BRIEF WIRINGS.

Events at the World's Fair.
CHICAGO, May 17.—This is Washington day at the World's fair. It is also the date for the formal opening of the Norwegian building.

Cotton Short.
MEMPHIS, Tenn., May 17.—The lands overflowed by the numerous breaks in the levees will yield no cotton crop this year and the loss will be great.

Cholera Breaking Out.
HAMBURG, May 17.—Considerable excitement has been caused here by the official announcement that a laborer has died of Asiatic cholera at Schiffler near Hamburg.

Shipment of Gold.
NEW YORK, May 17.—The bank of British North America will ship \$500,000 on the steamship Majestic, sailing for Europe to-day. This makes the total to be shipped \$1,500,000 for this week.

To Repeal the Sherman Act.
BIRMINGHAM, Ala., May 17.—A resolution was introduced in the Alabama Bankers' association requesting senators and representatives from Alabama to vote for a repeal of the Sherman act. It carried by a majority of three.

Cyclone in Line.
BALTIMORE, May 17.—An illuminated bicycle carnival will take place here to-night in celebration of the inaugural of smooth pavements in Baltimore. Invitations were extended to all the clubs of the country. There will be, according to estimates, about 1,200 wheels in line.

Crushed Her to Death.
CHICAGO, May 17.—Mrs. J. E. Clough, wife of the well known Baptist missionary, met a frightful death. She was killed by a folding bed, which closed upon her and crushed her body into an insensible cloud, while her daughter stood by powerless to prevent.

Getting Anxious.
CHICAGO, May 17.—Is the great World's fair insolvent? That is the question which is being asked by hundreds of people here and elsewhere. Thousands of workmen have not received their pay for last month. Another day will soon be here and contractors are behind. The attendance does not materially increase.

The Rate War.
CHICAGO, May 16.—The A. T. & S. F. notice of withdrawal from the Western Passenger association expires on Saturday, and a meeting of general managers has been called for Friday to see if matters can be arranged so that the A. T. & S. F. will remain in that association. The A. T. & S. F. all along has been in favor of a lower rate to the World's fair than that officially adopted by the association and it will now insist that some concessions be made to its wishes in this regard. It will ask that the round trip from Denver to Chicago be not over \$27, and from Kansas City \$16 to \$16. If it cannot obtain these rates or their equivalent, its notice of withdrawal will hold good, and there will be lively times in rates east of the Missouri river.

More Failures.
LONDON, May 17.—The failure was announced yesterday of the City of Melbourne bank, limited.

Bloomington, Ill.—The Exchange bank of Tormal, a suburb of this city, closed its doors yesterday. The crash has been expected some time. The deposits average \$30,000.

Milwaukee.—H. Penner & Co., whose bedding factory was burned last week, made an assignment yesterday. Assets, \$20,000; liabilities not stated.

New York.—Erastus Wiman yesterday made a general assignment to Lawyer David Bennett King.

Minneapolis.—The Northwestern Guarantee Loan company has not yet suspended, although the officers admit that the stringency will probably compel them to do so. In all probability the investors will be paid in full, as the securities are large and generally of good quality.

Priscana Rejoice.
SAN FRANCISCO, May 16.—A thousand people last night celebrated the delivery of the anti-Chinese decision. The chief addresses were made by Dr. C. C. O'Donnell and Dennis Kearney. It was decided to hold a procession next Saturday night in which all labor unions have been invited to take part. In discussing the decision editorially it is the opinion of most of the papers here that the time for allowing Chinese to register should be extended. Several misconceptions predict that the enforcement of the law will result in the immediate deportation of thousands of Americans who are now in China, either engaged in business in merchandising, or the immediate cessation of all diplomatic relations on the part of the empire with this country.

WASHINGTON BUDGET.
Presidential Appointments—Sensitors Coming—National News Notes.

