HUTCHINSON, Kan., May 5.—The United Commercial Travellers of the Missouri valley are in annual grand council here today.

Postmaster at Boston.
WASHINGTON, May 5.—The president has appointed Jeremiah W. Coveny as postmaster of Boston, vice T. N. Hart resigned.

Harris to Die.
ALBANY, N. Y., May 5.—Gov. Flower has denied the application of clemency for Carlisle W. Harris and Harris will be electrocuted during the week beginning Monday next.

It Will Be Dissolved.
BERLIN, May 5.—The German Reichstag will be dissolved today. The ministry found it impossible to pass the army bill, and it will therefore make a second appeal to the people.

Y. M. C. A. Secretaries Meet.
LOUISVILLE, Ky., May 5.—The conference of the general secretaries of the Y. M. C. A. of North America, is being held at Louisville, commencing today and continuing four days. The national convention will be held at Indianapolis, commencing May 10.

A Reception for Senator Dawes.
GREAT BARRINGTON, Mass., May 5.—Senator Dawes will be given a reception here today. The affair is under the auspices of the Thursday Morning club, which is a ladies' club. Senator Dawes, Mrs. Dawes and Miss Dawes have accepted the invitation to be present.

Mrs. Davis was Invited.
SHERBORNE, La., May 5.—The confederate Veterans' festival on the fair grounds here today is the attraction for notables from all parts of the south. Mrs. Jefferson Davis was among the invited guests, but sent a cordial letter of encouragement, although unable to attend.

Praying for Warm Weather.
ST. PETERSBURG, May 5.—Public prayers are being offered in many cities of central and southern Russia for an abatement of the severity of the weather. In a recent snow storm in the government of Smolensk twelve men and many cattle were frozen to death.

Will Have Peace.
CHICAGO, May 5.—President Mrs. Potter Palmer surprised the board of lady managers yesterday, saying she would resign if the ladies would not quit quarrelling and behave in a more dignified manner. The meeting was an interesting one, and many members were in tears before it was over.

Iowa's Scientific Party.
DES MOINES, Iowa, May 5.—The Iowa state university will send within the next few days to the Bahamas, Cuba and the Florida Keys, a party of students, alumni and professors, who will explore land and sea in the interest of the institution's scientific department. Prof. Nutting, leader of the expedition, occupies the chair of systematic zoology at the university, and is curator of the great museum.

For a National Military Park.
WASHINGTON, May 5.—Secretary Lamont has directed Col. J. W. Forsythe, 7th cavalry; Col. R. E. Crofton, 18th infantry; Lieut. Col. N. W. Lawton, inspector general; and Major J. H. Gageby, 12th infantry, to proceed to Chickamauga, Ga., to meet the Chickamauga and Chattanooga National Park commissioners today to assist in carrying into effect the provisions of the act of congress for the establishment of the national military park at the Chickamauga battlefield.

Outbreak of Whites.
DURANGO, Colo., May 5.—Miss Maggie Thompson, a fearless young lady of 18, who was at Farmington and Olio during the Indian excitement, is here. She says that at no time was she afraid to ride from ranch to ranch horseback, and to use her words, it was more an outbreak among the whites than among the Indians. The only indiscretion committed by the Navajos was to surround the Whyte store when they thought one of their warriors was inside. She says the settlers made a surprising show of strength, although they were badly scared.

Their Wings Scorching.
NEW YORK, May 5.—The National Cordage trust clique came near precipitating a panic on Wall street yesterday. The bulls were beaten and sugar and railway stocks went down with Cordage. The railroad decline was from 4 to 10 percent. Henry Allen & Co., one of the heaviest dealers in Cordage stocks, failed early in the day. Much excitement followed and in the crash A. H. King & Co. went under for \$250,000. Other failures were the broker firms of H. L. Smith & Co., G. R. Wilson, Behrman Walden. The market is much calmer today.

CONDENSED NEWS.
The Cuban rebels have surrendered.
Stranes & Stern, jewelry, Cincinnati, failed for \$70,000.
The National Normal university at Lebanon, Ohio, has failed for \$100,000.

Mrs. Malon D. Thatcher, of Pueblo, has been elected 6th vice-president of the World's fair board of lady managers.

