Only Survivor.CANADIAN FISHERS MAKE  
HEROIC ATTEMPT AT RESCUEMember of Parliament and Ten Com-  
panions Drowned in Terrible  
Marine Disaster.

Meat Cove, C. B., Dec. 5.—Eleven lives were lost as a result of the sinking of the steamer Lunenburg on the rocks off Amherst harbor, near the Magdalena Islands yesterday.

When the steamer struck there were 17 persons on board including a crew of 14 and H. J. Leslie, of Halifax, one of the firm owning the steamer and a member of parliament. The accident occurred in a violent storm, the danger of a terrible sea being increased by blinding snow. After the steamer struck the snow abated sufficiently for five of those on board to row to land. The others decided to remain on the vessel until calm weather, but later in the day under the beating of tremendous waves the steamer began to go to pieces and it became necessary for them to leave in one of the ship's boats. When the twelve men were about half way to the shore, a great wave swept their craft. Captain Pride, of the Lunenburg, managed to cling to the boat until help reached him.

**FISHERMEN MAKE BRAVE ATTEMPT TO RESCUE THE CREW**  
Stang Da Nord, Magdalena Islands, Dec. 5.—Full particulars of the loss of the steamer Lunenburg with one of her owners, R. J. Leslie, and ten of her crew at Outer Sand Beach, opposite Amherst harbor, ten miles south of this port, were received today. The steamer struck the beach during a thick snow storm early yesterday morning and is a total wreck. The steamer and cargo were valued at \$50,000.

The steamer was attempting to enter Amherst harbor at the time of the disaster. The thick northeast snow storm prevailed and a heavy sea constantly swept the vessel's decks. The lighthouse at Amherst could be seen at times, however, and Captain Pride supposed he cleared the beach. Suddenly a great wave literally picked up the steamer and left her stranded directly opposite the entrance to the harbor.

Attempts to float the craft proved useless, but all hands were able to keep themselves from being washed overboard, although the seas continuously swept the decks.

Two hours after daylight the wreck was sighted from the shore. A number of fishermen put off in a boat and took off five of the crew. At this time the steamer was apparently little damaged and the others were literally picked up by her. At 1 o'clock in the afternoon the storm increased in violence and those on shore saw that the steamer was doomed to destruction.

Fishermen on the island saw the boat launched, but the storm quickly shut off their view. The fishermen started for the wreck, but when they reached the scene they found that the steamer's boat had been overturned, and that of the dozen men who were in her, only one remained. The person was Captain Pride, who clung to the overturned boat until rescued by the fishermen. Mr. Leslie was a member of the provincial parliament of Quebec from the Magdalena Island district.

**GOVERNOR LAFOLETTE READS MESSAGE TO LEGISLATURE**  
Cordially Received at Extraordinary Session.

Madison, Wis., Dec. 5.—Governor Robert M. La Follette appeared today before the joint session of the Wisconsin legislature, called in extraordinary session and personally read his message. He was cordially received.

A large crowd gathered, including a number of students of the university and many Madison men and women as well as nearly all of the state officers and employees.

**CONSUL GENERAL PAROISSON KILLED BY TROLLEY CAR**  
American Official in Mexico Meets Tragic End.

Mexico City, Mex., Dec. 5.—American Consul General Paroissan was killed by an electric car shortly after 9 o'clock tonight.

**Was a New York Man.**  
Washington, Dec. 5.—James R. Paroissan, Jr., the American consul general at Mexico City, who was killed, was a native of New York.

Paroissan was appointed consul general there April 19, 1904. He was formerly served as consul at Aix in Champagne, having been appointed to that office in 1888 and continued until June 1, 1890.

**SEVEN MINERS SUFFOCATED IN DEPTHS OF DRIFT**  
West Virginia Coal Diggers Ignorant of Comrades' Peril.

Charleston, W. Va., Dec. 5.—At Horton, on Caldon Creek, in this county, last evening seven coal miners were suffocated. They were working in a drift mine when a wooden stack of the ventilating furnace caught fire and was consumed.

The miners outside buried themselves trying to put out the fire, and failing in that, with keeping it from spreading to other structures in the immediate neighborhood, paying no heed to those in the mine, not supposing them to be in danger.

JOINT STATEHOOD  
BILL A SURE THING"Omnibus Bill or None" Is Result of  
Beveridge-Cannon Confab.

Special to the Morning Journal.  
Washington, Dec. 5.—Chairman Beveridge of the senate committee on territories, was in conference with republican party leaders last night, among them Speaker Cannon. Statehood was discussed and it was announced after the meeting that there would be an omnibus bill passed this session, or no bill at all. This is the bill admitting Oklahoma and Indian territories as one state and New Mexico and Arizona as another. It is conceded at all hands that such a bill will become a law at this session.

BOYCOTT NOT  
DYING OUT  
CAPTAIN OF CRUISER RALEIGH  
SAYS IT'S GETTING WORSE

San Francisco, Cal., Dec. 5.—Captain A. C. Baker of the cruiser Raleigh, who has been detached for several months to study commercial and political conditions in China, was a passenger on the Orient, arriving today from the Orient, on his way to Washington, to lay before the president and his advisers the results of his investigations. "It is nonsense," said Captain Baker, "to talk of the boycott as dying out. The commercial situation in the south of China is absolutely at the mercy of the guilds. There are seventy-one of them, and they control trade with an iron hand, and they have given orders not to handle American goods. It is almost impossible to get at them. Of course, we have treaties guaranteeing free circulation of our goods, but supposing the coolies on the docks, the cartmen on the streets and everybody connected with the handling of goods refuse to touch them, what are you to do? American warehouses in Canton are full to the roof with flour and they can't budge. In the meantime Australian merchants are chartering everything they can get their hands on to get their inferior flour into the market to take advantage of our difficulty."

Not only the Australians but the Japanese also are taking advantage of the boycott to get our business.

**AMERICAN MONEY HELPS TO SUPPORT THE BOYCOTT**  
Smooth Methods of Chinese in Fight on Yankee Trade.

Seattle, Wash., Dec. 5.—Howard Vance, vice president of the Great Northern Steamship company, who returned today from the Orient, said that the Chinese were supporting the boycott of our goods, but supposing the coolies on the docks, the cartmen on the streets and everybody connected with the handling of goods refuse to touch them, what are you to do? American warehouses in Canton are full to the roof with flour and they can't budge. In the meantime Australian merchants are chartering everything they can get their hands on to get their inferior flour into the market to take advantage of our difficulty."

Not only the Australians but the Japanese also are taking advantage of the boycott to get our business.

**SMOOTH METHODS OF CHINESE IN FIGHT ON YANKEE TRADE.**

Seattle, Wash., Dec. 5.—Howard Vance, vice president of the Great Northern Steamship company, who returned today from the Orient, said that the Chinese were supporting the boycott of our goods, but supposing the coolies on the docks, the cartmen on the streets and everybody connected with the handling of goods refuse to touch them, what are you to do? Special to the Morning Journal.  
Farmington, N. M., Dec. 5.—At a largely attended meeting of the Farmington board of trade held last night the following resolution was adopted, with but one dissenting vote:

Resolved, That we, the members of the Farmington board of trade, recognizing the advantage that statehood would give us in increasing immigration and developing our latent resources, respectfully request congress to pass an enabling act admitting New Mexico and Arizona as one state. Copies under the seal of the board of trade will be forwarded to Senator Beveridge, Speaker Cannon and Chairman Hamilton.

EMERGENCY FUND  
CAME INTO BEING  
NEED UP FOR  
TODAY'S ORDER CHECK \$20,000Congress Will Arrange for How Mutual Reserve Bought Government a Dead Letter  
Panama Pay Roll. Off a Philadelphia Lawyer.READING OF PRESIDENT'S  
MESSAGE LOUDLY APPLAUDEDELDRIDGE TELLS COMMITTEE  
HARROWING HUSH MONEY TALEResolution in House Sympathizes  
With Jews—Bill to Annex Part  
of Arizona to Utah.

Washington, Dec. 5.—President Roosevelt's message to congress received the attention of the house for two and a half hours today. Its reading was listened to with marked attention and at its conclusion the document was applauded. Preliminary steps were taken toward appropriating the needed emergency fund for the Panama canal, and this matter will be the business for tomorrow. Should congress to pass an enabling act admitting New Mexico and Arizona as one state. Copies under the seal of the board of trade will be forwarded to Senator Beveridge, Speaker Cannon and Chairman Hamilton.

The house received and ordered for to one of the regulation election committees a protest from the fifth congressional district of Illinois, stating that Anthony Michalek, who was elected mayor of Chicago, was a citizen of the United States. The protest was presented by Mr. Rainey, of that state, who asked for consideration of the matter by special committee. This point was the only one contested, it being suggested by Mann that it was a matter for the proper committee to consider. Mr. Rainey's amendment to this effect was adopted on a yeas and nays vote.

Upon motion of Mr. Goldfogle, of New York, a resolution was read expressing the sympathy of the American people for the distressed Russian Jews. The resolution was ordered printed in the record and referred to the committee on foreign affairs.

**INTRODUCES BILL TO ANNEX NORTH ARIZONA TO UTAH**  
Washington, Dec. 5.—Representative Howell, of Utah, introduced a bill today to annex to Utah that part of Arizona lying north and west of the Colorado river.

**SENATORS LISTEN CAREFULLY TO PRESIDENT'S MESSAGE**  
Washington, Dec. 5.—The senate in session for almost three hours today and gave its attention to the reading of the president's annual message. There was a large attendance of senators and the reading was listened to with marked attention.

**WOULD INVESTIGATE SAN FRANCISCO FOREST RESERVE**  
Washington, Dec. 5.—A resolution offered by the house to investigate the San Francisco forest reserve in California, was introduced today by Representative Stephen A. Hays, of Texas, and requires the secretary of the interior to furnish full information concerning the San Francisco forest reserve in California.

**APPOINTMENT OF BARDSHAR IS SENT TO THE SENATE**  
Special to the Morning Journal.  
Washington, Dec. 5.—The appointment of Henry S. Bardshar as internal revenue collector for New Mexico and Arizona was today sent to the senate for confirmation.

**DEPOSITORY OF CHILEAN FUNDS.**  
Washington, Dec. 5.—Senator Martinez, minister from Chile to the United States, has been authorized by his government to select a site in the city of New York, for use as a depository for an indefinite portion of the Chilean reserve amounting in all to \$3,000,000 in United States currency.

**Sheriff Collapses at Hanging.**  
Elk River, Minn., Dec. 5.—C. D. Crawford, who was convicted of the murder of Helme Lunden, in a box car near here on November 20th, 1904, was today to be hanged. Sheriff Bernick of Elk River, collapsed and was unable to pull the drop. Sheriff Bernick of St. Cloud, then pulled the trap and Crawford was hanged. Thirty persons witnessed the hanging but no one represented Crawford, not even his attorney. This, it is claimed by some, was a violation of the law.

**GOULD AND HYDE RETIRE FROM OREGON SHORT LIFE.**  
Union Pacific Postpones Action on \$100,000,000 Bond Issue.

Salt Lake City, Utah, Dec. 5.—At an adjourned annual meeting of stockholders of the Oregon Short Line railroad company, held here this afternoon, Gordon M. Huck and George P. Downs, both of New York, were elected to the board of directors in place of Edwin Gould and James H. Hyde. The retirement of Mr. Gould and Mr. Hyde was expected, similar action having been taken by the other Harriman corporations. Shares to the number 274,512 were voted by W. H. Bancroft, vice president and general manager, and P. L. Williams, general attorney, and a number of other company being present.

At an adjourned meeting of the Union Pacific company at which proxies were voted by Messrs. Bancroft and Williams, action on a proposed issue of \$100,000,000 of bonds was indefinitely postponed. The bond matter was the only question before the meeting.

**Poland Free From Martial Law.**  
Warsaw, Dec. 5.—The abolition of the state of martial law has been proclaimed today and Poland is now completely free from military rule. The authorities have prohibited the meeting of the legislative assembly and the employment of telegraph and telephone employees. The government has ordered the military to be tried by court martial in accordance with the procedure in war time. Information from Moscow says a committee of men of the house is trying to arrange a settlement of the telegraph strike.

**Threatened General Strike.**  
Warsaw, Dec. 5.—The executive committee of the railroad employees' union has telegraphed to all stations to begin a general strike at midnight unless the sentences of death passed by the court martial at Samara on Sokoloff, the engineer, and on other leaders of the recent railroad strike at Samara, are reversed before that hour.

**Salt May Stop Irrigation.**  
Lawton, O. T., Dec. 5.—J. J. Combs, chief engineer of the division of the reclamation department in charge of the investigation of the Navajo irrigation system, in the western part of this and Kiowa county, has made the report on the project. He states that there is too much salt in the water which is to be used. Engineer Thomas K. Means, whose office is at Washington, will come and test the ingredients of the water.

