WILL BUT PUPPET OF WALL ST. BUCCANEERS

OPENED DOOR OF PEOPLE'S TREASURY

Most Sensational Testimony Committee Has Heard.

HARRIMAN AND FRICK

SOUGHT TO EXILE HIM

Pettied Son Tells How He Came From College to \$30,000 Job and

How He Was Used by Smarter Men.

New York, Nov. 14.—James Hazen Hyde, former vice president of the Equitable Life Assurance society, whose resignation followed the sensational disclosures in that company last spring, which led to the investigation of the insurance companies' methods by the Armstrong committee of the legislature, the man whose presence as a witness before this committee had been looked forward to in the expectation that it would produce the greatest sensation of the investigation, appeared before the committee today.

Mr. Hyde's manner on the stand was one of composure and deliberation, and his replies to questions from counsel were calm and deliberate and oftentimes studied. He was fortified with statements and data, and was very frank in his explanations. Frequently he would become bitter in his reference to some of his associates, while his entire testimony was of deep interest and cleared up many points that have heretofore remained in the dark. It was not until late in the day that the sensational features of his testimony were developed.

Mr. Hyde was called to the stand shortly after the session opened this morning, and he was under examination all day until a few minutes before adjournment was taken.

In anticipation of his presence as a witness there was a greater crowd than has attended the sessions of the committee heretofore, and extra police were stationed in the corridor without the committee room to keep order.

The Alexander loan. Mr. Hyde cleared up the matter of the \$625,000 loan of the Mercantile Trust company which appeared on the books of the Equitable Life under the caption of the "J. W. Alexander No. 3 account." This account has been under investigation on several previous occasions, but none of the witnesses heretofore examined had been able to explain it.

Mr. Hyde first heard of this account in the fall of 1902 when it was called to his attention by President Alexander who said that he and Mr. Jordan had incurred the loan to take up stock that was being bid up to the detriment of the company; to settle suits that were hampering the business of the society, and for campaign contributions. This contribution was the one to the last campaign and was asked by Mr. Rick, who suggested that it was for the benefit of the society. To procure this money Mr. Alexander had Mr. Hyde write a letter to the president of the Mercantile Trust company, and this letter practically placed him in the position of a guarantor.

Later, when the settlement of the loan was forced, Mr. Alexander said Mr. Jordan was the one to take up the loan. The stock purchased with part of the loan was sold to Thomas F. Ryan for \$212,000 and the balance, \$212,500 Mr. Hyde paid personally. He did this because he understood that Mr. Alexander was financially embarrassed, and in a bitter tone said:

"Notwithstanding the strained relations with these men (Alexander and Jordan), I felt bound to see that the debt was liquidated, by reason of the letter Mr. Alexander extracted from me."

Great Valuable Testimony. Mr. Hyde said that he first received a salary of \$20,000, seven years ago. In 1902, when he became chairman of the finance committee, this was advanced to \$25,000 and in 1903 it was advanced to \$100,000, at which it remained until he resigned as vice president of the society.

Mr. Hyde presented a statement showing that in the seven years of his connection with Equitable Life and the allied corporations, his average income had been only a little more than \$35,000 a year. This was figured as seven years' salary from the Equitable, amounting to \$245,000, from which he deducted his losses in syndicate transactions, amounting to \$28,615, and the \$212,500 paid on the \$625,000 loan which left a balance of \$187,885, or an average annual income of \$27,697, to which was added the average income from his offices in the trust companies of \$10,500. The witness said he presented this statement to show that he had been misrepresented.

Didn't Know Legislative Agent. The instructions of Mr. Jordan to A. C. Fiebig, the "legislative generalissimo," as Mr. Hughes referred to him today, Mr. Hyde knew nothing about. He said he never consulted with Mr. Jordan about legislative matters and that none of the legislative measures affected him or his interests in any way.

The syndicate operations of J. H. Hyde and associates were gone into very thoroughly and it was shown that

DEAD CASHIER KEPT DUPLICATE BOOKS

Secret Accounts of the Enterprise Bank Showing Details of Crooked Transactions To Be the Basis of Government's Criminal Prosecutions.

Pittsburg, Pa., Nov. 14.—If the latest reports concerning the Enterprise bank are true, Receiver Cunningham is in possession of a duplicate set of books kept by persons in the bank between August 25 last, when the federal examination was made, and the day the bank closed its doors. This information comes from one of the directors of the Enterprise bank, who appeared to be surprised that no mention had been previously made of this incident in the examination of the bank's accounts.

The finding of the books was some days subsequent to the suicide of Cashier Clark, and a perusal of them has been of invaluable assistance in tracing to their source many of the fraudulent financial transactions that wrought the wreck of the bank. It is said Examiner Mosley carried with him to Washington a complete copy of these accounts, and upon them the federal government will base its criminal suits.

Just who will be hit by this contemplated action is a matter of conjecture. The presumption is that Clark had not sole knowledge of these books, and was not the only person who made entries in them. It is known that certain employees of the Enterprise bank have been compelled to secure the receiver by giving judgment notes and making real estate transfers.

Inquiry into the reason for this elicits the information that these employees secured loans from the bank that have not yet been met. What the sums aggregate is not known, but Receiver Cunningham insisted that these loans be insured by notes and property transfers of equivalent value.

HEARST GAINS A SMALL VICTORY IN ELECTION FIGHT

Original Tally Sheets Must Be Produced.

McLELLAN DECLARES HE DIDN'T SPEND A CENT

New York, Nov. 14.—Counsel for the Municipal Ownership League today obtained from Justice Amundson in the supreme court an order directing County Clerk Hamilton to produce before the board of county canvassers the original tally sheets in his custody at their meeting tomorrow, or in default of so doing, to show cause tomorrow why he should not do so.

A similar order was obtained from Justice Dickey in Brooklyn against the canvassers of Queens county.

Says He Spent no Money. New York, Nov. 14.—In a certificate filed in the county clerk's office, Mayor McClellan asserts that he spent no money directly or indirectly in aid of his election.

JAPANESE PRISONERS RETURNING HOME

ARRANGEMENTS BEING MADE FOR DEPARTURE FROM HAMBURG.

St. Petersburg, Nov. 14.—Major Tatsuke, one of the first Japanese officers to enter Russia, since the declaration of peace, is now at Medvedev supervising the repatriation of the Japanese prisoners. He has arranged by telegraph through the American embassy for a supply of warm clothing and a hospital train for the sick. Two German transports have been chartered to convey the prisoners from Hamburg to Japan.

DOCK WILL GO THROUGH SUEZ

CANAL COMPANY WILL CHARGE GOVERNMENT \$25,000 FOR PASSAGE.

Washington, Nov. 14.—The navy department has been informed that the charges of the Suez Canal company for the passage through the Suez canal of the floating dry dock built for the Philippines will be about \$20,000 or \$25,000. This caused the department to give favorable consideration to the Suez, and in fact all preparations now being made for towing the big dock around the world to the Asiatic station contemplate that route. The work is being hurried on the colliers Caesar and Brutus and the supply ship Glacier which are being fitted with towing machinery.

CARLSBAD DELEGATION CALLS ON THE PRESIDENT

Washington, Nov. 14.—A non-partisan delegation from New Mexico called on the president today to discuss with him the proposed sale to the government of an irrigation project in the Pecos valley, N. M. The delegation consisted of Judge A. A. Freeman, W. A. Finlay, C. L. Ballard, A. H. Howe, C. E. McLaughlin and F. M. Tracey. They are urging the secretary of the interior to buy the plant which has been built near Carlsbad to irrigate the Pecos valley. The dam and its contingent system were constructed by private individuals at a cost of \$750,000. Last spring a flood carried away part of the dam and left the reservoir practically dry. The farms, orchards, vineyards and gardens, which were irrigated by the system are threatened with total destruction unless the dam is rebuilt. The delegation proposes to sell the entire plant to the government for \$150,000.

MINING CONGRESS RENEWS REQUEST FOR A BUREAU

Would Have Congress Create Department of Mines.

ASK THAT SPANISH LAND GRANTS BE OPENED TO MINERS

El Paso, Tex., Nov. 14.—The first day's session of the American Mining congress, which convened here today in eighth annual session, was devoted to preliminaries, welcoming addresses and committee meetings with the exception of the annual address of President J. H. Richards, of Boise, Idaho.

Resolutions were introduced urging the creation of a department of mines by congress, urging congress to pass a law providing for the location of mines on Spanish land grants in Arizona and New Mexico, titles to which have been confirmed by the government court of private land claims, and urging the hydrographic bureau to properly locate all desert waterholes and erect metal posts to indicate their location. It is also asked that rangers be provided to keep such water free from pollution. All were referred to the committee.

President of the Phelps-Dodge interests, of Arizona, invited the entire congress to become his guests by special train for Bisbee and Douglas.

REPORTED PROBABLE CHANGES.

Mr. Pierce Said to Be Slated for a Diplomatic Post. Washington, Nov. 14.—Among the probable early changes in the department of state is the transfer of Mr. Herbert D. Pierce, third assistant secretary, to a diplomatic post in Europe, most probably the mission to the new government of Norway. In connection with the same story it is reported that Mr. Lloyd C. Griscom, now United States minister to Japan, is scheduled to succeed Mr. Pierce as third assistant secretary of state. No official information was obtainable today in regard to these reported changes or others reported to be in prospect in the diplomatic service.

