PROSPECT GOOD FOR A WAR WITH BULGARIA

While Sultan Is Listening to Harangue of Priests Warning of Powers Falls on Deaf Ears.

Constantinople, Dec. 1.—Speaking to the Associated Press today, a prominent diplomat said:

"The people of the United States do not realize the seriousness of the present situation. The tension between the sultan and the powers is growing daily and the general feeling of uneasiness is increasing, though there is probably no reason for anxiety as far as the safety of foreigners is concerned, especially in the capital."

"The powers could not have chosen a more time than the present for their ultimatum. They might wait until the end of the year, when the sultan is expected to return from the festival of Ramadan or during the festival of Bairam."

"The sultan and his ministers are this week engaged daily from 3 o'clock in the afternoon in listening to fanatical discourses by the Mullahs (or priests), who dwell on the past greatness of the Caliphs in a manner which undoubtedly impresses their audience with the impossibility of yielding to the powers."

"These performances will soon be over, however, when matters will probably assume a more sane and normal course; but there is no doubt in my mind that the sultan will need, on this occasion, much succoring. He may be content enough to see certain islands in the possession of the powers rather than see his hold on the last of his European possessions weakened."

"This feeling naturally is shared to a certain extent by the higher army authorities, who would be very much disinclined to see Turkish territory ceded, or anything equivalent to such a concession, without striking a blow."

Turkey Spilling for a Fight.

"Should it be reduced to a question between Turkey and Bulgaria, Roumania or Greece, Turkey would most assuredly be found spilling for a fight. She has between 300,000 and 400,000 men in European Turkey today and she could easily and quickly concentrate 600,000 there."

Although Bulgaria has a well drilled and well equipped army, Turkey's great numerical superiority would count for much."

"Turkey clearly is eager to fight on this matter with the bordering countries and every day that passes without witnessing a settlement makes the present difficulty makes it increasingly harder for either the Sultan or the powers to give in."

American Interests in Macedonia.

"The American minister in Macedonia is somewhat annoyed, for the exception of a few scattered military establishments they hardly extended beyond Salonica and Dede-Agach."

At the great reception November 28, on the occasion of the festival of Bairam, the foreign diplomats were not permitted to occupy the usual seats, but were assigned to others from which they could see nothing. As a consequence most of the diplomats, including the American minister left the hall of audience."

According to reliable reports there have been 800 political murders in Macedonia during the last eleven months."

BULGARIA WAXES INDIGNANT AT POWERS' WARNING.

Sofia, Bulgaria, Dec. 1.—The Bulgarian foreign minister today made a verbal reply to the note presented by Austria and Russia supported by other powers, warning the governments of the Balkan states to observe neutrality during the naval demonstration against Turkey.

The minister expressed surprise that the powers should resort to such an admonition to Bulgaria, which he said had invariably taken a correct position. He said that the existing conditions in European Turkey would continue so long as the Ottoman government continued with the Greeks in the persistent persecution of the Bulgarian population. If the persecutions provoked an outbreak or led to a massacre, the minister said, the Bulgarian government would repudiate all responsibility for the correctness, because it would be impossible to resist the pressure resulting from popular excitement due to sympathy for the Bulgarians in Turkey.

The minister did not conceal his alarm that the financial control of Macedonia by the powers would result in the prevention of outrages against the Bulgarians."

ALBANIANS FURIOUS AT EUROPEAN INTERVENTION.

Salonica, European Turkey, Dec. 1.—It is reported that Albanians yesterday attacked the troops at Luma and captured several cannon, and that Theodor Pasha has gone to Luma with troops. It is stated that the Albanians are furious at the prospect of the European powers taking over the financial control of Macedonia.

GUARDS AT TSARSKOE SELO ARE ARRESTED EN MASSE

Emperor Will Mobilize 450,000 Cossacks Who Alone Are Believed to Remain Loyal.

St. Petersburg, Dec. 1.—The guards arrested at Tsarskoe-Selo Thursday night and Friday morning numbered 250, including 20 officers.

All kinds of rumors are circulated including the assertion that one of the grand dukes is involved in a conspiracy against the emperor, but none of them can be verified. It only seems certain that no confidence can be placed even in the guard regiments. Arrested soldiers are seen every day, escorted by their comrades with drawn swords.

St. Petersburg is swarming with Cossacks, the only troops against whom there is no suspicion of disaffection.

It is understood that the whole Cossack force of the empire, some 450,000, will be mobilized.

A conference was held at Count Witte's residence last night to consider the demands of the telegraphers.

Count Witte has declined to receive a deputation from the telegraph and postal strikers on the ground that they are violating their duty to the state, but he sent a note to the deputation recommending that the strikers address themselves to their immediate chiefs.

REVOLUTIONISTS COUNTED ON COMPLETE SUCCESS.

St. Petersburg, Dec. 1.—The following dispatch from Admiral Choukhin at Sebastopol, dated November 30, was given out tonight:

"The revolutionists counted on complete success, assuring the sailors and soldiers that they could remain loyal servants of the emperor while presenting their demands for a settlement. By acting together, they were told, they could not fail to succeed."

"Only the ring leaders were acquainted with the real objects of the putting forth of the economic protests on service bases, the majority of the men believing that arms would not be employed."

"The crew on board the ships remained loyal. Terrorism including threats of death, was used to force the workmen of the port to strike."

"The temper of war has ceased, but that of revolution is a bad way. People are being led unconsciously into civil war and self destruction."

General Baron Meller Cakomelsk, commander of the Sevastopol army corps at Sebastopol, telegraphed as follows:

"The armed revolt has ceased, all the troops behaved bravely and performed their difficult duty devotedly."

"The number of prisoners exceeds 2,000."

"Excitement prevails among the inhabitants, especially among the Jews, who are being persecuted by the revolutionists and threatened."

"The conduct of the fleet regiment in the capture of the marine barracks was irreproachable, as was also the service rendered by the fleet regiment, the fortress artillery and other troops."

Dragoons Threaten Officers.

Berlin, Dec. 1.—A special from Eydtkuhnen, on the eastern frontier of the Russian province of Pomerania, says the Eighth regiment of Russian dragoons has been in a state of mutiny since yesterday, threatening death to the officers unless the pay of the men is raised. Another dispatch from Warsaw says the Fourteenth regiment of dragoons at Ostroleka, Russian Poland, has mutinied.

Government Is Powerless.

St. Petersburg, Dec. 1.—The crisis which has been continuing the last throughout Russia is practically complete and the government does not know what is happening in the interior of the empire. Embassies of strikers have been sent to Finland to induce their companions to join in the strike. This would cut off cable communication which remains open to press and government messages, although the central office here is nominally closed. As much as the government would like to resist, it is powerless.

Panic on the Bourse.

St. Petersburg, Dec. 1.—The frightened public continued the unquiet stock on the Bourse today, but bankers in view of the better outlook took the offerings and prevented a bad break, although imperial funds closed one-half point down.

Wires Open Again.

Washington, Dec. 1.—Telegraphic communication with St. Petersburg has been restored, the state department having received a routine message from Mr. Eddy, charge d'affaires there this morning.

Factories Closing Down.

Warsaw, Dec. 1.—No newspapers are being delivered here today. The authorities have received a telegram from postal employees that they will be dismissed if they do not resume work. The situation is so bad in the Lodz district that many foreign factories have closed down and are handing over buildings and machinery to the care of the authorities prior to leaving the country.

Finland Operators Out.

Stockholm, Dec. 1.—Address received here say that the telegraphers of Finland have joined the strike of Russian operators. The Associated Press is informed from London that the Great Northern Telegraph company lines in Finland are still working.