WASHINGTON, May 17.—The president has announced the following appointments:

A. C. Baker, of Arizona, to be chief justice of the supreme court of the territory of Arizona.

Benjamin P. Moore, of New York, to be collector of customs for the district of Alaska in the territory of Alaska, vice Edwin T. Hatch, removed.
William H. Pugh, of Ohio, to be commissioner of customs, vice S. V. Halliday, of Pennsylvania, resigned.
Robert H. Conner, of Tennessee, to be deputy first auditor of the treasury, vice Alex. F. McMillan, of the District of Columbia, resigned.

MAKING READY.
The senatorial committee which will investigate the condition of the territories in order to report on the advisability of admitting them as states, consists of Senators Fannin, White and Platt. The party will be accompanied by Sergeant-at-Arms Reed, of the senate, and will meet in Chicago on June 10, on which day they will start on their journey westward.

CHINESE BOARDED.
The naval officers here predict that the war with China is probable since the decision by the supreme court on the constitutionality of the Geary law. The decision was a great surprise to the members of the Chinese legation here, and they are at a loss to know what course to pursue pending instructions from their government.

NATIONAL NOTES.
W. E. Simonds, late commissioner of patents, is charged with giving and patent office secrets. An investigation has been ordered.

The Infanta is expected to arrive in New York Friday morning and come direct to Washington after leaving the ship. The program for her stay in this city includes a dinner to the Infanta and her party by President and Mrs. Cleveland at the White House.

The president and Mrs. Cleveland have moved out to their country home. Members of the family are looking forward to an interesting event to occur in the city in July. This expected event explains why the president and Mrs. Cleveland have been somewhat anxious to get into their own country home for the summer.

Rewards Offered.
No trace has yet been had of the body of J. Placido Romero, drowned in the Rio Grande at Los Lunas on the 11th inst. A. A. Romero, son of deceased, announces that he will pay a reward of \$300 for the recovery of the body.

Sheriff Laird, of Grant county, sends out the following:
A reward of \$500 in gold is now in bank and will be paid by me for the body, alive or dead, of Nasario Baldez, alias Celso Anaya, who killed Constable Frank Schutz, of Pyramid, between Donaldson's well and Silver City, Grant county, N. M., on Thursday, May 11, 1893.

The murderer is a Mexican, about 35 years of age, light complexion, six feet or more in height, light mustache. Was married in Colorado, Dona Ana county, N. M., to Pabia Sylvia y Baca de Valdez. Is believed to have been in jail in El Paso within the last few days. At the time of the murder he was aided by David Ramirez, who is also wanted.

Rio Hondo Mines.
There is a good deal of snow yet in the mountains, but the townsfolk at Arizaca, is free, and the work of laying it out is progressing rapidly.

The Rio Hondo Mining company has secured title and are selling lots at \$100 and \$150 each, giving warrants deeds, the purchaser doing his own felling of trees, as the site is in the woods. About twenty men are employed in cutting out the main street.

There are from 150 to 200 people in the camp; sixty-five lots have been sold; and the demand for lumber at \$20 per 1,000 is greater than can be supplied. One large livery stable, a boarding house, a tent for a livery and feed stable, two saloons, one dance hall, a real estate office, a butcher shop and fifteen or twenty residences, at present constitute the town. For stores are in process of erection, and the demand for carpenters is good.

The company has not, heretofore, favored publication of facts concerning the camp, as it has been too early in the season for profitable work to be done; but now they are spreading abroad, and the company has also let a contract for a concentrator, to be completed by the 1st of July.

Miners from Creede, and other celebrated camps, claim the Rio Hondo prospects the best they ever saw, and this report has gone abroad. Consequently, miners are gathering in from every direction. They are to be met with on every road. The Lone Star mine, situated on the town site, has a shaft sixty feet deep, which passes through fourteen feet of ore. Eighteen inches of this yields at the rate of 300 ounces to the ton, while the remaining twelve and a half feet give good concentrating ore. Other promising prospects are the Bijon, Black Hawk, Yellowstone, Gray Eagle and a number of others.

