STREETS RUN WITH BLOOD OF RIOTERS

Russian Revolutionaries Demand a Republic.

TROOPS SHOOT DOWN SCORES IN PROVINCES

Poland and Finland Again Raise Flags of Freedom and Desperate Fighting Is General Throughout the Empire.

London, Nov. 1.—Special dispatches to this morning's London newspapers represent the condition of affairs in Russia as being extremely grave, especially in the provinces. St. Petersburg, the dispatches say, remains comparatively quiet.

According to the St. Petersburg correspondent of the Daily Mail, the revolutionaries demand the establishment of a republic, and as the result of this demand, the strong arm of General Trepoff has again been invoked. Thus, says the correspondent, brute force and popular sedition are again facing each other.

Even the appointment of Grand Duke Michael as military dictator with General Trepoff as his right hand man, is discussed in official circles.

"The correspondent of the Daily Mail at Kiev, in a dispatch dated November 1, says: "The governor general has resigned because he was not permitted to take strong measures to prevent the riots. Indescribable scenes occurred last night, when the mob invaded the town hall and tore down the portrait of the emperor. The troops fired ten volleys into the mob, killing forty persons. Three hundred of the rioters were arrested."

"During the conflict the troops were dismounted, thrown to the ground and many of them shot. "It was a lawyer named Rattner who cut the emperor's portrait from its frame, hacked out the face, put his head through the opening and harangued the mob from the balcony of the town hall. Today a band of workmen invaded Rattner's house and tore him to pieces."

"Jew-baiting started at midnight. Strong patrols passed frequently, but they looked smilingly on and gave no help. "Some hours later the Cossacks arrived, but they did nothing to protect the property of the shopkeepers. I saw some police and Cossacks pocketing parts of the plunder, and the members of which stopped suspected persons and made them disgorge their plunder. People were seen everywhere carrying bundles of looted silks and velvets without hindrance. Later on vigilance committees were formed, the members of which stopped suspected persons and made them disgorge their plunder. "Jews Threaten Massacre. "At 6 o'clock tonight, notwithstanding a deluge of rain, the looting was resumed. The Jews fired from the balconies of their houses on the troops and on the processions of loyalists, the soldiers returning the fire. Residences and offices of many wealthy persons were wrecked. The Jews now threaten to massacre the Christians tomorrow."

A dispatch to a news agency from Odessa describes that city as having experienced a dreadful day, the defenseless populace being at the mercy of a howling and armed rabble of 50,000 men, calling themselves loyalists and led by disguised policemen and their wretched dupes.

The dispatch says: "The Jews made a stout resistance and their successful bravery entailed lamentable sacrifices. It is impossible to ascertain the casualties, but rumor puts the number of killed and wounded as high as 2,000, many by bombs which the mobs used wholesale. Not until late at night, when the murderous work had gone unchecked for the day, did the troops brought, cordons placed around the Jewish quarter and quiet somewhat restored. "The law-abiding citizens are incensed with the Jews. General Kaulbars, who is held to be solely responsible, since the civil governor was deposed yesterday. The only hope is that the worst has passed, as in all probability the Jews have nearly exhausted their stock of cartridges."

The Odessa correspondent of the Standard tell a similar tale. He says: "It is reported that the casualties will reach 1,000, but it is impossible to verify this report. The last bomb thrown in Deribas street killed fifteen and wounded forty. Within ten minutes eight others were killed nearly on the same spot. The Jews are now being thrown out of the city and the only persons who have resorted to the throwing of bombs, but the extremity of their peril must be remembered. Our only salvation is the complete military occupation of the city."

FREEDOM OUST IN GRASP OF FINLAND
Helsingfors, Finland, Nov. 1.—The official buildings by the red flag and the Finnish national emblem. The police department is in the hands of the national guard, part of which has been armed by the Russians. Some of the press and removal of grievances connected with military services. Finally the senate resolved that, as it no longer possessed the confidence of the people, new senators should be appointed. The resolutions were signed by all the senators and were dispatched to St. Petersburg together with the resignations of the senators.

The movement for freedom is spreading. The strike continues. No newspapers are published, and high prices of most still prevail. Telegraphic communication is interrupted with all railroad stations in Finland, and also with the towns of Tampere, Viiborg, Jyväskylä and Villmanstrand. It being reported during the course of the day that artillery was approaching the town, a deputation represented to the commander of the garrison that as the whole Russian people were fighting for freedom, the Finns were doing the same and would regard the artillery as a hostile force. The commander realized that while order was maintained the troops would not interfere.

John Obolensky, governor general, has also promised that troops will not interfere with meetings. The social democrats demand the summoning of a constituent assembly on the basis of universal suffrage before the Diet is convened.

IMPERIAL UKASE OUTLINES NEW PROGRAM
St. Petersburg, Nov. 1.—An imperial ukase dated November 1, reorganizing the council of ministers, states that the president of the council will be chosen by the emperor and that reports of chiefs of various divisions to the emperor will be communicated beforehand to the president of the council, who will also receive communications regarding all measures taken by the heads of departments. The ukase further provides that all officials, except naval, diplomatic, military and court officers, are to be subject to previous approval by the council of ministers. Finally, all legislative bills presented by the ministers to the duma for the state council must first be submitted to the council of ministers.

ARE WOUNDED IN WARSAW

Warsaw, Nov. 1.—Twenty persons were killed and upward of a hundred were wounded in the encounters to-night between the mobs and the troops. At 10 o'clock a crowd gathered before the town hall and demanded the release of political prisoners. The chief of police liberated 300 who had been arrested during the last few days, but refused to release twelve who were arrested on order of the Central government. The crowd then commenced to smash the doors and windows of the town hall, whereupon the chief of police telephoned for assistance, and a force of Hussars and Cossacks with a battery of artillery galloped to the scene. The Hussars charged the mobs, killing sixteen persons and wounding seventy-three. Later there was an encounter between infantry and a mob in the bank square, where the troops fired into the crowd, killing four and wounding thirty.

DRIZZLING RAIN COOLS OFF ST. PETERSBURG

St. Petersburg, Nov. 1.—(a. m.)—A light fall of snow covered the city during the night, but this morning a drizzling rain helped dampen the ardor of the crowds already exhausted by the demonstrations of yesterday. The re-appearance of patrols and foot soldiers also exercised a restraining influence. Many railroad employees are ready to return to work and those in favor of continuing the struggle have difficulty in holding the majority. The students and social democratic leaders, who continue to declare that only a democratic republic will satisfy them, are warned that this will only result in armed combats between the people and troops.

A score or more meetings are announced for today. The news from the provinces shows the whole empire was plunged in great excitement yesterday. Clashes and sanguinary encounters occurred in many places. In some towns the mobs obtained control and forced the release of political prisoners. The Cossacks were turned loose and beat the crowds at Kazan, Kishinev, Kiev and other places.

Carnage in Kiev.
Kiev, Nov. 1.—Five bodies of five persons killed and forty-five wounded were removed from the town hall.

Fighting at Minsk.
Minsk, Nov. 1.—Crowds in an attempt to storm the prison here yesterday were beaten off by Cossacks, who fired several volleys at the mob. Many persons were killed and more beaten with whips.

Hot Time in Warsaw.
Warsaw, Nov. 1.—Disorders continue throughout the vicinity. Conflicts between the populace and soldiers are frequent. The authorities are charged with ignoring the imperial manifesto and general depression prevails everywhere.

Rioters Fire City Hall.
Tver, Russia, Nov. 1.—During the rioting here yesterday, the governor and mayor, with the aid of city militia, barricaded themselves inside the city hall to prevent the ingress of the mob, who set fire to the building. The dragons were summoned, but they were beaten off by the mob, which set fire to the building. The troops eventually obtained the upper hand.

Seven Killed at Vitebsk.
Vitebsk, Russia, Nov. 1.—Troops were employed to disperse red flag demonstrators here yesterday. Seven persons were killed, among them being two Jews, and many were wounded.

ODessa PEOPLE FEAR ANOTHER SLAUGHTER
London, Nov. 1.—A dispatch to a news agency from Odessa says a mob of rioters has broken loose in various parts of the city and have been in conflict with students, resulting in much bloodshed. It is estimated that fully a hundred persons have been killed. There was a lull in the fighting about 2 o'clock but the people are panic-stricken, fearing another eruption.