Dr. McLeod's Case Goes Into Jury's Hands.

BACK BAY PHYSICIAN DENIES DISMEMBERING BODY

Charged With Being Accessory to Performance of Criminal Operation on Susan Geary.

Boston, Dec. 1.—The jury which has been hearing the evidence at the trial of Dr. Percy de Mille McLeod, the Back Bay physician, who is charged with being accessory to the performance of an illegal operation upon Susan A. Geary, the dress suit case victim, retired to consider the testimony at 4:45 o'clock this afternoon. Judge Stevens, before whom the case has been tried, instructed the jury to the verdict, should one be reached tonight, and present it tomorrow morning.

The proceedings today furnished a dramatic climax to an already sensational case. Dr. McLeod in his own defense testified that he did not dismember the body of the chorus girl. He denied that he had ever had any connection with the "Mrs. Dr. Bishop" offices, where the illegal operation is said to have been performed, and swore that he had never been inside the Winthrop street house where the girl died, until summoned to perform an operation to save Miss Geary's life. According to Dr. McLeod's testimony, he was called to the Winthrop street house by Dr. J. H. Peters, who a few days ago testified that he was summoned there by Dr. McLeod. He testified that his only connection with the case was the performance of an operation known as laparotomy, the only hope, he claimed, of saving the woman's life.

Life Preservers Floating Among Wreckage Alone Tell Tale of Awful Lake Tragedy.

Chicago, Dec. 1.—The steel steamer Ira H. Owen, carrying a crew of 19, is believed to have gone down with all hands during the recent storm on Lake Superior. The Owen was last sighted last Tuesday by the steamer H. B. Nye while off the Apostle group. The Owen was showing distress signals and seemed to be in a bad way. The Nye was almost helpless in the terrible storm and could do nothing to assist the Owen which was soon lost to sight in a blinding snow storm. When the storm cleared two hours later, the Owen had disappeared.

Today Captain M. K. Chamberlain of the steamer Sir William Siemens reported at Ashland, Wis., that yesterday while twelve miles east of Michigan island he ran into a mass of wreckage, consisting of chains, stanchions, the top of a cabin and other debris. Floating in the middle of the wreckage were a number of life preservers marked "S. S. Ira H. Owen."

The owners of the vessel in Chicago have given up hope of the steamer ever reaching port. The crew of 19, the names of the following are known: Joseph Mulligan, Buffalo, captain. Thomas Honner, first mate. M. Hagerty, second mate. H. Buchanan, third mate. J. B. Alger, second engineer. H. N. Hook, oiler. J. Jacobson, wheel man. L. Montry, wheel man. H. J. McKay, lookout.

The Owen had a cargo of 116,000 bushels of barley. She was built in Cleveland in 1887 and was insured for \$100,000. Her cargo of barley was also insured.

Train Stalled in Blizzard.

Minneapolis, Minn., Dec. 1.—Train No. 18 on the Minneapolis-St. Paul and Sault Ste. Marie railroad arrived here last night after being stalled three days on the Dakota prairie in a blizzard with the temperature as low as 26 below zero. The train was heavily loaded with passengers, but the cars were warm and as food was sent from a nearby station, they did not suffer except from delay.

Florida Town Wiped Out.

Tampa, Fla., Dec. 1.—Practically the entire business portion of the town of Arcadia, Fla., was destroyed by fire today. The loss was \$250,000. Every business house in town except three brick buildings, the King, Sew and Desoto blocks, was destroyed.

Hurricane in Brussels.

Brussels, Dec. 1.—A terrible hurricane swept over this city last night. Thousands of windows were blown in and the streets today were strewn with wreckage.

PECCOS JUDGE ARRANGS GOVERNOR

OFFICEHOLDERS ALONE ARE HOLDING UP STATEHOOD

"The Most Extravagant Administration on Record."

Special to the Morning Journal.

Roswell, N. M., Dec. 1.—"I am in favor of the joint statehood of New Mexico and Arizona, if it can be secured on terms which are fair and equitable to both territories. It seems to me that the time has come, when the long agitated statehood question should be settled."

Herbert J. Hagerman, the newly appointed governor of New Mexico, thus prefaced an interview with the Morning Journal's correspondent here today, in which he declared himself firmly in favor of the merger bill which will be brought before congress at the coming session.

"Its agitation for many years has done New Mexico great harm," he continued, "by creating an unsettled state of feeling, prejudicial alike to our political and material interests. To have the question properly settled once for all will do vast and far-reaching good. The people would know what their permanent political future is to be, and they would resolutely set themselves to work to adjust themselves to it. The new state would be large enough and have a sufficient population to command the respect of people in other states. It would call out the energies of the best men and it would be the beginning of a new and better life in political, social, educational and industrial affairs."

"The facts and reasons favoring jointure are in their nature permanent. They look to the long future. They have their roots deep down in good reason and are based on conditions as they naturally exist. I think that the main question before us, namely, will joint statehood with Arizona be for the ultimate good of both territories, cannot be properly discussed without eliminating from it all considerations of a local, sectional, personal and transient character. The main issue is fundamentally one of mutual advantage to the people of the two territories, as it has likewise been obscured by some of the advocates of single statehood arguments which at best are purely local. Such discussions serve only to confuse the minds of people who are truly seeking such light on the subject as will enable them definitely and correctly to make up their minds. After eliminating these questions there is still a chance for an honest difference of opinion but I believe, when considered from the broad standpoint of our best future welfare, a majority of the people in this territory will declare in favor of jointure, if congress gives them an opportunity to do so. Because of the larger opportunity which joint statehood would give us and the higher and broader duties which it would force upon us, the difficulties incident to the change would soon be forgotten and we should quickly adjust ourselves to the opportunity to become a worthy member in the family of great and influential states. We must not forget that single statehood for either New Mexico or Arizona is extremely improbable for a long time to come. How long they would have to wait, if joint statehood is not secured, no man can tell. The reasons for this it is not necessary to discuss. It is enough to know that they exist and that nothing that we can do now will change them. If single statehood is not only better in itself, judged from the standpoint of the future, but it is the only change from our present status which is possible, or, at least, probable under present conditions. If a joint statehood bill is passed by the next congress and if it is signed by the president, and if it is fair and liberal in its terms, then I think it ought to be cheerfully and properly accepted by the people of the two territories. Its discussion under its terms ought to be kept from the consideration of the people of the two territories, and the administrative body (the interstate commerce commission) with ample power to forbid combination that is hurtful to the public, and to prevent favoritism to one individual at the expense of another. In other words, we want an administrative body with the power to secure fair and just treatment as among all shippers who use the railroads—and not all shippers have a right to use them."

Wants Quick Action.

"We must not leave the enforcement of such a law merely to the department of justice, but out of the question for the law department of the government to do what should be purely administrative work. The department of justice is to stand behind and co-operate with the administrative body, but the administrative body itself must be given the power to do the work and then held to a strict accountability for the exercise of that power."

"The delays of the law are proverbial, and what we need in this matter is reasonable quickness of action."

"The abuses of justice have a genuine right to complain take many shapes. Rebates are not often given openly. But they can be given just as effectively in covert form, and private cars, terminal facilities and other advantages are given to favored shippers. These must be brought under the control of the commission or administrative body, which is to exercise supervision by the government."

"But my opinion is the most important thing to do is to give this administrative body power to make its findings effective, and this can be done only by giving it power, when complained of, to make full and exhaustive investigation of the receipts and expenditures of the railroad, so that any violation or evasion of the law may be detected."

Won't Accept Compromise.

