## BRIEF WIRINGS:

**Silver and Lead.**  
New York, Oct. 24.—Silver moved up a point to-day and is quoted at 78 3/4. Lead, 3.20.

**Brazil at Peace.**  
New York, Oct. 24.—The Herald says this morning that Brazil will soon be at peace. Lorenzo will be proclaimed president; and the foreign ships will prevent bombardment.

**A Novel Illustration.**  
Battle Creek, Mich., Oct. 24.—The coroner's inquest in Friday's railway horror continues. An imitation of the collision will be given at the scene of the wreck to-night to illustrate the evidence.

**Another Strike.**  
Columbus, Ohio, Oct. 24.—Six hundred street railway employees here struck this morning because two of their Union were discharged. Not a car is running in this city to-day.

**THE USUAL CRASH.**  
Another Railway Accident in Which Ten Are Injured—Four Fatally.

Effingham, Ill., Oct. 24.—The Indiana and Illinois passenger train was derailed this morning and plunged down a ten foot embankment. Ten people were injured of whom four will die.

**An Old Feud.**  
Phoenix, Oct. 24.—Lee Rine met Lee Burton on the street and was shot and killed. The men had been partners in Tucson and here, and there was bad blood. Each had had the other arrested for violating the Edmunds law and each had vowed vengeance on the other.

**HE WILL BE ARRESTED.**

A Warrant Wanted for the Arrest of Ex-Secretary Foster.

Toledo, Ohio, Oct. 24.—Ex-Secretary of the Treasury Foster is likely to be arrested to-day. The committee examining his books to-day discovered transactions at Foster's by which Foster virtually appropriated \$100,000. A warrant has been applied for.

**A Crisis Developed.**  
Berlin, Oct. 24.—A ministerial crisis has suddenly developed so that a disruption of the cabinet is imminent. One of the principal reasons for the discord is Caprivi's concessions to Russia in the recent tariff negotiations; more especially the reduction of duties on Russian grain.

**A LEGAL BLACK EYE.**

A Woman's Suffrage Law Knocked Out By the Michigan Supreme Court.

Lansing, Mich., Oct. 24.—The supreme court this morning handed down a decision on the suffrage law permitting women to vote at municipal elections. The law was passed last legislative session. The court declares it unconstitutional and void.

**Another Arizona Scheme.**  
Washington, Oct. 24.—Gov. Hughes, of Arizona, held an important conference with Minister Romero, of Mexico, touching improvements in Colorado river navigation, which would prove a great benefit to all the region through which its waters flow. Gov. Hughes thinks that the United States will make improvements within its boundaries if Mexico will do the same. Minister Romero was very much impressed with the governor's representations and will lay the matter before his government.

**A LAKE DISASTER.**

A Schooner Sinks with All Sails Set and Carries Down Her Crew.

Cleveland, Ohio, Oct. 24.—The schooner Riverside sunk off here in thirteen fathoms of water this morning. All sails were set and she carried down and drowned her crew of seven men.

**Another Nebraska Scandal.**  
Omaha, Neb., Oct. 24.—Mosher, the wrecker of the Capital bank at Lincoln, who was sentenced to five years and who has been held at Lincoln in order to aid in straightening out the bank's affairs, was this morning discovered to have been living in high life. He has been visiting women, strolling out of jail and doing as he pleased. The jailer, sheriff and U. S. marshal will probably be indicted as a result.

**THE SANTA FE ROUTE.**

The Strike is Off and the Pay Checks Will Be on the Way.

Denver, Colo., Oct. 24.—Santa Fe officials here said this morning that the Santa Fe strike will be averted. The men will be paid for September surely next week, and have accepted a proposition which shows their appreciation of the financial situation of the country and the difficulties of the officials.

## ABJECT SURRENDER.

Silver Democrats from the South Whipped in by Cleveland and Repeal is Certain.

Why Compromise Failed—Silver Republicans Powerless—Repeal Bill to Pass on Saturday Next.

Washington, Oct. 24.—The situation is sorely mixed, and Democratic senatorial managers seem quite at sea as to what to undertake next. They have not yet abandoned all efforts to bring the senators who have so far refused to see their names to the agreement to see that compromise is the best thing to do.

The failure of compromise up to last night is attributable to the fact that but thirty-nine Democratic senators would agree to it in writing. This lack of being a majority of the senate. These four the compromise people have found it impossible to obtain.

It is understood that Democratic party leaders are still seeking to secure the approval of the president, without whose acquiescence they can not accomplish anything. It is even intimated that if he gives his consent it will not be impossible to obtain some of the missing names. If the compromise is definitely dropped as it seems inevitable that it will be, the senate may pursue either of two courses: They may adjourn until December 1, press the bill on the present plan, or attempt to secure the adoption of a cloture rule.

One or two Democratic senators have expressed themselves as favorable to taking an adjournment, but the matter has not been canvassed sufficiently to warrant any predictions. Senator Hill will doubtless press his cloture proposition if he can obtain assurance of sufficient assistance to make it worth while to do so.

**NOBODY KNOWS.**

At 4 o'clock yesterday, Senator Faulkner said: "Half an hour ago I told you a vote would be taken in a week, now it looks further off than ever."

Senator Hawley said, as he was starting for the world's fair last evening: "It looks to me as if we were about where we were on the 7th of August last. I had hoped to see the bill through, but I feel I must see the fair, and it now looks as if I must visit it and get back in time for the fair."

Cloture is a question which senators discuss in a whisper since the hot words of last week. There can be little doubt that Senator Voorhees had in mind the bringing up his cloture resolution to-day, but he is understood to have abandoned this idea for the immediate present.

**CLEVELAND FOR CLOTURE.**

Senators Palmer and McPherson and other repeal senators had a long conference with the president yesterday afternoon. When he returned to the senate chamber, Senator Palmer said he thought cloture would be undertaken soon.

"It has come," he said, "to be a question whether a majority shall rule. It is more important than even the financial question. We shall have to have that fight out."

It is believed Senator Palmer expressed the sentiments of the executive. That senators with whom he talked got that impression is a fact.

Some of the repeal senators, who have heretofore stood staunchly by the administration, are criticizing the course which was pursued in the compromise matter by the administration. This is especially true of the repeal members of the STEERING COMMITTEE.

There is no doubt that they were led to believe before the agreement was signed that the compromise would be approved and that the president was at least willing that the bill as amended should be passed. They say it was altogether favorable to the administration view. They do not take kindly to the fact that they should have been allowed to go so far in the matter and then be told they have acted without warrant. However, the senators who are opposed to unconditional repeal have been endeavoring for several days to bring about a compromise have not been deterred by the recent declaration that no compromise would be accepted by the administration. These senators are still laboring to secure a majority of Democratic senators to favor compromise. One of them said that they have secured, including Senator Daniel who signed yesterday, thirty-six names.

**SITUATION THIS AFTERNOON**

In the senate to-day the situation is unchanged. The silver Democrats were late in reaching the capitol this morning

so no consultation was had. The western men are in earnest, however, and will continue the fight, and oppose the administration schemes. The silver Republicans insist that the southerners must help the filibustering, and by refusing to vote break the quorum.