**Butte May Stop Irrigation.**  
Lawton, O. T., Dec. 5.—J. J. ANARCHY IS  
COMPLETE IN  
THE BALTOSTREAM OF FUGITIVES  
RUSHING ACROSS FRONTIERFather Gapon Again Incites to Revolution—Military Fraternizes  
With Rebels.Roosevelt's Unequivocal Declaration  
for Rights of New Mexico and  
Arizona Makes a Big Hit.

## The president's vigorous and outspoken declaration in favor of joint statehood for New Mexico and Arizona in his message to the congress yesterday was the cause for much rejoicing in Albuquerque and all over New Mexico and Arizona.

The president's words, "There is no justification for further delay" have endeared him more to the hearts of the thousands of people in the southwest than anything he has previously said or done. He is enrolled on the side of the progressive citizenship of New Mexico and Arizona. In their stand for joint statehood and his hearty and unqualified endorsement of their position has lent added strength and enthusiasm to the movement. It has brought out many a half-hearted advocate of jointure and has set the officeholders who have been blocking the movement to doing some hard thinking.

Nothing but enthusiastic comment on the president's declaration was heard in this city last night. The telegraph offices were kept busy dispatching messages to the White House and the White House congratulating the president on his recognition of the claims of the people of the territories. From all over New Mexico and Arizona telegrams have been received congratulating the president's recommendation has done more than anything else to strengthen the cause of statehood and the people appreciate the fact.

Probably the president's words made no one happier than R. S. Rodey, former delegate in congress who has devoted his official and unofficial career to an unflinching fight for statehood. After writing his congratulatory message to the president, Mr. Rodey sent the following message to the president:

"To the President, Washington, D. C.:  
"In behalf of what I know to be an overwhelming majority of the people of New Mexico and on my own account I sincerely congratulate you on your message and on the joint statehood recommendation. I am sure Arizona will accept."

W. S. Hopewell, ex-chairman of the democratic party in congress, committee president of the Commercial Union and prominent in the councils of the Non-Partisan Joint Statehood league sent the following telegram:

"The President, Washington, D. C.:  
"Sincere congratulations on your message, particularly as to joint statehood and gambling. Rest assured our people are with you."

The Morning Journal sent the following wire to the executive:

"To the President, Washington, D. C.:  
"I congratulate you on your message and assure you that a vast majority of the people of New Mexico are grateful for your recommendation as to joint statehood and gambling."

The tenor of these messages is the same as that of scores of others which have come in to the president from this territory and from all reports Arizona is not far behind.

**Driven Insane by Criminal Charge.**  
Oklahoma City, Okla., Dec. 5.—Mary Bat, a young lady of this city, was arrested a few days ago for an alleged attempt to kill her aunt, Mrs. John Wilby, by giving her concentrated lye. Miss Bat was today taken to the asylum at Norman.

**OLD LAS VEGAS WINS OUT IN POSTOFFICE FIGHT**  
District Court of Appeals Reverses Lower Court's Decision.

Washington, Dec. 5.—The district court of appeals today reversed the decision of Justice Barnard of the district supreme court, who denied the petition of certain citizens of the town of Las Vegas, N. M., for the establishment of a postoffice there and the appellate court directed the lower court to order the writ of mandamus to issue to compel its re-establishment.

The case has been fought out in the postoffice department and the courts for several years.

**Union Pacific Earnings.**  
New York, Dec. 5.—The Union Pacific Railroad company for the year ending June 30th last, shows gross earnings of \$59,324,949, an increase of \$1,045,718; and net earnings of \$27,462,231, an increase of \$448,447, after paying the fixed charges, dividends, etc., there remains a surplus of \$7,319,782, an increase of \$2,565,826.

**"THANK HEAVEN I NEAR THE END," SAYS LOUBET**  
French President Says He is Weary of Office.

London, Dec. 5.—The Paris correspondent of the Express telegraphs an interview with President Loubet at Rambouillet. He claims that this is the first interview M. Loubet has given since he assumed the presidency, which expires February 18 next. He describes M. Loubet as weary of office. The president adds: "Thank Heaven, I am nearing the end. I await February 18th with the greatest impatience. I shall leave the Elysee never to return. I shall dine in a Paris flat alone with my wife and children in the privacy of home. It will be the first time in seven years."

**Poland Free From Martial Law.**  
Warsaw, Dec. 5.—The abolition of the state of martial law has been proclaimed today and Poland is now completely free from military rule. The authorities have prohibited the meeting of the legislative assembly and the employment of telegraph and telephone employees. The government has ordered the military to be tried by court martial in accordance with the procedure in war time. Information from Moscow says a committee of men of the house is trying to arrange a settlement of the telegraph strike.

**Threatened General Strike.**  
Warsaw, Dec. 5.—The executive committee of the railroad employees' union has telegraphed to all stations to begin a general strike at midnight unless the sentences of death passed by the court martial at Samara on Sokoloff, the engineer, and on other leaders of the recent railroad strike at Samara, are reversed before that hour.

**Salt May Stop Irrigation.**  
Lawton, O. T., Dec. 5.—J. J. Combs, chief engineer of the division of the reclamation department in charge of the investigation of the Navajo irrigation system, in the western part of this and Kiowa county, has made the report on the project. He states that there is too much salt in the water which is to be used. Engineer Thomas K. Means, whose office is at Washington, will come and test the ingredients of the water.

**Butte May Stop Irrigation.**  
Lawton, O. T., Dec. 5.—J. J. Combs, chief engineer of the division of the reclamation department in charge of the investigation of the Navajo irrigation system, in the western part of this and Kiowa county, has made the report on the project. He states that there is too much salt in the water which is to be used. Engineer Thomas K. Means, whose office is at Washington, will come and test the ingredients of the water.

**Butte May Stop Irrigation.**

that I shall be free to enjoy my pipe by the fire, free from the cares of office and the fear of ministerial crises or diplomatic complications. I shall allow nobody to disturb my privacy that evening. There will be great danger in the fact. It will be no public gala day, but there will be family rejoicings with the door closed to all outsiders."

Denying the idea that he would stand for re-election, M. Leubet declared it would be inconsistent with the rule of a democratic state to establish anything like presidential continuity. Moreover, he added: "I am old and weary, and wish to spend the remainder of my life in peaceful rest."

THE YELLOW PERIL.

Retaliation for Evils of Exclusion Law to Come Later.

Chicago, Dec. 5.—The yellow peril alarm was sounded yesterday by a Chinaman, Poon Chew, managing editor of the Chung Sai Yat Pa, a Chinese daily paper of San Francisco, in a talk at the University of Chicago on the Chinese exclusion act.

After rehearsing the evils of the exclusion law, he concluded as follows: "All these indignities heaped on China will come back. China is growing stronger every day. We are preparing to fight. In ten years we will have 800,000 well-armed men, well trained, with every latest munition of war."

American Assaulted in Tangier.

Tangier, Dec. 5.—A party which arrived from Tetuan today reports that soldiers severely assaulted an American citizen, who was the retiring holder of a tobacco monopoly.

While the American was disposing of his stock the succeeding concessionaire requested the authorities to intervene and prevent such disposal. The American then hoisted the United States flag, but the soldiers hauled it down and ejected the proprietor.

New York, Dec. 5.—A cable to the Sun from Tangier says: Mr. Gummere, the American minister, has protested to Mohammed El Torres, the representative of the Sultan for foreign affairs, against the seizure by the governor of Tetuan of an American citizen who held from the government the tobacco monopoly for Tetuan for two years. His contract expired yesterday, whereupon the governor seized the house, giving no reason for the action.

Mohammed El Torres promised to send to Tetuan to verify the complaint. Gummere is awaiting the result. He will insist upon compensation if the report is substantiated.

FRANCE NOT WORRIED OVER THE KAISER'S UTTERANCES.

Emperor's Speech From Throne at Reichstag Received Calmly.

Paris, Dec. 5.—Emperor William's allusions to France in the speech from the throne at the opening of the Reichstag were received calmly in official quarters here, where the view prevails that his majesty's language has no serious significance, but is the natural result of the government's appealing to the Reichstag for military supplies. The most serious of the newspapers adopt the government view, but the sensational press asserts that this is another menace, similar to the emperor's speech at Tangier. The semi-official Temps, while minimizing the seriousness of the speech, says:

"It amounts to an imperial declaration that Germany's relations with certain powers are not amicable, these powers evidently being France and Great Britain."

Boys Drown in Boat.

Kahlotus, Wash., Dec. 5.—Alex Kamsler and Harry Henslein, were drowned this morning in Lake Kahlotus. The boys were aged 17 and 18 years respectively, and were experienced in handling a boat. They were visiting a Mrs. Hardsen, and in company with her eleven-year-old boy, Walter, started out hunting ducks in a little hunting skiff, suitable only for one person.

Indian Football Hero Shot.

Sioux Falls, S. D., Dec. 4.—William Balne, the famous Indian football player, who played halfback on the Wisconsin university team two seasons ago, was tonight shot and probably fatally wounded while playing football at Mahoney, Balne, who is said to have been drinking, drew a revolver and began firing promiscuously. Mahoney appeared on the scene and ordered him to cease firing, whereupon the Indian turned his weapon upon the officer. Before he could shoot again, however, Mahoney drew his revolver and fired, hitting Balne through the head. Balne had acted as coach for the Brookings Agricultural college team during the past season.

Enormous Crowd Expected.

Chicago, Dec. 5.—Fully 125,000 persons will be carried by the railroad with Chicago connections to the International Live Stock Exposition, which will be held in the new Exposition building at the Union Stock yards, December 16 to 23, according to reports submitted to General Manager W. E. Skinner by representatives of the Central and Western Passenger associations. The exposition this year will be more elaborate than in the past, as the large area in the new building will permit of a larger display of the prize cattle and horses. The official program for the show, which was announced today, provides for a great many more prizes than ever offered by the exposition before.

Big Mining Suit.

Boston, Mass., Dec. 5.—F. P. Kurta has filed a bill in the superior civil court against F. J. Herthel and Emil Gerber for money due him, and seeking to prevent the transfer of some 400,000 shares of California Draper mining stock. Judge Gaskill has issued an injunction restraining Gerber from transferring or disposing of the stock until the suit is settled.

Kurta claims that Herthel owes him \$14,763 on one account and \$47 on another, while Catherine Herthel, administratrix of the estate of F. J. Herthel, has brought a bill against the same parties, alleging that F. J. Herthel owes her \$25,000.

Sylvester Have More Trouble.

O. W. Sylvester & Brothers, shipped twenty car loads of sheep from Santa Fe yesterday, for feeding points in the San Luis valley. These sheep have been held in the yards and in droves near the yards for several days because there were no cars for shipping purposes.

There are thirty-six cars of lambs still to be shipped. Some of them will be shipped today if freight cars and engines can be secured to pull the train. Some cars arrived yesterday at the yards.

Few sheep are dying now, because the weaker ones have already succumbed and those that remain are made prime feeders. There have been a large number of sheep held in droves at the Santa Fe yards during the past week, numbering often as high as 10,000 head to each drive.

The sheep were fed outside the yards but there was difficulty in securing water. Finally, the herders dug a long trench from a hydrant and water was carried in this manner to the flocks. This arrangement saved the lives of many of the animals that would otherwise have died of thirst.

LOVE DIES.

Mrs. Ella Wheeler Wilcox says there comes a time in the course of married love when "the thrill goes out of the hand-clasp and the kiss at times, and it is then that husband and wife may be susceptible to other magnetic personalities." The reason for this condition of affairs is often the fault of the husband, but how often is it not due to the wife's nervousness and irritability due to some trouble with the organs peculiarly feminine—the wife under such circumstances feels languid and spiritless—she suffers perhaps from headache and sleeplessness.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

A great deal of sickness may be saved by keeping on hand a copy of Dr. Pierce's thousand-page illustrated book, "The Common Sense Medical Adviser." Sent free, paper-bound, for twenty-one one-cent stamps to pay cost of mailing only; or cloth-bound for thirty-one stamps. Address: World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Constipation and a bilious attack go hand in hand. Dr. Pierce's Pleasant Pellets are a sure and speedy cure for both. Tiny, sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe. Nothing else is "just as good."

Objects to Burbankitis.

A writer in the Country Gentleman concludes an article headed "Burbank and his Exploits," in which he roundly denounces the expressions of uncritical appreciation of Luther Burbank, charging that they are largely inspired by the boom spirit, in these words:

No, these current estimates of Burbank are so ridiculously exaggerated and so flagrantly uncritical, so distorted and out of all proportion, as to be altogether mischievous. In the hope of doing both Mr. Burbank and the benighted public an honest service, it is worth while to offer a more careful statement of his achievements and his apparent abilities. The following things seem to be fairly clear:

1.—Mr. Burbank is evidently a close student of nature. Within the range of his work his observations are accurate and methodical. On this account they may be called scientific. If one cherishes a fondness for that adjective.

2.—He is an adept at the ordinary arts of plant breeding. There is nothing to show that he knows or practices any magic not perfectly known to hundreds of other plant breeders.