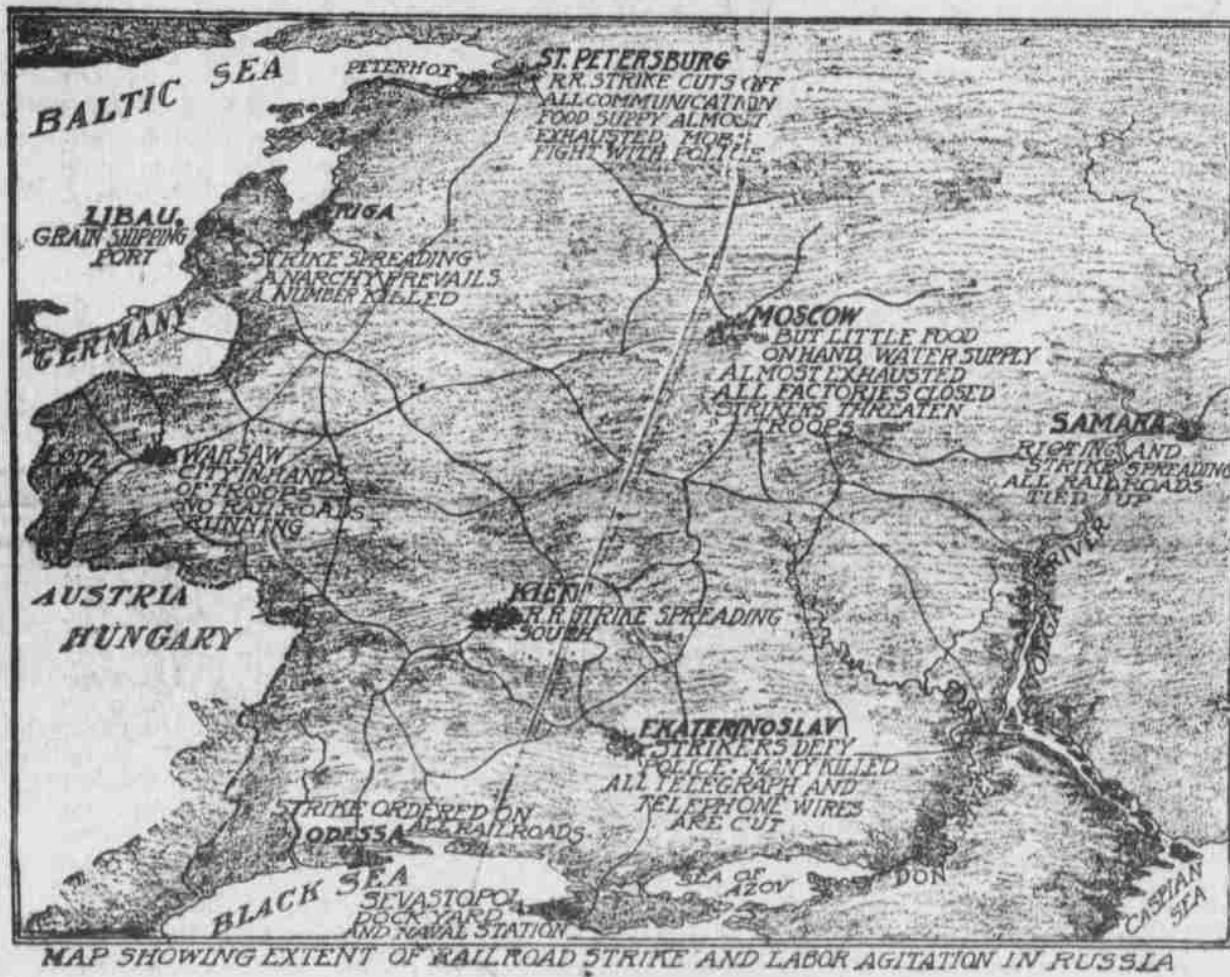

HOT FIGHT WITH COSSACKS IN KIEF
Kiev, Nov. 1.—The populace seized the town hall yesterday and revolutionary speeches were being delivered to the crowd from the balcony when the Cossacks appeared. Some of the people inside the building were armed and an engagement ensued, resulting in many being killed and wounded on both sides. The Cossacks finally routed the crowd and captured the building. After dark, the Jewish quarter was sacked.

Sensational Report on Equitable.
New York, Nov. 1.—The expert accountants employed last June by President Morton, of the Equitable Life Insurance company, have completed their work and turned in their report. The findings are said to have surprised even those who expected discoveries not touched upon by the investigating committees. The report will not be made public until after the next meeting of directors.

SCENES OF RIOTING IN TURBULENT POLISH CITY AND MAP SHOWING EXTENT OF VAST RAILROAD TIE-UP IN RUSSIAN EMPIRE

FIRING ON CROWDS IN WORKMEN'S QUARTER, WARSAW.

"ANDREWS WORKED MY RUIN" SUICIDE CLARK'S LAST WORD

Associated Press Dispatch to the Morning Journal.

Pittsburg, Pa., November 1.—The following statement of T. Lee Clark, cashier of the Enterprise National bank of Allegheny, written a few hours before he committed suicide was made public tonight:

"DEAREST WIFE AND CHILDREN: "IN TEN HOURS OR LESS I WILL BE IN ANOTHER WORLD. YOU HAVE BEEN A DEAR, GOOD WIFE TO ME. ANDREWS HAS WORKED MY RUIN. DEAR WIFE, KEEP ALL THE INSURANCE FOR YOURSELF AND THE BABIES. HOW HARD IT IS TO LEAVE YOU ALL. I HAVE MADE A DESPERATE EFFORT TO KEEP THINGS GOING UNTIL I WOULD GET THE ROAD FINANCED, BUT IT HAS BEEN TOO SLOW. THE EXAMINER IS HERE AND I AM RUINED. DO FORGIVE ME. IT IS NOT ALL MY FAULT. I HAVE BEEN SHAMEFULLY ROBBED. THE BANK WILL GET EVERYTHING BUT MY LIFE INSURANCE. "YOUR HUSBAND, "LEE."

Clark committed suicide on the morning of October 18, and the above statement, written in pencil on one of the bank's letterheads, was found in the dead man's home by his fourteen-year-old daughter and turned over to his attorney. It was evidently written at the bank the night before the suicide, when Bank Examiner Cunningham and Clark worked until midnight on the books.

The bank was closed by the comptroller of the currency on the afternoon following Clark's suicide, on advice from Examiner Cunningham. The above statement is not the one alleged to be in the possession of the federal authorities. That one, the friends of the dead cashier say, was given to the government authorities, but its existence has been vigorously denied.

T. Lee Clark, the deceased cashier, was treasurer of the Santa Fe Central railroad, of which W. H. Andrews was president. This road is in New Mexico, and is about 117 miles long, running from Santa Fe to Torrance, with a branch now projected to Albuquerque.

The road connects at Santa Fe with the Denver and Rio Grande, at Kennedy with the Atchison, Topeka and Santa Fe, and at Torrance with the El Paso and Southwestern.

The railway was capitalized at \$2,500,000 and is bonded to the extent of \$2,500,000. Of this amount \$2,000,000 bonds have been issued, while \$500,000 have been kept in the treasury for betterments.

A dispatch from Franklin, Pa., tonight says: "The alertness of Receiver John B. Cunningham of the Enterprise National bank of Allegheny has resulted in securing for the creditors of that institution something like \$17,500, which was seized on a foreign attachment against W. H. Andrews. Just before the close of business at the court house yesterday J. H. Osmer & Sons, attorneys, received a telegram from Receiver Cunningham instructing them to attach all the real and personal property of W. H. Andrews in Venango county." The writ was issued and was to be served by Sheriff McElhinney today.

"It directed particularly that all money and credits in the hands of the National Transit company, through which the Standard Oil company purchases its crude oil, be attached. It is understood that the receiver took this step on learning that Andrews contemplated the sale of his oil property in Cherry Tree township, this county. That the sale had been planned is indicated by Andrews and his attorney, Eugene Mackey, arriving here at 2 o'clock this morning. They went to the Alsace hotel, did not register, and instructed the clerk not to let any one know that they were there. When the court house opened this morning Andrews and his attorney learned that the attachment had been issued. However, they met Dr. Burchfield, the prospective purchaser, and after securing Receiver Cunningham's consent, the sale was consummated and the proceeds turned over to the receiver."

A dispatch from Meadville, Pa., says that valuable real estate in Steuben, Rome and Oil Creek townships, belonging to Andrews, has been attached.

CAN'T STOP REBATES WITHOUT STARTING A BIG RATE WAR

Says Leads of Santa Fe Freezer Line.

ATCHISON AND DISPATCH LINE NOW ON THE CARPET

Washington, Nov. 1.—Admitting that rebates are given to shippers in the California fruit lines by practically all private car lines J. S. Leads, general manager of the Santa Fe Refrigerator Dispatch, which corporations, according to officials of both who were on the stand, are owned by the same interests.

Mr. Leads occupied the witness stand the greater part of the day and was followed by Edward Chambers, freight traffic manager of the Santa Fe railway, who prefaced a mass of important testimony with the statement that the stock of the corporations mentioned is owned by the same interests, and that the corporations have the same president.

The commission this afternoon ordered the taking of the deposition of Edwin T. Earl of Los Angeles, November 10, Attorney Union for the Armour car lines again endeavored to have a fixed date for closing the testimony in the inquiry, but his motion was denied.

CLUE TO MURDER OF TIMES EDITOR

MYSTERY OF NEW YORK CRIME IN FAIR WAY TOWARD BEING SOLVED.

New York, Nov. 1.—Further light on the recent mysterious murder of Jacob H. Thompson, exchange editor of the New York Times was obtained by the police today when Mamie Gibson, a negro, who knew the colored bell boy, Richard Hannibal, who died last night while under suspicion of committing the murder, was arraigned in court. She said that Hannibal told her that if she was ever questioned about the murder she must say that Hannibal spent the night of Thompson's death at her house. He was not there that night, the girl testified. She said that the bell boy told her that he did not murder Thompson, but that he ought to have been murdered because of the small tips he gave.

The colored girl was arraigned in connection with Hannibal's death, as the bell boy was found with his throat cut after he had quarreled with her and wounded her recently.

Voting Machine a Fizzle.
San Francisco, Cal., Nov. 1.—The voting machine to be used at the coming municipal election November 7, was given a test yesterday before the committee representing the fusionists. A linotype operator of a newspaper showed that by placing a small rubber band in a certain place near the name of the fusion mayor, the machine would not register for the mayor, although it would for all candidates.

Newberry Assistant Secretary.
Washington, Nov. 1.—T. H. Newberry, of Detroit, Mich., today took the oath of office as assistant secretary of the navy and at once assumed the duties of the office.

GUNS BOOM FOR LOUIS OF BATTENBERG

British Prince Welcomed to American Soil.

FLOWER OF UNITED STATES NAVY GREET SQUADRON

Commander of North Atlantic Fleet Governor of Maryland and Head of Naval Academy Extend Courties to Royal Visitor.

Annapolis, Nov. 1.—Greeted by the commander-in-chief of the North Atlantic fleet, the superintendent of the naval academy and the governor of Maryland, His Serene Highness Rear Admiral Prince Louis of Battenberg and the armored cruiser squadron under his command on the day of their arrival in Chesapeake bay have been made to know and feel that they are warmly welcome to American waters and American soil.

Twenty-one guns from the British flagship Drake announced the approach up Chesapeake bay this morning shortly after 9 o'clock of Prince Louis' squadron. The weather was balmy. Prince Louis stood on the bridge of his flagship at the front of the majestic column of cruisers and gazed at the scene with evident pleasure.

The eight battleships of the first and second divisions of the North Atlantic fleet, the Maine, Missouri, Kentucky, Kearsarge, Alabama, Illinois, Iowa and Massachusetts—were stretched across the bay. Farther in shore were the torpedo boat destroyers Hopkinton, Donough, Lawrence, Worden and Stewart.

