## BRIEF WIRINGS.

### French in Siam.

LONDON, Aug. 31.—A Bangkok dispatch to the Times says the French troops at Chantaboon are making intrenchments and throwing up earthworks. The situation is viewed with the greatest anxiety.

### Silver.

NEW YORK, Aug. 31.—The brokers confidently looked for a drop in silver upon the passage of the Wilson bill by the house, but their hopes failed of realization. Silver went up three-quarters of a cent yesterday and is now 73 1/2.

### New Party Move.

DENVER, Aug. 31.—The talk of independent political action continues to be very general among leading republicans and has led to a call being made for a mass meeting to be held here September 16, for the purpose of preliminary organization.

### The President's Movements.

BUZZARD'S BAY, Aug. 31.—President Cleveland and family left the Bay at 1:30 yesterday on the yacht Onondaga and arrived in New York last evening. Mrs. Cleveland will remain there for a short time, but the president will proceed at once to Washington.

### Is He Sick?

PHILADELPHIA, Aug. 31.—The Press publishes a four-column article reiterating the statement that President Cleveland submitted to an operation on the Onondaga for the removal of a cancer, requiring the cutting away of considerable of the upper jawbone. The Press says Cleveland is still very sick, and that the physicians fear mental disease is still lurking in his system.

### Charleston's Cyclone.

CHARLESTON, S. C., Aug. 31.—Water and wind has played havoc with the old city by the sea and has laid waste some of its pleasantest places. Estimates place the losses at over a million dollars. There are no lights, both gas and electricity having given out, and there has been no railroad communication south for four days. The total loss of life is six people.

### To Marry by Proxy.

CITY OF MEXICO, Aug. 31.—A considerable stir in society circles has been created here by the announcement that in the latter part of September the well known capitalist, Don Sebastian Comacho will marry the widow Martinez Del Campo. The marriage will be effected by proxy, the prospective bride being in Europe. The dowry will amount to \$50,000.

### Security of Silver.

LONDON, August 31.—So great is the security of silver money in Italy that a private firm at Milan, Messrs. Gavazzi & Co., has taken to coining on its own account, and as the credit of the house is unimpeachable, the metal tokens—for of course that is what they really are—are freely accepted by the shopkeepers. Italy presents a remarkable exception to most other nations in the matter of currency. While they are complaining everywhere else of the superabundance of silver, the precious metal is actually at a premium there.

### Among the Boomers.

QUINCY, O. T., Aug. 31.—Cold and wet weather for several days has been hard on the boomers gathered along the Cherokee strip and there is much suffering. Several small children have died of exposure in the past twenty-four hours. The first strip land office was completed yesterday. Upon each lot in the townships on the strip is a post, bearing a card numbered to correspond with the lot, and the man who arrives first and gets the card will be the future owner of the lot.

### Tennis Champion.

NEWPORT, R. I., Aug. 31.—The final round in the all-comers tournament of the National Lawn Tennis association was played yesterday and Robt. D. Wien beat Fred Hovey. This match makes R. D. Wien the champion of the United States. The result is a great surprise.

### PENNA. REPUBLICANS.

Strong Nominations—Harmony Prevails.

HARRISBURG, PA., Aug. 31.—The republican state convention, to choose candidates for justice of the supreme court and state treasurer, was called to order at 10:45 yesterday. Over 250 delegates were present. The speakers held Cleveland and the democratic administration responsible for the evils of to-day, and demanded "Sherman money, McKinley tariff and Blaine reciprocity." District Attorney George S. Graham, of Philadelphia, named Judge N. Newlan Fell, of that city, for supreme justice. The nomination was made by acclamation, as was that of Samuel W. Jackson for state treasurer. Adjourned sine die.

### WASHINGTON NEWS.

WASHINGTON, Aug. 31.—The Washington Post states that unconditional repeal can not pass the senate. It says that if the lower house proceeds about its business, as it is certain to, it will aid the silver men in their fight by affording the senate other topics to discuss than the all-important repeal bill. But whether this is done or not the silver

situation is likely to remain unchanged in the senate for a month at least. At the end of that time the republican senators, realizing the determination of their silver colleagues and knowing that delay can continue indefinitely, will in all probability suggest a compromise to the silver men. The exact terms of this can not now be predicted, but it will strike a middle line between free coinage and unconditional repeal. It will be accepted by the silver men on both sides of the chamber and will be passed.

