:-BRIEF WIRINGS:-

Walbrook Versus Tachigora.
New York, April 8.—Walbrook, the
great German chess player, concludes his
American tour at the Manhattan Chess
club to-day and starts at once for St.
Petersburg, where he will play.

The Gulon Line.
LIVERPOOL, April 8.—The Gulon line
will resume its regular steamship trips
between Liverpool, Queenstown and New
York, commencing to-day, returning
from New York on April 22, to be fol-
lowed by the Nevada and Alaska in
regular weekly intervals.

Gold Cure as a Penalty.
LAMAR, April 8.—Lamar has adopted
the gold treatment in the police court.
For the second offense of drunkenness
Mayor Alline gives the prisoner his choice
of ten days on the street with ball and
chain or a course of treatment. The first
subject took his dose of bichloride yester-
day.

Recommends Impeachment.
GALVESTON, April 8.—A News spe-
cial from Austin says that the special
legislative committee in charge has pre-
ferred charges against Land Commis-
sioner Gaughy. The report earnestly re-
commends his impeachment on twelve
counts of violation of the constitution
and statutes.

Their Sailing Dates Fixed.
New York, April 8.—The dates for the
departure of the two new steamers, Cam-
pania and Lucania, have been fixed by the
Cunard line. The first named will prob-
ably leave Liverpool to-day, followed by
the Lucania May 20. They will leave
New York on the first eastward trip April
22 and June 3, respectively.

Chicago's Water Supply.
CHICAGO, April 8.—There is no prospect
of any supply of pure lake water at the
World's Fair grounds before the middle
of June. City Engineer Geraldine and
his chief assistant, Mr. Friend, figured to-
day on the completion of the new tunnel
at 68th street, and figured June 15th as
the earliest possible date for the comple-
tion. Visitors must patronize the water
company whose pipes are in the ground.

Ex-President Harrison Nominated.
CINCINNATI, O., April 8.—At a meeting
of the Ohio Commandery of the Military
Order of the Loyal Legion the nomi-
nations were made for officers of the
ensuing year, to be voted for in May. Ex-
President Harrison was named as a
candidate for commander. General
Harrison became a member of the Ohio
commandery before the Indiana com-
mandery was established and has never
transferred his membership.

Paderewski Plays for Charity.
New York, April 8.—Mr. Paderewski,
the world-famous pianist, having decided
upon giving a performance here in fur-
therance of charitable purposes, will give
one recital at Music Hall this afternoon,
when the entire net receipts will be di-
vided among the following New York
charities: The Sunny Side Day Nursery,
The United Relief Works of the Society
for Ethical Culture, St. John's Guild,
and others. The Lotos club gives a din-
ner to Paderewski this evening.

A Notable Anniversary.
New York, April 8.—The New York
Historical society has arranged for the
celebration to-day of the 20th anni-
versary of the establishment of a printing
press in the New York colony by Wil-
liam Bradford, the exact date of which
was April 10, 1683. On the same occasion
the founding of the first newspaper, the
New York Gazette, October 25, 1725, will
also be commemorated. The paper was
printed on the site of the present Cotton
Exchange, and it is in the main room of
the Exchange that the celebration will
take place to-day.

Distinguished Spaniards Coming.
LONDON, April 8.—The Duke of Veragu-
as, the lineal descendant of Columbus
and his suite, who left Madrid for New
York on April 2, will sail from South-
ampton to-day. All will stop in New
York to witness the naval review, before
they proceed to Chicago. The Infanta
Eulalia, who is to represent the Queen
Regent, will not be present at the naval
review nor at the opening of the ex-
position, as the advisers of the crown feel
that both in New York and Chicago at the
time in question the great crowds would
render impossible a proper reception of
a member of the royal family. The In-
fanta Eulalia will sail for Cuba, at the
earliest toward the end of April, and will
proceed thence to New York late in May.
The duke will be the guest of the nation
while in America.

