A Handsome  
Three-Quarter  
Life-Size.

We propose to give to each of our customers a handsome portrait of any one they may select. To this end we have made a contract with a leading portrait house to furnish us with their celebrated pictures. To those who have seen these portraits no word is necessary; and those who have not, we invite to inspect the samples at our store. We further assure you that if the portrait is not satisfactory, you need not accept it until it is.

The portraits are crayon and India ink and of a very fine grade. The same picture costs, when ordered of an agent or picture house, \$10 to \$18.

## BRIEF WIRINGS:

**We Must be Wary.**  
PARIS, June 13.—Nine deaths from a disease of a choleric nature occurred yesterday at Calais, department of Gard, South France.

**Banks Stood the Test.**  
DENVER, June 13.—A run on the savings banks of this city was begun today as if by a preconcerted arrangement of depositors. The banks met all demands, however, and the apparent scare soon subsided.

**First Seizure.**  
HALIFAX, June 14.—The first seizure of American fishermen this season in Nova Scotia waters occurred Monday. The American fishing schooner Lewis H. Chase, Capt. Jackson Warren, became the prize of the Canadian fishery protection cruiser Vigilant.

**A Valuable Adjunct.**  
DENVER, June 14.—Lieut. Peary has decided to take with him on his Arctic expedition a lot of burros to be used as pack animals. He has sent to Colorado for a number of hardy ones to be gathered and sent to him.

**Asked to speak.**  
PHILADELPHIA, June 14.—Ex-Postmaster General Wamamaker has telegraphed ex-President Harrison asking him to accept the invitation of city council to deliver an oration at the Fourth of July demonstration in Fairmount park. The ex-president has not yet replied.

**A Big Plant Shut Down.**  
INDIANAPOLIS, June 13.—The American Wheel company's hub and spoke factory shut down in all of its departments here for an indefinite time and dismissed all of its hands. The company's plants all over the country will shut down, and the factories closed at Memphis, Tenn., Paducah, Ky., and Humboldt, Tenn.

**Enlille was There.**  
CHICAGO, June 14.—The unique and attractive Spanish building at the World's fair, fashioned after a Spanish castle, was formally opened yesterday in the presence of Princess Enlille. In deference to her dislike for formalities, there were no speeches. The princess and royal party leave today for New York.

**World's Fair Rates.**  
FORT WORTH, June 14.—On next Friday Chicago rates will be cut \$5 from existing rates. This is expected to cause some demoralization. The Santa Fe announced the rate, but as yet other lines have taken no official notice of the announcement, or if they have their intentions have not been outlined. It is supposed, however, that they will all meet the Santa Fe rate, and then the fun will begin.

**The People's Party Convention.**  
WILLIAMSPORT, Pa., June 14.—The state executive committee of the People's party has fixed upon today as the date and the place for the state convention. The committee will express itself to-day in favor of a straight ticket and opposing fusion with either party on the state ticket. The basis of representation in the convention is one for each representative district and an additional one for each 100 votes for Weaver.

**The California Bandits Captured.**  
VISALIA, Cal., June 14.—After the capture of the noted bandit Sontag, who was wounded in the battle at Duinbia, his partner, Evans, took refuge in the house of a Mrs. Perkins. Deputy U. S. Marshal Hall with a large posse went after him. On secret information from Mrs. Perkins' son he was traced to his hiding place and arrested. The reward of \$25,000 standing for the capture of these outlaws will therefore be probably divided among the members of the capturing posse. This will end the criminal career of these outlaws.

**Lucky Pic Esters.**  
WASHINGTON, June 14.—The president has announced the following appointments:

Holmes Conrad, of Virginia, to be assistant attorney general, vice John B. Cotton, resigned.  
Henry C. Grady to be United States marshal for the district of Oregon.  
Daniel R. Murphy to be United States attorney for the district of Oregon.  
Bennington R. Biddle, of New Jersey, to be United States consul at Sheffield, England.

Robert T. Cook to be collector of internal revenue for the district of Arkansas.

Thomas J. Black to be collector of customs for the district of Oregon.  
Postmasters: Wm. H. Campbell, at Fairmont, Ind.; Frank Ehrens, at Huntington, Ind.; Henry Schifman, at Martinsville, Ind.; Wm. W. Timone, at Portland, Ind.; Henry S. Martin, Oelwein, Iowa; Robert P. Kearney, Sheldon, Iowa; John J. Hulse, Newport, Ky.; Jos. E. Blonin, Baton Rouge, La.; D. F. Rice Porter, Jackson, Miss.; H. M. Hanning, Ada, Minn.; Jefferson P. Bradley, Linn, Mo.; John D. Bohling, Versailles, Mo.; Sophie Booth, West Point, Mo.; Samuel A. Dunbar, Gallipolis, Ohio; John E. Lohman, Hamilton, Ohio; Chas. F. Prentiss, Monroeville, Ohio; O. V. Adams, North Baltimore, Ohio; Frank A. Hackett, Wellston, Ohio; Charles C. Guesber, Ashland, Pa.; Hannah G. Dennison, Belton, Texas; R. G. Yantiff, Willis Point, Texas; Wm. J. McCoy, Lancaster, Wis.; John Ringle, Wausau, Wis.; Julius Thielman, Merrill, Wis.; Henry Crenshaw, Waukegan, Wis.

