The Tariff may be a Tax, But there is no Tax

On those Mikado tacks put up in genuine imported Japanese lacquered wooden boxes, hand ornamented with gold figures of different designs. Four oz. of tacks in each box. These boxes will neither break, bend nor scratch. The lacquer renders the surface of the wood so hard that the boxes can be used in hot water or set in the sun with impunity. They are beautiful articles to have around the house after the tacks are used up. Retail at 10 cents each at

BRIEF WIRINGS:

Small Pox.

New York, Sept. 6.—Six cases of small pox were discovered in a Madison tenement yesterday. The patients were removed to North Brother Island.

Dr. Graves' Body.

Denver, Sept. 6.—It has been finally decided to hold no autopsy over the body of Dr. T. Thatcher Graves. The remains will be shipped east to Thomaston, Conn., the former home of Dr. Graves.

Silver and Stocks.

New York, Sept. 6.—Silver was 73 yesterday. Stocks were rather active, but erratic and speculators are chary of investment. The premium on currency has disappeared and the banks generally are in a much healthier condition.

Human Butchery.

Salonica, Sept. 6.—Fifteen bags, each containing the lower part of a human trunk, have been washed ashore here. In deference to the clamor of the people, the city officials are preparing to make an investigation.

The Brown Palace.

Denver, Sept. 6.—The Brown Palace hotel, which recently assigned, was sold yesterday by the assignee to D. H. Moffatt, the banker, for the benefit of the hotel company's creditors. The price realized was \$350,000 and covers only the furnishings of the hotel.

Cholera.

Rome, Sept. 6.—There have been 250 new cases and twenty-five deaths in various parts of Italy during the past twenty-four hours, including eleven deaths at Palermo, and nine at Naples. Since the beginning of the outbreak there have been 2,000 cases and 100 deaths from cholera at Palermo.

Patriotic Sentiments.

Chicago, Sept. 6.—"In the name of Leo XIII, I salute the great American republic and I call upon the Catholics of America to go forward, in one hand bearing the book of christian truth and in the other the constitution of the United States." With these patriotic sentiments Monsignor Satali, papal delegate, opened his address before the Catholic congress here yesterday.

Mexican Demands.

San Antonio, Texas, Sept. 6.—A dispatch from El Paso, Texas, on the lower Rio Grande border, states that Col. Martinez, commanding the Mexican forces at Reynosa, has ordered a portion of his command to take possession of the disputed island near Havana, and demand the release of the four Mexican custom house guards recently arrested.

Medical Congress.

Washington, Sept. 6.—The first formal session of the Pan-American medical congress convened in Albany's opera house yesterday. President Cleveland made an address of welcome in his official capacity. Responses were made by Dr. William Pepper and Dr. S. S. Adams. After a general business session to-day the congress will divide into different sections for the consideration of special topics.

Unhappy Strikers.

London, Sept. 6.—Reports of renewed disorder among the striking coal miners are at hand from the district around Sutton, Nottinghamshire. A thousand miners gathered this afternoon near Chesterfield and thence marched in a mass to the Oak Thorpe colliery. Everything on the way that was amenable, they smashed. The police were unable to cope with the crowds and in obedience to orders, troops are now en route from Sheffield.

The G. A. R. at Indianapolis.

Indianapolis, Sept. 6.—The parade of the Grand Army of the Republic yesterday was a magnificent sight. It is estimated that almost 50,000 men were in line. The city was a mass of flags, bunting and patriotic decorations. Ex-President Harrison, Gen. Lew Wallace and Gen. Lucius Fairchild marched with "the boys" until the reviewing stand was reached when the three left the ranks and ascended the stand, ex-President Harrison taking his position on the right of Commander Weisart and the other two on his left.

The reception tendered to Gen. Harrison last night was an ovation. He made an address which was cheered to the echo.

Indianapolis has so far satisfied the great throng as well as any city where an encampment has been held.

WASHINGTON NEWS.

PRESIDENTIAL NOMINATIONS.

Washington, Sept. 6.—The president has sent the following nominations to the senate: Treasurer—James F. Tucker, of California, to be appraiser of merchandise in the district of San Francisco, Cal.; Louis R. Sterns, of Virginia, to be collector of customs at the district of Newport News, Va.

