A Handsome
Three-Quarter
Life-Size.

We propose to give to each of our customers a handsome portrait of any one they may select. To this end we have made a contract with a leading portrait house to furnish us with their celebrated pictures. To those who have seen these portraits no word is necessary; and those who have not, we invite to inspect the samples at our store. We further assure you that if the portrait is not satisfactory, you need not accept it until it is.

The portraits are crayon and India ink and of a very fine grade. The same picture costs, when ordered of an agent or picture house, \$10 to \$18.

W. H. COEBEL.

BRIEF WIRINGS.

Ohio Democrats.
Cincinnati, June 16.—The Democratic state convention will be held at Cincinnati. Date not yet fixed.

They are Standing Together.
New York, June 16.—The Clearing House association have decided to issue 6 per cent loan certificates to tide the banks which need help over the present financial troubles.

And Still They Go Down.
St. Louis, June 16.—Bonheur, Banker, Fairfield, Ill., has failed.

Uncle Sam Gains Gold.
Washington, June 15.—At the treasury the financial condition of the country is considered much better. The treasury net gold increased yesterday from \$89,000,000 to \$91,500,000.

Where He Can Not Make Money Out of Sault.
New Brunswick, June 15.—George W. Holmes, snuff manufacturer of the town of Belmetta, died of heart disease. He was 64 years old and worth about \$1,000,000.

A Fearful Sacrifice.
PARKERSBURG, Va., June 15.—Mrs. Kate Kessel, living ten miles from here, having lost her reason, poisoned two of her young children and threw two others into a well and then killed herself. She tried to kill her eight children, but four were saved by the desperate struggle of her 14-year-old daughter, Mollie.

Secretary Smith Coming to New Mexico.

WASHINGTON, June 16.—Secretary Hoke Smith has concluded to visit the southwest, specially Utah, New Mexico, Arizona and the Indian territory, in order to post himself on the Indian problem and on irrigation matters. He will be absent from Washington about six weeks. The date of departure has not yet been determined.

Princeton's Scientific Expedition.
PRINCETON, N. J., June 16.—Princeton will this week send another scientific expedition out west. Prof. William B. Scott will be in charge of the party, which will consist of about thirteen men from the upper classes. The object of the expedition is the finding of fossil remains of prehistoric animals. The expedition will spend about eight weeks in the northwestern part of Nebraska and southern Dakota.

After the Starr Gang.
FORT GIBSON, June 15.—Henry Starr, the notorious train and bank wrecker, is surrounded by deputy marshals and a sheriff's posse at a point on Big creek about twenty miles from Nowater, the bandit's home. A reward of \$15,000 is the cause of the present active movements against the bandit. Starr has six men while the posse numbers twenty or more. A troop of U. S. cavalry from Fort Supply has been dispatched to reinforce the U. S. deputy marshals.

The Leech Lake Indian Trouble.
BRainerd, Minn., June 15.—Company D, 3d U. S. infantry, arrived here last night and early this morning started for Leech lake. C. C. Vandorn, who lives near the reservation, is here. He says Dr. Walker resisted an attempt by an Indian to take some whisky, and when the Indian advanced upon the doctor the latter drew a revolver and shot the Indian in the mouth. Dr. Walker, the wounded Indian and the three Indian police are all in one building, which is surrounded by pickets.

A Great Art Display.
New York, June 16.—A loan exhibition will be held at the National Academy of Design commencing to-day. There will be the collection formed by the late August Belmont. Porcelains and bronzes belonging to Messrs. James A. Garland, H. R. Bishop and Thomas B. Clarke will be there, as also paintings owned by Messrs. C. P. Huntington, Cornelius Vanderbilt, Samuel P. Avery, Henry G. Marquand and James W. Gerard. A collection of tapestries and decorations will include pieces loaned by H. G. Marquand, S. P. Avery, Louis C. Tiffany, C. P. Huntington and Lockwood de Forest.

Beyond the Control of the United States.
SEATTLE, Wash., June 15.—"The United States government has no control over the lands of the Indians on the Payalup reservation," is the decision of Judge Hanford of the United States circuit court in the injunction case of Frank C. Ross against Edwin Ellis, Indian agent, and Major French, Capt. Carpenter and Lieut. Goodwin, United States army officers to prevent interference by the defendants with the building of a railroad across the land within the reservation. The land has been allotted to the individual Indians in severalty and Judge Hanford granted an injunction to-day pending a review of the case.

The Panama Roadsters Go Free.
Paris, June 15.—The court of cassation on the appeal of Charles de Lesseps and other defendants convicted of fraud in connection with the Panama Canal company handed down its decision to-day quashing the sentences on the ground that the statute of limitations covered the offenses charged and that the indictment on which the prisoners were tried was irregular.

