REBEL CHIEFS OFFER WITH GOVERNOR GENERAL

Leaders of Revolution Desire
Desire Information About
Amnesty Proclamation Be-
fore Disbanding Forces.

FUSTON TO COMMAND ARMY OF OCCUPATION

No Trouble Anticipated in
Disarming Revolutionists.
Strong Force of Marines Is
Sent to Insure Peace.

Havana, Oct. 2.—The attitude of the authorities of the United States in Cuba regarding the possibilities of the present situation seemed fairly expressed this afternoon when Colonel Waller, commanding the marines, remarked to the Associated Press that an ounce of prevention is worth a pound of cure.

The remark was called forth by preparations that were going on at Camp Columbia to transport 450 marines from the encampment westward tonight for the purpose of having them in adjacent towns when the first instalments of General Guzmán's disbanded men reach those places tomorrow. While no disorder is anticipated when the revolutionists reach their homes, the provisional government and the military authorities consider the actual military occupation of the Pinar Del Rio region quite essential as the occupation of other portions of the island and regard it best to have an American force to insure the preservation of order.

A battalion of marines, which was the first to occupy Pinar Del Rio, was sent forward tonight by special train. The orders came from Governor Taft at 6 o'clock, and half an hour later the battalion had boarded a train at Buena Vista, a station near Camp Columbia. The cars were switched from the Maricao to the Western railroad, and thence to the Pinar Del Rio.

One thousand of Guzmán's followers will go to Pinar Del Rio in special trains, while 1500 others will start to march to their homes, taking with them their horses, and extra mounts. It is the purpose of the military to restore all horses to their owners.

It is believed tonight that all the revolutionists in the vicinity of Havana will have been peacefully dispersed in three days. General Guzmán and Del Castillo are actively co-operating to this end. Together with Guzmán, the commander in chief of the rebels in Santa Clara province, they called at the American legation today and renewed their promises of assistance. They also thanked Governor Taft for his courtesies and discussed the projected amnesty proclamation. Governor Taft told the visitors that he would take up this subject later, not having time now to give it the necessary attention, and said that when the matter did come up he would investigate personally whether or not it might require his attention, in order that justice be done.

The fact that General Guzmán is acting in sincere co-operation is believed to be a favorable omen in the sequence in the work of disarming the rebels in Santa Clara province, and no fears of disorder in other sections are entertained.

While the dispatches today from Havana of ex-President Palma were the most important event of the last 24 hours, the former president left the capital so quietly that the public did not realize until the afternoon papers were given in the afternoon papers. Only his cabinet ministers and a few intimate friends accompanied the former president and his family to Matanzas and did not return until this morning. The fact that the Palma family was in the home of other friends in that city.

On the way from Havana to Matanzas, Senator Palma's special train stopped at two stations, where the government volunteer forces were preparing to disarm and disband. When Colonel Reo, in command of the battalion at Campo Florida, informed Senator Palma that the ex-president expressed his gratification and said that disarmament was in accordance with patriotic duty.

At Jarcus, Colonel Lima told Senator Palma he had ordered his force to be mustered out, and that this would be his last act as an officer. Continuing, the colonel declared that the people of Matanzas were particularly pleased that the ex-president was coming to their peaceful city to enjoy that rest and tranquility he so well deserved. He said also that the Cuban people were sure to re-elect Palma to the presidency at the first opportunity.

Senator Palma told to Colonel Lima that he had full confidence in the good faith of the United States and that he believed the American government intended to restore Cuban independence. He advised all to be patient and await the outcome, which he felt sure will be entirely acceptable.

Governor Taft tonight is busy in his temporary quarters. Minister Murguía's villa at Matanzas, going over the plans prepared by the Cuban health officials for coping with yellow fever. Tomorrow Governor Taft will occupy the office at the palace, but it is uncertain when he will take up his residence here.

PENSACOLA SETS TO WORK TO REBUILD CITY

Pensacola, Oct. 2.—All Pensacola today joined in the work of rebuilding what the storm destroyed in one night. Much progress was made.

No bodies were recovered today. The list of known dead stands at thirty-three.

RISE IN BAROMETER BRINGS HOPE TO STORM-SWEPT SOUTH

Washington, Oct. 2.—The weather bureau tonight announced that the gulf barometric depression is slowly filling up and does not now present any alarming features. The continuous fall of rain in Tennessee, Alabama and Georgia has caused flood stages in a number of rivers.

Storm warnings are displayed on the Washington and Oregon coasts.

CONDITIONS IMPROVE IN DEVASTATED REGION

Mobile, Ala., Oct. 2.—Storm signals have been ordered down along the north coast of the gulf.

Sheriff Powers has just returned from the west coast of Mobile, where he has been inspecting the improved conditions. Negroes are refusing to work, though railroads and others are begging them. Sheriff Powers has threatened to arrest all who will not work, but the sheriff insists that the women and children be taken from the devastated points and brought to Mobile, where they can receive proper care, else many deaths will result from privation.

OIL TRUST FILES ANSWER IN TEXAS PROCEEDINGS

Waters-Pierce Company Claims It Is
Unable to Prevent Standard
Holding Its Stock.

Austin, Tex., Oct. 2.—The answer of the Waters-Pierce Oil company in the Standard Oil trust suit filed in the district court by attorneys for defendant, has been filed.

The defendants except to the whole of the plaintiff's petition in its entirety, and to the holding of the court in 1183, revised statutes of Texas, and is not a statement in logical and legal form of the facts constituting the plaintiff's cause of action.

The defendants also except to this conclusion in the petition, "that the nominal and fraudulent reorganization having been accomplished, C. H. Pierce came into the state of Texas with a large sum of money," and "as completed the settlement of the cases pending in the state of Texas against the Waters-Pierce Oil company at that time," also that the Standard Oil company has exercised control over defendant at all times except when prevented at political reasons rendered it advisable for H. C. Pierce and the other shareholders to control the company.

The defendants also contend that penalties cannot be collected under the provisions of the act of 1899, as said act was repealed by the act of 1901, and that the holding of the court by the Standard Oil company in the Waters-Pierce Oil company is not a violation of the law, for the reason that under the law of its domicile it did not have control over its stock or the right to prevent anyone from holding its stock; that the state of Missouri, the home of defendants, has jurisdiction over stock ownership in this corporation and not the state of Texas; that the Standard Oil company has no permit to transact business in Texas, consequently it cannot be in competition with the Waters-Pierce company in Texas; that the state cannot recover penalties on account of allegations of frauds by defendants in obtaining its permit to do business in Texas; that penalties cannot be recovered on account of the Standard Oil company for the reason that the Standard Oil company had been purchased by the Standard Oil company long prior to the passage of the act of 1901; that it was a vested right and not a violation of law.

PALMA LEAVES HAVANA AMID CHIEFS OF CUBANS

Havana, Oct. 2.—Former President Palma's departure from the palace and from the capital of Cuba this morning was so quiet and unostentatious that it was scarcely noticed that he had gone until his special train had started eastward. Among those present at the palace to see the Palma

RACE WAR TROUBLES OF STROKEN MOBILE

Mob Seeking Life of Negro
Makes Desperate Attack on
County Jail—Officer Killed
in Fray.

DOORS BATTERED IN WITH TELEGRAPH POLE

Governor Orders Three Com-
panies of Militia to Protect
Alleged Assault of White
Girl From Angry Alabamians

Mobile, Ala., Oct. 2.—Roy Hoyle, a special officer of the Mobile & Ohio railroad and one of the most widely known and best liked men in this vicinity, was fatally shot, and Alderman Sydney Lyons, chairman of the city council at Mobile, was slightly wounded in the hand last night during a fight in the county jail between deputy sheriffs and a crowd of men determined to capture Dick Robinson, a young negro. Hoyle died at 1:30 this morning. The mob is still hunting for Robinson, and threatening to capture him. The negro, who is only 17 years old, yesterday attacked Ruth Sossamon, 16 years old, who lives about three miles from here. The girl was passing a package to her mother when she was attacked. Later she was found lying unconscious by the roadside and was taken to her home. Detectives were placed on the track of the negro and within three hours he was captured. He was taken before the girl, who at once identified him. Sheriff Hatch, knowing that the life of the girl was in danger, took her to the jail and brought her into this city, caused him to be removed to a station several miles up the Mobile & Ohio railroad. He was not taken to the jail, but was kept in a room eight miles from the city when the mob, determined to have him, approached the building.

There have been several assaults upon white women lately and the news of this latest outrage caused intense wrath and excitement. As early as 6 o'clock in the evening, crowds of men converged to gather in the downtown streets and by 8:30 five hundred men had formed at the intersection of Royal and Dauphin streets. The crowds were harangued by several speakers, who urged them to take the life of the negro if he could be found, and in a short time the entire crowd was on the march for the jail.

Sheriff Powers met the leaders of the mob and informed them that the man they were seeking was not in the jail and had never been brought there. He offered to know pass through the jail to satisfy the crowd of the truth of his statement. About forty men walked through the corridors, some of them returning and a few others, who were not known, entered the jail. The mob was not taken to the jail, but was kept in a room eight miles from the city when the mob, determined to have him, approached the building.

The man who led the gang with the telephone pole, however, was anxious for further vengeance and he and his associates entered the crowd and followed him to the colored section of the city, declaring that "we will give them what they got in Atlanta."

The crowd later received information that Robinson had been taken from the city to Eight Mile point, on the Mobile & Ohio railroad, where he was to be placed upon the train and carried still further. As soon as this was known fully 300 men boarded the Mobile & Ohio passenger train leaving here at 8:30 p. m., with the expressed intention of locating Robinson and releasing him. The crowd followed the train as it left the city, and when it reached the Eight Mile point, they called upon the Louisville & Nashville railroad for a special train and directed that the companies from Brownsville, Evergreen and Fort Deposit be brought here. The crowd which went in search of the negro returned on the Mobile & Ohio train at 2 a. m. They did not find the negro.

Shortly after 10 o'clock a second mob gathered in the business section of the city, and went to the jail, convinced that Robinson was there and bound to have him at any cost. Sheriff Powers declared to the crowd, as he had to the first one, that Robinson was not in the jail and had not been there. The mob demanded that they be allowed to search men through the jail to make another search, and this was permitted by the sheriff. Eight

RUMORS OF UPRISING ON MEXICAN BORDER DENIED

Only Question of Time Until
Panic Succeeds Prosperity
Says Campaign Document
Just Issued.

BITTER ARRAIGNMENT OF PROTECTIVE TARIFF

Much Space Devoted to Scan-
dals in Republican Ranks.
Armstrong Insurance Re-
port Furnishes Ammunition.

Laredo, Tex., Oct. 2.—Rumors without the slightest foundation in fact have been circulated to the effect that the citizens of Laredo, Tex., are in the neighborhood of Laredo, Mexico, and are approaching Nuevo Laredo.

Senor Lomell, the Mexican consul here, stated that the rumors were without foundation. He made a personal investigation of affairs in Nuevo Laredo and had caused telegrams to be sent to Laredo, Tex., stating that everything is quiet and there is no indication of impending trouble.

In regard to a rumor today that 3000 armed revolutionists are approaching Nuevo Laredo, the consul points out that it would be impossible for them to do so along the border roads which are well patrolled by the Mexican army. He stated that they made a detour through the interior of the country they would likewise encounter cavalry troops.

He belittles the idea of a revolution and says the number constituting the lawless gang has been greatly exaggerated; that not more than thirty malcontents are to be counted upon.

CUBANS TO GET ANOTHER CHANCE

INTERVENTION DOES
NOT MEAN ANNEXATION

President Declares Action Taken by American Gov- ernment Solely for Benefit of People of Island.

