## BRIEF WIRINGS.

**It Will be a Clean Sweep.**  
St. Louis, May 9.—The Broom-makers annual national convention begins here to-day.

**Catholic Knights Day.**  
Chicago, May 9.—This is the fete day of the Catholic Knights of America at the World's fair.

**Fear the Free Trade Administration.**  
Joliet, Ill., May 9.—The Joliet Rolling mill, branch of the Illinois Steel company, has closed in all departments. The plant has furnished work for 25,000 men.

**Maccabees of the World.**  
Port Huron, Mich., May 9.—The biennial review of the Supreme Tent, Knights of the Maccabees of the World, begins here to-day. Its delegates will number over 1,000.

**Ohio's Women Suffragists.**  
Delaware, Ohio, May 9.—The Ohio Woman Suffrage association holds its annual meeting here to-day, closing May 11. Speakers of national fame have been secured, and among them are Susan B. Anthony, Rev. Anna H. Shaw and Ruth G. Haven.

**A Costume Pool Kelo.**  
New York, May 9.—The dreaded Monday settlements were affected without trouble on the stock exchange yesterday. The leading stocks were weak, but rallied later in the day. Allen & Co., who suspend payment on Thursday, say their liabilities amount to \$470,000.

**Stick on the Country.**  
New York, May 9.—The British flag-ship had lost forty men of her crew up to Saturday last by desertion. The British armored cruiser Australia has lost seven men, and the British cruiser Magicienne and Tartar have lost another twenty men. In all, the British fleet has lost by desertion more than seventy men since their arrival.

**Musicians Meet.**  
Detroit, Mich., May 9.—The eighth annual convention of the National League of Musicians begins here to-day. The organization represents sixty thousand members and was established at a meeting in New York, March 9, 1886. Its last session was also held in New York last March. C. H. M. Rube, of Cincinnati, is president.

**Hotel Men in Convention.**  
Cincinnati, May 9.—The National Hotel association gathers in convention here to-day. At the Dayton Soldiers' Home the hotel men will be shown a kitchen in which meals are provided for 4,000 persons every day of the year. The attendance from eastern cities promises to be unusually large. The New York landlords came in special cars.

**Mexico's Cabinet.**  
CITY OF MEXICO, May 9.—It is reported here on good authority that Hon. Matias Romero, Mexican minister to the United States, will return to Mexico and resume his former position as secretary of the treasury, held by Hon. Jose Luis Lamen-tour. It is reported that President Diaz contemplates making other changes in his cabinet officers, the proposed changes to go into effect June 1.

**Ward Lemon Dead.**  
WASHINGTON, May 9.—News has been received here of the death at Martinsburg, W. Va., of Col. Ward H. Lemon. Col. Lemon was President Lincoln's private secretary and enjoyed the most confidential relations with the martyred president. He continued to live at Washington long after President Lincoln and he wrote the greater portion of the life of Lincoln.

**Conductors in Conclave.**  
TOLDO, May 9.—The international convention of railway conductors began here to-day. The convention will last ten days. Two thousand railroad men are expected to attend. The committee of arrangements is headed by Mayor Emerick. The order has a membership of about 25,000 railway conductors, and its business amounts to over \$250,000 annually and is constantly increasing. The order now has a cash balance of over \$50,000.

**United Commercial Travellers.**  
KANSAS CITY, Mo., May 9.—The annual convention of Grand Council of Missouri of the United Commercial Travellers will be held here to-day. It will be a business meeting exclusively. Among the noted visitors who are expected are Supreme Past Councillor L. C. Pesse and Supreme Secretary C. B. Flagg, of Columbus, Ohio; Supreme Conductor A. J. Dowd, of Chicago, and Grand Councillor W. L. Day, of Kansas. All the state councils will be represented, and a number of members from the Kansas councils are expected.

