WITTE FIGHTS DIRECT BALLOT FOR PEOPLE

Zemstvo Congress However Accepts Suffrage Plank.

RUSSIAN PREMIER SAYS SCHEME IS "IMPOSSIBLE"

By Scanty Majority Moscow Gather- ing Accepts First Sections of New Government Program.

Moscow, Nov. 23.—By a scanty majority of twenty, the zemstvo congress today accepted the first sections of the program, drafted by the executive committee, declaring the solidarity of the congress with the principles of the imperial manifesto of October 30 and assuring the government of the support of the great majority of zemstvos and municipalities in carrying into effect the liberties promised by the manifesto, but laying down as a sole means of guaranteeing the authority of the duma and restoring order in the country, the election of representatives by general, direct, equal and secret ballot, and formal grant to the first duma of power to elaborate a constitution for the empire.

Friends of Count Witte on the floor made a stout fight against the provision for a secret ballot, the one concession which the premier considers impossible to grant, but this provision was carried over their heads by a two-thirds majority.

The resolution in its final form is substantially the same as cabled yesterday.

The committee to which it was referred for further consideration made numerous alterations in the phrasing, but little change in substance, except the insertion of the demand for immediate abolition of martial law in Poland as among the measures deemed to be imperative before the convocation of the duma.

The congress also insisted on the suggestion of the committee a provision subjecting all ministers except court ministers to the responsibility of the cabinet. Mr. Mulikoff, explaining that with the ministers of war, navy and foreign affairs excepted from such responsibility, not only could war or peace be decided without consulting the premier, but the minister of war could declare martial law in any section of the country without consulting his colleagues.

The committee rejected an amendment proposed by Prof. Kovalevski for the creation of a committee of zemstvos to act as an advisory agency with Count Witte until the meeting of the duma.

POLISH DISCONTENT IS A MENACE TO GERMANY

Berlin, Nov. 23.—A remarkable article in the Tageblatt shows what a serious matter the Polish unrest is to Germany. The editor, under the heading "Give Way," calls on the government, in view of the troubles which are threatening Germany on all sides, to take measures to remove the causes of discontent among the German people as well as to unite them against an enemy should disastrous days come.

The Tageblatt, turning toward the west, sees in England and France, two powers which are in no sense friendly to Germany. In the east affairs are still more menacing. The leading official, Count Witte and all the forces of order may be swept away by some gigantic upheaval, which will hurl the waves of revolution into Germany. What, says the Tageblatt, will be the attitude of the German Poles in the face of such a cataclysm? Has the Prussian government been wise in the adoption of the policy which has made the Poles the bitterest enemies of Germany?

The article then turns to the wretched electoral law of the Prussia which practically excludes the working classes from voting against members of the diet. It castigates class rule and class justice, and points out how the government has done nothing to mitigate the heavy pressure on the people in the scarcity of means which has now lasted four months, calling upon Chancellor von Bülow to remove the prohibition on the importation of meat before he is compelled to do so by some great popular movement.

The heavy taxation already and the threatened new taxes cause discontent everywhere, according to the Tageblatt, which concludes with the solemn warning to the government to yield to circumstances before it is too late.

Witte Not Paralyzed.

St. Petersburg, Nov. 23.—Reports published in London newspapers to the effect that Count Witte is suffering from a stroke of paralysis, or otherwise ill, are absolutely false.

Murder in "Little Naples."

New York, Nov. 23.—Election frauds are believed by the police to have caused the murder last night of W. F. Harrington in the "Little Naples" dance hall, and also the probable fatal injuries of Abraham Jackman, who was found with a fractured skull some distance away from the "Little Naples" dance hall, and the dead man and from information obtained of nine prisoners, two of them women who were arrested after the murder. From papers found on the quarrel started over election matters. One of the prisoners had a marked ballot for the last election in his pocket. Harrington was killed in the back room of the "Little Naples," during a revolver battle which left the floors spotted with blood and during which fifty shots were fired.

Jackman was wanted for the murder of an East Side gang, and the trouble started when four members of the Liberty association, which is hostile to the Kelly gang, entered the room after midnight.

Stone His Tin.

London, Nov. 23.—A dispatch from Tokyo, says: "A message received from Seoul this morning states that Marquis Ito was slightly injured by a stone thrown by one of a party of disorderly Koreans yesterday night."

CHIEF WITNESSES BEFORE MR. HUGHES THIS WEEK

MR. DEEW'S "FRIEND" ON THE CARPET

William S. Manning Yields Hughes a Few Facts.

HOW ONE INQUISITION WAS KEPT FROM PUBLIC

New York, Nov. 23.—It was late in the afternoon today when Mr. Hughes, counsel for the legislative insurance investigating committee called to the witness chair William S. Manning, of Albany, referred to in the letters addressed to the committee by John A. Nichols, to Senator Deane at the previous session as "your cantankerous friend up the river."

Manning was the most interesting witness of the day and was questioned closely by Mr. Hughes as to his connection with life insurance. He detailed his work for the various companies for many years, and came gradually to the time when he took up insurance work in Albany, and, as he testified, was paid \$450 a year by John A. Nichols "to protect life insurance interests, always in the interests of business, but not in the interests of officers."

After several years, he said, this amount was reduced to \$300. He did not know where Mr. Nichols was getting money and had never inquired. He denied that he had ever received money from the Equitable Life Assurance society. When his fee was reduced, however, he understood that the company was not to be paid. The New York Life had each paid \$150 and that the reduction was due to the fact that the New York Life had dropped out of the agreement.

An interesting part of the testimony was reached when Mr. Hughes inquired concerning the state insurance investigation of 1897. Manning said he had acted as an expert there and found that the reports of proceedings were "garbled and untrue." He testified that he secured a corrected report of the proceedings from the official stenographer and had the volume printed, the alleged garbled parts being printed in italics. This report was sold to some insurance company for \$50 a copy, and he said he was not entitled to the money. He said he was not entitled to the money, which was secured to prevent the publication of testimony contained in the work. He denied also that he had ever made arrangements with the insurance companies to stop the publication of the book. "I just gave it up," he said when Mr. Hughes inquired.

The committee adjourned while Mr. Manning was on the stand, until tomorrow morning.

Mormon Patriarch Dies.

Phoenix, Ariz., Nov. 23.—News comes from Mesa City, in the eastern part of this county, that Benjamin F. Johnson, a noted Mormon patriarch, died Saturday night at the age of 87 years. Johnson was formerly private secretary to Prophet Joseph Smith and served fourteen terms in the Utah legislature before coming to Arizona many years ago. His posterity numbers in the thousands and he was a prominent figure in the Mormon community. For years his birthday has been the occasion of an annual festival among the Mormons in this section.

MURDERER PREFERS DEATH TO CAPTURE

Trinidad, Colo., Nov. 23.—While resisting arrest, Louis Apodaca was shot and instantly killed today at his father's ranch, 4 1/2 miles south of Trinidad, in Union county, N. M. Apodaca was wanted for the murder of a Sonora, a beautiful Mexican girl who resided near Trinchera. The murder was committed in August, 1904. The girl was preparing the family breakfast when Apodaca approached the house and taking aim through the window shot her six times with a revolver. Apodaca escaped to the hills on horseback and succeeded in eluding capture until today.

THE INTERNATIONAL FLEET WILL SAIL TODAY

Athens, Nov. 23.—It is understood the international fleet will sail tomorrow. Foreign ministers today paid visits to the commanders of the warships of their respective countries. The commanders later held a conference on board the Austrian flagship.

PIRENT MOVE MAY RESULT IN LONG PREDICTED HOLY WAR

London, Nov. 23.—The powers are now fully committed to the coercion of Turkey and the execution of a policy that promises to create a situation of the first importance to the world at large. An international fleet of about twenty warships will assemble in Greek waters in a few days, and

FLEETS GATHER TO BLUFF SULTAN

Europe Anxiously Awaits Outcome of Formidable Demonstration.

London, Nov. 23.—The persistent refusal of the Turkish government to accept European control of the revenues of the vilayets of Macedonia, notwithstanding the ultimatum presented by the allied powers, is about to lead to the putting into operation of the threat of a naval demonstration, with the view of compelling the acquiescence of Turkey in the European control of administrations of reforms in Macedonia. The object of the demonstration is to compel the sultan to accept a scheme of financial reforms in practically the whole of European Turkey.

The powers engaged in the present coercive policy expect the sultan to yield to pressure, if not immediately, then certainly after the bombardment of some spot on the Turkish coast. Information given by expert judges of the Macedonian situation leads to the opinion that the sultan is likely to accept the present demands as a direct infringement of his sovereignty in effect notice to quit Europe. He will never yield, indeed, he cannot do so, it is said. His position has been altered fundamentally since he was coerced by Europe after the Russo-Turkish war, and more recently compelled to relinquish Crete. He has since attained the object of his thirty years ambition. Thanks chiefly to the Armenian massacres, which were allowed to go unpunished by Europe, and victory over the Greeks, he has gained control over all Islam and has been recognized as the Caliph of Mohammedans in the entire globe.