3.—His work has been immensely assisted by a remarkably favorable climate.

4.—He has produced some varieties of substantial value and others of considerable promise, but all these productions taken together are less than the production of other plant breeders.

5.—Mr. Burbank is evidently an amiable, earnest, industrious, unassuming, honest, straight-forward man, and one can only regret that he should have fallen into the hands of such ruthless exploiters.

Invisible.

The Judge: You say you are not a vagrant, yet you have no visible means of support.

The Hobo—I did have dia mornin', yer honor.

The Judge:—Then why isn't it visible to the present time?

The Hobo—'Cause I went an' eat it.

## MOUTH'S TONGUE ON AMERICAN ROADS BEATS THE RECORD

Railways Hauling More Cars  
Than Ever Before.

SOLICITORS STOP BUYING  
TO GET NEW BUSINESS

The tonnage which is being shipped over the railroads of this country today surpasses all preceding records. There never has been a time in the history of the railroads that they have hauled so many cars in one month as they have during November. Every car has been pressed into service and still the roads are far behind in their orders.

It is the movement of the enormous crops that has done the most to clog the railroads. So hard is it for the railroads to fill the orders for cars that grain merchants are afraid to take orders for delivery within a specified time, because there is no certainty that they will be able to get the cars. This is especially true of export business, it is said. But it is not alone the movement of grain that is exceptionally heavy, for there has been a marked increase in all classes of tonnage.

The record of the New York Central lines west of Buffalo can be taken as a fair indication of the amount of business that is being done by the railroads. The records have been made up for twenty-eight days, which show that over the entire New York Central system, west of Buffalo, there have been moved 85,600 loaded cars in excess of the number which were moved during the corresponding month last year, during the full thirty days of November, 1934, as a basis.

It is said in the freight offices of the system that solicitors after new business have been withdrawn entirely from that field, and they have been put to work trying to find more cars. This shortage of cars is in spite of the fact that orders for equipment have never been so heavy as they were this year, and every builder of cars is working his plant overtime turning out orders. The conditions which prevail on the Vanderbilt system are repeated on over other lines in the country.

**NEW TEXAS RAILWAY MAY BE SANTA FE SCHEME**  
Guthrie, O. T., Dec. 5.—Henry Knapp, president of the Texas, Oklahoma & Northwestern railroad, who is now in New Mexico, has sent word that he has completed contracts for the financing of his line, also for the construction and equipment of the Oklahoma division from Chickasha to Fort Supply, and Oklahoma City to Thomas. He promises that the line will be open for traffic not later than December 1, 1936.

**TIE BOY TO TRACK.**  
Fellow Pupils in Indianapolis School Emulate Kenyon Example.  
Indianapolis, Ind., Dec. 5.—A girl rescued Carl Hilton from the Wallack railroad track at Logansport last night. He had been tied there by a number of boys, pupils of the Washington school as a joke after the manner of the hazing affair at Kenyon college.

service commission, William S. Leib of Schuykill county, declares that he was informed more than a week ago by a close friend in Washington that he was to be forced out of office. Who this informant is Leib will not disclose, but he has the letter giving him the information in his possession and has exhibited the text of it.

It is possible that the president will now undertake another investigation to discover which "high" officer in Washington is giving away the secrets of his office in such a manner.

The announcement of Leib's removal upon the anniversary of his wedding and while he was in the train on his way to his home in Ashland with his wife and little girl he talked of his side of the case.

Leib, "that the president failed to designate in his letter removing me from office the officer to whom I am to turn over the funds and books of the subtreasury. As I am under bonds for \$200,000, and there is about \$18,000,000 in my care, I am bound to retain charge until I receive further orders."

**Alfonso Will Maintain Constitution.**  
Madrid, Dec. 5.—It is reported that King Alfonso, who presided at a meeting of his cabinet here, declared his intention as the head of a democratic state, to maintain the constitution by all means.

The situation is somewhat complicated. The most serious feature at the moment is the angry excitement among the military officers, owing to the Catalinist attacks on the army. The newspapers report that all the garrison in Spain are angry and restless.

The courts today again discussed the bill for the suspension of the constitutional guarantee in Catalonia. The republican members opposed the bill, but it was ultimately adopted.

Williams, Ariz., Sept. 26, 1935.  
MR. W. E. NEAL, General Agent,  
Union Central Life Insurance Company,  
Albuquerque, New Mexico.

DEAR SIR: I am just in receipt of your letter informing me that the cash dividend on my policy of \$25,000 in your Company is \$423.75. The amount of the premium on my policy is \$2318.75. This cash dividend of \$423.75 is 18 per cent of the premium. This is better than you told me it would be and shows excellent management on the part of the Company.

Very truly,  
E. B. PERRIN.

**Our Attractive Dress Goods....**  
Latest Weaves and Exceptional Qualities Under-priced.

As stated in one of our early autumn ads, "we are out for a large volume of business this fall," and our very close prices are bringing us the desired result. Look over these values for this week and you will agree with us:

**Broadcloths and Venetians**—Two of the most popular cloths of the season, full 52 inches wide and each cloth in a full range of colors, for handsome tailor suits. These cloths are worth and sell readily at \$1.50. Special at 98c.

**Rain-proof Covert Cloths** are quite the thing this season for stylish wraps and walking costumes. We carry an immense stock of these cloths, full 50 to 56 inches wide, at prices we guarantee will not be matched, at \$1.50.

**New Gray Tailor Suitings**—We have just received a new shipment of these very scarce, beautiful grays, in high class qualities only; every yard is right up to the minute in style and quality, 48 inches wide, at \$1.15.

**Plaids**—We are considered headquarters for Plaids, as we carry an immense stock of all the different qualities and kinds: Cashmere and Serge Plaids in beautiful colors, with silk overplaid. The genuine Scotch Tartan Plaids, 45 inches wide, in genuine Scotch cloth, at 75c and \$1.00.

**Silk Department Specials**  
75c Black Silk at 55c—A rich Black Taffeta, with a lustrous and lasting finish, and strong; a silk which we recommend for practical services—for skirts, yaks, ruffles, for everything for which you would want a good black taffeta. About 300 yards, 49 inches wide. A 75c cent value for 55c a yard.

25c China Silks at 25c—30 inches wide, in all the leading shades, also black and white; just the thing for fancy work. Special, this week only, 25c the yard.

27-inch Lyons Dye Jap Silks, in all the leading 20 shades, also white and black. Special at 50c the yard.

**SILK REMNANTS**—An accumulation of short pieces of various kinds of silks, Taffetas, Drapery, Waist and Dress Silks; just the thing for fancy work; some enough for waists. Choice of any in this lot at 50c the yard.

**Flannel Waists**  
Special Closing Out Sale on All Waists.....

**THE ECONOMIST**  
Albuquerque's Brightest and Busiest Store

**An Inclusive Christmas Invitation!**  
Whether to Admire, to Buy, to Examine or Compare—the Invitation Includes Everybody.

THE TIME UNTIL CHRISTMAS DAY is very short and we would impress you that early looking makes easy choosing. From every manufacturing center on earth we have secured their best—of fabrics, neckwear, handkerchiefs, lace, ribbons, women's outerwear, hosiery, lingerie, books, art needlework, toilet articles, stationery, and what not. We have insisted upon the finest qualities, the most artistic designs, the most refined and harmonious colorings; in short, the things that are the most pleasing to the senses—not in mean assortments but in quantities that are amazing. These are reasons enough why we should invite you and why you should come. It is this practical and scientific consideration of the public's wishes and needs that not only places the Economist store high on a plane by itself, but makes it of the highest usefulness to the people.

The throngs of Christmas shoppers that are even already seeking gifts and gift ideas enable us to demonstrate to the full our willingness to be useful in putting before you the choicest, in advising, in giving you any information as to what are appropriate and new for Christmas gifts.

In all the thousand and one ways that a great store like this can aid you, our best is at your command. Satisfy yourself of our earnestness—NOW IS THE TIME.

**Millinery Department Clearance**  
Fine Trimmed Hats—An Opportune Sale

An immense range of styles was necessitated in our displays of High Grade Millinery to supply the demand of the past few weeks. Our desire to close out the remainder of our imported models resulted in interesting price reductions of these splendid Hats. This opportunity will appeal especially to late choosers. The prices that will rule this most exceptional clear event are absolutely the lowest ever offered—in most instances less than one-half, often one-third and one-quarter actual value.

Hats that were \$20.00, now \$12.50; Hats worth up to \$15.00, now \$9.00; Hats that were \$12.50, now \$7.50, and about 25 Hats worth up to \$7.50 reduced to \$3.98.

**Pure Linen Handkerchiefs at Prices Worth Profiting By....**

In gauging Economist Handkerchief offerings by others, remember that ours are always on a pure linen basis; and that even then, by virtue of our large distribution, our prices are lower than those based on the part-cutting handkerchiefs, cunningly merchandised, that are so generally sold. Of course cotton has to be used for embroidery; and most of the lace used on handkerchiefs is cotton lace; but the cloth of the handkerchiefs we sell is pure linen—unless it's part or all silk, or we state cotton. That statement applies not only to the following offerings, but to our entire stock. (And our regular prices, by the way, on staple lines of handkerchiefs, are low enough to merit an interesting story by themselves.)

Women's Laundered Handkerchiefs, hemstitched, embroidered Irish linen, ..... 20c each; 3 for 50c; Hemstitched or Scalloped Hand-Embroidered Irish linen, at 25c, 50c, 75c, \$1.00, \$1.25, \$1.50, \$1.75, \$2.00; Lace Edged, with linen center, at ..... 25c, 3 for 50c, 25c, 75c, \$1.00, \$1.25, \$1.50, \$1.75, \$2.00; Hemstitched, Hand-Embroidered Irish linen; put up in six assorted patterns in a fancy box, at ..... \$1.50 and \$3.00; Plain Hemstitched, all yalids hem, Irish linen, at ..... 5c, 10c, 15c, 2 for 25c, 3 for 50c, 25c, 55c; Plaids, Checks and Stripes, hemstitched, Irish linen at ..... 20c, 3 for 50c, 25c, and 3 for \$1.00; Convent Embroidered Ladies Linen Handkerchiefs, at ..... 12 1/2c, 15c and 20c; A big assortment of Ladies Linen Handkerchiefs, with several styles of initials, from small script to the large block or Old English letter, at various prices upwards from ..... 25c; Our stocks are now complete with the best, latest and newest of Handkerchiefs of all kinds.

THE CHRISTMAS STORE IS READY AS NEVER BEFORE—READY WITH THE BIGGEST, BEST SELECTED STOCK OF HOLIDAY GOODS IN THE TERRITORY, AND ALL PRICED AT FIGURES IMPOSSIBLE OF DUPLICATION ANYWHERE.

**Special Suit & Skirt Sale**  
(On Second Floor)

Any Suit or Skirt in the House at an absolute reduction of 20 per cent. Take your choice, absolutely none reserved. All our goods are marked in plain figures and you can do your own calculation and choose at 20 per cent less than the marked prices.

Skirts, both Silks, Outing Flannel and Knitted, will be sold on the second floor at special prices.

A special line of black merzerized, in four different styles, finished at the bottom, with narrow ruffles, hemstitched and shirred; also plaiting with hemstitched ruffle at the bottom. Special at \$11.25.

An all-silk skirt, with silk under ruffle, bottom finished with double buckled ruffle, both black and color. Special at \$6.00.

Skirts made of good quality Outing Flannel, finished with lace on wide hem at the bottom. Special at 75c.

Knitted Skirts, in all colors, with fancy striped border. Special values for 75c to \$1.50.

**Sale of Dainty Aprons**  
A large collection of the pretty dainty things for tea or supper or the serviceable kind that will cover you all up when you work. They are all ready to put on.

White Lawn Tea Aprons at 25c each and up.  
White Lawn Nurse Aprons at 35c each and up.  
White Lawn Plain Aprons at 25c each and up.  
Gingham Kitchen Aprons at 15c, 25c and 35c each.  
In fact any kind of an Apron desired is in our stock.

**New Neckwear for Women**  
A vast and artistic showing of the latest and best conceptions for Fall and Winter wear in this line. The most desirable products of the season in Stocks, Jabots, Collars, Collar and Cuff Sets, Chemises and sets in silk, embroidery, lace and washable materials. The sizes are popular. The prices are 35c, 50c, 75c, \$1.00 and up. Extra Special showing on our counter tables this week of our great specials at 25c and 50c each. Hundreds of the most desirable designs.

**Our Collection of Dolls**

ALBUQUERQUE.....NEW MEXICO

WEDNESDAY MORNING, DECEMBER 6, 1905.

