—BRIEF WIRINGS—

Guarding Against Cholera.

CARMO, July 8.—Troops are leaving here to form a cordon on the banks of the Suez canal for the purpose of intercepting pilgrims who may try to evade the quarantine.

Granted a Reprieve.

WILBURTON, I. T., July 8.—The Choctaw Indians sentenced to be shot for the murders committed during the war between the Jones and the Locke-Jackson factions, have been granted a reprieve for a month to give the prisoners an opportunity to have a new trial.

A Wonderful Stallion.

SALEM, Oregon, July 7.—Blondie, a 7 year old stallion, yesterday trotted 2.4.8 on a regular track, making the best time ever made in a race. Blondie was sired by Leamont, Dam Molloy, by Frank Chapman and foaled in this state. He has a racing record of 2.15.

Wool Market.

BOSTON, July 8.—The demand for wool is still rather moderate. Manufacturers move cautiously, as they are not receiving many orders for goods. Prices for wool remain about the same. In new Texas, territory and California wool there has been fair trade at 43¢ for fine and fine medium clean, and 40¢ for medium.

Driving Cattle Out.

GUTHRIE, O. T., July 8.—Soldiers are driving thousands of Texas cattle off the Cherokee Strip over the line into Oklahoma, and as most of these have the Texas fever, the farmers are up in arms. Along the line hundreds of cattle are lying dead and dying of the fever, and the governor will take action to stop the moving of cattle.

A One-Sided Proposition.

NEW YORK, July 8.—A special meeting of the chamber of commerce was held for the purpose, as stated in the call, of giving public expression to the opinions of business men as to the remedies to be applied for the restoration of confidence in place of the recent disturbed condition of the finances of the country, which disturbed condition has been brought about, primarily, by the enforced purchase of silver by the government to preserve the gold standard.

Fully 100 members were present and the following was adopted:
Resolved, That the repeal of the silver-purchasing clause of the Sherman act, which month by month renders increasingly difficult the maintenance of the parity of each dollar, is essential to the prompt restoration of national prosperity. This chamber therefore urges the speedy and unconditional repeal of such silver-purchasing clause.

Resolved, That in the judgment of this chamber a representative commission should be appointed by congress at the special session about to convene, which should diligently study the laws of the United States and of other countries and report at the regular session of congress, to the end that a comprehensive plan for a safe and elastic currency may be carefully matured, in the light of the world's experience.

With an amendment providing for committee work at Washington, the resolutions were passed, the whole chamber voting aye except William P. St. John, Foster Higgins and J. B. Colgate.

CONDENSED NEWS.

Silver sold down to 71 yesterday. The Vikings ships will reach Chicago today from Newport.

The Columbus Caravels arrived at Chicago yesterday and were given an enthusiastic welcome.

Frank Melbourne has made another failure to bring rain from the clouds at Cheyenne.

Reading, Pa., has been badly cut up by a terrific hail storm. The stones were as large as hickory nuts.

Miss Edith, daughter to James M. Drake, the millionaire New York banker, has mysteriously disappeared.

A cyclone has destroyed a number of buildings at Huron, Mich. Freight cars were blown from the tracks.

There came very near being a disastrous fire in the World's fair grounds last night, but the blaze was extinguished with not much damage.

The Paget Sound National bank of Everett, Wash., with capital at \$100,000, has suspended. The bank of Lunenburg, Wash., has also suspended.

Chicago is beginning to realize on its World's fair investment, there being over \$1,000,000 a day spent by the visitors.

Work at the mines on Iron Mountain, Mo., has suspended after going on continuously for fifty years, and several hundred men were discharged. The disappearance of timber and exhaustion of the vein are the occasion of this.

Sec. Smith will start from Washington to-night in a special car for a visit to the southwest, including a stop at Yellowstone park, where he will make an examination of its conduct. It will be his first trip west of the Mississippi.

The Rev. Dr. McGlynn says in a New York interview that he went to Rome merely to pay his respects to the pope, and to receive personally his apostolic benediction. He hopes to be able to say mass publicly ere long.

The Western Passenger association will make a rate of one fare for the round trip to the World's fair. None of the western roads are doing much business and some of them after spending considerable on extra equipment are beginning to worry over the failure of people to crowd their trains.

A Bad Man's Fate.

LOUISVILLE, July 8.—Charles Mitchell, alias Glass Eating Joe, the rascal and murderer of two young girls at Bardwell, Ky., was hanged by a mob in the principal street of that town yesterday afternoon.

Colorado Deposits Tied Up.

DENVER, July 8.—The state has deposited in the American National bank at Pueblo somewhere in the neighborhood of \$50,000, which is indemnified by a bond of \$200,000 signed by friends of the bank, who, it is claimed, represented over \$2,000,000, so nothing is feared by Treasurer Nance.

NATIONAL CAPITAL.

The President's Illness—Bi-metallicism in Congress—Silver and Other Matters.