Washington, Oct. 2.—President Roosevelt discussed freely today with his cabinet and with his individual advisers, the question of the Cuban situation, and the present situation in Cuba, and its temporary occupation by the American forces. The matter was talked over at the cabinet meeting but no definite announcement of the result of the deliberations was given out. The president related to the cabinet and to the public, that the action taken by the American government was destined solely for the benefit of the people of the island with a view to the complete restoration of order, and the protection of all interests. He declared that he had no such motive in view as the possible annexation of the island by the United States, and that the Cuban people should be given another chance at self government.

Unless extraordinary conditions arise, no extra session of congress will be called to deal with the Cuban situation, as the president considers that he had ample authority to proceed in the matter.

It seems to be well settled that former governor Charles E. Magoon, of the Panama zone, who has just returned from Panama, will be appointed governor of the provisional government of Cuba. The president and Secretary Taft had in view the designation of Governor Beekman Winthrop of Porto Rico for the office. Governor Magoon, however, has expressed the belief that he can better spare Governor Magoon from his duties in the Philippines, where he has been appointed a member of the Philippine commission, and vice governor general of the island, than he can the services of Governor Winthrop for the several months during which he expects the provisional government of Cuba will continue.

Governor Magoon is anxious to go to Cuba and his selection for the place is expected to be announced soon. The president expects Mr. Taft to return to Washington in a fortnight or less.

President Will Not Take Stamp.
Washington, Oct. 2.—President Roosevelt announced to a group of his callers today that he would not "take the stamp in behalf of the candidacy of Charles E. Hughes for governor of New York."

SOCIALISM SPLITS LABOR ORGANIZATION

Chicago, Oct. 2.—The national convention of the Industrial Workers of the World split on the rock of socialism today, when the delegates from the Western Federation of Miners, representing 25,000 men and the majority of the labor union, bolted. The seceders will organize under another name.

Root to Speak in St. Louis.
Washington, Oct. 2.—Secretary Root will not make any public statement concerning his recent extended South American trip until next month, when he will deliver an address in St. Louis before an organization interested in commercial affairs.

HARD TIMES IN SIGHT SAYS DEMOCRATIC TEXT BOOK

Only Question of Time Until
Panic Succeeds Prosperity
Says Campaign Document
Just Issued.

BITTER ARRAIGNMENT OF PROTECTIVE TARIFF

Much Space Devoted to Scan-
dals in Republican Ranks.
Armstrong Insurance Re-
port Furnishes Ammunition.

Washington, Oct. 2.—Pleading the motto, "Equal rights to all, special privileges to none," on its title page, the democratic campaign book for use in the approaching congressional campaign, was issued today by the democratic congressional committee. It is voluminous, being composed of 143 pages and containing a vast quantity of matter designed to combat the claims and policies of the republican party, while at the same time it upholds all the principles for which the democracy contends.

After quoting the platform adopted by the national democratic convention at St. Louis, in July, 1894, the book enters into an exhaustive history of the protective tariff system, going back to the first act of 1789.

Tariff history, it is maintained, disproves the republican platform contention that a democratic tariff has "always been followed by business adversity and a republican tariff by business prosperity."

It is asserted that all the panics in this country have occurred under republican auspices and with the high protective tariff and that in France the same conditions prevailed, while in free trade England there has been only one panic since 1875. That the present "boom" will be followed by a "panic" is the book continues, "is only a question of time."

Numerous instances of republican tariff changes are quoted, from which the deduction is made that in forty years the republicans have changed or revised the tariff law forty-eight times.

"But at last," the book states, "the republicans and their allied friends and providers of fat campaign barrels, the protected monopolists, secured a measure that has fostered and fattened the corporations that they are quite willing to stand pat, especially a tariff which succeeded in defeating the realty of the tariff schedule, provide for which the tariff schedule was purposely increased twenty percent beyond the rates that the protected monopolists named as sufficient to protect them from competition."

"Hence the people are now burdened with this extra rate plus a revenue and a protective rate—three fold the cost of the goods."

By reason of the shelter of the tariff it is declared that the trusts and combines have advanced the prices of their products and at the same time sold their goods in foreign countries than to our own people. Reference is then made to the speech of Senator Cannon at Danville, Ill., Aug. 16, 1898, when he furnished statistics of wages and incomes for the fifteen years between 1890 and 1905, in which the speaker is quoted as acknowledging that in that time the average wage of the workman had slightly less than 94 percent. It is asserted that during the same period of time the value of manufactured products increased 58.7 percent and the income of the average citizen increased 58.7 percent. It is also stated that the value of the products of the United States increased 58.7 percent and the income of the average citizen increased 58.7 percent.

Much space is given to the subject of corruption and scandals in the republican party, particular reference being made to the alleged corruption of Judge Parker, and which were vigorously denuded by President Roosevelt in a public statement.

"The report of the Armstrong committee published since Mr. Roosevelt made his sweeping and apparently impassioned, but really crafty, denials, proves that Judge Parker spoke the truth, and that Roosevelt was misinformed, when he said that the charge was unqualified and atrociously false."

It is added that "the stream of corruption continues from year to year, from election to election and from the same localities and same fountain-head, republican states, republican strongholds, under republican laws."

Allusion is then made to republican legislation to require in behalf of Panama canal supplies.

Ship Subsidy Bill Legalized Robbery.
The proposed ship subsidy legislation is discussed at length. It is alleged that the bill is a legalized robbery, and that the bill was not disclosed by its title, but rather its object was legalized robbery of the masses for the benefit of a few persons engaged in the shipping business. The subject of railroad rate legislation is discussed extensively and with regard to the recent law enacted the book has this to say:

Railroad Legislation Criticized.
The present congress enacted a railroad law, amending the act of 1887. It would have been law had the republicans been so disposed years ago.

So controlled by the railroads were many of the republican senators that this bill could not have been passed at this (59th) congress without the unanimous action of the democrats and the president's "big stick" which

PARKER STUNG INTO REPLY TO HEARST ATTACKS

New York Judge Appeared for
Mayor McClellan Without
Fee From Sense of Duty
Alone.

DENIES BEING HIRED BY CORPORATIONS IN CASE Charges of Independence League Candidate for Gov- ernor Denounced as Insult- ing and Maliciously False.

New York, Oct. 2.—Judge Alton B. Parker tonight gave a statement in reply to an attack upon him by William Randolph Hearst in a recent campaign speech. In his speech Mr. Hearst said that Judge Parker had appeared in an election case on the side of election criminals in the court he formerly graced, and there argued against, and secured a reversal of an opinion he had formerly rendered.

Judge Parker's statement follows:

"For something more than two years now, I have submitted without reply the canton assaults of William R. Hearst. I should probably pay no more attention to his insulting and maliciously false speech of last evening than I have to his other attacks upon me. It is not necessary and intended inference of his speech constituted an attack upon a great court, a court with a membership that is not surpassed in this or any other country. While that court is so well grounded in the confidence and the affections of the people as to need no defense from any side, the opportunity is afforded to ward the people from man having such conceptions of the judiciary as will permit him to make such an attack ought never to be allowed. I have no objection to the bench, as it is said he contemplated doing under the Murphy-Hearst deal."

I will refer also to one other statement made by Hearst. After stating that he employed him as the McClellan-Hearst election contest and made argument therein, he said the reason that prompted me to do it, and he did it because the corporations who employed him as their corporation attorney wanted him to do it and paid him to do it."

This statement about me, like many others of the same kind, have been brought to my attention, is wholly false. Neither I nor any member of my firm was employed by any corporation or paid by any corporation, without interest, a dollar for the services we rendered in that contest. We were retained by Mayor McClellan, but declined to receive from him or from anyone else, any compensation for our services. We rendered those services because we believed it to be a high public duty to prevent Hearst from depicting the majority of the people of the service of their duty elected candidate, George B. McClellan.

RUSSIAN EMPRESS A PRISONER ON HER YACHT

Copenhagen, Oct. 2.—The Dowager Empress of Russia has remained a prisoner on board her own yacht, the Polar Star, while in Danish waters. She has been confined to her quarters since she arrived in Copenhagen. The empress has been confined to her quarters since she arrived in Copenhagen. The empress has been confined to her quarters since she arrived in Copenhagen.

LIVELY HEAVYWEIGHT MILL AT LOS ANGELES

Pueblo Man Knocked Out by Tommy
Burns Who Claims Champs.

Los Angeles, Oct. 2.—Tommy Burns, claimant of the heavyweight championship, scored a decisive victory over Jimmy Flynn, of Pueblo tonight before the Pacific Athletic club, knocking Flynn out for ten minutes in the fifteenth round.

The battle was a terrific one from the start. Burns had Flynn almost out in the fourth round, the going being a knee-wrest in the first round. Burns sent the Colorado fighter down in the beginning of the fifteenth. He was up in a few seconds, but another to the same spot put him on his back. He rolled over and got to his feet as Referee Robinson counted ten. He was sent down again and then a few seconds later went to the canvas with out being struck. The referee forced him to rise and after feeling Burns sent in the punch which sent Flynn down and out. He lay on his back in the center of the ring for ten minutes. Burns injured Flynn's hand in the latter part of the mill and was forced to rely solely upon his right hand.

Burns fought a heady and shifty fight. Much of his effective work was done at close quarters.

TWO MEN KILLED; 18 INJURED IN CAR WRECK

Oklahoma City, Oct. 2.—A special to the Oklahoma from Muskogee, says F. R. Crow, a merchant of Muskogee, and an unidentified man were killed and eighteen persons injured tonight when a street car carrying twenty persons returning from the fair grounds jumped the track and was overturned, three of whom probably will die. The most seriously injured are Moses Nero and E. Cornett. Both are residents of Muskogee.

Norm Loss Placed at Million.
Mobile, Ala., Oct. 2.—Prominent insurance men estimate the storm loss here at \$1,000,000. The total loss of life will not exceed 100.

WORKMEN ATTACK PRISON

Petrograd, Oct. 2.—The political prison here was attacked today by a crowd of workmen bent upon delivering about one hundred prisoners who arrived yesterday. It took several volleys from the guards to route the angry crowd, which fought back with revolvers and stones.

TO RENEW ACTIVITY

Warsaw, Oct. 2.—The Associated Press was informed today that the executive committee of the socialists, at a meeting held yesterday decided upon an active resumption of terrorism.

WORKMEN ATTACK PRISON

Petrograd, Oct. 2.—The political prison here was attacked today by a crowd of workmen bent upon delivering about one hundred prisoners who arrived yesterday. It took several volleys from the guards to route the angry crowd, which fought back with revolvers and stones.

MOOREY QUIT CABINET IN DECEMBER

MUCH SPECULATION
AS TO HIS SUCCESSOR

Secretary Shaw Also Decides
to Leave President's Official
Family During the Coming
Winter.

Washington, Oct. 2.—Two retirements from the president's cabinet are slated for the coming winter. They are those of Attorney General Moody whose resignation will become effective about the first of December and that of Secretary of the Treasury Shaw, who, according to present intentions will retire in February. For one of the vacancies to be created the president will name to the cabinet Mr. Meyer, American ambassador to Russia, but for the other he is not yet ready to announce a successor. Mr. Roosevelt has sought to prevail upon Mr. Moody to remain in the cabinet, but the latter because of business arrangements has found it impossible to do so. He would also like to have Secretary Shaw remain, but the latter prefers the position at the head of the navy department with whose workings he has become thoroughly familiar. Some suggestions have been made that Secretary McCall of the department of commerce and labor take one of the positions to be made vacant in the proposed shifting of cabinet officers, but he also has expressed a preference to remain where he is.