**Harris Electrocutted.**  
NEW YORK, May 9.—Carlisle Harris the wife poisoner, was electrocuted at 12:40 yesterday. A current of 1700 volts passed through the body. Life was extinct, and it was plain to all who were present that death had come at the first touch of the current. The only sign of animation after the current was turned on was a slow movement of the little finger of the right hand, and that was evidently due to muscular contraction caused by the current and not by the volition of the subject in the chair. The operation is pronounced highly successful.

**Another Killing.**  
Durango, Colo., May 9.—Another outrage by Navajos is reported from Cross canon. Cowboy Sam Eldineh, while rounding up horses near the Southern Ute reservation, was fired upon by three renegades and killed and his horses were driven off. This occurred Thursday and ranchers in that vicinity are much excited, as further trouble is feared.

**Republicans Together.**  
A Great Gathering of Leading Party Men at Louisville To-day.

LOUISVILLE, Ky., May 9.—The Republicans are gathering in hosts here to-day and the city is assuming the appearance of a national convention. The officers of the national Republican leagues have completed the program. To-day will be given to a consultation between the Republican national committee and the executive committee of the league. The convention proper will be called to order at 10 o'clock to-morrow, and the business of the convention will be continued through the day. A grand mass meeting will be held at Phoenix Hall Park in the evening. May 11 will be devoted to reports of committees, general business, election of a national committee and officers of the league.

The afternoon will be taken up with the session of the American Republican College league and in the evening the citizens of Louisville will give a reception to the delegates and their friends at Phoenix Hall Park. The ratio of representation will be four ex-officio delegates and six delegates at large from each state and territory; four from each congressional district, and one from each Republican college club, making a convention of over 2,000 delegates.

The following speakers have been invited to address the convention at this meeting, and a majority of them have already accepted: Gen. Russell A. Alger, Frank J. Cannon, Frederick Douglass, J. Sloat Fassett, D. H. Hastings, Gen. James Longstreet, Thomas B. Reed, John C. Spooner, J. C. Burrows, Dr. Chas. M. Depew, M. M. Estes, ex-President Benjamin Harrison, Robert T. Lincoln, Gov. William McKinley, John B. Robinson, J. R. Foraker, W. P. Hepburn, Henry Cabot Lodge and Levi P. Morgan.

The Lincoln league and the national Republican committee also meet here this week.

**Appointments.**  
WASHINGTON, May 9.—The president has announced the following appointments: H. W. Smith, of Utah, to be associate justice of the supreme court of the territory of Utah. Everett E. Ellingwood, of Arizona, to be attorney of the United States for the territory of Arizona. Dr. Chas. M. Depew, M. M. Estes, of Mississippi, for the southern district of Mississippi; Nat. M. Brigham, of Utah, for the territory of Utah; Wm. K. Mead, of Arizona, for the territory of Arizona.

**The Colorado Rate War.**  
DENVER, May 9.—The Santa Fe system has announced a cut in strictly Colorado rates, the like of which has never before been equaled. From any point on the line of the Midland branch, which can also be reached by the Rio Grande, the price for a ticket is only a quarter of a dollar, with the single exception of Grand Junction, where a cut rate would conflict with the Union Pacific. The Rio Grande stands pat on a dollar fare, and for all points reached by the Midland, a quarter. The Rio Grande officials are considering a reduction of eastern rates. It is generally believed that before the close of the week a round trip ticket from this city to Chicago can be bought for \$20, but there the fight must end or the general agreement, which is at that figure, will be violated.

## CONDENSED NEWS.

Joe Jefferson is ill.

Thirty inches of snow covers the ground at Georgetown, Colo.

Edgar T. Swift, teller of the Birmingham National bank, at New Haven, Conn., is \$10,000 short. He is under arrest.

The Premier steel works, the largest plant of the kind in Indiana and one of the largest in the west, has made an assignment. Exhibitors in the World's fair machinery hall are in rebellion over the proposed charge of \$60 per horse power and threaten to withdraw.

**DR. PRICE'S Cream Baking Powder.**  
The only Pure Cream of Tartar Powder—No Ammonia, No Alum.  
Used in Millions of Homes—40 Years the Standard.

holders to serve out their terms unless there were special reasons for immediate removal.