In consequence of this decision Mr. Eiffel was at once liberated from prison. Mr. Charles de Lesseps, who is in the St. Louis hospital suffering from an acute attack of dyspepsia, was informed that he was at liberty, but he was too ill to leave the hospital. There were five defendants convicted on the trial which ended on February 9 last. These were Ferdinand de Lesseps, his son Charles, Marcus Fontaine, Henry Cuyat and Gustave Eiffel. Ferdinand de Lesseps was sentenced to five years imprisonment and to pay a fine.

A Wreck on the A. & P. Road.
The east bound No. 4, on the A. & P., was derailed yesterday three miles this side of Holbrook. The engine struck a broken rail, went off the track, carrying the mail, baggage and express cars with it. The front trucks of the day coach also flew off, but were pulled back. Engineers Frost and Eberman stayed jumped from the engine and sustained painful, but not fatal injuries of the breast and back. Of three tramps stealing passage on the trucks one was killed, another injured and the third escaped unhurt. The company's local surgeon, Dr. Robinson, of Gallup, and Dryden, of Winslow, ministered to the injured. The wreck was cleared and traffic resumed to-day.

Deserved Compliment.
In accepting the resignation of Major W. H. H. Llewellyn as secretary of the board of World's exposition managers of New Mexico, Gov. Thornton addressed the following letter:

W. H. H. Llewellyn, Esq., Las Cruces, N. M.
Dear Sir: Your letter of the 8th inst., tendering me your resignation as a member of the territorial board of World's exposition managers, is at hand. I regret exceedingly that your business obligations compel you to tender your resignation at this time when your services are so useful to the board. Thanking you for the very efficient manner in which you have performed your duties in the past, your resignation is hereby accepted, to take effect when your successor is appointed and qualified. Very respectfully, W. T. THORNTON, Governor.

Lower Fare to World's Fair.
The Santa Fe Route has lowered the World's fair rate. It lends, while others follow, being the first to cut the rate as well as first in ticket and comfortable service.

The present ticket rate from Santa Fe to Chicago and return is \$55.10. The Columbus exposition represents the world in its midst. You get a European trip without the ocean voyage. To miss this chance for self education would be a mistake always regretted. Another mistake would be not to go over the Santa Fe Route, which has the best and most direct line to Chicago. Passengers landed within one to four blocks of transit lines to fair grounds.

Call on W. M. Smith, local agent at Santa Fe, and ask for free illustrated folder, describing World's fair buildings, etc.

A New Line to St. Paul.
Commencing March 1, the Wabash and the Iowa Central run two through trains daily, Pullman sleeping cars, free reclining chair cars, between Kansas City, St. Paul and Minneapolis without change. This makes the shortest and most attractive route to Duluth, Winnipeg, Bismarck, Fargo and other points in the northwest. Train No. 1, leaves Kansas City at 8:30 p. m., arriving at St. Paul at 6:30 next evening.

Train No. 3, leaves Kansas City at 10 a. m., arriving at St. Paul 7:45 next morning. Ask for your tickets via the Wabash-Iowa Central Route, C. M. HAMMON, Com'l Agent, 1224 17th St., Denver, Colo.

For Sale.
An interest amounting to 3,100 acres in the grant known as "The Ranch del Rio Grande" in the county of Taos. The Rio Grande has been confirmed by the court of private land claims and has a perfect title. It is located in the Taos valley, and is one of the finest grants in the territory, being 109,000 acres in extent. Will sell at a very low figure. Address, P. O. box 103, Las Vegas, N. M.

Where to Stop in Chicago.
The perplexing question which is every day asked by people who desire to go to Chicago to attend the World's fair is "Where are we going to stay when we get there?" This is easily answered, and if you will go to the ticket agent of the Santa Fe, Mr. W. M. Smith, he will tell you.

Arrangements have been made for the distribution by the Santa Fe company of a pamphlet entitled "Homes for Visitors to the World's Fair." This is a reliable pamphlet containing the names and addresses of about 9,000 families who will furnish accommodations to visitors from May 1 to October 31, 1893. The pamphlet also contains sectional maps which will enable the intending visitor to select any quarter of the city that he would prefer. Correspondence can then be carried on and definite arrangements made so that when visitors arrive in Chicago they can proceed at once to their quarters.

TERRITORIAL TIPS.

DEMING DATA.

Deming has given up her 4th of July celebration. Grant county will therefore be united in making the silver convention a success.

Chas. H. Dane, president of the defunct First National bank of Deming, is in southern New Mexico. The cases against him are set for trial in Las Cruces at the September term of the United States court.