As the Drake began the firing of the national salute the American flag was hoisted on the Maine. As the last shot of the salute rang out, there boomed from the Maine the flag of the American commander-in-chief, the first gun of the return salute and quickly an ensign was hoisted at the peak of the Maine. Rear Admiral Evans, Chief of Staff Captain John Pillsbury and the fleet officers of Admiral Evans' staff. The reception of Prince Louis on board the Maine was made the more cordial by the very graceful and courteous words of Admiral Evans, which were accompanied by a hearty handshake. As Prince Louis went over the side shortly afterward he was again saluted with thirteen guns.

From the Maine Prince Louis and his flag lieutenant repaired aboard the Alabama, flagship of Rear Admiral Davis, commanding the second division of the first squadron, where he was similarly received by the Alabama firing thirteen guns as the Prince left the ship.

When Prince Louis returned to the Drake, he received the aide of Rear Admiral Sands, superintendent of the naval academy, and Captain Ryan, naval attaché of the British embassy at Washington. Prince Louis, accompanied by his flag lieutenant, then started up the harbor for Annapolis to pay his respects to Admiral Sands and Governor Warfield. His highness was greeted at the boat landing of the naval academy by Admiral Sands and his aide. Drawn up to render him the prescribed salute was a company of marines.

Awaiting him was Governor Warfield's carriage, in which the Prince and Admiral Sands drove to the governor's residence, whence, after a few minutes, the prince drove to the governor's mansion and paid his official call upon Governor Warfield. The prince was met at the front door by the governor and given a hearty reception.

PHILADELPHIANS KILLED IN AUTO SMASH-UP

FACTORY MAGNATES MEET DEATH BY ACCIDENT TO TREE OF MACHINE.

Philadelphia, Nov. 1.—James H. A. Brooks, of this city, was killed, and Michael J. Price and the wives of the two men were seriously injured in an automobile accident today near Abington, N. J., about 15 miles from here. The accident was caused by a tire of their automobile slipping off one of the rear wheels while they were riding at a high speed. The party was on its way to Atlantic City from this city.

Members Brooks and Price were members of the firm of McNeely, Price and Glas, which has large factories in the northern part of this city.

STOCKHOLDERS IN BIG ARIZONA MINE DEMAND RECEIVER

Suit Filed Against President of Great Western Gold Co.

MUST RETURN HALF MILLION OF ILLEGAL CAPITALIZATION

Phoenix, Ariz., Nov. 1.—W. H. Gaudin, of Chicago, and Edward J. Hill, of Aurora, Ill., owning 504,000 shares of the Great Western Gold company, today filed suit here alleging insolvency of the company and asking the appointment of a receiver and return to the treasurer of the company of approximately \$500,000 by President T. S. Henderson, of St. Louis.

A Woman Horse Thief.

Tacoma, Wash., Nov. 1.—Myrtle Tipton, aged 16 years, was arrested near Prescott today by Deputy Sheriff Newberry of Whitman county on the charge of horse stealing. She was taken to Walla Walla and placed in the county jail. It is alleged she went to an Indian ranch on the Coeur d'Alene reservation and stole three horses, a black and a set of harness, took them to St. John and sold them to a livery stable owner for \$225. She donned a suit of boy's clothes and went to a hotel and secured lodging. The next morning she boarded a train and went to Prescott, going thence to the Harkness ranch.

Officials heard of her and instantly located her on the Harkness ranch. When questioned tonight she admitted the theft and said she sold the outfit for the purpose of securing money to go to Yakima to visit her mother and sister. She is a sister of Charles Tipton, who was convicted of forgery in Pendleton last week and sentenced to two years in the penitentiary, but who was paroled by a judge of the circuit court.

Bogatyr at Nagasaki.

Nagasaki, Nov. 1.—The Russian cruiser Bogatyr has arrived here. This is the first Russian warship to visit Japan since peace was declared.

Herrick By 20,000 Majority.

Washington, Nov. 1.—Where as wise and prudent a statement on the result in Ohio, and declines to give the figures, which he can usually give as well before as any one else can after elections, it may seem rash in one as humbly situated as myself to venture a prediction—but I will, I remark, "Private" Duley, who has just returned from Ohio.

SEEKS GOVERNMENT EXHIBIT.

President Tucker. Out in interest of the Jamestown Exposition. Washington, Nov. 1.—Mr. Henry St. George Tucker, president of the Jamestown Exposition company, was at the war department yesterday and had a conference with Secretary Taft in reference to the war department exhibit at the exposition. He has had similar conferences with other members of the cabinet. He is going to visit England, France, Germany, Russia and other European countries in the interests of the exposition, and has procured the necessary credentials from the state department.

Leads Poker Raid on Own Office.

Knoxville, Tenn., Nov. 1.—State Senator Jerome Templeton led a raid on a poker game in the Tennessee National Bank building at 2 o'clock in the morning. He received information that several prominent young men were engaged in a game at his office. He woke the sheriff and led the way up two flights of stairs to the room where only four men remained.

Teachers Scarce in Nevada.

Reno, Nev., Nov. 1.—Several schools in Nevada have been compelled to close because the trustees have found it impossible to secure teachers. Yesterday another school in Humboldt county was compelled to announce that for a time at least the school will be closed, no teacher being available. The Normal school of the state university for the last few years has not been turning out teachers fast enough to supply the demand. Wages have been advanced and from outside states pedagogues have been imported. Even this has not been successful for the rule has been that within a few months the teachers get married and resign their positions.

AFTER CHINESE MURDERERS.

Police May Take Up Mrs. Sing's Story.

Washington, Nov. 1.—The attention of Commissioner of Police McAdoo of New York City has been called to the gruesome statement of Mrs. May Goon Sing, formerly Miss Lucy Rosebury of Littleton, W. Va., concerning the alleged murder by Chinamen of their white wives in New York. The matter was brought before Mr. McAdoo by a friend of his in this city, who was deeply impressed by the truthfulness of the woman's statement. It is probable that the police department in the metropolis will make a searching inquiry into the alleged outrages and also try to connect the Boston suit case mystery with the dives and high-binders of Chinatown.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c per bottle. One size only.

ROOSEVELT STANDS BY THE ENLISTED MEN

WILL NOT ALLOW DISCRIMINATION AGAINST BLUE JACKETS AND SOLDIERS.

Washington, Nov. 1.—The president has determined to do all that he can to break up the growing discrimination in public places of amusement and public resorts and hotels against the bluejackets and soldiers. Secretary Bonaparte's action in dismissing from the service with a scathing rebuke an employee in the Norfolk navy yard who refused to admit a petty officer of the navy because he wore sailor's clothing is an indication of the executive purpose.

It has been the subject of many official reports to the navy department particularly that sailors of unblemished record have been refused admission to theaters and entertainments in hotels because they wore a uniform which the president believes should be honored in all parts of the land. Soldiers have suffered in a minor degree from this discrimination. It has taken the navy department some time to disabuse the minds of local magistrates of the impression that the navy is the proper refuge for every scoundrel youth of evil tendencies who should be sent to the reform schools.

As stated, Secretary Bonaparte has directed the dismissal of an employee of the Norfolk navy yard as a result of a complaint which came to the department that the employee, after having agreed to lease two rooms of his house to a machinist's mate serving with the reserve torpedo flotilla, refused to carry out the agreement because it would be necessary for the machinist's mate to come to his residence dressed in the uniform of a petty officer of the navy. After consideration of the employee's statement,

FIERCE FIGHTING IN GERMAN AFRICA

THREE OFFICERS AND THIRTEEN MEN KILLED, THIRTY-FIVE WOUNDED AND FIVE MISSING.

Berlin, Nov. 1.—An official dispatch from German Southwest Africa says that Lieutenant General von Trotha, commander in chief of the forces, in personal command of a detachment, recently attacked an entrenched force of Herero natives on the Orange river, east of Hartmannsdamm, under the command of Morongo, Morrie and Christian. The fighting lasted several hours until night-fall. Three German officers and thirteen men were killed, three officers and thirty-one men wounded and five are missing. The rebels lost heavily, and drew off during the night. The troops were too exhausted to follow them.

Devlin Passes Away.

Chicago, Nov. 1.—Charles J. Devlin, bankrupt millionaire coal operator and banker, died at Elizabeth Hospital in this city today as the result of a second attack of paralysis. He suffered his first stroke last summer at Topeka and this fact led to the failure of his vast interests.

GO TO BELEN
The Future Railroad Center of New Mexico
Located on the Belen Cut-off of The Atchison Topeka & Santa Fe Railway
The new City of Belen is 31 miles south of Albuquerque, N. M., is at the junction of the main lines of the Santa Fe system—leading east and west
from Chicago to San Francisco and Los Angeles, El Paso, Texas and Old Mexico
The Belen Town and Improvement Company
(INCORPORATED)
ARE THE OWNERS OF THE BELEN TOWNSITE, consisting of ONE THOUSAND BUSINESS AND RESIDENCE LOTS, (size 25x142 feet) fronting upon 80 and 70-foot streets and avenues, RIGHT in the business
center of the NEW CITY and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka and Santa Fe Railway company is now grading its extensive depot grounds and yard limits 800 feet wide and
a mile long. (capacity of seventy miles of side track) to accommodate its NEW PASSENGER and FREIGHT depots, HARVEY EATING HOUSE, Round House, Coal Chutes, Water Tanks, Machine Shops, Etc.
THE CITY OF BELEN
Has a population of 1500, and several large Mercantile Houses, The Belen Patent Roller Mills, capacity 150 barrels daily; winery, etc. It is the largest shipping point for flour, wool, wheat, wine, beans, hay and fruit
in New Mexico. From its location upon the Great Trunk line, leading North, South, East and West, to all points in the United States and Old Mexico its future growth as a Commercial point cannot be estimated.
All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$16,000 public school house,
two churches, a commercial club, three hotels, restaurants, etc. It needs right now a bakery, tailoring establishment, shoemaker, plumber, planing mill, drug store, harness shop, etc. THE LOTS OFFERED ARE
LOW IN PRICES AND TERMS EASY. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at eight per cent per annum. Title perfect and warranty deeds
given. COME EARLY IF YOU WISH TO SECURE THE CHOICE LOTS. For further particulars and prices of lots call in person or write to
The Belen Town and Improvement Company

NEW STEEL MAIL CARS GIVE CLERKS A BETTER SHOW

Built To Be Fire and Wreck Proof.

