FIGHT WITH DESPERATIONFormidable Armed Revolt Has Trans-  
formed City Into a Hades of  
Carnage and Terror--Fight-  
ing Still in Progress.

St. Petersburg, Dec. 23.—The situation at Moscow tonight is exceedingly critical. A regular battle is raging in the streets of the city and a state of terror reigns. A telephone message just received by the Associated Press says that the routing of machine guns, volleys by infantry and the booming of cannon can be heard at intervals. The military seems to have the upper hand, although there are rumors that the gendarmes and the Cossacks have revolted and have refused to fire on the people.

According to this telephone message which was very confused owing to the excitement under which the sender was laboring, the revolutionary leaders had given the signal for an armed rising of the proletariat at 6 o'clock this evening. But Governor General Doubasoff discovered their plans and acted quickly. He massed 25,000 troops of all arms in the Red Place, under the walls of the Kremlin, mounted machine guns in the towers of the old Chinese wall, posted artillery at intervals encircling the Tverskaya boulevard and placed heavy detachments of horse and light artillery at strategic points.

The first scene of butchery occurred at 2 o'clock, when the troops and cannon, which were loaded with grape, fired into a procession of workmen carrying red flags and singing revolutionary songs as they swung into the boulevard.

Since then there has been almost continual fighting. The workmen threw up barricades at the triumphal arch as it passed, at two places in Tverskaya street and at another place, but all were assaulted and carried by the troops.

The principal resistance was at the triumphal arch, the defenders of which barricade being armed only with revolvers. They held their ground for a time against the machine guns. One hundred and twenty student militia who were surrounded at the Fidler school made a heroic stand, defending the places with bombs and revolvers from a window. They killed two officers and eight soldiers and wounded many more before they surrendered with a loss of five killed and thirteen wounded.

The outlying districts are reported to be in the complete possession of the workmen, who are disarming all officers and policemen caught besieging residences.

**Bombs Thrown at Prefecture.**  
Two bombs were thrown at the prefecture of police this morning, partially destroying that building. Two policemen were killed and a soldier was wounded.

Serious fighting is now proceeding between an armed crowd and a force of dragoons.

One hundred and twenty revolutionaries were arrested today at the Fidler school. Resistance was offered there and five persons killed and twenty wounded. Two officers were killed. The authorities seized eighteen rifles, fifteen revolvers and thirteen bombs.

A number of officers and policemen were disarmed in the streets and several policemen were killed.

The troops have now occupied all the barricades. In one case they fired on the revolutionists from the steeple of a church. Revolutionists armed with bombs and revolvers are now besieging the residence of the prefect.

The council of workmen today granted permission to the bakers to continue work and for the bakers to bake black bread, but it subsequently

ordered a resumption of the armed revolt for six o'clock this evening.

LARGE GUN STORES ARE  
PILLAGED BY RIOTERS

Moscow, Dec. 23.—(Midnight.)—The situation is hourly growing worse. The insurgents hold several quarters of the city, and fighting continues desperately.

Two large gun stores have been pillaged and the weapons distributed among the men, who have erected barricades along the Sandovia, which encircles the city. The military has succeeded in isolating various sections, preventing communication. From the heights colored signal rockets are showing instructions to the isolated commanders.

The searchlights on the Soukharoff and other towers illuminate the streets where the fighting is proceeding.

The roar of cannon continues. Machine guns are being employed to clear the Salsovia. It is impossible to estimate the number of dead and wounded, but it will probably run into thousands.

In a square in the heart of the city the insurgents are making a desperate fight from a house, using an English machine gun from the window against a battery which is cannonading them.

STATE OF SIEGE DECLARED  
IN POLISH PROVINCES

St. Petersburg, Dec. 23.—The fears that the revolt in Lithuania will extend to Poland have become so acute that Governor General Skalon, at Warsaw, acting under authority of the imperial ukase of November 24, has declared that a state of siege exists in the ten Polish provinces.

Units of the guard and the Emperor's own regiment have been dispatched to Courland.

A telegram received from Riga announces the arrival there of two battalions of riflemen and a battery of marine guns.

It is understood that the strike leaders in their desperation have decided to resort to violent tactics and to blow up the bridges and the right of way of the railroads leading out of St. Petersburg.

The first attempt at the use of bombs, with which the revolutionists are well supplied, was made this morning on Schussberg avenue. A revolutionist was about to throw a bomb at a passing patrol which was escorting non-union workmen to the Semianikoff mills, when it exploded, blowing off the man's arm. He was then taken into custody.

JEWISH ATROCITIES ARE  
INCREDIBLY HORRIBLE

New Haven, Conn., Dec. 23.—A description of mob horrors in Russia is contained in a letter just received by Mr. Max Mandell, of this city, from a friend in Ekaterinoslav. It is dated November 19, the letter says in part:

"We were saved by the kindness of a Christian friend who gave us a place to hide in and kept watch for us himself. He took us to his stable, where we remained with our two little ones for three days without a morsel of food or a drop of water, but with a horrible death staring us in the face every moment of the time."

"Many have lost their lives in addition to similar sufferings, and still more remained crippled for life with no means of support. Others were compelled to witness the brutal dismembering of their dear ones before their eyes. My clerk told me that he saw how the mob overtook a helpless Jewish woman, who apparently had run to a place of safety, carrying a child with her in her arms. The beasts wrenched the infant out of its mother's arms and dismembered it, holding out every part to her face, and then forced the hysterical mother into shame which killed her."

MAY CAUSE NEW OUTBREAK  
IN CITY OF ST. PETERSBURG

St. Petersburg, Dec. 23.—The news of the terrible bloodshed at Moscow has created a great sensation here and renders the situation much graver. It furnishes the necessary stimulus to fire the warring passions of the proletariat, and their leaders can be relied upon to use it to the full. They claim that their own reports show conclusively that the troops were deliberately ordered to fire on peaceful demonstrations in order to provoke a general conflict and that the only recourse left was to fight back in self-defense.

They also claim to have confirmation of the reports that the gendarmes and some Cossacks, having refused to obey the commands of their officers, have taken refuge in the city.

COSSACKS USE KNOUTS  
TO DISPERSE THE CROWDS

St. Petersburg, Dec. 23.—(Midnight.)—Late tonight, after an order had been issued to the prefects forbidding meetings of any description, public or private, Cossacks and troops cleared the Nevsky and Moskva prospects and other thoroughfares. In many places the Cossacks used their knouts freely, even on women. It is believed that a state of siege will be declared in St. Petersburg tomorrow.

ILLINOIS CENTRAL STARTS  
FAST "CUBAN SPECIAL"

Mayor Dunne a Passenger on New Flyer to Gulf.

Chicago, Dec. 23.—The time consumed in traveling from Chicago to the island of Cuba will be lessened many hours next Tuesday, when the Illinois Central road will inaugurate its new Cuban train, to be known as the "Cuban Special."

It will be the first express train between the Great Lakes territory and the Gulf of Mexico. The reduction made by the new train over the present fastest time will be nearly two hours.

Besides newspaper representatives four carloads of Chicago school teachers and Mayor Dunne and his family will be passengers on the new train Tuesday. On arrival at New Orleans the passengers will be transferred to the steamship Prince Arthur, which will carry them to Havana, arriving there Friday.

GOLDEN LION OF  
FINLAND ARISESImposing Ceremonies at the Formal  
Restoration of National Liberties.

Helsingfors, Finland, Dec. 23.—The convocation of the Finnish Diet, marking simultaneously the restoration of Finnish liberties and the last appearance on the European stage of the parliament consisting of the four ancient estates, the nobles, clergy, burghers and the Peasants, was an exceedingly picturesque affair. The old world ceremonial was followed. Heraldic figures in the street summoned the estates to the magnificent cathedral, where amid gorgeous trappings, prayers were said and "Te Deum" was chanted in the Swedish and Finnish tongues.

Then the estates, headed by Governor General Gerhard and his suites in brilliant uniforms, marched in an imposing procession between cheering crowds to the palace overlooking the sea. There, standing in front of the gilded throne, surmounted with the golden lion of Finland and double-headed eagle of Russia, the governor general, in the name of his imperial master, gave back the ancient liberties to the hardy race of the north, whose brave struggle against the Russification of their country has attracted the sympathy of the world. The audience at the palace contained many persons who had suffered in exile rather than submit to this, Baron

Von Born, a marshal of the nobility, who replied to the emperor's speech in behalf of his estate and M. Pekka, who spoke on behalf of the peasantry, had returned to Finland since the manifesto was issued.