### TO STAMPEDE THE SENATE.

The effort now will be to stampede the senate and have Sherman silver rather than the effective part of it, wiped from the statute books at once. It is evident that there is to be a grand rush upon the upper house now that the lower body has done its work. The newspapers have been given the task of hammering the "reasonable" senators who stand out against the restoration of confidence and the return of good times, and right thoroughly they are doing their work.

### MORE COMPROMISE TALK.

Agencies are at work to bring about an understanding on the silver question. It is proposed to repeal the present silver purchasing act and pass a law which will simply authorize the secretary of the treasury, within a given number of years to purchase 300,000,000 ounces of domestic silver at current prices in such quantities and at such times as he may select and to issue certificates upon the bullion. It is claimed that this compromise will meet the approval of President Cleveland.

### CONTRACTS LET.

Three Hundred Teams and Twice as Many Men to Push Work on the Eddy Reservoirs.

### Special to the New Mexican.

EDDY, N. M., Aug. 31.—Contracts for reconstruction of the great dam, six miles above Eddy, recently destroyed by floods, were to-day awarded to Ward & Courtney. This firm also has in hand the building of the Seven Rivers dam. Both dams are to be completed by January first.

The Eddy dam will have greater capacity and a larger spill-way. The work will employ 300 teams and 600 men. Crops hereabouts are fine and all business is active. The Pecos valley is all right.

### CONGRESSIONAL.

#### SENATE.

WASHINGTON, Aug. 31.—Following the regular proceedings of the senate yesterday Mr. Sherman delivered a speech on the Voorhees bill. He said that if the repeal of the purchasing clause is the only reason for the repeal, it seemed to him insufficient; that congress and the people are agreed that both metals shall be continued as money. The senator talked of the Sherman bill and distinctly announced that in his opinion it might have been worse; that he is not in favor of free silver, and regards free coinage as but another name for monetary inflation with silver for the sole circulating medium.

Mr. Sherman criticized the president for his opinions regarding the cause of the decline in the value of silver. He said that this is a currency famine, not because the money was not good, but the policy was bad. He does not believe that repeal would relieve the country to any considerable extent. Mr. Sherman said that the Democratic party is responsible for the present financial distress.

At the close of Mr. Sherman's remarks Mr. Stewart gave notice that he would address the senate on Tuesday. Senator Voorhees gave notice that he would ask the senate to set aside for discussion the pending house bill No. 1, the Wilson repeal bill, as reported to the senate.

#### THE HOUSE.

WASHINGTON, Aug. 31.—The house yesterday discussed the proposed code of rules, without result. The session was dull and uninteresting.

Mr. Tolcott asked unanimous consent to introduce a bill repealing the statutes authorizing the appointment of marshals and supervisors of election.

Mr. Dingfield objected. Mr. Breckinridge, of Kentucky, from the committee on appropriations, reported the deficiency appropriation bill, which appropriates \$500,000, and it was passed.

The items are: \$25,000 for bank note paper, \$200,000 for exchange of gold and silver coins, and \$75,000 for clerks of representatives. Adjourned.

### CONDENSED NEWS.

The American Bar association is in session at Milwaukee.

Marie Prescott, actress, died at the Good Shepherd hospital, New York.

The final vote on the home rule bill takes place to-morrow night in the House of Commons.

The Evening Post, Denver, the only administration organ in Colorado, has suspended.

President Cleveland sent a congratulatory telegram to Wilson, the repeal bill leader in the house.

The silver debate in the senate is to be made a test of physical endurance. This at least is the program which the senators from the silver states announce. Senator Teller, of Colorado, says he has brought his winter clothes with him, and will wear them before the unconditional repeal shall pass.

### WESTERN PLUCK.

Rebuilding the Great Reservoir at Eddy—An Interview with Hon. Chas. B. Eddy.

General Manager Chas. B. Eddy, accompanied by W. A. Hawkins, general attorney for the Pecos Irrigation and Improvement company, returned to Eddy on Thursday last after an absence of several days at Colorado Springs. They had been called to Colorado by President Hagerman to furnish information and consult about plans for repairing the damage done to dams and flumes by the recent flood, and methods of insuring safety in the future.