## THE ARMY.

The Long-Expected Shake-up of Department Lines Soon to Come.

WASHINGTON, June 14.—The eight military departments of the United States are about to undergo some important changes. The order assigning Gen. Canby to the department of the Columbia has for this reason been revoked and he will be given another station for the brief period he has to serve on the active list.

It is understood that Gen. Schofield, in the project he is preparing, contemplates the re-establishment of at least two or three division commands which were abolished by ex-Secretary Proctor. The project, it is believed, calls for a division of the east, with Major Gen. Howard in command, and a division of the west, with Major Gen. Miles in command, the geographical limits being changed in such a way as to bring the third, commanded by a brigadier general, under the command of each of the two division commanders. No change will probably be made in the headquarters of Generals Howard and Miles. They will be at New York and Chicago respectively, but will have their commands enlarged by the additional jurisdiction over their six military departments.

Gen. Miles, if the plan as anticipated is carried out will have his responsibility largely increased, as all the big western military departments, including the Pacific slope, would come under his jurisdiction. Changes in some of the department headquarters may also be made. That of the department of Arizona is almost certain to be transferred from Los Angeles, to Fort Logan, Colo.

The changes will probably not take effect until early autumn, but will be announced at an early date, to allow those concerned an opportunity to prepare for a change of base.

## More Failures.

OMAHA, June 14.—The state bank examiner has closed the doors of the McCague Savings bank. No statement of the bank's condition has yet been issued and it is impossible to estimate the assets and liabilities. John L. McCague, vice president of the suspended bank, said that the suspension was due solely to an inability to realize on securities. He fixed the liabilities at \$400,000 and estimated the assets of the bank at from \$400,000 to \$475,000. He stated positively that the depositors would be paid in full.

The American National bank was closed by an order of the controller of the currency yesterday. Runs started on the Globe Loan & Trust company, the Dime Savings bank, the German Savings bank and the Nebraska Savings bank. No statement of the condition of the American National was made at once, except the fact that the clearing house refused to assist it. It is understood that its affairs are entangled with those of the McCague Savings bank.

The run was of extensive proportions on the Omaha Savings bank, and all the morning the bank was besieged by depositors. Senator Manderson and Vice President Kimball, of the Union Pacific, directors of the bank, made speeches to the excited depositors, guaranteeing them their money, but the run continued. Salt Lake, Utah.—The Park City bank has suspended, assigning to E. Kimball, liabilities, \$120,000; assets as much, and the claim is made that it will shortly resume. The assignee says depositors are to be paid 80 cents on the dollar.

Kansas City.—The People's Guarantee Savings bank has made an assignment for the benefit of its creditors. The liabilities are supposed to be \$750,000 and the assets between \$50,000 and \$65,000.

## Oppose the President's Views.

WASHINGTON, June 14.—Congressman Rayner, of Maryland, who will probably be chairman of the house committee on banking and currency during the 53d session, does not think that the Sherman law can be repealed. He is a strong anti-silver man, and says the coinage committee will be controlled by the silver men. He does not believe the silver men will even compromise on the question.

## A Disastrous Blaze.

New York, June 14.—Fire yesterday in a six-story sweat-shop, where 800 men and women were employed, caused the death of five people and the serious injury of a large number. The fire-escapes were found to be not one-tenth large enough. When the fire broke out a panic ensued. The poor wretches fought for places to get on the escapes, and the weaker went down. Some jumped from the upper stories to the sidewalk and were instantly killed or fatally injured. The entire building was gutted an hour after the fire started.

## CONDENSED NEWS.

Mgr. Satolli is to visit the Pacific coast, going via St. Paul and visiting Helena, Mont., the Yellowstone park, Spokane, Tacoma, Seattle, Victoria, British Columbia, Portland and probably San Francisco.

The Charles P. Kellogg, Clothing & Men's Furnishing company of Chicago, has assigned because of the impossibility of negotiating commercial paper. They were heavily loaded with goods for a big World's fair trade.

The New York Times has heard from only fifteen senators and 104 representatives in its attempt to canvass congress upon the repeal of the Sherman act. Of these eighty-eight favor repeal, twenty-eight oppose it and eight are undecided.

## CANA-AGRIA CRUMBS.

Facts of Moment Relative to a Wonderful New Mexico Product.

Bernard D. Thorne, the father of tanning with cana-agria, is the patentee of many processes for tanning with this plant, and has planted about 1,000 acres of it near Eddy. He has largely operated in the tanning plant (rumex hymenospales) and in the interest thereof has traveled all over New Mexico, Arizona, Texas and California. He is now experimenting with a plan for reducing the tanning contained in the plant to a solid extract by ways of electricity as a felter of a chemical process.

"There is a large and established market for cana-agria in Europe," remarked Mr. Thorne, "and on trials made by tanners it has proved to be far superior to any tanning material yet known, as it tans much faster, and gives a better consistency to the leather, as well as keeping the leather very pliable for many years."