WASHINGTON, July 8.—In reply to the inquiries addressed to the secretary of agriculture, asking for a definite expression, in bushels, of a normal full yield of wheat, which is the basis represented by 100, upon which the crop representatives of the United States department of agriculture are instructed to calculate their percentages, impairment, the statistician of the department, Mr. H. A. Robinson, says that the ascertained normal, or full crop, expressed in terms of "bushels per acre," for the entire country, is taken from the tables of the department. During the past ten years the normal standard has varied from 13.60 to 15.60, averaging about 14.5 bushels per acre.

BI-METALLISM.

Gen. Warner, president of the bi-metallic league states: "Through polls of the silver forces it seems to establish the fact that the Sherman law can not be repealed without a substitute which will be satisfactory to the silver element. This statement reflects the sentiments of the free silver men here, and there can be no doubt that within the last twenty-four hours they have gained renewed confidence in the belief that the Sherman act can not be repealed without giving the silverites something equally good or better."

UNABLE TO PROCEED.

Senator Harris, of Tennessee, president pro tempore of the senate, one of the Democratic majority of the finance committee and a free coinage man, of the most radical type, is unable to predict what legislation would be enacted or how much time would be given to its consideration. The most noteworthy statement that he made is that there will be no filibustering in the senate against the adoption of a bill to repeal the Sherman law.

THE PRESIDENT ILL.

The rumor that the president is dangerously ill has thrown the city into excitement, although there is nothing tangible upon which to base the report. Sec. Lamont says that Mr. Cleveland is better, but his rheumatic leg is still very painful. The report that Cleveland was operated on for cancer of the tongue before leaving here is not credited. There is, however, a vague feeling of apprehension which lack of reliable information tends to strengthen.

A New York dispatch says Mrs. Hoyt, of Omaha, Neb., a mother of five children, left yesterday for Buzzard's Bay. This has aroused afresh the fears that Mr. Cleveland's condition is much more critical than the public is led to believe.

WILL BE HELD UP.

The postmaster general said that until the president returns from Buzzard's Bay early in August no further appointments of presidential postmasters would be made. No consolidation of land districts is expected before the secretary of the interior returns from his summer vacation. In consequence of the contemplated consolidations very few, if any, appointments of local land officers will be made at present.

HAD TO BUY IT.

Sec. Carlisle yesterday ordered the purchase of \$100,000 in silver, for which 72 cents was paid.

The Deadly Cyclone.

PORT DOVER, Pa., July 8.—Pomeroy, a town of 9,000 inhabitants, in Calhoun county, was practically wiped out by a cyclone, between 50 and 100 people being killed and nearly 200 are injured, many of whom will die.

In some instances entire families were wiped out, their mangled remains being found in the ruins of their homes. The cries of the injured were heartrending and the general confusion was increased by the wailing of survivors, who were parted from friends. Many sought shelter in cellars and others mounted horses to flee from the path of coming destruction.

There was a dash of hail, a blinding flash of lightning and a deafening peal of thunder. Men and women ran through the streets shouting and gesticulating.

Ten were killed and several injured south of Aurelia. One was killed and several injured near Storm Lake. Nine were killed and two injured south of Fond du Lac. The names of the killed near Storm Lake were Mrs. Lester and Mrs. Mollie Molyneux. Near Fond du Lac one of the Gordon family out of seven have been found. It is reported that four of the family of Burgess, near Aurelia, were killed. The loss of property is beyond estimation. Rescuing parties are at work.

The Tax Levy.

The county board has been in session all week considering matters of taxation. There were many alterations in the assessment returns and the assessor will be some days figuring up the total valuation of county property. The board has fixed the tax levy for the year 1893 as follows:

General county tax	3 mills
Interest on bonds	2 1/2 "
Interest on " '82, '83, '90	2 1/2 "
Court fund	2 "
Road tax	1 1/2 "
Public schools	2 "
Total for county	23 mills
Territorial tax	6 mills
Special deficit	2 1/2 "
Normal schools	0 1/2 "
Normal institutions	0 1/2 "
Normal schools	0 1/2 "
Branch ag. exp. stations	0 1/2 "
Casual deficit bonds int.	0 1/2 "
Territorial institutions	1 1/2 "
Cattle indemnity	0 1/2 "
Total	11 1/2 mills

In Santa Fe city the additional tax for municipal purposes is \$1 on the \$100 and in Cerrillos town it is 5 mills on the \$100, thus making the total levy in Santa Fe \$4.45 on the \$100.

Fire at Albuquerque.

About 2:30 this morning B. F. Munger's grocery store and stable, south of the A. & P. shops at Albuquerque, were destroyed by fire. The fire department was handicapped for lack of water and the contents of the building were almost entirely destroyed. The store was recently purchased by Mr. Munger from I. C. Sanchez. The loss is about \$2,300, with an insurance of \$1,500 in companies represented by Henry Lookhart.

Water Notice.

On account of imminent danger of water famine, the Water Company gives notice that all irrigation from pipes in the city must be discontinued till after rain and further notice. Failure to comply promptly and fully with this notice or any waste of water permitted will subject the premises being used to fine from water supply, even for domestic purposes, without further notice.

