WONDERFUL

TO
RELATE.

Mr. Geo. W. Knaebel, a recent convert of Goebel's crack heater the "Estate Oak" got the fire in his stove so low on Tuesday at 8 p. m. that he concluded it had gone out, returning at 9 p. m. he found the stove ice cold, but on his arrival at 9 a. m. on Wednesday morning his surprise knew no bounds when he saw his Estate Oak still a going and his office at a normal temperature. For affidavits, etc., call on G. W. Knaebel. The stove is sold by

BRIEF WIRINGS.

WASHINGTON NEWS.

The President Sends to Congress His Special Message on the Hawaiian Affair.

Wants Congress to Restore the Queen—Lil Hints at Damages—Other National News Notes.

THE PRESIDENT'S HAWAIIAN MESSAGE.

Washington, Dec. 18.—In response to the resolutions of both houses the president to-day sent to congress information on Hawaiian affairs. He says he believes congress should take up the matter, owing to the difficulties in the way of executive action, the course followed to be determined by right and justice. The proposition of annexation tendered to the United States by the provisional government, he says, has not the sanction of the people. He thinks it was his duty to withdraw the treaty from the senate for examination and meanwhile caused an impartial investigation to be made. The president says also that the Harrison administration was misled on the whole policy of the government in Hawaii, and he gives a brief statement of the facts that led up to the overthrow of the queen. He commends Blount, whose report accompanies the message. Mr. Cleveland further says the queen was misled by being told that her cause would be reviewed at Washington. The present government there owes its existence to misrepresentations and the armed forces from the United States. The president says he shall not again submit the treaty for annexation to the senate, and the United States should vindicate their honor by making all possible reparation and give back her own to the queen of Hawaii.

In conclusion, the message says that Queen Liliuokalani declines to accept restoration to the throne as full reparation for the damage she has sustained.

POSTAL AFFAIRS.

There are now 423 vacancies existing in presidential postmasters by expirations and resignations. Four hundred and sixty-five commissions will expire this week. It is probable that there will be forty new presidential offices created next month.

THE NORTHWESTERN THIEF.

Senator Hansbrough, of North Dakota, made an elaborate speech in the senate this morning advocating the expenditure of \$1,000,000 by the agriculture department for the extermination of the Russian thistle, which is overrunning several western states. He thought the pest more to be feared than the locust or grasshopper plagues.

Silver and Lead.

New York, Dec. 18.—Silver bullion is quoted to-day at 69 1/2. Lead \$3.20.

Socorro County Murder.

Socorro, N. M., Dec. 18.—Jose Romero, a mail carrier in this county, was robbed and murdered near Magdalena yesterday. Two tramps are suspected.

Denver & Gulf Freight Agent.

Denver, Dec. 18.—Fred Wilder, jr., was appointed general freight agent of the Denver & Gulf railroad to-day by Receiver Trumbull.

Blizzards at Large.

Denver, Dec. 18.—Blinding blizzards, snow and ice, with bitter weather and the thermometer below zero, are reported from several eastern, middle and northwestern states to-day.

Buffalo Flooded.

Buffalo, Dec. 18.—South Buffalo has been visited by a disastrous flood. It is estimated that 1,000 people have been driven from their homes. A total area of five square miles is under water. The money loss will be enormous.

New York Banks.

New York, Dec. 18.—The weekly bank statement shows the following changes: Reserve, decrease, \$398,600; loans, increase, \$3,078,300; specie, decrease, \$1,851,800; legal tender, increase, \$1,651,900; deposits, increase, \$2,748,800; circulation, decrease, \$145,700.

The banks now hold \$76,167,827 in excess of the requirements of the 25 per cent rule.

Shot a Foot-Pad.

Kansas City, Dec. 18.—An unknown foot-pad was shot and fatally wounded early this morning by Jacob Bruner, manager of the Home Telegraph company. A woman whom the foot-pad was after rushed into the telegraph office and Bruner and Heckman Barton took a revolver and went to meet the man. The foot-pad shot Barton in the thigh when Bruner sent a ball above the man's head. He is now dying at Police headquarters.

A Split in Diaz's Cabinet.

City of Mexico, Dec. 18.—Senor Baranda, secretary of justice and public instruction, will resign his place in the cabinet. The reason given is the passage of a bill making the tenure of the office of the judges of the supreme court for life or during good behavior. Baranda is quoted as saying he has been improperly treated by President Diaz in the way this bill has been handled.

Garza in Costa Rica.

San Antonio, Texas, Dec. 18.—J. Morrow, an official of the Costa Rica railroad, formerly in the employ of the Mexico National railroad, arrived here this morning bringing direct information of Catarino Garza, the Mexican border revolutionary leader, for whose capture and delivery the Mexican government offers \$30,000. Morrow said Garza is in Costa Rica, stout and healthy, and enjoying himself. He holds important offices in that Republic. Mexico has no extradition treaty with Costa Rica, hence Garza is safe.

