# SCOTTY'S MULE TO TRAVEL IN A PULLMAN CAR

"Slim" to Cross Continent on the Santa Fe.

FIVE HUNDRED DOLLARS FOR A DRAWING ROOM STABLE

Los Angeles, Cal., Dec. 8.—(Waiter Scott's mule, "Slim," will travel from Los Angeles to New York in a drawing room of a Pullman car, at a cost of \$500 for the mule, and \$50 a day for the car, in addition to the railway tickets for Scotty and his friends.

In the Santa Fe shops at Los Angeles, the car, one of the best in the service, is now being remodeled. In one end a drawing room stable is being built for "Slim."

When it was proposed to Scotty that the mule should go in a box car to New York, where he is to appear in a leading part of the play, "The King of the Desert," the Man of Mystery went five feet in the air.

"Put him in a box car?" Slim? Get busy, Roi King, and have a stable built in our own Pullman. The mule has saved my life many a time. He has traveled 90 miles without water and the best is not good enough for him. Why, Slim, can drink champagne, but he's got too much sense for that."

So King made the deal with General Passenger Traffic Manager John J. Byrne at \$500 for the drawing room stable for "Slim," and \$50 a day for the car, and he will buy 15 first-class overland tickets for the use of the car besides.

"Slim" is still chewing cañon, with mesquite as a chaser, up in Death Valley, waiting for his usual burden of gold which he always picks up in the stow on the return of his master. He doesn't care what the drawing room costs for a mule to New York, and he has no idea as yet of the sensation he will make when Scotty starts down Broadway with him.

Scotty was to have left Barstow for his mine yesterday. He wrote to a friend on the Los Angeles Examiner and said: "I am going to make a run back to the mine in the valley. You ought to take the trip with me. I would give you plenty of bacon and black coffee and a good mule to ride. I have had a letter from Taylor and he is getting busy with the play, all right. When we get east we will give them scenes from Death Valley proper. I see by the 'Prisco' papers that they have discovered my mine again! My hip is not yet right and I still have to use crutches."

New Limited Trains. Chicago, Dec. 8.—The new limited train of the Chicago & Northwestern from this city to Los Angeles will be placed in operation December 17 and the leaving time from this city will be altered to 10 a. m., four hours later than the schedule which was originally planned.

The route for the train will be over the Chicago & Northwestern Union Pacific and the newly opened Salt Lake route to Los Angeles. It is the intention that the service shall provide a solid, electric lighted train from Chicago through to Los Angeles every day in the year. This train will arrive at Los Angeles on the third day out of Chicago.

Another Huge Load of Homeseekers.

The Kansas City Journal of December 6 says: "Today will be one of the largest 'homeseekers' days' ever known by the Santa Fe road in its history. Train No. 5 this morning, had three sections composed of forty cars over all, en route to Oklahoma, Indian Territory, Texas, western Kansas and eastern Colorado. All of these homeseekers came from Central states, the majority of them being from Illinois, Indiana, Wisconsin, Michigan, and with sprinklings from Iowa, Ohio, West Virginia and one or two other of the far eastern states. The homeseekers will follow about 2,000 who left here last night, these purchasing tickets here, and coming from the city and the immediate vicinity. The Santa Fe road is handling an immense business at this time in the passenger traffic, and its trains are filled in both directions."

Local Railroad Notes.

Arthur Lovell, superintendent of motive power of the Santa Fe system, arrived in the city last night on his private car. Harrington Emerson, of Topeka, who introduced the bonus system at the Santa Fe shops is with him and will look after his branch of the business while here. F. P. Emerson and Samuel Emerson, of Topeka, have charge of installing the bonus system in the local shops. They will remain here for some time to arrange the schedules and get the system in running order.

Traveling Engineer Rine, of the Baldwin Locomotive Works at Philadelphia, who has been in the city for the past several days left last night for a trip over the west where he will inspect the new power recently installed by his company. He will return to this city where he will assist in the placing in commission of the new engines which are yet to arrive.

General Mechanical Superintendent of the coast lines, left last night for their headquarters in Los Angeles, after spending the day in this city attending to railway business.

D. N. Aber, conductor on the Madrid branch of the Santa Fe, arrived in the city yesterday. He will return home this morning.

