—BRIEF WIRINGS—

Insufferably Hot.
Rome, July 24.—The weather here is insufferably hot. It has been so all week throughout Italy and in this city the thermometer has run steadily over 100. Owing to the extreme heat the pope has suspended for a time the granting of audiences. His holiness is about prostrated.

A Fast One.
CHICAGO, July 24.—At Washington Park Saturday afternoon Morelo made one mile and a quarter in the hot July sun in 2:05, thus equaling Salvador's greatest feat. Morelo's race is by far the greatest for the reason that it was made at 3 years, carrying eight pounds above the scale.

Resuming Business.
DENVER, July 24.—The business situation here continues to improve. The Palace drug store is re-opened, and the Ticker Shirt company has made arrangements to continue business. The Hallock-Sayre-Newton Lumber company has resumed business, and arrangements are being made for the opening of the McNamara dry goods store.

A Lieutenant Drowned.
St. Louis, July 24.—Advice received here by the family of his wife tell of the death, by drowning, of Lieut. Powhatan Clark, U. S. A., at Fort Custer, Mont., where he was stationed with his command. The circumstances are not known. Lieut. Clark was 30 years of age, a son of Dr. Clark, of Baltimore, Md., and was married to Miss Elsie Clemens about a year ago.

The Bad Record.
WASHINGTON, July 24.—Since the first of January nearly 200 national banks have closed their doors, against less than fifty during the same period last year. Of the failures this year five have been United States depositories as follows: The First National bank of Little Rock, Ark., the Gate City National bank of Atlanta, Ga., the People's National bank of Denver, Colo., the German National bank of Denver, the Kentucky National bank of Louisville.

A Brutal Murderer's Death Day.
ALBANY, N. Y., July 24.—Justice Leary, of the supreme court, in Buffalo recently sentenced William G. Taylor, who brutally murdered a companion in the broom shop at Auburn prison, to die in the electric chair in the week beginning to-day. Taylor was tried some time ago and found guilty, but a plea of insanity was entered and the court appointed a commission to examine into its merits. The commission reported that Taylor was perfectly sane.

A Hard Fight Ahead.
New York, July 24.—The Bond Buyer prints the following: President Cleveland has had made by one of the most competent officers of the government, a rough canvass of both houses of congress by the president's canvass committee, to a long and exciting and bitter contest in both branches of congress. The eventual result of the bill may be brought about, but not promptly. The extra session will doubtless be run into the regular session without agreement on this disturbing question.

STILL TUMBLING.
Silver's Depression and Fear of Free Trade Continue to Cause Many Big Business Failures.

LOUISVILLE, Ky., July 24.—The Kentucky National bank with a capital of \$1,000,000 has suspended. The bank is the government depository and in the statement of the bank published July 13, the government deposits are placed at \$391,731 and deposits of United States disbursing officers \$138,268. Resources \$2,742,764; liabilities much less.

Knoxville.—The State National bank of this city closed its doors Saturday. A slight run was made on the City National only, which is just opposite the State, but her depositors were paid in full. The score was soon over. There is no more uneasiness felt here.

Milwaukee.—The Southside Savings bank and the Milwaukee National bank have failed.

The closing of the Milwaukee National bank was a surprise even to some of the stockholders. J. M. Perles, who owns a block of the bank's stock, says there is no reason why the bank should have closed except that they were compelled to stand a run. Statements a few days ago showed bank assets exceeding liabilities amounting to between \$500,000 and \$600,000.

Pueblo, Colo.—Judge Hallet, of the U. S. supreme court, has appointed H. E. Chubbuck, of Pueblo, Colo., receiver of the Pueblo Street Railway company and the International Trust company. The liabilities are \$700,000.

The President's Message.
WASHINGTON, July 24.—There is considerable speculation here as to what President Cleveland will say in his annual message, as being now without the usual consultations and discussions of his cabinet he must outline his work alone. There are a great many things which he desires the next congress shall do, but it is understood that all he expects the

approaching extra session to accomplish will be the solution of the silver problem. It is believed the message will be confined to a complete review of the financial question and the pointing out of the importance of a prompt repeal of the Sherman law. The first intention of the president was to demand the immediate and unconditional repeal of that law, but it is now said that in order to expedite matters he is seriously considering the advisability of suggesting some kind of a substitute, and it is intimated that he is thinking over a plan for the free coinage of silver deprived of all but limited legal tender quality; legal tender, for instance, in payment of debts not exceeding \$100.