NEWS OF THE MAIL SERVICE IN NEW MEXICO

New Postoffices Established in Rio Arriba and Quay Counties and Others Discontinued—Some New Star Routes.

The Morning Journal Bureau, 1229 Pennsylvania Ave., N. W., Washington, D. C., Oct. 2. Elias Gallegos has been commissioned postmaster at La Madera, Rio Arriba county. This is a newly established office.

A new postoffice has been established at Loyd, Quay county. John E. Erwin has been named postmaster.

The site of the postoffice at Gonzales, San Miguel county, has been changed to a point north of its present location.

The postoffice at Blumner, Rio Arriba county, has been discontinued. Mail should be sent to Vallecitos.

A new star route schedule has been established between Gallup and Kenesaw. Hereafter mails will leave Gallup daily except Sundays at 9:15 a. m. and arrive at Kenesaw by 10 a. m. leave Kenesaw daily except Sundays at 11:45 a. m. and arrive at Gallup by 1:15 p. m.

A new schedule has also been established on the star route between Bonito and Nogal. Mails will leave Bonito daily except Sundays at 9 a. m. and arrive at Nogal by 1 p. m. leave Nogal daily except Sundays on receipt of mail from Carizozo, but not later than 5 p. m. and arrive at Bonito in three hours.

A postoffice has been established at Bellevue, Gila county, Arizona, and also an office at Ray, Pinal county, Arizona.

The postoffice at Ruckel, Cochise county, Arizona, has been discontinued.

Volcanic Eruption in South Pacific. Tutuila, Oct. 2.—Samoa, Sept. 14, via San Francisco, Oct. 2.—The eruption of the volcano on the island of Savaii have been increasing and further destruction has been wrought. The lava streams are flowing from places which were thought to be safe and the forests are being moved down like wheat with a scythe.

Tennessee Cotton Crop Damaged. Nashville, Tenn., Oct. 2.—Irreparable damage is being done to the cotton and other crops of Tennessee by the incessant rains which have fallen during the past two weeks.

Eminent Doctors Praise its Ingredients. We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John E. Fife one of the Editorial Staff of The Eclectic Medical Review says of Unicorn root (Helonia) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator. It is the life-giving activity of the entire reproductive system. He continues in Helonia we have a medicinal which, when used in the proper manner, restores the system to its normal condition, and thus cures the disease which it is intended to cure. It is a tonic which does not present some indication for this remedial agent." Dr. Fife further says: "The following are the indications for Helonia (Unicorn root). Pain or aching in the back, with leucorrhea; stonic weakness of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhea (suppression) or absent monthly periods, arising from or accompanying an abnormal condition of the digestive organs and stonic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonia, and the medicinal properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions, and general debility, it is useful."

Prof. John M. Sander, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. Bartholomew, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

TRUBLE AT BOSTON

PRESIDENT'S SON TO
FACE GRAND JURY

Young Roosevelt With Several
Other Harvard Students
Charged With Assault on
Police Officer.

Boston, Oct. 2.—Theodore Roosevelt, Jr., and several of his fellow students at Harvard, together with two police officers, have been summoned before the Suffolk county grand jury for trial before that body for an assault upon an officer on Boston Common last Thursday evening. A summons for young Roosevelt was issued this afternoon and an officer sent to Cambridge to serve it. At the time of the assault young Roosevelt and several other Harvard students were questioned by the police, but afterward released. The next day Police Commissioner O'Meara issued a statement to the effect that the case would be more fully investigated. The son of the president, accompanied by his counsel, appeared before one of the judges of the municipal courts on Sunday and after an explanation of the episode the warrant was refused and it was thought the affair had been closed.

Roosevelt's Companion Arrested. Boston, Oct. 2.—Shawn Kelly, a companion of young Roosevelt, and president of the sophomore class of Harvard, was arrested tonight on a warrant charging an unknown person with an assault upon a police officer.

Rhode Island Democrats Meet Today.

Providence, R. I., Oct. 2.—The democratic state convention which will meet here tomorrow bids fair to be a quiet and harmonious gathering, with little or no prospect of a contest for the nomination.

GOVERNMENT REPORTS ON NEW MEXICO FARM LAND

Farm Real Estate Throughout the
Nation Shows Enormous Gain in
Value While New Mexico Values
Are Climbing Up.

Farm real estate in the United States has gained in value in such a degree since the census of 1900, according to a recent report of the secretary of agriculture, that an examination of the causes of this gain may be not only interesting, but instructive, to the economic student as well as to the practical agriculturist.

Inquiries addressed by the department to 45,000 state, county and township crop correspondents in the autumn of 1905 secured reports which, when properly tabulated, establish the conclusion that at this time, about five years after the census, the real estate of farms, medium in quality and equipment of buildings and improvements, has increased in value 25.5 per cent.

The reports made on New Mexico and Arizona lands follow:

Chaves county.—The land here is rapidly changing into fruit and alfalfa and the prices will hardly admit of general farming.

Doña Ana county.—Owing to the fact that we are well assured of the building of the El Paso route, and by the government, with a sufficient supply of water, land has advanced rapidly in value and is now selling at \$75 to \$100 per acre, with no houses, but in alfalfa. Owing to the ravages of the codling moth, fruit land has not advanced in price. Our principal crop is alfalfa, which is selling at \$11 per ton.

Lincoln county.—Lands of all descriptions in this section of the country are about the same as they were five years ago, due to the fact that for the past four years almost a failure has followed in every respect, and the old settlers say that before 1901 there was not a failure in twenty years. Only about 20 per cent of the land here is in alfalfa, and the remainder is in wheat, corn and other crops.

Rio Arriba county.—Land this year has risen from \$10 per acre, with no improvements, to \$200 with all improvements, the rise being due to a company which is making ditches and reservoirs to hold water.

Santa Fe county.—In the last five years we have more than doubled our farming population, and a railroad has been built through this county which has helped to increase farm values.

San Miguel county.—Immigrants coming into the territory and taking up practically all lands with live water for cattle have increased the price of land very materially. The dubious titles and old Spanish and Mexican grant lands are quite a setback to settlers, as most of the grants are not well defined, and therefore are owned by all those having proportionate titles thereto, but ignorant of where each particular share may be situated.

Socorro county.—The increase in price is due to the scarcity of cultivable lands and the increasing demand for the products of same.

Arizona. Cochise county.—The land is cultivation now has been cropped with the same variety of grain for the last fifteen or twenty years, and shows unmistakable signs of deterioration. Many settlers avail themselves of receiving scrip for their holdings, and accordingly the most of the land is reduced almost to the value of scrip. The market is very poor, owing to the high rates of the railroad company which operates in favor of California.

Graham county.—On account of the river's washing away so many farms and damaging the heads of canals last year the farms have fallen in price.

Maricopa county.—Farms in 1900 were selling for about \$20 an acre, the country being thinly settled and farms only partly improved; the water system was very unreliable and imperfect. We now have an irrigation system as good as any in the United States, our water facilities are almost unlimited, and farms are actually selling for \$65 an acre.

EDITOR GETS FRACTURED SKULL IN ARGUMENT

Independent Party in Southern
Colorado District Accused
of Plotting Against News-
paper Man's Life.

Alamosa, Colo., Oct. 2.—Clifton H. Wilder, editor of the Chronicle at La Jara, was perhaps fatally injured this afternoon by Jayson Cochran, postmaster of La Jara, who struck Wilder over the head with a slung shot, fracturing the skull. Wilder was placed aboard a train under the care of a physician and started for Denver at 3:30 o'clock for the purpose of having an operation performed to save his life. Wilder is the republican representative from Conejos and Archuleta counties and was discussing political affairs with Pink Daniels, leader of the Independent party, at the time Cochran attacked him. The argument had turned on certain charges made by Wilder in his newspaper against the Independents and had become heated when Cochran, who is McDaniels' son-in-law, slipped off behind Wilder and delivered the blow. News of the affair was sent to Wilder's brother, George Wilder, at Creede, and he came to Alamosa tonight and swore out a warrant for Cochran's arrest, but the latter, although still at La Jara, had not been apprehended at a late hour tonight. It is said that other warrants will be sworn to charging prominent Independents with conspiracy to kill Wilder. A report was in circulation tonight that a meeting had been held two weeks ago at which it was decided that Wilder must be made away with.

ARIZONA SHERIFF KILLS HIMSELF ACCIDENTALLY

Globe, Ariz., Oct. 2.—Shortly after 5 o'clock this afternoon, Ed. Shanley, sheriff of Gila county, was shot and almost instantly killed by a bullet from his own pistol, a 45 Colt. The theory is that the six shooter fell from his pocket and was accidentally discharged.

Eleven Hurt in Collision.

Murphyboro, Ill., Oct. 2.—A head-on collision occurred near here this afternoon between the passenger train on the St. Louis-Cairo line and the Illinois Central road, and eleven persons were injured, none fatally. The injured are nearly all residents of Missouri and Illinois.

Grandson of Napoleon sells Goods.

Paris, Oct. 2.—A grandson of Napoleon the Great, earns a modest living as a drummer in the south of France. He is the son of Count Bonaparte, a son of Napoleon by his second wife, Josephine. A beautiful woman with whom the emperor fell in love, she was a lady with a past, having been divorced from her husband, and then engaged as companion by Caroline Murat, at whose house she met the emperor.

Their son, Count Leon was born in 1804 at the house in the Rue de la Victoire, where Josephine had lived. The count, who strongly resembled his father, was provided for by a secret will made at St. Helena.

SUPERINTENDENTS MAY ALSO TEACH SCHOOL

Attorney General Gives Opinion to
Department of Education on Question
Raised in Several New Mexico
Counties.

In reply to a request for an opinion by the department of education of the territory, Attorney General Reid has given the following:

"Can a county superintendent be employed to teach school and draw public money for the same during his term of service as superintendent in the county in which he teaches?"

I am unable to find any law which would prohibit a county superintendent from also being employed to teach school. I find the office of county superintendent of schools and that of a teacher in said county to be incompatible in several instances, namely: that the county superintendent is for the pay of county teachers, drawn by at least two school directors and that while he is in his capacity as superintendent in certain matters superior to the school directors and in some cases may appoint a director to fill vacancies, yet in his capacity as teacher he is inferior and subject to their orders. He is also a member of the board of examiners of teachers, and his compatibility of employment, however, does not make one ineligible to office unless there is an express statutory or constitutional provision making it so, and as I find no such provisions in our laws I am of the opinion that a county superintendent may legally be employed as a teacher in the county during the term of his office.

W. C. REID, Attorney General.

Delegates to Mining Congress. Governor Hagerman has appointed the following delegates to the American Mining congress, which will meet in Denver, on October 16, and will be in session until October 19th: Professor Fayette A. Jones, Albuquerque; C. T. Brown, Professor Charles R. Keyes, and Professor R. P. Noble, Socorro; Captain Jack Crawford, of Chicago, (formerly of Santa Fe); H. Harland Case, of Las Cruces; Henry W. Edwards, of Silver City.

U. S. Land Commission. The United States land commission for New Mexico held a session Monday afternoon at 5 o'clock. There were present: Governor Hagerman, Surveyor General O. M. Llewellyn, and Land Commissioner A. A. Keen. The meeting was adjourned pending a further report by Mr. Keen. The meeting was upon the selection for the purposes of the commission of certain public lands in Colfax county and in the eastern part of Chavez county, where a portion of the range is yet to be surveyed. The status of these lands will be determined at the next meeting of the commission.

ATTEMPT MADE TO ROB LIBRARY IN LAS VEGAS

CARNEGIE BUILDING
TARGET FOR BURGLARS

San Miguel County Convention
Will Not Be Held Until
Week Before the Election.
Ticket Being Arranged.