In an interview with the Argus, Mr. Eddy said:

"I am now fully prepared and ready to let contracts and expect and hope to have them all made and signed in three days so that active work may be in progress within a week. There will be no let-up no tardiness in any line of the reconstruction. It is to be done as rapidly as men can do it, as Mr. Hagerman assured us by wire from New York as soon as the terms of the flood. At that time he had heard no particulars in reference to losses nor cost of repairing, but he intended that it should be done, no matter what the cost. When I was able to lay the details before him and the board of directors they found the estimated expenses would be less than was feared, and directed that operations should be commenced at once and carried out effectively and promptly. The directors were pleased that there was no loss of life by the flood and only slight, almost insignificant damage to individual property."

"There is to be no cessation of work on the big Seven Rivers reservoir. Some additional spillways will be made there, probably, and the work finished in 90 days. But I am now taking only of the repairs. The dam six miles above town will be heightened a little, and the present discharge capacity of spillways increased from 45,000 to 108,000 cubic feet per second. The work will be far in excess of the needs of a flood even like the last. The work can be completed in four months. The expense of replacing this dam, increasing spillways, repairing the flumes and gates in the canal will approximate \$125,000, and we shall have to pay out for this work from \$25,000 to \$30,000 monthly for a few months. In the above estimate the Seven Rivers dam is not taken into consideration, nor repairs to the railroad or Hagerman power dam, which of course Mr. Hagerman will attend to, for his opinions, intentions and expectations in regard to the Pecos valley are now the least changed. At any other time than one of such financial stringency he would not consider this loss and delay serious and even now will not permit it to affect plans for steady progress and rapid development."

By reference to another column it will be seen that to-day's address, announcing the letting of contracts above referred to.

### TERRITORIAL TIPS.

#### KINGSTON CRUMBS.

The Black range is alive with hunters. George Sparks, a pioneer miner and highly respected citizen, died at noon Monday of heart disease. The body was shipped to Kansas for burial.

The Kingston and Lake Valley Stage company have completed their road between here and the Box canon which was badly injured by the late floods.

John H. Fieck, ex-superintendent of the Grey Eagle mine, has left here for Cold Springs, five miles north of here, where he has taken a large contract for tunnel work on the Opportunity mine, one of the Standard company's group.

George Buck and son, Frank, were here from the gold mines at Animas Peak. They reported a great many men at work, and the big tunnel through the peak is progressing rapidly. There are now three stores in operation and the new hotel about completed.

The citizens and miners held another rousing silver social Thursday evening at which the subject and action of the gold-bugs in congress were discussed pro and con. Considerable ill feeling was also manifested at the non-attention by Antonio Joseph, New Mexico's delegate to congress, of resolutions drawn and sent to him from here July 22d.

Lee Davis, the owner of a large herd of Angora goats above town, and Mr. Bennett, of Bennett's saw mill at the head of South Percha, and Brodie Crawford, of this city, had quite an adventure with a mountain lion last Sunday night. They rescued him from a trap and he measured nine feet from tip to tip and his weight was estimated at 200 pounds.

John Runck has fig trees two years old now in bearing at his home in Eddy.

A good flock of water has been found at a depth of 100 feet on the Bremond ranch.

Sheriff Kemp has shipped 175 pounds of alfalfa seed to Mansfield, Louisiana, for trial.

Eddy Hoses company No. 1 was organized Wednesday night. B. T. Killough is foreman, F. E. McIlhenny assistant, W. E. Orr secretary, O. G. Myhre treasurer.

J. A. Stobaugh, who recently opened a new butcher shop, was arrested several days ago upon complaint of W. R. Owens, cattle inspector. He had a hearing and was discharged.

The county clerk and U. S. Bateman, in the absence of the school superintendent, had an examination Saturday and issued teacher's certificates to Geo. Southwell, E. F. Davis, Minnie Russell, Miranda Wilson and Eli Forner.

J. P. Massie, of the immigration office, brought down a stage load of peaches and apples from Roswell, archards, this week, for shipment to Chicago and elsewhere, and for exhibition in the immigration office.

Last Monday James Hartigan brought in from the Hagerman farm 300 pounds of peaches that would be hard to beat. They averaged a quarter of a pound each in weight. Some were three and a half inches in diameter and weighed 12 ounces.