President Roosevelt will not accept the Foraker proposal or any other compromise. The administration's bill, will, all probability, be first introduced in the senate, and when passed, will go to the house, where there is no doubt of its being adopted without amendment.

Newspaper reports from day to day chronicle stories from Washington to the effect that there will be a big fight among republican senators on railroad rate legislation, when the issue comes up for consideration. While there are a number of reconcilers in the administration's camp now, they are gradually coming over to the president's idea of thinking.

OWED THE BANK LEESBURG DAM \$500,000 IS A GO

PENNSYLVANIA DEVELOPMENT COMPANY WAS IN DEEP

About \$825,000 May Be Saved From Enterprise Wreck—Criminal Action Threatened.

Pittsburgh, Dec. 1.—The Post tomorrow will say that the Pennsylvania Development company, which controls the Lehigh Valley Central railway and other enterprises in New Mexico, owes the Enterprise National bank between four and five hundred thousand dollars. The books of the company have been audited and correspond with those in the bank. Receiver Cunningham, who has been in charge of the institution since its reorganization, has been asked to have the receiver's audit. The facts are now reported to be in the possession of the new receiver, Thomas Rinkner. Whether proceedings will be entered against the company is not yet known. W. C. Hagan, secretary and treasurer, said the report was incorrect. It was learned today that perhaps \$825,000 would be saved from the wreck of the closed bank, which means little for the 3,500 depositors, but would be a great relief to the state treasurer, who has been asked to have the directors and the state forced to share as an individual depositor. There will be less than ten per cent for distribution.

John B. Cunningham, who was temporary receiver of the bank, said tonight that as soon as Special Examiner Morley returns to the city early next week action will be taken for the institution of criminal suits against persons concerned in the wrecking of the bank.

ELECTION IN CUBA PROVES A TAME AFFAIR.

Havana, Dec. 1.—The political agitation which began six months ago with the national convention of the Liberal party and which has dwindled into the withdrawal of General Jose Miguel Gomez, the presidential candidate named by that convention, ended today in an election that was so quiet and uninteresting as to cause scarcely a ripple of excitement.

The withdrawal of the Liberals from all nominations as a protest against alleged injustices by the government and the people in conducting the primaries left a clear field for the moderate and every moderate nominee was elected from President Palma to the provincial councillors.

Secretary of the Interior Freyre Andrade, who is in constant receipt of telegraphic reports from all sections of the island, informed the Associated Press tonight that he had received no advice indicating the slightest disorder anywhere.

Washington, D. C., Dec. 1.—Secretary Hitchcock today deformed the New Mexico delegation here that the sub-project of the Rio Grande project, embracing about forty thousand acres near the Leesburg diversion dam would be taken up by the government immediately, provided the people of that section would guarantee to return to the reclamation service the two hundred thousand dollars representing the cost of the project, within two years. This was perfectly satisfactory to the delegation and papers have been drawn up between the department and the delegates which clinches the matter.

CONTRACTS LET FOR WORK ON THE HONDO PROJECT.

Special to the Morning Journal.

Washington, D. C., Dec. 1.—Secretary of the Interior Hitchcock today signed a contract with Wood, Barton & Dool, the well known contracting firm of Omaha, Neb., for the construction of embankments three and four of the Hondo project in the Pecos valley of New Mexico. The secretary has also approved the bond of the contractors, whose bid for the work was \$36,908. Work on these embankments will begin at once and will be rushed to completion as rapidly as possible. New Mexicans from the Pecos valley in this city express great satisfaction over the prospects for irrigation in eastern New Mexico. It was only this week that the department of the interior took full charge of the Carlsbad project further down the river, and the prompt action in going ahead with the big system at Roswell means that the government is taking a special interest in the reclamation of this part of the southwest.

Philadelphia, Pa., Dec. 1.—Two were killed and about a dozen others were injured in the wreck of the Philadelphia express on the Central railroad of New Jersey last night near Penn Haven Junction, about 100 miles north of Philadelphia. ROOSEVELT STANDS PAT ON RATE BILL

Demands Unconditional Surrender From Railways.

PRESIDENT WON'T CONSIDER COMPROMISE FOR A MOMENT

Senators Frye, Hall, Proctor and Dillingham Have Been Won Over to the Administration.

Correspondence Morning Journal.

Washington, Nov. 29.—It is certain that a bill for government control over railroad rates will be passed by congress at this session of congress. The people of the country can safely pin their faith to this prediction.

President Roosevelt favors the passage of a bill along the lines of his argument presented in his speech at Raleigh, N. C., October 19. In this speech the president said, in part:

"I do not believe in government ownership of anything which can with propriety be left in private hands, and in particular I should most strenuously object to government ownership of railroads."

"But I believe with equal firmness that it is out of the question for the government not to exercise a supervisory and regulatory right over the railroads; for it is vital to the well-being of the public that they should be managed in a spirit of fairness and justice toward all the public."

"Government supervision is needed quite as much in the interest of the big shipper as it is in the interest of the small shipper and the consumer."

"Experience has shown that the present laws are defective and need amendment. The effort to prohibit all restraint of competition, whether reasonable or unreasonable, is unwise. What we need is to have some administrative body (the interstate commerce commission) with ample power to forbid combination that is hurtful to the public, and to prevent favoritism to one individual at the expense of another. In other words, we want an administrative body with the power to secure fair and just treatment as among all shippers who use the railroads—and not all shippers have a right to use them."

Wants Quick Action.

"We must not leave the enforcement of such a law merely to the department of justice, but out of the question for the law department of the government to do what should be purely administrative work. The department of justice is to stand behind and co-operate with the administrative body, but the administrative body itself must be given the power to do the work and then held to a strict accountability for the exercise of that power."

"The delays of the law are proverbial, and what we need in this matter is reasonable quickness of action."

"The abuses of justice have a genuine right to complain take many shapes. Rebates are not often given openly. But they can be given just as effectively in covert form, and private cars, terminal facilities and other advantages are given to favored shippers. These must be brought under the control of the commission or administrative body, which is to exercise supervision by the government."

"But my opinion is the most important thing to do is to give this administrative body power to make its findings effective, and this can be done only by giving it power, when complained of, to make full and exhaustive investigation of the receipts and expenditures of the railroad, so that any violation or evasion of the law may be detected."

Won't Accept Compromise.

President Roosevelt will not accept the Foraker proposal or any other compromise. The administration's bill, will, all probability, be first introduced in the senate, and when passed, will go to the house, where there is no doubt of its being adopted without amendment.

Newspaper reports from day to day chronicle stories from Washington to the effect that there will be a big fight among republican senators on railroad rate legislation, when the issue comes up for consideration. While there are a number of reconcilers in the administration's camp now, they are gradually coming over to the president's idea of thinking.

Magistrates to Write Feather.

The railroad managers are ready to surrender and in fact have practically sent their capitulation to the president.

The attorney for a great railroad system, on behalf of his own and other allied companies, has outlined to the president a measure they will accept, and it is in effect the bill that the president demands.

The completeness of the rout of the anti-administration forces was indicated last evening by the statement, on high authority, that four New England senators who have been placed in all the lists as opposed to the regulation bill, had sent word to the White House that they were in line for the measure. The names mentioned in this connection were Frye and Hale, of Maine, and Proctor and Dillingham, of Vermont.

Developments Come Fast.

Affairs have been moving with giant strides since the senate committee on

Inter-state commerce began holding its sessions. More speedily than any advocate of the rate regulation could have hoped, the opposition has melted away and left the assurance that the senate committee will report, the senate will pass and the house will accept, a bill embodying the plan which the president advocates.

