ABDICATION OF EMPEROR NICHOLAS FINISHES THREE CENTURIES OF ROMANOFF OPPRESSION

FRIGHTFUL WRECK ON SANTA FE

Train No. 1 Demolished Near
Kansas City.

THIRTEEN KILLED AND
OVER THIRTY INJURED

California Express Hits Loose Rail
While Making Up Time and
Appalling Disaster
Follows.

Kansas City, Oct. 30.—Thirteen persons were killed and thirty injured in the wreck today of the California Express, Topeka & Santa Fe passenger train No. 1, known as the California express, which, while running at the rate of thirty-five miles an hour, struck a loose rail, ditching five cars, one mile east of Blue River, which is the eastern limit of this city. The train, which left Chicago at 10 o'clock last night, and was due here at 10:30 this morning, is a through train running between Chicago and San Francisco. It was running at a higher speed than usual, being ten or fifteen minutes behind its schedule. The wreck occurred at what railroad men call Rock Creek cut, on a curve where jagged rock walls on either side of the track form a bluff almost a hundred feet high. The engine was going so rapidly that it passed the loose rail in safety. The mail car, immediately behind, jumped the track and struck the side of the bluff to the right, and the four cars following plunged through it and shot against the high stone wall at the left. The sides of the coaches were torn off by scraping against the rough stone surface, and the passengers and trunks were hurled against the wall, were either killed outright or badly hurt. The cars which left the track were a mail car, baggage and express car, smoking car, chair car, and a tourist sleeping car. Three tourist sleeping cars, two standard Pullmans and the dining car ahead of them remained on the rails. The baggage car when it stopped was on top of what was left of the smoking car. The other derailed cars were jammed against the rocks of the bluff except the splintered fragments of the smoker.

None of the passengers in the cars which remained on the track were injured. Relief trains with surgeons and physicians left this city for the scene of the wreck as soon as possible. Pending the arrival of the relief train the able-bodied passengers and trainmen did all they could to care for the dead and alleviate the distress of the injured. Their efforts were handicapped by a cold rain which fell steadily and added to the gloom of the situation. The passengers worked heroically under difficulties and when the doctors arrived most of the dead and injured had been taken out of the wreckage. In many instances it was necessary to dig under the debris to extricate the unfortunate victims. One man in the smoker had been pinned against a hot stove, with one foot in the stove, suffering untold agony as his foot was slowly burned by the live coals. This was one of the many agonizing scenes witnessed by the rescuers. The injured were given emergency treatment at the scene of the wreck, and later brought to the hospital in this city, where it is reported tonight that all will recover.

The dead were taken in charge by the county coroner and brought to the local morgues.

The Dead.
ROY STAFFORD, 193 Hayden ave., Cleveland.
LEE D. MONTGOMERY, Linneus, Mo.
JAMES SEYMOUR, Richmond, Mo., cashier of the Ray County Savings bank.
JOHN MCGREGOR, a Santa Fe engineer, Fort Madison, Iowa.
MICHAEL SCHNEIDER, Chicago.

DISPERSING RIOTERS OUTSIDE THE PUTILOFF WORKS, ST. PETERSBURG. From ILLUSTRIRTE ZEITUNG

SELF RULE AT LAST FOR RUSSIAN MASSES

Millions of Subjects Admitted to Voice in Government by Decree Which at One Stroke Effects Bloodless Revolution.

St. Petersburg, October 30.—The following is the text of the imperial manifesto:

We, Nicholas II, by the grace of God emperor and autocrat of all the Russias, grand duke of Finland, etc., declare to all our faithful subjects that the trouble and agitation in our capitals and in numerous other places fill our heart with excessive pain and sorrow.

The happiness of the Russian sovereign is indissolubly bound up with the happiness of our people, and the sorrow of our people is the sorrow of the sovereign.

From the present disorders of our people may arise great national disruption. They menace the integrity and unity of our empire.

The supreme duty upon us by our sovereign office requires us to efface ourself and to use all the force and reason at our command to hasten in securing the unity and co-ordination of the power of the central government and to assure the success of measures for pacification in all circles of public life, which are essential to the well being of our people.

We therefore direct our government to carry out our inflexible will in the following manner:

First.—To extend to the population the immutable foundations of civil liberty, based upon the real inviolability of person, freedom of conscience, speech, union and association.

Second.—Without suspending the already ordered elections to the state duma, to invite the participation in the duma, so far as the limited time before the convocation of the duma will permit, of those classes of the population now completely deprived of electoral rights, leaving the ultimate development of the principle of electoral right in general to the newly established legislative order of things.

Third.—To establish an unchangeable rule that no law shall be enforceable without the approval of the state duma, and that it shall be possible for the elected of the people to exercise real participation in the supervision of the legality of the acts of the authorities appointed by us.

We appeal to all the faithful sons of Russia to remember their duty toward the fatherland, and aid in terminating these unprecedented troubles, and apply their forces in co-operation to the restoration of calm and peace upon our natal soil.

Given at Peterhof, October 30, 1905, in the eleventh year of our reign.

near; leg broken; bruised about head and body.
Campbell Grant, Retford, England, on way to Los Angeles, 119 East Fifth street, Los Angeles; head and chest crushed; probably hurt internally; condition serious.

R. C. Curtis, Chicago, both legs broken; severe bruises.
John Fields, Chicago, cuts on head and body.
William Burrows, New York, cuts and bruises on body.
Thomas Garvin, Canton, Ohio, severely cut in head; back wrenched.

Maxie Donald, Sweden; cuts on head.
A. R. Nelson, Chicago, cuts on head, body bruised.
John Sanden, Chicago, cuts on body and head.
J. F. Harris, Chicago, cuts and bruises.

Charles Crawford, Atchison, Kas., scalp wounds.
George Kias, iron moulder, Buffalo, arms broken.
Edward Mays, Anderson, Ind., bruises on head and body.

G. A. Zandine, immigrant, from Sweden to California; badly bruised.
Swedish woman who cannot speak English; badly hurt.
John Brown, Chicago; leg crushed.

J. E. May, Leavenworth, Kas., cuts on head.
William Novoteki, Montreal; cuts on head.
W. S. Vernon, Pullman, Ill., cuts on head and body.

Said to Be Only \$14,000.
St. Paul, Oct. 30.—At the office of the Northern Express company it is said the amount in the express package is \$14,000 instead of \$25,000. No details are given out.

GERMANY IS NOT ATTEMPTING ANY RETALIATION

Von Sternberg Professes
Good Will Toward America

WOULD HAVE FRIENDLY TRADE
RELATIONS WITH YANKEES

Berlin, Oct. 30.—Baron Speck von Sternberg, German ambassador to the United States, who sailed for New York October 25, on the North German Lloyd steamer Kaiser Wilhelm II, will on his arrival at Washington this week submit to President Roosevelt proposals of the German government for a new trade agreement between Germany and the United States. The ambassador takes with him full knowledge of the German government's position and is prepared to negotiate. The correspondent of the Associated Press here asked the foreign office in view of the public interest in the United States on this subject, if the imperial chancellor would not define Germany's attitude with some precision. Prince von Bismarck received the correspondent today, and among other things, he said: "An idea, I suspect, is abroad in America that the changes in the German tariffs and modifications were in some way directed against the United States. This, I am glad to say, was never a motive with the German government, and the proposals that are about to be made are designed to increase the exchanges between the two countries and not to contract them. The facilities for transportation between Germany and the United States are destroying their locality and by the operation of forces beyond the control of either of them are bringing the two peoples into greater economic contact. Each country has special aptitudes and products of which the other may avail itself and yet maintain the revenue and protective systems adjusted to its individual situation."

"Germany is as little inclined to shape its commercial policy according to rigid dogma as the United States. We desire to promote the interests of our country and act in consideration of its economic needs. The old tariff of 1879, with the amendments added in from time to time, no longer correspond in view of the development of Germany's economic life, with our interests. Germany's agriculture in particular suffered in consequence of the treaties of the twenties, whose chief purpose was to win the foreign markets. For this reason special attention was given to German agriculture in the new tariffs."

That this aim is not hostile to the commercial treaties and can be reconciled with the spirit of consideration for the interests of other countries was already proven by the negotiation of a new series of commercial conventions. With the United States, too, we can live upon a friendly footing in trade relations and extend our system of exchanges to the advantage of both countries. Such is our will."

SIX KILLED IN ROCK ISLAND SMASH-UP

TWO FREIGHT TRAINS COLLIDE
IN IOWA WITH FEARFUL
RESULTS.

Des Moines, Ia., Oct. 30.—In a head-on collision tonight between two freight trains on the Chicago, Rock Island and Pacific railroad at Casey, Iowa, six men were killed. They were: ED NELSON, fireman.
BERT SHIELDS, engineer.
WILLIAM MARSHALL, fireman.
FRANK JONES, brakeman, all of Valley Junction, Iowa.
REV. J. W. CALDWELL, Van Meter, Iowa.
Caldwell was riding in the caboose. One unknown man.

YELLOW FEVER FIGHTERS DISBANDING

EMPLOYEES BEING DISCHARGED
AND QUARANTINES
LIFTED.

New Orleans, La., Oct. 30.—Yellow fever report up to 6 p. m.:
New cases, 4.
Total, 3,292.
Deaths, none.
Total, 444.
New foci, 1.
Cases under treatment, 25.
Cases discharged, 3,924.
The work of ending the yellow fever campaign by discharging employees no longer needed and lifting quarantines continued today.

"SCOTTY" MAY DIE AS RESULT OF WILD AUTOMOBILE TRIP

Death Valley Miner Prob-
ably Fatally Injured.

THROWN FROM MACHINE
SPEEDING ON A WAGER

Los Angeles, Cal., Oct. 30.—Walter Scott, the Death Valley miner, who a few weeks ago attracted wide notice by a record run in a special train over the Santa Fe railroad from Los Angeles to Chicago was seriously if not fatally injured in an automobile accident here tonight. J. Davidson, newspaper reporter and Harry Milling, proprietor of the Imperial cafe, were also injured in the accident. The three men were in an automobile which was being driven to Pasadena and return from this city on a wager of \$500 that the trip could be made in forty minutes. On the return journey while leaving the approach to the wagon bridge at Elysian Park, the tire from one of the rear wheels came off, the wheel was smashed, and the automobile swerved and upset. Scott and Davidson were thrown against the stone abutment of the bridge.

HEAVY SEA KEEPS PRESIDENT ON CRUISER

TRANSFER FROM WEST VIRGINIA
TO DELPHIN WILL BE MADE AT
MOUTH OF POTOMAC

Norfolk, Va., Oct. 30.—The cruiser West Virginia, with President Roosevelt on board, arrived here tonight. On account of the heavy sea it was decided that the president would not transship to the Delphin at Lynn Haven but intended. The Delphin and the cruiser squadron proceeded to the Chesapeake Bay.
At Smith's Point, the mouth of the Potomac, the transfer will be made.