"Cana-agria will yield a very good paying crop, and after cultivating the land a few years it will yield as much as \$180 clear profit per acre. The market value per ton green, is \$6, or dried and sliced \$65, F. O. B., in Liverpool. It takes three tons green to make one ton dry, in which state it contains about 80 per cent real tannic acid. Red sandy soils are best adapted for its growth and under irrigation will mature in one year, without in two years."

On this subject also the Eddy Argus says: G. Cuend has sent in to the immigration office a cana-agria plant of this year's growth, containing three roots, the largest of which is ten and one-half inches long and weighs fifteen ounces. Mr. Cuend has eight acres of cana-agria, all of which has made a fine growth.

Prof. Gulley, of the Arizona experiment station at Tucson, Arizona, again visited the Pecos valley this week. He is an authority upon cana-agria growing and believes it is to be the tanning agent of the future. He has made many experiments and demonstrated that cultivation by irrigation in the Pecos valley will be profitable. Bulletins issued by him on the subject of cana-agria are very instructive. Prof. Gulley says that there is little doubt that the Ammonites are going to establish extensive tanneries in Chicago and elsewhere to take care of their hides. They are not in the gigantic leather trust, which includes the tanneries and is said to have captured all the known supply of tannin in this country and Mexico. If the Ammonites propose to go into the business they may have to adopt cana-agria.

## El Paso's Sanitarium.

The solemn ceremony of the laying of the corner stone of the Hotel Dieu, the new sanitarium in this city, was witnessed Sunday afternoon last by a large number of people. The ceremonies took place at 4 p. m. and were conducted by Bishop Fitzgerald, of Little Rock, Ark., assisted by Rev. Fathers Oranger, Pinto and Bueno.

This building was commenced on April 1, and is being erected by the "Daughters of St. Vincent de Paul," (Sisters of Charity) whose head home for the United States of America is at Emmetsburg in the state of Maryland. The work is under the immediate supervision of Sister Stella (known in the world as Margaret Dempsey), superior of the sisters at this place.—El Paso Times.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, JUNE 14.

Mrs. Frank Leslie has received her divorce from the gentle Willie. Now let her keep her peace. The people are tired hearing of her.

The solid south wants an income tax; solid Wall Street is opposed to an income tax. How Mr. Cleveland will avoid this dilemma remains to be seen.

Courts appropriations are small; it is within the power of the presiding judge to see that these appropriations are properly expended and not expended for the benefit of political strikers in witness fees.

Gov. Thornton did the graceful and proper thing by appointing ex-Gov. L. Bradford Prince on the World's fair commission vice Llewellyn, resigned. The appointment is a very commendable one in every respect.

Vice, ignorance and idleness are the factors that promote crime. New Mexico must look to these and suppress them if she would prosper. Every element of good society should be enlisted in the cause of education for the masses.

From all reports the school-closing season now on in New Mexico is making a very gratifying showing of the past year's work. The public schools have prospered in all sections of the territory. This is a good sign of the times.

The committee of the United States senate to investigate the conditions of the territories may be here in August; this is the latest news in that direction. The New Mexican hopes that this territory will be able to make a favorable showing before the committee in question.

The best fruit on this continent is grown in this territory; the New Mexico fruit raisers and wine horticulturists should make a special point to have a large and creditable exhibit at the Chicago exhibition during the coming three months; they can do it if they but half try.

The miners and those interested in free silver in the county of Santa Fe and indeed throughout all New Mexico should bestir themselves and select delegates to the silver convention to be held in Silver City on the 4th and 5th of July next; that convention must be made a success.

CONCERNING the Pueblo Indian agency for the Pueblos and Jicarillas with headquarters in this city, the New Mexican's information from Washington is to the effect that an officer of the U.S. army will be detailed at an early date to take charge of it. The New Mexican has more information concerning the agency in question, but proposes to hold on to that for the time being.

The St. Louis Republic has joined the free silver army and talks right out in meekness for the cause of the west. It calls upon congress to repeal the Sherman act and provide for the free and unlimited coinage of gold and silver "on the basis of the constitution." This is good sense. "On the basis of the constitution" is particularly good. It takes the silver question clean out of and beyond all political lines. Let the good work go on.

CRIME must cease; the New Mexican hopes and expects that the present grand jury in this county will do its duty fully and fearlessly, carefully and impartially, investigate the several crimes that have disgraced this county during the past few years. But at the same time the grand jury should act justly and deliberately and should not be swayed by prejudice or to please any one in power. Let it do its duty, but no more and no less than its duty.

MAJOR LLEWELLYN'S RESIGNATION. Gov. Thornton has accepted Major W. H. H. Llewellyn's resignation as a member of the New Mexico board of

World's fair managers. For three years past has Major Llewellyn labored hard and faithfully as secretary of the board. He worked for the territory without pay, and very often without thanks. He certainly did the best that could be done under the circumstances and made a faithful and energetic official. His duties with the Santa Fe Railroad company now demand his entire time, and this and some private business affairs induced him to tender his resignation. He retires from the board with the consciousness of duty well and efficiently performed and is certainly entitled to the gratitude of the people of New Mexico for his unselfish and devoted work as secretary of the board of World's fair managers of New Mexico.