There is no compromise in sight. The president made it plain to his opponents that it was useless to discuss anything of the kind, for he would not consent to it. His backers in the committee were equally insistent on this point.

There is one thing certain, and that is, when the administration's bill comes up before the senate for consideration no republican senator can afford to go before the country as being opposed to the measure. The country is abashed over this question, people regardless of party affiliations are demanding in emphatic terms that congress stand by the wishes of the president. Any senator or representative who goes out record as opposing the president's views will very likely suffer defeat for re-election and be relegated to obscurity.

PECOS JUDGE ARRAIGNS GOVERNOR

(Continued From Page 1, Column 1.)

The territory, who is also a candidate for a third term, declared at a banquet recently given to the governor by his appointees that he was in favor of the governor not only for a third term, but for as many terms as he desired, and the governor, of course, entertains the same sentiment toward the chief justice. The Otero administration will go down into history as the most extravagant one that the territory has ever experienced.

PEOPLE BELIEVED TO GET BUSINESS-LIKE GOVERNOR

"The president will never render the people of New Mexico a better service than his appointment of Herbert J. Hagerman to the position of governor. Mr. Hagerman is a young man of extraordinary executive ability, quiet and unassuming, and it will be a great relief to the people of the territory to have a purely business administration take the place of the one characterized by petty politics. Mr. Hagerman's appointment will give general satisfaction to the people of the territory."

"The great masses of the people in New Mexico of both parties are extremely friendly to Mr. Hagerman. Roosevelt, they admire his free, frank, and fearless manner. They are particularly in favor of his policy on the rate question. Being citizens of the territory rather than a state, they do not enjoy the protection of the present inter-state commerce legislation."

"If we could be admitted into the union with Arizona, the new state would soon become one of the best of the sisterhood; but we are confronted with a solid phalanx of office holders who desire to defeat the creation of a state which they cannot control. They should be a change."

"If officeholding is honorable and profitable, two terms, or eight years, are as long a period as one citizen should expect to enjoy; and if it is a burden, it is as long as any one citizen should be required to bear it."

"Things got into a rut, especially in a territory like New Mexico, situated remotely from the seat of government. It was Charles L. Leide, who said that even the best of citizens need occasionally to be burned out. I prefer the way that Mr. Roosevelt puts it, and it was not for roasting an old chestnut, but I would like to see that if the president is to redeem his promise to give New Mexico a 'square deal,' he will have to use a new deck."

New Appointments.

George L. Vaughn has been appointed postmaster at Columbus, Luna county, New Mexico, vice Frank M. Gough, resigned. Thomas J. Holmes has been named for the office at Gallup, Luna county, in the place of Annie E. Rogers.

William G. Brown, of Carlsbad, N. M., has been issued a patent on a nut splitter.

Among New Mexico visitors in Washington, are Mr. and Mrs. C. N. Cotton, of Gallup, and Mr. and Mrs. King Seabury, of El Paso.

RECOUNT OF NEW YORK BALLOTS HAS BEGUN

Order Issued by Justice Amend in the Supreme Court.

New York, Dec. 1.—The recount of ballots in five New York counties in the New York contested majority election was ordered to be begun today by Justice Amend in the supreme court. Justice Amend modified his original order so as to limit the canvassing to the candidates for mayor, comptroller and president of the board of aldermen, and also to eliminate from the recount the void and protested ballots.

Fatal Trolley Collision.

Los Angeles, Cal., Dec. 1.—Ex-Congressman James P. Davenport was killed and seven other persons more or less seriously injured in a collision between a northbound traction trolley car and a westbound Washington street car this afternoon.

Counter Place in Ashes.

Hempstead, L. I., Dec. 1.—The country place of J. Clint Smith at East Meadow Brook was destroyed by fire late last night.

All the bric-a-brac and china, paintings and furniture were destroyed. Loss \$100,000.

Vega a Total Wreck.

Northport, Mich., Dec. 1.—The steel steamer Vega, a total wreck on Fox Island at the foot of Lake Michigan. The crew of nineteen men was taken off by Indian fishermen and brought here last night. The Vega ran on Fox Island during a heavy snow storm and shortly afterward broke in half.

Western Star Grounded.

Chicago, Dec. 1.—The large steel steamer Western Star, is ashore 16 miles east of Antigonish, Mich., on Lake Superior. She ran ashore during the snow storm last night.

Weyer to the Rescue.

Madrid, Dec. 1.—The disturbances at Barcelona are more serious than they have been reported. General Weyer, of Cuban fame, left this afternoon to restore order.

GIRL'S SECRET.

"Aunt Cassie came to visit us and she saw I was nervous, had the fidgets all the time, and she asked me many questions, and finally said, 'Why, you dear, sweet girl, it's not your temper that's bad, it's your constitution that's out of kilter. You sit right down now and write a letter to Dr. Pierce, at Buffalo, N. Y., tell him all your symptoms—and so I did. It wasn't long before I had a long reply, carefully going over my case and telling me just what to do. I date my present happiness and little Cupid's return to the very day I sat down to write that letter to Dr. Pierce, for his advice was so good and his 'Favorite Prescription' worked such a complete change in me that now my former cheerfulness and good health—lost to say anything of good looks—are restored to me. I have summoned Tom back to my side and we are to be married in June.'"

The proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

It is natural that a woman who has been cured of womanly diseases by "Favorite Prescription" should believe that it will cure others. It is natural too that she should recommend to other women the medicine which has cured her. It is such commendation which has made the name of Dr. Pierce's Favorite Prescription a household word for the past thirty-eight years.

FORMER KOREAN MINISTER CUTS HIS OWN THROAT

Personal Aide to Emperor Commits Suicide.

Seoul, Dec. 1.—Min Yung Whan, a personal aide to the emperor and a cousin of the late queen, committed suicide this morning. He was a special envoy from Korea to Queen Victoria's jubilee and the coronation of Emperor Nicholas II. of Russia.

Within the past few days Min Yung Whan headed a body of 200 officials who gathered first at the palace and later at the supreme court to protest against the Japanese protectorate. The emperor ordered them to leave both the palace and the court. Realizing the hopelessness of his cause, Min Yung Whan went early this morning to the house of an old retainer and cut his own throat. He was popular with foreigners and natives and his suicide has greatly affected local sentiment.

The streets are thronged with the whistling, but orderly crowds.

Leader of Pro-Russian Party.

London, Dec. 1.—The Seoul correspondent of the Daily Telegraph says that Min Yung Whan, a former member of the Korean ministry, has committed suicide. He was at one time the leader of the pro-Russian party in Korea.

LEADS CLEAR OUT OF ROCK ISLAND

Severs All Connection With the Corporation.

Chicago, Dec. 1.—The Record Herald tomorrow will say:

"William B. Leide, whose meteoric rise in the world of finance and railroad caused comment the country over only a few years ago and who served for a time as president of the Rock Island railroad, has severed all connections with the Moore Brothers and D. C. Reid, Leide's real estate broker, who has resigned as a member of the executive committee of the Rock Island and as a member of the board of directors has been tendered and accepted. The Leide family has been due to friction which has existed for some time and which grew to such proportions that it could be no longer kept within business bounds."

ARGUMENTS BEGUN IN CASE AGAINST COLONEL GREENE

Aldrich's et al. Want a Reversal for the Coburn Company.

Washington, Dec. 1.—Argument was heard by the supreme court of the United States today in the case of J. Edward Aldrich and A. W. Halliburton vs. the Coburn Grand Copper Company of Arizona, the Electric Copper Company, W. C. Greene and others. Aldrich and Halliburton are stockholders in the Coburn company and they ask the appointment of a receiver on the ground that the officers of the company have been actually engaged in the sale of the Coburn company's Mexican mines to the Greene company. They claim that the property involved is worth \$5,000,000.