The Geary Act in Effect.
WASHINGTON, D. C., May 5.—The Geary law goes into effect today, and all Chinese in the United States not registered with the collector of internal revenue of their respective districts are liable to imprisonment and deportation. It is believed there will be no serious trouble, although many arrests are looked for in California. It is computed at the Treasury Department that there are 110,000 Chinese persons within the borders of the United States. The price per head for the deportation of a Chinese person from San Francisco to China is \$35, and the whole amount appropriated by the last Congress for carrying into effect the Chinese exclusion act amounted to only \$100,000, which would be totally inadequate for the wholesale deportation of Chinese in case they did not comply with this act as regards registration.

Extraordinary efforts will be made to secure an adjournment upon the Chinese Exclusion act by the Supreme Court as this term. A case to test the validity of the law cannot be begun until today, when the time during which Chinese may register themselves expires. If the programme be carried out, the decision will be rendered by the middle of May. The argument for the United States in support of the constitutionality of the law will be made by Solicitor-General Adolph, and for the Chinese Government by Joseph Choate, of New York, and J. Hubley Ashton, of San Francisco.

There are three other indictments against him and he is supposed to have been one of the parties who assaulted and robbed Isaac Jacobson, out at Tecuote, the other night. He pleaded not guilty to the indictments, Judge O'Brien remarking, "Procopio, you seem to be in rather bad luck," to which the accused retorted, "Yes, your honor. They can throw stones, but they can't hit me."

A three months term of school was commenced at this place last Monday, with Prof. John Morron as teacher and a good enrollment.

The Maverick has sought to obtain a truthful account on the loss from the different sheepmen in the northern part of the territory during the winter past, and from the reports of different sheep owners it firmly believes that the mortality is smaller than for many years. The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

FRIDAY, MAY 6.

Ten American people are still bi-metallic and don't you forget it.

With a \$10 rate from Santa Fe to Denver and return it is cheaper to ride than to walk.

Clean this city up and keep it clean and show tourists a healthy and clean city. Be not backwards about it. Life is too short.

Too much lawlessness in New Mexico; it seems that all legal agencies failing, the people may have to take a hand at suppressing it.

Lawlessness in San Miguel county is stamping about boldly and openly; vide report of the territorial grand jury to the presiding judge submitted last week.

The people of southwestern Colorado want the post of Fort Lewis re-established; put down one cause for the alleged Navajo outbreak during the past ten days.

Gov. NORTHEN, of Georgia, says he will prosecute lynchers resolutely and stop lynching. And that's as far as it will go. Talk is cheap with the southern governors.

It cost fully \$7,500 to land Columbus on the American shore in 1492; it cost about \$83,000,000 to properly celebrate the event of his landing in 1893; that's the difference between 1492 and 1893.

Good public schools will prove beneficial to the citizens of Santa Fe in many respects. The present public schools are good and are improving. The new board of education must keep up this gain.

Women voted for school officers at the school elections held during the present week in Colorado for the first time in the history of the state. The system worked well, and better school officers than ever before were chosen.

Col. BOB INGERSOLL when asked a few days since what he thought of the present administration, said that the chief interest he felt in it was to know, when the revenue now raised by the tariff was abolished, how the government was to be run without money.

There seems to be a disposition to have a lot of red tape about the insane asylum at Las Vegas and also to spend a pile of money for salaries; ample provision has been made by the territory for the maintenance of that institution, and it is high time that it were proving of benefit to the people.

GETTING WHAT THEY VOTED FOR.

ISAAC JACOBSON has removed the remnant of his stock of goods to town from Teocote, having been warned to leave that place, instantly.—Las Vegas Optic.

Here is another very fine recommendation for statehood for New Mexico; but that is exactly the kind of business the voters of San Miguel county invited last November and they are getting what they voted for; were it not that such occurrences are very injurious to the entire territory, there would be no sympathy wasted for San Miguel alone; as ye sow, so shall ye reap.

A NOBLE EFFORT.

Senator Stanford has performed a last- ing public service to western people by the endorsement of the Palo Alto university and now he is reaching out for fresh worlds to conquer. If he succeeds, and it seems not improbable, the whole human race will be placed under a debt of gratitude to him and his associate in the undertaking, ex-President Harrison. The latter will soon begin a course of lectures at the Stanford university, and will set forth his views as the best plan for the completion of an international code of law, the chief object of which shall be the amicable adjustment of all international disputes without resort to war. It is a noble effort.