Las Vegas, N. M., Oct. 2.—Some time during the night an attempt was made to burglarize the Carnegie public library. The librarian sleeps in the building. She heard a noise and investigated. She saw a man in the act of lowering the top sash of one of the tall windows. When he saw the librarian, he dropped to the ground and made off. The library building is located in the center of a park of considerable dimensions. The lady pluckily walked across the park to the nearest house and telephoned for the police. No trace of the would-be burglar could be found. This is the second attempt on the library that has been noted.

Chief Justice Mills returned tonight from the Raton court. No jury trials were held owing to the lack of money and few matters were considered in chambers.

The Las Vegas grand board at its meeting yesterday heard the claims of a considerable number of applicants for title on the grant, gave titles to seven or eight of the claimants and leased a thousand acres of land to Albino Xezes for five years.

County politics are warming up a little, but no convention will be held by the republicans until the week before the election. J. S. Duncan is slated to represent the council nominees of the republicans and the other one will go to either Don Eugenio Romero or his son, Secundino, the present district clerk. If Don Eugenio decides to be re-elected, he will give the council nominee to his son.

Should Don Eugenio, however, decide to forego the trusteeship, it will go to his son Cleofes, who is thought to be the best qualified man for the present office of sheriff. In this event M. A. Sena, the present probate clerk, will be the nominee for sheriff and Ignacio Lopez will run for probate clerk. Although A. Sena will make a right to land the nomination, E. H. Salazar, of El Independiente, has a cinch on the nomination for assessor. Superintendent Arthur Treford of the penitentiary is over today in pay a visit to the convicts who are at work on the scenic highway. Superintendent Treford expresses his satisfaction with the manner in which the work is being carried on. Fifteen convicts, all in civilian clothes, are at work on the road.

BASEBALL.

AMERICAN LEAGUE. St. Louis, Oct. 2.—Chicago beat St. Louis out again today 4 to 0. The series will conclude tomorrow with a double-header. The score: R. H. E. St. Louis . . . 0 0 0 0 0 0 0 0 4 1 Chicago . . . 1 1 0 2 0 0 0 0 0 0 0

Batteries—Glade and Spencer; Owen and Roth.

Pitcher Wins for Philadelphia. Philadelphia, Oct. 2.—Philadelphia defeated New York today through the effective pitching of Coombs. The score: R. H. E. New York . . . 0 0 0 0 0 0 0 0 3 6 Philadelphia . . . 1 1 0 1 0 0 0 0 1 4 1

Batteries—Chesbro, Doyle and Thomas; Coombs and Berry.

Detroit Easy for Cleveland. Cleveland, O., Oct. 2.—Cleveland easily defeated Detroit today, hitting Dutchie French. The score: R. H. E. Cleveland . . . 1 0 0 0 1 0 5 7 12 3 Detroit . . . 1 0 0 0 0 0 0 0 1 3 0

Batteries—Liebhart and Huelow; Devereaux and Paige.

Beaneaters Develop Singing Streak. Washington, Oct. 2.—Boston defeated Washington today 6 to 5, knocking Goodwin out of the box. Score: R. H. E. Washington . . . 0 0 1 3 1 0 0 0 6 1 1 Boston . . . 0 0 0 0 1 0 4 0 1 6 2

Batteries—Goodwin, Smith and Wakefield; Oberlin and Carrigan.

NATIONAL LEAGUE. Brooklyn, Oct. 2.—Whiting, Brooklyn's young pitcher, completely puzzled the Pittsburgh team this afternoon and shut them out. Score: R. H. E. Pittsburgh . . . 0 0 0 0 0 0 0 0 0 1 Brooklyn . . . 0 0 0 0 0 0 0 0 2 1

Batteries—Willis, Phelps and Gibson; Whiting and Ritter.

Darkness Ends Phenomenal Game. Boston, Oct. 2.—Darkness necessitated the calling off of today's game between Boston and Cincinnati, with the end of the twelfth inning with the score a tie. Score: R. H. E. Boston . . . 1 0 0 0 0 1 0 0 0 0 0 7 3 Cincinnati . . . 0 0 0 0 2 0 0 0 0 0 2 5 1

Batteries—Pfeiffer and O'Neil; Ewing and Schell.

"Incident" Is Not Closed. John Medford returned yesterday from the big fair at Albuquerque and a business trip to Santa Fe. He says that the hobby is a good one, and the Duke city has grown wonderfully since his last visit four years ago. He says that popular interest in the Bursum matter has in no wise abated, and that the course of Attorney General Reid is being watched with much eagerness. No popular significance is attached to the refusal of the grand jury to indict, at least by people who are familiar with New Mexico grand juries, and it is generally believed that the truth or the untruth of the whole charges will develop when the attorney general institutes civil suit to recover the money alleged to have been mislaid. With the matter directly before the courts in this shape, there is a general confidence that justice will be done.—Roswell Register-Tribune.

A Courageous Deed. Of course this poor little paper will have the guns of the corporations pouring their big shells into our camp, and while it is an orphan without visible means of support, yet if Judge Alsworth can manage to meet the payroll for a few weeks, we will pull some of the fat off the ankles in this meantime. The roar of these cursed jackals will be music in the ears of the people of Arizona.—Arizona National.

Continuous Performance. Nearly a score of lives were lost Sunday by accidents on the bay, rivers and lakes in the vicinity of New York. Ignorance of rowboat sailing and currents means heavy penalties in the way of life, but every summer the program of tragedy is repeated.

VETERAN SURVEYED UNION PACIFIC TO ALBUQUERQUE

SMYSER RETIRES FROM ACTIVE SANTA FE WORK

After Twenty-Seven Years of
Usefulness Old Timer Who
Worked in New Mexico in
Early Days Takes Rest.

W. G. Smyser, who has been connected with the engineering department of the Atchison, Topeka & Santa Fe railroad ever since March, 1879, or in round figures, seven years, has been assigned to handle special work, which arises from time to time, giving up the position of office engineer upon his own request.

Mr. Smyser was born in the historic town of Gettysburg, but in his early youth the family moved to Norristown, Pa.; his father being one of the district judges of the state. After graduating at the Pennsylvania college at Philadelphia, Mr. Smyser joined an engineering corps engaged in surveys in the Allegheny mountains for the Pennsylvania company. After a year's service he resigned to accept position of assistant engineer on the survey across the continent that was made in the interest of what was then the Union Pacific extending from Kansas City to Denver. The expedition organized at St. Louis, which was then the end of track, though the contractors, Shoemaker, Miller & Co., were at work as far west as Fort Hays.

General W. W. Wright was the engineer in charge and under his direction the survey was made to the Rio Grande. From that river to the Pacific Mr. J. I. Palmer, now of Colorado Springs, was in direct charge. The survey proper began at Fort Wallace, and terminated at Los Angeles, where a small Mexican town of about 7,000 people was then the end of the trail. Through a hostile Indian country and so a large soldier escort was always with the engineers.

From Fort Wallace the line surveyed was northwest to the valley of the Arkansas near old Fort Lyon. From the river two routes to the Rio Grande were surveyed, one via Raton Pass, Fort Union and Las Vegas, the other, the one which Mr. Smyser took part, crossing the Rockies at Sangre de Cristo pass, thence via Fort Garland to the Rio Grande at Conejos. Then, via Fort Union, the survey again took different routes, one following the thirty-second parallel, the route on which the Santa Fe is built from Santa Maria to Deming, and from Deming to the coast of the Southern Pacific. The other party retraced its steps up the river to Isleta and from that Indian pueblo made a survey along the thirty-third parallel, the line upon which the Santa Fe is built west from Albuquerque.

After reaching the Pacific, Mr. Smyser with General Rosecrans, Colonel Sedgwick and other friends, took steamer "Orizaba" to San Francisco. From that city he returned to New York via the Isthmus. Going direct to Washington he was then engaged with General Palmer until the adjournment of the company's annual meeting. In his efforts to secure a subsidy from congress all field work was suspended. So Mr. Smyser took a position with the Missouri and North American railroad on surveys from Bangor, Me., to St. Johns, N. B. Finding it no fun to work out of doors in midwinter in Maine Mr. Smyser resigned to accept a position on the railroad to be built from Leavenworth to Atchison. He had charge of the Atchison end. After getting the grade and bridges ready for the track, he was called to Leavenworth to take a position offered him by his old friend, General Wright, on the construction of the bridge across the Missouri river at Fort Leavenworth. Mr. Smyser was covering not only the bridge proper but the railroad and wagon road connections. At this time the Missouri river was spanned by but one bridge at Kansas City. Three other bridges were under construction, viz: for the old North Missouri Railroad company, now the Wabash, at St. Charles; at Leavenworth, and at Omaha. They were completed in the order named. The Leavenworth bridge differed from the St. Charles bridge by having longer spans and the substructure being cast iron cylinders filled with concrete instead of being all masonry.

Completing that work soundings and surveys were made for bridges at Atchison and Nebraska City, but neither these bridges were then built.

Mr. Smyser next took service with the Missouri, Kansas & Texas railroad at Sedalia, with which company he remained two years, leaving it to go with the Pittsburgh & Lake Erie. Upon the completion of that road he came to the Santa Fe, which at that time was in operation from the Missouri river to Pueblo and Trinidad with several branch lines in Kansas. The operated mileage was 1,051 miles. Now, excluding the coast and gulf lines, the mileage is 5,041.92 miles, exclusive of 200 miles of second track, all of which increases has been constructed since Mr. Smyser became connected with the engineering department. When the track reached Las Vegas the chief engineer's office was moved from Pueblo to that then new city, but in a year the move to Topeka was made and ever since Topeka has been his residence.

During the expedition across the plains Mr. Smyser met many of the celebrities, both army officials, scouts and others. Kit Carson was the commandant at Fort Garland, a beautifully located post just west of the Sangre de Cristo pass. At the party remained there several days. Mr. Smyser became well acquainted with that noted scout and with many heroes of the plains that were with Carson.

Mr. Smyser's experiences in the early days of the west were varied and now interesting to recall but rather tough at the time. Many times when the party was miles and weeks beyond the nearest white settlement and telegraph, when the only communication with civilization was by stage coach or freight train, liable at any moment to be attacked by Indians, he would gladly have made an exchange to good old Pennsylvania.

Evidences of Indian atrocities were frequently met with but the only actual encounter was on a bright, beautiful morning early in July at Fort Wallace. Then the Indians under Roman Nose and the renegade half-breed, Charlie Bent, made an attack

on the fort. After a sharp fight lasting three hours the Indians were repulsed but with the loss of a dozen soldiers killed and wounded.

Mr. Smyser has photographs of one of the troopers, a sergeant of the Seventh cavalry, which shows mutilations of the body almost inconceivable.

New Plan for Firemen.
The Santa Fe has recently adopted a new plan with reference to the promotion of firemen to the responsible position of engineer. The new system is what is known as the 990-day plan. Formerly it has been the plan to promote the men as their services were needed after they had served as firemen for three years. Under the new order the men are promoted only after they have served 990 days in actual work as fireman or engineer on switch engines. The new system has been favorably received by the men—Wichita Beacon.

Grand Canyon Work Complete.
A. H. Harrell has finished his \$10,000 contract for grading the new road to Rowe's point, at the Grand Canyon. The grades on this road have been reduced from 15 and 20 per cent to 6 per cent. It is probable that Mr. Harrell will use the men he had employed there on the Williams roundhouse and school building, thus insuring the early completion of the latter. The Italian rockmen are considered among the best in the territory. The septic tank and filter beds are fast nearing completion, the result being a great saving of water at the Canyon. The Cameron Tank company are the designers, while Mr. Harrell has the contract for the work. As a result, water is being used for stock raising, washing buggies, engine boilers, steam heat, etc.—Williams News.

