This Newspaper is brought to you for free and open access by the New Mexico Historical Newspapers at UNM Digital Repository. It has been accepted for inclusion in Albuquerque Morning Journal 1908-1921 by an authorized administrator of UNM Digital Repository. For more information, please contact disc@unm.edu.

been carefully removed from the walls, Mr. Bursum stated the purpose of the meeting. He said that in view of the fact that certain congressmen headed by Congressman Tawney had recently visited Arizona and had there declared against joint statehood, that it seemed the right time for the republicans of New Mexico to take some action and make some expression of their views. He then instructed Chairman Safford to read the official call, which was in the form of the following personal letter from the chairman:

"Owing to the sentiments that were expressed by several members of the congressional party headed by Hon. James G. Tawney, of Minnesota, as well as reports of the changing condition of the sentiment at Washington relative to the statehood situation, it has been deemed advisable to call a special meeting of the republican central committee of the territory to be held at republican headquarters in Santa Fe at 2 o'clock p. m., November 10, 1905.

"It is of especial importance that every member of the central committee and of its executive committee be present at this meeting, in order that the subject matter may be discussed fully and that such expressions and resolutions may be entered of record as the committee shall decide best meets the exigencies of the situation.

"Trusting that you will appreciate the importance of the occasion and make every effort to be present, or if that is not possible advise me upon the enclosed postal card, as to your plans in the matter, stating at the same time, the name of the person to whom you will give your proxy.

"I am yours truly,

"H. O. BURSUM,

Secretary Charles V. Safford then proceeded to call the roll. It was a very satisfactory roll call, for although it showed a quorum of both the central committee and the executive committee, it was not a very large representation. The chairman had announced that proxies would not be recognized unless they were held by members of the executive committee or by persons residing in the county from which they were issued. Thus, through non-recognition of proxies and failure to send them or representatives, the following counties were without representation:

Chaves, Eddy, Luna, Otero, Roosevelt, Mora, Sierra, Torrance, Sandoval and Quay.

There was but one vote from McKinley county. It was that of Gray Page, and it was with the twenty-eight Mr. Page being one of the two who was not an officeholder. He is generally acknowledged to be the only man in McKinley county who is against joint statehood, as against maintaining a territory.

There was but one vote from Lincoln county, that of the attorney general, the other committee men being an advocate of jointure.

Yet the committee's resolution solemnly declared that it declared for the sentiments of the territory of New Mexico and for the republican party thereof.

The roll call finished, Chairman Bursum called for remarks, and there being no remarks, he called for remarks from the members on statehood. There being still no remarks, he called on General Pritchard, who arose and presented the resolution, explaining carefully that he did it to get the matter before the house.

Speaking for the Bernallillo county delegation, Frank A. Hubbell promptly opposed the resolution and in his opinion that when the resolution presented to speak for the republicans of New Mexico, it was taking false grounds; that it did not speak for the republicans of the people of the territory. He said he was ready to show ninety per cent of the people of Bernallillo county in favor of joint statehood, and he believed there were plenty of other counties with the same majority to present. Mr. Hubbell went on at some length to explain to the committee that its work was not nearly as serious as it looked and that it could not possibly have a great deal of weight with congress.

Mr. Hubbell ended by declaring it wrong to compromise the territory by the passage of such a resolution. He thought the matter could be safely left to congress and then to the people of New Mexico and Arizona, who could vote yes or no. It has been rumored that one of the purposes for which the meeting yesterday was called was to remove Hubbell from the committee. If so, his speech was sufficiently long to take away the breath from the lead and no action of the kind was even whispered.

Chairman Bursum asked for expressions from other counties. He called directly on Mr. Martinez of Taos county. Mr. Martinez sat in his chair close against the wall and said nothing.

The silence was becoming tense. Hubbell was about to make another speech and the anti-joint statehood forces had not been heard from. They had the votes, but the worst inclined to talk. But General Pritchard came to the rescue again. He said he thought it his duty to defend the resolution and he made the speech as outlined above. In course of it he referred several times to former Delegate Rodey.

Mr. Rodey was standing in the door, and at the last of these references asked to be allowed to reply in his own defense. General Pritchard agreed, but the rest of the committee could not see it that way.

Mr. Rodey quietly murmured:

Chairman Bursum, without waiting for any more speeches which did not seem to be any too plentiful, started to call the vote on the resolution.

Hubbell then moved that Mr. Rodey be allowed to speak. Marcellino Ortiz of Santa Fe, a young man who has taken a more or less prominent part in the town politics of the capital for several years past, was on his feet at that time in an objectionable manner. He declared that the importance of this one, it would be unseemly and improper to allow an outsider to "butt in." W. G. Sargeant, the territorial auditor, also objected.

It was at this point that the game that Frank Hubbell made his second speech. It was somewhat warmer than the first. He said it had been the custom in the past for the committee to hear the views of outsiders on public questions, and he declared that if the committee would not allow Mr. Rodey to speak, it was because they were afraid to hear him.

When the roll call came one member of the committee remarked that he was going to vote yes, although he didn't want to hear Mr. Rodey, but that he voted for him to show he wasn't afraid.

But the committee declined to allow Mr. Rodey to speak by a vote of 7 to 27.

Chairman Bursum then put the vote on the resolution, and it carried by the overwhelming majority of twenty-six, with the additional votes of Mr. Page of Gallup and Mr. T. J. Curran, of Farmington. The vote was 29 to 27.

After filling a few vacancies in the ranks of the committee from Luna

and Torrance counties, the committee adjourned, the fire in the smoky fireplace went out and the thirty-five members departed for their homes.