The activity shown by the farmers now sowing alfalfa, shows that they have no fears as to the restoration of the irrigation plant at an early date. Among those now putting in alfalfa are F. G. Holsell, 30 acres; C. B. Eddy, 12; Theo. Fennessy, 4; Bremond Bros., 13; Wm. Tuttle, 80; J. W. Miller, 6; W. A. Morrison, 20; J. B. Pinson, 40. D. P. Seward and others are sowing, but the quantities have not been learned.

E. W. Dow, of Quanah, Texas, visited the valley a few weeks ago to investigate its gypsum deposits. He is one of the owners of the Quanah plant that uses gypsum to make plaster, or "slag," such as covers the fronts and pillars of the exposition buildings at Chicago. The gypsum used is found in powdered form in very few places in the world and is very profitable when mined. Mr. Dow believes that the beds he saw near the Tansil farm can be handled satisfactorily.

#### FOULMOUTH PLANKS.

Seldombridge & Pablies are driving forty thousand sheep through this place. A beautiful rain of 0.5 inch fell Wednesday afternoon. This makes a total of 2.76 inches during the present month.

The Folsom Metropolitan advises people to hold their hands on their pocket-books as the "pole-tax" collector is at large up there.

It is very likely that after this issue of the Metropolitan the paper will go into the hands of the new management. Mr. Curran, of Clayton, has made arrangements for the purchase of the plant—Metropolitan.

Lightning struck the stone residence belonging to John S. Seeger during the storm Wednesday afternoon, going down the fine into W. A. Thompson's room, breaking the stove and tearing the carpet.

H. W. Leighton returned from Omaha where he disposed of two car loads of sheep at a good price according to the Democratic times. He will ship two or three car loads to the same place.

#### COLLAX CRUMBS.

At Elizabethtown, Mrs. Lettrick, daughter of Juan Carrillo, became the widow of Rick Arnold.

Rumor says that next month will prove to be a very lively one in the matrimonial line for Springer.

Prof. Morrow, superintendent of county schools, with M. M. Salazar and J. Lenhy, constituting the county board of examiners, are at work on seven applicants for teachers' certificates this week.

The stringency in the money market, Springer holds her own. This year our improvements have been very extensive, a \$10,000 school building, almost completed, a \$5,000 addition to the court house, now under course of erection, a handsome Catholic church building to be built and several residences built and enlarged.—Stockman.

#### CHAMA CRUMBS.

There will be plenty of hay in this vicinity. Public school begins Monday, September 4th.

Pueblo Indians from Chama are selling fruit here.

It is reported that the Caldwell mill will fire up September 1st.

The potato crop in this vicinity will be above the average.

Henry Luts has traded sheep to E. S. Miner for a store at Del Norte, Colorado. Wm. Ewell has sold his saloon at Amargo to Lord Corp, the famous bear hunter.

Cravens Lee and Henry Luts went to Denver to-day with 13 cars of fat wethers. Not a pound of wool has been shipped out of Chama this season although there are three train loads of the fleecy article stored here.

Lightning struck a tree at the tie camp Sunday and ran down into a tent close by. It struck James Lee on the foot, tearing it badly, killed his dog, and more or less affected several persons who were in the tent.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, AUGUST 31.

It still takes a very strong microscope to discern the alleged reform movement in this territory.

To judge by the recent vote of the national house of representatives "Golden Moments" are upon this country.

The A. B. Fall combination in southern New Mexico is waxing stronger and it is directed against the Hon. Antonio Joseph, present delegate from New Mexico.

BILL SPRINGER's views on the tariff question are not as valuable as they were; he is no longer chairman of the house committee of ways and means; do you comprehend?

New York may be the greatest and richest state in the Union to-day, but one would not think so, looking at the two men representing that state in the senate of the United States.

And the great and glorious and mighty statesman Bourke Cockran turns out to be a great and mighty and gigantic pettifogger; but nothing else could be expected from a Tammany congressman.

Another revolution is reported from one of the Central American states; it is a very cold day down there when they do not have a revolution or a pronouncement of some sort or other down there.

The spectacle of Senator David Bennett Hill of the Empire state trying to ride two horses on the silver question is very amusing and mirth provoking to the Cleveland men and the Mugwumps in particular and to the country generally.

J. H. BROWN, ex-member of congress, and ex-minister to Hawaii is to run as the administration candidate for governor of Georgia; he is the man who hauled down the American flag at Honolulu; he ought to run well in Georgia.

