WONDERFUL

TO
RELATE.

Mr. Geo. W. Knaebel, a recent convert of Goebel's crack heater the "Estate Oak" got the fire in his stove so low on Tuesday at 8 p. m. that he concluded it had gone out, returning at 9 p. m. he found the stove ice cold, but on his arrival at 9 a. m. on Wednesday morning his surprise knew no bounds when he saw his Estate Oak still a going and his office at a normal temperature. For affidavits, etc., call on G. W. Knaebel. The stove is sold by

Fine Opals and Turquoise, Indian and Spanish Relics, Buck-Skin Suits, Bows, Arrows, Moccasins, Shields, etc.

Stone Vessels and Weapons from the Cliff Dwellers.

BRIEF WIRINGS.

Official from Chicago.

Chicago, Dec. 22.—The official returns show that Hopkins, Democrat, is elected mayor by a plurality of 1,119.

Lord Stanhope Dead.

London, Dec. 22.—The Right Hon. Edward Stanhope, secretary of war in Lord Salisbury's cabinet, died suddenly this morning.

Barela on Deck.

Denver, Dec. 22.—Hon. Casimiro Barela has arrived in Denver, to locate as consul for the Mexican government. The senator received the appointment some time ago from President Diaz.

A Sleighting Party Killed.

Nashua, N. H., Dec. 22.—A frightful accident occurred last night at Hollis station, on the Worcester & Nashua branch of the Boston & Maine railroad. Three men and one woman were fatally injured, and a sleigh which was struck by a train while crossing the track.

The Midwinter Fair.

San Francisco, Dec. 22.—Great preparations are being made for opening the Midwinter fair January 1. It will be sheltered in existence with a blaze of tropical beauty. At first it was thought of as a insignificant side show of the Columbian exposition, but now it is a magnificent exhibition in itself, comprising seventy-five buildings on 160 acres in Golden Gate Park.

27,000 Dolls.

London, Dec. 22.—A large number of leading lights of the aristocracy visited the national doll show at Albert hall where 27,000 dolls are on exhibition. These have all been dressed in private houses and by private effort. The Princess of Wales and her daughters, Victoria and Maud, have dressed no less than fifty. To morrow the dolls are to be distributed to the little ones in the hospitals, work houses and parish schools.

Harrison Willing.

Chicago, Dec. 22.—An Indianapolis special to the Tribune says:

It is claimed that ex-President Harrison is determined on being a candidate for the next Republican presidential nomination, and that, while he has taken no active part in advertising this fact before his trip east, he had several consultations with friends who are believed to be able to control the selections of state committeemen, and the story goes that everything possible is being done to secure control of the Indiana Republican political machine by those who can name Harrison delegates to the next national convention.

STORAGE STATIONS.

Nebraska Want Experiments Made with Irrigation Reservoirs.

North Platte, Neb., Dec. 22.—The first state irrigation convention ever held in Nebraska, was called to order by I. A. Foster. Two hundred representative citizens were present at the morning session and before evening the number increased to 400. Intense enthusiasm characterized the deliberations of the convention.

Various methods of irrigation were discussed in all their phases. Experimental stations were advocated to develop the storm water storage with federal aid. From figures submitted it was shown that remarkable progress has been made with irrigation during the year, while counties in the western district that were practically valueless except for range purposes have been turned into the most valuable farming lands in the great corn belt.

WESTERN COAL.

It Will Cause the Building of a New Road from Salt Lake to Los Angeles.

Topeka, Kas., Dec. 22.—United States Marshal Walker and New York capitalists are to build at once a railroad from Salt Lake to Los Angeles. Mr. Walker says: "I have just returned from a two months' stay in New York. Our company, which owns about 4,000 acres of coal land on the Canary and Cedar mountains in Utah, Nevada and Southern California, proposes to build the road.

"It has already been surveyed and will be about 700 miles in length. Our coal beds are the nearest to all Southern California, and our coal supply would be shipped to that territory and could be sold there much cheaper than they are at present paying for it.

"The only way these get it at present is by ship or from New Mexico, and it costs \$10.50 a ton. There is no doubt, I think, about our building the new road."

WANTED THE A. & P. LINE.

New York.—In speaking about the transfer of his Chesapeake Ohio stock to the Illinois Central, Mr. Collis P. Huntington said:

"When I first began to build up the Chesapeake & Ohio road, I intended to get control of the Atlantic & Pacific, making a direct line from Newport News to San Francisco. Some of my associates, however, did not think well of it, and the line was shifted to New Orleans. This did not make the line across the continent, and so I thought best to dispose of all my interests this side of the Mississippi river."

WASHINGTON NEWS.

The Committee on Territories About to Lose Its Occupation—Land Office Fees—Stanton Re-instated—Notes.

SOON OUT OF A JOB.

Washington, Dec. 22.—When the Oklahoma and New Mexico bills are passed by congress, the committee on territories of both houses will be practically defunct. If a bill is presented for the admission of Indian territory it will no doubt come before the committee on territories, but, as a usual thing, all matters in reference to the Indians of that section would naturally be considered by the committee on Indian affairs. There will always be more or less business for the committee on territories to consider with reference to Alaska, as it is believed that Alaska will not be admitted for many years. It is somewhat doubtful whether the Oklahoma bill will be pushed ahead of the tariff bill although its friends will make an effort in that direction so as to clear the house calendar of all territorial bills.

LAND OFFICE FEES.

The house committee on public lands yesterday reported favorably a bill to amend the land act of March 3, 1891, so as to validate the rights of any person who had initiated a contest prior to the passage of the act, if he was at that time qualified to make an entry for the tract. Another bill reported by this committee provides for the reduction of the fees of the land officers west of Kansas to the same rates allowed east of Kansas.

TO CONDEMN STEVENS.

The house committee on foreign affairs agreed to-day to report a substitute for the Hitt Hawaiian resolution. The substitute condemns the action of Minister Stevens in Hawaii.

RIGHTED A WRONG.

Commodore Stanton has been restored to duty by the secretary of navy and ordered to the command of the North Atlantic squadron, one of the best posts in the navy.

GROWING SERIOUS.

The situation at Rio is admittedly growing sufficiently serious to awake apprehensions. The navy department has ordered the cruiser New York and the monitor Minotaur to get ready for sea. It is supposed they are to proceed to Rio.

OKLAHOMA AND NEW MEXICO.

As soon as the New Mexico bill comes up in the house early in January, an effort will be made to tack on the Oklahoma amendment, but this plan will probably fail. In the senate the effort will be again made, and it may be successful there, as several senators in the southwest are favorably disposed toward Oklahoma.

DR. DORCHESTER'S SUCCESSOR.

