HONOR FOR THE FRENCH PRESIDENT

Spanish Capital Ready to Receive Loubet.

VISIT HAS SIGNIFICANCE FOR EUROPEAN POLITICIANS

Rouvier to Accompany His Chief on Return of King Alfonso's Ex-citing Call in Paris.

Madrid, Oct. 21.—This city is superbly decorated in honor of President Loubet who will arrive here on Monday when the French chief magistrate returns King Alfonso's visit to France. The meeting of the two rulers will be the occasion for a notable demonstration. Business will practically be suspended for a week. The Cortes has prorogued its sittings from today to October 27, and all classes, including Radicals, Republicans and Socialists are uniting to welcome the French president. Considerable political significance is attached to the visit, owing to the recent Franco-Spanish agreement and the reciprocation of the two countries relative to Morocco. Premier Rouvier's accompanying M. Loubet will give the trip a distinctly political aspect.

In Madrid the houses are covered with bunting, especially along the routes the president will follow, the public edifices are lavishly decorated with the flags of the French and Spanish governments, and at night they will be brilliantly illuminated. The festivities comprise banquets, gala performances of the opera, a shooting party and a military review, the program concluding with a bull fight in which the most noted toreros in Spain will participate.

SULTAN LOSES CONTROL OF MOROCCO TO POWERS

Paris, Oct. 21.—Information has been received here that Count von Tattenbach-Aaskold, German minister at Fez, and M. St. René Taillandier, French minister at the same capital, are about to depart together from Fez. This marks the practical termination of the sultan's direct control of Moroccan affairs and the beginning of the powers' assumption of authority by means of the international conference. The Franco-Spanish accord stipulated that both ministers should withdraw, but their actual departure closes the sultan's opportunity for further communication directly with the government through the ministers. The result is not calculated to fulfill Morocco's hopes, which were roused to a high pitch by Emperor William's visit to Tangier and the assurance of German protection. Reports from Fez show that the sultan has now recognized that the international conference subjects Morocco practically to the same foreign control as the French program. Therefore, he is deeply disappointed to see the ministers depart, and Morocco's future pass out of his hands.

More Time for Venezuela. The officials say that Premier Rouvier's departure for Madrid tomorrow with President Loubet for a ten days visit to Spain, indicates that no change in the Venezuelan situation is likely to occur in the near future. All now depends on President Loubet's willingness to withdraw his offensive action against M. Taigny, the French charge d'affaires at Caracas, and considerable time will be given him before instructions are sent to the squadron now gathered at Fort de France, Island of Martinique. When this offense is redressed the French cable company expect no difficulty in adjusting their compensation for the seized cable lines.

RUSSIAN RAILROAD MEN ON STRIKE

GENERAL TIE-UP OF ALL LINES IN THE EMPIRE PREDICTED.

St. Petersburg, Oct. 21.—The strike of railroad employes assumed a serious aspect today when, with the three great trunk lines out of Moscow completely tied up and other Moscow roads embarrassed, trains were stopped on the branch road from Nizhni Novgorod. The Pan-Russian union of railway employes has issued a call for a general strike on all railroads of Russia. The extent to which the call will be obeyed remains to be seen, as the union is of recent origin and its strength as yet an unknown quantity, but up to midnight no additional strikes have been reported.

SOME SLAUGHTER IN THE EAST INDIES

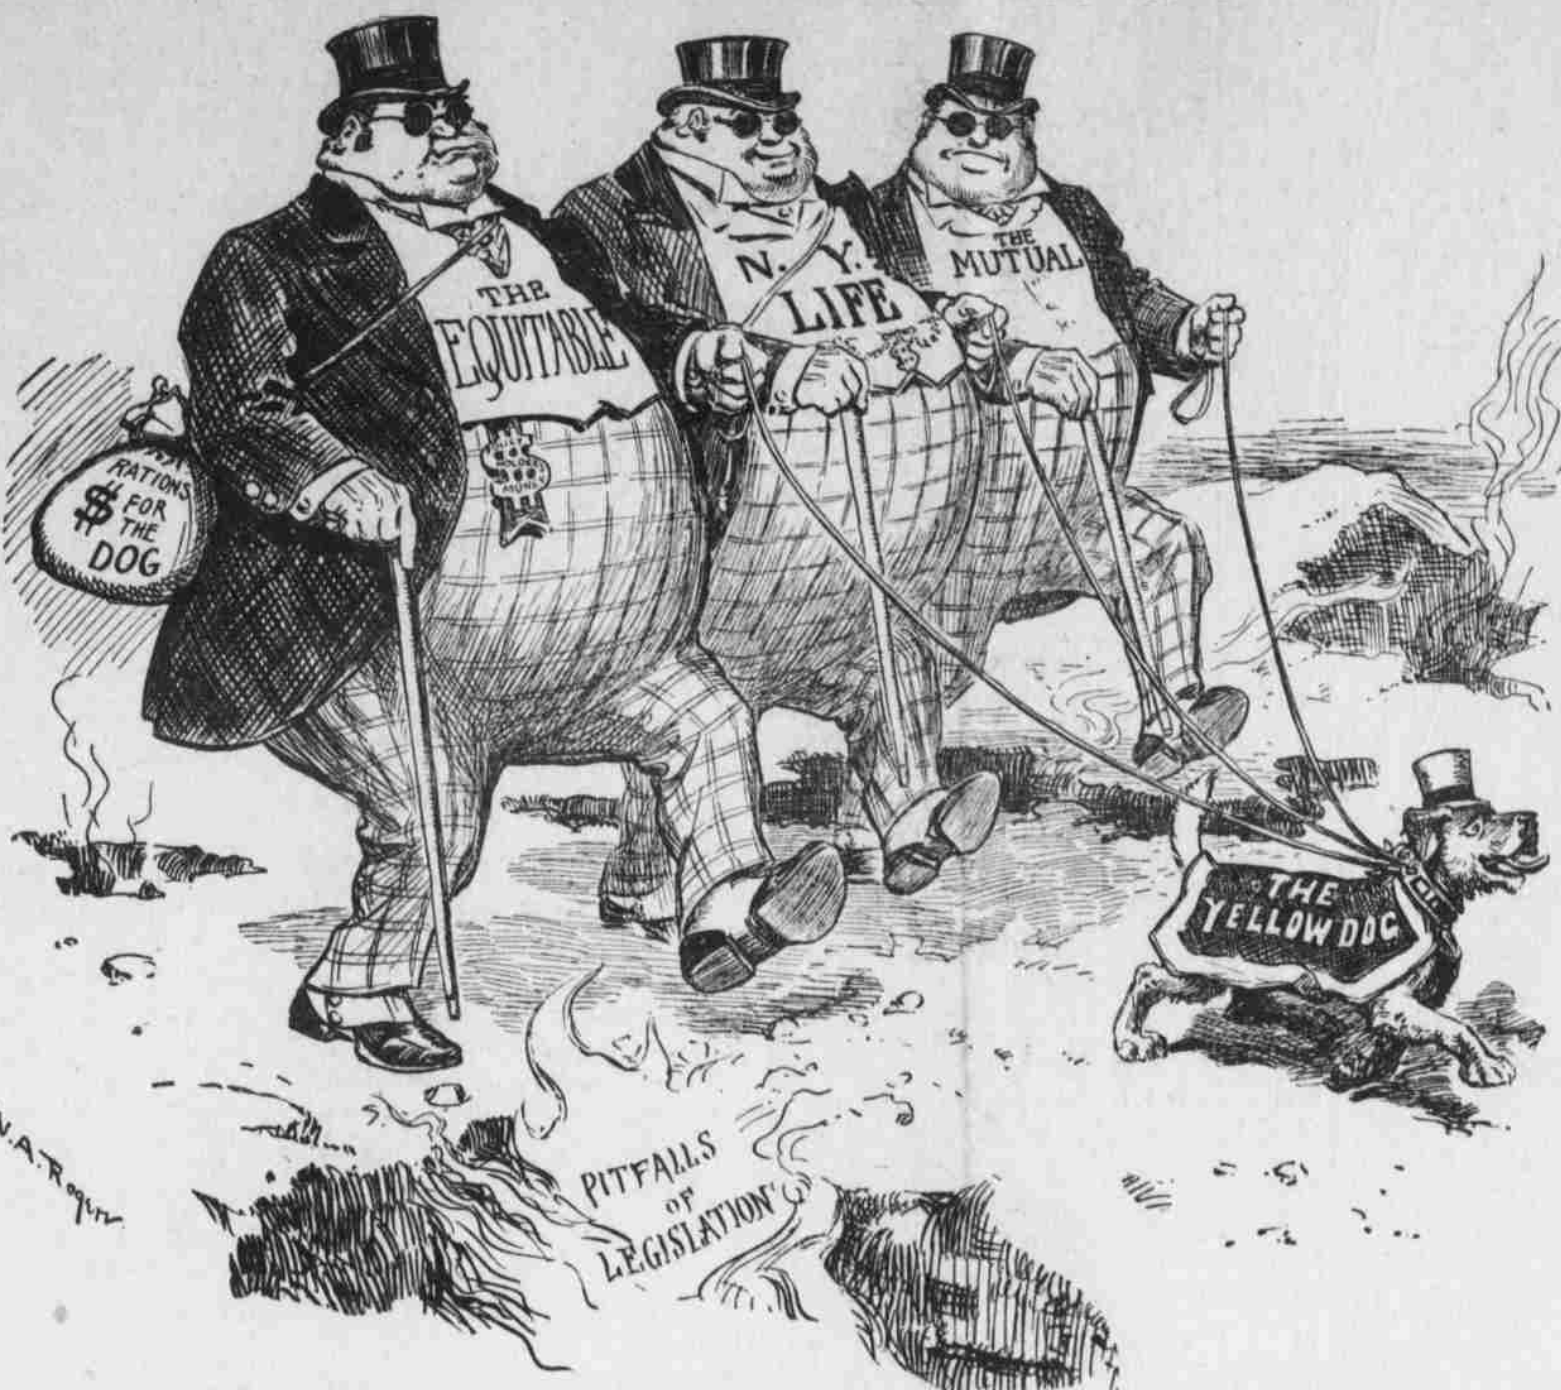

FIFTY NATIVES AND SEVEN DUTCH KILLED IN GOWA COUNTRY.

The Hague, Oct. 21.—The governor of the Dutch East Indies telegraphs that the troops have attacked the rebels in the Gowa country. Fifty natives were killed and seven Dutch troops lost seven men killed.

Mining Promoter Pinched.

Boston, Mass., Oct. 21.—Dr. William Brown, secretary of the North Platte Copper Mining and Smelting company of Douglas, Wyoming, was arrested in this city today on a warrant charging him with being a fugitive from justice from Philadelphia. Brown was indicted in that city October 2nd on a charge of larceny in connection with the financial affairs of the company which was incorporated at Douglas in June, 1901. Receivership proceedings have been instituted in this city, Philadelphia and Douglas.

THEY ARE BLIND BUT THE DOG ISN'T

—From the New York Herald.

NEW ORLEANS TO GIVE THANKS FOR PASSING OF FEVER

Scourge Now Known to Have Been Conquered.

TREMENDOUS DEMONSTRATION PLANNED FOR ROOSEVELT

New Orleans, La., Oct. 21.—The fever report to 6 p. m.: New cases, 7. Total, 3,359. Deaths, none. Total, 432. New fecal, 2. Under treatment, 92. Discharged, 2,832.

Though Dr. White would confirm the statement, it was generally reported today that practically the whole force employed by the marine hospital service here would be honorably discharged within the next week or ten days, in view of the practical extinction of yellow fever in New Orleans. There seems to be a general desire to have all the service remain here until the president's arrival, in order that they may participate in a formal presentation of the federal fever fighters to the president, an event which it has been arranged will take place in the city hall. The emergency hospital was finally closed today.

A Thanksgiving service, marking the close of the fever fight, is being arranged to take place at Trinity church on Sunday next. Mayor Behrman today issued a proclamation in connection with the visit of President Roosevelt, asking all business houses to close during the presence of the distinguished visitor, in order that the whole community may have the opportunity of manifesting its appreciation of the service rendered by the president in the fever fight.

LITTLE ENTHUSIASM FOR RATE REGULATION

BUT OHIO PEOPLE CHEERED WHEN TAFT RESTORED HERRICK.

Akron, O., Oct. 21.—An audience of 2,000 people gathered today to hear Secretary Taft's speech on the railroad rate discrimination question and state issues. The railroad question was not received with great enthusiasm, but his endorsement of Herrick was frequently applauded.

The secretary's throat was affected, causing him to speak with difficulty. Senator Dick and Congressman W. Aubrey Thomas were on the platform with a large newly organized Taft club of this city.

SIMPSON IS SOMEWHAT IMPROVED

FAMILY PHYSICIAN SAYS THERE IS REASON TO EXPECT A RALLY.

Wichita, Kas., Oct. 21.—Former Congressman Jerry Simpson rallied from a severe sinking spell this afternoon and at 10 o'clock tonight showed marked improvement. He is able to take light liquid nourishment. Dr. Galloway, his former family physician, who is here from New Mexico, does not take a gloomy view of matters, but at the same time is not predicting permanent recovery.

TAWNEY SINGS THE SAME OLD SONG OF THE MANANA SIREN

Wait a Few Years Says the Congressman.

