Hanging an Indian Desperado.
TARLEQUAN, I. T., March 31.—Bob Taulon, the Indian desperado who was convicted of the murder of a Cherokee named Jesse Elliot, at Catons, I. T., last year, is to be hanged here to-day.

Fast Day in New England.
BOSTON, March 31.—This has been proclaimed as Fast Day by the governors of Massachusetts and Connecticut. The governor of New Hampshire has named April 6, as the Fast Day for that state.

Pools Knocked Out.
SPRINGFIELD, Ill., March 31.—The Berry anti-pool-room bill passed the house by a vote of 124 to 7. The bill will pass the senate and prohibits betting on races. It is a death blow to racing in this state.

Base Ball To-Day.
New York, March 31.—Among the base ball games scheduled for to-day are the following: Yale law school at Waterbury, Conn.; Chicago league at Chattanooga; Yale versus U. of P. at Philadelphia; Boston league in Boston.

Reforms Promised.
CITY OF MEXICO, March 31.—Hon. Jose Ives Limantour, secretary of the treasury, is at present engaged in preparing a number of important reforms in the custom service of Mexico and the tariff will be simplified at an early date.

For Prize "Rabies" Essays.
PARIS, Mar. 31.—The French Association for the advancement of science gives two prizes for the best essays on Rabies. The manuscripts must be in the hands of the Secretary in Paris to-day, and noted physicians of Europe and America have entered.

Under Sentence to Hang.
MACON, Ga., Mar. 31.—John Jackson, convicted of the murder of Bill Davis and Louis Lewis, three convicted of the murder of his wife, are under sentence to hang in the Bibb county jail to-day. Both executions were ordered to be in private.

Dances Will Erect a Statue.
NEW YORK, March 31.—The Danish residents of New York and other eastern cities have about completed arrangements for the big fair to be held in Tamm hall beginning to-night for the purpose of raising funds for a statue to Bertel Thorvaldsen, the famous Danish sculptor.

Maccabees in Wisconsin.
MILWAUKEE, March 31.—The Wisconsin Maccabees will meet here to-day for the purpose of organizing a supreme jurisdiction for this state. This will be done by the aid of Supreme Commander D. S. Markey, of Shawano, Mich. The order has a membership of 100,000 in the United States and Canada and 2,000 in Wisconsin.

Last of the Generals.
SWANEE, Tenn., March 29.—General E. Kirby Smith, the last surviving full general in the civil war, died here yesterday. He was born at St. Augustine, Fla., in March 1821, and his commission in the Confederate service was issued February 14, 1864. He was twice brevetted for gallantry in the Mexican war. He was wounded but once, at the battle of Mansfield. His wife and seven children of his fourteen survive him.

Female Lamp Lighters.
EVOTA, Minn., March 31.—The Young Woman's Christian Temperance union proposes some practical temperance work. The village recently voted "no license," and the carpenter have said that without license fees there would be no public lighting of the streets. The "Y." obtained charge of the street lamps, raised money for oil by subscription and allotted a lamp to each girl, whose pleasure it will be to keep it trimmed and burning.

Del Norte Receiver.
DEL NORTE, Colo., March 31.—The affairs of the missing receiver of the Del Norte land office are now in the hands of Inspector Majors, of Nebraska, and it is expected that the receiver's safe will be opened shortly in the presence of bondsmen. Register Alexander has received instructions from the department, which stops all business requiring the joint action of register and receiver until such time as the new receiver shall enter upon duty. Some definite information relative to the condition of Receiver Johnson's affairs may be expected soon.

The Iron Chancellor.
NEW YORK, March 31.—A cablegram from Berlin contains news of the critical condition of Prince Bismarck. He has been suffering for several weeks from neuralgia and insomnia. The sick man is very stubborn, and against the orders of his physicians, persists in his consumption of large quantities of wine and brandy.

As soon as he awakes, he wants to get up, and has refused to be moved to a better climate, as the physicians advised. The prince insists upon receiving his friends to-morrow, his birthday, and it is feared the excitement of the occasion will greatly reduce his strength. Dr. Dorn says this information precludes all possibilities of Prince Bismarck's long surviving. The prince will be 78 years of age on April 1. Owing to a strict custom German newspapers do not discuss the ex-chancellor's condition.

THE NATIONAL CAPITAL.