Rev. Dr. Daniel M. Dorchester, of Massachusetts, superintendent of Indian schools, will be succeeded by William Hallmann, of Indiana, on January 16. Dr. Hallmann is now superintendent of schools in La Porte, Ind. It is the intention of the department to locate Dr. Hallmann's office in this city, giving him direct charge of the reservation and non-reservation schools.

AFTER THE HOLIDAYS.

After the holidays congress begins an unusually interesting session and most members think it will be a long one. The Wilson bill will be the first measure taken up in the house. The committee on foreign affairs will present a resolution on the Hawaii question to be discussed and disposed of, and then the debate on the tariff will begin in earnest. The managers hope to pass the bill and send it to the senate by the middle of February at latest. After that the committee on appropriations will claim the attention of the house with the annual appropriation bills.

MAGOUN DEAD.

His Sudden Demise Thought to Be Responsible for the Talk of Receiver for the A. T. & N. F.

New York, Dec. 22.—George C. Magoun died at his home, 50 West Fifty-fourth street, on Thursday night. He had not been well for several years, and was startled a few weeks ago when a life insurance company refused to take his risk. The medical examination of Mr. Magoun then showed that he was suffering from diabetes.

Topeka, Kas.—A prominent Santa Fe official, high in authority, in response to a question concerning the rumor on the streets that a receiver is to be appointed for the road on account of the death of Mr. Magoun and the possible failure to meet the January interest, said: "I have no knowledge of any such probability. I believe the company is in as good financial condition as can be expected from the present stringency, and will be able to promptly meet all obligations. I think it quite probable that these reports may have been sent out by stock speculators who are seeking to take advantage of Mr. Magoun's death." Other leading officials say that they do not believe that his death will affect the company or change its prospects.

A Colorado Criminal.

Denver, Dec. 22.—Chief Justice Hoyt this morning decided that Mora, known as the Red Hill murderer, must die, sentencing him to hang January 7. The case has been in the courts for two years, having frequent trials. Mora killed two men, Anderson and Peterson, without provocation, in Park county, July, 1893.

A California Duel.

Stanford, Cal., Dec. 22.—A desperate shooting affray between F. Byrd and John Harris took place here to-day. Both men were fatally wounded. Harris met Byrd, drew a revolver and opened fire, which was returned. Both grappled and were separated with great difficulty. They will certainly die.

Alleged Mineral Find.

Tacoma, Wash., Dec. 22.—A rich ledge of gold and silver has been discovered in the heart of this city by Workman digging a cellar. None of the property owners in the vicinity know of the whereabouts of the ledge. Miners are investigating. If the city has no right to the stuff it will tell owners of the lots where the ledge is and take them into a development scheme.

OVERRUN BY TRAMPS.

Iowa State Militia Called Out to Protect the City of Oskaloosa.

Oskaloosa, Iowa, Dec. 22.—A gang of sixteen tramps held up and robbed a deputy sheriff and policemen late last night. One tramp was killed and the officers badly bruised. This vicinity is overrun by tramps, and the state militia has been called out to protect the town.

YAQUI RAIDERS.

Pierce Fighters in the Sierra Madre Committing Fresh Outrages.

Hermosillo, Mexico, Dec. 22.—The Yaqui Indians have started out on their winter depredations. A large number of outrages are reported. Information reached here to-day of a raid made on a ranch on Yaquina river. The Indians destroyed all buildings, killed four cowboys and drove off hundreds of cattle. Efforts will be made to capture the offenders, but they have almost impenetrable stronghold in the Sierra Madre mountains.

IN THE TOILS.

More Incriminating Testimony Against Coughlin in the Dr. Cronin Case.

Chicago, Dec. 22.—Mrs. Foy this morning gave incriminating evidence against Coughlin, tending to show him to have been a member of a conspiracy to murder Dr. Cronin. She swore to various visits of defendant to her husband. She once heard Coughlin say: "Remove Cronin at all hazards." Attorney Wing objected to her evidence, but the objection was overruled by Judge Tuthill. This is a great victory for the state.

Attention, Miners.

According to the amendment to the United States statutes, relating to miner's claims, it is absolutely necessary that those wishing to avail themselves of the opportunity offered to suspend assessment work for the year 1893 must file their notice in the office of the probate clerk on or before the 31st day of December, 1893. The necessary blanks for this purpose may be had at the New Mexican office at 5 cents each or three for a dime.

TERRITORIAL TIPS.

RATON NOTES.

The wolf hunt on the Vermejo last Saturday was quite an exciting affair. It was largely attended and a number of the varmints were shot.

Col. J. W. Dwyer expects to arrive home Sunday. He will be accompanied by some distinguished gentlemen from Chicago interested in the big sanitarium at Raton.

The necessary interest to properly maintain the public library and free reading room in Raton is not forthcoming. This is not as it should be.—Range.

At a meeting of Sedgwick post last Sunday the following officers were elected: P. C.—Charles Smith. S. V. C.—S. H. Hancock. J. V. C.—Wm. Fairbright. Surgeon—Ed. Terrell. Chaplain—Rev. E. Burch. Q. M.—D. Raddon. Officer of the Day—A. C. Nason. Officer of the Guard—S. G. Wilson.

Used in Millions of Homes—40 Years the Standard

EDDY SCHOOLS.

The Eddy club annual reception was a brilliant affair.

D. A. Graham, of Elkfalls, Kas., is looking over the valley with a view to locating.

Clave Merchant, who was taken to El Paso a couple of weeks since to answer to the charge of cattle stealing, was honorably discharged, the grand jury having failed to find an indictment.

P. Ward, of the firm of Ward, Courtney & Co., will shortly leave for Mexico to look after a big contract for building a railway. Mr. J. H. Cunningham will accompany him.

E. G. Shields, who left here several months ago sick with abscess of the liver, has returned cured, an operation which necessitated cutting out part of the liver having been performed. Though cured, Mr. Shields will never be as strong as formerly.

The total enrollment for this term of the Eddy schools has reached the number of 327. This includes all grades. The average attendance was 96 per cent until the occurrence of the diphtheria scare, since which it has been considerably lower.

GRANT COUNTY ITEMS.

The fair given by the Young Ladies Guild on last Friday afternoon and evening proved a splendid success. The net proceeds amounted to \$90.

The water mains are now laid to the First National bank corner and the lateral pipe is on hand to convey water anywhere the inhabitants may want it. The sinking pumps have been taken out of the big shaft, and the immense irriga-

tion pumps are being set in and will soon be running in full capacity, throwing 7,000,000 gallons of water a day, a portion of which will be distributed in the town and suburbs of Deming and the balance stored in the big reservoir of the company for use on the farming lands in the spring.