But it is too soon for anyone to go there except miners. There is no money in the camp, and there will not be any till after shipments begin to an important extent and until the concentrator shall have been completed and gotten down to regular work. Those who do not go for a number of weeks yet, will be fully in time.

Notice to the Public.
We the undersigned sell the only genuine W. J. Lem's St. Louis lager beer in kegs or bottles. See that our name is on the labels. All other beers sold under a St. Louis label without a name are imitations. Knecht Bros, Sole Dealers.

TERRITORIAL TIPS.

ALBUQUERQUE ATOM.

The artisan well project seems to be out of luck.

The work of laying the foundation of the Gosa military institute has begun.

The spring races will start on Thursday, May 18, and the trotting and running events will be exciting.

Gov. Shover and son Roddy, left last evening for Chicago, where they will remain for six weeks. Mrs. Shover intends to visit the World's fair about the middle of September.

La Opinion Publica, the Spanish journal, published in the old town by Pedro Garcia de la Lanza, contains a long editorial to the effect that the voters of old town ought to select school trustees regardless of party affiliations.

The present Democratic city council expresses a determination to thoroughly investigate the acts of the last Democratic council. They will no doubt find plenty of material upon which to work.

A new Odd Fellows lodge will be instituted in this city in a short time. It is understood that the initiation fee and monthly dues will be much larger than are now in force by the present lodge.

The receipt on tendered J. J. Frey, general superintendent of the Atchison, Topeka & Santa Fe railroad company, at the Commercial club, was well attended, and Mr. Frey expressed himself very forcibly upon several subjects of vital importance to the city.

Rev. T. S. Wilcox, pastor of Trinity church, Lima, Ohio, and Miss Albert F. Smith, daughter of Rev. I. N. Smith, were married on May 23. Mr. Wilcox will be remembered in this city as a former superintendent of the New Mexico M. E. mission, afterwards going to the Navajo agency at Fort Defiance, A. T.

LAS VEGAS LOCALS.
Margarito Romero underwent a preliminary examination, for the shooting of Julio Garcia. He was not held.

The 1st of June, the railroad company will pay on a hot springs coupon ticket, for \$100, good for the round trip and for a meal at the Montezuma.

There are still two cases of scarlet fever in town. They have been quarantined and every precaution taken to prevent a spread of the deadly contagion.

The rains on Saturday and Sunday, and on the Saturday and Sunday previous, have done an immense amount of good throughout this entire section.

It is reported that Mrs. Pettijohn, the only Las Vegas lady lawyer, was contemplating a change of residence to California, seems not to have been well founded.

The 17th public recital of Prof. Jao. A. Harde's pupils, assisted by Mrs. Greene and Miss Atkins, will be given at the Tamme opera house, Thursday evening. Jose A. Albino has again been assaulted by Jose Chavez. Must like fatalities, those fellows. Don Jose No. 2 also landed a telling blow on the face of Tom McElroy.

SILVER CITY SIGHTINGS.
Another fine rain hereabouts on Sunday.

Mills which have been closed down or running on short time on account of the scarcity of water will soon be running on full time again. There is plenty of surface water.

Seventeen cars of freight for this place have been received in the past two days. Some of this freight has been on the road for more than a month, having been delayed on account of the strike.

Cattlemen are still having difficulty in getting cars in which to ship stock, but they are not so anxious to ship now as they were a week ago. At that time the cattle which were being held for shipment were suffering for want of feed and water, but now the stock can be held on the ranges for an indefinite period.

Cattlemen expect to be able to commence the annual round ups within a few days. The range will be in better condition in two weeks than they have been for years, and as the number of cattle has been very materially reduced within the past two years, the stock remaining on the ranges will be in fine condition this summer.

The Mexican who murdered Constable Schatz at Casas Flat last Thursday afternoon, and his companion, had not been caught at last accounts, but a deputy was close on their trail and they may have been caught by this time. Before leaving this place they secured a Winchester rifle in addition to the two revolvers which they had taken from the constable and guard. They went to Central City, thence to Santa Rita, where they were seen by the stage driver and from there headed toward Mimbres.

