BRIEF WIRINGS:

Wisconsin's Lawyers Meet.
MILWAUKEE, Feb. 16.—The State Bar convention to nominate a successor to Chief Justice Lyon, will be held here today.

Mitchell in America.
NEW YORK, Feb. 16.—Charles Mitchell, the pugilist, will reach the United States today and will at once prepare for a fight with Corbett.

New Hampshire's Board of Trade.
NASHUA, N. H., Feb. 16.—The annual meeting of the New Hampshire Board of Trade will be held here today with a business session at 2 p. m., and a banquet in the evening.

A Monster Theatrical Benefit.
BOSTON, Feb. 16.—The monster benefit to the veteran actor, Geo. Howard, promises to eclipse any of the benefits given in the country in recent years. All the great actors now playing within hailing distance of Boston will appear and those who are unable to come, such as Booth, Crane, Jefferson, and Wilson Barrett are represented by testimonials.

Belknap Gets the Certificate.
LANSING, Mich., Feb. 15.—The supreme court this afternoon, on petition of Congressman Belknap, granted a writ of mandamus in the Belknap-Richardson contested congressional case from the Fifth district, compelling the present state board of canvassers to canvass the vote. This elects Belknap by a plurality of nineteen.

The State Republican League.
ALBANY, N. Y., Feb. 16.—There will be a meeting of the executive committee of the Republican State League, at the hotel Kenmore, here today. The meeting is called for the purpose of securing a full attendance of delegates from New York state at the national convention, to be held in Louisville in May next; to make arrangements for the convention of the state league, to be held in Utica during the approaching summer, and to consider other matters.

In Memory of Bishop Brooks.
NEW YORK, Feb. 16.—A public meeting in commemoration of Bishop Brooks will be held at Carnegie hall to-night. The general committee on arrangements consists of Rev. Drs. Sanders, Williams, Barton, Thompson and Taylor. Bishop Andrews, Dr. Gottlieb, President Low, Edward King, Charles L. C. Colby, A. S. Hewitt, D. Willis James, F. R. Coudert, John D. Slayback and Hamilton V. Maclellan. The business committee includes Rev. Dr. George Alexander, chairman; W. E. Dodge, Washington Wilson, W. H. Schieffelin, C. A. McManis and E. J. Wendell.

Grover's Cabinet.
LAKEWOOD, Feb. 15.—The following have been officially selected for Mr. Cleveland's cabinet: Walter Quinton Graham, of Illinois, secretary of state; John G. Carlisle, of Kentucky, secretary of the treasury; Daniel S. Lamont, of Buffalo, postmaster-general. In making the announcement Mr. Cleveland said: "There is no need of any mystery in regard to the cabinet, and it is useless to speculate and indulge in guesswork. I shall make no secret of the matter, but shall announce the names of gentlemen selected to fill the positions as fast as I receive the acceptances and permission to make the matter public."

More Cabinet Probabilities.
LAKEWOOD, Feb. 16.—Mr. Cleveland has been considering the possibility of having been mentioned in connection with cabinet positions. It is evident that Hoke Smith and H. A. Herbert are under consideration for the navy portfolio. A conference on the subject will be held at Mr. Cleveland's office in New York tomorrow day this week. Senator Gordon and other senators will be present. Mr. Cleveland had a visit from Mr. Cadwallader, of Philadelphia. This is Mr. Cleveland's second visit inside of a week. He is supposed to have an interest in the selection of a Philadelphian for a cabinet position. Senator John Martin, of Kansas, and Dr. S. J. Neely, of the same state, had a long talk with Mr. Cleveland. They put in a strong claim for a representation in the cabinet from Kansas, and urged the selection of ex-Gov. Glick.

HARRISON AND HAWAII.
He Recommends Annexation and the First Steps Have Been Taken.

WASHINGTON, Feb. 16.—The president has sent a message to the senate yesterday afternoon recommending the annexation of the Hawaiian islands to the United States. It is accompanied by a treaty of annexation concluded between the secretary of state and the Hawaiian commissioners and a mass of correspondence relating to the question at issue. The treaty is brief, providing merely for the annexation of the present provisional government and leaving the details of the permanent form of government, etc., to the action of congress. The correspondence is very voluminous, going back many years, and gives a complete history of the islands so far as negotiations with the United States are concerned. Contrary to general expectations, the senate in executive session declined to make the treaty public immediately, but decided to first have the message and documents printed for the confidential information of senators. The papers were accordingly sent down to the government printing office to be put in type for confidential use, with the probability that the seal of secrecy will be released to-morrow.

