# MOB TAKES ODESSA A SHAMBLES JEWS KILLED DOWN LIKE DOGS

## CITY DEVASTATED AND NOT A SINGLE JEW ESCAPES UNSCATHED

Nearly Two Hundred Killed and Over Five Thousand Wounded in Carnival of Murder Which Troops Are Powerless to Check.

## REVOLT AGAINST LAW AND ORDER DIES DOWN ONLY WHEN VICTIMS FAIL MOB

Odessa, Nov. 4.—It is believed that the worst is over. Owing to the mobs being satisfied with the two days' carnival of murder and destruction by flame, the revolt against law and order is dying down, partially, perhaps, because of lack of material upon which to prey. Almost the entire Jewish quarters of Moldavanka, Slobodka and Rugaiovka are devastated, and their inhabitants have either been killed or wounded or have sought refuge in other sections of the town.

The whole fury of the mob was directed unchecked against the Jews. During the first demonstration over the emperor's manifesto and the sudden acquisition of "freedom," tens of thousands of men, who had hated the Jews through generations, became drunk with the desire for Jewish blood, swarmed into the Jewish quarter of the town and killed for the very joy of killing. In some instances the military aided instead of preventing the work of vengeance and fury which yesterday culminated in the quarters mentioned. Every Jew, man, woman or child, who was caught, was slaughtered. The methods employed in the work of butchery were too revolting for description.

Before this morning's dawn the material had become exhausted, and the men who had for the moment become beasts, left the wrecked sections of the city, and though sullen, were easily driven back before the rifles of the infantry.

A trip of investigation this evening over the Jewish quarters confirmed the stories of horrors and devastation. Some mutilated bodies of women and children were still unremoved from the deserted streets. The shops were closed, and in the houses broken furniture was lying everywhere in heaps.

While it is probable that the total number of persons killed will never be known, the number of wounded persons in the hospitals and ambulance houses affords some guide. The 5,687 wounded reported up to this morning, were distributed as follows:

In the Jewish hospital, 3,715.

In the municipal hospitals, 1,260.

In the different ambulance houses, 652.

It has been definitely ascertained that only one hundred and twenty of the Jewish mob were killed.

At the beginning of the massacre the student militia rendered some assistance and saved many lives, but the police, it is said, deserted them with their own revolvers.

The disaster is unprecedented, even in the long list of horrors Russia has produced during the last few years, but the citizens, while still nervous, are facing the situation bravely.

Passenger Trains Moving.

Danzig, Nov. 4.—Passenger trains for the Russian southwestern railway from Crawlewo started today. Passenger trains by way of Wirballen are not yet moving.

COUNT WITTE BRINGING ORDER OUT OF CHAOS

St. Petersburg, Nov. 4.—Count Witte is getting his hands on the helm, and the Russian ship of state is beginning to right itself. Gradually the disorder that followed the promulgation of the constitution giving the people liberty is being put down. The premier has met the difficulties confronting him and the pressure of the demands of the different classes of society with an energy and sincerity that are more and more giving him the support of the moderate liberals, who have been frightened by the carnival of disorder into which the country has been plunged and the inordinant demands of the proletariat under the leadership of the "Reds" and social democrats.

Freedom of the press and general amnesty except for crime have followed each other, but Count Witte has steadily refused to yield to the demand for the organization of a national guard, on the ground that it would be equivalent to arming the socialists to fight and destroy the whole government.

Count Witte today solved the railroad strike at a conference with the strike leaders, at which he did not hesitate to make a practical surrender of the government's reasonable demands.

Without exception the newspapers express their appreciation of the enormous task Count Witte has assumed, and while some of them doubt his success, in view of the obstacles he will encounter, both from below and above, there is no attempt to question the sincerity of his purpose nor his great ability; and the promptness with which he proclaimed freedom of the press and amnesty and the retirement of M. Pobedonosteff, chief procurator of the Holy Synod; M. Glass, minister of education, and Governor General Kilegels, of the government of Kiev, is applauded as

evidence of the kind of stuff he is made of.

There is now a probability that Count Witte will take the portfolio of minister of finance.

FINLAND AT LAST HAS WON HER FREEDOM

London, Nov. 4.—The second edition of the London Times today which appeared about 1 o'clock this afternoon, publishes the following dispatch from St. Petersburg, dated November 3d: "Finland has won her freedom, a manifesto embodying all the demands presented by the popular delegates at Helsingfors to Prince John Obolensky, governor general, will be submitted by Secretary of State Linder for the imperial signature at Peterhof tonight. The keynote of the new Finnish constitution is responsibility, not to the monarch as heretofore, but to the secretary of state and diet. The presence of Russian warships off Helsingfors is intended to signify that although the emperor grants constitutional freedom, he intends to prevent the severance of the grand duchy from the empire."

Sentences Commuted.

St. Petersburg, Nov. 4.—The text of the imperial manifesto grants amnesty to political prisoners of various categories, which are enumerated, also to participants in strikes and those responsible for breaking contracts. The pardon extends to those in prison and those not yet tried. Those condemned to death are to have their penalty commuted to fifteen years at hard labor.

Odessa Military Camp.

Odessa, Nov. 4.—Pillaging here has been largely stopped, thanks to the intervention of troops and local militia formed largely of students, but the streets are unsafe except for sanitary officers and Sisters of Charity. The city presents the aspect of a military camp. The student militia is pursuing the rioters, who are defending themselves with revolvers.

Socialists Rampant.

Helsingfors, Finland, Nov. 4.—Three Russian battleships, a cruiser and ten thousand troops have arrived here from Revel. The general strike continues. The situation is threatening on account of the attitude of the socialists. The other classes are disposed to be content with the imperial manifesto.

Situation Still Critical.

Copenhagen, Nov. 4.—The foreign office received a telegram announcing that a large force of Russian troops had been landed and distributed through the city. The Russian squadron has entered the inner harbor. The other classes are unabated and the situation is critical.

Candies Are Discarded.

St. Petersburg, Nov. 4.—Last night for the first time in ten days, the inhabitants of the capital could discard candies and go to bed without a threat of light. The situation in the provinces is also more reassuring. Street meetings and demonstrations have ceased and people are returning to ordinary occupations. The situation in the provinces is also more reassuring. The agitation and disorder are gradually dying down. The most serious condition is in Finland, where the socialists are at extremes. On account of the railroad strike, the government is greatly hampered in returning to Finland the troops withdrawn to protect the capital.

Fighting at Kremenchug.

Kremenchug, Nov. 4.—There was an encounter today between armed factions of loyalists and revolutionists. Troops interfered to restore order and were forced to fire several volleys. Many were killed and wounded among both factions. The troops also suffered.

Trouble in Riga and Odessa.

Paris, Nov. 4.—Foreign office reports received here from Russia show that Riga and Odessa are now centers of disorder, that St. Petersburg and Moscow are quiet and that Finland has practically established an autonomous form of government without the Russian government adopting repressive measures.