A Holy War Possible.

The wonderful renaissance of nationalism has for its object a holy war against infidelity and the mass of the followers believe that this is at hand. Abdul Hamid, as the head of this immense force, cannot yield a fraction more of his sovereignty without re-igniting the flames of holy war, which has been smoldering for so long.

This then is the appalling danger which the powers will incur if they resort to force in imposing their demands. A holy war would sweep Great Britain in India and Egypt and France in Algeria and Morocco, besides bringing about a wholesale massacre of Christians in Constantinople, which has so long been threatened.

AUSTRIAN AMBASSADOR WANTS FLEET IMMEDIATELY

Vienna, Nov. 23.—Baron von Chelius, the Austrian Hungarian ambassador at Constantinople, has telegraphed to the Austrian government that he is in favor of the international fleet to sail immediately, proceeding either to Mytilene (an island of the Greek archipelago, belonging to Turkey in Asia), or for Besika Bay, (near the entrance of the Dardanelles).

HELP FROM THE KAISER

Constantinople, Nov. 23.—The more in diplomatic circles here that the sultan would yield to the demand of the powers regarding the financial reform of Macedonia is rapidly vanishing. It is now believed he is almost certain to refuse. It is stated that the sultan is relying upon Emperor William to intervene in his behalf with the powers and has been in direct communication with him on the subject. He is now awaiting the Kaiser's reply. It is also stated that the attitude of Baron von Chelius, the Austrian ambassador, toward the German ambassador, von Bismarck, has been in direct communication with him on the subject. He is now awaiting the Kaiser's reply. It is also stated that the attitude of Baron von Chelius, the Austrian ambassador, toward the German ambassador, von Bismarck, has been in direct communication with him on the subject.

EMPLOYE STEALS \$35,000

Seattle, Washington, Nov. 23.—George Edward Adams, for seven years cashier of the United States assay office in this city, is under arrest, accused by secret service officials of the theft of \$35,000 in gold dust, to which he had access in his official capacity. Of this sum \$12,000 was taken from Adams' person by Secret Service Agent Connell, who has been at work on the case for several weeks. Mr. Connell claims that Adams has made practically a complete confession that he has abstracted more than \$35,000 from miners' pokes since last June and substituted black sand to maintain the weight. Adams was taken before United States Commissioner Klefer this afternoon and held in custody until he can be examined by a grand jury on Friday next. Adams made no statement other than to deny to the amount alleged to have been taken. Secret Service Agent Connell, on the witness stand, testified that from the result of his investigation and the examination of Adams' accounts, he had reason to believe that the shortage would exceed \$35,000.

TWELVE THOUSAND DOLLARS FOUND ON ADAMS

Washington, Nov. 23.—Chief Wilkie, of the treasury secret service bureau, has been advised of the arrest of George Adams, the cashier of the assay office in Seattle. Chief Wilkie says Adams confessed to having stolen \$35,000 in gold since last March. Twelve thousand dollars in currency was found on him.

Government to Spend Half Million to Save Pecos Valley Homes

Hitchcock Approves Purchase of Carlsbad Project---Hagerman Calls on President.

Special to the Morning Journal.

Washington, D. C., Nov. 23.—Secretary Hitchcock, it is authoritatively stated, will tomorrow approve the recommendation of the reclamation service for the purchase of Carlsbad, a project of the Carlsbad irrigation project holdings in the Pecos river valley. The government in taking up the holdings agrees to pay one hundred and fifty thousand dollars for the McMillan reservoir and forty miles of irrigating canals, also to spend \$450,000 in improvements to the old system, which will be spent to build a new diversion canal at Avila and other improvements. This expenditure of money, making \$600,000, will come out of the reclamation fund. The secretary in approving the recommendation did so because the situation at Carlsbad is desperate, on account of the recent floods, and thus will mean the saving of hundreds of homes. It is estimated that about twenty thousand acres will be irrigated by the system. Regarding the disposal of six thousand acres of land owned by the company in proximity to Carlsbad, arrangements have been made whereby this tract is to be sold in hundred and sixty acre lots and settled by individuals who are expected to live up to the usual homestead law requirements. These lands must be sold by the time the government is ready to take the lands in question. If not sold by that time the local water users' association will then be authorized to sell the same at public auction under the direction of the secretary of the interior. The company expects to realize about \$200,000 from the sale of their lands, which in addition to \$150,000 from the government will meet and wipe out all outstanding bonds against the company.

Hagerman Sure of Appointment.

Herbert J. Hagerman, of Roswell, will be the next governor of New Mexico. Hagerman called at the White House today and had a long talk with the president, and it is generally understood he has been decided upon to succeed Governor Otero, although no official announcement has been made. Secretary Hitchcock was influential in securing the position for Hagerman. Hagerman was assistant secretary to the St. Petersburg embassy while Hitchcock was ambassador.

Reverend Thompson, of the Clayton local office, is here on business with the interior department. Thompson says he is not a candidate for reappointment.

ROCKEFELLER ONE MORE LOOP SUMMONED USE GONE

MUST APPEAR WITH ROGERS BEFORE MISSOURI COURT

New York, Nov. 23.—Subpoenas were issued today for John D. Rockefeller, Henry H. Rogers, Henry M. Flagler, and other financiers, to appear as witnesses in two suits pending in Missouri to oust the Standard Oil company and two other oil companies from doing business in that state. The subpoenas directed the witnesses to appear on December 4, before Frederick H. Danbury of this city, who was appointed by Governor Folk to act as commissioner for the state of Missouri. Others summoned to appear are Walter D. Archibald, Wade Hampton, H. H. Rogers, Charles M. Platt, Frank Q. Barstow, H. Clay Pierce, Elias H. Paine, Richard P. Tinsley, Robert H. McNeil and Howard Page.

INDICTMENT OVERRULED

St. Louis, Mo., Nov. 23.—In a lengthy extemporaneous opinion, United States Circuit Judge Willis Vandevanter overruled the motion to dismiss all counts of the indictment against United States Senator Ralph J. Burton, charged with having agreed to accept, and having accepted a compensation to act as an attorney for the Rialto Grain and Securities company, before the postoffice department at Washington, which was filed by the defense immediately following the close of the government case today. Judge Vandevanter said that the definition of the word "agreement" bore pertinently upon this contention, and went deeply into both the legal and commercial meanings of the word. He held that the agreement was not consummated until the representative of the Rialto company, who had conducted the negotiations with Senator Burton on the train en route from St. Louis to Chicago, had returned to St. Louis, and Senator Burton's proposition had been accepted by the Rialto company. Attorney Lehman had held that the mere agreeing by Senator Burton to accept a compensation was all that the defendant was required to do, and that had occurred in Illinois. Judge Vandevanter then denied the motion and allowed an exception to the decision.

NOGALES BANKER NOT GUILTY OF EMBEZZLEMENT

Tucson, Ariz., Nov. 23.—R. Allyn Lewis, vice president of the late International National Bank of Nogales, who has been on trial here on the charge of embezzling \$5,500, was then placed on trial on the charge of embezzling \$5,500. As soon as the territory rested its case, the court instructed the jury to return a verdict of not guilty. Five other indictments were then dismissed.

GOLD DUST HIS DOWELL

POSTOFFICE ROBBERD AND BURNED

Clifton City, Mo., Nov. 23.—The postoffice here was robbed and burned early today. The safe was blown open and looted, and the buildings was destroyed. The amount of booty secured is not known.

TO PROVIDE RELIEF FOR THE SUFFERERS OF ITALY

Premier Fortis says a special tax will be levied to aid victims of Calamities.

Naples, Nov. 23.—A sumptuous banquet of 600 covers was given last night at the Theatre Verdi in honor of Premier Fortis, who has just returned from Calabria and Sicily, where he went to study the needs of the sufferers from the recent earthquakes.

The premier delivered a speech, in which he said that the cabinet believed its liberal program still enjoys the confidence of parliament, as it has as a basis the firm observance of law, which is essential for liberty and strength and for protecting the rights, authority and prestige of the state. He promised a more equitable distribution of taxation, and said that the finances of the country were good, notwithstanding the extraordinary expenses incurred because of such calamities as floods and storms and the terrible earthquakes. A special levy, he said, would mitigate the miseries occasioned by the earthquakes, and assistance would also be given to Sicily.

Burglars Get \$50,000.

New York, Nov. 23.—It was reported to the Brooklyn police today that burglars had broken into the Pratt institute and carried off \$50,000 worth of jewelry and other articles, the value of which lies in their antiquity.

Virginia's Trial Trip.

Boston, Nov. 23.—The battleship Virginia completed her official speed tests today in four endurance runs, slightly exceeding her contract speed of 18 knots an hour by maintaining an average revolution of her propellers of 129.5 a minute. Her speed today was announced by the trial board as 18.91 knots an hour.