BLEEDING KANSAS INDEED.

The Republicans stand up for Their Rights and Will Not Be Intimidated by a Partisan Governor.

TOPEKA, Kan., Feb. 15.—Special to the New Mexican. The militia is in full force at the state house, six companies of infantry and two sections of artillery having been called out by Gov. Llewelling, to dispossess the Republican house. The Populists had locked the doors and had attempted to illegally oust the Republican members of the house. The latter had gained entrance into the house of representatives by breaking the doors with sledge hammers. The Republican members of the house are in a state of siege; the Populists have the recognition of Gov. Llewelling, who was elected on the Populist ticket. The militia have control of the state house, have pickets and guards out and allow no ingress or egress without the governor's permission.

TOPEKA, Feb. 16.—Special to the New Mexican. The situation here to-day has been most exciting; from early morning with the breaking of day the capital city was found filled with armed men and every train added to the number, the provisional troops as they are called numbered in vicinity of 200, while the Republicans were fully four times as strong. It was found that when a test came the national guard would stand with their commander who said that he only intended to preserve the peace and would not use force in trying to oust the Republicans from the state house. At 11 o'clock Col. Hughes, was relieved of command and the governor took charge in person. He issued something like a manifesto, warning the Republicans that if they did not leave the building they would go out at the point of the bayonet, to which they only replied with derisive jeers. Provisions were early in the day supplied them sufficient to last for a week. The sheriff has sworn in 1,000 deputies who will support the Republicans. At 2 o'clock the governor sent to the capital another message in which he says all troops shall be withdrawn, providing all proceedings against Populists shall be dropped, which is now being considered.

Killed Cowboys.
Reports reach the New Mexican of a fight Monday night about fifteen miles from El Paso between some stockmen, in which two men were killed. The El Paso Times has the following concerning the affair: Messrs. Lee, Tucker and McNew, the slayers of Rhodius and Coffelt, appeared before Justice Farrell yesterday morning. There was no new testimony had. The trio waived examination, and bond was demanded for \$5,000 each to await the action of the grand jury. The bonds were made with Messrs. E. C. Roberts, Fred Fenchler, George Garthier and Albert Mathias as sureties. The grand jury adjourned to meet the 27th of this month, but it is said that the foreman, if he has the authority, will call the jury together at an earlier date. The bodies of Rhodius and Coffelt still lie at the undertaker's awaiting instructions from relatives. Numerous expressions of satisfaction regarding the fate of the two men can be heard on the street. "It was well spent," was the way one party expressed himself. It is predicted that a number of law-breakers will be brought to justice as the result of the killing of Rhodius. It is said that the fear of him had closed the mouth of a number of witnesses.

NEW LAWS.

Chapters 6, 8 and 9 of the 30th Assembly Session.

CHAPTER VI.
An act relating to exemption from taxation.

Be it enacted by the legislative assembly of the territory of New Mexico. Section 1. That there shall be exempt from taxation for territorial, county, municipal and school purposes, property of the head of a family actually residing in this territory in the sum of two hundred dollars. Provided, That any and all property must be listed for taxation by the assessor, and before any exemption can be allowed or granted the claimant must make oath before the assessor as to the true market value of his property and if he claims the whole of said property to be exempt the claimant must swear that all of his property otherwise subject to taxation does not exceed in value the said sum of two hundred dollars and that he is the head of a family residing in this territory.

Sec. 2.—All acts and parts of acts in conflict with this act are hereby repealed. Approved January 20, 1893.

CHAPTER VIII.
An act preventing the temporary use of any horse, mule or other animal, without the consent of the owner.

Be it enacted by the legislative assembly of the territory of New Mexico. Section 1. Hereafter it shall be unlawful for any person to take up from any range, ranch, farm, corral, yard or stable any horse, mule or other animal, and use the same without the consent of the owner of any such animal or of the person having the same in charge.