THE DOHERTY KILLING.

Reward of \$500 Offered by the Governor—Total Reward of \$3,000 Offered in the Interest of Justice.

The governor has issued a proclamation offering a reward of \$500 for information leading to the apprehension of each of the two men, supposed to be at least two, who so brutally murdered Sheriff John Doherty, of Mora county, on Saturday night last a week ago. The Doherty estate also offers a reward of \$2,000 to the same end. The proclamation reads:

Whereas, John Doherty was assassinated at his home in the county of Mora, in the territory of New Mexico, on the 9th day of Dec., 1893, by certain persons whose names are unknown, now therefore, for the purpose of bringing his assassins to justice, I, W. T. Thornton, governor of the territory of New Mexico, hereby offer a reward of \$500 each for the production of testimony which will lead to the arrest and conviction of the persons committing such assassination, said reward to be paid out of any money in the territorial treasury appropriated for rewards to be offered by the governor for the apprehension of criminals.

In witness whereof, I have hereunto set my name and caused the great seal of the territory of New Mexico to be affixed this 16th day of Dec., A. D. 1893.

STATEHOOD DISCUSSION.

Success for the Territories Means the Control of Legislation by the West.

Eastern Opposition Springs Up. But the New States Will Win—Colorado's Loyalty.

Before this congress ends the country west of the Mississippi with any three states east of the river will control the senate of the United States. The temper of congress upon the question of new states is a surprise. Bills for the admission of Utah and Arizona have passed the house. The New Mexico bill will pass before the holidays. Action by the senate will be as certain, though perhaps not as rapid. A majority for admission seems to be already assured in the senate by the avowed intention of the Silver state Republicans to vote with the friends of the admission. Utah, Arizona and New Mexico, it now appears, will be able to send two senators apiece to the United States senate in a very few months, that is, barring

A PRESIDENTIAL VETO of the bills. This did not seem at all probable a few weeks ago. The current of sentiment in favor of admission has set in very suddenly and vigorously. This current of sentiment is not based so much on the growth of feeling on the part of the west against the east. The west with enough southern support to win, is pushing this fight for three more states.

The admission means a great deal more than appears on the surface. How many people have thought to count that with these admissions there will be twenty-one sovereign states west of the Mississippi, that is, if Louisiana be counted as trans-Mississippi. There will be forty-seven states, and twenty-one of them west of the river. These, with Mississippi, Tennessee and Kentucky, which border on the Mississippi, or within any three other states east of the river, will hold a majority in the United States senate of 48 to 46. With the admission of Utah, Arizona and New Mexico the center and control of the legislative branch of the government moves to the Mississippi river.

A BILT WITH AN IOWAN.

Mr. Hepburn, of Iowa, precipitated a very lively discussion of the merits of the Arizona bill. He said the house ought to stop and consider what it proposed to do when it passed this bill. It proposed to give Arizona four sections in every range, or one-ninth the total area of the state, 74,000,000 acres. In addition to this, it gave a part of the proceeds one-tenth of the land sales, besides several other grants of 10,000 acres.

Mr. Smith, the Arizona delegate, interrupted to declare that Arizona would get by this bill just what Iowa got. This Mr. Hepburn denied.

To a suggestion that people would leave Iowa to go to Arizona, Mr. Hepburn simply moved his hand contemptuously.

A COAST REPUBLICAN.

Mr. Bowers (Republican of California), in a heated reply, drew a graphic picture of the valleys of Arizona, more fertile, he declared, than the plains of the Nile. In five years, he predicted, the population in Arizona would be increased over four-fold. Very few amendments were adopted. One increasing the grants of land for state institutions as follows:

One hundred thousand acres each for an insane asylum, penitentiary and deaf and dumb asylum, and 50,000 acres for a hospital for disabled miners, was adopted, also one striking out the scale of fees for court officials and making them conform

to existing law. The Republicans generally did not refrain from voting on the final passage of the bill, although many of them voted against it.

As soon as the vote was announced Gen. Wheeler moved the house go into committee of the whole on the bill on admission of New Mexico. The motion was carried without division. The debate that followed took a wide range.

Gen. Bingham (Republican, Pennsylvania) made a speech in opposition to the policy of bringing these territories into the Union.

COLORADO'S LOYALTY.

Mr. Pence, of Colorado, in reply, said he deprecated the fact that the silver question had been dragged into this discussion by Mr. Harter, and that politics had been brought into it by Mr. Hepburn. He should vote for the bill as he has voted for the bills for the admission of Utah and Arizona. He felt in honor bound to do so. On the Republican side of the house, he said, he found a disposition to admit Utah, Arizona and New Mexico if there was any guarantee that Oklahoma, which was a Republican territory, would also come into the Union. There had been some hesitation about Oklahoma. He called upon Gen. Wheeler, the chairman of the territorial committee, to say whether a bill for the admission of Oklahoma would be reported. Gen. Wheeler in reply stated the difficulty in the way of the admission of Oklahoma was the five civilized Indian tribes, whose treaties with us gave them power to prevent the admission of that territory. He said the president would probably send a commissioner to treat with the Indians.