Trouble on the Cruiser Lena.

Honolulu, Nov. 23.—Acting Russian Consul W. Potemkin denies the stories that there was trouble aboard the cruiser Lena and that she came to this port in view of a threatened mutiny while approaching Vladivostok. He says that the Lena left San Francisco with 2000 tons of coal aboard.

BALFOUR WILL APPEAL TO THE COUNTRY

English Premier Will Hand Over His Portfolio.

INSTIGATION OF "SUGGESTION" IN GOVERNMENT ORGANS

Believed That Balfour Will Go Direct From Today's Cabinet Meeting to King With Resignation.

London, Nov. 23.—Tremendous activity developed in political circles today, consequent on the circulation of a well founded report that Premier Balfour had decided to bring his ministry to a close, and to directly or indirectly appeal to the country. Rumors regarding the resignation of the cabinet and dissolution of parliament have been thick for three months past, but when two of the leading government organs today, almost in the same terms, "suggested" the immediate resignation of the premier on account of an unimpeachable breach in the unionist party over the fiscal question, the "suggestion" was looked upon as having been instigated by Mr. Balfour himself. This was strengthened by the knowledge that prior to the publication of the editorials, Mr. Balfour met certain influential persons at his official residence in Downing street. These two facts, when coupled, led to the belief that the premier had intimated at the conference his intention to resign, and as he had just returned from a visit to King Edward at Windsor Castle, it was believed that his majesty had been informed of Mr. Balfour's intention. Beyond this, however, there is not the slightest official confirmation of the report.

All Eyes on Cabinet.

All the interest now centers in the cabinet meeting to be held tomorrow, at which it is understood the situation will be discussed in some well informed persons go so far as to say that Mr. Balfour will go from the meeting to King Edward with the resignations of himself and other members of his cabinet.

Conservative and unionist papers are in favor of the resignation of the cabinet, which will place the liberals on the defensive in case Sir Henry Campbell-Bannerman consents to form a cabinet, but the radicals say the resignation will only mean a change of the ministry, and that they will decline to do so until the verdict of the people becomes known. The liberal papers point out that while Mr. Balfour may attempt this "tactical move," they are convinced that he will fail on every side, and that therefore the dissolution of parliament is believed to be imminent. There is no thought, however, that a political campaign will be forced prior to the meeting of the cabinet, with elections somewhere about the end of January.

Result of Careful Work.

The Associated Press understands that forces have been at work inside the party for some time to bring about the present situation. One prominent unionist recently wrote to the premier asking whether it would be considered desirable if he introduced early in the next session a resolution bringing the whole fiscal question squarely before the house. He told the premier that he would certainly decline to be twitted concerning their attitude on the fiscal question in the next term of parliament, when they repeatedly declined to take part in debates on the subject in deference to the wishes of Mr. Balfour.

The premier's reply was not given out, but the Associated Press understands that in any event the unionists intended to push such a resolution which they believed would mean the defeat of the government.

CAMPBELL-BANNERMAN SAYS HE IS CLEARED

Stirling, Scotland, Nov. 23.—Sir Henry Campbell-Bannerman, leader of the liberal party, speaking here tonight, said that the air had been cleared to the extent of the resignation of Balfour, when addressing the National Union of Conservative clubs at New Castle, November 14, he said: "I am not afraid of the opposition, but of my own friends," and by Joseph Chamberlain, at Bristol when he said: "Away with all lame ducks and blunt swords." The liberal and unionist papers have had sympathy for Balfour if they knew his policy, but no one knew if that policy was to deliver the conservative party from its defeat at the hands of the unionists.

Sir Henry plainly outlined his attitude toward home rule for Ireland. He said the only way to head the difficulties of the Irish government and to make Ireland strong instead of weak, was to give the Irish people the management of their own domestic affairs. Opinions regarding Ireland in this respect were becoming stronger.

NEWSPAPERS BELIEVE BALFOUR WILL GO

London, Nov. 23.—This morning's newspapers are unanimous in their belief that the meeting of the cabinet today will result in the resignation of Premier Balfour.

The speech of Sir Henry Campbell-Bannerman at Stirling is the subject of much comment, owing to his direct adoption of home rule for Ireland as a plank of the liberal platform. The unionist Daily Telegraph expresses its opinion in an editorial that Sir Henry is thereby driving a wedge into his own party infinitely more destructive than the rift in the unionist party.

Trouble on the Cruiser Lena.

Honolulu, Nov. 23.—Acting Russian Consul W. Potemkin denies the stories that there was trouble aboard the cruiser Lena and that she came to this port in view of a threatened mutiny while approaching Vladivostok. He says that the Lena left San Francisco with 2000 tons of coal aboard.

but it was found to be of poor quality, and strong head winds in addition delayed the progress of the vessel. In consequence the captain thought that it would be unsafe to continue on to Yokohama, and steamed for Honolulu. The acting consul declared that these were the only reasons for the appearance of the Lena here. Commandant Lyons of the naval station, cabled to Washington and received permission to supply the Lena with 3000 tons of coal.

MORE DAMAGING EVIDENCE AGAINST TRAIN ROBBERS

Express Messenger and Shumacher Identify Black and Murphy. Special to the Morning Journal. Las Vegas, N. M., Nov. 23.—The case against John and James Black and John Murphy, charged with holding up a Rock Island passenger train, is growing in interest and through the gathering in the court room, Charles Newby, express messenger on the train held up, testified that beyond any doubt James Black and John Murphy were two of the men with the gang at the hold-up. An Amarillo shoe maker identified the prisoners as men who had bought boots at his place shortly before the robbery. The boots were produced and he identified them. Special Officer McIntosh told of the discovery of the three men in an Oklahoma corral, of their arrest and of their being taken to jail at Chickasha, where one Howarth, who was supposed to be a fourth member of the band, was killed in an attempted jail break. Three masks and three guns taken from the prisoners, were produced in court.

J. C. McIntosh, a Rock Island special officer, gave evidence concerning the arrest of the Blacks and Murphy in Clayton, and exhibited in court the masks and guns found in the house where they were staying.

Assistant United States Attorney E. L. Medler is doing most of the examining for the prosecution, while Judge E. V. Lora is conducting the defense.

The Burglar Run

M. B. Mizelle awoke about 2 o'clock this morning and heard some one lighting a match in an adjoining room. He secured his revolver and creeping out surprised a man who was armed with a long knife, making an inspection of the room, evidently seeking valuable. The man ran when discovered in spite of Mizelle's threat, to shoot.

ANTIS BUSHY KNOCKING THAT TUCSON MEETING

Phoenix, Ariz., Nov. 23.—A Tucson special to the Republican (anti-Joint-statehood organ) says:

"Mayor L. H. Manning tonight gave out the following statement regarding the dispatch sent from here Tuesday stating the roll of the joint-statehood association had been signed by 322 persons at the meeting on Monday night."

"The report sent from here that the joint-statehood roll was signed on Monday night by 322 persons is untrue."

"The meeting referred to in this dispatch was attended by only sixty-three persons and not more than half took part in the proceedings, the other having been drawn to the meeting by curiosity."

"The dispatch misrepresents the sentiment on statehood in this city and county, which are overwhelmingly opposed to jointure."

"L. H. MANNING."

BELEN SAFE CRACKERS NOT YET APPREHENDED

No Clue to Robbers Who Broke Into Cut-Off Saloon.

Special to the Morning Journal.

Belen, N. M., Nov. 23.—At a late hour tonight there was no clue to the identity of the robbers who stole \$500 from the safe of Cox's Cut-Off saloon night before last. It has been found utterly impossible to get any line on which way the safebreakers went or who they were, and the search in the immediate vicinity has been given up. The mounted police will be detailed on the case, in all probability, and a determined effort will be made to locate the men. It is thought, however, that they escaped on a train, either on the main line or over the cut-off to eastern New Mexico. The robbers gained such a long start that the officers are at an added disadvantage.

Flight Fire With Blankets

Reno, Nev., Nov. 23.—A thawing water pipe was the cause of a serious fire this afternoon at Virginia City.

During a fierce blizzard which reigned in that city, the water pipes in the Meacham residence became frozen and the water supply of the building was completely shut off. The people of the house attempted to thaw out the frozen pipes by the use of candles and torches. The surrounding woodwork became ignited and in a moment the house was a mass of flames.

The fire department attempted to smother the flames with wet blankets, but the intense cold soon made the blankets a sheet of ice and all attempts to extinguish the flames were futile. They were finally compelled to cease their efforts and the building was completely destroyed by the flames. By heroic work the firemen succeeded in keeping the fire from spreading to an adjoining building.

Three New Battleships

Washington, Nov. 23.—Three first-class battleships of at least 18,000 tons displacement and 15 knots speed, three scout cruisers of 5,000 tons displacement, one gunboat of the Helena class and four gunboats of light draught, two for use in the Philippines and two for service in the rivers of China, with additional torpedo boats and torpedo boat destroyers, are the principal recommendations of the general board of the navy in its program of new construction to be authorized by the next congress which is now under consideration by the house of representatives. Whether the board will approve the recommendations is not certain.