It is rumored that on the recommendation of the receiver of the First National bank of Deming, Texas, to join Mr. McCammon, who is attached to the telegraph department of the Gulf, Colorado & Santa Fe railroad.

ALBUQUERQUE ATOMS.
Mr. and Mrs. A. Harsh and daughters, Katie and Rosie, have gone to Peoria, Ill., on a visit to the parents of Mr. Harsh. Before their return they will take in the World's fair.

Mrs. E. McCammon and family have left for Cleveland, Texas, to join Mr. McCammon, who is attached to the telegraph department of the Gulf, Colorado & Santa Fe railroad.

Mrs. Small, sister of C. C. Hall, and Lum Hall Frey, a nephew, and a son of J. J. Frey, general manager of the Santa Fe, who have been the guests of Mr. Hall for several days, have returned to Topeka.

Wm. McIntosh returned home Saturday night with 258 French Merino bucks; the finest lot of bucks ever brought into the territory. They were owned and at junction, where Mr. McIntosh's men were awaiting their arrival and took them to the ranch. The big sheep man says that southern Kansas has had a heavy rain.—Albuquerque Democrat.

The fact is that prices are lower now for New Mexican wool than they have been for several years past. Indeed, when bull teams hauled the fleeces of New Mexico over the old Santa Fe trail to Independence, Mo., more net money was realized than now. Yesterday it required good wool to bring 8 cents per pound in this market, and low grades went begging at 7 cents per pound. At these prices the wool barons, the men who in the past few years have accumulated fortunes, will not sell. These small flock owners who have but a few sacks must sell, to pay accumulated debts, but when these are paid, have no surplus left. Yesterday perhaps twenty-five loads were disposed of to local dealers, the price of which had been anticipated months before.—Albuquerque Democrat.

HILLSBOROUGH HITS.
A new hotel is talked of at this camp. The postmaster at Hillsborough indignantly denies that his office was robbed.

Thomas Murphy will return from El Paso with a new partner in his business—a bride. His new residence has been completed, and Mr. Murphy has the best view of the camp.

Hon. W. B. Hopewell, E. M. Smith and Geo. Richardson were elected school directors for the Hillsboro school district. This is a strong team.

Max L. Kahler, the popular hotel keeper, left for Germany this week. En route he will spend two weeks in Chicago at the fair and two weeks in Philadelphia with relatives. Bon voyage.

A prominent mining man of Lake Valley, who visited our town during the week informed a shaft scribe that there were only two places on earth now; Hillsboro and the World's fair. He will bet on Hillsboro—Kingston Shaft.

Major W. H. H. Llewellyn, accompanied by experts, recently made a thorough examination of the route of the pipe line to develop the placers near this town. The prospects are good, and Major Llewellyn received the best local encouragement. It will be remembered that \$500,000 have been taken from these diggings by the clumsy processes of past years.

NEW MEXICO MINES.

Reports to this paper indicate that the silver miners all over the territory will make a great demonstration at Silver City. The gold miners promise ample aid. The silver lodes are working less than half men they did this time last year and the prospect is not altogether bright.

MOGOLLONS.
A great deal of new machinery has lately been brought into the Mogollon camps. A boom is looked for. In the Mogollons country the Condance mill will start up by October. The Maad S. will be equipped with new stamps. The Deep Down mine will also have their works in running order. Capt. Cooney's mill will be completed before winter, and the Last Chance may possibly start up again. The Mogollons seem to have as good a prospect as the Hillsboro camp.

COOKS FEEL.
J. B. Gilchrist, recently appointed manager of the Graphic mines at Cook's Peak, vice W. C. Hadley, was in Silver City last week.

HILLSBOROUGH.
The Christmas mine shows a four foot lode, six inches of which is very high grade.

The Anderson, leased by Jim Colum and Jack Suddock, has yielded about eight tons of \$50 ore. Fifty feet of the Happy Jack has been leased to J. H. Crane. A three ton shipment of this ore netted \$200 lately.

A company has been formed to thoroughly exploit the mineral wealth of Animas Peak. It is proposed to tunnel clear through the peak and 1,000 feet under it, thus cutting all the outcropping lodes and many blind leads. This will give a great deal of good stopping ground, and is the greatest mining work ever undertaken in the territory, but its projectors are well assured of a great return.

PINOS ALTOS.
Lack of water still prevents work on the Pacific mines at Pinos Altos. It will be months yet before water is available for the mill, and the company do not care to pile up more ore for treatment.

THE REEMANOS.
J. F. Healey, for ten years interested in the Tres Hermanos country, south of Deming near the Mexican line, has sold a good group of mines to Frank Thurman and James Martin. It will be remembered that the Cincinnati and other mines in this district have been good producers, and if the railroad projected from Deming south is completed, good returns will be had from these groups.