The Rhode Island Election.
PROVIDENCE, R. I., April 8.—The elec-
tion returns show that there is no elec-
tion of the state ticket by the people.
Baker, Democratic candidate for gov-
ernor, has a small plurality, and Bennett,
Republican candidate for secretary of
state, and Clark, Republican candidate
for general treasurer, also have slight
pluralities. For congressmen, Page and
Bryant are elected by about 500 plu-
rality each. The complexion of the gen-
eral assembly, which will elect general
officers, is still doubtful. Present returns
show it made up by the general committee
to be: Republicans, 40; Democrats, 37;
doubtful, 81.
No assemblies were chosen in this
city and possibly only one in Pawtucket,
but the returns from this city are not yet
complete.

THE SITUATION.

**How the New Mexicans Are Battling
for the spoils—A. B. Fall's nomi-
nation Hung Up.**

A special dispatch from Washington to
the Denver Republican under date of
Wednesday gives a right readable review
of the situation there touching New Mex-
ico affairs. It reads:
The nomination of William T. Thor-
nton to be governor of the territory of
New Mexico, in opposition to the wishes
of Delegates Joseph and National Com-
mitteeman Ferguson, was a clean victory
for home rule, and for Mr. J. H. Crist,
who made the strongest fight in Mr.
Thornton's behalf, and shows, too, that
Mr. Cleveland is disposed to appoint citi-
zens of a territory to the office, even if
there is a difference of opinion as to whom
the appointment should be given.
The New Mexico colony here were some-
what startled by receiving information
that by request of the president the nomi-
nation of A. B. Fall as a justice of the
territorial supreme court was not acted
upon by the senate judiciary committee.

PROTESTS SENT IN.
It appears that as soon as Fall's candi-
dacy became known a number of letters
were sent from New Mexico protesting
against his nomination, but they were not
received until after the nomination had
been sent in. Hence the president's re-
quest that it be held up. He, however,
told Mr. Joseph Wednesday afternoon
that if no further charges were filed he
would not withdraw the nomination. The
character of the charges was not stated,
but it is believed they accuse Mr. Fall of
such extreme partisanship as to totally
unfit him for a judicial position.

THE MARSHALSHIP.
The question of who shall be recom-
mended for secretary of the territory is
undecided. The marshalship, however,
will likely fall to Felix Martinez, of Las
Vegas, if he will accept, of which there is
some doubt. Delegates Joseph, National
Committeeman Ferguson and Chairman
Crist have agreed on Mr. Martinez, and
will urge his nomination, and in case of
his refusal to accept it is quite probable
that he will be permitted to name the
man.

THE SUPREME BENCH.
Messrs. Joseph, Ferguson and Crist
have also agreed to recommend the ap-
pointment of John Y. Hewitt of White
Oaks, N. B. Laughlin of Santa Fe, N. C.
Collier of Albuquerque for justices of
the supreme bench. The chief justice
is still in abeyance. It is understood
that charges against some of the present
justices are being prepared, and will be
filed with the attorney general. Incom-
petency and offense against public morals
will be alleged as sufficient grounds for re-
movals.

THE COLLECTORSHIP.
There is a strong contest being waged
over the collectorship of internal revenue.
There are several candidates from New
Mexico and but one from Arizona, which
form the collection district. The New
Mexican candidates are B. Seligman of
Santa Fe, J. W. Schofield of Santa Fe, D.
D. Harkness of Corralitos, Lorion Miller
of Albuquerque, A. G. Stalacher, of
Raton, M. S. Hart of Las Vegas, W. T.
McCreight of Albuquerque, and C. M.
Shannon of Clinton, Arizona. Inasmuch
as New Mexico has had the collectorship
for a number of terms, it is quite gener-
ally conceded that Shannon will get the
place.

I Would Be Dead

But For Hood's Sarsaparilla

**A Wonderful Cure—Restored to
Good Health**

"Last winter I was in a very bad condition,
my general health all run down. I grew thin,
had no appetite, could not sleep more than five
minutes at a time, and when I woke up I would
have pains in my bowels. In the morning when
I arose I would seem more tired than when I
went to bed. I had a thumping sensation in
the region of my heart. I cannot tell
How Miserable I Felt.
I was obliged to give up work entirely. My
friends advised me to take Hood's Sarsaparilla
and I did so. I am now using the sixth bottle,
and can say that it has worked upon me a
wonderful cure. I have grown quite strong,
am capable to work, sleep well and have a
good appetite, with no more
Palpitation of the Heart.
I am happier now and in better health than I
have been for years. I firmly believe that if it
had not been for Hood's Sarsaparilla I would be
dead to-day. It may not be worth mentioning,
but before taking Hood's Sarsaparilla I had
paid two physicians sixty dollars for medicine,
and Hood's Sarsaparilla gave me a new lease of
life for free." W. MARSHALL, Commercial

CITY OFFICIALS.
A petition is being unanimously signed requesting the appointment of Chas. A. Spiess as city attorney.