CONDENSED NEWS.

The infantry competition will be held at Fort Bayard to commence August 14. 1st Lieut. C. S. Collins, 11th infantry, in charge of competition; Capt. J. M. Thompson, 24th infantry, commanding camp and chief range officer; 1st Lieut. H. W. Hovey, a. a. q. m. and a. c. s.; 1st Lieut. Bogardus Elbridge, 10th infantry, as financial and statistical officer; 2d Lieut. William Weigel, 11th infantry, as camp adjutant and acting ordnance officer. As range officers: 2d Lieut. Odon Gurovitz, 11th infantry; 2d Lieut. J. S. Winn, 2d cavalry; 2d Lieut. I. C. Jenks, 24th infantry; 2d Lieut. G. S. Harrison, 10th infantry. Two non-commissioned officers as scorers will be sent to Fort Bayard from each of the following posts: Fort Bowie, Fort Grant, Fort Huachuca and San Carlos.

The competition brings at these posts will determine the sharp shooters who are to represent the infantry and cavalry stationed in this department, in the army rifle team, which is to shoot at Fort Sheridan, near Chicago, for the champion marksmanship with rifle and carbine in the entire regular army.

The total assessed property in San Miguel county is listed at something over \$5,000,000, including that of Las Vegas, \$1,500,000.

A. Allen writes the Optic from Moline, Boons county, Iowa, to know just what kind of trouble Paul A. Marcellino got himself into, down in Socorro.

Miss Mary O'Brien writes from Cleveland, Ohio, saying that she will be in Las Vegas again, September 1; but that during the summer, her address will be Oshkosh, Minnesota.

The losses by the recent fire on Railroad avenue, are being adjusted by Edward Henry. Jake Block's loss has been placed at \$250. F. W. Fleck's loss was about \$1,200, insured for \$800. The loss on the building is placed between \$1,520 and \$1,600.

Mrs. Clark D. Frost, wife of Manager Frost, assisted by lady guests of the Montezuma hotel, gave a german at that hotel on Saturday night. Among the society people attending from town were Miss Blanche Rothgeb, Miss Mary LaRue, Mrs. M. A. Otero, Miss Beatrice Atkins, Miss May Wiegand and Miss Kate Holmes, of Kansas City, and Messrs. M. A. Otero, F. W. Studley, C. F. Stephenson, E. J. Thomas, J. H. Cravens, J. C. Tipton, Adolph Mennet, H. L. Maybo and Ludwig Bifeld.

ALBUQUERQUE ATOMS.
Gipsies are working the town. Thirty-six public school teachers received first grade certificates.

Rev. Robt. Hodgson, of the M. E. church, has been transferred from Eddy to Albuquerque.

W. W. Pope, on account of ill health, has resigned as a member of this city board of education.

A. W. Wilson, the national bank examiner, has closed his investigation of the Albuquerque National bank and forwarded his report to Washington. Nearly all the depositors in the Albuquerque National and the Savings banks have signed agreements which will help the banks to open at an early day.

GRANT COUNTY CRUMBS.
Marshal Cantley had his blood-hounds out for exercise Sunday and ran down an editor.

For the third time within a year the cabin and camp of H. S. Allen, eight miles from the city, has been robbed.

The Mexican contingent was out Wednesday prospecting on Main street for coarse chunks of gold washed down from Pinos Altos during the freshet.

At a very modest estimate, water sufficient to irrigate 1,000,000 acres of land, flowed through Silver City's streets last week and it has all gone to waste.

Mrs. Charles I. Davenport, the charming southern beauty who warblings have enraptured the music-loving public of Silver City for years, takes her departure for Hamilton, Wash., to-morrow, where she goes to reside. She will be sadly missed by all.—Enterprise.

District Attorney J. A. Anchetta, while in attendance on the board of county commissioners Wednesday, was seized with a violent prostrum. W. T. Williams was called in attendance and relieved the sufferer.

The Silver City National bank shows that with \$20,000 of deposits, it has on hand in available cash over \$47,000 and the bullion in transit will fully cover and exceed the balance of the liability to depositors.

The recent depreciation in silver is making itself felt in this locality. The First National bank of Denver has attached the Confidence mine for \$8,000, and Smith, Troutman & Jackson, who have the contract on the Confidence property in the Mogollons, have put on an attachment for \$7,500.