**WHIPPED IN.**

At 12:30 to-day Senator Harris informed the silver Republicans that the silver Democrats, as this condition of affairs, their determination, announced last night, to aid the western silver contingent in filibustering longer against the passage of the repeal bill, and it is said the southern silver Democrats now think it best for their party to let the vote come up on the original question of unconditional repeal.

If this plan is carried out the repeal bill will be passed by a majority of 11.

**AN ABJECT SURRENDER.**

There is no doubt whatever of the correctness of the report that the silver Democrats of the senate have thrown up their hands and surrendered absolutely to Cleveland. They decided upon this course after a final parley this afternoon among themselves. They then notified the silver Republicans of their decision. The Republicans have said from the beginning that as soon as this condition of affairs was reached they, the Republicans, would not attempt to prolong the fight. The silver Republicans say if the Democrats had stood by them as promised last night the fight would have been prolonged and they would have procured some concessions for silver but it would only be like the compromise just offered, very little, if any, better than actual repeal.

Senators Teller, Stewart, Wolcott and Jones say the end has been in sight for a month past. They fought more to educate the country rather than to win the fight at the present time. The senators will continue their speeches, but a vote will be reached by Saturday next.

**NATIONAL NOTES.**

The gold reserve is nearly \$82,000,000 to-day and is increasing.

The senate this morning took up the silver purchase bill, and Senator Stewart resumed his speech begun weeks ago.

**TERRITORIAL TIPS.**

**ALBUQUERQUE ATOMS.**

Mrs. Fred W. Lee presented her household with a fine bouncing boy.

H. E. Fox, watch inspector for the A. & P., returned last night from an inspection.

E. P. Brown, fuel agent of the Santa Fe in Mexico, and nephew of Vice-President D. B. Robinson, spent a day in Albuquerque.

Chas. O'Connor Roberts expects to have a carload of copper glance teamed from San Ysidro and shipped to the smelter next week.

Jesus Maria Sandoval reports that the recent flood damaged his home town, Corales, very much. Five houses, including the district school house, were washed down.

**GALLUP GLEANINGS.**

The coal output will be larger than any previous year.

Several new freight crows have been put on the road. Business is picking up.

Hon. John C. Spears has gone east for a month. He will join his wife and visit his old home.

Hon. W. F. Knichenbecker has newly painted his big barn, warehouses and ice house.

A Rich Hill, Mo., coal miner is trying to employ some of Gallup's men to go back to his country.

The Gallup Episcopal Musical & Literary association has been organized, and is rehearsing a farce for Thanksgiving day.

**GRANT AND SIERRA.**

Splendid Activity Prevailing in the Gold and Silver Camps in These Counties.

**HILLBORO GOLD FIELDS.**

Output of Hillboro gold mines for the week ending Thursday, Oct. 19, 1893, as reported for the Advocate:

From the Standard Gold Mining & Milling company:	
Snake Mine.....	49
Opportunity Mine.....	253
From the Good-Hope Bonanza Mining & Milling company:	
Bonanza Mine.....	90
Percha.....	85
From the Eighty-five and all other mines.....	120
Total.....	610

Total output since January 1.....20,713

T. C. Watkins's teams are kept busily employed hauling concentrates from the Richmond mill to Lake Valley station.

Thos. Lannon, Jr., who has a lease on a portion of the Richmond mine, has contracted with B. Martin to haul 100 tons of ore to the mill and a carload of first-class to Lake Valley.

The strike on the big mine, the Opportunity, is holding out well and much of the rich ore has already been hauled to the smelter.

Another carload of matte was shipped this week from the smelter, which is producing from one and a half to two tons per day.

The second run from the Hughes lease on the Snake cleaned up \$16 per ton of gold off the plates.

Several parties are at work leasing on the Ross mine, in Wick's gulch.

## DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.  
Used in Millions of Homes—40 Years the Standard.

All the slopes and levels of the Opportunity are being actively worked and a big accumulation of ore is being made in anticipation of the new 80-ton furnace purchased for the company by Manager Gallies last week, in Chicago.

**A STAMPEDE LIKELY.**

A big strike is reported in the south end of the Mogollon mountains. The new find is located south of Sacaton; the discovery was made by Bob Chamberlain, formerly a mill man of Carlisle. The ore is a new character of vein matter and at first sight appeared worthless, but on being assayed gave returns of \$200 per ton in gold. The vein is five feet in width and shows for a long distance on the surface. If the new mine is half as big as our informant was led to believe, it will probably produce a stampede to the new diggings. The territory immediately adjacent has been but little prospected.

The country has not been thoroughly prospected outside of the few camps already under headway, and when prospectors branch out into the recesses of the extensive Mogollon range it is difficult to forecast the result. As the ores carry a large percentage of gold, the depression in the silver market has not in the least affected the workings of properties in Silver Creek or Cooney camp. A brilliant future is in store for the entire Mogollon country.—Silver City Enterprise.

**GRANT COUNTY NOUGETS.**

Bragaw & Potter started up the Gaddis mill Monday. The first run is being made on ore from Werney's Golden Eagle mine.

The Golden Star, a recent discovery of Bragaw & Potter's, is panning out well.

[Established 1864.]

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, OCTOBER 24.

The coming country—New Mexico.

Don't wait until the clouds roll by, but march out into the sunlight.

Which will be the first county to appoint a statehood committee?

What it down in bold faced type—New Mexico is an agricultural world beater.

A cold dollar begins to look natural size when compared with its silver brother.

You can not usually get something for nothing; and that is why Mr. Cleveland can not accomplish repeal without compromise.

The New Mexican is always abreast of the situation. It is part of the band in the progress procession. It is not an organ but a newspaper.

One thing the capitalist should keep in mind is that if the people can not have natural intrinsic money, they may begin to consider the bank credit system and demand "scientific money."

Think of the great area of this territory; think of the area available for agriculture, horticulture and mining; and then decide whether or not it is wise to put any obstacle in the way of statehood. If you do not like the present population let down the bars and a new one will crowd in.

The "triumvirate" grows lustily over Judge Collier's appointment. The triumvirate has an organ or two at its back, hence it feels justified in crowing over anything in sight. The plain people, however, know a thing or two themselves.

Aside from all questions relating to fair play for silver, the western territories have a special interest in the defeat of the administration's plan for "unconditional repeal," for if ever the gold bugs capture congress it will be a cold day for the admission of new western states.

The prospective opening of the Yuma Indian reservation in Arizona to homesteaders will prove a good thing for New Mexico. The farmer and fruit grower in passing through to reach the new "strip" will find a fair land and a farmer's paradise a long way this side of the hot sands in the Yuma country.

New Mexico, according to the October bulletin of the agricultural department, leads the west and therefore the world in cereal production. Take wheat, 21.6 bushels is the highest figure yet reached for a state or territorial average. If close attention were only paid to fruit production, this bulletin would be perfect.

The silver situation has been so acute that wool has been slightly overlooked for a few days. The fact still remains, however, that its price is about 8 cents. How a New Mexican shepherd is to sell his clip and ship it east is therefore a problem. He had better hold on to it if he can.