There is a water famine in Mexico. Railroad traffic has almost stopped on its account and the water the people drink comes from polluted wells, causing an epidemic of sickness.

Applications for places in the departments at Washington or in the field are on the decrease. Instead of five or six a day, they have now dwindled to one or two and occasionally none.

Mississippi planters and railroad officials met at Greenville, that state. The railroad officials offered cheap rates of transportation for crop products and the planters decided to diversify the crops.

Four families of Penobscot Indians have arrived in Chicago and are now on the fair grounds. They are from Old Town, Me., and have come to join the gathering of native people in the ethnological department.

It is said that a terrible condition of affairs exists in Mexico, news of which is being suppressed by the government. A Kansas City traveling man, just from there, reports that the country is going to ruin on account of the failure of crops and the ravages of typhus.

The heirs of Jay Gould have filed a protest against the New York commissioners of taxes and assessments. The estate is estimated at \$72,000,000, and is assessed at only \$10,000,000 for personal taxation. The heirs claim that this assessment is too high, as stock in local corporations can not be taxed as personal property where the corporation pays the tax in bulk.

## TERRITORIAL TIPS.

**ALBUQUERQUE ATOMS.**  
Browns 35, A. & P. team 10, is the score for Sunday's contest. The game was for the benefit of the Albuquerque silver corner band, and was only fairly attended, owing to the threatened rain storm.

In the old town Domingo Sandoval assaulted Tranquilino Sedillo. He first knocked his assailant down, and then stamped him over the head with the heel of his boot, inflicting a serious gash on the forehead and one very bad cut on the left cheek, besides otherwise disfiguring the face of Sedillo. Sandoval was immediately placed in jail and a bond of \$1,000 was furnished for his appearance for preliminary hearing before Justice Lucero Wednesday morning.

Transito Apodaca, a young man, is lying in a room at the N. J. Sanchez house on south Second street, with a dangerous bullet wound in the right chest, the ball lodging in the shoulder blade, where it cannot be taken out unless from a very dangerous operation. Fourteen days ago he was a witness of a fight, which resulted in pistols being drawn and fired, and he received a stray shot. He was taken to the hospital in Prescott, where he remained for at least eight days, and seeing that he was not getting well he asked to be sent here for treatment. The wound is a bad one.

The other day at Cerrillos Tony Neis attached the horses, wagons, etc., of Chas. Martin for \$600 debt, due Frederick Raz, and after the attachments were served on Martin, the stock being held at Cerrillos, Martin drove in to Albuquerque with some more stock, and last Saturday Deputy Sheriff Garcia served other attachments upon him in favor of the Bank of Commerce for a like amount of \$600. The latter stock is here in a corral, and as soon as proper papers are issued by the court, the stock will be advertised and then sold to satisfy the debt of the Bank of Commerce.

## LAS CURTOS DOTS.

Amador Brothers will furnish pure mountain ice at one half cent per pound in any quantities, delivered to any part of the city.

The very cold weather during the past few nights has seriously injured many of the grapes, especially in Mesilla and Dona.

Mr. N. Spator has leased his ranch for the season to Mr. Chauncey C. Foster, of Colorado Springs. The price payable as rental is \$2,500.

The Tanning Extract factory at this point is making car load shipments of the extract from the cana-agria root and has more orders than can be filled for months.

The May Day festival given in the Opera house last Tuesday evening by the ladies of the Congressional church was a great success. A handsome sum was realized.

Cattle shipments from Grant county still continue heavy. The Haggin-Hearst agency was shipped over 1,000 head from Gage on the Southern Pacific within the past few days.

Manager T. F. VanWagonen has disposed of his interest in the Deming Opera company and will remove with his family to Colorado and engage in the mining business there.

Receiver Foster, of the defunct First National bank of Silver City and Deming, is rounding up the stockholders of those institutions with such success that there is a prospect of another dividend in the near future, but the exact date of that future is not known.