Delay in New Harvey House.
There is little likelihood of the Williams Harvey house building and curing building being built this winter. The delay is caused on account of being unable to secure steel for reinforcement of the concrete. The concrete work, which is liable to freeze and spoil, building steel is scarce on account of the large amount being used in building at San Francisco and other points. The Williams building will be a handsome structure and will have thirty-six rooms. It is to be built 600 feet west of the present depot site on the north side of the track. Two new passenger tracks are to be built alongside, and the present main line and yards will be used exclusively for freight. The present freight house is to remain. The work will probably be rushed through in the spring.—Williams News.

Considerate of the Sick.
M. E. Birdsell, station agent at Leavenworth, accompanied by his wife, was in the city Wednesday, says the Silver City Enterprise. The railroad company is preparing to build a neat five-room cottage for the use of the station agent and his family, who are at present quartered in the depot building. The rooms in the depot at present occupied by the station agent and his family are to be turned into a waiting room and a room for sick soldiers in transit to and from Fort Bayard. This latter room is to be comfortably furnished with cots, chairs, etc., for the use of sick soldiers who have to wait at the station in going or coming from Fort Bayard, the nearest railway point to the post being Bayard station on the Santa Rita branch.

Mr. Birdsell says the general merchandise store at Leavenworth, which is in charge of his father, is doing a big business and that owing to the increasing demands being made upon the store, a larger building will have to be built immediately to provide room for a more complete stock of goods.

Laugh and the World
will look at your teeth, and quickly judge whether or not you keep them in good condition. Let Dr. Williams, over Mandell's, on Railroad ave., examine and care for them. He's an expert in all branches of dental surgery.

ANOTHER SANTA FE TRAIN SMASHES THE RECORD

Run From Dodge City to Kansas City Made at an Average Speed of 57 Miles an Hour.

A record run was made from Dodge City to Kansas City last week on the Atchison, Topeka & Santa Fe railroad, the special train consisting of engine, baggage and chair cars.

The special train was hired by a Mr. W. S. Douthett, who was a transcontinental passenger on train No. 2 that morning. Mr. Douthett reached Kansas City in time to attend a meeting which was held too early in the afternoon for him to have reached it had he remained a passenger on the train No. 2 which was scheduled to reach Kansas City at 4:30.

The matter was important enough for Mr. Douthett, to hire a special train for the distance of 268 1/2 miles, and which cost him approximately \$200.

The run was made at an average rate of speed of fifty-seven miles per hour for the entire distance.

Leaving Dodge City at 5:55 o'clock in the morning, Mr. Douthett's train, pulled from the train in the Union station at Kansas City at exactly one minute past 1 o'clock.

The time consumed in making the trip was 5 hours and 15 minutes, which made an average of 52.1 miles per hour, not counting out the time consumed in stops.

Five minutes were lost at Spearville and 15 minutes at Sterling for the same reason. Mr. Douthett at Hutchinson for lunch; 2 1/2 minutes at Newton to change engines; 2 minutes delay at Emporia, and 2 1/2 minutes at Topeka to change engines, making a total of 21 minutes lost time.

The entire time consumed on the trip being 7 hours and 6 minutes, and 31 minutes being taken out for delays, makes the actual running time 8 hours and 35 minutes, or an average of 57 miles an hour on the whole trip.

From Holiday to Kansas City the distance is 12.2 miles and the run was made in 15 minutes, which included the run through the Kansas City terminals, and switching yards into the Union station.

The engines used in hauling the Santa Fe fast mail train were used in hauling the special engine 1412 being used Dodge City to Newton; engine 0147 Newton to Topeka and engine 0146 Topeka to Kansas City.

The fastest regularly scheduled train on the Santa Fe between these points is the California Limited, No. 4. It requires 9 hours and 4 minutes to make the trip from Dodge City to Kansas City.

The fastest regularly scheduled train on the Santa Fe between these points is the California Limited, No. 4. It requires 9 hours and 4 minutes to make the trip from Dodge City to Kansas City.

Engineer Deveraux and Conductor Robinson were in charge of the train from Dodge City to Newton; Conductor Charles A. Munter from Newton to Topeka; Engineer J. Snyder

from Newton to Topeka and Engineer Evan Thomas from Topeka to Kansas City.

New Buildings for Prescott.
That Prescott is soon to become the possessor of one of the most pretentious passenger depots ever constructed in a city of twice its size in the western country, and that the management of the Santa Fe, Prescott & Phoenix railway realizes the strides this city has made in population and prosperity by the improvements planned by that company, is now a fact, and freight operations have been transferred to it to allow the tearing down of the old platform, on the site of which the new freight office building will be at once erected.

The new freight platform has a cement foundation and floor, and is covered with a patented roof. All of the work connected with it is of a first class character and of a modern architecture.

SOUTHERN PACIFIC MAY WIN SALTON FIGHT

Reports from Yuma indicate that the great battle being waged between the Southern Pacific and the Colorado river is turning in favor of the Southern Pacific. Carrying out plans formulated by Colonel Epes Randolph the work has progressed far enough to indicate that unless the unforeseen should occur success will attend the efforts and the Colorado and the Salton sea will no longer need to be feared by the Southern Pacific or by the ranchers living in that vicinity.

The work is being rushed with feverish haste. It is under the general direction of H. T. Cory, who was for a time assistant to Colonel Randolph in this city. Night and day shifts are being worked at the Mexican lake, and not a single hour of the day is wasted.

A trestle has been constructed, spanning the intake, and upon this trestles of rock, gravel and clay are being dumped, and the willow mat which forms the foundation for the dam that will stop the inflow of the troublesome river.

Three large engines have been added to the motive power of the temporary road out from Yuma and forty-four cars of material are now being hauled where formerly there were but eight. There are three trains of twelve cars each and two trains of four cars.

The work of loading the cars has been aided by the addition of an extra steam shovel. There are now three steam shovels at work taking out material for constructing the dam.

THE ECONOMIST

Albuquerque's Brightest and Best Store

THE DARTLIGHT STORE

THIS ADVERTISEMENT HAS A MISSION TO PERFORM—TO BRING PEOPLE TO THE STORE. IF IT IS LESS SENSATIONAL THAN MANY CONTEMPORANEOUS ANNOUNCEMENTS, IT IS BECAUSE THIS STORE IS ALWAYS ANXIOUS TO GIVE MORE THAN IT PROMISES. THE ILLUSTRATIONS AND QUOTATIONS FURNISHED BY THE ECONOMIST MILLINERY ARE NOT ONE PAGE OF AN ELABORATE CATALOG. WE BELIEVE WE HAVE THE BEST STORE OF ITS KIND IN THE WEST, BUT WITH SO MANY MAKING SIMILAR CLAIMS THERE IS LITTLE LEFT FOR THE BUYER BUT A PERSONAL INVESTIGATION, AND THIS WE STRENUOUSLY ADVISE. INVESTIGATE BEFORE YOU BUY.

Underwear

FOR THE WHOLE FAMILY

A complete line of thoroughly well made and reliable knit underwear in light, medium and heavy weight fabrics, in all the prevailing styles for boys, women and children. ECONOMIST MILLINERY

FOR AUTUMN..

TRIMMED MILLINERY FOR FALL

We have prepared a very special offering of Inexpensive Millinery—this collection is one that will gain the unqualified approval of women desiring artistic creations at moderate prices. A splendid line of models are shown, hats of tasteful refinement that reveal the conceptions of the true artist. This display is far from being an ordinary one, for the reason that instead of there being numerous duplicates of each model, there is but a single hat of a style, insuring to you as much distinctiveness as though it were an imported pattern. This is an unusually attractive feature and well worthy of your attention.

Prominent among these ideal creations are charming new Street and Walking Hats of every fashionable mode, bent up pleated and close little turbans, new mushroom shapes and Peter Pan effects that are very authoritative in their styles—trimmings are ribbons, velvets, bretons, and other effects far too rich for a meagre description—newest of shades, greens, blues, grays, leather colors, as well as black. But one of a style and all clever models. Priced at \$15.00, \$12.50, \$10.00, \$7.50, \$5.00

GLOVE NEWS

Short sleeves and long gloves have come to stay. Never in the history of fashion has there been a style so popular. It has put the great glove manufacturers of the world at their wits ends to supply the enormous demand. We were very fortunate in placing import orders early so that we are in a position to meet the demands of our patrons in quality, style, color and price.

20-button length Mosquitair Glove, black and white, \$6.50
20-button length Mosquitair Glove, black or white, \$4.50
16-button length Mosquitair Glove, black or white, \$4.00
16-button length Mosquitair Glove, black or white, \$3.50

In the regular short kid gloves, 2 and 3-clasp overseas and pique we were never better provided for our patrons' wants. Everything that goes to make a complete department will be found here. Here are some of the names and prices:
Specials 2-clasp, Paris point French kid gloves, \$2.00
La Tour 2-clasp, embroidered back, kid gloves, \$4.50
Lurelle 2-clasp, embroidered back, kid gloves, \$4.25
Polaris 2-clasp, embroidered back, kid gloves, \$4.00
Kathryn 2-clasp, silk lined moccasins, kid gloves, \$4.75
Metrose 1-clasp overseas cape glove, \$1.25
Metrose 2-clasp gloves, \$1.50
Elina 2-clasp Misses' kid gloves, \$1.00
Dent 1-clasp child's kid gloves, \$1.25

EVERY PAIR OF KID GLOVES FITTED BY EXPERT FITTERS AND GUARANTEED.

Ladies' Roller Skates, that can be adjusted to fit any size foot, reduced to \$1.00 a pair to close out the balance we have on hand.

DEMOCRATS OPEN UP SEEK TO DIVIDE THE NEGRESS STEALS A HEADQUARTERS IN ALBUQUERQUE

TWO ROOMS SECURED IN THE GRANT BUILDING

Chairman Jones and Secretary Walton on the Ground and Ready to Begin Active Campaign.

That the democrats propose to make an active campaign in New Mexico this fall for the election of their candidate for delegate to congress, Mr. Larranza, is becoming evident. Yesterday morning Secretary W. E. Walton of the democratic committee arrived from Silver City accompanied by his stenographer, while Chairman A. A. Jones arrived last night from Las Vegas.

Rooms 10 and 18 in the Grant building, corner of Railroad avenue and Third street, have been secured and were furnished yesterday, and work will begin at once. Mr. Larranza, who has already begun his speaking campaign, will be here in a few days to meet the officers and executive committee to arrange further details of the campaign.

SAYS EASTERNERS KNOW LITTLE OF NEW MEXICO

R. W. Hadden Declares They Would Grab at Our Mines if They Knew Anything of the Values.

R. W. Hadden, a well known young promoter, who is interested in mining in southern New Mexico and who makes his headquarters in Albuquerque, returned here yesterday from New York where he had been on business for several months. Mr. Hadden predicts a great boom in New Mexico mines before very long. "I have been for some time in the new zinc fields of Wisconsin," said Mr. Hadden yesterday. "The values carried by those mines are greatly over-rated and they do not compare with the values of the zinc mines in New Mexico. People in the east have no idea at all of the value of our mines here. Some day they will wake up to it all and then there will be a boom in mining in this territory."

ED. BUTLER INTERESTED IN NEW MEXICO MINES

Former St. Louis Politician in Silver City District With Party of Friends Who Have Become Owners of Valuable Properties—Accident to Horseman.