NO ONE NAMED TO SUCCEED VICE PRESIDENT KENNA

Mr. Ripley Says He Hasn't Even Thought About It.

MR. KENDRICK SAYS BONUS SYSTEM IS SATISFACTORY

Watching Experiments With Motor Cars--Nicholson Talks on Dry Farming.

Topeka, Dec. 1.—"Nothing has been done yet," said Mr. E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railroad company, "towards filling the vacancy in the office of first vice president of the company, which has occurred through the resignation of E. D. Kenna."

"Is it probable that the company will again name one of its legal force as first vice president?" Mr. Ripley was asked.

"Mr. Kenna was not general solicitor of the company at the time of his resignation," replied Mr. Ripley. "He was first vice president. He had given up the duties of general solicitor many months before. But as to what will be done with the first vice presidency, I do not know. The matter has not been considered at all."

Mr. Ripley arrived in Topeka from the west on a special train of four cars just before 3 o'clock yesterday afternoon. With him were J. W. Kendrick, second vice president of the company, George T. Nicholson, third vice president, Charles N. Sprague of Chicago, a guest of Mr. Ripley, and J. E. Hurley, general manager of the company. Mr. Ripley and his party, with the exception of Mr. Hurley, who met them at Albuquerque, have been on an extensive tour over practically the entire Santa Fe system.

Mr. Ripley and his party passed an hour and a half here yesterday afternoon. While they were here Mr. Kendrick and Mr. Hurley were met by W. B. Storey, Jr., chief engineer of the system, F. C. Fox, general superintendent of shops, made a brief tour of inspection of the shops.

"We have had a splendid trip," said Mr. Ripley, "and the condition of our property all along the line is excellent. In fact our property was never better before or in better shape or more prosperous. To be sure we are experiencing some difficulties, particularly in the shortage of freight cars, but then we are not as bad off as a good many other roads in this part of the country."

WILL ENLARGE THE PAINT SHOPS IN TOPEKA

After his trip through the shops Mr. Kendrick was asked what, if any, improvements were to be made there and smiling in that outlandish way of his replied: "Oh, we have just been down around the yards to enjoy the scenery. We were not thinking of improvements."

Mr. Kendrick then admitted that he and the other operating officials of the road were contemplating some improvement in the shops but said that these improvements would be limited to an extension and enlargement of the paint shops.

"The shops here are in fine condition," said Mr. Kendrick. "In fact the shop conditions all over our system are in better condition now than ever before. The bonus system, which was established recently at Albuquerque is working well and it will not be long before we have that system established in all of our shops."

ANOTHER ORDER FILED FOR 80 NEW ENGINES

"We have placed an order with the Baldwin Locomotive works for 80 new engines to be delivered to us during the early months of next year. Twenty of these will be of the Santa Fe type, 12 will be of the standard type and the rest will be divided among the Atlantic and Pacific types for passenger service. This order of 80 engines is of course in addition to the 95 engines we ordered for this year. Most of these engines have been delivered. We are unusually well equipped with motive power now."

Mr. Kendrick was asked what experiments if any the officials of the Santa Fe were carrying on with gasoline motor cars to be used on branch roads for local passenger service.

"Not any," was the reply, "but we are keeping in close touch with the experiments that are being carried on by other roads. When the success of these cars is established then we will take them up. I personally think that the most feasible of these cars are not the ones that are built specially for this kind of service, but the ordinary car to which is attached the necessary motors. Experiments with these motors are being carried on now and some of them have been successful. Equipping an ordinary car with these motors costs about \$4,000, while to construct one of these special motor cars costs about \$22,000. This is quite a difference and one that ought to be reckoned with. But we have done nothing yet towards securing motors for any of our cars or ordering special motor cars."

Third Vice President Nicholson was asked if it was the intention of the Santa Fe to establish in some of the arid parts of the country some model farms and run them on the Campbell system of dry farming, so as to show prospective home seekers just what can be done with apparently valueless land.

"This has been talked over," said Mr. Nicholson, "but nothing has been decided upon. I think the Campbell dry farming system has a wonderful future. In my opinion it will be the means of reclaiming untold acres of land that is now looked upon as worthless. Its exploitation would be a good thing and we may establish some of these model farms along our line in Colorado."

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

Let's Have It Now

HOSE politicians who have been crying for statehood for the last ten years fear the results of joint statehood to their own political ambitions, and are now opposing statehood, well knowing that single statehood is simply impossible, so they oppose any statehood at all. There are others who represent special interests and who control legislation that are likewise opposing statehood because they know their power will vanish when Arizona comes under constitutional government. The cry of these people is, wait, put off the day of home rule and statehood, put it off indefinitely unless we can have matters our own way and to our own liking. These few individuals care little or nothing for the people, for the interests of Arizona at large, but are simply looking for their own selfish purposes and self interests. The people of Arizona want statehood and they want it now. They have waited these many years and are prepared to receive statehood on the best terms that congress will give. Let's have statehood. Let's have it now.—Tucson Star.

Where the Blame Lies

PENNSYLVANIA has been for many years the worst gang ridden state in the Union, with more graft and skulduggery than would be necessary to down a half dozen ordinary states, but the Philadelphia Public Ledger impresses upon the minds of the people in very plain terms, that the responsibility for this disgraceful condition of things rests upon their own shoulders. The Ledger says "it was insolent to apportion Quay; it was also disgraceful for the people of Pennsylvania to elect to the Legislature, year after year, Quay's men, and maintain them there in all their arrogance. It is easy and convenient and soothing to the complacent and self-righteous to denounce the machine and the gang for all the monstrosities of recent Pennsylvania political history, but it may be profitable for us to regard ourselves and ask, How did this gang and machine do all these things with six millions of virtuous freemen looking on?"

"This republic has a history of but little more than a century. It was born in the enthusiasm of freedom and under the impulse of virtue and high ideals. And yet it a little while we had forgotten our destiny and mission and our rights and duties as Americans. Among people so remote and time and subsidence would it not be well for a time to retain a reminder of the weakness of American civic virtue, and what better reminder of our fallible nature could there be than a statue to Quay?"

"In the heat of religious strife Servetus was burned to death by the Calvinists, and long years after the Protestants of Geneva, who felt that an odium justly rested upon them for the murder, erected an expiatory monument, which stands where all the world may see it. And so, if the Quay statue shall be erected, it may perhaps be of value to succeeding generations, who can extract from the history of these times the story of our great default, and also the warning that free governments are not automatic, but depend upon the continuing sacrifices and labors of patriotic citizens at all times, in peace as well as in war."

"Baled Hay" Education

PRESIDENT G. STANLEY HALL of Clark University recently discussed the defects of the American college before an audience consisting largely of professors and students from Columbia University. According to the published report the novel heads of Dr. Hall's arraignment were the following:

Our professors devote too much time to the examination of the students, so that they have no time for individual work.

In the old days boys went to college because they wanted to, and not because they were sent there.

We ought to have a reform in the excessive care of entrance examinations.

Colleges ought to be open to every one who can profit by the privileges.

That a man can read the Bible in English is a sufficient entrance examination.

What the student wants is something everybody does not know.

The utilitarian studies prosper while the culture studies are neglected.

Knowledge is getting to be like baled hay.

Dr. Hall particularly asked attention to the Leland Stanford University, where "there is practically no entrance examination." There was once a Slater, he said, working on the college buildings who is now a professor of mathematics. A boy who chased a rabbit into the laboratory is a distinguished biologist.