D. C. Hobart, who returned from Hillsboro last Wednesday, reports that camp as being in a very healthy condition. The three gold mills, including the Standard with a 20-stamp capacity, are running at high pressure. The Mamie Richmond, Good Hope Bonanza, Standard, Bob Tail and Opportunity mines, together with the mills and smelter in operation treating their products, furnishes employment for about 200 men, and there are at least 100 men engaged in placer mining at that place.—Sentinel.

Territorial Educational Association Meeting at Albuquerque, N. M.

For the above occasion round trip tickets will be sold to Albuquerque on Dec. 26, 1893, at one fare for the round trip, limited to return on Jan. 3, 1894. H. L. Lutz, Agent.

Geo. T. Nicholson, G. P. A.

Cheap Holiday Excursion Rates.

December 23, 24, 26, 30 and 31, 1893, and January 1st 1894, a rate of one standard local for the round trip will be in effect from all stations on the line of Santa Fe Southern and D. & R. G. railroads in Colorado and New Mexico. Tickets will be limited to continuous passage in each direction going, beginning with date of sale, with final limit to return on January 3, 1894. W. L. Pasheno, Agent.

New Mexican Printing Co.,
Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, DECEMBER 22.

Work! Work! Work for statehood!

If you do not enjoy this weather, go out and die.

The prospects of the territory for more and better railroads never were better.

It is easier to be cautious than capable. It is easier to carp than to advise. Put the croakers to the rear and push statehood.

Colorado women are registering right freely; they want to vote at the next state election and want to vote the Republican ticket; the women of Colorado are all right.

PRESIDENT CLEVELAND, in his letter to Gov. Northern, complained of having "congress on his hands." At the end of the first round of this session he probably feels as if it were in his neck.

THE NEW MEXICAN continues to print the earliest and the only reliable news concerning all topics of territorial interest. You should subscribe for this paper.

SECRETARY MORTON seems to know just about enough about farming and the needs of farmers so as to get all the farmers organizations and the actual farmers to kick with might and main against his conduct of that department.

What is the matter with entering largely into potato raising. The tuber is indigenous to our soil and climate, needs little water and pays big profits. Potatoes and alfalfa will make an eighty acre farm very productive.

OKLAHOMA will also come in as a state during the coming year; the territorial condition is an anomaly in our government and the sooner the territories disappear from the map of this country the better for the people of all the states.

"NEVER hurry another man's cattle," is a good proverb, and therefore the New Mexican refrains from giving the details of several important enterprises that will soon be inaugurated. They are of importance to the town, county and territory. More anon.

It seems that New Mexico is to be made the stepping-stone from which Oklahoma will stride into statehood. That's alright provided this territory is not left in the flood. It behooves every one to hustle for the conceded rights of this section. The "Sunshine State" should be born not later than 1895.

New Mexico has 800,000 acres of land ready for cultivation. Capital has built the reservoirs and canals, and all that is necessary is people to cultivate this land. This is more than enough land to make 40,000 families prosperous under their own vine and fruit trees. The tenderfoot should not forget this.

SECRETARY CARLISLE seems to have endorsed about everything there is in sight, or even suggested, to help the Democracy out of its financial slough of despond. An additional tax of 10 cents a gallon on liquors would help the whiskey trust; the payment of \$2,000,000 in Union Pacific bonds would help the Indian manipulators of that receivership, Col. Brice et al, while the issuance of half a billion in government bonds would make Mr. Carlisle and the administration solid with Wall street.

THAT REPORTED RECEIVERSHIP. If it should prove true that the great A. T. & S. F. railroad system has to go into the hands of a receiver, a matter for general regret, it will not by any means prove an injury to the southwest. Experience teaches that in such cases the country adjacent to the road is generally largely benefited. It is better for em-

ployees, and better for the merchants and the general development of the country. In the particular case of the A. T. & S. F., it is the holders of \$156,000,000 of stock down in New England that will suffer the most. On them the brunt of the burden will unfortunately fall, and there is doubtless a good deal of scurrying around the tickers and newspaper bulletin boards to ascertain what the result is of the reports that came from Wall street yesterday.

ADMIT OKLAHOMA.

Congress should let Oklahoma in as a state. What good can come of waiting longer? We of New Mexico have the heartiest sympathy for Oklahoma in this matter. We know how it is ourselves. Oklahoma has every requisite for statehood. Her area, 38,000 square miles, is more than thirty times greater than the sovereign state of Delaware. Her population comprises 250,000 of as progressive a set of people as ever "raced for a home," and the rapidity with which the country, although comparatively new, is developing stands as a monument to the brain and brawn of her people.

Nor should congress entangle the question of Oklahoma's admission with any proposition dealing with the Indians and their lands outside of the territory as now constituted. Let this feature work out its own destiny, which it will in time, and eventually the Indians will be glad to come into and become a part of the new state. Admit Oklahoma by providing a separate bill for it.

JUDGE WALDO'S RESIGNATION.

Upon the authority of a telegraphic dispatch, received at this office from Judge H. L. Waldo, the New Mexican is in position to absolutely and unqualifiedly deny the rumor, that he had resigned the solicitorship for New Mexico of the great Santa Fe railroad. For twelve years has Judge Waldo conducted the legal affairs and the relations with the people of this great system in New Mexico and that with complete and brilliant success; "nothing succeeds like success," Judge Waldo's retirement from the office he has so acceptably, thoroughly and usefully filled, both to the people and to the road, would be, especially at this time, a misfortune. Judge Waldo's many friends throughout New Mexico will doubtless be gratified to learn that there is no truth in the rumor.

The Populist Strength.
Virginia stands next to Texas in its Populist strength. The three strongest Populist states in the south are Texas, 118,000; Virginia, 81,000; Alabama, 80,000.—Denver News.

He had Best not Undertake It.
The admission of Utah, Arizona and New Mexico to statehood would put six more silver men in the senate, and perhaps give them a majority in that body. As Cleveland is a robust sound-money man, he may block this admission scheme by a veto.—St. Louis Globe-Democrat.

The Territories Should be Admitted.
The territories seeking admission into the Union have great undeveloped resources, but capital is slow to enter under territorial laws. With their admission the residents of the new states will not be long in creating a greater western market for products not made in Colorado. For this reason alone, the east should not oppose admission.—Denver Sun.

The Kentucky Idea.
With John R. Proctor at the head of the civil service commission, to give it a proper leave of Democracy and John G. Carlisle at the head of the treasury assisting Republicans down and out, the public can study the Kentucky idea of civil service reform from any point of view it likes.—Louisville Courier-Journal.

Disatisfied Democrats.
The Democrats who are dissatisfied with the Wilson bill—some of them, at least—are talking about it with much plainness of speech. Among these is Representative Haines, of the Columbia-Rensselaer District, who in a Washington dispatch printed this morning is quoted as saying that unless the bill is altered in some features enough Democrats will join with the Republicans to defeat it in the House. It appears that the malcontents have held an informal conference to decide on a plan of action. They seem to mean business.—New York Tribune.