Correspondence Morning Journal, Denning, N. M., Oct. 1.—Colonel Ed. Butler and wife, Colonel and Mrs. L. O. Lane, W. S. Haynes, and P. G. Linchey, all of St. Louis, were here last week on their way east from Silver City. Colonel Butler, who was formerly connected with politics in St. Louis, has become extensively interested in New Mexico mining properties, most of which are in the Silver City district. L. J. Bishop, holder of a claim near the Faywood Hot Springs, received a broken leg last week when a horse fell with him, catching the leg between ground and saddle. He was brought here for surgical attention, and is out of danger.

R. C. Ward, one of the old-timers of Denning, and a man highly respected by all who knew him, died here yesterday after a lingering illness of several weeks. Too Soon to Holler. It seems that some of the newspapers of the territory have fallen into the error of supposing that the late grand jury in this county exonerated Mr. Bursum of any wrong in connection with the management of the penitentiary. This last grand jury simply failed to indict Mr. Bursum as many grand juries have failed to indict individuals who have been subsequently indicted for the same matters by the grand juries. The failure to indict proves nothing except that there were enough of the grand jury opposed to indictment to prevent an indictment being returned by that grand jury. With about half of a grand jury in favor of returning an indictment, it would seem that Mr. Bursum might yet be indicted. It seems to us that we have heard that it is not in good form to holler until one is safely out of the woods.—Santa Fe Eagle.

TAKE IT IN TIME

Just as Scores of Albuquerque People Have.

Waiting doesn't pay. If you neglect the aching back, urinary troubles, diabetes, sorely follow. Doan's Kidney Pills relieve backache. Cure every kidney ill. Albuquerque citizens endorse them. Mrs. M. J. Butler, residence 717 East street, says: "When I went to the drug store for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence." For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

PETITION PRESENTED TO THE COUNTY COMMISSION YESTERDAY—NO MORE RECKLESS BUYING ALLOWED.

At a meeting of the board of county commissioners held yesterday morning with all members present, M. E. Hickey appeared before the county board with a petition for the division of the precinct known as Old Albuquerque, and numbered 13. This precinct which includes the old town of Albuquerque, extends around the north end of the city, taking in the American Lumber company. The petition was filed for further consideration.

The commissioners gave the entire morning to auditing and approving or rejecting bills against the county and finally took a recess until 1 o'clock this morning.

The board yesterday passed a resolution that in future all articles brought by county officials in the court house must first have a voucher signed by Chairman Grunfeld or County Clerk Walker before funds would be allowed for such purchases, or the accounts recognized by the board.

SANTA FE EMPLOYEES IN SAN BERNARDINO SORE

Demand That City Council Repeal an Ordinance Charging the Vegetable Men a High License for Doing Business—Much Indignation Said to Exist.

A mass meeting of the Santa Fe shopmen of San Bernardino was held Saturday, at the noon hour, at the machine shop, there being several hundred of the workmen present. Read hot resolutions were passed opposing the passage by the city council of the proposed ordinance governing the peddling of fruit and vegetables, as asked by the Merchants' Protective association.

The shopmen, from the time the ordinance was introduced, two weeks ago, have shown great interest in the proposed license and almost to a man have arrayed themselves in opposition to it.

Whether the opposition of the shopmen and their citizens to the proposed change and increase in the license, grows out of a misconception of it and its purposes is not clear. The members of the Merchants' association state that they are willing to have the council pass a resolution rebating the amount of the license to any farmer who wishes to peddle his own produce.

THE RESOLUTIONS.

The resolutions adopted by the shopmen at the mass meeting follow:

Whereas, Much discussion has grown out of the ordinance proposed to the city council by the Merchants' Protective association;

Whereas, We honestly believe that such ordinance, if passed, will greatly injure the public as well as the ranchers and vegetable peddlers, and

Whereas, The only products the public can get at reasonable prices are to be had from the peddlers, therefore be it

Resolved, That the city council be petitioned to look into all phases of this question before passing such an ordinance, and be it further

Resolved, That such an ordinance is inconsistent with the spirit of the United States constitution and all of the laws and institutions growing out of it. And be it further

Resolved, That the Merchants' association exhibit a spirit of greed and avarice. They show plainly that they wish to control all commodities, buy from the producers at their (merchants') own prices and sell to the customers at their (merchants') prices. And be it further

Resolved, That such action can only be interpreted by thinking people as a move to stifle competition, and is really a conspiracy for the restraint of trade. And be it further

Resolved, That when the Merchants' association, or any of them, fails to do business upon merit, fails to give to the public some slight worth for their money, they should go out of business. They have no right to ask a law-making body to protect their business at the expense of others. And be it further

Resolved, That when any community of American citizens will allow such encroachments upon their inalienable rights and liberties, they are no longer worthy of the name.

AGED MAN DIES AS RESULT OF RUNAWAY

Pioneer of Torrance County Meets Death as Result of Ugly Accident Near Estancia Last Saturday.

Internal injuries as the result of a runaway, caused the death Sunday morning of Erastus M. Phillips, father of S. S. Phillips, deputy sheriff of Torrance county, at the family home in Estancia. The runaway occurred Saturday.

The aged man was driving a horse hitched to a light spring wagon and the animal took fright and started to run. It is not known what started the horse. Mr. Phillips held to the reins and tried to stop the animal, but was unable to do so and was finally thrown from the wagon to the ground. He was removed to his home and a physician summoned. He did not lose consciousness but suffered severely from internal injuries. At 4 o'clock Sunday morning his wife, who had been caring for him, asked him how he felt and he told her that he was resting much easier and advised her to secure a little sleep. She lay down in the adjoining room but an hour later, again went to the bedside only to find her husband dead. The deceased was 75 years of age and a pioneer in the Estancia valley. He left besides a widow, three sons and two daughters.

AS A MATTER OF COURSE.

Kentucky seems to take it as a matter of course that there should be bands of armed men constantly in her mountains shooting each other down, without the intervention of the law. If Kentucky can stand it the rest of the South will be worse along as best it can.—Philadelphia Press.

If you need a carpenter telephone Hensel. Auto Phone 556.

MULTIPLICITY OF OFFENSES ARE CHARGED AGAINST LOLA HINES BY THE POLICE—WOMAN HELD TO GRAND JURY.

Lola Hines, a negro woman, who according to the police is addicted to "hop," morphine, cigarettes, booze and theft, is in the city jail on a charge of larceny, awaiting examination by the grand jury now in session.

The woman was arrested Monday when the theft of clothes, bric-a-brac and small household articles to the value of more than \$125, was discovered by Mrs. W. A. McCloskey, of 407 North Fifth street, at whose home the woman had been employed. A search of the room occupied by the Hines woman brought to light, clothes, kitchen utensils, silverware and pretty much everything else that could be carried away unnoticed. All of them being identified by Mrs. McCloskey as property. At first the woman refused to acknowledge the thefts, but after a day in jail she began to ask for morphine, cigarettes and other little delicacies and finally, receiving a high nervous condition, acknowledged that the goods were concealed in her trunk. She will be examined by the grand jury today.

DECLARE SANCHEZ WAS DOPED IN SANTA FE

Mora County Politician Said To Be Slowly Dying in Insane Asylum at Las Vegas.

Cristobal Sanchez, the Mora county politician, who represented his county in the lower house of the New Mexico legislature in 1903 and 1905, and who was taken to the territorial asylum for the insane a few months ago, is reported to be slowly dying in that institution.

His friends claim that the cause of his unfortunate condition is from being doped while in Santa Fe as a member of the legislature about two years ago. Previous to becoming doped he had announced himself as a candidate for the upper house of the legislature to his friends.—Springer Stockman.

HANDSOMEST PIANO EVER BROUGHT TO ALBUQUERQUE

Magnificent Bush & Lane Instrument Attracts Attention and Enthusiasm of Admirers of Judges of the Piano—A Marvel of Tone and Finish.

Learnard & Lindemann, music dealers on West Gold avenue, yesterday placed on the floor of their sales room one of the handsomest pianos, if not the handsomest, ever brought to Albuquerque. The instrument is manufactured by the Bush & Lane company of Chicago, and is an upright, in a case of solid walnut with walnut carvings of exceptional beauty. It is known as the new style "20" Pompeian and is a marvel of elegance in appearance. The beauty of the instrument drew the notice of several judges of the piano yesterday and several of them used the instrument, showing it to be a masterpiece in tonal construction. The piano has seven and a half octaves, with the newest double repeating action, rendering the touch light and perfect, the third pedal, and all of the latest attachments of the perfect modern instrument. The piano stands four feet and ten inches high and five feet and six inches long, and in its broad sweeping lines, and rich carving, makes a most favorable impression. The firm making this instrument has reached almost perfection in the building of pianos and this last sample of their work is the most generally pleasing instrument ever shown here.

THE LIGHT OF OTHER DAYS.

The science and the lantern were in general use throughout the Middle Ages. The science was a light, conveyed and guarded from the wind, lifted by the handle and distinct from the lantern and serving somewhat the same purpose, but hung by a chain.

Lanterns, in the thirteenth century were made of gold, silver, copper or iron, according to the means of the owner. The light in the lantern was shielded from the wind by thin sheets of horn. Lantern making was an important industry in Paris.

Noblemen and rich merchants took to having luxurious little traveling equipments made for them, and among these were traveling candlesticks and wash basins in fine enamelled work the secret of which is now lost. The custom of having servants carry lanterns at festivals also became general about this time, and a strange and tragic incident is connected with this fashion. At a ball given by Charles VI. the torches carried by some careless servants came too near the headresses of certain persons dressed as savages and set them on fire. The unfortunate guests were burned to death, and the king, at the sight, lost his reason, a madness which had a serious effect on the history of France.

Magic lanterns were invented at the time of King Francis I. A device on a somewhat similar plan was used as a sign before shop doors to attract customers.

Lamps fell into disfavor at the beginning of the seventeenth century, and were only used by the poor and in passages and stables where the smoke could evaporate and a great deal of light was needed. Candles then reached their perfection, and candlesticks their most exquisite form, a candlestick of crystal given by Louis XIV to La Valliere is still in existence and it was at this time, also, that the crystal pendants came into fashion.

Street illumination was not seriously attempted in Paris until the middle of the seventeenth century. In years of that notable century the streets of Paris were dark. The rich

were escorted by lackeys, bearing torches, the middle class folks picked their way, lantern in hand, while the poor slid along, feeling their way by the walls. In his edition of September, 1667, the king provided that candles inclosed in a case of glass should be hung by cords at the height of the first story of the house, three lanterns for every street, one at each end and one in the middle. At the sound of a bell, struck by a watchman, they were lighted.

Paris was, however, considerably in advance of other cities of the world at this time. In London boys stood about in public places calling out in lugubrious tones: "Gentlemen, a light!"

The origin of the phrase, "holding a candle to you," is some what doubtful, but some authorities trace it to the fact that as the small light stood and had not yet been devised, anyone who desired to read in bed had to have a servant stand beside him to hold his candle. One cannot imagine that reading in bed under these circumstances would be very enjoyable, certainly not to one who has been accustomed to solitude and a gas jet easily turned on or off, but there is everything in habit.—Gas Logic.

You fellows who pay your good money for clothes, ought to get good clothes for your money. But you won't if you're not careful where you go for them, and what you buy when you get there.

You'll find lots of cheap "mercerized cotton" goods offered for sale. Some of this clothing looks very good—in the window; some of it has style and goes under a good name; but it wears like cotton. It costs less than all-wool and is usually worth less than it costs.

We sell Hart, Shaffner & Marx clothes because they're all-wool; because we know they are; because you can depend on it. You know what you're getting when you get the Hart, Shaffner & Marx label.