Things Didn't Happen.

That the committee was called to meet for other work than the weak-kneed anti-statehood resolution, seems to be unquestioned. Why the other things did not come off as scheduled is not explained. It seems, however, that the time was not considered "propitious."

It was proposed to pass through the committee an endorsement of Governor Otero for a third term. The committee deemed it wiser to make their endorsement personal. It has been persistently rumored that the committee was to take action on the resolution of Delegate Andrews. But the name of Mr. Andrews was not breathed during the session, and if some of the members looked with wondering eyes at the silent spots on the walls where his portraits had been, they said nothing about it.

If, as has been confidently asserted, action against the present members of the committee from Bernallillo county was contemplated, that, too, was not mentioned outside the council chamber of the men who were conducting the performance. The committee confined itself to statehood. It had very little to say about that, and when it had said it, most of the committee went home. Those who stayed were entertained at a smoker in the committee rooms in the evening. As a social gathering the meeting of the New Mexico republican committee was quite successful, although the attendance was not large.

As a meeting of political leaders it was a poorly conducted farce which will have about as much weight with the republican voters of New Mexico as a lace curtain in a sand storm.

NEW NARROW GAUGE RAILWAY PROJECTED FOR LAS VEGAS

Gas Man Colburn Is Behind It.

WILL TAP MORA VALLEY AND RICH COAL MINES

Special to the Morning Journal.

Las Vegas, N. M., Nov. 10.—W. H. Colburn, who is applying for a franchise for the establishment of a gas plant in Las Vegas, today made known his plans regarding a railroad from Las Vegas, in which he is interested. It is the intention of Mr. Colburn and associates to build from this city through the Mineral Hill district and the rich Mora valley a narrow gauge road, sixty miles in length. The line has been located by a surveying corps which has been in the field for the past two months. The new line will open up a region rich in mines, quarries and fertile a thousand acres of several hundred thousand acres. The company controls a large amount of property in the district and the road will primarily be for the purpose of assisting in the development of these properties. Coke ovens are to be established in Las Vegas, and large and fine deposits of coal of excellent cooking qualities will be mined.

Mr. Colburn says the road will be built whether he gets a gas franchise or not, but the prospects that he will receive the franchise seem excellent. He has raised his price to a dollar and a half a thousand for a maximum charge for both heating and illuminating gas for the first five years, the contract to have the power to lower the rates in the ratio of the reduced price of coal that is expected to result from the development of coal areas controlled by Colburn near the city.

The ordinance committee has already recommended that the Colburn franchise be granted, but the special meeting of the city council held this afternoon to consider the matter voted to allow the question to go over until the next regular meeting, in order that the people may understand the proposed franchise more fully. Mr. Colburn agrees to bond himself to fulfill the terms of his franchise, and the fact that his ability to make the project a success will depend mainly upon his plans, inspires confidence in the minds of the people that the narrow gauge will be built. The enterprise is fully financed and no bonds are for sale. Mr. Colburn, himself, being worth several millions of dollars.

locator was murdered by the Apaches, who once filled the country. All the location work has been done and eleven men are being worked on the eleven claims of the group. Five cuts of rich ore already have been taken out, ready for shipment. Carignan has gone to Los Angeles to consult his lawyers, taking with him a sackful of the precious ore. A large number of prospectors have gone to the scene of the find and many locations have been made already on nearby ground.

To Change Russian Calendar.

St. Petersburg, Nov. 10.—The new era in Russia will be marked by a change from the Julian to the Gregorian calendar. The use of the old calendar, which is thirteen days behind that of the other civilized countries, has been the cause of infinite confusion. The academy of sciences has already submitted a plan to shorten the Russian February by thirteen days and to begin March 1 in the new style.

Come in and see us and be convinced that the White Elephant is the place to get a cold bottle and a free Saturday night lunch.

A FATAL MISTAKE

Is Often Made by the Wisest of Albuquerque People.

It's a fatal mistake to neglect backache. Backache is the first symptom of kidney ills. Serious complications follow. Doan's Kidney Pills cure them promptly. Don't delay until too late. Until it becomes diabetes—Bright's disease. Read what an Albuquerque citizen says:

Mrs. J. H. Smith, of 115 Huning Ave., wife of J. H. Smith, deputy sheriff, says: "I have had backache for a month so severe that every movement I made hurt and I never knew the moment but the slightest strain on the muscles of the back brought a twinge which could only be described as excruciating. I went to the Alvarado Pharmacy for Doan's Kidney Pills and took them. The remedy stopped the annoyance. Since then I have had no necessity to use Doan's Kidney Pills nor any other medicine for aching across the small of the back."

For sale by all dealers. Price, 50 cents. Foster-McMurray Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Preserve Your Lawn.

Kill the worms with Hahn's Eureka line.

Everybody says so, what? That the White Elephant puts up the finest free lunch in town Saturday nights.

The very best of Kansas City beef and mutton at Emil Kleinworth's, 112 North Third street.

GO TO BELEN

The Future Railroad Center of New Mexico

Located on the Belen Cut-off of The Atchison Topeka & Santa Fe Railway

The new City of Belen is 31 miles south of Albuquerque, N. M., is at the junction of the main lines of the Santa Fe system—leading east and west from Chicago to San Francisco and Los Angeles, El Paso, Texas and Old Mexico

The Belen Town and Improvement Company

(INCORPORATED)

ARE THE OWNERS OF THE BELEN TOWNSITE, consisting of ONE THOUSAND BUSINESS AND RESIDENCE LOTS, (size 25x142 feet) fronting upon 80 and 70-foot streets and avenues, RIGHT in the business center of the NEW CITY and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka and Santa Fe Railway company is now grading its extensive depot grounds and yard limits 800 feet wide and a mile long, (capacity of seventy miles of side track) to accommodate its NEW PASSENGER and FREIGHT depots, HARVEY EATING HOUSE, Round House, Coal Chutes, Water Tanks, Machine Shops, Etc.