The Stagnation of Business is Felt Everywhere.
A significant indication of the extent of the present business depression is afforded by the action of the Pennsylvania Railroad company in issuing the already exercised of the "most rigid economy" in all departments. The railroads of the country have felt the effects of the stagnation in business severely, as the marked falling off in their earnings shows. Rigid economy on their part probably means the discharge of a considerable number of employees, thus increasing the already large proportions of the mass of people out of work.—New York Tribune.

THE SPIRIT OF THE PRESS.
Not for Revenue Only.
The Wilson bill is strongly suggestive of a tariff for deficits only.—Washington Post.
Its True Title.
The Wilson tariff bill should be called a bill for the free coinage of panics.—St. Louis Globe-Democrat.
The Hidden Object.
There is a large sized Johnny Ball concealed in the Hawaiian woodpile.—Washington Post.
Ingubrious Evidence.
Crowded alms houses bear mournful testimony to the wisdom of the men who voted for a change.—Rochester Democrat and Chronicle.
A Starter.
Thirty days in jail is a light sentence for Boss McKane, but it will do for a beginning. The other cases against him should be pressed.—Boston Journal.
Where He is at Home.
The president, having failed on Hawaii, can now devote his entire attention to completing the ruin of his own land by his bogus "tariff reform."—Chicago Inter-Ocean.
Four of a Kind.
Grover Cleveland and Walter Q. Gresham will go down in Hawaiian history as the counterparts of George III. and Lord North in American history.—New York Press.
Hampered.
With Queen Lili on his arm, Blount and Spreckels shod of his coat tails, and congress on his back, Cleveland is not in a condition for a merry Christmas and a happy New Year.—Chicago Inter-Ocean.
Do not be so Sure of That.
There is good promise that the next congress will have four new Democratic senators in it from Utah and New Mexico, and they will be silver Democrats too.—Fort Worth Gazette.
How is Done in Memphis.
The Democratic army of Memphis fell out and divided into two armies—over the proceeds. But it doesn't make any difference in Memphis; there is only one party there that does the voting and has the votes counted.—Chicago Inter-Ocean.
Exceptions to the Rule.
Quite a number of Democratic statesmen think that "tariff reform," and even "free trade," is good for the other fellows, but there should be exception to the rule. The party can not afford to slaughter its friends.—Chicago Inter-Ocean.
The Third Party in the Territories.
Politics should not be considered in the admission of the new states. The "third party" will knock out all former political estimates in Utah, Oklahoma, Arizona and New Mexico.

VIGOR OF MEN
Easily, Quickly, Permanently Restored.
WEAKNESS, NERVOUSNESS, DEBILITY,
and all the train of evils from which the system suffers, are the result of overwork, lack of sleep, worry, etc. Patience, development and four given to every organ and part of the body. Immediate improvement seen. Full recovery guaranteed. 100 references. Book, explanation and proofs mailed sealed free.
ERIE MEDICAL CO.
BUFFALO, N. Y.

Glenwood Springs, Colo.
Round trip tickets to Glenwood Springs on sale daily at rate of \$96.05. Good to return until May 31, 1894, for particulars call at city ticket office.
H. S. LUTZ, Agent.

The Daily New Mexican

SHOOTING STARS.

Couldn't Help It.
Read Lotta—Do you believe in that divine right of kings?
Jack Potts—I have to. I ran up against four of them the other day.
—New York Herald.

A Night Difference.
The Professor—Mr. Thompson, have you devoted any time to the Aryan tongue?
Undergraduate Thompson—No, sir; but I have to the Aryan ball—Vogue.

Always Giving Satisfaction.
Brandreth's Pills have always given satisfaction. In fifty years there has been no complaint of them. That is about their life in the United States and millions of persons have used them. There is no doubt that they have established themselves by merit alone. They cure rheumatism, dyspepsia, piles, liver complaint, biliousness, and any disease arising from an impure state of the blood. One or two at night on an empty stomach, for a week or two, will keep you in good form and tone up the system. They are purely vegetable, absolutely harmless, and safe to take at any time. Sold in every drug or medicine store, either plain or sugar coated.

A New Version.
He—Would you like the opera last night?
She—Very well, indeed; but I couldn't see much.

Same old story; woman with a big hat in front of you.
No; a foot ball player with long, thick, bushy hair—Philadelphia Call.

Seventy-five Convulsions A Thrilling Experience.

There is no one but at some period in life has an experience that stands out prominently before all others. Such is the case of John B. Collins, of Romeo, Mich., who says: "From September to January, before using Nervine, I had at least seventy-five convulsions. After three months' use I have no more attacks." Dr. Miles' Restorative Nervine also cures nervous prostration, headache, poor memory, dizziness, neuralgia, etc., and builds up the body. Mrs. J. R. Miller, of Valparaiso, Ind., and J. R. Taylor, of Loganport, Ind., each gained twenty pounds of flesh by taking it. Sold by A. C. Ireland Jr., on a guarantee. Get the Doctor's book, free.

Woes of This World.

The professional pessimist came into the office looking absolutely cheerful.
Well, they asked him, what is the new cause of complaint this morning?
I was thinking how unjustly things were arranged for a man who has a corn. It gets its worst mashing from the man who is too heavy to knock down.
—Detroit Free Press.

Astonishing Fact, Suspected by Comparatively Few.

Things that embody the most truth are frequently among the last to be realized. Incredible as it may seem to one in four has a weak or diseased heart, the early symptoms of which are, short breath, oppression, faint and hungry spells, fluttering, pain in left side, smothering, swollen ankles, droopy, wind in stomach, etc. Levi Logan, Buchanan, Mich., suffered from heart disease thirty years. Two bottles of Dr. Miles' Heart Cure cured him. "The effect of your New Heart Cure is wonderful!"—Mrs. Eva Dresser, McGregor, Iowa. This favorite remedy is sold by A. C. Ireland Jr., on a guarantee for the Doctor's book, "New and Startling Facts," free.

A Heroine.

She's small, but they say she's plucky. Plucky! That's no name for it. Why, I've known that woman to be alone in a room with a mouse and never scream.

Not a Waterbug.

The theory now is that all diseases are caused by germs.
Yes.

I wonder what kind of germ it is that produces the disease known as dipsomania.

I don't know. There's one thing sure, it ain't any kind of a waterbug.

Miles' Nerve & Liver Pills.

Act on a new principle—regulating the liver, stomach and bowels through the nerves: A new discovery. Dr. Miles' pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women, children. Small cost, midwest, street, 50 cents 25 cents. Samples free, at A. C. Ireland Jr.

He Died for Her.