New York did exceedingly well at the great fair on Manhattan day. There were 75,000 New Yorkers on the grounds and the remainder of the half million people present came from other sections of the country. The fact should serve to impress New Yorkers that there is in the United States a very large section of the nation that lies outside of New York.

SENATOR JONES, of Arkansas, has let an administration out of the bag. He says that to gain the following he has all along had in the senate, Mr. Cleveland had gone into the receivership's hands. The management of the Santa Fe has always been conservative, tho' bold, and brains, bravery and backbone always win in a long pull.—San Marcial Bee.

Mr. Cleveland is, if this is so, that he hasn't taken senators enough into his confidence nor made his pledges sufficiently binding. Perhaps, now, however, that compromise has failed, he will be forced to swear allegiance to silver before he can accomplish anything toward the desired end.

## TIMELY.

In a late editorial the Denver News makes some pertinent suggestions to the Deming irrigation congress. It says that the thing to consider is the disposition of interstate waters. True; and its further suggestion that some supervision should be had of the timber on the water sheds and the proper apportionment of the water, is in line with the national policy, and should receive careful attention at the convention.

## A NIGGER ON THE SAFETY VALVE.

In old steamboat days on the Mississippi, when the captains wanted to beat time or pass another boat they used to seat a "nigger" on the safety valve. The national banks of New York have almost \$48,000,000 in excess of their reserves locked up. A nigger of this size on the safety valve is a terrible strain on the engines of commerce, and a collapse is liable to come at any moment. The New York bankers seem to reason that they can stand hard times longer and more of them than any other class, and that the people will be compelled to accede to their wishes as to a single standard. Whether or not they will succeed, in the language of Mulvany, "is another story."

## THE SITUATION.

As the New Mexican has all along predicted the west was victorious when it came to a hand to hand fight. Senator Sherman's bitter taunts were the compelling causes of the late activity of the Democratic steering committee. For a whole week they labored but the result is nothing. A majority could neither be secured for unconditional repeal or the villainous compromise that was proposed. It now devolves on the Republicans to frame a silver bill that will embody the repeal provision and also such legislation as will be acceptable to the people. By this is meant some legislation that will put business on a sound basis until the people can consider whether silver shall be freely coined or not.

## JOHN SHERMAN.

The west has had many honest differences of opinion with Senator Sherman in times past on the financial problem, but he is still a great American and an able statesman, and in his speech in the senate the other day, in which he exoriated the Democratic majority for its ten weeks of idle contention to the detriment of all public business, he said some things that, considering they came from Sherman, are worthy of note at this time. Speaking of repeal he said he favored it because as an experiment it had proved bad. Then he said:

"This is not a proposition to demote silver. We have more silver in the United States that we ever had before in our whole previous history. No one proposes to disturb that silver. On the contrary, we would be glad to join with our friends on the other side of the chamber to increase the subsidiary coin. That, I believe, is the coin which the people of this country desire rather than large dollars, and any other measure which tends to promote the use of silver we are ready and willing to help."

Such words from Sherman must have made the Wall Street fraternity shiver. Mr. Sherman has evidently become satisfied that silver must have a place in the make up of our financial system.

## Press Comments on Territorial Affairs.

### And Why Not Statehood?

New Mexico's debt is \$1,454,000; Arizona's and Colorado's nearly twice as large.—San Marcial Bee.

### An Unqualified Pointer for the Democracy.

The next delegate to congress from New Mexico will come from the southern portion of the territory.—Deming Headlight.

### Looking Along the Sene.

In spite of the low prices of ores it looks as if there will be a marked improvement in the mining interests of New Mexico during the coming year.—Socorro Chieftain.

### Keep Right Along Building Reservoirs.

The prospect of statehood for the arid territories looks a little dubious just now. Never mind. Their canals and reservoirs will be more numerous, and their area of reclaimed land all the grander, when the nation at last swings open the doors to them.—Irrigation Age.

### The A. T. & S. F. Management.

Reassuring news comes that the Santa Fe is coming out on top, while many supposed stronger lines, notably the Northern Pacific and the Union Pacific have gone into the receivership's hands. The management of the Santa Fe has always been conservative, tho' bold, and brains, bravery and backbone always win in a long pull.—San Marcial Bee.

# VIGOR OF MEN

## An Offer Extraordinary.

ONLY 10 CENTS A WEEK.

A magnificent portfolio of engravings of famous cities, scenes and paintings, with descriptions for by John L. Stoddard, the world's famous traveler and lecturer, has been issued, each book containing 16 beautiful engravings 11x13 inches in size, and well worth \$1.50 each. They can be secured at the trifling amount of 10 cents a week by subscribing to the **Two-Cent Weekly Republic**.

In the first book Mr. Stoddard takes you to France, England, Ireland, Norway, Sweden, Germany, Palestine, Switzerland, Austria, Italy, Brazil, Mexico and the United States. The Republic brings the world to you. It brings all that is grand, romantic, imposing and beautiful to your fireside, and while you, your family and friends gaze upon its wonders so perfectly and accurately portrayed, they will be eloquently described by Mr. Stoddard himself. For particulars see "The Republic," a sample copy of which will be sent free upon receipt of a postal card request. Or, if you want a sample of the "Art Portfolio" cut this advertisement out and send it in with 10 cents and series No. 1 will be sent you. Without this cut 25 cents will be charged. Address, Room 28, Republic, St. Louis, Mo.

## Notice.

OFFICE OF THE SANTA FE Electric Company, Santa Fe, N. M., Oct. 23, 1898. Notice is hereby given that there will be a special meeting of the stockholders of the Santa Fe Electric company, held at the company's office, on Monday, October 30, at 2 p. m., for the purpose of raising funds to pay interest due and attorneys' fees incurred in foreclosure proceedings, that the note may be further extended. By order of the board of directors. I. SPARKS, Secretary.

## The Last Chance for Cheap Rates to the East.

Chicago and return \$28.75. St. Louis and return \$25.25. Continuous passage in each direction, tickets will be sold up to and including Oct. 31. Final limit to return Nov. 15, 1898. One way rates continuous passage Chicago \$20.00; St. Louis \$20.00; Kansas City and Missouri \$18.75. City ticket office, First National bank building. H. S. LUTZ, Agent.

## Call for Irrigation Convention.

TERRITORY OF NEW MEXICO, EXECUTIVE OFFICE, SANTA FE, N. M., AUGUST 2, 1898. To the People of New Mexico, Arizona, Western Texas, and of the State of Chihuahua, in the Republic of Mexico:

WHEREAS, A large proportion of the people in the territory of New Mexico, of the western portion of the state of Texas, and of the northern portion of the state of Chihuahua are largely dependent upon the Rio Grande river for their water supply for irrigation purposes; and WHEREAS, The greater portion of said river passes away during the season of the year when not needed for purposes of irrigation, which, with a proper system of reservoirs, could be saved and utilized, and would thereby greatly add to the wealth and prosperity of said region; and

WHEREAS, Large quantities of the water of said river have for many years been appropriated and used by the citizens residing in the valley thereof, south of Albuquerque, for the purpose of irrigation, and upon the continual use of which depends the life and prosperity of the community, and it being the duty of the government to protect the rights of the citizens near the headwaters of said stream, in Colorado, thus causing a water shortage in the lower valley, which from year to year grows greater, until the agricultural interests are in danger, and of the danger of destruction unless such division be checked.