THE CITY OF BELEN

Has a population of 1500, and several large Mercantile Houses, The Belen Patent Roller Mills, capacity 150 barrels daily; winery, etc. It is the largest shipping point for flour, wool, wheat, wine, beans, hay and fruit in New Mexico. From its location upon the Great Trunk line, leading North, South, East and West, to all points in the United States and Old Mexico its future growth as a Commercial point cannot be estimated. All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$16,000 public school house, two churches, a commercial club, three hotels, restaurants, etc. It needs right now a bakery, tailoring establishment, shoemaker, plumber, planing mill, drug store, harness shop, etc. THE LOTS OFFERED ARE LOW IN PRICES AND TERMS EASY. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at eight per cent per annum. Title perfect and warranty deeds given. COME EARLY IF YOU WISH TO SECURE THE CHOICE LOTS. For further particulars and prices of lots call in person or write to

SANTA FE TOURIST CAN HEREAFTER SMOKE IN LUXURY

Elegant New Smokers Or-
dered by the Company.

SEVENTY-FIVE NEW PASSENGER
CARS WILL COST \$900,000

The Albuquerque man who does much traveling on the Santa Fe, and who is also a devotee of the fragrant weed that made General Arthur and others famous, has some good times ahead. In a few months he will have the pleasure of traversing the landscape in a smoking car which has comfortable rattan chairs, which run as easily as any other chair car, which has vestibules and which in short will be a smoker's paradise on wheels.

The change will be a most commendable one. Heretofore the Santa Fe has been in the habit of using old, worn-out second class coaches for smokers, which are draughty and rickety and generally unpleasant. But the company's recent order for seventy-five new passenger cars includes thirty smoking cars which will undoubtedly be the "real thing." Mr. Jerry Black, the passenger traffic manager, has said that they will, and that proves it. First class smoking cars, sanitary and clean, and well ventilated, and easy running, will add greatly to the popularity of the Santa Fe with the traveling public and especially with commercial travelers.

These smoking cars are part of a new order of passenger rolling stock which will cost the company \$900,000, all to be delivered by March 1, 1906. Of the others, twenty-five are to be the best passenger coaches of the most modern type with high back plush seats, and of the most approved construction.

The other twenty cars of the new equipment will be "Jim Crow" coaches for use on the lines extending from Kansas City through Texas and the south, partitioned in the middle to divide off the whites from the blacks, in accordance with the laws of Texas. With all these new cars and with one of the new balanced compound engines for every overland train from Albuquerque westward, the service on the Santa Fe and especially on the coast lines, will be marvellously improved in the course of the next few months. Each of the new cars will be seventy feet long and will cost \$12,000 or upwards.

The Mechanical Men Meet.

Alfred Lovell, of Chicago, superintendent of motive power of the Atchafalaya, Topeka & Santa Fe; C. M. Taylor, mechanical superintendent of the western grand division with headquarters at La Junta, and F. N. Eason, mechanical superintendent of the eastern grand division with headquarters at Topeka, have been holding a series of conferences with James E. Hurley, in Topeka, the general manager of the road. These conferences were held in Mr. Hurley's office and related to the redistribution of the motive power on the road, which will be made necessary by the winter time and that goes into effect on November 15.

They also discussed the placing on the various divisions of the many new engines which the company is receiving and which are a part of the complement of the ninety-five engines of various types that were ordered by the company the first of the year. It is understood that the new balanced compounds are to be evenly distributed throughout the entire system, so that they can be used for hauling the overland passenger trains, and the other engines are to be placed where they are most needed. Miscellaneous matters relating to the operation of the road were discussed also at the conferences.

MAY DROP SUIT AGAINST SANTA FE

IF CONCESSIONS ARE MADE COMPANY CAN STILL REMAIN IN KANSAS.

Topeka, Kas. Nov. 10.—Senators F. D. Smith and W. S. Fitzgerald, County Attorney C. D. Shukers and H. E. West, president of the Oil Producers association, held a conference here in regard to the suit to oust the Santa Fe from doing business in Kansas, now pending in the Chautauque county district court. Smith, Fitzgerald and Shukers represented the state in the suit, and the Oil Producers' association was backing it.

Senator Smith said that the matter might be dropped on account of certain concessions made by the Santa Fe.

"What are the concessions you speak of?" was asked of him.

"The Santa Fe," he replied, "has granted the low maximum rate on hauling fuel oil and finished oil to the independent refineries. The Santa Fe has put on 500 tank cars for the benefit of the producers."

"Then also the Santa Fe has under consideration an interstate rate so that refined and crude oil can be shipped out of the state. The latter matter is still under consideration and I cannot say what the outcome will be. The road has made these concessions. Consequently the case was continued from the October term until the February term. We wish to see what the results will be, and if those concessions will operate. They may result in the dropping of the case."

"But the presence of all these different parties here today has nothing to do with the matter at all. It was wholly an accident that we are here together."

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

Whitewash Your Chicken House With Bahay's Rarefied White Lime. Keeps out lice.

HURLEY WILL PUT RATON "ON THE MAP"

THE ENTERPRISING GATE CITY WOULDN'T OBJECT TO BEING HEADQUARTERS OF SYSTEM.