CHLORIDE.
Ore from the Black Range is being shipped to Socorro for treatment. Wild Bros. made a large consignment last week. The St. Cloud and Major Jas. P. Blain show excellent prospects. The pay streak of the St. Cloud mine is from 6 to 8 feet wide.

The copper matte smelters at Hillsborough have proven such a great success that Chloride contemplates building one. Hon. A. P. Childs and Major Jas. P. Blain of that camp recently examined the Standard with a view of adapting that process to their home camp ores. Chloride mineral runs sufficient copper and manganese to make this method practicable.

Summer Weakness.
And that tired feeling, loss of appetite and nervous prostration are driven away by Hood's Sarsaparilla, like mist before the morning sun. To realize the benefit of this great medicine, give it a trial and you will join the army of enthusiastic admirers of Hood's Sarsaparilla.

Sure, efficient, easy—Hood's Pills. They should be in every traveler's grip and every family medicine chest. 25 cents a box.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, JUNE 16.

A few of New Mexico's criminals might do the state some service by "shuffling off this mortal coil."

The jubilee gifts to the pope up to this date amount to over a \$1,800,000; this jubilee business seems to pay and that well.

The news given by this paper are territorial news; they are timely and are crisp, short and concentrated; that's the proper kind of a paper to run these warm June days.

If the United States does not annex Hawaii, some other country will; Hawaii is too valuable to go begging very long. But then what can you expect under the present administration?

A good many New Mexico Democratic office seekers are waiting anxiously to be struck by official lightning, but the "dad blamed" lightning is striking mightily slowly; all the better for the people of New Mexico, this.

It was on a Friday that President Lincoln was shot in Ford's theater and it was on a Friday that Ford's theater fell in and that twenty five men were killed by the fall; is there any coincidence in this?

Yes, indeed, gentlemen, the New Mexican has done business at this stand for thirty years and has done much work of benefit to the people and this territory and what is more proposes to keep this up for an indefinite period. Sabé.

The Fort Worth Gazette does not favor a restoration of the duty on sugar, but favors strongly a discontinuance of the persons to Union veterans; the Gazette has the courage of its convictions and that is refreshing enough for one day.

Judging from the number of the train robberies near St. Louis, the financial center of the country must be moving near to that city. St. Louis is bound to be the greatest and largest city on this continent, provided some other city does not get away with the swag.

Two more mines that are being worked and the more smelters that are full blast in this territory, the better. This journal is doing its level best to have as many mines worked and as many smelters in full blast as there can be. Success in those directions is coming, surely, if slowly.

The important murder cases on the docket of the court for this county should be disposed of at this present term of court; funds are low and should be handled for the best interest of the people and to further the ends of justice; summoning witnesses for political purposes should not be allowed.

The Right Hon. William F. Cody is strongly in favor of closing the World's fair grounds at Chicago on Sundays; the Hon. Mr. Cody runs a Wild West show just outside the gates of the World's fair and closed gates on Sundays are nuts to him, as well as to the various fakes and drinking places, that abound just outside of the gates of the exhibition grounds.

Mexican justice may be crude but it certainly is swift: Three months ago five robbers entered a house in the suburbs of the city of Mexico and killed a servant. Two months ago after a hard chase they were captured; since then they have been tried, convicted, sentenced to be shot and shot. Mexico will suppress crime in due course of time.

The recent World's fair issue of the San Francisco Examiner contained 120 pages and was a marvel in every respect; it is a compendium on everything concerning the Golden state and puts the recent issue of the New York World of a 100 pages into the shade in everything that goes to make up a great newspaper.

"Westward the star of empire takes its course" in journalism as well as in everything else.

The Chicago correspondent of the St. Louis Republic, in describing the Princess Eulalie says, that "the princess has a strange, creamy, shell-tinted complexion," whatever that means; then the correspondent tells who the Infanta's mother was, but wisely keeps silent as to other points; students of contemporaneous history will remember that the Infanta's mother, ex-Queen Isabella, was not quite as chaste as Diana, who according to the ancient Greeks was the embodiment of chastity and grace.

EASTERN snobbish newspapers are setting up a howl because, under the new immigration laws, foreigners coming to this country in the first and second cabins of steamships are to be made to answer a lot of questions just the same as steerage passengers; the eastern newspapers and the snobs of the large cities on the seaboard are becoming sickening in their sycophancy and snobishness; why should a traveler in a cabin be any better than a man traveling in the steerage and why should a rich man have privileges before the law that a poor man can not enjoy in this country?