Bishop Praetorius acted as spokesman for the clergy and M. Von Pflaer, a banker, for the Burghers. The replies of the president's estates were cordial in vein, but each took care to say that the Imperial manifesto was "accepted as the restoration of the original constitution and rights of Finland guaranteed by Alexander II."

At the same time they added their assurances that the emperor might have full confidence in the loyalty of the Finns under a regime of legislative, executive and judicial freedom. Baron Von Born also took occasion to say that "the universal satisfaction with which the world welcomed the inauguration of a new era for Russia is heartily echoed by Finland," and at the conclusion of the ceremonies he called for three cheers for the emperor, which were given enthusiastically. Throughout the ceremony the best of feelings were manifested, and this evening there is general merrymaking in the city, the socialists refraining from making counter demonstrations.

Fraternities Formally  
Accept Offer of the  
Montezuma HotelGreat New Mexico Sanitarium To Be  
Ready by Next Spring.

Chicago, Dec. 23.—At a meeting of the board of directors of the National Fraternities' Sanitarium association held here today, it was voted to accept the offer of 1,000 acres of land and a building said to be worth in the neighborhood of \$500,000, located at Las Vegas, N. M., recently made the association by the Atchison, Topeka & Santa Fe railroad. A committee from the board of directors has just returned from inspecting the property and reported that it was entirely fitted for the purposes of the association. In addition to the Santa Fe gift, the

citizens of Las Vegas have offered to deed the association several thousand acres of land as a bonus.

A committee was appointed to transfer the property and get the fitting up of the building properly under way. It is understood that the sanitarium will be ready for occupancy early next spring. Only those suffering from tuberculosis troubles will be admitted to the sanitarium. Most of the large fraternal organizations in the United States are associated in the movement which was originated last year at the St. Louis exposition.

ENGINE TURNS THEY WILL HAVE  
CLEAR OVER TO HURRYTRAIN NO. 9 HITS CABOOSE  
ENGINEER BOYLE INJURED

Special to the Morning Journal.  
Las Vegas, N. M., Dec. 23.—At 7:30 this evening passenger train No. 9, the El Paso train, collided with the rear end of a freight train at Otter station with disastrous results. The engine and tender left the track and turned almost a complete somersault, the caboose of the freight train was derailed and catching fire from the stove within, burned up in a few minutes. Engineer Pat Boyle, who was at the throttle of the big mountain engine, was painfully cut and bruised and may have some bones broken but it is not thought that his injuries are fatal. No one else was hurt beyond a few bruises or a bad shaking up.

The train was running at considerable speed and the shock when the engine hit the caboose of the freight was frightful. The passengers were badly scared, but none were hurt. Responsibility for the accident has not yet been fixed.

## UGANDESE UP TO DATE.

Are Acquiring Taste for Clothes, Bicycles and French Books.

London, Dec. 23.—The natives of Uganda are beginning to show a decided liking for European clothing. So says Lieutenant Colonel Hayes Sadler in his report on the Uganda protectorate, which he is leaving to succeed the late Sir Donald Stewart as high commissioner of British East Africa.

Cel. Sadler regrets, however, that as yet the untutored Ugandese prefer American goods to British and German beer to Bass. Their great weakness is for "American," an unbleached calico made in the United States. This article accounts for 31 per cent of the total imports of cotton goods.

Up to date natives are also taking to cycling, and the members of the best sets are cultivating a taste for soap and scents.

French novels and cigarettes are also demanded by the really smart people, and French books to the value of \$2,615 were imported last year.

SANTA FE HAS BIG LEAD  
IN RACE TO THE COAST

Chicago, Dec. 23.—Efforts to settle amicably the differences between the Santa Fe and Union Pacific railroads over the transcontinental mail contracts have been abandoned, and a speed war is imminent. The Santa Fe has refused to change its fast schedule and the Union Pacific, in connection with the Burlington and the new San Pedro route has been compelled to take steps to meet the time of the Santa Fe. To prevent the Santa Fe from securing permanently the mails which the government has already turned over to the new route, the Union Pacific in connection with the Burlington will have to cut down the time between Chicago and Los Angeles from twelve to fourteen hours.

Seattle, Wash., Dec. 23.—The Alaska Commercial company's steamer is ashore on Spire, nine miles south of Ketchikan. The steamer is leaking badly and may be a total loss. Dispatches say that the water is now above the boilers and that the passengers have been taken to Ketchikan in small boats. It is thought that the ship struck in a dense fog. The Portland is one of the oldest vessels on the northern run. She was en route from Valdez and Seward when the accident happened.

EVIDENCE BEFORE THEMHead of Currency System Alleges  
Violation of Banking Laws  
Preceded Crash.

Chicago, Dec. 23.—On the decision of Attorney General Moody and President Roosevelt, before whom Comptroller Ridgely will lay evidence which is believed to show a direct violation of the federal banking statutes, depends the action of the federal grand jury in Chicago on the John R. Walsh financial crash.

District Attorney Morrison made this statement. The same evidence which Ridgely has carried to Washington is in the hands of President C. H. Roosevelt of the Chicago National, and he is compiling it for presentation to Morrison but until an order comes from Washington it will not be laid before the grand jury.

"This matter is up to Moody, the president and Ridgely," said Morrison. "I shall not take action until advised by them to do so."

Two men visited Morrison and laid information concerning the banks before the district attorney. These men are said to be disgruntled stockholders. The district attorney, it is declared, will take no action until he has learned from them. The orders for a prosecution, either criminally or civilly, must come from Washington.

## Pearsons Enjoys the Joke.

The only local note heard thus far concerning the Walsh failure comes from D. K. Pearsons, philanthropist and stockholder in the Chicago National Bank. Pearsons' enjoyment of what he calls "Walsh's" decline and fall, due to his unshaken belief that the new directorate will bring both depositors and stockholders through without loss. That much conceded, the college benefactor takes the position that his \$48,000, tied up in 132 shares, entitles him to whatever humor he can find in the situation. Said Pearsons:

"John R. Walsh was a mighty smart man, but my banker friend John certainly has mixed things up. He was altogether too sanguine to make a good banker and now he is replying like this: 'I would not be talking like this if I did not believe that everybody would come out of it unscathed. People can say what they have a mind to, but I, who have known John R. Walsh for forty-five years, know that he is an honest man and that his investments ultimately will pan out all right.'"

"Let us take things coolly and go slow. At any rate, that is going to be my motto, notwithstanding the liability entailed in my 132 shares. That committee of Chicago bankers is doing a magnificent piece of work, and the fact that it has undertaken to straighten out John's affairs supports my belief that genuine and sufficient assets are there."

**Rubber Men Protest.**  
Washington, Dec. 23.—A complaint directed against railways operating west from Chicago and charging unreasonable and discriminatory rates on rubber tires for bicycles and vehicles, was filed with the Interstate commerce commission today by the Fiske Rubber company of Chesapeake, Mass.

Washington, Dec. 23.—Efforts to settle amicably the differences between the Santa Fe and Union Pacific railroads over the transcontinental mail contracts have been abandoned, and a speed war is imminent. New York, Dec. 23.—The republican assemblymen from New York county at a conference tonight formally adopted a resolution endorsing James W. Wadsworth, Jr., for speaker of the 1906 New York assembly, with the reservation that if Assemblyman George B. Agnew would stand for the speakership they would support him.

Mr. Agnew declined to commit himself tonight, simply stating that he would reserve a decision until he had ascertained the trend of public sentiment.

AGNEW BROUGHT FORWARD  
AS A TENTATIVE CANDIDATE

New York, Dec. 23.—While formally adopting a resolution in support of Assemblyman James W. Wadsworth, Jr., for speaker of the assembly, the republican members of the assembly from New York county at a conference with the assemblymen elected on the republican and municipal ownership tonight, brought forward tentatively a candidate from New York county in the person of Assemblyman George Agnew, of the 27th assembly district. Mr. Agnew was nominated in the conference tonight by Assemblyman Stanley, who declared that Mr. Agnew, as a New York county candidate, would go into the republican caucus at Albany with 40 votes pledged.

