the finishing touches on another tragedy  
by securing a shot gun and firing upon  
Garcia. The weapon was loaded with  
lead slugs, and seven of them tore a ter-  
rible hole in Garcia's left shoulder. Gon-  
zales at first defied arrest, but in response  
to a telegram to Sheriff Conklin Constable  
Patricio Valencia was sent down and soon  
captured Gonzales. The latter is now in

Correspondence, New Mexican.

Taos, N. M., April 2.—Word comes from  
the Taos country which confirms what  
has already been published in the  
New Mexican lately regarding the  
fine mineral bodies of the Arroyo  
Hondo section and the Taos spur  
of the Sangre de Cristo range. A pros-  
pector, whose name was not given, has  
struck a gold lead to the north of the Ar-  
royo Hondo district which is regarded as  
the best thing yet uncovered in that sec-  
tion. It is a true spar ledge, nine feet in  
width, with a pay streak of thirteen  
inches carrying gold, silver and copper.  
Three assays, averaging \$90, have been  
made of ore taken from within ten feet  
of the surface. This magnificent prop-  
erty lies in a section totally unprospected  
until now, and is creating a stir in the  
camp. Parties are being formed to  
thoroughly prospect the surrounding  
country, which will be the nucleus of a  
new district in a few days.**TAOS TALK.**A daily mail will soon be in operation  
from Tres Piedras to Amizett.Geo. Berry, sr., has taken the contract

will step out in a few days to give place

master. Most of the people here will be  
sorry to see Mr. Lucero go out, as he has  
made a very satisfactory official.Don Juan Santistevan is in Santa Fe

NEW MEXICAN PRINTING CO.,  
Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south.

WEDNESDAY, APRIL 5.

Ex-Chief Justice E. V. Lugo, of Las Vegas, is still in Washington a candidate for anything that may turn up.

Too much crime in New Mexico, gentlemen; the grand juries should look more closely after persons charged with crime.

"De Oano" was not in it yesterday; it is to be hoped for the good of the people and of the tax payers that "de gang" will never again be in it in the county and city of Santa Fe.

City election is over and the gay and festive Democratic politician, who spins not neither does he toil, will be able to turn his fullest attention to the federal offices in New Mexico.

The Massachusetts Democrats and Mugwumps can talk more reform and gobble up more offices than any other similar number of politicians in the country; they are built that way.

The New Mexican suggests to the president to flip a coin as to what faction in Kansas he will recognize; he cannot do right by the recognition of either and the decree of wrong is immaterial.

Some of our esteemed friends, the Democratic office-seekers, are wending their way homeward, sadder if not wiser men. They prefer being "far from the madding crowd" just now and for some time to come.

The municipal election in this city passed off very quietly and good naturedly; that's the case wherever the Republicans have control; they believe in a full and fair expression of the voice of the people and act accordingly.

Mexico has again opened her ports to the free entry of flour, corn and beans. What a harvest the Pecos road will reap from the Mexican traffic and what a boom New Mexico and Colorado will enjoy when they have additional freight routes.

NORTHWESTERN New Mexico is moving ahead in goodly shape. Taos, Rio Arriba and San Juan counties are among the very best and most fertile sections of this territory and will take their rightful place as prosperous municipalities very soon.

The Republican fourth class postmasters in New Mexico need not rush in their resignations; Delegate Joseph and fourth assistant postmaster general Maxwell will see that they will go in due course of time. As to their being efficient, honest and competent, that matters not.

SENATOR ELLIOTT proclaims, that he will ask nothing of the present administration; if the senior senator from New York can stand this, it is certainly very reasonable to suppose that the administration can also stand it. The country will wait with bated breath the outcome of the senator's Spartan resolution.

THERE being no legitimate reason for the removal of tried and good officials, no reasons at all are given; this is much the best; there is no use in being hypocritical about the business; the president has the power to remove; let him exercise it at his discretion, but let him and his cabinet be honest about it. The victors want the offices, they have the power in their hands.

## LET'S HAVE THE FACTS.

The time is growing short for completing the work of gathering exhibits from New Mexico for the World's fair. In other states and territories of the west we note the newspapers are teeming with facts relating to the condition of the work, but in New Mexico little or nothing is being said. How is it that such is the case? Is it possible that the press of this territory is not awake to the importance of this subject, or does the fault lie

with the people, or is it elsewhere? Let the people wake up to the importance of this subject.