Stockholders May Inspect Locks.
Washington, Oct. 30.—On deciding the case of J. W. Guthrie vs. H. L. Harkness, the supreme court of the United States today decided that a stockholder in a national bank is entitled to inspect the books of the bank. The case arose in connection with the Commercial National bank of Ogden, Utah, of which Harkness owned one-fifth of the stock. He was denied the right of inspection. The supreme court of the state decided in favor of his contention and that decision was affirmed today. The opinion was delivered by Justice Day.

Marines Rescue Americans.
London, Oct. 30.—A dispatch to the Evening Standard from Shanghai, says Rear Admiral Train, commander-in-chief of the American Asiatic squadron, and his son Lieutenant Train have been the victims of a savage attack by Chinese outside of Nanking and were obliged to fire twice upon the Chinese mob before they accomplished their purpose. The Chinese officials refused to restore the guns and support the villagers.

ARGUMENT HEARD IN PATTERSON CASE

MOTION BEFORE COURT TO
QUASH CHARGE OF CONTEMPT
AGAINST COLORADO SENATOR.

Denver, Colo., Oct. 30.—Argument on the motion to quash the information charging contempt against United States Senator Thomas M. Patterson filed last June at the instance of the supreme court was heard today. The court ordered Patterson's attorneys and the attorney general to file briefs by next Monday.

HELPLESS IN THE POWER OF AWAKENED PEOPLE CZAR GIVES UP FIGHT

Imperial Manifesto Surrenders Title of Autocrat of
All the Russias and Declares Old Regime
of Absolutism Is at an End.

PREMIER WITTE TAKES HELM
OF STATE AND ASKS AMERICAN
PEOPLE TO REJOICE WITH HIM

St. Petersburg, October 30.—(Midnight.)—"I am sure the American people, who understand what freedom is, and the American press, which voices the wishes of the people, will rejoice with the friendly Russian nation at this moment, when the Russian people have received from his imperial majesty the promise and the guarantee of freedom, and will join in the hope that the Russian people will wisely aid in the realization of those liberties by co-operating with the government for their peaceful introduction. Only thus will it be possible to secure the full benefits of the freedom conferred upon the people."

Count Witte sent the above message to the American people through the Associated Press. He had just arrived at his residence from Peterhof, where in the Alexander palace, the emperor two hours before had given his final approval to a manifesto and to a program which will forever end the rule of absolutism exercised by him and his Romanoff ancestors for three hundred years.

A simple perusal of the manifesto shows how complete is the emperor's abdication of his autocratic powers. The very style of the document is clear and direct and devoid of the verbose, vague and bombastic phraseology which heretofore has characterized his majesty's manifestos. It not only betrays the real authorship, but shows that the emperor at last has irrevocably bowed to the inevitable. He does not even conceal the fact that the discontent and agitation of his subjects has driven him to take this step, and practically yields everything—civil liberty, inviolability of person and liberty of conscience, speech and assembly. He not only converts the farcical imperial duma, with only consultative power, into an absolute legislative assembly without the assent of which no measure shall become law, and before which all governmental authorities must answer, but promises eventually universal suffrage.

The title "Autocrat of All the Russias," with which the manifesto begins, now takes its place with the title of "King of Jerusalem," borne by the king of Spain and the emperor of Austria, and with other obsolete titles of European sovereigns.

NEWS SPREADS LIKE WILDFIRE.
J. Pierpont Morgan, Jr. and George W. Perkins were with Finance Minister Kokovoff when the latter received the news. It was a dramatic moment. The minister was called to the telephone, and when he returned he was greatly agitated, and said: "Gentlemen, the old order of things has changed. Russia now has a constitution."

The news spread like wildfire throughout the city. The revolutionists and active agitators generally declared loudly that the government's promises would no longer suffice, and that the strike must be continued.

In fact, an hour after the news became known the revolutionists took occasion to throw the first bomb in St. Petersburg used since the strike began. The incident occurred at the Polytechnic school, but there was no fatality. Practically all classes, except the socialists and the extreme radicals, however, read the document with delight and amazement and declared that it could not fail to rally the moderates to the support of Count Witte. By the irony of fate, while the strikers are clamoring for a constitution it has been impossible to persuade the striking printers to resume work, and therefore not a single newspaper, except the Official Messenger, will print the momentous document for distribution tomorrow.

Arrangements, however, have been made to placard the manifesto on every dead wall in the city, and the text will be telegraphed tomorrow to every city, town and hamlet with which there is telegraphic communication. It has also been ordered read in all the churches of the empire.

The foreign embassies were notified, and lights are burning late tonight in the chancelleries, where the news is being put into cipher. Official notification will also be sent to the Russian ambassadors abroad.

EXPECT EFFECT TO BE INSTANTANEOUS.

The effect throughout Russia is expected to be instantaneous. While the extremists threaten an attempt to keep up the present struggle, the best opinion is that the backbone of the strike is broken, but in the final analysis, the effect will depend on how far Count Witte will be able to execute the heavy task which he has assumed.

Some persons high in the government believe it still will be necessary to use ball cartridges to suppress the present movement, but Count Witte appears confident. He has become the bridge whereby the people are to cross to constitutionalism.

The count has already tentatively selected the members of his cabinet. He will himself hold no portfolio. All present ministers, except those of war, navy and foreign affairs, will be retired. Prince Alexis Abolensky, one of the count's former assistants in the ministry of finance, will become minister of the interior; M. Romanoff, another former assistant of the minister, will take the finance portfolio; M. Koni, at present a senator and Russia's ablest jurist, will be minister of justice; M. Krosovsky, president of the St. Petersburg municipal council, will take the ministry of education, and M. Selgier von Schaffhausen, chief of the railroad department of the ministry of finance, will become minister of ways and communications.

Late tonight, after the news got abroad, crowds began marching up and down the Nevsky Prospect, singing the national hymn and hurrahing for liberty. It is significant that the great searchlight, which has been lighting up the Nevsky Prospect from the admiralty tower for the last three nights was turned off tonight.

A ludicrous incident occurred at midnight near the university when the newboys, with an extra edition of the Official Messenger, hurried into a crowd of strikers. The instant the news became known the strikers raised an uproarious cheer, and the Cossacks who were patrolling the streets, misunderstanding the import of the demonstration and thinking that the cries were seditious, charged and dispersed the workmen with their whips.

ONLY THE COSSACKS REMAIN FAITHFUL.

St. Petersburg, October 30.—The city continues outwardly calm, but there is much intense excitement beneath the surface. The strike committee continues to restrain people, this being considered the best means of attaining the end in view. The members of the committee know that a collision would force a show of hands. The Cossacks are absolutely faithful to the existing regime. The Ismailovsky guard regiment which was reported disaffected during the troubles of last winter, is now reported to have refused to do guard duty and to be confined to the barracks, surrounded by Cossacks. An investi-

sation by the Associated Press, however, failed to confirm this. The city is filled by false and sensational reports set afloat by the revolutionists.

30,000 PASSENGERS

HELD AT KHARKOFF
Kharkoff, Russia, Oct. 30.—The post office has resumed work, but no trains are running. About thirty thousand passengers are held up here, costing the government \$14,000 per day.

STRIKE TERMINATED

ON THREE RAILWAYS
St. Petersburg, Oct. 30.—The strike has ended on the Moscow and St. Petersburg, the Moscow and Kazan and the Moscow and Archangel railroads.

BUSINESS PARALYZED AND

BANKS REFUSE TO LEND

Vitebsk, Russia, Oct. 30.—The whole population of this city has joined in the strike. The feeling is high, trade is at a standstill, the workmen's meetings are crowded to the doors, inflammatory speeches are delivered, and the banks refuse to lend money.

Aged Imbecile Lost.

Oakland, Cal., Oct. 30.—Circulars announcing the disappearance of Enoch Meeker, a resident of Portland, from the county infirmary in the county where he had been sent until his family could be communicated with, are being sent out broadcast by the Associated Charities of this city, which has taken an interest in Meeker's case. He was formerly a reputable and well-to-do business man of Portland and recently came to California on a visit to friends at Santa Ana.

It is stated that Meeker started on his return trip to Portland after his visit, and got as far as this city, when he either became demented or was injured and was found wandering about and on September 18 was sent out to the county infirmary. Before letters had time to pass between his son at Portland and the Associated Charities here he wandered away from the infirmary and after waiting more than a month in the hope that he would find his way home, an effort through the police is to be made to find some trace of him.

He wears a long, flowing beard, weighs about 170 pounds, and is 5 feet 11 inches tall and an American.

PEOPLE OF MOSCOW

FLY BY THOUSANDS

Warsaw, Oct. 30.—A telegram received from Moscow says the strikers have destroyed the Belt railroad and two houses, one belonging to the governor. Thousands of wealthy Moscow inhabitants are leaving the city by every and any means available.

PERSISTENT RUMORS OF

BLACK SEA MUTINY

Gdansk, Oct. 30.—Persistent rumors are in circulation here that the crews of the vessels composing the Black sea fleet mutinied on arriving at Samson, on the coast of Asia Minor, killed Admiral Birliff and Choukern, and sailed back to Sevastopol, having hoisted revolutionary flags. It is impossible to verify this.

COSSACKS KEEP GUARD

OVER MUTINIOUS INFANTRY

Gdansk, Oct. 30.—It is impossible even approximately to number yesterday's victims. A number of encounters are between the people and the Cossacks is known, but the authorities refuse to state how many troops were killed or injured. The infantry whose loyalty is doubtful, is kept in the barracks under Cossack guard.

SOLDIERS DISCHARGE

RIFLES IN THE AIR

Lodz, Oct. 30.—The situation here grows worse hourly. The infantry when ordered to fire upon the people are discharging their rifles in the air. The crowds are tearing down the Russian flags which were displayed by order of the police.

BUFFALO BANK SENSATION

A CLOSED INCIDENT

INDEBTEDNESS WHICH CAUSED

CASHIER'S SUICIDE SETTLED TO

LAST DOLLAR.

Buffalo, N. Y., Oct. 30.—Late today at the Citizens Bank, Nathan Eckstein, cashier, paid to Vice President C. Fred Zeller what was announced to be a considerable sum of money, presumed to be between \$45,000 and \$50,000. The money paid into the bank was just enough to take up all the notes of Eckstein's brothers, Charles and Adolf of the Whitney-Eckstein Seed company of Buffalo, held by the bank. The paper was transferred to Nathan Eckstein.

Thus was settled without the loss of a dollar to the bank the indebtedness believed to have caused the young cashier, Henry J. Block to commit suicide. The affair is now regarded as a closed incident so far as the bank is concerned. The body of the young cashier was brought home tonight. His books, which were examined today were found to be correct.