**SUGAR BEETS.**  
Since 1890 the best sugar yield of Germany has decreased 10.05 per cent. The acreage has also contracted from 336,454 hectares, (a hectare equals about 2 1/2 acres) to 329,918 hectares. There has also been a corresponding decrease in price and profits. These figures are from the latest consular reports, and show how important the American sugar industry is becoming. The solons at Washington may well pause before they destroy the effects of the wise statesmanship that has fostered and encouraged sugar beet raising on American farms. It will be remembered that the New Mexican lately published the statistics showing that this territory leads the world in character of sugar beet growth.

**CO-OPERATIVE MINING.**  
The leasing system of working mines, which has come into much popularity in New Mexico camps in a few years, is spoken of by practical mining men as possessing many advantageous features over the old plan of mining corporations employing day labor. As is well known, love of the exciting chase for rich mineral, the hope of "striking it rich" with every stroke of the pick, is a very material incentive to the mining man. The day laborer has little of this, but put him to work on the lease system and he not only has this additional incentive, but becomes personally interested in the success of the mine, and his pay is in proportion to his labor, his skill and his good fortune. Again there is the co-operative principle involved that serves greatly to bridge the chasm between labor and capital and causes these two wealth producing agencies to move forward hand in hand for the common success of both. New Mexico mining corporations will do well to encourage the lease system.

## THE SPIRIT OF THE PRESS.

**After the Veterans.**  
In 1864 the Democratic party at Chicago resolved that the war was a failure. The party has waited for thirty years to get a chance to punish the soldiers who made the war a success. Now they are to be punished. Spies have been asked to pursue them, and their pensions are to be cut off.—Rochester Democrat and Chronicle.

**The Explanation is Different Now.**  
There are times when those not accustomed to telling the truth are forced to do it. For that reason papers which, last October, were declaring that 65 cent wheat was due to the Republican tariff policy, which kept it from "the markets of the world," are now showing that wheat brings only 63 cents, because the market is crowded.—Indianapolis Journal.

**No Class Taxes for Americans.**  
The whole spirit of our government, which declares every citizen equal before the law, is antagonistic to class distinctions of any and every kind, and any class tax is abhorrent to the spirit of our constitution, as it is in its very nature undemocratic and un-American. If incomes are to be taxed let them all, each for itself, contribute a fair share of the general amount.—Philadelphia Ledger.

**Make the Contest Interesting.**  
Lawrence T. Neal, of Chillicothe, Ohio, appears to be in the lead as the Democratic candidate for governor against Major McKinley, the present executive of that state and a candidate for re-election. As Mr. Neal is an advanced thinker and debater on the free trade side of politics, the contest would be an interesting one should he be chosen to combat the great apostle of protection.—Denver Sun.

**The Silver Sentiment Growing.**  
It is entirely safe to assume that there are more advocates of silver, not only in the United States but throughout the entire civilized world, at the present time than ever before. Every day adds largely to the number of intelligent men who believe that the single gold standard will not meet the requirements of modern times, and it may be regarded as reasonably certain that in the near future silver will be fully restored to its old place and value as money by international concert of action.—Denver Republican.

**Governor McKinley.**  
The renomination of Gov. McKinley is more than a recognition of the real ability that have signified his administration as chief executive of the state of Ohio. It is more than a tribute to splendid statesmanship, convincing oratory and unblemished manhood. It is a notice to the country at large that the Republican party in Ohio bears about the same banner under which the Republican party of the nation has faithfully marched. It is

a notice that the political principles represented by Gov. McKinley, which met with a reverse in 1892, have lost none of their vitality, and that the Republican party has neither apologies or regrets for the cause it has resolutely and consistently upheld.  
Gov. McKinley's speech of acceptance indicates the issues upon which the coming campaign in Ohio will be fought. It is a candid arraignment of the Cleveland administration and of the British free trade party. His reference to the fact that Mr. Cleveland declared in 1885 that the \$100,000,000 gold reserve was thereafter to be regarded as a trust fund set aside expressly and exclusively for the redemption of greenbacks, and that the present administration is the first under which this "line of safety" marked out by Mr. Cleveland himself, has been antagonized, is a striking illustration of the hypocritical pretensions that now rule at Washington. Equally pointed and forcible is the charge that "the Democratic victory of 1892" has not only not been able to bring the better times promised by the Democratic party, but is not able to maintain even "the good times that were everywhere enjoyed in this country on the day of victory." For the uneasiness and distress which now exist in business circles Mr. Cleveland is responsible. Mr. Cleveland has only to officially announce, declares Gov. McKinley, "that there would be no change in the industrial legislation of the country, and that the financial situation would be met and solved upon that standard of financial honor and national good faith which has guided the Republican party since its installation to power in 1861," to find business confidence speedily restored.  
Gov. McKinley resorted in emphatic terms to the position of the Republican party in favor of a protective tariff. He vigorously protested against the wholesale indictment of Union pensioners by the Cleveland administration, reproached the Democratic attempt to ravage wildcat banks and money, and demanded that the pledge of the Republican party to victory in the future, not only in Ohio, but in the nation.—New York Press.