CHILD FROZEN TO DEATH NEAR LAS VEGAS

Special to the Morning Journal. Las Vegas, N. M., Nov. 14.—No trace has been found of the little three-year-old son of Leandro Maestas, who wandered away during a snow storm last Wednesday into the wild country north of the Hot Springs canyon. There is no longer any doubt that the child was frozen to death.

The canyons are banked with snow, some of the drifts being deep and it is believed that the body is concealed under some one of these.

McGraw Will Go South

New York, Nov. 14.—John J. McGraw, has given up the idea of taking the Giants to California for training the coming spring has redetermined to go either to Savannah or Memphis.

NEW STRIKE DECLARED IN RUSSIA

Workmen Determined to Force Government's Hand.

ANGERED AT DELAY IN PROMISED REFORMS

Murder Plotting and Pillage Continue Throughout the Empire While

Vladivostok Is in Flames.

St. Petersburg, Nov. 15.—In view of the condemnation to death of many of the sailors who mutined at Cronstadt, the delay in carrying out the reforms outlined in the imperial manifesto, the proclamation of martial law in Poland and other repressive acts, the council of workmen's delegates have decided to proclaim a general strike throughout Russia today.

PEASANTS ARMED TO PROTECT THEIR HOMES

Warsaw, Nov. 14.—At Pultusk, in this government the peasants have organized for the purpose of driving out or lynching the thieves who took advantage of the present disturbances to loot and plunder. The lynchings have killed and even fearfully mutilated twenty of the thieves.

Several newspaper men were arrested in Warsaw by the police, who searched their offices.

Protestants against the declaration of martial law gathered at Lutting last night and were fired on by the infantry. Many persons were wounded.

POLICEMEN MADE RICH HAIRS DURING THE WILD DAYS. Odessa, Nov. 14.—Considerable unrest continues to pervade this city. Looting and attacks on individuals are reported to have occurred in various quarters. The new prefect up to the present time has not taken any drastic measures and consequently the people fear to leave their homes after nightfall. The theaters are open but are deserted. The university opened today.

A number of policemen have resigned, and it is openly asserted that they secured sufficient plunder during the disturbances to make them independent.

STATE OF WAR DECLARED TO EXIST IN VLADIVOSTOK

St. Petersburg, Nov. 14.—A state of war has been declared in Vladivostok. Private advices say that the Chinese quarter has been entirely destroyed and that the uprising is now under control.

Emperor to Stay in Country. St. Petersburg, Nov. 14.—Emperor Nicholas and the Russian court will not come to St. Petersburg this winter. He has decided to go from Paterhof to Tsarskoe-Selo where he has lived almost ten years with the exception of the last few months. The decision not to come to the capital is regarded as an unfortunate one because it keeps him surrounded by court influences and out of close touch with Count Witte, who should have daily conferences with the emperor. The radical press here is not sparing in denunciation of the emperor's decision.

Half Dozen Governors Fined. St. Petersburg, Nov. 14.—Half a dozen governors, including the governors of Odessa, Tomsk, and Kazan, who simply failed to prevent disorders, have been summarily dismissed from office.

Handed More Victims. Odessa, Nov. 14.—News has reached here of fresh disorders in Kevirovsk, Ekaterinoslav, in which over a hundred persons were killed and the town sacked and burned.

Education of the Masses. St. Petersburg, Nov. 14.—The town council of St. Petersburg is taking the lead in the political education of the masses by inaugurating a series of public lectures, at which the new order of things is explained to the people. The object of the meetings is to allay the hostility between the various classes by showing the benefit accruing to all from the grant of liberties. This example will be followed by Moscow and other cities.

Word reaches Count Witte that in some regions the reactionaries who are seeking to make the new regime odious by spreading reports among the peasants in the country and lower classes of the city that the imperial manifesto is a forgery, issued by a camarilla of reactionaries, of which Count Witte is the head, and who hold the emperor prisoner in the palace. Such stories circulated among the ignorant peasantry are apt to prove almost as dangerous now as they did when the peasantry rose to support Puzhatchev, who claimed to be the emperor, and to the people to overthrow Catherine II. The clergy throughout the country, under instructions from the Holy Synod, are doing all in their power to counteract the effect of such pernicious reports in the churches and explain the real meaning of the reforms.

NEW MEXICO GAINS FORTY PER CENT IN FIVE YEARS

Washington, Nov. 14.—A census issued today by the bureau of the manufacturers of New Mexico at \$5,765,880, an increase of 40 per cent in five years.

ALBUQUERQUE SPIRIT AGAIN SEES THE FAIR ON ITS FEET

MASKED MEN ROB AGENT AT WILLARD

Trio of Bandits Poke Guns Into Face of Santa Fe Central Agent and Relieve Him of \$225 in Cash—Bloodhounds on the Trail.

Special to the Morning Journal. Willard, N. M., Nov. 14.—J. E. Wilson, agent here for the Santa Fe Central railroad, was held up by bandits late last night and robbed of \$225 of company funds.

There is no safe in the station and it is necessary for the agent to take his funds to his home, about a hundred yards from the station. Late last night at 11:15 o'clock a man was leaving the office for the night, he was met at the door by three masked men armed with pistols. Two of them covered him with their guns, while the third went through his pockets, relieving him of his money bag containing about \$225 belonging to the railroad company and the Wells Fargo Express company.

After relieving him of his money bag and valuables, the bandits forced Wilson to walk about a mile and a half south on the railroad track when they ordered him to return alone with instructions not to look back.

All three of the men were masked and the one who did the talking for the trio spoke with a peculiar German accent.

Dick Huber, of the mounted police, and the railroad officer with Sheriff Sanchez arrived on a special train this afternoon from Santa Fe. They have a pair of bloodhounds with them from the penitentiary, and have taken the trail. No clue has yet been found.

JEMEZ PUEBLO OUT OF BUSINESS; GOVERNOR AND MEDICINE MAN IN JAIL

Indians Monkey With the United States Mail Heartless Pale Face Officers Arrest the Whole Bunch.

There is weeping and wailing and gnashing of molars in the picturesque Jemez Indian pueblo in the Jemez mountains. The cause of the lamentation which is both public and private, is found in the work of Deputy United States Marshals Harry Cooper and Fred Fornoff, who arrived in Albuquerque yesterday morning having in custody the governor of the village, the lieutenant governor thereof, and the cacique, or in Indian, the master of the Estufa, or underground smoke-house, and the most powerful man in the pueblo.

The Indians, in fact the entire Jemez pueblo, is charged with holding up the United States mails. The Indians are not charged with trying to rob the mails, but merely with holding them up.

It all came about in this wise. Last summer while the Indians were holding some dances of especially sacred and sacred nature, the United States mail wagon from Bernadillo was seen joggling up the trail. The trail leads right through the pueblo and the Indians had visions of a white man seeing the whole show. It wouldn't do and the governor issued a proclamation ordering his subjects to promptly arrest and detain the United States mail carrier until the ceremony should have been finished. The mail carrier was detained.

It is a rather serious matter to detain the United States mail even when it is only a star route bound for Jemez Springs in New Mexico, but the Indians didn't know. They are just beginning to find it out and there is deep sorrow in the experience. The Indians were indicted by the late United States grand jury sitting here. The jury didn't know and couldn't find out the particular Indians who held up the mail, but it found out that it was done on orders of the village government, so the jury promptly indicted the village government.

Officers Fornoff and Cooper made the trip to the pueblo Saturday returning yesterday morning. They found the governor and his associates gathered indifferent to warrants and subpoenas, but when a little persuasion was used the official jaw dropped and the official household prepared itself to move. It is just now residing in the Bernadillo county jail pending the sitting of the United States court here next month.

Cacique Couldn't Understand. It is the custom of the Indian department to send a representative of the United States marshal's office to all of the Indian dances and fiestas to maintain order, the services of the officer often being needed to stop small disturbances. In this case the officers who went to Jemez had a double mission. They were to attend the dance and bring in the village government. With Superintendent Clinton J. Crandall of the Santa Fe Indian school, the officers arrived in Jemez Saturday in time for the famous harvest dance, one of the most sacred and impressive of the New Mexico Indian ceremonies. Mr. Fornoff describes it as one of the most impressive Indian ceremonies he ever witnessed. It was not deemed advisable to take any action before the dance, but immediately after the ceremony the governor of the village, Jose Ray China, was asked to join the officers in a little trip to Albuquerque. The governor is wise and made no objection. The lieutenant governor and secretary to his excellency Santiago Naha, was then approached and also consented without trouble, when it came to Casiqui Jose Manuel Yeba, the most powerful man of the village, an old man and for years the leader and official religious head of the pueblo, he trouble commenced. Yeba did not want to come. His dignity was offended and he almost declined, but the officers made their request more urgent and he finally consented. The old high priest of the tribe attempted to carry his gun with him on the trip but this was forbidden. He was ugly all the way across and is still deeply grieved

PRINCE LOUIS BECOMES HOST

ENTERTAINS HUNDREDS OF DISTINGUISHED GUESTS ON BOARD THE DRAKE.

New York, Nov. 14.—Admiral Prince Louis of Battenberg became the host tonight, and in return the hospitality which has been showered upon him during his stay in American waters, gave a magnificent dinner on board his flagship, the Drake. The thousand or more invited guests included officials and society people in Annapolis, Washington, Baltimore, and West Point, as well as in New York.

CORTLEYOU SHAKES POSTAL SERVICE

ORDER REDISTRIBUTING WORK OF ASSISTANTS GOES INTO EFFECT DECEMBER 1.