To be Collectors of Internal Revenue—Furnifold M. Simmons, of North Carolina, for the 4th district of North Carolina; Moritz F. Flomengeld, of Wisconsin, for the 2d district of Wisconsin; W. E. Murphy, of Illinois, for the 13th district of Illinois; L. C. Smith, of Michigan, for the 4th district of Michigan.

DR. PRICE'S
Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.
Used in Millions of Homes—40 Years the Standard

War—Major Henry R. Tilton, surgeon, to be lieutenant colonel; 1st Lieut. Alfred M. Fuller, 2d cavalry, to be captain; 2d Lieut. David L. Brainard, 2d cavalry, to be 1st lieutenant; 2d Lieut. Julius A. Penn, 18th infantry, to be 1st lieutenant; 2d Lieut. Whitman, 3d infantry, to be 2d lieutenant of cavalry. Assistant surgeons with rank of 1st lieutenant: Alexander N. Stark, of Virginia; Charles Lynch, of New York; John S. Kulp, of Pennsylvania; Edward L. Munson, of Connecticut; Charles E. B. Flagg, of South Carolina; G. C. Godfrey, of Ohio, and William E. Lewis, of North Carolina.

AT CLEVELAND'S DICTATION.
The financial policy of the administration was yesterday clearly defined and it can be announced now that all secondary legislation as to finance is to be postponed until the senate acts upon the repeal bill. That it will pass there is now scarcely a question. The house committee on banking and currency, toward which all eyes are now directed as the organization to initiate the legislation to follow the repeal of the purchasing act, met yesterday, but after twenty minutes desultory discussion adjourned for one week. The president and Secretary Carlisle both expressed the wish that all residual legislation to follow the repeal of the bill be postponed until the latter measure actually passed the senate. There is no doubt of the intention of the committee to follow this suggestion.

The house, after the adoption of rules, will probably adjourn for periods of two or three days at a time, giving opportunity only for the introduction of bills in consideration of incidental business, and leaving the calendar practically free at all times for the prompt consideration of the residual bill when it comes back with the senate amendments.

WANT THE TARIFF.

The ways and means committee resumed its tariff hearing yesterday. During the day R. W. Leslie, of the Philadelphia, appeared on behalf of the cement manufacturers of the United States and argued in favor of the retention of the present duty of 8 cents per hundred pounds on Portland and all other classes of hydraulic cements. He was followed by Joseph Newman, of California, in an argument in favor of a duty on raw silk.

CONGRESSIONAL.

SENATE PROCEEDINGS.

Washington, Sept. 6.—At the session of the senate yesterday, a quorum was present. In proof of the aim attendance Senator Voorhees introduced a new daily meetings at 11 o'clock. Referred.

A bill was introduced by Senator Peffer for the creation of a department of education and the construction of a college of scientific learning in the District of Columbia was called up. Mr. Peffer finished his speech, began yesterday, in five minutes. Senator Stewart then delivered his speech on the silver question. At 4 o'clock Mr. Morgan, of Alabama, a silver man, moved that the senate proceed to executive business. The silver men voted solidly against the motion with a view to delay. The motion was carried by 35 to 28, a test vote, and the silver men were defeated.

CONFIRMATIONS.

The senate yesterday made the following confirmations: Receivers of public money, D. B. Patterson, of Indiana, at Woodward, O. T.; R. W. Allen, of Mississippi, at Alva, O. T.; registers of land offices, R. W. Patterson, of Georgia, at Enid, O. T.; J. E. Malone, of Wisconsin, at Perry, O. T.; W. H. Hammock, of Tennessee, at Woodward, O. T.; F. M. Alexander, of Texas, at Alva, O. T.

THE FRUIT HARVEST.

What San Juan County is Doing Toward Establishing Fine Orchards.

Correspondence New Mexican.

FARMINGTON, Sept. 2.—The Valley Home orchard of L. W. Coe presents a busy scene. Apples are piled up among the trees awaiting the laborer and drying frames are seen on every side, while teams are loading the fruit for the Durango market. Mr. Coe estimates his output as follows: Lombard plums, 4,000 pounds; wild goose plums, 1,500; Bradshaw plums, 500; early peaches, 8,500; late peaches, 2,000; early apples, 25,000; winter apples, 180,000; German prunes, 2,000; grapes, 2,500. Mr. Coe got his start eleven years ago from 200 trees. Last Friday Mr. Coe shipped to Denver 5,000 pounds of plums and apples. The rate from Durango to Denver on 5,000 pound lots or over is \$1 per hundred.