Col. Dick Hudson, formerly of Silver City, but now Indian agent at the Mesquite agency, was in Deming during the week. He reports that the Indians at Mesquite are friendly and are rapidly settling down to agricultural pursuits. There are more children in the schools this year than ever before, and nearly three times as much grain has been planted this spring than at any previous time.

## EDDY ECHOES.

Witt Brothers have purchased the dairy business formerly owned by G. D. Lucas and have also leased the Scoggins place west of town.

Fred Mendenhall, of Roswell, son of S. B. Mendenhall, of this city, and Miss Ida Kesser, of New York, were united in marriage Tuesday, May 2, 1893, by Rev. W. C. Chew.

Prof. W. E. Edeken, principal of the Junction City Male and Female institute at Junction City, Texas, and president of the county board of examiners, has been spending a week or two in the valley.

James S. Massie, who is doing immigration work for our county, returned last Saturday from the route of Kentucky, Tennessee, Pennsylvania and Virginia. He reports that the Peccos valley is getting to be pretty well known throughout the east and that immigration from that section will be heavy this fall.

W. S. Whitteley and Chas. M. Joys have purchased the extensive farm implements and seed house of E. G. Shields, and are now firmly established as business men of our city. The firm name will be Whitteley & Joys. Mr. Whitteley came from Ypsilanti last fall for the benefit of his health, and it has agreed with him. He was formerly in the seed business in Michigan. Mr. Joys came with his wife and child from Portland, Ore., only a few days ago.

L. Carter, arrived last Wednesday from Lampasas, Texas, with a sample of the J. C. Tom double acting force pump. It is claimed for this pump that twice the amount of work can be done with it and that with much less labor than is required to run the old style pump. It is also light and very durable, being made of the best material.

A jolly trio departed Friday evening for the World's fair, all from the Greene place, west of town: Fred Balach foreman of nurseries, while absent, expects to visit his old home in southern Illinois. Tom Jones, carpenter, expects to be gone all summer and will make a trip to the Isle of Man in the Irish sea and will stop on the sea board at Boston for a while. Ira Couch, carpenter, will be gone two months and expects to call on friends in Butler county, Iowa.

**Fire at Silver City.**  
Advices from Silver City, state that on Friday last the handsome residence formerly owned by John A. Miller, now the property of John Brockman, was partially destroyed by fire. It originated from a defective flue. The insurance was \$6,000. A terrific wind prevailed at the time and the local fire company is reported to have done heroic work.

New Mexican Printing Co.,  
Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, MAY 9.

There is trouble on Mr. Cleveland's mind these fine May days.

Push matters toward making the silver convention at Silver City a success; this is a free silver territory and will be a free silver state and don't you forget it.

Every section of New Mexico receives due and full consideration at the hands of this journal; the NEW MEXICAN is the territorial paper of New Mexico and the people's paper.

The Duke de Veragua is so well pleased with this country that he proposes to make his stay here of an indefinite period; the duke's head is level; he is surely a lineal descendant of the great Cristoforo Colon.

The Texas, Santa Fe and Northern railroad has been placed in the hands of a receiver; it is understood that this action was had to clear up the affairs of the road and to be ready for any emergencies that might arise.

The gold mining industry in New Mexico is forging to the front. Much attention is at present given to both quartz and placer mining properties, and the chances are that the end of the present year will see an important improvement in the annual figures relating to gold production.

There is fear and trembling among the office brokerage combine; this is occasioned by the report that ex-Gov. Ross may be appointed secretary of New Mexico. Should this happen the wall may not be very deep, but it will be very earnest, emphatic and sincere by those opposing the ex-governor in his own party.

The Las Vegas Optio draws a very gloomy picture of the lawless condition of affairs in San Miguel county; in Santa Fe county, thanks to a Republican county administration, everything is peace, quiet and order, although some of the old gang and miscreants, encouraged probably by the change of administration, are rearing their ugly heads above the horizon; they had best beware though.