Now, therefore, for the purpose of consulting together, and devising ways and means to stop such unlawful use and diversions of the water of the Rio Grande, and of effecting and conserving in reservoirs the spring and storm waters that now go to waste annually, and of discussing and considering all important questions relating to irrigation laws, irrigation securities, irrigation methods, and to devise and agree upon some general and concerted plan of action looking to the development of the agricultural, vinicultural and horticultural resources of such region, by saving and utilizing the waters thereof, a mass convention of the citizens residing in said portion of said states and territories is hereby called to meet at Deming, in the territory of New Mexico, on Tuesday, November 7, 1898, and adjourned days.

All persons resident within said portion of states and territories are respectfully requested to attend and participate in the deliberations of said convention, and all counties, municipal corporations, irrigation companies, canal corporations, boards of trade and chambers of commerce are invited to send delegates thereto.

Done at Santa Fe, the capital of New Mexico, this 23 day of August, A. D. 1898.

W. T. THORNTON, Governor of New Mexico.

ALEXANDER, Secretary of Territory.

## CHEAP RATES EAST.

VIA THE POPULAR BURLINGTON ROUTE.

Continuing until Oct. 31, the Burlington Route will sell first-class tickets good on all fast trains and in sleeping cars, at the following reduced rates: Chicago and return.....\$23 00 Chicago, one way.....12 80 St. Louis and return.....19 25 St. Louis, one way.....10 25 Missouri river points and return.....18 00 Missouri river points, one way.....9 00 Sioux City, one way.....10 00 All return tickets good until Nov. 15.

Two fast vestibule trains leave Denver daily at 8:35 a. m. and 10:20 p. m., affording better service and making quicker time by several hours than all other lines. For full information call on nearest ticket agent, or address G. W. Valley, general agent, 1700 Larimer street, Denver, Colo. 28-10-31.

All the talk in the world will not convince you so quickly as one trial of De Witt's Witch Hazel Salve for scalds, burns, bruises, skin affections and piles. New Mexico Drug Store.

## The Santa Fe Southern and D. & R. G. The Best.

Until Oct. 31, tickets will be on sale at the following rates, final limit Nov. 15. Chicago and return \$28.75; St. Louis and return \$25.25; one way rates, Chicago \$21.90; St. Louis \$20.00; Kansas City and all Missouri river points \$18.75. T. J. HELM, Gen. Supt.

## Grand Canon of Colorado River.

On the Santa Fe route, in northern Arizona, 1,262 miles from Kansas City, is the town of Flagstaff. A tri-weekly stage line runs from Flagstaff to the Grand Canon of the Colorado river. More than a mile in depth, this is the sublime of gorges—a Titan of chasms. Twenty Yosemite might be hidden unseen below, and Niagara would look scarcely larger than a brook.

Don't fail to visit this first wonder of the world. You can "read up" about it by asking G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. R. Co., Topeka, Kas., to mail you a free copy of an illustrated book describing this terra incognita. The book is no common affair; but is entertainingly written, beautifully illustrated and a gem of the printer's art.

## Job Printing.

## CONNECTIONS.

ALBUQUERQUE—A. T. & S. F. Railway for all points east and south.

ASH FORK—Santa Fe, Prescott & Phoenix railway for Fort Whipple and Prescott and connection with stage lines for points in Central Arizona.

SELIGMAN—P. & A. Railway for Prescott.

BLAKE—Nevada Southern Railway for Purdy and connection with stage lines for mining districts north.

BARSTOW—Southern California Railway for Los Angeles, San Diego and other California points.

MOJAVE—Southern Pacific Company for San Francisco, Sacramento and other Northern California points.

Pullman Palace Sleeping Cars

No change is made by sleeping car passengers between San Francisco and Kansas City, or San Diego and Los Angeles and Chicago.

The Atlantic & Pacific Railroad, the great middle route across the American continent, in connection with the railways of the "Santa Fe route." Liberal management; superior facilities; picturesque scenery; excellent accommodations.

## The Grand Canon of the Colorado

The most sublime of nature's work on earth, indescribable, can easily be reached via Flagstaff, Williams or Peach Springs on this road. To the natural bridge of Arizona and Montezuma's well you can journey most directly by this line. Observe the ancient Indian civilization of Laguna or Acoma, "the City of the Sky." Visit the petrified forest near Carrizo. See and marvel at the freak of Canon Diablo. Take a hunting trip in the magnificent pine forests of the San Francisco mountains. Find interest in the ruins of the pre-historic.

## Cave and Cliff Dwellers.

View the longest cantilever bridge in America across the Colorado river.

F. R. Gabel, General Supt.

W. A. BISSELL, Gen. Pass. Agt.

H. S. VAN SLYKE, Gen. Agt., Albuquerque, N. M.

## SHOOTING STARS.

**Rev. Plunk on Contentment.**  
Dere's an' old sayin' dat contentment am better dan great riches, deah breadren, but experience teaches us dat a nice easy mixture ob de two things brings on a condium dat comes as near real happiness as anything dis side ob de golden gate.

**Terrible Misfortune. Many Suffering From It To-day.**  
The cry of misfortune is never heard without a responsive throb of sympathy from those who hear it. Thousands who have had in gripe, which left them with that constant tired, worn-out feeling, sleeplessness, dull headache, depression, hysteria, etc., have often prayed for relief, and are obtaining it from Dr. Miles' Restorative Nervine. M. Lew Enyart, Macy, Ind., says: "Your Nervine has cured me of prostration; it is just what you advertised said it was." "Two bottles of Nervine cured me of sick headache." —Chas. Wilber Palmyra, N. Y. Sold on a guarantee by A. C. Ireland, Jr., Call for the Doctor's book, "New and Startling Facts," free.

**Certain Cure.**  
Spencer—We don't hear much now about the annexation of Hawaii.

**Ferguson—No.** Almost everybody has been to the World's fair and seen the Dahomey belles.

"During my term of service in the army I contracted chronic diarrhoea," says A. E. Belding, of Halsey, Oregon. "Since then I have used a great amount of medicine, but when I found that would give me relief they would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me permanent relief and no bad results follow." For sale by A. C. Ireland, Jr.

**What It May Come To.**  
O'm sorry, m'am, said the queen of the kitchen, but O'll have to leave yez.

Why, don't we treat you well?  
O've nothin' to say agin the tratemint; but yer ways o' livin' is uncongenial to me. However, O'm perfectly willin' to give yez a letter of recommendation to yer cook.—Washington Star.

**The Noble Art of Self Defense.** Set forth by an Authority.  
Self defense instinctive. Persons who find themselves afflicted with heart disease as manifested by its many symptoms, palpitation short breath, irregular pulse, pain in side or shoulder, smothering, fainting or dropsy, etc., naturally desire a defense against what may terminate fatally. For the express purpose no remedy has ever approached Dr. Miles New Heart Cure, sold by A. C. Ireland, Jr., on a guarantee. Mrs. O. F. Perkins, of Northwood, Ia., says, Dr. Miles' New Heart Cure, saved her life. She suffered from palpitation and heart would frequently beat as high as 125 a minute. Was not expected to live. Was a mere skeleton, no relief from physicians. New Heart Cure cured her.