H. C. King, at the mouth of the La Plata, set out one and one-half acres of fruit in 1882; it was doubled in 1885; two years later seven acres more were added.

making a total of ten acres; in 1892 this was doubled. From the ten acres this year he will market 15,000 pounds of peaches, 10,000 pounds of apples and 1,500 pounds of plums. Besides these he has already marketed much small fruit.

The Fairview ranch of C. G. Brewer, below Largo on the San Juan, has some trees grown from the seed that are producing delicious sweet apples equal to any grafted fruit. Mr. Brewer has over 200 apple grafts besides pear and peach.

The ranch of D. E. Lobato has a young orchard, yet he will pick over 8,000 pounds of apples, besides grapes, plums and peaches. He set out 200 new trees this spring that are looking well.

The Junction City orchard, owned by Messrs. Williams and McHenry and leased by E. W. Her, will ship this year 25,000 pounds of peaches, 30,000 pounds of apples and 1,000 pounds of pears, besides 2,000 pounds of grapes and small fruit.

The Markley ranch has the largest acreage of grapes of any ranch in the county and will turn out close to 35,000 pounds. Twelve thousand pounds of apples and 4,000 pounds of peaches will be marketed.

On the Riverside orchard of James G. Willett will be harvested this year about 80,000 pounds of winter apples, 15,000 pounds of summer apples, 25,000 pounds of peaches, 5,000 pounds of plums and 4,000 pounds of pears, besides grapes and small fruit. All of this, together with eighty tons of hay, is produced off less than fifty acres of land. Mr. Willett is shipping his fruit to Pagosa Springs, Mancos, Rico and other points as well as Durango.

A Good Man Gone.
Col. H. Milne, a well known cattleman near Roswell, died in Chicago on the 28th ultimo. His death is quite a loss to the territory. He died of Bright's disease.

HEARD FROM.

The Narrow Gauge to Restore Daily Trains Out of Santa Fe October 1.

After much correspondence Sept. T. J. Helm has finally convinced the D. & R. G. officials that it was a mistake to cut the train service, and yesterday he received word, direct from President Jeffrey, that the daily service would be restored on the 1st of the coming month.

This is cheering news for Santa Fe and all northern New Mexico. There never was any reasonable excuse for reducing the service, because silver's depression has little or nothing to do with the business that comes to this part of the narrow gauge system. At this time this business is not only good but showing a steady improvement. This because the rains have insured good crops, fat cattle and sheep; set the big lumber mills in motion again and insured regular fruit shipments out of this city to Colorado points. The narrow gauge will make money by rectifying their mistake at an early day.

TERRITORIAL TIPS.

LAS VEGAS LOCALS.

Judge O'Brien will render his decision in the contested election case, of Romero vs. Lopez, on Thursday.

The condition of Miss Ofelia Henriquez, down with the deadly typhoid fever, is reported more favorable.

The Los Angeles chamber of commerce will pass through this city to-day in five Pullmans on their way to Chicago.

L. R. Labadie is in town from Santa Rosa, to-day, with 2,000 pounds of fine apples and pears, for which a ready sale is found.

Prof. Thomas Allen, well known in this city by the number of bills he left unpaid, has begun a race from Albuquerque to the World's fair.

Charles Schlott laid for a cow, which was destroying his shrubbery and flowers, and peppered her well with shot, only to find that she was his own cow.

The babies of M. A. Otero and Daniel Elliott were christened Sunday, the former by Rev. W. H. Fenton Smith and the latter by Father O'Keefe.

There is said to be a large number of counterfeit quarters in circulation in this and neighboring towns, and would be well for merchants and others to be on the lookout for them.

Wm. McKinney is up from Fort Sumner waiting for requisition papers from the governor for Jeff Rowden and a "pal" of his, wanted for horse-stealing. Rowden is an escaped jail bird from Spring-er.

The number of pupils who reported for duty at the public school on Monday was 285. No doubt this number will be largely increased as the school census showed over 600 persons of the school age in East Las Vegas.

The admirable and gratifying success with which Las Vegas weathers the financial storm that prostrates business in other localities, is proof of the soundness and conservatism of her business men. It is in times of stringency, like the present, that methods are tested.—Optic.