WHAT WATER DOES AT EDDY.

J. S. Osborne is making preparations to erect a fine business block.

F. Dominice's \$4,500 residence has been completed by J. A. McLean.

Wm. Murry is completing the work on the residence of W. H. Millana.

The house built by W. E. Palphrey, on Hagerman street near Canal, is ready for rent.

J. A. McLean is just completing a \$5,500 residence in La Huerta for G. Compton.

W. T. Doster is building a small house just north of Alameda street for Mrs. Skeats.

The \$10,000 school house is nearing completion, at the hands of Contractor Foley.

Witherspoon & Dorkins have just completed a neat cottage in La Huerta for W. H. Woods.

Witherspoon & Dorkins have just completed the Vand school house. The contract price was \$1,000.

The Farwell house, being erected in the southwest part of town, by W. T. Doster, is nearing completion.

F. G. Tracy has let a contract to Monroe & Alcox to build a four-room house on Greene Highlands, for \$1,000.

E. L. Greenleaf has taken a contract to erect a five-room residence on the corner of Canyon and Hagerman streets.

George Monroe & H. C. Alcox have received a contract to build a six-room house for J. H. Roxburg, on the corner of Stevens and Hagerman streets, for \$1,350.

McLean Bros. are erecting a handsome brick and frame residence in La Huerta for themselves.

Lucina Anderson is building a \$2,200 house for S. W. Rosell on Greene Highlands. Also an \$1,800 cottage near by for the elder Mrs. Skeats. He has also just about completed a \$1,600 building on the same street.

Mr. E. H. Churchill
Mt. Vernon, Wash.

An Honest Medicine

Rheumatism Cured—Health Built Up.
Mr. Churchill, formerly of Churchill & Taylor, surveyors and civil engineers, Mt. Vernon, Washington, writes: "Southern California was my home for many years. When I came here I began to be afflicted all over with

Rheumatism
And also pains in my back and a general feeling of being run down. My business takes me out in the elements all the time, and I found myself unfit for work. Reading an advertisement of Hood's Sarsaparilla, and learning also that the medicine was compounded in my own State of Massachusetts, I concluded this may be an honest medicine. I took it and am so much improved that I am out

Hood's Cures
Sarsaparilla
in all weather and travel all day with no fatigue and tired feeling. To any one that feels bad all over I say take Hood's Sarsaparilla. It has cured me." E. H. Churchill.

New Mexican Printing Co.,
Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

WEDNESDAY, MAY 17.

A BURN WAR between the several large brewing concerns in St. Louis is on and the residents of that city are correspondingly happy.

The rate war between the Santa Fe and Rio Grande is off and many residents of Colorado and New Mexico are correspondingly unhappy.

To turn victors belong the spoils; vide the removal of U. S. Marshal Trinidad Romero and the appointment of Hon. E. L. Hall to that position.

In nearly all the counties of New Mexico are the expenses of the county governments greater than the receipts. A stop should be put to this. The sooner, the better.

Hon. SAM WATSON has concluded to make the race for governor of Georgia upon the People's party ticket, provided he can get the nomination. He wants to know "where he is at."

U. S. MARSHAL HALL it is to be. Mr. Hall's appointment, the New Mexican concludes, from his record, is a very good one and will meet with the approval of the good people of New Mexico.

According to all accounts the editors of the city of Memphis have adopted the Parisian plan of fighting duels; it is the safest plan, gives them notoriety and hurts nobody. Much better that than being shot and killed.

The county authorities should get a handle on themselves and send the quota of insane persons to be supported at the territorial insane asylum at Las Vegas from this county to that institution in a hurry. Every day lost means quite an expense to this county.

The office brokerage combine was not in it to any alarming extent in the appointment of Hon. E. L. Hall, as to U. S. marshal for New Mexico. Not to any such very alarming extent. It is understood that the Delegate Joseph supported Hon. Felix Martinez, of Vegas, for the position.