## THE CITY ELECTION.

The city of Santa Fe on yesterday elected a Republican city administration, three out of four councilmen and four out of six members of the board of education; this will prove of benefit to this city; it means that the tax payers and property owners have no use for the old Democratic gang that ran the Democratic city convention and put up a ticket composed of anything but good men, with but two exceptions. The New Mexican did its full share toward the attainment of this beneficial result and was found in this city campaign, as it will be found always, on the side of good government, good nominees and honesty and economy in city affairs.

The New Mexican bespeaks for the coming year an honest and efficient, economical and progressive administration for the city of Santa Fe.

## THE EXTRA SESSION.

Some leading newspapers venture to doubt the sincerity of Mr. Cleveland's announcement of the September session of congress. When the president announced during the first week after his inauguration that he thought by December congress would be forced by a money panic to repeal the silver purchase act, he reckoned without the western banks. When the gold of the west poured into the treasury for greenbacks Mr. Cleveland's eyes opened wide to two things, that the Brussels conference should be recommended and that congress should be convened to consider the tariff. His policy now seems to be to play off the tariff against silver as Greek against Greek. The southern protectionist and free silver man will find himself between two fires.

But why should Mr. Cleveland be insincere in performing his party promises. The vote of the country was against McKinleyism. The president should do his best to carry out the Democratic platform.

## THE GREAT WEST AGAIN.

The New York financial press is gradually coming to the conclusion that there is a whole lot of money and brains and big country out west that Wall street doesn't represent. It is absolutely pitiful to read between the lines of some of the financial articles that appear in the Evening Post and other Wall street organs about this time. Within the past week it has been discovered in New York that Chicago banks hold more gold than those of that city, and while the New Yorkers are evidently very sorry about it, they take advantage of the situation to apologize for not helping out the U. S. treasury in the matter of increasing its gold reserve. In a word they throw up their hands to the great west. The facts show that within a year New York has lost nearly \$25,000,000 in specie—sent it off to Europe to try and influence legislation against the silver purchase act—while in Chicago and other western centers a very different state of affairs exists. Chicago's twenty-three banks hold a gold reserve of 70 per cent, while New York's forty-eight banks have a gold reserve of 60 per cent.

## AMBASSADORS.

Thomas F. Bayard, duke of Delaware, has been accredited to the court of St. James as an "ambassador." According to the diplomat, La Bruyere "he is to cheat without being cheated," and Sir Henry Wotton styles an ambassador "a person sent abroad to lie for the good of his country." Seriously speaking our representative in England is equal, seniority of residence excepted, with the ambassador of the duke of Hainault or the prince of Gerolstein.

To be a Roman was greater than to be a king; but the American has shrouded all his sovereign citizenship. An ambassador among other privileges is entitled to appear covered in the presence of royalty. If Mr. Bayard should choose to exercise his privilege he will cut a pretty figure in his high silk hat at a court reception. The Encyclopedia Britannica says: "The theory indeed of the ambassador's rank and privilege is that he represents not the state or the people from whom he comes but the king and the disposition has been shown to deny at least the higher privileges of ambassador to republics," and goes on to say that the ambassadorial immunities come from the fictitious royalty of his person.

The dignity that was sufficient for Franklin, Jay, Jefferson, Madison, and Monroe is too poor for the representative of the United States to-day. This is a great move for the administration of simplicity and reform.

The plea that ambassadors of petty princes take precedence of our envoys is laughable. The rule in every foreign office is, first come first served.

## EX-CLERK BUNKER'S SHORTAGE.

The New Mexican is informed that W. B. Bunker, ex-clerk of the 4th judicial district court, under ex-Chief Justice Long, is about \$1,500 short with the territory for fees collected as such clerk.

## For Bronchitis

"I never realized the good of a medicine so much as I have in the last few months, during which time I have suffered intensely from pneumonia, followed by bronchitis. After trying various remedies without benefit, I began the use of Ayer's Cherry Pectoral, and the effect has been marvelous, a single dose relieving me of coughing, and securing a good night's rest."—T. A. Higginbotham, Gen. Store, Longmont, Colo.