Bayard succeeds Minister Lincoln—Other Appointees and Confirmations—Washington Notes.

WASHINGTON, March 31.—The president has sent the following nominations to the senate: Thos. F. Bayard, of Delaware, to be ambassador extraordinary and minister plenipotentiary to Great Britain; Wm. M. Eads, of Missouri, to be governor of New Mexico.

To be envoys extraordinary and ministers plenipotentiary of the United States—James D. Porter, of Tennessee, to Chili; James McKim, of Kentucky, to Peru; Lewis Baker, of Minnesota, to Nicaragua, Costa Rica and Salvador; Pearce M. Young, of Georgia, to Guatemala and Honduras; Edwin Dunn, of Ohio, (now secretary of legation at Japan) to Japan.

To be consuls of the United States—L. M. Shaffer, of West Virginia, at Stratford, Ont.; Harrison R. Williams, of Missouri, at Vera Cruz; M. P. Pendleton, of Maine, at Pura; Theodore M. Stepan, of Illinois, at Annaberg; William T. Powers, of Virginia, at Rio de Janeiro; Claude Meeker, of Ohio, at Bradford.

Newton B. Eustis, of Louisiana, to be second secretary of the legation of the United States at Paris.

Interior—John M. Reynolds, of Pennsylvania, to be assistant secretary of the interior, vice Cyrus Bussey resigned. Justice—Lawrence A. Maxwell, Jr., of Ohio, to be solicitor general, vice Charles W. Aldrich, resigned. John I. Hall, of Georgia, to be assistant attorney, vice Geo. Shields, resigned.

CONFIRMATIONS.
The senate has confirmed the following nominations: Thomas F. Bayard, ambassador to Great Britain; William T. Powers, of Georgia, attorney of the United States for the southern district of Georgia; Joseph S. James, of Georgia, attorney of the United States for the northern district of Georgia; Geo. J. Dennis, of California, attorney of the United States for the southern district of California.

SPRINGERS NEW JOB.
Representative Springer, of Illinois, chairman of the committee on ways and means, which is charged with the preparation of the tariff bills was questioned relative to the time it would take to enact a new tariff bill. He said it would be impossible for congress to enact a new tariff bill of the kind earlier than May, if the subject were considered at the regular session, beginning in December. An extra session would of course bring the matter to a settlement much quicker, as it met in December for the regular session and would give the people a fair opportunity to judge of the merits of the measure adopted before the general elections in November.

EL PASO COLLECTORSHIP.
The El Paso collectorship matter seems to be nearing solution. Sec. Carlisle states that he intends to recommend Mr. Nat Gunter for the place. Usually this is equivalent to an appointment. However, there has been no light made against Gunter to amount to anything. Senator Coke is for him. Mills preferred Mr. Davis, but made no fight on Gunter.

NATIONAL NOTES.
The gold balance in the treasury is rapidly growing. The decapitation of fourth-class postmasters is progressing rapidly. The senate is still discussing the case of the northwestern senatorial appointments.

John Scott Harrison, of Kansas City, a brother of ex-President Harrison, but staunch Democrat, is said to be an applicant for the collectorship of customs at Kansas City under Cleveland.

Sec. Carlisle yesterday appointed Herman Kreis, of Pennsylvania, appointment clerk of the treasury department, vice Gen. McClellan, resigned. He was chief of the mail division of the treasury during Sec. Manning's and Sec. Fairchild's administration.

Judge E. P. Harmon is in Washington seeking to be made register of the Denver land office. Mr. D. Crow wants to be Puerto Rico postmaster. E. D. Chew asks to be land office register at Pueblo. J. M. Pryor of Pueblo would like to be United States marshal.

Secretary Hoke Smith will to-day hear all persons interested in the permits recently granted by Secretary Noble and since suspended to the Big Blackfoot Milling company and the Bitter Root Development company to cut 60 per cent of the timber on about 26,000 acres of land in Montana. Secretary Smith holds strongly to the opinion that the granting of permits to cut large bodies of timber in the west is against the public interest.

Minister Ryan has forwarded to the state department the dispatch giving the details of the decree of the Mexican government admitting cereals into Mexico free of duty. The dispatch reads: "From the 15th instant (March), corn in grain and in flour and beans imported through the maritime and frontier customs houses of the Republic shall be exempt from the payment of import duties. Under conditions and terms identical with those official decrees of June 18, 1892."