ALBUQUERQUE ATOMS.

Three small fires in town are attributed to tramps.

Finishing stone due from Cervilos is expected this week when work will be resumed on the Viviana building, Third street and Tijeras road.

The question of reopening the Savings bank now rests in the hands of the depositors. Signatures to agreements should be sent in without further delay.—Citizen.

Duncan MacGillivray, a brother of Angus MacGillivray, a partner in the sheep business with William McIntosh, and Alexander Campbell, direct from Inverness, Scotland, arrived yesterday.

The Citizen learns that the board of education contemplates a Spanish class in the high school, and should that scheme be carried out, Mrs. Butts will probably have charge of the class.

Countess Elpen, Countess Taufkirchen, Baron Falkentansen and Max. Turner, a party of distinguished Bavarians, arrived

in the city from the west Sunday night and are guests of the San Felipe.

President Brooks, of the Commercial club, has appointed the following committee to represent the club in the statehood convention to be held during the fair: B. F. Adams, chairman; W. L. Burke, secretary; Louis Baer, Dr. G. S. Easterday, Richard English, Alfred Grunfeld, J. E. Saint, C. C. Hall and W. A. Skinner.

SOCORRO CHIEFTAIN CHIEFS.
No city in the west has better public schools than Socorro.

The machinery for the Graphic mine at Telly has arrived and is being put in place. Work on this valuable mine is being pushed to the greatest practicable extent.

The city council has made an appropriation of \$1,500 to build a levee across the arroyo that has so often overflowed and flooded the city during the past few weeks.

In spite of the hard times Socorro is one of the most prosperous towns in New Mexico. With the smelter buying all the ores it can get the people of this city are unable to get through the winter all right.

The public schools opened on Monday. The teachers engaged for the ensuing year are Prof. U. Duff, principal; Miss Mary Wriggle, assistant; Miss Mary McCullough and Miss Marcello Strauss, intermediate department. These teachers are in the high school building. In the 2d ward Sister Euphrosyne and Sister Adelaide have charge and in the 4th ward Prof. Swanwick has been engaged.

Mr. Robert W. Denver
An Exempt Fireman of Jackson Engine Co., Long Island City, N. Y., says that at Christmas, 1890, he could only take a small dinner, as he was in a fearful condition from Dyspepsia. The next summer he went to Europe for his health, but came home unimproved. In the fall he decided upon a thorough trial of

Hood's Sarsaparilla
And by Christmas had a hearty appetite, healthy digestion, and was perfectly well. His cure was due wholly to Hood's Sarsaparilla.

HOOD'S PILLS cure liver bile, constipation, biliousness, jaundice, and sick headache. Try them.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

WEDNESDAY, SEPTEMBER 6.

Keep up the agitation for statehood for New Mexico.

CITY TREASURER Narciso Mondragon has gone "Democratic."

SENATOR DAVID BENNETT Hill continues to demonstrate, that he does not love Grover Cleveland.

THERE are rumors that Mrs. Frank Leslie is again engaged. Will the old woman ever stop?

This is a territorial paper and covers every part and every section of New Mexico with equal energy, enterprise and fairness.

The board of education of this city is doing good work. Let it keep on and help to the line, let the chips fall where they may.

If the House of Lords stands between Ireland and home rule, the chances are mighty good that the House of Lords itself will have to go.

A BRACE of rather ancient news chestnuts come once more from London—Emmeline Pankhurst is dead and Gladstone is to visit the United States.

The mail service, north and south, and east and west, in New Mexico is wretched and getting more so daily. Secure another one for this alleged reform administration.

It is to be hoped that the weather bureau has exhausted its stock of severe and destructive storms. The month of August contained a full supply of the latter.

The city authorities acted promptly and vigorously in the matter of the defalcation by Narciso Mondragon. It looks as if the city will not be the loser by the defalcation.

The Mesilla valley may well grow over the character of the fruit display sent thence to the World's fair. It takes enterprise to accomplish such things.

As far as the southwest is concerned, the state of New Jersey is at liberty to exercise its rights as a sovereign state to their fullest limit and keep all cholera cases within the state.

Deputies for postoffices for those members of the house of representatives, who voted for the unconditional repeal of the Sherman law, will soon be honored by Banker Grover Cleveland, representing the gold bugs in this great country.