BRAND NEW POSTOFFICE

ROLLING STOCK IN ALBUQUERQUE

One of the brand new all steel railway postoffice cars which the Santa Fe is now adding to its rolling stock went through for the east on No. 2 yesterday morning. The new mail cars are built to insure greater safety and are so constructed as to run as smoothly as a feather on wheels. They weigh 150,000 pounds, being heavier than Pullman cars and combine enormous strength and much greater comfort than the old cars.

The underframing is all of pressed steel, the sides are sheathed with steel and the floor also is of the same metal. Over the steel flooring, however, is a layer of cement, on top of that a layer of felt and above the felt a strong wooden flooring. These new steel mail cars are expected to prove an economical proposition although they are considerably more expensive than the old style cars. It is a well known fact that the vibration of the railway postal clerk is the most hazardous on the system and as the car which carries Uncle Sam's letters is generally next to the engine whenever there is a wreck the postal clerk has the first chance to get killed. The old wooden cars are invariably reduced to kindling wood in the event of a smashup, but it is expected that the new steel cars will be able to stand the shock of a collision without telescoping or collapsing. They are as strong as heavy steel and scientific construction can make them and if they do not insure the absolute safety of the railway postoffice employee, they at least add greatly to his chances of getting out of a wreck alive.

"It is like riding in a Pullman to ride in one of the new cars," said a postal clerk on No. 2 to the Journal yesterday morning. "They are twice as warm and twice as easy running as the old cars and much more comfortably and conveniently arranged. The feeling of safety a fellow has, however, is the best thing about them. You aren't so convinced that you are taking your life in your hand every time you start out on a run."

Chief Engineer James Dun of the Santa Fe left yesterday morning for the east in his private car attached to train No. 2, accompanied by C. H. Sharpe, of the Lantry-Sharp Construction company. Mr. Dun, in company with Mr. Sharpe, spent a week going over the work on the Belen cut-off, and says the work is progressing rapidly and trains will run from Belen to Texico next spring.

PASSENGER MEN GIVE BLACK A GOLD WATCH

TOKEN OF ESTEEM FOR THE NEW PASSENGER TRAFFIC MANAGER.

W. J. Black, passenger traffic manager of the Atchison, Topeka & Santa Fe, was presented today with a handsome gold watch and chain by the employees in the passenger department who have served under him for many years while he was the general passenger agent of the road, says the Topeka State Journal. It was a token of their esteem for the uniform kindness and absolute fairness with which they have been treated by Mr. Black. One of Mr. Black's regrets in going to Chicago to assume his new position is the severing of the close personal relations which have existed between him and all of the force in the passenger department. The employees desire to have him go for he is liked by all.

The watch, which is a gold hunting case Elgin with seventeen jewels, and its chain, a chased link affair with a handsome gold fob, was a charming gift. It was placed in Mr. Black's desk this morning and when he opened the desk his surprise at finding the watch was great. On the case of the watch in monogram form are Mr. Black's initials "W. J. B." and inside is engraved the following inscription: "Presented by Employees, Passenger Department, Santa Fe, Topeka, Kansas, October 10, 1905." This is the date when Mr. Black's appointment as passenger traffic manager took effect.

Mr. Black will leave for Chicago tomorrow, where he will remain the rest of the week, returning here on Saturday. On the first of next week he will take his family to Chicago and establish a residence there for the winter at the Chicago Beach hotel.

James M. Connell, who succeeds Mr. Black as general passenger agent, arrived at noon today from Chicago and at once took up the duties of his new position. He has not determined as yet when he will move his family to Topeka, but it will not be for some time.

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup, whooping cough, When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

ROADMASTER HUTCHESON BREAKS SEVERAL RIBS

SANTA FE MAN PAINFULLY HURT WHILE ON GRAVEL TRAIN AT RIO PUERCO.

J. G. Hutchison, roadmaster on the Santa Fe Pacific, with headquarters at Winslow, has been brought to Albuquerque and to the Santa Fe hospital here, suffering with three or four badly fractured ribs. Mr. Hutchison was injured while on a ballast train directing operations at the gravel pits at Rio Puerco. He was standing on top of the shovel plover used in unloading the cars when the train suddenly started without warning, throwing Mr. Hutchison with great force backward across a heavy iron brace of the plover. Two native laborers standing near caught Mr. Hutchison as he went backward, partly breaking the force of his fall. Otherwise Mr. Hutchison believes the fall would undoubtedly have broken his neck and killed him. While he will be incapacitated for some weeks his friends will be pleased to learn that his injuries will not be permanent.

Passenger train No. 1 from the east, arrived last night in three big sections, all loaded heavily with people en route to the coast on tourist rates. No. 1 was sent west from here in two sections, No. 7 came in and went out in two pieces, also well loaded. The tourist rush is unprecedented for this season of the year and motive power and rolling stock are at a premium.

Manager J. F. Huckle, of the Harvey curio department, Manager D. Benjamin, of the eating house system, superintendent J. T. Jacobson, from Ash Fork, and Auditor McCreary, of the system, were all in the city yesterday conferring on matters relating to the big refreshment concern. Mr. Benjamin left last night on No. 1 for the east.

SANTA FE BURGLAR CAUGHT IN BOX CAR

Special Officer W. H. Meers, of the Santa Fe Railroad company, captured a burglar in a freight car near the warehouse in the El Paso Santa Fe yards at 6 o'clock Tuesday morning.

The robber is an old man and gave his name as J. W. Jones and said that he lived in El Paso.

The car in which Jones was found was loaded with general merchandises. In making his rounds the officer was attracted to the car by a peculiar noise. Examining the seal he found that it had been broken. He opened the door and found Jones in the act of pilfering a quantity of goods preparatory to leaving the car, says the El Paso Herald.

When the officer called to Jones to consider himself under arrest he did not make any attempt to resist, but came out of the car saying that he was not armed. He said that he had been in the car only a short while before the officer appeared and had not had an opportunity of getting away with any of the contents of the car. Jones was taken to the police station where a charge of burglary was preferred against him. He was held on in the day removed to the county jail.

So far as they go, Schilling's Best take doubt and difficulty out of getting your table supplies.

At your grocer's moneyback.

If you need a carpenter, telephone Hesseiden.

TUCSON, ARIZONA.

W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that I would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.

Very sincerely,
W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE

A Long Felt Want

THE city council can do a good piece of work, and fill, or at least commence the filling of a "long felt want," by making provision for a public dumping ground, and arranging to have the garbage of the city properly cared for under the supervision of an officer to be appointed for that purpose by the council.

All that any one has to do to convince himself of the actual, crying necessity for such an arrangement, is to take a walk or drive down to the south end of Second street, which is normally one of the handsomest thoroughfares in the town, but which the garbage wagons have transformed into a veritable nuisance, for about half a mile. The low place at the end of the street, is an excellent dump, and the ground is benefited by reason of the garbage being emptied there, because the place needs filling up several feet to put it above high water mark, but some of the teamsters who cart the stuff out are so much afraid of a little work that they hardly wait till they get on the ground before they unload, and sometimes dump their unsavory freight right in the street. This, of itself, is bad enough, but it is made twice as bad by the fact that a large part of the load is usually composed of old paper scraps, which are thrown out loosely with the rest, and the first lively breeze that comes along scatters them all over that part of town. This is the worst feature of the present arrangement, and the city's dump master general should see to it at once that this practice is discontinued. Paper should be separated from other garbage, and burned, and the other stuff should always be emptied at a decent distance from the road. But all this will doubtless be attended to if we are to have a man for that purpose.

Charity Meeting Today

AN ADJOURNED meeting in the interest of the "Associated Charities" is to be held in the parlors of the Commercial club at 2 o'clock this afternoon, and it is particularly desirable to have the presence of as large a number as possible of those interested in this work. The field is a broad one. There is ample room for all, and there will still remain much to be done after we have done all we can. There has been some little misunderstanding as to the method of procedure outlined at the first meeting, and for this reason it is especially important to have a large and representative meeting this afternoon.

FORMAL announcement has lately been made of the bequest of an endowment fund for the establishment of a school of socialism in the United States. The bequest was made by the late Mrs. E. D. Rand, of Burlington, Iowa, who died in Florence, Italy, last July. The principal of the fund amounts to about \$200,000, and the income of that sum will be devoted to the purposes of the proposed school for a term of twenty-five years.

Bets on the Election

EASTERN papers tell us that the betting on the election which is to occur next Tuesday is in New York 3 to 1 on McClellan. In Ohio the odds are 2 to 1 on Herrick. Little is heard from or about the gamblers in Philadelphia, although there are many claims and counter-claims as to the local contest. The machine's men are probably too anxious to think about wagers, while as the fusionists are opening their meetings with prayer and singing hymns as a means of emphasizing the gravity of the situation betting by them would hardly be the thing. Maryland presents a problem so very much mixed that those with money tucked away in their inside pockets seem disposed to leave it there until after the election is over.

THERE are many great discoveries in the way of "higher criticism," so to speak, and one is that Julius Caesar was not assassinated, but simply put to death "under the old Valerian law, which authorized any Roman citizen instantly to put to death any one who attempted to exercise kingly authority in Rome." So that Brutus and Cassius were simply executing the law. It's odd that Plutarch never heard of that.

A Gloomy Picture

A GOODLY part of the 28,000 consumptives in New York city are paupers so far as ability to command the conditions necessary to a cure are concerned, says the Globe. They are tenement dwellers for whom even the \$5 a week charged in the Trudeau institution at Saranac Lake is an insuperable barrier. For many years past they have gone from dispensary to dispensary, or quack to quack, lived at home, scattered infection among family and friends, and finally miserably died in one of the city hospitals. A few years ago, says the Globe, a special hospital was set aside for them on Blackwell's Island. This is full to overflowing all the time. It serves the purpose of separating them from other city patients, and no doubt to some extent limits the spread of infection. But it had and has almost no curative value. It will be seen, therefore, that the attack of a poor citizen of New York city by consumption is practically equivalent to a sentence of death; executed perhaps in six months or less, possibly not for several years, but always finally executed. The cases which are able, by unremitting care and close attendance at one of the comparatively few dispensaries, to stay in the city and stop the progress of the disease or cure it are so few and require such a happy combination of environment and disposition that they do not appreciably brighten this very dark and hopeless picture.