Since the commencement of the rainy season all of the Mexicans and unemployed miners at Pinos Altos are washing out gold in the gulches and arroyos, they are making from \$1.50 to \$3 per day. After 7 o'clock in the morning you see no idle men around the streets of Pinos Altos. This is far better than laying around town and is sure for bread.

Fifteen Apaches are reported out from the reservation. Eight of them are said to be with Kid and were seen close to Slaughter's ranch, west of the Animas, a few days ago. Which direction was taken by the other seven is not known. This report has not yet been confirmed from official sources, but it is well enough for travelers to go armed and keep a close lookout.—Enterprise.

DECOYS POINTERS.
Gentle showers are frequent.

Many strangers continue to visit the town of Eddy.

Black bass fishing in the big reservoirs is great sport.

Another big flow of water was struck at the works in Dark canon last night which will increase the supply 30,000 gallons daily.

Ex-register of the United States land office, Winfield S. Coburn, departed this life at his residence, in Roswell, on Saturday, July 15. He was a good man.

John W. Poe and wife have gone to California, Oregon and the northwest. They will visit the World's fair and other points before returning.

A TRIO OF MURDERS.

San Miguel, Eddy and Socorro Counties Scenes of the Latest Killings.

Another cold-blooded murder, this time purposely for robbery—three bags of wool—has been committed in San Miguel county—on a public highway, only a few miles out of Las Vegas. On Thursday last the body of Andres Garcia was found secreted by the roadside, the head of the unfortunate victim being literally hacked to pieces, as if with a hatchet. Garcia was a freighter and was en route from Chaperito to Las Vegas with a wagon load of wool belonging to Jose F. Jaramillo. The wool is missing, and it is thought the object of the murder was to secure this petty booty.

The description of the man who did the murderous deed, also a description of the team he was driving, are known, and there would seem to be no sort of excuse for failure of the county authorities to capture the criminal.

THE SOCORRO COUNTY KILLING.
Additional particulars of the killing at Water canon, Socorro county, noted in these columns on Saturday, are at hand.

It appears that the sheep herds of Richard Abeytia and Justino Baca were being driven out west of Water canon, three cowboys rode up to the herders and ordered them off the plain. They started the herd east and a little while afterward these same three men rode up again and asking who owned the herds, commenced to whip and abuse the herders and finally drew their guns and commenced to shoot, one shot taking effect in the lower part of the body of Anastacio Lobato, of La Joya. He died the day following. Sheriff Contreras secured a description of the men and started in pursuit on Saturday afternoon.

From Seven Rivers, Eddy county, also comes tragic news. On Monday last the body of an unknown Mexican lately employed at the reservoir was found in the river bed. The Eddy Independent says: "The Mexican killed near Seven rivers was found in the creek near its mouth, stabbed in seventeen places, cut and slashed. He was seen by Mr. Cunningham, the book-keeper at the dam, in company of two other Mexicans who left that work at the same time as he did. The three stopped at Seven Rivers and fell out but were prevented fighting by an onlooker. The names of the two companions of the murdered man are unknown, as the workmen at the dam are recognized by numbers instead of names."

Mr. L. B. Hamlen.

Of Augusta, Me., says: "I do not remember when I began to take Hood's Sarsaparilla; it was several years ago, and I have found it does me a great deal of good in my declining years."

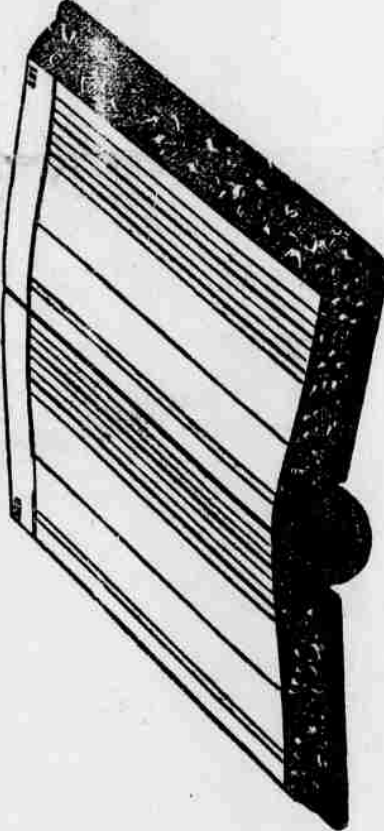

I am 91 Years
2 months and 20 days old, and my health is perfectly good. I have no aches or pains about me.