Sec. 2. Any violation of the foregoing section shall be deemed a misdemeanor, and the punishment therefor shall be a fine of not less than twenty-five dollars nor more than one hundred dollars, one-half of which shall go to the school fund of the county in which the offence may have been committed, and the other half to the owner of any such animal used or taken up, as aforesaid, or by imprisonment in the county jail for a period not exceeding six months, or by both such fine and imprisonment at the discretion of the court.

Sec. 3. This act shall take effect from and after its passage. Approved Jan. 24, 1893.

CHAPTER IX.
An act to compel the attendance of witnesses and production of documentary evidence before the legislative assembly and the committees thereof.

Be it enacted by the legislative assembly of the territory of New Mexico:

Sec. 1. The council or house of the legislative assembly and the committees thereof, whether standing or special, are hereby vested with power to issue subpoenas to compel the attendance of witnesses and the production of books and papers relating to any public matter, which may be a proper subject of investigation or legislation by the legislative assembly.

Sec. 2. The presiding officer of either house, or his committee, shall issue subpoenas requiring the attendance of witnesses before either of said houses, or any committee thereof, at a time and place designated therein, and in like manner shall require the production of any books, papers or documents called for, upon subjects of public concern under investigation.

Sec. 3. Any person, being a public officer, or any other person who may have in his possession or under his control any documentary evidence or who may have any knowledge of any facts relating to the acts of any public officer, or the collection, disbursement or custody of any public funds, who shall without any reasonable excuse fail or refuse to obey any such subpoena, and attend and answer all proper questions before either of said houses, or any committee thereof, or to produce any documentary evidence under his control and called for by such subpoena when the same shall have been served upon him, shall be guilty of a misdemeanor, and upon conviction thereof on indictment or investigation thereof shall be punished by a fine of not less than \$500 nor more than \$2,000, or by imprisonment in the county jail of the county in which such attendance is required for a period not to exceed one year, or by both such fine and imprisonment in the discretion of the court.

Sec. 4. Whenever such a subpoena shall have been served upon a witness at sufficient time to enable him to attend in the designated time and place, the only reasonable excuse for non-attendance shall be the sickness of himself or family, and should the time of service be insufficient or a witness be prevented from attending by sickness, then it shall be his duty to give notice of the cause of his non-attendance and obey the subpoena as soon thereafter as required.

Sec. 5. This act shall not be so construed as to authorize inquiry into the private business of any person, but it shall be held to authorize the investigation of the acts and conduct of any public official, the collection, disbursement and custody of public funds, and the transactions of any person with reference thereto, in order that the legislative assembly may legislate intelligently, and that the public may have accurate information touching the same.

Sec. 6. All laws and parts of laws in conflict herewith are hereby repealed, and this act shall take effect and be in force from and after the date of its passage. Approved, Jan. 28, 1893.

TERRITORIAL TIPS.

SILVER CITY REMOVED.

Range cattle are in good condition and little further loss is anticipated. Newton Bradley had his arm amputated last week. This was to avoid the effects of cancer.

J. C. Berry, for \$9,000, has purchased the mines near Georgetown, formerly owned by Payne, Washington & Co.

Fruit growers are anxious for cold weather to keep the buds back so that the late frosts may not injure them.

C. F. W. Schindler has sold his steers at good figures ranging from 3 cents up. Stockmen have no difficulty to dispose of cattle now.

It is reported that W. A. Leonard, one of the editors of the Silver City Enterprise, will make his home at Velasco, Texas, in a short time.

The 400 foot level on Bell and Stephens Pacific mine at Pinos Altos, will soon start. They have 1,000 tons of ore waiting treatment, and have run a pipe line from this mill to one of the mines and thus get water.

There are now forty-five stamps dropping in the mills at Pinos Altos which is more than have been at work in this camp for many months. Fifteen stamps in the Mountain Key mill are running on ore from the Pacific mine; ten stamps in the Mammoth mill are at work on custom ore and five stamps in the Wagner mill are running on custom ore and Bell and Stephens are running ten stamps on their own ore. There are more than 2,000 tons of ore out in the camp ahead of the mills and if the water supply continues to be sufficient to keep the mills running, the output of the camp this year will be larger than ever before.—Southwest Sentinel.