Washington, Nov. 14.—Postmaster General Cortleyou today issued an order of far-reaching importance, redistributing the duties of the four assistant postmasters general, and affecting the entire postal service. The order will carry into effect on December 1 a plan of the postmaster general to consolidate the work by grouping under one bureau all related subjects.

Immense Lumber Orders. Portland, Ore., Nov. 14.—During the past few days orders for 50,000,000 feet of yellow fir lumber have been placed in the northwest by manufacturers of the east and middle west. The lumber will be mostly used in the manufacture of cars. The orders will require 5,000 cars to handle the shipments. The value of this lumber aggregates \$500,000.

Taft Back From Panama. Norfolk, Nov. 14.—The United States cruiser Columbia passed in the Cape of Virginia this morning, bringing home Secretary of War Taft and party, from the isthmus of Panama, where the secretary has been on a tour of inspection. The secretary goes by boat to Washington tonight.

WHOLE CORPS OF OFFICERS ELECTED

Insist on Serving Without Any Pay.

McCANN AND ROSENWALD ARE TO DO THE WORK

All Kinks Smoothed Out And Success for 1906 Insured at Meeting of Committee of Fifteen.

The fair association has landed on its feet, squarely on its feet, its head up and eyes glued to the biggest success in the history of Albuquerque and the association, for the fair of 1906.

A group of Albuquerque men, the very men who would have been elected by a general vote of the city for the positions they are to fill, have come forward to take command, agreeing under certain very reasonable conditions to undertake the enormous burden of hard work and the heavy responsibility connected with the management of the fair WITHOUT ONE CENT OF PAY FROM THE ASSOCIATION OR ANY OTHER SOURCE. Indeed this condition, of no pay for any officer of the fair, is one of the stipulations upon which these men have agreed to take the lead and the management.

P. F. McCanna has agreed to take the position of general manager of the fair of 1906.

Dave Rosenwald has agreed to take the position of secretary of the fair of 1906.

Upon them will devolve the active management. The conditions upon which their acceptance rests will be fulfilled at once without the shadow of a doubt. A full set of officers has been chosen and every one of them will accept.

Long studies have been taken toward meeting the deficit of 1904 and 1905, the first thing to which the new officers will turn their attention.

Traction park has been turned over to the fair association for the week of the next fair without a single restriction.

President Greer and Secretary Sellers of the fair of 1905 have come forward with their acceptance, resigning their claims for salary for their work this year.

The fair association has landed on its feet and things are going to move. Committee of Fifteen Names Officers.

Following out the instructions of the mass meeting of Monday night the committee of fifteen held a meeting last night at which the sub-committee reported its plan for selecting officers for the coming fair. The committee went into full discussion of the situation. It found that there was nothing in the situation to discourage what there was everything to encourage the situation to encourage the launching of plans for the biggest fair Albuquerque has ever had. Recognizing that a bigger subscription than ever before would have to be raised, raising the handicap of the existing deficit, the committee was still unanimous in its belief that the time has come for the New Mexico fair to grow. As a result the fair is going to grow. No more enthusiastic meeting of Albuquerque business men has ever been held than the little gathering of staunch and loyal citizens who got together last night.

As a result of its deliberations the following corps of officers have been named for the fair of 1906:

President—Hon. Solomon Luna.
Secretary—D. S. Rosenwald.
General Manager—P. F. McCanna.
Treasurer—M. W. Flournoy.
Vice Presidents—George L. Brooks, Herthold Spitz, George Arnold, O. N. Marron.

The position of general manager is a new one, but it is the position of all others in which P. F. McCanna should be placed. With his long and successful experience in managing the business of the fair, he is the one man for the place. There was no dissenting voice in the committee to this statement, and there will not be a dissenting voice in Albuquerque or in New Mexico.

D. S. Rosenwald has been named by the subscribers of the fair for secretary. His naming again by the committee but proves that he is the man for the place. He knows how to work and how to get results. Upon Mr. McCanna and Mr. Rosenwald will fall the heaviest burden of the management. Both have agreed to accept provided that all officers elected last night accept. There is not a shadow of a doubt that the other officers will accept. Mr. Flournoy has accepted the treasurership. Mr. Spitz, Mr. Brooks and Mr. Arnold have agreed to act as vice presidents. Mr. Luna, elected president, is out of the city, but his friends agree that he will accept the position and that is believed to settle it. Mr. Marron is also out of the city, but his loyalty to Albuquerque is too well known to leave any doubt that he too will join with the others.

Another provision of the acceptance of Mr. Rosenwald is that no salary shall be paid to the officers or manager of the fair. In view of the fact that these two men are going to take the heavy end of the work, this provision of theirs looks reasonable. None of the other officers have shown any disposition to disagree.

The other provision upon which

they accept the office is that the subscription necessary to successfully conduct the fair be raised, and raised at once. To this the committee of fifteen agreed unanimously, and there is not a doubt that every Albuquerque man will agree with the officers and the committee.

The subscription is going to be raised at once. A committee on subscriptions will begin its work today and it will not quit until it has the necessary funds to meet the outstanding indebtedness of the association, and to place a solid foundation for the coming fair. The first move of the new officers will be to pay all outstanding indebtedness. This indebtedness was considerably reduced last night when Messrs. Greer and Sellers, executive officers of the fair, appeared before the committee of fifteen to voluntarily relinquish their claims for salary against the association. Mr. Greer also agreed for the "Trust" company, to place the fair grounds entirely at the disposal of the fair association for the week of the fair without any restriction.

Had the committee of fifteen searched for months, it could not have found a better corps of officers than those selected, and who come forward with the expressed desire to work for nothing. It is a result which will be approved by Albuquerque down to the last small boy who crawls over the fence while the big annual show is on. The right men are in charge, but even these men cannot succeed without the support of every business man and every citizen. Subscriptions were voluntarily doubled at the meeting of the committee of fifteen last night, not by one, but by several members of the committee. It is the Albuquerque spirit that comes to the front again and there is every reason to expect that the spirit shown in the committee last night will appear at every street corner in Albuquerque. It is the spirit that wins. The support of the people of Albuquerque is all the new officers of the fair association need to make success assured. There is no doubt that the officers will get it.

HYDE BUT PUPPET OF WALL STREET

(Continued From Page 1, Col. 1.)

In twenty-three syndicates Mr. Hyde sustained losses of \$23,515. Mr. Hyde admitted the apportionment of the Equitable's allotment of bonds in syndicates to officers of the Equitable Life to the customs and usages of Wall street.

Says Alexander Did It.

Of the formation of the J. H. Hyde and associated syndicate, Mr. Hyde said Mr. Alexander suggested it for the convenience of bankers.

Of the \$50,000,000 Union Pacific pool, Mr. Hyde said Mr. Harriman investigated it, and explained it was a holding syndicate for five years. It was understood this was for the purpose of controlling the Union Pacific. Mr. Hyde signed the syndicate agreement at Mr. Harriman's suggestion and talked only with Mr. Harriman on the subject. The executive committee was not informed of this operation, as Mr. Hyde said that Mr. Alexander did not think it necessary, and that Mr. Hyde requested that the committee be not informed of it. He said that Mr. Harriman ever refused to give a statement of the purposes of the pool to the superintendent of insurance when he was clamoring for it last spring.

THE SHIP TRUST DEED.

Following all this sensational testimony, however, were the statements of Mr. Hyde concerning former Governor Odell and Mr. Harriman relative to the settlement of the ship-building company suit by the Mercantile Trust company. Mr. Hyde said that Mr. Harriman came to him and advised the settlement of Odell's suit, as he feared that powerful influence at Albany would be invoked in retaliatory measures. Mr. Harriman suggested as one of these measures the revocation of the charter of the Mercantile Trust company. Mr. Hyde knew of no actual steps that were taken, nor of any bill that was introduced, but he was beset with rumors that such steps were about to be taken by legislation.

The Equitable Life, he said, was no interested beneficiary of the deal, but had with the Mercantile Trust company.

Mr. Hyde was under the impression that the Mercantile Trust company in settlement retained the bonds and paid Mr. Odell about \$75,000. The original claim of Odell was about \$180,000. The bonds subsequently netted about 50 cents on the dollar. Mr. Hyde said Mr. Harriman suggested the settlement of the suit and that the committee and members of the executive committee of the Mercantile Trust advised it, and he recommended it.

WANTED HIM EXILED.

Charges of conspiracy to get him out of the country were made by Mr. Hyde against Henry C. Frick and E. H. Harriman in connection with the reported aspirations of Mr. Hyde to become ambassador to France.

He said Mr. Frick inspired the idea and the witness took it as a joke at first, but when Mr. Frick brought it up later Mr. Hyde was flattered, and both Mr. Harriman and Mr. Frick promised to use their influence to secure the appointment. Again Mr. Hyde waxed bitter in his explanation of the extraordinary interest those gentlemen had in his absence from the country. He said he thought their idea was "that they would acquire themselves of their friendly relationship with great profit to themselves," and added that the nature of their interest had since become very obvious. Mr. Hyde charged Mr. Frick with breach of faith in leading him to believe that the Frick committee was "friendly" to him, and was doing all he could to dissuade the witness from selling his stock, "at the same time," as Mr. Hyde said, "doing everything on that committee to make the greatest Jew that ever existed, the American Jew. We must do our duty to that race and in the end the world will get the benefit."

Schiff Pleads for the Jews.