YOU DESERVE STATEHOOD—SURE; BUT YOU WON'T GET IT

Kansas City, Mo., Oct. 21.—Congressman J. A. Tawney, of Minnesota, who passed through Kansas City last night en route east at the head of the congressional party that has been studying the statehood question in the west, is quoted as saying: "Conditions are not yet ripe for the admission of either Arizona or New Mexico, or both of the territories together. I believe that the wisest move for those two territories at this time would be to cease agitating the statehood question. Those territories are not yet ready for it and there is no talk about it. There is nothing wrong with the people or natural conditions of New Mexico or Arizona. Both are enjoying great prosperity and it is for this reason that they are not ready for statehood. I believe that the federal government is giving them justice in every particular. Further admission to statehood would unsettle the federal government. Capital is not going in there while the political conditions are in a transitory state. What the country needs out there is settled conditions for a few years at least. How many years I would not venture to predict, though, within the next five years, unless something unforeseen happens, both the territories will make monstrous strides. Another thing I am impressed with is the utter impracticability of making a single commonwealth of those two large territories. I can assure you that no move will be made towards statehood for Arizona, New Mexico or either of the territories until the session of congress. That has been decided upon."

Bank Examiner Cunningham said that he had no knowledge of the statement of the dead cashier alleged to have been discovered among the bank's papers, and asserted that there is no paper in the bank bearing the name of Senator Penrose, as maker, endorser or guarantor.

BURLINGTON WILL BUILD TO SALT LAKE

NEW LINE TO BE STARTED AT ONCE FROM BROKEN BOW AND BRIDGEPORT.

Omaha, Neb., Oct. 21.—General Manager Holdredge, of the Burlington road, today officially announced that the Burlington will at once begin the construction of 800 miles of road to extend its lines to Salt Lake City. The line will start from a point near Broken Bow, Neb., and run to Bridgeport, Neb., where it will connect with the Guernsey, Wyo., line. Work on the line from Guernsey to Salt Lake City will start simultaneously with that on the Broken Bow-Bridgeport out-of.

Amended articles of the Burlington road were filed with the county clerk by General Manager Holdredge today to cover the new extension which will be part of the Nebraska, Wyoming and Western railroad, which is an integral part of the Burlington system. The branch from Bridgeport eastward to the main line will be about 250 miles in length, and the line from Guernsey to Salt Lake City 550 miles long.

Schmidlap Jury Discharged.

Denver, Colo., Oct. 21.—The jury in the case of Mrs. Helen Schmidlap, charged with the murder of her husband, failed to reach an agreement and was discharged this morning, after considering the case since Thursday afternoon. It is said they stood eight for acquittal and four for murder in the first degree. A new trial was set for the 15th of next month.

OFFICERS OF ENTERPRISE BANK MAY BE PROSECUTED

Criminal Action Expected Upon Charge of Embezzlement—Shortage Said to Have Passed a Million. Three Roads Want Santa Fe Central.

By Associated Press. Pittsburg, Pa., Oct. 21.—It was stated tonight that information will be made on Tuesday against the officers and directors of the Enterprise National bank of Allegheny, charging them with embezzlement in having received money from depositors when it is alleged that they knew the bank was insolvent. This action will be brought, it is said under the amendment to the act of 1863, approved on May 9, 1889, which provides that "any banker, broker or officer of any trust or savings institution, state or national bank who shall take or receive money from a depositor with a knowledge that he, they or the bank at the time is insolvent, shall be guilty of embezzlement and shall be punished by a fine in double the amount so received, and imprisoned from one to three years in the penitentiary."

Such action would result in all papers, names and details of the transactions of the bank being produced in open court. Three Lines Want the Central. Negotiations are under way for the sale of the Santa Fe Central railroad by its Pittsburg owners and among the probable purchasers named are the three roads with which it has connections, the Denver and Rio Grande, the Rock Island and the Santa Fe proper.

A story that application would be made for a receiver of the Santa Fe Central was denied today by its president, W. H. Andrews.

The leader is authority for the statement that the politicians concerned are lifting their notes through the clearing house representative of the Enterprise bank, in order to conceal the identity of the note makers. S. P. Kohn, a stockholder of the Enterprise said that the stockholders will make up any deficiency and that depositors will be paid in full.

Bank Examiner Cunningham said that he had no knowledge of the statement of the dead cashier alleged to have been discovered among the bank's papers, and asserted that there is no paper in the bank bearing the name of Senator Penrose, as maker, endorser or guarantor.

UNKNOWN MAN HORRIBLY MANGLED BY SANTA FE TRAIN

The body of an unknown man, horribly mangled, was found at 2 o'clock this morning, lying on No. 1 Santa Fe track in the river yards just below the coal chutes. The body had evidently been rolled by the train, or several trains, for a distance of fifty feet, and life had been extinct probably half an hour when the body of flesh and bone was discovered.

Under the body was found a hasty examination failed to disclose any marks by which the man can be identified. He wore no coat and his blue overalls, shirt and vest contained nothing but a few matches and cigarette papers. Both legs had been crushed off above the knee, all of the bones in the body were broken and only the right arm seems to have escaped laceration. Several shots were heard in the yards a few moments before the body was found and at first it was thought that foul play had occurred. The examination, however, shows no marks other than those made by the train. An inquest will be held this morning at 10 o'clock before Judge George Craig.

TWENTY-ONE KILLED BY LAKE STORM

Number of Tempest's Victims Increasing.

TOTAL OF FORTY-TWO VESSELS TORN TO PIECES

News of More Grim Tragedies Coming in Hourly as Result of Friday's Furious Hurricane Over Lake Erie.

Chicago, Oct. 21.—Later returns from the storm which swept the Great Lakes for thirty-six hours, subsiding this morning, increase the known death list to 21 and the number of vessels either lost or damaged to 42. Several small craft are missing, and it is feared that the death list will grow.

FIGHT MEN GO DOWN WITH THE BARGE TASMANIA

Cleveland, O., Oct. 21.—The steamer Bulgaria came into port this afternoon bringing news of the loss of the barge Tasmania off Pelee Island in Lake Erie during Friday's storm. The Tasmania sank at 5 a. m. Friday with her entire crew of eight men.

SIBERIA GOES TO BITS HER CREW TAKEN OFF

Buffalo, N. Y., Oct. 21.—The steamer Siberia, of Cleveland, founders on the Canadian shore off Lake Erie this afternoon.

Captain Benham and the entire crew were rescued and brought to Buffalo tonight by the steamer J. H. Wade. The Siberia, buffeted by the terrific gale which raged yesterday and last night sprang a leak early today while Captain Benham was trying to get under the lee of Long Point. The rush of water broke through the seams in her side and the tons of water shipped as the steamer stuck her nose into the huge combers finally put out the fires beneath the boilers and Captain Benham and his crew were forced to take to the life boats when the vessel's decks were awash. The steamer sank in about 25 feet of water, her upper works showing about two feet above the surface.

BRITISH OFFICERS STILL IN CAPTIVITY

PATHFINDER RETURNS FROM MISSION UNABLE TO MEET BANDIT'S TERMS.

Tangier, Oct. 21.—The negotiations for the liberation of the British officers, Captain Crowther and Lieutenant Hutton, who are held by Moroccan tribesmen have been broken off. The scout ship, Pathfinder, which sailed Friday night in order to exchange a brother of Valiente, the bandit, for the two officers, has returned here from Tetan Bay. The bandit's brother is still on the Pathfinder. It is stated that the arrival of the Pathfinder, Valiente made demands which the officer in command of the vessel was unable to concede with authority. The nature of the fresh demands is withheld by the authorities.

FIVE MEN KILLED IN UTAH MINE

CAVING OF STOPE IN HIGHLAND BOY WORKINGS RUINED MINERS.

Salt Lake City, Utah, Oct. 21.—By the caving of a stope in the Highland Boy copper mine at Bingham, Utah today, five men were instantly killed. The bodies have not yet been recovered and cannot be reached for several hours. The dead: C. L. JOHNSON, CHARLES PETERSON, MIKE PERRY, TONY RIFLE, JAMES SONNERIVA.

The last three named are foreigners, either Greeks or Italians. The ground at Bingham is generally regarded as treacherous, but the direct cause of today's accident is not known.

NOW THINK CUNLIFFE BURNED MONEY

BRIDGEPORT POLICE INCLINED TO BELIEVE EXPRESS STORY.

Bridgeport, Conn., Oct. 21.—The Bridgeport police believe they have accounted satisfactorily for all the \$101,000 taken by Edward G. Cunliffe from the Adams Express company in Pittsburg, and brought by him to this city. In the opinion of Detective Captain Arnold, based on his investigations today, Cunliffe told the truth after his arrest, when he declared he burned a part of the money stolen, fearing that its possession would lead to discovery.

Cunliffe in Sweet Box.

Pittsburg, Oct. 21.—Edward G. Cunliffe, who committed the \$101,000 theft from the Adams Express company here, was taken to the local office of the Pinkerton agency and put through the sweating process until 4:30 this morning. Whether or not he told where the missing money is, could not be learned. Cunliffe told the reporters the Pinkertons had put him through a terrible packing lasting eight hours. When seen in jail today he said he was tired out.

Missouri Pacific Train Wrecked.

Fort Scott, Kans., Oct. 21.—The westbound Missouri Pacific passenger train No. 46, carrying cars from Kansas City and St. Louis, was wrecked five miles west of Fort Scott today from a broken rail. Fully thirty passengers were injured, but no one was killed.

PRESIDENT TALKS OF THE CANAL

American Resolution and Ability Will Win.

TELLS PEOPLE OF FLORIDA NOT TO BECOME DISCOURAGED

Beautiful Weather and Enormous Crowd Greet Roosevelt on His First Day in the Gulf States.

St. Augustine, Fla., Oct. 21.—President Roosevelt tonight is the guest of the oldest city in the United States, and St. Augustine has put on gala attire to welcome him. From the station to the Ponce de Leon hotel the streets were almost as bright as day with colored electric lights and red fire. The president's train arrived at 6 o'clock. He was met by a reception committee and driven to the hotel where he remained for about half an hour. On the way to the hotel the president was driven through the city square, where he was presented by the school children with a floral key to the city. The route of the drive was crowded with people and the president was greeted with constant cheering. The president was driven to the Hotel Ponce de Leon, where he will occupy an elegant suite of rooms while here.

PRESIDENT GREETED BY GREAT CROWD IN JACKSONVILLE

Jacksonville, Fla., Oct. 21.—The reception of President Roosevelt today was a hearty one. Thousands of people thronged the streets of the line of march and the president showed in his manner his appreciation of the good will that was manifested on all sides. So far as comfort was concerned the day was ideal. A cool north wind had begun to blow the night before his arrival and the temperature the next morning could call too warm or too cold.

It prevented, however, the delivery of his principal speech in the open air before the semicircular time square was thought that the wind would make it impossible for his voice to reach the assembled crowds. The speech was delivered at the Board of Trade auditorium, where it was listened to with a great interest and frequent applause.

The President's Speech. The president said: Here in Florida, the first of the gulf states which I have visited on this trip, I wish to say a special word about the Panama canal. I believe that the canal will be of great benefit to all our people, but most of all to the states of the south Atlantic, the gulf and the Pacific slope. When completed the canal will stand as a monument to this nation; for it will be the greatest engineering feat yet accomplished in the world. It will be a good thing for the world, when the canal is built, for the people of the isthmus, and of the northern portions of South America in particular. Because of our special interest in it and because of the position we occupy in the world, it is a matter of special pride to us that our nation, the American nation, should have undertaken the performance of this world duty. A body of the world's great engineers, the world, both American and foreign, has been summoned to advise as to the exact type of canal which should be built. At no distant date I hope to be able to announce what their advice is, and also the action taken on their advice. Meanwhile the work is already well under way, and has advanced sufficiently far to enable me to announce with some confidence that it will be accomplished, and probably at rather less expense than was anticipated. But upon the last point, as well as upon the question of time, no positive statement can be made until the report of the commission of engineers as to the exact type of canal has been received. The work is as difficult as it is important; and it is of course inadvisable that the time is time difficulties will occur and checks be encountered. Whenever such is the case the men of little faith at home will lose that little faith and the critics who confound hysterical and unwise action with after the kind. But our people as a whole possess not only faith, but resolution, and are of too virile fibre to be swept one way or the other by mere sensationalism. No check that may come will be of more than trifling and passing consequence, will inflict any permanent damage or cause any serious delay. The work can be done, is being done and will be done. What has already been accomplished is a guarantee as to the future.

When any such work is undertaken there are always many mere adventurers who flock to where it is going on, and many men who think they are adventurers, but who are in reality either weak or timid, follow their footsteps. Some of the first class will now and then cause trouble in one way or another. But every care will be taken to detect any misdeed on their part and to punish them as soon as the misdeed is detected. For the second class they will cause trouble chiefly by losing heart, returning home, or writing home, and raising a cry that they are not happy and that the conditions of life are not easy. But the work is not being done as they think it ought to be done. Now these men stand just as the stragglers or laggards stand who are ever to be found in the rear of even a victorious army. The veterans of the civil war who are here present will tell you that the very rear of an army, even when it is victorious, is apt to look and behave as though victory were defeat. And just the same thing is true in any great enterprise in civil life; there are always weaklings who get trampled down or lose heart, and there are always people who listen to their complaints. They amount to nothing one way or the other so far as achieving results is concerned; and their complaints and outcries never detain us. I call your attention specifically to

The matter of health on the isthmus. The climate was supposed to be deadly, and yellow fever, in special, was supposed to be epidemic. Yet since we have assumed control there has been far less yellow fever than in our own country. The administration is steadily becoming better and more effective, from the hygienic as well as from every other standpoint. The work of building the canal is a great American work, in which the whole American people are interested. It has nothing to do with parties or partisanship, and is being carried on with absolute disregard to all merely political considerations, with regard only to efficiency, honesty and economy.

