BRIEF WIRINGS:

To Convene in May.
HELENA, Mont., April 15.—Chairman Carter, of the national Republican committee, has called the national Republican committee to meet in Louisville, Ky., May 10.

Two Arbor Days.
HARRISBURG, Pa., April 15.—Gov. Pattison, of Pennsylvania, has issued a proclamation naming two dates as Arbor days for this state—the first is to-day and the second on April 29.

In Memory of Lincoln.
SPRINGFIELD, Ill., April 15.—The Lincoln Memorial League has prepared a set of impressive ceremonies to take place to-day at the Lincoln monument in Springfield. It is the anniversary of Lincoln's death.

Benedictine Abbots Assemble.
ROME, April 15.—More than 600 Benedictine Abbots, representing the order throughout the world, will assemble in Rome to-morrow to attend the laying of the corner stone of the International Benedictine college of St. Anselm. A party of about 100 headed by Bishop Leo Haid, of Belmont, N. B., left America on the Aller on April 14.

Selling a Famous Collection.
PARIS, April 15.—The sale of the Spitzer collection of antiquities begins to-day in Paris. The sale will last two months. The collection is estimated at a value of 15,000,000 francs, exclusive of the arms, which will be sold separately and are valued at 5,000,000 francs. No collection belonging to a private individual has ever attained such figures.

Champions at Racquet.
NEW YORK, April 15.—Tom Pettit, marker at the Boston Athletic association, and George Stanling, who holds the same office in the New York Racquet and Tennis club, are to play a series of racquet games for a subscription purse of \$500, the winner to take the whole. The first game is to take place here to-day and the second in Boston on the 22nd instant.

Pierre Lorillard's Daughter Weds.
NEW YORK, April 15.—The marriage of Miss Maud Lorillard and Mr. T. Saffern Taylor will take place to-day at Calvary church at noon. Mr. Phillip Niles, jr., will be best man and among the ushers will be Lippincott Stewart, Frederic Griswold, Frederic O. Beach and Lee Taylor. A breakfast will follow the ceremony, at the residence of Mr. Pierre Lorillard. Mr. and Mrs. Taylor will leave on an extended wedding tour, which may result in a trip around the world.

A Great Coal Exhibit.
CLEVELAND, Wash., April 15.—The largest block of coal ever mined and moved in the northwest, if not in the United States, was landed here yesterday for the World's fair. The block is twenty-four feet long, five feet eight inches wide and four feet eight inches high, and weighs in the neighborhood of 41,000 pounds or nearly twenty-two tons. It is incased in planes with heavy iron straps, which it is thought will preserve it intact during transportation.

The Big World's Fair Stakes Close.
CHICAGO, April 15.—Stakes close on this date for the following races to begin at the big meeting at Washington park, Chicago, next September: Columbia exposition stake, \$15,000, free for all trotting class, Nanyo Hanke barred; World's fair stake, \$5,000, free for all pacers; Chicago stake, \$2,500, for 2:20 trotting class; electric stake, free for all 2-year olds, trotting, \$1,500. The prize stake \$1,500, free for all 2-year olds. The races will be under the auspices of the Northwestern association of which R. L. Allen, of Joliet, is secretary.

A Monster Opal.
BOISE CITY, Idaho, April 15.—James Fitzgerald, one of the owners of the Bengal Tiger opal mine of Squaw Creek in Owyhee county, has brought to Boise the largest opal ever seen in this portion of the world. The rough gem was taken from the mine on Thursday last and was found only three feet below the surface. The weight of the opal is more than 500 carats. The formation in which the stone was found is volcanic clay. While the opal does not display as much fire as many of the gems recently discovered in the same locality, it is remarkably free from flaws.

After Dorsey.
DENVER, April 15.—John P. Brookway, an attorney who recently secured a judgment of \$39,668 against T. C. Henry for legal services, has filed suit against S. W. Dorsey, the American Land & Cattle company, T. C. Henry and the latter's wife, praying that the cattle company and Dorsey be compelled to show the court what claims and demands they have as against the rights and interests of the defendant Henry in the property described, and that all transfers and conveyances made heretofore by Dorsey and made by the cattle company be adjudged null and void. The substance of the application of Mr. Brookway is that the court shall secure him in his judgment of \$39,668 against Henry and the object is to interfere with the project now on foot to sell to an English syndicate all the Travelers' Insurance company holdings and other property in the San Luis valley, including the Baca land grant for about \$4,000,000. The execution in the judgment is now in the hands of the sheriff. Dorsey and Henry are now in the San Luis valley with a representative of the English syndicate looking over the property.