SAN JUAN ITEMS.
A large band of Utes are camped at the head of the McDermott Glade near the town of La Plata.

Mr. R. C. Prewitt, at Durango, proposes to erect a large hotel at Farmington. This would do no good for Farmington and also for Mr. Prewitt.

Dr. A. Rosenhall, of New York City has located at Farmington. A Dr. Stanley is expected at Aztec. This will supply all the needs of the county.

At Blanco Mr. E. F. Spinner has a pet hog by which he sets great store. He says it is not only a pet, but "it is a thoroughbred, is educated and can talk." As soon as it can be taught to read and write Spinner will set it up in the newspaper business, and get it the county printing, so it may "fatten at the expense of the rest of the county."—San Juan Index.

ALBUQUERQUE ATOMS.
Albuquerque is also complaining of dangerous side-walks.

The remains of John L. Hayen were shipped to his friends in Ithaca, N. Y., last night.

It is stated by Albuquerque people that the Silver Belt mine at San Pedro is all right.

St. Simpson, who lately arrived from London, is rapidly completing his residence on Tijeras canon.

John Flournoy, cashier of the First National bank is off on a well earned vacation to Coronado Beach.

City warrants are at a heavy discount. They were at a par a year ago. Effect of an imbecile Democratic city administration.—Citizen.

The relatives of George Ferguson, of Rochester, N. Y., have not yet requested any disposition of his remains. The remains are lying at Mr. Montfort's undertaking rooms.

John Borradaile, deputy internal revenue collector, has been summoned to Las Cruces to give evidence against certain law-breakers. He will then make a general inspection tour.

To retain an abundant head of hair of a natural color to a good old age, the hygiene of the scalp must be observed. Apply Hall's Hair Renewer.

To the Ladies.
On application we will forward every month, free of charge, the Metropolitan Fashion Sheet of Butterick Patterns. A full assortment of all the patterns always on hand. Address, Lyle & Bros., Albuquerque, N. M.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

THURSDAY, FEBRUARY 16.

The tariff question seems to be lost in the silver shuffle at present.

ANNEXATION and extra session are the things now bothering Mr. Cleveland.

Gentlemen of the assembly, you must set to work. Time is short and floating.

The managers of the senatorial election deadlines in Montana and Wyoming are certainly dandies at that business.

Mr. CLEVELAND's action in selecting his cabinet is giving some of the southern brigadiers painful rheumatic twinges.

Unless immigration is stopped, cholera westward will wind its horrible and death dealing way during the summer of 1893.

Since election the Democratic statesmen have not said much about the "robber tariff." Is this "monstrous robber tariff" to be left alone?

If the coming six days will be put to good uses by the assembly, and the New Mexican hopes such will be the case, the trip to Denver will prove of benefit.

An anti-snapper will in all likelihood get the New York postmaster under Grover Cleveland. Tammany will not be in it. He snaps best who snaps last.

SENATOR PADDOCK, of Nebraska, blames the McKinley bill for his defeat in the Nebraska senatorial election; not senator; not enough votes did you have; that's what.

A strong effort is being made by interested parties to induce Delegate Antonio Joseph to become a candidate for governor of New Mexico. Whether the effort will be successful remains to be seen.

The Toronto Globe wants the "pension debarquement in the United States stopped." All foreigners and the Democratic leaders in congress and out of congress are opposed to just pensions for ex-Union soldiers.

The Hawaiian army consists of forty-six general officers and eight privates. There are no sharpshooters among them, but they all shoot craps and play poker. Hence, the sooner Uncle Sam gets a hold of Hawaii and disbands its army the better for the people of the Sandwich islands.

The great problem on keeping streets dirty in New York on a \$200,000 a year appropriation has been solved and that completely by the Tammany hall street commissioners. It has also been fully solved in Santa Fe, although on much less money. Thus is this city ahead of New York.

The Denver News says: "New Mexico will double its wealth and population within two years after its admittance to the Union of states." Correct that; absolutely correct; and for this very good and self-evident reason does the New Mexican advocate statehood for New Mexico constantly and energetically.

