the reasons already stated, and also for failure on their part to count said delegation of votes, and that we were not notified so as to enable us to submit testimony to prove our case. In precinct No. 3 affidavit of Romaldo Montoya y Alcala, a member of the Hubbell faction, testified that he endeavored to procure knowledge from Melquiades Martinez when said primary would be held in said precinct, No. 3, and despite his several inquiries, he could procure no definite information. He saw no notice posted or no verbal one propagated, and we therefore claim that the delegates sent by the Hubbell faction to said convention were not an expression of the wish or representatives of the republican voters of said precinct. Affidavit of Francisco Lucero y Montoya shows that the chairman, Melquiades Martinez, deliberately misled the assistant and endeavored to deprive the legal republican voters, except those whom he thought belonged to the Hubbell faction, of their legal right to vote at said convention. We ask the setting of our delegation, comprising five votes. In precinct No. 4 the affidavit of James B. Nipp proves the insufficient notice given to legal voters, and we therefore ask that on account of our protest against the call as issued by Chairman Hubbell, of the central committee, our delegation be recognized and be given seats in the convention.

Precinct No. 5. The affidavit of Tomas Gurule plainly sets forth the fact that Estadio Vigil, a member of the Hubbell faction, and chairman of said precinct, on the day of the primary, and intentionally and maliciously denied to give five bona fide voters in said precinct any information whatsoever as regards to the holding of said primary, and that despite their repeated requests they were misled and thereby deprived of their vote at such primary and no notice was posted and was not seen until Sunday morning, and that said primary was held by Estadio Vigil was not public, but was secretly held behind his saloon in precinct No. 5. We therefore ask that our delegation be recognized and our delegates seated in your convention.

Precinct No. 7. Dario Gutierrez authorized to call said primary was called on by Leandro Jaramillo on the 22nd and 23rd of September and asked when he would hold such primaries, as the notice which had been posted by said Dario Gutierrez failed to designate the time and place. The primaries were held secretly on the 24th inst., at 9 in the morning. We claim insufficient notice, misleading notice, and therefore request recognition of our delegates to your convention as the central committee illegally deprived us of representation.

Precinct No. 9. Affidavit of Policarpo Arroyo shows that Leandro Barcala, Elias Alderete, Hercutano Contreras, a minor, and Ambrosio Sanchez, a resident of Valencia county, took an active part in said precinct primary, and that despite the protests and overwhelming majority against him, when the citizens in said convention thereupon ordered him out of the chair and elected Manuel Springer in his place. Moreover, Ortiz thereupon, being of the Hubbell faction, left the hall, holding a convention of his own. The affidavit of Pablo Gallegos y Gonzalez, a member of the Hubbell faction, substantiates the affidavit of Jesus Romero, and shows that the Hubbell faction at its meeting had but thirty members present, while the court house, where the primaries were held, was packed with people of said precinct, that one Antonio Garcia, a brother-in-law of Estadio Vigil, took active part on behalf of the Hubbell faction in said convention, despite his not being a resident of said precinct. We claim that our delegation was duly elected and entitled to seats in said county convention, that we were illegally deprived by the central committee of our seats in said county convention and that the report

of said central committee entitling us to a half a vote was unfair, unjust, and that we were entitled to full recognition for our delegates in said county convention. We therefore ask for the setting of our delegates in your convention.

Precinct No. 12. The affidavit of Marcelino Crespin substantiates our case of willful trickery in depriving the legal voters of sufficient notice to attend said primary, and despite repeated notice made on Juan Gutierrez for information when said primaries were to be held, he deliberately withheld said knowledge or information from a majority of legal voters of said precinct. We therefore claim that our delegates to the number of three were entitled to recognition in said county convention which we were illegally deprived by the action of said central committee and claim recognition of our delegates to your convention.