Mr. Agnew himself introduced the resolution endorsing Assemblyman Wadsworth for the speakership. Several others who voted for the resolution did so with the reservation that if Mr. Agnew would stand as a candidate their support would be their own to him.

CANDIDATE MERRITT  
BITTERLY ATTACKS HIGGINS

New York, Dec. 23.—E. A. Merritt, Jr., candidate for the nomination for speaker of the New York state assembly, made a public statement tonight in which he said that "in the face of repeated demands for their resignation or removal by people and parties of all sorts, the governor has continued to extend over Governor Francis Hendricks, the superintendent of insurance, Frederick D. Kilburn, state superintendent of banks, and George W. Aldridge, state railroad commissioner, the necessary protection of his official power. It is not to be wondered at that they should cleave to the governor," said Mr. Merritt.

"The president is said to be out for Wadsworth. If he is taking a part it is not the first case of presidential interference in the politics of the state. Such interference has heretofore resulted in disaster to the republican party of the state."

The conference held here yesterday consisting of all the leading members of the assembly and about half of the republican members-elect by their expressions of opinion show clearly that the action of the governor is most distasteful to every man who has ever had any real legislative experience. For all disagreeable consequences no one can be held responsible except the governor and his kitchen cabinet, who have forced a false and unnatural situation."

COMING OF  
THE KILOGRAM  
IS DELAYEDBut Littauer Is Confident  
Bill Will Pass.HOUSE WON'T ENTHUSE OVER  
ADOPTION OF METRIC SYSTEMMovement to Chop Tariff on Philip-  
pine Sugar Bound to Result  
in a Big Fight.

Correspondence Morning Journal.

Washington, Dec. 23.—The movement to supplant our English system of weights and measures by the introduction of the metric system has been revived in this congress by the introduction of a bill by Representative Littauer, of New York. Mr. Littauer aptly refers to the movement as the "coming of the kilogram." It provides in short that on and after July 1, 1908, the standard of weights and measures used by the United States shall be the metric system. It is calculated that once the government adopts this method that it will within a short time become the method of commerce.

John C. Shaffroth, of Colorado, the man who after several terms in the house voluntarily resigned when he discovered that fraud had been used to accomplish his election in Denver, was one of those most interested in the metric system while he was in congress. He presented a bill which was favorably reported by the committee on coinage, weights and measures, having the subject in charge, but it was never taken up in the house. Now Representative Littauer has taken up the fight for the adoption of the system. It may be said that practically all of the members of the committee are in favor of the proposition, but it is rather a difficult matter to get the house to take action upon it, although it will doubtless come in the end.

It is claimed by those who are enthusiastic over the subject that the metric system will be to weights and measures in the United States what the decimal system is to our money, and for which the country has to thank Thomas Jefferson. England and the United States are practically the only countries of importance which do not use the metric system. Representative Littauer thinks that he has a chance this year of getting some consideration of the bill.

## Sugar Tariff.

Probably sugar has caused more trouble in the making of tariff schedules than any other article of commerce. Certain it is that it has been productive of more argument and debate and disagreements. The subject is up again, as the republican leaders purpose reducing to 25 per cent of the Dingley rate the duty upon Philippine sugar imported into the United States. This has aroused the beet sugar producers to action, and they have come down upon the ways and means committee in droves and filed volume after volume with arguments. They assert that the admission of Philippine sugar at 25 per cent of the Dingley rates of duty would ruin their industry. Evidently the ways and means committee, a majority of whom are "standard" republicans, does not think that the fears of the sugar men in this respect are well founded, for they are determined to report the bill favorably to the house, and there is little or no doubt about its passage.

It is claimed that with labor at 30 cents a day in the Philippines, that the Philippine producer can land raw sugar in New York city paying freight rates from Manila to New York, for one cent a pound, and that there is now in bonded warehouses many tons of the produce awaiting the passage of the pending bill in order to come in and be landed. It is asserted that the loss in revenue upon this sugar alone would exceed \$500,000 and that the benefit would accrue to the British owners of the sugar. However, that may be, all Philippine interests, members of congress who have been in the islands and those who are the best friends of the islands, such as Secretary Taft, are heartily in favor of the measure.

The beet sugar men in congress, however, have formed a combine not only to attack the proposition on the floor of the house, but to fight it to the last, and vote even against the will of their party leaders.

While this controversy is going on, Senator Hale of Maine, who is a staunch republican, nevertheless adheres to his opinion advanced at the outset that it was a great mistake to have acquired the Philippines. In this connection he narrates an incident, which is interesting. He tells that he was at a White House conference when the subject of ordering Dewey to Manila was discussed. Senator Hale had opposed the Spanish war, believing that it would involve us in difficulties which would be for many years a source of much annoyance. Events have no doubt proven the wisdom of his opinion at that time. The telegram was written to Dewey: "Proceed to Manila and destroy the Spanish fleet." "I have never felt satisfied," declares General Hale, "that we did not at once to the message the words, 'and return at once to Hongkong.' If we had done that we might not

#### WILL REFORM POSTOFFICE SERVICE BY DEGREES

President Wishes to Introduce Merit System Gradually.

Washington, Dec. 23.—The most frequent topic of White House conferences in the last few weeks has been the administration policy relative to continuation of postmasters in service regardless of the desire of senators and representatives to change them. The president has been informed by a number of congressmen that if this policy is put into immediate operation it will not have a helpful effect upon the republicans in the congressional elections next year. He has informed his callers, repeating the information several times every day, that the policy will not be an immediate one, so far as the whole service is concerned, but that it is his intention to gradually bring about the proposed change. The tendency of appointments will steadily be in that direction until the system of civil service extends throughout the postal service.

Representatives have told the president that the policy, if put into early operation, would undoubtedly have a disastrous effect on the future of a number of representatives, and was likely to do the party great harm in the congressional elections next year. The president's purpose is not to interfere with congressmen in postoffice appointments where they have made promises or tentative promises or have understandings with the people of portions of their districts, and his object now is to give warning of his intentions as much as anything else.

#### INTERESTING PRELIMINARY CONTEST IN LAS VEGAS

Meadow City Elks to Proceed With Erection of Building.

Special to the Morning Journal. Las Vegas, N. M., Dec. 23.—The normal preparatory and high school met in joint contest last night to decide which pupil from each institution should be given the honor of representing the city at the territorial contest in Albuquerque. Miss May Rose won for the normals, and Lawrence Clark, the clever son of Hon. John S. Clark for the high school. Miss Rose's subject was "The Power of Imagination." Mr. Clark spoke on "A Menace to the Republic." There were five contestants from the high school and four from the normal.

"The Elks' Tooth." The Las Vegas Elks have closed the bargain for the lots in Lincoln avenue for which they negotiated some time ago and will proceed at once with plans for a fine two-story building 140 feet long. "The Elks' Tooth," a popular comic opera, is to be put on to defray the expense of the preparatory work.

Four inches of snow fell here today. The cattle sanitary board has received word that the yearlings from the Bull ranch sent to the international live stock show in Chicago have captured the first prize in the Hereford special, the second prize in the Durham special and the second prize in the yearling championship from all all grades from all districts.

This stock, while on the way to Chicago, was snapped up by a Topeka buyer by mistake and driven many miles into the country before the error could be rectified.

Christmas Frolic Ends in Deadly Shooting Affray.

Valdosta, Ga., Dec. 23.—A bloody riot among negroes was reported here today from Ewing, a turpentine camp between Fargo and St. George on the Georgia & Southern road. The riot was the result of a Christmas frolic. A general fusillade occurred and probably fifty shots were fired. Two negroes were killed outright, three were mortally wounded and died later, while eight others received bullet wounds.

Constantinople, Dec. 23.—Barton Hall, the American college for girls at Soutart, was destroyed by fire on Saturday. No lives were lost.

#### Lunatic Running Weather Bureau.

Portland, Dec. 23.—Frank McNally, in charge of the government weather bureau at Baker City, Ore., is under arrest and will be examined as to his sanity. The arrest was made at the request of E. A. Beale, weather observer for Oregon. For some time past messages of an unintelligible nature have been received at the head

office in Portland from Baker City. Little was thought of the matter for a time as the messages came in cipher, and it was concluded the messages might have been confused in transmission. Beale finally became convinced something was wrong and arrived in Baker City today. He found the office in a state of indescribable confusion and McNally's answers to his questions were so strange that he was forced to the conclusion that the man was insane. McNally came to Baker City about two months ago from Washington, D. C.