Frank Roberts' Romance.
Frank Roberts, formerly a guard at the penitentiary and well known hereabouts, was recently married to a Mrs. Stickle, of Kansas City, and the two are now living there in a handsome brown stone front and other necessities of the "in clover" species. There is a little romance back of it all. Last summer Mr. Stickle, a train dispatcher at Indianapolis, with a very weak pair of lungs and a rather pretty and stylish wife, came to Santa Fe in search of health. They procured a camp outfit and went into the Valle mountains. Mr. Roberts accompanying them as guide. Mr. Stickle's health gradually failed and soon after returning home the grim messenger carried him off. Eight months afterward Mrs. Stickle became Mrs. Roberts. The lady has a \$10,000 bank account and considerable realty property in Kansas City. This is Mr. Roberts' third venture in the matrimonial line.

Mrs. William Lohr

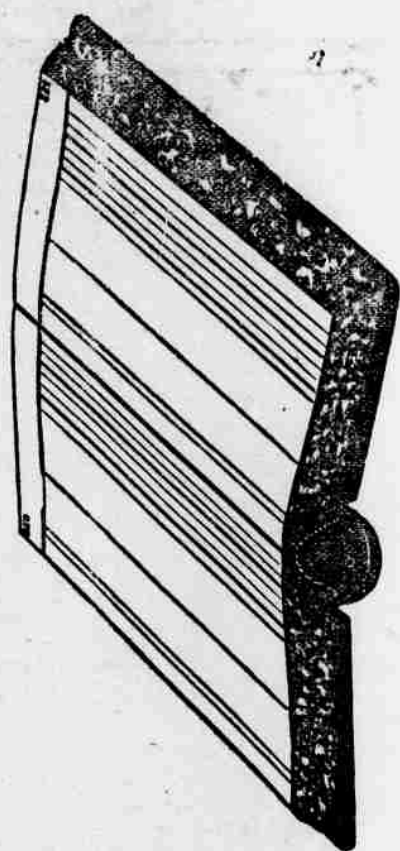

Of Freeport, Ill., began to fail rapidly, lost all appetite and got into a serious condition from dyspepsia. She could not eat, and even toast distressed her. Had to give up housework. In a week after taking

Hood's Sarsaparilla
she felt a little better. Could keep more food on her stomach and grew stronger. She took a bottle, has a good appetite, gained 22 lbs., does her work easily, is now in perfect health.

Hood's PILLS are the best after-dinner pills. They assist digestion and cure headaches.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

SATURDAY, JULY 8.

When the Missouri senators link hands together the man whom they support gets office in New Mexico.

CONFIDENCE must be coming back and the "demon of distrust" must disappear; the sooner this happens, the sooner will the country recover.

The slump in the matter of statehood for New Mexico is continuing; the people of New Mexico are getting afraid that it will not be the right thing to make this territory a state for the present.

The Chicago anarchists love Gov. Altgeld, of Illinois, for the enemies he has made; his pardon of the three convicted anarchists endears him to the hearts of the anarchists in this country quite as much as if he had been in bomb throwing business personally.

The extra session of congress will show how much work Mr. Cleveland has accomplished in securing votes for the repeal of the Sherman act. The acts of that session will prove how far concessions go and how much of a concessionist the president is.

There is no use laying down and squelching over the situation; put your shoulder to the wheel and do the best you can for your town and for the territory, low wool, low silver, low lead, broken banks, hostile administration and all the other things to the contrary notwithstanding.

The New Mexican has heretofore advised and still advises moderation and peaceful proceedings in the pending case by which the governor is trying to oust C. M. Conklin, the legally elected sheriff of this county, and hopes that its advice will prevail. This for the good of all concerned and for the sake of peace and order in the capital of New Mexico.

Tax failure of the Albuquerque National bank and the Albuquerque Savings bank has caused quite a slump in territorial finances. The territorial credit will be impaired, and it will take mighty good financing to make things straight again; fortunately the territory has in Major Pelen as good a treasurer as can be found in the country.

Tax number of business failures reported by Bradstreet's for the week ending June 27, under the Cleveland administration, was 360. The number of failures during the corresponding week of 1892, under the Harrison administration, 159, or considerably less than half the total of last week. Will some of our more or less able Democratic contemporaries inform the people why is this?

Tax report of the recent abdication of the king of Greece turns out to be untrue, and for the present no "Republic of Greece" has been declared, but the Republic of Greece will nevertheless be an assured fact in the near future and that before ten years roll by. Its going that way in all the monarchies, going, going, going, and it's getting there slowly but surely.

WHERE IS THE PROFIT FOR THE WOOL GROWERS?
At Grants station in Valencia county there are stored now 250,000 pounds of wool for which but 5 1/2 cents per pound are offered by buyers; last year at this time the same class of wool brought 13 cents per pound; the same ratio holds good as to the entire wool clip of New Mexico, that amounts to between 10,000,000 and 11,000,000 of pounds; now let Delegate Joseph and the Democratic leaders in New Mexico figure out where the profit comes in to the people of New Mexico as a whole and to the wool growers of New Mexico in particular by the change in administration.