Block knew last Friday, according to Lyman Baker, attorney for the Ecksteins that the money to take up the paper was available and would be paid over to the bank today.

"Mr. Zeller made a mistake in saying that there were forgeries in connection with the warehouse receipts upon which Mr. Block loaned," said Mr. Baker. "The only difficulty was that more money was advanced than the collateral was worth."

"Fighting Bob" Hoists Anchor.

Norfolk, Va., Oct. 30.—Two battleship divisions of the North Atlantic fleet, under command of Rear Admiral Hobley D. Evans, sailed for Hampton Roads at 6 o'clock this morning and at 8:40 were reported at Cape Henry as proceeding up Chesapeake bay for Annapolis, where they go to prepare for a reception to the British North Atlantic squadron under command of Prince Louis of Battenberg, which is due at Annapolis in the next few days.

Garbage Furnishes Lights.

New York, Oct. 30.—The municipal lighting of public structures will be re-lit tonight. When darkness closes about the new Williamsburg bridge, its thousands of electric lights will be made to shine out for the first time by an electric current generated at the city's incineration plant and where tons of refuse gathered by the department of street cleaning will be used as fuel. The plan will save the taxpayers many thousands of dollars every year.

Now Looking for the Dissector.

Boston, Mass., Oct. 30.—Yesterday's investigations have satisfied the police that the victim of the "suit case" tragedy was Susan Geary, a chorus girl. Morris Nathan, to whom the girl was engaged, is being held at Pittsburg pending further investigation. As only a skilled surgeon could have dissected the body in the manner in which it was done, the police are endeavoring to find the doctor whom the girl consulted shortly before her death.

Valuable Express Package Missing.

Helena, Mont., Oct. 30.—The contents of a \$125.00 express package sent from Hamilton, Mont., to New York, are missing, and detectives are trying to discover what became of the money. The seals were unbroken when the package arrived in New York.

What Joy They Bring To Every Home

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

ELECTION BOARD REJECTS NAME OF MR. JEROME

As Ineligible to Appear on Republican Ticket.

ALREADY ON BALLOT AS INDEPENDENT CANDIDATE

New York, Oct. 30.—A tie vote of two republicans against two democrats who compose the board of elections, today rejected the republican party's request to place William T. Jerome's name in the republican column of the official ballot as a nominee for the office of district attorney in the coming city and county election. Mr. Jerome's name is already on the ballot as an independent candidate.

Later Justice McCall in the supreme court, on application of Henry L. Silimson, attorney for the republican county committee, issued an order directing the board to show cause tomorrow before Justice Stover why Mr. Jerome's name should not be placed on the official ballot under the republican emblem for district attorney.

SERVIAN CAPTAIN RELEASED FROM PRISON

RENEWS CAMPAIGN FOR PUNISHMENT OF MURDERERS OF ALEXANDER AND DRAGA.

Belgrade, Oct. 30.—Captain Milan Novakovich, the leader of the military movement which has for its object the punishment of the Servian regicide officers, who were sentenced to two years' imprisonment for the part he played, has just been released.

His first step has been to renew his campaign. He has published a letter in the press calling upon the king to mete out justice to the murderers of King Alexander and Queen Draga. "After two years," he writes, "I find the same disgraceful situation of seventy hardened criminals holding in check a people of two and a half millions, in defiance of an officers' corps numbering 2,000. The only point gained is their banishment from the palace, and this is due to the foreign representatives, who formally refused to enter precincts defiled by their presence."

"But their despotic power continues, discrediting the country to such an extent that it is plainly on the verge of a catastrophe. Therefore, I once more summon all lovers of justice and honor to join me in working for the removal of this cancer from the Servian army."

"Our only salvation lies in our proving to the world that we are not what it thinks us, by finishing without external aid or pressure, the dangerous question of the regicides. Our fate is in our own hands."

JESSEN WILL LIKELY REFUSE APPOINTMENT

NEBRASKA JUDGE HAS A PRETTY GOOD THING RIGHT IN HIS HOME STATE.

Nebraska City, Oct. 30.—Paul Jessen, of this city, who was appointed to an associate justiceship of Arizona, has at last been heard from. He has been on the Pacific coast on his honeymoon, and did not propose to leave anything to interfere with his happiness and seclusion. With his bride, Judge Jessen is now in Los Angeles, and writes that they will start on their return home Saturday or Sunday.

They will travel over the San Pedro line, stopping a day or two in Salt Lake City, and will arrive home the latter part of the week.

Judge Jessen writes he has not as yet made up his mind regarding the appointment to the Arizona bench, and will not give his answer until he reaches home and consults with his friends.

His friends are of the opinion that he will refuse to accept the appointment, and will remain in the city, for the position he now holds as judge of this judicial district is good for at least one, if not two terms more, unless he should allow his name to be used as a candidate for governor next fall, at the hands of the republican party of this state. In that event he will refuse to become a candidate for district judge.

BRITT-NELSON FIGHT IN ELKS' THEATER

EVERY DETAIL OF GREAT BATTLE OF LIGHTWEIGHTS TO BE REPRODUCED HERE.

Jack Donnelly of San Francisco, general agent for the Britt-Nelson moving picture show, arrived in Albuquerque last night from the west and closed arrangements with Manager Matson to present the moving pictures of the great battle at San Francisco in Elks theater Friday and Saturday nights of this week. The moving pictures of the Nelson-Britt fight are said to be the best ever made of any ring contest. The pictures have drawn enormous crowds wherever they have been shown, and as there are but five of the films, it is not likely that they will come this way again. One of the films is now on its way to Manila, and Australia, another is on the way to Europe. Photo has one on the Columbia circuit, and the other is in New

York. The film itself is sufficiently remarkable. It measures 5,062 feet, just 261 feet short of a mile in length. There are 32,369 separate pictures in the film, and it is operated by a perfect instrument. Five men are needed to operate the film, one of them being Joe Britt, brother of the former lightweight champion. Lovers of the pugilist art will enjoy his opportunity to see the big fight.

"The Chaperones"—A Brilliant Production.

The locale of Isidore Witmark's successful comedy-opera, "The Chaperones," which will be seen at Elks theater Thursday night, gives ample opportunity for the most lavish, not to say gorgeous, display of coloring both in scenery and costumes. The management of the organization presenting the piece this year has taken full advantage of this fact, and has given "The Chaperones" one of the most elaborate, not to say spectacular productions the musical stage has ever had. An oriental tinge which is always particularly effective, is secured in the last scene of the opera, which is laid at Alexandria, Egypt. Archie Dunn, the master artist, made designs for the costumes, all of which are new this season, and Joseph Phylis has painted an entire new set of scenery. This season's company contains the names of some of the best known and most popular artists in the light opera and musical comedy field, including Edith Valmesada, Ruth Lloyd, Doris Goodwin, Harry Laddell, John Price, George Lydecker, Frank Woolsey, W. V. Struna, and a chorus made up of young and pretty women, who can sing as well as be attractive on the stage. There are over twenty musical numbers, including the latest New York success, "The Whole Damn Family." Seats go on sale this morning.

NEW SANTA FE ELEVATOR TO BE MAMMOTH AFFAIR

Will Be One of Biggest in Chicago.

CHIEF ENGINEER STOREY DRAWS INGENUOUS PLANS

Plans and specifications are being prepared by W. B. Storey, Jr., chief engineer of the Atchison, Topeka & Santa Fe Railway company for a mammoth and modern grain elevator with adjoining storage bins to be erected in the company's yards at Chicago to take the place of the old elevator there which was destroyed by fire some six weeks ago.

This new elevator will embrace the novel details of the one which has just been built by the company at Argentine, Kas., and which were original with Mr. Storey, who developed the plans for that structure. While the plans for the new building at Chicago are not complete the details have been worked out and the elevator proper will have a working capacity of about four hundred thousand bushels of grain, and the storage bins will be able to hold about a million additional bushels. This capacity is about one-third larger than that of the new structure at Argentine.

Of course there are several elevators in Chicago which have a larger storage capacity than the one the Santa Fe proposes to build. In fact, the elevator which burned down had a capacity about as large as the new one will have. But grain men figure on the elevator's usefulness, according to its loading and unloading capacity, and the new one will have an unloading capacity that will be fifty per cent greater than the old one.

The increased unloading capacity is made possible by the manner in which the elevator will be built. It and the storage bins will be built over a basement in which will be laid four tracks, and twenty cars can be run in under the bins or elevator for loading or unloading at one time. This will give the structure an unloading capacity of about one and there will be no elevator in the country that will have such an unloading capacity.

It is in the construction of the storage bins that Mr. Storey has developed original ideas. There will be thirty-five of them in the new structure and they will be built on the same plan and will be about of the same size as those at Argentine, which were the first of the kind ever built in the country. They are circular in form with a diameter of twenty-five feet and a height of eighty-five feet. The walls of the cylinder are six inches in thickness and are joined together and the spaces between them by the junction of the walls are also used for storage purposes. There are many grain storage bins in the country constructed of concrete and reinforced with steel but they are built separately and the spaces between them are consequently wasted. It was for Mr. Storey to evolve the plan for building the circular bins so that the walls joined and thereby providing practically a lot of other bins.

Galleries connect the elevator proper with the bins and through these galleries run buckets and endless chains to carry the grain from the elevator to the bins.

Because the plans for the new structure at Chicago have not been completed as yet the cost of the work cannot be fixed exactly but Mr. Storey said yesterday that including the tracks in the basement he thought the cost of the entire affair would approximate six hundred dollars.

BISBEE DOESN'T LIKE SANTA FE RATE INCREASE

From the appearance of things the Santa Fe railroad is going to make the Dawson coal fields of Phelps-Dodge look good to Bisbee traders in fuel, and likewise sooner or later the consumers of coal, both of the domestic and industrial kind, says the Bisbee Review.

This is the opinion warranted by a sale of 65 cents on the ton put on coal by the railroad freight schedule lately and now effective. The rate is understood to have come from the freight department of the Santa Fe which exercises large control over all coal shipments made into this territory at the present time to dealers in fuel.

Coal and wood are now at high prices in the city, and addition of the 65 cents extra added to the freight charges would put coal almost out of consideration as a fuel for domestic purposes in the camp. Yesterday it was said by Mr. Burton, of Buxton & Smith, that the additional freight would not be added to the retail price of coal by city dealers. He said that he had had a conference with Moore & Co., regarding the matter, and that an agreement not to advance prices had been decided upon. Meantime the dealers intend making effort to secure abatement of the 65 cents on the ton added to the railroad freight rate, which is considered too high. Combined with the cost of handling ore here, which includes sacking and delivery, over roads and trails that for the most part compel the use of burros, the freight rate on the fuel at the present time puts it beyond the means of the present trade. It is expected by the coal dealers that when the Southwestern gets to handling the coal from the Dawson fields this situation will undergo immediate change, it having been announced some time ago by Prof. Douglas that the acquisition of the Dawson field would enable Phelps-Dodge to give cheaper coal to the several towns in which they are largely interested in the southwest.