English Capital in Mexico.
CITY OF MEXICO, March 31.—F. Morris, of Sheffield, England, and two associates, have been in Mexico for the past several weeks on an important mission, the nature of which has just become public. They represent an English iron and steel syndicate of immense capacity, which is seeking to obtain control of all the industries in Mexico. These representatives have secured options on several of the most important properties and it is thought the deal will be consummated within the next few weeks.

New Yorkers Turned Down.
NEW YORK, March 31.—A Washington special to the Herald says that Senators Hill and Murphy were turned down by Sec. Carlisle in a fashion which caused both surprise and anger. Both senators visited the secretary of the treasury in the afternoon, when he was very busy, and Hill asked for the appointment of a certain man.

"He is a good Democratic worker, and deserves recognition."
"Is that all you have to say in his favor?" asked the secretary.

"Is not that enough?" asked Senator Hill, in a surprised tone.
"No, it is not," replied Mr. Carlisle, sharply. "There are already more applications from New York for places than it is possible to fill. I have no room for this man, and I can not appoint him."

There was a dead silence. Finally Hill turned, and with a chilly "good day," walked out of the room, followed by Murphy.

THE NEW LAWS.
Act in Relation to Live Stock—Furthering the Interests of Territorial Institutions.

CHAPTER LXVII.
An act to amend an act entitled "An Act in Relation to Live Stock," Approved February 14, 1891.

Be it enacted by the legislative assembly of the territory of New Mexico.

Sec. 1.—In order to provide the necessary moneys for the payment of the expenses incurred by the cattle sanitary board of New Mexico, in the execution of the provisions of an act entitled "An Act in Relation to Live Stock," approved February 14, 1891, the said board shall have power to borrow money and to issue negotiable paper therefor, but the indebtedness so created shall not at any time exceed the sum of five thousand dollars, and any indebtedness so created shall be paid out of revenues accruing to the cattle indemnity fund from taxes levied and assessed upon cattle owned and assessed upon cattle only and from fees arising from inspection of cattle and hides as hereinafter provided and not otherwise.

Sec. 2.—The said board shall have power by resolution to fix a fee or charge for the inspection of cattle and hides, which fee or charge shall be uniform throughout the territory, and shall be a lien upon cattle and hides inspected until paid. The amount of such fee or charge may be increased or diminished from time to time as the exigencies of the business of the board may require.

Sec. 3.—All inspection fees and charges shall be paid to the secretary of the said board who shall transmit the same to the territorial treasurer to be placed to the credit of the cattle indemnity fund.

Sec. 4.—Said board shall have power to sell all unclaimed cattle which may come into its possession and to make all necessary rules and regulations for the government of such sale as well as for the disposition of the proceeds thereof, but all moneys arising from the sale of unclaimed cattle shall be paid into the territorial treasury to the credit of the cattle indemnity fund, and paid out as other moneys in the said fund.

Sec. 5.—All moneys arising from the sale of unclaimed cattle remaining in the treasury for the period of twelve months shall be deemed forfeited to the said fund by the owner or owners thereof, provided, that the said board shall be required to make reasonable rules and regulations to enable the owners thereof by the use of reasonable diligence to know of the existence of such moneys to claim the same.

Sec. 6.—All acts and parts of acts in conflict with this act are hereby repealed, and this act shall take effect and be in force from and after its passage; but nothing in this act shall be construed to repeal the provisions of any existing act authorizing the levy of a special tax upon cattle for the benefit of the cattle indemnity fund.

Approved, Feb. 23, 1893.

CHAPTER LXVIII.
An act to enable the several territorial, educational and charitable institutions organized under the laws of the territory of New Mexico, to acquire title to lands by condemnation, and for other purposes.

Be it enacted by the legislative assembly of the territory of New Mexico.
Section 1.—Hereafter whenever it shall be deemed necessary by the board of

regents of the university of New Mexico and of the agricultural college and agricultural station of New Mexico, the board of trustees of the school of mines, the board of directors of the New Mexico insane asylum and the board of penitentiary commissioners to acquire title to any lands for the use of any such institution, and the owner or owners of such lands are unable or unwilling to accept a fair and reasonable price for such lands, then and in that event each of the said several boards may acquire, in the name of the territory of New Mexico, title to so much of said land or lands as shall be deemed necessary by any such board for the use of any such institution, in the same manner as now provided by law for the condemnation of land for railroad purposes, and such land so taken, shall be deemed to be taken for public use.

