one of the most finished pianists, in spite of his handicap, and delighted his large audience immensely. His playing is splendid. He was assisted by Mr. J. Leonard Miller, whose whistling solos are unique and who was greeted by the most enthusiastic applause. Mr. Miller has a rare and unusual talent and Albuquerque music lovers are anxious to hear more of his work. The Episcopal ladies are to be congratulated on the success of the affair.

The George Samuels company in "The Man from Mexico" played a large audience in the Elks' theater Wednesday night. The play is a good farce, well staged and with catchy specialties. On the preceding night "A Deserted Bride" was the attraction. Albuquerque theatergoers will be pleased to learn that Mr. Samuels will return with his clever company in November.

Master Harold Sellers, son of Col. D. K. B. Sellers, celebrated his eleventh birthday yesterday at his home on Tijeras road, assisted by a number of his young friends. About thirty boys and girls were present.

Tomorrow afternoon there will be an important business meeting of the Ladies' Whist club at 2 o'clock in the Women's club rooms in the Commercial Club building.

Thursday evening Mr. and Mrs. Jake Levy entertained a party of friends at their home on North Fifth street in honor of their aunt, Mrs. Mary Gold, of Santa Fe, who leaves in a few days for New York City.

Mrs. A. B. McMillen, 119 South Walter street, proved a charming hostess Tuesday evening at a dinner tendered the Ten Dons. This meeting was the first of the season and proved a great success. Dr. J. H. Wroth read the paper of the evening, the subject being "Are We Moral or Religious?" A most interesting discussion followed. Meetings of the club will be held every Tuesday evening during the winter. Those present Tuesday night were Messrs. M. E. Hickey, A. B. Stroup, W. G. Ticht, Rupert F. Asplund, C. E. Hodgins, P. G. Cornish, H. Wroth, H. E. Fox, E. B. Cries, Frank Moore and A. B. McMillen.

Mr. Alvin Wyckoff as Joe Morgan in Stowe's big scenic production of "Ten Nights in a Bar Room" beggars description. His wonderful acting in the weird delirium scene is most realistic. At Elks' opera house, Thursday, 7:30 p. m. Admission 35, 50 and 75 cents.

DISTRICT COURT

SUSPENDS UNTIL DECEMBER 11

Court Declines Offer of Funds to Complete Session.

DISINTERESTED CITIZEN WOULD PAY ALL THE BILLS

As a result of the granting by Judge Abbott of the petition of W. B. Childers and others for an injunction to restrain the county commission from borrowing money for court purposes, or from spending money already borrowed for that purpose, the September term of the district court was adjourned yesterday afternoon to meet again December 11th when taxes for the last half of the present year will have replenished the court fund. A stipulation was made to take the place of county funds, now withheld by Frank A. Hubbell.

Court was not adjourned, however, until Attorney Nell B. Field appearing for a person whom he declined to name, offered the court the sum of \$2,000 with which to defray the expenses of the remaining days of the term. Mr. Field spoke briefly in making his offer, expressing his belief that the court could with propriety accept the offer to supply the funds needed to carry on the public business, which had been blocked by the action of Hubbell in withholding the county court fund. He declined to name the man who made the offer but said he could vouch for the fact that he was wholly disinterested, that he had no case before the court and that he was in no way connected with the present squabble for possession of county offices.

Attorney W. B. Childers, of counsel for Hubbell, at once objected to the court's using funds derived in this way. He said he could not present the claims of a client to a jury which was paid with funds furnished by a private individual and that the court had no right to accept funds so offered. After brief consideration Judge Abbott held that the court could not with propriety accept funds so offered, in matter what the need, and that, in such time as the court fund could be replenished by the collection of taxes. He then declared the court in recess until December 11th when all jurors witnesses, who have been called, etc. are summoned to appear.

Jurors Need the Money. While many of the jurors who have been serving during the present term feel no inconvenience from the closing of the session, there are some who are not well pleased with the adjournment without pay. Through the with-

holding of the county funds, several of these jurors, who are poor men and who came from distant portions of the county, suffer some hardship through failing to receive the funds they expected for jury service and one or two of them who had been depending on their fees with which to pay bills incurred while here, carried away wry faces. However, so far as the criminal cases go, the whole thing is off until December 11th. There are a number of criminal cases which are thus delayed until December, among them the indictments against Hubbell and Vigil for embezzlement and obtaining money under false pretenses, against Vigil for assault, against Emelio McClure for murder and several other cases of general interest. In all of these cases, pleas in abatement, based upon the alleged invalidity of the grand jury have been filed and the pleas will probably be taken up before Judge Abbott early this week.

The court yesterday dissolved the temporary injunction against Sheriff Armijo forbidding him to go into the vaults in the sheriff's office. Counsel for Hubbell asked for an order to permit their client to obtain certain records in the treasurer's office and the matter was taken under consideration and with this, the sixth week of the county office controversy came to a close.