What Honest and Skillful Treatment Does—Dr. Hume Has the Largest and Most Successful Practice in the Territory—The World—During the Past Week Hundreds Thronged to His Office, But Many Were Compelled to Return Home, Unable to See This Celebrated Specialist.

"This is a long story made short," said Mr. James Foreman, living at 1010 Converse street, Denver. "I was sick and unable to work for over a year before I came to Dr. Hume for treatment and I am now sound and well."

"I spent \$200 for medicines before I took his treatment. I had a cavity in my lung that poured forth deadly matter whenever I lay me down, and made me cough so that I could not sleep. I had awful pains in my lungs from pleurisy.  
"I was tortured with rheumatism. I had consumption, according to the doctor who treated two of my sisters and who died of that disease, and it is not likely that I can get any more of my kind of disease.  
"I cannot have catarrh of the head and loud noises, but which are stopped. My stomach would not digest food, but now that I am well, I eat anything I want to eat, and I constantly gain in strength so that I can do hard work.  
"I consider that I owe my life to Dr. Hume, and it is only due to him that I express my thanks in this way in order that others may know where to find help if they are in need from catarrh and throat and lung diseases."

Those in other cities treated with equal success by correspondence, as Dr. Hume devotes several hours daily to the care of out-of-town patients. Write for a diagnosis of your case, which will inform you whether you are curable or not.

## SHOOTING STARS.

**A New Freak in the Museum.**

The Fat Lady—I'd like to know what there is to attract public notice about that child the manager has just secured. The Mule-Eared Man? They claim he reads the "Juvenile department" of a Sunday paper, and I understand he was discovered only after months of search. Between you and me, though, I suspect he's not genuine.—Puck.

## Headache and Dizziness Frequent Causes of Apoplexy and Paralysis.

The most recent and profound researches in this direction by specialists, have developed conclusively that the above disorders frequently result in death or permanent disability. Dr. Miles' Restorative Nervine is the greatest remedy for either of these apparently insignificant causes. Nothing approaches it in merit. Mrs. W. E. Burns, of South Bend, Ind., who has suffered from constant headache for three months, was cured by it. The daughter of Daniel Myers, Brooklyn, Mich., had been insane for ten years, and was having from 15 to 25 fits a day. Nervine cured her of both fits and insanity. Sold on guarantee by A. C. Ireland, Jr. Get a book free.

## Plenty of It.

A gentleman had fallen on the street in a faint, and a crowd gathered at once. "Give the man air," shouted the policeman, pushing the crowd away. "He doesn't want air," growled an anarchist. "He's a millionaire already!"—Detroit Free Press.

## A Wonderful Engine Can Not Be Surpassed.

An engine exerting surpassing power is always a source of wonder, and yet how many are entirely forgetful of the existence within themselves of an engine more powerful and enduring than any ever invented. Not perhaps until they experience irregular pulse, heart fluttering, tenderness in shoulder and arm, swollen ankles, asthmatic breathing, weak and hungry spells, smothering, short breath, or pain in side, when its existence is no longer to be denied, as the possessor must know he has heart disease. Mrs. LeBar, Fitchburg, Mich., had heart disease fifteen years; had to hire house help; lived on liquid food, used Dr. Miles' Heart Cure and all symptoms left her. Continued use cured her. Sold by A. C. Ireland, Jr., on a guarantee, who will give you the Doctor's book, free.

## Scandalous.

"Did you see that shocking straw hat De Blips is wearing?" "Yes; another Panama scandal!"—Puck.

## Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty years.

On the 26th of May, while in Des Moines en route to Chicago, he was suddenly taken with an attack of dizziness. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 50 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce dizziness. Every one should procure a bottle of this Remedy before leaving home. For sale by A. C. Ireland, Jr.

## Diet Cheap.

He is a foreigner and speaks English indifferently, but has a fine appreciation of art. Strolling along the avenue the other day, he bought some pictures at an auction sale, and, meeting a group of ladies whom he knew, he began to descend on their merits, adding as a final commendation their price:

## "I bought them myself for. They were so dirty cheap," he concluded, while the ladies smiled audibly.—Detroit Free Press

## Safe and Effective.

Brandreth's Pills are the safest and most effective remedy for indigestion, irregularity of the bowels, constipation, biliousness, headache, dizziness, malaria, or any disease arising from an impure state of the blood. They have been in use in this country for over fifty years, and the thousands of unimpeachable testimonials from those who have used them, and their constantly increasing sale, is incontrovertible evidence that they perform all that is claimed for them.

## Sold in every drug and medicine store, either plain or sugar coated.

## Chinosophy.

"Do you believe you can judge character by the hand?"

"Of course I do." If a girl squeezes my hand "know she's dirty!"—Judge.