William C. Wrigley, Raton city attorney, had a pleasant visit with Manager Hurley of the Santa Fe on his recent eastern trip, says the Raton Range.

Mr. Hurley says that the matter of "putting Raton on the map" by advertising it as other New Mexico towns are advertised by the Santa Fe company will be taken up at once with the proper authorities and pushed to an issue. The Range made this demand of the powers that be when the other towns were made terminal tourist joints.

Mr. Hurley also renewed his promise to beautify the city park and if he falls in this Raton should leave the depot on a back street by moving over to Second street.

The reading room will be enlarged to include rooms and private sleeping apartments and a small restaurant where employees can be taken care of when the occasion demands. This is not what Raton had reason to expect would be done in the matter as it was well understood that a new and modern building would be erected for the comfort of its men by the Santa Fe.

If a gymnasium, chapel, assembly rooms, baths and all other modern conveniences are necessary for other places when large bodies of men are employed they are surely as necessary for Raton. But if a made-over building is the best that can be secured for the comfort and entertainment of Raton railroad boys we will try to be satisfied in the hope that when other roads come in and give the town the credit of being worth more modern improvements than the above, that the Santa Fe will then rise to the occasion.

At present we are a "one-road" town and must not sit with one-road conveniences. It seems a ripe time for the Citizens' Protective league to look over the promises made by Manager Hurley last summer and discover if it is true that all of the promised public improvements forthcoming in the new cornice on the Santa Fe depot. This generosity reminds one of the Teuton, who had his little boy's hair cut and new buttons sewed on his new trousers as a birthday present.

Schilling's Best are not extravagant; quite the contrary. Teas and coffees good-enough; baking powder—flavoring extracts and spices pure and best and yet economical; soda common.

On your way home Saturday night drop into the White Elephant, have a cold bottle, some of our free lunch and go home happy.

If you need a carpenter, telephone Hesseldein.

Daily, by mail, one month......50

ALBUQUERQUE.....NEW MEXICO

SATURDAY MORNING, NOVEMBER 11, 1905.

Well Merited Approval

IN THIS day and generation, when every public man stands in the limelight, with his every act subjected to the closest scrutiny and the most unflinching criticism, it is no trifling compliment to a man who has been in office for a term of years, to be unanimously endorsed by his fellow-citizens for re-election or re-appointment—yet Chief Justice Mills, of the supreme court of New Mexico, and Associate Justice McFie of the same bench, are the recipients of such a compliment at the hands of the people of the territory, and it is no more than simple justice to these able and faithful public servants to say that they have fully earned the verdict of "well done" which the people now pronounce upon them and their work.

The official terms of Judges Mills and McFie will expire in a short time, and President Roosevelt could not do anything that would be more creditable to his administration, or more satisfactory to the people of New Mexico than to reappoint them to the places which they now fill with credit to themselves and the territory.

With the Lid Off

NOW that the Quay gang has been routed in Pennsylvania, and a man has been elected to take charge of the state treasury who is not in the service of the gang, we may expect the lid to be taken off very soon after the new term of office begins, and when that is done, the public may look for some revelations that will startle the world.

According to the books the state of Pennsylvania has a balance in its treasury of over \$10,000,000, deposited in various bank accounts in different parts of the state, and if the new treasurer shall be able to find ten per cent of that sum he will be a very lucky man.

The state funds are scattered around among "friendly" banks, ostensibly for the purpose of safe keeping, but in reality for the purpose of keeping the money where the members of the gang can get hold of it in a more convenient and "respectable" way than by looting the treasury direct. And the chances are ninety-nine to one that when the treasurer calls for the money he will find that it has been exchanged for "notes," which may or may not be worth as much as the paper they are written on.

The present peculiar system of storing the public funds at convenient points for the use of the gang was devised and instituted many years ago, and there has never been a thorough overhauling of the treasury since. But there will be a general house cleaning when the new treasurer comes in, and it is generally believed that a condition of affairs will then be revealed which will make it extremely difficult for certain gentlemen to escape being decorated with striped sails.

WE happen to know that Delegate Andrews had subscribed to the joint statehood scheme of Cannon, Beveridge, et al.—Las Vegas Optic. Yes; but that was at the time when the Optic was a very enthusiastic advocate of joint statehood. Tempora mutantur, etc., you know.

That Depends

ASKED the movement which is said to be in foot to have every school superintendent in New Mexico sent to the next meeting of the National Educational association, the Las Vegas Optic inquired: "What would it signify if it should be said that New Mexico was the only state or territory that sent every superintendent to the great national gathering?"

That would depend in a very great measure upon the superintendents themselves; if they should all be such startling contradictions of the eternal fitness of things as the late lamented superintendent of Bernalillo county, it would signify "a heap."

NEW MEXICO stands disgraced in the eyes of her sister commonwealths by reason of the part her delegate has played in the Pennsylvania tragedy, and will stand so until Mr. Andrews either proves his innocence or the people repudiate him.—Farmington Times-Hunter. But they won't all have to look down on us. Oregon, Kansas, and two or three others, probably including Pennsylvania, will not refuse to blush with us, as they experience that fellow feeling which makes us wonderful kind.

WITH famine prevalent in one hundred districts in Russia and affecting eighteen million people, perhaps Japanese critics of the Portsmouth treaty will at last be reconciled to a loss of indemnity.—New York Tribune.

SAYS the Houston Post: Young Roosevelt has been hurt again in a Harvard football game. It seems that the sons of the plain people take great pleasure in stamping the lights out of the presidential progeny.