The digging of the canal, will of course, greatly increase our interest in the Caribbean sea. It will be our duty to police the canal, both in the interest of other nations and in our own interest. To do this it is, of course, indispensable to have an efficient navy (and I am happy to say that we are on our way toward having one) and also to possess, as we already possess, certain strategic points to control the approach to the canal. In addition it is urgently necessary that in the interest of the countries within or bordering on the Caribbean sea should be able to secure fair dealing and orderly liberty within their own borders. I need not say that the United States not only has no purpose of aggression upon any republic, continental or insular, to the south of us, but has the friendliest feeling toward them, and desires nothing save their progress and prosperity. We do not wish another foot of territory; and I think our conduct toward Cuba is a guaranty that this is our genuine attitude toward all our sister republics. If ever we should have to interfere in the affairs of any of our neighbors it would only be when we found it impossible longer to refrain from doing so without serious damage following; and even in such case it would only be with the sincere purpose to make our interference beneficial to the people concerned. Of course, occupying the position we do, occasions may now and then arise when we cannot refrain from such interference, save under the penalty of seeing some other strong nation undertake the duty which we neglect; and such neglect would be unfortunate from more than one standpoint. Whenever possible we should gladly give any aid we can to a weaker sister republic which is endeavoring to achieve stability and prosperity. It is an ungenerous thing for us to refuse such aid; and it is foolish not to give it in a way that will make it really effective, and therefore of direct benefit to the people concerned—and of indirect benefit to us, simply because it is a benefit to them. In the last resort and only in the last resort it may occasionally be necessary to interfere by exercising what is virtually an international police power, if only to avoid seeing some European power forced to exercise it. In short, while we must interfere always cautiously, and never wantonly; yet, on rare occasions, where the need is great, it may be necessary to interfere. We are willing to confess ourselves too feeble for the task we have undertaken, and to avow that we are willing to surrender it into stronger hands, and such confession and avowal I know my countrymen will well believe that they will ever make.

DISTINGUISHED MEN MEET MR. MEYER

AMBASSADOR TO RUSSIA FED BY LEADERS OF MASSACHUSETTS AFFAIRS.

Boston, Oct. 21.—George von L. Meyer, United States ambassador to Russia, was given a reception at the Hotel Brunswick this afternoon by the Essex club, of which he is president. Among the guests and speakers were Lieutenant Governor Curtis Guild, Jr., and Edwin S. Erwin, the republican nominees for governor, and Lieutenant Governor and Senator Henry Cabot Lodge.

ARMOURS ARE QUITE OBLIGING

WILLING THEIR PRESIDENT SHALL TESTIFY IN PRIVATE CAR LINE HEARINGS.

Washington, Oct. 21.—The interstate commerce commission was unable to conclude its hearing of the private car line case today, although it was announced that the test of witnesses had been exhausted. Counsel for the Armour car lines endeavored to get an order closing the case, in which hearings have been held, but Chairman Knapp said the commission might require the attendance of all of the cases were postponed until November 1, the date fixed for the hearings in the case of the two trans-continental lines named in the proceedings. The attorneys for the Armour lines stated that they would not put on any witnesses for the defense, but they tendered the services of the president of their lines if the commission cared to interrogate him.

SEATTLE NEEDS REFORM.

Baptist Minister Declares That It Is Worst City in America, Exclusive of San Francisco.

Seattle, Wash., Oct. 21.—In a sensational demand upon the municipal authorities for reform, Rev. John M. Dean, pastor of the Baptist Tabernacle, serves this written statement on the council:

"With the single exception of depraved San Francisco, so far as my observation of cities at home and abroad informs me, Seattle furnishes to the American nation the worst spectacle of unbridled vice in any city of its size. I refer, mainly, to the various forms of licentiousness. Gambling is suppressed in a half-hearted way, because the selfish and covetous business men of the city do not want their clerks tempted to embezzlement, because the selfish and covetous business men, and your honorable body, however, seem indifferent to the awful fault to Seattle's womanhood and the maelstrom of temptation on Seattle's main thoroughfare known as the restricted district."

Brewery Goes Broke.

Kansas City, Oct. 21.—Upon petition of its creditors, E. J. Becker, of Kansas City, was today appointed receiver for the Imperial Brewing company, of this city. The company owes about \$225,000. Its debts include \$250,000 of first mortgage bonds, \$125,000 of second mortgage bonds and about \$200,000 in floating debts.

ABOUT PRINTING THE NEWS

The fair minded man will admit that the Morning Journal rarely blows its own horn. Sometimes, however, it is forced upon us, other people blow it for us, and it is necessary for us to acknowledge the compliment.

For instance, the Daily Citizen, a conservative afternoon newspaper, published in Albuquerque, in its issue of last night makes the following state:

"Through erratic and unfounded reports of the affair by the Morning Journal, in an attempt to be sensational, the truth of the affair gradually becomes known."

In this Enterprise bank matter, for instance, the Daily Citizen has gone so far in its extreme conservatism as to present its readers with special dispatches from Washington and Pittsburgh to the Santa Fe New Mexican, giving these thirty-six hour old dispatches preference over live news of the day which it could have got from the scene of the affair, had it known how.

As conservatism this is excellent, as news it is a trifle questionable. We do not desire to find fault with the Daily Citizen. It is an excellent specimen of that rare old journalism which flourished in the days of the revolution, when the news was carried by sailing vessels and the pony express.

For our own part, however, we prefer modern methods of obtaining news and modern methods in printing news. We believe the people of Albuquerque and New Mexico want the news at first hand and as soon as it happens. It is the aim of the Morning Journal to get all the news of interest to New Mexico, and to give it as soon as we get it. If this is sensationalism then we will have to stand for the charge. It is quite certain that our low-gear evening contemporary will never be charged with sensationalism on this ground.

ALBUQUERQUE TO HAVE CHAMPION FOOTBALL ELEVEN

Enthusiasts to Meet at Traction Park Today.

VARSITY DEFEATS CENTRAL HIGH SCHOOL FIFTEEN TO NOTHING

It is quite likely that in a few weeks Albuquerque will have a crack football team composed of some of the best material in the territory, and that some exciting games will be arranged with other teams in this and neighboring cities. A meeting of all who are interested in forming a first class eleven is called for this morning at 10 o'clock at Traction park. Every man who can play football or who has played football is urged to be present. Those who are interested in the formation of a strong team have a good nucleus to work on in the persons of several excellent local players, who have volunteered to join the new eleven. Among these are: Tolman Anderson, Seattle, Brown and Stamm, all experienced players. The idea is, however, to bring out all the available material in the city and select the pick of the talent yet down on practice and produce the strongest team in the territory. It can easily be done if everyone will turn out, as there are plenty of old-time players in Albuquerque who have the science and the muscle.

At Traction park this morning some preliminary practice will be indulged in, snapping the ball, etc., and it is hoped that enough will be picked to organize a strong eleven. Raton and Las Vegas have both well organized teams. The employees of the American Lumber company have a team that has been busily practicing for some weeks, and with whom a game can be arranged. The boys at the Agricultural college at Mesilla park have a strong aggregation, and the University and High school are both in the game. Yesterday's game at Traction park, after noon, the University eleven defeated that from the Central High school by the score of 15 to 0. Full halves, however, were not played, the last half being only a few minutes. Head, Allen, Clancy and Bryan for the University, gained the most ground, Clancy and Bryan each making a run of 20 yards. The downs were made by Head and Allen. Both sides put up a fairly good game, but the kicking was poor. The line-up was as follows:

University—Head, full back; Allen, E. H.; Mayo, L. H.; Martin, Q. B.; Silva, center; Wells, R. G.; Smith, captain, and L. G.; Crawford, R. T.; McGuire, L. T.; Clancy, R. E.; Bryan, L. E. High School—Decker, captain and full back; Haines, Lempe and Benjamin, quarter; W. W. W. center; Gray, R. G.; Alfred, L. G.; G. Wickham, R. T.; R. Wickham; R. E. Galle; L. E. Jones.

FORTY-FIVE DEAD AND HUNDREDS HURT

STARTLING RECORD OF FOOTBALL'S "UNNECESSARY ROUGHNESS" FOR FIVE YEARS.

Forty-five deaths and hundreds of serious injuries is the record of football for the last five years, according to the men who propose to add the "unnecessary roughness" from the game. Hardly a single game has been played during which it has not been necessary to carry one or more of the players from the field. In almost every instance the death or injury was due directly to the heavy mass plays against which President Roosevelt and the country at large are protesting so vigorously.

To chronicle all the injuries would require the use of thousands of names, and even then none would be included where the hurt was of a less serious character than the breaking of a collar bone. The mere spraining of an ankle is not considered of sufficient importance to interest anybody except the individual player, and perhaps his parents.

But in the big college games alone the list of injuries is large enough to prove interesting, showing as it does, ten legs and fourteen collar bones broken in four years of play for a brief six weeks each, to say nothing of four skulls fractured, five spine injured, four shoulders dislocated and a couple

of broken noses. One player got his neck broken without its causing his death.

Of the forty-five who gave their lives to football, nearly every death can be traced to the "unnecessary roughness" against which Mr. Roosevelt has protested. Picked up unconscious from beneath a mass of other players, it was generally found that the victim had been kicked in the head or stomach, so as to cause internal injuries or contusion of the brain, which sooner or later ended life.

Sixteen died as a result of internal injuries, four from broken necks, six from concussion of the brain, eight from broken backs, three from paralysis, two from heart failure, one from a look, one from blood poisoning due to a cut received in a game, one from hemorrhages and two from meningitis, induced by spinal injuries suffered in play.

Eckersall Wins for Chicago. Madison, Wis., Oct. 21.—Walter Eckersall, Chicago's quarterback today for the third time brought victory for the University of Chicago football eleven over Wisconsin by a score of 4 to 0.

West Point Beaten by Harvard. West Point, N. Y., Oct. 21.—Harvard defeated West Point's football eleven today by a score of 6 to 0, and the army team gained nearly twice as much ground as their opponents.

TO FORM NEW MEXICO ORATORICAL SOCIETY

FIRST ANNUAL CONTEST WILL BE HELD HERE ON DECEMBER 27.

Arrangements have been made to have an oratorical contest held in this city on December 27 next, during the meeting of the Territorial Educational association. The contest will be participated in by representatives of high schools and preparatory institutions in all parts of the territory. At this time a New Mexico oratorical association will be formed and contests will be held annually. The following institutions have been invited to hold preliminaries and select representatives to the contest here:

High schools of Roswell, Carlsbad, Gallup, Deming, Silver City, Arteson, Farmington, Las Cruces, Socorro, Raton, Las Vegas, Clayton, Alamogordo, Santa Fe and Albuquerque, and the preparatory schools of the New Mexico Military Institute at Roswell; the College of Agriculture and Mechanical Arts at Mesilla Park; School of Mines, Socorro; Silver City Normal school and the University of New Mexico.

Sick headache is caused by a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Call For Bernalillo County Bonds.

The county commissioners of the county of Bernalillo, in the Territory of New Mexico, in the exercise of the option given by law, hereby give notice that the funding bonds dated July 1st, 1895, issued in two series, known as A and B respectively, consisting of 102 bonds of \$500 each, numbered 1 to 102 both inclusive, of series "A" and 139 bonds of \$100 each numbered 1 to 139 both inclusive of series "B" which are payable at the option of said commissioners ten years after the date thereof, must be presented for payment at the Chemical National Bank in the city of New York or at the office of N. W. Harris & Co., in the city of Chicago, Illinois, on or before the fifteenth day of November, 1905, and that interest thereon will cease after said date.

(Signed) ALFRED GRUNSFELD, Chairman.

Clerk.

30,000 CARS OF ORANGES COMING FROM CALIFORNIA

According to Estimates of Railroads.

SOUTHERN PACIFIC AND SANTA FE DOING SOME FIGURING

The Southern Pacific and Santa Fe railroads have practically completed their estimates on the orange crop in southern California, and from the railroad figures thus far at hand the crop for the coming season, commencing November 1, will be 30,000 cars in the seven southern counties of California, or practically the same as last year's crop.

Shipments of the season of 1904-5, just now drawing to a close, will amount to practically 20,000 cars, the totals footing but a few cars beneath that figure.

The report of competent judges who have been making up the estimates for the railroads, states that the old orchards will not produce quite as heavy this year as last, but the new orchards coming into bearing and the increased size of the trees will, in their estimation, bring the total up to about the same figure as last year.

The Southern Pacific has made an estimate of the crop for San Bernardino and Riverside counties, placing the figures at 16,000 cars, which is practically the same as the season just now drawing to a close. Thus it will be seen that these two counties produce more than half the oranges grown in the seven southern counties and fully half of the oranges grown in the entire state.

The crop in the northern counties is estimated at about 2,000 cars in addition to the southern crop, making the total estimate for the coming season in the entire state about 22,000 cars.

CONDUCTORS NOT FOND OF RECORD BREAKING TRAINS

The introduction of record breaking trains into the passenger service of a railroad, is not received with unmitigated joy by the men who are called upon to officiate in any capacity in connection with those trains.

"Not alone because of the danger connected with the rapid speed of the trains," says a prominent railroad conductor, "but because of the difficulty of keeping up the schedule for day after day and month after month. The fast train is the one which must get through on time if possible, and when it happens to lose a little time it means an extensive derangement of the entire business of the road on which it is being operated."

This is all the more serious as only roads which are doing a large business can afford to bother with record-breaking trains, and every time their record breakers are delayed it means a serious delay all along the line for more serious than is the case with ordinary every-day trains where one through passenger train is about as good as another, and where the whole road is not compelled to be tied up, till the star train gets through.

Then again, there are special conditions necessary in the way of road-bed and equipment before a road can successfully run trains at fifty miles an hour and faster, and a number of roads in the country are making the attempt without the necessary track and equipment. The fellows who run the trains on this class of roads are a very unhappy bunch, and conductors, engineers and firemen, conductors and brakemen, superintendents and general managers are under a strain all the time, because they know that neither their road nor the rolling stock is in any shape to attempt to make a single experimental fast run, let alone to operate day after day a high speed train in each direction, which only a first class track and a first class equipment can stand. They know that some day the crash will come, and they get many premature gray hairs while thinking about and fearing that crash.