SOME DIPLOMACY.
The capture of American fishermen by the Canadians has begun again. This may be legal and according to the tenor of the bond, but it is no less humiliating. It will be remembered that it was under Mr. Bayard's secretaryship that this treaty which prevents our fishermen from approaching the land within three miles was consummated. Joseph E. Chamberlain was the English commissioner; but then "Brumagun Joe" returned in a few months and married Sec. Endicott's daughter. The American statesmen years ago did things differently. With fewer equities and little legal right they began the war against France which resulted in the payment of \$5,000,000 on account of French spoliation. It is a pity that Jeffersonian traditions do not impart to their holders the virility of the old statesman. The American flag would be neither handled down nor insulted.

MONEY IN CLIMATE.
That it pays to advertise a climate that is really advantageous for its salubrity and health-giving properties, is demonstrated by the boast of a California paper, that no less than \$5,000,000 have been expended in that state during the past winter by people who came from the east to escape the rigors of winter. These are big figures, but they are certainly not far wide of the truth. Colorado, likewise, never fails to put forth a large claim for its climatic beauties and it has been proved a paying investment. For real salubrity of climate and a dry atmosphere that works wonders in overcoming disease New Mexico is far ahead of either California or Colorado, and when the facts are properly made known to the world thousands must come here yearly to enjoy these blessings of nature. In its forthcoming book on the resources and attractions of New Mexico, the Bureau of Immigration will devote no small space to the treatment of this feature. Facts for the purpose are now being gathered which will make not only a remarkable showing, from the standpoint of comparison with other localities, but will prove well worthy of study by people at home as well as those in other sections of the country. Our climate as a wealth-producing "resource" ought to be more generally studied by our citizens.

Press Comments on Territorial Affairs.

A Democratic Compliment to Other Democrats.
"Bray without censuring" seems to be the motto adopted by several of the disappointed office seekers in New Mexico.—Albuquerque Times.

Tax Them Honestly.
The big land grant owners should pay their equal proportion of the tax, and the territorial board of equalization should see that they do so.—Albuquerque Citizen.

Just Me.
The whole Democratic party of New Mexico is devoting its energies to office seeking, and the price of wool under the Cleveland regime is one-third less than one year ago.—Albuquerque Citizen.

The Santa Fe Road Doing Good Work for New Mexico.
The A. T. & S. F. has made the other railroads of the west come to fair prices on World's fair rates. The public should not forget the great Santa Fe system in the future.—Kingston Shaft.

And Also Opposed to the Present Administration.
Let us all remember that if New Mexico is not admitted to statehood next winter, it will be because the gold ring in New York opposes the measure.—Albuquerque Citizen.

Can Be as Silly as Anybody.

The silly season is now on. Albuquerque and Las Vegas are fighting over paper railroads and the various Democratic papers are waging civil war because two or three candidates can not occupy one federal berth. To be in the fashion next week or as soon thereafter as convenient, we shall build the Albuquerque-Durango railroad again and possibly shall remove a few Republicans from office and fill their places with Democrats. When we have to keep up with the style we can be just as silly as anybody.—San Juan Index.

A Grand Kick All Around.
Let no Democrat forget that the principles of his party are greater than any individual or any office.—Arizona Daily Star.

There is a trio of individuals in New Mexico who are operating on the presumption that they are greater than the party they are trying to boss. The party in this territory is united on principles and one of these principles is hostility to bossism. It will take care of this matter in due time and is fully able to skin its own skunk without the assistance of certain Republican papers in this territory.—Albuquerque Democrat.

Deposits of Territorial Funds.

The territorial funds are now distributed in quite a number of banks in the territory under the provisions of the law passed at the last session of the legislature. It appears that the banks are not only willing to pay 3 per cent interest required, but that they are anxious to get money at these terms. There is little reason to doubt that the banks would pay 4 or even 5 per cent on territorial deposits in order to get this money if it were necessary. The last legislature made a good beginning by requiring the banks to pay interest and future legislatures can increase the rate if it appears that the banks will pay more interest rather than lose the deposits.—Silver City Sentinel.

Notice of Sale.

To whom it may concern: Notice is hereby given that the undersigned will, on Monday, the 19th day of June, A. D. 1898, at 10 o'clock a. m., of said day, expose and offer for sale, at the front door of the court house of Santa Fe county New Mexico, for cash in hand, the following personal property to wit: One share par value \$500 of the capital stock of the Fischer Brewing company, contained in certificate No. 21, dated December 20, 1891.