Sec. 2.—This act shall be in force from and after its passage.
Approved Feb. 23, 1893.

TERRITORIAL TIPS.

ALBUQUERQUE ATOMS.
Dr. Wroth will soon begin a course of lectures on "Hygiene and the Laws of Health" to the students of the normal department of the University.

The funeral of Ferdinand Silva, who died of cerebral apoplexy, at his home, in Tijeras canon, took place under the auspices of the two Italian benevolent societies.

George Ostrander has returned from the country south of Pinos Wells, where he went with a load of pumping machinery for the 371-foot well which the Spence Bros. have sunk there. He reports fine grass in that region.

"Rabbit," the Indian sergeant accused of murdering another soldier on the Navajo reservation, was found guilty in the district court of murder in the second degree. This is the second time that "Rabbit" has been convicted, the first time having been given a new trial.

Wiley Weaver and J. T. McLaughlin returned last night from visit to Sierra county, where they have been to look over some mining property. Mr. Weaver states that the mining camp is beginning to pick up, and that several large companies are making preparations to work their properties on extensive scales.

There must be something the matter with the Albuquerque Citizen. Some time since it announced in cold type that a "lady's leg went through a hole in the sidewalk nearly up to her knee and came very near breaking it." And now it proclaims that a certain "accident" had been "remedied," while with equal candor it refers to the "dead body" of a certain deceased resident.

LAS VEGAS LOCALS.
The county commissioners completed Wednesday the re-counting of the November vote, in precinct 52. No change was made in the former result.

Agustin Montoya, who died yesterday, was buried this morning. At one time the deceased was scolded by Apache Indians, and he was generally known as "Agustin el Desacaballero."

Col. G. W. Prichard will go to Los Angeles, about the first of May, to assist in the defense of Geo. H. Miles. He will be associated with W. H. Shinn, one of the most prominent criminal lawyers of California.

Rev. S. A. Dyson, formerly of Las Vegas, but now of Clayton, at which place he is an applicant for the position of postmaster, has struck it at last, and it is said to be better than "gold or argentine mines." It is only an inexhaustible supply of pure, clear, cold spring water. At a depth of ten feet Mr. Dyson encountered a complete system of submarine springs underlying his ranch adjoining that town.

All shepherds, and persons interested in the raising of sheep in the county of San Miguel, are requested to meet at St. Joseph's hall, at Las Vegas, in the county of San Miguel, on April 10th, A. D. 1893, at 10 a. m., to take such action as will conduce to the prevention of stealing, the prompt punishment of thieves and protection of the industry.

RATON RANGINGS.
Mrs. C. N. Blackwell and little daughter left last Friday on a trip to Kansas City.

W. D. Foulke and sister leave Saturday for Salt Lake City, Utah, where he will engage in business.

John Morrow, superintendent of public schools, will soon remove his residence from Folsom to Springer.

Conductor Bruce Davis, who has been suffering seriously with pneumonia, has left for the Las Vegas hospital, where he will recuperate.

Next Tuesday evening is the first annual meeting of the Raton Commercial club, when election of officers takes place for the ensuing year.

FRIDAY, MARCH 31.

ENVOY and push develop the rudest countries from savagery to civilization. Let everybody lend a hand to push the work of the Bureau of Immigration during the World's fair.

TEXAS is full of victors who want spoils. But Mr. Cleveland does not think they ought to have them; the Lone Star state rolls up too heavily a Democratic majority for any practical use.

THERE exists no good or valid reason why the Republican nominees on the city ticket should not be elected; they are in every respect far superior to the nominees of the Democratic ticket.

THIS is World's fair year, and the country will be over-run with visitors and prospective residents. It behooves every city to put the best men on guard. Vote for the Republican city ticket and have proper men to represent you as city officials.

THE executive officer of the city is the clerk; Mr. J. D. Hughes has been nominated for that office on the Republican ticket; he has made a first-class city clerk and should certainly be voted for by every man having the best interests of this city at heart.

SANTA FE may be a good many centuries old, but this alone is not sufficient; vim, push, energy and modern progress are absolutely necessary if this city would prosper and advance; 16th century methods must be discarded; hence vote the sewer bonds and let's make a commencement.