Her young looks shimmered in the light with sheen of autumn-gold.
His like the snow-drift, cold and white,
That falls across the world;
But he "would die for her," he sighed,
And when, like lover true
He knelt before her, he was dead—
His looks were peacock blue.

Business Notice.

Frank Masterson has fitted up his cabinet maker and carpenter shop, on corner opposite Bulletin Building on Water street. He is prepared to do all kinds of upholstering, cabinet making and general carpenter work, with neatness and dispatch, and solicits the patronage of those who have any extra nice or difficult work to do, give him a call.

Worse than a Cut.

Chappie—Law—hear that the foot ball player cut you out with Miss Daisy?
Oh! (shuddering)—Cut me out! He threw me out!

Star of the South.

Go to Velasco for health, sea air, and comfort; where ships too deep for all other Texas ports sail in and out with ease; where fruits ripen earlier and pay better than in California, where the soil is a natural hot-bed. Fresh vegetables all winter. Coldest day in three years 26 degrees above zero. Warmest day 92 degrees. Velasco offers the best investments in the south. Write the Commercial club, Velasco, Texas.

The Alameda.

A new and very attractive resort in the charming Mesilla valley, one mile from Las Cruces, N. M. Thoroughly comfortable and home-like. Strictly first-class in every respect. The choicest of fresh fruits at all seasons and Jersey milk and cream a specialty. Livery furnished at reasonable rates. Terms \$10 to \$14 per week. For further particulars, address J. E. LEVINSKY, Las Cruces, N. M.

ATLANTIC & PACIFIC RAILROAD.

CONNECTIONS.

ALBUQUERQUE—A. T. & S. F. Railway for all points east and south.
ASH FORK—Santa Fe, Prescott & Phoenix railway for Fort Whipple and Prescott and connection with stage lines for points in Central Arizona.

SELIGMAN—P. & A. Railway for Prescott.
BLAKE—Nevada Southern Railway for Purdy and connection with stage lines for mining districts north.

BARSTOW—Southern California Railway for Los Angeles, San Diego and other California points.
MOHAVE—Southern Pacific Company for Northern California points.

Pullman Palace Sleeping Cars

No change is made by sleeping car passengers between San Francisco and Kansas City, or San Diego and Los Angeles and Chicago.

The Atlantic & Pacific Railroad, the great middle route across the American continent, in connection with the railways of the "Santa Fe Route," Liberal management; superior facilities; picturesque scenery; excellent accommodations.

The Grand Canon of the Colorado

the most sublime of nature's work on earth, indescribable, can easily be reached via Flagstaff, Williams or Peach Springs on this route. To the natural bridge of Arizona and Montezuma's well you can journey most directly by this line. Observe the ancient Indian civilization of Laguna or Acocoma, "The City of the Sky." Visit the petrified forest near Carrizo. See and marvel at the freak of Canon Diablo. Take a hunting trip in the magnificent pine forests of the San Francisco mountains. Find interest in the ruins of the prehistoric.

Cave and Cliff Dwellers.

View the longest cantilever bridge in America across the Colorado river.
F. R. Gabel, General Supt.
W. A. BISELL, Gen. Pass. Agt.
H. S. VAN DYKE, Gen. Agt., Albuquerque, N. M.

Woman.

With a piercing scream from a mouse she springs
When she sees it on the floor;
Yet she'll lord it over a man, by jings,
Who commands an army corps.

Grand Canon of Colorado River.

On the Santa Fe route, in northern Arizona, 1,262 miles from Kansas City, is the town of Flagstaff. A tri-weekly stage line runs from Flagstaff to the Grand Canon of the Colorado river. More than a mile in depth, this is the sublimest of gorges—a Titan of chasms. Twenty Yosemite might be hidden unseen below, and Niagara would look scarcely larger than a brook.

Don't fail to visit this first wonder of the world. You can "read up" about it by asking G. T. Nicholson, G. P. & T. A., at S. F. R. Co., Topeka, Kas., to mail you a free copy of an illustrated book describing the Grand Canon. The book is no common affair; but is interestingly written, beautifully illustrated and a gem of the printer's art.

Mad as Well as Repentant.

Now over the Wilson bill he rages.
Though his vote last fall to its authors went.
For on Saturday night he found his wages
Had been cut down 25 per cent.

If You are Going East

It will be to your advantage to know the Wabash is the shortest line between Kansas City and St. Louis.
The Wabash is the shortest and most direct route between Kansas City and Detroit or Toledo, connecting at both those points with the trunk lines east.
The Wabash forms the most convenient route from western points to Chicago, and lands passengers in Chicago more conveniently to the World's fair lines than any other road.

When Your Eye Strikes This Stop and Read It.

The famous hot springs of Arkansas world renowned for their health qualities and as a health and pleasure resort, can be reached quickly in Pullman buffet sleeping cars from Denver, Colorado Springs and Pueblo via the Missouri Pacific railway. Sufferers of "grippe," rheumatism, asthma and kindred diseases can obtain relief by a visit to this famous sanitarium.

Holiday Excursion Rates.

Round trip tickets will be sold to all points in New Mexico, within 200 miles of Santa Fe at the rate of one lowest first-class fare. Dates of sale December 23, 24, 25 and 31, 1902, and January 1, 1903. Limited for return on January 3, 1903. Continuous passage in each direction.
H. T. JONES, Agent.
G. T. NICHOLSON, G. P. & T. A.

A LONG PROCESSION

of diseases start from a torpid liver and impure blood. Dr. Pierce's Golden Medical Discovery cures every one of them. It prevents them, too. Take it, as you ought, when you feel the first symptoms (anguor, loss of appetite, dullness, depression) and you'll save yourself from something serious.
In building up needed flesh and strength, and to purify and enrich the blood, nothing can equal the "Discovery." It invigorates the liver and kidneys, promotes all the bodily functions, and brings back health and vigor. For Dyspepsia, "Liver Complaint," Biliousness, and all Scrofulous, Skin and Scalp Diseases, it is the only remedy that's guaranteed to benefit or cure, or the money is refunded.

A RINGING NOISE IN THE EARS, HEADACHE, DEAFNESS, EYES WEAK, OBSTRUCTION OF NOSE, DISCHARGES FALLING INTO THROAT—

are symptoms of Catarrh. There's a medicine that will cure you, no matter how bad your case or of how long standing. That's Dr. Sage's Catarrh Remedy.

Letting Off Her Feelings.

The maid was mad, and a frown she wore,
When her mother reproved her with rigid air;
And as she dared not bang the door,
She went up stairs and banged her hair.