**The Bright Side.**  
Bobby—Mamma, I've just heard something I think you ought to know. Sister Nellie has eloped with the coachman.

Mamma (calmly)—Let this teach you, dear, how inscrutable are the ways of Divine Providence. However great our misfortune, let us ever be thankful things are no worse. Why, it might have been the cook that ran away.

Do Witt's Witch Hazel Salve cures piles. Do Witt's Witch Hazel Salve cures burns. Do Witt's Witch Hazel Salve cures sores. Do Witt's Witch Hazel Salve cures ulcers. New Mexico Drug Store.

**Butter on the Bread.**  
Peggy—What did that independent, self-willed, handsome sister do?

Paula—Oh, she married one of the assistant book-keepers in her father's bank. He is still an assistant book-keeper.

Peggy—And what did the homely, modest girl do?

Paula—She married a little dude to please her father. He is now a member of the firm.

"I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy." J. J. LaGrange, druggist, Avoca, Neb. 50 cents bottles for sale by A. C. Ireland, Jr.

**Almost Time.**  
The autumn winds will soon be here, and bare will be each bough.

The girl who owns a sealskin cloak, Will soon be in it new.

—Clothes and Furnisher.

**Proof of Merit.**  
The proof of a merit of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Porous Plasters during the past thirty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from them who have used them are.

Beware of imitations and do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

**Great Talkers.**  
They chatter, chatter all the day, But dare to vote they never;

They heed not that all men may say, Senators talked forever.

—Boston Home Journal.

**The Strongest Defence.**  
Against ill health, debility and nervousness is to promote digestion, activity of the liver and regularity of the bowels with the incomparable alternative and tonic, Hostetter's Stomach Bitters, a medicine without a drawback, safe and thorough, and having the highest professional sanction. It promotes an adequate secretion of the gastric juices that not as solvent of the food, and insures its conversion into rich, nourishing blood, which never fails to honor the drafts for strength made upon it by the rest of the system.

As a laxative of the bowels it is natural and gentle in operation, but at the same time effective. By directing the bile into the proper channel it removes the many and harassing symptoms of liver complaint. Headache, nausea, sick headache, nervousness, rheumatism, malaria and kidney trouble are remedied by it.

## Fin-de-Siecle Railroadings.

Railroad Conductor—Have the surgeons arrived?

Brakeman—Yes, sir.

Is the hospital tent loaded?

Yes, sir.

Plenty of chloroform, bandages, lint and arnica in the baggage car?

Yes, sir.

Have you telegraphed the doctors along the line?

Yes, sir.

Is the wrecking train ready to follow right after us?

Yes, sir.

Got a full stock of pine coffins?

Yes, sir.

All aboard!—Detroit Tribune.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this Remedy is taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and greatly lessen its severity, if not effectually cure the cold in two days' time, and it is the only remedy that will do this. It acts in perfect harmony with nature and aids nature in relieving the lungs, opening the secretions, liquefying the mucus and causing its expulsion from the air cells of the lungs and restoring the system to a strong and healthy condition. No other remedy in the market possesses these remarkable properties. No other will cure a cold so quickly or leave the system in as sound a condition. For sale by A. C. Ireland, Jr.

**No Do We All.**  
I love her face, I love her form,

I love her natty style of dress,

But I detest the frown with which

She winks me into nothingness.

Our word describes it—"perfection." We refer to De Witt's Witch Hazel Salve cures obstinate sores, burns, skin diseases and is a well known cure for piles. New Mexico Drug Store.

**Saved from the Moths.**  
Last winter's coat he will not wear,

Although a year ago 'twas new.

His wife with ever-watchful care

Put things in it the moths to scare.

To do it now he would not dare.

It's stuck up, as with glue.

If you can afford to be annoyed by sick headache and constipation, don't use De Witt's Little Early Risers, for these little pills will cure them. New Mexico Drug Store.

**He Heard of the Charmed Circle.**  
Wayside William—So you want to get into politics do you? I thought you didn't like work.

Wearry Wagonroad—I don't. I thought mebbe I could get into congress.

We could not improve the quality it paid double the price. Do Witt's Witch Hazel Salve is the best Salve that experience can produce, or that money can buy. New Mexico Drug Store.

**She Had Been Thinking of It.**  
We've got to economize, said he.

And live on a less expensive scale.

I've already been thinking of that, said she.

And I'm going to-day to a bargain sale.

—New York Press.

**Miles' Nerve & Liver Pills.**  
Act on a new principle—regulating the liver, stomach and bowels through the nerves: A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Small est mildest, surest, 50 doses 25 cts. Sample Free, at A. C. Ireland, Jr.

**The Muse Rebuffed.**  
Here's a poem I wrote on the Manufactures building at the World's fair, he said.

Don't you think you had better try something nearer your size? inquired the editor.—Puck.

Little vegetable health producers: De Witt's Little Early Risers cure malarious disorders and regulate the stomach and bowels, which prevents headache and dizziness. New Mexico Drug Store.

**The Arts of City Beau.**  
Mrs. Backwoods (taking in the fair)—

Marie, child, come out of this picture gallery instantly.

Marie—Why, ma, What's wrong?

Mrs. Backwoods—Sakes alive! I've just seen a sign that called this the Palace of Beau Arts. I knew we'd run against some of those artful city fellows before we got through with it, but I didn't dream they advertised it so brazen like.

—Chicago Tribune.

**Ignorance of the merits of De Witt's Little Early Risers is a misfortune.** These little pills regulate the liver, cure headache, dyspepsia, bad breath, constipation and biliousness. New Mexico Drug Store.

**The Fault on the Other Side.**  
Isabella—I don't see why you should have any difficulty in conversing with Mr. Francement. You said you spoke French.

Elayne—I do; but no one can understand me.

**Business Notice.**  
Frank Mendenhall has fitted up his cabinet maker and carpenter shop, on corner opposite Bulletin Building office on Water street. He is prepared to do all kinds of upholstering, cabinet making and general carpenter work, with neatness and dispatch, and solicits the public's patronage. If you have any extra nice or difficult work to do, give him a call.

**Dr. P. A. Skinner, of Texarkana, Arkansas, is an enthusiast in the praise of Chamberlain's Pain Balm.** He used it for rheumatism, and says: "I found it to be the most excellent local remedy." For sale by A. C. Ireland, Jr.

**Your Last Chance.**  
The World's fair will close October 31. Never in the world's history has there been anything approaching it in magnitude, extensiveness of its grounds and buildings, or in the character of the varied exhibits and displays from almost every nation on the globe.

If you should miss the opportunity of witnessing this grand spectacle it would be the regret of your life. A visit of a week would impart to one a more intimate knowledge of the world's progress, and of foreign lands and people, than could be acquired in years of travel.

Railroad fares to Chicago are down to within a fraction of half-rate for the round trip. Therefore, stand not upon the order of going, but go at once to the nearest railroad agent and secure your tickets over the popular Burlington route, whose fare "The World's Fair Flyers," leaving Denver daily at 9:30 a. m. and 10:30 p. m., afforded to all the quickest and best means of reaching Chicago.