PRINCE LOUIS GUEST OF AMERICAN ARMY

BATTENBERG PASSES STRENUOUS DAY IN WASHINGTON—STATE DINNER

Washington, Nov. 4.—Rear Admiral Prince Louis was the guest of the American army today. Tonight he was a guest at a formal state dinner in the state dining room of the White House, where the president had a distinguished company to meet Britain's admiral-prince. The health of King Edward was proposed by the president. Although Prince Louis was still the center of a brilliant assemblage at the Friday evening ball when midnight of Friday arrived, he breakfasted about 9 this morning at the embassy and promptly at 10 o'clock started for a ride around the city in a six-horse power automobile with Sir Mortimer Durand and Rear Admiral Evans. In the open landau of the embassy,

surrounded by bicycle policemen, Prince Louis and his personal staff at a few minutes before 1 o'clock drove rapidly to the New Willard hotel where he was the guest of Lieutenant General Chaffee, chief of staff, at a stag luncheon.

From the luncheon, accompanied by Lieutenant General Chaffee, and a number of the guests, the prince, his personal staff and his commanding officers, drove to Fort Myer.

Arriving at Fort Myer, the party was received by Col. Hatfield, commandant of the post, and escorted to the reviewing stand, where the prince witnessed a cavalry drill by Troop F, Captain Preston, of the Thirtieth cavalry.

The state dinner began at 8 o'clock. The healths proposed were informal, and included those of the president, King Edward and Rear Admiral Prince Louis.

M'LEOD RELEASED ON HEAVY BAIL

POLICE MAKE FRUITLESS SEARCH FOR NURSE IMPLICATED IN SUIT CASE CRIME

Boston, Mass., Nov. 4.—Except for the arraignment of Dr. Percy McLeod, his release later under very heavy bail, and the granting of a warrant for the arrest of Mrs. Mary S. Dean, the missing nurse of the Roxbury house, comparatively few additional facts developed today regarding the death of Miss Susan Geary.

The police made a fruitless search for Mrs. Dean. Three business men furnished \$20,000 bail for Dr. McLeod, and the harbor police dragged all day in a vain search for the sailor which it is said contains the head of the unfortunate girl, the only portion of her body that has not been recovered.

STERNBERG SAYS GERMANY WANTS NEW TREATY

Ambassador Calls on Secretary Root.

THE KAISER IS ANXIOUS TO AVOID TARIFF WAR

Washington, Nov. 4.—Baron Speck von Sternberg, German ambassador, called upon Secretary Root today at the state department and notified him that Germany was ready to negotiate a new trade treaty with America.

The baron told the secretary that a change must be had in the trade relations of the two countries, and that, realizing the dangers of a tariff war, Germany was anxious to effect some arrangement with the United States that would insure a continuance of good feeling and a market for the industrial products of both countries.

He said his government had instructed him to give notice that it was ready to enter upon negotiations for a trade treaty. He did not use the word reciprocity, Secretary Root gave assurance of his earnest desire to do everything possible to avert trouble. He wished only to be shown the opportunity to negotiate a treaty that would secure the approval of the United States senate. It was not his intention, he stated, to evade any responsibility by preparing a treaty which the senate cannot accept, his belief being that there should be no attempt to divide responsibility between the different branches of the American government.

Therefore he would send to the senate no treaty that did not, in his judgment, meet the wishes of that body. It was by no means certain, in fact, it was doubtful whether he could succeed in framing such a convention, and he earnestly wished to be shown the basis for promising negotiations.

Baron Sternberg did not attempt to go into details in his presentation, but he developed that as soon as he could show that he had the bases of a treaty which the senate would be likely to ratify, Secretary Root would immediately send them to tariff experts for report.

BITTER PERSONAL ATTACKS MARK OHIO CAMPAIGN

Fight on Saloons, Racing, Insurance and Bossism.

DEMOCRATS CLAIM THEY WILL CARRY BY 35,000

Columbus, Ohio, Nov. 4.—The campaign just drawing to a close has been peculiar even for Ohio. Dignified platform declarations have been overlooked in the bitter denunciations and personal attacks that characterized the campaign.

MEAT SCARCE IN GERMANY.

Burgomasters of Leading Cities Urge Chancellor to Take Action.

Berlin, Nov. 4.—The North German Gazette publishes the report of a conference of the burgomasters of Berlin, Dresden, Strassburg, Munich, Stuttgart, and Karlsruhe, with Prince von Buelow, the imperial chancellor, October 31, on the scarcity of meat throughout Germany.

The burgomasters urged the chancellor to take measures to counteract the present scarcity, and the unusually high prices of meat.

The chancellor replied at length, asserting his profound conviction of the importance of agriculture for the welfare of all the people, and his firm determination to protect it from all dangers, but he expressed doubt as to whether the opening of the frontiers would result in the cheapening of meat.

SAHARA'S EMPEROR COMING.

Potentate's Secretary Wires to Seattle Hotel to Reserve Accommodations.

Seattle, Wash., Nov. 4.—"Jacques I, emperor of Sahara," with his harem, will arrive in Seattle on Thursday from St. Paul. The management of the Washington hotel today received a wire from the potentate's secretary asking that seventeen of the best rooms in the house be reserved for his highness. How many are in the party is not known, as advance information is limited. The emperor is on his way to the Orient. He will remain here for several days and take one of the large boats leaving the second week in November.

Will Ratify November 4.

Washington, Nov. 4.—M. Takahira, the Japanese minister, today had a long conference with Secretary Root. He expects that the exchange of ratifications of the Russo-Japanese treaty will take place towards the end of the month, probably the 20th instant.

## FINLAND REGAINS HER FREEDOM

Czar Grants All Demands of the People.

ABSOLUTE AUTONOMY FOR LONG OPPRESSED COUNTRY

Ukase Gives National Diet Power to Elaborate System of Representation to Suit Itself and Rescinds Objectionable Laws.

St. Petersburg, Nov. 4.—The manifesto of Emperor Nicholas granting the demands of the Finns has been signed and dispatched to Helsingfors. It convokes the diet on December 20, abolishes the dictatorship, rescinds Governor General Bobrikoff's illegal enactments, annuls the manifesto of February 15, 1893, which provided for common legislation in the empire, and all the laws since enacted. It also announces that the extraordinary diet now convoked is for the revision of the diet's electoral bases. The ukase not only places the diet in the control of the budget, but it reserves power to elaborate a new system of representation based on universal suffrage, and for a report to the administration which will make it responsible before the diet.

The ukase provides for the formulation of laws giving practical autonomy. The emperor has accepted the resignation of the entire senate and has virtually promised to remove Prince John Obolensky, governor general of Finland.

The manifesto abrogating the illegal ordinances, promulgated by Governor General Bobrikoff in pursuance of his policy for the Russification of Finland and including the military law of 1901, is expected to relieve the situation in Finland, as the ordinances have been the principal cause of discontent among the Finns.

## EXCITING FINISH IN NEW YORK

Is Coming Fast in Mayor-alty Contest.

HEAVY BETTING FAVORS M'CLELLAN AND JEROME

Party Lines All Broken Down in Battle Royal Which All the Nation Is Watching.

New York, Nov. 4.—No municipal campaign in recent years has aroused greater interest throughout the country than that which will be concluded in Greater New York on Tuesday of next week.