Raising the Mikasa

Victoria, B. C., Nov. 23.—Salvage operations were progressing vigorously on the wreck of the Japanese battleship Mikasa, when the steamship left Japan.

The theory now entertained in Japanese naval circles for the loss is that decomposition set in among explosives in the magazine and spontaneous combustion resulted.

Another Hage Hotel

New York, Nov. 23.—D. O. Mills filed plans today for a fifteen-story hotel to be built at Thirty-sixth street and Seventh avenue, and known as the Hotel No. 8.

The new hotel will have a stone and terra-cotta brick front and will be constructed of iron and steel throughout. It will contain 1900 rooms. The cost of the ground was \$500,000 and the structure will cost \$1,000,000 more.

Louisville Election Contest

Louisville, Ky., Nov. 23.—Forty suits contesting the recent election of every city and county officer in Louisville and Jefferson county were filed in the circuit court. The principal suit is that of Joseph T. O'Neill, former candidate for mayor, vs. Paul C. Barth, a

democrat, who has just been seated in the majority chair. Charges of bribery, illegal registration, false returns, force and intimidation are made. The petition asks that the election be set aside, that O'Neill be declared elected or that it be decreed that there has been no election.

To Wed Princess Eva. Madrid, Nov. 23.—The newspapers are again predicting King Alfonso's marriage. The latest report appears in the Correspondencia de Espana, which says he will marry Princess Eva of Battenberg, in May, 1906.

Vessel's Fearful Voyage

Tacoma, Wash., Nov. 23.—Two men swept overboard by a high sea in a hurricane and drowned on the voyage from Newcastle to Acapulco, her master and steward dead at Acapulco.

Everett, they succumbed to fever and fatigue on a special steamer for the Pacific coast, passing from Acapulco to Cape Flattery with her crew short seven men and a mate, buffeted about by gales off Cape Flattery for twelve days before she was picked up by a tug.

This is the record of the British ship Samsons, which arrived in port last night to load wheat.

"The Samsons is commanded by Captain McKinnell, formerly her first mate. Captain John L. Boyce was her captain when she left Newcastle, N. S. W., in May with coal for Acapulco. Benson, an apprentice, and McKinnell, a seaman, were swept overboard by a high wave in June. At Acapulco Captain Benson and Steward Finch died of fever. Boyce was well known, particularly in London and Sydney. Sailors were unusually scarce at Acapulco and the voyage north was made very short handed.

172 Alp Climbers Killed

London, Nov. 23.—Statistics of accidents in the Swiss Alps during 1905 show that 172 climbers were killed and a few more injured. The greatest number of victims was among the Swiss themselves.

Among the total accidents, 10 per cent were unavoidable. The remainder were due to foolishness or inexperience.

Gift by Lord Mount Stephen

London, Nov. 23.—Lord Mount Stephen (formerly president of the Bank of Montreal and chairman of the Canadian Pacific railway) has contributed \$50,000 to Queen Alexandra's fund for the unemployed. This is the largest individual subscription thus far received.

Soldiers at Five Cents a Day

Madrid, Nov. 23.—Soldiers at five cents a day are the result of the efforts made by the Moorish government to rehabilitate its finances.

In an order just issued for the reduction in pay of all branches of the government service, the military finds itself reduced from seven to five cents a day.

Desertions are very numerous in consequence, as the sum is naturally insufficient for the daily requirements of the soldiers, and the more so as the deserters are very numerous.

prices are ruling very high through the bad harvest. The camps of the various government forces at Pex and Tanager are already being reduced in number by these desertions, and the soldiers will be scattered over the country, surviving and plundering, and will eventually be driven to gain a living by robbery and other outrages as they take away their arms and ammunition on deserting.

Sultan Issues Trade

Constantinople, Nov. 23.—The sultan today issued an irade approving the decision of the council of ministers to reject the demand of the powers for international control of the finances of Macedonia. Whether the rejection is absolute or conditional has not been definitely ascertained.

Vice Admiral Huhul Pasha has started on a special steamer for the Dardanelles, presumably with instructions for the commander of the forts in the event of the appearance of the international fleet. Similar instructions have been sent to the governors of the Turkish islands in the archipelago.

Turkish Reply a Threat

Paris, Nov. 23.—Pursuing a note in reply to the ultimatum of the powers contains a warning that the action of the powers in resorting to a naval demonstration may precipitate an international uprising of Mussulmans against the Christian population in Turkey. This is considered to be a threat, as it is known that no demonstration of Mussulmans against Christians can occur unless it has the silent acquiescence of the Turkish authorities. The Turkish reply gives a serious turn to the negotiations.

RIPLEY A HOOBOO FOR THE ARIZONA DIVISION SATURDAY

Engines and Cars Jumped
the Track All Day.

NEW BALANCED COMPOUNDS
PLAY STAR ROLE IN WRECKS

Four Small Accidents Serve to Delay
the President's Special All
Along the Line.

"Last Saturday was an unlucky day for the Arizona division," said P. F. Hawkins, a railroad man from Los Angeles to a Journal reporter at the local station yesterday. "You remember there was a bad wreck in Crozier canyon on that day when five Pullmans and a chair car of No. 8 went off on a tangent and blocked traffic for half a day. Then the engine of No. 2 stripped herself out there this side of Winslow and came near killing the train crew. Well that was only a starter."

"As luck would have it, that was President Ripley's day to be going over the Arizona division on a special train along with Arthur Weller and a lot more officials, all of course, in a hurry to get to California. Well, when Mr. Ripley got to Needles or almost to Needles, he found train No. 7 ahead of him, standing at a dead end. Just ahead of No. 7 was train No. 1, and just ahead of train No. 1 was a big freight drag, and just at the front end of the freight drag was a big engine off the track and sprawling all over Needles siding No. 1. Everything was tied up for awhile, but finally No. 1's engine got hold of the freight and pulled it into the clear and the trains got on to California some way over a side track. Engineer Cole and Fireman Runyon were on the wrecked engine, but neither was hurt. The ponderous machine had to be raised and a new track built under it. To cap the climax, another one of the new balanced compound engines which have been figuring in most of these little wrecks went off the track at Plute and buried her nose in the mud and gravel about four feet, piling up everything. Engineer Higgins was in the cab and jumped. So did Fireman Dressler, just in time to get a sprained ankle. Oh, I tell you Saturday was the banner day on the coast lines in Arizona."

MUDGE SAYS ALL ROADS ARE IN THE SAME FIX

"All of the roads in the west are as short of cattle and grain cars as we are, and some of them are a good deal worse off," said Mr. H. U. Mudge, secretary of the Chicago and North Western Pacific railway to a reporter in Topeka.

"Freight traffic of all kinds and especially that of cattle and grain is unprecedented at the present time. I do not know that it has ever been so heavy before and all of the railroads are taxed beyond their capacity with the equipment at hand. It is only true that we are short of cattle and grain cars, but we are making the cars we have to double duty and conditions with us are not as bad as they are on some of the other roads."

"We are adding to our freight car equipment all the time and there is new one thousand cars under construction for us. We expect that a good many of them will be delivered soon. It is our intention to place an order soon for five or six thousand additional freight cars, but of course these will not be available until next year."

There has been a report current for some few days to the effect that the Rock Island was so short of cattle and grain cars that Mr. Mudge and the other officials of the road were trying to rent some hundred cars from roads entering Chicago that might be able to spare them.

When Mr. Mudge was asked about this report he smiled and said: "I guess there is nothing in that report. Every road in the country is as short of cars as we are, so it would be useless to try and borrow or rent cars from any of them."

Mudge Holds the Slow Record.
Mr. Mudge, accompanied by John B. Borry, the new chief engineer of the Rock Island, and Frank T. Dolan, general superintendent of the southern district of the road, arrived in Topeka from Kansas City. They traveled in a special train of three cars and certainly hold one record for covering the distance between the two cities in a special. Some time ago President Ripley of the Atchafalaya, Topeka and Santa Fe made the trip from Topeka to Kansas City in a special in seventy minutes, running time. Mr. Mudge and his party left Kansas City at 7:50 o'clock in the morning and took three hours and forty-five minutes to reach Topeka. This is believed to be the slowest time for a special between the two cities, but it ought to be explained that Mr. Mudge's train was stopped several times to permit of an inspection of the double track line between Kansas City and Topeka. This line is used jointly by the Union Pacific and Rock Island.

SANTA FE WILL NEVER AGREE WITH SALT LAKE

Los Angeles, Nov. 23.—Men high in railroad circles stated yesterday that they believed that the Santa Fe and Salt Lake railroads would never come to an agreement regarding an interchange of business originating on the Santa Fe tracks.