Precinct No. 25. The affidavit of Francisco Gabaldon states that at least ninety-nine outside natives belonging to precincts 2, 11, and 12, took active part in said convention on the side of the Hubbell faction, that said illegal votes to the number of 95 were brought to that vote and allowed none but legal voters of said precinct to participate in said election, but this also was denied, despite repeated protests and said D. H. Boettigheim further stated on his oath that he is a business man, accustomed to further proceedings and that he considered the action of the chairman of said convention, illegal, arbitrary and showing an inclination to decide in favor of the Hubbell faction. The affidavit of Pedro Tartaglia shows the presence of forty-seven illegal votes in said precinct primary of precinct 25, which he mentions by name, giving their residences, and further states that but for the presence of said illegal votes the Hubbell faction would have been unable to have elected their delegates. The affidavit of Tomas Gurule, a business man and sheep raiser, corroborates both the affidavits of Pedro Tartaglia and Francisco Gabaldon, he having been present when they were both read and he states under oath that he is satisfied that the largest portion of said names mentioned in said affidavits were not residents of said precinct, and therefore not entitled to vote at said primary. The affidavit of Otto Diekmann, real estate and insurance agent, corroborates all the affidavits and states that the action of the chairman representing the Hubbell faction in said convention was arbitrary, illegal and unfair and deprived the bona fide voters of said precinct of their vote and vote in said convention. That said Thomas Wilkerson was arbitrarily elected to preside at said primary, and that had it not been for the illegal votes there cast by said hundred and fifty men on behalf of the Hubbell faction, our delegates would have been elected, and if a ballot had been allowed as repeatedly demanded, our delegates would have been elected, and we therefore claim that precinct 25 with its ten delegates elected by our side, was illegally deprived of their seats in the said county convention, and we therefore ask the setting of our delegates in your convention.

Precinct No. 28. The affidavit of Desiderio Carbajal shows that our side, upon the first vote being taken, had a majority, and that thereupon, Tomas Carbajal, who opened said primaries under the call of the republican central committee of said county of Bernalillo, deliberately attempted to adjourn said meeting, as he then and there stated, to procure more members, he being an adherent of the Hubbell faction, despite the protests and objections made by a majority at said convention, and we therefore claim that we there and then, proceeded to elect our delegates to the number of four to the Bernalillo county convention; that we were and are entitled to recognition as the legal delegates to said county convention, and we were arbitrarily and illegally denied recognition and seats by the Bernalillo county central committee. We therefore claim and ask for recognition to your convention.

Precinct No. 24. The affidavit of Anaspacio Gutierrez shows conclusively that there was insufficient notice given for the holding of said primary and that it would have required at least ten days to notify legal voters of said precinct; that the primaries were held on the 22nd day of September in the afternoon, and that owing to the large distance as already stated, the notice was insufficient, and the information as regards to such primaries was withheld for no other purpose than that of depriving the faction opposed to the Hubbells of information.

Precinct No. 25. The affidavit of Henry Springer shows that one Carlos Chavez, under orders of said republican central committee, posted a notice calling for the primaries to be held at the house of Ambrosio Contreras at 12 o'clock noon. He deliberately said said notice read 11 o'clock, and held the primaries at the house of Francisco Sandoval, one mile distant from the house of Ambrosio Contreras. This shows the decided fraud on the part of said Carlos Chavez to mislead those opposed to the Hubbell faction and the affidavit of said Henry Springer further shows that he took off said notice or had it done, and the said notice was turned over to D. R. Rupp, and by him filed with the committee on credentials, and respectfully ask that your honorable body demand all papers from said central committee and committee on credentials and Secretary P. J. Hanley, as they are of material value as evidence in our case.

We therefore respectfully ask that the nine delegates duly elected by our convention, held in Arroyo Hall, be recognized by your honorable body, that we represent the republican party, the legal republican voters, and that we were deprived of our right of suffrage at said primaries in the Bernalillo county convention through the unfair, unjust, illegal methods used by the Hubbell faction through its control of the central committee, the arbitrary action of their chairman at the convention held in precincts 12 and 26, the unfair, unjust and illegal methods of procedure in the convention and the unfair, unjust and illegal methods and rulings of the Bernalillo republican central committee. We were therefore, in consideration of these facts, the denial of seats to our delegates, the illegal, arbitrary and unjust treatment accorded, obliged to leave the convention house where the convention was held, and we adjourned to the Armory Hall, which is in the same building as the opera house, for the purpose of talking the matter over and learning the

wish and desire of the delegates there present. The result showed 100 delegates present and eleven absent. The outside precincts demanded immediate action and we therefore opened in due and proper form, elected our chairman and secretary, and proceeded to the election of nine delegates to the territorial convention. After this work had been concluded, it was the unanimous opinion of the delegates there present that owing to the arbitrary methods used against us, the knowledge that they would be again used against us at all future conventions as long as Frank Hubbell could control the central committee, having learned by experience the unfair methods used by him in calling for these primaries which have brought in these contesting delegations, we found it imperative, in justice to ourselves, in justice to the legal voters of Bernalillo county, and in compliance with the demand of the delegates there present, to put up a complete county ticket for the fall election, as only by this method could we procure an honest opinion of whom the delegates were in favor of nominating. We thereupon formed in convention for the purpose of nominating a county ticket, the election of a central committee, by the election of delegates to the constitutional convention, and the ticket selected at that convention is composed of straight republicans who have been and are opposed to fusion and imbued with the spirit of fostering and promoting the principles of the republican party. Every member at said convention has signed this vote, and our ticket was not placed by a committee, but was elected on the floor of the convention.