What the Territorial Grand Jury Said to the Presiding Judge.

In conformity with the instructions contained in your honor's charge to this body, and in compliance with petitions sent us by a number of the leading citizens of Las Vegas and Santa Fe, we have examined into the official conduct of some of the county officers, and we find several things of which complaint may justly be made. One of these is the criminal carelessness or inefficiency manifested in the charge of prisoners. Since the report of the previous grand jury, three persons have been permitted to escape from the county jail, under circumstances admitting of no palliation.

One of these, Dave Norman, charged with robbing freight cars under his care, walked away from his guard at a house

herculean task, and one almost impossible, it seems, at the present time and under existing circumstances, but it is none the less a noble effort.

OUR SPANISH GUEST.

Sized up from the standpoint of a westerner, the Duke de Veragua seems to be a good deal of a man. The duke is a farmer by occupation, and a successful one, too, being specially interested in live stock. There is one incident in his career as a public man in Spain that is worthy of more than a passing word. He has always been most devoted to the educational interests of his country, and on one occasion when the issue arose whether the army or the school teachers of Spain should be paid for their services he held and urged that peace had its victories as well as war, and advised and demanded that the teachers be paid. In doing this he showed that he was a chip of the real Columbian block. The Spanish people may well congratulate themselves that the Duke de Veragua, holding as he does such views as these, will everywhere receive a warm welcome in the United States.

Press Comments on Territorial Affairs.

Joseph Will Not Have Very Easy Sailing.

Delegate Antonio Joseph asserts that he is disgusted with politics; several Democratic papers in New Mexico seem to be disgusted with the delegate. It's a long lane that has no turn.—New Mexican.

Had the people known Mr. Joseph six years and six months ago as well as the Democrat knew him the lane would have had a turn then. Joseph is no more disgusted with politics than the people are with him.—Albuquerque Democrat.

If this sort of feeling is permitted to go on, Antonio will not have very easy sailing into the United States senate in the event of New Mexico becoming a state.—Raton Range.

Water Rights on the Rio Grande.

The Socorro, New Mexico, Chieftain in its last issue contains a well written editorial advising that legal steps be taken by the authorities of New Mexico, Texas and Old Mexico to restrain the Colorado ditch companies from exhausting the water of the Rio Grande, that for over three centuries have been used by the citizens of the lower valley to raise crops for the support of their families.

When the Bulletin was published in the Gen City it occupied the same position upon this subject now taken by the Chieftain. We judge the Chieftain in its suggestion. All the journals in the southwest should come to the assistance of the Chieftain in this matter.

The question of a water supply for this valley is only second in importance to the question of the people of El Paso and the valley heartily endorse the words of the Chieftain and will pay their share of the expenses incurred in the suit, if one is instituted.

Seven years ago the writer, in connection with a few others, took steps to secure judicial recognition of the rights of those who lived upon the banks of the Rio Grande to enjoy the use of its waters. Among those who were interested in the subject we remember Hon. J. Francisco Chavez, who is eminently qualified at this moment to render the inhabitants of the valley material assistance by his council and lifelong experience.—El Paso Bulletin.

The Silver City Silver Convention.

The silver convention which is to be held here on the 4th and 5th of July is being favorably talked about by mining men and men who are interested in the silver question all over the southwest. The continued low price of silver makes it necessary for something to be done. The silver interest in the backbone and support of the interests of states and territories occupying more than one-third of the entire area of the United States and when an interest of such great importance as this suffers it is not difficult to see that hard times must necessarily follow. The only remedy is to bring silver to its former and rightful value, and this can only be done by passing a free coinage law. The object of the silver convention is to assist in bringing about such a result and every resident of the southwest is interested in it. The desired result cannot be obtained without agitation and it is to get the ideas of the leading silver advocates that the convention has been called. A deeper interest is now being taken in the matter than has ever been manifested before and it is more than probable that the attendance will be much larger at the coming convention than at either of the previous ones, and that more will be done for the cause of silver than has ever been accomplished in this manner before. A united effort is necessary and this now seems to be assured.—Silver City Sentinel.

LAWLESSNESS IN SAN MIGUEL.

What the Territorial Grand Jury Said to the Presiding Judge.