## Caution to Customers.

Nothing of origin or superior merit but has its imitations and counterfeits, even to impeding the health of communities. For this reason the proprietors of Hostetter's Stomach Bitters caution their patrons to scrutinize every bottle offered (and it is sold only in bottles) and verify its many marks of genuineness.

## A sufficient warning to those meditating fraud can be found in the unbroken line of judicial decisions, exposing and severely punishing every one detected in counterfeiting the Bitters, and the redoubled efforts that are being made to protect the public from the deception of these unprincipled pirates.

## Remember the Bitters is sold in bottles only, never by the gallon or in bulk.

## Revenge.

Simson—What? Willist you haven't been fighting with Bobbie Bingo, have you?

It was only yesterday that we were over there to dinner.

## Willist—That's the trouble. He tried to lick me because I accepted the second piece of pie his mother offered me.—Judge.

## Are you insured? If not, now is the time to provide for yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as an insurance against any serious results from an attack of bowels complaint during the summer months. It is almost certain to be needed and should be procured at once. No other remedy can take its place or do its work. 25 and 50 cent bottles for sale by A. C. Ireland, Jr.

## His Symptoms.

"Doctor, I'm a sick man."

"Well! Well! Now, as soon as I can get hold of any symptoms you may have."

A foreign exchange brings us the story of a rather vulgar personage, only a few months a marquis, who managed to get himself invited to a court ball. The new defunct marquis could not contain himself for joy and exhaled proud satisfaction at every pore.

Casting an Olympian glance around the room, he chanced to spy among the ladies the tall, angular figure of an elderly man with pressed lips, as though afraid of wasting her breath, and as lean as a lath. She was taking the arm of a young gentleman.

"Who is that nuncheon?" said the noble lord, a gentleman standing beside him.

With a knowing smile came the reply: "That nuncheon is the empress of the world, the mother of the kid who is giving her arm and the wife of the old buck who has the honor of speaking with your excellency."—Youth's Companion.

## It Was No Time to Be Polite.

It was on the Vashita river, in southern Arkansas, I had been told where to stop to secure information about a certain piece of land. I reached the place to find it a very dilapidated log cabin, and in front of it sat a long, lean man, who was so yellow in the face that I at first took him for a mule. He was stretching and yawning as I rode up, and he apologized for not getting up by saying:

"Souse me, stranger, but it's about time for my chill!"

"Hoop's it."

"Do you live here all alone?"

"Heck on no. The ole woman is in thar, but she's a chill. Sal is my oldest, but she's chillin' too. Rube is beyond my meel shed, and he's got it bad today. Yo' kin see Danny out by the log heap, and Susan may be up on the roof. It's our chillin' day, and everybody has got to chill."

I expressed my sympathy and began to ask after the land, but he held up a shaking finger and said:

"Stranger, I don't know what the custom is elsewhere, but right round yere when a feller has a chill he makes it his business to be chilly, and to 'tend to such in else but shakin'." "Heed it! It's all he kin 'tend to. Sorry to disappoint yo', but from now on I'll shakin' my back again this cabin and be shakin' all the chillin' out from between the logs. Come back arter that, and I'll talk to yo'."

I returned that evening, and he cheerfully gave me all desired information, and when I rode away he called after me:

"Mighty sorry to hear yo' got so much trouble, but we've got to follow custom, you know, when we're chillin', but when the chill goes off and the fever comes on then we wrap all formalities and try to act natural to everybody."—Detroit Free Press.

## No Enterprise.

"Let me have three fingers of whisky," he said to the clerk of the drug store.

"Can't," replied the clerk, who did not know the customer. "This is a prohibition state."

"Can't get a drink of whisky, eh?"

"No, sir, not with a physician's prescription, when it is to be used as medicine."

## Is there no emergency at all in which you would be permitted to dispense a small quantity of whisky without that formality—a case of life and death, for instance?"

"Why, yes," replied the clerk, "I suppose if a man were to be bitten by a rattlesnake, and it would require some time to go to a doctor and get a prescription, in that case it might be allowable to give him whisky."

"Do you know where I could find a snake?" was the next question.

"Why, no," replied the clerk, greatly surprised at the query.

"Well," commented the thirsty one with a great deal of disgust in his tone, "it seems to me that if this drug store had any enterprise it would keep a rattlesnake on hand for use in cases of emergency."—Harper's Magazine.

## Explained.

An old admiral, well known for his powers of exaggeration, was describing a voyage at supper one night.

"While cruising in the Pacific," said he, "we passed an island which was positively red with lobsters."

"But," said one of the guests, smiling incredulously, "lobsters are not red until boiled."

"Of course not," replied the undaunted admiral, but this was a volcanic island with boiling springs!"—Tid Bits.

## YOU DON'T KNOW

what a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort, and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of a reliable remedy of the kind endorsed by eminent physicians.

"It affords me pleasure to add my testimony to those who receive annually in reference to your valuable medicine, that consider Simmons Liver Regulator the best family medicine on the market. I have prescribed it with excellent results."

## HELD TO ANSWER.

A Pretty Clear Case Made Out Against the Trio Charged with Young Vigil's Murder—Before the Grand Jury.