NATIONAL CAPITAL.

Smelling Committee Coming Out—Nominations and Confirmations.

WASHINGTON, April 15.—The following nominations have been sent to the senate: Levi H. Manning, of Arizona, to be surveyor general of Arizona. John T. Lafabee, of South Dakota, to be receiver of public moneys at Rapid City, S. D. William Aughen, of Minnesota, to be receiver of public moneys at Brookston, Minn.

Louis C. C. Lamar, of Mississippi, to be receiver of the general land office. Robert K. Fillespie, of Tennessee, to be principal clerk of the public lands in the general land office.

John C. Geraghty, of Minnesota, to be collector of customs for the district of Minnesota. Charles H. Miller, of Illinois, to be surveyor for the port of Galena, Ill.

Alexander W. Terrell, of Texas, envoy extraordinary and minister plenipotentiary to Turkey. John J. Hawkins, of Arizona, associate justice of the supreme court of Arizona.

James F. Read, of Arkansas, attorney of the United States for the western district of Arkansas. Charles W. Larabee, of Maine, collector of customs at Bath, Me.

Alexander W. Terrell, named as minister to Turkey, is a resident of Austin, Texas, near which he has an 8,000-acre ranch. He is 65 years of age and has been state senator and candidate for United States senator. He was educated at Heidelberg.

FAIL NOT IN IT.
The senate has confirmed the following nominations: August Belmont & Co., fiscal agents of the navy department at London, England.

Daniel M. Browning, of Illinois, commissioner of Indian affairs. Ambrose W. Lyman, of Montana, collector of internal revenue district of Montana.

THE SENATE.
In the senate yesterday the Roach case caused some discussion but finally went over.

An effort was made by Mr. Hoar to have a time fixed at the present session for taking the vote on the admission of the three senators appointed by the governors of the states of Montana, Washington and Wyoming, but objections came from Democratic senators who said, however, that they would confer upon it. The resolutions for the investigation of the claims of Mr. Ady to a seat in the senate from the state of Kansas, and for an inquiry into the conditions of the territories of Arizona, New Mexico, Utah and Oklahoma, as to their fitness for admission as states, heretofore offered, were taken up and agreed to.

Field Day at West Point.

WEST POINT, April 15.—The cadets will have an athletic field day, under the auspices of the Army Officers' Athletic association, to-day. The chief features of the day will be a competition among teams of five cadets, each class being permitted to enter one team. The events will be: One hundred-yard dash, 120-yard hurdle race, 36-inch hurdles; standing broad jump, running high jump, and putting 16-pound shot. The athletic association will present to the winning team a suitably inscribed banner. In addition there will be eight other events open to all cadets at the academy, 220-yard hurdle race, 440-yard run, standing high jump, standing pole vault, and running broad jump. Pole vaulting, throwing base-ball, kicking foot-ball. The class making the highest score in these events will be presented with a banner.

The Eclipse of the Sun.

NEW YORK, April 15.—A total eclipse of the sun—always a phenomenon of commanding interest—will occur to-morrow morning under circumstances which make its observation peculiarly promising to science. It is one of the longest of the century from which we are likely to get any additions to our knowledge of solar physics. The longest duration of totality of this eclipse is a minute 46 seconds, and as the path of the moon's shadow lies to a great extent on land, there is a considerable choice of possible stations with long durations of totality. Two expeditions have been sent from England, one to Africa, the other to Brazil, the expenses being defrayed by the Royal society. The United States has sent an expedition to Chile, of which Prof. Schaeberle, of the Lick Observatory, has charge, and there at two or three American parties at Faza Caza. A Brazilian party will also observe. The Bureau des Longitudes, Paris, has sent a complete expedition to Joal, in Africa. A paramount feature in this eclipse is that it will probably afford the best facilities for solving the great problem of short period changes in the solar corona. In the eclipse of 1889 on the west African and Guinea coasts the observations were marred by cloudy weather.