A New Tariff Bill

SENATOR ALDRICH is said to have told the president that he is preparing a bill for a dual tariff in which the Dingley law is taken as the basis for minimum rates, while provision is made for maximum rates 25 per cent higher to be imposed on imports from nations that discriminate against us. It is safe to say that whether the Dingley rates be accepted as the minimum or not, Germany's course will not be recognized except by retaliation. No special concessions will be made to that country to avoid its commercial hostility. None injurious to Great Britain could be made in justice to that country, which practices no discrimination against us and is our best customer. There is no room for controversy except on the question of what our minimum rates should be. The preservation of the beef trust's market in Germany will not be made the paramount consideration in any legislation enacted at Washington the coming winter.

GEORGIA WOMAN A STURDY FRIEND OF ALBUQUERQUE

Albuquerque has friends in every county in the United States. The kindly feeling for this city is shown a thousand times a year in the readiness of people who have come here for health and who have benefited. Recently the mayor of Columbus, Georgia, Mr. L. H. Chappell, came to New Mexico for his health. He stayed several weeks and was in Albuquerque three days. When he went back he said some things about the territory and about Albuquerque, among them the following, appearing in the issue of October 16 of the Columbus Leader:

"Mr. Chappell said Albuquerque was noted all over the world as a health resort, but that the city was illly kept and the water supplied the city was poor and in his opinion unfit to drink. He said, however, that the air was a revelation to anyone who had never been in that section of the west. There is no dew and rain is almost unknown. The country is said to be the air is dry as to make it one of the most healthful places in the world. He said there was much typhoid fever there, on account of the poor sewerage system."

Mayor Gets Set Right.

The following day in the same newspaper appeared the following letter from one of Albuquerque's champions, who has lived here long enough to know:

Editor Ledger: Referring to Mr. Lucius Chappell's statement regarding Albuquerque, New Mexico, published in yesterday afternoon's Ledger, I would like to say that he is entirely mistaken on the water question. Albuquerque has a city chemist of national reputation as a scientist, John Weindert, M. S., director of Hadley Chemical Laboratory, and professor of chemistry and biology, University of New Mexico. He is a health seeker but not too sick to pursue his chosen work. Once a month he analyses the water. His reports are published in the daily papers. Up to the present time they have been eminently satisfactory to the most fastidious. Recently physicians whom I know have sent samples of water to New York for examination with equally satisfactory results.

At this time Albuquerque has about fifteen cases of typhoid fever, but with this statement one should know related facts. Albuquerque is a health resort. The percentage of its people below par physically is large, hence their susceptibility to any disease. Again, the high altitude develops in many cases diseases contracted elsewhere. This is especially applicable to typhoid or other fevers where the patient had a short time before resided in a low country. Any germ disease is milder and less fatal in a high, dry climate.

In point of cleanliness Albuquerque could be improved, but it is as well kept as the average town of 15,000 people. No town in the southwest can appear as orderly as a town in the west because of the sand storms. The wind of a few hours can disturb the work of days. But these very winds are a purifying agent whose value cannot be estimated.

While one may see at times both tin cans and papers on vacant lots and in the streets at times, I am sure that if you should enter the nearby houses there would grow up a distinct odor of carbolic acid or some other equally efficient disinfectant. I know ministers who continually visit the sick and the well. They tell me that they seldom enter a house without setting a whiff of some germicide. Many authorities claim that tuberculosis is not communicable in a high altitude, but if it is, the danger is considerably lessened in Albuquerque by the prodigality with which germicides are employed.

I have been living in Albuquerque three and one half years. The town is decidedly cosmopolitan. The people come from all parts of America. Most of them are there because of weak lungs in this or a preceding generation. It takes intelligence and money to successfully fight lung trouble and in the fight one learns to correctly estimate extreme cleanliness. In a hygienic sense, both external and internal.

Senator Beveridge, of Indiana, made a flying trip through the two territories and has been deluging the press with his impressions, most of them erroneous. William E. Curtis, of the Chicago Record-Herald, made an equally short trip through that section and can now tell you more about it than people who have spent a life time there.

MRS. ETHEL PHILLIPS LESTER, Columbus, Ga., Oct. 17, 1905.

The Care of the Baby.

From the Chicago Tribune.

When the American baby arrives in the world he finds paraphernalia and impedimenta awaiting him to furnish forth all the purposes of a numerous native tribe. The garments that were authorized to the baby's immediate predecessor are already discarded by science. The slaps and jockets that were used at an analogous time by big brother will not do for him. All baby clothes must now be in one piece. Or is it three pieces? No one can tell till the fatal moment. And as for soap, the powders, the brands that were used five minutes ago are now esteemed extremely deleterious. Soap, in fact, are nothing. What we want is skin foods.

Meanwhile, if the thermometer is overlooked the consequences will be dire. If the baby didn't have a thermometer he probably would refuse to have a temperature. And if he didn't have a pair of scales he might refuse to have any weight. Some kind of weighing machine is essential. And an individual bath tub! So that he can swim to see what effect it has on him. The cradle must be thrown away. It goes to the junk heap. The thing to spend your money on now is a bassinet. Next year, for the next baby, it may be a hermetically sealed test tube. Where, oh, where is the drift toward the simple life?

Certainly not in the baby's food. Alligator oil rubbed in through the chest is the real nourishment. And cheese made from the milk of the goats of the Caucasus is an indispensable element of diet.

THE DOCTORS AGREE.

Two Physicians Both Agree on the New Scientific Dandruff Treatment.

Dr. J. M. Powell, of Spokane, Wash., says: "Herrick has given good satisfaction in my family for dandruff." Dr. W. G. Alban, of Walla Walla, Wash., says: "I find Herrick all that is claimed for it as a dandruff cure. I shall prescribe it." Dandruff is a germ disease and you can't cure it unless you kill the dandruff germ; and you can't do that unless you use Newcomb's Herrick, the only preparation in the world that destroys the parasite. A delightful hair dressing; allays itching instantly; makes hair glossy and soft as silk. It is a sure dandruff destroyer, sold by leading druggists. Send 10c. in stamps for sample to the Herrick Co., Detroit, Mich. B. H. Briggs & Co., special agents.

Cheapest Disinfectant Is Hahn's Eureka (lime, Effective and safe).

Timely Suggestions

We are surrounded by suggestions of approaching winter, but the most suggestive thing to be seen is our large line of High Grade Heaters. They suggest to the mind and picture to the mind's eye howling winds and drifting snow on the outside, and a warm glow within, which is the result of the highest art in stove-making. It radiates a glowing warmth evenly all over the room, or two or three rooms if you have them connected.

Moral: Buy Bridge Beach Superior Stoves. Get the habit.

Santa Fe

ALBUQUERQUE MAY GET HANDSOME NEW READING ROOMS

Plans Have Been Drawn for Railroad Building.

HOPE TO UTILIZE GROUNDS OPPOSITE THE ALVARADO

According to S. E. Buser, superintendent of the Santa Fe's reading room system, there is reason to expect that within the next year Albuquerque will have a handsome new reading room building, in the center of the business district, to cost from \$50,000 to \$65,000, and to be one of the handsomest on the system; a first class club for the railroad employees.

The plans for this building have already been drawn and while the appropriation for it will have to wait for the completion of projects in this department now under way, Mr. Buser believes it will come before very long.

"We have been worrying along with the reading rooms at the shops for a long time," said Mr. Buser last night, "and we may have to make the old quarters do for a time yet, but I hope that before very long we may be able to build the building for which plans have been drawn and which we would like to locate across from the Alvarado hotel, on the ground owned by the railroad company. The reading rooms at the shops serve for the purpose of the mechanical department, but they are little used by the other employees and my idea is to get the buildings whenever possible, where they will be most convenient for the men. The plans for the building here call for the expenditure of a large sum of money and it may be some time before we can get the necessary appropriation. The plans call for a building with an auditorium seating eight hundred and which by the pressing of a button can be turned into a ball room, or a skating rink. It will be fitted with commodious reading rooms, baths, bath tubs and showers and will be modern in every respect.

"This, however, is in the future. We have under construction now improvements in the reading room system costing at least \$100,000. New buildings are to be built at Gallup and Needles and I opened temporary rooms at Gallup last night, which we will use until the building now under way there is complete. In Needles the company has secured the grounds it wants and is about to begin the construction of a handsome recreation building for the employees, one of the best of them all."

Mr. Buser would set no definite time when the building planned for Albuquerque might be expected to materialize, but he said it would probably be the next on the building program of this department.

ELK COMPANY ELECTS OFFICERS

DIRECTORS OF LEASE HOLDING CORPORATION RETURN THE FORMER OFFICERS.

At a meeting of the directors of the Elks' Lease Holding corporation, held yesterday afternoon in the office of P. E. McCanna, the directors elected officers for the coming year, returning all the old directors as follows:

President—Frank McKee.
Secretary—McCanna.
Treasurer—W. H. Hahn.

NOT TIME YET FOR FUNERAL OF STATEHOOD

OFFICEHOLDERS IN HURRY TO ANNOUNCE THAT IT IS DEAD AND BURIED.

(Captain News.)
The opponents of joint statehood are quick to tell us that statehood is dead, and that we need look for no action by congress this winter. We are somewhat inclined to the same belief, but with an addendum: It is joint statehood or no statehood.

It is wonderful with what glee the advocates of single statehood announced the death of the measure when they have fought so valiantly for the measure. It seems to bear out the assertion that they are against any kind of statehood and were only using their opposition to joint statehood to cover up their real opposition to any kind of statehood. The persistence with which territorial officials have advocated single statehood, particularly when they knew that the dominant party was not in a humor to give it, but as a means to dispose of the vexing question had offered to grant joint statehood to the territories and let the matter rest is transparent.