The fact that party lines evidently have been broken down and that each of the candidates will draw more or less largely upon the strength which logically belongs to his opponent, makes the canvass which is now drawing to a close at once unique and exciting. The country-wide possibilities involved in the issues have made an element of national interest such as has not marked any preceding local elections. One feature is the interest Wall street brokers have manifested in the betting, which today favored McClellan for mayor and Jerome for district attorney. The odds on McClellan varied from 3 to 1 to 2 to 1. On Jerome 10 to 7 to 10 to 8 was offered. On the other hand, T. B. Buchanan, has placed \$150,000 against McClellan, since the opening of the campaign and stands to win \$500,000.

It is estimated that all of \$50,000 was wagered in Wall Street today. One bet was made by T. B. Buchanan of \$1,000 even with J. J. Judge that Hearst would not get 175,000 votes.

Among the largest bets was one of \$5,000 to \$2,000 that McClellan would win, and \$15,000 was wagered one firm on McClellan at 3 and 3/4 to 1 in small amounts. In the Jerome betting a broker placed \$5,000 to \$4,000 that Jerome would win. On the other hand, a broker placed \$15,000 against McClellan, who would win \$50,000. Two to five was offered on Hearst against the field.

The party candidates published statements today. W. N. Evans declared he was gaining votes by thousands each day. Mayor McClellan said he never was so confident as now, and Mr. Hearst's managers said he would be elected by a landslide. An executive committee met this afternoon but Mr. Murphy declined to give out figures on the election tonight.

The estimates are at wide variance, but the whole Greater New York situation tonight, winding up as it does in one great whirlwind of political meetings in every section of the city, makes the prediction fair that the result will be close. The speech-making end of the campaign closes for the candidates tonight, all addressing big meetings.

The distinctive features of the campaign have been the independent canvasses for the office of district attorney conducted by William Travers Jerome and the entrance into the arena of local politics as a separate organization, supporting Horace B. Smith, of the municipal ownership league.

Both of these events stand forth, according to observers of things political, as epoch-making incidents. In that they are accepted as marking independence of action to the disregard of party limitations which heretofore have bound the men who figure prominently in politics.

Jerome's Spectacular Canvass.

The canvass of Mr. Jerome, who is running independently, has been made notable by his oft-repeated denunciation of the leaders of both the republican and democratic parties, and his assertions of other independence have marked him for the special attack of those who follow implicitly party leadership. His candidacy has been endorsed by lawyers generally, and subscriptions for his campaign fund have been received from persons residing in distant parts of the United States.

The democratic ticket is headed by George B. McClellan, who is a candidate for re-election for mayor. He has based his every appeal for votes on his record in office, declaring that he is prepared to stand or fall by it. He has avowed himself a believer in municipal ownership, and when public utilities are in giving the people an adequate service.

On this ticket James Osborne, assistant district attorney from 1891 to 1905, is running for district attorney. William Ivins, republican candidate for mayor, has declared himself to be in favor of the acquisition by the city of every franchise which has lapsed, and a believer in municipal ownership "so far as progress can be made with order."

The ticket of the municipal ownership league is headed by William Randolph Hearst, proprietor of a number of newspaper properties throughout the country and who for years has been prominently identified with the propaganda which is the distinctive badge of his candidacy. The chief planks of the platform of the league call for the forfeiture of lapsed gas franchises; municipalization of the city's lighting, with decreased cost to users; municipal ownership of public utilities on a sweeping scale, and the elimination of what is termed "graft" from civic life.

LAST OF FOREIGN GUARDS.

American Defenses of Legation Sailed From Korea.

Seoul, Korea, Nov. 4.—The American legation guard sailed from Chemulpo today on board the cruiser Cincinnati, being the last of the foreign guards to leave Seoul. The emperor gave souvenirs to the officers in uniform of the guard, and beer and cigarettes to the men.

## INDIANS SCORE TWICE AGAINST THE CRIMSON

Harvard Beats Carlisle 23  
to 11.

## COLUMBIA COMPLETELY OUTCLASSED BY YALE

Cambridge, Mass., Nov. 4.—A crushing defeat enabled Harvard to make four touchdowns against the Carlisle Indians on Sunday's field today, but the crimson defense could not keep back their opponents from scoring twice, the final points being 23 to 11. Harvard scored twice in each half, the first touchdown coming in the first five minutes of play. The Indians made one touchdown in each half, the last one principally because of a brilliant 55 yard run by Mount Pleasant. Harvard kept her fine plays well hidden, depending entirely on driving a three-man tandem into line, usually with Brill, the tackle at the head. There was very little kicking.

## YALE GIVES COLUMBIA WORST DRUBBING YET

New York, Nov. 4.—Completely outplayed Columbia suffered the worst football defeat in her history at the American League park this afternoon, being beaten by Yale by a score of 52 to 0. It was Yale's game from the very outset. Every play was quick and well directed.

## Laughs and Kills Himself.

Augusta, Ga., Nov. 4.—Edwin C. Bearden, money order clerk in the post office here, committed suicide today after being asked by an inspector to turn over his cash drawer and books for examination.

Bearden was in excellent spirits, laughing and joking ten minutes before shooting himself.

## When asked for the money drawer

he passed it to Inspector Wilson, and then, turning to the safe, took a pistol from a pigeon hole and blew out his brains.

## ARMY OFFICER A SUICIDE.

Lieutenant W. G. Brandie, suffering from melancholia, kills himself. Buffalo, N. Y., Nov. 4.—George W. Brandie, a first lieutenant of the First United States Infantry, stationed at Fort Porter, committed suicide in his room here by shooting himself in the left breast.

Lieutenant Brandie had been a sufferer from melancholia, brought on, it is said, by chronic gastritis, contracted when he was serving in the Philippines, from 1899 to 1903. He was unmarried and 34 years old. His home was in Chillicothe, Ohio.

## Minneapolis Tragedy.

Minneapolis, Minn., Nov. 4.—Mrs. James Brennan, of this city, quarreled with her husband last evening and after he had gone to work, she shot and killed her two children and wounded the other two, so badly that they are not expected to recover. She shot herself in the left breast and it is believed will die. One of the children died later at the hospital and the other will not recover. The dead are: Lizzie, aged 15; Alice, aged 23; Arthur, aged 12. The other boy, Thomas, was shot in the head. Their appearances indicated that the boys struggled desperately to escape.

## AGRICULTURE BUREAU FOR PORTO RICO

Washington, Nov. 4.—A newspaper correspondent, writing from San Juan, Porto Rico, says:

Governor Winthrop and Treasurer Willoughby, recognizing the fact that agriculture is the backbone of the island and that Porto Rico's future prosperity is dependent entirely upon agricultural advancement, have for some time been working on a scheme to establish a bureau of agriculture. The proposed bureau will probably be instituted within a few months. In the meantime the various department heads are feeling the way and doing all preliminary work possible.