SILVER CITY nuggets.

Between the hours of 10 and 11 o'clock Thursday night Doctor Henry Woodville died of paralysis of the heart.

There is a rumor that Louis Timmer, a well known old timer in Silver City, dropped dead in the streets of Tucson a few weeks ago. An Enterprise reporter tried to ascertain the truth of the report but could not learn anything positive in regard to it.

Messrs. Kemp and Collier, of the Ivanhoe Copper Mining and Smelting Co., left on yesterday's train to purchase a new smelting plant to replace the one recently burned. Two stacks will be erected instead of one as before the fire. The mine shows a body of ore over twenty feet in width which averages 20 to 25 per cent copper and carries eight to twelve dollars per ton in gold and silver.

Joseph Turner, Or the Victim of a Conspiracy, will be the title of the book to be published by Hon. J. J. Bell of this city. The book is replete with humor and readers of the same will have a surfeit of good things. If our friend John writes as he talks the work will be a brilliant success and the name of John J. Bell, as a humorous writer, will take front rank among the many who have already achieved fame and fortune.—Enterprise.

ALBUQUERQUE NOTES.

The funeral of Sylvester Parker took place Saturday afternoon at 2 o'clock, from the late residence on Arco street. The city is itself again, Wiley M. Weaver, John A. Lee and C. W. Kennedy have returned home from Los Angeles, Cal.

Receiver Saint of the New Mexico Savings Bank & Trust company, shipped 375 head of cattle to Kansas City last Friday.

Ed Corrigan's string of race horses, twenty-two in number, arrived in the city yesterday by express on No. 14. They were unloaded here and will be rested up at the fair grounds for a couple of days.

Hon. Edmund G. Ross is looking forward with boyish delight to a reunion with his children during the holidays. Mrs. Lilian Leis, of Lawrence, Kas., with her son Edmund and Mr. and Mrs. George W. Miles, will reach here on the evening of the 20th, and will remain for ten days or two weeks.—Times.

SILVER CITY REMOVED.

It is rumored that Capt. Hyland is about to move his shaft from Kingston to Rincon.

The officials of the Percha bank of Kingston give notice that they will shortly remove that institution to Hillsboro and consolidate it with the Sierra county bank.

A foot race for \$500 a side is being arranged between young Whitehill, of Silver City, and Otto Gentz, of Hillsboro. Whitehill writes that he has already deposited \$250 forfeit and gives Gentz ten days in which to cover it.

On Wednesday during a difficulty between C. C. Wilson, a freighter, and a Mexican named S. Campos, the latter received a terrible beating and had to be taken home in a wagon. His skull is laid bare in places. Wilson was arrested and placed under \$250 bonds to await the result of the Mexican's injuries.—Advocate.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, DECEMBER 18.

On with the statehood movement.

The state of New Mexico, long may she wave.

The territorial paper of New Mexico: the New Mexican; long may it wave.

New Mexico sends 100,000 more fat cattle to market this year than the state of Texas. On with the statehood movement.

Turns journal is making the fight for statehood for New Mexico as it makes every other fight it undertakes; for all there is to it and in it.

When a man is out of work and hungry, congressional speeches in favor of the Wilson bill and the theory of free trade will not do him any good.

FULLY 5,000 miners have come into New Mexico from the northern Rocky mountain states during the past six months. On with the statehood movement.

The Georgia Democratic legislature now in session is strongly in favor of wild cat money and eastern capitalists having money to invest are commencing to fight very shy of investments in that state; who can blame them?

The go-ahead and public spirited citizens of New Mexico must set to work and aid the passage of the bill for an enabling act for this territory with might and main; there is no time to be lost.

The new tariff bill cuts off about \$50,000,000 revenue and \$300,000,000 from the wages of the American workmen. That's the kind of a reform the Democratic bosses in congress and the present administration favor.

VICE-PRESIDENT ADLAI STEVENSON is traveling through the south; he has his eye on the Democratic national convention to be held in the summer of 1895, hence his travels; he believes that the early bird catches the worm.

The announcement that the first shipment of cotton has been made direct from Houston, Texas, to Manchester, Eng., by water, is one more step toward commercial independence for the southwest. This will cause the New Yorkers to prick up their ears, no doubt, but for the southwest it means that we are going to attend to our own business in the future.

The workmen of this country who supported the Democratic platform and the Democratic candidates in November, 1892, are now paying dearly for that piece of foolishness; responsible estimates put the number of working people out of employment this winter at 3,000,000. A year ago under a Republican administration all these people had work at remunerative wages, were well fed, well housed and happy.