## Roosevelt on Statehood

ALTHOUGH the president in his message does not devote much space to the matter of statehood for the territories, he covers the ground very completely, and states his position so plainly and positively that it will be impossible for the most ingenious opponent of statehood in either Arizona or New Mexico to inject any wrong meaning into his words. He says, "I recommend that Indian Territory and Oklahoma be admitted as one state, and that New Mexico and Arizona be admitted as one state. There is no obligation upon us to treat territorial subdivisions, which are matters of convenience only, as binding us on the question of admission to statehood. Nothing has taken up more time in the congress during the past few years than the question as to the statehood to be granted to the four territories above mentioned, and after careful consideration of all that has been developed in the discussions of the question I recommend that they be immediately admitted as two states. There is no justification for further delay, and THE ADVISABILITY OF MAKING THE FOUR TERRITORIES INTO TWO STATES HAS BEEN CLEARLY ESTABLISHED."

It would be impossible to frame in English words a clearer or more positive statement of fact than the president has made in the above paragraph. It is very brief, but it is directly to the point, and he could not have expressed what he meant any clearer if he had taken a column in which to say it. And furthermore he has expressed the settled conviction of the people of the United States, and also the desire of the people of the territories themselves, excepting, of course, the pie counter brigade. The impression existing in certain quarters that the people of the two territories are opposed to being united in statehood is without any valid foundation. That certain big mining companies and other great corporations are opposed to joint statehood, or to statehood in any form, is true. They want conditions to remain as they are, because they can manage the legislatures and other territorial officials so as to escape their proper share of the burden of government in many ways which they could not hope for under statehood, with such a constitution as we are likely to have. And these are the influences that have been making all the noise in opposition to joint statehood. With them it is a matter of money—and no small amount of money—to keep things just as they are, and hence they can afford to spend money liberally for special railway trains, congressional junkets and newspaper stories, to fool the public, and cause persons in other parts of the country to believe that the people of the two territories are practically unanimous in their opposition to jointure, whereas just the reverse of that is true, and when the matter comes to be settled at the ballot box an overwhelming majority of the votes cast will be in favor of joint statehood. It is a clear case of the corporations against the plain people, of money against manhood. The corporations make the noise because they have the money, but the people will make the state, because they have the votes.

Undoubtedly the president is aware of these facts. The language of his message shows it. And hence he says, after a careful consideration of all that has been developed in the long discussion of the subject, he is convinced that the advisability of making one state of the two territories has been clearly established, and that there is no justification for further delay in their admission.

The talk of the anti-statehood people about "forcing jointure upon the territories against the will of the people" is simply nonsense. All that congress can do is to give the people a chance to vote upon the question of whether they will come in or stay out. The passage of an enabling act will simply "enable" the two territories to become a state if their people so desire. And the fact that the opponents of statehood are moving heaven and earth to prevent the passage of such a bill shows beyond any shadow of doubt that they are convinced the people will accept joint statehood if congress will give them a chance to vote on it. They dare not trust the people.

## Of Paramount Importance

CONSIDERING the matter of child labor in the United States, the president, in his message, reviews existing conditions at some length and concludes with these words, which ought to be committed to memory by every man in the country: "In such a republic as ours the one thing that we cannot afford to neglect is the problem of turning out decent citizens. The future of the nation depends upon the citizenship of the generations to come; the children of today are those who tomorrow will shape the destiny of our land, and we cannot afford to neglect them." Following this, he takes up the question of "Women in Industry," which, as a sociological problem is almost equal in importance to that of child labor. Upon this he says: "Over five million American women are now engaged in gainful occupations, yet there is an almost complete dearth of data upon which to base action looking toward state and municipal legislation for the protection of working women. The introduction of women into industry is working change and disturbance in the domestic and social life of the nation. The decrease in marriage, and especially in the birth rate, has been coincident with it. We must face accomplished facts, and the adjustment to factory conditions must be made; but surely it can be made with less friction and less harmful effects on family life than is now the case. This whole matter in reality forms one of the greatest sociological phenomena of our time; it is a social question of the first importance, of far greater importance than any merely political or economic question can be; and to solve it we need ample data, gathered in a sane and scientific spirit in the course of an exhaustive investigation."

MR. WILLIAM E. CURTIS, the able correspondent of the Chicago Record-Herald, who has discovered vastly more "cussedness" in New Mexico than ever existed here, has just found a valuable assistant in the editor of the Las Vegas Optic, who sees all of Mr. Curtis' misrepresentations and goes him a few better. It is unfortunate for the territory that the Record-Herald writer before he sold himself for the territorial printing, Mr. Curtis might have obtained from him a much better and stronger interview on the other side of the statehood question.

THE paramount question with the anti-statehooders of New Mexico is now "How are we going to get over?" Major Llewellyn cut the knot, and just went over. And the others will soon follow.

DON'T be too hard on the anti-statehooders. They will all be on our side in a few weeks. The president has recommended jointure, and the new governor will come in next month.

IF WE remember correctly only thirty-three members of the house voted for separate statehood for New Mexico in the caucus at Washington last winter.

WHEN the economical housewife casts her bread upon the waters the result is bread pudding.—Chicago News.

## Solos

by the  
 Second  
 Fiddle

Easy Steps for Little Feet.  
 O. Mother, what is the matter with that Poor Man.

Hush, my child: The Poor Man Cannot See.

Why cannot the Poor Man see, Mother?

Because he is Blind, my child.

What makes the Poor Man Blind?

That, my child, is the result of Loss of Vision.

Oh, Mother, what made the poor man Lose his Vision?

Tut, tut, my child, do not ask such Idiotic Questions. He was looking for News in the Evening Citizen.

There may be some grafting in New Mexico at this time, although there is no proof that this is so, but even were there, there could be but very little of it because there is so little to graft.—The Almanac.

And the Almanac knows.

Where the Colonel Shines.

While piling up crimes, real and imaginary, against Colonel Frost, it should not be forgotten that he is by no means dull or slow in shaping sail according to the wind.—Roswell Record.

The Almanac will have to draw a diagram to make the dear public understand how it happened to forget to print the Governor's Message in Spanish. And, just think, there is so little to graft in New Mexico!

What with the Japanese-American, the Irish-American, the German-American and the Afro-American, the American-American is as hard to find as the proverbial needle in the haystack.

The Almanac notes a recent meeting in Santa Fe of the Society for the Friendless. It does not state whether any action was taken in Miguel's case.

The famous Arizona Kicker that made M. Quad famous must take a back seat. Ben Sokey is in jail in Prescott for kicking a house to pieces.

The Sierra County Advocate suggests that the territorial central committee reassemble and take another guess on the statehood proposition.

This year's reports of the members of the Cabinet make the celebrated Moral law look like an abbreviated paragraph.

If there is anything the president omitted to say in his message it isn't evident at a casual glance.

Meanwhile the Morning Journal is plodding along in its own inferior fashion.—?

Roswell must be trying a game of freeze-out. They now have two ice plants down there.

Miguel is still a Receptive Candidate.

A Model for Farmers

Wherever there is a bit of boggy land or swampy ground the French farmer goes to work and fills it up and plants trees on it. Row after row of green, thrifty trees could be seen occupying the place that was once a reeking swamp or reeking bog. Instead of wet, moulding earth there is green grass and cool shade. Instead of foul sickening odors, there is pure, life-giving air.

Clean yards, sanitary surroundings, pure air, these make the French farmer's home a healthful home. No chance for malaria typhoid or other endemic diseases.

The farm homes in France are models that the American farmer would do well to imitate. Dank, moss covered walls, dirty back yards, undrained cesspools, baryards filled with old dump-heaps and strewn with litter, fence corners overgrown with tall rank weeds, swarms of insects, the stench of decaying vegetation polluting the air—these are not uncommon things to be found in the farming districts of America. And it is traced many a sickness in the farmer's family. Darkness and dirt and dampness are disease breeders of the kind prolific kind. Catarrhs and malaria, rheumatism and typhoid, are rampant in such surroundings.

If the farmer would set to work and clean up and make sanitary surroundings there would be less sickness in his family and fewer doctor bills to pay. Dirt and disease go hand in hand, while cleanliness and health are inseparable companions.

The farm home should be the healthiest in the world. In the clear, open spaces of the country there is a chance for an abundance of fresh air and sunshine, pure water, and wholesome food, and the farmer should see to it that nothing is allowed to pollute these natural sources of health and life.—Dr. S. B. Hartman.

Stocked Up.

"Won't you have to go to work pretty soon writing speeches to deliver in congress?"

"No," answered the representative from Waterbury. "In the early rush of my ambition as a statesman I dashed off more speeches than I will ever get a chance to deliver in the next ten years."

Her Preference.

"It is ideal racing weather," said the enthusiast over sports.

"Well," answered young Mrs. Torkins, "I must say the kind of weather that strikes me as ideal is the sort that's so threatening that Charley says he guesses he won't go out to the track today."

The Giant Gorilla of the Sanga.

La Nature recently printed the photograph of an enormous anthropoid ape that was killed near the Sanga River, in the French Congo.

Dr. E. T. Hamy writes that these large animals have been seen several times in the last year in the valleys of the Lom and Sanga rivers. The white men at the German and French station corroborate this report that an anthropoid of great size lives in the forests along the boundary between the Cameroons and the French Congo.

Mr. Eugene Brasseur, who sent the photograph to La Nature, says that the animal appears to be a gorilla, differing from those living in Gaboon only in its enormous stature. Its skull, face and ears are exactly like that of a gorilla, but its body is much larger and its tail is longer and its body is much larger and its tail is longer.

The animal was almost bare upon the breast and stomach, but its shoulders and thighs were covered with thick, long hair. It was about three feet and a half in breadth across the shoulders, it weighed nearly 800 pounds, and eight porters were required to bring it to the station.

A later report says that another similar specimen has been killed near Bayanga on the Sanga.—Bulletin of the American Geographical Society.

## SEALSHIP OYSTERS

PURE FOOD

The only absolutely fresh, wholesome, appetizing oyster ever sold in bulk. They are practically shell oysters as they are merely slipped from their own shells into a porcelain-lined case which is sealed, thus forming a shell on a large scale. All the piquant "half-shell" flavor, the delicate tang given by the salt water, the smooth firmness, the nourishing quality, the natural color, are fully retained. No preservatives are ever used. "SEALSHIP" OYSTERS FRESH DAILY.

San Jose Mkt

## TORRANCE SAYS THE STORY IS ALL JUST "PURE ROT"

**Declares Corporations Are  
Being Trifled With.**

**DENIES THAT DEVELOPMENT  
COMPANY OWES \$500,000**

**Pittsburg Man Says Concern Doesn't  
Owe the Enterprise Bank  
"Five Cents."**

Special to the Morning Journal.  
Pittsburg, Pa., Dec. 5.—Receiver Thomas Rinker, of the Enterprise bank, will not take personal charge of the Santa Fe Central. He said tonight that as far as he was able to ascertain the affairs of the road were in excellent shape. He will, however, keep in close touch with the railroad officials. In an unofficial way he will supervise the road's affairs, keeping in close touch with the directors for that purpose. Former Receiver Cunningham said there was the best of understanding between the federal authorities and the railroad company. The affairs of the Pennsylvania Development company are being straightened out gradually and there is hope of an early adjustment of the entire affair.

### TORRANCE SAYS HE DOESN'T OWE THE BANK A NICKEL

Francis J. Torrance, of the Pennsylvania Development company, positively denies the reiterated statement made by the Associated Press to the effect that the Pennsylvania Development company owes the Enterprise bank a half million dollars and that the receiver of the bank will exercise a supervisory power over the Santa Fe Central railway and Albuquerque Eastern, completing the latter, and then selling the whole system to protect the claims of the bank against the Development company. The "fake story" which the Evening Citizen refers to was in each case a dispatch of the splendid night report received only by the Morning Journal from the Associated Press, the news-gathering organization which provided the Citizen with its abbreviated day report. It is a curious spectacle to see the Citizen denouncing its own source of telegraphic news as a "fake" proposition.

Colonel W. S. Hopewell, manager of the Albuquerque Eastern, was wired to Mr. Torrance for an authoritative statement as to whether the report was true. In his reply Mr. Torrance positively and emphatically denies the equally positive statement of the Associated Press that the Pennsylvania Development company owes the Enterprise bank the sum of \$500,000.

After first sending a telegram that the report was "pure rot" Mr. Torrance later sent the following message last night:

"There is absolutely no foundation for the report and no such talk in the papers here. A property cannot be placed in the hands of a receiver unless that property is in debt and the railway company doesn't owe the bank mentioned five cents. You send me clippings and I will attend to it here. There has been entirely too much of this trifling with the name of our corporation and somebody will have to pay for it."

"FRANCIS J. TORRANCE."  
Mr. Hopewell kindly furnished the Morning Journal with a copy of the Pittsburg "Dispatch" of recent date in which Mr. Torrance gives a more detailed denial of published reports. It is in part as follows:

### MR. TORRANCE GIVES A DETAILED STATEMENT

Francis J. Torrance, first vice president of the Santa Fe Central railroad, made a statement yesterday to correct what he termed unfounded statements concerning the road and its management. He denied that the road brought about the failure of the Enterprise National bank.

"It is only fair," said Mr. Torrance, "that the public should know the facts concerning the Santa Fe Central—facts that are amenable of easy verification. Rumor and stories based on half facts and no facts have been published regarding the property."