SEAL CLERK'S NARROW ESCAPE FROM DEATH

Henry E. Miller, seal and checking clerk in the local yards of the Santa Fe, had a narrow escape yesterday morning from instant death, and that he is alive today he may thank to good fortune, says the San Bernardino Sun.

As the special train bearing the equipment for Paine's Last Days of Pompeii was pulling into the yards Miller went out to check the train. He started to climb on the front end of the first car. He missed his footing and fell, narrowly missing going under the wheels and being ground to death.

In the fall his head struck on the oil box on the end of the journal, and he was stunned so that it was several minutes before he recovered consciousness.

Dr. J. N. Boyls was summoned and attended the young man's injuries. There was a large scalp wound in the back of the head, one leg was badly bruised and lacerated, and his back seriously wrenched. He will be laid up for several days, but his injuries are not expected to develop into a serious character.

Some Sensible Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Conductors Attention.

IVES, THE FLORIST.

DEATH PENALTY FOR MURDER OF WOMAN

LEIGH FOUND GUILTY OF HOMICIDE IN THE FIRST DEGREE.

The man named Leigh, who shot and killed Jennie Batters at the Gold Road mining camp in Mohave county, on Sunday, September 2, was found guilty of murder in the first degree, and the death penalty affixed by a jury of twelve men in the trial of the case before the district court in Kingman, after ten minutes' deliberation, says the Prescott Journal-Miner.

Leigh, who formerly lived in Jerome, was a very quarrelsome character. On several occasions, while in the vicinity of the mine, he threatened the lives of several of the reputable citizens of that city. The details of the crime for which the death penalty was imposed as near as can be learned, are that he went into a saloon at Gold Road in which Jennie Batters was at work and asked her for some money. Upon her refusal to give him the amount of money asked for he drew his gun and fired four shots into her body, one of which would have proved fatal. He then turned the gun upon himself, but the wound inflicted was only a scratch on the left side near the region of the heart.

TUCSON, ARIZONA. W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourself.

I hope to have the pleasure of meeting you here soon.

Very sincerely,

W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE

THE ECONOMIST

Albuquerque's Brightest and Busiest Store

Our Very Swell Dress Trimmings

It is doubtful if in any other western store can be found a collection of Dress Trimmings and Art Buttons so rarely beautiful and widely varied in effect, as we are showing in this section. New ideas in jet, spangles, pearls, iridescent, steel, silver, gold, in bands, edges, insertions, garnitures and reverses.

Buttons are in many entirely new and very artistic effects and are an important essential in embellishing the modish gown.

Prices have been made the smallest possible to induce a popular demand.

Our Velvet Section

There are reasons why this is such a busy place, and here they are:

Beautiful Chiffon Velvets so bright, soft and clinging. Twenty-five colors to select from. Price, per yard, \$1.25.

Black Costume or Cloaking Velvets, the heavy, wide kind, at \$1.50 and \$2 per yard.

Paon Velvets, mostly used for trimmings; one special quality at \$1.25 a yard.

Women's Neckwear

This week we will put on sale several hundred of new pieces of dainty and fashionable Neckwear, which has arrived during the past few days.

These include the latest effects in silk, chiffon, lace and washable materials; all in popular grades. Priced at 30c, 75c and \$1.00 each.

AN EXTRA SPECIAL

A large assortment of newest designs in Neckwear, splendid values at 35c and 40c. This week, on our center table, at your choice for 25c.

Moderately Priced Trimmed Hats

Made of new felts and silk velvets, shades of plum, Alice blue, etc.; so diversified are the styles, shapes and colors that we ask you to come and see for yourself. Priced at \$6.00, \$10.00 and \$12.00.

Bon Ton-Corsets-Royal Worcester

These Corsets work wonders with figures of every type, be they slender, medium or overly stout. The basic principle of the method is individuality. The Corset best suited to the individual figure, the Corset that develops beauty lines and corrects all defects of shape.

The Bon Ton is everything that a good Corset should be, with many exclusive features of its own. Least weight is combined with most strength. An absolutely flat front below the waist line is produced. It assures a slender tapering waist, and the correct straight front effect. It is perfectly hygienic. We fit all Corsets.

Priced from \$2.00 up.

Price ranges in Bon Ton Corsets—\$3.50, \$4.50, \$5.50, \$6.50, \$7.50 and \$9.00 each.

Royal Worcester Corsets, in all colors, at \$1.00, \$1.25, \$1.50, \$1.75, \$2.00 and \$2.50 each.

And at this season we always add new lines and new models in both styles. Consequently we have some lines which we are closing out to make room for the new goods, and if we have your size your money does double duty in this sale.

All broken lines of Bon Ton Corsets; colors black, grey and white; values up to \$7.00; your choice at \$1.50.

All broken lines of Royal Worcester Corsets; colors black, grey and white; values up to \$2.00; your choice at \$1.00.

specials

An odd lot of Corsets, made by the Royal Worcester Corset Company, amongst this lot are Corsets worth up to \$2.00; only small and large sizes left; if we have your size—your choice at 50c.

Children's Ferris Waists, made of jeans, regular 25c waists. Your choice at only 19c.

Dress Goods The New Attractive Weaves at Small Prices

These very desirable stylish fabrics will be found conveniently displayed in our main aisle for your choosing. It is not necessary here to look over a great quantity of undesirable fabrics before your wants are satisfactorily met. We are daily receiving new additions to our already large stock of Dress Goods in the way of new colors, new fads, etc. You are cordially invited to visit The Economist's Dress Goods Department—the largest in the territory—and see the splendid gathering of beautiful new dress materials.

Panama Cloth—We are showing in a very exclusive color line; it is full 50 inches wide; the best dust shedding weave, and just the proper weight. Priced at \$1.00 a yard.

Prunella Cloth—16-inch beautiful soft fabric a little lighter weight than broadcloth. It just fits in between the very thin fabrics and heavier tailor cloths. All the new colors. On sale at \$1.00 a yard.

New Cheviots—Full 46-inches wide; just the weight for a serviceable street costume; comes in all the latest colors for such gowns; at \$1.00.

Manish Tailor Suitings—Full 54 inches wide; just what you have been looking for, and they just came in; new grays and other mixtures. Choice, \$1.15 and \$1.00.

Scotch Tweeds, 52 inches wide, in the new mixtures, greys, tan and browns, very stylish, per yard \$1.00.

Broadcloth—Full 50 inches wide; in all the latest shades; a cloth which is equal in appearance to the finest of French makes, and in wear will give perfect satisfaction, at \$1.25 a yard.

52 inches wide; 20 shades to select from, at \$1.75 a yard.

54 inches wide; dress pattern lengths, 26 different shades, at \$2.25.

54 inches wide; pastel shades only, per yard \$3.25.

English Coverlets, in brown and tan mixtures, for coats and suits, 56 inches wide, per yard \$1.50.

Imported Suit Patterns—About one dozen to choose from; no two alike; price range from \$10.00 to \$25.00 the pattern. And for special inducement this week we will furnish free all linings to make the suit of any of these patterns.

Tailored Suits, Costumes, Street & Evening Coats

Many interesting new arrivals have been added this week in the latest modes for street wear or dress occasions. Some of the new tailor-made suits are:

Tailored Broadcloth and Clay Serge Suits, the latest model, long coat styles, lined with good quality silk or satin. Your choice of 20 styles for \$25.00.

Long Jacket Suits, many choice styles, all the season's newest fabrics, all colors, all sizes, at \$20.00.

Long and Short Jacket Suits, all sizes, cheviots, broadcloths and fancy mixtures; great values in this lot, all colors and sizes, at \$15.00.

A SPECIAL

About 25 Women's Suits, in an assorted lot of styles and colors, in short, medium and long coat effects; worth up to \$20, but being only one of a kind left we cut the prices in order to close them out. Your choice at \$9.98.

SUNDAY MORNING, OCTOBER 22, 1905.

Treat Them All Alike

WHEN congress meets next December quite a number of the members of both houses will be absent for the reason that they have been indicted and convicted of frauds upon the government, and are just now engaged in desperate efforts to keep out of the penitentiary, with very little hope of success. These gentlemen have been found guilty of grafting at the expense of the general government, and are likely to be punished by terms in states prisons. Recent investigations in New York show that other gentlemen, at the head of great life insurance companies, have been guilty of grafting on a much grander scale, at the expense of the American people. If those of the first class are to be punished by being sent to the penitentiary, why should those of the other class who are guilty of greater crimes, be allowed to go scot free?

Whose Yoke Is It?

FROM the Bisbee (Ariz.) Review we copy this statement: "It is no news to the people of Arizona to be told that the present system of territorial government is unsatisfactory, but a thousand times more distasteful would be statehood under the yoke of our Mexican sister across the border." That's the principal argument against joint statehood in Arizona. But as soon as you get into this territory you find that those who are opposed to the union have reversed the argument—they put the ownership of the yoke over in Arizona, and make New Mexico the victim. They admit that the territorial condition is unsatisfactory, but claim that the people would find the situation infinitely more unsatisfactory if we should be put under the yoke of Arizona! Now, are there two yokes, and is each territory going to be harnessed by the other, or is the yoke after all, only a bogey, with which the politicians are trying to frighten the people of both territories away from joint statehood?

Albuquerque Eastern

M. R. HOPEWELL states positively that the relations of the Santa Fe Central company to the suspended Enterprise bank will not in anywise affect the affairs of the Albuquerque Eastern, nor retard the work of carrying that enterprise to completion. This statement is highly encouraging to the people of Albuquerque, because Mr. Hopewell is at the head of the Albuquerque Eastern, has invested his own money in it, and is thoroughly familiar with all its affairs. He is intimately acquainted with the resources of the country through which it is to run, and is probably better prepared to make a correct estimate of the future outcome of that section than any other man in New Mexico. In fact the Eastern has been from the first his favorite enterprise, and hence whatever he says upon that subject may be taken as the words of a man possessing positive knowledge of the matter he talks about.

While the same parties are to a large extent interested in both companies, the Santa Fe Central and the Albuquerque Eastern are two separate and distinct corporations, and the obligations or difficulties of the one have nothing whatever to do with the other. Of course, as is well known, the two lines will be largely dependent on each other for business. To such an extent is this true that the creditors of the Santa Fe Central know that if they should take over the road on account of the money due them by the company, they would be absolutely dependent upon the completion of Colonel Hopewell's line to make their own line profitable, and hence it follows that if a change of ownership of the Santa Fe Central should grow out of the present difficulties into which the company appears to have fallen, it would not operate in any manner against the completion of the Albuquerque Eastern. But, on the other hand, it is contended that such a change in the affairs of the Central would hasten the completion of the Eastern, for the reason above mentioned.

A Notable Difference

A MORNING JOURNAL reporter has recently come upon an entry in the proceedings of the board of county commissioners, on January 7, 1904, which, taken in connection with recent events, constitutes a strong illustration of the old saying that circumstances alter cases, and shows that much depends upon whose ox is gored. The Bank of Commerce, through its principal executive officer, Mr. Strickler, came forward last month protesting against the invasion of the rights of the taxpayers by the board of county commissioners when that body undertook to borrow money to pay the expenses of the district court, the term of which otherwise would have entirely failed, and assisted in obtaining judicial action which suspended the court and prevented the trial of various prominent persons accused of crime, whose indictment even would have been prevented if Mr. Strickler and his associates could have succeeded in their efforts at the beginning, on the 11th of September.

On January 7, 1904, the county commissioners approved, and ordered paid, a claim of the Bank of Commerce for \$1581.25, which is stated on the record to be for "special loan to pay labor account June floods." There seems to have been nothing wrong about borrowing money in 1903 at 10 per cent interest, the amount paid to the Bank of Commerce evidently being \$1500, with interest at the rate of 10 per cent per annum for six and one-half months. Another difference between the former board and the present one, is that no record appears to have been made of the borrowing of this money, it being sufficient to show merely that it was paid. Moreover, in 1902, Mr. Frank A. Hubbell wanted the county to borrow the money, but in 1905 the personal interest was exactly the other way.

WORD comes from Bartlett, Neb., that a lake twenty miles long and from three to five miles wide has suddenly sprung into existence in the sandhills of central Nebraska. Where six months ago there were wastes of mud is now a body of water, forty to fifty feet deep, and constantly rising. The overflow has formed an outlet and started down the valley toward the Missouri river. It has been known for years that that portion of the state had a large underflow of water, draining down from the Rocky mountains.

The Pennsylvania railroad has under consideration the matter of introducing the steel passenger car on its lines. There is a strong probability that its next order for coaches will be for steel ones, and it is said that the company has been restricting its buying of new passenger equipment for some time in the idea of going over to steel construction. That will be an important step—one which the other large roads will be compelled to consider as an example for themselves. The steel passenger coach is bound to come. It is more to be demanded than the steel freight car.

Stories of the Streets and of the Town

Can't Digest Files.

Engineer DeLong, of the Santa Fe, who resides in this city, is the possessor of a medical document which is probably the only one of its kind in existence. It is really a curiosity. It is a doctor's certificate, drawn up with all due formality to the effect that said engineer DeLong is the possessor of a stomach and other alimentary organs which by nature are unfitted for the difficult task of assimilating young physicians from the common house fly, (musca domestica) in a deceased state.

Engineer DeLong's possession of this certificate is all that has enabled him to be transferred from unpleasant environment on the west end to more congenial surroundings on the New Mexico division of the railway.

Mr. DeLong has been assigned for some time past to an engine worked in ballast work about forty miles west of Albuquerque. Railroad work in itself is not distasteful to Mr. DeLong, but he draws the line at musca domestica. While at work on the west end the engineer has been quartered in an unscreened tent to which the insects mentioned have had free and unhindered ingress and egress. On cold nights they enter the warm tent in large numbers. They collect upon the roof of the tent and when the morning meal is prepared by the Chinese cook they descend in large numbers into the food and it becomes almost impossible to refrain from swallowing the detestable musca domestica, as they become completely engorged in the substance of hot cakes, biscuits, oat meal and other articles included in the menu of a railroad camp.