The Key That Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

## Millinery Department Clearance

Fine Trimmed Hats—An Opportune Sale

An immense range of styles was negotiated in our display of High Grade Millinery to supply the demand of the past few weeks. Our desire to close out the remainder of our imported models resulted in interesting price reductions of these splendid Hats. This opportunity will appeal especially to late choosers. The prices that will rule this most exceptional trade event are absolutely the lowest ever offered—in most instances less than one-half, after one-third and one-quarter actual value.

Hats that were \$20.00, now \$12.50; Hats worth up to \$15.00, now \$9.00; Hats that were \$12.50, now \$7.50, and about 25 Hats worth up to \$7.50 reduced to \$3.98.

## Pure Linen Handkerchiefs at Prices ....Worth Profiting By....

In gauging Economist Handkerchief offerings by others, remember that ours are always on a pure linen basis and that even then, by virtue of our large distribution, our prices are lower than those based on the part-cotton handkerchiefs, cunningly mislabeled, that are so generally sold. Of course, cotton has to be used for embroidery; and most of the lace used on handkerchiefs is cotton lace; but the cloth of the handkerchiefs we sell is pure linen—unless it's part or all silk, or we state cotton. That statement applies not only to the following offerings, but to our entire stock. (And our regular prices, by the way, on staple lines of handkerchiefs, are low enough to merit an interesting story by themselves.)

## A Noble Commonwealth

ACCORDING to the terms of the new statehood bill as now before congress the Greater Arizona will be one of the noblest commonwealths not only in the union, but in the world. In area it will be second only to the state of Texas among the states of the American union, and will be an empire within itself, while in the matter of natural resources it will have no peer on earth. The possibilities of its development in the lines of agriculture, grazing and forestry, are practically boundless. While its wealth beneath the surface, of gold, silver, copper, lead, coal, lime marble and granite, is great even beyond the rosiest dreams of the most enthusiastic optimist. So great is the store of tangible values within the area of the new state that it is estimated by our best authorities that a levy of one-half of one per cent will be amply sufficient to meet all of our necessary state expenses, even on the most liberal scale, and hence it is generally proposed to put a constitutional limit upon the state levy of five mills on the dollar. Just think for a moment what that means to people who are paying now nearly fourteen times that much, and frightening away capital and immigration by the necessity of doing so!

And, do you inquire, why is this great tax necessary under the present form of government? Ask Mr. Frank Murphy, the high priest of the mining interests of Arizona, who is now in Washington, ready to pour out money like water to defeat the present statehood bill. He knows what he is there for, and if you can get him to tell, you will not have to puzzle your mind any longer over that question. The great mining companies represented by him, which are taking their millions out of the earth, every month, do not pay a nickel toward the support of the government that protects them, except on the surface of their land, which is assessed at a few cents an acre, and the shackles around the mouths of their mines. The whole property of Arizona is assessed now at only \$42,000,000, while any man well informed on the subject can tell you that the mining, timber and cattle interests of Arizona turn out more than twice that sum every year, and the companies know that in a state composed of Arizona and New Mexico the corporations will have to bear their just share of the public burden as well as the plain people. Isn't that a good reason? From a "business" standpoint doesn't that warrant Mr. Murphy and his associates in spending money liberally to defeat the bill?

And conditions in New Mexico are practically the same. Twenty years ago the assessment roll of this territory footed up \$45,000,000, and today, after more than a hundred per cent has been added to the value of the property of the territory, the total assessment is \$40,000,000! That is, not only all the new values that have been added in the last twenty years, but also \$5,000,000 of the old values, are now allowed to go scot free, and as a consequence of this, coupled with greater territorial expenses, the tax levy upon the property that does have to pay has increased over two hundred per cent, making it necessary to levy now, for all purposes, nearly seven per cent upon the assessed value! This means ruin to the honest property owner in the course of a few years, and it means also that it is folly for us to expect that any new capital will be invested among us while such conditions continue.