At the University of Porto Rico there is a 100-acre farm belonging to the trustees of the university to turn this into a model farm. There is a class of twenty-eight boys who are receiving practical instruction in agriculture and they are being taught how to run a farm along modern lines. One of the features that will be installed there in the near future will be a model dairy. There are twelve cows on the farm, and within a few weeks this herd will be doubled. The institution is now selling milk to the people in the neighborhood. It is the intention to build modern sanitary stables and equip the place as a model up-to-date dairy. The milk will be put up in glass jars and sold at an advanced price. A blooded bull will be imported from the United States and every effort will be made to improve the quality of the stock.

This will be but a start, as it is planned to purchase a number of the quality swine and experiment with the breeding of those animals. There are a number of Americans on the island who have had great success with stock raising, and the government will be glad to co-operate with private citizens who are anxious to improve their stock.

The governor has had considerable correspondence with the congressional bureau of insular affairs and he finds that great success has resulted from the introduction into the Philippines of American stallions. It is planned to bring down about three

of these animals as soon as possible and have them quartered at different points—some at the university, one at the agricultural experiment station at Mayaguez, and one at some convenient point on the south side of the island. These stallions will cost \$700 to \$1,000 each, and a careful record will be kept and an effort be made to improve the breed of Porto Rico horses.

The last assembly appropriated \$10,000 as an initiative in improving agricultural conditions and these purchases will be made from that fund. Director May of the agricultural station is expected to come to San Juan next week to assist in the selection of the new cows which are to be purchased for the university farm and to make other suggestions for other improvements. The federal government will lend the island considerable assistance in promoting agricultural improvement, and there will be a good start along this line at an early date.

Slips sufficient for the planting of 100 acres of sisal will arrive within a short time and will be distributed to persons who are willing to experiment with the growing of the fiber plant which has been such a success in Yucatan and in some parts of the Philippines. It is believed that the soil and climate of Porto Rico are peculiarly adapted to the successful culture of the plant.

## CHINESE ARMY SHOWS MARVELOUS IMPROVEMENT

## FOREIGNERS GREATLY IMPRESSED BY MILITARY MANEUVERS AT PEKING.

Peking, Nov. 4.—The army maneuvers, which have just been completed, greatly impressed foreigners, especially those acquainted with the condition of Chinese troops five years ago. The opinion expressed on all sides is that China has accomplished an absolutely marvelous feat in raising an army of 40,000 men to its present efficiency. The foreign military attaches criticize the generalship displayed, for instance, the absence of proper support for the artillery, which they thought was in judiciously placed, but they gave unstinted praise for the complete control of the troops and the steadiness of discipline exhibited, the latter bearing comparison with that of European troops. An observer, while riding behind some of the troops lying in cover, noticed that not a man turned his head from attention to his work. Complete subordination prevailed everywhere.

The final march past the reviewing officers was abandoned, owing to a furious dust storm. After waiting for three hours the visitors left the ground yet every regiment still remained, the ranks being in perfect order.

The scheme of the maneuvers was the assumed invasion of Chi-Li by a southern force from Shantung, whose advance was opposed by the northern army. Roughly estimated, 300,000 men were engaged. The final parade showed 20,000 infantry, 1,200 cavalry, 1,100 engineers, 1,300 artillery and 120 guns.

The infantry were armed with Mauser magazine rifles of the 1888 pattern, with a short dagger bayonet, many having made at the Hanyang arsenal. The officers carried a sword, a revolver and a field glass. The men's kits weighed fifty-four pounds each, the knapsacks being of Japanese pattern. The pioneers carried picks, shovels and saws, every one being in full marching order.

The cavalry were armed with Mauser carbines and swords, the officers carrying revolvers. They were mounted on Chinese horses, which though small, were in good condition. The artillery and accoutrements were bad, and the men had no spurs. This is recorded by the military observers as the weakest branch of the army, being unsuitable for work either as cavalry or mounted infantry. The artillery consisted of field and mountain guns. The northern side had twenty-four Japanese 7.5 millimeter guns, twelve Krupp guns of the same caliber, eight Krupp mountain guns and twelve Japanese mountain guns. The ammunition was carried on muleback. The guns were served excellently, the ammunition being brought up quickly and without confusion. The officers who sighted the guns and the artillerymen were armed with swords and revolvers.

No signaling apparatus with this corps was observed, and there were few ambulances. The commissariat of each regiment included thirty-two wagons, the harness being of German pattern and badly made.

The rations consisted of one pound and a half of rice, six ounces of cabbage, six ounces of salted vegetables and six ounces of meat. The kit was serviceable. The queues of the men were tucked under their caps.

The foreigners who witnessed the maneuvers were the guests of Viceroy Yuan Shi Kai, and were lavishly entertained.

The troops gave many evidences of Japanese training, and one attaché remarked that he had seen twenty Japanese in Chinese uniforms.

## THE LID GOES ON IN ALBUQUERQUE THIS MORNING

Saloons Will Shut Up Back  
and Front.

## NO ATTEMPT AT VIOLATION EXPECTED BY OFFICERS

The lid will go on in Albuquerque at 6 o'clock this morning and from present indications the man who wants a high ball to help him get through the day will have to manufacture it himself or go without. Sheriff Armijo has announced that he will see that the lid fits and that he will sit upon it if necessary. It is not expected, however, that there will be any attempt to violate the order of the court that all saloons close today. The order applies not only to Albuquerque but to the county and to all other counties in the Second judicial district. The sheriff of Valencia county has orders similar to those delivered to Sheriff Armijo and it is expected that the cover will be equally tight in Belen and the small towns south of Albuquerque.

"What are we going to do?" said a saloon owner yesterday evening. "Why shut up of course, there is nothing else to do. The doors of this place will be locked until midnight Sunday night."

## WIRELESS FROM "AMERIKA."

Reports From South of Sable Island Say She Rode Comfortably on Heavy Head Seas.

New York, Nov. 4.—How the American line is fighting her way along the eastbound steamship track against buffeting head seas, driven before a heavy northeasterly gale, was learned yesterday by Emil Box, the line's agent in this city, in a wireless message sent by Captain Saueremann, when the big liner was south of Sable Island.

Captain Saueremann reported that the ship ploughed her way onward with very little roll or plunge, and that seas which on an ordinary liner would have buried the decks forward were parted by the high bows. All the passengers were in good health and high spirits.

## RAILROAD IS OUT TO AID DEVELOPMENT OF JARILLA MINES

Extending Lines to New  
Properties.

PLACER WORKINGS GIVE  
PROMISE OF RICH RESULTS

Correspondence Morning Journal.

Jarilla, N. M., Nov. 3.—The work of driving the second level of the Lucky copper property through to daylight, in order that the ore of two levels may be broken down, and trammed out to the railroad through that avenue, instead of undergoing the necessity of being hoisted, and then sent down the tram, is now in progress. The work in the north drift of the property has shown some remarkable ore. First, carbonates on covellite was found—the covellite is extremely rich, and at times is crystallized, like carbonadum. This gave way to a body of yellow and peacock copper, which grows denser as it is drilled on to the north. This is the ore which it is desired to develop in this particular property. It has been found on the first contact, but was known to exist on the second, but has only just been encountered in large bodies—the point where this ore has been found is the widest on the vein. Within a few days now, a cross-cut will start from the third level to cut and develop the same character of ore on the third contact, and there is every reason to believe that it will be as rich, if not richer, than the ore already exposed on the first and second contacts. The property is to be placed in condition to maintain a daily production of 100 tons of copper bearing ore. The ore from this mine yields an even product—the values are steady at all times, while the great width of the veins make it possible to mine it at the minimum of cost.