This diet soon convinced Mr. DeLong that he should move. He made numerous unsuccessful attempts to secure a different room, and finally in desperation he secured a certificate from a physician that it was impossible for his digestive organs to do justice to a diet of deceased musca domestica, or common house fly. Upon the exhibition of this certificate the officials promptly acceded to the request of Mr. DeLong to be placed where he could be of service to the company without impairing his usefulness by wasting vital energy in the useless attempt to digest musca domestica, or the common house fly.

RESOURCES OF SOUTH AFRICA

It is only now that the world is beginning to realize how vast are the resources of South Africa. Practically the whole of it, from Cape Town to the Zambesi, is now being developed as a "white man's country," in the sense that there are no climatic conditions to prevent white men from making their home. The full significance of this can be appreciated only by those who have had experience in hot climates. Most of the country is rich in mineral wealth, a fact that has always had irresistible attractions for the adventurous Anglo-Saxon race. Diamonds have been found in Cape Colony, the Transvaal and the Orange River Colony, a fact that goes to prove that the deposits are spread over an immense area. At present the chief difficulty the industry is to regulate the supply that shall not be in excess of the demand.

The gold mines of the Rand have much of the character of a permanent industry. The precious metal is there in ascertainable quantity; the life of every mine, and indeed of the whole island, can be predicted with tolerable accuracy. The working of both gold and diamond mines has been greatly facilitated by the timely discovery of coal, of which valuable fields exist in the Orange river and Transvaal colonies in Natal and in Rhodesia, so that it can be safely affirmed that there is sufficient to last for many generations, and no fear need be entertained that the working of the other mineral riches will be hindered for want of fuel. Considerable deposits of iron ore are known to exist. Hitherto these have been practically untouched, but should provide the increasing populations with a staple and indeed indispensable industry in the future. Copper, too, is widely distributed, and many other minerals of less value, but all capable of development. Thus it may be fairly claimed that few countries are richer in mineral wealth than South Africa, and it must be remembered that this is a double asset. It not only provides immediate industries, but it will serve to introduce eventually, as was the case in Australia, that agricultural population which is justly regarded as the backbone of a country. And South Africa has great agricultural possibilities. For more than a century it has had a purely agricultural population, which has steadily spread northward, and has now reached the Zambesi. This speaks for the character of the country, and it must be remembered that the agricultural population has been one which sought to live and nothing more. Agriculture here is still in the experimental stage, and it remains for the future to show what the resources and experience of civilization will effect.—Ernest L. Harris in British Consular and Trade Reports.

On a Warm Day.

I don't want to seem at all impatient 'bout de way. De summer keeps a lingerin' in our midst, 'um day to day. I only gits indus-trious-feelin' once or twice a year.

But I wishes to serve notice dat de 'casion now is here. My muscles feels ambitious an' I wants you fob to know I could do a power o' shovelin' if I only had de snow.

If only dat thermometer would staid de yuthus way. Dar fool 'be no limit to my stren'th. I'd feel so gay.

If I could find myse'f inside a gre't big chilly drif' I speeks a ton or two is 'bout de load dat I could lift.

Some how, my good intentions never seem to gits a show. I could do a heap o' shovelin' if I only had de snow.

Cruel.

Ferdj—Every once in a while you hear of a woman masquerading as a man, belonging to men's clubs, transacting business with men, and all that sort of thing.

Grace—Well, don't you ever try it, Ferdj. You'll surely be discovered, and then think of the unpleasant predicament you'll be in.—Louisville Courier-Journal.

"Pa," said Willie, "an equine means a horse, doesn't it?"

"Yes."

"And an ox is a kind of a cow, isn't it?"

"Yes, one kind."

"Well, what kind of a blamed thing is the equine ox everybody's talking about?"

"Pa thought a minute, looked sheepish, and then said he backed out of the room: 'Oh, that's a wether.'"

STEADY DEMAND FOR RESIDENCE LOTS IN ALBUQUERQUE

Real Estate Men Well Satisfied With Outlook.

IMPROVEMENTS AT INDIAN SCHOOL WELL UNDER WAY

Albuquerque real estate dealers are well satisfied with the indications of the business for the fall and winter season, usually the busiest of the year. These indications now point to the busiest season this city has ever known, and the sales of the past week has carried an exceptional movement in residence lots, extending over all parts of the city. One firm, the Surety Investment company, reports the sale of forty-five lots during the week, to twenty-six separate buyers, most of whom are buying strictly for residence purposes. The Surety Investment company has the best kind of assurance that its sales are not being made on a speculative basis, for there are at the present time some twenty-eight houses, all residences, in course of construction in its Eastern Addition, in the Highlands, which the company is now engaged in pushing. Sales in this addition have been steady, since its opening, on the first of July and a total of one hundred and sixty-nine lots have been sold there since that date. The sales of the past week in this addition, however, have been more active than in any previous week since its opening and Manager Sellers says the outlook for the coming fall and winter months could not be better. There are no building restrictions in the Eastern Addition but the character of the residences built and being built is generally good, most of them being comfortable cottages, the building of which has changed the South Highlands in less than a year from a howling waste to one of the rapidly growing residence sections of Albuquerque.

The South Highlands, however, is only one of several sections of Albuquerque which are growing, in fact the city is growing out in all directions as rapidly as carpenters can be found to put up the buildings. One of the most notable changes in recent months is to be seen in the western extension of Coal, Silver and Lead avenues, less than a year ago given over to sand and sage brush, and now well filled up with pretty homes, several of them expensive and all of them desirable. The demand for residence property on these streets is growing right along. Big Doling in Terrace Addition.

The Morning Journal in a recent issue made the statement that the Terrace Addition Improvement company is about to spend \$5,000 on the addition which it is now grading and preparing for the market. The figures show an error of just one cipher, since the company has appropriated \$50,000 for the improvements in this addition. The amount expended will probably exceed that amount before all the plans are carried out. Already more than \$7,000 has been expended on the Terrace addition and the grading of the extensions of East Gold, Silver and Lead avenues is moving right along. The opening of the Terrace addition will be the first big step in the spreading out of Albuquerque onto the mesa. Once the residence section is established there, it is difficult to say just where it will stop.

Indian School Improvements.

One of the most important improvements of the fall and winter will be in the government Indian school, where the building of from \$50,000 to \$60,000 worth of new buildings is now getting fairly under way. Active work will begin on a new road from the school grounds is completed. The road will be opened very soon and then things will begin to move at the school. Superintendent Allen has plans for the buildings prepared and most of them have been approved by the department.

The American Lumber company has laid the foundation for a big boarding house on North Twelfth street, just outside the main grounds which will be rushed to completion. The house will have rooms for thirty-two people and will be one of the largest buildings of its kind in the city.

Byron Stimpert, carpenter at the Indian school, is now about to begin the construction of four cottages on New York avenue.

Another New York avenue residence is the pretty cottage now being built by T. E. Gargin, manager of the local office of the Western Union, which Mr. Gargin proposes to occupy as soon as it is finished.

The Greenleaf residence on North Fourth street, is being pushed forward, and will be one of the handsomest residences on the street.

Homer Stitzer, pattern maker at the American Lumber company, is just completing a pretty five-room cottage on North Fourth street, which will be ready within the month and which Mr. Stitzer will occupy with his family.

The two new churches on West Silver avenue are being pushed skyward with astonishing rapidity. The small building of the Lutheran church is building for the roof, which will be put on during the week, while the building will probably be ready for occupancy by the middle of November.

The walls of the handsome new Presbyterian church are going up rapidly. The building is going to be one of the finest in the southwest. Its red brick walls are trimmed with the gray cement blocks, the combination being very effective.

EASTERN STAR CLOSES ITS MOST SUCCESSFUL MEET

Session Came to an End Yesterday Afternoon.

HAS BEEN A BUSY WEEK IN NEW MEXICO MASONRY

The formal installation of the grand and chapter officers of the Order of the Eastern Star yesterday afternoon, closed the two days' meeting of the order, a session which has proved one of the most delightful, socially and otherwise, that the ladies have held since their organization in New Mexico, and the grand chapter was well represented at the annual meeting this year. Adah chapter, the local branch, entertained the visiting ladies most royally, and nothing but words of praise have been heard regarding the manner in which they took care of the visitors.

The banquet tendered the visitors Friday evening at Masonic hall was one of the most successful of the events of the week.

Besides the grand chapter and officers mentioned in yesterday's Journal, the following officers of Adah chapter were installed yesterday afternoon:

Adah—Edith Everitt.
Ruth—Jennie Abrams.
Esther—Frances Collip.
Martha—Rosa Risdon.
Electa—Mae Browne.
Ward—Jennie Williams.
Sentinel—Thomas Isherwood.
Chaplain—Alice Chandler.
Marshal—John Bollos.
Organist—Elsie Copp.

Albuquerque Masons have had a busy week, but also a most pleasant one, and members of every branch of the great order are feeling especially good over the prosperous condition of the organization. The attendance this year at all the meetings was unusually satisfactory.

The Mitchell company represent the Consolidated Gas & Electric Co.'s Edison gas system. Call and see them.

For Fountain Pens, largest, most complete stock in the west, go to Newcomer's.

POLLY PRIMROSE TELLS PRETTY STORY

CLEVER PLAY COMING TO ELKS THEATRE SATURDAY NIGHT.

In "Polly Primrose," which is to be staged at Elks' opera house on October 28, Miss Carol Arden employs her piano with charming naïveté to "smoke out" the suspected spy who is her father's guest and who to test his affection for her at the same time. The roguish girl who wants to know how to bind and torment her sweetheart in the same stroke will resort to her piano after seeing the wonders in love making that "Polly" achieves with hers. But Polly does not rest her case with her piano. She is as resourceful as she is playful and turns every situation to the achievement of her ends—a teasing little rogue of a college girl, full of bright stratagems and amusing intrigues in which she draws while seeming to repulse. A most entertaining and lovable vixen is "Polly Primrose," as Carol Arden portrays her.

The author has spiced this cheerful romance with a dash of the war flavor, by linking "Polly's" love affairs with the attempt of Lee to capture Washington in the strife of the rebellion. Her father is a southern colonel of such decided but unsuspected rebel sympathies that his home on the outskirts of Washington is the scene of plots to aid the great confederate plans.

Polly herself is somewhat of a rebel in sentiment, and even drives the man she admires from the roof when she is accused of being rather a Union spy than a sincere suitor for her hand.

The accusation comes from his rival in love and proves to be groundless of course, and in the sequel the vivacious little rebel makes answer to her Union suitor's proposal by delighting him with a piano rendition of the "Star Spangled Banner" in place of "Dixie" with which she had previously regaled him. There's a glimpse enough of the excitement and amusement, fun, frolic and sensations of "Polly Primrose" to give the public a suggestion of the treat that is in store for it when the performance is due here.

SOCIETY

Mrs. W. S. Hopewell and sons, of Hillsboro, N. M., are at the Alvarado.

Mr. and Mrs. E. L. Brown, of Las Vegas, are visiting friends for a few days.

The University seniors held a class banquet in Library hall Wednesday evening.

Mrs. O. C. Watson, of Santa Fe, is the guest of her mother, Mrs. Thomas Hughes of 204 South Walter street.

Mrs. Thomas Ford, of 410, South Fifth street, has returned home after spending the summer with relatives in Kansas City, Mo.

Mrs. R. B. Thomas and daughter, Miss Bessie Thomas, returned to Santa Fe, after a short visit with Albuquerque friends.

Mrs. D. Wehman has issued cards to her friends for an afternoon on Thursday, to be held at her home, 618 West Copper avenue.

Miss Irma Schuster, who has spent the past two years in European travel and study, is expected to arrive home the latter part of the week.

Mrs. Charles M. Apple of Raton, N. M., spent the week in this city, to attend the Eastern Star convention and visit her brother, Mr. E. G. Abraham.

The Ladies' Aid society of the Presbyterian church held a benefit social at the home of Mrs. W. G. Hope, 815 West Copper avenue, Friday afternoon.

Mrs. W. W. Strong has invitations out for an entertainment to be given in honor of her guest, Mrs. Regina Strong, of Denver, Wednesday afternoon.

Mrs. George L. Brooks, of 903 West Copper avenue, entertained the ladies of St. John's guild Thursday afternoon. Delicious refreshments were served.

Mrs. E. S. Roddy entertained the daughters of the American Revolution and a number of their friends Friday evening, at her home, 802 Kent avenue.

Mrs. Alfred Grunsfeld returned home last night, after an extended visit with her daughter, Miss Regina Grunsfeld, who is attending school in Chicago.

Mrs. W. Y. Watson will give a unique birthday party on Tuesday afternoon at her home, 523 West Tijeras road, to which only her pioneer friends are invited.

The first regular Commercial club dance was held Friday night with a good attendance. The club is ready to make the coming season the brightest Albuquerque has known.

Mrs. W. W. Strong and Mrs. Regina Strong spent a few days in Santa Fe the first of the week. Mrs. W. H. Heflin and daughter, who accompanied them, will visit Santa Fe friends a few days longer.

Mrs. W. W. Strong gave a "social tea" under the auspices of the Aid society of the Lead avenue Methodist church Thursday afternoon at her elegant new home, 810 Park avenue. A neat sum was realized for the society.

The marriage is announced of Miss Grace Nettleton, daughter of Mr. M. C. Nettleton of this city, and Mr. Roy Powers Smith of the former home of the bride, at Clyde, Ohio. The young people will make their home in Detroit for the winter.

At the home of the bride on South Johns street, Mrs. Mollie Thompson was married to Mr. L. Winhoefer last Monday evening in the presence of a number of friends. Rev. J. W. T. McNeil, of the Baptist church, performed the ceremony. Mr. and Mrs. Winhoefer have gone to Washington.