But it is not at all necessary for such conditions to continue, and under statehood they will not continue. The aggregate value of the two territories is not less than seven hundred millions, and a levy of five mills upon that amount would yield an ample sum for the support of even an extravagant state government. Within the territory of New Mexico we have:

7,000,000 acres of railroad land, with its coal, iron and timber at \$5.....	\$35,000,000
7,000,000 acres of private patented land, with its timber and.....	35,000,000
In some instances, its minerals, at \$5.....	35,000,000
2,000,000 acres agricultural land, at \$10.....	20,000,000

Patented mines and plants.....	25,000,000
7,000,000 sheep and goats, at \$2.....	14,000,000

Product of farms—alfalfa, wheat, and other crops.....	5,000,000
All other kinds of property.....	5,000,000

Total.....\$229,000,000  
 The foregoing figures are based upon the census of 1900. As every one knows there has been a great advance in values all over the country since the census was taken, and the items enumerated above, if carried out at present prices, would show a total of over \$350,000,000.

And Arizona, with its superior mining and timber resources, is worth at least fifty millions more than New Mexico. Hence, with all the taxable property of the new state assessed, as it ought to be assessed, a levy of one-half of one per cent would be ample, and that would present to the public a condition of affairs that would attract capital and people at such a rate that this section of the country would experience such a period of growth and development as it never had before.

And there are many sources of revenue that the new state could and would utilize, in addition to those enumerated above. For instance, the Wells Fargo Express company has monopolized the business in this section for about thirty years, and has never paid in all that time five hundred dollars in taxes. It ought to have a place on the tax roll, and will have when we become a state. The Pullman company, too, goes practically free at present, but will have to pay under statehood. A good many other enterprises of a public character might be named, which have always been dead heads, but which, under statehood will have to bear their share of the public burden.

Now is the time for the Anti-Joint Statehood League of Arizona, backed by the patriotic people of the territory, to get in its work.—Tucson Citizen.

ALLEN T. BIRD has demonstrated through his little affair with Colonel Wilson, that the Anti-Joint Statehood League of Arizona is abundantly able to do its own "backing."

COLONEL FROST says the new statehood bill provides for leaving the capital at Santa Fe for ten years, instead of five years, as in the old bill. We have no objection to that. Leave it there permanently, if you please, provided you don't require the legislature to meet in the winter. To spend the summer at Santa Fe would be delightful, but to have to winter there would be, on the contrary quite the reverse, especially to those gentlemen coming from sections of the state where "December is as pleasant as May." And the Colonel may quit, for this occasion, his familiar lecture on the beauties of the Santa Fe winter climate. We are all acquainted with the delightful character of the Santa Fe winter climate, but we don't want to be delighted in that way.

WE never take up the Tucson Citizen without being reminded of the late William H. Vanderbilt. "My son-in-law, Sheppard," said Mr. Vanderbilt, "is more different kinds of a damned fool than I ever saw before." We trust the Citizen will not consider the remark as in anywise personal, but when it tackles the statehood question we can't help thinking of Mr. Vanderbilt.

TO CURE DANDRUFF

It Is Necessary That the Dandruff Germ Be Eradicated.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly.

Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ, and none other claims to be, for the simple reason that it is only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Eggleston of Maple Landing, Iowa.

"Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, along the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.

## WORK BEGINS ON TRANSFER OF SANTA FE FREIGHT YARDS

Railroad Avenue Nuisance  
To Be Abated.

ALL SWITCHING WILL BE  
DONE SOUTH OF SHOPS

Change Will Greatly Enhance Prop-  
erty Values in Vicinity of  
Railroad Avenue.

The consummation long desired by the people of Albuquerque is coming to pass. The freight yards of the Santa Fe company are to be moved far south of their present location and the nuisance of switching across Railroad avenue is to be done away with. Work on the big change has already begun, a force of men having been detailed on the preliminary work, yesterday.

Today General Manager J. E. Hurley and Superintendent R. J. Parker, of the Western division will arrive in the city from the east to supervise the beginning of the work.

The main freight yards are to be moved south of the water tank and the main line is to be double tracked as far south as the stock yards and as far north as the brewery. Four tracks are to remain opposite the Alvarado and Santa Fe station, exclusively for passenger trains. South of the shops the tracks are to be elevated eighteen inches all the way to the stock yards. The improvement which will require the expenditure of a great deal of money will be one of the best changes which has been made by the Santa Fe in Albuquerque since the beautiful Alvarado and the present station were erected.

It will make the big hotel a much more desirable place to stop, as the noise and smoke of the switch engines will be far removed and the guest rooms will be a hundred per cent quieter. But the change that will be most appreciated by the people of the city will be the abating of the nuisance of switching across the Railroad avenue crossing. With the present arrangement of tracks it has been very difficult for the railway employees to keep from obstructing traffic more or less at all hours of the day and frequently travel up and down the city's main thoroughfare has been seriously embarrassed.