THE REPORTED SALE OF THE NEW MEXICAN.
A few days since it was reported upon good authority that the New Mexican, of Santa Fe, had been sold to the Democrats, Gov. Thornton to be editor in chief. In fact, the report has since been confirmed by one of the parties most interested.

From a circular letter received by a prominent Republican in this city, however, it would seem that the sale is still in the balance of trembling anticipation. The circular, which is issued by Max Frost, is an appeal to all brother Republicans, delinquent subscribers, to get a move on them and pay up—in order to so fill the coffers of the present management that the "party organ" may be able to bridge a financial chasm, thereby saving it from the awful fate of Democracy.

Evidently the present management is flying the banner of party patriotism, and most diligently so, for a purpose more selfish than patriotic. It is a most cleverly laid scheme, to say the least, to provide for a snug little reserve at the expense of paid up party patriots, when the management shall change, in the near future.

The Republican party has an unequalled

reputation for dealing tricky schemes, and Max is an apt and faithful disciple. —Albuquerque Democrat.

The above is incorrect in every particular. Indeed, it is a bald falsehood, except in one point, and that is, that some Republican in Albuquerque may have received a letter concerning the proposed sale of the New Mexican.

The truth of the matter is as follows: Hearing that negotiations for the sale of the New Mexican to a syndicate of Democrats were pending, several prominent Republicans, realizing the great value and past successful services of the New Mexican to the Republican party, set to work to organize a syndicate for the purpose of raising funds to purchase the stock of the company to keep the paper a Republican paper, three fourths of the present stockholders desiring to sell.

As far as the strictures on the New Mexican and its editor in the above article are concerned, they are not worth noticing, as no sane person cares a continental red cent about the editorial utterances of the Albuquerque Democrat.

The syndicate of Republicans alluded to herein, may be successful and again it may not. Veremos.

Press Comments on Territorial Affairs.

Another Guess Concerning the New Mexican.

The reported sale of the New Mexican is said to have fallen through.—Albuquerque Citizen.

Hearken, ye Republicans.

If the Republicans of New Mexico will join in they can help make the Citizen a valuable party paper.—Albuquerque Citizen.

Good Investments.

Really good agricultural land in the irrigated valleys of New Mexico has depreciated very little since the financial depression set in, and the only reason it is not selling actively is the scarcity of money.—Albuquerque Citizen.

Support the Statehood Movement.

Statehood for New Mexico is coming. When it does come be sure you are on the right side of the fence. The only way to do this is to give the movement your hearty support from now on.—Eddy Citizen.

A Word to Republican Congressmen.

The admission of Utah, New Mexico and Arizona has been made a question of politics. The Republicans are wrong in this. New Mexico is not Republican, but if statehood is given us by Democrats over Republican opposition, this will make New Mexico Democratic.—Las Vegas Optic.

The Result in Union County.

Had not the snow storm keep the sheep men at home, Union county would probably have had a different result to publish. The majorities there were entirely too small to entitle the Democrats to claim a title in fee to the county, even had a full vote been polled; and at the next election the Republicans may easily recover in the second half what the Democrats gained in the first half of the county vote.—Springer Stockman.

The Statehood Proposition.

No one can afford to fight the statehood proposition. It means everything to New Mexico, and the man who would put so much as a straw in its way will go on record as a traitor to himself, to his country and all its interests. Do you want to be thus branded? Do you want to be known the world over as untruthful, uneducated, a link of antediluvian days, in fact a creature unevolved, unfit to bear the glorious title of "an American citizen"? If so, vote against statehood.—Eddy Citizen.

The Admission of New Mexico.

Senator Dubois, of Idaho, predicts that the Utah bill, now under discussion in the house, will pass that body by a handsome majority, and that it will be endorsed by the senate. He says that indications are that New Mexico, Arizona and Oklahoma will be admitted this session. He will support their bills and thinks that the Democratic senators will vote solidly. He does not know the position of Senators Teller and Wolcott, but believes they will vote for admission. Even if they oppose the admission of New Mexico, Dubois thinks they can not prevent it. Such is the telegram from Washington, D. C. It hardly seems probable that the Colorado senators will oppose the admission of New Mexico. Should they be thus idiotic, their opposition will cost their state more than has ever been known in their history, hitherto.—Las Vegas Optic.

Statehood and Irrigation.

A question upon which the changes have been so often rung that it may become wearisome, but one of such vital importance that no one interested in the welfare of the territory can afford to let rest, is that of statehood; and one of the most beneficial results of self-government will be the repeal of the alien land law. Our almost boundless tracts of arid land can be made to blossom with countless productive farms through irrigation; but from the nature of the country this can only be accomplished by building large storage lakes and extensive systems of canals and ditches; to do this requires more capital than the as yet undeveloped resources of the territory can produce, and consequently we must look to foreign money that usually takes the form of a syndicate, but the "old man of the sea" that sits astride of the

shoulders of New Mexican prosperity has prevented any satisfactory progress. And here the two apparently entirely different questions become as one, for to get these irrigation systems we must have foreign capital; to get foreign capital we must rid ourselves of the alien land law, and to do this we must have statehood. This is the question in a nutshell; and still we find a few—who are glad to say, however, that they are a few—who are opposed to statehood.—Springer Stockman.