New York, Nov. 14.—Jacob H. Schiff at the annual meeting of the Educational Alliance last night said: "The turmoil in Russia must have some serious consequences to the United States. It will mean immense immigration and this country must keep its doors open to allow those who flee from that country to enter. There are many races of Jews five or six at least. The races cross in this country and they will unite in making the greatest Jew that ever existed, the American Jew. We must do our duty to that race and in the end the world will get the benefit."

All Aboard! Conductors, before leaving on your next trip get a full leather cover for your train book at the Mitchell & Lithgow bindery with the Journal.

Social Tragedy

Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

DEAR MRS. PINKHAM:—I was troubled for eight years with irregularities which broke down my system and brought on extreme nervousness and hysteria. I could neither enjoy my meals nor sleep nights, became easily irritated and nervous and very despondent. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. After taking the third bottle, my general health began to improve. At the end of the fifth month I was well and could attend to my household and social duties and enjoy life.

Mrs. CURRY, 42 Saratoga Street, East Boston, Mass.

Mrs. Curry, whose portrait appears on the right, is the leader of the Ladies' Symphony Orchestra. The following letter is from Miss Goode, President of the Bryn Mawr Lawn Tennis Club of Chicago:

DEAR MRS. PINKHAM:—I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since.

Miss CORA GOODE, 355 E. Chicago Ave., Chicago, Ill.

Mrs. Pinkham's advice is free to all. Her address is Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

TOOK NO ACTION ON FOOTBALL

STATE UNIVERSITY PRESIDENTS ADMONISHED WITHOUT CHANGING THE RULES.

Washington, Nov. 14.—The convention of the Association of Presidents of State Universities adjourned today without taking action on football. The convention endorsed the national university project, whose courses are designed for students and graduate students only, and appointed a committee consisting of Presidents Baker, Buchanan and Thompson to confer with members of the committee of four hundred named by Mr. Hoyt of Colorado, the originator of the project.

The association discussed questions suggested by the experiences of American students who are taking the Ph.D. degree at Oxford university in England. President Campbell of the University of Oregon, opened the talk on the subject. The solution was expressed by some that the schoolships did not offer the best training for American students, and that as the project was in the early stages of its history, judgment should not be finally passed upon it at this time. It was contended that American students generally are much further advanced in their studies than an

EDWARD BANQUEIS KING OF GREECE

FAMOUS GOLD PLATE USED FOR ENTERTAINMENT OF ROYAL VISITORS.

London, Nov. 14.—A state banquet was given in Windsor Castle tonight in honor of King George of Greece. It was attended by 150 distinguished persons, including Whiteley Reid, the American ambassador, and Mrs. Reid, and other foreign ambassadors and ministers. As is usual on these occasions, the famous service of gold plate was used. King Edward took in Princess Helena Vladimirovna, wife of Prince Nicholas of Greece, and King George took in Queen Alexandra.

ARMENIANS SLAUGHTERED FOUR HUNDRED TARTARS. Tiflis, Nov. 14.—It is reported that in the government of Erivan 400 Armenians from a number of villages attacked the Tartar village of Cork killed 400 of the villagers and plundered and burned all property.

Sir George Williams Buried. London, Nov. 14.—The body of the founder and president of the Young Men's Christian Association, Sir George Williams, who died November 6, was buried beneath the dome of St. Paul's Cathedral today in the presence of an immense throng of mourners.

Vesuvius Again Working. Naples, Nov. 14.—After a fortnight of comparatively insignificant inactivity, Vesuvius is again throwing off a more abundant stream of lava through a crevasse in the northwesterly side of the crater. There are no explosions in quantities of sand are also thrown up, which the alarums distribute over Torre, Portici, and Terzigno. Owing to the absence of explosions, the lava beds may be approached without danger.

WE FEEL SURE

Of our ability to handle your banking business to your satisfaction. We shall be glad of an opportunity to talk with you.

GO TO BELEN

The Future Railroad Center of New Mexico

Located on the Belen Cut-off of The Atchison Topeka & Santa Fe Railway

The new City of Belen is 31 miles south of Albuquerque, N. M., is at the junction of the main lines of the Santa Fe system—leading east and west from Chicago to San Francisco and Los Angeles, El Paso, Texas and Old Mexico

The Belen Town and Improvement Company

(INCORPORATED)

ARE THE OWNERS OF THE BELEN TOWNSITE, Consisting of ONE THOUSAND BUSINESS AND RESIDENCE LOTS, (size 25x142 feet) fronting upon 80 and 70-foot streets and avenues, RIGHT in the business center of the NEW CITY and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka and Santa Fe Railway company is now grading its extensive depot grounds and yard limits 800 feet wide and a mile long, (capacity of seventy miles of side track) to accommodate its NEW PASSENGER and FREIGHT depots, HARVEY EATING HOUSE, Round House, Coal Chutes, Water Tanks, Machine Shops, Etc.

THE CITY OF BELEN

Has a population of 1500, and several large Mercantile Houses, The Belen Patent Roller Mills, capacity 150 barrels daily; winery, etc. It is the largest shipping point for flour, wool, wheat, wine, beans, hay and fruit in New Mexico. From its location upon the Great Trunk line, leading North, South, East and West, to all points in the United States and Old Mexico its future growth as a Commercial point cannot be estimated. All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$16,000 public school house, two churches, a commercial club, three hotels, restaurants, etc. It needs right now a bakery, tailoring establishment, shoemaker, plumber, planing mill, drug store, harness shop, etc. THE LOTS OFFERED ARE LOW IN PRICES AND TERMS EASY. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at eight per cent per annum. Title perfect and warranty deeds given. COME EARLY IF YOU WISH TO SECURE THE CHOICE LOTS. For further particulars and prices of lots call in person or write to

PLANS COMPLETE FOR NEW HARVEY HOUSE AT ASH FORK

Santa Fe to Expend \$115,000 in Buildings.

GENERAL PLAN MODELED AFTER THE ALVARADO

With the completion and approval of the plans for the proposed new Harvey hotel and depot at Ash Fork, to replace the buildings recently destroyed by fire it is stated that the Santa Fe is to spend at least \$115,000 on these buildings, making of the Ash Fork hotel the finest in Arizona aside from the elegant El Tovar at the Grand Canyon.

The new hotel will be of the mission style and will be two stories in height connected by an arcade with the depot which will be a one-story building. The general plan resembles very much the Alvarado hotel. The walls and foundation of both buildings will be of what is known as reinforced concrete, built in a very substantial manner, and the design and specifications indicate that the finish, both inside and out will be unsurpassed in the west for beauty, durability and economy of plan.

The grounds upon which the hotel will stand are situated about 1200 feet west of the site of the present depot, and will cover a space 420 by 200 feet, while the hotel proper, which is in the shape of an L, will face 180 feet to the north, with an eastern exposure of about 150 feet.

On the west end of the ground floor of the hotel building is situated the lunch counter room, an apartment 37 by 37 feet and fitted with a circular lunch counter capable of seating a large number of people. This will open to a kitchen 18 by 50 feet. A room to be used as a barber shop is next to the kitchen, opening into a bar room 22 by 24 feet, which is connected with the general office by means of a short hallway. Immediately adjoining the general office is a waiting room 13 by 23 feet, a check room 12 by 13 feet and a private office room 10 by 13 feet.

The dining room is situated on the northeast corner and is 37 by 65 feet in dimensions. A hallway connects the dining room with the kitchen on the east side of the building on each side of which are rooms to be used as dish room and pantry respectively, each 15 by 14 feet in dimension. The kitchen will cover a space 30 by 40 feet, and will open into a meat room 14 by 14 feet, which is divided from the bakery department 18 1/2 by 24 feet by a hallway. A storeroom 18 1/2 by 21 1/2 feet occupies the northeast corner, while across the hall will be located the refrigerator room 14 by 22 feet.

An Electric Light Plant. About the center of the enclosure the building containing the machinery for the refrigerator and electric light plant will be located. It will be a one-story structure and its equipment will take care of the ice supply, cold storage and electric light features of the entire concern. The building, which will occupy the south boundary of the yard will contain a fuel room 14 by 22 feet, a charcoal room 14 by 15 feet, an oil room 10 by 16 feet, a supply room, 10 by 15 feet, a toilet room 1 1/2 by 30 feet, and a steam laundry apartment 16 1/2 by 22 feet in dimensions.

The upper story plan of the hotel contemplates 54 living rooms, several of which are fitted with private baths and closets and the remainder so arranged that bath and closets are provided for in groups, and all other appointments are provided for which are only found in first class hotels. An open balcony will extend all along the front part of the building, while a covered and screened porch will be built along the back.

The New Depot. The depot, which will be west of the hotel, will be a one-story structure, and will be connected with the hotel by an arcade. The design shows a ladies' and gentlemen's waiting rooms, each 24 by 26 feet, the baggage room, 24 by 28 feet, will be situated at the west end of the depot, while the office building will occupy the center of the north side and be in dimensions 15 by 28 feet.

Trackage changes. The company also contemplates many extensive changes in the railroad yards and the tracks. Three new tracks will be built on the north side of the depot, two for the accommodation of passenger trains on the main line and one for the use of similar trains on the S. F. P. and P.

An interlocking switch tower will be also built, which will control the movement of all trains passing in and out of the yards and depot tracks. Several tracks will be changed, new water pipe lines will be laid and four new water towers will be erected and new water tanks to accommodate a larger water storage will be constructed.

SAY RAILROAD EMPLOYEES WILL OPPOSE RATE REGULATION. Organized railroad labor will align itself with the elements which are opposed to the proposed regulation of freight rates by the government, writes C. Arthur Williams, Washington correspondent of the Houston Post. This statement may be denied by those in authority in the various railroad organizations, but it is true, nevertheless.