Long has been a menace to the safety of the public although there have been remarkably few accidents. The removal of the freight switching from the crossing will add greatly to the appearance of Railroad avenue and enhance the value of property in that vicinity.

This is but one step, however, in the program of improvements laid out by the company for the Santa Fe properties at this point.

The appropriation for the enlargement of the big shops and the subsequent increase in equipment is one of the biggest items in the big budget for betterments on the Atchison in the southwest. After the change in the local trackage other changes are expected to follow fast. They include a large new all steel water tank, new ice houses, a handsome new reading room and library building and others too numerous to mention.

On Monday the force of men at work changing the tracks will be greatly increased and the task will be completed as soon as it can be done without interfering too seriously with the shifting of cars in the yards.

## THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. ## Your Christmas Dinner

Will appear more appetizing, will taste better and look better, if the dining table is beautifully set with **DRAWNWORK**. Many people have an idea that Drawnwork is so expensive they cannot afford it, and in place of using it content themselves with linens that cost much more, but do not give that elegance of appearance so much sought for by all persons of dainty tastes.

## ...The Globe Store...

is prepared to provide Drawnwork at prices so reasonable that every homekeeper can afford to set a beautiful table. These goods come in three manufactures: American, Japanese and Mexican. A few prices below:

### MEXICAN DRAWNWORK

This work is too well known to need introduction to the general public; the one thing necessary to remember in buying Mexican Drawnwork is the price. Most dealers expect to make, and do make, a very large profit on this article, depending upon the ignorance of the buyer to help through the sale. THE GLOBE STORE does business in a different manner—customers are expected to know something about what they are buying, and our Mexican work is marked at the lowest possible prices, as an inspection of our stock and a comparison of prices with those asked by other dealers will convince.

We carry in stock pieces in size from 6x8 inches to 24x50 inches, at prices ranging from 25 cents up. If you are interested in Mexican Drawnwork it will pay to inspect our stock.

### TABLE LINENS

In addition to Drawnwork, THE GLOBE STORE carries a line of beautiful Drawnwork and Napkins, which would grace any table. In these goods, as in Drawnwork, our prices are not based upon the ignorance of the purchaser, but upon the actual quality of the goods. Nothing adds so much to the beauty of an elegantly set table as snowy, fine damask and napkins, and in this line we are offering some exceptional values in pure linen cloths and napkins to match. An inspection of our Table Linens is asked.

### AMERICAN DRAWNWORK

These Goods are Made From a Beautiful, Smooth Linen, are Durable, and will Launder Exquisitely

Size 12x12 inches, double hemstitched, one row open work, each ..... 45c  
Size 18x18 inches, double hemstitched, one row of open work, each ..... 65c  
Size 18x27 inches, hemstitched and one row of open work, each ..... 40c  
Size 18x62 inches, double hemstitched, one row of open work, each ..... \$1.55  
Size 24x36 inches, double hemstitched, one row of open work, each ..... \$1.75

Other sizes and styles at proportionately low prices. These are real values and persons who appreciate good goods will only have to look at American Drawnwork once to realize that for durability there is nothing to equal it.

### JAPANESE DRAWNWORK

Japanese Drawnwork is not new, but it is only within the past few months (since the Little Brown Men attracted slight attention by peculiar actions in Manchuria) that this work has come into general use. And it well deserves the popularity it has attained. The best of linens are used, the work is well done and no linens are more durable. If you have never examined them come in and see them—they will cost you nothing to look.

Size 19x19, hemstitched, two rows of open work, open work corners, a beautiful piece, each ..... \$1.50  
Size 24x26, hemstitched, two rows of open work, open work corners, a beautiful piece, each ..... \$2.50  
Size 34x24, hemstitched, two rows of wide open work, extra open corners, these pieces will have to be used to be appreciated, each ..... \$3.50  
Size 56x26, hemstitched, three rows of open work, beautiful corners, an elegant piece, each ..... \$5.50

There are a few of this style and sizes we carry in stock, and we will gladly show this work to all callers, believing that the quality, work and prices will make purchasers of all who look at it.