THE REMOVAL OF SURVEYOR GENERAL HOBART.
The New Mexican, upon the removal of Hon. E. F. Hobart as surveyor general, as

a simple matter of curiosity, made up its mind to find out what the charge against that official was and as usual succeeded in its undertaking.

The charge upon which Surveyor General Hobart was removed and which was made by Antonio Joseph, delegate, is that he, Hobart, on the 18th of June last awarded a contract for the survey of the Las Vegas grant, amounting to about \$13,000, to L. M. Brown, a U. S. deputy surveyor residing at Socorro; the charge was made that this was improper and that the letting of such a large contract should have been left for the Democratic surveyor general.

The removal was asked upon that ground and it was made, civil service reform or no civil service reform.

However, removal or no removal, Hobart certainly acted for the best in the case and for this reason: The appropriation for the survey of the grant was made for the fiscal year ending June 30, 1893; had the contract not been made before June 30, 1893, the money would have reverted to the treasury of the United States and the question of the survey of the Las Vegas grant would have been postponed till another appropriation for the purpose could have been obtained, which would have been at least a year, probably more and probably an indefinite period.

Because Surveyor General Hobart rendered a service to the people of New Mexico in general and to those of Las Vegas and San Miguel county in particular, the delegate made charges against him and the administration removed him.

The people of New Mexico should bear this case in mind.

THE SPIRIT OF THE PRESS.

Settling the Deal.
The straight out Democrats of Kansas have secured the best federal office in the state, and yet they did not give Cleveland a single vote in the last election.—St. Louis Globe-Democrat.

More Truth Than Imagination.
The latest way of referring to a bank failure is: "Another bank gone Democratic," and there seems to be more truth than imagination in the expression.—Burlington Free Press.

Views on the Income Tax.
Col. William R. Morrison says he hasn't found anybody favoring the proposed income tax who thinks he himself will have to pay anything. A great many people endure with fortitude the taxation of their neighbors.—Salt Lake Herald.

A Bid for Socialistic Votes.
The action of the chief executive of a great state like Illinois, in extending clemency to men whom the nation considered exceeding fortunate to escape the gallows, can not fail to bring into question the stability of popular government, especially when such action is so clearly a bid for the vote of the violent socialistic element.—Pittsburg Times.

On the Anxious Seat as in New Mexico.
It seems to have escaped the presidential mind that California is in that territory within the bounds which Mr. Cleveland is privileged to bestow great blessings on himself by merely giving. It is some time since a citizen of the Golden state was struck dead by the lightning of presidential favor, and there isn't a man within her borders who is not willing for a shock.—San Francisco Evening Post.

A Leading Southern Paper Against Silver.
We are sorry that the western mines have been compelled to shut down. We are glad that there are no silver mines in the south. Perhaps the southern planter will come to the conclusion after all that it is better for him to sell his cotton for gold than to have the same value in markets that would be to trade it off for silver money which can only get along with the aid of government crutches.—Charleston News and Courier.

The Good Fight for Silver.
The silver men are making a good fight for the silver cause preliminary to the meeting of congress. The different conventions which have been called will strengthen the friends of silver among the constituents of members of congress. They also will give an opportunity for an expression of sentiment in favor of free and unlimited silver coinage, which will go a long way to counteract Mr. Cleveland's influence in favor of the single standard. The friends of silver in all parts of the country ought to exert their influence to prevent congress from repealing the Sherman law unless some measure more favorable to silver should be substituted.—Denver Republican.

All in One Short Year.
It was just one year ago that Grover Cleveland was nominated for president by the Chicago convention. The country was under a Republican administration, money was plenty, there was a general tonic of prosperity in the air. At the end of that year we are living under a Democratic administration, money is scarce and the country laboring under the most severe and general business depression since 1873. These are facts, whether they have significance or not. Who is there among our business men who would not like to turn the hands of the clock backward and put us where we were a year ago?—Boston Advertiser.

Silver Men Must Stand Together.
Senators and congressmen who now contemplate falling down before the Wall street Moloch should memorize these sig-

nificant words written by Senator Stewart to the Silver State, Nevada.
Every silver man that goes over to the gold side will be a marked man for the balance of his days, and he will never be able to make his friends, to say nothing of his enemies, believe that his change was not the result of corrupt influence.

"Tell the people of Nevada to stand firm in the right. I believe we will succeed. If we do Nevada will be herself again. Yours very truly."
"WILLIAM M. STEWART."
Senator Stewart is quite correct. No man in public life ever has escaped the blight of public condemnation for open abandonment of the course of political integrity. The people will watch with jealous eyes the course of their senators and representatives when brought under the baneful influence of the eastern and British money power.—Denver News.