It looks as if Fourth Assistant Postmaster General Maxwell, who is chopping off the heads of fourth-class postmasters at the rate of a hundred a day, is too busy to read the remarks of that eminent would-be reformer, Carl Schurz, upon civil service reform and the tenure of office, that should obtain in this country. Sad, but true.

## THE NAVAJO WAR.

The Aztec Index, published in San Juan county and in the immediate vicinity of the recent alleged Navajo outbreak, asserts that there was about a hundred times more Indian war in the Denver newspapers than there really was in San Juan county. That's about the size of it. The New Mexican took no stock in the reports, knowing the Indians, the situation and the conditions obtaining on the San Juan and Las Animas. However, it's over now and let it rest.

## AGAINST SILVER.

It is undoubtedly true that President Cleveland is playing for time in postponing, as he has, the assembling of the international monetary conference. He is making his appointments and pulling all his wires to bring the silver purchasing out into as much disfavor as possible, and he knows the reassembling of this congress would cause the Wall street agitators to cease for the time being their fight on silver. This would interfere with his plans in that it would leave him practically alone in the fight. The west will not have much difficulty in seeing through this, the president's latest move, against bimetalism.

## THE LONG DROUGHT.

The present spring season seems to be decidedly out of joint. For four weeks or more storm clouds and cold weather have hovered over the central western states and steadily the storm center—contrary to all weather rules—has moved westward till it is now over the Rocky mountain country and May in this section, which is usually a dry month, promises now to prove wet one—and if it does it will prove a God-send. People have generally no idea of what disaster has come to the southwest in late years for lack of water. In this territory the rainfall has been running behind the normal supply for nearly two years. In western Texas there has been a long drought, and in northern and central Mexico the situation is deplorable. Water is scarce and food is scarce. There is a drenching rain serves as a purifying agent upon the health of a community; it imparts new life to the domestic water supply and purifies the atmosphere. For three years Mexico has been minus these healthful agencies, and as a result people down there are dying like sheep of typhus fever. A soaking rain would be a blessing to New Mexico, worth at this time millions of dollars in starting the streams and replenishing the grass crop, now worn bare to the roots, but to the poorer classes of Mexico it would come as a benediction in the saving of life. It is earnestly hoped that ere many days the now gathering clouds will bring relief.

## BET SUGAR AND DELEGATE JOSEPH.

The American Agriculturist in a recent issue, speaking of the beet sugar factory at Lehi, Utah, remarks:

"One typical factory [at Lehi, Utah] is equipped with machinery made in the United States. It is the result of American faith and brains and labor."

"The factory cost over \$500,000, of which \$850,000 were expended for machinery. Over 5,000,000 pounds of refined granulated sugar are annually manufactured. All this is done in the midst of a farming community in the heart of what was once termed the Great American Desert, and in a region which is not noted for its manufacturing facilities."

A late test of beets grown in our own territory showed that a greater amount of saccharine matter was extracted from these beets than from any others grown in the west. Here is a subject which the New Mexican commends to the earnest attention of Delegate Joseph. Will he use his influence with Mr. Cleveland in favor of the present bounty and enable our honest farmers to utilize their broad acres and put money in their not too plethoric pockets? The New Mexican fears he will not, as he is too busy just now in formulating charges against Republican office holders. And then again he must support his party, no matter how that affects his constituents.

## Press Comments on Territorial Affairs.

### Mr. Joseph's Treachery.

Some of the Democratic papers are making some very strong remarks about Mr. Joseph. Mr. Joseph's treachery is much stronger than that of his followers, hence the angry wall.—Chloride Black Range.

### Delegate Joseph's Stronghold.

While New Mexico's congressional representatives may not be endowed with that wit and intelligence that goes to make a good, live statesman, no one can accuse him of not drawing his salary regularly.—Chloride Black Range.

### Waddingham on Irrigation.

The interesting interview with Wilson Waddingham on the subject of irrigation which appears in this issue, is of vital concern to the people of this city. The article is creating considerable interest, having been printed in full in both the Santa Fe New Mexican and the Las Vegas Optio. Mr. Waddingham is making every effort to interest capital in this valley, and when he succeeds, as he surely will, the valley of the Rio Grande will rival California in the abundance and luxuriance of her products.—San Marcial Bee.