On the Jarilla mine, an underground gravity tram is to be installed. This tram is to have its lower terminal above an ore bin, at the bottom of a vertical shaft, from which the product is to be hoisted to the surface, and into cars for shipment to the smelter. The necessity for this is apparent, when it is stated that the vein has an inclination of only 15 per cent.

The El Paso and Southern railroad is to lay a switch from the "Y" to the new smelter site, and work on this is to commence in a few days. The railroad company is also to extend the mountain branch from the gulch in which the Lucky lies, to the Bi-Chance property. In this mine the property of the South West Smelting and Refining company, there is a vein which measures forty feet in width, of sulphide ore. This vein is to be equipped with hoisting machinery, and from it a large production is to be daily maintained.

The New Mexico Land and Development company, is performing considerable work at the present time, under the direction of Manager S. W. Wormwood, who is directing the mining operations of the company.

On the placers below the Jarilla mine a few days ago, tests were made to ascertain the value of the ground, with a view to working it, immediately the water reaches that point. One hundred panings were made from the bottom of the gulch to the head of the hill. Every pan showed colors—not one was a blank. In one pan there was \$5 worth of gold, in another, there was a nugget worth \$2 and considerable fine gold, the total contents being worth perhaps \$3.25. Two or three pans show one dollar's worth of gold each.

A temporary office for the smelter is being erected at the present time.

## GOING TO MINE FOR A BURIED STAR

AMBITIOUS PROJECT OF NEW  
YORK CAPITALISTS NEAR  
CANYON DIABLO.

A remarkable mining project is being carried out near Diablo canyon in Arizona by the Standard Iron company of New York. The object of the company is to unearth and smelt a gigantic meteor which lies buried there. This meteor probably struck the earth many years ago. The Indians who inhabit that region have no legend of the wonderful event. The location of the meteor is marked by a hole in the earth three-fourths of a mile long and 400 feet deep. The surrounding country for a radius of several miles is covered by the fragments of this heavenly visitor. They have furnished much interesting material for investigations of mineralogists. Several of the fragments weighed many tons and brought rich returns of silver, gold and lead when shipped to the smelter. All of the fragments that have been analyzed run high in lead, silver and gold. This remarkable mineral property was acquired more than a year ago by the Standard Iron company, which began the work of locating the meteor by means of a shaft which it is sinking from the bottom of the great hole. This shaft has reached a depth of more than 400 feet or more than 1,000 feet from the original earth's surface. The size of the meteor has been carefully calculated by scientific experts, who take as a basis the size of the hole which it made in the earth. It is estimated that the gold, silver and lead which the meteor contains will amount to \$13,000,000. The cost of mining the mineral will depend largely upon what depth it is found. It is believed that the shaft will strike the meteor at about 1,200 feet.

In former days many mining prospectors gained a good livelihood by collecting and shipping the fragments of the meteor to the smelter. These fragments had a market value of \$1 per pound in Holbrook. The Indians brought in large quantities of the mineral in the days before a railroad had been built into this region and the mineral was sent to smelters on burros.

## LUTZ RETIRES AS SANTA FE AGENT

WILL BE TRANSFERRED TO LOWER  
ALTITUDE DUE TO FAIL-  
ING HEALTH.

H. S. Lutz, Santa Fe agent here for the past six months has resigned with a request to be transferred to a lower altitude. The request has been granted and Mr. Lutz will be succeeded in the next two weeks by T. E. Purdy, of Oklahoma City, formerly a traveling passenger agent for the Santa Fe and at one time agent at Wellington, Kansas.

Mr. Lutz came to Albuquerque from Santa Fe to succeed Frank L. Myers, and at once found the duties too exacting for his constitution, which is far from robust. Some four weeks ago he requested that he be relieved but consented to stay until a suitable man could be chosen for the place, which requires experience and executive ability.

Mr. Lutz desires to go to a lower altitude and it is probable that he will go to one of the California stations. He has made a great many friends during his brief stay here and is popular in railroad circles. His successor is expected here in the next ten days.

When you want a pleasant, physictry Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no grating or other unpleasant effect. Sold by all druggists.

## WESTERN UNION IS IMPROVING OFFICES

MORE ROOM REQUIRED FOR IN-  
CREASED WIRE SERVICE INTO  
ALBUQUERQUE.

In order to make room for increased business and to care for the additional wire service into this city, extensive improvements are being made in the offices of the Western Union Telegraph company. Superintendent A. A. Gurnea, of the Denver district, is in the city looking after the changes which will require several days to complete. The main office will be increased in size by an added depth of ten feet and an arch built in to connect with the battery rooms and additional tables will be placed to take care of the work of the new wire just completed from Denver to Albuquerque.

For some months past the old wires have been crowded to an extent which interfered with the business. The additional wire will relieve this congestion. The old offices on South Second street will look like new when the work under way has been wound up.

## W. E. NEAL, Albuquerque, New Mexico.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that L. would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I am more than pleased with this showing. I inclose herewith check for \$204.50. The present dividend, and subsequent ones—unless otherwise instructed—will be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourselves.

I hope to have the pleasure of meeting you here soon.  
Very sincerely,

SUNDAY MORNING, NOVEMBER 5, 1905.

## A Nice Little Scheme

THE republican central committee of this territory, which is to hold a meeting at Santa Fe next Friday, is a part of the Andrews "machine." After he had secured his nomination last year, by the lavish use of Pennsylvania money, he dictated the appointment of the committee, and though there are a few realists, the majority is made up of men he can trust. For that reason there is no probability of the committee taking any action that might be construed as unfriendly to Andrews. The majority will not likely have sufficient "gall" to pass a whitewashing resolution. They would undoubtedly like to do so, but they will hardly dare to defy public sentiment to that extent and since the meeting was called for another purpose, they will probably ignore the Pennsylvania scandal entirely.

That other purpose, as is well known, is to do anything and everything that can be done by the committee to defeat the cause of statehood. The meeting is part of a scheme fixed up by the officeholders of both territories, to frustrate the will of the people and prevent them from having an opportunity to vote upon the joint statehood proposition by creating an impression in the minds of members of congress that the people of both territories are opposed to the measure. A majority of the members of the committee are officeholders under the present territorial administration, and the passage of a joint statehood bill by congress would cause them to lose their jobs. They fully realize this, because they know that if the people ever get a chance to vote on such a proposition, it will be accepted by an overwhelming majority.

The coming meeting has been worked up secretly, at a time when there is no party issue of any kind before the people, and the agents and "handlers" of the local administration have been scouring the territory to secure the attendance of a sufficient number of members of the "right sort." The principal business of the meeting will be the passage of a resolution in opposition to the admission of this territory and Arizona as one state, thus placing the republican party of New Mexico in open hostility to the settled policy of the national administration, and the national republican party. Can the republicans of New Mexico afford to be placed in such a false light before the people of the United States, and by an influence which is known to the world as a part of the Andrews machine?