Hood's Sarsaparilla
regulates my bowels, stimulates my appetite, and helps me to sleep well. I doubt if a preparation ever was made so well suited to the wants of old people." L. B. HAMLEN, Elm Street, Augusta, Me., Sept. 26, 1891.

HOOD'S PILLS are a mild, gentle, painless, safe and efficient cathartic. Always reliable.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, JULY 24.

BRACE UP AND KEEP MONEY IN CIRCULATION.

Three thousand men were laid off last week in the iron mines of northern Michigan; another one of Mr. Cleveland's object lessons, it may be presumed.

Eight thousand cotton mill hands will be laid off during the present week in New Hampshire; another one of Mr. Cleveland's object lessons, is it?

The east is engaged in an attempt to starve the west out. It is a question who could exist longest, the west with its resources or the east with its money.

The man who is in lamb these days in New Mexico is not "in it," the fellow who is prepared to do the kicking, and do it vigorously, will be felt, however.

Our esteemed Democratic contemporaries are talking about stonewall; just now the territory is wrestling with hard times and that is enough these warm July days.

The solid south has now got the northern soldier at a disadvantage; however, it serves the northern soldier right; too many of him voted the Democratic ticket last November.

The call for the early meeting of congress has not yet restored confidence; it seems the people of this country do not have such an almighty powerful lot of confidence in the coming Democratic congress.

The counties of Mora, Taos and Colfax are indebted to the territory of New Mexico for the years 1891 and 1892 in goodly sums of money for taxes levied; the attention of Gov. Thornton is called to this state of affairs.

This journal continues to publish the statements of the statements in their line.

Two murders in this territory during the past week: one in San Miguel county and one in Socorro county; both seem to be cold blooded and horrible affairs; crime goes marching on in New Mexico; when will this end?

The Santa Fe railroad has cut the passes of many Populist statesmen and state officials in Kansas and now these gentlemen are very free for state control of railroads; and all for the dear people.

Some of our more or less esteemed contemporaries of the Democratic faith are blowing and yelling about attacks on the judiciary of the territory and some territorial officials; not; every man sinks to his own level, no matter what his official position.

The president will not return to Washington till August 3; that is hard again on our friends, the Democratic office seekers in New Mexico; but the president being the bigger man they must wait a while with patience and not do too much kicking; it may do them harm.

Long tirades and columns of rot do not change the fact that the 10,000,000 pounds of wool that brought into New Mexico last year one million and a half of money will this year bring but a half million. All the comfort that our free trade Democratic friends can get out of this state of affairs they are welcome to.

It makes no difference what congress will do; send in your silver dollars for subscriptions to the New Mexican and get the best and newest territorial paper in New Mexico; silver dollars with the stamp of Uncle Sam on them will be taken at par in this office, even if the eastern gold bugs claim those dollars contain but 68 cents worth of silver.

An Associated Press dispatch informs an anxious people that "Frederick T. Day, the indicted president of the Plankinton bank at Milwaukee, is at a sanitarium near Indianapolis in a serious mental condition." Any man who gets away with a half million dollars of other people's money ought to be "of a serious mental condition;" namely in the penitentiary for life.

THE REV. ALBERT G. BALE, of the Melrose Congregational church at Boston, in a recent sermon affirmed that "newspaper reporters are a curse." With all due respect to the church that he preaches in, it is nevertheless proper to assert that the reverend gentleman is a fool; what the reverend gentleman does not know would fill a much larger book than what he does know.

NO CONFIDENCE.

The whole trouble with the times is want of confidence. Men draw their money out of bank and hide it away. This disturbs the parity that should exist between production and the circulating medium. Unless money is forthcoming this fall on easy interest, what will the country do? A year's crop of grain, fruit and vegetables has to be moved and distributed. Unless confidence is restored and money gets easier twelve months of starvation and bankruptcy are ahead. Capitalists must study this aspect of the financial situation. It will not be a case of the poor against the rich, because all will be broke and there will be no rich. If the crops do not move rapidly during the next three months, bad times are ahead.

THE SPIRIT OF THE PRESS.

Early Fruits.

Not less than 500,000 workmen are out of a job, waiting for tariff tinkers and tariff smashers to show their hands.—Chicago Inter Ocean.

Secare.

There are 350,000 Democrats in Ohio, but it looks as if the party bosses would have to order a draft to get a man to run against Gov. McKinley.—Boston Journal.