UNDER IRRIGATING DITCHES

Choice Mountain Valley and Lands near the Foot Hills

FOR SALE

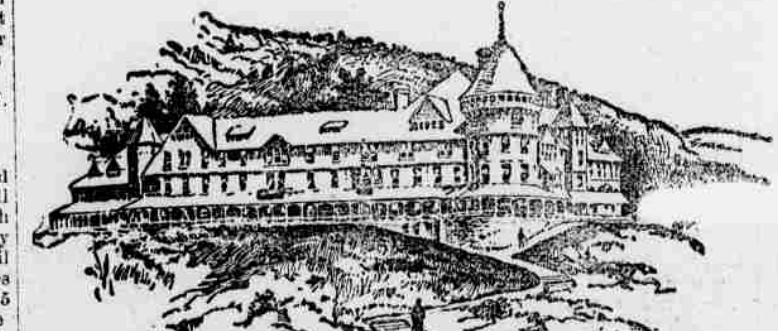

For the irrigation of the prairie and valleys between Raton and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 75,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A. T. & S. F. railroad and the D. T. & Fort Worth railroad cross this property, and other roads will soon follow. The Graduating Essay.
Mary (reading her graduating essay to Flora)—But certain wise men—
Flora—I would change that.
Mary—How should I phrase it then?
Flora—Instead of certain wise men I would say certain sagacious individuals.

ASTONISHING FACT, SUSPECTED BY COMPARATIVELY FEW.

Things that embody the most truth are frequently as they seem to be realized. Incredibly as it may seem one in four has a weak or a diseased heart, the early symptoms of which are, short breath, oppression, faint and hungry spells, fluttering, pain in left side, smothering, swollen ankles, dropsy, wind in stomach, etc. Levi Logan, Buchanan, Mich., suffered from heart disease thirty years. Two bottles of Dr. Miles' Heart Cure cured him. "The effect of your New Heart Cure is wonderful."—Mrs. Eva Dresser, McGregor, Iowa. This favorite remedy is sold by A. C. Ireland Jr., on a guarantee, for the Doctors' book, "New and Startling Facts," free.

JUST ME.

Yes, I was to meet her at 8 o'clock, but I got there at 7.45.

SEVENTY-FIVE CONVULSIONS, A THRILLING EXPERIENCE.

There is no one but at some period in life has an experience that stands out prominently beyond all others. Such is the case of John B. Collins, of Romeo, Mich., who says: "From September to January, before using Nervine, I had at least seventy-five convulsions. After three months' use I have no more attacks." Dr. Miles' Restorative Nervine also cures nervous prostration, headache, poor memory, dizziness, neuralgia, etc., and builds up the body. Mrs. J. R. Taylor, of Valparaiso, Ind., and J. R. Miller, of Logansport, Ind., each gained twenty pounds of flesh by taking it. Sold by A. C. Ireland Jr., on a guarantee. Get the Doctor's book, free.

HIS INFERENCE.

The Wife—Who is it that says, "Beauty undimmed is adorned the most?"
The Husband—I don't know.
The Wife—Well, it doesn't matter who was the author; it is true.

LAST FALL I WAS TAKEN WITH A KIND OF SUMMER COMPLAINT, ACCOMPANIED WITH A WONDERFUL DIARRHOEA.

Soon after my wife's sister, who lives with us, was taken with the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Texas, 25 and 50 cent bottles for sale by A. C. Ireland Jr.

Evidently Insane.
"Yes, she is a brainy woman, but eccentric. In fact, I think she is a little off; a little touched, as it were."
"Indeed? That's to bad. But what reason have you for thinking that she is not all there?"
"Well, the last house she moved into just suited her, and she told her husband that there was more closet room than she needed."

A STORY OF SUFFERING.

The drummer from Chicago was rattling off the merits of his goods in a way which at last caused the good old merchant to look at him doubtfully.
"Oh, I'm telling you the straight truth," said the drummer, catelching on to the mild insinuation in the old gentleman's face. "I would hurt me to tell a lie."
"Yes," responded the old merchant quietly, "I know it would. There was a Chicago man in to see me yesterday, and he said the same thing, but I noticed that he went right on suffering as long as he staid here."—Detroit Free Press.

DOOMED TO DISAPPOINTMENT.

Is this the World's fair? asked the portly provincial Englishman of the guard.
Yes, sir.
Well, where are the highwaymen and pickpockets and the cholera patients and the drinking-water microbes?
Don't know. Never heard of them.
I thought you said this was the World's fair, said the Englishman, turning disappointedly on his heel and pulling a copy of his provincial weekly newspaper out of his pocket to find further directions for identifying the Columbian exposition.

The Sweet Girl Graduate—Look out for a husband, I guess.

THEY NEVER PAID.

J. N. Harris, 3 Fulton Market, New York City, says:
"I have been using Brandreth's Pills for the last fifteen years. There is nothing equal to them as blood purifiers and liver regulators. But I wish to state how remarkably they cure rheumatism, and how easily I was affected by rheumatism in the legs. My business (wholesale fish dealer) naturally leads me to damp places I could not walk, and at night I suffered fearfully; I tried balsams, anarsaparillas and all kinds of tinctures, but they did me no good and I was afraid of being a cripple. I finally commenced using Brandreth's Pills. I took two every night for ten nights, then I began to improve. I continued taking them for forty days, and I got entirely well. Now, whenever sick, I take Brandreth's Pills. They never fail."