Go it, Congress! Let Us In as a State.

The combination in congress is said to be such that the territories stand a good chance of an early admission to the sisterhood of states. New Mexico, Utah and Arizona each has a Democratic delegate in congress. The Democrats think that if these territories are admitted as states each will elect a Democratic representative in congress and Democratic senators. To make the Democratic supremacy of the next congress doubly sure it is thought best by the powers that be to admit these territories immediately. There are bills prepared for the admission of the territories and they will be vigorously pushed to passage. The bill admitting Utah was brought up the first of the week in the house, but Representative Dingley, a Republican from Maine, filibustered against its passage and succeeded in preventing its getting through the house. The Democrats are said to be determined to admit the territories and they have the necessary majority in both houses to succeed in their attempt. Go it, congress; the people of this territory are willing to promise almost anything in order to become a state, but the fulfillment of the promises may be as unsatisfactory as were the promises of the northern territories admitted a few years ago.—Lordsburg Liberal.

SHOOTING STARS.

Out of Sight.
Although her ma is sitting near,
The fact my heart but little grieves,
For I can whisper in her ear
Behind her leg of mutton sleeves.

Always Giving Satisfaction.

Brandreth's Pills have always given satisfaction. In fifty years there has been no complaint of them. That is about their life in the United States and millions of persons have used them. There is no doubt that they have established themselves by merit alone. They cure rheumatism, dyspepsia, piles, liver complaint, biliousness, and any disease arising from an impure state of the blood. One or two at night on an empty stomach, for a week or two, will keep you in good form and tone up the system. They are purely vegetable, absolutely harmless, and safe to take at any time.

Sold in every drug or medicine store, either plain or sugar coated.

The Wrong Man.

A debt collector met P., a Bohemian well known at all the beer taverns in the neighborhood of Montmartre. I have in my pocket a bill for 200 francs which bears your signature.

Is it dishonored? P.—inquired.

No.

Then it isn't mine.—Le Diable Boiteux.

Seventy-five Convulsions A Thrilling Experience.

There is no one but at some period in life has an experience that stands out prominently beyond all others. Such is the case of John B. Collins, of Romeo, Mich., who says: "From September to January, before using Nervine, I had at least seventy-five convulsions. After three months' use I have no more attacks." Dr. Miles' Restorative Nervine also cures nervous prostration, headache, poor memory, dizziness, neuralgia, etc., and builds up the body. Mrs. J. R. Miller, of Valparaiso, Ind., and J. R. Taylor, of Logansport, Ind., each gained twenty pounds of flesh by taking it. Sold by A. C. Ireland Jr., on a guarantee. Get the Doctor's book, free.

In the Suburbs.

He—How do you do, Miss Brownstone; they tell me you have moved out to the country—er—at what time do the trains run out to your place?

Miss Brownstone (who has not yet been broken in to catch trains, wearily)—The trains go three minutes before I get to the station and at other times during the day.—Exchange.

Astonishing Fact, Suspected by Comparatively Few.

Things that embody the most truth are frequently among the last to be realized. Incredible as it may seem one in four has a weak or a diseased heart, the early symptoms of which are, short breath, oppression, faint and hungry spells, fluttering, pain in left side, smothering, swollen ankles, dropsy, wind in stomach, etc. Levi Logan, Buchanan, Mich., suffered from heart disease thirty years. Two bottles of Dr. Miles' Heart Cure cured him. "The effect of your New Heart Cure is wonderful."—Mrs. Eva Dresser, McGregor, Iowa. This favorite remedy is sold by A. C. Ireland Jr., on a guarantee for the Doctor's book, "New and Startling Facts," free.

A Devotion.

She (with emotion)—Do you truly care for me just as much as when we were first engaged?

He (with conviction)—Yes lovey, every single bit as much.

And at the time this conversation took place they had been engaged just fourteen hours eight minutes and twenty-five seconds.

Unluckiness of Being Lucky.

What brought you here? asked the judge, addressing the youth who was charged with drunkenness.

A streak of good luck, sir.

Well, you must have a strange way of viewing things.

It's just as I say, Your Honor. At the races yesterday I picked the winner.

Miles' Nerve & Liver Pills.

Act on a new principle—regulating the liver, stomach and bowels through the nerves: A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, rapid liver, piles, constipation. Unusually for men, women, children. Small, neat, sweet, 50 doses 25 cts. Samples free, at A. C. Ireland Jr., Denver, Colo.