EXPLOSION OF HUGE ENGINE WAS TERRIBLE

The remains of Engineer McClain and Fireman Christensen, who were instantly killed yesterday in the boiler explosion near Yuma, were brought to this city this morning on No. 44, says the Tucson Citizen.

Eye-witnesses told the after-effects say that the force must have been something almost incomprehensible. The heavy 180,000 pound boiler was tossed in the air as though it were a mere plaything, and when finally it came down it was in shreds, about 250 feet from the track, its heavy steel covering was in ribbons.

The bodies of the unfortunate trainmen were badly scalded and crushed. There is not the least doubt, however, but that death was merciful to them in that it came instantly and they never knew what happened.

The remains of Fireman Christensen were found about 50 feet from the track, and the body of Engineer

McClain was a short distance farther away.

The watch of the engineer was found 300 feet from the track and it was crushed almost to a pulp.

The force of the explosion lifted the heavy boiler and cast off the tracks and sent it whirling through the air. It went one hundred and fifty feet and then struck the ground and made a rebound landing finally about 100 feet farther away. Great holes—large enough to almost bury a box car—were made in the ground.

It is not known who is to blame for the explosion.

Fireman Christensen was engaged to be married to Mabel Stevens, daughter of C. A. Stevens of East Atameda street.

Belen Cut-Off Notes.

The depots at Willard and Texico with the exception of the one at Belen will be the largest of the entire line. They will be freight and passenger combined, frame structures 40x30 exclusive of platforms.

The steam shovel at Mountainair and the rock work in Abajo canyon are being pushed as rapidly as possible with shifts both night and day. The work of laying steel on bridge No. 1 commenced this week and it is estimated that it will take four months, with all the men that can be utilized to finish the canyon work.

The work of building the telegraph lines on the cut-off will begin in a few days and just everything else connected with the building of this line, it will be done in a hurry.—Estancia News.

New Engines for the West.

Two of the Santa Fe's fast, new 1200 class passenger engines went through Albuquerque yesterday for Winslow where they will go into service. The 200 class form the fastest and best passenger engines on the system. They are of the Pacific type, balanced compounds and have a maximum speed of 80 miles an hour. Twelve of these new engines are to be put in service out of Albuquerque and eight out of Winslow. The two sent west yesterday were the 1280 and the 1231, just from the factory.

Superintendent James Kurn, of the Rio Grande division and Trainmaster E. Payson Ripley were with San Marcial yesterday for the day.

B. P. Cheney, of Boston, one of the Santa Fe directors, arrived in Albuquerque last night in the director's car accompanied by Mrs. Cheney and General Superintendent R. J. Parker, of the western grand division. The party will leave this morning in a special train for southern New Mexico.

Raising Russian Ships.

The Japanese seem almost as successful in raising the Russian warships as in sinking them. It is announced that several of them have already been raised, but they were so completely wrecked as to be almost useless. As raisers of sunken warships the Japanese engineers are said to be the best in the world. The best medicine in the world for building up systems that have been wrecked by sickness is acknowledged by almost everybody to be Hostetter's Stomach Bitters. It has a strengthening and toning effect on the entire system, and is so safe and reliable that the weakest stomach can retain it. In cases of poor appetite, nausea, heartburn, belching, cramps, kidney troubles, dyspepsia, indigestion or constipation it is unequalled. The genuine has our Private Stamp over the neck of the bottle.

TUCSON, ARIZONA,
W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.

Very sincerely,
W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE

TUESDAY MORNING, OCTOBER 31, 1905.

All the Plagues of Egypt

WHILE the people of Albuquerque, in common with those of nearly all other sections of the United States, are engaged in a desperate contest with the great white plague, there are other people in the world who have more to contend with than we have. In the line of disease, poverty and unsanitary conditions, and prominent among them are the Chileans. A recent letter in the Hamburger Nachrichten from a special correspondent in Chile says that of all the questions that confront the attenuated republic along the west coast, the most insistent is the condition of the poor. "Smallpox," says the correspondent, "which is raging throughout the whole land, the constantly increasing deaths from tuberculosis, the many cases of typhoid fever, and finally, several cases of bubonic plague, have at last opened the eyes of the Chileans. For that these diseases have gained a firm foothold in the country is primarily due to the horrible conditions under which the poor live. In general the lower classes in Chile live in so-called 'conventillos,' which are one or two-roomed dwellings grouped around a square court. Here we find six or seven persons of both sexes living, sleeping, cooking in a single little room the floor of which is the naked earth, while the roof offers scarcely any resistance to the entrance of rain. Light and air can only come in by the door, as windows are unknown; the rooms abound in filth and vermin. It does not require much argument to prove that these lodging places are the hot-beds of pests and the breeding grounds of crime. The wide prevalence of small pox in Chile is directly traceable to these dwellings, and the scourge, rare in other countries, has raged here for two years."

How It Sometimes Works

AS A JUSTIFICATION of what sometimes appears to be discrimination in freight rates, attention is called to the fact that the Indiana railroad commission, a body with supervisory power over Indiana's railroad rates, has been considering a complaint against the Indiana coal rates. It appears that three rates for the same distance have been in effect—one of 85 cents on coal destined for private consumption; one of 75 cents to the steam user who does not manufacture; and one of 65 cents to the manufacturer who makes finished products that may become railroad freight.

The commission after a full hearing, sustains the discrimination. Its decision is based on the opinion that the manufacturer, by sending profitable outbound freight from his factory, reimburses the railroad for any loss it may have sustained by carrying coal below cost. On the other hand, it is held that the private consumer sends out no derived freight, and the railroad must make a profit on the coal shipment itself if any is to be made.

That is a very ingenious reasoning, but it fails to take account of the fact that the private consumer, while he may not send out any "derived freight," ships in a great deal of "resultant freight" in the form of groceries, provisions and dry goods, which the road would not get if it did not bring him the coal necessary to keep the pot boiling. And since there are so many in this class, and the goods they use constitute a much higher class of freight than coal, it is altogether probable that the private consumer reimburses the railway, in the aggregate, to a greater extent than the manufacturer, and a "square deal" would therefore seem to require that the one class be given as low coal rates as the other.

THE CZAR is fighting a losing battle against fate. Every victory he now wins but hastens, by increasing the general discontent, the final catastrophe. Sooner or later the army will yield to disintegration. If not this time, then some time in the not distant future. For centuries the loyalty of the Russian peasant to the "little father" has resisted all attempts to weaken it. But at last, if not altogether gone, it is going. It is not likely that it ever can be restored.

IN ORDER to preserve its "ancient prerogatives" the United States senate might pass a bill at its next session abolishing grand juries.—Los Angeles Times.

SENATOR DEWEY says it is not wise for corporations to contribute funds to political campaigns; indeed, it's quite otherwise if it gets found out.—Houston Chronicle.

To Come in or Stay Out

JOINT STATEHOOD or no statehood are the only two conditions which, in the opinion of the Farmington Times-Hunter, we have to choose between, and it puts the case in such a plain and forcible manner, that any man not blinded with prejudice will be forced to see it. We copy: "The Bibles Review, in a recent editorial, frankly admits that the failure of joint statehood at the coming session of congress means no statehood for years to come for either New Mexico or Arizona. This is precisely the point at issue for which we have contended. If we could get single statehood for New Mexico and Arizona as easily as joint statehood, there would be no controversy, but the fact is, as the Review admits, that single statehood is not attainable now, nor at any definite time in the future, and we see no reason for refusing joint statehood now and taking the same thing ten or twenty years from now. Everyone who can reason knows it will be much harder to press our claims after Oklahoma has been admitted with her unquestioned population and property qualifications. The fact is that if we want to enjoy the privileges of sovereign citizens of the United States we must accept what is now attainable—joint statehood.

"The fact that Congressman Tawney, the only really important congressman in the list of visitors, went through without committing himself is significant. Another point that is much more significant is that Speaker Joe Cannon refused to accompany the party. The rules of the house are such that no measure can get through that meets the opposition of the speaker and that he can force through any measure that he supports. Mr. Cannon is in favor of joint statehood. Mr. Beveridge, the chairman of the committee on territories of the senate, is in favor of joint statehood. These men can stifle any measure that they oppose. So it is clear, if we want statehood we must take it on the terms offered."

THE two remedies which are by common and universal consent considered necessary to the successful treatment of consumption are fresh air and plenty of eggs and milk. There are other things which help, but these two are the essentials—good food for the lungs and the same for the stomach. And a good physician will tell you that the same treatment is better than drugs in a great many other cases.

COUNT SERGIUS WITTE is now practically at the head of the Russian government and Nicholas is preparing to move.

BELIEVES THE PEOPLE RIPE FOR A CHANGE

Albuquerque, N. M., Oct. 30, 1905.

Editor Morning Journal:

Of course I feel timid in addressing you, realizing the powerful position that you occupy, as a moulder of public opinion and director of public sentiment. I have carefully noted your editorials and appreciate and commend your position in fearlessly calling attention to what you think to be right, and for this reason cannot let you remain silent, believing that when a subject has come up for discussion that it is very close to settlement. I have faith in the good judgment and integrity of the common people, and very little in the uncommon ones that are being brought before the limelight by their exposures in all sections of the United States, and do you suppose that all the fish in the sea have been caught? We all admit the existence of graft and fraud and especially that in high places, and that it must have a cause, there being an effect. Therefore, I ask you in the spirit of all kindness, that you open a paper to a discussion of this subject, or better still that you agitate the discussion of this very important subject, by calling for a series of public meetings. What is the use of cussing or discussing these conditions without proposing and advocating a remedy.

You have a little band of people right in your city, who have for a number of years been studying this subject and who propose a remedy. It is simply to change the system from "dog eat dog"—the "get and keep" personal profit, competitive hell, to a co-operative heaven. One in which all work for one and one for all. They propose to bring this change about by a political action, and did you know that you have an institution in your city, that has joined the industrial co-operative ranks that promises to bring about the same, and by co-operative ownership of the machines, fast becoming of national repute, has stockholders in every state of the United States, showing that people are ready for a change. It is the Rio Grande Woolen Mills company co-operative, but what they are doing is only a very small part indeed of what is being done in these lines in every part of our beloved land, and in removing it from simply trying to live out our lives like men and brothers.