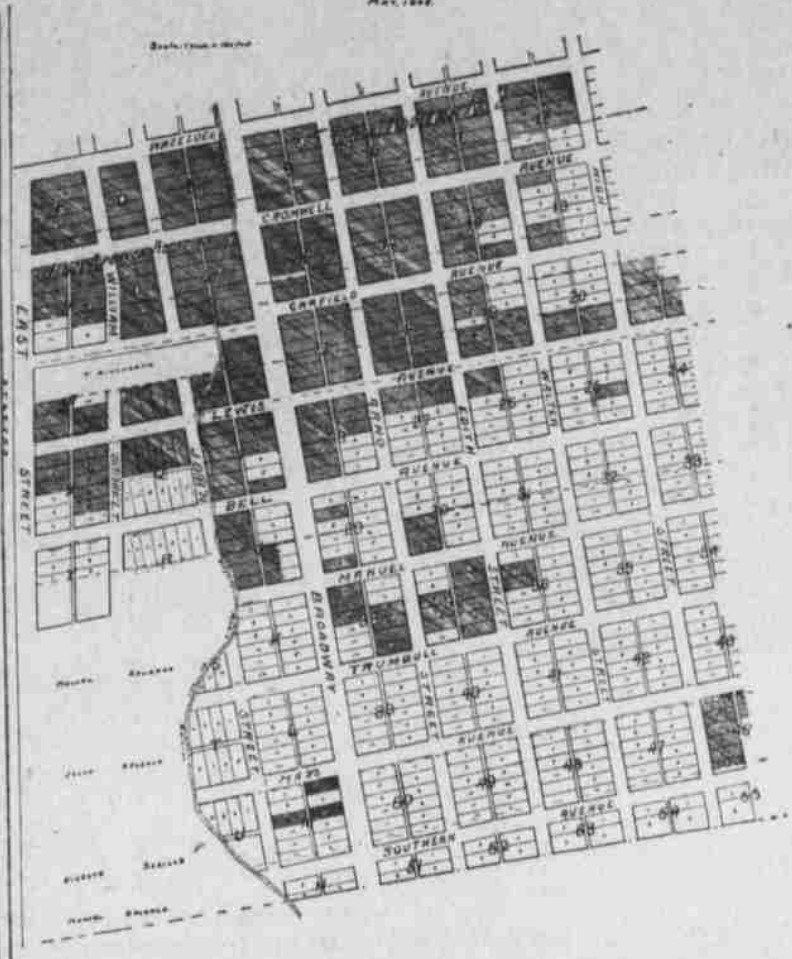

Has any one heard of a single territorial official, or of any of the satellites expressing an opinion in favor of joint statehood, in case single statehood could not be secured? We think not. Has any heard of any official who is patriotic enough to say that if we can't get what we want would it not be better to take what is offered when we know it will be an improvement over the present, even though we will be compelled to give up our offices? We think—we know not. Has any officer of the territory ever deplored the taxable conditions of the territory, and been able to show where there will be a stop to increased taxation when all know that the territorial tax rate has more than doubled during the last eight years? Their silence has been golden, but productivity of gold only to themselves. Under these conditions does any one believe that the officials that have fattened at the public crib are willing to step down and out and give the people a show? If there are any who do they have failed to make themselves heard. The agitation of the joint statehood proposition has given the officeholders the chance of their lives; for it has enabled them to shout lustily for statehood, but at the same time cover up their designs. They have posed as the true friends of New Mexico and denounced those who have suggested that joint statehood would be far preferable to no statehood.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no grating or other unpleasant effect. Sold by all druggists.

What part of this paper do you suppose is the most interesting to the person who is eagerly looking for a furnished room or boarding place? Is your ad in that part of the paper?

READY TO SURVEY THE NEW JEMEZ FOREST RESERVE

Assistant Topographer Goes to Reserve Today.

GEOLOGICAL SURVEY DOING SOME IMPORTANT WORK

R. H. Sargent, of Washington, assistant topographer of the geological survey, who has been in Albuquerque for several days, will leave this morning with his outfit for the Jemez forest reserve in northern New Mexico, which has just been created by presidential proclamation, after months of examination by the bureau of forestry and the geological survey. Mr. Sargent is to do the triangulation and will be followed in a few weeks by the field corps which will complete the work of the reserve which will be one of the largest in New Mexico. The Jemez reserve embraces a large section of the timbered region of Rio Arriba and Taos counties, extending into Sandoval county.

Our Official Altitude Soon.
M. S. Bright, of the geological survey, now at work south of Albuquerque, is busy with a corps of assistants running levels through central New Mexico and the Rio Grande valley. He has been determining altitudes and will "tie up" or connect the survey with the survey corps now working out the levels of the great irrigation project at Engle and surrounding district. The two parties will meet in Engle the latter part of this month.

In addition to the importance of the work connected with the lower valley's irrigation project, that done by Mr. Bright has considerable importance. The altitudes, as officially determined, will be announced for the entire valley in New Mexico when these two parties meet in Engle. The altitudes in this city, as taken at the corner of Railroad avenue and First street and Coal avenue and Second street will be among those announced at that time.

Breaks the Survey Record.
In his work south of Albuquerque Mr. Bright has broken the records of the survey for running levels. The best previous record was sixteen miles a day. Mr. Bright has made eighteen miles a day. The best previous record for a mile was in 19 minutes. The same speedy surveyor has made the mile lately in 15 minutes.

E. N. Douglas, superintendent of the western division of the geological survey is expected in Albuquerque in a few days to inspect the work done in this section during the past two months and also to look over the work

in the mining and timber districts. More attention has been given to New Mexico by the survey this year than ever before and the result will be of considerable advantage to this territory when the records are published.

Metric System Now in Use.
An interesting fact in connection with the work now being done south of Albuquerque is that it is under the metric system. The coast and geodetic survey has used the metric system for three years with most gratifying results, but it has just been introduced into the work of the geological survey, but two of the field corps using it at present, the one under Mr. Bright and another at work in Death Valley. The metric system is more accurate and takes little more time than the old system. To show the exactness of the work, the men are allowed an error of four millimeters to the mile, or an error in a survey of that distance, which would equal the thickness of about four ten cent pieces laid side by side. The work now under way in New Mexico will require several months to complete.

REAL ESTATE IS STILL MOVING

SEVERAL TRANSFERS RECORDED FIRST TWO DAYS OF THIS WEEK.

That Albuquerque real estate is still moving is indicated by the volume of transfers recorded during the first two days of the present week. Among the deeds recorded Monday and Tuesday are the following:

A. A. Henry to E. H. Dunbar and John Molitor, lots 7 and 8, in block 9, Apodaca addition; \$300.
N. Peach & Co. to Walter V. Ralph, lot 4, block 1, in the Lewis and Simmonds addition; consideration, \$1.

A. H. Jones to A. A. Henry, lots 3 and 4, in block B, of N. T. Armijo addition No. 2; \$1,600.
E. N. Wilson to D. C. Taylor, lot 9 in block 39, Haining Highland addition; consideration, \$1.

There has also been some activity in valley farm lands this week, several considerable sales having been recorded of land close to Albuquerque.

THIRTY-ONE CARS SHEEP LEFT THIS CITY YESTERDAY

Single Shipment of 14,000
Head to Oklahoma.

AUTHORITY ESTIMATES TOTAL
SHIPMENTS AT 1,500,000

A single trainload of sheep, with thirty-one cars, was shipped today to 14,000 head, left Albuquerque at 4 o'clock yesterday afternoon to be delivered to feed lots in Kansas and Oklahoma. The shipment is one of the largest single shipments to go through Albuquerque this year and is of special interest since a large part of the shipment is to go to Oklahoma, comparatively new territory for feeders, and being tried out on a large scale this year for the first time.

The lambs, which were in prime condition, came from western New Mexico ranges, part of them being sold by Hild Brothers of Albuquerque and part by the Chadwick Commission company. They were purchased by Rogers & Payne for delivery to feed lots in Kansas and Poncha City, Oklahoma.

The shipment is only one of many of about equal size now being made from the several sheep growing districts of the territory, and the movement has just gotten well under way. The shipments during November will be even heavier and local butchers are beginning to talk about a shortage in the home mutton market next year as a result of the cleaning out of the lamb crop. It was predicted at the beginning of the season that the sales would be light in New Mexico this season, but the prospects seem to have been very far off. The trouble now is to get cars. Stock cars are scarce and every one that will stand up is being used, and used as a double decker.

According to Mr. Solomon Luna, president of the sheep sanitary board, close to a million and a half of sheep will go out of New Mexico this fall. Mr. Luna has just returned from El Paso where he supervised the shipping of a couple of trainloads of lambs to Colorado feeders. He will ship another trainload from the same station today and has large shipments to make from Magdalena. Altogether he will send out six trainloads and although he declines to give figures, the trains will carry no empties. "I think the estimate of two million sheep for the feeders, from New Mexico is a little large," said Mr. Luna last night. "The total at the end of the season will be between 1,400,000 and 1,500,000 head."

New Regime in Sweden.
Stockholm, Nov. 1.—The old union flag was struck throughout Sweden this morning, and the new flag hoisted to the accompaniment of salutes, ringing of church bells and parade of troops.

New York Campaign Warns Up.
New York, Nov. 1.—Two campaign incidents which resulted in the tearing down of two anti-Hearst banners and caused excitement among thousands of people, occurred in two different sections of the city today during the noon hour. The banners were similar to those ordered down by Mayor McClellan last night—red flags supported by a hand labeled Hearst, and the American flag with a supporting hand marked McClellan, and under the query, "Under which flag?" In both cases the American flag was reverently treated, while the red flag was trampled into the ground. Mayor McClellan today expressed disapproval of the use of the red flag and also directed Tammany speakers that they must not be guilty of personal abuse of any opposing candidate. Charles F. Murphy, leader of Tammany Hall, said today that Tammany was not responsible for the flags. "We have nothing to do with them," said Mr. Murphy. "Those flags were put up by business men."

Yukon Frozen Up.
Seattle, Wash., Nov. 1.—Navigation is now at an end on the Yukon and the river steamers of the White Pass and Yukon, North American Transportation and Trading company and the Northern Commercial company have gone into winter quarters at White Horse, Dawson and other points. A stage line is already running between White Horse and Dawson, wagons being used. In December after the snow falls, the wagons will be replaced by sleds, and a regular schedule maintained. During the summer the White Pass line has shipped in a large number of horses for use this winter.