The facts in the premises have developed during the past few days through four of the big organization chiefs who have been here for the purpose of attending a hearing regarding safety appliances. There are Warren E. Stone, chief of the Brotherhood of Locomotive Engineers; E. E. Clark, at the head of the Order of Railway Conductors; P. H. Morrissey, chief of the Brotherhood of Trainmen; and A. J. Harrah, chief of the Brotherhood of Locomotive Firemen.

The position of these leaders is that anything which affects the earning capacity of the railroads affects the high class men, like those who make up the four organizations referred to here. These organizations are prepared to make an active fight, if necessary, and it is not to be doubted that in such an event the strength of the anti-legislation forces will be greatly augmented.

HARRIMAN LINES HAVE BOUGHT 140,000 TONS OF RAILS. Union Pacific interests are in the market for an additional 25,000 tons of steel rails, and inquiries are being made for delivery early next year. So far the Harriman lines have bought 140,000 tons of rails.

High grades of whiskies, wines, etc., Val Blaux, St. Milwaukee Beer. All goods delivered free. Ernest Meyers & Co., 116 West Silver ave.

LIMITED MAY HAVE NEWS BULLETINS

SANTA FE SAID TO BE PLANNING ANOTHER CONVENIENCE FOR TRAVELERS.

It is understood that another innovation for the convenience of the traveling public is about to be installed by the Santa Fe on the California Limited. For several seasons the travelers on the limited have been furnished frequently all along the line with market quotations, so that the busy man may keep track of operations on Wall street and in the wheat pit almost as well as if he were sitting beside his ticker. But this service is now to be extended so as to take in the general news of importance, which will be delivered on board the limited in bulletin form at points where an Associated Press wire can be reached or delivery made from a news bureau off the railroad wires. This idea has just been worked out with considerable detail by the Southern Pacific on its California lines, especially the lines between San Francisco and Los Angeles, and is said to make a great hit with the traveling public.

THE REAL CAUSE

The Ancient Sculp-Fever Theory Exploded. At one time dandruff was attributed to the result of a feverish condition of the scalp, which threw off the dried cuticle in scales.

Professor Tuna, Hamburg, Germany, noted authority on skin diseases, explodes this theory and says that dandruff is a germ disease. This germ is really responsible for the dandruff and for so many bald heads. It can be cured if it is gone about in the right way. The right way, of course, and the only way, is to kill the germ.

Neubron's Herpicide does this, and permits the hair to grow luxuriantly, just as nature intended it should. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. Briggs & Co., special agents.

THE ECONOMIST

Albuquerque's Brightest and Busiest Store

Something New Every Day

Every Express Brings Us Some New Styles and We are Receiving and Distributing More and Better Garments For Women Than at Any Time in Our History.

Every Day Something New

THE HIGHEST TEST of a store's efficiency is to be found in the lasting satisfaction of its patrons. "If you are satisfied, tell others—if you are not, tell us." In this epigram is to be found the open secret of this store's success. We are demonstrating day by day—and every day—our capacity and fitness to cater for the people—all the people. We know no caste or class. We provide for the wants of the workman as carefully—and conscientiously—as we do for the tastes and the wishes of the wealthy. Our stocks represent the good—better—and best grades of the leading manufacturers. Our prices represent the best values obtainable. Our styles reflect the genius of the designer and the skill of the craftsman—as well as every fad and fancy of the hour—in quantity, quality, variety and style broad enough to meet the views of every walk of life. Read on.

Special Offerings for This Week

All Extraordinary Values

The cuts illustrate a few of our many styles of Women's and Misses' Suits. We have taken our entire stock of Ladies' Suits and Coats and lot numbered them for easy selling. Each style in each lot has been very materially reduced and those needing a Coat or Suit will do well to attend this sale. The lots have been divided as follows:

Lot No. 1—12 Suits. Consists of all our Suits received early this season and the values in this lot are up to \$12.50. Mostly small sizes—for misses and small women. Choice for \$7.18.

Lot No. 2—22 Suits. In this lot you will find the short jacket and medium length jacket suits. New goods, in all colors and all sizes. Values up to \$15.00.—Choice for \$10.18.

Lot No. 3—23 Suits. Consists of all new stylish suits and new materials, in the medium and full length coat suits. In all colors and sizes. The regular selling price up to \$20. Choice, \$12.98.

Lot No. 4—22 Suits. In this lot you will find velvet suits, broadcloth and 3/4 length cheviot suits; also short jacket and shirtwaist suits; made of shadow check mohair and mannish suitings. Regular selling values up to \$27.50. Choice for \$17.98.

Lot No. 5—75 Suits. In this assortment comes all our best grade of suits, in short, medium and long coat effects in all sizes and all colors. The values in this lot are up to \$15. Absolutely no suit reserved and a liberal discount will be allowed from the regular selling prices of these.

JACKETS AND SHORT COATS Reduced—likewise divided into lot numbers—consisting of Ladies' Jackets, medium length coats; some plain tailor made, others with cape attached. Made of coverture, kerseys, broadcloth and mannish mixtures, and all divided into four lots, as follows:

Lot No. 1 goes at \$2.50. Lot No. 2 goes at \$3.00.

Lot No. 3 goes at \$7.50. Lot No. 4 goes at \$10.00.

and not a jacket in the lot but what is worth 50 per cent more than this sale price, and some of them double.

Children's and Misses' Long Coats also reduced very materially from the regular selling prices. We are determined to reduce our stock of Ready-to-Wear goods, hence the above sale.

ALBUQUERQUE NEW MEXICO

WEDNESDAY MORNING, NOVEMBER 15, 1905.

An Object Lesson

A CAMPAIGN waged for the purpose of trying to make congress believe that a majority of the people were in favor of making two states out of Oklahoma and Indian Territory has just closed, and the result has been just about the same as the result of such a campaign would be in New Mexico. An election was held and the people voted directly upon the proposition to take independent action by the two territories, and ask congress to admit them as two states. The returns are now all in and the figures show that just one voter in every seven cast his ballot in favor of the proposition. The office-holders and political schemers had been making just as much noise about the matter as they make here, and claiming even more than the anti-statehooders in New Mexico. In fact they went a little ahead of the corporation howlers in Arizona, and claimed that absolutely everybody was opposed to the union of the two territories in one state, and after making the most vigorous campaign that it was possible for them to make they were able to poll just one-seventh of the total vote cast. And that is just about what the result of such an election would be in New Mexico—though in Arizona—owing to the influence of the big corporations, they might be able to do a little better, but even that is doubtful. Their capital is mostly wind, and that doesn't count in the returns.

Reviewing the result of the campaign made and the vote taken in favor of the state of "Sequoyah," the Bartlesville Daily Enterprise has an editorial under the caption of "The Parole Is Ended," in which it says:

"Yesterday witnessed the final act in the Sequoyah comedy. After a campaign of bluff, intimidation, misrepresentation and ignorance the movement which was born in the minds of a few selfish politicians for political purposes only was given a very fitting quietus by the people. Sequoyah may now rest easily in his grave. There will be no two-penny state to bring his memory into disrepute."

In reading the report given above by the Enterprise, of the "Sequoyah" campaign, one cannot fail to notice what a life-like picture the writer paints of the campaign which has been carried on for nearly a year by the anti-statehood xanxers of New Mexico. But the election has done good, for it has enabled the world to see just how hollow and baseless were the claims of those who were opposing the admission of Oklahoma, and congress can safely assume that there is just as little solid matter in the great volume of drivel that is sent out by the anti-statehoodites in this territory, and that the result would be just the same here as it has been there, if the people of New Mexico could be given the same chance to be heard upon the question.

The object of those who are opposing the present statehood movement in New Mexico and Arizona, while ostensibly to prevent the union of the two territories in one state, is in reality to prevent statehood in any form. The St. Louis Globe-Democrat says: "Their separate admission (New Mexico and Arizona) is not seriously thought of by anybody in congress, except a corporal's guard, who will be laughed at if they make any proposition of that sort." The anti-union people know that as well as the editor of the Globe-Democrat, and their pretense of believing that "we can get in alone if we vote down joint statehood," is simply for the purpose of defeating what they know to be the only form of statehood that we can possibly get. It is important that the friends of these territories in congress should bear these facts in mind, and not permit the progressive people of New Mexico and Arizona to be made the victims of false pretenses on the part of those who would sacrifice the public good to their own private ends.

JUDGE PARKER probably thinks that being a Tammany attorney is not quite as respectable as running for president on the democratic ticket—but it pays better.

A Grand Exhibit

A STATEMENT of the condition of the First National bank of Albuquerque, at the close of business on November 9, appears elsewhere in the Morning Journal today, and shows by many dollars the largest totals ever shown by any bank statement in New Mexico. The First National of Albuquerque is regarded, not only by our own people, but by the business world in general, as one of the most substantial and reliable financial institutions in the country—an institution which any town the size of Albuquerque, anywhere in the United States, might reasonably be proud of.

The statement published this morning exhibits totals amounting to \$3,130,784.81—showing a volume of business that would do credit to any bank in a town twice the size of Albuquerque.

Should Receive Attention

THERE are two matters of more than ordinary importance before the public just now which demand and should receive the careful and business like attention of the people of Albuquerque. We refer to the Associated Charities and the Territorial fair. It is true that a few individuals take a praiseworthy interest in both these matters, but the people of the community generally do not give to them the attention which their importance to the city demands.