The poor pensioners in New Mexico will lose many a six dollar pension per month; but the well paid and aristocratic cabinet and bureau officers in Washington will not suffer and will not have their salaries cut.

Mexico pays particular attention to the important mining interests of this great territory; for the latest and most reliable mining news, mining men, mine owners, smelter men and miners should subscribe for and read this journal.

There is one thing very apparent and that is, that Mr. Cleveland is not trying to corrupt the senior senator from New York, the Hon. David Bennett Hill, with federal patronage; score one for the immaculate way of conducting politics by Mr. Cleveland.

started the fight for proposes to stick to it being else. And when again opens the fur for a first-class, political fight.

Chicago yesterday, Chicago is getting to be like New York, a foreign city. Last November it went forty thousand Democratic and carried the state of Illinois for the Democracy. No wonder this year there are thousands of unemployed workmen and fearful riots in the Windy city; natural consequences these.

DELEGATE JOSEPH has prepared a statehood bill with a long-range string attached. He is evidently not particularly sanguine about the next administration being Democratic, hence he fixes the date for voting on the acceptance or rejection of the state constitution away off yonder in April, 1895. Life is very short indeed to waste all this time on the subject.

In the fight for statehood the fight for the capital will of course come up; if the people of this city know what is good for them they will stand by this paper and support it strongly; the stronger this journal the better a fight it can make; if they do not support this journal as they should, they will have to take the consequences and they may be somewhat bitter.

The Democratic majority in the United States senate has decreed that for the present the states of Montana, Washington and Wyoming will have to get along with one United States senator. The people of these states are being treated as they should be; they should have elected senators, while they had the chance, and should have known that they had nothing to expect from a Democratic senate; they will probably learn by experience.

#### ENGLAND'S VIEW OF IT.

As a general proposition it may be accepted as a fact that, financially speaking, whatever is taken as "nuts and ginger bread" for England may be considered "gall and worm wood" for the United States. It needs but a glance at the two systems of government to make this apparent. The English government is a free trade institution and glories upon gold as its single standard of money, whereas our government has been built upon a protective tariff system and the constitution itself repudiates the use of gold only as money, declaring it the policy of the union to circulate both gold and silver.

We note these contrasting facts in order to show how thoroughly un-American is the conduct of the present house of representatives in voting two to one against the establishment of any ratio that will recognize the use of silver as money, and to show how the English people regard it, we quote as follows from the London Morning Post:

"The division in the house on the question of repeal proves that the greatest change has occurred in American opinion on the silver question, and that the Democratic party is practically a unit for the repeal of the purchase clause. How welcome this change will be to business men on this side of the ocean, the recent action of the Bank of England shows."

#### WORLD'S MONEY SUPPLY.

Relative Production of Gold and Silver—Timely Figures.

The production of gold and silver (counting value) in 100 years has been:

To 1800.....	\$10,728,500,000
Of this amount gold was.....	3,633,368,000
Of this amount silver was.....	7,095,132,000

The production of silver from 1819 to 1871 was annually between \$39,000,000 and \$51,575,000 remaining for fourteen years under \$50,000,000. It stayed under \$61,000,000 until 1872, when it was \$65,250,000. It gradually advanced to \$96,700,000 in 1880, \$102,000,000 in 1881 to \$162,000,000 in 1889 and \$196,000,000 in 1892.

The gold production in 1849—California year—was \$27,100,000. It jumped to \$41,500,000 in 1850, to \$67,000,000 in 1851, \$132,750,000 in 1852 and \$155,450,000 in 1853—the largest production on record. It fell next year to \$127,450,000, and then gradually fell off until 1871, when it was \$90,750,000; then it rose again and stood above \$100,000,000, except in 1885, when it was \$85,400,000. It gradually rose each year until in 1892 it was \$130,817,000.

The highest price for silver in London was in 1873-74, 59½¢, and at that price our silver dollar was worth 98½¢, and its ratio to gold was 16:17. The lowest price was last month, 32½¢, and then our silver dollar was worth 54 cents and the ratio was 28:32.

Money in United States: Silver \$615,000,000, per capita \$3.18; gold \$604,000,000, per capita \$3.01; paper \$412,000,000, per capita \$2.14; total \$1,631,000,000.