#### Steam Thawers Save Ships.

Tacoma, Dec. 23.—The steamers of the Northern Commercial Company's fleet in Sunnydale Slough, opposite Dawson, are being saved from destruction in the ice by means of 35 steam thawers, such as are used in Klondike mining. The steamer Hannah would have been a total loss but for the effective work of twenty-five men working night and day with steam points. The work is directed by Captain Looney, the steam being generated on the steamer Wear. If the ice can be removed from the bottom of the Hannah she will be righted from her tilted position and then pushed away from shore. The steamer's power remains logged. She sank on a submerged point of ground after being lifted up by temporary high water. The power's holt chains were broken by the ice pressure.

#### School Entertainment.

The Palatka public school gave a very successful entertainment Friday evening. The children all did well. The program consisted of songs, recitations and dialogues, appropriate to the Christmas time.

The school room was decorated with evergreens. A stage had been erected and covered with Navajo rugs, which, with a background of American flags formed a pretty setting for the animated faces of the 48 pupils of the school.

This is one of the most progressive schools in the county. Miss Anna Sampson is the teacher, and her careful conscientious work is appreciated by the people of the district.

#### A Certain Cure for Croup.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail. Chamberlain's Cough Remedy. Give it and a quick cure is sure to follow. Mr. M. E. Compton of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by all druggists.

#### Names Stamped in Gold.

On prayer books, bibles, pocketbooks, music rolls or other leather or cloth goods, adds to the value of the gift. Ask your dealer or see Mitchell and Filtzow, bookbinders, at the Journal office.

#### COLUMBUS HOTEL PREPARING DELICIOUS MENU FOR CHRISTMAS

The Columbus hotel, whose special dinners have won wide renown in Albuquerque, is preparing its patrons for a most delicious menu for Christmas day. The cooks of the Columbus are the most famous in Albuquerque and those who have memories of Thanksgiving and other feasts at this popular hotel will be on hand early tomorrow. The big dining room will be most attractively and effectively decorated for the occasion and nothing will be left undone to make the Christmas dinner a distinct culinary and artistic achievement. The dinner will be thirty-five cents. The first table will be set at twelve o'clock noon, sharp, and again later. There will be room and bill of fare enough for all and those who miss the first table will be fully as well cared for at the second table. The menu includes the following Christmas substantial and delicacies: Roast turkey, oyster dressing; cranberry sauce, celery, roast pig, plum jelly, sweet potatoes, cabbage salad, mince pie, plum pudding, nuts and raisins.

If you need a carpenter, telephone lessedien.

## HUM OF INDUSTRY STOPS IN HONOR OF EDWARD WILDER

Work in Local Shops Ceases  
During Funeral.

IMPRESSIVE TRIBUTE TO  
MEMORY OF DEAD TREASURER

Between the hours of two and three o'clock yesterday afternoon all work as far as possible was suspended in the local Santa Fe shops in honor of the memory of Edward Wilder, the veteran treasurer of the system whose funeral was taking place at that time in Topeka. The tribute of respect to one of the oldest and most highly esteemed officials of the Santa Fe system was a most impressive one. Engineers were at a standstill, hammering was silent and the noise of drills on steel and moving cranes paused. Altogether a most unusual quiet reigned throughout the big shops, where almost a thousand men were a few minutes before busily at work. The cessation of work was observed as far as practicable at all the shops by special order from headquarters and the whole vast Atchison system with its thousands of employees united in this impressive token of respect for the dead.

Mr. Wilder well deserved it. The aged secretary and treasurer of the Santa Fe company had been occupying that position since the year 1876, and during all that time has held the highest regard of both the directors and officials of the system above him and the lesser employees and those under his personal direction. He made a gritty but uncompromising fight for years against the ravages of consumption and always spoke of his malady cheerfully and optimistically. During almost all of the thirty years of his connection with the corporation Mr. Wilder was in active service and only recently at the meeting of the directors of the company he gave two assistants who could when necessary take all the burden off his shoulders. It will be remembered that several months ago Mr. Wilder was in Albuquerque on his way east from a long visit in southern Arizona where he said the climate had greatly benefited him. At that time Mr. Wilder said that he was in a fair way to be cured and spoke quite hopefully of going back to resume active work in Topeka.

**BURNED THE TIES TO GET  
CATTLE SHIPPED THROUGH**  
The Santa Fe Railroad company took the railroad ties from its tracks behind the train and used them as fuel, and yet it did not deliver \$58 head of cattle in time, so Judge Mullins has rendered a judgment against the company in favor of the Wabash Cattle company in the sum of \$12,762, says the Denver News.

Judge Mullins has had the matter under advisement since last February, and handed down the decision in the form of a Christmas present to the cattle company, of which D. P. Baldwin is the manager.

According to the pleadings and evidence in the case, last January the cattle company shipped 858 head of cattle over the railroad from Holbrook, Arizona, to Scott City, Kan. While en route, according to the complaint, the engine broke down in the desert and fuel gave out.

The company determined to deliver the cattle on time, took the ties from the track behind the train and used them as fuel. Despite this effort, however, the plaintiffs allege that by reason of the delay seventy-eight of the cattle died and the entire trainload was more or less damaged.

The stock company alleges that for over thirty-two hours the cattle were not fed, and that by reason of the negligence of the company the loss amounted to over \$12,000.

Judge Mullins held that the company undertook to deliver the cattle at their destination in good condition, and the fact that it failed made it liable, notwithstanding its extraordinary diligence in the matter.

**MAIL CLERK NOT  
BOTHERED WITH "SNAPS"**

"If any one thinks that a postal clerk has a snap, he should make one run between El Paso and Los Angeles," remarked one of the railway postal employees of Uncle Sam in Tucson the other day. "If any one has the idea that we sit back and smoke our pipes between Deming and Tucson and between Tucson and Yuma or along any portion of the run he would soon have that idea dispelled. It is one continual rush from the time the train leaves Los Angeles until its arrival in El Paso. There is a strain of more than 30 hours, yet during all this time we have to keep hustling every minute to get out the mail. There is a long rest after our return to Los Angeles, but it is no fun on the road."

**The Key That Unlocks the Door to  
Long Living.**  
The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

Of course you are going east? Why not? The holiday rates are low. Ask the Santa Fe ticket office for full particulars.

## LABOR IS MOST SERIOUS PROBLEM OF RECLAMATION

Irrigation Contractors Have Trouble Getting Men.

SACRAMENTO VALLEY HARD AFTER THE GOVERNMENT

Correspondence Morning Journal.  
Washington, Dec. 21.—A bulletin issued by the geological survey says the approval of the secretary of the interior of the Rio Grande reclamation project in Texas and New Mexico and the Carlsbad project in New Mexico will bring the number of reclamation projects up to twenty-four. Of these eleven are under way. They provide for the reclamation of 1,302,000 acres of arid lands at a cost of \$27,028,571.

On June 30, 1905, the total cost of construction and engineering work performed by the reclamation service, together with the administration expenses, amounted to \$5,462,160. On that date the reclamation fund had reached a total of \$28,028,571. It was estimated at that time that the receipts for the fiscal years 1906-1908 would amount to \$9,000,000, so that the sum of money available for reclamation purposes up to the end of 1908 will be \$37,028,571.

Since the work of reclamation began seventy-seven miles of main canals have been constructed and fifty-four miles of distributing canals, as well as 186 miles of ditches and 147 bridges. Over 9,600,000 cubic yards of earth have been excavated, and three and one-half miles of tunnel driven.

Labor, the bulletin says, is one of the most serious problems that engineers have to confront. "Several contractors," the bulletin adds, "engaged on government projects have already failed because of their inability to secure the services of a sufficient number of workmen, and others are on the verge of failure for the same reason. It is equally difficult to find competent subcontractors and foremen. The report contends that the eight-hour limitation on work is a factor, as many preferred to work longer hours."

Desire of the Sacramento Valley.

The people of the Sacramento Valley in California are anxious that the government should extend the irrigation work that it is now doing in the west, so as to take in a part at least of their land. The Development Association of the Sacramento Valley, which is taking a very active interest in the subject, has a representative in Washington in the person of W. A. A. Beard, the secretary of the association. Mr. Beard has already had an interview with the secretary of the interior, under whom the general scheme of the reclamation service is being plotted and while there has been nothing definitely promised to the Sacramento people yet, there is considerable prospect that the valley will be included in the work mapped out for the coming year.