British Bark's Rough Voyage.
Tacoma, Wash., Nov. 1.—Battered and weather-beaten after a rough voyage the British bark Dundee reached Port Townsend yesterday, 23 days from Bremen, with cement for Tacoma. Gales were encountered from the time the vessel entered the British channel and they continued all the way to Cape Horn. This prominence was sighted four times, but in each case the vessel was beaten back by head winds and adverse currents. Finally Captain Stephen put his vessel about and ran for the Cape of Good Hope. About this time the crew mutinied, as was told in dispatches from Singapore, into which port he sailed to land the unruly men and secure others. Eleven mutineers were kept in irons for a week before the Dundee reached Singapore. The men committed no outrage, but refused to work. Leaving Singapore the Dundee ran into gales in the China sea and while crossing the Pacific. The ordinary voyage around the Horn is 140 days, while by way of Good Hope 180 days is an average. She will load wheat here for Queenstown.

A NEW CATTLE DIP.

Satisfactory Progress of Experiments by Live Stock Sanitary Board.
Houston, Tex., Nov. 1.—It is believed by the members of the State Live Stock Sanitary Board that a dip which will kill ticks has been discovered and all that is now necessary is the perfecting of a few minor points.

About two months ago Col. W. J. Moore, of San Antonio, chairman of the board, and State Veterinarian Knight of Houston, began making experiments with a dip. They secured a tract of land on the outer edge of the First ward and gathered here numbers of head of cattle infested with ticks and began dipping them by way of experiment. For several months previous to this Dr. Knight had been making experiments on his own hook, the dip being of his own invention or modification, and the success which met his

efforts caused him to bring the matter before the state sanitary board. Chairman Moore was so impressed with the results that since that time he has been devoting a great deal of time aiding in perfecting the dip. These gentlemen went to considerable expense toward erecting dipping vats and the like and hunting out and purchasing cattle infected with ticks with which to make experiments.

After having worked along these lines for some months, Dr. Knight and Colonel Moore began experimenting along more enlarged lines, and during the past few days they have been conducting tests at the farm of Col. William S. Wall, twenty miles northwest of the city. These tests have been attended with such successful results that the gentlemen feel that they can make the announcement that the dip, after a little perfecting, will meet all requirements.

Oh, What a Difference.
An attempt was made to burglarize a bank in Indiana the other day. This is nothing unusual in the state east, where such happenings are recorded daily in the press. But if anyone broke into a bank in Arizona what a howl there would be raised in the newspapers of the eastern states as to the lawlessness and crime in this territory. As a matter of fact, a bank robbery has not been known in Arizona for a quarter of a century. In the east the banks are robbed not only by the outsiders, but even more frequently by the insiders. What a contrast, and yet they say Arizona is not fit for statehood.—Arizona Journal-Miner.

Raising Russian Ships.
The Japanese seem almost as successful in raising the Russian warships as in sinking them. It is announced that several of these have already been raised, but they were so completely wrecked as to be almost useless. As raisers of sunken warships the Japanese engineers are said to be the best in the world. The best medicine in the world for building up systems that have been wrecked by sickness is acknowledged by almost everybody to be Hostetter's Stomach Bitters. It has a strengthening and toning effect on the entire system, and is so safe and reliable that the weakest stomach can retain it. In cases of poor appetite, nausea, heartburn, belching, cramps, kidney troubles, dyspepsia, indigestion or constipation it is unequalled. The genuine has our Private Stamp over the neck of the bottle.

New Regime in Sweden.
Stockholm, Nov. 1.—The old union flag was struck throughout Sweden this morning, and the new flag hoisted to the accompaniment of salutes, ringing of church bells and parade of troops.

New York Campaign Warns Up.
New York, Nov. 1.—Two campaign incidents which resulted in the tearing down of two anti-Hearst banners and caused excitement among thousands of people, occurred in two different sections of the city today during the noon hour. The banners were similar to those ordered down by Mayor McClellan last night—red flags supported by a hand labeled Hearst, and the American flag with a supporting hand marked McClellan, and under the query, "Under which flag?" In both cases the American flag was reverently treated, while the red flag was trampled into the ground. Mayor McClellan today expressed disapproval of the use of the red flag and also directed Tammany speakers that they must not be guilty of personal abuse of any opposing candidate. Charles F. Murphy, leader of Tammany Hall, said today that Tammany was not responsible for the flags. "We have nothing to do with them," said Mr. Murphy. "Those flags were put up by business men."

Yukon Frozen Up.
Seattle, Wash., Nov. 1.—Navigation is now at an end on the Yukon and the river steamers of the White Pass and Yukon, North American Transportation and Trading company and the Northern Commercial company have gone into winter quarters at White Horse, Dawson and other points. A stage line is already running between White Horse and Dawson, wagons being used. In December after the snow falls, the wagons will be replaced by sleds, and a regular schedule maintained. During the summer the White Pass line has shipped in a large number of horses for use this winter.

British Bark's Rough Voyage.
Tacoma, Wash., Nov. 1.—Battered and weather-beaten after a rough voyage the British bark Dundee reached Port Townsend yesterday, 23 days from Bremen, with cement for Tacoma. Gales were encountered from the time the vessel entered the British channel and they continued all the way to Cape Horn. This prominence was sighted four times, but in each case the vessel was beaten back by head winds and adverse currents. Finally Captain Stephen put his vessel about and ran for the Cape of Good Hope. About this time the crew mutinied, as was told in dispatches from Singapore, into which port he sailed to land the unruly men and secure others. Eleven mutineers were kept in irons for a week before the Dundee reached Singapore. The men committed no outrage, but refused to work. Leaving Singapore the Dundee ran into gales in the China sea and while crossing the Pacific. The ordinary voyage around the Horn is 140 days, while by way of Good Hope 180 days is an average. She will load wheat here for Queenstown.

She will load wheat here for Queenstown.

A NEW CATTLE DIP.

Satisfactory Progress of Experiments by Live Stock Sanitary Board.
Houston, Tex., Nov. 1.—It is believed by the members of the State Live Stock Sanitary Board that a dip which will kill ticks has been discovered and all that is now necessary is the perfecting of a few minor points.

About two months ago Col. W. J. Moore, of San Antonio, chairman of the board, and State Veterinarian Knight of Houston, began making experiments with a dip. They secured a tract of land on the outer edge of the First ward and gathered here numbers of head of cattle infested with ticks and began dipping them by way of experiment. For several months previous to this Dr. Knight had been making experiments on his own hook, the dip being of his own invention or modification, and the success which met his

TERRITORIALISMS

Drank Cup of Lye.
The three-year-old son of Fred Jury of Jerome, was frightfully burned by drinking a cup of lye. He will recover.

New Tucson Business Block.
Tucson is to have another fine business building. It will be built by W. L. Gibbons, of Ocean Park, Cal., on Scott street, just across from the Santa Rita hotel and will cost \$18,000.

Las Cruces Real Estate Moving.
The Las Cruces Realty Co. sold yesterday all the holdings of the Rio Grande Land Co., consisting of ten blocks of land to C. P. Sperry, cashier of the First National bank; also all the remaining property of the New Mexico Townsite company, consisting of 35 lots near the depot to a prominent Las Cruces business man.—Rio Grande Republican.

Barnett Will Be There.
It has been authoritatively stated that Mr. Joseph Barnett, an Albuquerque horseman, will ship his string to Phoenix in a few days. He will be here until after the fair and it is more than likely that he will keep his horses here all winter. Mr. Barnett's string is an unusually good one, as he has four trotting and pacing horses that have made unusually good records.—Phoenix Republican.

Worse Than Smoot.
The women of Roswell have banded or are to band together, to keep Senator Smoot out of congress. Hearing of this, and having the experience with women that he has, Smoot will probably quit and come home. After the Roswell women have disposed of Smoot they might agitate congress a little on the gambling evil in New Mexico. That concerns the people hereabouts a little more keenly than does Smoot.—Carlsbad Argus.

Found a Photograph Gallery.
If Photographer Risdon of Clifton will come to Solomonville we shall be pleased to accompany him to his long lost photo gallery. We found it the other morning while duck hunting on the Gila river. It stands right side up with care on a sand bank high above the water, none the worse for its 40-mile ride down the river during last winter's floods. The sign is still above the door and proclaims in letters bold and black that Mr. Risdon makes fine cabinet photographs at city prices.—Solomonville Bulletin.

Cut Off His Queue.
The lame Chinaman who runs the laundry on South Canyon street, was assaulted one night last week by two men who fore purely malicious mischief cut off his queue. It may have

The Song of the Hair

There are four verses. Verse 1. Ayer's Hair Vigor makes the hair grow. Verse 2. Ayer's Hair Vigor stops falling hair. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor always restores color to gray hair. The chorus is sung by millions. J. C. Ayer & Co., Lowell, Mass.

been fun of a very questionable character for the tormentors, but it was by no means funny for the Celestial, who is an inoffensive, hard-working man, who has piled his trade in Carlsbad for more than ten years. The Argus understands that arrests have been made, and if the parties are proven guilty, they should be given the full extent of the law.—Carlsbad Argus.

Settlers Must Move.
The United States government has brought a suit of ejectment against Straus, Juan Torres, Eligio Maruffo and Mariano Aldaz; parties who are living, and have lived, with one exception, for the last twenty years upon the said land, which is now embraced in the Fort Stanton reservation. The land lies down the Salado and the particular parcels occupied by these parties is unsurveyed. The extension of the reserve includes their land, and the government is now asking for the possession of the same and \$1,000 damages in each case.—Capitan News.

Has a Chance on Free List.
Now that Santa Fe is thrown in as a free side trip to through tourists the city ought to flourish like a green bay tree, says the Raton Range. The American people are the greatest something for nothing people on earth and if the Santa Fe can only instill the "free" idea into the tourist mind, here will be three make the trip to

Cheap Rates to El Paso, Tex., account of meeting of American Mining Congress, November 14 to 18

Dates of sale November 13, 14 and 15.
Final return limit will be November 25.

If desired an extension of return limit can be obtained by deposit of ticket with the Joint Agent, and the payment of a fee of 50 cents, before November 15, limit to be extended to December 25.

Call at ticket office for further particulars.

The Store of Reliability

Cold weather is a little late this year, but it is coming, and when it does it will be mighty sudden in its action—now is the time to prepare for that suddenness.