They state that the Santa Fe possesses full knowledge of the exorbitant price paid by the Salt Lake to the Southern Pacific for the use of their tracks and that they will undoubtedly hold out for as large a sum if not more.

"They further state that the business that the Salt Lake gets does not justify them in paying such a large switching charge if they are to compete with the other roads in freight rates."

"The Salt Lake cannot pay the price that will be demanded," said one of them, "unless it is going to do business for fun. Somebody must have been napping at the time that the road was built or all of these switching privileges would have been secured at the time the trackage privileges were obtained from Riverside to San Bernardino over the Southern Pacific and from San Bernardino to Daguerre over the Santa Fe."

The officials all seem to be agreed

that the Santa Fe is justified in asking for a large sum, for they can see no reason why it should give up business originating on its tracks to the Salt Lake for a long haul unless they are well remunerated.

CALIFORNIA LIMITED MAKES A RAPID RUN

The California Limited of the Santa Fe Friday afternoon made a fine run from Barstow to Summit, the distance of 56 miles being covered in 95 minutes, which is about 20 minutes less than the schedule time for the train. While this is not fast running over that mileage on ordinary roadbed, it is remarkably fast time for the line between Barstow and Summit. The line is crossed most of the way, and the train must climb a heavy up grade to the summit of the mountain range. The train was drawn by engine 1228, one of the new balanced compounds the company has just placed in service on this division. Officials were greatly pleased by the run made by the train.

MACHINIST HELPER IS FRIGHTFULLY SCALDED

A machinist helper named Frederick was Saturday afternoon frightfully scalded while at work on an engine at the Santa Fe roundhouse, in San Bernardino. In some manner he turned a valve, letting a jet of steam and scalding water onto himself, and before he could move or be gotten away by his companions, he was fearfully scalded, about the face, neck and chest.

Waiting doesn't pay. If you neglect the aching back, Urinary troubles, diabetes, surely follow.

Doan's Kidney Pills relieve backache. Cure every kidney ailment. Albuquerque citizens endorse them. Mrs. M. J. Butler, residence 717 East street, says: "When I went to the Alvarado Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

ALBUQUERQUE ————— NEW MEXICO

FRIDAY MORNING, NOVEMBER 24, 1905.

The Same Old Way

FROM an exchange which probably knows whereof it speaks we learn that the sultan of Turkey has been stirring up the Syrian colony of New York for the purpose of demonstrating to the American population that these people are unruly and require the use of the strong hand in Turkey to keep them under control. The logic of this defense of the troubles in the Syrian colony is not so apparent when one takes time to consider that the sultan could not stir up the colony unless it was stirrable, even though that wily monarch has adopted an admirable plan to provoke disorders. It is charged that he has sent spies to the colony, many of whom are beautiful women, who are calculated to provoke the younger element of the Syrian colony to walk forth with hatchet and revolver to seek some victim to propitiate the wrath of the beautiful spy. Though the operations of these Circassians are said to be confined to the younger Syrians, beautiful women have not been unknown to turn the heads of middle aged men and even the man whose locks are frosted. If this charge against the sultan be true, says the authority from which we have quoted, he has shown diplomatic talent of the first order, and he is fully entitled to the success which has attended his efforts. The quarrel among the Syrians has reached the point where a reverend bishop of the Syrian church has offered a reward for the head of a leader of the opposition faction, and there is a certainty of bloodshed whenever the factions meet. It is undoubtedly unfortunate that pretty women should be able to stir up trouble among men, but since the beginning that has been the case, and it is likely to remain so until the end. Even here at home, women who are not pretty at all, and not even tolerable without paint and fixings, are able to stir up more or less trouble for the grave and reverend fathers of the burg—so, in the words of Mr. Tweed, "What are you going to do about it?"

Doesn't Love Us

IT IS EVERY DAY becoming more apparent that Mr. Murphy—not Pat, but Mr. Murphy the proprietor of Arizona—is not in love with the Morning Journal, or he would not allow his papers to say so many naughty things about us, which are not true. For example, there is the Phoenix Republican, in its issue of the 20th inst., which violates its time-honored rule, and expresses a positive opinion upon a current topic which opinion is to the effect that the Morning Journal has misrepresented the strength of the statehood sentiment in this territory and also in Arizona. Now, if that is not a deliberate inaccuracy, it is a very great mistake. We have not exaggerated the strength of the statehood sentiment among the people of New Mexico or Arizona. We have admitted all the time that the office-holders—the territorial office-holders, we mean—of New Mexico, and the corporate interests of both territories, were generally opposed to statehood, and for well known personal reasons, chief among which is the fact that under joint statehood the one class would lose their jobs, and the other class would have to pay taxes like other people, while now they do not. Mr. Murphy, who practically owns the territory of Arizona, by owning its newspapers, is radically opposed to jointure for the reason above stated, and that is not at all strange; it is perfectly natural for a man to look out for No. 1—indeed, St. Paul says the man who fails to do it is worse than an infidel, but Mr. Murphy is a St. Paul man to excess, and is trying to compromise the best interests of all the people of Arizona, to augment the dividends of No. 1, which is Mr. Murphy—and of course his newspapers stand with him.

In its zeal to injure the cause of statehood the Republican charges the Morning Journal with having wrongly quoted Senator Clark, of Montana, in an interview some time ago. But the public may rest assured that Mr. Clark said just what the Morning Journal reported him as having said. The senator's memory is so well trained that he has no difficulty in forgetting anything that he doesn't want to remember—but it would seem to be more discreet on Mr. Clark's part to confine his attention to the state which he owns up to in the northwest, without trying to butt in on Mr. Murphy's preserves.

And then there is Funston, of the Cocoonino Sun. The Republican solemnly assures us that Funston has "disentangled himself from the combination." But we didn't know there was any "combination" in Arizona except the anti-combination, for we have been assured so many times and so positively by Mr. Murphy's papers, that absolutely everybody in Arizona was against statehood with New Mexico, and we did not suppose there was enough statehood material in that territory to form a combination, for Funston to become entangled in, unless Mr. Murphy's papers were trying to fool the public. But possibly Funston did somehow become entangled and has disentangled himself—and it would be interesting to have Mr. Murphy tell the public how much it cost.

But when the Republican drops pretended facts, and begins to indulge in humor, we appreciate its efforts. For instance, when it pretends to disprove what the Morning Journal says about the statehood situation in Albuquerque by quoting from the New Mexican to the effect that our people are all against jointure. That is particularly good in view of the fact that within the past few days the New Mexican has thrown up the sponge, and is now begging the statehood people to give the little a chance, by suspending operations for three years! The Republican may be assured that all the people of New Mexico ask of congress in the joint statehood matter is a chance to express their sentiments at the polls—and we are not afraid to trust the people of Arizona on the same issue in the same way, Mr. Murphy and his papers to the contrary notwithstanding.

THE spectacle presented by the Hon. Alton Brooks Parker as an advocate of government by technicalities, rather than by justice, cannot fail to edify those who contemplate it. When one recalls the righteous indignation with which Judge Parker contemplated the possibility of the ballot being debauched in an election in which he himself was a candidate, and now beholds him as an attorney for the methods employed by Tammany hall in New York, one cannot but marvel over the flexibility of the legal conscience. —Charleston (S. C.) News and Courier.

IF our three insurance companies had been insuring reputations instead of lives during the past few years, it could not have been said, as it can be said now, that they are solvent.—Wall Street Journal.

SENATOR PENROSE, in joining the Pennsylvania reformers, should be made to sit on the penitents' bench a while. Those post-election conversations are too sudden.—Springfield Republican.

PRESIDENT ROOSEVELT fired a boiler before he left the West Virginia. It is not stated what the boiler had been caught at.—Chicago Journal.

The Evening Citizen says "The tenderloin should be maintained." But then no one is surprised at the Citizen any more.

Alfonso's choice of a wife has displeased the pope. But Alfonso has generally shown a disposition to please himself.

"He jes' died all at once unanimous," said a South Carolina negro, denouncing the demise of a friend. That is Miguel's case in a nutshell.

A San Francisco paper tells of a railroad conductor who won \$150,000 on the races. If he was a Santa Fe conductor the inference is that they were slow races.

Alfonso of Spain tried to make an ascent in a balloon the other day. This is not the first time the erratic young ruler has shown a disposition to go straight up.

Prince Louis of Battenberg has gained a little useful experience amid the gay round of festivities. A New York dentist held up his Royal Highness for an even thousand for filling four teeth.

Burglars now-a-days have lost all sense of decency. A poor sailor was robbed of all his raiment in San Francisco, had to signal a hack with his undershirt and rode to police headquarters in a bare.

The conversion of one Jim Sing to the cause of joint statehood has through the members of the New Mexico Plutocracy society into convulsions. But it is tough to have a Chinaman show himself more intelligent than yourself.

"The allies of New Mexico hold a Gablest" says the Tucson Citizen in its attempt to disparage the enthusiastic mass meeting for joint statehood in the old pueblo. And a few days ago we were hearing that New Mexico is not in favor of joint statehood. Now just where are the allies "at?"