The world has approximately \$3,582,605,000 gold money, \$4,042,700,000 silver money and \$2,355,875,000 paper money.

France has more money per capita than any other nation, then comes the Netherlands, then Australia, then Belgium and then the United States.

#### Press Comments on Territorial Affairs.

##### He Filled the Office Creditably.

W. M. Berger has retired from the Santa Fe land office. He filled the position of receiver with credit to himself and satisfaction to the people having business with the office.—Albuquerque Citizen.

##### Mr. Fiske "Can Point With Pride."

Hon. Eugene A. Fiske, the U. S. district attorney for New Mexico, who can point with pride to his record as a prosecutor for Uncle Sam, has tendered his resignation, the same to take effect on or about the first of October.—Las Vegas Optic.

##### How the Present Administration will Benefit New Mexico.

The pension list of New Mexico aggregates about \$250,000 per annum.—Albuquerque Citizen.

Nearly \$1,000 a day given to the local business men of the various towns in the territory, going into every channel of trade are worth something to the business of New Mexico. More than half of this amount will be taken away by the Hoke Smith raid on pensioners.—Springer Stockman.

##### How New Mexico Veterans are Being Treated.

Some time since we announced that John A. Brown had been stricken off the

pension roll under the sixty day limit clause on the pretext that he could support himself by manual labor, whereas, anybody acquainted with him knows that he couldn't do an hour's work though his life were at stake. And now comes notice to Wm. Mann that his name had been unceremoniously stricken off the pension list. We have known Mr. Mann for upward of ten years, during which period he has bordered on physical helplessness and poverty, and the taking away of his pension is a bitter satire on justice.—White Oaks Leader.

##### A Democratic Compliment to Joe Perea.

The territorial auditor has written County Clerk Harris that ex-Sheriff Perea overpaid \$20.25 in the settlement of his account. The money will be refunded. In payment of what is due him by the territory, Mr. Perea received \$1,500 in 5 per cent bonds. The territory owes him about \$200 more. Considering that Mr. Perea held the office of sheriff for six years his clean record for so long a period is a welcome innovation in the methods of New Mexico sheriffs generally.—Albuquerque Democrat.

##### How New Mexico Pensioners Fare Under a Democratic Administration.

Advices from Mora are that, up to date, none of the native veteran pensioners of the war of the rebellion, frequently alluded to as "the late unpleasantness," have received their money for the quarter, ended the 4th inst. There are ten or a dozen of them in the immediate vicinity of Mora, and their vouchers were properly made up and promptly mailed to the Topock agency, as usual. Not a single one of the anxious waiting number has received even a syllable in explanation of the delay in the expected payments—by what authority the suspensions have been made, if such they be.—Las Vegas Optic.

##### Fifty-six Hours to New York via The Wabash.

## THE MAXWELL LAND GRANT

### Farm Lands!

#### UNDER IRRIGATING DITCHES.

Choice Mountain Valley and Lands near the Foot Hills

### FOR SALE

For the irrigation of the prairie and valleys between Relva and Springer one hundred miles of large irrigating canals have been built, or are in course of construction, with water for 25,000 acres of land. These lands with perpetual water rights will be sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of agricultural lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. The A., T. & S. F. railroad and the D., T. & Fort Worth railroad cross this property, and other roads will soon follow. Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same if they should buy 100 acres or more of land.

#### Warranty Deeds Given

B. HENRY, Observer.

**Is Life  
"Living?"**

ends upon the  
the liver is  
whole sys-  
tem, diges-  
tion, and  
energy and  
powerfulness  
gone, the spirit is  
depressed, a heavy weight  
exists after eating, with  
general despondency and  
the blues. The liver is  
the housekeeper of the  
health; and a harmless,  
simple remedy that acts  
like Nature, does not  
constipate afterwards or  
require constant taking,  
does not interfere with  
business or pleasure dur-  
ing its use, makes Sim-  
mons Liver Regulator a  
medical perfection.

I have tested its virtues personally, and  
now that for Dyspepsia, Bilelessness and  
Throbbing Headache, it is the best medi-  
cine the world ever saw. Have tried forty  
other remedies before Simmons Liver  
Regulator, and none of them gave more  
than temporary relief, but the regulator  
not only relieved but cured.

H. H. JONES, Macon, Ga.