At the recent hearing at the interior department, Mr. Beard and Director Walcott of the geological survey were both present and the whole situation was clearly put before the secretary. The Sacramento valley is about fifty miles wide and two hundred miles long. It contains a little over 2,000,000 acres of arable land, and the surveys that have been made of it show that there is not only water enough in the Sacramento river to irrigate the whole of it, but that there are reservoir sites enough to hold the water for distribution during the long dry summers without interfering with the navigation of the river. This is an unusually favorable showing for any irrigation project. The reservoir sites are such also that the work can be done economically and with more than usual speed.

The counties interested in the work have been co-operating with the geological survey for about six years in

HOW TO WIN A HUSBAND.

Woman's sphere in this 20th century is not limited any more than man's. She can occupy almost any business position or profession, and yet the popular view of womanhood is that she best fits the position of wife and mother and head of the household. Every girl should know her heart and also know that her womanly system is equal to the strain of marriage. If a girl is nervous and irritable ten chances to one it is due to some trouble peculiar to womanhood.

Cupid has no place in a girl's heart if she is nervous and irritable, frets, dragged down, worn out for no reason that she can think of. The weak back, dizzy spells and black circles about the eyes are only symptoms. Go to the source of the trouble and correct the irregularity. Stop the drains on the womanly system and the other symptoms will disappear. This can be done easily and intelligently. So sure of it is the World's Dispensary Medical Association, the proprietors of Dr. Pierce's Favorite Prescription, that they offer \$500 reward for women who cannot be cured of leucorrhoea, female weakness, prolapsus, or falling of the womb. All they ask is a fair and reasonable trial of their means of cure.

"Your 'Favorite Prescription' cured me of ulceration and inflammation, from which I suffered for many years," writes Mrs. Delia Wheaton, President Santa Barbara Lawn Tennis Club, Arlington Hotel, Santa Barbara, Calif. "Health was completely broken down when I began its use and I was in dreadful pain most of the time, but ten bottles cured me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

the surveys and preliminary investigations. The state appropriated \$76,000 to aid in the original survey work. Now that the investigation is practically all done, the Sacramento Valley Association has taken up the work vigorously in hope of seeing one or another of the several projects put through. The people of the valley do not expect to see the whole of the work taken up at once, but they will heartily support the engineers of the reclamation service, no matter which of the several units of the work they elect to start on.

As has been said, the reclamation service has work under way in eighteen states that will ultimately cost over \$37,000,000 and will reclaim something over 1,300,000 acres of land, but there are more than 2,600,000 acres in the Sacramento valley alone that are easily susceptible of irrigation and have the water and reservoir sites ready for the work.

Value Given by Irrigation.

The rate at which land increases in value when once it is "under ditch" is almost inexplicable to the average easterner. The land in the Sacramento valley now which is irrigated by private enterprise is worth well over \$175 an acre, while equally good land that is not irrigated can be had for \$20. The subject of extensive irrigation work is pressing with the Sacramento valley people. The whole of the valley has been steadily cropped in wheat for fifty years, and this sort of treatment has so worn it out that wheat raising is no longer profitable. There are about 40,000 acres of land that have been irrigated by private enterprise, and this land is now selling for nearly \$300 an acre.

If any of the several sections of the irrigation work can be promptly taken up by the national government they will not only be assured of the hearty co-operation of all the people of the valley, but it will mean that the construction of a comparatively small section of the irrigation work will double the taxable value of the valley.

Socialist Manifesto.

Brussels, Dec. 21.—The international socialist bureau has issued a manifesto to the socialists of the world, as follows: "The revolution in Russia advances from aspiration to realization. In this struggle the Russian proletariat should have the moral and material assistance of our brothers throughout the world. Our comrades in the United States request the international bureau to invite the affiliated organizations to solemnly commemorate January 22. The workers of the world will recall the struggle which the Russian proletariat was then carrying on, and therefore the order is hereby given that all affiliated groups organize meetings and collections for January 22 next, or the night of the Sunday preceding. Let orators refer to the heroic efforts of our Russian brothers and let collections from all countries aid those who are battling against imperialism and for liberty. Down bureaucracy. Long live socialism! 'The document is signed by the international delegates."

# JURY IN HUBBELL EMBEZZLEMENT CASE DISAGREES

## One Man Refuses to Stand for Acquittal.

### INDICTMENT TO BE TRIED AT NEXT TERM OF COURT

The jury in the case of the Territory of New Mexico vs. Frank A. Hubbell, charged with embezzlement in an indictment of four counts, last night agreed to disagree. The indictment still stands against Hubbell and he will be retried at the next term of court.

As is generally known, Hubbell was removed as the treasurer and collector of Bernalillo county by the governor not long since. Justo R. Armijo was appointed his successor and qualified for the office. Hubbell refused to turn over the office or the moneys in his hands, holding that his removal was illegal, which question is still being fought in the courts.

Mr. Hubbell has paid out a considerable amount of the original money in his hands to lawful creditors of the county and has not refused to pay legal warrants, though he has seriously inconvenienced the county by retaining possession of the moneys.

The case consumed two days in trial and it was necessary to hold a night session in order to dispose of it. It is understood that the jury stood eleven for acquittal and one against. There being no chance for an agreement, the jury was called in and dismissed.

# SUPERINTENDENT ALLEN HAS NOTHING TO SAY ABOUT MR. BILSBOROUGH

Superintendent James K. Allen, of the Albuquerque Indian school, returned last night from Sesma, accompanied by his family, where they attended a concert given at the day Indian school at that pueblo.

When asked concerning the case of Robert Bilsborough, who is now in the county jail, having refused to give a peace bond, on proceedings brought against him by Baron DeK. Sampson, carpenter at the school, whom Bilsborough threatened to kill, Mr. Allen said that he had not heard of the case until he saw an account of it in a paper while on the train returning to the city.

"There has been a little trouble between Mr. Sampson, carpenter and his assistant, Mr. Bilsborough, for the past year," said Mr. Allen, "and Mr. Bilsborough has made some threats against Mr. Sampson and myself, but I had hoped that he would never attempt to carry them out, as he did against Mr. Sampson. I am very sorry on account of the notoriety that has been given the school by the case. The matter will be fully investigated, but at this time I have nothing to say in regard to it."

Bilsborough, the assistant carpenter, is still in the county jail, having refused to give a bond or promise to be peaceable. He still swears vengeance against Sampson.

# WILL TRY TO CIVILIZE A SMALL SON OF YAQUIS

(Yuma Sun.)

Frank J. Toussaint, of the Chumata mine in Sonora, passed through here this week on his way home to Milwaukee, having in custody a little Indian youth who is the last of a band of Yaquis all of whom were recently killed in a fight with Mexican soldiers in Sonora.

The young Indian is Zaco, a son of Juan Paredas, an Indian chief, and nephew of Colorado, former chief of the Yaquis. Colorado met death about ten years ago, while Paredas was killed only recently.

Zaco's mother, brothers, sisters, nephews, uncles and aunts have all suffered the fate of his father, and recently the boy became sort of an outcast. Lost from his tribe and spurned by the Mexicans and Americans, he had no home save the desert. Toussaint found him one morning near the mine, and questioned him in the Indian language, learned the boy's story. Toussaint took him to his home and fed him. When he started to the states he decided to bring the boy along.

Zaco is eleven years old. When he crawled into a Pullman berth and left the state of Sonora for the first time in his life, he expressed great amazement and said the train beat the burro or the boat. He refused to take off his clothes, but finally parted with his shoes and hat. While waiting for the Southern Pacific train the amazed boy gave vent to his astonishment in many ways. He is bright, and it is the intention of Toussaint to place him in an American school in Milwaukee and raise him as an American youth.

# MRS. H. B. HENING DIES AFTER BRAVE FIGHT AGAINST DISEASE

About 2 o'clock yesterday afternoon after a brave struggle which lasted many weeks, Mrs. H. B. Hening, wife of the city editor of the Morning Journal, succumbed to the ravages of disease and passed quietly away. This end came gently after prolonged suffering, her mother, Mrs. J. N. Reece, and her husband being at her bedside. Mrs. Hening, who was Miss Cora Reece, of Springfield, Ill., would have been 26 years of age the second day after Christmas, and was in the full bloom of young womanhood. She came to Albuquerque five years ago for her health, and a year ago the 21st of last August was married to Mr. Hening in Springfield. She was a daughter of General J. N. Reece, adjutant general of the state of Illinois, who died after Mrs. Hening came to New Mexico. Beside her mother she is survived by a brother, Col. Roy R. Reece, of Springfield, who left Albuquerque not long since after an extended visit, called east by the illness of his brother, who died about ten days ago.