From talks with the newly elected officials it is evident that there is to be an improved garbage cart, water and fire fighting service.

The newly elected city officials secured their certificates last evening. The first meeting of the new council will be held on Monday night next.

Las Vegas and Eaton will have to look to their laurels. The town of Eddy is crowding them hard for third place in the territory in voting population.

Hon. R. E. Twitchell was elected mayor of Santa Fe. The people of that goodly city made no mistake in selecting Mr. Twitchell. Its interests will be attended to—Socorro Chiefman.

At the Eddy town election on the "progressive" ticket came off victorious. There were 451 votes cast for mayor of which Chas. C. Blodgett received 348. The Eddy Citizen prints the result in red ink!

At Cerrillos the town election resulted in the selection of J. M. Rogers, W. Miller, George North, C. P. Hammond and Ed. E. Sluder, as town trustees; E. B. Ames, treasurer; Thos. O'Donnell, marshal; Tony Neis, Dr. Ricardo Smith and Melton Navares were elected members of the school board. There were four tickets in the field, but the independents and citizens carried the day. Votes registered 194; votes polled 148.

Joseph's saloon has just received 20,000 fine eastern cigars.

ONE MASS OF SCALES
Afflicted 3 Years by Dreadful Skin and Blood Disease, with Intense Pain and Loss of Hair.

All Other Remedies Fail. Relieved Instantly and Cured in Four Weeks by the Cuticura Remedies.

I have a few words to say regarding the Cuticura Remedies. They have cured me in four weeks' time from a Skin and Blood Disease which I had had for over three years. At certain times, my skin would be very sore, and at other times it would be itching and peeling off in white scales. In cold weather my face was one mass of scales. When in the cold air the pain was intense. It would almost bring me to my knees, and my blood also suffered in a very bad way. I have tried every known remedy that was recommended to me, but it was of no use, and gave me very little benefit. So, hearing of your Cuticura Remedies, I concluded to give them a trial. The first application gave me instant relief, and I am thankful for what they have done for me. Your Cuticura Remedies are a blessing to those who may have the opportunity to use them. I can recommend them to any one.

J. E. Morrison, who came down to the city from Santa Fe and attended both performances of "Chimes of Normandy," a son of Col. A. L. Morrison, the excellent register of the Santa Fe land office, and a brother of Hugh O. Morrison, the actor and clerk in the auditing department of the Atlantic & Pacific, this city. The visitor is one of the sturdy young gentlemen of the capital town, and as he is faithful at his desk, he deserves a vacation. Wish he could remain with us for several weeks, but he will go home this evening.—Albuquerque Citizen.

Mrs. Prince states that any suitable article under ten pounds in weight sent to the Clinton H. Menzies company at Troy, N. Y., marked "for the Columbian bell," will be transported free by all express companies. Mrs. Cleveland will on April 30 teach an electric button at the World's fair which will turn the metal into the mould to cast the Columbian bell. All sorts of relics are to be used and even scraps and filings; as an instance, the regents at Mt. Vernon are to give a filing from the key of the Bastille, which Lafayette presented to Washington. All school children are asked to contribute one copper cent each which will be melted in the bell.

A critic in the Citizen who evidently knows his business says this of a Santa Fean who took part in making the Chimes of Normandy a success at Grant's opera house, Albuquerque, on Wednesday and Thursday evenings: "Mr. Butler, as the 'Marquis,' created a genuine sensation, his costuming, thoroughly professional manner and rendition of the part being beyond criticism. While not latter perfect in his lines, he was in most excellent voice, and his ready presence of mind carried him gracefully through an embarrassing situation. His voice was a revelation to his friends, and the applause which greeted him evidenced the genuine pleasure of his audience."