GOVERNOR LA FOLLETTE insists that he is conservative. Next to "Tom" Watson and "Tom" Lawson he is unquestionably one of the most conservative men in public life today.—Kansas City Star.

The Insurance Grafters

IN ONE of his publications in which he puts the life insurance grafters on the gridiron, "Tom" Lawson says: "Some policy-holders may think I am unduly exercised, but the same should remember they thought I was absolutely crazy when I published my first life insurance accusations over a year ago. They have all been verified ten times over."

"I cannot impress too earnestly upon the policy-holders that the safety of the enormous funds of their companies is in actual jeopardy every minute these funds are allowed to remain in the hands of those who unblushingly testify to crimes, and while these crimes are being exposed, dip into the companies' treasuries to publish false statements throughout the world in regard to the exposure."

"No policy-holder of the New York or Mutual Life company is safe until the companies have been actually taken out of the hands of the present grafting controllers and put into those of honest men."

"Theorists may formulate plans. Dummies and stool pigeons confuse the situation with theories, and United States Senator Dryden, president of the Prudential company, whom the life insurance commissioner of Massachusetts was compelled to reprimand for methods as rank, if not ranker, than any that the investigation has developed, can still further mix things with his proposed 'federal supervision,' but there is one practical thing which must be done before policy-holders can feel safe:

"Actually get these companies out of the hands of the grafters and into the hands of honest men."

Solos

by the Second Fiddle

Albuquerque, the Venice of the Southwest.

Willie Hearst all events has reached the stage where he ceases to be a joke.

"North Fourth street lagoon—no boating or fishing allowed. Sign: T. McMillin."

"New Mexico is proud of her anti-quieties," says the New Mexican. Always excepting the Almanac.

The Las Vegas Daily Pedagogue accuses the Journal of "Lubrication." What the Optic needs is lubrication.

It is almost adding insult to injury to go and make the jail so nice and clean and comfortable after Tomas is out.

Here's hoping Emperor Nicholas will be in condition to attend that international peace conference next May.

The Almanac says the Morning Journal is barking up the wrong tree. Anyway it seems to have stirred something in the topmost branches.

Thursday, it transpires, was not King Edward's official birthday, but only his private anniversary. And even poor old George Washington only had one!

"What is this stream that runs through the center of your city?" inquired a newcomer in Albuquerque yesterday. And he looked incredulous when told it was just Railroad avenue.

Carnegie says the insurance scandals have made a profound impression throughout Europe. It begins to look as if some of the presidents would have to change their plans and go to Rome.

There has been a new accession to the list of glittering ante-election promises. John Martin, candidate for president of the borough of Richmond, promised his constituents that if elected he would rid the borough of mosquitoes.

A posthole digger in Phoenix dug up a human jaw bone, all that was left of the skeleton of some prehistoric individual. The exceptional longevity of the jaw bone leads one to believe that he must have been an antediluvian opponent of joint statehood.

The Phoenix Republican asserts that Arizona is one of the parts of this country which cannot be seen from a car window. The Republican is mistaken. There are quite a bunch of wise guys from the east including Mr. William E. Curtis who will refute the statement most positively.

Impressions of an Aeronaut. I once left Paris in a balloon with Durroff, going in a southeast direction. We were well above the clouds and were sailing quietly over the plains surrounding Orleans, when we heard the rumble of an express train, the sound resembling breakers on the seashore. Under ordinary circumstances it is easy to distinguish the two sounds. But this time the distant roar continued so long—did not cease in fact—that I began to get nervous.

"It may be," I finally remarked to Durroff, "that the wind has changed and we are going toward the ocean. Wouldn't it be well to go down a bit and see where we are?" He listened a few moments and then said: "Perhaps you are right," and he seized the cord of the valve, which quickly brought us below the clouds, so that we could make out just where we were. It happened that we were following the line of the Paris-Lyon railway, accompanied by an express, which was going in the same direction that we were and at about the same speed.

Another sound that reaches you in the sky is the striking of the church clocks when you are passing over them. This used to convey very useful information to the aeronaut sailing on his "trackless course." When local time prevailed the church chiming gave me the longitude of my balloon, for my watch was running on Paris time. But the introduction of standard time in the last time fully unfortunately for the balloonist, I once had in mind the idea of preparing an atlas in which I intended marking all the church steeples in systematic order. With this document in my basket, I would always know in what direction I was moving when ballooning in France.

A balloon trip is often a fine lesson in physical geography. In November, 1879, I went from Paris to Louvain in a balloon, and for the first time fully appreciated the fund of information one can collect concerning the general character of the region over which one is passing. It was not necessary to look on the map to see what villages were entering Belgium. The villages were nearer together, the trees more robust and the fields greener. I have had similar experiences in my various ascensions in the Alps, in Italy, in England and in different parts of my own country. One's geographical education can never be perfect without a wide ballooning experience.—Winifred de Fernville in the Independent.

IN THE GOOD OLD FASHIONED DAYS.

Powdered Wigs Formed an Important adjunct to a Gentleman's Apparel. It is safe to say that the majority of bald men of today would gladly revive the old, dignified custom if they could. But they can do the next best thing to it; that is, hold on to what hair they have.

In cases where the hair root or hair bulb has not been completely destroyed by parasites that infect it, Newbro's Herpicide will do wonders in the way of encouraging a new growth of hair. Destroy the cause, you remove the effect. That is the successful mission of Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit. Mich. B. H. Briggs & Co., special agents.

ISLETA GIRL FLEES TO INDIAN SCHOOL TO ESCAPE MARRYING

Leaves Ancestral Pueblo
Under Cover of Night.