The coroner's jury in the murder case in which young Marcelino Vigil was the victim concluded its labors at 11 o'clock today and Desiderio Gallegos, Luterio Padilla and Emeterio Garcia were held to answer for the crime. The jury under the direction of Squire Garcia left no stone unturned to probe the case, and 103 witnesses were examined. The verdict of the jury was to the effect that in its opinion the evidence showed the guilt of these three young fellows, and they were remanded to jail and the case turned over to the grand jury.

A review of the testimony makes out a very plain case against the accused, albeit such is merely circumstantial in its character. For instance, the accused admitted having been at the scene of the murder with the victim between 6:30 and 7:30 on the evening before the body was discovered. They were seen there by numerous persons. Pedro Martinez heard them quarrelling; Mrs. C. L. Bishop saw one of the three striking the body of a prostrate man in the ditch, and Mrs. P. M. Jones saw three men leave the ditch. Still later in the evening Mrs. Bishop noticed that the body of the man was still lying in the ditch. The theory that the trio returned late at night and finished the job by mutilating the head and face of their victim with stones is carried out by the statement of Mrs. Slaughter that while passing with her children along Guevar avenue about 9 o'clock that evening she saw three men sitting in the double window sill of Mr. Woodward's new house, just back of Mr. Bishop's; one of the men wore a slouch hat, which answers the description of the hat usually worn by Padilla. It is likely that at that time the trio were merely awaiting perfect darkness to renew their assault upon the prostrate form in the arroyo near by.

The jury this morning visited and searched the houses of the accused but found no blood-stained clothing. However, a few specks of blood were found on the shirt of Gallegos and when questioned about it the prisoner said they came from flea bites. The grand jury were prompted to work on the case this afternoon.

There was some excitement about the jail yesterday afternoon and last night; occasional reference was made to the wisdom of a lynching, but Sheriff Conklin gave it out that he was fully prepared for any such emergency, and would see that the accused men were fully protected.

The families of the prisoners have employed H. R. Read and T. P. Viscaya to defend the cases. The murdered boy's funeral took place at an early hour this morning and was largely attended.

## ROUND ABOUT TOWN.

The Guild will meet at the residence of Mrs. Thornton on Friday at 2 p. m.

From the appearance of the gathering clouds, it seems that a rain storm is due in a few days.

City Marshal Antonio Alarid is proving a good official, just as the New Mexican said he would.

Rev. G. A. Neff will hold German Lutheran services at Odd Fellow's hall this evening at 8 o'clock.

The county commissioners should put a stop to the unauthorized fencing up of the Santa Fe canon road.

Citizens who are interested in fire protection for their property will do well to call on Councilman Conway and lay out their claims for location of the new fire hydrants.

First-class job work of all descriptions done well and cheaply at the New Mexican Printing office. Bring your job work to this office and have it done quickly, cheaply and satisfactorily. Sheriff Conklin proposes to see that prisoners in jail are not maltreated and not subject to mob violence and he will come as near carrying this out as any man in this county and territory. Pay your delinquent taxes before the first day of July; the penalty attaches after that date, and the sheriff will be compelled to adopt stringent measures for the collection of taxes as prescribed under the new law.

## DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed. It then broke out on my arms and hands, and on my legs, and on my feet. It covered my entire body, my face, head, and shoulders being the worst. The white scales fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDY, and after using two bottles CUTICURA I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA I was cured of the dreadful disease from which I had suffered for five years. I cannot express with a pen what I suffered before using the REMEDY. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. Mrs. ROSA KELLY, Rockwell City, Iowa.

## Outcure Resolvent

The new Blood Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an excellent Skin Cleanser, externally, to clear the skin and scalp and restore the hair, have cured thousands of cases where the shedding of scales measured a quart daily, the skin cracked, bleeding, burning, and itching almost beyond endurance, hair falling out all gone, suffering from it. What other remedies have made such cures?

## A DOUBTING THOMAS.

What a Business Man Has to Say of the Advantages of Irrigation Farming.

Mr. W. T. Cliver, the agent of the Rio Grande Land company, and in charge of all the A. T. & S. F. lands in this territory, was in town from Las Cruces yesterday. He called upon the New Mexican and spoke highly of the good work it was doing for the Mesilla valley.

"When did you come to New Mexico, Mr. Cliver?"

"I came to settle here permanently last December. I must say that I did not believe the stories published about irrigation and its results, and when the company decided to send me here from Missouri, I refused to come unless I was allowed to make an inspection trip."

"Did this and found that half had not been told of what is accomplished every year by irrigation. I arrived in the Mesilla in November, and, of course, saw only a part of the crop, but what little was left on the trees. The peaches and grapes had practically all been picked; but the apples, quinces and pears were still in large measure on the trees. The fruit that had been picked I examined and tested it for size, flavor and appearance very carefully. That satisfied me. I was no longer a doubter. I would also like to say this: If I did not believe the Mesilla valley would be an immense garden within five years I would not stay there a week. I would not stand the worry of so large a department unless good results were assured."