## FAST DISAPPEARING

—all impurities of the blood, no matter from what cause arising, before the attacks of Dr. Pierce's Golden Medical Discovery. All blood-taints and poisons are cleared away by it. Every disorder that can be reached through the blood yields to this remedy. For severe Coughs, Bronchial, Throat and Lung Diseases, Asthma, Scrofula in every form, and even the Scrofulous affection of the Lungs, that's called Consumption, in all its earlier stages, it is a positive and complete cure.

It is the only blood-cleanser, strength-restorer, and flesh-builder so effective that it can be guaranteed. If it doesn't benefit or cure, you have your money back.

Nothing else is as cheap, no matter how many hundred doses are offered for a dollar.

All medicine dealers have it.

**The Seven Senses.**  
Robbie—Uncle Jacob, Mr. Tarbox said this morning that when he fell from the roof that he had seven senses knocked out of him. I thought there were only five senses.

Uncle Jacob—Dere seven senses, honey; but of dat man, or any udder man had um, dey's a merrikle. Yass dere's seven of um—hearin', seein', feelin', tastin', smellin'—is the five at some folkses knowin'.

## THE ANGELUS.

I had just left the military school and was very proud of the sword I carried and anxious for an opportunity of giving it its baptism of blood. I had not long to wait, for trouble broke out in Warsaw, and my regiment, with many others, received orders to set out for Poland, where a campaign seemed imminent. The Poles, both nobles and peasants, had grown tired of the restraints imposed upon them and had determined to make a desperate effort to free themselves from the yoke which was weighing them down, and then began that heroic and bloody contest—Russia's eternal shame.

I arrived one evening in command of a detachment at a village called Kurwo, where I expected to surprise a band of Polish patriots. They had been warned of our approach, however, and had taken flight, and I discovered that they had agreed with the villagers to return during the night and massacre us in our sleep.

Fortunately for us a miserable fellow told us in exchange for a few rubles that it had been arranged that the ringing of the Angelus bell should be the signal for the rebels to return to the village for the purpose of slaughtering us.

I waited several hours and then went to the church myself, intending to give the signal which would call the Poles from their hiding place, but I could not find the bell rope. After a long search, I became convinced that the rope had been purposely cut off.

I was furious, and ordering all the people to gather on the village green I announced to them that if within five minutes' time some one of them would not ready to climb the bell tower and ring the Angelus the village should be set on fire and every one of them put to the sword.

The minutes passed slowly, and the people stood silent, with calm, resigned faces, awaiting death. Suddenly a boy of 15 approached me and said that he was ready to do my bidding.

"Here," said I, "take this ruble and use it to drink the czar's health. Now go up and ring loud and long."

Without making any reply the boy sprang like a cat up to the belfry, perched aloft and seized the bell clapper in both hands.

But Mischief! It was not the musical Angelus I heard; it was the tolling of the solemn funeral bell. The patriots would be on their guard, and warned by the bell would not come out and fall into the trap I had prepared for them!

Breathless and blind with rage, I snatched a gun from one of my men, pointed it at the child in the belfry and took aim. But suddenly it seemed as if a mist passed from before my eyes. Quick as a flash of lightning I realized the sublimity of the 15-year-old hero's action, and without firing I lowered my arm.

Twenty years passed away, and then began that terrible struggle between Russia and Turkey which was as disastrous for the one as for the other of the two powers, and which terminated with the memorable taking of Plevna.

One day while reconnoitering I ventured too far from the outposts, and fell into an ambush of Turks. In the twinkling of an eye I was seized, bound, gagged and carried on a man's back into the enemy's camp, and when the bandage was removed from my eyes I found myself surrounded by about a dozen men attired in a strange looking uniform, which seemed to be half Turkish and half Russian.

One glance sufficed to assure me that there had been an engagement on this spot the night before. On the long grass were stretched the corpses of the czar's soldiers, and crouched beside them were Mussulmans tearing off the clothing and quarreling and swearing as they divided among themselves the garments of the dead.

My attention was soon diverted from this horrible sight, for the men around me began to despoil me also of my clothes, and could hear them dividing in advance the different articles of my apparel. They had already unfastened my coat, when I suddenly caught the sound of a few words spoken in the Russian language.

"I am not surprised," "at being robbed by these Mohammedan curs, but that a Russian should stoop to such conduct!"

"You mistake," said the same voice, "I am not Russian; I am a Pole."

The speaker turned toward me, and I looked him in surprise, as he continued angrily:

"Yes, I am a Pole, and when my countrymen bowed their necks to the yoke and resigned themselves with hatred in their hearts to the Russian rule I fled from my home. What I longed for most was to find the means of meeting you Russians face to face, and to avenge the death of my countrymen and the humiliation of my country."

### CAUGHT A CROOK.

A Notorious Horse Thief and Rounder Captured in Santa Fe Yesterday Afternoon.

Deputy Sheriff Jose Garcia, of Bernillo county, has been in and about the city for several days on a quest for one Manuel Baca, a notorious desperado and horse thief wanted for numerous crimes in Bernillo and Valencia counties.

Baca was caught yesterday afternoon, placed in jail, and later hand-cuffed and taken to Albuquerque where he stands indicted on several charges.

As a stock rustler, Baca has long been known, but his chief escape in this direction occurred last summer when he stole 200 head of horses belonging to Hon. Amado Chavez and Col. Frost and drove them from Valencia county to southern Colorado, where he sold them for \$2 a head.

### ROUND ABOUT TOWN.

Frank Lechuga's wife departed this life last night after a brief illness.

M. B. Salazar has removed his filigree manufactory from Palace avenue to the corner of "Frisco" street opposite the cathedral.

Messrs. Johnson & Peterson have fitted up a neat store room on the plaza and will open a new stock of boots and shoes about the 1st.

The plaza improvement has so far progressed as to assume the shape in which it will appear when completed, and it is going to be an improvement sure enough.

Bonifacio Encinas, an old timer, familiarly known as John Sullivan, crossed over the dark river yesterday, dying of pneumonia. He was given decent burial to-day by the St. Francis society of which he was a member.

The fire company was called out with a rush about 10 o'clock to-day, but it proved a false alarm. A great smoke arose from a kettle of tar back of the Exchange hotel and this caused on-lookers to set up the cry of fire.

Rev. Antonio Jouvencan, who has lately returned from a trip through San Juan and Rio Arriba county, comes back convinced that the cream of the Rocky mountain country is up that way. He says Wm. Coe, of Farmington, has just sold 200,000 pounds of apples to Denver parties at 5 cents a pound.

The big consignment of wool mentioned yesterday as coming from Merchant Dow, of Valencia county, was consigned to E. J. McLean, the wool merchant, and not Mr. Staab. The latter sold a wagon load of merchandise to these freighters, and Mr. Cartwright sold them 12,000 pounds of flour.

The Ladies' Aid society of the Presbyterian church will meet at the manse on Wednesday, Oct. 25, at 3 o'clock. As special business of great importance, in which the whole congregation is interested, will come before the meeting. All the ladies, whether members of the society or not, are earnestly invited to be present.