At least two-thirds of the republicans of this territory are earnestly in favor of statehood in any form, and a considerable proportion of them prefer joint statehood to any other sort. Can they afford to let this officeholders' scheme go through without entering a vigorous protest, and taking the necessary action to let congress and the country know that they most positively object to having their attitude upon this subject or any other denied by a committee which is commonly believed to be the personal property of Bull Andrews, of Pennsylvania.

THE decline in the number of students in Harvard University, which began a year ago, is now seen to be continuing. There was a falling off in the registration in 1904 of some 150 students, and this fall the decrease, compared with last year's figures, is reported to be about 130. The total enrollment is now about 5,000. Whether the check in Harvard's accumulation of students is permanent, no one can say at this time. The figures for several succeeding years must be known before one can reach a definite conclusion. But it certainly appears that the 5,000 mark may be a long time in coming.—Springfield (Mass.) Republican.

A NEW YORK clergyman interprets the text, "In my Father's house are many mansions," to mean that there are flats in heaven. But how can a New York clergyman reach the conclusion that heaven is crowded?—Kansas City Star.

THE betting odds on McClellan against Hearst, in New York, which started at 5 to 1, are now down to 2 to 1. Ten to five is offered on Jerome, with few takers. His election seems to be assured.

## Look to the Timber

IN Arizona joint or single statehood continues to be the burning question and the bluffers who are opposed to joint statehood are claiming that the sentiment of the people is entirely in their favor. Recently Col. Allen Bird, of Nogales, one of the foremost joint statehood men in the territory, challenged Col. J. E. Wilson, formerly democratic delegate to congress, to meet him in joint debate in several of the largest cities in the territory and discuss the questions of joint and single statehood. Col. Wilson is always ready to talk, and accepted the challenge, and referred the matter to the anti-joint statehood committee to arrange dates and places for the meeting. The committee promptly ruled that the question was not debatable, and that there would be no meeting. The Hon. J. E. Wilson is not the only eminent statesman who has taken to the tall grass this fall. The Hon. Joseph Benson Foraker, of Ohio, is unable to speak in defense of the Hon. George B. Cox, of Cincinnati, the Hon. Charles Warren Fairbanks is too busy to explain the political issues of the day in Philadelphia, and the Hon. Arthur Pue Gorman respectfully declines to enter a joint debate with his spirited colleague from Maryland, the Hon. Isidor Rayner.—Lordsburg Liberal.

THE municipal campaign in New York has brought out the remarkable fact that there are 11,000 peddlers in that city. These are regularly organized, and this year are taking an active part in politics.

THE interesting fact that the president of an insurance company has a \$5,000 Oriental carpet on the floor of his office is an inspiration.—New York Globe. And also a hunch, for the policy holder.

THE great life insurance companies being eleemosynary and missionary institutions, it is up to Deacon Rockefeller to donate them a bunch for the good of the noble cause.—Atlanta Constitution.

SKINDICATE revelations and bribery fund disclosures leave Mr. Russell Sage unscathed. Gradually he looms up as the most admirable character in Wall street.—New York Press.

SHEREEF ALI PASHA of Mecca, has been appointed Grand Sherief of the Holy City. Gee! Some of us didn't know he was running!—New York Mail.

MUTUAL LIFE policyholders will probably feel that reference to the "whole Damn Family" means the McCurdys.—Washington Post.

THOSE Japanese know how to please their guests. They met Mr. Bryan with an invitation to deliver an address.—Washington Post.

THE policy-holder worth doing at all is worth doing well.—New York World.

The Lid.

O Can, Thou'rt but a hollow mockery; I gaze Into thy booziness depths, and Dark Despair Clutches my inwards.

I beat with nervous fingers a tattoo Upon thy bottom,—and Comes forth a tiny ring that seems To jeer at me, sardonic, In its infinitesimal. I full faint

Would see thee filled with that ambrosial nectar, That made Milwaukee famous— That gave Adolphus A cushioned divan in the Hall of Fame.

Alas, O Can, For many a weary, patient, hopeless hour I've skinned my knuckles pounding On this door.

'Tis only answers—and that Open Sesame Which never before has failed me, does not go.

In mental vision pass before me rows And rows of sparkling lucent cock-tails, And Tom and Jerry seem to mock at me.

And foaming steels dance before my eyes. Hallucinations Of the brewing fluid of Ambrosia Do tantalize my parched, long suffering soul.

The names of Gorka, Schilt, Moore, and Pabst, Troop through my fevered brainlet, And alas! Thou'rt empty still.

Perfecto Has Put on the Lid!

(Delayed in Transmission to the Evening Citizen.)

At sea, aboard the S. S. Ark. (By Wireless via Mt. Ararat.)—The day was comparatively without incident.

The lookout reported to Capt. Noah about 2:30, sighting a derelict barn on the starboard quarter, but the glass failed to show any refugees aboard.

Hain, the superintendent of menagerie, reported the giraffe slightly off his feed and the ichthyosaurus and megatherium a little affected by seasickness. One of the fan-tail pigeons escaped in early morning.

Member of the Almanac, edited by them, was issued from the vessel's printing press yesterday.

But for the vigilance of the lookout the "Ark" would have rammed the top of a steamer yesterday.

A hot tamale vendor named Joe Caneen of Trinidad, was arrested the other day for selling his refreshments around the Santa Fe station. It is not stated whether he was prosecuted by the Pure Food commissioner, the Society for Prevention of Cruelty to Animals, the city poundmaster, or Fred Harvey.

"Even divines are erraters," says a Portland minister, alleging that they are in cahoots in this city with the doctors and the undertakers. Which leads the inebriate honest man to wonder if the Almighty himself is really on the square.

Roosevelt is never content to do anything just like somebody else did. His Thanksgiving proclamation says, "Therefore, I now," instead of "Now therefore, I."

An Indian squaw has been discovered who beats her husband. Another striking example of the blighting influence of civilization on the noble red man.

Another international "situation" is brewing in Turkey. A Britisher has started on an automobile tour through the sultan's domains.

When you really print the news you don't need to go into laborious and complicated argument to let the people know.

Russia is decidedly quieter. There were only eight hundred killed yesterday and life is resuming its wonted placidity.

The Squeak is asked with all sympathy to cheer up. Maybe it will print a news item after a while.

The saloon men are wondering if Perfecto will nail the lid on as tight as he nailed up the county jail.

If Rear Admiral Train can't shoot any better than that he ought to be chased by the Chinks.

The president may not know all the ins and outs of football, but his interference is all right.

Dangerous Foreign Postal Cards. Postal cards with certain pictures on them have recently been prohibited in several countries. In Russia all cards bearing the portrait of Tolstoy are confiscated and destroyed. In Turkey no card bearing the name of Allah or of Mahomet, the photograph of the Kaaba or the portrait of a Mohammedan woman is allowed to go through the mail; in Saxony all postal cards are prohibited which refer in any way to the recent adventure of Princess Louise; in Portugal the postal officials have been instructed to destroy any card which is designed to caricature the king on account of his corpulence; in France strenuous efforts are constantly being made to keep out of circulation picture postal cards which are an offense to good taste, and finally all cards referring to the late Queen Drage Machin and to Prince Henry of Holland have been prohibited.