"One remarkable thing was shown me by Prof. Hadley. Trees planted by him three years ago from the bud actually yielded 300 pounds of peaches a piece. At the extremely low price of 2 cents per pound this would be \$6 per tree; but these trees paid a much higher return. You can yourself figure up the average price of good peaches and make the calculation."

Mr. Cliver visited Santa Fe's new reservoir yesterday and expressed himself as delighted. He is advocating similar works for the Mesilla valley.

## Drowned.

John Ott, freight brakeman between Albuquerque and San Marcial, was drowned in the Rio Grande at the latter place Sunday afternoon. It is supposed that he was seized with cramps, for suddenly he sank out of sight. The water where he went down is about twelve feet deep and a dozen men were working in the river at the time. The body, for which \$100 reward was offered, was recovered on Monday. The deceased was a native of Las Cruces and his mother resides at Silver City.

In view of what Hood's Saranaparra has done for others, it is not reasonable to believe that it will be of benefit to you.

## PERSONAL.

Alex. Levy, a well known business man of Walsenburg, is in the city.

Miss Ella S. Graham, of Silver City, a friend of U. S. Marshal Hall's family, is visiting the city.

Chilton Riley, who has tired of the northwest and came back to Socorro, is visiting the city to-day.

Dr. G. S. Slayton leaves to-night for a lengthy visit east. He will visit Boston and Chicago before returning.

A. Levy, Walsenburg; R. S. Burch and son, Denver; Ella S. Graham, Silver City; J. J. Breenahan, W. A. Keller, Denver, are at the Claire.

Mrs. Ely leaves in a few days for an extended visit to the Jemez Springs, being joined there by her two sons, who are now in Taos.

Peter Lawrence, Ouray, Colo.; A. L. Kendall, Cerrillos; Fred Muller, San Francisco; Geo. D. Johnson, Mendocino, Pa., are at the Exchange.

Hon. Louis Sulzbacher, well and favorably known throughout New Mexico as a good lawyer and honorable man, is in the capital from Kansas City.

Mr. George Johnson, business manager of the Pennsylvania Farmer, published at Meadville, is in the city to-day. He is on a visit to New Mexico and Colorado.

Messrs. F. W. Clancy, W. B. Childers and Mr. Laferdy, of Albuquerque, spent Sunday and Monday on the upper Pecos fishing, returning Monday night with their baskets filled.

At the Palace: J. W. Bechtold, L. J. Garvin, St. Louis; Louis Sulzbacher, Las Vegas; B. M. Spalding, La Junta; R. Kelley, Cerrillos; Wm. Hink, St. Louis; Chilton Riley, Socorro; J. B. Lazor, Denver; A. P. Eaton, Wichita; Dr. G. C. Purden and family, Wichita.

Hon. H. L. Waldo left last night for Las Vegas and will return on Monday to assume charge of the prosecution in the case against Francisco Gonzales y Borge, he having been retained for this purpose by the family of the deceased Sylvestre Gallegos.

Death of Mrs. Fox. Mrs. Fox, the mother of Charles and Edward Fox, of Clayton and Raton, died in Clayton last Friday in the 62d year of her age. Mrs. Fox had been a great sufferer from neuralgia for a long time, and in seeking relief from the awful pain she is supposed to have taken an overdose of morphine. She had been a widow for nearly twenty-five years and had lived most of that time in Colorado and New Mexico. She was widely known as a most estimable lady, and her death is lamented by many friends. Her remains were shipped to her old home in Milwaukee for burial.

A Rich Strike at San Pedro—The Pelican Group—A Big Tunnel Project.

James Cheeves, M. C. Benton, S. C. White and others who have been in the city from San Pedro during the past day or two have hinted at a rich strike having been made in that locality of late, but have persisted in refusing to talk about it. To-day a gentleman informs the New Mexican that the strike is a reality and is a rich one. It was made last week by Sam Wright and others in the old Crown Point tunnel property, and if the assay figures and width of vein are as reported it is a bonanza. The vein is said to be six feet in width and runs nine ounces gold while also carrying considerable silver and lead. It is roughly estimated to run \$250 to the ton.

SOUTHERN NEW MEXICO MINES.

Geo. Baucus, manager of the Pelican group of mines, is in the city from Hermosa and brings good reports from that camp. The Pelican has been producing for five years. At present thirty men are employed, mostly on the lease system. The ore is galena averaging 25 per cent lead, and it is shipped to the Socorro smelter, being hauled by wagon fifty miles to the railroad at Eagle station.

The gold mines at Grafton are also doing well, while at Hillsboro there is a regular boom. There is more activity in mining circles in Sierra county now than for several years, and the miners are in consequence feeling happy over the outlook. Paying ore is being struck; new mines opening, and the mining prospects of Sierra county are bright.

Work has been commenced on a tunnel which will be driven through Animas Peak, near Hillsboro, to cut through the mountain about 1,000 feet below the peak, and it is expected that there will be some blind leads found in cutting through the mountain. This is the most gigantic mining venture which has ever been undertaken in Sierra county, but practical miners do not doubt the success of the venture.