THE ENGLISH LANGUAGE.

"Spell toes," said the mother, who was teaching her little daughter, 7 years old to spell.
"But it sounds like t-o-z-e."
"I know it, but you cannot go by the sound."
Then, in order to endorse this proposition, the mother called on her daughter to spell froze.
"F-r-o-e-s," said the child.
"No, you are wrong again. This time we do use the z and spell the word f-r-o-z-e."
"Huh!" granted the child.
"Now spell rose," said the mother.
The child hesitated. Finally she said; "I don't know whether to spell r-o-z-e or r-o-e-s, and really I don't know that either way would be right."
"Spell it r-o-s-e," said the mother.
"Though there is another word pronounced just like it that is spelled r-o-e-s. The word is the name of the spawn of fishes."
The poor little child looked very miserable.
"Just one more word," said the mother.
"Tell me how you spell blows."
"Well," said the child, who had had quite enough nonsense, as she viewed it from her mother, and had suddenly made up her mind to pay back in kind, "I spell it three ways. I spell it b-l-o-w-e for breakfast, b-l-o-e-s for dinner and b-l-o-z-e for supper."
"I spell it b-l-o-w-s all the time," said the mother.
The child said nothing for a minute or two. Then, looking up, she solemnly remarked:
"I think, mamma, that the English language was made for persons very, very well educated."—New York Times.

He Was Right.
This same black Sammy is a noted boy in the Sunday school. His teacher one day was trying to show the class the advantage of living a good life. These moral remarks were occasioned by a strong wind of chewed paper that happened to strike the benevolent superintendent on the cheek. Sammy was no doubt the culprit, although his black skin showed no signs.
"Now, children, you must be better. Such actions as these tend to drag you downward, and if you do a bad deed once the second time you do it more easily. It does not pay to be bad, for you cannot go to heaven. Then Miss Goode straightened her glasses and looked into Sammy's shining eyes.

Sammy shuffled his feet.

GAUCHING.

Gladys got some garden seeds.
"Trusting little maid,
Picked them out with greatest care,
Talked about them everywhere,
Planted them with earnest prayer
And a little spade."

Then there came a fall of snow.

And a solid frost.
Gladys, taken by surprise,
Bravely dried her brimming eyes.
Sent around for new supplies,
Warranted to please.

Hardly were they in the ground.

When a busy hen,
Seeking sustenance, laid bare
All the cause of so much care.
Gladys wished that she could swear
And began again.

What the next mishap will be.

Patience doesn't know.
But if patient labor pay
In her garden plot some day
It is doubtful though.
—Somerville Journal.

A Good Reason.
When a visitor overstays his welcome, the people of New England say, "He makes us twice glad—glad when he comes; glad when he goes." A worthy citizen of Westfield, Mass., once put it even more strongly than that to a guest.
One of the Deyveys of Westfield removed to the Black River country, but every fall when he goes, he comes back to pay a long visit to his well-to-do relatives.
On one occasion after a prolonged stay he was surprised to see his host in the corner weeping.
"Why, Cousin Tim," said he, "what ails you?"
"You'll never come down to see me any more!" the host replied.
"How can that be, Cousin Tim. I'll surely come next fall."
"No, you won't. Something tells me you won't."
"Nonsense!" said the visitor. "What has put such a notion into your head? Haven't we always come down and spent the winter with you? Come, cheer up, Cousin Tim! Cheer up, and tell me what makes you think so?"
The grieving host blew his nose, wiped his eyes, and turning his solemn face to his sympathizing guest said, "Cause you'll never go away!"—Youth's Companion.

His Apology.

Elder Spudkins, who keeps a store at Quokosh, was sent as temporary supply to a pulpit in the village of Podunk, four miles away. He was late at the morning service and apologized thus:
"Brethren, I hope you will pardon my tardiness this morning, but the fact is, I was kept up late last night opening the finest stock of dry goods ever brought to Quokosh. We will sing the one hundred and third hymn."—Brooklyn Life.

Where to Stop in Chicago.

The perplexing question which is every day asked by people who desire to go to Chicago to attend the World's fair, is: "Where are we going to stay when we get there?" This is easily answered, and if you will go to the ticket agent of the Santa Fe, Mr. W. M. Smith, he will tell you.
Arrangements have been made for the distribution by the Santa Fe company of a pamphlet entitled "Homes for Visitors to the World's Fair." This is a reliable pamphlet containing the names and addresses of about 9,000 families who will furnish accommodations to visitors from May 1 to October 31, 1893. The pamphlet also contains sectional maps which will enable the intending visitor to select any quarter of the city that he would prefer. Correspondence can then be carried on and definite arrangements made so that when visitors arrive in Chicago they can proceed at once to their quarters.

AN UNCOMFORTABLE POSITION.