Also ten shares of the capital stock of the Santa Fe Electric company of the par value of \$50, each contained in certificate No. 1, dated the 15th day of February, 1891, both of said certificates having been issued to C. F. A. Fischer, and by him transferred to the undersigned as collateral security for the prompt payment of a promissory note, made by him to the undersigned on the 8th day of April, 1891, for the payment of \$700 in six months after date, with interest, from date at 12 per cent per annum; which said note has become merged in a judgment of the district court for Santa Fe county, which judgment is still due and unpaid. Witness my hand at Santa Fe this 12th day of June, 1893.

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

For the irrigation of the prairies and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 15,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 160 acres or more of land.

SHOOTING STARS.

Disconcerting.

About the most disconcerting thing that comes to a man in his life is the desire to thrash an enemy, coupled with the belief that he can't do it.

—Cleveland Plain Dealer.

Headache and Dizziness—Frequent Causes of Apoplexy and Paralysis.

The most recent and profound researches in this direction by specialists, have developed conclusively that the above disorders frequently result in death or permanent disability. Dr. Miles' Restorative Nervine is the greatest remedy for either of these apparently insignificant causes. Nothing approaches it in merit. Mrs. W. E. Burns, of South Bend, Ind., who has suffered from constant headache for three months, was cured by it. The daughter of Daniel Myers, Brooklyn, Mich., had been insane for ten years, and was having from 15 to 25 fits a day. Nervine cured her of both fits and insanity. Sold on a guarantee by A. C. Ireland, Jr. Get a book free.

A Saving Turn of Mind.

Dickens—So you are going to marry that Boston girl? Think you can afford it? She has very expensive tastes. Jayson—True; but look what I will save on my bills.—Troy Press.

A Wonderful Engine Can not Be Overestimated.

An engine exerting surpassing power is always a source of wonder, and yet how many are entirely forgetful of the existence within themselves of an engine more powerful and enduring than any ever invented. Not perhaps until they experience irregular pulse, heart fluttering, tenderness in shoulder and arm, swollen ankles, asthmatic breathing, weak and hungry spells, smothering, short breath, or pain in chest, when its existence is no longer to be denied, as the possessor must know he has heart disease. Mrs. LeBar, Fitchburg, Mass., had heart disease fifteen years; had to hire house, lived on liquid food, used Dr. Miles' Heart Cure and all symptoms left her. Continued use cured her. Sold by A. C. Ireland, Jr., on a guarantee, who will give you the Doctor's book, free.

Two Heads.

A millionaire with more money than brains was anxious to run for an office and he sent his agent to consult with the political powers.

"But your man hasn't any brains," urged the politician.

"But he has money, and, besides, two heads are better than one!"

"Yes, even if one of them is a bar! head," and the rich man got the nomination.—Detroit Free Press.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Les Moines en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet induced to traveling often produce diarrhoea. Every one should procure a bottle of this Remedy before leaving home. For sale by A. C. Ireland, Jr.

Dr. J. F. Darter, vice-president of the American Health Resort association, says: "It is worth traveling miles to drink of such waters as flow through this deep cut in the mountains and supply the city of Santa Fe for domestic purposes and for irrigation of the fruit farms. The water is absolutely pure, cold and fresh from the melting snows above, or trickling from springs in the mountain side. It is free from all lime, alkali or other ingredients so very injurious to the consumptive patient. Such water is a great boon anywhere and at any time, but here, where other features of sunshine and pure air combine to produce an ideal climate, it is of special value."

STATISTICAL INFORMATION.

The annual temperature varies but little from year to year. The following tables tell the tale:

YEAR.	ANNUAL MEAN.	YEAR.	ANNUAL MEAN.
1872	47.9	1882	48.9
1873	47.5	1883	48.5
1874	47.0	1884	48.0

1880	47.0	1890	48.0
1881	47.0	1891	48.0

The annual monthly values will show the distribution of temperature through the year.

MONTH.	MEAN.	MONTH.	MEAN.

March	31.7	Sept.	59.0
April	39.1	Oct.	56.7
May	50.0	Nov.	56.7
June	64.4	Dec.	47.1

From this it will appear that Santa Fe is relatively warmer in winter and cooler in summer than other places having nearly the same annual temperature. Compare the difference between the coldest month and the warmest month for these places. In Santa Fe the monthly range is 39.3, in Boston, 45.1; Albany, 49.4; Buffalo, 44.8; Detroit, 44.9; Grand Rapids, 44.9; St. Paul, 42.3. We find that Santa Fe has the spring temperature of northern Illinois and Indiana, the summer temperature of northern Wisconsin and Michigan, and the winter temperature of central Illinois and Indiana. DON'T KNOW

what a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort, and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfection of the kind endorsed by eminent physicians.