"STOLE \$1,000" IS CHARGE AGAINST ONE JOHN M. OTT

San Francisco Man Removed
From Fast Train for the East.

IS ARRESTED HERE ON ORDERS
OF CHIEF OF POLICE DINAN

Ott Stoutly Asserts Innocence of the
Crime Although He Admits Be-
ing Wanted on the Coast.

John H. Ott, twenty-three years of
age, is under arrest in this city on the
charge of stealing eleven hundred dol-
lars in San Francisco.

Ott was taken from delayed No. 4,
the limited train from the west, which
reached here yesterday morning, on the
strength of the following tele-
gram received from the chief of police
of San Francisco:

"Arrest for grand larceny John H. Ott, twenty-three, five feet six, slight
build, light complexion, smooth face,
dressed in black, sack coat and vest,
dark striped pants, black stuff hat, left
here 9:30 a. m. yesterday on Santa Fe
ticket No. 241,807, dated San Fran-
cisco, November 23. Had trunk and
suit case. Hold all money. May stop
at Grand Canyon. J. F. Dinan, Chief
of Police."

A later telegram yesterday said that
Dinan was sending a man for Ott, who
"stole eleven hundred." The wire
gave no further details of the crime
for which Ott is wanted.

The latter when seen by a Morning
Journal reporter last night professed
entire ignorance of the theft, with
which he is charged. He says he was
on his way to his home in Philadel-
phia. He admits that he is the Ott de-
scribed in the telegram, and that he
did tell his friends that he was going
to stop at Grand Canyon.

When the man was searched at po-
lice headquarters here, \$190 was
found on his person, which will be
carefully preserved, pending the ar-
rival of the San Francisco official.

Ott says he is a bricklayer by trade,
and has worked for wages in San
Francisco for the last six weeks. Ask-
ed why he happened here, he said he
was on his way to Philadelphia, where
he had a job. He said he had not yet
exhausted his reserve fund.

"I don't know anything about it,"
said Mr. Ott last night. "I hope the
news of my arrest won't reach my
mother in the east, as she is very
sick."

Chief Dinan's telegram, "stole eleven
hundred," would imply that there
is no great amount of doubt about the
guilt of Mr. Ott.

DARING ROBBERY COMMITTED AT NEW SANITARIUM NEAR DEMING

A daring robbery, the work of
tramps, with which, despite the vigil-
ance of the officers, the town is in-
fested, occurred at the Peligrem Strong
sanitarium now in course of construc-
tion about four miles northwest of
Deming and during the absence of
Mrs. Peligrem and Strong in El Paso,
says the Silver City Independent.

The theft was committed sometime
between noon and 3 p. m., and was
discovered by Mrs. Peligrem and a
young man from Maine, who is em-
ployed there, upon their return from
town. The building, a two-story frame
house, had been broken open. Among
the missing articles were a 30-40 rifle,
belt and cartridges, hunting knife, a
gold and a silver watch, some rings
and other pieces of jewelry. All the
property of the young man.

Mrs. Peligrem at once started alone
for town, but when she reached the A.
T. & S. F. bridge, which is in a cut,
two men, undoubtedly some of the
party who had committed the robbery,
stepped out and demanded that she
surrender her horse, saying they need-
ed it worse than she did. Fortunately
Mrs. Peligrem had a revolver, knows
how to use it, and succeeded in fright-
ening them away.

Officers were at once notified and
were soon on the trail. It was learned
that the men had boarded a freight
train at the roundhouse, foolishly giv-
ing the brakeman the rifle for their
fare which he immediately upon hear-
ing of the theft, turned over to the
officers here. Sheriff Stephens took the
first train west, but returned Sunday,
having been unable to find any trace
of the men after leaving Lordsburg.
Mrs. Peligrem is positive she can iden-
tify the men who held her up.

Boring for Bedrock.
A. P. Garner, a government employe
in the reclamation service, arrived in
Phoenix Tuesday night. He is
there for the purpose of boring
bedrock above the Arizona dam, and
upon his report the engineers will
eventually act in the selection of a site
for the cement diversion dam, where-
ver the transfer of the Arizona Water
company's property to the government
is finally brought about.

Mr. Garner is not sure when he will
go up the river to perform this task,
but states that he will start as soon as
the weather settles sufficiently to en-
able him to make the trip and work
to advantage.

The Bucky O'Neill Monument.

The O'Neill Rough Rider monument
commission held an informal meeting
last evening about 4:15 o'clock, in
Judge Sloan's chambers for the pur-
pose of meeting and consulting with
Newton J. Tharp, the architect, who
designed and superintended the con-
struction of the Dewey monument in
San Francisco, concerning plans and
designs for the O'Neill Rough Rider
monument soon to be erected on the
court house plaza in this city, says the
Preston Journal-Miner.

Mr. Tharp was on his way east, and stopped over
a day here to meet with and exchange
ideas with the commission. He con-
sented to submit a design and model
of what he thought would be appro-
priate and acceptable in the near fu-
ture. He believes that the granite to
be found in and around this place to
be as good as any that can be found
anywhere for monument or building
purposes.

PRE-THANKSGIVING SPECIAL SERVICE BY HEBREWS

TEMPLE ALBERT WILL JOIN
IN NATIONAL CELEBRATION

Interesting Addresses Will Be Heard
on 250th Anniversary of Jewish
Settlement in America.

A special Thanksgiving service will
be held at Temple Albert this evening
at 7:45 o'clock. This service will be
similar to those held all over the coun-
try tonight in celebration of the two
hundred and fiftieth anniversary of
the settlement of the Jews in the United
States. George S. Klock, the well
known attorney, who is an eloquent
speaker, will make an address appro-
priate to the occasion, giving a sketch
of Jewish activity in the United States,
showing especially what, in his opinion,
the Jews have done for the United
States and what the United States has
done for them. Everybody is cordially
welcome to this special service.

Activity in Railroad Building.

What Mr. Harriman has said on the
subject of rivalry in construction
tends to confirm a widely prevalent
impression that the year 1906 will be
marked by great activity in railroad
building. It is yet too early to form
an estimate of the number of miles of
new road which will be constructed
in the United States, but there are al-
ready ample indications that the total
will in all probability greatly exceed
the mileage which has been added to
the existing lines in any recent years,
even if it does not reach such figures
as were seen in 1887, when a
maximum record for new railroad
construction of 13,933 miles was cre-
ated. Not all of the new roads
planned will, however, be of a competi-
tive character. A very large portion
will consist of branches and feeders of
the existing systems, together with
cut-offs or lines designed to reduce
grades and thus decrease the cost of
operation. There are, indeed, few
large railroad companies which at the
present time do not have work of the
latter description in progress or un-
der consideration. At the same time
it is evident that the growth of popu-
lation and the opening up of new
territory to settlement and business
throughout the west create demands
for transportation facilities which the
railroad systems are obliged to meet
by the construction of new lines, and
it is not at all unreasonable to sup-
pose that in a number of cases differ-
ent systems will encroach upon one
another's territory in order to secure
the traffic thus developing. Whether
this, as some authorities claim, will
lead to renewed rivalry of an acute
kind, such as attended the activity in
railroad construction during the 80's
and early 90's, cannot, however, be
counted on with entire confidence.

The lessons of that period were too
severe and expensive to have been
forgotten by the financial public or
by railroad officials themselves. At
the same time conditions in the rail-
road world, such as now seem likely
to exist are fatal to the continuance
of the so-called community of inter-
ests among the different systems con-
stituting the granger, southwestern
systems and transcontinental groups
of roads. If, indeed, it can be claimed
that the harmony which at one time
was so much boasted of has in any
way survived the shock resulting from
the Burlington's purchase by the
Great Northern and Northern Pacific,
the Northern Pacific corner, and the
 ensuing complications which culmi-
nated in the Northern Securities litiga-
tion.—Bradstreet's.

HAD CASE DISMISSED TO TAKE IT OVER TO OLD TOWN

PECULIAR ENDING OF ASSAULT
CHARGE AGAINST FRANK ROSS

The case against one Frank Ross,
a workman in the Albuquerque found-
ry, charged with assault, came to a
peculiar ending yesterday in the court
of Justice of the Peace Jose Miguel
Chaves in Old Town.

Ross was charged by Jacobo Gomez
with assault with intent to kill at
Jones' hall in Old Town Monday night,
the complaining witness asserting that
Ross had attempted to bifurcate his
cranium with a sharp ax. The case
came up in the justice court in pre-
dict 13 of Albuquerque, at which
time the complaining witness said he
didn't want to prosecute and would
like to have the case dismissed upon
his payment of the costs. It was dis-
missed and Gomez then made a
double quick sprint over to the Old
Town justice and swore out another
warrant against Ross. He was jailed
before the call who does out justice
in the court house basement and the
case was settled up for the sum of
sixty dollars, out of the pocket of the
bewildered Ross.