Mrs. Smith—And how is your neighbor?
Mrs. Brown—She's well enough, I suppose. I haven't seen her to speak to for six weeks.

THE WORLD'S SANITARIUM.

But it is to Santa Fe's superior climate advantages, and its fame as nature's most potent healing power as a cure for consumption and other pulmonary diseases that Santa Fe bases its great future upon. The highest American medical authorities concede the superior advantages of the city's location.

The requisites of a climate curative of consumption, are, according to the best medical testimony, altitude, dryness, equality of temperature, light and sunshine, and a porous soil. Moreover, it is possible, these must be secured in localities interesting and attractive, where variety and occupation may be had, and the social advantages are good.

An eminent German authority says: "The altitude most favorable to the human organism is about 2,000 meters," somewhat more than 6,500 feet.

these symptoms: Headache, obstruction of nose, discharges falling into throat—sometimes profuse, watery, and acid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness; offensive breath; small and taste impaired, and general debility. You won't have all of them at once; probably only a few of them; but they mean Catarrh.

And the proprietors of Dr. Sage's Catarrh Remedy mean to cure it, if you'll let them, no matter how bad or how long standing.

If they can't they'll pay you \$500 in cash. They mean that, too, just as it's printed.

They offer you the money—or a certain cure, if you'll take their medicine. But if they weren't certain of the cure, they'd never offer you the money.

Act on a new principle—regulating the liver, stomach and bowels through the nerves: A new discovery. Dr. Miles' pills speedily cure biliousness, bad taste, torpid liver, piles, constipation, Smallpox, for men, women, children. Small sized pills, 50 doses 25 cts. Samples free, at A. C. Ireland, Jr.

The seat of sick headache is not in the brain. Regulate the stomach and you cure it. Dr. Pierce's Pellets are the Little Regulators.

Santa Fe, the city of the Holy Faith of St. Francis, is the capital of New Mexico, trade center, sanitarium and Archeological see. An Indian Pueblo had existed on the site previous to the 16th century. Its name was Oga-pho-ga, but it was abandoned before Coronado's time. The Spanish town of Santa Fe was founded in 1605, it is therefore the second oldest European settlement still extant in the United States. In 1804 came the first venture American trader—the fur-trader of the great line of merchants who have made traffic over the Santa Fe trail, world-wide in its celebrity.

THE SAVINGS BANK.

Secretary Alexander Designates Hon. J. A. Hughes to Inspect the Accounts Thereof.

The territorial secretary yesterday received the following:

Hon. Silas Alexander, Secretary of New Mexico.

SANTA FE, N. M., July 7, '23.—Sir: I have the honor to inform you that the New Mexico Savings Bank & Trust Company, of Albuquerque, a territorial depository under section 6, chapter 61, of the laws of 1893, has failed to pay my official check on them as such depository for the sum of \$400, the same having been duly presented and not paid, as I am informed, for the reason that the bank had closed its doors. The territory of New Mexico has on deposit in said bank and had at the time of presentation of said check more than \$7,500. Very respectfully, your obedient servant.

J. A. PALEN, Territorial Treasurer.

Upon receipt of the above Secretary Alexander took under consideration the matter of protecting the territory's interests, and selected and commissioned Hon. J. A. Hughes to make a full and thorough examination of the condition of the business and assets of that corporation as expeditiously as practicable consistent with thoroughness, as per section 21, chapter 48, of an act of the legislative assembly of the territory of New Mexico, entitled "an act providing for the organization of savings banks and trust associations," approved February 17, 1887.

In his letter to Mr. Hughes the secretary adds: "At the completion of the business indicated above you will please make full report to this office."

Mr. Hughes left for Albuquerque at 11 o'clock last night and will enter upon his duties at once. The law touching these duties are very explicit and comprehensive in scope and the examiner is authorized to investigate and report on every feature of the bank's business. It may require ten days to finish the task.

SATURDAY SALAD.

MARGARET TAKES ABOUT THE WORLD'S FAIR.

CHICAGO, Ill.—My dear Janet: In that most excellent of magazines, The Century, I find some very good advice, relative to a trip to the fair. It suggests not to visit the great exposition as a mere idler, roving aimlessly through the genius, skill and labor of all earth's nations. Go with an object. Endeavor to acquire some sort of knowledge from the numerous sources spread before you. Enlarge your ideas, improve yourself in your particular calling. In the long ride to the grounds, I wondered just what is my exclusive branch of wisdom, and my motive in coming to the show. Sad to say, my dear Janet, I find that it is only a pure unadulterated case of feminine curiosity, and having arrived at Jackson park, I proceeded to gratify it.