Last Criminal Case. The last criminal case to be heard was that of the territory against Plutarco Nunez, charged with robbing the Santa Fe store house. Nunez was found not guilty, the trial having taken up the greater part of two days.

RIDES 150 MILES WITH A BROKEN LEG

NEW MEXICO PUNCHER MEETS ACCIDENT WHILE ROPING VICIOUS BULL ON RANGE

After traveling fifty miles overland in a stage, and 118 miles by rail, all the while suffering and without medical attention, G. S. Culbertson, a cowboy on a ranch near Hachita, New Mexico, has arrived in El Paso to have set a broken leg, which he sustained while roping a large and vicious bull on the range.

Mr. Culbertson had thrown his lariat neatly, the rope encircling the bull's hind legs; the wiry little cowboy had galloped around and settled on his haunches to throw the bovine, but the bull, large and powerful, was too strong for the broncho, which was suddenly jerked from its feet, the pony falling upon the cowboy and breaking his leg.

Despite his long trip to reach a physician, Mr. Culbertson's injured leg is healing nicely at Hotel Dieu and he expects to be out of the hospital in about three weeks.

Yuma Banker Acquitted. R. S. Patterson, cashier of the late Bank of Yuma, was acquitted late on Saturday night of the various charges in connection with the collapse of the bank, after a trial lasting three days. Patterson was tried on only one of the five charges, that of making false entries in the books of the bank.

THIS COUNTY GETS FAIR SLICE OF APPORTIONMENT

Eighteen Hundred Dollars From Territory to Schools.

SAN MIGUEL COUNTY LEADS WITH NINETEEN HUNDRED

Superintendent of Public Instruction Hiram Hadley yesterday sent out from Santa Fe the following statement carrying the appointment of territorial school funds among the twenty-five counties for the year:

Department of Education, Territory of New Mexico, Santa Fe, Oct. 14, 1905.

Dear Sir:—Of funds in the hands of the territorial treasurer to the credit of the common school income fund, I have made, this 14th day of October, 1905, the following apportionment among the several counties of the territory, as prescribed by law; said apportionment being twenty-five cents to each person enumerated for school purposes:

The Long Distance Hello. The workmen building the long distance telephone line between Santa Fe and Las Vegas have reached Goleta in their work of placing the poles for the line and the linemen will follow soon after. The work is progressing quite difficult as in many places it is found necessary to blast into the solid rock to place the poles.

THE launching of a business requires as careful study and as much care as the launching of a ship. Both must be well-built in order to succeed. The hull, the deck, the masts, the steering gear of a ship, all of these must be true and reliable or things'll go wrong. The same may be said of a new store. Unless the foundation be well-built, unless the principle and the system adopted by the new store be without a flaw things are bound to go wrong. The merchandise must be right, the price right and the treatment of customers right. Then, and only then, will it be possible for a business to grow and prosper. This store opens its doors to a discriminating public fully confident of making a success of it, because—it is built on correct lines and, because it is steering in the right course. You are not going to find any flaws in our dealings with you for the reason that we won't let it occur. What you will find at Friedberg's will be first-class goods at reasonable prices. Our stock of Hats and Furnishings for men and boys is strictly up-to-date. The newest things only may be found on our shelves and counters. This much as to our stock. Now about our tailoring department—

Suits Made to Measure

The announcement must prove of vast interest to you, not just because we take orders for clothes—that of itself is of only ordinary importance—but because we show over five hundred different styles of woolsens from which you may choose your new fall suit or overcoat. We are associated with two of the foremost Tailoring Establishments in the country—firms which have no superiors for high-class and artistic workmanship, and have but few equals. We guarantee a perfect fit in every case and a saving of from 10 to 15 per cent in every instance.

We Clean, Repair and Press Clothes

and we do this thoroughly, quickly and reasonably. You will find Friedberg's a store after your own heart. Come, let's get acquainted.

Rule or Ruin

THE obstructionists may probably succeed in putting the court out of business, but it is doubtful whether they will have gained anything that will be of value to them, and when the citizens who were induced to sign the petition for an injunction come to realize just what will be gained thereby, it is probable they will feel like hiring a muscular man to kick them with some vigor.

There was no possibility at any time of the county losing anything by reason of the \$4,000 loan. If the county commissioners had authority of law for making it, they were simply drawing in advance to the amount of \$4,000 on the taxes due December first. And if they were not authorized by law to make the loan, then it is simply a question between the commissioners individually and the State National bank, as to which shall have to lose it, and the county does not figure in it at all.

What then was to be gained by enjoining the commissioners from using the money? Simply this—that the ousted officials thought it would strengthen their case for them to "hold up" the county as a highwayman holds up a train. But will it have that effect? Will their cause be made any more popular with the people by the fact that they have been able to devise obstructive measures enough to tie the hands of the court and practically paralyze the public business of the county?