### New Mexico Wants a Statehood.

New Mexico wants statehood and she is entitled to it by population, by agricultural and mineral resources and by wealth in general. When the senate committee visits us this summer it should be the duty of every citizen with whom they come in contact, to impress upon the minds of those who compose the committee. They should be taken all over the territory and shown its prosperity and ever increasing wealth.—Aztec Index.

### San Juan County's Sheriff.

San Juan county people are and they have a right to be proud of their sheriff for the way in which he conducted himself in the recent Indian scare. Few men in his place would have stood up under the pressure brought to bear on him in so cool and conservative a manner. His actions plainly show that he is equal to any emergency that may arise during his term of office and over which he may have jurisdiction.—Aztec Index.

### The So-called Navajo War.

The so-called Navajo war is entirely over, and it is to be hoped that the public

will learn a lesson from the unnecessary excitement which was started up over the alleged threatened outbreak. Every spring somebody starts a report that the Navajos are about to go on the war-path, and it is time the practice were stopped. Such reports go east and the people who read eastern newspapers get the idea that the inhabitants of the country adjacent to the Navajo reservation are in danger of death at the hands of savages. It is needless to say that this hurts Colorado, New Mexico and Arizona. It is an injury, too, which need not be inflicted. The Navajos are barbarians, but they are not savages. They own flocks and herds, and they have no disposition to engage in war with the whites or with any other Indians. They are peaceable, orderly, well-behaved people, and the inhabitants of the country adjacent to their reservation are in no danger whatever.—Denver Republican.

## The Revenue Collectors for New Mexico and Arizona.

The New Mexican announces that C. M. Shannon, the Arizona candidate for internal revenue collector, will make Santa Fe his headquarters, if appointed. This fact ought to extinguish Mr. Shannon's prospects. The only imaginable claim he can have to the office is as an Arizona man, and on the ground that Arizona should now be entitled to the place, since New Mexico has filled it for two terms. This claim is negated by the fact that three-fourths, or more, of the business of the district comes from New Mexico. Consequently, New Mexico should be entitled to the office. But if Mr. Shannon is not an applicant from Arizona, if he is simply one more among the many applicants from New Mexico, his claim should not be worth a mill on the dollar. Should this particular piece of patronage go to Santa Fe, B. Seligman is the candidate who ought to get it; but inasmuch as Santa Fe has gotten the governorship and will probably get the secretaryship, Las Vegas should get the collectorship, in the person of M. S. Hart.—Las Vegas Optio.

**"LOOK UP"** and not down," if you're a suffering woman. Every one of the bodily troubles that come to women only has a guaranteed cure in Dr. Pierce's Favorite Prescription. That will bring you safe and certain help. It's a powerful general, as well as uterine, tonic and nerve, and it builds up and invigorates the entire female system. It regulates and promotes all the proper functions, improves digestion, enriches the blood, brings refreshing sleep, and restores health and strength.

For ulcerations, displacements, bearing-down sensations, periodical pains, and all "female complaints" and weaknesses, "Favorite Prescription" is the only guaranteed remedy. If it ever fails to benefit or cure, you have your money back.

Can you think of anything more convincing than the promise that is made by the proprietors of Dr. Sage's Catarrh Remedy? It is this: "If we can't cure your Catarrh, we'll pay you \$500."

Deprived of health, there is no pleasure in living. Dr. Williams' Little Early Risers are pills that produce health. They aid digestion regulate the bowels and cure constipation. New Mexico Drug Store.

**Notice for Publication.**  
[Homestead No. 3121.]  
LAND OFFICE AT SANTA FE, N. M.,  
April 7, 1893.

Notice is hereby given that the following named settler has filed notice of her intention to make final proof in support of her claim, and that said proof will be made before the probate judge or clerk of Taos county, at Taos, N. M., on June 26, 1893, viz: Maria Ines Serna, of Cerro, N. M., for the s e 1/4 sec. 19, tp. 30 n., r. 13 e.