SCHOOL AUTHORITIES REFUSE
TO GIVE GIRL BACK TO PARENTS

Marie C. Dolores Padilla, a sixteen-year-old Pueblo Indian girl from Isleta is now attending the United States Indian school in this city in spite of carefully laid plans on the part of her parents and the men of the village to keep her in her native pueblo and marry her to a promising young buck of Isleta.

Yesterday the girl, who is a handsome young creature with a liberal allowance of the picturesque wholesome beauty of her race, arrived at the local Indian school and announced her desire to become at once enrolled as a regular student.

The authorities at the school expressed surprise that she had come without her parents or without any arrangements having been made beforehand, and the girl finally, after many evasions, confessed that she had run away from home in spite of strenuous efforts on the part of her father and her mother to prevent her escape from home.

Last night her father and mother made their appearance at the school in a highly exasperated frame of mind, and demanded that the girl go back with them. Dolores appealed to the school authorities, and the latter refused to let the parents take back their daughter to the pueblo. After much argument, and after a little while Dolores resigned herself to the situation.

The secret of the girl's fixed determination to go to school is interesting. A year or so ago she went to school for about three months. It was enough to give her a deep hunger for more knowledge. Her parents, however, decided that she should marry a promising young buck of the village, whom the maiden did not like, and who besides had no desire whatever for the schooling upon which Dolores had set her heart. She cried and protested and stormed, but her parents were obdurate, so in the small hours after midnight, she stole from the house while her family were sleeping, and made her way to Albuquerque and the Indian school.

The baffled father and mother returned to the village last night to break the news to the buck who was to act the role of groom.

WOMAN'S CLUB HOLDS AN "EMERSON DAY"

MOST ENJOYABLE PROGRAM
GIVEN UNDER AUSPICES OF
LITERARY DEPARTMENT.

The Woman's club of Albuquerque held one of its most successful and interesting sessions yesterday afternoon at the club parlors under the auspices of the literary department. Mrs. George F. Albright having the program in charge.

Ralph Waldo Emerson was the subject of the papers and discussions which were unusually well prepared and full of interest. Mrs. Webster read a very good paper on the life and works of the great poet and essayist, which was followed by a poetical recitation given by Mrs. D. A. Macpherson. Mrs. Ten Tyck and Mrs. Bernadillo Bearup gave most enjoyable readings from Emerson's essays, after which a splendid review of the Emerson-Charlize papers was given by Mrs. Mill.

Mrs. Carns and Mrs. Mayo furnished the music which was greatly enjoyed.

RABBI KAPLAN MAKES AN EXPLANATION

CLEAR STATEMENT OF PURPOSES
OF THE ASSOCIATED
CHARITIES.

Owing to some difficulties the entire committee for raising subscriptions for the Associated Charities has not yet been appointed, but it is hoped that the committee will be ready by today. All those who have been selected are hereby given notice and are urged to be present at a meeting of this committee to be held at 4 p. m., at Rabbi Kaplan's home on Seventh street, next to Temple Albert. Before allowing the committee to solicit subscriptions for the Associated Charities I wish to state briefly for the benefit of all the citizens and every denomination the objects of this organization. A misunderstanding referred to in the article in the Evening Citizen, signed by W. B. Childers, Albert Faber, Doctors Froth, McLaughlin, Carnes, Cornish and Hope, is no misunderstanding on our part, but on the part of those who signed the article. They evidently believed that our intention was to start a new hospital, which is not the case.

The reason for forming the Associated Charities is two-fold:

- 1.—To take care of the worthy sick and poor, and
- 2.—To relieve the citizens of Albuquerque from unnecessary annoyance in giving indiscriminately to all who may apply.

It is well known that business men and others are approached almost daily, and they have not the time to investigate nor the heart to refuse those who may ask for help. True charity consists in seeking out those who need help and very often refusing those who ask.

Now the object of the Associated Charities of Albuquerque is three-fold:

- 1.—To establish a charity ward endowed by monthly payments in the Sisters' hospital, where such sick as the Associated Charities send them will be cared for.
- 2.—To contribute monthly to the Non-Sectarian Benevolent society that they may be able to more efficiently carry on their work for the caring for the poor in our midst; and
- 3.—To establish a poor house or county farm where worthy poor may be sent to be cared for temporarily, and where they are to pay for such care by such work as they may be able to do.

Everyone can readily see that the Associated Charities wish to establish charity along business and scientific principles and to do away with sentimental charity. Hereafter when anyone asks for food or for work the

member of the Associated Charities will simply refer such applicant to the proper officers of this association and thus be relieved of any further annoyance, and the officers will see to it that charity is dispensed on business and scientific principles. The details of this plan will be worked out in the constitution and by-laws and be presented to the members for final adoption by the committee appointed for this purpose. It is hoped that the sympathy of every citizen in this city will be enlisted in this undertaking, and that the committee will be given a hearty support.

It is earnestly desired that those ministers who have not done so yet will please appoint a committee of two ladies to solicit subscriptions, and urge upon them the importance of being present at the meeting this afternoon.

JACOB H. KAPLAN.

By the president,
S. S. PEARLSTINE, Secretary.

DENVER WILL SOON BE "CITY OF LIGHTS"

RESULT OF BUSINESS MEN'S ACTION
BEAUTIFIES
CITY.

(Denver Post.) With the plans going forward for the additional municipal lighting that will make Denver the real "City of Lights," we should not overlook the fact that the business men were the first practical exponents of the new idea. Their displays of lights, almost countless now on the downtown streets, were the first practical step toward making the city beautiful with lights. They have practiced what we all have preached.