In conformity with the instructions contained in your honor's charge to this body, and in compliance with petitions sent us by a number of the leading citizens of Las Vegas and Santa Fe, we have examined into the official conduct of some of the county officers, and we find several things of which complaint may justly be made. One of these is the criminal carelessness or inefficiency manifested in the charge of prisoners. Since the report of the previous grand jury, three persons have been permitted to escape from the county jail, under circumstances admitting of no palliation.

One of these, Dave Norman, charged with robbing freight cars under his care, walked away from his guard at a house

of ill-fame, to which he and his guard had repaired. After being at large for a number of weeks, the most of the time presumably in this immediate neighborhood, he was re-captured by the railroad authorities, but without aid or assistance from the officials of this county.

H. B. Hopkin, guilty of confessed forgery to the amount of several hundred dollars, escaped from jail while the guards were at supper, and he has been heard of no more in these parts.

But the most notorious and damaging case is that of Pablo Herrera, charged with the murder in the third degree, he was permitted to leave the jail on December 7, 1892, while awaiting sentence by the court. Since that time he has remained at large, free and unmolested. It cannot be said of him, however, that he has been heard of no more in these parts; for common reports locate him but a short distance from town, where he can easily be seen by his friends or those having business dealings with him.

It was in testimony before this grand jury that on or about the 23d or 24th of March, of the present year, Pablo Herrera and his brother, Nicamor Herrera, were seen in public, at a religious assembly, held at the plaza of Saltillo, where a number of other persons were present. It was also in testimony before us that on the evening of March 23 or 24, or of some day about that time, Pablo Herrera was seen on the streets of the town of East Las Vegas, seated in a buggy, and conversing with more parties than one, while he was accompanied by his brother, Nicamor Herrera, the latter being on horseback and armed with a Winchester. Granting that the sheriff knew nothing of these contemplated escapes till after they had been consummated, they yet show the employment of deputies and other subordinates every way unsuited to the places in which they have been placed; and while a superior can not always be held guilty of the crimes of his employees, yet when those employees are of his own selection, he must be held responsible for their incompetency and flagrant violations of duty. It is the opinion of this grand jury that the present sheriff and his predecessor in office are to be censured for the character of a number of those whom they have employed as deputies, and in other subordinate positions.

It is barely possible that neither the present sheriff nor his predecessor, under the latter of whom the escape of Pablo Herrera was permitted, has been aware of his continued presence in this city and its neighborhood; but in view of the general publicity of the matter, such ignorance would be but little less culpable than actual connivance. With proper care Pablo Herrera had never escaped; with proper effort, he would long since have been retaken. The fact of his being at large, in the immediate neighborhood of the seat of justice for the county and a dereliction of duty on the part of the sheriff, the county's highest official.

The facility with which criminals have escaped from custody, and the utter inefficiency of the officers in their capture, both before and after indictment, defeat the ends of justice and encourage crime of every character. This grand jury feels that the public and the territory express its condemnation of the matters mentioned in this part of its report.

What a comfort it is to have ready at hand a remedy that never fails to relieve constipation, and that, without pain or discomfort, and almost immediately cures headaches, and dispels every symptom of dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of the kind endorsed by eminent physicians.

It affords me pleasure to add my testimony to those who receive annually in reference to your valuable medicine. I consider Simmons Liver Regulator the best family medicine on the market. I have prescribed it with excellent results.

THE RAILWAYS.

Narrow Gauge Train Schedule—The D. & R. G. Express—The Taos Project—Notes.

A slight change in time takes place on the D. & R. G. line to-day. The morning train for the north carrying Pullman sleepers leaves here at 11:15 a. m. and reaches Pueblo at 1 o'clock the next morning; Colorado Springs at 2:35 a. m., and arrives in Denver at 6:55 a. m. The train from Denver to Santa Fe leaves the former point at 8 p. m. and reaches here at 4:05 p. m.

Mr. D. E. Cingmire, of Pueblo, route agent for the D. & R. G. express, is in the city looking after business. He says his company is giving Santa Fe and northern New Mexico a "glit edged service" and that the gratifying increase in business is substantial evidence that it is fully appreciated. He said that Santa Fe is less than twenty hours; our staff reaches here at 4:05 p. m. and is immediately delivered to our patrons. In other words, the D. & R. G. express is just fifteen hours ahead of our competitor in business.