H. B. Hersey returned last night from a camp hunt in the Valle mountains. He caught only a tarantula and a centipede. All game has been frightened out of that region for the present by a score of cowboys who are dashing over the country on a cattle round-up.

Foster, the weather prophet, had the present chilly snap down on his program all right enough. As to the future he says: "The first storm wave of November will reach the Pacific coast about October 29, cross the western mountains at the close of the 30th. Temperature will probably average above the usual for the season, rainfall a little above the average, and force of storms a little below the average."

H. W. Eaton has returned from Abiquia and states that the mining machinery for the Bucyrus company's experiments on the Chama placers is probably on the ground by this time. Seven teams left Abiquia for Chama one week ago to bring in the first installment of the machinery. The whole plant weighs eighty tons and required six cars to carry it. Dr. Doll, president of the company, resides at Buffalo, N. Y.

The program for this afternoon's plaza concert by the 10th infantry band will be as follows:

March—7th U. S. Infantry Regiment  
Overture—College.....Th. Burkhardt  
Waltz—Schre Las Olas.....J. J. Ross  
Spanish Pandango—The Pearl of Madrid.....G. Bachmann  
Japanese Dance.....J. D. Baker  
Yorke—One Heart, one Mind.....J. Strauss  
Gov. Thornton, J. W. Akers, E. W. Judkins and others are out in the valley this afternoon with a pack of seven gray hounds, having no end of sport chasing jack rabbits.

### PERSONAL.

T. J. Carey, of Chicago, registers at the Exchange.

John H. Knaebel, esq., left last evening for Denver.

Mrs. E. J. Pascoe, of Creede, Colo., is a visitor at the Exchange.

Philip J. Barber returned last night from a visit to the World's fair.

Hon. B. M. Read and family returned last night from a visit to Mera county.

Hon. J. E. Saint and family, of Albuquerque, have gone to the World's fair.

John Nolan and George Washburn, of Kansas City, are seeing sights hereabouts.

H. S. Clancy and J. A. Armstrong left this morning for a visit to the Dolores mines.

Apolonio Martinez and Francisco Maestas, sheep men from El Rito, are in the city on business.

Hon. A. L. Kendall and Harry Soranton came in from Cerrillos this morning and are at the Exchange.

Myer Friedman, the well known Las Vegas merchant, is here to-day.

Col. E. W. Eaton, of Socorro, is in the city en route to the World's fair.

O. W. Marron, of Albuquerque, it is understood here, is to be clerk of the district court under Judge Collier.

Antonio Fink came over from Las Vegas last night to attend the funeral of his infant child which took place to-day.

W. W. Miller, Cerrillos; S. Y. Seyburn, U. S. A.; J. W. C. Love, City of Mexico; J. W. Hagan, New York, are at the Claire.

James Boice, of Durango, and Chas. M. Dickson, of La Jara, Colo., came in from the north on last night's narrow gauge train.

Billy Price's family have arrived from Washington city and will make their home here, being domiciled in the Hickox cottage on College street.

Father H. M. Ferrari, of the Revista Catolica, spent the Sabbath over in Santa Fe, arriving at home on to-day's train.

Las Vegas Optic.

Messrs. Wallace and Francis Baker returned last evening from an extended visit to central Illinois and the World's fair. Major Baker and family return on Saturday next.

At the Bon Ton hotel: Jose A. Garcia, Albuquerque, N. M.; James Boice, Chas. Anderson, Durango, Colo.; W. W. Wilson, Harrisburgh, Pa.; Apolonio Martinez, Francisco Maestas, El Rito, N. M.; John Nolan, George Washburn, Kansas City, Mo.; James A. Logan, El Paso, Texas; Chas. M. Dickson, La Jara, Colo.

Capt. S. Y. Seyburn, of the 10th U. S. infantry, arrived from the east last evening and is the guest of Dr. Symington.

Capt. Seyburn is kindly remembered by Santa Feans as regimental adjutant at Fort Marcy in 1890 and '91. He stopped off at old Fort Union for a hunt with Capt. Shoemaker, and goes from here to Fort Stanton, to which station he has recently been assigned.

The business of the federal building continues very quiet.

REGISTER AND RECEIVED'S OFFICE.

In San Juan county, near La Plata, Isidella Firebaugh has entered 120 acres under the desert land law, adjacent to the east side Mesa ditch.

In Bernillo county, Robert R. Elder, has made two entries, a desert land and homestead of 160 acres each. They are very close to Albuquerque, and it is supposed he intends to cultivate this land by means of wind-mills. Harry Whiting has also taken a homestead.

In Rio Arriba county, near Amargoso, E. M. Biggs and J. F. Evans, have filed declaratory statements on coal locations; and in Valencia, George W. Fitzpatrick, has entered a homestead.

THE SURVEYOR GENERAL'S OFFICE.

Gen. Easley returned to the deputies the plats of the Union group of mines near Santa Rita, Grant county. As soon as they are corrected the proper entries will be made.

The public surveys will begin as soon as orders come from Washington. There are now applications for surveys of townships near San Isidro, in Bernillo county; Panasco, in Lincoln county, and several along the line of the A. & P., and in the Manzano valley. In Eddy county there are six or eight townships to be surveyed. There is some settlement on all of these.

THE INTERNAL REVENUE COLLECTOR says there is nothing new except that the amendment to the Geary act retains the provision to photograph the heathen. John will have therefore to have his picture taken.

THE RAILROADS.

The conductor, engineer or brakeman who allows a tramp to ride on his train into El Paso will hereafter be subject to a fine of \$100 or imprisonment or both. The city council of that town has passed an ordinance to discourage the tramp nuisance by making the employs of railroads running into the place guilty of an offense for not kicking all vagabonds off their trains, before they get into the border city.

Despite all reports to the contrary, the Deming Headlight asserts that John W. Young, who seeks to build a new road from Deming into Mexico, is now operating under an entirely new agreement with the government, the terms of which are even more favorable than the one declared forfeited.

Judge Waldo, solicitor for the A. T. & S. F. in New Mexico, has gone to Topeka to attend the annual meeting of the A. T. & S. F. company which takes place on Thursday. The annual meeting of the directors in the A. T. & S. F. sub-corporations in New Mexico, ten in number, will take place at Santa Fe on Nov. 2.

The Cameron railroad survey party were in Taos on Saturday last. They are very reticent as to what their business really is or what company they represent.

TWO MURDERERS.

A Hanging Probable at Hillsboro—A Domestic Tragedy—A Navajo Convicted.

The case of the United States vs. John Vandever, a Navajo Indian, charged with the murder of his brother on the 4th of July last, was tried in the U. S. court at Albuquerque yesterday and the jury returned a verdict of manslaughter.

In the district court at Hillsboro a rather sensational case has just been closed with a verdict that declares one Armijo guilty of murder in the first degree.

About two years ago the body of Mrs. Armijo was found in a pool of water, about a foot deep, near her residence at Cuchillo Negro, and as her husband showed the imprint of a rope, her neck was arrested as being the murderer. It was proven when he was first tried, the present trial being the second on account of the jury disagreeing, that seven days after the finding of the body of his wife he was joined in marriage to another woman, and it was also developed at the trial that he took the life of his wife for the purpose of remarrying.