The conviction of P. A. Marcellino for pension frauds will have a very salutary effect. The cases against him, twenty-seven in number, were worked up by Pension Examiner Hall, brought before the U. S. grand jury by Assistant Attorney E. A. Fountain and tried in court by U. S. Attorney Fiske. These officials have made excellent records in their respective spheres in this case. In fact, U. S. Attorney Fiske's entire record is as good as can well be.

THE GEARY ACT.

The supreme court of the United States has decided the Geary Chinese exclusion act to be constitutional; that certainly seems about the only decision the supreme court could have arrived at. The United States has the absolute right and power to control immigration into this country and to say who shall live within the borders of the United States of America and who shall not. That is the milk in the coconut and lawyers quibbles and fine points can not change the point.

THE NEW CITY COUNCIL.

Upon the last city election, this journal told the citizens of this city, that a Republican majority in the city council meant a clean and energetic city administration; the Republican majority was elected and has set to work to give this city a clean and energetic administration. Already the city is cleaner than ever before, the streets will be sprinkled, the city marshal and the policemen are doing their duty and the provisions of the city ordinances are being carried out. The city council will be upheld and supported in its laudable efforts by all good and well meaning citizens. Let the good work for Santa Fe proceed.

THE NEW PECOS COMPANY.

This journal has been a staunch friend of the projects represented by the corporations, organized by Messrs. J. J. Hagerman, C. B. Eddy and their associates for the improvement and settlement of southeastern New Mexico and whenever the interests of that growing and very promising section of New Mexico could be aided any by this journal, this has been done. The New Pecos company, which consolidates all interests of the several old corporations, will prove beneficial to Eddy and Chaves counties and will bring about still more rapid growth and advancement of southeastern New Mexico. Its aims and objects are given elsewhere in this issue in an article taken from the columns of the Eddy Argus, a first-class weekly paper, published at Eddy.

FARMING IN NEW MEXICO.

The New Mexico farmers get better prices for products than those of any state, says the government agricultural report, because there is a home market for everything raised.

With all their red tape and theory sometimes the government's agricultural department runs afoul a fact, as the above clearly indicates.

This declaration by the department is an important one, not only because it contains so much of truth plainly stated, but because it indicates that the government itself is awakening at last to the fact, that New Mexico has agricultural resources which are beginning to command respect.

It is undoubtedly a fact that New Mexico farmers receive better prices for their products than those of any other section of country, and it is so from very natural causes. Here water is the basis of values and the area of land covered by water must ever be limited. We must therefore make up in value what we lack in extent, but it is easy enough done, and twenty acres under water in this country earns more for the thrifty farmer than 160 acres in Iowa, Illinois, Kansas or Missouri. Another cause for the profits in New Mexico farming is the excellent and constantly growing markets in a region of country to the north that can never compete in production with New Mexico and must continue to grow along one line only, that of consuming what New Mexico produces. The long haul from other points gives New Mexico practical command of these markets. It is for this reason that land and water in the valleys of this territory, where reasonable facilities for shipping abound, are worth more than in any other section of the west, not excluding California. Again, it may be noted that here there are no cyclones, no sun strokes, no fuel famines nor hub-deep muddy roads to embarrass the farmer and eat up his profits. Indeed the farmer in New Mexico can live "in clover" all the year round if he is thrifty and industrious. Is it not remarkable, these things being true, how the eastern agriculturist will cling to his back-number farm and boast of his "climate" and his "prosperity"?

THE PECOS COMPANY.

A New Move for the Benefit of South-eastern New Mexico.

The Pecos Company Organizes and Buys Control of All of the Old Companies.

The various companies, to which the development of the Pecos valley and its towns is owing, are to be controlled under a most excellent plan devised by President Hagerman.

It was found that the interests of the three companies were so intimate and intertwined that disagreements were liable to arise. So it was decided to harmonize all interests by having one new company own the controlling interests of the three companies.

The new organization called "The Pecos Company" has filed articles of incorporation in New Jersey, because that state has a law which specifically gives one company the right to own stocks of other companies. The principal office, however, will be in Colorado Springs, though a secretary and office will be maintained in Jersey City. The capital stock is \$5,000,000.