THERE more days to city election; consider the matter well and you will come to the conclusion that the best thing to do is to vote in favor of the issue of the sewer bonds and for the nominees on the Republican tickets; do so next Tuesday and you can not possibly make any mistake.

IT is reported that several railroad labor organizations in New Mexico are fighting the confirmation of Hon. A. B. Fall for associate justice of the supreme court of New Mexico; it may be that they have more power with the senate committee on judiciary than they had with the executive and the attorney general; quiet now!

THE latest killing recorded by the weather observers was April 21. It behooves horticulturists to be careful of their trees. One good method used by the north is to protect the trunks of the trees with laths woven together with wire and to keep the cold water running around their stumps even if it freezes over night. This will prevent the buds from starting during the first bright days.

EX-CHIEF JUSTICE E. V. LONG, so it is reported, has withdrawn from the race for the office of chief justice of the supreme court of New Mexico and wants to be consul general to Mexico; the New Mexican hopes the president will appoint the ex-chief justice as consul general at Mexico or some other place, it matters not where, except the farther from New Mexico the better.

THE splendid progress Mexico is making under the Diaz' administration is illustrated in the attention which is now being bestowed on educational interests. A free public school is now being established in every district in the Republic. This is the age of enlightenment and our Mexican neighbors are to be congratulated upon the substantial recognition their government is giving this fact.

GOOD LUCK TO THEM.

And so President Cleveland has decided to call congress to convene early in October next. This means that the Democratic leaders in New Mexico will have a chance to try their hand at pulling the territory in as a state. These self-same statesmen have made many promises in times past as to what they would do, and how easy it would be to obtain statehood when once their party was in power. Now they have opportunity to show "the faith that is in 'em" by their works.

We hope them all possible success, but to save us we are unable to foresee much hope for their success, simply for the reason that the next session of congress will be devoted chiefly to the making of capital for the Democratic party to be used at the congressional elections the following fall. The tariff tinkering will occupy most of the session and the silver proposition the balance. The latter will precipitate a fierce struggle in which the executive will be pitted on the side of Wall street and all of that influence will stand as a united phalanx against the admission of any more "silver states." It is therefore extremely doubtful if the Democratic leaders can make good their promises to the people of New Mexico.

SEWER BONDS.

The vital question before the citizens of Santa Fe is the proposition to vote \$250,000 worth of sewer bonds, which will "bear not to exceed 7 per cent interest" or a maximum charge of \$1.750 per year. They will, in all likelihood, however, be negotiated at not to exceed 5 per cent or \$1.250 per year. A levy of one mill on the assessed valuation of the city will produce \$1,500, leaving a balance of \$250 over the annual interest charge. The levy for the sinking fund does not begin for ten years.

The total cost of interest during the next ten years to a head of a family who is assessed for \$1,000 over and above his exemption will be \$1 per year or \$10 for the term of ten years. Those under the new law, who are exempt to the sum of \$200, but who paid taxes last year are entitled to vote on this proposition, without any burden to taxation whatever.

There is an erroneous idea afloat that these bonds are to be used to construct the sewer under the April charter granted to the A. C. Voorhees, of Raton. This is false. That charter requires Mr. Voorhees to have constructed 5,000 feet of sewer by the first day of June 1893; and it is now almost impossible to comply with its terms; but in any case these bonds will only go to pay for sewers absolutely owned and controlled by the city of Santa Fe.

The final aspect of the case is that Santa Fe is naturally the healthiest town site in the United States, and the proof of that is the low death rate even under its present bad and filthy sanitation. The building of our water works, and the completion of the irrigation reservoirs on the Arroyo Hondo will induce a tremendous immigration to Santa Fe. If our sewers are not built we will lose hundreds of desirable residents, who would spend thousands of dollars for buildings and put money in the pockets of Santa Feans. No city, the size of this, is so backward in this necessary improvement. Above are the cold facts. Remember this is not a political question any more than is the care and beautification of the plaza.

It means whether or not the better health of the children and aged shall be fostered, whether our beautiful city shall be made worthy of its history, and whether Las Vegas and Albuquerque, younger sisters of Santa Fe, shall outdo her in the march of progress. This is a question of civic patriotism, aside from any politics whatever. Let every man do his duty.

PRESS COMMENTS.

A Difference in Men and Methods.