## La Grippe

"Last spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breath seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid."—W. H. Williams, Cook City, S. Dak.

## Lung Trouble

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing, a severe attack causing hemorrhages, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured. I can confidently recommend this medicine."—Frank H. Mann, Clay Center, Neb.

**AYER'S Cherry Pectoral**  
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.  
Sold by all Druggists. Beware of cheap imitations.  
Prompt to act, sure to cure.

The matter has been reported to Solicitor General Bartlett, and he is now engaged in examining the facts of the case preparatory to bringing suit for the recovery of the amount. A criminal prosecution may also be instituted. Bunker, however, claims that this amount is offset to some extent, by fees due him. The shortage occurred during the last year he was in office; and was discovered in a recent examination of the books.

In this connection the New Mexican publishes for the information of the public, section 5, chapter 63, Session Laws of 1893, bearing upon the duty of clerks to collect fees and turn them over to the territorial treasurer:

"The clerk of each of the several district courts shall collect all fees now allowed by section 1 of this act and authorized to be charged and collected by said clerk for services in his official capacity and at the end of each quarter pay the same over to the territorial treasurer, taking his receipt in duplicate therefor, and at the same time file with the territorial auditor a statement, under oath, of the amount of fees collected by him in his office for official services during said quarter, giving the number and style of the case in which fees have been received, or the object for which any other fees have been received, together with the date of the receipt thereof and also the treasurer's receipt therefor; and a failure of the clerk to pay over the fees collected, or to make the sworn statement or to file the treasurer's receipt as required by this section shall constitute a misdemeanor, and upon conviction thereof the clerk shall be fined in the sum of \$1,000. The treasurer shall keep a special account of all moneys paid him by virtue of this section and shall credit the same to the salary fund."

## Pointers for World's Fair.

Foot-prints on the sands of time this year will be turned toward Chicago, where the great Columbian exposition is to be held.

While walking may begood, themajority of people will prefer riding in a solid Santa Fe route vestibuled train.

Perhaps you don't know that the Santa Fe route has the shortest line between Kansas City and Chicago, by 26 miles; that absence of grade crossings lessens the number of compulsory stops; and that three trains each way each day afford ample room for all travelers.

Luxurious palace sleepers, and free chair cars; better than the best of other lines.

Drop in and talk it over with nearest Santa Fe route agent, or address, Geo. T. Nicholson, G. P. & T. A., Topeka, Kansas.

## THORNTON WINS.

Santa Fe's Ex-Mayor Named by the President To-day as Gov.

Special to the New Mexican.  
WASHINGTON, April 5.—The president to-day sent to the senate the name Wm. T. Thornton, of Santa Fe, to be governor of New Mexico, vice L. B. Prince, term expired.

The above came to hand this afternoon and may be relied on as correct. It means simply, that the gallant fight that Judge Thornton made against great odds in the start has proven successful and that despite Delegate Joseph's endeavor to defeat him, the report of the letter's appointment a few days ago, the ex-mayor of Santa Fe has won a signal victory.

Gov. Thornton's appointment will be an agreeable surprise to his friends all over the territory, and particularly here in Santa Fe, which has been his home for twelve years or more.

**POLITICAL DOTS.**  
Mrs. W. T. Thornton received a telegram from Judge Thornton, at Washington, this afternoon, stating that his appointment as governor had been sent to the senate.

Gov. and Mrs. Prince were informed at noon of the appointment of Hon. W. T. Thornton as governor and congratulated Mrs. Thornton upon it at 1 o'clock, the information coming from Washington at noon and was received by the governor at the time the New Mexican received its special.

It is reported in Las Vegas, that E. V. Long is working for appointment as consul general to Mexico, and that Secretary Gresham favors the appointment. As far as the people of New Mexico are concerned, that's all right, as long as he receives no appointment in this territory.

From Las Vegas comes the report that Hon. Felix Martinez and other New Mexicans in Washington were working against the appointment of Capt. Eads as governor and that the wires between Washington and Las Vegas were doing a good business in the protest line against Capt. Eads.