J. L. Craig, of Taos, is in the city to-day on his return from Trinidad and Las Vegas. He says the citizens of Trinidad recently met J. R. DeRemer, the railroad contractor, in a conference, and guaranteed right of way into that town and deep grounds for the projected San Juan Valley and Taos road, and Mr. DeRemer has now gone east on business connected with this enterprise. Mr. Craig's understanding is that the new road will head for Castillo pass and put in a forty mile branch down through the valley to Taos.

President E. R. Chapman, of the Santa Fe Southern company, left this morning for Durango where he will spend a few days looking into the railroad situation. Supt. Helm has been keeping the New York backers of the baby road pretty well posted on the growth and prospects of the upper Chama and San Juan country and President Chapman now goes to make a personal inspection. When the time comes for giving the Rio Grande valley direct connection with Durango via the San Juan, the intimation is that the little narrow gauge will be right in the midst of it.

J. G. Butler, of Pueblo, Colo., with his wife and family, arrived last evening from southern California. They are at the Armijo hotel, and Mr. Butler is the commercial agent of the Cerrillos Coal Railroad company, and will have his headquarters at this city. O. H. Boyd and family are expected from Los Cerrillos in the next few days. Mr. Boyd is the financial secretary for Mr. Butler. Albuquerque Citizen.

The south bound train over the narrow gauge was late for the first time last evening. About twenty-five miles north of Alamosa the two sleepers struck a switch while flying along at the rate of thirty miles an hour, and left the track, rolling over. Both sleepers were full and the passengers were badly jostled but none were seriously injured.

T. C. Fox, to be trainmaster on the Rio Grande division of the Santa Fe road, vice F. J. Easley, promoted; J. C. Cohen to be chief dispatcher, and L. C. Newcomb, assistant chief dispatcher, are the latest railroad changes. These gentlemen have their headquarters at San Marcial.

John J. Byrne, assistant general passenger agent of the Santa Fe, has arrived in Denver and will be joined there to-morrow by President Reinhardt and party. It is probable that an effort will be made to settle the existing rate war.

There were forty passengers in over the narrow gauge last night, and fully many took the morning train out at 11:15 to-day. Beginning to-day a dinner station is established at Espanola. This will be a great convenience to the traveling public.

ROUND ABOUT TOWN.

The weather wise say there is rain in sight. The county board of public school examiners met at Mrs. Weltmer's at 4 o'clock this afternoon.

Orders for job work promptly attended to at the New Mexican printing office in first-class style and at reasonable rates.

The widow of the late Albert Muller will continue to carry on his restaurant business at the old stand, and Henry Polman will continue in charge at the bar.

The streets should be sprinkled; the city council committee and the Santa Fe Water & Improvement company should get together and do something in the matter. Time flies.

Attend the auction to-night at Grunfeld, Lindheim & Co., also to-morrow and Saturday afternoon at 2:30, C. Yondorf auctioneer.

Judge Pinto Pino, up from the Mesilla valley to-day, says that section is flowing in milk and honey now that the Rio Bravo is on the boom and fruit prospects for the valley were never better.

Citizens of College street demand the erection of an arc light or two over that way and a petition to the city council to this effect is being numerously signed to-day. John Dignee has the petition.

Bischoff has contracted for 1,000 head of Arizona beef to be shipped to his local market. He says the net cost of blocking good beef here now is 8 cents per pound or 2 cents more than one year ago.

A three-horse power engine, in good condition, for sale cheap; apply at the New Mexican printing office.

Gen. Bartlett, chairman of the council committee on streets and bridges, instructed the city marshal to-day to use the fire company's hose and sprinkle the streets, which City Marshal Antonio Alarid did in good style.

E. R. Chapman and a party who visited the water works reservoir yesterday afternoon express astonishment at the magnitude of the work and agree that it will eventually prove a bonanza for every vital interest in the city and vicinity.

The new street culverts are too high according to the present grade of the streets. Several wagon loads of earth and cinders should be placed on either side of these new culverts thus making the approaches to them gradual instead of abrupt.

Donoghue & Monier begin work to-morrow on a new business block of three stories, on central Frisco street, for Narciso Gonzales. The unsightly adobe that now covers the lot will be replaced with a neat glass and iron front structure.