## APPROPRIATE CHRISTMAS PRESENTS

Remember another thing, when thinking of the purchase of Drawnwork and Table Linens: they make acceptable Christmas presents, and many ladies receive such presents with greater pleasure than anything else that could be sent. The second thing to bear in mind when looking for Christmas goods is that

### THE BIG GLOBE SIGN

on Railroad avenue marks the very place for reliable merchandise of all kinds, no matter what time of the year it may be.

## UNKNOWN MAN CUTS AIR HOSE ON CARS SERIOUS DAMAGE DONE TWO STRINGS OF FREEZERS

The air brake hose on thirty-nine freight cars has been cut in the last two nights by some malicious person in the local yards of the Santa Fe company. All of the cars so disabled were "red belt" or fast freight and many of them were refrigerators containing perishable goods. Two trains were laid out in the local yards for a number of hours. One train had been made up and the engine and train crew were ready to pull out when it was discovered that the air hose had been cut.

There were twenty-seven of the cars in the lower yards treated in this manner Thursday night and twelve in the upper yards last night. It is a very difficult job to fit an air hose and the amount of time taken in this work is about the same as the time it would take to put in a draw head. The Santa Fe yard officers and the car repairers are on the lookout for the scoundrel and if he is caught in the act he will be summarily dealt with.

It is likely the work of some person who has a spite against the car repairers, as the company. The work was evidently done with a large butcher knife or some sharp instrument, as in each case the hose was nearly or entirely severed.

## LOCAL AND PERSONAL

Mrs. Solomon Luna went to Santa Fe yesterday morning. Dr. T. H. Deane has purchased the Sarah McMillon property, all north of Fifth street, for \$2,000.

H. M. Reeves and wife and Miss Blanche Weyand arrived in Albuquerque last night from Denver, Pa.

J. W. Orchard, with the Grant Bros. Construction company, is in the city from Elgin.

H. R. Mitchell and H. W. Fisher left last night for San Antonio and points south.

Mr. and Mrs. W. G. Sergeant, of Santa Fe, are in the city for a few days visit. They came down last evening.

W. J. Goody was yesterday given five days on the streets by Judge J. H. McSpadden, for being drunk and disorderly.

Rev. William H. Flynn and sister, Nellie M. Flynn, of Hartford, Conn., stopped off in the city last night for a few days visit with friends.

Mrs. Ivan Grunfeld will give a church tea at her residence, 1009 West Teller street, this afternoon, from 2:30 to 6 p. m. The public is cordially invited.

Miss Clara Olson, private secretary of Governor M. A. Otero, arrived in the city last night from Santa Fe, and will spend a few days, the guest of her sister, Mrs. E. V. Chavez.

L. L. Hibbard, general superintendent of the coast line of the Santa Fe and C. N. Cotton of Gallup, passed through Albuquerque last night on their way home from an eastern trip.

John W. Sullivan, superintendent of the coal mines at Hogan for the New Mexico Fuel & Iron company, returned to the city last night from a month's visit at Los Angeles and other California points. He spent much of the time visiting his mother.

The B. B. club gave a very enjoyable dance last night at Red McHenry's hall. A merry party of Albuquerque young people were in attendance and at midnight a splendid lunch was served by E. J. Wolfach. The club intends giving these parties regularly during the winter season.

Still Hunting Tool Thieves. The police are still searching for the men who stole the tools from the men from Messrs. Brown and Nottley in the Horners block. The empty chests were discovered yesterday near the Third ward school by a boy and reported to the police. The clue to the disposition of the tools had been discovered at last accounts.

"Tommy Kate" Entirely Pleased. Alberta Gallatin in "Cousin Kate," appeared before a good sized house in the Elks' theater last night and the performance was a highly pleasing one. She is a blonde, dan clever actress and her interpretation of the character of Cousin Kate, the novelist in original and altogether excellent. Walter L. Rogers, the leading man, is also somewhat above the ordinary, and as the artist, Heath Demond, he made a hit last night. There are six other acts in the cast and every one is good. The play is rather an unusual conception and is splendidly carried out by Miss Gallatin and her company.