The charity movement involves a plain duty, which rests alike upon all of us and should receive the attention and hearty co-operation of all of us. "The poor ye have always with you"—is just as true now as it was nineteen hundred years ago, and has particular emphasis in our case because a large majority of the poor we have with us, locally, are not only as poor as the poor of any other community, but are sorely afflicted with disease as well as poverty, and every sentiment of humanity demands their relief at our hands, not only in the way of food and clothing, but medical treatment and care besides. For these all-sufficient reasons, and for our own credit, it is to be hoped that the people of Albuquerque will give to this most worthy movement that attention and assistance which the importance of its character demands.

The Territorial fair is also a matter that concerns all classes of the community, but unlike the other, it is a matter of cold business—just such a question as confronts one when he is considering the advisability of making an investment in real estate or merchandise—"will it pay?" Under proper and business-like management, the fair costs the town, in subscriptions and otherwise, about twenty thousand dollars a year, and brings to the town from outsiders, anywhere from seventy-five to one hundred and twenty-five thousand dollars a year. Is the margin of profit sufficient to warrant us in making the necessary investment? Can we, as a community, afford to put up, or guarantee, the sum necessary to finance the coming year's fair and provide for the past year's deficit, in view of the practical certainty of getting back, next fall, four or five times as much as the amount we invest, in addition to the indirect benefit we receive through the valuable advertising which the fair does for the town, not only throughout New Mexico but all over the rest of the country besides. It is a plain business proposition, for the consideration of business men. Will five hundred per cent pay?

at Albuquerque, in the Territory of New Mexico,

at the close of business, November 9th, 1905

ATTORNEY GENERAL WITHDRAWS HIS NAME FROM ACTION

Declines to Bring Quo Warranto for Hubbell.

CRIMINAL CASES TO BE
SET THIS MORNING

There will be a call of the criminal cases in the district court this morning on the opening of court, with a view to setting cases for trial on the return of the petit jury on December 11th.

When the court was forced to suspend its work last month owing to the holding up of the court fund by former County Treasurer Hubbell, the petit jury was given a recess until the 11th of December, when the court fund will have been replenished.

With the validity of the acts of the late grand jury sustained, the December session will have a number of important cases for consideration, among them the cases of Emilio McClure, murder, Joe Baca, the accomplice of Claude Doane, horse stealing; Frank A. Hubbell, for misappropriation of county funds; Estelito Vigil, a similar charge; and several other cases which could not be brought to trial in the first session.

Attorney General Withdraws.
Attorney General George W. Prichard has withdrawn his name from the action in quo warranto brought by former Sheriff Tom S. Hubbell against Sheriff Perfecto Armijo, in which he seeks to retain possession of the office.

The action was filed by counsel for Hubbell some days since with the consent of the attorney general, his signature being attached to the petition for the writ. However, the case has not yet been set for trial, but the answer of Armijo to the complaint, was filed yesterday which brings the case to an issue.

Along with the papers filed yesterday, however, the following letter from General Prichard, addressed to Mr. Childers, chief counsel for Hubbell, was filed:

"Office of Attorney General, Santa Fe, N. M., Nov. 14, 1905.
Hon. W. B. Childers, Albuquerque, N. M.

My Dear Sir:—For reasons of a public character and of public interest, I have concluded to withdraw my name from this case, and to leave the prosecution of this case to the attorney general of this territory in the case of Mr. Thomas S. Hubbell as relator, against Perfecto Armijo as defendant, of sheriff, until a similar application is made to me by Mr. Frank A. Hubbell and Estelito Vigil, which when done, all three of these gentlemen will be given authority by me to proceed by writ of quo warranto against those claiming the right to the office of sheriff, treasurer and county school superintendent, respectively.

Yours very truly,
GEORGE W. PRICHARD,
Attorney General.

The effect of this letter will be to complicate the situation, if not to effectually stop the action in quo warranto instituted by Hubbell, since a law passed at the legislative session of this year provides that the attorney general of this territory shall have the right to bring quo warranto with the permission of the attorney general and in his name.

The attorney general, it will be noticed, does not refuse to give his name to the action entirely, but provides that similar action in the case of Frank A. Hubbell and Estelito Vigil, who were removed from office at the same time with Tom S. Hubbell and whose places were filled in the same way.

What the effect of this decision by the attorney general will be remains to be seen. It seems to be the general impression that counsel for Frank A. Hubbell and Estelito Vigil do not want to bring quo warranto in these cases, and that the action is brought in the case of the former sheriff because his case is considered the strongest of the three. The issue in all three is being the question of the power of the governor to remove.

The answer filed yesterday is purely formal, and sets up that the office of sheriff was not vacant when Armijo was appointed as announced by counsel for Armijo in his answer to the original complaint.

Washington Mine Case Still On.
The taking of testimony in the Washington mine case continued all day yesterday, the case coming up again for continuation of the hearing.

DOANE MAY BE TRIED
IN OLD ALBUQUERQUE
There is a rumor to the effect that when the McKinley county criminal docket is called next Monday in Gallup, counsel for Claude Doane, held for the murder of Walter Lyon last June, near Tatum, N. M., will ask a change of venue to Bernalillo county. It is said that it will be advanced that Doane cannot secure a fair and impartial trial in the county where the crime was committed.

JOHNSON'S FACE
WAS BADLY BRUISED
JOHN CORNETTO OF THE VENDOR TAKES FALL OUT OF PORTER FOR RIVAL HOTEL.

John Cornetto, proprietor of the Vendome hotel on South First street, was fined \$25 and costs in police court yesterday afternoon for smacking the features of James Johnson, a porter for the Englewood rooming house on North Second street. Cornetto promptly paid the fine with the expression of his belief that his exercise on Johnson's face was worth the money. Johnson does not think so. He has a blue left eye, a disfigured nose and bandages over the greater portion of his face and head, showing the telltale results of Cornetto's blows. Johnson is an old man, and in poor physical condition. According to his story the assault made on him by Cornetto was unprovoked and was cowardly in the extreme. He says Cornetto met him near the Santa Fe station Monday night, knocked him down and then kicked him about the head and face. Cornetto has figured in police court several times for fighting.

GETTING IN ON THE GROUND FLOOR

The Secret Which Led to the Great Fortunes Built Up by the Astors in New York City, Marshal Field of Chicago and Thousands of Others

Small Investments in Desirable Suburban Lots

That the history of Denver and Los Angeles will be repeated in Albuquerque values, is almost an absolute certainty. From the geographical location of the city, its prominence as a railroad and manufacturing center, and natural distributing advantages, is sure to make it the Great Southwest's commercial center. Beautiful 50-foot frontage residence lots in the Eastern Addition—Highlands, are now being sold by the Surety Investment Company, owners, at from \$100, \$150, to \$200 per lot, on the instalment plan, \$10 down, balance in payments of only \$1 per week or \$4 per month. You have the same opportunity now, the early buyers had in Denver, Los Angeles, and Seattle, of getting in on the ground floor, hence don't delay until the prices are advanced; buy now. Look for the man with the white horse, he will show you the lots and make you the prices.

SURETY INVESTMENT COMPANY, 110 SOUTH SECOND ST.

GALE AND LANSING ALLOWED TO GO

SANTA FE OFFICERS FAIL TO
FILE COMPLAINT AGAINST MEN
WHO MIXED WITH GUN.

Gale and Lansing, the two men held since Sunday morning for complicity in the attempt to rob the Gross Kelly warehouse Saturday night, were released from custody yesterday morning with instructions to get out of the city as soon as convenient. Lansing, who was shot in the leg sometime Saturday night and who claims that Officer Charles Maloz, of the Santa Fe at Isleta, did the shooting, is about recovered and is well enough to travel. The wound was not a serious one. It had been expected that the local Santa Fe officers would file a complaint against the men, but the evidence was believed to be insufficient to connect them with the trouble in the yards Saturday night.

Painter's Case Goes Over.
Clarence Murphy, held for larceny, on a charge filed by his employer, E. A. Farrell, was brought up in police court for trial yesterday afternoon and entered a plea of not guilty. He has employed W. C. Heacock to defend him. Owing to the illness of one of the witnesses, the case was allowed to go over until this morning. Murphy is charged with stealing a paint brush and some paint from Farrell.

No More Burglary Scare.
There have been no further burglaries or attempt at burglary reported to the police thus far and the officers are inclined to believe that if they have not thus far shipped the right man out of town, the close watch in all parts of the city has put a stop to the operations of the window rafter. No further trouble is expected, but the police are especially emphatic in urging people who leave their homes unoccupied at night to leave them locked, front and back.

VAN WALKER EXPLAINS MOUSTACHE JOKE

BRASS FOUNDRY EMPLOYEE RE-
LEASED FROM CUSTODY AND
RELIEVED OF SUSPICION.

It is due to E. W. Van Walker, the employee of the brass foundry in the local Santa Fe shop, who was stopped twice by local police officers Sunday night as a suspect in connection with the recent robberies in the city, to say that he was immediately released from all suspicion and allowed to go on his way after being detained not more than twenty minutes.

"A friend of mine named Andy Lund and I had a wager," said Mr. Van Walker to the Journal last night, "as to whether I could deceive a mutual friend, L. Philstrom, of 224 South Second street, with the aid of a set of false whiskers, with which we had been having a little fun. It never occurred to me that I would be suspected of being 'crooked' by the police, and in fact I supposed no one on the street would notice my adornment. I was greatly surprised at being stopped but on going to the police station I had no difficulty in persuading the officers that I was nothing more dangerous than a practical joker. I want to make this matter clear, as the statement in the paper that I was arrested as a 'suspect' might put me in a queer light with friends who do not understand the case."