Sunday night at the Congregational church a beautiful compliment was paid Francis Willard and Lady Somers, in the eulogy, they were clasped as the couple of womanhood. Did you know that they both declared for this same political action, such as the little band of comrades in this city would live and die for? I suggest that a series of meetings be called for the latter part of this month, and that all organizations or individuals be invited to put their best men on the platform and let the public have the opportunity of listening to a real treat and let's dig up the cause that has produced the effects that we all so much deplore. Let's drain the pond that breeds the mosquitoes, instead of slapping and killing one once, or even twice, in a while.

UNCLE JOHNEY.

MR. RODEY GOT THIS MAN'S PATENT

La Mesa, N. M., Oct. 28, 1905.

Editor Morning Journal:

In regard to your biography of Mr. B. S. Rodey attending to every one's wants, I can give strong evidence. I was for two years trying to get my patent of homestead and finally wrote to Mr. B. S. Rodey a few days before he came home. I received by return mail that he had attended to it, in about a week I met him here, told him I had not received any patent yet; he said come in the office a minute, and asked me a few questions and right there and then dictated a letter to his stenographer to Washington and found out it was sent at once, but got lost or destroyed and less than two weeks I had a duplicate patent. That is the kind of a man we want for governor, until we need a United States senator, if not that a delegate.

Yours respectfully,

C. C. JONES.

Ancestry of Kings.

King Alfonso of Spain is four-fifths Austrian, King Victor Emmanuel more Austrian than Italian, the Emperor Francis Joseph and his presumptive heir are for a large part Bavarian and Italian, the King of Sweden and Norway is of Bearngine and French ancestry, the King of Greece is a Dane, the King of Serbia is half Russian, the Prince of Bulgaria has no Bulgarian blood in him, the Emperor of Russia is very much Danish or German, the King of the Belgians has no Belgian blood in him, and the King of England is Saxe-Coburg-Hanover, Norman and French.

Pleas and Red Tape.

A custom house decision on fleas has been rendered in Switzerland. A package marked "Trained Fleas," reached Geneva. The nearest analogy the officers could find was that of June bugs, which had been ruled to be "edibles." The case went from one official to another till it reached headquarters at Berne, where after much investigation and deliberation the conclusion was reached that the fleas came under the head of "wild animals in a menagerie."

IN OLDEN TIMES

People Were Content to Take Things Easier Than Now.

If our forefathers should behold the modern locomotives, automobiles and electric cars, they would hold up their hands in astonishment. The stage-coach was fast enough then—people were more content to take things easy.

They used to be satisfied with any sort of a hair lotion that came along—if it did not prevent baldness they thought it was because baldness could not be prevented.

It's different now. People know that germs cause baldness and that Newb's Herpicide kills the germs, thus curing dandruff and preventing baldness.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

Betrothed at Birth.

In some parts of West Africa the girls have long engagements. On the day of their birth they are betrothed to a baby boy a trifle older than themselves, and at the age of 20 they are married. The girls know of no other way of getting a husband, and so they are quite happy and satisfied. As wives they are patterns for obedience, and the marriages usually turn out a success.

Insomnia and Indigestion Cured.

"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Truistons, Ontario, Canada. For sale by all druggists.

Timely Suggestions

We are surrounded by suggestions of approaching winter, but the most suggestive thing to be seen is our large line of High Grade Heaters. They suggest to the mind and picture to the mind's eye howling winds and drifting snow on the outside, and a warm glow within, which is the result of the highest art in stove-making. It radiates a glowing warmth evenly all over the room, or two or three rooms if you have them connected.

HUBBELL BRINGS QUO WARRANTO TO OUST ARMIJO

Hearing on Writ Set for
Wednesday Morning.

CUSTER CAR BREAKING CASE UNDER CONSIDERATION

Judge Abbott, at the opening of court yesterday morning issued a rule to Sheriff Perfecto Armijo, ordering him to show why the writ of quo warranto filed in the district court by counsel for ex-Sheriff Thomas S. Hubbell Saturday, should not be issued. Counsel for the court grant further time to answer the writ, which request was granted. Judge Abbott setting the hearing for Wednesday morning, when it is expected the writ will come up for argument.

The action in quo warranto was brought by Hubbell's counsel after they had exhausted all means to hold the office for their client, against the governor's order of removal and the commission to Armijo. It was in the effort to avoid quo warranto proceedings that Hubbell was allowed to go to jail for a week for refusing to obey the order of the court. The former sheriff finally yielding full possession of the office and jail to his successor.

The quo warranto proceeding has been recognized by both sides to the controversy as the only proceeding in which title to the office and the governor's right and power to remove could be properly tried. Whatever the result of the hearing Judge Abbott the question is expected to go to the highest tribunal for final decision. It is probably the beginning of an action which will be in the courts for months, if not for years.

ALLEGED CAR BREAKER BEFORE U. S. COMMISSIONER

W. Custer, who has been held in the county jail for the past ten days on the charge of entering a sealed car on the Santa Fe railway, was brought before United States Commissioner H. R. Whiting in Old Albuquerque yesterday for a continuance of the hearing begun last week and postponed on petition of Custer's attorney. Witnesses for the railroad were heard last week and yesterday Custer was called to testify. Custer, according to the testimony, was caught in the car by a brakeman and locked therein. He attempted to escape and his companions did escape, Custer being caught at the junction with some of the goods on his person. The articles found were not of great value, but the United States statute covering car breaking is strict and heavy penalties are attached. Custer presented an unusual defense. He produced letters showing that he had heretofore borne a good reputation and other letters from his wife and his babies showing that they were expecting him home and in need of him to earn a living for them. The commissioner took the matter under advisement and will return his decision this morning.

BRIGGS WILL HAVE A HEARING THIS MORNING

R. H. Briggs, the Santa Fe porter charged with assault upon Alex Bowles, of Gallup, is to have a hearing before Judge Crawford this morning. Briggs is being held at the county jail.

CALL FOR REPUBLICAN TERRITORIAL COMMITTEE

MEETING TO BE HELD IN SANTA FE NOVEMBER 10 TO DISCUSS IMPORTANT BUSINESS.

The New Mexico republican central committee has been called by Chairman H. O. Bursum to meet in Santa Fe on November 10th to discuss important business.

The nature of the business is not defined in the call other than that it is expected to talk over the statehood situation. It is expected that the committee will be called upon to place itself on record as against joint statehood. The committee has had some months of deliberation and the meeting will serve to get the organization into working order again, following the long rest after the late campaign. Other important business is to be discussed but no hint is given of its nature.

The membership of the committee follows:

H. O. Bursum, chairman; C. Stafford, secretary; Jose D. Sena, assistant secretary; Solomon Luna, treasurer.

Members—Bernallillo: W. S. Strickler and F. A. Hubbell; Chavez, E. A. Cahoon and J. M. Hervey; Colfax, J. Van Houten and J. Leach; Dona Ana: W. H. H. Llewellyn and H. B. Holt; Eddy, A. N. Pratt and L. O. Pullen; Grant, W. H. Newcomb and R. M. Turner; Lincoln, G. W. Pritchard and W. S. Brady; Leonard Wood, F. D. Morse and M. C. de Baca; Luna, J. W. Hannigan and T. A. Carr; McKinley, Steve Canavan and Gregory Page; Mora, Christoval Sanchez and Juan Navarro; Otero, W. D. Tipton and O. G. Cady; Quay, A. E. Curran and W. F. Buchanan; Roosevelt, W. E. Lindsay and C. O. Leach; Rio Arriba, V. Jaramillo and Alexander Read; Sandoval, E. M. Sandoval and E. A. Miola; San Juan, G. V. Safford and Granville Pendleton; San Miguel, Secundino Romero and J. S. Clark; Santa Fe, E. C. Abbott and J. E. Lacombe; Sierra, F. W. Winston and W. H. Butler; Socorro, H. O. Bursum and Elmer Baca; Taos, Malquiue Martinez and T. P. Martin; Torrance, William McIntosh; Union, Charles Schieler and Eufrazio Gallegos; Valencia, Carlos Baca and Solomon Luna.

Executive Committee—Eugenio Romero, W. G. Sargent, J. W. Akers, W. H. Newcomb, T. D. Burns, Mex Frost, David M. White, H. W. Kelly, Solomon Luna, T. B. Hart, T. S. Hubbell, W. E. Martin, Martin Lohman, H. J. Hagerman, Harry F. Lee, J. P. Chavez, and Levi Hughes.

Committee at Large—W. J. Slaughter, of Santa Fe.

WHOLE CROWD TOOK PUNCH AT LONE MAN IN THE OLD TOWN

William T. Metzgar Terribly Beaten Last Night.

SAYS ATTACK WAS WHOLLY WITHOUT PROVOCATION

William T. Metzgar, chief clerk in the wholesale liquor house of Melini and Bakin on South First street, was terribly beaten as he was leaving the Star saloon in Old Albuquerque last night. Metzgar says he was set upon by a crowd of from fifteen to twenty young men who rained blows on him from all sides. He declares the attack was wholly without provocation.

Metzgar has several long cuts about the head and face. One eye is swollen shut, the other is discolored, and nine stitches were taken in his scalp in different places by the physician who attended him when he had been brought to Albuquerque.

No arrests have been made. Metzgar says he went to a dance in Society hall in the Old Town and after the dance went into the Star saloon to get a drink. While he was standing at the bar talking with a friend he says a man he did not know entered and called him several unpleasant names. He knocked the man down. Instantly, he says, the room was full of men, some of whom he knew and blows were coming from all sides. He defended himself as best he could, but was floored by a blow on the temple which raised a welt as big as an egg. After he was down he says the entire crowd took turns in striking and kicking him.

S. Gonzales, employed in the Sandoval barber shop on Railroad avenue, entered the Star saloon just as the fight was at its height. He was floored by a blow in the nose. He was not with Metzgar and says he had done nothing to call forth trouble. Gonzales was not badly hurt.

Metzgar, while not seriously injured, has a lot of painful bruises which will probably lay him up for a time. It is not known whether he proposes to prosecute his assailants. He says he knows five or six of them, but the rest he could not distinguish after the battle began.

CATHOLIC PIONEER WINNING FRIENDS

CIRCULATION OF ABLY EDITED MAGAZINE RAPIDLY MOUNTING SKYWARD.

The November number of the Catholic Pioneer, edited by Rev. Fr. George J. Julliard, of Gallup, is just from the press of the Morning Journal. The November number of the Pioneer is by far the most successful in its brief but astonishingly successful career. It is filled with matter of lively current interest, terse editorial comment, special articles by authorities on matters pertaining and of special interest to the southwest, notes and brief news in just the right form for the man who wants something more of comment than the newspapers can give, without the length of the larger periodicals of wider circulation.

The success of the Pioneer has been astonishing. Its first issue was issued five months ago, and in that time its circulation has mounted up by tens and hundreds until it now enjoys a circulation in excess of any publication of its kind in the southwest. The present success seems to be the beginning.