THE GLOBE STORE

anticipating a certain and decided change to lower temperature, is prepared to furnish customers with anything and everything wanted in winter DRESS GOODS, UNDERWEAR, HOSIERY and SHOES. Every article in The Globe Store is new—no last year's styles or job lots or "special priced" stuff on the shelves.

Goods bought in The Globe Store are guaranteed absolutely correct in style, quality and price, or purchase money refunded. In other words, The Globe Store is the store of reliability in every particular—underhanded methods or misrepresentation have no place; neither have old styles or "special sale" fakes.

Perhaps a few of our regular prices will prove convincing and interesting.

Ladies' & Children's Underwear

Ladies' Oneita Union Suits; seamless; two-thirds wool; fleeced; goods that are priced in other stores at \$2.50 the suit. Our Price \$1.75
Ladies' All-Wool Stratford Union Suits; seamless; silk edged; beautifully finished; same quality sold at other stores for \$3.50 and \$4.00. Our Price \$2.50
Ladies' All-Wool, Two-piece Suits; ribbed; soft, smooth and very warm; sold at \$4.00 per suit in other stores. Our Price \$3.00

Misses' Oneita Union Suits, all grades, from 60 cents to \$1.25 per suit. These goods cannot be duplicated in the city or less than 20 per cent more than our prices.

We Have the Exclusive Sale of Mentor Comfort Underwear

which fit perfectly, wear indefinitely, and is guaranteed satisfactory in every particular. Our sizes never vary. Can be boiled—never shrinks—carries off excessive perspiration and prevents catching cold. Never irritates the skin—soft yarn, no wrinkles and is tastefully trimmed and finished. If not satisfactory in every particular bring it back and your money will be refunded without question.

In Union and Two-piece Suits for Ladies and Children our prices on Mentor Underwear—the superior kind—are less than those asked for inferior qualities by other dealers. This is a broad statement, but a visit to our Underwear Department will convince as to the truth of it.

Ladies' and Children's Hosiery

No better goods in this line are being shown than our stock. We carry no seconds, nor dyed-rotted hose, and, no matter what the quality is, will cheerfully refund the purchase price to dissatisfied purchasers. Or, to state it in another way: Every pair of hose sold in The Globe Store are honest goods, worth every cent asked for them, and we do not hesitate to place a money guarantee back of them. A few prices:

Children's Hose, per pair 33c to 10c
Misses' Hose, per pair 35c to 15c
Boys' Heavy Ribbed School Hose, per pair 25c to 15c
Ladies' Hose, per pair 75c to 15c

In Knitted Skirts for Ladies and Children, Children's Hoods and Jackets, Leggings for Ladies and Children, and Gloves and Mittens, we have the best selected stock in the city. Our prices on these goods are much below the faked "special prices" quoted by other dealers in the city, while the quality is in keeping with the high standard of all Globe Store goods.

There are four verses. Verse 1. Ayer's Hair Vigor makes the hair grow. Verse 2. Ayer's Hair Vigor stops falling hair. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor always restores color to gray hair. The chorus is sung by millions. J. C. Ayer & Co., Lowell, Mass.

Santa Fe for one that would stop off there if it was on the main line. And Santa Fe has the attractions to make good with too, but the something for nothing that runs in the tourist's blood will be the making of Santa Fe.

Big Deal at Tombstone.
W. B. Latta, of the firm of Latta & Happer, has just returned from a trip to Tombstone, Arizona, where he closed an important mining deal for El Paso capitalists, says the El Paso News. The property that has changed hands is the noted Herschell mines near those of the grand consolidated company in Cochise county, in Arizona. The consideration paid was \$60,000 and the purchasers are chiefly from this city. The mine was formerly owned by the Hon. Mark Smith, delegate to congress, and Benjamin Cook. It is a big gold-silver proposition from which a large amount of ore has been extricated.

The Exact Thing Required for Constipation.
"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udonia, Ontario, Canada. For sale by all druggists.

**We Wish to Call Special
Attention to Our Gentle-
men's Furnishings & Hats**

In this department we are showing the newest and most stylish articles. Fashion decrees that well-dressed men must wear white shirts—either soft pleated bosoms, or plain stiff front. In White Shirts we can please every taste—coat front if wanted—at prices ranging from \$1.00 to \$3.00. Our \$1.00 White Shirt cannot be equalled in Albuquerque for less \$1.50. In Colored Shirts—coat front if wanted—our prices range from 50c to \$3.00, and the materials and make are the best money can buy. Styles absolutely correct.

Men's Underwear

In both Union and two-piece suits—cotton, cotton and wool, silk and wool, and all wool, from 70c to \$6.00 per suit. Every quality the best money can buy at the price, while the margin of profit is the smallest ever asked in Albuquerque—Satisfaction or your money back.

Men's Hats & Caps

All the latest shapes in Soft, Derby, and Silk Hats, and a choice selection of Caps are on our shelves—nothing old, nothing shop-worn. It will pay every man in the city to see our line of these goods before buying—if you don't buy, new ideas as to styles and qualities will be gained, which will guide when the purchase is made.

**To Sum the Whole Matter Up
in a Few Words—**

The Globe Store

IS THE PLACE FOR RELIABLE DRY GOODS, LADIES' AND GENTLEMEN'S FURNISHINGS AND SHOES, WHERE BUT ONE PRICE IS ASKED EACH AND EVERY CUSTOMER; WHERE GOODS ARE SOLD ON THEIR MERIT AND QUALITY; WHERE "JOB LOTS" AND "SPECIAL SALES" STUFF ARE NEVER BOUGHT OR OFFERED FOR SALE.

WE WANT our store to be the one which always comes to your mind first when you want something just a little nicer and better than you can get anywhere else.

Not always the cheapest, but always the best, and always as cheap as the best can be sold for. We have just increased our Diamond Stock by several thousand dollars worth, and now offer by far the finest line ever shown in Albuquerque. Call and see these beautiful goods. Cash or easy payments. We are surely Headquarters for wedding presents.

FINE WATCH WORK A SPECIALTY.

LOCAL ITEMS OF INTEREST

THE WEATHER.

For the twenty-four hours ending at 6 o'clock yesterday afternoon:
Maximum temperature, 52; minimum, 36.

Forecast:

Washington, Nov. 1.—New Mexico and Arizona: Fair in south, scattered showers in the north portion Thursday; Friday fair.

Charles Jones came in from Thoreau yesterday.

Albino Contreras, of La Joya, N. M., is in the city on business.

W. S. Hopewell returned last night from a brief business trip to Santa Fe.

Traveling Auditor Charles V. Sanford arrived last night from Santa Fe.

J. D. Thompson, of Ketchikan, was an arrival from the logging camp yesterday.

L. B. Smith, the mining man from Alhambra, N. M., was in the city yesterday.

Leonardo Contreras and David Taffoy were arrivals from La Joya yesterday.

J. W. Reynolds, secretary of the territory, came down from Santa Fe last night.

G. E. Hamilton, of the Santa Fe, with headquarters in Los Angeles, was in the city yesterday.

Ernest Meyers, the liquor man, left yesterday morning on a business trip to the Estancia country.

Nicolas Abdullah, of Lumbler, Socorro county, a well known general merchant is in the city on business.

Eugene Kempenich, traveling for Hild Brothers, of Las Vegas, was in the city calling on the trade yesterday.

Melvin Groom, of Allentown, Pa., recorder of wills in that city, is in Albuquerque visiting his friend, J. H. Yost.

Dr. Arthur J. Yost, mayor of Allentown, Pennsylvania, has arrived in the city to be the guest of J. H. Yost for several days.

Philip Keck, the wealthy eastern capitalist, who is operating in the Golden mining district, arrived in the city yesterday.

Superintendent Allen, of the Indian school, spent the day on business at the pueblo of Santa Ana, north of this city yesterday.

There will be a meeting of the Pecos county lodge at 2 P. M. this evening in Red Men's hall. All members are requested to be present.

Timber Inspector M. A. Ross left yesterday morning for Lincoln county, where he will look at some timber in the Gallinas mountains.

Mr. A. B. Strong will read a paper, "Shall we compromise with sin," read first before the "Ten Dons" at the Congregational church Sunday night.

Rev. J. Mills Kendrick, Episcopal bishop of New Mexico and Arizona, who has been in Albuquerque for several days, will leave this morning for Farmington.

G. J. Mann, E. J. Walker and J. S. Hills, each and all appeared before Judge Crawford in police court yesterday and received the conventional five dollars or days.

John R. Grant, of Grant Brothers of Los Angeles, returned to that city last night after a trip to the Helen cut-off construction camps and a short visit in this city.

Mrs. Nellie B. Field returned last night from her cottage on the Pecos, where she has been for a week with a party of friends. Miss Nina Otero, of Santa Fe, accompanied her home.

There will be a special meeting of the W. C. T. U. this afternoon at 2 o'clock at Mrs. D. Stewart's residence, 307 East Coal avenue. Business of importance. Every member urged to be present.

Manager W. H. Groer, of the Victoria Land and Cattle company returned yesterday from a trip to the ranges of the company in southern New Mexico where he shipped several trainloads of cattle to California.

Henry C. Holden, a prominent business man of Albany, Missouri, has arrived in the city accompanied by his wife and four children and will remain here during the winter. He has rented a home on West Coal ave.

Ora D. Armstrong died early yesterday morning at his rooms at 724 East Railroad avenue of tuberculosis, at the age of 27 years. Mr. Armstrong came to Albuquerque two months ago from Minnesota. He was the inventor of a well known gas light apparatus, but had not engaged in business since coming to this city. The remains will be sent at once to Minneapolis for burial.

It is probable that only a few people know there was a circus here yesterday. The show was in town for several hours and the animals were watered and the people fed at the local station. There weren't many animals, for the show was Puller's Fire Works, which has been showing on the Pacific coast for the past year. The show is on its way to Chicago to winter quarters and is going by freight over the Santa Fe.

Edward Walter Gehring, fourteen years of age, the son of Mr. and Mrs. Nicholas Gehring, of 112 1/2 South Third street, died yesterday morning after a three weeks' illness with a complication of spinal meningitis and typhoid.