"It has been stated that the road and the Pennsylvania Development company is a quasi-political enterprise and that the future success of the project hangs on the admission of New Mexico into the Union as a state. I want to say that it makes no difference as to whether the territory joins the ranks of states."

"It has been said that Senator Quay made every effort to get New Mexico among the states so as to create a market for the stock of the road and that these efforts were sufficient to create a wide market for the stock. And then it is added that the promoters were enabled to dispose of the stock at figures that exceeded their wildest expectations. That is false. Not a share of the road has been sold or offered for sale. The stock has never been out of the stock books. It has never been sold, used or hypothecated. In this connection a statement has been made that the task of refloating the stock to save the company was given into the hands of Mr. Clark as treasurer. How could stock be refloated which was never on the market?"

Torrance puts in \$1,500,000.  
Then the question is raised, "Where did the money come from?" Why, I furnished half a million in cash and a million in securities and some came through Mr. Clark. We don't owe a dollar in New Mexico beyond some minor indebtedness in the banks there."

"If the Enterprise was as sure of getting their money from everybody as they are of getting it from us the bank would be in good shape. Every demand from the Enterprise except some untraveled matter which I am not prepared to discuss has been met. Receiver Cunningham can furnish information on this score."

"If any mistake was made in the road it was that we have built too well. The road is better built than the western roads and is considered by experts to be a fine sample of thoroughness and safety. It has been said that our ties were from three to four feet apart, and, in fact, during the campaign, the doubt was raised whether the road really existed at all. This is false and well calculated to harm a property such as we have in the territory."

"In building the road we had the services of Alan Kennedy, an engineer of the highest standing and formerly of the Chicago & Northwestern. Our ties are of the best and our rails

from the Carnegie Steel company are regulation 70-pound rails. Our bill for rails from the Carnegie Steel company was something like \$575,000 and the freight and other expenses brought the cost up to nearly three-quarters of a million dollars. The roadbed is of adobe and makes a stable foundation, preserving the ties. The road is 7,500 feet above sea-level and there is little or no moisture, which also tends to the long life of the road equipment."

### The Physical Equipment.

"The rails in our yards are not 'seconds,' as is sometimes customary. There are 125 miles in operation, with 117 of that main line. We are constructing a branch line to Albuquerque, taking in about 75 miles."

"We have received offers for some of our road equipment from the Atchison, Topeka & Santa Fe. That does not indicate that we have been or are working in a makeshift manner."

"The road connects Torrance on the Chicago & Rock Island and goes to Santa Fe, tapping a country which for richness of minerals and deposits cannot better be described than a 'second Pennsylvania.' For our branch in Albuquerque the city has given us 125 acres for terminals and shops. In the opinion of the government geologist, we have 20,000,000 tons of coal in our territory, with 6,000,000 tons in sight. We have 8,000 acres of native pine, the finest timber in New Mexico, besides great deposits of ore. In this country are thousands of acres of grazing land and in the sheep territory it is estimated that there are 2,000,000 sheep. It is a great copper country, nine big smelters being located near El Paso. We will cut down the distance to without the new branch which will open up great industrial possibilities. It connects three big railroads—the Chicago, Rock Island & Pacific, the Denver & Rio Grande, and the Atchison, Topeka & Santa Fe. The Denver & Rio Grande has no other southern outlet than over our line."

"We will cut down the distance to El Paso, which is the great coal center for the railroads. The Mexican Central, Mexican Northern, the El Paso & Southwestern and the El Paso & Southern and other roads get their coal from this point. We mine coal at 85-2-3 cents a ton and get \$2 a ton for it at pit mouth. At Roswell, on the other side of the Chicago & Rock Island tracks, coal is selling for \$10 a ton and they are carrying coal from Torrance to Roswell in automobiles. As to the sheep industry, we sent 640 carloads of sheep over the Denver & Rio Grande during last month."

**Get Government Contract.**  
"We have been awarded the government contract for carrying the mails into Santa Fe because we made better time than the Rock Island trains. We will be the only line into Albuquerque when the competing line changes its tracks. Also the question of water has been raised. We have a better supply than any in our district, and water enters into railroading in that territory. We have 100 worth of water to a competing line."

Mr. Torrance, asked as to the frequent reference made to the connection of Mr. Clark with the company, said he did not care to discuss this phase of the matter.

## DEAD SHOT SCHULTZ BOUND OVER TO GRAND JURY

**BELLIGERENT FIREMAN ROUSCH  
PUT UNDER PEACE BONDS**

The preliminary hearing of Harry W. Schultz, who took two shots at Captain W. W. Sleight on Monday afternoon, came up for hearing in the court of Justice George R. Craig yesterday morning. At the conclusion of the testimony Schultz was placed under \$250 bonds for appearance before the next grand jury.

It seems from the testimony that there has been a family feud on for some time past, and that as Sleight was going to the coal house for a bucket of coal, Schultz fired at him with a pistol. Sleight went to his house and got a shotgun and fired in the direction of Schultz. Though they were at very close range, neither was struck, the shooting being wild in extreme.

### THREATENING FIREMAN IS PUT UNDER PEACE BONDS

John Eich, who is a fireman on the west end of the Santa Fe, was yesterday placed under peace bonds in the sum of \$250 by Justice Craig. J. A. Rousch, an engineer on the same line and Eich have been having trouble for some time past, and Eich threatened so Rousch claims, to take his life and the lives of his family. The trouble came up some time ago while both men were out on the road. The feeling has been growing more bitter and the threats more frequent until Rousch instituted peace proceedings to protect himself.

## THE SAN FRANCISCO POLICE KEEP WIRES HOT FOR MR. OTT

**ALL ABOUT HOW THE COAST  
OFFICERS MADE UP THEIR MINDS**

In regard to the recent capture in this city of John H. Ott, wanted in San Francisco for grand larceny, and turned over to Detective Freel recently by Chief of Police McMillin, the San Francisco Examiner contains the following little "aside." Ott was nabbed by the watchful local officers on the limited train here and kept under surveillance until the somewhat dilatory officers of San Francisco decided that they really wanted him bad enough to pay the Albuquerque officers for their trouble. Ott had to be kept under surveillance for several days here. The Examiner says:

The police of Albuquerque, New Mexico, have a rather brusque way of demanding pay for the arrests they make for the local authorities. Captain of Detectives Burnett has just had an experience which is unparalleled in the history of extradition. A week ago last Tuesday, Frank Johnson, a bricklayer, living at 1954 Howard street, reported that he had been robbed of \$1110 by his room-mate, J. H. Ott. He had come to California with Ott a few weeks before and relied implicitly on his honesty.

When he found that his money and friend had fled about the same time he remained loyal until the police discovered that Ott on the day of his disappearance had bought a ticket for Chicago. He was traced to Albuquerque, where he was arrested. Detective Freel was sent with extradition papers to bring him home. No question was raised about the surrender of the prisoner until yesterday, when Captain Burnett received a telegram from Chief of Police McMillin of Albuquerque. An exchange of telegrams followed, with the result that the local police had to finally succumb or fail to secure the prisoner. They read:

McMillin to Dinan: "Am I entitled to a reward of \$25 for Ott?"  
Dinan to McMillin: "No reward for Ott."

Freel to Dinan: "Instruct me, as the police demand \$25 for Ott."

Dinan to Freel: "If expense charges are demanded pay and get receipt. No reward for Ott."

Freel to Dinan: "Police want \$25 for arrest and will not give up Ott."

Freel to Dinan: "Pay \$25 and get Ott."

Freel to Dinan: "Wrecks and washouts bad, but will leave tonight with Ott."

## MILLWORKER'S HAND GROUND TO PULP IN MACHINE

**OILER AT LUMBER PLANT  
MEETS WITH PAINFUL INJURY**

Joe Komar, an oiler at the American Lumber company's plant had his left hand badly mangled shortly before midnight last night. He was oiling around one of the big machines at the mill. Komar had the oil can in his hand, put his left hand out unconsciously, and it was caught between the cogs near the wrist. All but the first finger and thumb were ground into pulp.

Dr. M. K. Wylder, the mill surgeon, was hurriedly called, and when he arrived, trimmed the hand with a pair of surgeon's scissors and conveyed the man to St. Joseph's sanitarium, where he will operate further on the hand this morning.

Komar suffered terrible agony. He has been in the employ of the company for some time past and says that he does not know how he allowed himself to become so careless.

### RUSSIAN CAPTIVES STOLE EFFECTS OF AMERICANS

**Grant and Findlay Tell of Privations  
in Empire.**

Victoria, B. C., Dec. 5.—Charles Grant and Robert Findlay, Victoria seafarers who were captured by the Russian cruiser Gromobol, which sank the Japanese sealer Hokusei, on which they were engaged as seafarers, reached home last night after being in the Russian prison at Medved Novgorod for months. They say the Russians treated them badly, stealing all their effects. United States Consul Smith of Moscow visited them twice while in prison, and it was through him that the news of their predicament reached their relatives. Three other Victoria seafarers—Henry Jacobsen, Fred Cochran and William Williams—captured at the same time, are stranded in St. Petersburg.

Findlay and Grant, seafarers, who were captured by Russians when on the Japanese sealer Hokusei Maru, confirm the reports published some months ago that C. T. R. Thompson and George McCamish of San Francisco, Edward McNeill of Victoria, and Joseph Knap, of Washington, as well as a native of Guam, are in prison at Khabarovsk, on the Amur river. Their schooner, the Kyoyochi Maru, was seized and destroyed. They were captured by the cruiser Lena on August 16, 1934, when on the rookery at Robbin Island. They had clubbed 240 skins when arrested.

The five were sentenced to one year and four months' imprisonment at Nicolaevsk. Thompson was kept in heavy irons and manacles, the Russians being incensed at him because he formerly was employed by the Russian company which leased the island as mate on the guardship Kotik. Thompson was reported in ill health when the Japanese seized with him reported the circumstance to the returned seafarers at Medved prison.

## NEW MEXICO BOARD OF HEALTH TENDS ITS WORK

### SEVERAL NEW COUNTY HEALTH OFFICERS ARE APPOINTED

The New Mexico board of health met yesterday at the parlors of the Commercial club in this city, having adjourned the meeting to this city from Santa Fe, where it met on the previous day.

At the meeting were present Dr. G. W. Harrison, Albuquerque, president; Dr. T. B. Hart, vice president; Raton; Dr. W. D. Radcliffe, treasurer; Boleyn; and Dr. B. D. Black, Las Vegas, secretary.

Several applicants for diplomas made their appearance in person and some thirty-five applications were considered at the meeting of the board.

The relating of medical colleges was also considered and there was quite a lively debate on this subject.

Several vacancies in the list of county health officers were filled and, in some cases changes were made. Those who were appointed at yesterday's meeting of the board are as follows:

McKinley county: Dr. J. M. Shields, of Perea, for Sandoval county; and Dr. William MacLack, of Silver City for Grant county.

Several other matters of a routine nature were discussed by the board. Visiting physicians who attended the meeting left for their homes last night, as the board completed its work at yesterday's session.

## WOOD CHOPPER ALMOST CHOPS OFF LEFT HAND IN WOOD YARD

Julian Romero met with a very painful and serious accident at the wood and coal yard of John S. Heaven on South First street yesterday morning which will lay him up for some time, and which came very near costing him his left hand. Romero is a wood chopper and was engaged in splitting the blocks of wood at a cart from the saw. He had a short handled axe. In striking at a block the axe slipped and caught his left hand between the thumb and first finger, cutting a very deep gash into the soft flesh. He called to a doctor's office where the hand was dressed. It will be some days before he will be able to resume his duties at the yard. Romero lives in Old Albuquerque.

## EAGLES ELECT NEW OFFICERS TO SERVE DURING THE COMING YEAR

At last night's meeting of Albuquerque Aerie No. 155, Fraternal Order of Eagles, officers were elected for the ensuing year. The annual meeting for election was held at the city yesterday and the ranks of the birds in this city have received many accessions during the past year.

Plans were discussed for an entertainment to be given on the 19th for the benefit of the lady friends of the members of the order. It is intended to make the affair a very elaborate one and an excellent program is now being prepared.

The following officers were chosen: Henry Westerfield, worthy president; J. J. Sheridan, worthy vice president; J. W. Barnes, worthy chaplain; William E. Grimmer, worthy secretary; Frank Kister, worthy treasurer; W. H. Moore, worthy comptroller; John F. Pearce, worthy physician; William Gleimer, inside guard; Percy Hawley, outside guard; Jacob Gainsley, John Zirkut and John Cuneo, trustees.

**Rushing Work on Cut-Off.**  
Colonel W. M. Berger, secretary for the Belen, Tucson and Improvement company was in the city yesterday on business connected with the company. Colonel Berger says that all the larger bridges on the cut-off will be completed by January 1, and that construction trains will be running through to Willard by the first of February. In order to accommodate the people of Albuquerque who desire to invest in town lots at Belen, Mr. Berger will be in Albuquerque on Tuesday and Wednesday during the month of December at the real estate office of W. P. Metcalf, 610 Gold avenue, where he will be pleased to give all information to prospective purchasers of Belen real estate. He will be at Mr. Metcalf's office today and this evening.