It appears that for this time the joke is on Mr. Van Walker, and the next time he wears false whiskers he will select a time when burglaries are not quite so common as they have been recently.

PLACING OF BRIDGE MAGNIFICENT BIT OF ENGINEERING

Albuquerque Man Tells of
Work on Cut-Off.

TINY CABLE SWINGS OUT
BEAM WEIGHING 60 TONS

K. E. Moon, of the Moon-Kelley studios, returned yesterday morning from Albuquerque where he has been engaged for some days in taking pictures for engineering record and other purposes of the bridge construction, going on there. Mr. Moon took several pictures of the construction of the great bridge just completed and which was described in the Morning Journal yesterday.

"It was a magnificent bit of engineering," said Mr. Moon yesterday, "and one that has seldom been equaled. I am informed that the main span of the bridge is the largest ever placed in place without underpinning. It weighed sixty tons and was lowered into place with a single strand of a three-quarter inch cable. The great framework was lowered into place as easily as a well oiled gate and the placing was considered absolutely successful by the engineers. The cut-off work is progressing very rapidly. The bridge work especially is being rushed and it is being done at the same time with greatest care and skill."

MORE LOTS IN THE EASTERN ADDITION

FOURTEEN SOLD IN A WEEK BY
THE SURETY INVESTMENT
COMPANY.

The demand for lots in the Eastern Addition of the Highlands owned by the Surety Investment company continues unabated. The addition is ringing with carpenter's hammers and many cozy homes are being occupied there. For the past week Manager J. S. Eaton, lots 11 and 12, block 48; Russell Gonzalez, lot 1, block 1; Elias Aragon, lot 2, block 1; John W. Charles, lots 4, 5 and 6, block 33; Mrs. Alvin Howell, lot 1, block 41; Clara Jacobsen, lots 11 and 12, block 21; Rowell Church, lots 5 and 6, block 20.

EXPERIMENTS WITH CACTUS IN WASHINGTON

PROFESSOR HARE OF AGRICULTURAL COLLEGE GOING TO DEPARTMENT TO ASSIST.

Professor R. F. Hare, of the Agricultural college at Mesilla park, has gone to Washington at the request of the agricultural department to assist in certain experiments now under way with a view to determining the food values of the various kinds of cacti found in the southwest.

Professor Hare was sent to the Agricultural college some years ago to make experiments with cacti, the growth and food value of the several varieties and has made experiments in growing cactus and feeding it to stock on a very wide scale. The result of his investigations will be given to the department and may result in information of great value to the southwestern range, where the cactus is being seriously considered as a stock food.

"BIBLE STORIES" BY AN ALBUQUERQUE MAN

LYRIC BY JOHN LEE CLARK MAKING HIT UNDER MAX IRWIN'S INTERPRETATION.

May Irwin is making a tremendous hit in New York this season with a little song called "Bible Stories." As is usual when May Irwin takes up a song the public follows suit to sing and whistle it and as a result some ten thousand copies of the song have been sold.

"Bible Stories" was written by John Lee Clark, of this city, manager of the Benham Indian Trading company. It was written some two years ago and Mr. Clark sold the copyright at that time to Witmark and company of New York, the well known publishers of popular songs. The lyric is attractive and the music which was written by a well known New York writer is pretty and pleasing. Mr. Clark while vastly pleased at the success of the song is regretting that he allowed the copyright to pass out of his hands.

DEMAND FOR WOOL
NOT SO ACTIVE

MARKET TAKEN AS A WHOLE
IS BEGINNING TO FAVOR
THE BUYER.

Boston, Mass., Nov. 14.—Sales of wool for the past week have been 3,480,000 lbs. A lighter quantity than last week. Of the market the American Wool Grower says: "The demand for wool is not so active as it was. Quite a variety of grades and descriptions have been moved, but the inquiry generally has not been for large lots. Among the buyers the western mills have been conspicuous, taking on the shorter

wools, especially fine Texas and California, and some fine and fine medium territories, but the aggregate of the business is not large, and with many of the houses the past week has been a very dull one. One or two large western concerns one of them a prominent maker of dress goods, have shown interest in the market. They have shown a preference for medium fleeces and medium class of territories. One large concern is understood to be negotiating at this writing for a good sized lot of territorial wool.

In Favor of the Buyer.

The market, regarded as a whole, is in favor of the buyer. To be more specific, fine fleeces, both washed and unwashed, can be had at lower prices than at one time, say three or four weeks ago. Fine Texas and California wools are easier than they were. Fine territory and fine scouring can be obtained on terms slightly more favorable to the buyer, and the market for the Australian inclines to an easier condition. Medium clips, however, as well as quarter bloods are quite firm. Indeed this class of stock, both in foreign and domestic wools, constitutes really the only positively firm feature of the market. For scouring wools, which were pretty stoutly held at 70c are obtainable now, it is claimed at 67c and 68c, and wools which had been held at 72c, can now be had at 70c. Some further small sales of domestic wool have been made at 36c and 37c, the best wools commanding the latter quotations, which is 2 cents per pound less than the highest price touched this season, one or two sales earlier in the season being made at 39c. Ninety per cent of the Ohio washed wools this year cost the trade 35c and 36c, and in order to get out even at a very small profit, high prices were generally asked, but not obtained, and domestic wools, which at one time were held at 40c, have been moved during the past two weeks at 37c and 38c, while today not over 37c could be obtained. These wools at the prices

asked, came in competition with the foreign wools and they have not been rapid sellers of domestic wool there is still a very fair amount obtainable in this market, although recent sales have of course reduced the supply in the market.

Foreign Markets.
The course of the foreign markets is being watched very closely. The markets in Australia are not showing the vim and energy which characterized them last year, and while information regarding the tone of the Australian market is not as full and explicit as could be desired, enough is learned to establish the fact that the situation is not as strong as some were hoping and expecting. Americans are holding off but European consumers have operated quite freely in Melbourne, where prices are quoted as falling about steady. Opening prices were slightly above last season's opening, but there has been no general advance since, but the needs of European manufacturers, it is believed, will be sufficient to prevent the market from falling off much.

Future of Market.
While predictions as to the future course of wool are, in a sense, useless, it is worthy of note that the impression seems to be gaining ground among wool men that the price of wool has practically reached the top, but consumption is so large and the condition of general business is so good that close students of the situation fail to see on what basis there can be any extended break in the price of wool as supplies of old wools are so small, although the trend of the situation is apparently more in favor of the buyer. Prices of domestic wool have been so close to the importing point that it is felt that the domestic market will be influenced materially by the course of affairs abroad and in this connection the opening of the next London auction, which begins November 25, will be awaited with great interest.

Vinol THE COD LIVER PREPARATION WITHOUT OIL

is fast superseding old-fashioned cod liver oil and emulsions because, without a drop of oil or disagreeable feature, it contains all the medicinal elements of cod liver oil, actually taken from fresh cods' livers. By our process the oil, having no value either as a medicine or food, is separated from the medicinal elements and thrown away. Unlike old-fashioned cod liver oil and emulsions, Vinol is deliciously palatable, agreeable to the weakest stomach, and therefore unequalled as a body builder and strength creator for old people, puny children, weak, run-down men and women, after sickness, and for all pulmonary diseases. Everything Vinol contains is named on the label.

OUR GUARANTEE—We have such faith in VINOL that if you will take it we promise if it does not benefit or cure you we will return you your money without question. We take all the risk.

NAVAJO TROUBLE MAY AFFECT THE BLANKET CROP

Traders Are Already Having
Trouble Getting the Rugs.

INDIANS SHOW LITTLE DISPOSITION TO WORK

According to experienced Indian traders the recent troubles in the Navajo reservation, particularly the serious matter near Round Rock, is likely to further abbreviate the already short crop of Navajo blankets. The Indians, owing to their bountiful crops and big wool sales have plenty of money and plenty to eat and are not inclined to work anyway. Add to this a little excitement and a little of the spirit of rebellion and the traders say the Navajos will quit weaving altogether. With the present demand for Navajo blankets this would be little short of a calamity. The traders have orders for all the blankets they can get and more, and with none being made on the reservation the situation is serious.

No further trouble has been reported from the neighborhood of Chinlee, and it is believed that the affair has been tied over safely and that there will be no further need for troops. A. E. Roberts, whose wife is teaching at the Fort Defiance station, received another letter from his wife yesterday. He declined, however, to make its contents public or to say whether or not she reported any further trouble, merely explaining that Agent Perry had ordered that no further news be sent out of troubles on the reservation.

BACK TO NEW YORK FOR STEALING \$44

PRISONER CHASED ALL THE WAY
TO BISBEE, ARIZONA, BY NEW
YORK DETECTIVE.

Sergeant Riley, of the New York detective force, passed through Albuquerque last night on his way back to New York in charge of R. F. Hayes, arrested in Bisbee, Arizona, on a charge of embezzling \$44 from the Iron Clad Manufacturing company of Brooklyn, some fifteen months ago. Riley has followed his man clear across the continent, finally landing him in Bisbee. Riley says that Hayes is now anxious to get back to New York, that he only recently learned of the embezzlement charge and that he is confident of his ability to clear his skirts.

STANDARD OIL FACES CRIMINAL PROSECUTION

INVESTIGATORS NOW AT WORK
ON THE CHICAGO
CONNECTIONS.