Ex-Congressman Blount has gone to Hawaii charged with an important commission from the government. It is understood that he will investigate the situation of the Hawaiian Islands, and the result of his observations to the president. He will be absent at least three months. That is not considered too much time to devote to a matter which Secretary Foster and Mr. Harrison were ready to work through the senate in many weeks.—Kansas City Star.

The Trans-Mississippi Congress.

The Trans-Mississippi congress that is to assemble at Ogden on the 24th of next month is the subject of much interest in the west. There is no doubt that it will be attended by a full representation of official delegates from all the states and territories between the Mississippi and the Pacific, and it is probable that a large attendance of other citizens will be had. The congress will decide upon a western policy and a western measure that may be supported in and out of congress with the full weight of the states on this side of the Mississippi. In union there is strength, and anything that this combination is united in demanding can be had.—San Francisco Examiner.

Schools in Mexico.

The multiplication of free schools in Mexico and the enforcement of the compulsory educational system in that country is a matter of particular interest to America. The progressive policy inaugurated in the southern republic by President Diaz will aid materially in fitting Mexico for the close commercial relations which it must ultimately sustain toward the United States. Every school house which is built in Mexico promotes the success of self-government there, and "seeds the chances of revolution and political disorder." The more nearly that country

Senator Voorhees' Inning.

Senator Daniel W. Voorhees, of Indiana, is at last having his inning. He was out in the cold during President Cleveland's former administration and figured less in national politics than he did when Republicans were in the White house. "The Tall Sycamore of the Wabash" went to St. Louis four years ago the bitter opponent of Cleveland, and he again opposed him for the nomination last summer, pinning his faith to ex-Gov. Gray on both these occasions. He was never classed among the Cleveland men in Indiana, and he had no reason to look for much consideration from the president until the reorganization of the United States senate secured the chairmanship of the committee on finance. In politics a club is often better than a sugar bag, and Senator Voorhees now has the club. Mr. Cleveland is very much afraid of a free-wheeling politician who is "riding the rails," but he is allowing Senator Voorhees to have whatever he wants for his friends in the way of patronage. The Cleveland men are not in it with Voorhees in Indiana.—Chicago Inter-Ocean.

Pointers for World's Fair.

Foot-prints on the sands of time this year will be turned toward Chicago, where the great Columbian exposition is to be held. While walking may begood, the majority of people will prefer riding in a solid Santa Fe route vestibuled train. Perhaps you do not know that the Santa Fe route has the shortest line between Kansas City and Chicago, by 36 miles; that absence of grade crossings lessens the number of compulsory stops; and that three trains each way each day afford ample room for all travelers.

Something New!

Tourist sleeping car. Chicago to Boston via Washburn and Canadian Pacific Rys. The Washburn railroad, in connection with the Canadian Pacific, has inaugurated a new line of tourist sleeping cars between Chicago and Boston via Detroit and Montreal.

Leaving Chicago every Thursday on the fast express at 3 p. m. these sleepers run through to Boston via the Washburn to Detroit, Canadian Pacific to Newport via Montreal, and the ree to Boston via the Boston & Maine and Concord & Montreal railroads.

Following is a schedule of the rates per berth from Chicago: To Detroit, 50 cents; to London, 75 cents; to Galt, 75 cents; to Toronto, \$1; to Peterboro, \$1; to Smith's Falls, \$1; to Montreal, \$1.25; to Wells River, \$1.50; to Boston, \$1.50.

Returning, these cars leave Boston every Tuesday at 9 a. m., arriving in Chicago at 10:15 p. m. the following day. They are upholstered, some in leather and others in canvas; they are fitted with mattresses, pillows, blankets, sheets, pillow slips, curtains, carpet, tables, cooking range, etc., and will be in charge of a competent porter, who will make up the berth, keep the car neat and clean and attend to the comfort of the passengers. These cars are patronized by the very nicest people.

Reservations in advance will be cheerfully made upon request. For further information apply to your nearest ticket agent.

Arbor Day Proclamation.

To the people of Rio Arriba county: In pursuance to the provisions of the session laws of 1891, and the suggestions of his excellency, the governor of New Mexico, Hon. L. Bradford Prince, through his proclamation, I hereby designate and give notice that the 10th day of April, A. D. 1893, be observed as Arbor day in this county, and beg leave to suggest to our people to follow the example of other counties by planting forest trees, especially along the public acqueducts, and thus beautify our county so that future generations may reap the benefit of our industry and foresight. I earnestly request school teachers to see that their pupils observe Arbor day properly. Given at my office this 25th day of March, A. D. 1893, at Velarde, N. M.