OUR FLAG DOWN.

The Banner of Freedom Lowered by Order of President Cleveland.

HONOLULU, April 15.—On April 1, in the presence of a concourse of Hawaiians, Lieut. Draper, marine officer of the Boston, blew "the retreat" and hauled down "Old Glory." The United States authority over the islands ceased with that formal act. Commissioner Blount

on March 31, held a conference with President Dole, of the Hawaiian ministry, and the proceedings above detailed were the result. The American protectorate over the islands has ceased; but Mr. Blount refuses to divulge the intention of his mission.

THE ENCAMPMENT.

Preparations Making for a Big Crowd of G. A. R. Visitors on the 27th Inst.

Carlson post G. A. R. are making all the necessary arrangements for the entertainment of their guests on the 27th and 28th inst. At a meeting held last night the full committee consisting of Judge Francis Downs, Capt. J. T. Kirkman, George W. Knebel and W. R. Fletcher were present. It was decided that the headquarters of the department of New Mexico should be established at the Exchange hotel (The Old Fonda) where John T. Forsyth, himself an old veteran, will look after the comfort of the veterans. The matter of the headquarters of Commander in Chief Wiesner, who is expected to be present, will be held in abeyance until he can be heard from definitely. The program so far as outlined consists of a meeting of the council of administration at 10 a. m. Thursday; a meeting of the encampment at 2 p. m. and a meeting at the court house at night. George W. Knebel was authorized to take charge of the vocal portion of this entertainment, and Judge Downs to select the speakers and make other arrangements. Friday will be devoted to work, and the encampment will wind up with a camp fire and bean bake at G. A. R. headquarters.

POLITICAL GOSSIP.

Columbus Moise, of Las Vegas, is mentioned in connection with the 4th judicial district judgeship.

W. C. Fish, of New Mexico, wants to be special agent for Alaska seal lands and has filed application in the treasury department.

New Mexico postmasters have been appointed as follows: J. W. Evans, Clayton, Colfax county; J. T. Foster, La Luz, Dona Ana county; J. B. Peniston, Malaga, Eddy county.

Ex-Judge E. V. Long, who fell under the breast works because he once held office under President Cleveland, has returned to Las Vegas from Washington. Mr. Charles F. Rudolph, of Las Vegas, is the guest of his brother-in-law, Col. Dick Dunn, having arrived last evening from Washington, whither he went in company with Hon. Felix Martinez in the interest of Judge Thornton for governor of New Mexico. They secured the appointment of Mr. Thornton by convincing Sen. Hake Smith that he was exactly the right man for the place.—Trinidad Advertiser.

Hon. E. B. Fergusson telegraphs that a personal and political fight is being made against the confirmation of the appointment of A. B. Fall as one of the territorial associate justices, and that he will remain in Washington, D. C., a few days longer to help along his friend. There are a number in the territory, some of whom are personal friends of Mr. Fall, who regard that gentleman as a bright young man and admire his pluck and energy, but do not think that he would make a good judge. He is known to possess strong partisan feelings, has his likes and dislikes, and for this reason many believe that he would not make a safe judge. All contend, however, that he would prove a capital prosecuting attorney.—Albuquerque Citizen.

TERRITORIAL TIPS.

ALBUQUERQUE ATOMS.
Louis Baer, who has been in Boston for the past five months with Elsmann Bros., wool buyers, has returned to the city, and during the spring wool season will have charge of the firm's business here.

The artesian well boring machinery moved from the lot of S. E. Rose to the place of J. B. McCowan, on north 4th street. Mr. Bush, the contractor, struck cement earth and it was only a waste of work to attempt to penetrate it; hence the move to another location.

The Medler hall for the I. O. O. F. and A. O. U. W. lodges is rapidly being pushed to completion, and will probably be ready for the lodge furniture in about a week. The anniversary of Odd Fellowship occurs on the 26th of this month, and the local lodge desires to celebrate the important event by a bedding man in their new quarters.