There is a suspicion abroad out west that Senator Vest, of Missouri, can't swing all the appointments out this way, even if he is a member of the senate finance committee. Last week he told the president that he wanted Capt. Eads named for governor if he got nothing else. But the anti-residence protests did the business.

Here's a hummer! It appears in the Western Associated press report under date of Albuquerque, April 3: "Democratic county central committee, members of the Democratic territorial central committee, Albuquerque Commercial club, and prominent business men, irrespective of party, are telegraphing protests to Washington against the appointment of William M. Eads, of Missouri, for the position of governor of New Mexico, mainly on the ground of being a non-resident. They strongly endorse Col. J. G. Albright, of this city, as not only the choice of his party, but of the whole people, and who, here in Albuquerque, where he is best known and his services to the public most appreciated, has the earnest and cordial support of men of all parties and all shades of political belief. Col. Albright has owned and edited the leading Democratic daily of the territory for the past twelve years, which has been a power in New Mexico politics. In contrast to this it is set up last Capt. Eads has never been thoroughly identified with the Democracy of New Mexico and has never spent a dollar for the party."

**ROUND ABOUT TOWN.**  
Now let's have the streets sprinkled. Lewis' creamery butter, 32 and 35 cents, at S. S. Beatty's.

Joseph's saloon has just received 20,000 fine cigars.

Work is progressing rapidly at the water works reservoir.

The new city administration must see to sprinkling the streets; this is absolutely necessary.

The New Mexico Bureau of Immigration went into session at the governor's office at 2 o'clock this afternoon.

Street crossings must be laid from Washington and Lincoln avenues to the federal building. The sooner they are laid, the better.

**ONE MASS OF SCALES**  
Afflicted 3 Years by Dreadful Skin and Blood Disease, with Intense Pain and Loss of Hair.

All Other Remedies Fail. Relieved Instantly and Cured in Four Weeks by the Cuticura Remedies.

I have a few words to say regarding the Cuticura Remedies. They have cured me in my case of time from a skin and blood disease which I have had for over three years. At certain times, my skin would be very sore, and always itching and peeling off in white scales. In cold weather, the itching was more intense, and in the cold air the pain was intense; it would almost bring tears to my eyes, and my blood also being in a poor condition, with a loss of hair, I have tried every known remedy that was recommended to me, but it was of no use, and gave me very little benefit. So, hearing of your Cuticura Remedies, I concluded to give them a trial. In a few weeks' time I found myself cured, and I am thankful for what they have done for me. Your Cuticura Remedies are a blessing to those who may have the opportunity to use them. I can recommend them to any one.

## A GREAT SCOOP.

The Republicans Carry Three of the City Wards by Safe Majorities—A Discovery Relative to the Sewer Bonds.

The city election yesterday resulted in the election of the Republican ticket save in ward No. 1, where the Democratic candidate for alderman and the school directors secured majorities of from three to seven votes.

R. E. Twitcheil, for mayor, defeated J. H. Sloan by 55 votes; J. D. Hughes, for clerk, received 93 votes over Adolfo Hill, and N. Mondragon's majority over W. L. Jones, for treasurer, is 27.

Ward No. 1.—For mayor there were 286 votes cast, out of a registration of 326, and Sloan's majority was 10. The vote on city clerk was a tie; W. L. Jones's majority was 8. The Democrats elected their ward nominees as follows: For councilman, J. W. Schofield, majority 3; for school directors, C. Hall, 7; L. Constantine 5. There were 46 votes on the sewer bond proposition, 39 of which were against it.

Ward No. 2.—Out of a registration of 309 there were cast 267 votes. Twitcheil's majority being 15. This is Hill's ward and his majority over Hughes is 5. Mondragon's majority 12. The Republican ward nominees defeated the Democrats thus: For Councilman Antonio Ortiz y Salazar's majority over C. M. Creamer, 51; Councilman E. L. Bartlett defeated J. B. Lamy by 40 votes, while Chas. A. Spies' majority for school director, beat Felipe Ortiz by 32 votes and J. R. Hudson, for school director defeated Luciano Baca by 36 votes. There were 39 votes against and 8 for the bond.