**SOMETHING DOING IN POLICE
COURT YESTERDAY MORNING**

Esquipo Narvais was yesterday
sentenced by Judge Crawford in police
court to ninety days in the county jail
on the charge of assault upon the per-
son of Miguel Chaves, the affair hav-
ing occurred at the big baile in Old
Town Monday night. The complain-
ing witness' dilapidated appearance
was the best testimony he could have
produced that someone had made an
assault upon him. Guadalupe Mon-
tano, who was also charged with as-
sault by Chaves, was discharged.
Narvais appeared his case.

Peter Bezquera, who says he works
at the American Lumber company
mills, was sentenced to sixty days in
the county jail for carrying a large
six-shooter, for whose possession upon
his person he could give no satisfac-
tory explanation. Charles Bach and
J. S. Sevely, who each had a rather
incoherent story of how the other had
assaulted him in the Minneapolis
rooming house, were discharged.

ASSOCIATED CHARITIES TAKE NO ACTION ON RULES AND REGULATIONS

At the meeting of the Associated
Charities yesterday afternoon in the
parlors of the Commercial club build-
ing, a committee was appointed to
wait upon the ministers of the city
and request them to consider holding
the Thanksgiving joint service in the
Elks' opera house. The idea is to
bring the "fans of the new organiza-
tion before the congregation after the
conclusion of the joint service, and it
is expected that the ministers will ac-
quiesce in the proposition.

All the officers were present and
the meeting was an enthusiastic one.
It was reported that the soliciting
committees are still meeting with suc-
cess and the outlook is quite bright-
ening in the proposition.

The constitution and by-laws will
be acted upon at a meeting to be held
a week from Tuesday. They were to
have been submitted to the meeting
yesterday, but were not even read, as
for various reasons it was desired to
postpone action on them.

SLAVIO A DEAD ONE IN NEW PRECINCT OF BARELAS

ANTI-VIGIL MEN WIN OUT
EASILY IN SPECIAL ELECTION

As the result of the special election
Wednesday for justice of the peace
and constable in Precinct-No. 1, the
newly formed precinct down in what
was once the realm of Slavio Vich,
Proterio Lazurov was elected justice
and Louis Sanchez, constable. Both
of these men are pronounced oppo-
nents of the regime of Slavio, and their
election demonstrates most
painfully that the reign of Slavio is
over. Since he discovered the demise
of the discoverer of America, Slavio
has been a changed man and has ap-
parently lost heart in the game. It is
just as well, for the day of Slavio
will soon be as dim a memory as the
passing of Cristoforo Colombo. Ba-
relas has thrown off the yoke utterly
and there is nothing doing for his
superintendent de escuelas.
There were ninety-five votes cast in
the new precinct and the candidates
had no opposition.

COURT CONSIDERING MOTION TO QUASH WARRANTO CASE

ARGUMENTS ON ACTION OF
ATTORNEY GENERAL FINISHED

Grand Jury for McKinley County Hands
in Lengthy Report Advocating Var-
ious and Sundry Reforms.

Judge Ira A. Abbott, of the district court, now has under advisement the motion made by counsel for Thomas S. Hubbell asking leave to bring quo warranto proceedings against Perfecto Armijo to show by what right and title he holds the office of sheriff of Bernalillo county. The arguments on the motion were finished up yesterday afternoon. Mr. Hubbell's counsel maintain that they have a right to bring proceedings notwithstanding the adverse decision of Attorney General Prichard, and say that the latter official has no right to withhold his permission to prosecute a suit at the instance of a person who might be entitled to an office. Having given his permission and the court having coincided therein, it is alleged that Mr. Prichard has no right to withdraw it. The decision of Judge Abbott in this matter is awaited with interest, as it hinges all the hopes of the late incumbent of the office of sheriff.

This morning at 10 o'clock Judge Abbott will hear arguments on motions in the case of the Caledonian Coal company vs. the Santa Fe railway, the Colorado Fuel & Iron company, and the American Fuel company. The plaintiff, represented by Neil B. Field, asks that the defendant companies be forced to produce some twenty of their employees as witnesses, and also that they produce in evidence several documents, such as contracts between the railroad and the coal companies. Gardner Lathrop, general solicitor for the Santa Fe company, arrived on yesterday's limited, and will appear with E. W. Dobson, the local solicitor for the Santa Fe company, and W. E. Childers, who represents the coal companies.

Grand Jury Report in McKinley County.
The report of the grand jury of McKinley county to Judge Abbott of the district court was made public yesterday. It goes into the matter of the enforcement of the Sunday law in Gallup and other places in the county, and also details and asserts that flagrant and open violation of the law prevails on every hand. The grand jury says it has refrained from any indictment on this score at its recent sitting because the law has been violated for so long that it is thought by many to be a dead letter. A majority of the jurors reported that they had received complaints to the effect that there have been violations of the law making it a crime for any firm or individual to issue in payment to employees script payable at anything less than its face value; and also of the late which makes it an offense for an employer to compel his employees to buy of any particular firm or individual. The grand jury recommends an investigation by the district attorney along this line. A minority report signed by the foreman, dissents from this finding, and also from the statement made in the report that there have been complaints of illegal voting in McKinley county.

Explorer's Brave Wife.
PENETRATED LABRADOR

Mrs. Leonidas Hubbard Finishes Work of Dead Husband.
Quebec, Que., Nov. 23.—A frail, sorrowful looking woman, wearing tuckskin jacket and emblems of mourning, and accompanied by a party of Indian guides, who stepped ashore here last evening from the steamship King Edward, on her arrival from Hamilton Inlet, was recognized as the intrepid widow of the unfortunate Leonidas Hubbard, Jr., who starved to death in the fall of 1903 in the interior of Labrador.

"I have been to finish the work which my husband set out to do," Mrs. Hubbard said, "and I have been quite successful."
George Elson, a Lake Superior guide, who was with her husband on his last journey, was one of Mrs. Hubbard's attendants, and with the assistance of this man to point out the route taken in 1903, so far as the present expedition followed it, it was not difficult to discover the exact spot of Hubbard's failure and subsequent death. Hubbard was not aware that two large streams instead of one empty into the head of Grand lake where both expeditions entered upon the unknown interior of the Labrador peninsula, and instead of ascending Masapee river, which would have led him to the great Lake Michmanow, of which he was in search, he took Susan river, which enters the lake near the other, and pressed on into the heart of the inhospitable country in which he found his death.

Russian Legation at Tokio.
St. Petersburg, Nov. 23.—The question of the rank of the Russian legation at Tokio is practically settled, Japan agreeing to accept M. Bakmeteff as minister with the understanding that the legation later will be raised to an embassy.
During the negotiations now in progress at Pekin between Baron Komura, the special envoy of Japan, and the Chinese officials Russian diplomacy has simply been directed to safeguarding Russian interests at Pekin. The Chinese government has already refused to enter into any secret treaty with Japan over Manchuria, and that Russia will be entitled to the benefit of any privileges Japan obtains.

SHEEP ARE LOSING A POUND A DAY IN THE PENS

SANTA FE MAKING STRENUOUS
EFFORTS TO HANDLE STOCK

Sylvester Bros., A. H. Webster and a party of prominent San Luis valley ranchers, of Monte Vista, Colo., who have 26,000 head of sheep at the stock-yards in Albuquerque, awaiting cars to transport them to Monte Vista, Colo., where they will be fed for the winter, expect to get their cars in today and will probably get the big bunch of sheep on the road home to night. It will take three trains to move the lot, as they will make nearly the same time as passenger trains. There will be over eighty cars and once they are loaded the Santa Fe company will make a record-breaking run with them to Pueblo, where they will be turned over to the Denver & Rio Grande and taken on to Monte Vista.

"We lost some fourteen head of sheep last night," said Mr. Webster at his hotel last night. "That of course is a mere trifle considering the number we have. We have been in Albuquerque over a week and have been feeding out twenty tons of hay a day and have had work to rustle it. Most of it we have bought for \$15 per ton, and of course you will see that this counts up. The Santa Fe company has been promising us cars right along and is making a strenuous effort to get them. The transportation of these 26,000 sheep to Pueblo is an item, but in the spring when we take them to market at Kansas City, there will be a much longer haul."

"We had a trainload dipped and ready for moving last Saturday morning, but they are in the pens yet. Where the loss comes to is in the loss in weight. Each of these animals will shrink on an average of a pound in twenty-four hours, and this at 5 cents a pound, it can be readily seen, will run into big money. The mud has been knee deep at the stock-yards and the storm of last night left the sheep in bad shape. Today the weather cleared and tonight we have the promise of cars at once, so the situation is quite hopeful."

The Santa Fe is doing a greater stock business this season than at any time in its history and the shortage of cars is due to the fact that all the double deck cars are sent east and have been slow in getting back. Sheep have been leaving the territory in trainloads for several months and the supply of double deck cars has diminished to a point where it is a difficult matter indeed, to get eighty of these cars together at one time.