The desire for lights for commercial purposes grew upon the business men almost imperceptible, so they say. Before they knew it they found that lights were one of the most effective advertising mediums. Those who adopted the lights told of increased

business, of an indescribable feeling of greater cordiality produced between merchant and patron. Their neighbors heard of this—they began to consider.

The result is evident on every business street, and even into the residence sections and suburbs. Drug stores, groceries and other smaller business houses far out from the heart of the city have their light signs, have their windows illuminated by numerous electric bulbs. It must be to the interest of them all or they would not continue the use of the lights. They benefit, the people benefit, because the lights form a pleasing break in walking through streets made more or less dark by the foliage. The "City of Lights" soon will be a reality, one of the best that has ever befallen Denver.

The Exact Thing Required for Consumption.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible gripping so common to most purgatives," says E. S. Webster & Co., Udonia, Ontario, Canada. For sale by all druggists.

Liquors, wines and cordials, the finest line in the city, at Ernest Meyers & Co., 116 West Silver ave. Free delivery.

RYNNING TO THE RESCUE IN A GASOLINE BOAT

Chief Ranger Now En Route to Tiburon.

DETERMINED TO FIND OUT

TOM GRINDELL'S FATE

Guaymas, Nov. 10.—Captain Thomas Rynning, of the Arizona Rangers, has left with an escort of Mexican soldiers and two guides familiar with Tiburon Island, where they will search for the missing party headed by Thomas Grindell, who disappeared along the western coast of Sonora about June 29. The searching party, which was equipped with a gasoline boat, "Lolla," and carried enough provisions to last the party three weeks.

The efforts now being put forth by Captain Rynning, in an endeavor to locate the missing party, were made possible through the prompt action of Walter Douglas, of Bisbee, who when he learned that it would be necessary to raise the sum of \$500 before the could leave Guaymas, promptly wired that amount to the office of Captain Rynning. This prompt action was taken by Mr. Douglas when it became known that Mayor Overlock, of Douglas, had wired in response to a telegram from Mr. Rynning, requesting assistance in a financial way, that no funds could be expected from that city. It is learned that Mayor Overlock sent this response after consulting with a few citizens of Douglas about the matter, but it is since learned that there is a movement on foot in Douglas to raise the desired amount and if the effort fails, no doubt other towns in the county will respond.

It is not expected, says the Bisbee Review, that any news will be received from the searching party until they have returned to Guaymas, which will not be less than a fortnight. The intention of the searchers was to first visit Tiburon Island and ascertain if the party ever succeeded in landing. If unsuccessful there they will next search along the western coast of Mexico following the route taken by the party as indicated by Hoffman, the guide, who became separated from the party on June 29 and made his way down the coast to Guaymas.

Upon his arrival there he reported that when he left the other members of the party they were in dire distress from lack of food and water and there is little hope that the searchers will find the remainder alive.

SCHOOL BOARD SMELLS POLITICAL JOBBERY

MADRID INCENSED BECAUSE MILL OF LEARNING MUST CLOSE FOR LACK OF FUNDS.

Correspondence Morning Journal. Madrid, N. M., Nov. 10.—Some concern is manifested in Madrid over the probable closing of the public schools. Barely enough funds were on hand to meet the October expenses and the November bill cannot be paid. The enrollment of scholars here is almost as large as that of Cerrillos, but the apportionment of funds for Cerrillos was increased so that another teacher could be hired, when the population is but little more than that of Madrid. There is a gross discrimination somewhere, but nobody can tell. The treasurer of the school board here says: "It is a pure case of political jobbery." A conference with the county commissioners will be sought soon to remedy the matter. What success the school committee will meet is hardly worth conjecturing. The fur is bound to fly somewhere, though, and that soon.

200 Tons of Coal a Day. The Cook & White mine is now producing about 200 tons a day. This is about fifty tons more than at any time since the first of January, 1905.

Big New Boilers Installed. The new boilers for the mechanical department of the Madrid mines are ready for installation. The old ones were removed this week as they are ready for the scrap pile. These boilers have been overhauled by Messrs. Thompson, Reynolds & Lewis, expert boiler-makers from Trinidad, Colo. They have been at work here for the past eight weeks.

Mr. Oscar Mauley, formerly fire boss of the Cook & White, has gone to Colorado for work. Mr. John Plutner has been appointed fire boss in Mr. Mauley's place.

Mr. Simon Thelm, who was sent to Pueblo a couple of weeks ago as a patient at the Menzies hospital, is suffering from an attack of typhoid fever.

Mr. Earl Turner, who met with an accident to his shoulder some two weeks ago, is able to be at work again, although he has no use of his left arm. A plaster cast has been applied to keep the injured member in place until the bone has united.

When You Have a Bad Cold. You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements and for the speedy and permanent cure of bad colds stands without a peer. For sale by all druggists.

Round Magazines. Are a valuable addition to a library—good substantial bindings at reasonable prices. Mitchell & Lithgow book binders, at the Journal office.

Meet me at the White Elephant Saturday night and get in on the good cold beer and the free lunch.

TERRITORIALISMS

Prescott people complain that stray cattle are devouring their lawns and the matter will be taken before the city council.

Position on Yuma Project. C. B. Burson, a stenographer in the employ of the United States reclamation service, has received word from the civil service commission of his appointment to a position on the Yuma project. Mr. Burson is one of the young men who recently took the examination in Phoenix.