### COMING WEATHER.

An Official Forecast of What May Be Expected During November.

U. S. DEPARTMENT OF AGRICULTURE, Weather Bureau, Santa Fe, N. M., Oct. 24, '93.

The chief of the weather bureau directs the publication of the following data, compiled from the record of observations for the month of November, taken at this station for a period of nineteen years.

It is believed that the facts thus set forth will prove of interest to the public, as well as the special student, showing as they do the average and extreme conditions of the more important meteorological elements and the range within which such variations may be expected to keep during any corresponding month.

Temperature.—Mean or normal temperature, 37.3 deg. The warmest November was that of 1873 with an average of 42.7 deg.; the coldest November was that of 1880, with an average of 29.6 deg. The highest temperature during any November was 73 deg. on November 2, 1881; the lowest temperature during any November was 11 deg. below zero on November 18, 1890; average date on which first "killing" frost occurred (in autumn), October 10.

Precipitation (Rain and Melted Snow).—Average for the month, 0.86 inches; average number of days with .01 of an inch or more, 5; the greatest monthly precipitation was 2.15 inches in 1878; the least monthly precipitation was .001 inches in 1872; the greatest amount of precipitation recorded in any 24 consecutive hours was 1.03 inches on November 9, 1878; the greatest amount of snowfall recorded in 24 consecutive hours (record extending to winter of 1884-5 only) was 5 inches on November 26, 1888.

Clouds and Weather.—Average number of cloudless days, 16; average number of partly cloudy days, 10; average number of cloudy days, 4.

Wind.—The prevailing winds have been from the north. The highest velocity of the wind during any November was 36 miles on November 24, 1877, and November 10, 1882.

In Charge of Weather Bureau.

THE WOOL MARKET.

The markets of Philadelphia, Boston, New York and Chicago continue dull. The largest single sale reported is 800,000 pounds of New Mexican wool in the grease at a price ranging from 12 to 13 cents. This was sold in Boston. If the freight and the middle-man's charges of at least 50 per cent are subtracted it can be seen what the raiser got for his clip. The general report is that in the west there are immense quantities of wool held at prices away out of sight compared with sea-board quotations, and the growing tendency east is to make no concession.

Wanted—Good agents everywhere for latest office specialty. Sells itself. Big pay. Write now. Am. Lock Crank Co. Milwaukee, Wis.

THE ARMY.

Condition of Affairs in the Department of Colorado as Shown by Gen. McCook's Report.

The annual report of Brig. Gen. A. M. McCook states that the change of headquarters to Denver is very beneficial as it saves often ten days in the transmission of official communications and orders. The department covers Arizona, New Mexico, Utah and Colorado, with an area of 424,495 square miles, 822,026 white people and 40,784 Indians. To oversee all this are thirteen posts and about 2,500 soldiers. He recommends that the Fort Union, N. M., and Fort Verde, A. T., reservations be turned over to the interior department and opened for settlement.

The number of desertions in the department during the year is reported at 59, against 40 for the previous year.

There were 166 enlisted men tried by general court martial during the year, from the different organizations serving in the department, including deserters, etc., and from other organizations, as against 182 reported for 1892.

There has been a noticeable decrease in the number of trials by general court over last year. A marked improvement in discipline is also indicated by the reduction of over 500 in the number of cases tried by inferior courts, the average enlisted strength remaining about the same.

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Simply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds it indispensable for sick headache and biliousness, while others report remarkable cures of scrofula, catarrh, rheumatism, salt rheum, etc.

Hood's Pills are purely vegetable.

The Last Chance for Cheap Rates to the East.

Chicago and return \$28.75; St. Louis and return \$25.25. Continuous passage in each direction, tickets will be sold up to and including Oct. 31. Final limit to return Nov. 15, 1893. One way rates continuous passage Chicago \$21.90; St. Louis \$20.00; Kansas City and Missouri river points, \$18.75. City ticket office, First National bank building.

H. S. Lutz, Agent.

### THE INDIAN SCHOOLS.

The St. Catherine School to Reopen—An Official Blunder—The U. S. Indian School.

St. Catherine Indian school, which shut down last fall because the government was some \$8,000 behind in its payments, is likely to resume again at an early day. Archbishop Chapelle has been in Washington city recently, and after a conference with the officers of the Indian bureau has made arrangements to this end. The school will accommodate about 100 Indian boys.

A BLUNDER.

Prof. Chase, of Ramona school for girls, is advised that all government contracts for denominational schools as formerly executed for the current fiscal year, after having been approved by the secretary of the interior, have been rejected by the second comptroller of the treasury department. This necessitates the preparation of new contracts for all schools. He is in receipt of new contracts for the sixty-five pupils under his charge and will forward them at once. These new contracts are made a personal matter between the superintendent and the government, and not as heretofore between the Indian school "by" so-and-so as superintendent.

THE U. S. SCHOOL.

Col. Thos. M. Jones, special agent of the interior department, has been engaged for ten days past taking an inventory of the property at the U. S. Indian school. It is a big job, as every article about the premises must be noted in order to complete the transfer which relieves Supt. Carl from responsibility. An intimation comes from Washington that the department has selected a Louisiana man as new superintendent, but no name is mentioned. About the first of the year this school will be in operation with 130 pupils to begin with. Extensive improvements in the way of new buildings will be made in the spring.

Out of order use Beecham's Pills. Pleasant rooms and first-class table board at the Gildersleeve residence, upper Palace avenue. Apply to Mrs. Kelly.

To Rent.

The Palace hotel in Santa Fe, N. M. Completely furnished. Possession given immediately. Address, R. J. Palen, Secretary Santa Fe Hotel Company, Santa Fe, N. M.

Get your stoves repaired and put up before it gets cold by T. A. Goodwin, the tinner and plumber.

Coal Notice. On and after October 1 orders for coal must be accompanied with the cash to receive attention. Dunbar & Davis.

### A Novel Souvenir Spoon.

THIS SPOON, as a souvenir of Arizona, is decidedly unique and appropriate. It is distinguished by a design, picturing a scene that is an everyday feature on the streets of the cities and towns of the territory. A Pima Indian woman is represented, supporting on her head an olla which rests upon a twisted wire of bear grass, and awaiting a customer for her ware. Statuesque and graceful as is the figure, it is perfectly true to nature, having been designed from a photograph taken from real life for the purpose.

The olla (usually pronounced o-yer) is a large jar or bowl of pottery for storing and cooling drinking water. It is altogether an Indian invention, and is made of a mixture of clay and sand, the material being moulded exceedingly thin by the deft hands of women, and baked to a brilliant red.

In this climate receptacles for cool water are indispensable in every household, and thus the olla is a most useful and a ready market for them in every town.

It is no uncommon thing to see four or five of these children of nature, picturesque in their gaudy colors advancing with stately tread down the street, each with an olla on her head, as represented in this charming Souvenir.

Send by mail to any address on receipt of price \$1.00. Made in Sterling only. The cut exact size of spoon.