B. RUPPE,  
Committee on Credentials.

## BOLD HOLD-UP ON RATON'S MAIN STREET

VICTIM ROBBED OF WATCH  
AND \$30 IN HARD CASH

One Highwayman Confesses  
and Others are Implicated.  
Indictments Are Returned  
Against Robbers.

Special to the Morning Journal.  
Raton, Sept. 28.—Henry Brothers was held up and robbed of his watch and about \$30 in money late last night on First street, the principal business street of the city. James Hall, who claimed to come from St. Louis, and James Garner, of Bonanza, Tex., are under arrest charged with the crime. Hall confessed to his part in the hold-up and Garner will probably confess today, as Hall has implicated him. The grand jury for Colfax county is in session here and today returned indictments against the men. Brothers was "strong-armed," and there were a number of witnesses who identified Hall and Garner.

The grand jury returned fourteen indictments today and four no-bills, had in custody thirty prisoners in the county jail here awaiting the action of the grand jury.

## ALLEGED MURDERER ACQUITTED AT SANTA FE

Special to the Morning Journal.  
Santa Fe N. M., Sept. 28.—The murder case of Juan M. Romero, charged with the killing of a man in the district court here, this week was concluded and went to the jury late this afternoon and this evening the jury returned a verdict of not guilty.

The case was brought here on a change of venue from Taos county and the verdict meets with popular approval. The killing was the result of a quarrel between the victim, Sanchez, who was killed by Romero, made about Romero's daughter.

## ALLEGED HORSE THIEF WITH THREE WIVES

Topeka, Kan., Sept. 28.—David Mackley, wanted at Casper, Wyo., on charges of grand larceny and bigamy, was arrested at Garden City, Kan., tonight by the sheriff of Natrona county, Wyo. It is alleged that Mackley stole seven carloads of horses in Wyoming and that he has three wives.

## BIGAMIST BEATS HIS JAILER WITH BED SLAT

Garden City, Kan., Sept. 28.—The arrest of Dave Mackley, alleged horse thief and bigamist of Casper, Wyo., was followed here tonight at a late hour by his sensational escape from the county jail. When Jar Tippin entered Mackley's room with the latter's supper, Mackley tore a slat from the bed, fell Tippin to the floor and inflicted two ugly gashes on his head. He then made his escape from the jail, sprang into a buggy and drove madly toward the west. Mackley leaped from the buggy after traveling half a mile and ran toward the best sugar factory where he had been working when arrested. A posse of twelve armed men is pursuing the fugitive.

Mongolia Reaches Honolulu.  
Honolulu, Sept. 28.—The Pacific Mail Steamship company's steamer Mongolia, which recently went ashore on Midway island and was subsequently recognized by your honorable body, accompanied by the United States transport Buford, which was sent to the aid of the steamer and its passengers.

## COSTLY ERROR LOSES GAME FOR BROWNS

ALBUQUERQUE TAKES  
SECOND MONEY AT VEGAS

Immense Crowds Witness  
Sports at Northern New  
Mexico Fair in Meadow City  
—Fine Racing Program.

Special to the Morning Journal.

Las Vegas, N. M., Sept. 28.—An error by Catcher Pettus in the ninth, when the score stood 3 to 3, gave the base ball game between Albuquerque and Las Vegas to the latter this afternoon. When in the first inning three of the Browns landed successively on Dick, the Las Vegas pitcher, it looked like a walkaway for Albuquerque, but Dick settled down and pitched winning ball. Jimmie Durham let down in the sixth and three hits and an error netted three runs. In the ninth Durham allowed the bases to be loaded and had two strikes out two men and had two strikes on the third when Pettus let a low one get by him which brought in the winning run.

In the morning game Frank pitched in the Albuquerque team to victory in fine form by a score of 4 to 2, having all the better of Cable for Santa Fe. The Las Vegas-Santa Fe game was called at the end of the ninth on account of darkness with the score 2 to 2. The Santa Fe runs were made in the first and second with McCall in the box for Las Vegas. The Santa Fe team could do nothing with Shoop, who went in the fourth inning. Isabel pitched great ball for Santa Fe.

The crowds at the fair grounds were immense today. The first successful balloon ascension ever made in Las Vegas was a feature.