In the current number appears the following word of encouragement and approval:

Archbishop's Residence, Santa Fe, N. M., September 1st, 1905.

Rev. George J. Julliard, Editor "The Catholic Pioneer."

Rev. Father: Now that the "Pioneer" is fairly launched with a strong prospect of future success and a long life, I take pleasure in giving it my approbation and earnestly recommending it to all, especially the clergy and laity of the archdiocese.

You are to be commended for this laborious undertaking and I pray God "The Pioneer" may exert in this part of the country, the beneficent influence for good which you have had in view in starting it.

Sincerely Yours in Xto., P. BOURGADE, Archbishop of Santa Fe.

Wanted. A chance to estimate on making your account books and special ruled blanks. Mitchner & Lithgow, book binders, at the Journal office.

FIRST DIVORCE SUIT AMONG THE PUEBLO INDIANS

Isleta Buck Would Be Relieved of Ties That Bind.

ALLEGES WIFE HAS LEARNED THE WAYS OF CIVILIZATION

The first action for divorce ever known among the Pueblo Indians of New Mexico has been instituted in the Bernalillo county district court by one Louis Abeytia, of the Isleta pueblo, who seeks an absolute divorce from his wife, also an Isleta. Abeytia is no nearer relative of the Abeytia who runs the trading store at the pueblo than all of the tribe are related in the tribal bond, but he knows the ways of civilization, as does also the wife from whom he seeks to be freed.

Attorney W. C. Heacock appears for the Indian, having the distinction of bringing the first action of the kind on record.

The institution of marriage, although missionaries have struggled long and earnestly to plant it among the pueblo people, is only recently being observed, and is still of sufficient rarity to make each marriage interesting. The action of the last legislature in requiring a uniform system of licenses served to make the Indians more careful, and marriages by legal procedure are becoming frequent. There has always been, of course, the marriage formality of the tribe. But divorce is the latest institution of civilization to find its way into the Pueblos. The plaintiff in the case is an intelligent man, having had some education in the Indian schools. He has been employed by the railroad from time to time.

The defendant is one of the most intelligent of the villagers and was one of the four or five selected to go to the Indian colony at St. Louis during the World's fair. Her answer to the petition, if she files one, has not yet made its appearance.

SHERIFF LUCERO TAKES BUNCH TO THE PEN

CONVICTS SENTENCED AT RECENT TERM OF DONA ANA COUNTY COURT BEGIN TIME.

Sheriff Jose Lucero of Dona Ana county, was in the city last night on his way home from Santa Fe, where he has just delivered a bunch of prisoners sentenced at the recent term of Dona Ana county criminal court. The prisoners and their sentences follow: Antonio Marquez, age 35; burglary and larceny of dwelling, five years; Pedro Muniz, age 21, burglary and larceny of dwelling, five years; Agapito Dominguez, age 65; maiming a horse, two years; Tranquillo Aceves, age 52, embezzlement, one year; Hilario Grant, age 26, murder in the third degree, one year; Roque Gomez, age 34, burglary one year; Gerónimo Sedillo, age 30, abandonment of wife and family, one year; Juan Pablo Ramirez, age 29, assault with attempt to kill, one year.

Navajo Gets Ten Years. Bes-Chie-Mee, a Navajo Indian, has just been placed in the penitentiary in Santa Fe, where he will serve a term of ten years for rape. The Navajo was convicted before Judge McFie, at the recent term of the San Juan county court.

Little Stories Of The Street And of the Town

He Wasn't a Dead One.
A well known young married couple were expecting an uncle to arrive in the city Saturday night. He was scheduled to make his appearance on train No. 1.

When the first section of that train rolled in, the expectant Albuquerqueans anxiously inspected everyone who got off. But there was no Uncle Jim. So they waited patiently for the second section of the train. When it arrived, however, and the second big batch of travelers hopped off the Pullmans, there wasn't a sign of Uncle Jim anywhere in the crowd.

The expectant ones were much disappointed, but decided that Uncle was coming in on No. 2. No. 2 was a little late and after a long and weary wait about the station finally they glimpsed the shine of No. 2's headlight up the track. All ready to embrace Uncle Jim, the reception committee took up their station at the door of the Pullman and made ready to grab him as he alighted.

But no Uncle Jim was on board. "Thoroughly disgusted," the young couple prepared to go home and give it up when they were told that another section of No. 2 would arrive shortly. So they patiently waited a while longer.

When chunk No. 2 of train No. 2 pulled up at the station they grabbed the conductor and asked breathlessly: "Oh, Mr. Conductor, do you know whether Mr. — is on this train?" "Well, I don't know," responded the blue coat with a twinkle in his eye. "Did you expect him in a coffin or a trunk? This train is all baggage and express cars. You might ask at the Wells Fargo office."

But the conductor's chuckle was wasted on this air, for the disgusted young couple had decided Uncle Jim could go to grass and were disappearing around the corner of the Alvarado at a 2:07 gallop.

He Caught the Dog.
Mr. Allen G. Kennedy, formerly civil engineer for the Santa Fe Central railway company, who is now engaged in moving his residence from Santa Fe to El Paso, is telling a good joke on himself. Mr. Kennedy appreciates it as much as anyone and there is no possible denying that it is a pretty good one on Mr. Kennedy.

The gentleman is the owner of a blooded dog which he prizes somewhat highly. Saturday night Mr. and Mrs. Kennedy boarded the train for El Paso here. They retired early in the evening to their sleeper, as the train had to wait until early morning for the connections from the east. The dog was given over to the tender care of the baggage man with explicit instructions to place him with the utmost carelessness in the baggage car when the train was ready to leave, without awaking the animal's owner.

In the cold gray dawn Mr. Kennedy was roused by the porter who said that his dog had escaped from the baggage man and when last seen was doing a highland fling in the direction of Santa Fe.

Mr. Kennedy hastily slipped on a coat and pair of trousers over his nocturnal garments, jumped into a pair of slippers and sallied out to find the dog. After a shivering search in the frosty air of daybreak he finally located the dog and by dint of some strategy captured him.

THE UBIQUITOUS KID.
"I'm never going to another football game in Albuquerque," declared an indignant citizen on a down town corner yesterday afternoon. "What's the use?" After you pay your money and stand up along the ropes for two hours you go away and you haven't seen a thing but a crowd of small boys straggling around the players. If they can't keep the kids away from the players they'd better advertise the game for "kids only" and let it go at that. Why at Sunday's game the small boys formed a circle around the players and end runs were impossible without a slaughter of innocents. I believe it would be a good thing to slaughter a few of the kids. Maybe they'd keep away, but I'm not going to pay my money for any more football until I know the small boys will be kept behind the ropes."

INTERLOCKING PLANT FOR THE ISLETA STATION

Big Improvements Under Way at the Junction.

PART OF GENERAL SCHEME OF COAST LINE BETTERMENTS

Extensive improvements are under way at Isleta, the junction of the Santa Fe main line and the coast line, twelve miles south of Albuquerque, where two hundred men are at work on the grade, station improvements and other changes which are to be completed within thirty days.

The chief improvement at Isleta will be the installation of an interlocking switch system which will be operated from a tower in the station, which is now being moved several hundred feet from the west to the east side of the track. Now it is necessary for all trains to stop at Isleta while switches are thrown, and reset. With the new plant, it will only be necessary for the incoming train to give a signal, or its running time to be known. The man in the tower will direct the rest. The chief engineer has already sent most of the material for the plant to Isleta and will come on in a few days to install it. There have been the usual objections of the Indians to the moving of the station, but these matters have been settled and the work is going ahead.

In addition to the switch system, the grade is being raised and rebalanced for miles on either side of the junction. A hundred men are working on the track near the station, while a bridge gang of twenty men is putting in a steel bridge in place of the old wooden structure which was put in temporarily after the last flood. The bridge will be higher and longer and will prevent any future trouble from floods at that point.

The work at Isleta is only a small part of the work going on all over the coast line. The track between Albuquerque and the California line looks like new and when the work is complete it will be almost a new track with new ballast, new bridges and additional switching facilities all along the line.

BILLY STILES KILLED WHILE WITH YAQUIS

NOTORIOUS COMPADRE OF BUEN ALVORD MEETS DEATH AGAIN.

Pio Quinto, who owns a number of prospects in the district south of Moctezuma, arrived in Douglas yesterday with a story to the effect that Billy Stiles, the partner of the notorious Herk Alvord, had been killed while fighting with a band of Yaquis against soldiers of the Mexican government.

According to Quinto, the fight took place Tuesday on the bank of the Yagui river, at the crossing of the trail south from Moctezuma. The Indians, in ambush, opened the attack on some 200 soldiers under General Torres, and after an hour of sharp fighting, were beaten back, leaving seven dead on the field. It is claimed, says Quinto, that one of these, painted as an Indian, was who had acted as leader during the fight, was the notorious Stiles who is so much wanted on both sides of the line.

The story is plausible, as it is known positively that Stiles is in that country, or was recently, and his presence there with a band of active Indians will account for much of the depredation which has been going on in that country. It is also possible that this is an explanation of the death of Stiles, of Douglas, who was murdered near Tapachi recently.

PARENT TAKES FALL OUT OF TEACHER

CLIFTON MAN KNOCKS PROFES- SOR SENSELESS FOR CHASTIS- ING CHILD.

The following account of a lively time which occurred a few days ago in one of the Clifton public schools is taken from the Clifton News of that city: "A deplorable affair occurred in the North Clifton schools last Thursday afternoon. It seems that Professor Reese had quite severely chastised the eleven-year-old son of E. Lafave. From all accounts the boy was treated with an undue amount of severity. It is reported that he was not only whipped, but was also kicked and dragged around by the hair of his head. When Mr. Lafave went to his dinner, he heard the boy's story, and immediately went over to the school house, where he met the professor. Lafave states that he asked the professor why he beat the child, and the professor replied that because he had a right to do so. Lafave then struck the professor a blow that knocked him senseless for some considerable time. His face and one eye were badly cut by a pair of glasses which he had on at the time. The professor was so badly knocked out that he was not able to resume his duties for several days. When the professor had sufficiently recovered as to be able to do so, he served out a warrant for Lafave, who was fined \$50 from which he may appeal. It seems that when the professor attempted to chastise the boy the latter pulled up a fight and made things so lively that the professor evidently lost his temper, and no doubt went further than was his intent or desire. This is the professor's second term as principal, and up to the present time he has been getting along very well with the pupils."

Some Sensible Advice.

It may be a place of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Weak Lungs Bronchitis

ISLETAS FILE CLAIM FOR \$5,000 AGAINST SANTA FE COMPANY

For Damage Done Crops by Spring Floods.