The fruitful and growing county of San Juan in this territory feels that it should have been recognized by Mr. Cleveland in the matter of the appointment of secretary of New Mexico. But Mr. Cleveland and the Missourians thought otherwise.

Mexico is doing pretty well on its silver standard; that country is better off to-day than it ever has been in its history; this is passing strange, for according to the teachings of the monometallists Mexico ought to be away down in business and prosperity, because it sticks to the silver standard.

THE IOWA Prohibitionists will oppose the Republican state ticket; this defection is serious and may cost the Republicans enough votes to defeat the Republican nominees. But where or what the Prohibitionists will gain by this course is not clear, for the Iowa Democrats are most bitter and uncompromising enemies of the Prohibitionists in that state.

THE DENVER News is a very strong and bright paper, but it is not quite as Democratic as it was, which is gratifying and a step in the right direction; its motto is: "The people of the state of Colorado first, last and all the time;" that's something like the New Mexican's motto.

"The people of New Mexico first, last and all the time and the rest can be taken care of hereafter and thereafter."

SEC. HOKER SMITH has been compelled to reverse the policy of depriving deserving Union veterans of pensions, justly, honestly and legally due them. Elections are coming on in several northern states and votes are needed by Democratic nominees in the states of New York, Massachusetts, Iowa and Ohio. Do you understand the situation?

THERE is one thing the New Mexican is in perfect accord with the Democratic leaders in congress and that is that the present congress should pass a bill doing away with all federal supervision of elections; the federal election laws are a farce in the south, but in this territory they are simply used, whenever there is a Democratic administration, for the oppression of the people and for political ends.

THERE SHOULD BE A CHANGE. The potato crop in the vicinity of the town of Greeley and of Weld county, Colorado, amounts to 5,000 car loads and will bring to the farmers of that one county in the so-called arid state of Colorado \$1,000,000. There are sections of New Mexico, where everything is as favorable to potato growing as it is in Weld county, Colorado. This territory to-day purchases the many hundred tons of potatoes it uses in Colorado, Kansas and California. This is simply so, because it is so and because the ranch men and farmers of New Mexico let it remain so. That is should cease is self apparent.

NO BOOMERS HERE.

A Denver press dispatch states that thousands of people are preparing to leave Colorado and New Mexico to join the boomers in seeking new homes in the Cherokee strip. Whether or not this statement was made to injure New Mexico, we are unprepared to say, but we do know that so far as it relates to this territory it is as unjust as it is false. Nobody is leaving New Mexico to locate homes in the Indian territory. Here and there one hears of a speculator or two who think of joining the boomers for a few weeks and catching on for speculative purposes if possible, but that is all.

In this connection it may be said again that New Mexico, of all the western states and territories, is to-day in better condition, viewed from any standpoint, than ever before, and everybody is content with the present and more than hopeful of the future.

A REFORM ADMINISTRATION. The Washington correspondent of the Chicago Times, the leading Democratic paper in the World's fair city, makes the following charges as to the methods of the Democratic administration in passing the Wilson repeal bill in the house of representatives:

"It has been an open secret that the federal patronage was used to bait and lure the votes of silver members to the gold support. It has been said too much and contradicted too little to be doubted. All Washington knows it and all the world might as well. That is the way the fight was won for Wall Street. The order is out in every department that patronage is only for the 'friends of the administration.' That is construed to mean only those, in the house for instance, who voted for the unconditional repeal of the Sherman law. That vote is the test."

Here is reform, goodness, purity and political honesty for you in solid, gigantic and admirable chunks. Verily, verily, this may be a great reform administration, but facts and circumstances are solidly and positively against any such supposition.

THE SPIRIT OF THE PRESS.

THE CHANGE HAS COME. More than a million men who hunted down Republicans a year ago with roosters in their hats are to-day hunting work and can not find it.—Chicago Inter Ocean.

THE GOVERNMENT RUNNING BEHIND. Cleveland's administration expended \$17,000,000 more money during July and August than was collected. The government was steadily running behind financially while Grover was gone—a fishing.—Denver News.

SEVEN CENT COTTON DOING THE BUSINESS. Texas Populists report an enrolled membership of 220,000 votes, just about double the Populist vote cast in Texas last year. Seven cent cotton is doing the business.—Denver News.