By the Tracheous Men.
They met and loved in the usual way
By the shores of the summer sea.
She a banker's daughter—twas her own
tale.
While a merchant partner was he.
And never, each vowed, had a flame like
theirs
Sprung up in the human heart.
While the door of joy's future seemed
hung with grape
When the time came on to part.
Behind the counter she proudly stood
And her eyes took a stony stare,
And he asked to be shown some woolen
socks
At a quarter or so a pair.
Forgetful how tender men's bosoms are,
Her pride said: "Ignore him!" She
does!
She cut him as dead as a coffin nail,
And he didn't know who she was.

Birds of Passage.
Between this and the other side of the
broad Atlantic, in the shape of tourists,
commercial travelers and mariners, agents
"on the road," steamboat captains, ship's
surgeons and "all sorts and conditions"
of travelers, emigrant and new settlers
appreciate and testify to the preventive
and remedial properties of Hostetter's
Stomach Bitters in sea sickness, nausea,
malaria and rheumatic trouble, and all
disorders of the stomach, liver and bowels.
Against the prejudicial influences
of climate, crudely cooked or unaccus-
tomed diet and impure water, it is a
sovereign safeguard, and has been so
regarded by the traveling public for over
a third of a century. No form of malarial
fever, from the malarial of the Pacific and
the broken bone fever of the Mississippi,
to its milder types, can resist the curative
action of this benign preserver and
restorer of health. A veritable boon to
persons in feeble health or liable to incur
disease.

Was Hardly Necessary.
Say, old man, come over and blow in
this lung tester.
What for?
Why, to test your lungs.
Test be hanged! I play a bass horn in a
campaign band!

Cholera in Pennsylvania.
Swickley, Penn.: We had an epidemic
of cholera, as our physicians called it, in
this place lately and I made a great
hit with Chamberlain's Colic, Cholera and
Diarrhoea Remedy. I sold four dozen
bottles of it in one week and have since
sold nearly a gross. This Remedy did
the work and was a big advertisement for
me. Several persons who were badly
troubled with diarrhoea for two or three
weeks were cured by a few doses of this
medicine.

Joseph V. Dory, of Warsaw, Ill., was
troubled with rheumatism and tried a
number of different remedies, but says
none of them seemed to do him any good,
but finally he got hold of one that speedily

afflicted would like to know that the
remedy was like to cure him. He states
for the benefit of the public that it is

Irretrievably Ruined.
In vain the approach of spring we await;
Snow and ice still around us we see,
And we shudder to think of the terrible

The Noble Art of Self Defense. Set
forth by an Authority.
Self defense instinctive. Persons who
find themselves afflicted with heart dis-
ease as manifested by its many sym-
ptoms, palpitation short breath, irregu-
lar pulse, pain in side or shoulder, trem-
bling, fainting or dropsy, etc., naturally
desire a defense against what may termi-
nate fatally. For the express purpose
no remedy has ever been approached. Dr.
Miles' New Heart Cure, sold by A. C. Ire-
land, Jr., on a guarantee. Mrs. O. F. Per-
kins, of Northwood, Ia., says: Dr. Miles'
New Heart Cure, saved her life. She suf-
fered from palpitation and beating heart
frequently beat as high as 125 a minute.
Was not expected to live. Was a mere
skeleton, no relief from physicians.
New Heart Cure cured her.

Power of Beauty.
"Your cook is a very handsome girl."
"She is. She mashes the potatoes by
simply smiling at them."

Helping Her Out.
It was in a mission Sunday school where
the teachers were young and pretty girls
from the Back Bay, and the pupils little
children from the tenements. It was the
last day before the summer vacation,
and the teacher was distributing the mite
boxes. She noticed that one small child
looked very much dejected, and she bent
down to hear the objection, which she felt
was, there, to the mite box. The little
one is that they had just filled one mite
box.
"I know," said the teacher; "but see,
this is a new one for the vacation. See
what a pretty one it is, and I want to see
who will save the most pennies for the poor
little Leathan that do not have any Sunday
school."
The little one did not look encouraged.
She held the box away from her with evi-
dent dislike, and finally with tears in her
eyes confessed.

ley, is getting a divorce, and I promised to