Captured Two Positions.
The Hague, Nov. 23.—An official dispatch received here says that the Dutch troops, which are endeavoring to put down a rebellion in the island of Celebes, one of the Sunda islands in the East Indies, have captured two positions of the rebels. At Topping 41

rebels were killed and four wounded. The Dutch troops lost one man killed and six wounded. At Wolge a rebel leader and 25 men were killed.

Riots in Barcelona.
Barcelona, Nov. 23.—There was a riot here last night. Two thousand Catalans were parading the streets, singing their victory in the elections, when revolver shots were fired at them by defeated republicans from the clubhouse of the latter. Four men were wounded. The Catalans rushed on their assailants, scattering them. Many of the republicans were clubbed.

Haaken Goes to Christiania.
Copenhagen, Nov. 23.—King Haaken VII., Queen Maud and Crown Prince Olaf, started today in the Danish royal yacht, Dannebrog, for Christiania. Great crowds gathered to witness the departure of the new ruler of Norway.

Marshall Field's Son Better.
Chicago, Nov. 23.—The condition of Marshall Field, Jr., who was accidentally shot last night, was reported this morning as somewhat improved and his chances of recovery as slightly better.

Komura Is Firm.
Peking, Nov. 23.—The negotiations between the Chinese and Japanese representatives regarding Manchuria are progressing. Baron Komura, the Japanese plenipotentiary, insists upon the lease of the Liaotung peninsula and the lease of the Manchurian railway south of Chungchun, as provided for in the treaty of Portsmouth.

Laurier's Birthday.
Ottawa, Nov. 23.—Today is Sir Wilfrid Laurier's birthday. He is 64 years of age, having been born at St. Lin, Quebec, on November 23, 1841. A large number of friends called on Sir Wilfrid to congratulate him, and numerous others sent their felicitations by wire and letter.

More Election Crooks.
New York, Nov. 23.—John Elder was held in \$10,000 bail today, charged with illegal voting and perjury, and James Gallagher was held in \$3,000 bail on the charge of perjury. Hearst's lawyers claimed that ninety-one votes were found in one election district of the twentieth assembly district which should have been counted for Hearst, and were no.

Sullivan and Atwell Fight.
Baltimore, Md., Nov. 23.—Kid Sullivan, of Washington, and Abe Atwell, of San Francisco, met in a fifteen round match before the Eureka Athletic club tonight. Sullivan did about all the fighting and inflicted a good deal of punishment, but was unable to land a knockout blow on his agile opponent.

Frightful Conditions in Far Caucasus.
Secretary of Balkan Committee Tells Harrowing Tale.

Constantinople, Nov. 23.—Mr. W. A. Moore, secretary of the Balkan committee, has just made a report on the conditions which he discovered during a journey which he recently undertook in the Balkans with Mr. Leland Roxton and Mr. C. M. Lloyd. In this report Mr. Moore says:
"It would be difficult to exaggerate the misgovernment and anarchy in the Kosovo vilayet, the sphere allotted to the Austrians. The details of the Kosovo massacre, the results of which we saw, have already been reported in the newspapers. The day before we saw the bodies of the women and infants massacred by the troops the

Turkish authorities at Palanka had assured us that everything was tranquil in their district, and every possible precaution was taken to prevent us from getting any information about Konopelka, and finally to prevent us from visiting the church where the bodies lay. I subsequently had conversations with the kaimakams of Palanka and Kumanova, the wali of Uskub and Hilmi Pasha as to the affair. They all excused the soldiers, but the reasons they gave did not agree. One Turkish officer said the people were killed with spent bullets. In Kumanova the day we arrived a Turk killed a three-days old child; and every day produced a murder.

"Some months ago the members of a Serbian band who had been deprived of their weapons were massacred in Kumanova town in front of the Austrian officer's house. In the town of Uskub assassinations on the streets are not uncommon; and we heard of many cases of murders, violations and robberies committed by soldiers and others in the neighborhood and in Latin."

Up-to-Date Dry Goods

To those ladies who care to keep abreast of the times, and not to appear in a new dress made from material that was in style two or three years ago, but is now out of date, we respectfully call attention to **Our entire stock of Dress Goods bought only four months ago** from some of the most reliable wholesale houses in America, and selected by us in person after a careful study of the out-going and in-coming styles.

None of these goods are old, shop-worn, materials bought up at bankrupt sales at cheap prices.

We have no old-style goods to work off.

Our goods are the best of their kind—the best; the most fashionable materials, the stylish colors and patterns, worn this winter in the eastern cities. We carry only three grades—goods, excellent and best in each material.

We will show you what you ask for—

For instance: If you ask for a Broadcloth we will show you the **real thing**, not a Ladies' Cloth or some other smooth finished goods which you might buy for half what a good quality of Broadcloth would cost.

We have good materials which we sell for little money, they look well and wear well, but we do not try to make you believe they are the most expensive goods—sold below cost. If our goods are not what we represented them to be bring them back and we will refund the purchase money.

We have Silks—all prices and all kinds—plain, striped and plaid. We have Velvets, Eoliennes, Crepe, Broadcloth, Tweed, Panama, Melrose, Prunella, Tamise, Sicilian, Mohair, Henriettas, Nun's Veiling, Burlap, and lightweight and heavy Suiting in all the popular colors.

Hundreds tell us our **Diamond Brand Shoes** outwear all others they have ever bought.

Try our Dress Goods also and be convinced that **THE GLOBE STORE** makes good its word every time.

AN OPEN LETTER

To Our Patrons and Friends

We have entered into a contract with Mr. Geo. W. Hickox, agreeing to sell to him our Jewelry Business, including stock, fixtures and good will, Jan. 1, 1936. One strong feature of our agreement with Mr. Hickox is that we promise to reduce our very large and complete stock to the lowest possible point before that date and with this end in view, we will begin, Saturday, Nov. 4, a SPECIAL CLOSING OUT SALE to continue until Dec. 31, at which time we positively retire from the Jewelry business, having arranged to go into the manufacturing lumber business in British Columbia.

Our business in Albuquerque has increased steadily year by year, and grateful for this, we propose for the next two months, to cut out the big end of our profits and to give you such a genuine bargain sale of really fine, high-grade goods, as never has been offered in our city.

We invite you to make your selections now and avoid the rush of the December trade. We have ample vault-room and will gladly lay aside the goods you select, until you are ready for them. We have been in the Jewelry business 26 years, and have never yet advertised a fake sale. In this sale we will offer you rare bargains in Diamonds and Fine Watches. Every sale will be backed by my personal guarantee. Mail Orders solicited and satisfaction assured.

F. E. Baxter, former clerk at the Alvarado, in this city, who recently returned from a trip to the City of Mexico, returned to his home at Buffalo, N. Y., last night. Mr. Baxter will remain east and engage in the hotel business.

Walter Thomas Mills, the noted socialist, will lecture in Library hall Saturday evening, on "Railroad Notes and Socialism." On Sunday evening his subject will be "The City, the Brother and the Fireside." The public is invited. Admission free.

Frank Bowyer, of 615 North Sixth street, is entertaining his mother, Mrs. Mary Bowyer, and brother J. Sherman Bowyer of Dixon, Ill., and his cousin, Ellis Basil, of Latty, Ohio. They arrived in Albuquerque last night and will remain for the winter.

All trains were late last night, which is due to heavy traffic and slow running orders. No. 1 ran in two sections and the second section was held at the yard limits for about half an hour, the yard being filled with freight trains. No. 8 was about ten hours late.

George H. Mosher, Jr., manager of the Home Supply company, was in the city last evening from his headquarters at Los Angeles. Mr. Mosher says that the Santa Fe company is working a large force of men on the west end now, and that after the first of the year it will begin to lay new steel between this city and Gallup.

Summit Markberry, one of the old school of foot runners, who has spent two days in Albuquerque visiting friends, left last night for the City of Mexico. Mr. Markberry has lived for the past several years at Pocatello, Idaho, and is well known all over the country. Markberry was at one time the fastest in the country at fifty yards and has figured in some of the best races ever pulled off.

Rev. Robert McIntyre, pastor of the First Methodist church of Los Angeles, delivered an interesting lecture last night at the First Methodist church of this city. His subject, which was "The Evolution of Abraham Lincoln," was beautifully handled. Mr. McIntyre has a national reputation as a descriptive orator and last night was at his best. He returned to Los Angeles last night.

Bishop J. V. Pitaval, of Santa Fe, arrived in the city last evening. He is the guest of Rev. Fr. Mandari and will remain in the city several days. Next Sunday he will administer the sacred rite of confirmation at all three of the Catholic churches of the city. Large classes will attend each of the churches, where the rites will occur as follows: San Felipe de Neri, 9 a. m.; Sacred Heart, 3 p. m.; and Immaculate Conception church at 7:30 in the evening, where there will be a class of sixty.

The Wilson Heater with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for.