Force of Habit.

At the hotel counter.
Clerk (stepping to the speaking-tube as he whistles)—Well, what is it?

The Agonizing Tones of Uncle Joshua (room, E front)—Send me up a belows. I've blown on this 'ere 'lectric light till I'm winded, an' it's burnin' yet.

Early Risers, Early Risers, Early Risers.

The famous little pills for constipation, sick headache, dyspepsia and nervousness. New Mexico Drug Store.

A Measure of Revenge.

Gladys—Oh, but I just hate that Mr. Masterson!

A Rebut.

Borrow (facetiously paying the way for a loan)—Say, Tom, what would you rather have in all the world than my nose for \$100?

Tightrope (who is grumpy)—Ten cents in cash.

SIX POINTS.

out of many, where Dr. Pierce's Pellets are better than other pills:

1. They're the smallest, and easiest to take—little, sugar-coated granules that every child takes readily.
2. They're perfectly easy in their action—no griping, no disturbance.
3. Their effects last. There's no reaction afterwards. They regulate or cleanse the system according to size of dose.
4. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.
5. Put up in glass—are always fresh.
6. They cure Constipation, Indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels.

THE COAL CAMPS.

A Talk With U. S. Mine Inspector Spears on the Present Coal Output of New Mexico.

Hon. John C. Spears, U. S. coal mine inspector for New Mexico, spent last night in the capital and left this morning for a trip of inspection to the Monero coal pits on the D. & R. G. line. He has recently inspected the mines at Gallup, Blossburg and Cerrillos. Gallup continues to be the banner producer, with Cerrillos now holding second place, having surpassed Blossburg. The Gallup mines are yielding 60 to 75 car loads of 20 tons each per day, employing 450 men. Most of this coal goes to Arizona and the Pacific coast. At Blossburg 143 miners are at work and the output is thirty-five to forty car loads daily.

At the Santa Fe county pits the coal production now amounts to: White-ash, semi-anthracite, 32 cars; Waldo, bituminous cooking coal, 8 cars; Lucas, anthracite, 13 cars; O'Mara bank, 2 cars, or a total of 55 cars a day. The White-ash alone has reached as high as 38 cars in one day. About 100 men are employed in these mines.

Mr. Spears is very much interested in the work of establishing a large exhibit of New Mexico coals at the San Francisco Mid winter fair. He thinks it would pay the A. T. & S. F. and A. & P. roads to do this, as the foreign coal used on the coast can not begin to compare with the New Mexico product.

The Land Court.

The U. S. land court's decision at Tucson against the confirmation of the Nogales de Elias grant, alleged to have been granted by the state of Sonora, Mexico, in 1843, has created a furor in Arizona. The town of Nogales is on this tract and Colin Cameron, the well known Arizona cattleman, was the principal claimant.

Several surveys have been made of the grant, each time it being bigger than the former survey. The size of it has varied from 25,000 to 75,000 acres, according to the surveyor. Ex-Lieut. Flipper took a hand in gathering testimony against the validity of the grant, and U. S. Attorney Reynolds was assisted in its prosecution by Hon. L. F. Parker, of St. Louis. The Tucson Citizen says:

"George Hill Howard came in on the Cameron interest. Mr. Flipper says he has it that Mr. Howard made a contract with the Camerons in 1875 whereby he was to get a half interest in the grant to secure its confirmation on the American side. Certainly, Howard has moved heaven and earth to get the confirmation. He got the recommendation of the validity of his claim from Surveyor General Wasson and the endorsement of it from three committees in congress. All of which availed nothing, congress having instituted the present court for such matters."

A Good Move.

Mr. Wilbur T. Cliver, New Mexico agent, of the land department of the A. T. & S. F. railroad, with headquarters in Las Cruces, is traveling through the territory agitating the raising of an exhibit which will be sent by the Atchison, Topeka & Santa Fe railroad to Europe. The railroad company is making strenuous effort to get outsiders interested in this territory and in this undertaking they should be given all of the assistance possible.

Mr. Cliver states that they desire displays of ore, grain, wool, also specimens of fruit trees and vines showing the growth of horticulture. These exhibits the railroad proposes to send to competent and painstaking agents in England, Germany and Scotland, who will see that they are placed where they will do the most good.

ROUND ABOUT TOWN.

The finest and best job printing at the New Mexican printing office.

Contractor Windsor is building a neat addition to Mrs. B. M. Thomas' residence. Judge Abeytia will open a term of the probate court on the first Monday in January. Considerable business will receive attention.

A fire at the Claire hotel, burned out about 10:30 last night and set the fire bell off under the impression that the big building was ablaze.

Col. Brady, superintendent in charge of the reservoir construction, says the earth work on the big dam will be finished by Wednesday night next.