The thirtieth legislative assembly will do a great and broad good to the people of New Mexico by passing bills for the taxation of insurance, express and sleeping car companies in this territory; these companies are making money in this territory and are enjoying the protection of the laws of this territory; why should they not pay just and fair taxes?

Over 11,000 immigrants arrived in New York harbor last month. The public safety of this country and the public good demand that a stop be put at once to this promiscuous immigration. In April next it will be too late and this country will find itself with a cholera epidemic on its hand. Shut the stable door before the horse is stolen is the best policy in every case.

A good advertiser deserves a good cabinet boom, so think the New York papers, and hence Mr. Isadore Strauss, who is one of the members of the dry goods firm of Macy & Co., large advertisers in New York, is getting a fine send-off for postmaster general under Mr. Cleveland.

IRRIGATION DISTRICTS.
The main objection to C. B. No. 81, establishing and maintaining irrigation ditches, is that it is not applicable to a sparsely settled country; strangely enough the law was first proposed in California on the allegation that it was not applicable to a country where large vested rights had grown up. This was the principal objection.

The plain fact of the matter is that irrigation districts are as necessary in an arid region as counties are to the state. It might with equal justice be argued that county divisions were useless in the sparsely settled territories; that their affairs might be more economically administered by a single head or body. Such a proposition would admittedly lead to the same administration that we now have in irrigation matters. Any public affair that affects the local or home interests of the community is best administered by the people themselves as directly and as intimately as possible.

One peculiarity of New Mexico's water development is that the most successful enterprises are those which started with least advantages, and have been developed in practically uninhabited sections. Why? Because the treaty of Guadalupe Hidalgo absolutely confirms the rights of the old Spanish acquiescence. To develop our resources in the best parts of the territory we must adopt a system that will preserve absolutely those rights and at the same time permit a wider scope for progress. This is done under the pending bill by providing that any section watered from a common source may form an irrigation district, provided three-fifths of the voters therein desire it. Bonds may then be voted in such sum as is necessary to complete the works necessary. It is as simple a question as any other county need.

PRESS COMMENTS ON TERRITORIAL AFFAIRS.

Tax them All.
Some of the insurance agents in New Mexico are opposed to the taxation of the insurance companies, but they have advanced no reason why the companies should not be taxed. While laws are being enacted taxing insurance companies and sleeping car companies why not tax building and loan associations doing business in the territory?—Silver City Sentinel.

How About the Collectors Fees?
Will this legislature allow collectors throughout the territory to charge 5 per cent of all taxes collected as their fee for the next two years? The fees for the collection of taxes, licenses and fines in this county amount to more than \$5,000 a year. This would be a pretty fair salary for three men, while the collection of taxes, licenses and fines in this county need not occupy more than half the time of one man.—Silver City Sentinel.

The Capital Question.
The question has been causing quite a spasm of suppressed emotion at Santa Fe, during the week. The Albuquerque faction claim all members of the 20th assembly as being in favor of capital removal, while the Santa Feans, nothing daunted, declare the same legislators as favoring the leaving of the seat of government where it is. Somebody is not telling the truth and a vote on the question will decide who it is.—Eddy Citizen.

Go to No Expense in These Matters.
To-day there is a deficiency of over \$100,000 in the revenue of New Mexico. It is more than has been expended than collected. From the way things are going and the outlook ahead, taxes will have to be piled on, and just now the people of this territory are in no condition to stand additional taxation. High taxation with what we get for it is simply confiscation. Now put the capital and penitentiary on wheels and you simply add to the burdens of the already over tax loaded people. Yet if this must be done, if a move is to be made, then Socorro should stand in and try to get either or both of these institutions. Yet to our mind the dread of bankruptcy and high taxation should cause "our solons assembled in Santa Fe to stop and count the costs.—Socorro Chiefman.

Collector's Fees.
The heaven is slowly working, it seems and the good work begun some months ago by the newspapers of the territory will probably bear fruit, although the apparent apathy of the legislators up to recent date has made the friends of the movement to abolish the fee system despair of any measure of relief in that direction. It is now apparent, however that the disposition to do something is growing. The Times takes pride in the fact that it was one of the first newspapers in the territory to begin the agitation of this question during the past year. The papers are now almost a unit on the subject and the people are bringing a powerful pressure to bear to induce law-makers to do away with a system which has brought nearly every county to the verge of bankruptcy.—Albuquerque Times.