Dogs Must Be Tied. The demurrer argued last Saturday in three of the indictments against A. J. Duggs and E. E. Duggs in which they have been charged with aggravated assault upon Esther and Marie Power, was overruled yesterday by Judge Kent, and the cases were set for trial on November 9.—Phoenix Republican.

Behind the Times. The professional football game between Itaton's city team and the Trinidad Athletic association at the Fair grounds Sunday was attended by perhaps five hundred people. The final score, 17 to 6 tells the whole story. The Trinidad team played 1900 tactics and were not up on the late rules of the game, losing the ball a number of times for this reason.—Raton Range.

Norris President of the Bar. It is now President T. G. Norris, of the Northern Arizona Bar association. That gentleman was chosen yesterday at the annual meeting of the association held in the court room and he had a walk-over, for none seemed to contest with him for the honor. He responded to the many calls for a speech in his usual humorous vein, and promised the members present that he would request the association members in the near future, and would see to it personally that each member was invited. His remarks were received with applause.—Prescott Journal-Miner.

He Was Only in a Trance. "Shorty," a saloon rouser of Lowell, whose other name has never come into use locally, relieved Coroner Hogan of a prospective job this afternoon by sudden return to life and unwonted activity at an Era street saloon, where he carressed a solicitous friend with a beer mug when the friend attempted to see if he was spoiling under a table where he placed himself on Tuesday evening. Preliminary to taking up quarters under the table "Shorty" indulged in the luxury of a fit. After this he subsided and remained under the table with such degree of quiet that the impression gained currency that he was dead. It was at this point that his friend determined upon the examination which brought on the assault with a beer glass.—Bisbee Review.

HARROWING TALE OF A GIRL AND THE CANYON. A Topeka man, who is a fine story teller, is just home from the Grand Canyon of Arizona. He is an amateur picture taker and is a good one. He sat in the lobby of a Kansas City hotel, late one evening last week, surrounded by half a dozen Kansas people, when he told the following story: "A big party of young men and young women started early from Hotel Tovar to go to the bottom of the canyon,

which is a fifteen or twenty mile horse-back trip. When about half way down the canyon one of the horses fell, breaking the leg of one of the young women. They were miles from water and hadn't a thing to give her to brace her up. She could no longer ride her horse, there was no timber or wood to make a stretcher and it was out of the question to carry her back over the rocks to the hotel. The young woman, who was suffering greatly, fainted again and again, but nothing could be done for her. 'It was,' he said, 'the most pathetic incident of his life. After an interval someone ventured to ask, 'what was finally done to relieve the awful suffering of the young lady?' 'We shot her,' he answered."

FINISHING BIG COPPER DAM AT ROOSEVELT. Engineer L. C. Hill returned here yesterday morning from Los Angeles where he went about ten days ago on official business, says the Phoenix Republican. He left for Roosevelt again last evening. Mr. Hill says that while he was in Los Angeles bids were opened and an award recommended, for three water wheels and three dynamos, necessary for the completion of the power plant at the dam.

He also visited the Llewellyn Iron Works which is engaged among other things, in the making of the big iron tunnel at the dam site. Mr. Hill says the work on the gates is progressing satisfactorily and the castings being turned out at the iron works are as nearly perfect as it has ever been his good fortune to see.

Speaking of operations at Roosevelt, he said he had not been there for nearly two weeks and could not speak of details, however, he knew the contractor, Mr. O'Rourke, was engaged in the building of the copper dam, preparatory to beginning the excavation for the foundation of the dam. It has been a source of a great deal of wonder to many just how the stream flow

was to be diverted during this work and Mr. Hill briefly described it. He says a row of piling is to be driven across the channel above the dam site and a similar row of piling will be placed below the site. A large flume will then be constructed from one to the other, designed to carry the ordinary flow of the river, above the foundation. When the stream is confined in this flume the workmen can excavate each side of it and underneath it. It may be feasible also to divert a part of the water if the flow is too large for the flume, through the sluicing tunnel around the end of the dam site.

When you want a pleasant, healthy Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or other unpleasant effect. Sold by all druggists.

Cheapest Disinfectant. A Hahn's Eureka lime. Effective and safe.

AN OPEN LETTER

To Our Patrons and Friends

We have entered into a contract with Mr. Geo. W. Hickox, agreeing to sell to him our Jewelry Business, including stock, fixtures and good will, Jan. 1, 1936. One strong feature of our agreement with Mr. Hickox is that we promise to reduce our very large and complete stock to the lowest possible point before that date and with this end in view, we will begin, Saturday, Nov. 4, a SPECIAL CLOSING OUT SALE to continue until Dec. 31, at which time we positively retire from the Jewelry business, having arranged to go into the manufacturing lumber business in British Columbia.

Our business in Albuquerque has increased steadily year by year, and grateful for this, we propose for the next two months, to cut out the big end of our profits and to give you such a genuine bargain sale of really fine, high-grade goods as never has been offered in our city.

We invite you to make your selections now and avoid the rush of the December trade. We have ample vault-room and will gladly lay aside the goods you select, until you are ready for them. We have been in the Jewelry business 26 years, and have never yet advertised a fake sale. In this sale we will offer you rare bargains in Diamonds and Fine Watches. Every sale will be backed by my personal guarantee. Mail Orders solicited and satisfaction assured.

ALBUQUERQUE HARDWARE CO

PLUMBERS 321-323 RAILROAD AVE TINNERS

Save 40 Per Cent
of Your Coal Bill

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.

ALBUQUERQUE HARDWARE COMPANY

The St. Elmo Sample and Club Rooms

Choice Liquors served. A good place to while away the weary hours. All the popular games, and Keno every Monday, Thursday and Saturday nights.