A goodly crowd was at the federal building grounds on Saturday afternoon to witness the game between the juvenile foot-ball teams. "The Roughs," captained by Alonzo Ashford, beat "The Toughs" by a score of 10 to 8.

The New Mexican's weekly pay roll amounts to a large sum; the employees will be paid off to-day, and the merchants and the town will be benefited thereby. Every man who owns property here or does business here, should support this paper.

Prendergast, the Chicago crank who killed Mayor Carter Harrison, tells the court that several years ago he was a resident of Santa Fe, coming here, he explained, for the benefit of his health, and remained until his money gave out. Nobody here seems to have remembered the crank.

PERSONAL.

Mrs. W. C. Hurt has been quite ill for several days past.

J. W. Vroom, the well known Denver attorney, is visiting Santa Fe.

Hon. A. A. Jones, mayor of Las Vegas was a visitor in the capital city yesterday.

George Montgomery, a popular Albuquerquean, spent yesterday with Santa Fe friends.

R. W. Herrcke, superintendent of the White-ash coal mines, near Cerrillos, spent yesterday in the city.

At the Exchange: M. D. Lattin, Cerrillos; H. L. Fisher, Denver; M. J. Reeves, Taos; J. C. Spears, Gallup.

Herbert Haywood, of Boston, correspondent for several New York and Boston journals, is at the Claire accompanied by his wife.

Hon. E. L. Hall, U. S. marshal, returned from Socorro yesterday. He says the U. S. court there is attending to a big lot of business.

At the Claire: Ed. Spitz, Albuquerque; R. W. Herrcke, Cerrillos; A. A. Jones, Las Vegas; Herbert Haywood and wife, Boston, Mass.; T. Brown, Kansas City.

At the Palace: E. W. Ward, New York; W. P. Tucker, W. L. Ewing, James W. Vroom, Denver; J. H. Snedaker, Kansas City; J. W. Cooper, Glorieta; R. H. Lacklin, Antonio; Rev. A. G. Walsh, Italy; J. Levy, Trinidad.

Frank Deutcher and the adjutor of the Lion Insurance company started for Santa Fe on Monday week to sign the final papers for the adjustment of the loss he sustained by the fire a few weeks ago. It is understood he received \$450.—Amizett Miner.

Capt. Walter T. Duggan, 10th infantry, now at Fort Marcy, has been transferred to C company of that regiment, now stationed at San Diego, Cal, and he and his family will take their departure for that place in a few days.

Mrs. Mary Teate, formerly of Las Vegas, now superintendent of social purity work in California for the W. C. T. U., is a visitor in the city to-day. She has been traveling through the territory in the interest of her prison missionary work.

At the Bon Ton hotel: Geo. W. Daniels, Marks Preston, Durango, Colo.; Walter Mason, Horace Mason, Silverton, Colo.; Jose de Jesus Chaves, Abiquiu; F. M. Estes, Cerrillos; Louis Borot, Denver; Geo. Eschelman, 2d Cavalry; Alberto Armijo, Arthur Fitch, Albuquerque; Eugene Turcot, Charles H. Strong, Denver; E. W. Scott, Charles Winters, Amizett; Preston Jones, Bill Henney, Waldo; Valentín Chavez, Belen; Jose B. Montoya, Los Lunas; Isidro Montoya, Bernallillo.

DISTRICT COURT.

Sentences in the Cases of Arcé and Uilbarri.—The Webber Case Nolle Prossed.

In the district court late on Saturday afternoon sentences were announced in the petty crime cases against Frank Arcé and Pedro Uilbarri. The former was given three months in the county jail and a fine of \$100 on the charge of flourishing a deadly weapon. The court said but for Arcé's three little children the sentence would have been greater. Uilbarri, convicted of using a knife on a man named Gonzalez at Glorieta, was given six months in the penitentiary.

On the civil side of the court the case of E. T. Webber, charged with unlawfully extracting ore from the Parnell mine at San Pedro, was nolle prossed by the district attorney upon it being shown that the Lincoln-Lucky company, of which Mr. Webber is a member, was part owner of the property.

In the suit in assumpsit of C. H. Gildersleeve vs. J. H. Knaebel, judgment was given Mr. Gildersleeve for \$10,732.12.

The Drape Drawing.

The handsome drape which was made by Misses Rosenthal and Loeb, of Chicago, to be disposed of by lot for the benefit of the children at the Territorial Orphan's Industrial school, was won by ticket No. 5, held by Mrs. Cross. The drawing of lots took place at the big school room at 11 o'clock this forenoon and quite a company was on hand to witness it. There had been 214 chances sold at 25 cents each and Hon. L. A. Hughes, who seemed to feel slighted because he wasn't asked to take a chance, sent the orphans a \$5 bill, thus bringing the amount realized up to \$58.50.

At the drawing of lots Mrs. Ritzinger, of Chicago, took the numbers from one box, while Mrs. Cross took the blanks from another and the numbers were called aloud by Nellie Brady. After eighty-seven numbers had thus been called No. 5 was taken from the box and proved the prize winner.