Chicago, Nov. 14.—Standard Oil faces criminal prosecution by the government such as has been brought against the packers. The oil corporation's relation to the railroads is being investigated in Chicago by Special Examiners E. D. Durand, Herbert D. Brown, S. D. Schindler and F. L. Howes, who have established headquarters here.

At the same time an exhaustive secret inquiry is being made into the same subject in Kansas City, and in cities of Ohio, California and Texas. The information which is being gathered by the department of commerce and labor will be turned over to the department of justice, it is said, to form the basis of an attempt to secure indictments before the federal grand jury.

The investigators already have investigated the Santa Fe company's arrangements with the Standard Oil. Evidence is being sought to connect the oil company and the railroads in rebating and discrimination in violation of the Sherman anti-trust law. The department of commerce and labor has been working for a year, it is said, on a preliminary general inquiry.

The Annual Seed Distribution.
Washington, Nov. 14.—The annual distribution of thirty million packages of vegetable and flower seeds will begin December 1.

Bank Statement Due.
Washington, Nov. 14.—The comptroller of the currency has made a call on national banks for a statement of their condition at the close of business November 9.

Snow in New York.
New York, Nov. 14.—Several snow squalls, tail ends of a small blizzard in the northern part of the state, swept over this city after midnight.

CORN CROP WILL BREAK ALL RECORDS

YIELD THIS YEAR BEATS TEN
YEAR AVERAGE AND
CROP OF 1932.

Washington, Nov. 14.—Preliminary returns on the production of corn in 1935, according to the monthly government crop report just made public, indicate a total yield of about 2,707,943,540 bushels or an average of 28.5 bushels per acre, as compared with an average yield of 26.5 bushels in 1934, 25.5 bushels in 1933, and a ten-year average of 24.9 bushels.

It is the record crop and exceeds the big yield of 1932 by 144,000,000 bushels. The crop in Nebraska and Iowa alone failed to come up to expectations. The yield per acre of 28.5 bushels was two bushels more than in 1934, and is the highest in recent years. In quality the average is 2 per

FEDERATION HAS LOTS OF BUSINESS

WORK OF CONVENTION IN PITTS-
BURG GETTING TO DETAIL
STAGE.

Pittsburg, Nov. 14.—James Duncan, first vice president of the American Federation of Labor, read the annual report of the executive council at the morning session of the convention today. It reviewed in detail many points covered in the reports of the president, secretary and treasurer. The copper-smiths made application for a charter, but it was refused and they were urged to affiliate with the amalgamated sheet metal workers' international alliance. Arrangements have been made for consolidation of the two organizations.

There is a large number of organi-

zations not now affiliated with the federation and the executive council urges additional efforts to bring them in. President Gompers was authorized to enlist the assistance of other organizations in securing the passage of legislation in all states prohibiting employment of child labor.

An assessment was voted of one cent a member a week for a period of four weeks on the entire membership of the federation for the benefit of the International Typographical Union in its efforts to establish the eight-hour day in job and commercial printing establishments in the United States and Canada.

Loose Leaf Systems
Are no longer an experiment. They are an actual necessity to the progressive business man. Leaves and binders of all sizes and styles of ruling manufactured by Mitchell & Lithgow, book binders, at the Journal office.

The Thanksgiving Horn of

Plenty would leave a great want unsatisfied were flour missing. To be certain that the bread, pies and pastry for the Thanksgiving dinner are in keeping with the other good things see to it that "EMPRESS" is branded on your flour sack. That's a flour that has all the qualities that the knowing housewife seeks without a single drawback. Safety lies in buying Empress flour.

Mr. Business Man..

See if this is logic: You display goods in your window, why. To sell them. You make the windows attractive, why? To arouse interest. You close your store and go home. Maybe you keep one light, maybe two, still people don't stop, why? There's nothing to attract them. The holiday season is on, make your windows work overtime, you can do it cheaply, effectively, if you outline your windows with

You can increase your profits by lights—others have done this—you can.

AN OPEN LETTER

To Our Patrons and Friends

We have entered into a contract with Mr. Geo. W. Hickox, agreeing to sell to him our Jewelry Business, including stock, fixtures and good will, Jan. 1, 1906. One strong feature of our agreement with Mr. Hickox is that we promise to reduce our very large and complete stock to the lowest possible point before that date and with this end in view, we will begin, Saturday, Nov. 4, a SPECIAL CLOSING OUT SALE to continue until Dec. 31, at which time we positively retire from the Jewelry business, having arranged to go into the manufacturing lumber business in British Columbia.

Our business in Albuquerque has increased steadily year by year, and grateful for this, we propose for the next two months, to cut out the big end of our profits and to give you such a genuine bargain sale of really fine, high-grade goods, as never has been offered in our city.

We invite you to make your selections now and avoid the rush of the December trade. We have ample vault-room and will gladly lay aside the goods you select, until you are ready for them. We have been in the Jewelry business 26 years, and have never yet advertised a fake sale. In this sale we will offer you rare bargains in Diamonds and Fine Watches. Every sale will be backed by my personal guarantee. Mail Orders solicited and satisfaction assured.

H. E. FOX, New Mexico's Leading Jeweler

LOCAL ITEMS OF INTEREST

THE WEATHER.

For the twenty-four hours ending at 5 o'clock yesterday afternoon:
Maximum temperature, 62; minimum, 29.

Tom Keisher, of the Moon-Kelcher studio, is rapidly recovering from an attack of typhoid fever and expects to return from Camp Whitecomb in a few days.

E. E. Bliss, former purchasing agent for the American Lumber company, has returned to Albuquerque from an extended visit in New York and Michigan.

Mrs. J. A. Hubbs, of South Third street, entertained a party of friends last night in honor of Mrs. A. C. Hadel of Monticello, Mich., who is her guest for a few weeks.

The messengers of the Postal Telegraph company have all been equipped with new winter uniforms. The suits are heavy, blue and trimmed with silver buckles and the boys are correspondingly happy.

W. Moore Clayton, formerly an attorney here, and Dr. E. M. Clayton, also a former Albuquerque and Gallup practitioner, who have been in Tulsa, Indian Territory, for some time, have returned to Albuquerque to make their homes.

The remains of the late Photomina Goebel, who died here this week at the age of 36 years, after a residence of three months in the city, were shipped yesterday to the old home of the deceased in Muncie, Indiana, where the interment will take place.

A party of five or six Santa Fe mechanical department men who have been in Topeka in conference with the general manager were in the city last night on their way to their stations on the coast lines. The party was en-

tertained by Master Mechanic Hicks of the local shops.

Mrs. Charlotte Belle Roberts, who came to Albuquerque a month ago from Manchester, Iowa, died yesterday at her home at 115 South Arno at the age of 31 years. The remains will be sent for interment to Manchester. The deceased came to this city from Willet, California.

Edward Hefron died yesterday of tuberculosis at the St. Joseph's hospital, at the age of 44 years. Mr. Hefron, who was a single man, arrived in Albuquerque in quest of health on the 14th of October last from Wilmington, Delaware. The remains will be sent to that city.

E. J. Shepard, formerly of the Kansas City Journal, was in the city yesterday on his way to Tucson, where he will accept a position on the staff of the Arizona Star.

Mr. and Mrs. E. M. Hayden, of Santa Barbara, are guests at the Alvarado.

Mr. and Mrs. J. A. Hammond, of South Arno street, are rejoicing over the arrival of a baby boy.

Dr. J. W. Elder has returned from an extended visit to his old home in Pittsburgh, Pennsylvania.

Eddie S. Price, of Socorro, is in the city for a few days, the guest of his sister, Mrs. Leon B. Stern.

Hon. H. B. Holl, district attorney of Dona Ana county, was in the city yesterday on his way to Santa Fe.

Mrs. J. E. Schmitt, of South Third street, left yesterday for Silverton, Colorado, where she will visit a son.

Attorney John H. Single who has been seriously ill for some weeks was able to be out yesterday for the first time.

A meeting of St. John's guild will be held this afternoon at 2:30 o'clock in the Guild hall on South Fourth street.

Ira B. Bennett, of San Francisco, will leave for the coast this morning after a brief visit to Albuquerque friends.

George E. Hume, of Muskegon, Michigan, who has been in the city for several days, left last night for the coast.

Thomas F. Seery, of the Lantry commissary department on the Santa Fe cut-off came up from Helen yesterday evening.

Miss May Beaven, daughter of Mr. and Mrs. John H. Beaven, is confined at her home with a severe case of typhoid fever.

Superintendent Sullivan, of the Hagan coal mines, left Albuquerque for the mines yesterday morning after a brief visit here.

P. H. Anthony, of the compiling department of the Scientific American, is in the city gathering data about Albuquerque for his publication.

Miss Wells, daughter of General Manager Arthur G. Wells, of the Santa Fe coast lines, is the guest of Miss Childers for a few days.

Advices received at Delegate Andrews' office here announce that Mr. Andrews will reach Albuquerque sometime this week or early next week.

Tom Keisher, of the Moon-Kelcher studio, is rapidly recovering from an attack of typhoid fever and expects to return from Camp Whitecomb in a few days.

E. E. Bliss, former purchasing agent for the American Lumber company, has returned to Albuquerque from an extended visit in New York and Michigan.

Unredeemed Diamonds

Below the wholesale price. Should your jeweler offer to sell you a diamond

even at cost it would still pay you to buy it from us, as we are in a position to sell diamonds that have been pawned to us at 20 per cent less than retail jewellers buy it at wholesale.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.

ALBUQUERQUE HARDWARE COMPANY