HOKER SMITH'S SURRENDER. Hoker Smith surrenders to the Union veterans on the pension suspension business. The Georgia creeker has the sense of knowing that Bonham did something similar at Appomattox some years ago.—New York Press.

WAIT AND SEE. The great bosses think fourteen days monkeying with the tariff will be empty sufficient. Wait and see the people at the ballot box monkeying with Democratic congressmen when their time is up.—Chicago Inter Ocean.

THE SOONER WE SHALL SEE THE BETTER.

We shall soon be able to see if the agitation of the tariff question with a view to abolishing protective duties is

calculated to stimulate depressed manufacturers and put a stop to the reduction of wages.—St. Louis Globe-Democrat.

THIS WILL COME TO PASS. "Power, patronage, money, all are powerful, but there are thirty-three states in this Union in which the voters in favor of free bimetallic coinage are in a large majority, and they will elect both a congress and a president who will not deceive them."—Kansas City Journal.

KEEP THE FIGHT UP AS LONG AS POSSIBLE.

The bimetallic members of the United States Senate should keep up the fight against repeal as long as possible. A campaign of education is necessary to secure the complete re-establishment of bimetallicism in this country, and there is no better place to start it than the United States senate.—Denver Republican.

CARLISLE AS A BOSS.

The house committee on banking and currency might as well disband. Carlisle appears to be dictating what financial legislation shall be introduced into congress. He introduced Johnson's bill to redeem government bonds with greenbacks, and the bill has been promptly "pigeon-holed" and will not be reported by the committee.—Denver News.

HAVE A GOLD BUG ORGAN FIGURES.

The New York Times figures it out that 41,238,264 people in this country demanded the repeal of the Sherman law through the votes of their representatives in Washington, while opposed to them were the representatives of but 19,263,611 people, or much less than a third of the population of the country.—Boston Herald.

THE DEMOCRATS GOT TOO MUCH OF A GOOD THING.

The Democrats in Kansas fused with the Populists and overthrew the Republicans. Now they are anxious to get in with the Republicans to get rid of the Populists. Some years ago the Australians imported cats and turned them loose to exterminate the pest of rabbits, and ever since they have been seeking for a means of getting rid of the cat plague.—Fort Worth Gazette.

A CLEVELAND ORGAN ON SENATOR D. B. HILL.

Mr. Hill's anxiety to get even with Grover Cleveland drives him closer every day into co-operation with the Peffer, the Kyles, the Joneses and the Tellers. In the state of New York his bushwhacking tactics will excite and turn them loose to exterminate the pest of rabbits, and ever since they have been seeking for a means of getting rid of the cat plague.—Brooklyn Eagle.

Where to Stop in Chicago.

The perplexing question which is every day asked by people who desire to go to Chicago to attend the World's fair is, "Where are we going to stay when we get there?" This is easily answered, and if you will go to the ticket agent of the Santa Fe, Mr. W. M. Smith, he will tell you.
Arrangements have been made for the distribution by the Santa Fe company of a pamphlet entitled "Homes for Visitors to the World's Fair." This is a reliable pamphlet containing the names and addresses of about 9,000 families who will furnish accommodations to visitors from May 1 to October 31, 1893. The pamphlet also contains sectional maps which will enable the intending visitor to select any quarter of the city that he would prefer. Correspondence can then be carried on and definite arrangements made so that when visitors arrive in Chicago they can proceed at once to their quarters.

YOU

DON'T KNOW

What a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort, and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons' Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. N. never disappoints. It possesses the virtues and perfection of a reliable remedy of the kind endorsed by eminent physicians.

It affords no pleasure to add my testimony to those you receive annually in reference to your valuable medicine, consider Simmons' Liver Regulator the best family medicine on the market. I have prescribed it with excellent results.

THE CITY FUNDS.

Treasurer Mondragon Embezzles Over \$1,000 and Finds Himself in Jail.

Narciso Mondragon, city treasurer and ex-officio custodian of the city public school funds, was arrested at 5 o'clock last evening on a warrant sworn out by Chas. A. Spiess, school director, in behalf of the school board, charging him with embezzlement, and the accused spent the night in the county jail.

Mondragon has been in office since May last, and

HIS SHORTAGE
amounts to about \$4,400; of this amount \$3,949.23 was city public school money and some \$400 general city funds.