The Albuquerque Law Students association held its first regular meeting at the office of W. B. Childers. There were present Samuel Jenks, F. M. Sims, Ed. Medler, Jr., Harry Lee, W. F. Henning, Max Luna and Mr. Straus. The following officers were elected: Harry P. Owen, president; Wilbur F. Henning, vice president; Samuel Saltmarsh, secretary.

Jacob Korber and Ed. Quicquel purchased from Perfecto Arniño the house occupied by Bambini, on Railroad avenue, and the lot for \$10,000 cash. The purchasers are not quite ready to properly improve their valuable lot, but expect in a few months to erect thereon a building that will be an ornament to that side of Railroad avenue.

LAS VEGAS LOCALS.

Assembly No. 11, Knights of Labor, will give a grand ball to-night.

Miss Boughton was badly bitten in the arm by her own big dog the other night.

The trial of Jose D. Gallegos for the murder of J. J. Schmidt at Wagon Mound is set for next Monday.

There is a case in the district court against Col. (T) J. J. Fitzgerald for embezzlement and other cases on different charges.

Best & Treverton are erecting a frame residence for D. J. Boyd, a locomotive engineer, at the corner of Eleventh and Jackson streets.

John Hill has been awarded the contract, at \$250, for the erection of a laundry and a stable at the insane asylum. A big water tank will also soon be put up on the grounds.

Miss Nettie Sloan, of Las Vegas, who captivated all by her singing in the "Chimes of Normandy" at Albuquerque, and who was taken ill, has been removed from the residence of Mrs. R. W. D. Bryan to that of Mrs. Dobson.

Martin & Howard are building a four-room frame residence for Frank McGuire, a boiler maker, on Grand avenue, and will soon put up a residence for Mrs. B. Danziger, of the hot springs, on the site of the Borden house, in the rear of the Presbyterian Church.

Unjust Taxation.
It is unjust to tax the stomach with
burthens that it can not bear. Many silly
people thus tyrannize that faithful servitor
until it rebels and punishes them as they
deserve. Dyspepsia is usually the child
of gastronomic folly, but whether this
or the natural associate of inherent
feebleness from childhood, it is surely
and pleasantly remediable with Hostet-
ter's Stomach Bitters, the finest and most
highly sanctioned gastric tonic in exist-
ence. As a result of the tonic imparted to
the stomach, and the increased activity of
its digestive and assimilative action, in-
sured by the persistent use of this benign
invigorant, general stamina is augmented,
the nerves strengthened and tranquilized,
and a tendency to insomnia and by psycho-
neurotic debility. Biliousness, chills and
fever, rheumatism and kidney troubles
are conquered by this admirable medicine.

What They Are Good For.
Brandreth's Pills are the best medicine
known.
First—They are purely vegetable, in fact
a medicated food.
Second—The same dose always pro-
duces the same effect—other purgatives re-
quire increased doses and finally cease
acting.
Third—They purify the blood.
Fourth—They invigorate the digestion
and cleanse the stomach and bowels.
Fifth—They stimulate the liver and
carry off vitiated bile and other depraved
secretions.
The first two or three doses tell the
story. The skin becomes clear, the eye
bright, the mind active, digestion is re-
stored, constipation cured, the mental vigor
is recruited and all decay arrested.
Brandreth's Pills are sold in every drug
and medicine store, either plain or sugar
coated.

Gent—Oh, it was handed down from my
great-great-grandfather.
Tramp—How came he by it?
Gent—He fought for it.
Tramp—Take off your jacket.—Fun.

What They Are Good For.
Brandreth's Pills are the best medicine
known.
First—They are purely vegetable, in fact
a medicated food.
Second—The same dose always pro-
duces the same effect—other purgatives re-
quire increased doses and finally cease
acting.
Third—They purify the blood.
Fourth—They invigorate the digestion
and cleanse the stomach and bowels.
Fifth—They stimulate the liver and
carry off vitiated bile and other depraved
secretions.
The first two or three doses tell the
story. The skin becomes clear, the eye
bright, the mind active, digestion is re-
stored, constipation cured, the mental vigor
is recruited and all decay arrested.
Brandreth's Pills are sold in every drug
and medicine store, either plain or sugar
coated.