There's no fooling with quality in these goods; no cotton adulteration cunningly hidden, to cheapen them, without your knowledge. We offer you honest clothes.

Hart Shaffner & Marx suits, \$15 to \$30.

ALBUQUERQUE NEW MEXICO

WEDNESDAY MORNING, OCTOBER 3, 1906.

The Paramount Issue

AT THE election which occurs on the 6th of next month, the people of Bernalillo county could not effect by the weight of one hair any question of national policy, though they might vote as one man. They could not bring to bear the veriest ghost of influence in the national congress upon any measure in which they are interested by voting unanimously upon either side, or for any ticket. Hence it would mean a lack of good judgment and a sheer waste of strength and energy for them to become excited and divided over issues upon which they cannot possibly exert any more influence than they can have over the movements of the planets. But there is an issue upon which they can wield a very decided influence—an issue which is absolutely in their own hands, and to be decided in their own way, and this is an issue of far more importance to them, because it is fraught with far more influence for good or ill upon all their personal interests, than any measure that has been or will be before the national congress or the national administration. We refer to the issue involved in the simple question which now confronts us, "Shall the Hubbells be called back to power in this country?"

In view of the hardships, the outrages, the robberies and acts of tyranny and oppression which the people of this county suffered at the hands of this gang for eight long and bitter years, it seems hardly conceivable that the same people would be willing to go back into the same pit from which they have so recently been digged, and we feel that an apology is due from us to their common sense, their common decency and their common manhood, for assuming that it is within the limits of the possible for any combination of circumstances to induce them to do so. But it must not be forgotten that the leader of the gang is the shrewdest and most unscrupulous politician in New Mexico, and uses at his own sweet will a number of quite prominent citizens of this county who would resent with indignation the mere intimation that they were being made tools of by anyone, and yet the former boss, who is now engaged in a life and death struggle to recover his fallen scepter, uses them just as so many pawns upon his chess board, and puts them wherever they will serve him best in his efforts to deceive the people, and accomplish the one end he has in view.

For these reasons it is necessary for every man who desires to see any form of free government maintained in this county, to put aside for the time being all other considerations, and devote his best efforts to the one and only end of counteracting the desperate schemes of this nefarious influence. As we have said before, there is no time to stop and bicker about how the furniture will be arranged when the house is afire; let everyone first devote his best efforts to the all important work of putting out the fire, and we can then divide and differ about minor matters afterwards.

Prosperous New Mexico

DELEGATES from every part of the territory brought enthusiastic reports of prosperous conditions, the establishment of important enterprises and an influx of people.—Las Vegas Optic.

The experience of Albuquerque during the week of the territorial fair was just the same. The fair, together with the several conventions held here during that week attracted to this place visitors from every nook and corner of the territory. The fact that the trolley line leading to the fair grounds collected over 50,000 fares during the week, will give a tolerably correct idea of the people who were here, and the optic item which we copy above gives in condensed form, a correct statement of the report made by everyone regarding the conditions existing in his own county or vicinity. The people are forehanded, the territory is progressing, our natural resources are being developed, more immigrants are coming in and more public land is being taken up by actual settlers than ever before in the history of New Mexico. It is not necessary to enlarge upon these facts. They tell their own story, as well as it could be told in volumes of words, and they impress upon the people of Albuquerque, with especial emphasis, the importance of doing everything in our power to bring about the creation or extension of lines of communication, in all directions, to give the business men of the metropolis direct connection with the valuable trade which is growing up about them on every hand. New Mexico is prospering in all quarters and all lines of industry as she never prospered before. That is the fact which these reports establish; and the lesson which this fact teaches is, that Albuquerque must bestir herself to secure or provide more and better facilities for reaching the valuable trade which this prosperity signifies.

ALTHOUGH the campaign text book issued by the democrats of Missouri is of very recent date, it is so far behind the times that it contains no reference to Colonel Bryan's government ownership panacea.—Globe-Democrat.

Lower Rates Pay Better

IN SUPPORT of the contention that the railway companies make money by reducing their rates for carrying passengers, the New York World calls attention to the fact that when the New Haven Railroad company reduced its passenger rate to 2 cents a mile the officials estimated that there would be a loss of \$700,000 a year in gross receipts, but now the figures show that the reduced rate, which affects nine-tenths of the system and has been in operation several months has brought instead of the predicted reduction an increase in gross earnings. Lower fares have given the company enough new business to more than make good the lessened profit on each fare.

When the Michigan Central charter was repealed and a 2-cent rate was fixed by the legislature the company brought suit against the state of Michigan for \$5,000,000. By the time the case got before the courts the receipts already showed a large increase in passenger earnings. Instead of losing by the repeal of a charter which gave it the right to charge 3 cents a mile the Michigan Central had actually benefitted.

The recent reductions in fare on the Pennsylvania were made in a confident business belief that there would be more profit for the company in carrying people for less money. Other companies are planning similar reductions.

The next five years, the World predicts, will witness unprecedented reductions in passenger fares. Railroad managers are coming to understand the simple scientific principle that there is more money in doing a large business with a small margin of profit on each transaction than in doing a small business with a large margin of profit on each transaction.

A NUMBER of foreign politicians refuse to understand why so big a country as this should be a peacemaker instead of a trouble maker.

APOLOGIES UNDERSTOOD.

"Mother, may I go out to fly?"
"Yes, my daughter fair."
But be sure to stay upon the ground.
And don't go near the air."
—New York World.

"Mother, may I go out to eat?"
"Yes, if you'll be good."
Order the bill of fare complete.
But don't you touch the food!"
—Chicago Tribune.

"Mother, may I go out to flirt?"
"Yes, my darling Jon;
Stay out till midnight if you like,
But don't you touch the men."
—Somerville Journal.

"Mother, may Joe give me a kiss
If he his moustache clips?"
"Yes, my dearest daughter, Bess,
But don't you touch his lips."
—Yonkers Statesman.

"Mother, may I go out to speed?"
"Yes, my darling daughter;
But don't go near the hubbels cart
And don't get in an auto."
—San Antonio Express.

"O mother may I go out to skate?"
"With all the other scholars?"
"Why sure, my child, but shun the rink,
And don't go near the rollers."
—

The closed season on the straw hat and the peek-a-boo hat has begun.

The Twilight Tantrum stops while it is resting to use its little hammer again.

With Taft in the limelight it goes without saying that the other fellows are in eclipse.

Taft has telegraphed to the president to rush a fleet of transports with some more thin clothes.

The Houston Post announces with a grin that the saloon has become a Carrie National issue.

Taft is telling Cuba the same thing we used to hear when we received the paternal spanking. "This hurts me worse than it does you."

President Cassa of the Pennsylvania has the whooping cough. It was probably Mr. Harriman's purchase of the B. and O.

After handling many late females who wished to see the president Wyoming bears should seem pretty time propositions to Secretary Loeb.

According to dispatches from Wilmington, Delaware, Jack Frost has been locked up in that town. This ought to help some of the late crops.

It is said that Senator Pettus walks three miles before breakfast every morning. That is nothing. Bryan talks sometimes four and five hours before breakfast.

The Cubans have filled him with disgust, is a remark attributed to Taft, from which it is inferred the Cubans had a pretty big supply of that commodity on hand.

Fashion Notes.
(Gathered from the Evening Citizen's Special Correspondents in Europe, Asia, Africa, the Gulf of Gambia, Turkistan, Van Diemen's Land, Cote-d'Ivoire, Punjab, Swat, New South Wales, Dogtown, Fiji Islands and Shelbyville, Ky.)

The pretty "Slavic shirt" is one of the season's favorites.

Vokes will be worn this fall at least in the Evening Citizen office. They will be cut as biased as possible in a Slavic.

It is likely that the Common Geese will take a number of box plows in the Hubbell combination in a short time when the county election is held.

It is likely that men's suits will be largely worn in the near future, in striped effects a la Santa Fe if the present Hubbell methods are followed out.

The taxpayers' money will be gracefully tucked in the rear pocket of Frank and Tom if the taxpayer doesn't happen to wake up and get busy this fall.

Puff sleeves are in vogue among the members of the Upper Ten so that there may be plenty of room for laughter in one's sleeve at the antics of the gang or the Twelfth Square.

High collars are expected to come into fashion when the gang's hair rises up on end. Large square toad shoes are to be worn almost exclusively by the members of the gang, and kick Francisco and Tomas out of the county and it is likely that the latter will wear trousers with neatly padded seats for the same reason.

Gags will be prominent this season and can be worn to advantage by old and young alike. The one which appears to have the preference is a handsome silk affair which covers the mouth completely, is draped gracefully over the left ear and under the right and tied in a simple little knot just at the top of the medulla oblongata.

One of the favorites this season will be the Hubbell collar cut a la Childers. It will be worn almost exclusively by the members of the gang, and the Evening Citizen has quite a number which can be secured at that office. One of the favorite materials will be cashmere. These beautiful creations can be seen any day of the week worn by Little Willard, and other leaders of local fashion.

Time to Get Busy.

It is hinted that the corporations have vowed that the next legislature shall repeal the law creating the territorial board of equalization. If this report be true, then it is of the first importance that the selection of candidates for the coming legislature should be made with scrutinizing diligence.—Tucson Star.

A regular monthly business meeting of St. John's guild will be held at the residence of Mrs. A. A. Keen Wednesday afternoon at half-past two. Business of importance. All members urged to be present.

NAILLESS FOOTWEAR ONE OF INVENTIONS OF THE AGE

Long Suffering Equine Now Enabled to Go Farefoot Whenever He Wants—Discovered by Village Blacksmith.

Rocky Ford, Colo., Oct. 2.—"Come, Prince, it is time for you to go to bed. Take off your shoes and turn in."

That expression would sound out of the ordinary if addressed to a horse; but it is just what this inventive age is bringing us to. The plain, hard-working village blacksmith at Rocky Ford has made it possible for the equine family to "take off their shoes and turn in." This blacksmith, whose name is Charles W. Crannell, has invented a nailless horseshoe that may be adjusted and removed at will. There is none of the hammering and clenching and driving of sharp nails into the hoof of the animal. All of this has been done away with by the employment of a simple little lamp, that is neither burdensome nor damaging to the foot.

Until he struck upon the idea of a nailless horseshoe, this plain village blacksmith was unknown to the outside world. Now he bids fair to be classed with Edison, except that his inventive mind runs in an entirely different direction. He is a wizard in the manipulation of iron, his brain has worked out no less than a dozen inventions that have benefited the world; but his name was never heard of beyond the village of Rocky Ford, except to men who knew his ingenuity and watched for his product that they might gobble up his inventions and become rich from the efforts of his brain.

Crannell invented the detachable horseshoe calk. He sold the patent for a small consideration.

He patented a weight calk that is being used today by thousands of horse track men. He realized but little on this.

One of his best inventions was an automatic suction pump, used for drawing water from deep wells. It is said of this pump that it came near drawing the underground channels in Kansas dry before it could be stopped. The pump is also used in draining deep mines. He realized but little on this invention.

For years he worked upon the idea of a nailless horseshoe. Every time he drove a dangerous-looking nail into the tender foot of a horse, his nature rebelled against the cruel practice. At last the solution flashed upon his mind in an instant. He made a model, and placed it upon a horse. It pleased the inventor. The horse walked, it ran, and it leaped, but the shoe clung to the foot. No amount of exercise could shake it off. The village blacksmith knew he had a wonderful invention, and he made up his mind he would not sell it for a song. He took out a patent upon it, and some way capitalists in the neighbor-

hood of the iron regions of Pennsylvania heard of it. They sent agents to Rocky Ford to talk to the inventor, but he would not sell his right; but he entered a stock company with a capitalization of \$100,000, with factory headquarters at Lebanon, Pa.