Mrs. Reece arrived in Albuquerque a month ago. She and Mr. Hening will leave this morning with the remains for Springfield, where the funeral will take place.

Mrs. Hening during her five years' residence in Albuquerque made friends of all with whom she was associated by her attractive, sweet and unselfish disposition and strength of character, and she will be greatly missed. She was a young woman of rare accomplishments, and at one time a beautiful singer, although her declining health some time ago forced her to give up music. During all her illness she never lost her unflinching cheerfulness and good humor and the "clear grin" that she showed in the long fight was little short of an inspiration to those who knew her.

Mr. Hening's bereavement is an unusually sad one and has elicited a correspondingly deep sympathy from the very many friends of the young couple in Albuquerque.

## DOCTOR DECLARES CHARGE AGAINST NILES UNFOUNDED

Says There Is Nothing to Indicate Crime.

### AGED MAN ACCUSED OF ASSAULTING TWO LITTLE GIRLS

A. H. Niles, 65 years of age and who is said to have always been a highly respected and exemplary citizen was yesterday afternoon bound over under a \$3,000 bond to appear before the next sitting of the grand jury on a charge of rape.

The charge was preferred by the parents of two little girls, aged 8 and 10 years respectively, whose names are Cecelia and Pearl Davidson. Niles has been residing at the Davidson home on South Broadway and the alleged crime is said by the mother to have taken place Thursday night.

At the hearing yesterday Niles was represented by Attorney E. L. Medler and the girls and their parents by Attorney Felix Lester. The mother declared in court that she was called to the room of the little girls by a scream from Pearl and that she found unmistakable evidence that a crime had been committed upon the older girl and attempted upon the younger one.

The attorney for Mr. Niles informed the Morning Journal last night that a prominent physician had made a thorough examination of the persons of both girls and declared that there was absolutely nothing whatever to indicate that there was a particle of truth in the serious charge made against the old man. From a conversation with several men who knew Mr. Niles at his former home in Iowa it is evident that he has always borne the best of reputations and has had the deepest respect of his friends. It is further stated that the little girls have been sleeping in the old man's room, and that during the cold weather the children had at times been occupying the same bed.

### LOCAL AND PERSONAL

W. H. Greer returned to the city last night from a trip to New York and Washington.

H. E. Adams, a well known gentleman and rancher is in from Dalt to do a little Christmas shopping.

Henry Mann, of the firm of Mann Bros., gardeners, left last night for a trip to Phoenix, where he will spend a few weeks, looking over the surrounding country.

G. Loughton, an employee of the American Lumber company, came down from Ketchikan last evening and will cut his Christmas turkey in the metropolis.

C. W. Ryan, chief claim adjuster of the Santa Fe system, with headquarters at Topeka, was in the city last evening for a short time. Mr. Ryan is on his way to Los Angeles, where he will spend the holidays.

Mrs. T. E. Purdy, wife of the local agent of the Santa Fe railway, will arrive in the city this evening from Oklahoma City and will spend the holidays visiting her husband. The family will remove to this city in the spring.

Solomon Luna returned to New Mexico last night from Washington, where he has been for the past two or three weeks. Mrs. Luna came up from Los Lunas yesterday to meet her husband and they will remain at the Alvarado for a day or two.

The members of the Mesa Driving club will spend today at the new park east of the city, where they will lay out the grounds and start the preliminaries for the building of a race track. The party will take a big lunch and will make the day a pleasant outing. The first matinee will be given at the new track either next Sunday or New Year's day, the Sunday following.

\* Mr. Otto L. Rice, proprietor of the Globe store, wishes to announce that Mrs. W. L. Garriott is the one who has guessed the name of "Katherine," the handsome doll which has been on display in the Globe store and that if she will call, the doll will be turned over to her. The contest for "Katherine" has been a close one, several coming quite near the mark.

Mr. and Mrs. Dave Wizer of Topeka, Kansas, who have been on a visit to friends and relatives at San Bernardino, stopped off in the city yesterday on their way home and will spend Christmas week with Albuquerque friends.

Misses Jennie and Mabel Craig leave this morning on belated No. 9 for El Paso, where they will spend the holidays, the guests of their sisters, Mrs. A. A. Powell and Mrs. M. J. Drummond.

D. A. Olinus, who has been in the city for a day or two, leaves this morning for his home at Belen.

## EXCITING RUNAWAY BREAKS SMALL BOY'S ARM

TWO OR THREE VEHICLES  
DEMOLISHED IN ACCIDENT

Francis Shuffelbarger, son of J. M. Shuffelbarger, the Gold avenue furniture dealer, sustained a serious fracture of the left arm yesterday afternoon in a spectacular runaway accident, which occasioned considerable excitement.

Francis, who is about 12 years of age, had taken his father's furniture wagon and was making a delivery of some Christmas goods on Railroad avenue, near the corner of Fourth street. He had delivered the packages, had jumped up on the wagon, and spoke to the horse, when he dropped one of the lines. In his hurry to regain the line he pulled the other line, the horse made a quick, short turn and the boy was thrown to the ground with such force that both bones of the forearm were broken.

The horse ran down Fourth street and encountered two vehicles which were in his way with disastrous results. At Silver he swung onto Silver, thence to Second, up Second to the alley, and came in behind the Shuffelbarger store. The rig was damaged to some extent and will be in the wagon shop for some days for a general overhaul.

The boy, though painfully injured, ran to his father's store and told what had happened. It was an hour before his father discovered that the boy's arm was broken, when medical attention was at once procured.

The wagon struck a buggy belonging to J. E. Bell, the Silver avenue liverman, and threw out his son, Montgomery Bell, and bruised him to some extent. A wagon containing a native family was also demolished at the corner of Fourth and Gold, but the only damage was to the rig, which was badly used up.

## SCALPER GETS TEMPORARY INJUNCTION AGAINST PAWNBROKER

Henry Yanow, who conducts a pawnbroker's office and jewelry store on Railroad avenue, has been having trouble with one H. P. Paulsen, a ticket broker, who has had his office in Yanow's store. Yanow wants to oust Paulsen from the property. Paulsen went into the district court and secured a temporary injunction. The injunction is made returnable on Tuesday next, at which time the merits and demerits of the case will be fought out.

The trouble is said to have come about through Paulsen refusing to sell Yanow a half-interest in his end of the business. Since Paulsen has been with Yanow he has done a very good business and he says that Yanow approached him several times in regard to selling. Later Yanow came to him and said that he would be satisfied with a part of the business, but Paulsen refused to sell and Yanow wants the room that he may start a ticket office of his own.

The temporary injunction in the case was asked for yesterday by W. C. Heacock, who is representing Paulsen, and was immediately granted by Judge Abbott.

### NO GREASE OR DANGEROUS DRUGS.

In "Herpicide," the New Scientific and Successful Dandruff Treatment.

Have you dandruff? Then you have a contagious parasitic disease, unpleasant, unhealthy, and one that will eventually lead to baldness. To cure it you must destroy the parasite that eats at the root of the hair. The only preparation for destroying these germs is Newbro's Herpicide. Charles Klein, of LaSalle, Wyo., says: Herpicide allayed the itching, cured the dandruff and stopped my hair's falling out; and it is bringing a new crop of hair. Herpicide is free from grease or dangerous drugs, and makes hair glossy and soft as silk. One bottle will convince you of its merits. Sold by leading druggists. ## SOCIETY

Mrs. Butler, 717 East street, has as her guest Mrs. J. C. Bromagan, of Santa Fe.

Mr. and Mrs. P. Freeman, of Las Cruces, were visitors in Albuquerque during the week.

Mrs. W. J. Johnson, 522 West Tijeras road, has returned from an extended eastern trip.

Mr. and Mrs. M. P. Davis, of Estancia, were visiting Albuquerque friends the past week.

This evening will close the campaign, and lots of people besides the children are glad of it.