"It affords me pleasure to add my testimony to the fact that your medicine is a most valuable remedy for the relief of Constipation, and that it is a most valuable remedy for the relief of Constipation, and that it is a most valuable remedy for the relief of Constipation."

IMPORTANT DEVELOPMENT.

Fifty Thousand Acres of Dry Land to Be Irrigated.

What the New Mexican Does for Its Home Patrons.

The New Mexican yesterday after much questioning secured some good data from Mr. J. J. Seymour and Mr. Julius M. Howells, consulting engineer of the Chicago Municipal Investment company. Mr. Seymour is the president of the Fresno, Cal., Water Works company, and thoroughly experienced in and conversant with the needs of an irrigation plant.

"Mr. Seymour, what do you consider the prospects of the Nambé project?"
"I think it is perfectly practicable, and may be put in operation at a less cost than usual with such works. The cost, of course, will look large when stated, but when compared with reservoirs throughout the arid region it will be seen that the work is not costly. When compared with the benefit to the irrigable lands the expenditure is well within reason."

"Where are your reservoirs to be located?"

Mr. Howells answered: "The woods are full of them. We have good sites all the way up the stream. The catchment basins will cover in some instances from 400 to 500 acres with a maximum depth of thirty feet. You can see what a series of reservoirs of this area will mean when you compare them with the one now nearly completed in the Santa Fe canon. The Nambé flows three or four times more water than the Santa Fe, but the problem there is of entirely a different character. On the Nambé the timber has been burned off and offers no more protection to the winter snow than so many telegraph poles. On the Santa Fe the timber is in good condition and there are now acres of snow three and four feet deep, which insures a good flow of that creek. In the early spring the Nambé waters go off in a hurry and do no good to the crops or anything else. Our reservoir will catch all this waste water and preserve it, and they will be constructed of such capacity that we will have water to spare after the irrigation season is over."

"Mr. Seymour, you have been over the ground and can make an approximate estimate of the area that will be irrigated from this new project. Will you give your opinion on that subject?"
"The reservoirs will serve 50,000 acres with plenty of water, and these will be so constructed that no existing water rights will be interfered with. In fact, they will be improved. We will store only the waste water as it may be termed. We have not as yet made a detailed survey, but I am pretty certain of that much. Practical work will probably begin next month."

Mr. Howells then stated some of the difficulties experienced with the Santa Fe reservoir. Said he: "We used at times two feet of masonry to throw the ground, but that did not work. Then we took big steel bars and drove them in under the frost and tore the ground out as with a lever. The excavation last winter was harder than rock work. That is the reason that our work was somewhat delayed. To-day, however, we are making the new connections with the city water mains, and the people can count on a good service and supply of water. Our labor has been enormous, and I feel really elated over the success."

Messrs. Howells and Seymour leave to-day for the east. They will stop at Las Vegas, thence go to Chicago to consult with the financiers of the scheme, and then spend a short time in New York, from whence they will return direct to Santa Fe to begin active work. The successful promotion of these immensely important improvements is the work of the New Mexican. It is happy to herald this good news to its patrons.

Mrs. Norera, sister of Hon. J. A. Ancheta, recently accidentally wounded by a pistol shot, is reported improving and practically out of danger.

Louis Hild, of the extensive and popular mercantile firm of Hild Bros., at Albuquerque, came up from the south last night and will remain a couple of days.

At the Palace: A. Meunett, Las Vegas; O. W. Alexander, W. P. Cunningham, D. E. Seymore, Cerrillos; C. A. Taney, E. K. Holbrook, St. Joe; W. S. Williams, Socorro.

Sam. Neustadt, of Albuquerque, on his way east, will stop in Washington, where he will meet a prominent Pennsylvania politician, who desires to see him on a political matter.

Major W. H. H. Llewellyn, the energetic and successful live stock agent of the Santa Fe railroad, with headquarters at Albuquerque, is here to-day on railroad business.

Mr. and Mrs. J. M. Howells and child left this morning for Chicago and New York. They will remain a couple of days at the Montezuma, Las Vegas hot springs, before proceeding east.

J. B. L. McGuire, of East Las Vegas, is a guest at the Exchange. Mr. McGuire is interested in the fishing privileges of the Las Vegas Gun and Rod club, who are lessees of the Cherry valley lakes near Watrous. He proposes to put their fish on the Santa Fe market right fresh from the water.

Cavalry Firing Competition.

Orders have been issued by the war department, providing that the annual competition in target firing for the cavalry stationed in New Mexico and Arizona and in the department of Texas, take place at Fort Wingate, competition to commence August the 14th. From the men who will fire at Fort Wingate, four will be selected to represent the cavalry serving in the departments of Arizona, Texas, at the contest, which will be held at Fort Sheridan, Ill., on September 18 and will be conducted by Capt. Frank D. Baldwin, inspector of small arms practice, department of Missouri.