Desires Plain General Rules of Law.
Nearly two-thirds of the session of the legislature has passed, and up to this time, but little has been disposed of.

AT HAND

In a dangerous emergency, AYER'S CHERRY PECTORAL is prompt to act and sure to cure. A dose taken on the first symptoms of Croup or Bronchitis, checks further progress of these complaints. It softens the phlegm, soothes the inflamed membrane, and induces sleep. As a remedy for colds, coughs, loss of voice, in grippe, pneumonia, and even consumption, in its early stages, it is unsurpassed.

AYER'S Cherry Pectoral

It cures all similar affections. It is endorsed by leading physicians, is agreeable to the taste, does not interfere with digestion, and needs to be taken usually in small doses. "From repeated tests in my own family, Ayer's Cherry Pectoral has proved itself a very efficient remedy for colds, coughs, and the various disorders of the throat and lungs."—A. W. Bartlett, Pittsfield, N. H. "For the last 25 years I have been using Ayer's Cherry Pectoral for lung troubles, and am assured that its use has saved my life."—H. Amos, Plymouth, N. S.

Saved My Life

I have recommended it to hundreds. I find the most effective way of taking this medicine is in small and frequent doses."—T. M. Mathews, P. M. Sherman, Ohio. "My wife suffered from a cold; nothing helped her but Ayer's Cherry Pectoral which effected a cure."—H. Amos, Plymouth, N. S.

Ayer's Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Prompt to act, sure to cure.

There is much that needs attention, and this applies more to simplifying and making certain the laws we have already, than to new acts. Nearly every new state and territory in the Union has too much legislation. "We need plain, general rules of law, that will apply to all alike, and any attempt to legislate further than these general principles, is liable to lead to incongruities and confusion. We surely have enough of uncertainty in the wording of statutes in the past, and, if the present legislature should do nothing further to correct a motley of these, it would richly merit the gratitude of our entire people."—Roswell Register.

Colorado's Guests

Voicing the unanimous sentiments of the people of Colorado, and of the city of Denver in particular, the News extends a hearty and cordial welcome to the legislative assembly and other public officials of New Mexico who are now the guests of the city and state. For the first time in her history, Colorado people have the honor of entertaining the representatives of the oldest of the territories—one that existed long before Colorado was known, or settled, or was recorded political recognition, and whose original settlement dates back three centuries, for New Mexico is older than New England.

In extending the hospitality of the state and city to the legislators of New Mexico, it should be borne in mind that they have common interests with Colorado in the growth, progress and development of the west. There can be nothing but a generous rivalry between the two—never any antagonism. Both are interested in similar legislation by the national congress, both are benefited or injured by the same national policy. Their futures are fast bound up together. Events have made Denver the great commercial center of the Rocky mountain region, with a trade extending northward for hundreds of miles, southward to the line of Old Mexico. Whatever advances New Mexico in population, in industrial development and in all the arts of commercial and manufacturing life, will be a corresponding benefit to this city, and open a broader field for the enterprise of her merchants and manufacturers. To cultivate a friendly acquaintance with the people of New Mexico is, therefore, a public duty not less than a pleasing obligation imposed by hospitality.

We welcome therefore the legislators of New Mexico to the capital city of Colorado, and extend to them not the freedom of Denver alone, but the freedom of the state. Let them stay be pleasant one, full of greeting and good cheer, to the end that they may fully enjoy our hospitality and carry with them to their homes the liveliest remembrances of their visit to Denver.—Denver News.

Letters from Mothers

Speak in warm terms of what Scott's Emulsion has done for their delicate, sickly children. It's use has brought thousands back to rosy health.

Scott's Emulsion

of cod-liver oil with Hypophosphites is employed with great success in all ailments that reduce flesh and strength. Little ones take it with relish.

THE MAXWELL LAND GRANT

Farm Lands!
UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairie and valleys between Santa Fe and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 25,000 acres of land. These lands with permanent water rights will be sold at once and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.