Mrs. Arthur Cavanaugh and children have returned to Albuquerque and will reside here in the future.

Mr. Maynard Gonsul, who has been visiting Mrs. Ira B. Bennett in San Francisco, returned to the city yesterday.

Mr. and Mrs. Leon B. Stern and son will spend the holidays with Mrs. Stern's parents, Mr. and Mrs. Price, in Socorro.

Mrs. John Borradaile entertained a few friends at a musical Wednesday morning at her home, 602 West Gold avenue.

Mr. and Mrs. W. S. Bowen are making an extended tour of Arizona and southern California, combining business with pleasure.

Mrs. Willard S. Hopewell and sons Willard and Robert left for Hillsboro during the week and will remain until after January first.

K. R. Mount and wife have gone to La Jara, Colorado, their former home, to spend the holiday season visiting relatives and friends.

Mr. and Mrs. John Gibson, of Chicago, will spend Christmas with Mr. Gibson's parents, Mr. and Mrs. E. J. Gibson, 609 West Coal ave.

Mr. and Mrs. M. E. Hickey entertained the Ten Dons Tuesday at dinner at their home, 115 North Walter street. Those present were Mr. Frank Moore, Dr. J. H. Wroth, Mr. H. E. Fox, Prof. C. E. Hodgins, Prof. R. F. Asplund, Mr. E. B. Cristy, Prof. A.

B. Stroup and Mr. A. B. McMillen, Prof. Hodgins read a paper, "Marriage and Divorce."

Mrs. E. C. Whitson, 593 North Second street, entertained the past week Mr. and Mrs. H. T. Shimon and Mrs. S. D. Wilcox, of Cleveland, Ohio.

Nature sent enough snow the other day, to make fair sledding for Santa Claus, but it realized that it was out of its sphere, and refused to stay.

The Women's club at a recent meeting added a department of philanthropy, which will give special attention to matters in the field of charitable work.

General T. C. Mrs. Lebo, of the Philippines, have come to the city and are visiting Mrs. Lebo's parents, Mr. and Mrs. C. A. Hawks, 229 North Seventh street.

Mrs. Philip Holzman and daughter, Miss Minnie Holzman, of Las Vegas, are spending the holidays with Mr. and Mrs. Samuel Neustadt, of 416 West Gold ave.

Mrs. F. E. Sturges left by the limited on Thursday for Los Angeles, to spend the holiday season with her son, who is wintering in southern California.

Mrs. A. H. Knapp, 400 South Broadway, has arrived from Jamestown, N. Y., where she spent the past six months visiting her son, Mr. Seylor Knapp.

Henry Kreiling, wife and daughter, of Pittsburg, arrived in Albuquerque during the week, and expect to remain for some time and may conclude to locate here.

Jose Candelario and Emilia Chavez, aged respectively 22 and 16, were granted a marriage license on Thursday—an event full of interest to them if not to the public.

Miss Helen Rodley has issued invitations for a young people's dancing party to be held in the Woman's club rooms of the Commercial club building on Tuesday evening of this week.

Ladies complain bitterly of the opera house being so poorly warmed during the cold weather. The management should see about that. As well as being dangerous to the health of delicate persons it is likely to be injurious to business.

Mr. Harvey Bittner expects to reach the city tonight to spend the holidays with his parents, Mr. and Mrs. David A. Bittner, 126 South Walter street. Mr. Bittner is a student at Stanford University, Palo Alto, Cal.

A fair-sized audience greeted Mr. Frederick Warde, the eminent Shakespearean scholar and actor Friday evening. Although the entertainment was devoid of the spectacular and artistic effects of a regular theatrical performance, it was none the less interesting from a student's standpoint. Mr. Warde took Shakespeare's greatest tragedy, Julius Caesar, and went carefully through it, first reading and then explaining.

Mrs. Jay A. Hubbs will entertain quite a number of her friends at six o'clock dinner tomorrow in honor of her guests, Misses Marie and Lydia Miller, of Cumberland, Wisconsin, two charming young ladies who have made a host of friends during their brief stay in Albuquerque. They will leave soon for California to spend several months.

Mrs. Zinc, wife of Frank Zinc, of Estancia, superintendent of motive power and rolling stock on the Santa Fe Central railway, is in the city visiting her brother, J. H. Fenner and wife.

Miss Ada Underwood, a teacher of Terre Haute, Ind., is spending the holidays with her parents and brother, 511 South High street, who are staying in the city for the winter.

The concert in aid of the Associated Charities to be given at the Elks' opera house Thursday evening, bids fair to eclipse any concert heretofore given in Albuquerque. The following ladies have kindly consented to act as patronesses and the event will be a society one: Mesdames Borradaile, Ira D. Cassidy, F. W. Clancy, Chadbourne, Greer, Alfred Grunfeld, Maynard, Gonsul, A. G. Harrison, F. Hubbard, Noa Hilde, D. A. Macpherson, Rodley, B. Spitz, J. Yisarril.

son, Rodley, B. Spitz, J. Yisarril. Miss Bremen's piano work has elicited a great deal of enthusiasm in the city and her appearance is being looked forward to with a great deal of interest.

## University Notes

Vacation for two weeks.  
The semester's reports for students will not be sent out for a week.

Miss Della Siler, librarian has gone to Emporia, Kansas, to spend the holidays.

Most of the students from the territory, outside of Albuquerque, left for their homes Friday and Saturday to spend the Christmas vacation.

Mr. Frank Alvord will spend the vacation at Belen, combining business with pleasure, in the employ of the Becker Co.

Professor Hodgins read a paper on "Marriage and Divorce," at the last meeting of the Ten Dons held at the residence of M. E. Hickey.

Some of the students are agitating the publication of a college year book to be known as "The Mirage," in remembrance of the former name of the college paper. It is a good idea, push it along, but work should begin at once to insure its completion by the end of the year.

Superintendent Clark, Rabbi Kaplan, Dr. Briggs and Governor Stover, were visitors at the University last week.

The football team was pleasantly entertained at a turkey dinner last week by President Tight. The conversation drifted into football pretty largely—how it was not done at Las Cruces, how it should have been done, and how it must be done in future.

Mr. M. Custers, former custodian of the University, was a visitor last week, after a long absence. It was a matter of regret that Mr. Custers was unable to see the improvements on the campus, because of a loss of sight.

President Tight goes to Berkeley, California, Tuesday night to preside at the meetings of the Geological association to be held there this week. He has prepared a paper of considerable importance to present to geologists.

Mr. Ralph Tascher is clerking at Matson's busy book store to help out during the Christmas rush.

The girls' basket ball team was victorious in a game with the government Indian school girls, with a score of 9 to 4 at the Casino, Wednesday evening. This is somewhat more favorable for the 'varsity than the boys' score with the High school the week before.

The National Educational association meets this year at San Francisco, July 9 to 13, and will be a great meeting. This will give teachers and students of the county an opportunity to hear the leading educators of the nation and to see California at the minimum expense.

The preliminary contest at the University last week resulted in the choice of Mr. Lawrence Hilde to represent the preliminary department at the oratorical contest next Tuesday evening.

The other orators, Messrs. Van Cleave and Albright, did well, but the judges were unanimously without consultation, in giving the honor to Mr. Hilde.

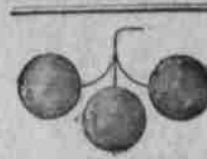

Everybody should remember that the New Mexico Educational association meets in Albuquerque next Tuesday, Wednesday and Thursday. The meetings are open to all, at the High school building. The oratorical contest at the opera house on Tuesday by representatives from high schools and preparatory schools in New Mexico, will be interesting and the opera house should be crowded.

When you want a pleasant laxative take Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

 ALBUQUERQUE.....NEW MEXICO

SUNDAY MORNING, DECEMBER 24, 1905.

MR. H. B. HENING, city editor of this paper, has the heartfelt sympathies of a large circle of friends in the sad journey upon which he starts today, in taking the body of his young wife back to her former home for burial. But who can measure the volume of grief that bows down the aged mother as she mourns the loss of an only daughter and a son, taken by death within a week. While she watched over the death bed of her daughter in Albuquerque, her son in Illinois died of the terrible white plague, leaving her in her old age with but one of a once large family of children.