Las Vegas and Santa Fe divide first and third money. Albuquerque gets second money in the base ball tournament.

The fair sports will continue over tomorrow.

Following are the results of the race program:

Five-furlong mile—Neva Hunter, first; Goddess of the Night, second.

Five-eighths consolation—Fiddler, first; Quail, second.

Ladies race—Three Rock, first; Mile race—Handicap, first; Safe-guard, second.

Three mile cowboy relay—Valdez, first; Jones, second.

Today, the last day of the fair, is the only day of the week in which the association has had an opportunity to show what it can do for the entertainment of the people. Every day there has been rain, rain, and more rain, and rain is threatening now, although the program at the Driving Park is well over. It has been a splendid effort on the part of the Las Vegas association to give the visitors a good show, against the most adverse conditions.

Today, however, was bright and fair and the crowd at the grounds was enormous. Cars were packed from morning until night and the program was first class.

This afternoon's train brought sixty delegates to the republican convention and these, almost to a man, dropped politics and hiked to the fair grounds. At the head of the crowd was Solomon Luna, president of the New Mexico Fair association.

"Las Vegas came to our fair en masse," said Mr. Luna, "let's all go out, let's all go out, everybody pays"—and everybody did. Albuquerque was well represented at the grounds. Members of the two contesting delegations to the republican convention were there in force. Delegates and dress was there—and political leaders, ex-leaders and would-be leaders from every nook and corner of New Mexico.

It has been a good fair and but for the rain, would have been a financial success. Today's crowd will go far to help out the financial end of the show.

The world is full of odd and curious people so there may still be those who have not read Morning Journal classified ads.

entered a protest, declaring that the president had no right to accept the resignations of the cabinet without appointing successors. Following this and amid a profound silence, the resignation of President Palma was read.

## COURT DECIDES THE QUO WARRANTO CASE AGAINST HUBBELLS

Pro Forma Judgment Rendered in Order to Permit of Appeal of Case by Plaintiffs to Supreme Court.

MEANS COUNTY OFFICERS  
WILL SERVE OUT TERMS

Judge Abbott Finally Yields to Request of Counsel for Both Sides and Takes Action. Demurrer Sustained.

Judge Ira A. Abbott of the district court yesterday rendered a pro forma decision in the famous quo warranto case brought by Frank A. Hubbell and Thomas S. Hubbell against Perfecto Armijo and Justo Armijo. The decision sustains the demurrer introduced by defendants and adjudges the information insufficient in law. An appeal to the territorial supreme court was allowed, the appeal by agreement of counsel to be argued December 27.

Attorneys A. B. McMillen and W. B. Childers for the Hubbells appeared in court yesterday and stated that they were apprehensive that unless final decision were given in the cases at once they would lose their right to review in the supreme court. It was the opinion of the attorneys that unless the case were decided before the term of office of Sheriff Perfecto Armijo and Treasurer Justo Armijo of Bernalillo county expired the question would be a mere moot question after the first of the year.

Attorney N. B. Field for the Armijos announced that he was not only willing but anxious for an authoritative decision as to the power of the governor, given by the full supreme bench of the territory, Messrs. Childers and McMillen said that they were willing to take a pro forma ruling against their clients which would not disqualify Judge Abbott from participating as associate justice in the final determination of the matter by the supreme court. Mr. Field concurred in the request that the judge render judgment in favor of the Armijos.

Judge Abbott expressed a strong disinclination to render such a decision without hearing argument, but finally yielded to the importunities of counsel and entered an order in each case sustaining the demurrer and adjudging the information insufficient in law. He allowed an appeal to the supreme court which was stated above will come on December 27. The term of office of Perfecto and Justo Armijo expires January 1.

Unless final judgment one way or the other were given yesterday it is stated that there could be no determination of the matter by the supreme court. The law requires that an appeal be made returnable ninety days after being taken. Jurisdiction of the supreme court would not attach before December 27 even with judgment rendered yesterday and this would leave the supreme court but four days to consider and determine the case even under those circumstances.

As the case stands now, Perfecto and Justo Armijo will serve out the full terms to which they were appointed by Governor Otero when the latter removed from office for malfeasance Frank and Tom Hubbell. It is now up to the territorial supreme court. If the latter body should find that the removal by the governor was wrongful, the Hubbells would have the right to bring action for the emoluments of the office during the period since their removal.

## ELECTRICIAN RECEIVES VERY SEVERE SHOCK

M. Nash, of Nash Electrical Company, Thrown From Vehicle Near Gallup By Runaway Team and Painfully Bruised Up—Companion Jumped For His Life and Albuquerque Man Went Skyward.