It Makes a Difference

SENATOR DEPEW, of New York, has put himself in a very pitiable attitude before the public by his testimony before the Hughes committee. According to the interpretation put upon his language by the Springfield Republican, Mr. Dewey "had not considered" political contributions from trust funds as wrongful, but now that "the opinion of the public on the subject seems to have changed," he is more doubtful and open to conviction. He had not thought of any impropriety in granting a salary of \$100,000 to one so young and inexperienced as James H. Hyde, but "conditions at that time were not such as prevail since the general discussion and attention which has been called to these matters," and Mr. Dewey now considers the question so far open to argument that he finds great difficulty in expressing the exact idea which moved him to help along that little job against the Equitable's income. It may also be added that he did not see any necessity of hurrying up that restoration of money borrowed from the insurance company to help the tottering Dewey improvement company until public attention was called to the matter. Then he cut short a European vacation to see that an improper act was righted.

THE Odell men assert that Thomas F. Ryan, the traction magnate, who controls the Washington Life Insurance Co. and the Equitable, and is also to control the Mutual, is back of the Platt attack on Governor Odell. They assert that Mr. Ryan's influence is paramount in Tammany Hall and that he has inspired the republican revolt because the election of November 7 last was practically a drawn battle.

IT is scarcely credible that crowded, free trade England is to have the most prosperous winter known for years.—St. Louis Post-Dispatch.

OUR GROWTH IN FINANCE.

United States Holds Two-Thirds of Banking Power of the World.

(C. M. Harvey in Leslie's Weekly.) With only a twentieth of the world's inhabitants, the United States has two-thirds (\$14,000,000,000) of the world's banking power (capital, surplus, deposits and circulation). Our ascendancy here has been obtained in the past two decades. Since 1890 the world's banking strength has grown 165 per cent, while that of the United States has expanded 170 per cent, and that of New York City 200 per cent. Of the \$2,500,000,000 of the weekly average of the bank clearings of the ninety-three cities which make reports New York City contributes two-thirds. New York City's bank clearings average 25 per cent in excess of London's.

And the greater part of this stupendous banking growth in New York City and the United States in general has taken place within the easy recollection of thousands of persons who, in their various employments, are still actively at work. Contemplating the vast expansion which has given the United States a long lead over all other countries in manufactures and mining, which has placed American products in every market on the globe; which has built up in this country a railway system which comprises two-fifths of that of the entire earth, and which has increased the country's wealth from \$500,000,000 in Washington's days, to \$10,000,000,000 in Roosevelt's, the American banker using the words of Aeneas, can say, "All of this I saw, and part of this I was!"

Hard Lot of Smokers.

From the Hartford Courant. This is getting to be a bleak world for the man with the cigar. Even if he takes to the woods, the state forester or fire warden will drop down on him and put him to rout and to shame for daring to subject the community to the risk of a conflagration. At the hotels and cafes certain rooms are set aside for the men who want to smoke. Immediately these are invaded from the women and some of the women from their disapproval if a poor man dares to light a cigar or cigarette in their presence. Street car officials, probably smokers themselves, have considerably assigned to the men who sit in the open cars to the men with the cigars. These are at once preempted by the women, though all the front seats may be empty. Into the smoking cars on the railroad trains come the women sometimes and the cigars must then be thrown out of the window or dropped to the floor. On board ship the women find the smoking saloons the most attractive parts of the vessel. Some smokers may disregard their presence, but others who may admire this exhibition of temerity dare not imitate it. At home his wife reminds the man that his old cigar is smoldering up the whole house and filling the curtains with foul smelling smoke that refuses to be shaken out. In pleasant weather he takes to the veranda; his neighbor's wife and the women are sure to get on the leeward side of him and he must either throw down his cigar or see the smoke blown in their faces. Where can he go and what can he do? Perhaps after a while he'll begin to put up signs like this:

"Persons who do not smoke will please not occupy these tables or seats to the exclusion of the smokers. Persons to whom clear smoke is in any degree objectionable will please occupy the chairs and tables in the other rooms."

This is not an arraignment of the fair sex; it is merely a plea for the oppressed. The man is at most times as pleased to have the women around as they are pleased to be around, but there are moments when even the most delightful company could be spared. There are places, dedicated to the man and his cigar, where he would really like to be able to smoke at ease and with a tranquil mind.

Pay of Actors in Europe.

According to a writer in the Neue Zeit, in Berlin there are twenty-five theaters open on the average for ten months. These theaters employ about 1,500 persons, of whom 1,024 receive from nothing to \$250 monthly an average of \$300 yearly; 252 persons receive from \$250 to \$1000 per month, an average of \$745 per month; 222 persons receive over \$1000 a month, an average of \$2,240 per month, which high average is produced by the one or two very high salaries. In the Viennese and Hamburg theaters the results are about the same as in Berlin. One hundred persons with a yearly average of \$2,240 per month, 110 with \$745 and about 600 with \$300 per month. In all the other theaters the number is 1300 persons with \$1750 income per year, 700 persons with \$750 and about \$1600 with \$400. If now we take into consideration the artists of every description, including the salary derived from summer engagements, we find that 16.5 per cent have an income over \$200, 12.5 per cent between \$100 and \$200, 43 per cent between \$250 and \$400, 20.5 per cent between \$200 and \$250, 5 per cent up to \$200 and 2.5 per cent receive nothing. The average income of the 18,250 persons was \$470 per year, or a monthly income of \$40.

The writer in the Hamburger Nachrichten, gives his analysis of conditions in France. According to this authority France supports 30,000 theatrical people. But, as the German writer observes, the public has no idea how unevenly the wages are distributed. It is constantly being proclaimed that Coquelin earns many hundred thousands of francs each year; that Sarah Bernhardt, at the Renaissance theater receives \$300 for every night's performance; that Madame Rejane is paid \$160 for every night in vaudeville, and the opera stars are as generously rewarded. For example, Laila receives \$2500 per month; Lucille Koske, \$1200, and his brother, \$1000 per month. But when these salaries are paid not much is left for the lesser lights. Of the different classes of stage artists the opera singers are the best chances, for the person does not become ill, he or she may reasonably count on a care-free life. Even in the French provinces tenors earn \$200 to \$1400 per month, and his comic counterpart \$200 to \$300 per month. The case of the actor, however, is different. If we do not consider the public favorites, an actor of the first rank only makes \$150 to \$200 in the provinces per month. In Paris the same is true. For the lesser lights, in both drama and opera, the average salary is \$40 per month, and even less. Those who fare the worst, however, are the actors and singers in the cafes. At these places the best paid persons only receive \$300 to \$400 per month, but the wages of the others are on the average but \$40 to \$50 per month.—Public Opinion.

SEALSHIPT OYSTERS

PURE FOOD

The only absolutely fresh, wholesome, appetizing oyster ever sold in bulk. They are practically sealed oysters as they are merely slipped from their own shells into a porcelain-lined case which is sealed, thus forming a shell on a large scale. All the piquant "half-shell" flavor, the delicate tang given by the salt water, the smooth firmness, the nourishing quality, the natural color, are fully retained. No preservatives are ever used. JURY IN THE TRAIN ROBBERY CASE DISCHARGED

DISAGREE SECOND TIME AFTER FORTY-EIGHT HOURS

Sensational Trial of John and James Black and John Murphy Again Comes to Naught.

Special to the Morning Journal.
Las Vegas, N. M., Dec. 1.—After being out forty-eight hours, the jury in the case against John Murphy and the Black brothers, the alleged Logan train robbers, for the second time failed to agree and were discharged. The United States asked to have the case set for a third trial the first Monday in the next term. An effort will be made to get the prisoners, who have been in jail fourteen months, out on bail.