THE NEW YORK TIMES

A DEMOCRATIC NEWSPAPER

What the Times is:
A high-class newspaper for the city reader and for the country home; for the merchant, the professional man, the financier, the politician, the teacher, the farmer and the mechanic—for every American who would be promptly and truthfully told what the people of the world are doing; for women and for young folks, interested in household affairs, in new books and old, in art, science, religion and education, in the rivalries of amateur sports, in society, and in all the lighter goings-on of the wholesome gossip of the day. It is a full, clean, and complete newspaper, conducted with intelligence for intelligent people.

What the Times believes in:
Federal taxation imposed in the interest of the government and of the whole people, not for the restriction of trade and the benefit of the few; an honest dollar that the hand of toil may receive without loss and pay over without shame; a liberal expenditure for pensions to veterans who need and deserve them, and to no others; the Democratic party is a better instrumentality of popular government than the Republican; and in keeping that party true to its aims under sound leadership.

The financial page of the Times is a capital manual for investors, for bankers, and the officers and trustees of savings banks, trust companies, insurance companies. Railway earnings, stock and bond quotations, interest and dividend notices, the organization of new companies, and all financial news reports are promptly and accurately printed.

Notice the excellence of the Times in these departments:
Banking and financial, politics, national and local, schools and colleges, sports, markets and commercial reports, army news, art and science, the churches, book reviews.

THE NEW YORK WEEKLY TIMES

The subscription price of the Weekly Times is \$1 a year. The Weekly Times is a capital newspaper. It contains all the current news condensed from the dispatches and reports of the daily edition, besides literary matter, discussions upon agricultural topics by practical farmers, full and accurate market reports of prices for farm produce, live stock, etc., and a carefully prepared weekly wool market.

SUBSCRIPTION RATES.

Daily, 1 year, \$8.00; with Sunday \$10.00.
" 6 months, 4.00; " " 5.00.
" 3 months, 2.00; " " 2.50.
" 1 month, .75; " " .90.
Sunday, 1 year, 1.00; 6 months, .50.
Weekly, 1 year, 1.00; 6 months, .50.
Special copies will be sent free.

Postage prepaid to all points in the United States, Canada and Mexico, in all other countries, 2 cents per copy per day, payable by the subscriber.

TERMS.

Cash in advance always. Remittances at the risk of the subscriber, unless made by Registered Letter, Check, Postal Note, Money Order or Express Order, payable to "The New York Times Publishing Co., New York City."
Address all communications to:
THE NEW YORK TIMES,
Printing House Square,
New York City, N. Y.

The Rugged Child

is largely an "outdoor" product. Fresh air and exercise usually produce sound appetite and sound sleep. Sickly children obtain great benefit from

Scott's Emulsion

of cod-liver oil with Hypophosphites, a fat-food rapid of assimilation and almost as palatable as milk.

Prepared by Scott & Borne, N. Y. All druggists.

THE HISTORIC CITY.

SANTA FE AND ITS ATTRACTIONS ANCIENT AND MODERN

Mountains of Mineral, Fruitful Orchards and Other Resources.

AT THE GATEWAY OF THE NATIONAL PARK.

The World's Chiefest Sanitarium—Statistical Information for Tourist, Invalid and Health Seeker.

Santa Fe, the city of the Holy Faith of St. Francis, is situated on the site of an ancient Indian Pueblo called O-ga-p-ho-ga. It is probably the oldest civilized community in the United States and the most ancient of American capitals. The Spanish town was founded in 1605. Authorities disagree as to whether thence or San Augustin, Fla., were first founded. Santa Fe was first visited by American traders in 1804, and from that time dated a wonderful era of prosperity. The thrilling incidents of the old Santa Fe trail, starting from Westport, Mo., gave it a world wide fame.

THE WORLD'S ONLY SANITARIUM.

Prof. Mark Harrington, chief of the U. S. weather bureau, says: "Santa Fe is in the driest habitable part of the United States. This region is extensive, and changes in form from season to season, but Santa Fe is always in it."
It is situated in a charming nook of the Santa Fe range, and its climate is dominated by the influence of the mountains peaks that tower nearly 14,000 feet high. Together with this it lies at an altitude of 7,015 feet, and latitude, about the 36th degree north, that gives it a peculiar advantage as a sanitarium. The elevation tempers the summer heats, which naturally should be about that of Memphis, Tenn., or Bakersfield, Cal., and its southern situation reduces the rigors of winter. As an illustration, during the winter of 1892, the daily public concerts in the plaza were only stopped three times by weather, and last winter the omissions did not exceed half a dozen.

The altitude compels the lungs to work, and no one in Santa Fe can be accused of being "too lazy to breathe," as a great physician expressed it. The rare, oxygenated air permeates every cell of the lungs, and thus prevents hemorrhage. Dr. Symington and Harrow, who have practiced in Santa Fe for over twenty years, report that they have found two cases among the native people of consumption.

NORMAL TEMPERATURE.

The U. S. weather observation office has been stationed here for twenty years, and the following statistical data tells better than words how even and mild is the climate of Santa Fe. Taking the summer heat and the winter cold the following tables show a most equable and delightful temperature:

YEAR.	ANNUAL MEAN.	YEAR.	ANNUAL MEAN.
1872	47.9	1883	47.9
1873	48.5	1884	47.5
1874	48.8	1885	47.8
1875	47.3	1886	47.2
1876	47.8	1887	48.0
1877	47.8	1888	48.0
1878	47.5	1889	47.9
1879	47.5	1890	47.9
1880	47.5	1891	47.3
1881	47.5	1892	47.3
1882	47.5	1893	47.3

There is no other locality, even the healthiest climate of France, that can show such a stable and equable range of heat and cold. The health seeker need fear no sudden changes. A little attention to clothing and he can bid colds and inflammations defiance. In cases of death from tubercular disease the New Mexico rate is only 3 in 1,000.

This is the lowest known record, and it must be remembered that the ideal contingent of consumptives is daily augmented by the immigration of those who seek relief from that dreaded scourge.

The record of deaths at Santa Fe is much lower than the territorial average. In New England the consumptive death rate is 25 out of every 1,000 of the community; in Minnesota it is 14, and throughout the southern states 10 per 1,000. This city enjoys the spring climate of northern Illinois and Indiana; the summer climate of Wisconsin, Michigan and Minnesota, and the winter temperature of southern Ohio, Kentucky and Tennessee. This, however, is only as shown by the thermometer. The dry tonic air of the mountain altitude fills one with vivacity and health, and so strong is the influence of the ozone and electricity of the nerves and system that acclimation is wonderfully rapid. This of itself is a great boon. Cases are on record of increase in the chest measure of immigrants here of from four to seven inches.

NATURAL ATTRACTIONS.