At a special meeting of the school board last evening, Gen. E. L. Bartlett and Atanasio Romero, two of the sureties on Mondragon's official bond for \$10,000, Mr. Catron being the other surety, appeared and stated that as such bondsmen they would see that the public school funds suffer no depletion. Gen. Bartlett said steps had been taken to secure control of the defaulting treasurer's property to protect as far as possible his sureties and he

CELEBRATED THE SCHOOL BOARD
Upon its prompt action in unearthing this affair in time to give the sureties opportunity to adopt measures of self-protection.

It is probable that the missing moneys will be paid back into the school fund in installments of \$1,000 per month. The bondsmen had a talk with Mondragon yesterday afternoon and learned from him that he had used the money thus embezzled to pay his private debts. He said that \$3,000 of it had gone into new stock for the jewelry store of Mondragon Bros. This, however, appears to be untrue, since after

ATTACHMENTS WERE RUN
On the store yesterday an inventory showed scarcely \$1,000 worth of goods on hand. Mondragon said also that his brother is out on the road selling goods and has about \$300 in jewelry with him. There are rumors that much of the stock in the store was removed before the exposure came and that this has been sent out of the territory at any rate, packing of goods was done at the store on Sunday last and employees were seen carrying out bundles supposed to have contained

GOLD JEWELRY AND DIAMONDS.
Mondragon assures his bondsmen that he will make all the repayment he can, and hopes his family and relatives in southern Colorado will come to his aid. The amount of property in sight, however, is scarcely valued at one-half the amount he has embezzled. This includes his store stock and fixtures and his unencumbered real property. Attachments were run on the store yesterday by Faustine Garcia, \$400; Chas. A. Spiess for the board of education, \$1,000; Marcelino Garcia, \$250.

This morning Judge Seeds fixed Mondragon's bail bond at \$8,000, and he was out with an officer all forenoon endeavoring to secure bondsmen, but up to 3 p. m. he had made little progress toward securing them.

Both Mondragon and his brother, who was his partner in business, went into court this forenoon and comprised judgment for the full amount of the above attachments.

Cheerful Outlook.

Sheriff O. W. McCauston, of Colfax county, is in the city to-day, having brought here to the St. Vincent hospital an aged mendicant, John O'Neill, who has long been a resident of Elizabethtown.

The county board ordered O'Neill brought here.

Mr. McCauston says times are good in his section of New Mexico. Cattle are rolling fat; sheep are doing well, and all farm and fruit crops are immense. In the Vermijo and Cimarron and Ponil valleys farmers are jubilant. At Springer the new school house is completed, and at Raton much building is in hand, and the big new flour mill at Maxwell City is ready for the wheat crop.

MAKING READY.

Contracts let for supplies for the Deaf, Dumb and Blind Institute—To Open on Monday.

Bids for supplies for the deaf, dumb and blind institute were opened yesterday by the committee in charge, consisting of Treasurer Felen, Auditor Perez and Solicitor General Bartlett. The successful bidders were Seligman Bros., dry goods and part of the bedding; Wagner & Loewitzki, furniture and bedding; T. A. Goodwin, tinware; Blain Bros., household goods; Goebel, hardware and bedding; Rispie Bros., brot the study desks and dining room tables. The total amount of cash involved is about \$500. The purchase of these articles will enable the institute to be fully equipped and ready for opening the fall term in its new and commodious quarters on Monday next. Supt. Larson will have some seventeen pupils in attendance beginning next week, and others from various territorial points will make the average attendance during the winter about 25. A canvass of the territory by the superintendent shows that there are now in New Mexico fifty-three deaf and dumb children of school age and twenty-nine blind children, all of whom are entitled to free education at this institution.

THE PENITENTIARY.

Long Looked-for Days Come to Many Inmates—Real Reformation—P. J. Barber Resigns.

Section 52, chapter 76, laws of 1889, provides that "If any convict shall pass the entire period of his sentence without any violation of the rules and regulations of the penitentiary, he shall be entitled to a certificate thereof from the superintendent, endorsed by the board of penitentiary commissioners, and, on presenting same to the governor, he shall be granted a pardon and restored to citizenship."