ALLEGED REFUSAL TO CUT EMBANKMENT DELUGED TOWN

The Indians of the pueblo of Isleta through their officers have filed with Superintendent J. K. Allen, of the government Indian school here a claim for slightly over \$5,000 against the Santa Fe Railway company for damages alleged to have been sustained to crops and property during the floods last spring, through the company's action.

The claim of the Pueblos is that the railway embankment caused the water to back up over their lands adjacent to the village and thus caused a big loss to the people of the village in crops and other property.

It will be remembered that the Rio Grande during the spring freshets changed its course at this point and the water backed up over part of the village. The embankment of the railway acted as a dam which prevented the escape of the waters. The Indians after vainly requesting the railway company to cut the embankment and drain off the water appealed to Mr. Allen who also made an urgent request which was refused. The railroad company then put guards along the track and prevented the Indians from cutting the bank. Finally the company decided to accede to the appeal of the Indians and cut the grade but not the Indians alleged, until considerable damage had been done to their crops and other property.

The claim presented to Mr. Allen is itemized carefully and will be formally presented to the company.

YAVAJOS DANCING THE YEBECHI

BIG POW-WOW ON NEAR GUAM IN HONOR OF BOUNTIFUL HARVESTS.

The Navajo Thanksgiving day is on and the Red Man from the northwest corner of the territory is dancing in a way calculated to cause his weight to diminish. It has been a great year for the Navajos. They have sold their wool for the best price they ever got. Their crops of all kinds have been bountiful beyond all recent years and the Indians are thankful. The great Yabechi dance, the dance of thanksgiving for the goodness of the Great Spirit and all the little spirits, began last night in many parts of the reservation, the nearest to Albuquerque being near Chamusca. The dance began at midnight and will continue until the first of November. The Indians have danced all the dance out of him.

HAD CATARRH

FOR FIFTEEN YEARS AND DREADED CONSUMPTION.

Mr. Arthur Gaul of Wellsville, Ohio, writes: "I wish every one suffering from catarrh or bronchitis troubles knew the value of Vinol as I do. Before taking it I had catarrh for fifteen years, and for the last year I had a pain in my lungs and coughed night and day, which caused me to lose flesh. I felt sure I was going into consumption, and nothing seemed to help me."

"Vinol was recommended, and after taking four bottles I am entirely cured. I would not take \$1,000 for the good it has done me. I wish I could persuade everybody who suffers from catarrh and bronchitis troubles, or who dreads consumption, to try Vinol."

"To further convince the people of Albuquerque in regard to the value of Vinol, we, J. H. O'Reilly & Co., declare it to be the most valuable preparation of cod liver oil for all wasting diseases, the greatest health restorer and strength creator for the weak, the convalescent and the aged which we have ever sold."

"We can only ask every person in Albuquerque to try Vinol on our guarantee to return their money if it fails. This is a fair, honest offer on which you cannot lose." J. H. O'Reilly & Co., Druggists.

INDIAN SENTENCED FOR BEATING ALLEGED WITCH

YUKANINI APACHE GETS FIFTEEN MONTHS—OTHER PRISONERS SENTENCED AT PHOENIX.

Yukanini, the Apache Indian who was sentenced for beating up an Italian, an old woman of his tribe, on the McDowell reservation in Arizona, has been sentenced by Judge Kent at Phoenix, to fifteen months in the penitentiary for his crime. It will be recalled that Yukanini attacked the old Apache squaw and tried to kill her because he suspected her of witchcraft to encompass the death of Yukanini's wife. The old Indian predicted that the buck's squaw would die by a certain date, and the prediction came true. This infuriated the brave to such an extent that he tried to murder the supposed witch. Judge Kent passed sentences on the prisoners who had pleaded guilty to the indictments which had been found against them. Two of them were bicyclist thieves, Escabello Ramirez, and his case was set for trial on November 8. The dates of trial were set for the cases in which the defendants were indicted for bicycle stealing.

For over sixty years doctors have endorsed Ayer's Cherry Pectoral for coughs, colds, weak lungs, bronchitis, consumption. Cures hard cases, desperate cases, old cases. You can trust a medicine the best doctors approve. We have no secret. We publish the names of all our doctors.

B. C. Clawson, November 7; Isadore Pena, November 8.
Ramon Aidal pleaded not guilty to the charge of horse stealing and his trial was set for November 8. Pablo Diaz and Juan Valera were given until today to plead to indictments charging them with stealing bicycles.

COL. BERGER PROVES QUITE FACINATING

SELLS THE MORNING JOURNAL A LOT IN BELEN TOWNSITE.

Col. Berger, manager of the Belen Town and Improvement company has proved his mettle as a real estate man. The Colonel is a fascinating talker and while in the newspaper field he won his way alike with his facile pen and his fascinating tongue. Now he is in the real estate business and he is proving even more successful. The Colonel came into the Morning Journal office yesterday considerably satisfied with the results of his exploitation of Belen as the coming town of the west. He made the assertion that he would proceed to sell the Morning Journal a lot. We didn't believe he could do it and told him so, but he wasn't even discouraged. The Colonel held his spare moment all day and far into the night, telling about the glories of the Belen townsite; he never let up for half a minute and in the end the Morning Journal woke up to find itself possessed of lot 9 in block B of the Belen townsite. The Colonel won out through pure and unadorned faith in the future of Belen.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and also made an urgent request which was refused. The railroad company then put guards along the track and prevented the Indians from cutting the bank. Finally the company decided to accede to the appeal of the Indians and cut the grade but not the Indians alleged, until considerable damage had been done to their crops and other property.

All kinds of LOOSE LEAF LEDGER sheets ruled and punched to order at Mitchner & Lithgow's book bindery, in the Journal office.

FIRST GAME OF FOOTBALL SEASON AT MESILLA PARK

Scrubs Beat El Paso 22 to 0.

"FARMERS" PREPARING FOR GAME WITH UNIVERSITY

Correspondence Morning Journal. Mesilla Park, Oct. 20.—The football season opened at the agricultural college with a game today between the second eleven or "scrubs" of the college and the El Paso "Second Athletics." It was a very interesting game to watch, although the score makes it appear quite one-sided. The team work of the little fellows was magnificent and for their weight and size there are few teams who can equal them in the manner of backing, helping each other when one is carrying the ball and in the make-up of the interference. The El Paso boys were handicapped by two of their best players not being able to come. They had the right stuff and from the start to finish they were game, but to no avail. The short time they have been organized was against them. The play resulted in three touchdowns, three goals and one beautiful place kick from the field by little Walter Ames, making a total of 22 to 0. The line-up of the college second eleven was: Center, David; guard, Sweet and Stoneking; tackle, Anderson and Sullivan; ends, Mata and Alteman; quarterback, Davis; half backs, A. Graham and Rohn; full back, Ames. In the second half Hall and Carner replaced Mata and Alteman; Sullivan went in to guard replacing Stoneking and Bruech took Sullivan's place at tackle, thus giving the full second team a chance to play.

Professor Cur, coach of the El Paso High school team, was on the field getting a line on the college seconds, as the High school and the team that played today come together on November 11th to battle for the cup that Mr. A. W. Susan, a leading jeweler of El Paso, has offered to the team which shall win three of five trials. Last year the college seconds and the High school played a 5 to 0 game in favor of the college. In consequence a great deal of interest is being given in the meeting.

MASTER MECHANIC AT MADRID INJURED

COLLIDED WITH A FENCE POST WHILE RUNNING TO CATCH A TRAIN.

Correspondence Morning Journal. Madrid, N. M. Oct. 20.—Earl Turner, master mechanic of the Colorado Fuel and Iron company, sustained serious injuries here last night while running to catch a train. The writer took up the Santa Fe from Cerrillo was late last night. It has been part of Mr. Turner's duty to superintend the water service for the camp. Last evening as the train was pulling into Madrid Mr. Turner left his back door and tried to board the train in order to save the walk to the reservoir above the camp. In running across his back yard he collided with a low post, falling heavily and breaking his collar bone and sustaining minor injuries. The local surgeon for the company attended to his injuries at once and he is resting easily at present. Mr. Turner has been employed here for fifteen years and this is his first serious accident.

The very best of Kansas City beer and nutrition at Emil Kleisworth's, 112 North Third street.

TERRITORIALISMS

All sorts of building is going on in Bilebe.

Raton will have free delivery post pronto.

The Bilebe postoffice is much in need of more room.

Burglars entered a saloon in Douglas on Main street, and robbed the cash register and safe of about \$300.

The boys at the New Mexico Military Institute, at Roswell, gave an enjoyable burnt cork minstrel show the other night.

A beautiful porch running through the center of Mount Vernon street, in Prescott, is one of the possibilities of the near future.

Bids have been invited for 70,000 feet of lumber to be used in the construction of new buildings at Fort Yuma Indian school—Yuma Sun.

W. W. Gatewood, of Roswell, was the author of an eloquent eulogy on the late Jerry Simpson, which appeared in a recent issue of the Roswell Record.

The "Em to a Tree."

The city of Nogales has no prison in which to put its prisoners and as a consequence the violators of the town laws must be turned loose if they refuse to pay their fines.

John Is Enlarging.

John Middlebury, the Cocopah Indian giant, who has been traveling with a show for several months, has returned to his home in Yuma. While gone he increased in weight from 275 to 295.

An Expensive Burro.

A burro crated, weighed, crated and all, 215 pounds, was shipped one day last week from Naco to Belmont, Wis. While the animal was valued at only

Just for Fun.

David Lewis, while engaged in a friendly scuffle Sunday with two younger men than himself, had the misfortune to get his collar bone broken. It will be several days before he will be himself again.—Flagstaff Gem.

A Narrow Escape.

Mrs. J. O. Dunbar, wife of Editor Dunbar of Phoenix, had a narrow escape from death through the accidental discharge of a shotgun. The gun when discharged was so close that the shot had not time to scatter, and just grazed Mrs. Dunbar's dress.

Garcia Will Live.

Ramon Garcia, the Mexican stabbed Tuesday night, despite rumors in Bisbee to the contrary, is alive at the branch county jail, and indications are now favorable to his recovery. Garcia persists in the statement that he knows absolutely nothing about who stabbed him.

A Bouquet for Hughes.

The Douglas Dispatch hands "Governor" Hughes the bouquet: "Editor Hughes of the Tucson Star seems to have a strange faculty of butting in at the wrong time. He tried to butt into the grand jury of Santa Cruz county, but got the worst of it. Stick to joint statehood Brother Hughes, for while there is contempt connected with that proposition there is little danger of connecting with a fine."

Small Woodmen to the Wall.

The action of the government agents in stopping the cutting of wood in the mountains adjacent to Tombstone has put a number of small woodcutters out of business and will make wood scarce this winter, and compel all to burn coal, and necessitate many families to dispose of their wood stoves and purchase coal stoves. Ever since the town was first settled there has always been an abundance of fire wood obtainable from the Mexicans and others engaged in hauling wood in from the Dragones, but now it is a rare sight to see a load of wood on the street.