Besides this Santa Fe lies in a most picturesque valley. It is at the entrance of a splendid canon, abounding in natural curiosities. It is also the gateway of the Pecos National park, where fish and game abound. Within easy riding or driving distances there are over forty places of picturesque and of historic interest. Among which may be mentioned the old adobe palace built by the Spaniards in 1694, from which the Spanish viceroys ruled this great province. The present structure dates from about 1716; but it is full of interest, as every room is consecrated by the memory of brilliant events. In this building, the Low Wallace wrote his famous Ben Hur.

The chapel of San Miguel, was built in 1630 and still stands. By its side is the oldest house in the United States. The walls of the old cathedral date from 1622, but the rest of the structure is of more modern date. Within convenient distances are the Indian pueblos of Tesuque and Nambe; in a side canon of the Santa Fe are the delightful Arco springs, while about nine miles up the main water course is Monument rock. The road thither is one of surpassing loveliness. To the south of town is Agua Fria, and the famous turquoise mines pronounced by the Spaniards the richest in the world; and beyond the Rio Grande are the San Ildefonso Pueblo and the curious cliff dwellings.

Other points of interest to the tourists are: The Historical society's rooms; the "Garita," the military quarters, chapel and cemetery of Our Lady of the Rosary; the church museum at the new cathedral, the archbishop's garden, church of Our Lady of Guadalupe with its rare old works of art, the soldiers' monument, monument to the Pioneer Path-Finder, St. Francis, erected by the G. A. R. of New Mexico; St. Vincent's hospital, conducted by the Sisters of Charity, and the Orphans' industrial school; the Indian training school; Loretto academy and chapel of Our Lady of Light; the Tamam Indian school, St. Catherine's Indian school.

It will therefore be seen that while Santa Fe possesses the delightful climate of a sanitarium, she is not devoid of interest. The health seeker should never go to a dull place. Ennui and listlessness are the handmaids of disease. Here is interest for the studious historian, the gay sportsman or the mere sight-seer. If you have energy enough to move around you can not be dull amid such surroundings.

NATURAL BEAUTY.

Even the inveterately lazy can enjoy life here also if they have money. To the east Old Baldy rises a snowy dome in winter, and his steeply sloping forested sides in summer rival his winter beauty. In the winter the full moon at night and the sun by day turn his crest into a diadem of brilliant. To the west the Jemez and Valle mountains, scarcely less grand than the Santa Fe range reflect the sunsets in a hundred glorious tones, while their purple bases lend an ideal background for all this splendor.

PUBLIC INSTITUTIONS.

Among the more important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, the territorial capital, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan's training school, St. Vincent's charity hospital, U. S. government Indian school, Ramona memorial institute for Indian girls, St. Catherine Indian boys training school, Fort Marcy barracks, St. Michael's college, Loretto academy, Presbyterian home missions industrial school for girls, New Mexico deaf and dumb institute, New West academy, Catholic cathedral and four parish churches, Episcopal, Presbyterian, Methodist and Congregational churches, the governor's palace, the archiepiscopal residence of Archbishop J. B. Salpointe and Archbishop P. L. Chappelle and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

The U. S. court of private land claims is in session here throughout most of the year, and the arguments therein, involving as they do points of historical and archaeological interest, are instructive, not only to the lawyer but to the layman.

RESOURCES.

Santa Fe county has an area of 1,408,600 acres and a population of about 17,000. The city itself contains over 10,000 annual residents. The valley soils are especially adapted to fruit raising, and the product is of the finest flavor and appearance. Peaches sweet as a nectarine, plums and apricots, large and luscious, apples, pears, berries and all the hardy fruits flourish in abundance, usually commanding a better and more remunerative market than even the California fruits. The cloudless, sunny days bring out all their fruit and saccharine qualities.

Large mineral deposits, including gold, silver, precious stones, principally the turquoise and garnets nearly as fine as rubies, and topaz, also; both bituminous and anthracite coal are found in giant veins. The two kinds sometimes run in parallel veins in the same mine. In addition to this "natural coke" is found.

PROSPECTIVE RESOURCES.

The Chicago Municipal & Investment company has completed a magnificent water works system, just east of town, furnishing water under 100 pounds pressure. All the modern improvements in the way of aeration, etc., are provided. In addition thereto preliminary work is now being conducted on reservoirs and canals that will irrigate over 100,000 acres of splendid land in and around the city. These will undoubtedly be completed within two years, as every effort is being made to hurry their construction.

THE WATERS OF SANTA FE.

Dr. J. F. Dauter, vice president of the American Health Resort association, says: "It is worth traveling miles to drink of such waters as flow through this deep cut in the mountains and supply the city of Santa Fe for domestic purposes and for irrigation of the fruit farms. The water is absolutely pure, cold and fresh from the melting snows above, or trickling from springs in the mountain side. It is free from all lime, alkali or other ingredients so very injurious to the consumptive patient. Such water is a great boon anywhere and at any time, but here, where other features of sunshine and pure air combine to produce an ideal climate, it is of special value."

THE MILITARY POST.

St. Mary, at Santa Fe, is the oldest established military station on American soil. The Spaniards occupied it as such in 1602. Old Fort Marcy was built by Gen. Kearney in 1816; and the present site was occupied in 1850; the post is garrisoned by headquarters, the band and two companies of the 10th U. S. Infantry under command of Col. E. P. Pearson; its location here adds greatly to Santa Fe's attractions socially and commercially. The military band stationed here is one of the best in the army and renders delightful music daily in the public places for the pleasure of citizens.

METEOROLOGICAL DATA.

The following is taken from the records of the U. S. weather office of Santa Fe for 1892:

Average temperature	49.1
Average relative humidity	63.0
Average velocity of wind miles per hour	6.7
Total rainfall	16.3
Number of cloudless days	197
Number of fair days	97
Number of cloudy days	25

From January 1, 1893, to August 13, 1893, the following is the record:

Number of cloudless days	143
Number of fair or partly cloudy days	114
Number of cloudy days	19

These records speak for themselves. Anyone in search of a dry, sunny, salubrious climate can do no better than come to Santa Fe.

"Santa Fe Souvenir Spoon."

There is not on the American continent a spot richer in history than Santa Fe. The City of the Holy Faith. It is visited annually by thousands of tourists and sight-seers. The crowning points of interest are "The Cradle of Christianity in America," and the associations which cluster around the traditional age in which lived and reigned The Great Montezuma. Our beautiful spoon commemorates the historic and religious features of Santa Fe, the ancient city, more than 350 years old. They are elegantly made of sterling silver, oxidized, with every feature brought out in bold relief. Six inches long, weighing 1 ounce each. No more fitting presents for the holidays. Sent on receipt of \$3.75 to any address.

"COPYRIGHTED" Postage and Register 10c. Elegant selections of beautiful Filigree will be forwarded to responsible parties from which to choose any article desired. Send us your orders.

THE RAILROADS.