Sample shoes have been made, and one week ago at the little country fair in Rocky Ford, Mr. Crannell had a pair placed on a pacing horse in a race, and the horse broke his record by two seconds and won the race. There was no happier man in the world than the village blacksmith when that horse came under the wire.

The base of the nailless horseshoe is made very much like the ordinary shoe, except that the toe and heel calks are removable. If, in icy weather, a "rough shod" is desired, the smooth calks, which are usually used in dry weather, may be replaced with sharp ones. The shoe is held in place by clamps made of nickel steel which is uncorrodable and has a tensile strength of eighty thousand pounds to the square inch. The process of making this steel is known only to one man, A. P. Wittman, of Philadelphia. The band, or clamp, touches the shoe at each heel and the toe, but does not cross the back of the hoof, thus affording the natural expansion of the hoof. There are four short bands coming up from the sole of the shoe which extend into the shell of the hoof a quarter

of an inch. These are merely to stay the shoe.

This shoe may be taken off and replaced at will. Every part of the shoe, except the calks, wears for years. Calks are inexpensive. Through the employment of this invention every farmer or horseman becomes his own horseshoer. At night the shoes may be taken off and Prince may not be required "to go to bed with his boots on."

Deserters Still at Large.

After working all of the day yesterday on the case of the three deserters from Troop B of the Fifth cavalry, which has been in the city several days up to yesterday morning, when it left for Mesa, Chief of Police Kinney is convinced that the deserters are not in the city, but have escaped to the main line of the Santa Fe railroad, says the Phoenix Enterprise.

On arriving in the city Saturday afternoon at 4 o'clock when they were to report for drill, a number of them got out and "ranked" up and it was at first believed that these three men had done the same thing and failed to sober up in time to report.

Yesterday's developments, however, indicated that there was a prearranged desertion and that the three men who escaped had the co-operation of

some of the men who did not desert. Several of the men in the company evidently know something but it was not possible yesterday to get any information from them.

The police learned that Trumpeter Smith and his associates had brought down town all of their extra shoes, cavalry boots and other equipment and sold it at the second hand stores. They also disposed of one revolver. With this money it is presumed they bought some clothing, discarded their uniforms and then took a freight train out of Phoenix.

The descriptions of the men have not been received in full by Chief Kinney. A brief description was left by Captain Haight who will later forward a more minute description.

Smith is about five feet, six inches high, has light hair, a ruddy complexion and was smooth shaven. Private Rodina is five feet seven inches high, dark complexion and had a clean shaven face. Private Mitchell was clean shaven also. He is five feet nine inches high, has dark hair, a ruddy complexion and a slight English accent.

Lordsburg Hotels Robbed.

The hotels were burglarized Wednesday night. Several rooms in the Vendome were entered and watches and money taken, no very large amount in any case. The heaviest

loss being that of Judge McGrath, whose watch and chain, worth about \$100, was taken. Young Bounds saw the man just as he was leaving his room, but supposed some man had got in the wrong room. In the morning he found the man had taken about \$15 from his pockets. No room that was locked was entered. At the Myrtle three rooms were entered and watches and money taken, the heaviest loss, being John Rahm, the yard master, who lost a valuable watch and about \$20 in money. There were a couple of strangers in town the day before, one of whom wore rubber soled shoes, who had disappeared the next morning. Deputy Sheriff McGrath saw them and has started after them.—Lordsburg Liberal.

Led Officers Long Chase.

(Nogales Oasis.) John Timacho Tinoco is back in Nogales after an absence of fifteen months, during which time he played an interesting game of hide-and-seek with railroad detectives. Tinoco was inspector in charge at the Mexican custom house in Nogales, Sonora, until June, 1905, when he left town. About the same time a Southern Pacific car was robbed on the Mexican side of the line, a bale of Panama hats valued at \$1,700 and other merchandise valued at \$900 was stolen. With-

in thirty days after the robbery railroad detectives had traced the goods and were hot on Tinoco's trail, which led to the City of Mexico. There he succeeded in dodging them for some time, but was finally arrested two months ago and started on the return trip to Nogales. At San Blas he escaped from the guards, and the chase was on once more. Two weeks ago he was again located at a ranch between Tepic and San Blas, in the state of Tepec, and last Saturday night arrived in Nogales, closely guarded. He is now in the jail in Nogales, Sonora, awaiting trial.

Notice for Publication. Department of the Interior, Land Office at Santa Fe, N. M., September 22, 1906.

Notice is hereby given that Tomas Marquez, of Milagros, N. M., has filed notice of his intention to make final five-year proof in support of his claim, viz.: Homestead Entry No. 5965, made September 14, 1906, for the NW 1/4 section 4, township 8 N., range 6 E., and that said proof will be made before the probate clerk, at Albuquerque, N. M., on November 6, 1906.

He names the following witnesses to prove his continuous residence upon, and cultivation of the land, viz.: Pablo Maldonado, of Chilili, N. M.; Manuel Gutierrez, of Chilili, N. M.; Prudencio Maldonado, of Chilili, N. M.; Margarito Alderete, of Milagros, N. M.

GO TO BELEN

The Future Railroad Center of New Mexico

LOCATED ON THE BELEN CUT-OFF OF THE ATCHISON, TOPEKA & SANTA FE RAILWAY. THE NEW CITY OF BELEN IS 31 MILES SOUTH OF ALBUQUERQUE, N. M., IS AT THE JUNCTION OF THE MAIN LINES OF THE SANTA FE SYSTEM—LEADING EAST AND WEST FROM GALVESTON AND CHICAGO TO SAN FRANCISCO AND LOS ANGELES, FROM THE NORTHERN STATES TO EL PASO, TEXAS, AND THE REPUBLIC OF MEXICO.

The Belen Town and Improvement Company

(INCORPORATED)

Are the owners of the Belen Townsite, consisting of 1000 Business and Residence Lots, size 25x142 feet, fronting upon 80 and 70-foot streets and avenues, right in the business center of the new city and directly upon the Santa Fe Railway Depot Grounds. The Atchison, Topeka & Santa Fe Railway Company is now grading its extensive depot grounds yard limits 800 feet wide and a mile long (capacity of 70 miles of side track) to accommodate its immense passenger and freight traffic, Harvey eating House, round house, coal chutes, water tanks, machine shops, etc.

THE CITY OF BELEN has a population of 1500, and several large Mercantile Houses, the Belen Patent Roller Mills with its 150 Barrels a day capacity, winery, etc. It is the largest shipping point for flour, wool, wheat, beans, hay and fruit in New Mexico. From its location upon the great trunk line leading north, south, east and west, to all points in the United States and Mexico its future growth as a Commercial point cannot be estimated. All fast limited, mail, express and freight trains will pass through Belen to Chicago, Kansas City, Galveston and the Pacific Coast. The water is good and climate unsurpassed. Belen has a \$16,000 public school house, two churches, a commercial club, three hotels, restaurants, etc. It needs right now a good up-to-date newspaper and a good hotel. The lots offered are low in prices and terms easy. One third of purchase money cash; two-thirds may remain on note and mortgage for one year with interest at 8 per cent per annum. Title perfect and warranty deeds given.

Come early if you wish to secure the choice lots. For further particulars and prices of lots call in person or write to

LOCAL ITEMS OF INTEREST
WEATHER FORECAST.

Washington, Oct. 2.—New Mexico and Arizona: Fair Wednesday and Thursday.

N. E. Stevens has gone to Silver City on a business trip.

The regular Commercial club dance will take place tonight.

Max Nordhaus, of Las Vegas, was a visitor in Albuquerque yesterday.

W. D. Newcomb, of Socorro, was in the city yesterday on his way to Santa Fe.

Mr. and Mrs. Joel Witwer, of Santa Fe, were arrivals in Albuquerque last night.

Edward J. Gillies and Miss Gillies, of New York City, are guests at the Alvarado.

Mr. and Mrs. J. A. Peterson of 206 West Coal avenue, are the parents of a baby boy.

John Belknap, of the American Lumber company at Ketchikan, was in the city yesterday.

The Martha society will meet Wednesday afternoon at 3 o'clock at the Lutheran church.

W. A. Bayer, Delegate Andrews' private secretary, has returned from a short visit in Santa Fe.

Regular meeting of the Degree of Honor will be held tonight at 7:30 o'clock in Odd Fellows' hall.

Charles R. Keyes, of Socorro, arrived in Albuquerque last night from Santa Fe and is a guest at the Alvarado.

Mrs. John Borradaile has returned to Albuquerque from a visit of several weeks to friends in St. Louis and St. Paul.

Attorney Harry M. Dougherty, of Socorro, passed through the city yesterday on his way to Santa Fe on a business trip.

Allan Waas, proprietor of a five and ten cent store on Railroad avenue, expects to open a branch on South Second street in the near future.

The ladies of the German Lutheran church will meet this afternoon at 2:30 o'clock at the home of Mrs. Emil Kleinwort, 501 South Fifth street.

D. W. C. Merriam, of Chicago, one of the directors of the American Lumber company, was in the city yesterday for a short time on his way to California.

Thomas Parker, a prominent mine operator of the Burro mountain country in Grant county, was in the city yesterday on his way to Chicago, on a business trip.

W. H. Whitte, former clerk in the Alvarado and for some time with Fred Harvey in Kansas City, returned here yesterday to become cashed at the Alvarado.

E. D. Campbell, employed in the J. H. O'Reilly company drug store for the past six months has taken the position of manager of the skating rink in Ellis' building.

A regular meeting of the Non-Sectarian Benevolent society will be held this afternoon at 2:30 o'clock in the office of District Attorney F. W. Clancy in the Glickler building.

Thursday begins the feast of Tabernacles. Services will be held at Temple Albert tonight. Wednesday, at 7:30 o'clock. "Nature is the Gate to Heaven," is the subject of Dr. Kaplan's lecture. Everybody is welcome.

The final meeting of the executive and advisory boards of the Fair association will be held tonight in the office of Manager P. F. McCutcheon. The officers will present a report of the business of the last fair at this meeting.

Mrs. C. G. Noble, for some time connected with the Fred Harvey news service in Albuquerque and Las Vegas, was in the city last night on her way to Los Angeles from New York where she has made her home for some time.

Colonel A. W. Harris, of Kingston, N. M., has sold to Nellie B. Field two lots on West Gold avenue and the building occupying the lots, now rented by the John M. Moore Realty company. The consideration has not been made public.

Members of the Congregational church and Rev. John W. Barron, the pastor, are making arrangements for a series of entertainments to be given during the fall and winter by the Midland Lyceum bureau. The entertainments promised are of the highest class and a considerable guarantee has already been secured.

Mr. and Mrs. D. A. Macpherson have returned from New York City, where Mr. Macpherson went to attend the annual meeting of members of the Associated Press. It was while in New York that Mr. Macpherson completed arrangements for the leased wire service of the great news gathering agency, for the Morning Journal. From New York Mr. and Mrs. Macpherson visited relatives in Montreal.

Learnard & Lindemann's boys band held an enthusiastic meeting last

THE WILSON HEATER with the celebrated Hot Blast Down-Draft is the only heater which actually burns all of the fuel put into it. The Hot Blast Down-Draft creates perfect combustion and the fumes which rise from the fuel, ordinarily escaping unburned in other stoves, are all consumed and turned into heat in the Wilson. It has been ascertained that the fumes which arise from the fuel constitute 40 per cent of the entire heating power of the fuel. Buy a Wilson and get all the heat you are paying for. WE ARE SOLE AGENTS.