She names the following witnesses to prove her continuous residence upon, and cultivation of said land, viz: Jose Damian Archuleta, Juan M. Gomez, Eugenio Gonzalez and Manuel T. Quintana, all of Cerro, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason, under the law and the regulations of the interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

A. L. MORRISON, Register.

**Important to Travelers.**  
By taking the Burlington you have the choice of routes either via St. Louis or Chicago; also the advantages of the superior service and quick time afforded by their fast special trains leaving Denver daily at 9 a. m. and reaching St. Louis at 3:05 and Chicago at 3:45 the next afternoon. Equipment first-class and all meals en route served in famous Burlington dining cars. For full information call on any railroad ticket agent or address G. W. Vallenty, Gen. Agent, 1700 Larimer street, Denver, Colo.

## PROFESSIONAL CARDS.

### ATTORNEYS AT LAW.

LAND OFFICE AT SANTA FE, N. M.,  
April 18, 1893.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the probate judge or clerk of Taos county, N. M., at Taos, N. M., on June 26, 1893, viz: Jose de los Angeles Garcia, of Cerro, N. M., for the s e 1/4 sec. 28, tp. 30 n., r. 13 e.

He names the following witnesses to prove his continuous residence upon, and cultivation of said land, viz: Antonio C. Quintana, Juan M. Gomez, Manuel T. Quintana, Henry J. Young, of Cerro, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason, under the law and the regulations of the interior department, why such proof should not be allowed, will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

A. L. MORRISON, Register.

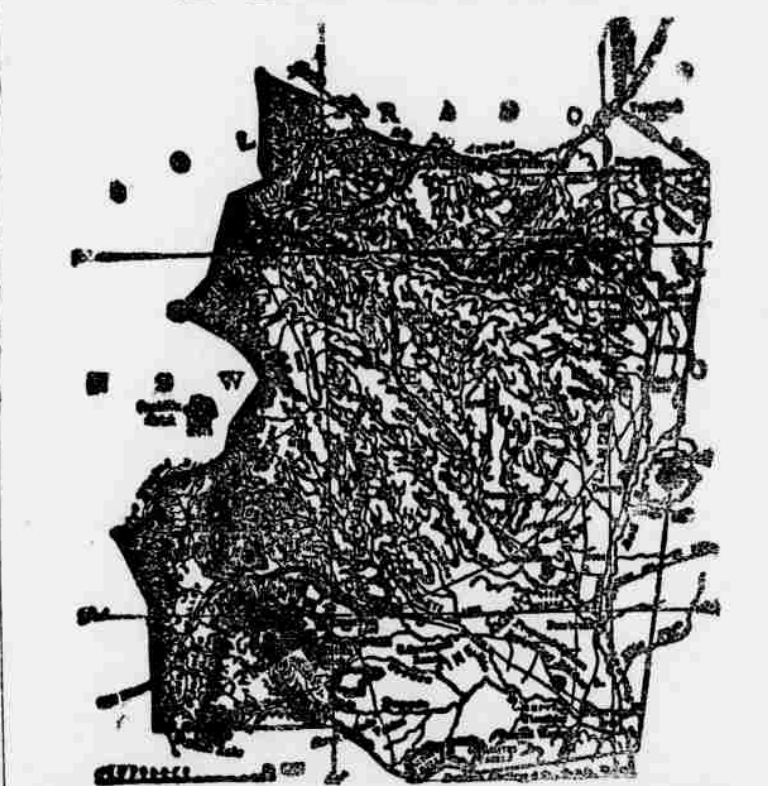

# THE MAXWELL LAND GRANT

## Farm Lands!

### UNDER IRRIGATING DITCHES

#### Choice Mountain Valley and Lands near the Foot Hills

## FOR SALE

For the irrigation of the prairies and valleys between Baker and Springer one hundred miles of large irrigating canals have been built or are in course of construction, with water for 25,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.