A quiet wedding took place Thursday evening at 630 at 413 West Gold avenue, when Miss Clara Louise Saint was married to Mr. Harry Russell Mitchner. The ceremony was performed by the Rev. A. G. Harrison, and afterward there was a dinner for the family. Mr. and Mrs. Mitchner went to Denver on a wedding journey. On their return they will reside at 709 West Gold avenue.

The marriage of Miss Laura Hayden, daughter of Mr. and Mrs. A. W. Hayden, of 219 North Walter street, and Mr. Floyd H. Moore, took place Wednesday evening at the bride's

home. The ceremony was performed at 8:30 o'clock by the Rev. H. A. Cooper. In the presence of a large number of friends. The bride's gown was of white crepe de chine and she carried a bouquet of bride's roses. She was attended by her sister, Miss Ethel Hayden. Mr. and Mrs. Moore will reside on West Granite avenue.

Mrs. George L. Brooks was hostess Wednesday afternoon at a charming euchre party at her home, 903 West Copper avenue. The rooms were decorated in autumn flowers, huge bouquets of chrysanthemums being very effective. Mrs. W. E. Dame and Mrs. Louis Hefel were the prize winners. Present were: Mendamus, Deckmyn, Al Frost, Maloy, Macpherson, Klock, Jarrett, Bryan, Dobson, Kent, McFar, Forrest Parker, B. Hefel, L. Grunsfeld, Putney, Walton, H. Grunsfeld, Thomas, 114 South Edith street. Those present were: Dame, Millington, Neustadt, Roddy, Day, Saint, Childers Gunsul, J. Weinmann, S. Stern, L. B. Stern, Herndon, and Misses Lee, Julia Lee and Florence Owen.

Friday afternoon at the club parlors the Woman's club of Albuquerque held a most enjoyable meeting, the program being in charge of the Domestic Science and Social Ethics department. Mrs. J. H. Bearup had the paper of the afternoon on the subject, "What is Ethics?" Mrs. Borden led a drill in parliamentary usage and Mrs. L. Bradford Prince, territorial regent of the Daughters of the Revolution spoke interestingly on "Club Life in Santa Fe." There were a number of other musical and literary numbers on the excellent program.

Miss Margaret O'Rear celebrated her fourteenth birthday yesterday with a party at the home of Mrs. F. J. Thomas, 114 South Edith street. Those present were Misses Edith Grubb, Marie Cook, Marjory Cook, Leah Allen, Helen Sampson, Louise Lowmyer, Mary Pratt, Dorothy Cox, Lillie and Ethel Fredericks, Esther Morlimer, Gladys Hayden and Bruce Wright.

Miss Gertrude Bendheim, of Altoona, Pa., was the honored guest at a small whist party given by her hostess, Mrs. Louis Hefel, corner Copper avenue and Seventh street Friday afternoon.

Mr. and Mrs. Thomas Alsworth celebrated their fifth wedding anniversary at their home on Garfield avenue on Thursday.

Mrs. W. W. Spargo and children returned from Wheeling, W. Va., last night where they spent the summer months.

Mr. and Mrs. Frank Johnson, of San Marcial, spent the week with Mrs. S. Robbins in this city.

University Notes

Mr. E. B. Crispy, the architect, was inspecting the new heating plant Friday.

The score of 16 to 6 in the game of football last week in favor of the University team was not as large as it should have been. The boys from the High school and city were light weight, but proved good resistance.

President Tight at Monday's assembly read from the scriptures the story of Jonah and the whale, and gave an interesting and satisfactory explanation of this remarkable incident.

The girls are practicing basket ball. There is plenty of good material if a sufficient number can be prevailed upon to enter the game. There should be no trouble to form two good teams of fast players.

Mr. Edie C. Chang loaned his head to Professor Hodgkin at assembly Friday, for the purpose of demonstration. The young man blushed somewhat as he found himself standing before the student body, which incidentally led to a short discussion on the psychology of blushing, the most remarkable of all human expressions. Animals never blush. The blush is produced because of a mental condition, hence idiot never blush. It was then stated as a conclusive evidence that the young man who was then blushing was in the possession of a mind.

The seniors gave a reception at the Tri Alpha hall on Wednesday evening. Entertainment and refreshments were abundant. An effort on the part of some boys not invited, to have brought forth a little ice cream, was met with strenuous resistance and a certain young man in the city was caught and tied and held as prisoner for a while.

"The relation of mind to brain"

was the subject discussed at assembly on Friday morning by Professor Hodgkin. He made reference to the theories of idealism, materialism and psycho-physical parallelism, and pointed out some of the ancient notions regarding the brain. Aristotle, the great philosopher and son of a physician, believed that the brain was a lump of cool, gelatine substance in the reservoir of the brain, whose function was to lubricate the eye balls. Many of the ancients believed that the powers of the mind were distributed to various organs of the body, as the heart, the seat of love, the spleen of anger, etc. Even Kant, the wonderful philosopher, at one time believed that the air he breathed was circulated directly through his brain. When, in later life, he discovered his error in physiological reasoning he said it was a case of right practice, but wrong theory. Many evidences were cited to show that the brain is the seat of the mind, and recent discoveries regarding brain localization were pointed out. Reference was made to experiments of Professor Elmer Gates, of the Smithsonian institute, along the line of mind-building through brain-building. His first experiments were conducted upon dogs which proved that excessive training in some mental faculty resulted in an increased number of brain cells as shown by comparison of the brains of certain trained dogs and others of the same age and breed that were not trained. In his long series of experiments with human brain-building which he calls "Psychurgy," he shows the influence of emotion on the body, that anger, for instance, actually poisons the blood. He says "My experiments show that frascide, malevolent, and depressing emotions generate in the system injurious compounds, some of which are extremely poisonous; also that agreeable, happy emotions generate compounds of nutritious value, which stimulate the cells to manufacture energy."

Where to Worship Today

Baptist Church—Sunday school at 9:50 a. m.; preaching by the pastor at 11 a. m. and 7:30 p. m.; Young People's meeting at 6:45 p. m.

St. John's Episcopal Church—Carter Fourth and Silver avenue—Holy communion, 7:30 a. m.; Sunday school 10 a. m.; morning prayer, 11 a. m. and 8 p. m.; evening prayer and sermon, 7:30 p. m. All seats free. A. G. Harrison, rector.

First Methodist Episcopal Church—Sunday school, 9:45 a. m.; preaching service, 11 a. m.; sermon by Rev. Dr. Morrison; solo by Miss Kraemer; Epworth league song service, 6:30 p. m.; evening service, 7:30 p. m.

Address by Dr. Tight—President W. G. Tight lectures in the Woman's club rooms, in the Commercial club building at 7:30 p. m. Subject, "The Freedom of the Individual Conscience in Religious Thought."

First Presbyterian Church—Services in the Elks' opera house, Rev. Hugh A. Cooper, pastor. Services at 11 a. m. and 7:30 p. m. Morning theme, "A Life Humiliated." Evening theme, "Man in the Opinion of Himself, His Fellow Man and His God." Sunday school at 9:45 a. m. Young people's meeting at 6:30 p. m. Strangers invited.

Congregational Church—Located on Broadway, at the end of the viaduct, J. W. Barron, pastor. Morning services at 11 o'clock. Topic of sermon, "The Light Behind the Cloud." Mrs. Chestnut will sing a solo. Sunday school at 10 a. m.; Y. P. S. C. E. at 6:30. Evening services at 7:30. The pastor will speak on "The Establishment of Religion." Music by a chorus choir, under the direction of Mr. Stone. A cordial invitation to all.

FAIR MEETING TOMORROW NIGHT

LARGE ATTENDANCE DESIRED TO TALK ABOUT PLANS FOR THE NEXT FAIR.

A large attendance is desired at the meeting of the New Mexico Fair association to be held tomorrow, Monday night, over the Zeiger cafe. Subscribers to the last fair are particularly requested to attend, as it is hoped to reach a solution of the deficit problem, which is now proving something of a puzzle to the managers. Several plans have been proposed and one of these will, probably be decided on at the meeting tomorrow night. The meeting will be called to order at 8 o'clock.

**TICKET THIEF GOT
PASTEBOARDS WORTH
THOUSAND DOLLARS****Raton Robber Arrested at
Local Station.****FOUND WITH THE GOODS ON HIM
IN PAINTING GANG'S SPECIAL CAR**

A man giving his name as C. D. Roper was arrested yesterday afternoon about 5:30 o'clock by Special Officer Ben Williams of the Santa Fe and Depotmaster Wells for stealing \$1,000 worth of railway tickets from the Santa Fe ticket office at Raton on Wednesday.

The man was arrested in the car carrying the painters' gang of the Santa Fe with which Roper was working. He had gone to work with the men on the local station after arriving here yesterday.

The man was caught asleep in the car, and a grip which he had with him was found to contain the tickets, which were the Duplex variety for use on all railroads, the tickets being merely in blank. In the grip also were found a pair of handcuffs and a certificate of membership in the American Detective association.

Roper was arrested on the strength of a telegram from Raton to Mr. Williams, who in company with the station master had no difficulty in locating their man. He made no attempt to resist and said that he had with the goods on him it was a plain case. He was placed in jail and will be taken to Raton today.

It is presumed that Roper obtained access to the ticket office while at work painting the station at Raton, although the wire last night gave no details of the robbery.

**THREE SMALL BOYS
OUT TO SEE THE WORLD****NORTH SIDE YOUTHS EMBARK
ON FOOTING EXPEDITION WITH
BURRO-PARENTS ANXIOUS.**

Three more of Albuquerque's adventurous youth have started out to see the world without advising their rather anxious parents of their destination and as a result E. A. Byr, of 965 North Eighth street, C. Phillips, of 563 North Eighth street and J. W. Weir, of 917 North Eleventh street, have taken to the hills in search of adventure, mounted on the burro, has disappeared from each family. All of the gentlemen interested in this latest juvenile adventure are employees of the American Lumber company and all are more or less worried, for so far as known the total cash capital of the three consists of \$4, the proceeds of a wheel, sold by the youthful owner, and a burro, which it is to be supposed the boys took with them since the burro together with the boys, has disappeared. The youngsters failed to come home Friday night and it is supposed that they either parted with the burro and left town on a train or have taken to the hills in search of adventure, mounted on the burro. The police had not been able to locate the boys up to a late hour last night.

Trouble with the festive small boy is rapidly bringing Chief McMullin bent and broken to his grave. A few days ago a small boy ran away from home. His anxious parents came for him. The boy was located in Canon City, Colorado, and a ticket sent there for his return. He came back, but instead of getting off at the Albuquerque station he kept right on and was finally collared by an officer at Isleta. Next morning the boy was sent back to the arms of his anxious parents, but he kept right on going, and it was only by quick work that he was captured at Lamy Junction.

Seven boys, all between eight and fourteen years, were lined up before the chief Friday night and yesterday for various offenses. One small boy confided to the officer that he did steal the flowers, but that he wanted them to give to his teacher. Since the teacher couldn't be pinched for receiving stolen goods, it became necessary to let the affectionate scholar go his way.

**ATTEMPTED TO TAKE
LIFE WITH RAZOR****VENUE OF HAMBURGERS MADE
UGLY GASH IN THROAT AND IS
LAID UP FOR REPAIRS.**

E. Norris, of 514 John street, made an attempt to take the life of his wife, who is a waitress at the venue of hamburgers made yesterday morning by slashing his throat with a razor in the back yard of his home. Norris' attempt to end his life followed an altercation with his wife, who is a waitress at the venue of hamburgers made yesterday morning by slashing his throat with a razor in the back yard of his home. Norris' attempt to end his life followed an altercation with his wife, who is a waitress at the venue of hamburgers made yesterday morning by slashing his throat with a razor in the back yard of his home. Norris' attempt to end his life followed an altercation with his wife, who is a waitress at the venue of hamburgers made yesterday morning by slashing his throat with a razor in the back yard of his home.

The razor made an ugly, but not a deep gash and none of the main arteries were severed. Norris is well satisfied that his attempt to end his life did not prove successful. He will be out of the hospital in a few days.

A Judicial Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child, they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

**HORNBLOWER ASKS
FLK TO COME TO
AID OF JEROME****Chance for the Missourian
to Show His Mettle.****FEARLESS PROSECUTOR IS
WAGING AGGRESSIVE CAMPAIGN**

New York, Oct. 20.—William B. Hornblower has signed and sent the following call to Governor Folger:

"The undersigned citizens of New York without regard to party invite and urge you for the sake of good government, and in order to keep in office a fearless and faithful public servant, to come here and speak for Jerome."

The municipal campaign is now in full swing, the three leading candidates for mayor having opened headquarters.

W. W. Ivins, the republican candidate for mayor, has opened headquarters in the Hotel Gresham. Mr. Ivins has written a platform for himself in the form of an open letter to Mayor McClellan and W. R. Hearst.

He promises that if he is elected he will do his best to get the legislature to pass a law that would enable the city to get possession of all gas plants by condemnation proceedings. He wants Messrs. McClellan and Hearst to meet him in joint debate.

The Hearst ticket.

Mr. Hearst has completed his county and Manhattan borough tickets and to and of his candidates are to go on the stump and speak nearly every night from now until election day.

Tammany held its ratification meeting Thursday night. Mayor McClellan made the principal speech, his first public appearance in the campaign.

District Attorney Jerome began his campaign for re-election this week, after receiving the failure of Tammany, the republican machine, and the Hearst men to endorse him without any visible surprise or disappointment.

Chance to Hear Jerome.

These meetings will give most of the town a chance to hear the candidate who wasn't afraid to run independently. He was practically certain of victory, but few were willing to believe that either Tammany nor the republicans could endorse his name. That the municipal ownership enthusiasts did not desert him was a surprise.