My first excursion was to horticultural hall. The guides say that after the woman's building, more of the fair sex throng to this department than all the others put together. Most women love flowers, and such an opportunity to "consider the lilies" and all the fragrant and beautiful floral family was never before offered on this continent. That latest fad in flowers, the orchid, makes quite a gorgeous showing. The favorite of the American Duchess of Marlborough occupies a prominent place. The Empress of Austria is also a lover of orchids, and several varieties are known as her own raising. But the roses! Such Jacks and Neils and Brides as would entice the heart of a young girl, you can see every day. I grew enthusiastic over the La Frances, and the exhibitor promptly told me that when President Cleveland opened the fair, Mrs. Cleveland sent a bushel of these roses from the White house gardens, but every one said they were most inferior to the roses of horticultural hall. In the German exhibit there are some glorious pansies. I was told that the Empress of Germany prefers these flowers to all others. In honor of the gentle Princess Blanche, there is a quantity of sweet Edelweiss. A pretty story is told of the Man of Iron. Each day he is away from the princess he sends her greeting in the form of her favorite Edelweiss.

Being fond of extremes, I turned from the display of flowers to the prize of locomotion. How grateful I am that I existed not, when the "one-hoss shay" represented rapid transit. Curious relics of how our forefathers rode in state are shown, and there is always a crowd around the chariot in which the immortal George rode the equally immortal Martha to her future home, Mount Vernon. If you are interested in the ways

ONE MASS OF SCALES

Afflicted 3 Years by Dreadful Skin and Blood Disease, with Intense Pain and Loss of Hair.

All Other Remedies Fail. Relieved Instantly and Cured in Four Weeks by the Cuticura Remedies.

I have a few words to say regarding the Cuticura Remedies. They have cured me in four weeks time from a skin and blood disease which I have had for over three years. At certain times, my skin would be very sore, and always itching and peeling off in white scales. In cold weather my face was one mass of scales. When in the city air the pain was intense; it would almost bring tears to my eyes, and my blood also being in a poor condition, with a low of hair. I have tried every known remedy, but was recommended to use Cuticura, and I am thankful for what they have done for me. Your Cuticura Remedies have a healing effect on those who may have the opportunity to use them. I can recommend them to any one.

of other times than these, you have a field of wide scope in the transportation building. The building itself is one of the finest in the park.

In the department of liberal arts and sciences I barely escaped with my reason. Such a conglomeration of sights and sounds, of things and people, of things and people, there are some rare races. A spread and pillow covers woven in forget-me-nots, bear the modest price of \$6,000. Fans have gold sticks, lace covered, and some would require a fortune to purchase them. A lace parasol with jeweled handle is marked \$1,000. Every one examines the Venetian display of glass ware. It is exquisite, and quite reasonable as glass ware goes. Near me, a woman was haggling in atrocious French over the price of an exquisite jardiniere. The proprietor was mildly expatiating in barbarous English, but finally they struck an amicable bargain through interpretations of one of the guards.

These guards are quite a feature of the fair. Some of them are very gentlemanly and obliging, and others, if you would be complimentary to Mr. T. I got into deep water several times in the course of my travels, and had to seek assistance at the hands of these officials. One went several blocks out of his way to direct me to the exhibit, another refused to answer the simplest questions.

I had a bird's-eye view of the government building, and was much surprised at the wonderful resources of New Mexico. It must indeed be a glorious country with a glorious future. I saw the beautiful table from your city, it is the handsomest I have ever seen. I have heard many others express the same opinion. With best wishes, my dear Janet, I remain always your friend.

Mrs. C. H. Morehouse, wife of General Agent Morehouse, of the Santa Fe railroad at El Paso is a very bright and charming lady. She attended the silver convention at Silver City and was the guest of Col. Bliss at the military ball at Fort Bayard. Mrs. Morehouse chaperoned two of El Paso's belles, Miss Josie Macguffin and Miss Lucille Longmear, who were in attendance at the Silver City convention and also visiting with her at Fort Bayard.

Union County Record Books.

Mr. J. D. Hughes, business manager of the New Mexican, has returned from Clayton, where he has been on business for the New Mexican Printing Company. This company, being the lowest and most responsible bidder, was awarded the contract for making the official record books for the new county of Union. The New Mexican Printing Company has the largest and most complete printing establishment and book bindery in New Mexico, and is the sole owner of a valuable patent for flat opening books in New Mexico. The New Mexican's work in the book making line is first-class in every respect, and will compare more than favorably in finish, durability and looks with work by eastern firms of similar grade. The citizens of Santa Fe and of New Mexico should take pride in supporting an establishment like the New Mexican printing office and bindery establishment.

The Sheriff's Office Contest.

In the shrewdly contested arguments have been in progress all day before Judge Fall, Messrs. T. B. Catron and E. L. Bartlett appearing in behalf of Sheriff Conklin and Judge Warren for Mr. Cunningham. The question at issue was whether or not the injunction granted by Judge Seeds restraining Cunningham from attempting to usurp the duties of the sheriff's office under the commission he holds from the governor shall be dissolved.

At 3:20 arguments closed and the court decided in behalf of Cunningham, dissolving the writ and dismissing the bill. Mr. Conklin's attorney gave notice of appeal to the territorial supreme court. At the suggestion of Judge Warren the mandamus proceeding brought by Cunningham to compel Sheriff Conklin to turn over to him the office, came on for hearing. At this writing it appears that the night session will be held by the court.