M. Nash, of the Nash Electrical company, returned last night from an extended trip to western towns, going as far as Kingman, Arizona, looking after electrical contracts. Mr. Nash boarded the Limited at Gallup last night in a somewhat stiff and sore condition as the result of an exciting accident near the Carbon city. Mr. Nash and a companion were driving a spirited team of McKinley county cayuses on the return trip from a business jaunt out to Gibson, where the coal mines are. The shafts of the vehicle came loose in some manner and dropped, and the fireworks began without delay. Finally Mr. Nash yelled to his companion to jump and he would stay by the outfit until he stopped it somehow. The other man immediately took the hint and made a flying leap for life, liberty and the pursuit of happiness. As he jumped the horses also jumped and sent Mr. Nash skyward. He says when he alighted he saw several different varieties of new fangled arc lights and electricians and it was some time before he was certain that he was not dead. He walked into Gallup with some inconvenience, but suffered no permanent injury.

## ANDREWS ON THE FIRST BALLOT

(Continued From Page 1, Column 2.)

The Hon. Thomas Burton Catron, late leader of the fusion forces in Santa Fe county, now the dominant figure in Santa Fe county republicanism and candidate for the legislative council, is looming up among the delegates.

Duncan theatre, where the convention is to be held, has been neatly decorated by the Las Vegas reception committee, for the meeting tomorrow. With its ample galleries, it makes an ideal convention hall. Each delegation will be seated under banners announcing the name of the county.

The break of the eminent attorney in the Hubbell convention Wednesday, when he enthusiastically addressed his "fellow democrats" is causing much amusement here and the expense of Mr. Childers, whose democracy has never been seriously questioned.

Frank W. Beach, one of the delegates from Otero county, who is helping to make Orogarden one of the chief mining camps of the territory, is a prominent figure among the convention groups.

E. A. Cahoon, Roswell banker, has remained for the convention after attending the Bankers' meeting early in the week.

The Statehood Resolution. The committee on resolutions will have important work to do and before this committee also, there will be a fight. It is a three-cornered fight, between the friends of joint statehood, who demand that the platform declare flatly for the union of the territories; the men who say they are friends of statehood but who insist on a party question and who would have it left to the "conscience of the individual voter"; and the open foes of joint statehood who want it condemned in the platform. The latter, although they have such leaders as George W. Frichard and T. B. Catron with them, are hopelessly outnumbered, and while they may carry their fight before the convention, it is not likely to prevail, unless eloquence should rise in that unusual thing in New Mexico, a stampede. The pro-statehood people, who desire a frank and open endorsement in the majority tonight, in very large majority, but those who favor passing over the issue to the popular conscience are strong. They include Eugenio Romero, of San Miguel county, and other northern New Mexico leaders, who will insist that statehood be not made a part of the platform. With these will probably unite the open opponents of statehood, and while the statehood plank will still be carried, the fight may prove a long and an interesting one. Several set speeches are to be made, and some of them will be strong ones.

The matter of endorsement and the question of the chairmanship remain open tonight. The delegates are slow to express opinions before the convention opens. The personal popularity of Governor Hagerman and his policy is showing strongly among the delegates, and from the hearty expressions of the delegates heard tonight his endorsement by the convention tomorrow will be satisfactory to his friends. The matter of the chairmanship is an open question of which delegates, leaders and every one else is chary of expression.

The Bernalillo county contest is taking the most prominent part in the questions being discussed by the delegates tonight. It is realized that fraud has been practiced in the primaries and the convention, and the seriousness of the situation is thoroughly recognized by every one. The republicans are quietly and simply presenting their claims. These claims need few arguments to support them. They are plain and to the point.

Much interest is expressed in the settlement of the long fight in Santa Fe county and satisfaction as well. Mr. Catron has dominated the situation completely and is in control. His nomination for the council is believed to put an end to his threatened fight to prevent the enforcement of the apportionment for legislative purposes recently made by the governor.

The Castaneda hotel is packed and jammed tonight with delegates and republican leaders from every county in New Mexico. Conferences are under way in up stairs rooms, on the verandas and in the lobby. It is one of the busiest preludes ever seen to a New Mexico convention.

Said for possible trouble over the Bernalillo county contest and in connection with the statehood plank, there is no reason tonight to expect anything but perfect harmony in the convention tomorrow.