It is remembered that four years ago, when Mr. Jerome was making his running with the fusionists, his campaign was constantly threatened by the Tammany machine, which was known to the total cash capital of the three consists of \$4, the proceeds of a wheel, sold by the youthful owner, and a burro, which it is to be supposed the boys took with them since the burro together with the boys, has disappeared.

It is said that the republican machine approached Tammany last winter asking what was going to be done with regard to Jerome, realizing that he was the man who was likely to nominate him in response to the public demand.

Jerome Offended by Plain Talk.

According to stories which have been told since the convention, Tammany agreed not to endorse Jerome's candidacy, but the county republicans, who really have not much reason to do their faith to political promises, any source decided that they would wait until after the Tammany convention before naming their own candidate.

Many of the Tammany district leaders wanted Jerome on the ticket, and wanted him badly, so the matter was left apparently in doubt up to the last minute, when Osborne was sprung.

Former Governor Odell who is boss of the republican county politics had said but he would take Jerome if he had to have him, and when his convention was called on the next night after the Tammany pow-wow he had decided that he did not have to have him.

Mr. Jerome's plain speaking, last summer on his western trip, it is said, offended both Odell and Tammany leader Murphy, who did not think it worth while to try to run a man who was honest enough to tell all he knew about the two organizations, without regard to the effect on his own or any one else's campaign.

Mr. Jerome has said that the people are on trial, and not himself. If they want a man unaffiliated with either organization, who is willing to work in their interests unhampered by party obligations, he is ready to serve them, but if they don't they will resort to private practice of the law, and that is the situation as he defines it.

Working on County Defense Problem.

Washington, Oct. 21.—The military naval board which has been engaged in an effort to revise the so-called Elliott plan of coast defense, is said to be at work on the problem. There is an impression among some members that it will be impossible to revise some of the original estimates for fortification, at least so far as it relates to guns.

There is comparatively no chance that there will be any material revision of the total sum, however, since it is quite evident to experts that what is saved in one direction will be required in another in at least equal measure. For instance, it now appears that it will be necessary to have considerable provision made for submarine defense, and that this feature must be developed beyond anything which was realized by the authors of the Elliott plan. A large part of the later estimate will probably go for the purchase of submarine boats and the material required in underwater protection and attack.

The secretary of war expressed the hope that the original estimate of \$150,000,000 may be reduced to \$130,000,000, but those who are familiar with the needs of the service and the cost of material insist that there cannot be any material saving.

Notice for Publication.

Department of the Interior, land office at Santa Fe, N. M., September 25, 1905. Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the probate clerk at Albuquerque, N. M., on November 4, 1905, viz: Juan Romero, for the S. W. quarter, Sec. 4, T. 8 N., R. 6 E. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Plomero Mora, of Escobedo, N. M.; Juan Antonio Alderete, of Peralta, N. M.; Prudente Maldonado, of Escobedo, N. M.; Jose Maldonado, of Escobedo, N. M.

MANUEL K. OTERO, Register.

**MR. HYDE MAY TELL
INTERESTING TALE
OF THE YELLOW DOG****Former Equitable Chief To
Be Examined.****COMMITTEE HOPES TO
GET TO HIM THIS WEEK**

New York, Oct. 21.—It is the present intention of the legislative committee investigating insurance matters to put Emory McClintock on the witness stand when the committee resumes its session on Tuesday. McClintock is one of the company's actuaries and McClintock referred to him several times during his examination.

Whether Hyde will be reached next week remains doubtful at present.

Mr. Hyde returned to town this week, and is at his home, 9 East Fortieth street. This is the first time Mr. Hyde has appeared in New York state, at least publicly, since last July, when the investigation committee began to send out subpoena-servers. He has promised to appear before the committee whenever his presence is wanted, and tell freely all that he knows about questionable transactions in the Equitable society.

Mr. Hyde is a much-desired witness. Without him there are many things in the Equitable tangle that would never be cleared up. Mr. Hyde's determination to appear before the stand, to put himself before the public in as favorable a light as possible, and to demonstrate that he is not responsible for many of the irregularities in the Equitable management, blame for which has been laid at his door. Mr. Hyde will in detail his relations to the \$50,000,000 Union Pacific blind pool, and his statements in regard to this transaction are sure to furnish food for thought to both Jacob H. Schiff and Edward H. Harriman.

Mr. Hyde will also tell the committee something about the \$485,000 blind loan in the Mercantile Trust company—the Equitable "yellow dog" fund—which has up to this time remained completely in the dark. Mr. Hyde, an officer of the Equitable society, endorsed the note which secured this loan.

A PAPER can have no better friends than those to whom its want ad columns have been of real service. This paper wants your friendship on that basis.

COMMERCIAL NEWS**Wall Street.**

New York, Oct. 21.—The whole stock list shared in the strength and animation today, but not in equal degree, the same marked partiality being shown for low priced stocks as in the active review of speculation yesterday.

Money Market.

New York, Oct. 21.—Money on call, nominal; no loans; prime mercantile paper, at 5 per cent; silver, 62 1/2 c; Mexican dollars, 47 1/2 c.

Chicago Board of Trade.

Chicago, Oct. 21.—Reports of drought damage to fall sown wheat in Kansas and Oklahoma helped to strengthen the wheat market today. At the opening December was 84 1/2 c to 86 1/2 c. The price eased off to 86 1/2 c. The highest point of the day was reached at 87 1/2 c. The market closed strong at 87 1/2 c.

December corn opened at 44 1/2 c, sold up to 44 3/4 c to 45 c, and closed at 44 c.

December oats opened at 28 1/2 c, sold up to 29 1/4 c and closed at 29 1/4 c to 29 1/2 c.

Kansas City Livestock.

Kansas City, Oct. 21.—Cattle receipts, 1,000; market, unchanged. Native steers, \$4.40 to \$5.00; southern steers, \$2.50 to \$4.50; southern cows, \$1.50 to \$3.50; native cows and heifers, \$1.75 to \$4.75; stockers and feeders, \$2.50 to \$4.25; bulls, \$2.00 to \$2.25; calves, \$2.50 to \$5.50; western cows, \$1.95 to \$2.25.

Sheep receipts, 1,000; market, nominally steady. Muttons, \$4.00 to \$5.25; lambs, \$6.50 to \$7.50; range wethers, \$4.50 to \$5.25; fed ewes, \$3.00 to \$4.50.

St. Louis Wool.

St. Louis, Oct. 21.—Wool, steady, unchanged.

Immense Silver Shipment.

Vancouver, B. C., Oct. 21.—The latest shipment of silver metal from Vancouver will go out tomorrow afternoon on the steamship Tartar, consigned to Hong Kong. It will weigh a ton and a half with a value of about \$250,000.

All of this silver was produced at the Canadian Reduction Works at Trail, B. C., and was extracted from silver-lead ores mined in the Kootenay and Boundary districts. A special guard was maintained on the shipment en route to the coast.

The export of silver from Trail to China was begun in 1903, and is made through the Hong Kong and Shanghai bank, one of the leading financial institutions of the Orient. The silver is supplied by it to the Chinese mints at Canton and Tien Tsin, the demand being practically unlimited.

It is expected that even greater exportations will be made from this port, as the works at Trail are being considerably enlarged.

The Store of Quality
B. Ifeld & Co.
For St. Pies de Sale
For Skirts & Petticoats
Railroad Ave. @ Third St.

This Store's Showing of
**Ready-to-Wear
Garments**
MEETS THE APPROVAL OF EVERY CUSTOMER
FOR THE STYLES, QUALITIES AND PRICES
—ARE CORRECT—

Cloaks for Women

We show an unusually large line in all the newest creations. Priced from \$6.50 to \$30.00

Cloaks for Children

We have them for children of all ages, in a great variety of styles, the newest shown, and priced at from \$2.00 to \$12.50

Skirts for Women

In this popular garment it is impossible to attempt to describe the stock as the line is so varied in style. They're priced from \$1.00 to \$35.00

Dresses for Children

If all mothers of girls could see our line of Children's Ready-to-Wear Dresses they would cease the making of same. All colors and styles. Priced from \$1.00 to \$6.50

Waists for Women

This store has always had the largest and most varied selections of Waists, but this season finds us stronger with values than in the past. The price range is extraordinary—ranging from \$1.00 to \$7.50

Skirts for the Miss

This season we added Misses' Skirts to our department and a great success it was—for every skirt is a marvel for the price, and the way all fit it is no wonder they are a success. From \$1.00 to \$6.00

**A Great Variety of Styles in
Women's Suits**

IN LOOKING through our new fall lines you will be particularly impressed with the great variety of styles. The originality of the designers has certainly been given its full-est scope in its efforts to create more stunning effects. There seems almost no limit of style ideas, and the great variety of novelties forestall the most fashionable season for women's suits. They are priced from \$12.50 to \$35.00

ALL ALTERATIONS REQUIRED ON GARMENTS IS DONE IN OUR store by an expert in this line. In this way we are able to guarantee a perfect fit in every instance. All work is done promptly and in a thorough manner.

FOR THIS WEEK

At first glance everyone will think this an advertising fable, but our word and reputation is behind this offer. We bought, at auction, some fifty pieces of fine Dress Goods, at prices only to be had at auctions, therefore, our offer of \$2.50 Dress Goods for the ridiculously low price of 75c a yard.

THIRD SUIT FILED AGAINST HUBBELL AND HIS BONDSMEN

For Recovery of Funds on
Alleged Misappropriation.

SUIT IS AGAINST SURETIES
ON BOND FOR 1903-04

One more suit against Frank A. Hubbell and his bondsmen, the third in a week, was filed in the office of the district clerk yesterday morning. This last suit is for the recovery of \$12,091.85, alleged to have been misappropriated by Hubbell during his term as county treasurer in 1903-04. It thus is not against the bondsmen on his bonds as county treasurer during the term, which was ended by the governor's removal, but against his bondsmen for his former term in the county treasurer's office.

Under the New Mexico law taxes collected in any given year are for the expenses of the succeeding year and are not to be used for any other purpose, not even for pressing current expenses. It is alleged by the county authorities in the suit filed yesterday that Hubbell did, with the collections of taxes for the year 1903, pay the current county expenses for that same year of 1903, with the money intended for the expenses of 1904, thus leaving 1904 without any general fund with which to pay the county's expenses for 1904. It is a fact that none of the county's general expense debts for 1904 have been paid, the money having been used to meet the bills of the previous year. The exact amount alleged to have been so misappropriated is given in the suit as \$12,091.85. The other two suits now pending against Hubbell and his bondsmen were filed earlier in the week and are for the recovery of money withheld from the county general fund and from the school fund, upon Hubbell's contention that he is still county treasurer.

VISITORS MUST HAVE PASSES IN FUTURE

CARDS OF ADMISSION TO THE
GROUNDS OF AMERICAN LUMBER COMPANY.

To avoid trouble in the admission of visitors to the grounds and mills of the American Lumber company, a matter which has caused some annoyance to the management in the past, the company will in future admit visitors to the grounds only when they hold a pass or admission card signed by the company, and by admitting the visitor to inspect the entire plant. In future no one will be admitted, aside from employees, who do not hold one of these cards. The company has been very obliging in allowing inspection of the plant by interested people in the past, and there will be no change in the future, except that it will not be so easy for people having no business in the grounds, and little interest in the plant, to gain admission.

The pass is good for the day of issue only, does not allow smoking or soliciting in the grounds, or the talking to employees or meddling with machinery. It is neatly printed and will serve as a neat souvenir for visitors.

Death of Rev. Mr. Ellsworth.
Rev. Ezekiah Ellsworth, for many years minister of the African Methodist Episcopal church at Alton, Ill., and a Mason, died yesterday at his home on Kelcher avenue in this city at the advanced age of 75 years. The funeral services will be held at 1 o'clock this afternoon from the African M. E. church. Rev. George H. Byan officiating.

The deceased leaves a wife and two children. He had resided in Albuquerque for the past seven years and was much respected.

England Celebrates Nelson's Victory.
London, Oct. 21.—In every part of the British empire and wherever a British man of war floats the one hundredth anniversary of Nelson's victory over the combined fleets of France and Spain, off Cape Trafalgar, is being celebrated. Nelson's column in this city was profusely decorated and its base piled high with floral tributes.

America's Egg Crop.
The egg and poultry earnings of the United States for one recent year amounted to \$280,000,000. Such an amount is sufficiently amazing as it stands, but you don't get its full significance until you study the relative financial values of other "industries."

We find, for instance, that the total value of the gold, silver, wool and sheep produced in America during the year in question was \$273,434,315. The sugar production of the country the same year was but \$20,000,000. That part of the wheat crop used at home, which many consider the most valuable of all our agricultural products, was worth \$229,000,000. The great American hog, as consumed at home and abroad, brought \$186,529,035. The value of the oats crop was \$75,984,908. Potatoes grown in the United States were valued at nearly as large a sum as were the oats. The product of tobacco plantations was estimated to be worth \$35,579,225. Cotton, the dethroned king of staples, could show only \$259,161,640, as against the magnificent earnings of its feather rival. The crops of flax, timothy, clover, millet and cane seeds, broom corn, castor beans, hay, straw and so forth counted, all told, come within a measurable distance of many millions of the poultry earnings.

The hens' eggs produced in this country annually would fill 43,127,069 crates, each of the latter holding 360 eggs; also, a train of refrigerator cars to carry these eggs would be nearly 900 miles long. Furthermore, it would take 107,818 such cars to make up this train.

Insomnia and Indigestion Cured.
"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by all druggists.

The Metal Market.
New York, Oct. 27.—Lake copper is quoted at \$16.37 1/2 @ 16.75; electrolytic, at \$16.25 @ 16.62 1/2; and casting, at \$16.00 @ 16.37 1/2.

Lead was quoted at \$5.99 @ 6.35, nominal on spot, with supplies to arrive at \$4.85.