Clem Neely, the Peecos Valley farmer, arrived at Patterson & Co's. stable at noon and brought over a 3 year old colt that Santa Fe horsemen will admire. He is a Kentucky thoroughbred of Lexington stock, over sixteen hands high and every inch a beauty.

All kinds of blanks, legal and justice of the peace blanks, printed and for sale at the New Mexican Printing company.

E. P. Leavitt, connected with the manufacturing establishment of the Singer Sewing Machine company at Denver, is in Santa Fe to-day, putting into shape a new steam sewing machine for blank book work for the celebrated book bindery of the New Mexican Printing company.

Mrs. L. C. Johnson has moved her residence and dressmaking parlors to the Sena block, Palace avenue, next to the court house, where she will be glad to receive her customers and friends.

Mr. N. C. de Baco, of Las Vegas, and Miss Belle Stephens, of this city, were united in marriage at the cathedral this morning in the presence of a large number of friends. The event is being duly celebrated to-day at the home of the bride's mother. May happiness attend them.

The New Mexican Printing company has secured the celebrated Frey patent, for fast opening blank books, for New Mexico; the best and most complete ledgers, cash books, journals, record books and all other blank books in the southwest are made by the New Mexican bindery in this city.

IN MEMORIAM.

The following preamble and resolutions were unanimously adopted by the members of Montezuma lodge No. 1, A. F. & A. M., at a regular meeting of said lodge held in the city of Santa Fe, N. M., on Monday evening, May 1, 1893, a committee having been appointed to prepare the same at a meeting of the lodge held April 8, 1893.

Whereas, It has seemed fit in the all wise and inscrutable wisdom of Almighty God to remove by death from our midst and the membership of Montezuma lodge No. 1, A. F. & A. M., Brother John Robertson, which said event occurred on the 20th day of March, 1893, at his home, in the city of Santa Fe, N. M.

And Whereas, Since Brother Robertson has resided in the city of Santa Fe he has both in his public and private career maintained the highest respect and honor among his fellowmen for his strict integrity and nobleness of character and especially had he endeavored himself to the members of Montezuma lodge to whom his best qualities of heart and soul always shone resplendent. This lodge has in the death of our friend and brother, John Robertson, lost a wise counselor, a faithful and zealous worker, a true Mason, one who lived and practiced in his daily ways the principles of a true and loving husband and father, the church a true christian, and the city of Santa Fe an honored official and citizen.

We, the members of the lodge, have in the demise of our brother lost one whose place it will be hard to fill, his widow and children a true and loving husband and father, the church a true christian, and the city of Santa Fe an honored official and citizen.

Resolved, That the members of this lodge tender to the widow and children of our deceased brother our deepest sympathy and condolence in this their greatest affliction and grief. Their loss is great and beyond restoration, our loss is equally so and beyond restoration.

To the distinction of a wise Providence we humbly bow with reverence and submission, feeling assured that our brother is now receiving, in the presence of the Great Architect of the Universe, the reward of a well spent life which is vouchsafed to the true christian and faithful Mason.

Resolved, That a copy of these resolutions be sent to the widow of Brother Robertson and that the same be published in the Daily New Mexican.

W. M. BENDER,
Geo. W. KNAEBEL,
A. F. SPIEGELBERG,

The St. Vincent Institutions.

The best regulated and most successfully conducted orphan home in the whole country, is the one at Santa Fe, under the supervision of that noble woman, Sister Victoria.

There are at present over sixty little girls being carefully trained for useful lives in this institution. Their ages and their accomplishments are the best evidences that the most advanced methods are applied.

The sanitarian and hospital under the same management, has a national reputation and the unselfish and heroic labors of Sister Victoria and her associates in behalf of humanity are known and appreciated all over this broad land.

Santa Fe and New Mexico may well feel proud of this grand institution.—Raton Range.

The Peecos Trail.

Revs. C. L. Mills and G. G. Smith rode yesterday over the new Peecos trail nearly to the top of the highest ridge this side of Baldy—that is, to the slope of the ridge which constitutes the chief spur of the Lake mountain. They think the new trail a great improvement upon any of the old trails, speak of it as admirably engineered and capable of being easily turned into a carriage road of easy grade. They say that the chief obstacles and dangers in the way between Santa Fe and the point reached by them are the rotten bridges over the Rio Tesuque, which ought to be entirely removed or thoroughly repaired.