The articles of incorporation state the purpose of the company to be to aid and promote enterprises for the development and exploration of agricultural and mineral lands or other resources, natural or artificial, in the valley of the Pecos river in New Mexico and Texas. The company will equip railroads, telegraphs and electric light gas and other plants. The incorporators are James J. Hagerman and Thomas H. Edsall, of Colorado Springs, and Charles A. Otis and Richard J. Bolles, of New York.

The object of this move is to strengthen the financial basis of the development so grandly begun and prepare for more extensive operations. The task of constructing irrigating works of sufficient capacity to control and distribute all the water supplied by the Pecos river proved more extensive and expensive than was expected. But the company wisely made its improvements in such a manner as to control the whole situation and leave no room for rival companies to establish conflicting interests, but having completed this un-

Copyright 1915

In the train of diseases that follow a torpid liver and impure blood, nothing can take the place of Dr. Pierce's Golden Medical Discovery. Nothing will, after you have seen what it does. It prevents and cures by removing the cause. It invigorates the liver, purifies and enriches the blood, sharpens the appetite, improves digestion, and builds up both strength and flesh, when reduced below the standard of health. For Dyspepsia, "Liver Complaint," Scrofula, or any blood-taint it's a positive remedy. It acts as no other medicine does. For that reason, it's sold as no other medicine is. It's guaranteed to benefit or cure, or the money is refunded.

der taking must now expend more money in fully perfecting its plan.

It is also considered necessary in order to bring company lands and those of individuals who should buy water for irrigating purposes within reach of railroad transportation to extend the Pecos Valley railroad to Roswell at once, a distance of eighty-five miles. The road was built to Eddy two years ago, when there was not a house nor an acre of cultivated land along the entire distance of eighty-nine miles, but is now on a paying basis, the receipts having more than doubled last year. Yet it is not getting one-tenth the business it will when all the cultivable lands along the route are under cultivation.

The company also considers it necessary to extend the road northward to a connection at or near Las Vegas or some other successful point as soon as possible. This will give the products of the valley an excellent market, in the north, where they are wanted, and connect the whole valley with northern enterprise.

This extension is certain to have large local business, owing to rapid development of the country, but will have a greater traffic because it will be part of a through line between the Gulf of Mexico and California and the Rocky mountains.

The Pecos Valley Town company, a strong and successful factor in the growth of the country, has been entirely separate from the Pecos Irrigation & Improvement company and the Pecos Valley railroad company, but now goes into the combination.

The first board of directors of the Pecos company will be Wm. McMillan, of St. Louis, John Statterfield, of Buffalo, R. J. Bolles, of New York, Chas. A. Otis, of New York, Chas. B. Eddy and W. A. Hawkins, of Eddy, and J. H. Hagerman, of Colorado Springs. These gentlemen, most of these large capitalists, have wide reputation as successful projectors of great enterprises. That they are going to at once put \$5,000,000 in the further development work in the Pecos valley guarantees the realization of the rosiest hopes of the people here. The directors have all visited the valley, are thoroughly familiar with its conditions, and are making large expenditures in personal investments, besides joining in the general plan here outlined. This consolidation was in contemplation for some months, was thoroughly discussed and approved by a large majority of the stockholders of the three companies and probably will be by nearly all shareholders, all being allowed to come in, simply selling their stock for stock in The Pecos company.

"The Pecos company" has already found cash purchasers for stock sufficient to build the road to Roswell, complete the Seven Rivers and Roswell reservoirs, and provide for other necessary purposes.

The financial result thus secured by this combination guarantees early completion of all contemplated improvements in the Pecos valley.

It insures the building of the railroad, the completion of reservoirs and canals, the absolute control of all water of the Pecos and its tributaries.