**Bank Book Specialists.**

## DECLARE CHINESE BOYCOTT IS GROWING

Pacific Coast Merchants Mourn Decreasing Trade.

San Francisco, Cal., Dec. 5.—The wholesale shippers of the Pacific coast are complaining everywhere that the boycott on American goods in China has not been abandoned by the Chinese, as has been reported, but is growing stronger as the months advance. They declare that the fault lies with the people of China themselves. They say that their representatives in China ports write that the determined spirit to boycott American goods has become so prevalent in China that it has spread to every class, even the lowest.

M. Thomson, a prominent flour wholesaler and exporter of Seattle, who is at the Palace on a business trip said yesterday that the exportation of flour from America to China had decreased 60 per cent since the boycott began. Instead of dying out, he says, the antagonism to American goods is increasing.

The Pacific coast merchants have, however, prospered tremendously since the peace agreement between Russia and Japan was signed. One northern firm has sent \$20,000 barrels of flour into Vladivostok since peace was declared. Other lines of goods have fared equally as well. According to the reports of the exporters an unprecedented shipment of goods has been made from San Francisco to Russia and Japan during the last two months. Merchants say Russia is looking more and more to the United States for supplies.

## CHARITIES ADOPT A CONSTITUTION AND BY-LAWS

### SEVERAL NEW COUNTY HEALTH OFFICERS ARE APPOINTED

A well attended meeting of the Associated Charities was held in the Commercial club building yesterday at which the committee on constitution and by-laws submitted a report. The constitution and by-laws as drawn up by the committee were discussed, amended and adopted with a few minor amendments. Fifteen directors were elected, eight of which will constitute a quorum, and a second vice president was added to the roll of officers.

A proposition from R. W. Hadden to take charge of a musical concert to be given for the benefit of the organization was received and after some discussion it was accepted. No arrangements were made as to the time or place of the concert, but the fact that it is in the hands of Mr. Hadden makes it certain that the concert will be a success and it will probably prove of material aid in raising funds for the work of the organization.

A finance committee was appointed consisting of Rev. A. C. Harrison, Rabbi Jacob H. Kaplan, Rev. John W. Barron, Rev. E. E. Crawford and D. A. Macpherson.

The meeting yesterday was a most successful one, as all the officers and many other members of the Charities were present and full of enthusiasm. The committee on soliciting reported most satisfactory progress and altogether the outlook for the work of the Associated Charities is quite flattering.

The colored people are doing nobly in the work of raising funds for the work. Yesterday they made a second handsome donation of \$32.25 to the organization.

## PALE FACES

By Some Thought to Denote Refinement.

"What a mistake! In place of refinement pale faces denote debility."

"A bloodless face indicates anemia or impoverished blood, pure and simple."

"What is the result? A weakened condition of the entire system, the development of humors, distorting eruptions, and finally a general collapse."

We wish your paper would tell every man, woman and child in Albuquerque, yes, and every old person, that we are so sure that our famous cod liver oil preparation Vinol (deposited for sale and without cost) will make rich, red blood, create strength, and restore them to a normal condition, that we will pay for all the Vinol they take if it does not succeed.

"Why are we so sure?" Simply because Vinol contains in a highly concentrated form all of the vital, medicinal principles of cod liver oil, actual cod liver oil, fresh cod livers and without the useless system-clogging oil to upset the stomach and retard the work.

Vinol in a natural manner will tone up the stomach, make rich, red blood and strengthen every organ in the body to do its work as nature intends. We do not ask the people of Albuquerque to take our word for it, but simply to try Vinol on our guarantee. J. H. O'Reilly & Co., Drugists.

## WILL MAKE GYMNASIUM THE BEST EQUIPPED IN NEW MEXICO

W. J. Gould, formerly physical director for the Railroad Y. M. C. A. at Chardon, Nebraska, for nine years and C. Kuhlmeier, of Lorain, Ohio, have taken hold of the National Guard gymnasium in the Edin's building and have secured the endorsement of the Associated Charities in a scheme to turn it into one of the best equipped athletic institutions in the territory. It is intended to make the gymnasium one of the broadest possible lines. Classes for men and boys will be held, first class athletic instructors to be placed in charge. Mrs. Gould who is a well known physical director will arrive in the near future and will start classes in physical culture for women. Football, base ball, basketball, track and athletic teams will be organized. It is intended to make the gymnasium an institution of which the city will be proud and the gentlemen will have the warm approval of the public in their work.

They are now negotiating with B. Rappe, to whose efforts the present excellence of the gymnasium is due. Conductors, Think of It. A cover in time saves your train book. Get them, made of leather, at Mitchell & Lithgow's bookbindery, with the Journal.

**Boston Wool Market.**  
Boston, Dec. 5.—Stocks of domestic wool in Boston are very small in a market, which is unusually dull. It is estimated that the year will go out with the smallest stocks for several seasons. Foreign wool is in relatively better supply than domestic, though it is stated that a good proportion now in hand in both ports is held for manufacturers' account.

**The Mercks.**  
New York, Dec. 5.—Copper was lower in London, closing at \$17 for spot and \$16 1/2 for futures. Locally the market was strong, with immediate delivery makes the quotations for spot practically nominal. Lake and electrolytic are held at \$17.75 and \$18.00, and casting at \$17.50 and \$17.75.

Lead was 7 1/2 higher at \$16 1/2 in the London market. Locally quotations ranged from \$5.35 to \$5.55, according to lot and delivery. Spelter was firm at \$6.35 and \$6.45 in the local market, practically unchanged in London at \$28 1/2.

Silver, 63 1/2 c.  
Mexican dollars, 49 1/2 c.

**Chicago Cattle Trade.**  
Chicago, Dec. 5.—A demand for a leading bull operator was the principal cause today of a strong market here. The volume of trading was large. May opened at \$8 1/2 and \$8 3/4. Advanced to \$8 and \$8 1/4. May corn opened at 44 1/2 c. and closed at 45 1/2 c.

May oats opened at 32 1/2 c. and closed at 32 1/2 c.

**Chicago Livestock.**  
Chicago, Dec. 5.—Cattle receipts, 6,000; market, steady. Beef, \$2.50; southern steers, \$2.50; native cows and heifers, \$2.00; 5:15; stockers and feeders, \$2.00; 4:50; bulls, \$2.25; calves, \$2.50; 6:50; western steers, \$2.00; 4:75; western cows, \$2.00; 4:25.

Sheep receipts, 18,000; market, steady. Sheep, \$4.00; 5:75; lambs, \$4.50; 5:75; fed ewes, \$3.00; 4:75.

**St. Louis Wool.**

## ANTONIO APACHE HAS NOVEL PROJECT IN CALIFORNIA

Is Director of an "Indian  
Crafts Exhibition."

TROLLEY MAGNATE HUNTINGTON  
FINANCING THE ENTERPRISE

Antonio Apache, the well known full blooded Apache Indian and graduate of Cornell, formerly employed by the Harvey system in Albuquerque, has embarked in a novel enterprise in California. He is the manager of an "Indian Crafts Exhibition" located on the Pacific Electric Railway between Pasadena and Los Angeles.

Apache has succeeded in interesting Horace P. Huntington, the great electric railway magnate, and there is plenty of capital behind the project.

The Exhibition is to be an Indian settlement and curio collection. The curio buildings will be in the old Mission style, and the Indian dwellings will represent all the native tribes of Alaska, and the northwest, the west and southwest. It is to be made one of the most interesting and expensive ethnological displays in the country and money will not be spared in its equipment. A ten acre tract has already been purchased and the "Crafts Exhibition" is well under way.

Antonio Apache is now engaged in securing exhibits and Indians for the settlement. Every person in the Indian village will be a full blooded Indian, the salesmen and saleswomen will all be college bred Indians, and every employe about the place will be a redskin. It is intended to make the curio exhibition one of the most interesting and complete in the southwest.

Antonio Apache is one of the best educated and best posted Indians in the United States. He has been for years a prime favorite with all the tourists who visit New Mexico, has lived in nearly every city of prominence in the east and has a large acquaintance. He is a foot-ball enthusiast and is well versed in all the great American sports. He is a fine conversationalist, talks easily on many subjects and is splendidly equipped for the enterprise in which he is now engaged.

Some time ago Apache had a misunderstanding with the Harvey people and he went to Los Angeles, where for a time he acted as a mining expert, being quite familiar with ores and metals.

## COACH ON EL PASO TRAIN CATCHES FIRE AT THE LOCAL DEPOT

Coach No. 2825 of the El Paso train, which was attached to No. 9 leaving this city for El Paso, caught fire last night and came very near burning up. The fire was discovered by the special officers at the depot and the car repairers extinguished the flames without calling on the city department. The fire was caused by a short in the stove. The damage will not amount to much.

## RAILWAY MAY SETTLE ISLETA DAMAGE CASE OUT OF COURT

Attorney A. J. Abbott, of Santa Fe, arrived in the city last night and will remain for a day or two. Mr. Abbott is attorney for the Pueblo Indians of New Mexico and is here in connection with the matter of the damages sustained by the Indians at Isleta last spring during the flood of the Rio Grande. The Santa Fe railway grade at that city caused the water to back up and flood the crops and vineyards of the Indians and suit is about to be brought for damages aggregating over \$5,000. It is understood that the railway company has shown a disposition to settle the claims and this may be done.

## "THE MARRIAGE OF KITTY" THOROUGHLY CHARMING BIT OF COMEDY

A packed house greeted one of the best performances of the season last night at the Elks' opera house when the "Marriage of Kitty" was placed on the boards by the Jules Murry organization, with Miss Alice H. Johnson as "Kitty." The play is charming, thoroughly wholesome, clean and bright and clever and one of the kind that leaves a "good taste in the mouth" afterwards. Miss Johnson in the leading role is unexcelled and one of the cleverest actresses ever seen at the local theater. There are only six people in the cast, but each one is an artist and the playing of each is delightful. "The Marriage of Kitty" is a comedy to the core. Any time Miss Johnson returns to Albuquerque she can be assured of just as large a house as she wants.

Raymond Teal, the Merry Minstrel, supported by his company of players, will play a return date, giving two performances at the Elks' theater on Saturday afternoon and night, December 8th, on which occasion he will present to the patrons of Albuquerque, a new and complete change of program, giving a bunch of new songs, new jokes and a comedy of sterling merit. Popular prices will prevail. Matinee 15 and 25 cents. Night, 25, 35 and 50 cents. Don't forget the time and place.

The Great Cattle Exhibit at Union Stock Yards, Chicago, December 16 to 23 inclusive, is an event that should not be missed. The aristocracy of the bovine kingdom will be there.

Attend the "International" by all means. Low rates (\$45.00) via Santa Fe. Tickets on sale December 16 to 19. Inquire at ticket office, H. S. Lutz, agent.

# ALMOST SOLD OUT!

On January 1st we will, for a time, withdraw from the market all remaining unsold lots in the Eastern Addition—Highlands.

¶ You will never again get another chance to buy these beautiful 50-foot lots at the present prices and easy terms of today.

¶ \$125, \$150, \$175 to \$200 per lot; only \$10 down, balance \$1 per week.

¶ Three years ago the same kind of Lots sold in Los Angeles at these prices; today they are reselling at from \$1250 to \$2000 per lot.

¶ Try putting your rent money into a home of your own.

SURETY INVESTMENT COMPANY. D. K. B. SELLERS, Manager

## YOUNG PEOPLE STEAL MARCH ON THEIR FRIENDS AND ARE WEDDED

"The Marriage of Kitty" was not the only wedding on the boards last night. Charles E. Doll, the popular traveling representative of the National Biscuit company, and Miss Adelaide Schormeyer, a well known young society lady of Santa Fe, sprung a surprise on their friends and were united in wedlock by the Rev. Hugh A. Cooper at the Presbyterian parsonage. The bride is the daughter of Mrs. Louis Schormeyer and has for some time been engaged in the Presbyterian church of Santa Fe, as well as a member of the Capital city band. Mr. Doll has lived in New Mexico for the past thirteen years and is well and favorably known.

## WORKS WONDERS.

A Wonderful Compound—Cures Piles, Eczema, Skin Itching, Skin Eruptions, Cuts and Bruises. Doan's Ointment is the best skin treatment, and the cheapest, because so little is required to cure. It cures piles after years of torture. It cures obstinate cases of eczema. It cures all skin itching. It cures skin eruptions. It heals cuts, bruises, scratches and abrasions without leaving a scar. It cures permanently. Albuquerque testimony proves it.