## Timely Suggestions

We are surrounded by suggestions of approaching winter, but the most suggestive thing to be seen is our large line of High Grade Heaters. They suggest to the mind and picture to the eye howling winds and drifting snow on the outside, and a warm glow within, which is the result of the highest art in stove-making. It radiates a glowing warmth evenly all over the room, or two or three rooms if you have them connected.

Plans have been approved and the contracts will be let at once for a handsome two-story brick and stone business block to be built by O. N. Marron on Railroad avenue to take the place of the frame building occupied by Weiler and Benjamin, dry goods merchants.

The building will have a twenty-five foot frontage by 142 feet in length and will be of brick with stone trimmings, two stories and basement. It will be thoroughly modern, heated by steam and well lighted and will take the place of one more of the old frame buildings which have been an eyesore for so long. Construction will begin at once as the contracts are let and the old building can be removed. J. L. Lardiere is the architect.

The entire building will be occupied by Weiler and Benjamin, who have taken a long time lease and who need more room for a rapidly growing business.

## Brewery to Build Offices.

As part of the plan for extensive improvements in the plant of the Southwestern Brewery and Ice company, the company yesterday approved plans for a handsome office building to be built at once at the corner of First street and Fruit avenue, across the street and the railroad tracks from the plant. The building will be of stone and will be used entirely by the company. The interior plan calls for the hardwood finish throughout and will form the handsomest offices in New Mexico when complete.

The remodeling of the main plant of the brewery is going ahead and by next spring the building will have been practically made over. The alterations were necessary in order to provide for additional capacity.

The changes in this establishment call for the remodeling of a second many thousand dollars in the next six months.

## More New Homes.

Activity in residence building continues unabated and the next two weeks will see the approval of a number of plans for dwellings which have just been decided on. It is understood that one or two handsome homes are to be added to the Tijeras road district in the near future and the building of small cottages goes on without any sign of a letup.

Andrew Hatch has let the contract for the building of two modern seven-room brick dwellings on North Walter street. They will be two-story with basement and of Santa Fe brick, thoroughly modern and up to date, costing \$7,000.

E. B. Cristy is the architect and Dickson and Stephens, the contractors. Dickson and Stephens also secured the contract for a five-room brick cottage from Thomas Walsh, on South Third street, near Atlantic avenue, to cost \$1,800.

It is understood that several important sales of real estate property are pending in the original townsite which will probably be closed during the week.

# SUDDEN DEATH OF NEW MEXICO PIONEER

MRS. MARGARET CLIFFORD WHO CAME TO NEW MEXICO IN '51 CLAIMED BY DEATH.

Mrs. Margaret Clifford, aged 72 years, a pioneer of New Mexico, died yesterday at noon at the home of her son, Oakley Clifford, on North Broadway. Death was very sudden and was the result of a complication of asthma and heart weakness, the result of her advanced years.

A few minutes before 12 o'clock Mr. Clifford went into his mother's room, when she assured him that she was feeling very well and that she expected to get up during the afternoon. Unexpectedly to her condition, he was about to call a doctor when he returned to her room to find that death had come.

The funeral arrangements have not been announced and will not be until the arrival here of other children who are Meslance Wardwell, of Albuquerque, Nichols, of San Marcial and W. J. Clifford, of Deming.

Mrs. Clifford was one of the few women who dared to brave the hardships and dangers of life in New Mexico before the civil war. She came to the territory in 1851 when conditions were anything but pleasant, and when the danger of an Indian raid was no idle dream. Her first home was in Santa Fe going there to Socorro and later to southern New Mexico. For many years she has made her home with her son here. Until the last few months Mrs. Clifford has been strong and well for a woman of her years, her only trouble of serious nature being the asthma which finally caused her death.

## No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

## HORSE DROPPED DEAD UNDER THEM

BOYS HAVE REMARKABLE ESCAPE FROM ELECTROCUTION SEVERAL SMALL FIRES.

John Sheehan and Lawrence Koller, two small boys, were astounded and somewhat frightened yesterday morning when the horse they were riding down South First street suddenly dropped beneath them. The horse died in a few minutes. It is supposed that the animal brushed against a ground wire from one of the electric power poles, which had become charged through the wet wires and poles which overtopped the insulation. Both boys were slightly shocked.

Several small fires due to crossed electric wires and wet roofs, occurred yesterday morning. One of these was in the first station, due to crossed wires in the roof. The blaze was extinguished with the chemical without damage.

## FALLS TO DEATH THROUGH TRAP DOOR

SANTA FE CARPENTER PLUNGES THROUGH ROOF WITH FATAL RESULT.

William Metz, a carpenter, was almost instantly killed yesterday morning in Santa Fe, by a fall from the roof of a building owned by Charles Closson, and which is being repaired for use as a livery stable.

Metz, with two companions, had gone on the roof early in the morning to lay a tin roof. When the rain became too heavy to allow the work to continue the men started down through a trap door. Metz in some way missed his footing and fell to the floor beneath. The distance is little more than ten feet, but Metz struck on his head, a fracture of the skull resulting. He was married and leaves a number of relatives in Santa Fe, where he had lived all his life.

## CENTRAL NEW MEXICO GETS ANOTHER SOAKING

TWENTY-FOUR HOURS STEADY RAIN DOES VAST GOOD TO RANGES.

Reports from all sections of central New Mexico show that the rain which began falling in Albuquerque Friday night and continued up to this morning, has been general, and that the whole country has received a thorough soaking. The benefit of this rain to the range of this section can hardly be overestimated. The weather forecast says that there is more moisture coming.

## HUNTING FOR MISSING FIREMAN

DENVER AND RIO GRANDE EMPLOYEES WHILE GOING TO TAKE ENGINE.

According to reports from Santa Fe, considerable anxiety exists among the employees of the Denver and Rio Grande for the safety of J. Braun, a fireman, who has disappeared. Braun was called early yesterday morning at La Veta to take a train out for the north. He started from his room, and although the tracks are only a short distance away, he disappeared somewhere between his room and the waiting engine. Foul play is feared, as no trace of the man had been found during the day.

## AMERICAN KILLS 23 YAQUIS WITH POISONED MISCAL

Way to Exterminate the  
Indians Discovered.

### LURID TALE OF SLAUGHTER OF HOSTILES BY DOZENS

Enough lurid stories have been printed about the Yaquis to make a library. The final horror, though, comes in a story of poisoning the redskins, published in the Tucson Citizen in the form of a Nogales dispatch as follows:

Yesterday two Mexican cowboys brought to Carbo, Sonora, the news that twenty-three Yaqui Indians had been poisoned by an American rancher, whose ranch is about thirty miles from Carbo. Poison poured into a three gallon demijohn of miscal did the work of poisoning the red men. The poisoning occurred the latter part of last week. While at work near the ranch house the American, a man named Johnson (whose other name the cowboys could not remember) saw a party of five Indians approaching. Fearing trouble, he entered the house and secured a rifle. A ranch laborer and one of Johnson's boys were also present and armed when the Indians reached the house. The visitors made no hostile demonstration and appeared to be peacefully inclined. They asked the ranch people what they were doing with their guns in their hands and even joked with them about being armed, when there was neither danger nor game in that section. After talking for about fifteen minutes they left the place.