Two planks on joint statehood have been prepared for presentation to the committee on resolutions. One declares openly and unequivocally in favor of joint statehood with Arizona, while the other asserts that "joint statehood is an economic and social and not a party question, and should be left to the conscience of the individual voter." Tonight the pro-statehood people have a decided majority and seem in a position to carry their plank. But there are men, while declaring themselves individually for joint statehood hold that it should be kept out of the platform. The San Miguel county delegates are the leaders in advocacy of this course.

## WORK PROGRESSES RAPIDLY ON NEW CLUB BUILDING

Woman's Club Holds Interesting Meeting Under Direction of Domestic Science Department at Commercial Club.

Work on the new building on West Gold avenue, which is to be the headquarters of the Woman's club of Albuquerque is progressing rapidly and the club expects to be comfortably housed therein by the middle of the winter. As the work progresses it is evident that the building is going to be one which will meet all the requirements of the rapidly growing organization and a building which will be a credit to the city.

The Woman's club held a most interesting meeting yesterday at the club parlors in the Commercial club building. The domestic science department under the direction of Mrs. Temperance Whitcomb was in charge. Mrs. Albright conducted a parliamentary drill. Mrs. H. R. Ray gave an interesting talk on "English Gardens." The domestic science demonstration by Mrs. Keogh consisted in the serving of delicious light refreshments. The next meeting of the club will be held under the direction of Mrs. H. R. Ray, the art department being in charge.

money for clothes, ought to get good clothes for your money. But you won't if you're not careful where you go for them, and what you buy when you get there.

You'll find lots of cheap "mercized cotton" goods offered for sale. Some of this clothing looks very good—in the window; some of it has style and goes under a good name; but it wears like cotton. It costs less than all-wool and is usually worth less than it costs.

We sell Hart, Shaffner & Marx clothes because they're all-wool; because we know they are; because you can depend on it. You know what you're getting when you get the Hart, Shaffner & Marx label.

There's no fooling with quality in these goods; no cotton adulteration cunningly hidden, to cheapen them, without your knowledge. We offer you honest clothes.

Hart Shaffner & Marx suits, \$15 to \$30.

## Strong as Well as Good

EVERY citizen of Bernalillo county knows that the ticket nominated by the republican county convention, on Wednesday last, is a good ticket, and anyone who will take a view of the present political situation in the county will see at a glance that it is also a strong ticket. It is generally regarded as one of the best and strongest tickets ever put up by the republicans of this county, and its triumph election in November is accepted as a foregone conclusion. The only objection to it is found among those who desire the return to power of the old Hubbell crowd, and they have a right to object, and most excellent reasons for objecting, because the election of this ticket means the burying of the old gang so deep that we shall never be troubled with it again. And that, by the way, is the very strongest argument in its favor that could be urged in support of any ticket in Bernalillo county.

To put the Hubbell gang on the shelf, sine die, is the paramount issue before the people of this county in the present campaign. In fact, it is practically the whole issue, and republicans, democrats, socialists, prohibitionists, and members of all other parties, can well afford to make a truce and stand shoulder to shoulder till this question of questions is settled, once and for all. We can afford to divide and differ as to how we shall arrange the furniture in the house, after we have driven off the incendiaries who would fire the house, but not before. Our first attention must be given to them. Self preservation is the first law of nature, and after we have taken the necessary steps to protect ourselves in the enjoyment of an American form of government in Bernalillo county, we may divide among ourselves in regard to the details of that government, but the only question to be considered now is, whether we shall have a government by the boss or by the people, and all those who regard the American form of government as more to be desired than the Russian form, should rally to the support of the ticket put in nomination by the republican convention last Wednesday.

## We Have Beaten Tammany

A GENTLEMAN from New York who happened to be at the Alvarado on Monday last, and who takes an active interest in politics when at home, was moved by curiosity to go around to one of the precinct primaries in the evening, for the purpose, as he expressed it, "of seeing how you do things out west." How the performance struck him could not be better told than in his own words. Talking about the matter with an Albuquerque gentleman, next evening after the show, he said: "Well, I am forced to acknowledge that your folks take the cake. I have been somewhat familiar with all the schemes of Tammany for a good many years, but Tammany in its worst moods never practiced or even attempted to practice any game for suppressing the voice of the majority which was half as outrageous as the exhibition I witnessed last night. And the most astonishing part of it to me was that no attempt was made whatever to screen or disguise the purpose of the machine, but it was just a plain open determination, in full view of the public, to prevent those citizens on the other side from being heard. Why," he continued, "if the things I saw and heard there last night could be seen and heard by the people of the United States generally, Tammany Hall would hereafter occupy a place of eminent respectability in their estimation, as compared with your section of New Mexico. But it seems to me that such things must certainly hurt your territory. You need people here, and the average American puts a rather high price upon his rights as a citizen, and is not willing to make his home in any section where his political rights can be outraged with impunity. That is what has kept the most of the southern states back, while all the rest of the country has been making such great progress."