It Has a New Significance Now.

The "billion dollar" phrase has a new and startling significance now. Four months of Democratic incompetency has made the country a billion dollars the loser.—Springfield Republican.

A Popular Bourbon Issue.

Minister Blount is coming home to run for governor of Georgia on the record of being the only man who has hauled down the American flag since the rebellion.—St. Louis Globe-Democrat.

They Wouldn't Be Happy Till They Got It.

Last year the people of Colorado cried for a "change." The Democrats entered into a combination with the Populists to bring about the "change." Now they have the "change" and the governor is talking of going to war about it.—Iowa State Register.

Hind sight.

Wisdom of the administration in its treatment of the Hawaiian question, Uncle Sam, if he runs a navy and his commerce, will before ten years be willing to give many millions for what has been offered as a free gift.—Chicago Inter Ocean.

How is This for Muzzling the Press?

Fifty-nine Democratic editors have been given positions under the present administration. More need not be said by way of comment on the president's declaration soon after inauguration that "no editors need apply for office under this administration."—Cincinnati Commercial Gazette.

Ohio Democrats Uncomfortable.

The Ohio Democrats are wondering whether there was any malignity in the president's calling of the special session for a date a few days before the Democrats of that state are to adopt a platform. It will be annoying for them to be "clear, pronounced and emphatic" on the financial issue when congress may spoil the whole business for them.—Buffalo Commercial.

No Protection for Our Fishermen Now.

Under the Harrison administration American fishing vessels off Nova Scotia were not persecuted, but the incoming of Mr. Cleveland, with Mr. Bayard at the British court, seems to have been a signal for the Canadian authorities to recommence their outrages upon fishing vessels sailing under the stars and stripes. Canada assumes that it can get the free markets of the United States by pursuing a persecuting policy.—Indianapolis Journal.

What the Here Threat of Free Trade Has Already Done.

In an article in the latest number of the North American Review Mr. Edward Atkinson declares that "trade is checked, men are beginning to fail, banks are subject to ruin, distrust prevails everywhere," because "bad legal tender money is now circulating." We have just the same kind of money now that we had one year ago. Every dollar of that money is interchangeable at par with every other dollar. Every dollar will buy as much material as every other dollar.

Rheumatism, Lumbago, Sciatica, Kidney Complaints, Lambe Back, &c.

DR. SANDEN'S ELECTRIC BELT

With Electro-Magnetic Suspension.

Latest Patent! Best Improvement! Will cure without medicine all cases resulting from over-exhaustion of brain nerve forces; excessive indulgence in nervous debility, sleeplessness, languor, rheumatism, kidney, liver and female complaints, lambe back, lumbago, sciatica, all electric and general ill health, etc. This belt cures instantly and permanently all cases of rheumatism, sciatica, lumbago, etc. It is the only belt that cures all cases of these diseases. It is the only belt that cures all cases of these diseases. It is the only belt that cures all cases of these diseases.

Why, if the presence here of such money produces disaster and panic in 1893, did it not have the same effect in 1892? Why should the currency permit the highest measure of prosperity last year and bring about depression and distress this year? Mr. Atkinson can give no satisfactory answer to that question nor can any other man. There can be but one explanation of the extraordinary revolution in the condition of business. It is that there has been, within one year, an extraordinary revolution in politics. The control of the machinery of the government has passed into the hands of a party which is pledged to give the country free trade, and this single fact fully accounts for the hard times, the prevalent distrust, the scarcity of money and the multiplying failures. Mr. Atkinson does not like to admit the truth, and he beats desperately about for some explanation which will divert public attention from it, because, as much as any other American, he is responsible for the revolution and for fastening upon his country the policy devised by and in the interest of Englishmen. But no amount of effort will avail to hide the truth or avert the catastrophe. The mere threat of free trade has done immeasurable harm, and has permitted men to estimate what the consequences will be when Mr. Atkinson's highest hopes are fulfilled in the complete overthrow of protection in this country.—Philadelphia Manufacturer.

YOU DON'T KNOW

What a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort, and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons' Liver Regulator—not a sweetened compound to irritate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of a reliable remedy of the kind endorsed by eminent physicians.

"It affords me pleasure to add my testimony to those you receive annually in reference to your valuable medicine. I consider Simmons' Liver Regulator the best family medicine on the market. I have prescribed it with excellent results."