Cornered All the Small Change.

The cause of the shortage of nickels and dimes in the Phoenix money market that has been noticeable the past week was explained away yesterday during the course of a sale of a ranch in the northwest part of the valley. J. D. Tipton and wife sold to J. C. Denman a ten-acre tract of land the total purchase price being something less than \$300. Of this amount Mr. Denman paid the former owner nearly \$200 in nickels and dimes. He explained that he had been for some time past been laying aside small sums with a view of purchasing the piece of ground and that nickels and dimes were usually the kind of money he laid away.—Arizona Republic.

GO TO BELEN
The Future Railroad Center of New Mexico
Located on the Belen Cut-off of The Atchison Topeka & Santa Fe Railway
The new City of Belen is 31 miles south of Albuquerque, N. M., is at the junction of the main lines of the Santa Fe system—leading east and west from Chicago to San Francisco and Los Angeles, El Paso, Texas and Old Mexico
The Belen Town and Improvement Company
(INCORPORATED)
ARE THE OWNERS OF THE BELEN TOWNSITE. Consisting of ONE THOUSAND BUSINESS AND RESIDENCE LOTS, (size 25x142 feet) fronting upon 80 and 70-foot streets and avenues, RIGHT in the business center of the NEW CITY and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka and Santa Fe Railway company is now grading its extensive depot grounds and yard limits 500 feet wide and a mile long. (capacity of seventy miles of side track) to accommodate its NEW PASSENGER and FREIGHT depots, HARVEY EATING HOUSE, Round House, Coal Chutes, Water Tanks, Machine Shops, Etc.
THE CITY OF BELEN
Has a population of 1500, and several large Mercantile Houses, The Belen Patent Roller Mills, capacity 150 barrels daily; winery, etc. It is the largest shipping point for flour, wool, wheat, wine, beans, hay and fruit in New Mexico. From its location upon the Great Trunk line, leading North, South, East and West, to all points in the United States and Old Mexico its future growth as a Commercial point cannot be estimated. All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$15,000 public school house, two churches, a commercial club, three hotels, restaurants, etc. It needs right now a bakery, tailoring establishment, shoemaker, plumber, planing mill, drug store, harness shop, etc. THE LOTS OFFERED ARE LOW IN PRICES AND TERMS EASY. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at eight per cent per annum. Title perfect and warranty deeds given. COME EARLY IF YOU WISH TO SECURE THE CHOICE LOTS. For further particulars and prices of lots call in person or write to
The Belen Town and Improvement Company
JOHN BECKER, President
WM. M. BERGER, Secretary

WE WANT our store to be the one which always comes to your mind first when you want something just a little nicer and better than you can get anywhere else.

Not always the cheapest, but always the best, and always as cheap as the best can be sold for. We have just increased our Diamond Stock by several thousand dollars worth, and now offer by far the finest line ever shown in Albuquerque. Call and see these beautiful goods. Cash or easy payments. We are surely Headquarters for wedding presents.

FINE WATCH WORK A SPECIALTY.

H. E. FOX New Mexico's Leading Jeweler

LOCAL ITEMS OF INTEREST

THE WEATHER.

For the twenty-four hours ending at 6 o'clock yesterday afternoon:
Maximum temperature, 58; minimum, 35.

Neill B. Field has returned from a brief business trip to Chicago.

H. C. Ellis, Miss Ellis and Miss Ruth Ellis, of Toledo, are guests at the Alvarado.

George K. Neher returned last night from a few days of duck hunting in the northern Rio Grande valley.

W. S. Huff, of Denver, president of the Electric Light and Power company of Albuquerque, is in the city for a few days.

The ladies of the German Frauen Verein will meet with Mrs. John Schroeder, 713 South Broadway, at 2 p. m. tomorrow.

The funeral services of the late Miss Ode Gustaf were held yesterday afternoon at Strong's chapel, interment in Fairview cemetery.

Stonemason Mark Thomas left yesterday for Santa Fe to do some work on the new Salomon block being erected by Contractor A. L. Morgan, of this city.

S. W. Dietrich, formerly superintendent of the Electric Light and Water companies here, left last night for California, where he will reside in the future.

The Albuquerque Business college has organized a football team under the coaching of Joe Seattle and is preparing to walloo all comers on the gridiron.

Herman Blumberg, the Old Town market gardener, left last night for central Kansas, where he will purchase a crew of fine driving horses to bring back to this city.

George F. Albright and Harry F. Lee returned yesterday from the lower Rio Grande valley where they have been for several days on a highly successful duck hunt.

Police Judge A. J. Crawford was out of the city yesterday on a wood buying expedition and a small collection of over Sunday drunks were forced to await the return of his honor this morning.

Judge Nathan Washburn, brother of E. L. Washburn, the Albuquerque rioter, left yesterday morning, accompanied by his wife, for their home in Middleboro, Mass., after an extended visit here.

Carl Vogel, the merchant and Indian trader of Catecon, who is in the city expects to receive a consignment of 500 lambs this morning, the sale of which he has already consummated to northern buyers.

Manager Ford Harvey, of the Harvey system, returned from El Paso yesterday morning and left later for Kansas City. He was accompanied to the Pass city by D. Benjamin and J. E. Huckle, of the system.

Private Secretary C. O. Trimble to Chief Engineer James Dun of the Santa Fe, arrived in the city from the Belen cut-off yesterday morning, in the chief engineer's private car. Mr. Dun is now in the canyon and is expected to arrive in Albuquerque today or tomorrow.

The rummage sale, held at Shufeldt's old stand Friday, Saturday and Monday, closed yesterday evening after the Congressional ladies had sold everything they had. The sale realized a fat sum for the ladies of the church, and was a great success socially as well as financially.

The marriage of Eliseo Miral and Miss Constanza Duran was celebrated yesterday morning at 8 o'clock in the church of San Felipe de Neri, the ceremony being followed by a wedding dinner at the home of the bride on North Fourteenth street. The bride and groom are well known young people of Old Albuquerque.

A. C. Nash, manager of the Chihuahua street railroad system in Chihuahua, Mexico, was in Albuquerque yesterday to close a deal for the purchase of the Chihuahua telephone system, owned by the M. S. Otero estate and other local interests. It is understood that the sale was effected, the consideration being close to \$50,000.

Col. William Berger, secretary of the Belen Town and Improvement company, was in the city on business yesterday. He informed the Morning Journal that he has already received an offer of \$100 for a corner lot on the Belen townsite, but refused it, and says further that as a result of his advertising in the Morning Journal he has received communications from all parts of the country relative to purchasing lots in the new cut-off city.

There was one very anxious person in Albuquerque yesterday after the wreck of Santa Fe train No. 1 near Kansas City became known. This was Miss Sadie Leavitt, teacher of English in the High school. Miss Leavitt's mother was on the train, on her way to Albuquerque. Miss Leavitt received a telegram early in the day advising her of her mother's safety. Mrs. Leavitt has spent several winters in Albuquerque and has many friends here.

Dr. R. L. Hunt and E. N. Wilson will appear in police court this morning on a charge of fighting. The gentlemen came to blows on Railroad avenue yesterday afternoon as the result of a heated dispute over a professional case in which Dr. Hunt alleged Dr. Wilson had interfered with

one of his patients, the other as positively denying the charge. The encounter was short but vigorous while it lasted, and was about a draw when the physicians were separated.

A native named Sandoval, a track laborer, was brought in on No. 8 from Armijo station last night suffering with a broken rib. The injured man was taken to the Santa Fe hospital.

Cards have been received in New Mexico announcing the marriage in New York on October 24th, of William G. Sargent, the territorial auditor, to Mrs. Dora Winfield Hall. Mr. and Mrs. Sargent are expected in Santa Fe early next month.

R. C. Gortner, of Santa Fe, arrived in Albuquerque last night to spend the day here on business.

Cattle Inspector Walter O'Brien, of Las Vegas, came in from the north last night.

W. K. Marmon, of Laguna, is in the city for the day to look after business matters.

Panteleon Mora and wife, of Casa Salazar are in the city for a few days.

Max P. Kompenich, of Peralta, was an Albuquerque visitor yesterday.

F. P. Trotter was a business visitor in Santa Fe yesterday.

COMMITTEE WILL GO TO WASHINGTON

TO URGE PROMPT ACTION ON CARLSBAD RESERVOIR PROJECT.

Tuesday afternoon a meeting was held in the Commercial club rooms to discuss the advisability of sending a committee to Washington for the purpose of calling on Secretary Hitchcock and urging prompt action on the Carlsbad project, says the Carlsbad Argus.

Present were J. O. Cameron, J. Frank Joyce, J. E. Laverty, W. C. Brown, W. A. Finley, W. R. Hess, W. H. Hall, Dr. C. M. Wheeler, R. M. Thorpe, E. G. Tracy, J. D. Walker, C. H. McLaughlin, S. L. Roberts, L. O. Fuller, L. A. Segrist, W. H. Mullane, A. M. Hove and others.

After some discussion it was decided to send a committee to see the secretary of the interior in regard to the Carlsbad project. J. O. Cameron, E. G. Tracy, and A. M. Hove were appointed to select a committee. J. Frank Joyce, W. H. Mullane, and A. C. Heard were selected to solicit funds for defraying the expenses of the committee. The meeting adjourned subject to call.

READY TO REPORT ON TAXATION KICKS

JARAMILLO AND SAFFORD COMPLETE WORK IN BERNALILLO AND SANDOVAL COUNTIES.

Venceslao Jaramillo, of Rio Arriba county, secretary of the New Mexico board of equalization, and "Traveling Auditor" Charles V. Safford have returned to Santa Fe after several days in Bernalillo county examining certain protests filed before the board at its recent meeting, on tax assessments in the two counties. The board will meet the first Monday in January to consider and make final decisions on these protests. The protests from this county have not been of material importance, but there has been a lively time in Sandoval county over the assessments, one of the Sandoval factions making the open claim, demonstrated by records and property values that the other Sandoval faction which is in power has been "chinchin" the others in their assessments. The question is a delicate one and the decision of the board will be awaited with considerable interest.

FEES ICE CREAM AT WALTON'S.

YOUR COW WILL GIVE MORE MILK IF FED ONE-FOURTH OUR FINE GROUND CORN INSTEAD OF ALL BEAN. E. W. FEE, 620 S. 2D.

Of Special Interest to Ladies. Madame Bohm's noted Skin Food will be demonstrated and sold at the Economist store, beginning this morning. Ladies should avail themselves of this opportunity to procure this toilet article, as it is one of the best cleansers, tissue builders, and beautifiers ever placed on the market.

FEES HOT DRINKS AT WALTON'S.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.