REDMOND MAKES STRONG PLEA FOR THE IRISH

Declares Home Rule Is the Paramount Issue.
Waterford, Ireland, Dec. 1.—John Redmond, leader of the Nationalist party, addressing his constituents here tonight, said that his speech was practically his election address, for he believed that they were on the eve of a general election and that the life of the government might be counted by hours.
Mr. Redmond then proceeded to speak on the paramountcy of the home rule question beside which, he said, the question of the welfare and good will of the colonies sank into insignificance.
English statesmen, he pointed out, ought to contemplate the good will of the Irish people, who constituted one of the greatest fighting forces in the world and whose sympathy was more valuable than any foreign alliance. In conclusion he asked that the national convention to be held next week declare its confidence in himself and the Irish parliamentary party.

THREE MEN DROWNED IN CLIFTON FLOOD

Johnston-Jackson Fight a Draw

Baltimore, Md., Dec. 1.—Jack Johnston and Young Peter Jackson of California, met in a twelve-round fight before the Eureka Athletic club tonight. At its conclusion no decision was given. Johnston had undertaken to knock out Jackson within twelve rounds or take the smaller end of the receipts. He failed to do so, largely owing to Jackson's remarkable ability to keep himself covered and to the fact that Jackson did not hesitate to run away from his opponent. Johnston pounded him unmercifully whenever he could reach him, but was unable to score a knockout blow.

CADET COURT MARTIAL ADJOURNS AT ANNAPOLIS

Verdict in Meriwether Case Will Be Given Out Later.

Annapolis, Md., Dec. 1.—The court martial in the case of Midshipman Minor Meriwether, Jr., who was tried on the charge of manslaughter for causing the death of Midshipman James R. Branch, Jr., in a fist fight, completed its work late this afternoon and adjourned. No information was given out as to the findings of the court. The proceedings and record in the case will be forwarded to the navy department for review and the verdict will be announced from there.

Police Court.

In police court yesterday evening Tranquillino Armijo, who endeavored to cut a wide swath through the lower part of town on the preceding night, was fined five dollars for breach of the peace. Tranquillino breached the peace quite severely while under the influence of a large and varied number of drinks, taken at various places during the evening. By the time the celebration was over Tranquillino was a rather battered specimen and the court considered that a fine of five dollars would add the finishing touches to a punishment already rather complete.
Everett Reynolds and Frank Thompson, both colored, were yesterday morning each fined five dollars for fighting on the public streets.
James Fremont was given ten days for vagrancy.

What Joy They Bring To Every Home

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

TWENTY-TWO THANKSGIVING TURKEYS GIVEN AWAY

Mrs. H. B. Ray, president of the Non-Sectarian Benevolent society reports that the organization presented as Thanksgiving offerings a total of a hundred dollars worth of groceries and dry goods. The bulk of this splendid donation came from the school children of the city. As a result twenty-two needy Albuquerque families partook of turkey on Thanksgiving day who otherwise would have fasted. The donation was one of the most generous ever received and the ladies were much pleased to be able to dispense so large an amount for charity.

Redmen, Attention!

A Certain Cure for Croup.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail, viz.: Chamberlain's Cough Remedy. Give it and a quick cure is sure to follow. Mr. M. P. Compton of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by all druggists.

The Theater

"Cousin Kate."
William G. Colvin and Robert C. McHaffey, of the Kane, Shipman and Colvin theatrical syndicate were in the city yesterday perfecting arrangements to bring to the Elks' opera house what will probably prove to be one of the best attractions of the local theatrical season. They left last night for El Paso.

The engagement for which they were preparing was that of Albert Gallatin, one of the most distinguished actresses before the public today, supported by a company of exceptional merit, in "Cousin Kate," the assiduously successful London and New York city the past two seasons.

"Cousin Kate" is a simple play in a way being nothing more or less than a wonderfully beautiful, new and witty treatment of the old sweet story, that of love of an excellent woman for a good man. It contains not the slightest semblance of a moral problem and offers no room whatsoever for deep thought, but with the simple aid of countless bright sayings and happily conceived situations, and sincere, lovable characters, causing a smile on the heart strings the third, it clears the cobwebs out of the mind and sends all who have seen it home in the best mood in the world; full of good will toward all and especially "Cousin Kate."
Miss Gallatin and excellent company with a full complement of scenery necessary to the production, will present "Cousin Kate" at the Elks' opera house Friday evening, December 8th.

and a large and representative audience is expected to be present.

"The Marriage of Kitty."
The seats for "The Marriage of Kitty" at the Elks' opera house, December 5th, are 75 cents, \$1.00 and \$1.50, this announcement being made to correct an erroneous statement published.

TO KILL THE DANDRUFF GERM

Is the Only Possible Way of Having an Effective Cure.
If you see a woman or a man with luxuriant glossy hair, you may be sure that neither has had dandruff to amount to anything. In nearly every case where women and men have thin, brittle hair they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. R. H. Briggs & Co., Special Agents.

A Home Industry.
Don't send out for your blank books. Our bindery is thoroughly equipped to rule and bind account books of all styles and sizes. Estimates cheerfully given. Mitchell and Lithgow, book binders, at the Journal office.

REBATE CASE WILL NOT BE HEARD THIS MONTH

PETIT JURY EXCUSED BY
JUDGE ABBOTT YESTERDAY

The case of the Caledonian Coal Co. vs. the Santa Fe Railway company, and the Colorado Fuel & Iron company, the famous rebate action, will not come up at the December term of the United States district court, for the Second judicial district, in this city. It will be continued until the next term.

The attorneys in the case practically reached this decision in the matter when motions were being argued in the case last week. Judge Ira A. Abbott yesterday issued an order excusing the jury. The time would be so short, between the fourth of December and the eighteenth that the case could not be presented in the limited time, in the opinion of the attorneys. The order in the case is as follows: United States of America, Territory of New Mexico, Second judicial district.

It is ordered by the court that members of the petit jury who were on September 25th, 1935, excused from further attendance until November 13th, 1935; and were then excused on December 4th, he and they are hereby discharged from further service at this term of the district court; and that a certified copy of this order be furnished to the United States marshal for service on said jurors.

IRA A. ABBOTT, Judge.

FRANK CANOVAN WHO SOLD LIQUOR TO INDIANS IS INSANE

Frank Canovan, of Gallup, McKinley county, who was indicted by the grand jury at its last session in this city on a charge of selling liquor to the Indians, was yesterday examined by Judge Abbott in chambers for his sanity. After the hearing he was adjudged insane and was taken to the asylum at Las Vegas by Sheriff Harry Coddington.

Canovan followed the avocation of miner in New Mexico for a number of years. He was struck on the head by a falling rock some time ago, was in the hospital for many months and has never fully recovered. He is a harmless fellow, but seems to have a total disregard for the law. He was repeatedly warned, but regardless of this went on "bootlegging" until finally his arrest followed.

He is well known and has many acquaintances at Gallup and through the territory, who sincerely pity him. He will be well cared for at the asylum at Las Vegas and it is hoped he may recover his mental balance.

HOLIDAY SEASON

The one time of the year, the time when everybody forgets about hard times and other troubles and turns himself loose to give the other fellow a good time, is almost here, and the question: "What shall I give?" will soon be heard on every side. Many people wait until about 11 o'clock Christmas Eve and then rush into the first store they come to and holler, "Gi'me something to make a present with," grab the first thing offered, and ever after regret that more time was not spent in making a selection. The time to buy Christmas presents is while stocks are complete and not sorted over, and that time is long before Christmas day. In order to save its friends and customers regrets

...The Globe Store...

wishes to announce this far in advance that a complete and elegant line of Christmas goods will be found on its shelves.