It makes certain the rapid growth of the valley, and other various promising towns established, and the early colonization or settlement of all the agricultural land in the valley. It means that millions of money will be spent here in the next two years, and that for every million spent 10,000,000 will grow from development and the wealth resulting. It is highly complimentary to the projectors that their foresight in expenditures and general plans are now so readily endorsed by capitalists. There is an old saying that "cash talks." And the meaning of the expression is correct. Had there not been the fullest measure of success in what was undertaken, and did a shadow of doubt hang over the valley and its future, the enthusiastic men who have been on the ground and investigated would not invest their money. The people of the valley may well rejoice, for the uninterrupted flow of prosperity will be continued and accelerated, and in three years that will be accomplished in the way of peopling the country and making it productive which will make all previous progress seem to have been tardy indeed.—Eddy Argus.

THE NEW MEXICAN

THE MAXWELL LAND GRANT Farm Lands! UNDER IRRIGATING DITCHES

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairie and valleys between Eddy and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 15,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

Warranty Deeds Given

For full particulars apply to
The Maxwell Land Grant Co.
RATON. NEW MEXICO.

Where to Stop in Chicago.
The perplexing question which is every day asked by people who desire to go to Chicago to attend the World's fair is, "Where are we going to stay when we get there?" This is easily answered, and if you will go to the ticket agent of the Santa Fe, Mr. W. M. Smith, he will tell you. Arrangements have been made for the distribution by the Santa Fe company of a pamphlet entitled "Homes for Visitors to the World's Fair." This is a reliable pamphlet containing the names and addresses of about 9,000 families who will furnish accommodations to visitors from May 1 to October 31, 1918. The pamphlet also contains sectional maps which will enable the intending visitor to select any quarter of the city that he would prefer. Correspondence can then be carried on and definite arrangements made so that when visitors arrive in Chicago they can proceed at once to their quarters.

Star of the South.
Go to Velasco for health, sea air, and comfort; where ships too deep for all other Texas ports sail in and out with ease; where fruits ripen earlier and pay better than in California, where the soil is a natural hot-bed. Fresh vegetables all winter. Coldest day in three years 25 degrees above zero. Warmest day 92 degrees. Velasco offers the best investments in the south. Write the Commercial club, Velasco Texas.

Three-Minute Talks About New Mexico.
Is the title of an illustrated folder describing the farms, ranches, mines and towns of New Mexico. The profits of fruit raising are set forth in detail; also facts relative to sheep, cattle and general farming. No other country possesses such a desirable climate all the year round. Write to G. T. NICHOLSON, G. P. & T. A., A. T. S. F. R. R., Topeka, Kas., for free copy.

BURLINGTON'S NEW FAST TRAIN.
Only 28 Hours—Denver to Chicago.
Under its new schedule the Burlington route is enabled to offer increased facilities in train service and fast time from Denver eastward. Train No. 6, "The Chicago Special," leaves Denver daily at 9:00 a. m., reaching Omaha at 11:40 the same evening and Chicago at 2:15 the next afternoon, making the run—Denver to Chicago—in 28 hours and only one night on the road. This train has also through Pullman sleepers for Kansas City and St. Louis, making quicker time than any other line. Train No. 2, popularly known as "The Flyer," continues to leave Denver as formerly, at 8:30 p. m., reaching St. Louis at 7:10 and Chicago at 9:00 the second morning. Both of these trains consist of vestibuled Pullman sleepers, chair cars and diners, serving all meals on route. For full information, tickets and sleeping berths, call on local ticket agents, or address G. W. Valley, General Agent, 1700 Larimer street, Denver.

Don't You Know

that you can secure almost immediate relief from Indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with Indigestion and the like. It is the inaction of the Liver that causes Indigestion, and that fullness; also Constipation, and those Bilious Headaches, and Migrations have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unailing and purely vegetable.

From Rev. M. H. Watson, Baltimore, Md.
"It affords me pleasure to add my testimony to the efficacy of Simmons Liver Regulator. I have had experience with it, as do most of the people, for many years, and can say it is the greatest medicine of the age. It has cured me of all the troubles of the stomach, and I feel a new man."