Big Discount on Records. "We are doing the biggest business you ever saw," said George P. Leary, of Leonard & Lindemann, in answer to a query by a reporter as to how the store was getting along. "You never knew anything like it. We are selling pianos as fast as we can handle them and more Victor talking machines than ever before. We are giving a big discount on dollar records—forty per cent off, and ten and twenty per cent off on five dollar and a half records are chopped down to a dollar, and are going like hot cakes."

The Victor talking machine is more popular than it ever was before and has struck the popular fancy as a Christmas present. We have lots of them, but many buyers to the store early to avoid the rush, as the demand for them is something phenomenal.

The elegant new store of the Square Music Dealers, 208 Gold avenue, is one of the most attractive in the city and is thronged from morning till night. It is worth a drop in and hear some good music, even if one doesn't intend to buy. And everybody is made welcome.

THIS EVENING

Thomas Jordan, the Vinita, I. T. bank robber, who was arrested by local officers at Gallup, will be taken back to the Indian territory as soon as the papers in the case arrive from there, by United States Marshal Creighton M. Forsaker and Harry Cover.

It is expected that the papers will arrive in time for the officers to leave on tonight's train for the east. No word has been heard from Colorado regarding the murder of which he speaks, and it will probably require some days to locate the crime. It is thought to have been committed near Pagosa Springs.

Thomas Jordan, the Vinita, I. T. bank robber, who was arrested by local officers at Gallup, will be taken back to the Indian territory as soon as the papers in the case arrive from there, by United States Marshal Creighton M. Forsaker and Harry Cover.

It is expected that the papers will arrive in time for the officers to leave on tonight's train for the east. No word has been heard from Colorado regarding the murder of which he speaks, and it will probably require some days to locate the crime. It is thought to have been committed near Pagosa Springs.

Big Discount on Records. "We are doing the biggest business you ever saw," said George P. Leary, of Leonard & Lindemann, in answer to a query by a reporter as to how the store was getting along.

"You never knew anything like it. We are selling pianos as fast as we can handle them and more Victor talking machines than ever before. We are giving a big discount on dollar records—forty per cent off, and ten and twenty per cent off on five dollar and a half records are chopped down to a dollar, and are going like hot cakes."

The Victor talking machine is more popular than it ever was before and has struck the popular fancy as a Christmas present. We have lots of them, but many buyers to the store early to avoid the rush, as the demand for them is something phenomenal.

The elegant new store of the Square Music Dealers, 208 Gold avenue, is one of the most attractive in the city and is thronged from morning till night. It is worth a drop in and hear some good music, even if one doesn't intend to buy. And everybody is made welcome.

Hold Up for \$25. Mrs. Elizabeth Plough was robbed by a highwayman on south Center street in Phoenix Saturday night before 9 o'clock by a short, stocky built man who, after committing the theft, fled. He got \$25.

## A FINE CHRISTMAS PROGRAM GIVEN BY WOMAN'S CLUB

TO BRING SHAKESPEAREAN ACTOR WARDE TO THIS CITY

The Woman's club of Albuquerque held one of the most enjoyable meetings in its history yesterday afternoon under the auspices of the Literature department, the subject of the meeting being "Christmas Literature." The program was arranged with unusual care and every number on it was a treat.

Mrs. Rose Hunt read Van Dyke's beautiful "Prayer on Christmas" being followed by Mrs. Frank Ackerman with a very well prepared paper on the "Significance of Christmas." Mrs. Byron S. Ives read in a very charming manner James Whitcomb Riley's immortal "Christmas Comes But Once a Year," following which Mrs. LeBar gave her hearers some very excellent and original suggestions on "Christmas Giving." R. W. Hadden, the well known violinist, played two solos on the instrument in his usual masterly manner, after which Ira A. Cassidy sang a lullaby and again in reply to an encore, "The Nightingale."

Besides the members of the club, there were present as visitors Messrs. Smith and Fish, Misses Hartman and Neill, Pratt and Messrs. Hadden and Cassidy.

A report on the result of the amateur performance "The Broken-Hearted Club and Sarah's Young Man" given at the Elks' opera house under the auspices of the club showed that the play had been a great success financially as well as theatrically.

The committee appointed on the banquet to be given on New Year's eve, by the club, to the husbands and friends of the members, reported that everything was progressing satisfactorily and that the occasion would undoubtedly be made a delightful one.