Ward No. 3.—Of the 303 votes registered 232 were cast and the Republican majorities are: Twitcheil, 25; Hughes, 48; Mondragon 7. For Councilman J. W. Conway's majority over M. J. McCabe by 28 votes; Jas. Conklin, for school director, defeated J. C. Hall by 5 votes. Thirty-two votes were cast on the bond proposition which resulted in a majority of 4 against it.

Ward No. 4.—Out of a total registration of 314, the vote was 212 and the Republican ticket got these majorities: Twitcheil 20; Hughes 60; Mondragon 16. For councilman E. L. Bartlett defeated J. B. Lamy by 40 votes, while Chas. A. Spies' majority for school director, beat Felipe Ortiz by 32 votes and J. R. Hudson, for school director defeated Luciano Baca by 36 votes. There were 34 votes on the bond issue, 21 of which were in favor of the issue.

The city council now stands six Republicans and two Democrats as follows: Councilmen, Pelen, Romero, Canon, Republican, and Juan Delgado, Democrat, who hold over, and the newly elected, councilmen Bartlett, Antonio Ortiz y Salazar, Conway, Republicans, and J. W. Schofield, Democrat.

As to the proposition to issue \$25,000 in city sewer bonds, it is probable just as well, in the light of recent discoveries, that it was defeated, for had it carried there would have been a fatal defect in them which would have stopped the yesterday morning and occurs from the fact that the provisions of a new law had not been complied with. The new act is chapter 46 of the laws of 1893, and provides that "no bonds shall be issued in excess of the amount necessary to cover the actual cost and expense of such services as may be required by the engineer or by the engineer or other officers submitting plans and specifications therefor, which plans and specifications have been approved by any such council or board."

Since the city engineer had not submitted estimates and made oath and the council had not approved the plans and specifications, the bonds, if voted, would have been worthless.

**CITY CAMPAIGNING.**  
There were 1,806 votes registered and 1,076 cast.

Now for that street sprinkling service, Messrs. Councilmen.

Councilman Conway says he had the other fellows beaten before 2 p.m. Dublin's a daisy.

Hon. R. E. Twitcheil was elected mayor by a handsome majority. He will fill the office satisfactorily.

The New Mexican did excellent and successful work in the city campaign. "You bet yer life."

ABSOLUTELY PURE

The competency and energy of Mr. James D. Hughes as city clerk were fully recognized yesterday by the voters; he leads the ticket.

Twenty straight Democratic votes went in against C. M. Creamer in the second ward—another indication of Democratic harmony.

Messrs. Bartlett, Ortiz y Salazar and Conway ought to be well satisfied with their votes in their respective wards. They did themselves proud.

Mr. Narciso Mondragon held his own very well in yesterday's election. The personal popularity of Mr. Jones, Democratic candidate for treasurer, put the latter ahead of the Democratic ticket.

City Clerk Hughes third term. His majority has grown with each succeeding victory which proves that the people of Santa Fe are always willing to reward a man who serves them faithfully.

As the New Mexican said, Hipolito Vigil was the strongest Republican who had been nominated in the first ward; that usually strong Democratic ward gave only three votes majority for his opponent.

J. W. Schofield did well in the last ward considering everything; he was elected by a small majority, and this shows that he stands better with his party than any other nominee on the Democratic city or ward ticket. He certainly should be well satisfied.

Advices from Albuquerque say that the entire Democratic ticket was elected yesterday save C. C. Hall, for school director. N. B. Field was the Democratic candidate for mayor, and he went in on a platform opposed to the viaduct scheme and demanding a better water service.

J. R. Hudson, Chas. A. Spies, Canuto Alarid and James Conklin did well as candidates for the board of education. In the Democratic 1st ward Messrs. Moya and Tenorio were defeated by insignificant majorities. The next election with proper work and good nominations will see that ward with Republican majorities.

**The Depository Bond.**  
Governor Prince, Treasurer Pelen and Auditor Perez met yesterday afternoon as a board for the examination of the bond furnished by the Albuquerque National bank for the safe keeping of the territorial funds. The standing of a surety on the bond, which is for \$300,000, was examined by the board. A resolution was passed referring the instrument to the auditor general for his opinion as to its form and then to the auditor in investigation into the financial standing and ability of the several bondsmen on the instrument. The board then adjourned to meet at the call of the governor.