## Not a Word of Truth in It

A FEW days ago the Journal said: "A story is being freely circulated in the territory to the effect that Major Llewellyn, during his recent visit to Oyster Bay, told the president that the action of Governor Hagerman in causing an investigation of the affairs of the New Mexico penitentiary, and the publishing of the report disclosing crookedness in that institution had defeated the cause of joint statehood."

In the same connection we took occasion to say that we did not believe there was a word of truth in the story, and that we would take pleasure in printing a statement to that effect over Mr. Llewellyn's signature. Now we are in receipt of a letter from the Major, under date of the 27th, in which, after copying the paragraph above, he says:

"The above is from your paper of the 26th. Availing myself of the kind privilege you have given me to be heard, I have to say that there is not a word of truth in the statement. Furthermore, statehood is not defeated in New Mexico, nor will it be defeated, this is my opinion."

"Now as to crookedness in the penitentiary, or elsewhere, I have on all proper occasions expressed myself freely, that is to say I favor the prosecution of all who are guilty, regardless of who they may be."

"There may be and doubtless is an honest difference of opinion as to the proper time and place and the methods to be used in such prosecutions, but he who would say there should be no investigation of charges against public officials, and that where the evidence warranted there should be no prosecutions would be about the worst enemy the state could possibly have. While encroaching upon your valuable space I may say that it is my opinion and firm belief that there are many persons in the territory who would welcome any issue that diverts the minds of the people from what in my humble opinion is the paramount issue, viz, STATEHOOD."

"Thanking you for your courtesy in this matter, I beg to remain,  
"Very truly yours,  
"W. H. H. LEWELLYN."

While Mr. Llewellyn's many friends in the territory were confident the story was groundless, they will nevertheless take pleasure in reading the foregoing positive statement of the fact. The Journal also takes particular pleasure in emphasizing the declaration that "statehood is not defeated in New Mexico, nor will it be defeated." We have no doubt that Arizona will vote against the proposition, but that fact does not signify, by any means, that New Mexico will take the same attitude on the question. We of New Mexico claim to be more progressive than our neighbors of Arizona, and we propose to substantiate that claim by showing the world that we desire to come into the union, and be endowed with the full rights and privileges of American citizenship, instead of remaining in the nondescript condition of residents of a territory. And we do not believe that the sense of justice and fair play, which is characteristic of the American people, will permit congress to exclude us from the high privilege of placing our star upon the flag, simply because our less progressive and less ambitious neighbors on the west are willing to forego that honor, and remain in their present inferior condition.

LIFE.

(By Judd Mortimer Lewis.)

Life's a game of go and hustle, life's a thing of rush and bustle, life's a play of brain and muscle, life's all jump and bump and whirly; Life's a game at whose beginning all the world is set a-joining, That the very thought of winning is itself a splendid spur.

Life's a thing of rough-and-tumble, life's a thing of laugh and grumble, Life's a thing of grab and fumble, life's a thing of jolt and jar; Life's a thing of daisied meadows, life's a place of glints and shadows, Life's a thing of maids and widows, smiles and tears, and there you are.

Life's a thing of self-styled winners, millionaires and saints and sinners, Men who have and haven't dinners, thing of ruff-raff steal and toll; Men who go their way a-laughing, men who go their way a-chaffing, Men who go their way a-quaffing, men whose only thought is spoil.

Maidens wise and maidens witty, maidens beautiful and pretty, Painted women—oh, the pity!—always changing yet the same; Thing of low and high endeavor, thing of pull and push forever, Game for dolts and players clever, thing of love and glee and shame.

But who plays the game a-loving, lifting, helping, never shoving, Laughing, singing, turtle-doving through its jars and outs and ins, With a wife and little daddie or wee lass to call him daddie, Doesn't do so very badly, he's the chap who truly wins.

—The American Magazine.  
"Give an account of the life of Hannibal," was one of the questions in an examination of the eighth grade pupils recently. "Hannibal," wrote one youngster, "was one of the patriots of the revolution and led an African regiment in the battle of San Juan Hill. He helped to write the constitution and by-laws and fought a twenty-round draw with Aaron Burr. He afterward built the Hannibal St. Joe railroad, but he died a poor man because Pierpont Gates beat him out of it."