The Woman's club has closed a contract with Manager Ray for Frederick Warde, for two appearances at the Elks' theater in the near future, in "Hamlet," and "Julius Caesar." Mr. Warde is a Shakespearean actor of national reputation and the performance is looked forward to with pleasure by local theater-goers.

## ARIZONA MAN WANTS CHANCE TO SETTLE THE JOINTURE QUESTION BY VOTE

T. A. Riordan, of Flagstaff, Ariz., manager of the Arizona Lumber and Timber company returned to his home last night after spending a day in Albuquerque.

"One can fairly see Albuquerque grow these days," said Mr. Riordan at the Alvarado yesterday, "and the growth seems to be in the way of a healthy and progressive expansion. I think that Albuquerque is always going to maintain first place among the cities of the two territories and in case we get the joint statehood, as advocated in the present message, I would not be surprised to hear of Albuquerque as the capital of the big state."

"For myself, I have not given joint statehood much thought, but I believe that the president is right that the people should be given an opportunity to vote on the subject and let their decision be final in the matter. I see no reason to take up the time of congress at each session by the futile agitation of the statehood question."

"Over in Arizona there are many of us who would prefer to wait until we can get single statehood, but I feel that the people here have the right to vote on the subject and that this is the best way of finally disposing of the matter."

## GRAND BALL AT MADRID PROVES ENJOYABLE OCCASION

Correspondence Morning Journal.

Madrid, N. M., Dec. 8.—The grand ball given in the Madrid opera house Saturday evening, Dec. 2nd was a most enjoyable affair. Many out of town people were present to add to the large company. The Misses Olson and Taylor from Santa Fe were among the out of town guests. Mr. and Mrs. Brown, Drs. Yeakum and Palmer, of Cerrillos; Misses Newhouse and Tibbitts and the Mesdames Harney and Hull also from Cerrillos. The address delivered by Dr. F. Palmer of Cerrillos was very kindly received. He spoke a word of welcome on behalf of the two lodges that made the occasion possible, the Odd Fellows and Knights of Pythias. The party broke up at a late hour after a sumptuous oyster supper.

The little eight month old baby of Mr. and Mrs. George Farbridge was christened last Sunday by Rev. Mr. Le Breton, of Watrous, N. M. The name given the little girl was Helen Farbridge. Those present at the ceremony were Mr. and Mrs. Aaron Anderson, Mr. and Mrs. A. E. Turner, Misses Bridget Gilday, Emma Partridge, Minnie Partridge, Mrs. William Shaw, Mr. and Mrs. George Partridge, and Mr. Palmer, brother of Dr. Palmer, of Cerrillos.

Miss Gilday, of the Madrid public school, is preparing a fitting program for the Christmas holidays.

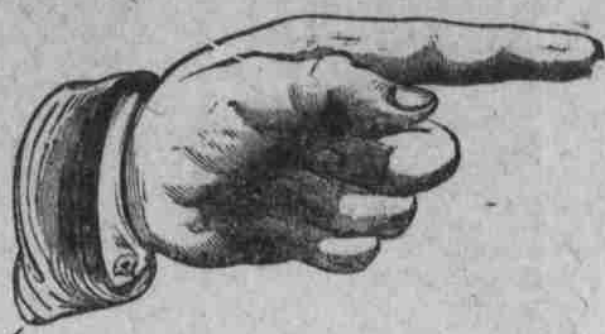

Dr. H. G. Garwood, surgeon for the Colorado Fuel and Iron company at Madrid, has been transferred to Sunrise, Wyoming, where the same company is operating extensive iron mines. It is not known at the present writing who Dr. Garwood's successor is to be, but a surgeon at the Minnequa hospital at Pueblo will probably take charge of the Madrid camp.

Dr. and Mrs. H. G. Garwood gave a dinner party Thanksgiving day in honor of a few Madrid friends. Those present were Mr. and Mrs. Aaron Anderson, and the Messrs. John Archibald, Newton Tensile and James Gilmore.

Nick Delaney, proprietor co-jointly with Mr. Grinito, of Cerrillos, of the Madrid saloon, has sold his interests to Mr. Grinito. Mr. Delaney turned over his property December 1. Mr. Grinito will continue as sole proprietor, at least temporarily.

The Misses Olson and Taylor, pupils of the Loretta academy at Santa Fe, spent their Thanksgiving holidays at the home of Mr. and Mrs. Gus Olson.