J. H. Cross, of 53 South First street employed in the Santa Fe shops, in the mill department, says: "Exposure and sitting on damp logs and cold stones while in the mountains some three months ago, brought on itching hemorrhoids, commonly called piles. While not severe or serious they were very annoying and I put off doing anything to get relief until compelled to. One evening I stepped into a pharmacy and asked for something to bring relief. I finally decided upon Doan's Ointment. The first application gave relief and in a short time I was practically cured. I have great confidence in this remedy for what it did for me. I never used anything which was so soothing and healing. I recommend it to others and know they will not be disappointed in the results if they give it a trial." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Now Is the Time. To get your 1935 magazines together and have them bound. Prices and styles of binding cheerfully given on application to Mitchell & Lithgow, bookbinders at the Journal office.

New Mexico's Leading Jeweler.

## LOCAL ITEMS OF INTEREST

### THE WEATHER.

For the twenty-four hours ending at 6 o'clock yesterday afternoon:  
Maximum temperature, 45; minimum, 20.

### Forecast:

Washington, Dec. 5.—New Mexico and Arizona—Fair Wednesday and Thursday.

C. E. Mead, the druggist, is up from San Marcial on a business visit.

A. J. Otto and wife of Magdalena, are in the city for a visit with friends.

A. J. Loomis, of the internal revenue service, arrived last night from his headquarters at Santa Fe.

D. S. Patterson, formerly in the dairy business in this city, but for several years past a resident of Los Angeles is in the city.

Gardner Thiele, postoffice inspector of Sandusky, N. Y., is in the city and will remain for a few days on official business.

Dr. W. D. Radcliffe and wife arrived in the city yesterday from their home in Belen, where the doctor is surgeon for the Santa Fe railway, on the Helen cut-off.

Mrs. Noa Ifield will give a church tea at her residence, 1009 West Tijeras avenue, Saturday, December 9, from 2:30 to 4 p. m. The public is cordially invited.

James Lucas and wife of Los Cerillos, who have been in the city for a day or two, left last night for Los Angeles, Cal., where Mrs. Lucas will remain for the winter.

Ike Hauser, of Cincinnati, is in the city for a few days calling on friends and transacting business. Mr. Hauser is a well known Elk and has many friends in Albuquerque.

George W. Dexter, of Sandoval county, Juan Bautista Kowemich and Gertrude Hecho filed their dual proof for homesteading quarter sections of lands in that county yesterday in this city.

Regular meeting of Excelsior Lodge, No. 1, D. of H., tonight at 10 o'clock. Every member is urged to be present. By order of the C. of H. Etta B. Allison, recorder.

From indications at present, Ballut Alpay Temple, Nobles of the Mystic Shrine, will be well represented at the Imperial council meeting which opens at Los Angeles, Cal., on May 6th next. About two hundred members of the local temple have signified their intention of attending.

H. S. Lutz, formerly agent of the Santa Fe in this city, leaves this morning for Santa Fe, where he will take charge of the station in that city. Mr. Lutz came to Albuquerque from Santa Fe and owing to the condition of his health he resigned to take the old position. He will leave his family in this city for a few weeks until he can arrange for moving them.

L. Alary and Sons, of Los Corrales, yesterday installed a 172 gallon still for the manufacture of grape brandy and will have it in operation within a few days. The grape crop in the valley has been very large this fall and the wine and brandy product for the year 1905 will be exceptionally large. The firm of L. Alary and Son is one of the oldest in the valley and has been in the manufacture of native wine for many years.

E. T. Coffey, for several years telegraph operator with the Globe-Democrat in St. Louis, but who has been in New Mexico for the past eight months for the benefit of his health, is in the city the guest of Conductor G. H. Thomas, of the coast lines of the Santa Fe. Mr. Coffey, who has been putting in his time at Chaves, a small station on the Santa Fe, as station agent, operator and pumpman, has thoroughly regained his health and will return to St. Louis where he will resume his

## CHRISTMAS PRESENTS

Our Holiday Goods are now on display and we invite your  
early attention. Any article selected will be laid  
aside for you upon payment of a deposit.

**DIAMONDS.**—We are leaders in fine diamonds, both in solitaire and clusters. We have finger rings, earrings, brooches, studs, lockets, etc. We bought our diamonds long before the recent advance and our prices are lower than you can buy similar goods for anywhere. Ask for our special guarantee on diamonds.

**WATCHES.**—Of every description—silver, gold-filled and solid gold. We have good reliable gold-filled watches from \$7.50 up.

**JEWELRY.**—Suitable for old or young. Rings, brooches, earrings, bracelets, neck chains, logerettes, etc.

**SILVERWARE.**—Everything suitable for Christmas presents, as well as for the table. Knives and forks, carving sets, nut sets, cake baskets, fruit dishes, tea sets, chocolate sets, water jugs, toilet sets, manicure sets, military brushes sets, jewel boxes, handkerchief and glove boxes, shaving and smoking sets, etc., etc.

**CUT GLASS and Hand-painted China.**—Compare our prices on these goods with others.

**REMEMBER.**—Everything we sell is absolutely guaranteed. We are not selling out or leaving town. We have been with you 22 years and our establishment is one of the institutions of Albuquerque. Drop in and look around. You will be welcome.

# PROSPERITY WITHOUT HONEST CITIZENSHIP SAYS ROOSEVELT IN VIGOROUS AND FORCEFUL MESSAGE TO FIFTY-NINTH CONGRESS

## PROSPERITY DOES STRAIGHT TO THE POINT

Powerful Document Does Not  
Dodge Any Issue.

MESSAGE COVERS EVERY PHASE  
OF COUNTRY'S PROBLEMS

Most Exhaustive Resume of Condi-  
tions in America Ever Issued

From White House.

To the Senate and House of Repre-  
sentatives:

The people of this country continue to enjoy great prosperity. Undoubtedly there will be ebb and flow in such prosperity, and this ebb and flow will be felt more or less by all members of the community, both by the deserving and the undeserving. Against the wrath of the Lord the wisdom of man cannot avail; in times of drought human ingenuity can but partially repair the disaster. A general failure of crops would hurt all of us. Again, if the folly of man mars the general well-being, those who are innocent of the folly will have to pay part of the penalty incurred by those who are guilty of the folly. A panic brought on by the speculative folly of part of the business community would hurt the whole business community. But such stoppage of welfare, though it might be severe, would not be lasting. The long run is the one vital factor in the permanent prosperity of the country is the high individual character of the average American citizen, no matter whether he be farmer or wage-worker, business man or professional man.

In our industrial and social system the interests of all men are so closely intertwined that in the immense majority of cases a straight-dealing man who by his efficiency, by his industry and industry, benefits himself, also benefits others. Normally the man of great productive capacity who becomes rich by guiding the labor of many other men does so by enabling them to produce more than they could produce without his guidance; and both he and they share in the benefit, which comes also to the public at large. The superficial fact that the sharing may be unequal, may never blind us to the underlying fact that there is this sharing, and that the benefit comes in some degree to each man concerned. Normally the wage-worker, the man of small means, and the average consumer, as well as the average producer, are all alike helped by making conditions such that the man of exceptional business ability receives an exceptional reward for his ability. Something can be done by legislation to help the general prosperity; but no such help of a permanent beneficial character can be given to the less able and less fortunate, save as the results of a policy which shall insure to the advantage of all industrious and efficient people who act decently. This fortune, earned through corporate organization, are now so large, and vest such power in those that wield them, as to make it a matter of necessity to give to the sovereign—that is, to the government, which represents the people as a whole—some effective power of supervision over their corporate uses. In order to insure a healthy social and industrial life, every big corporation should be held responsible by, and be accountable to, some sovereign strong enough to control its conduct. I am in no sense hostile to corporations. This is an age of combination, and an effort to prevent all combination will be not only useless, but in the end vicious, because of the contempt for law which the failure to enforce inevitably produces. We should, moreover, recognize in cordial and ample fashion the immense good effected by corporate agencies in a country such as ours. The wealth of intellect, energy, and fidelity devoted to their service, and therefore normally to the service of the public, by their officers and directors. The corporation has come to stay, just as the trade union has come to stay. Each can do and has done great good. Each should be favored so long as it does good. But each should be sharply checked where it acts against law and justice.

So long as the finances of the nation are kept upon an honest basis no other question of internal economy with which the congress has the power to deal begins to approach in importance the matter of endeavoring to secure proper industrial conditions under which the great corporations—doing an interstate business—are to act. The makers of our national Constitution

## Unequivocal Endorsement of Joint Statehood for New Mexico and Arizona and Oklahoma and Indian Territory

I recommend that Indian Territory and Oklahoma be admitted as one state and that New Mexico and Arizona be admitted as one state. There is no obligation upon us to treat territorial subdivisions, which are matters of convenience only, as binding us on the question of admission to statehood. Nothing has taken up more time in the congress during the past few years than the question as to the statehood to be granted to the four territories above mentioned, and after careful consideration of all that has been developed in the discussions of the question I recommend that they immediately be admitted as two states. There is no justification for further delay; and the advisability of making the four territories into two states has been clearly established.

## CONGRESS URGED TO ENACT LAW PROHIBITING EVIL OF LICENSED GAMBLING IN THE TERRITORIES

In some of the territories the legislative assemblies issue licenses for gambling. Congress should by law forbid this practice, the harmful results of which are obvious at a glance.

improperly radical or hasty action. The first thing to do is to deal with the great corporations engaged in the business of interstate transportation. As I said in my message of December 6 last, the immediate and most pressing need, so far as legislation is concerned, is the enactment into law of some means to secure to the agents of the government such supervision and regulation of the rates charged by the railroads of the country engaged in interstate traffic as shall summarily and effectively prevent the imposition of unjust or unreasonable rates. It must include putting a complete stop to rebates in every shape and form. This power to regulate rates, like all similar powers over the business world, should be exercised with moderation, caution, and self-restraint; but it should exist, so that it can be effectively exercised when the need arises.

The first consideration to be kept in mind is that the power should be affirmative and should be given to some administrative body created by the congress. If given to the present interstate commerce commission or to a reorganized interstate commerce commission, such commission should be made unequivocally administrative. I do not believe in the government interfering with private business more than is necessary. I do not believe in the government undertaking any work which can with propriety be left in private hands. But neither do I believe in the government flinching from overseeing any business which becomes just, then after a fair and honest investigation, to prescribe the limit of rate beyond which it shall not be lawful to go—the maximum reasonable rate, as it is commonly called. The first necessity is to secure a reasonable time and to obtain from thence onward, subject to review by the courts. It sometimes happens at present that a rate is too high but that a favored shipper is given too low a rate. In such case the commission would have the right to fix this already established minimum rate as the maximum; and it would need only one or two such decisions by the commission to cure the evil of excessive rates. The practice of giving improper minimum rates. I call your attention to the fact that my proposal is not to give the commission power to increase or decrease rates, but to regulate a rate already fixed or originated by the roads, upon complaint and after investigation. A heavy penalty should be exacted from any corporation which fails to respect an order of the commission. I regard this power to establish a maximum rate as being essential to any scheme of reform in the matter of railway regulation. The first necessity is to secure it; unless it is granted to the commission there is little use in touching the subject at all.

Illegal transactions often occur under the forms of law. It has often occurred that a shipper has been told by a traffic officer to buy a large quantity of some commodity, and then after it has been bought an open reduction is made in the rate to take effect immediately. The arrangement resulting in the sale of the one shipper and the one railroad and to the damage of all their competitors; for it must not be forgotten that the big shippers are least as much to blame as any railroad in the matter of rebates. The law should make it clear so that nobody can fall to understand that any kind of commission paid on freight shipments, whether in the form or in the form of fictitious damages, or of a concession, a free pass, reduced passenger rate, or payment of brokerage, is illegal. It is worth while considering whether it would not be wise to confer on the government the right of civil action against the beneficiary of a rebate for at least twice the value of the rebate; this would help stop what is really black-mail. Elevator allowances should be

## GOVERNMENT MUST CONTROL CORPORATIONS

to Them" Says President.

WOULD HOLD RAILWAYS TO  
STRICT ACCOUNTABILITY

But Believes Public Ownership of  
Transportation Facilities Would  
Mean Inevitable Disaster.

stopped, for they have now grown to such an extent that they are demoralizing and are used as rebates. The best possible regulation of rates would, of course, be that regulation secured by an honest agreement between the shipper and the railroad to carry out the law. Such a general agreement would, for instance, at once put a stop to the efforts of any one of the big shippers to discriminate against or secure advantages over some rival; and such agreement would make the railroads themselves agents for enforcing the law. The power vested in the government to clearly in the interest of the public. But, in my judgment, the necessity for giving this further power is by no means as great as the necessity for giving the commission or administrative body the power to regulate rates. I have enumerated above, and it may well be inadvisable to attempt to vest this particular power in the commission or other administrative body until it already possesses and is exercising what I regard as by far the most important of all the powers I recommend—as indeed the vitally important power—to fix a given maximum rate, which rate, after the lapse of a reasonable time, goes into full effect, subject to review by the courts.