LAST NIGHT'S FIRE.

A Little Blaze That Serves to Point a Moral—Prompt Action Demanded—Ex-Fireman's Views.

Fire broke out in an out-house at the Breeden place, on Palace avenue, at 9:15 last night. The damage amounts to about \$20. Fortunately the night was still, otherwise a serious conflagration would certainly have been the result. The soldiers from Fort Marcy were promptly on the scene with their own hose cart and a few of the volunteer firemen were there with the city cart.

Upon arrival at the two adjacent fire plugs the fire fighters aided by several citizens undertook to place a stream on the flames, but the water pipes were partly choked with mud and in the excitement the tops of the fire plugs were twisted off by the men handling the wrench. This set the water to flowing all over the ground, but very little went through the hose. A bucket brigade finally secured water enough to quench the flames. At this time the register at the water works office showed 130 pounds pressure to the square inch, but the clogged condition of the pipes on Palace avenue rendered this pressure of little avail for fire fighting purposes.

These facts were gleaned from citizens who were early at the scene of the fire, and they point a moral that should no longer go unheeded by the property owners of the city. There should be a reorganization of the fire department at once, under the direction of the city council, and some provision must be made whereby a competent representative of the city and of the water company shall make a systematic examination of all the fire hydrants at least once a month. The water company people say they will not only co-operate with the city to this end but will also lend a hand toward a reorganization of the fire department provided the city authorities take the initiative.

On this subject the following was received at this office this morning:

To the Editor of the New Mexican:
Santa Fe, April 8.—Last night's experience will, it is hoped, arouse the interest of citizens in regard to the needs of the city of Santa Fe in regard to facilities for preventing the destruction of property by fire. I have talked with several who formerly belonged to the fire companies and they say they have ceased to take an interest in the subject because, chiefly, the city's neglect since the day of incorporation to do anything toward encouraging the firemen. Many citizens have been individually kind and considerate in the past, prior to the incorporation of the city, but since we have had a city government tax payers naturally feel that the maintenance of a fire department should be looked after as well as the police, the water and light and other public interests for which we all voted to have the city incorporated. At a fire department of taxing themselves fifty cents each per month to keep in repair the fire apparatus and then turning out and working for glory with the chances of suffering from accident or sickness that might cost them a great deal of time and their business duties and a good sized doctor's bill to boot.

Let the city council take hold and maintain the fire apparatus from the public funds, appoint a competent man as chief, and it will be easy enough to organize a first-class volunteer fire department here.

EX-FIREMAN.
Life is short and time is fleeting, but the Santa Fe firemen will bless humanity as the ages roll on. Try it this season.

ROUND ABOUT TOWN.
The fire department must be re-organized. The morning train from the south is again six hours late to-day.

The Spring.
Of all seasons of the year, is the one for making radical changes in regard to health. During the winter, the system becomes to a certain extent clogged with waste, and the blood loaded with impurities, owing to lack of exercise, close confinement in poorly ventilated shops and homes, and other causes. This is the cause of the dull, sluggish, tired feeling so general at this season, and which must be overcome, or the health may be entirely broken down. Hood's Sarsaparilla has attained the greatest popularity all over the country as the favorite spring medicine. It expels the accumulation of impurities through the bowels, kidneys, liver, lungs and skin, gives to the blood the purity and quality necessary to good health and overcomes that tired feeling.

Where to Stop in Chicago.
The perplexing question which is every day asked by people who desire to go to Chicago to attend the World's fair, is "Where are we going to stay when we get there?" This is easily answered, and if you will go to the ticket agent of the Santa Fe, Mr. W. M. Smith, he will tell you.

Arrangements have been made for the distribution by the Santa Fe company of a pamphlet entitled "Homes for Visitors to the World's Fair." This is a reliable pamphlet containing the names and addresses of about 9,000 families who will furnish accommodations to visitors from May 1 to October 31, 1893. The pamphlet also contains sectional maps which will enable the intending visitor to select any quarter of the city that he would prefer. Correspondence can then be carried on and definite arrangements made so that when visitors arrive in Chicago they can proceed at once to their quarters.

Both of these payments come out of the \$62,000 received from the national government as repayment of direct tax.