Johnson, however, did not like the appearance of his visitors and feared a secret visit after nightfall. Impelled by his fear and anxious about the danger that might threaten his family, he hurriedly gathered together some clothing and food, and with his wife (a Mexican woman) and children, all in the high ranch wagon, started off once for a larger ranch about ten miles from his place.

Before going, however, he poisoned the large demijohn of miscal and left it where it would be readily found by the Indians should they return during the night.

The next night, traveling under cover of darkness, the rancher visited his home to ascertain if it was still there, or if his visitors of the day before had returned and destroyed it. Cautionously approaching the house, he found first one rigid form, then another, but no signs of life.

Remembering the miscal, he trembled at the thought that all five of the Indians might have drunk the deadly fluid and might even then be lying stark and stiff in death, as were the two Indians whose bodies he encountered in the semi-darkness of the night. Still fearful that some might be alive, he moved cautiously to a secluded spot, where he could watch the place in the morning without danger of being seen. There he lay and watched until long after sunrise, but no signs of life greeted his vigilant eyes. Confident then that there was no living creature at the ranch, but the animals, he again visited the house.

The sight that met his eyes was a gruesome one. In front of the house a dozen Indians, ghastly in death, and some of them with eyes still open and staring in apparent terror, lay in various postures on the ground. Inside the house, some crumpled up in corners, some on the beds and others stretched at full length upon the floor, were almost as many more.

Not many minutes did the startled terror-stricken rancher remain to view the awful spectacle. Pale with horror at what he had seen, he hurried from the place to where he had tethered his horse the night before. Mounting the animal, he galloped to the ranch where he had left his wife and from there the tragic news was brought to the settlement by the Mexican cowboys.

**Yaquis Ruin Country.**—W. C. Winegar, assistant cashier of the First National bank in this city returned yesterday from a visit to Guaymas on business and stopping at Henry and Nogales and Benson on his return. Mr. Winegar says that the depredations of the Yaqui Indians in that section of Sonora tributary to Hermosillo and Nogales have well nigh ruined the business of these two cities. Especially did he find this so in the case of Hermosillo, where those who knew about the business conditions there declared that the Yaqui troubles were responsible for a 50 per cent loss in business. The city is practically isolated, and few people are going in or out of it. The officers of the Banco de Sonora agreed to the great damage which the city has received from the prevailing alarm on account of the Indians.

Mr. Winegar learned nothing of the Grindell party further than what was published in the International American last week. Though he found the prevailing sentiment in Guaymas to be that the party had perished from thirst on the desert.

At Nogales business had not yet reached the stagnated stage which prevails at Hermosillo though that city has suffered greatly from the loss of trade caused by the stagnation of the mining industry tributary to the business men there.

## NEW MEXICANS ARE SENDING POLICIES TO TOM LAWSON

Says He Already Has Forty  
Proxies From Territory.

### MAIL IS GROWING HEAVILY FROM THIS SECTION

According to the flaming appeals which he is scattering by millions over the nation in his effort to gather to himself the proxies of all the life insurance policy holders in the United States, Thomas W. Lawson, of Boston, claims that he has the proxies of forty New Mexico policy holders. It is probable that the author of frenzied finance by this time has many more than that number. Four policy holders of the big companies, in this city, sent proxies to Lawson yesterday, and it is said that every mail carries an addition to his list. The proxy which Lawson is sending out and by which he claims now to represent \$55,000,000 of insured men and women, is as follows:

Know All Men by These Presents, That I, . . . . . County of . . . . . State of . . . . . do hereby constitute and appoint Thomas W. Lawson, my attorney and agent for me and in my name, place and stead to vote as my proxy as a policy holder or as a member of the corporation at any meeting of . . . . . corporation, or directors, or of other officers, for whom policy holders have the right to vote, and for such other business as may come before the meeting, and any adjournment thereof, and to act as such meeting as fully as I could do if personally present, with full power of substitution and revocation, hereby ratifying and confirming all that my said attorney and agent, or his substitute, shall lawfully do in the vicine hereof. Unless sooner revoked, this proxy shall continue in force for one year from the date hereof. I hereby revoke all proxies heretofore given by me for any of the above purposes.

In Witness Whereof, I have hereunto set my hand and seal this . . . . . day of . . . . . in the year . . . . . (Seal.)

Signed, sealed and delivered in presence of . . . . . Owners of policy No. . . . . Amount, \$ . . . . .

In accepting the above proxy, said Thomas W. Lawson agrees that:

1. It will only be voted for a set of men who shall be nominated as trustees by a committee to be selected, said committee to consist of representative labor leaders and representative clergymen. That when this committee has selected the men in its opinion best fitted to serve as trustees and they have accepted, their names shall be announced to the policy holders.

2. Said Lawson, in accepting this proxy, agrees he will not use same until ten days after he has announced to said policy holders the names of the trustees selected, and so given said policy holders opportunity of revoking same.

3. Said Lawson agrees that, in accepting said proxy, he will not use same to elect any one a director of the Mutual Life Insurance company, the New York Life Insurance company, or any other insurance company who will not first agree to do all in his power after he is elected to exact full restitution of all moneys rifled from these corporations, and enforce punishment of officers, directors, agents, or other employees who have been, in any way guilty of wrongdoing.

A CLEANLY AGE.

Twentieth Century Ideas Incline Toward Sanitation and Preventatives.

Nowadays scientists believe that in cleanliness lies the secret of prevention of diseases.

To prevent a disease remove the cause.

Just as unclean habits breed many diseases, so careless habits will breed dandruff. Improper use of another's brushes, combs, etc., will surely cause dandruff, and in time, will just as surely cause baldness.

It's a microscopic infection, nothing more nor less.

Newbro's Herpicide kills the dandruff germ, and causes hair to grow luxuriantly. Herpicide is absolutely free from other injurious substances. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

## AN OPEN LETTER To Our Patrons and Friends

We have entered into a contract with Mr. Geo. W. Hickox, agreeing to sell to him our Jewelry Business, including stock, fixtures and good will, Jan. 1, 1906. One strong feature of our agreement with Mr. Hickox is that we promise to reduce our price large and complete stock to the lowest possible point before that date and with this end in view, we will begin, Saturday, Nov. 4, a SPECIAL CLOSING OUT SALE to continue until Dec. 21, at which time we positively retire from the Jewelry business, having arranged to go into the manufacturing lumber business in British Columbia.

Our business in Albuquerque has increased steadily year by year, and grateful for this, we propose for the next two months, to cut out the big end of our profits and to give you such a genuine bargain sale of really fine, high-grade goods, as never has been offered in our city.

We invite you to make your selections now and avoid the rush of the December trade. We have ample vault-room and will gladly lay aside the goods you select, until you are ready for them. We have been in the Jewelry business 26 years, and have never yet advertised a fake sale. In this sale we will offer you rare bargains in Diamonds and Fine Watches. Every sale will be backed by our personal guarantee. Mail Orders solicited and satisfaction assured.