## Slightly in Error

M. R. B. A. PACKARD, of the Arizona legislature, tells the Los Angeles News that if the joint statehood bill should pass a large number of Arizona republicans would be so disgruntled that they would vote the democratic ticket. Mr. Packard is laboring under a mild delusion. Republicans, as a rule, do not belong to that class of persons who can be fooled all the time. The Arizona democrats may continue to oppose joint statehood for a long time after Arizona the Great has become a power in the nation, just as their party is still opposing the abolition of slavery after emancipation has been an accomplished fact for more than half a century, but republicans are not built that way. If they were the sort of people who can be fooled all the time they would be democrats already. But long before it comes time to vote on a constitution for the new state they will discover that all those fabulous stories about the barbarous character of the people of New Mexico and the awful and terrible things they will do to the innocent minded folk of Arizona, are pure fiction, merely "dead flies to catch gurgons," and you will not be able to find a republican in Arizona who will not be ashamed to admit he was ever "easy" enough to be caught on such bait.

It is true that the air of Arizona is filled with stuff about New Mexico, which, if an Arizona man believes it, will abundantly justify him in fighting desperately and persistently against union with this territory, but at the same time we are equally justified in being ashamed of any American citizen who will believe such preposterous and improbable stuff about other American citizens, especially when a very few moments given to a sane, common-sense consideration of the matter cannot fail to convince him of the false and foolish character of the stories that are so readily believed and lead him also to look at the source from which such stuff emanates and the motives which lie behind it.

The merest modicum of effort expended in tracing these foolish stories to their source would show any intelligent man in Arizona where they come from and for what purpose they are invented. And American citizens in discussing great questions of this character have no right to close their eyes and ears to the truth, and refuse to inform themselves. The decision of the case will affect the generations to come as well as our own, and the man who refuses to accept the truth and deliberately elects to believe a lie, not only wrongs himself and his neighbors, but robs his own children of their birthright. Take for illustration, these facts: The great mining companies of Arizona evade their taxes. Their property is worth hundreds of millions, and is paying princely returns on all it is worth. One distinguished owner of a mine in that territory has boasted that his income from it is a million dollars a month. His property is returned for taxation at about one-tenth of one per cent of its real value, while the little homes of mechanics and laboring men are returned at sixty to seventy per cent of their real value. The property of the great mining companies of the territory, if returned at the same per cent of its value as that of the people in general, would make the value of property upon which tax could be levied fully ten times as great as it is now. A good man, honest but indolent, tells us frankly over his own signature, that the available resources of the territorial government are so meagre that it is necessary to deliberately misappropriate \$40,000 of money donated for another purpose, to prevent the territorial university from being "crippled for years, if not ruined." That statement was made by the Rev. Winfield Scott. We know Mr. Scott and believe that he states the truth, and yet many people in Arizona, Mr. Scott among the number, have been so thoroughly deceived by the environment of dishonesty which the corporations have woven about them that they believe it would be better to continue this wrongful diversion of funds indefinitely, than to enter into an alliance with New Mexico, by which Senator Clark, Senator Alger, and other rich men would be made to contribute their proper share toward the support of public institutions, by a fair tax upon their Arizona property which is constantly pouring into their laps a stream of value beyond the wealth of Croesus!

## Among the Four Hundred

NEW YORK society is all agog over the prosecution and conviction of Lawyer Hummel, by District Attorney Jerome. And what does society have to do with Hummel? Only this. He was tried for crookedness in the Dodge-Morse divorce case. Dodge and Morse were husbands of the same woman before and after. We have forgotten which is which, but let us call them No. 1 and No. 2. No. 1 had her and No. 2 wanted her, and her earnings, or a large majority of them, went out to No. 2. Hence the problem was to get rid of No. 1 in a legal way, so that she might marry No. 2, for a while at least, without bumping up against trouble with the law—and Hummel fixed it for them. No. 1 was sent away to Texas to hide out while the divorce proceedings were in progress, was abundantly supplied with money by No. 2, and seemed to feel that he had made a good sale. But after the divorce was granted and the woman had become the wife of the other man, Jerome struck the trail and didn't like the scent, so he got after Mr. Lawyer Hummel for what they call in the army, "conduct unbecoming an officer and a gentleman," and the trial developed the social features of the affair. The details are not any worse than those of thousands of other cases in New York society, but they have got out, and that's the upstartable sin. Everybody can be forgiven except Jerome.

## A Disciplined Emperor

NOW COMES his puerile highness, the emperor of Corea, begging that this country do something toward restoring to him his throne as it existed prior to the late war, says the New York Globe. The little man has been deprived of the power to rob and kill his subjects at will. Consequently he feels a great wrong has been done him. Never again to be able to grab everything in sight and to behold anyone daring to object? No wonder life seems no longer worth living.

Full information has not been given as to recent occurrences in Corea, but piecing together what is known it appears that Japan, failing to induce the Korean emperor to do the right thing by other means, put him through what the New York police call the "third degree." Irregular, of course, and contrary perhaps to certain readings of international law, but necessary. The prescriptive privileges of the little emperor, who has earned the reputation of being the worst monarch at the head of the worst government in the world, cannot be allowed to prevent improvement.

## The Night Before Christmas

Santa Claus is due tonight, and as he is too shrewd to trust to railroads, but travels by his own conveyance, he can be depended upon to get in on time. As to who he is and what he is, here is Clement C. Moore's poem which has for many years been recognized throughout the English world as the best description of "Saint Nick" ever written:

A Visit From Saint Nicholas.  
 (By Clement C. Moore.)  
 'Twas the night before Christmas, when all through the house  
 Not a creature was stirring, not even a mouse;  
 The stockings were hung by the chimney with care,  
 In hopes that St. Nicholas soon would be there;  
 The children were nestled all snug in their beds,  
 While visions of sugar-plums danced in their heads;  
 And mamma in her 'kerchief, and I in my cap,  
 Had just settled our brains for a long winter's nap.  
 When out on the lawn there arose such a clatter,  
 I sprang from the bed to see what was the matter.  
 Away to the window I flew like a flash,  
 Tore open the shutters and threw up the sash.  
 The moon on the breast of the new-fallen snow,  
 Gave the lustre of midday to objects below;  
 When, what to my wondering eyes should appear,  
 But a miniature sleigh and eight tiny reindeer,  
 With a little old driver, so lively and quick,  
 I knew in a moment it must be St. Nick.  
 More rapid than eagles his coursers they came,  
 And he whistled, and shouted, and called them by name:  
 "Now, Dasher! now, Dancer! now, Prancer! and Vixen!  
 On, Comet! on, Cupid! on, Donner and Blitzen!  
 To the top of the porch! to the top of the wall!  
 Now, dash away! dash away! dash away all!"  
 As dry leaves that before the wild hurricane fly,  
 When they meet with an obstacle mount to the sky,  
 So up to the house-top the coursers they flew,  
 With a sleigh full of toys, and St. Nicholas, too.  
 And then, in a twinkling, I heard on the roof  
 The prancing and pawing of each little hoof.  
 As I drew in my head and was turning around,  
 Down the chimney St. Nicholas came with a bound.  
 He was dressed all in fur from his head to his foot,  
 And his clothes were all tarnished with ashes and soot;  
 A bundle of toys he had slung on his back,  
 And he looked like a peddler just opening his pack.  
 His eyes—how they twinkled! his dimples, how merry!  
 His cheeks were like roses, his nose like a cherry!  
 His droll little mouth was drawn up like a bow,  
 And the beard of his chin was as white as the snow;  
 The stump of a pipe he held tight in his teeth,  
 And the smoke it encircled his head like a wreath;  
 He had a broad face, and a little round belly,  
 That shook, when he laughed, like a bowlful of jelly.  
 He was chubby and plump, a right jolly old elf,  
 And I laughed when I saw him, in spite of myself;  
 A wink of his eye, and a twist of his head,  
 Soon gave me to know I had nothing to dread.  
 He spoke not a word, but went straight to his work,  
 And filled all the stockings; then turned with a jerk,  
 And laying his finger aside of his nose,  
 And giving a nod, up the chimney he rose;  
 He sprang to his sleigh, to his team gave a whistle,  
 And away they all flew, like the down of a thistle.  
 But I heard him exclaim, ere he drew out of sight:  
 "Happy Christmas to all, and to all a good-night!"

**Grip Quickly Knocked Out**—Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which

rapidly developed into the worst kind of grippe with all its miserable symptoms," says Mr. J. S. Edleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, adding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.