The jail is full of prisoners awaiting trial, but if the court must go out of business for want of funds these persons must be held in prison and maintained at the public expense till the next term of court, which cannot be held till this year's taxes come in. The single item of feeding these prisoners for three months, on the cheapest stuff that can be made to serve the purpose will amount to more than it would cost to run the court till they could be tried. Can the taxpayers who were induced to sign the petition for an injunction figure out from this where or how their injunction can save anything to the county?

The idea that this step was taken "in the interest of the public" is nonsense of the very thinnest sort. And if the "taxpayers" were induced to go into the matter for any such purpose their signatures were obtained under false pretenses.

Indictments have been found by the grand jury against the ex-treasurer for embezzlement of public funds, and against the ex-superintendent of schools for embezzlement and assault with intent to kill. The first purpose of the injunction was to force the court to suspend business on the criminal side before these cases could be reached; and the second was to show the people of the county that although the gang was not allowed to run the business of the county any longer, it was still able to prevent anybody else from doing anything—that if it could not rule, it would ruin.

A Case in Point

A WELL known business man of Albuquerque said to the Journal yesterday: "While the newspapers are saying so much about life insurance in a general way, let me tell you about a particular case, in which I was interested myself: I took out a ten-year policy with one of the big companies a little more than ten years ago for five thousand dollars, and was given a verbal guarantee by the agent that when the policy matured the earnings on my premiums would bring the amount to be received by me up to twice the amount of the sum I should have paid in. Well, my policy has matured, and has been cashed, and the amount I received was exactly the amount I paid in premiums during the ten years, without a cent for interest or earnings. Now if that was not a case of obtaining money under false pretenses, what would you call it?"

We pass the conundrum up to Mr. McCurdy, who will probably be able to prove to the aggrieved gentleman that a life insurance company is a great philanthropic institution, from which the policy holder should not expect to reap any profit.

THE New Mexican thinks it probable that the congress of the United States at its coming session will pass an act prohibiting gambling in the territories, and says: "This situation is similar to that which led congress to pass the Edmunds law and every one knows by this time that the federal authorities enforce the Edmunds law very rigidly and will enforce any anti-gambling law which may be passed for the protection of the youth of the two territories against the insidious effects of legalized gambling devices."

SECRETARY TAFT says that he had fished whale to eat at that Tokyo banquet. A man who can tell fish yarns like this is going to make a strong bid for the Grover Cleveland vote in 1908.—Atlanta Journal.

Roosevelt and Football

HERE is nothing surprising in the fact that President Roosevelt should have taken a hand in the movement to eliminate brutality from the game of football. After settling an anthracite coal miners' strike, involving several hundred thousand men, and engineering peace between two great nations that were tearing at each other's throats, there is nothing singular in the president's harboring ambitions to do even more valiant deeds. Why should not this momentous subject be turned over to Mr. Roosevelt for solution?

Under any other administration than the present, says the Kansas City Journal, it would excite a vast deal of amusement if the president of the United States should invite into consultation the athletic advisers of the leading institutions of learning to discuss how roughness may be eliminated from a student's game. But it seems the natural thing for President Roosevelt to do. He allows nothing to escape him. From one thing to another he flits, smoothing out wrinkles here, exposing fraud and graft there, demanding reforms in another direction, getting right down among his people and making their troubles his own.

The brutality of football is its crying evil. That it is brutal each season's record of broken bones and mangled bodies shows. The country has almost despaired of the college men themselves improving the game, as no effort has been made recently to change the rules in order to decrease the danger. Spectators have demanded "open formation" rules but the managers of the game insist on mauling their players in a way to make accidents and willful slugging inevitable. It is to be hoped that President Roosevelt may be able to get the football leaders together and demand their signatures to a protocol for peace and humanity upon the football field.

IT MIGHT be just as well, perhaps, if we would all freely admit that the twentieth century has started out with an organized body of gentlemen adventurers who have the pirates of the eighteenth century scuttled and sunk so deep that not even the masts are visible.—Los Angeles Times.

How They Told Each Other.
 The cruel war is over. Minister
 Takahira has informed the state de-
 partment at Washington that he has
 been notified by the grand keeper of
 the records at Tokyo that the Mikado
 has informed that official that
 he has signed the treaty of
 Washington. At least Tak told it to
 the second assistant secretary of state,
 who instructed the first assistant sec-
 retary to tell it to the secretary. The
 state department at once notified the
 American embassy at St. Petersburg,
 and Spencer Edly, the charge d'affaires
 there, proceeded to inform M.
 Witte that he was requested to no-
 tify the czar's private secretary to
 impart to the czar the fact that the
 Mikado had affixed his John Henry
 to the document.

Mr. Romanoff then told his secre-
 tary to tell Witte to notify the
 French foreign office that the Russian
 emperor had signed his copy of the
 treaty. The French foreign office at
 once got busy and notified its minister
 at Tokyo, who nearly sprained his ankle
 telling the great news to the
 Japanese foreign office.

And the whole bunch knew it all
 the time.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burps all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.