Absolutely Pure

THE ROYAL Baking Powder surpasses all others in leavening power, in purity and wholesomeness, and is used generally in families, exclusively in the most celebrated hotels and restaurants, by the United States Army and Navy, and wherever the best and finest food is required. All teachers of cooking schools and lecturers upon culinary matters use and recommend the Royal.

Chicago Health Authorities Certify.

"I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest."

—WALTER S. HAINES, M. D.

"Prof. Chemistry, Rush Medical College, Consulting Chemist, Chicago Board of Health," etc.

Made from pure grape cream of tartar, and the only Baking Powder containing neither ammonia nor alum.

IMPORTANT CASES.

The Petit and Grand Juries Filled.

PETIT JURY.

The petit jury was empaneled this morning as follows: Benito Pacheco, Atanacio Roibal, Acasio Martinez, Cosmo Roibal, Fred. W. Wiegand, Pedro C. Jaramillo, David Smith, Florencio Duran, Felix Vigil, Jose Encarnacion Quintana, Marcel Herrera, Juan Sanchez, Blas Trujillo, Jose Encarnacion Meana, Cestino Montoya, Francisco Gonzalez, Luis Vigil, Pedro Jimenez, Agapito Lucero, Manuel Gonzalez, Thomas Doffelmeyer, Benedicto Montoya, Dionicio Lobato, Paz Lujan.

NOTES.

Michael Berardinelli was yesterday drawn as a juror to fill the panel of the grand jury.

This morning the case of the Second National bank vs. W. H. H. Llewellyn, suit on a promissory note came up. Gen. Bartlett represented Maj. Llewellyn and S. Attorney Flake appeared for the bank. Gen. Bartlett pleaded that the case should be dismissed because of a former judgment entered in the same cause in Dona Ana county. The argument was lengthy and the court took its decision under advisement.

Hitchcock vs. the Santa Fe Electric company was next heard. Hon. T. B. Catron appearing for the company and Geo. H. Knebel for Mr. Hitchcock. The disputed point is whether attorney's fees should be allowed and taxed in the case. It is alleged that the proceedings should have been under the power of sale in the \$5,000 mortgage, and not in chancery. Mr. Catron urges that as this was not done no fees should be taxed. Mr. Knebel opposes this contention. The court reserved decision on the matter.

This evening the United States vs. Jesus Maria Gonzalez, under the Edmunds act, is being tried by jury. It will occupy the afternoon.

Important Announcement.

To Those Who Contemplate a Trip to the World's Fair.

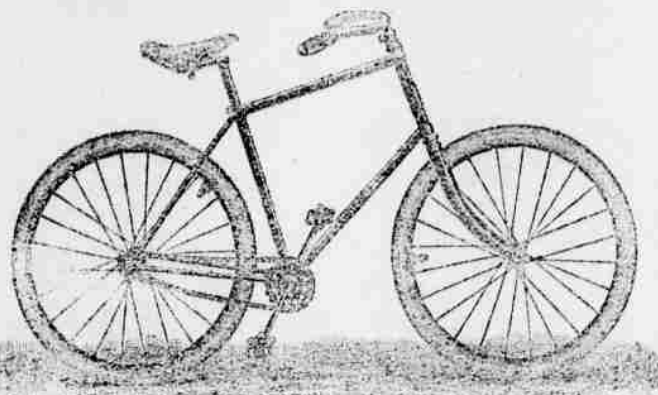

Under its new summer schedule now in effect, the Burlington route is enabled to offer increased facilities in train service and fast time from Denver eastward. Train No. 6, "the Chicago and St. Louis Special," leaves Denver daily at 8:35 a. m., reaching Chicago at 4:10 and St. Louis at 8:00 p. m. the next afternoon, being only one night on the road. Train No. 2, the popular evening "Flyer," leaves Denver at 10:10 p. m., reaching Chicago at 8:20 and St. Louis at 7:25 the second morning. These trains consist of vestibuled Pullman sleepers, chair cars and dining cars, with men's en route, and making quick time by several hours than any other road. For full information, tickets and sleeping berths, call on local ticket agents, or address G. W. Valley, General Agent, 1700 Larimer street, Denver.

Star of the South.

Go to Velasco for health, sea air, and comfort; where ships too deep for all other Texas ports sail in and out with ease; where fruits ripen earlier and pay better than in California, where the soil is a natural hot-bed. Fresh vegetables all winter. Coldest day in three years 25 degrees above zero. Warmest day 92 degrees. Velasco offers the best investments in the south. Write the Commercial club, Velasco Texas.