All private-car lines, industrial roads, refrigerator charges, and the like should be expressly put under the supervision of the interstate commerce commission or some similar body so far as rates, and agreements practically affecting rates, are concerned. The private-car owners and the owners of industrial roads are entitled to a fair and reasonable compensation for their investment, but neither private cars nor industrial roads nor spur tracks should be utilized as devices for securing preferential rates. A rebate in the form of a charge, or in the form of a division of the rate for refrigerator charges is just as pernicious as a rebate in any other way. No lower rate should apply on goods imported than actually obtains on domestic goods from the American seaboard to destination except in cases where water competition is the controlling influence. There should be publicity of the accounts of common carriers; no common carrier engaged in interstate business should keep any books or memoranda other than those reported pursuant to law or regulation. These books or memoranda should be open to the inspection of the government. Only in this way can violations or evasions of the law be surely detected. A system of examination of railroad accounts should

be provided similar to that now conducted into the national banks by the bank examiners; a few first class railroad accountants, if they had proper direction and proper authority to inspect books and papers, could accomplish much in preventing willful violations of the law. It would not be necessary for them to examine into the accounts of any railroad unless for good reasons they were directed to do so by the interstate commerce commission. It is greatly to be desired that some way might be found by which an agreement as to transportation within a state intended to operate as a fraud upon the federal interstate commerce laws could be brought under the jurisdiction of the federal authorities. At present it occurs that large shipments of interstate traffic are controlled by concessions on purely state business, which, of course, amounts to an evasion of the law. The commission should have power to enforce fair treatment by the great trunk lines of lateral and branch lines.

I urge upon the congress the need of providing for expedient action by the interstate commerce commission in all these matters, whether in regulating rates for transportation or for storing or for handling property or commodities. The history of the cases litigated under the present commerce act shows that its efficacy has been to a great degree destroyed by the weapon of delay, almost the most formidable weapon in the hands of those whose purpose it is to violate the law.

Let me most earnestly say that these recommendations are not made in any spirit of hostility to the railroads. On ethical grounds, on grounds of right, such hostility would be intolerable; and on grounds of mere national self-interest we must remember that such hostility would tell against the welfare not merely of the big shippers, but of the multitude of small investors, a multitude of railway employees, wage-workers; and most severely against the interest of the public as a whole. I believe that on the whole our railroads have done well and not ill; but the railroads men who wish to do well should not be exposed to competition with those who have no such desire, and the only way to secure this end is to give to some government tribunal the power to see that justice is done by the unwilling exactly as it is gladly done by the willing. Moreover, if some government body is given increased power to see that the law is enforced, the public servants who are to do the enforcing will be better equipped by their conduct—that is, by his character—and not by his wealth or intellect. If he makes his fortune honestly, there is no just cause of quarrel with him. Indeed, we have nothing but the kindest feelings of admiration for the successful business man, who behaves decently, whether he has made his success by building or managing a railroad or by shipping goods over that railroad. The big railroad men and big shippers are simply Americans of the ordinary type who have developed to an extraordinary degree certain great business qualities. They are neither better nor worse than their fellow-citizens of smaller means. They are merely more able in certain lines and therefore exposed to certain peculiarly strong temptations. These temptations have not sprung anew into being; the exceptionally successful among mankind have always been exposed to them; but they have grown amazingly in power as a result of the extraordinary development of industrialism along new lines, and under these new conditions, which the law-makers of old could not foresee and therefore could not provide against, they have become so serious and men-

ty-eighth congress, at its third session, I called attention to the necessity for legislation requiring the use of block signals upon railroads engaged in interstate commerce. The number of serious collisions upon unblocked roads that have occurred within the past year adds force to the recommendation then made. The congress should provide, by appropriate legislation, for the introduction of block signals upon all railroads engaged in interstate commerce at the earliest practicable date, as a measure of increased safety to the traveling public. Through the decision of the supreme court of the United States and the lower federal courts in cases brought before them for adjudication the safety-appliance law has been materially strengthened, and the government has been enabled to secure its effective enforcement in almost all cases, with the result that the condition of railroad equipment throughout the country is much improved and railroad employees are afforded much safer conditions than heretofore. This government's most effective aid in arriving at this result has been its inspection service; and that these improved conditions are not more general is due to the insufficient number of inspectors employed. The inspection service has fully demonstrated its usefulness, and in appropriating for its maintenance the congress should make provision for an increase in the number of inspectors.

**Hours of Labor of Railroad Employees**  
The excessive hours of labor by which railroad employees in train service are in many cases subjected is also a matter which may well engage the serious attention of congress. The strain, both mental and physical, upon those who are engaged in the movement and operation of railroad trains under modern conditions is perhaps greater than that which exists in any other industry, and if there are any reasons for limiting by law the hours of labor in any employment, it should be in the case of railroad employees. The excessive hours of labor by which railroad employees in train service are in many cases subjected is also a matter which may well engage the serious attention of congress. The strain, both mental and physical, upon those who are engaged in the movement and operation of railroad trains under modern conditions is perhaps greater than that which exists in any other industry, and if there are any reasons for limiting by law the hours of labor in any employment, it should be in the case of railroad employees.

**Employers' Liability Law**  
In my annual message to the Fifty-seventh congress at its second session I recommended the passage of an employers' liability law for the District of Columbia and in our navy yards. I renewed that recommendation in my message to the Fifty-eighth congress, at its second session, and further suggested the appointment of a committee to make a comprehensive study of employers' liability, with a view to the enactment of a wise and constitutional law covering the subject, applicable to all industries within the scope of the government's power. I hope that such a law will be prepared and enacted as speedily as possible.

**Labor**  
The national government has as a rule but little occasion to deal with the formidable group of problems connected more or less with what is known as the labor question, for in the great majority of cases these problems must be dealt with by the state and municipal authorities and not by the national government. The national government has control of the District of Columbia, however, and in this connection it is that the city of Washington is made a model city in all respects, both as regards parks, public playgrounds, proper regulation of the system of housing so as to do away with the evils of alley tenements, a proper system of education, a proper system of dealing with truancy and juvenile offenders, a proper handling of the charitable work of the District. Moreover, there should be proper factory laws to prevent all abuses in the employment of women and children in the District. These will be useful chiefly as object lessons, but even this limited amount of usefulness would be of real national value.

There has been demand for depriving courts of the power to issue injunctions in labor disputes. Such a restriction of the power of the courts would be most unwise. It is true that some judges have misused this power; but this does not justify a denial of the power any more than an improper exercise of the power to call a strike by a labor leader would justify the denial of the right to strike. The remedy is to regulate the procedure by requiring the judge to give due notice to the adverse parties before granting the writ, the hearing to be ex parte if the adverse party does not appear at the time and place ordered. What is due notice must depend upon the facts of the case; it should not be used as a pretext to permit violation of law, or the jeopardizing of life or property. Of course, this would not authorize the issuing of a restraining order or injunction in any case in which it is

The exclusion of undesirable immigrants should be strengthened. Adequate means should be adopted, enforced by sufficient penalties, to compel steamship companies engaged in the passenger business to observe in good faith the law which forbids them to encourage or solicit immigration to the United States. Moreover there should be a sharp limitation imposed upon all vessels coming to our ports as to the number of immigrants in ratio to the tonnage which each vessel can carry. This ratio should be determined on the basis of the coming of as good a class of aliens as possible. Provision should be made

possible. Provision should be made for the surer punishment of those

who induce aliens to come to this country under promise or assurance of employment. It should be made a crime for any employer to impose a penalty on any employer violating this law to deter him from taking the risk. It seems to me wise that there should be an international conference to make an agreement on the question of immigration, which has more than a merely national significance; such a conference could among other things extend at length to the methods for dealing with the enormous numbers of would-be immigrants at the ports from which they desire to embark before permitting them to embark.

In dealing with this question I understand that the old American tradition and to discriminate for or against any man who desires to come here and become a citizen, save on the ground of that man's fitness for citizenship, is of that kind of thing that we should consider his moral and social quality. His standard of living should be such that he will not, by pressure of competition, lower the standard of living of those already here. It must be a prime object of our legislation to keep high their standard of living. If the man who seeks to come here is from the moral and social standpoint a degraded man, it is as bad for him to add value to the community he should be heartily welcomed. We cannot afford to pay heed to whether he is of one creed or another, whether he is Catholic or Protestant, Jew or Gentile, whether he is Englishman or Irishman, Frenchman or German, or whether he is a Slav, Magyar, or Magyar. What we should desire to find out is the individual quality of the individual man. In my judgment with this end in view, we should have a proper regard for the agents for more rigid inspection in the countries from which the immigrants come. It will be a great deal better to have fewer immigrants, but of a higher quality, than the enormous numbers of immigrants, many of whom are necessarily of the wrong kind. As far as possible we wish to limit the immigration to the country where the immigrants are to become citizens of this country, and we can well afford to insist upon adequate scrutiny of the character of those who are thus proposed for admission. It is not to be an increase in the stringency of the laws to keep out insane, idiotic, epileptic, and pauper immigrants. But this is by no means enough. We must keep out every man of anarchistic tendencies, all violent and disorderly people, all people of bad character, the incompetent, the lazy, the vicious, the physically weak, the feeble-minded. They should be kept out. The stock out of which American citizenship is to be built should be strong and healthy, sound in body, mind, and character. I am sure that the immigration agent would not always select well, the answer is that they would certainly select better than do the agents and brokers of foreign citizenship. The selection of immigrants is now a haphazard selection is done.

The questions arising in connection

with Chinese immigration stand by themselves. The conditions in China are such that the entire Chinese coolie class, that is, the class of Chinese who are employed as unskilled labor, immediately come under the head of undesirable immigrants to this country because of their numbers, the low wages for which they work, and the fact that they are not only ignorant of the interest in this country to keep them out, but the Chinese authorities do not desire that they should be admitted. The present conditions are such that it is impossible to accomplish to this purpose. These laws have been, are being, and will be, thoroughly enforced. The violations of them are so few in number that they are almost entirely disregarded. There is no serious proposal to alter the immigration law as regards the Chinese laborer, skilled or unskilled, and the man feeling that he is not doing anything to affect to feel the slightest alarm on the subject.

But in the effort to carry out the policy of excluding Chinese laborers Chinese coolies, grave injustice and hardship are being done to the native people of China, and therefore ultimately to this nation itself. Chinese students, business and professional men of all kinds, not only those who are doing so many things, but the like—should be encouraged to come here and be treated on precisely the same footing that the native-born Americans are. Travelers and the like of other nations. Our laws and treaties should be framed, not so as to put these people in the exception classes, but to stand on the same footing as Chinese except Chinese of the coolie class. Chinese skilled or unskilled laborers. There would not be the least danger that any such provision would result in any relaxation of laws about laborers. The will, under all conditions, be kept absolutely. But it will be more easy to see that both justice and courtesy

are shown, as they ought to be shown to other Chinese, if the law or treaty is framed as above suggested.

Examinations should be completed at the port of departure from China. For this purpose there should be pro-

Cannot Have Too Many of Right Kind But Undesirables Should Be Relentlessly Barred Out.

tempts to improve them by amendment have been frequent, no less than twelve acts for the purpose having been passed since the revised statute. To perfect them by further amendment seems impracticable. A complete revision of them is essential to meet the necessities of the conditions, has been found necessary in Germany, Austria, Sweden, and other foreign countries, and bills embodying it are pending in England and the Australian colonies. It has been urged here, and proposals for a conference have been made, but at the same time to be pressed upon the congress. The inconveniences of the present conditions being so great, an attempt to frame appropriate legislation has been made by the copyright office, which has called conferences

practically concerned with the oper

tion of the copyright laws. It has secured from their suggestions as to changes necessary; it has added from its own experience and investigations, and it has introduced a bill which embodies such of these changes and additions as, after full discussion and expert criticism, appeared to be sound and safe. In form this bill is a compromise between the old and inconsistent laws by one general copyright statute. It will be presented to the congress at the coming session. It deserves prompt consideration.

**Adulteration of Foods.**

I recommend that a law be enacted to regulate interstate commerce by means of an adulteration of food, drink, and drugs. Such law would protect legitimate manufacture and commerce, and would tend to secure the health and welfare of the consuming public. Traffic in foodstuffs and drugs has been so long and so free as to injure health or to deceive purchasers should be forbidden.

**Smoke Law.**

The law forbidding the emission of dense black or gray smoke in the city of Washington has been sustained by the courts. Something has been accomplished, but much more remains to be done if we would preserve the capital city from defacement by the smoke nuisance. Repeated prosecutions under the law have not had the desired effect. I recommend that it be made more stringent by increasing both the minimum and maximum fine; by providing for imprisonment in cases of repeated violation; and by affording the remedy of injunction.

against the continuation of the operation of plants which are persistent

offenders. I recommend, also an increase in the number of inspectors whose duty it shall be to detect violations of the act.

**National Parks.**  
I call your attention to the generous act of the state of California conferring upon the United States

conferring upon the United States government the ownership of the Yosemite Valley and the Mariposa Tree Grove. There should be no delay in accepting the gift and appropriations should be made for the including thereof in the Yosemite National Park, and for the care and policing of the park.