Established His Identity.  
In a Kentucky court room a prominent lawyer of that state was defending a prisoner charged with horse stealing, and a witness was swearing as to the identity of the stolen horse. "How do you know this is the same horse?" asked the lawyer. "Why, I just know it is," said the witness. "Well, how?" again asked the man of law. "I can't tell exactly how; but I know it is as well as I know that you are General H—"

"Well, how do you know that I am General H—?" "Because just before dinner I heard Mr. C— say, 'General H—, let's go and take a drink,' and you went."

"I see, Katie, that New York is to have one policeman to every 521 inhabitants," said the lady of the house. "Well, ma'am, I've got mine," was Katie's reply.—Yonkers Statesman.

Four to the Good.  
Wife (at breakfast)—I wish you would give me some money, as I want to go shopping this afternoon. Husband—All right. Which would you rather have, an old five-dollar bill or a new one? Wife—A new one, of course. Husband—Well, here's the one—and I'm 4 to the good.—Chicago News.

Busted Hopes.  
Samuel Byerley, the New York clerk, whose brilliant Panama bond coup netted him \$30,000 and a better position with his company as well, was talking about his success the other day.

"How did it feel," he said, "when I found that I was actually going to make all that money? Well, it is hard to say how I felt. I suppose I felt just the opposite to a friend of mine on the first night of his first and only play."

"My friend had spent two years writing the play. He was forty, his salary was \$15 a week with no prospect of advancement, and he hoped out of the play to be delivered from that grind."

"Well, on the first night, at the end of the first act, my friend rushed up to the stage manager, said joyously, with visions of European travel floating in his mind: 'Listen! They're calling for the author. What shall I do?'"

"The manager who understood the nature of those calls, answered grimly: 'You'd better skip out of the stage door and make your escape while there is yet time.'"

Pain From a Burn Promptly Relieved By Chamberlain's Pain Balm.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James H. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

### 84 CENTS PER MAN SPENT FOR ROADS IN YEAR 1904

Interesting Figures Prepared by Department of Agriculture on Work Done on New Mexico's Highways.

The Morning Journal Bureau, 1229 Pennsylvania Avenue, N. W., Washington, D. C., Sept. 27.

A table was prepared by the department of agriculture showing that in 1904 there were 15,326 miles of public road in the territory of New Mexico, of which only two miles are reported to have been improved. By comparing the total road mileage with the area of the territory, it appears that there was 12 of a mile of public road per square mile of area. A comparison of mileage with population shows that there was one mile of road to every twelve inhabitants. "The board of county commissioners are authorized to levy a road tax on all property subject to taxation in the various counties of not to exceed one-half mill on the dollar in any one year," says a report issued by the department's division of public roads. Continuing it says: "Upon the petition of a hundred voters and taxpayers, the board of county commissioners may levy an additional special tax for road and bridge purposes of not to exceed one and one-half mills on the dollar on all taxable property in the county."

"Every able-bodied male resident over 21 and under 60 years of age is required by the road supervisor of his respective precinct to perform not less than two nor more than five days' labor on the highways annually, or in lieu to furnish a substitute or pay to the road supervisor the sum of \$1 per day for each day he is required to perform such labor."

"The amount derived from the property tax and expended on roads was \$35,457.56 in 1904, and the estimated cash value of the labor was \$130,194, making a total expenditure of \$165,652.56."

"By comparing the total expenditure with the total mileage of public road and with the population of the territory of New Mexico, it is found that the funds collected and expended for road purposes amounted to \$10.50 per mile of public road, or \$0.84 per inhabitant."

Heavy Electrical Storm Visits Windmill City Followed by Genuine Cold Snap Which Brings Out Overcoats.—News Notes of Luna County Town.

Correspondence Morning Journal.

Deming, N. M., Sept. 28.—The Deming Public schools are now under headway and are in fine working order. Prof. DeGler says that this is to be one of the most successful years that has been had since the organization of the schools. The new addition to the building is rapidly nearing completion, and will be ready if nothing happens, to move in by the middle of next month. This will give the building fourteen rooms and will make it one of the largest and handsomest school buildings in the southwest. Work has been delayed considerably on account of the non-arrival of material, which is now all on the ground and will be rapidly put in place.

**Heavy Electrical Storm.**

A heavy electrical and rain storm visited this section last night. Commencing about nine o'clock the lightning began to play around the business streets and many light wires

were struck and burned out. Considerable excitement prevailed on account of the proximity to several buildings and much fear was expressed of fire. The rain continued to fall until near midnight, when a strong wind blew up from the north, and this morning was the coldest of the season. Heavy coats were much in evidence, and those who had already placed stoves in their places of business started fires and many others put up stoves.