Under this provision of the law the governor to-day signed certificates restoring to citizenship the following named whose terms in the penitentiary will expire within the coming few days: Chas. R. Huber, Macedonio Ballezan, Edward M. Kelly, Smith B. Graham, Oliver Joseph, Frederick Graff, Francisco Romero, Michael McDonald, James Marshall, Joseph Blackham, Geo. A. Gardner.

Among the above named, old timers will recognize some who have been somewhat famous criminals in their day; but when asked about them to-day Sept. Bergman said there was not one demerit mark against any of them; that they had, he thought, been thoroughly reformed, and would leave the institution determined to lead different lives and become useful and honorable citizens.

P. J. BARBER RESIGNS.

P. J. Barber, assistant superintendent at the penitentiary, who has been connected with the institution for over six years, handed in his resignation last night, and will seek other channels of employment. Mr. Barber has made a good officer, and Col. Bergman says he accepts his resignation with regret.

THE CITY COUNCIL.

Water and Telephone Franchises—Improvements Ordered—Celestino Ortiz Appointed Treasurer.

The city council met on Monday night; present, the mayor and all members, save Councilman Schofield. A number of bills were audited and ordered paid.

The city marshal reported fines collected for August amounting to \$100 and six to eight prisoners working constantly on the public streets.

A communication from the mayor of Albuquerque relative to the naming of delegates to attend the statehood convention was presented by the mayor.

A communication from the Woman's Board of Trade complained that many paupers were sent to Santa Fe by the authorities of neighboring cities, and a resolution was adopted instructing the city marshal to return all such mendicants to points whence they came.

Bids for the Rio Santa Fe bridge on Delgado street were opened and the bidders were A. Windsor, \$369; W. H. Sweeney & Co., \$382. The contract was awarded to Windsor.

On motion of Councilman Conway the city marshal was authorized to employ some one to kill unlicensed dogs running at large on the streets.

Councilman Ortiz y Salazar presented a resolution extending the franchise, heretofore granted the Water & Improvement company, to July 1, 1894, and the same was adopted.

On motion of Councilman Bartlett the franchise of the Telephone company was extended to April 1, 1894.

E. T. Wolter appeared in response to the resolution requiring the electric light company to show cause why its franchise should not be annulled, and after explanation and a statement that the lights were in readiness for use, the defendant, on motion of Councilman Felen, was discharged "without day."

Charges were preferred against Policeman Julian Provencio by J. Josephs, and the same were referred.

The question of caring for the city's insane was discussed and the city physician was instructed to examine certain alleged insane mendicants.

The council met again at 10 o'clock last evening, in special session. Narciso Mondragon, elected city treasurer last May, was removed from office under charges of embezzlement, and Celestino Ortiz, clerk in Treasurer Ballezan's office, was appointed treasurer. His bond for \$10,000 was furnished at once and was approved. The finance committee was instructed to investigate Mondragon's accounts. It is thought that his shortage to the city is about \$4,000.

The standing committee on sewers was directed to confer with the superintendent of the penitentiary and ascertain the cost of fire clay pipe to be used for sewerage purposes.

A resolution was adopted assessing a fine of \$5 each against John W. Schofield and Treasurer Ballezan, councilmen from the first ward, for every meeting of the council at which they failed to be in attendance and declaring that if they failed to attend meetings henceforth they would be removed and their successors named.

An appropriation of \$50 was made for the immediate repair of bridges and culverts on the streets.

A Novel Souvenir Spoon.

THIS SPOON, as a souvenir of Arizona, is a decidedly unique and appropriate. It is distinctly Arizona, picturing as it does in an everyday feature of the streets of the city, the famous Indian woman in her head an olla which rests upon a twisted wisp of bear grass, and awaiting a customer for her wares. Statuesque and graceful as is the figure, it is perfectly true to nature, having been designed from a photograph taken from real life for the purpose.

The olla (usually pronounced o-yer) is a large jar or bowl of pottery for containing and cooling drinking water. It is altogether an Indian invention, and is made of a mixture of clay and sand. The material being moulded exceedingly thin by the deft hands of women, and baked to a brilliant red.

In this climate renowned for cool water are indispensable in every household, and thus the dusky maidens find a ready market for them in every town.

It is no uncommon thing to see four or five of these children of nature, picturesque in their gaily colored advancing with stately tread down the street, each with an olla on her head, as represented in this charming Souvenir.