The amount realized will be used to supply a Christmas tree for the children at the orphan school.

Amizett, the Cripple Creek of New Mexico, Showing Great Activity in Gold Properties.

Little or no snow has thus far fallen in the Taos mountains, and Amizett, the new gold camp, is showing remarkable activity in the development of gold properties. The Amizett Miner comes to hand to-day full of good things about this region. New strikes and sales—chiefly to Colorado parties—are of daily occurrence and the future for the whole Taos range seems to be particularly bright. Colorado men say that that state will send an army of not less than 1,000 prospectors into this part of New Mexico during the coming four months.

The Daily Mining Record of Denver devoted a column to Amizett last Saturday. It is a well written article and truly says that the finding of a poor, lone crevice containing a small portion of gold in Colorado will produce a stampede of hundreds of prospectors while a good find in Amizett, being a daily occurrence, produces no excitement.

A GREAT PROPERTY.

Says the Antonio Ledger:

"H. J. Sixty, who is managing the Lillian mine on the head of the south branch of Red river and across the ridge from Amizett, came in yesterday morning from the north expecting to go to the mine, to-day's equal chance him to change his mind. Mr. Sixty has great confidence in the Lillian. He has followed mining all his life and says this is the biggest thing he ever saw. The vein is fifty-two feet wide. A test of three sacks of ore gave 12 oz. gold, 40 oz. silver, and 13 oz. copper. A car of ore was shipped from Antonio last week from which returns have not yet been received."

NOTES ABOUT THE CAMP.

Work has been resumed on the Lillian. Mr. Sixty has put on two shifts, intending to work all winter.

The "Excelsior Lode," has been bought by W. H. Downs and Myron Flint, Denver parties; they will immediately develop the property.

Supt. E. H. Harmon has gone to Denver in the interests of the Rio Hondo company, conveying the results of the final clean up.

C. L. Buckingham, of Denver, is figuring on putting in a mill in Long canon near the Gold King to work the ore from that property.

B. A. Cardwell, with whom are associated Cash Henderson and H. P. McCoy, of Pueblo, came into camp last week, bought the Chicago lode and immediately set men to work.

The Navajo is pushing a 100-foot tunnel. The ore runs a large string of free gold. C. C. Tarbell, superintendent and part owner, is pushing the work and reports the mine looking well.

Says the Denver Mining Record: "C. M. Kittredge's Gold King mine at Amizett, New Mexico, is producing ore which runs \$480 per ton in gold from rock which was hitherto supposed to be waste."

The Smuggler is in sixty feet and shows a fine body of ore. The entire tunnel is through fine ore. The Smuggler is on the north side of Fraser Hill and shows large quantities of copper, iron and gold.

The Wellesley Placer Mining company had a survey made of their ground on Kaiser creek last week and now work will be commenced. They have rich ground and nuggets obtained, while not so large as hens' eggs, are richer by far.

The Gold King is sucking \$500 ore from the upper tunnel which will be sent to the mill, which will be running in about ten days—they are pushing the lower tunnel to cross-cut the vein and are in 115 feet, which will cut the vein at a depth of ninety feet.

Capt. F. D. Baldwin, U. S. A., is in New York in the interests of the Taos Mining company. This company is preparing to put in concentrators. Mr. Simons, the new president, is expected daily. P. M. McCree, assayer and superintendent, is pushing things as much as possible.

It is in the family more often the result of indigestion than most people know.

Attention, Miners.

According to the amendment to the United States statutes, relating to miner's claims, it is absolutely necessary that those wishing to avail themselves of the opportunity offered to suspend assessment work for the year 1893 must file their notice in the office of the probate clerk on or before the 31st day of December, 1893. The necessary blanks for this purpose may be had at the New Mexican office at 5 cents each or three for a dime.

A Novel Souvenir Spoon.

THIS SPOON, as a souvenir of Arizona, is decidedly unique and appropriate. It is distinctly Arizonian, picturing a scene from the streets of the cities and towns of the territory. A Pima Indian woman is represented, supporting on her head an olla which rests upon a twisted wisp of bear grass, and awaiting a customer for her ware. Statuesque and graceful as is the figure, it is perfectly true to nature, having been designed from a photograph taken from real life for the purpose.

The olla (usually pronounced o-ye) is a large jar or bowl of pottery for containing and cooling drinking water. It is altogether an Indian invention, and is made of a mixture of clay and sand, the material being moulded exceedingly thin by the deft hands of women, and baked to a brilliant red.

In this climate receptacles for cool water are indispensable in every household and thus the dusky maid and matrons find a ready market for them in every town.

It is no uncommon thing to see four or five of these children of nature, picturesque in their gaudy colors, advancing with stately tread down the street, each with an olla on her head, as represented in this charming souvenir.