Spelter shows continued firmness at \$6.15 @ 6.25.

MAINZ GETS BADLY SCRATCHED BY HOBO AT ISLETA

Santa Fe Officer Leads Strenuous Life at Junction.

JUSTICE CRAIG DISMISSES
BOTH ELLIS AND MAINZ CASES

Charles Mainz, the special officer of the Santa Fe, to whom is assigned the rather strenuous duty of keeping the hobos on the move at Iseta Junction, is leading an active life these days. He appeared in the city yesterday from the ancient pueblo with his countenance adorned by several long jagged looking scratches made by the finger nails of a native tough who attacked the officer Friday night when the latter gave him some instructions about moving on.

The man made a vicious attack on Mainz, tearing at the officer's face with his hands, but inflicting nothing worse than some bad scratches before he was persuaded to desist.

Iseta is without doubt the toughest "beat" on the system, and a day rarely passes by but what Mr. Mainz has trouble with the tramps and hoodlums who pour into the junction on freight and passenger trains, and who endeavor to "change cars" without being discovered by the alert watchman.

Ellis and Mainz Dismissed.
Justice George Craig yesterday dismissed the two assault cases which he has been hearing for the past two or three days. One was filed by Ellis, the negro who was shot while resisting Officer Mainz at Iseta, and the other was a counter charge filed by the officer, who alleged that the black man tried to carve him with a razor. The court dismissed both cases on the ground that the evidence was insufficient to bind either man over to the grand jury.

The negro alleged that he was running from the officer and was twenty feet away when he was shot, and also denied having a razor on him at the time. Mainz asserted that he shot the man when he attempted to assault him with the tommy knife, and that his action was in self defense.

TERRITORIALISMS

A brass band is being organized at Clifton.

Navajo county at the recent term of district court sent five persons to the Yuma penitentiary.

William Whitfield is the new minister that will hereafter fill the pulpit in the M. E. church at Winslow.

The regular quarterly session of the Live Stock Sanitary board will be held in Phoenix on Tuesday, the 24th.

Good for Big Dividends.
An exhibit of Yuma's products and resources at the territorial fair is good for one hundred per cent dividends monthly.—Phoenix Gazette.

Rush the Cans.
The farmers of the valley could keep several canning factories well supplied with raw material and they are entitled to a profitable home market.—Phoenix Gazette.

Big Crops on Frisco.
The crops in Socorro county have been unusually large this year, owing to a plentiful supply of water. In the Frisco valley, Socorro county, 20,000 pounds of beans have been raised this year, and between 65,000 and 70,000 pounds of corn.

Foreman's Leg Broken.
W. J. Phinazee, the assistant foreman of the United Verde mine, met with quite a painful accident last week. One leg was broken just above the ankle, while he sustained several other bad bruises. This accident was caused by the breaking of one of the wheels of the car in his charge, which resulted in the car turning over on Mr. Phinazee with the above results. He is suffering no little pain, and says it will be sixty days before he will be able to resume work.

A New Saw Mill.
A. Sandoval, proprietor of the large sawmill at Guadalupe, Mora county, is in Las Vegas, looking up a location for his sawmill in this county. Mr. Sandoval says that there is an abundance of timber near his present location, but he wants to be nearer to Las Vegas, one of his principal markets, and he also wants better transportation facilities afforded by the proximity of the Santa Fe railway. He will locate about twelve miles west of Las Vegas, in a region covered with excellent timber.—Las Vegas Optic.

ENGINE EXPLOSION WRECKS FREIGHT ON SOUTHWESTERN

Engineer and Fireman Both
Badly Injured.

CROWN SHEET BLOWS OUT
CREW FRIGHTFULLY SCALDED

Special to the Morning Journal.
Alamogordo, N. M., Oct. 21.—While running at a speed of nearly thirty miles an hour, engine 755, pulling southbound freight train No. 33, blew out a crown sheet just south of mile post 61 near Escondido, on the eastern division of the El Paso & Southwestern, at 2 o'clock yesterday morning. Four men were badly hurt, Engineer George Longner and Fireman Fred Bridgeford being so frightfully injured that they may die. The fireman was standing in front of the furnace door when the explosion occurred, and was literally cooked in the steam and scalding water. Physicians say hope for his recovery is very slight. The engineer was buried for two hours under the wreckage of his engine and coke from the freight cars, but will probably recover from his injuries. The accident was one of the worst that ever occurred on the road.

The engine was reduced to scrap iron and turned over on its side, with coal cars piled over it in a mass of wreckage. A native, named Hignosa, who was riding on the water car next to the engine, was badly hurt. Brakesman McKenzie was also severely hurt. Low water in the boiler is supposed to have caused the explosion. Conductor Silvernail, who was in charge of the train, walked to Escondido, wired to Alamogordo, and a wrecking train was at once sent to clear the track.

The engineer and fireman are both Alamogordo men. They have been brought here for treatment.

Too Much Dope.
Mrs. Wyatt, wife of an employee of one of the gambling halls of Tucuman county, is in a serious condition from the effects of a dose of chloroform which she took a few days ago in a deliberate attempt to end her life. The attempt was foiled by the discovery of her act before the drug had had time to act and a physician was called and counteracted the influence of the poison.

New College Paper.
The University of Arizona will have a publication of its own again this year. It will be known as the Arizona Monthly, and will be published on the first day of each month. The journal will contribute materially to college life and to the spirit of the institution.

Indian Boys Caught.
The three Navajo Indian boys who ran away from the United States Indian Training School in Santa Fe last week were found at the Jemez pueblo in Sandoval county and returned to the school Saturday evening. F. G. Blake, proprietor of the Pearl Valley ranch near Blind, reports that the boys called at the ranch on Saturday very hungry and tired. He was not at home at the time, his wife talking to the boys. They told Mrs. Blake that they were on their way to Cabello, but they were found before they reached that point.

Forty Cars of Sheep.
In the past three days the Santa Fe Central has handled forty cars of sheep from Stanley to Santa Fe, where the sheep were transferred to the Denver & Rio Grande for shipment.

**THE WAY THEY DO IT
DOWN ON THE BORDER**
"Vamo!" ordered the American officer, as he led the Mexican desperado to the international line and forced him to cross it.

"Te queremos, amigo." (We want thee, friend) said a Mexican officer as two of them stepped forward, grasped the man by the arms and securely handcuffed him, says the Nogales Ozon.

The incident occurred at the Morley avenue crossing of the international line Monday evening. Immigration Inspector Murphy of Tucson had arrived in Nogales but a few minutes before, having in charge Louis Rivers, the Mexican murderer captured

HOW SHAW FIGHTS THE UNITED VERDE INFERNO WITH AIR

Expert Is Blowing Out the
Great Underground Fire.

SUCCEEDS IN CONTROLLING
THE DEADLY FUMES

Jerome, Ariz., Oct. 21.—The Jerome News says: That J. J. Shaw has succeeded in controlling the fire and fumes in the fire district in the United Verde mine is now almost an assured fact, after only a few days' work with his compressed air system. General Manager Charles W. Clark said: "While Mr. Shaw has only been working a little over a week, he has demonstrated that he is able to compete with the fire. There is great danger in handling this proposition, which Mr. Shaw and his men fully appreciate, but they express themselves as willing to proceed with the work, claiming that they have done far more hazardous mining than they are now employed at, and that they seem to feel certain of their position. I believe that if this idea of fighting underground fire with air were put to the test mining men in the world, they would immediately say it was all rot, and that the air would do nothing but feed the fire."

"I have no doubt as to being able to handle the fire and fumes, my only fears are as to my ability to handle the ground, it being naturally very much broken up. This is not an experiment by any means. I have successfully used this same process in combating fires in coal mines in Pennsylvania. Three years ago I went to the Iron Mountain mine, in Shasta county, Cal., a mine that for nine years previous to that time was compelled to shut down on account of fire. The process I am using here I am using there, and the mine has been working continuously during the past three years. I have taken out ore that carried a heat of 450 degrees. While the ground is working is at times very hot, the men are working in an air that is fresh and moderately cool as they work in the same clothing as that they would wear if working in the open air. The temperature where the men are now working was 125 when first opened, but is now only 85. We are now taking out ore, and if caves do not trouble us, will continue to do so."

The machinery used in driving in the air is at the surface of the 300 foot tunnel, and forces the air 1200 feet to where the men are working. Mr. Shaw is certainly making good now, and continued success means another big furnace at the smelter and employment for a large number more men in the mine. The miners now working with Mr. Shaw are Spaniards, who worked with him in the Iron Mountain. Twenty men arrived in Jerome from that mine last week.

by Rangers Olds and Coffee a few weeks ago.

He had been taken in charge by the immigration officials to avoid the possibility of his being ordered released on habeas corpus proceedings, which had been instituted. Word had had been sent to the Mexican officials that he would be brought to the line Monday night, and released, and accordingly two Mexican officers were there to meet him. He is now in the Nogales, Sonora, jail, from which place he will soon be taken back to Altar Sonora, there to serve out his unexpired term of fifteen years, to which he was sentenced for murder three years ago. Back in the little jail at Altar, the ex-jailer, held in lieu of the prisoner who escaped him eighteen months ago, is praying for his speedy return.

LOCAL ITEMS OF INTEREST

THE WEATHER

Forecast.
Washington, Oct. 21.—New Mexico and Arizona—Fair Sunday and Monday; warmer Sunday in south portion.

Dr. G. W. Harrison has returned from a visit in Missouri.

James I. Long, of Parral, Mexico, is in Albuquerque on business.

Dr. J. W. Eider left yesterday for an extended trip to Pittsburgh and other eastern cities.

M. C. Westbrook, the contractor, arrived in the city yesterday from Thorau to spend Sunday here.

Arthur Cavanaugh, of Gross Kelly and company, is in the northern part of the territory on a business trip.

Superintendent John W. Sullivan, of the coal mines at Hagan, Albuquerque to remain until tomorrow.

R. H. Colvin, who is employed on the engineering corps on the Belmont cut-off, was in the city on business yesterday.

Mrs. W. W. Spargo and children returned last night from an extended trip to Wheeling, West Virginia, and Columbus, Ohio.

D. A. Shope, of Winslow, superintendent of bridges and buildings on the western division, was a visitor in the local shops yesterday.

Superintendent H. O. Bursum, of the New Mexico penitentiary in Santa Fe, came down from the Ancient last night to spend Sunday here.

Louis Pelatan, T. Leonard Capdeville and E. Lemaire, of Paris, France, who are on a tour of the United States, were guests of the Alvarado yesterday.

President Charles R. Keyes, of the territorial school of mines at Socorro, was in the city a short time yesterday on his way north from the Gem city.

A handsome electric sign has been hung by the Electric Light company in front of the store of M. Mandell, the well known clothier, on Railroad avenue.

General Western Agent J. J. Ford, for the Lake Shore and Michigan Southern railway has gone to El Paso after spending two days in Albuquerque on business.

Seth Reub and daughter, Mrs. Bessie Buckner left yesterday morning for their home in Topeka, after a visit with Mr. Reub's son, John Reub, of South Arno street.

While you are down town this week drop into the Big Indian store, corner Railroad avenue and First street, and settle a few of those bothersome Christmas problems.

Mrs. O. S. Warren, of Silver City, who is engaged in the insurance business at that place, was in the city yesterday attending the meetings of the Order of the Eastern Star.

Albert Faber, the well known carpet merchant, who has been seriously ill in St. Joseph's hospital for the last month with rheumatism, was able to be out and around for the first time yesterday.

Bishop A. P. Morrison, of the Episcopal church, who preaches at the Lead Avenue church today returned yesterday morning from Silver City, where he has been attending the Methodist conference for the past week.

George Baucus, of the Albuquerque Transfer company, went up to Thornton yesterday morning to superintend the transfer of the last of the Blum machinery which is to be shipped to Col. W. C. Greene in Cananea, Sonora, Mexico.

President W. G. Tight, of the University, delivered an interesting lecture last night at the Woman's club rooms in the Commercial club building on the subject, "Freedom of Individual Conscience in Religious Thought."

Archie, the little son of Mr. and Mrs. George Waller, of 191 West Lead avenue, died yesterday morning after a short illness. The funeral will be held this afternoon at the home, Rev. J. W. Barron, of the Congregational church to have charge of the services.

Charles Whittemore, postmaster at Linden, Osage county, Kansas, has left for his home after spending a day in Albuquerque en route east from Holbrook, Arizona. While there Mr. Whittemore purchased a valuable sheep ranch in Navajo county, not far from Holbrook, for \$25,000.

Mrs. Sophia Barlow, aged 22 years, died yesterday afternoon at her residence, 263 Roma avenue after a long illness. Deceased came to Albuquerque nine months ago, accompanied by her husband and sister, from Richmond, Virginia, where the remains will be sent today for interment by O. W. Strong's Sons.

Red Catches Fire.
The fire department was called at about 9 o'clock yesterday morning to the residence of J. B. Coleman on North Arno street. A small stove near a bed in which two children were sleeping ignited the bedding. The fire was discovered just in time to save the children from being badly burned. The damage to the house amounted to about \$20.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.

A Heart-to-Heart Talk

by a merchant who knows—with customers who want to know—about

Good Clothes

EVERYBODY knows, now-a-days, that only a few obstinate men continue to have their clothes made to order. Perhaps they do it because they dislike the term "ready-made." In most cases they like to pay for a fashionable tailor's label, these are the only two plausible reasons. On the other hand there is every reason why a man should economize when he can get absolutely the best there is to be had by patronizing the clothing store that he knows can meet his requirements. It then becomes largely a question of quality and right price. We know exactly where we stand on this question; and in offering a complete line of our guaranteed clothing we present clothing that stands pre eminent in the quality of its goods and workmanship, and unsurpassed for the style features. We commend it to your good judgment.