❑ And for those who desire to give useful as well as nice articles we have the finest line of Shoes in the Southwest.

❑ For the little folks we offer the nicest line of Dolls in the city. If you doubt the statement take a peep at our show window, that will convince.

❑ In Toys a display will be made about December 1st that will please everyone. In connection with the Toys we will have some Talking Machine bargains to offer that will more than pay for the looking.

❑ Other good things for holiday presents will be offered in the way of Dress Goods, Ladies' & Gentlemen's Furnishings and other useful articles.

❑ This is simply an advance announcement, and details will follow from time to time in this space, which will give full particulars as to the qualities and prices; the great consideration at this time is: Don't forget that the store under THE BIG GLOBE SIGN will be able to care for all reasonable Christmas wants with the right goods at the right prices and at the right time.

THIS IS OUR LAST MONTH in business in Albuquerque. Our business for November shows an actual increase over November, 1904, of **MORE THAN FIFTY PER CENT.** Now for December, we will add additional help, and beginning tonight, December 1, our store will be kept open evenings, for the accommodation of those who cannot come in during the day. We are going out of business, but we flatter ourselves that our guarantee is **GOOD.** We will save you **TWENTY PER CENT** on **CUT GLASS AND CHINA**, and **MORE THAN THAT ON DIAMONDS.** Call early while our stock is complete.

THE WEATHER.

For the twenty-four hours ending at 6 o'clock yesterday afternoon:
Maximum temperature, 40; minimum, 28.

Forecast:

Washington, Dec. 1.—New Mexico and Arizona—Fair Saturday and Sunday.

Fred A. Becker with the Postal Telegraph company in Helen, returned to that place last night after a business visit here.

Internal Revenue Collector H. P. Baydhar arrived in the city last night from Santa Fe, and will be here for a few days on business.

Mrs. Thomas Isidorwood and daughter, Mrs. Walter Tock, left last night for San Bernardino, Cal., where they will spend the holidays.

C. L. Davis, special officer of the Santa Fe, arrived in the city yesterday from his headquarters at Belen and will remain over for a day.

Regular meeting of John A. Logan Circle, Ladies of the G. A. R., and annual election of officers at L. O. O. F. hall this afternoon at 2 o'clock.

Frank E. Scully will arrive from the El Tovar hotel at the Grand Canyon in a few days to relieve day clerk Frank E. Miller, of the Alvarado.

M. R. Burgess, of Needles, Cal., has arrived in the city and has taken the position of cashier at the Alvarado, and W. J. Dixon, who has held the position for some time, has resigned to take a like position in the El Tovar at the Grand Canyon.

A change in special officers took place last night on the Santa Fe. Special Officer Benjamin J. Pyster of this city left for Belen where he will take charge, and C. L. Davis has moved from that city to Las Vegas. G. H. Gray, former special officer in this city, came down from Las Vegas last night and will move his family here in a few days.

The regular meeting of G. K. Warren Post, No. 5, Grand Army of the Republic, will be held in L. O. O. F. hall tonight, at 7 o'clock. Officers for the ensuing year will be elected and other important business transacted. All comrades are earnestly requested to be present. J. G. Caldwell, Post Commander. W. W. McDonald, Adjutant.

Irvin Preissner, the little son of William Preissner, of the Water Supply company, and wife, died yesterday morning after an illness with typhoid fever at the age of two years, eleven months and twenty-seven days. The funeral services will take place at the Borders chapel room at 2:30 o'clock Sunday afternoon. The bereaved parents have the sympathy of the community.

F. M. Donavin, who has a ranch near Coyote Springs, yesterday called at the office of Probate Clerk J. A. Summers, of Bernalillo county and collected a \$100 bounty for killing a mountain lion. The lion in question was shot by Mr. Donavin the first of the week and was one of the finest specimens ever seen in this locality. Mr. Donavin has sent the skin east to have it mounted.

Vincent Holcomb, checking clerk at the Santa Fe freight office, left last night for a thirty days' trip to Los Angeles and California. There was a reunion of the Holcomb family in this city Thanksgiving day and his two brothers, Dr. J. L. Holcomb of Brown, Oklahoma, and Dahl Holcomb of El Paso were at home to eat the big turkey dinner. The two latter will leave on Monday for their homes.

The Ionic Paint company, a new institution for Albuquerque, filed its articles of incorporation with the probate clerk of Bernalillo county yesterday. Samuel Laird Nash, C. R. Matson and W. W. Wade are the incorporators and the capital stock of the

company is \$5,000. The principal place of business is to be 117 West Gold avenue, Albuquerque, and the company is authorized to manufacture and carry on a general business in paints and painters' supplies.

David Narvaex, a machinist helper at the Santa Fe shops, fell from the top of an engine on which he was working yesterday morning and sprained his left wrist badly. He threw a number of boxes out of place and he was taken to the Santa Fe hospital where he was attended by a Santa Fe surgeon and the injured member put in splints. Narvaex's injury, while no bones are broken, is nevertheless serious and in the opinion of the doctors it will require more time to recover than if the arm was broken. Narvaex lives at Barajas.

J. H. Bearup, of the Rio Grande Woolen Mills of this city, left last night for Texarkana, Tex., where he will attend a meeting of the Farmer's Co-operative Educational union. The organization now has a membership of over 150,000, and it is estimated that there will be some 1,200 delegates in attendance at the meeting. Mr. Bearup is operating the mill on a co-operative basis, has two trunks full of samples and a handsome greeting card for each delegate. He will advertise what can be done in the southwest and will no doubt do Albuquerque an immense amount of good beside benefiting himself.

CHRISTMAS PRESENTS

Our Holiday Goods are now on display and we invite your early attention. Any article selected will be laid aside for you upon payment of a deposit.

DIAMONDS.—We are leaders in fine diamonds, both in solitaire and clusters. We have finger rings, earrings, brooches, studs, lockets, etc. We bought our diamonds long before the recent advance and our prices are lower than you can buy similar goods for anywhere. Ask for our special guarantee on diamonds.

WATCHES.—Of every description—silver, gold-filled and solid gold. We have good reliable gold-filled watches from \$7.50 up.

JEWELRY.—Suitable for old or young. Rings, brooches, earrings, bracelets, neck chains, loggerties, etc.

SILVERWARE.—Everything suitable for Christmas presents, as well as for the table. Knives and forks, carving sets, nut sets, cake baskets, fruit dishes, tea sets, chocolate sets, water jugs, toilet sets, manicure sets, military brushes sets, jewel boxes, handkerchief and glove boxes, shaving and smoking sets, etc., etc.

CUT GLASS and Hand-painted China.—Compare our prices on these goods with others.

REMEMBER.—Everything we sell is absolutely guaranteed. We are not selling out or leaving town. We have been with you 22 years and our establishment is one of the institutions of Albuquerque. Drop in and look around. You will be welcome.

"Some men are great because those who surround them are small."

A truism which fits like a nut in its shell about the kind of clothes we sell—

☞ The kind of Clothes, Suits and Overcoats, on sale here this fall are tailored up to the highest state of perfection.

☞ Perfect fit—perfect cloth—perfect workmanship.

☞ A class by itself—standing by itself above any line ever on sale in the Southwest, and we'll prove it to you:

☞ Suits sell at \$10 to \$30; Overcoats, \$8 to \$27.50.