Solicitor Waldo to Remain With the A. T. & S. F. Company—D. & R. G. Visitors—Notes.

The New Mexican is pleased to state that there is absolutely nothing in the report that Judge H. L. Waldo has resigned or intends resigning his position as solicitor in New Mexico for the A. T. & S. F. road. Whether the road goes into the hands of a receiver or not, Judge Waldo will continue direct to the New Mexican from Judge Waldo in person. In addition to this Hon. R. E. Twitchell, assistant attorney for the road here, has also received similar advice, and his position with the company is such that his information must be correct. Mr. Twitchell also seriously questions the report that the road is to go into the hands of a receiver.

D. & R. G. VISITORS.
Supt. Sample and the lively party of D. & R. G. officials who spent yesterday in the city, left on their special train for Denver at 7 o'clock this morning. Their train carried several boxes of luscious Santa Fe fruit, pears, apples and celery, sent them by Messrs. Helm and Frost. The visitors said they would return next month, and early in the spring Chief Engineer Rogers will be here to make an overland trip to Cerrillos and probably down the Pecos valley to Roswell and Eddy.

RAIL NOTES.
C. H. Fancher, land agent of the A. & P. road, is in the city to-day on business with U. S. land officials.
Supt. Cole Lydon, of the New Mexico division of the D. & R. G., who was here yesterday, is a brother-in-law of Mayor-elect Hopkins, of Chicago.

Supt. Mudge, Division Supt. Chas. Dyer and other A. T. & S. F. officials, inspected the Santa Fe this morning and arrived here this afternoon about 4 o'clock.
Intense interest is felt here over the result of the meeting of A. T. & S. F. directors in New York to-morrow, when it is thought in some quarters a receiver for the line will be named.
Another attempt was made last night by parties north of Bernalillo to give the A. T. & S. F. trouble by placing ties across the track. Special Agent Taylor is on the ground to investigate.
J. R. DeRemer, of Denver, the large railroad contractor, was in town this week on business connected with the several new railroads to be built in this vicinity the coming year.—Raton Reporter.

ROUND ABOUT TOWN.

The train from the east over the Santa Fe is two hours late.

Christmas trees by the wagon load are rolling in from the foot-hills to-day.

The weather is so much like that of spring time in Santa Fe that most people have difficulty in convincing themselves that Christmas is at hand.

Misses Dukes and Berger passed a very creditable examination before the county board of public school examiners and today received their certificates.

Escobar, the A. & P. road bridge victim from Ileta, now minus a leg at the St. Vincent hospital, is getting on so well that hopes for his recovery are now entertained.

W. C. Sanders, a well known Denver railroad man, is here to-day looking after business before the U. S. land office in connection with a large tract of coal land near Gallup which he and other Denver parties are preparing to develop.

In the district court in the ejectment suit of Mrs. Ely vs. P. H. Warner, the court held that Mrs. Ely was entitled to the property and Mr. Warner to \$144. The attorney for Mrs. Ely moved for a new trial. To-day the suit of A. Staab vs. Louis Jones, of Cerrillos, was heard.
The major general commanding the army, having approved the introduction of a whistle in the crosspiece of the guard of the sword for infantry officers, Gen. McCook has issued a circular informing the army that the commanding officers of Springfield armory and Rock Island arsenal have been instructed to make this alteration, as promptly as possible, upon receipt of the arms. The cost, which will be paid by the owner of the sword, will be about \$3.75 each for lots of fifty or more.

A clever Frenchman named Paul Jury is showing some very pretty samples of his tannery. He hopes to interest Santa Fe business men to the extent that he may be encouraged in establishing a new industry here. The man seems to know his business, and since it was long ago conceded that a tannery here would prove a profitable enterprise, citizens should look earnestly into the matter.

According to the amendment to the United States statutes, relating to miners' claims, it is absolutely necessary that those wishing to avail themselves of the opportunity offered to suspend assessment work for the year 1893 must file their notice in the office of the probate clerk on or before the 31st day of December, 1893. The necessary blanks for this purpose may be had at the New Mexican office at 5 cents each or three for a dime.

The greatest sympathy is heard expressed on all sides for Mr. S. S. Beatty over the death of his young wife. Her death was much more sudden and unexpected than the article in last evening's paper made it appear. Yesterday forenoon Mrs. Beatty was sitting in her accustomed chair crocheting, when in the twinkling of an eye death fell upon her. The funeral will take place at the M. E. church at 2 o'clock on Sunday afternoon and the remains will be interred at Fairview cemetery.

PERSONAL.

Hon. Frank Hubbell returned to Albuquerque last night.
Myer Friedman, the well known Las Vegas merchant, is visiting the capital city.

Miss Mamie McCarthy has returned from a visit to Denver and will again take up her residence here.
Henry Grant, Abiquia, and Joseph Grant, El Rito, merchants in Rio Arriba county, are at the Exchange.

John K. Skinner, of the Valley ranch, a lovely spot on the upper Pecos, is here buying Christmas trinkets.
Dr. H. B. Frist, of Washington City, connected with the U. S. pension board on duty in this territory, is at the Claire. At the Claire: H. H. Wheelock, St. Louis; S. G. Spann, Silver City; F. W. Barton, Las Vegas; H. B. Frist, Washington, D. C.

H. C. Harmon, one of the leading men of the great Amizett gold camp, is in the city consulting with attorneys on town-site matters up there.

Dr. Sullivan, of Chicago, is visiting the city and looking into this wonderful climate. He is the third Chicago physician now here for this purpose.

Col. H. W. Lawton, assistant inspector general, U. S. A., who was formerly stationed in this city on Gen. McKenzies' staff, passed down the road yesterday en route to Fort Huachuca.
Arrivals at the Bon Ton hotel: L. G. Jones, Cerrillos; Geo. Hester, Waldo; Theo. F. Martinez, Bernalillo; Justo Sanchez, Algodones; Frank Hubbell, Albuquerque; F. C. Temple, Joseph Smith, Creede, Colo.; Simon Vigil, Santa Cruz; Julian Montes, Espanola.

At the Palace: C. H. Fancher, Albuquerque; M. H. Rogers, H. F. May, Denver; Lieut. A. B. Johnson, Fort Logan; Henry Schnacks, Denver; Cole Lydon, Alamosa, Colo.; N. W. Sample, Denver; F. A. Hubbell, B. B. Bacon, Lorion Miller, A. Singer, Albuquerque; J. Levy, St. Louis; Myer Friedman, Las Vegas; H. C. Harmon, Denver; M. Kilroy, New York; Dr. Sullivan, Chicago; John K. Skinner, Valley Ranch, Pecos; S. B. Ward, Chicago.

A SIMPLE REMEDY.

A Cure for La Grippe and Diphtheria That is Said to Work Like Magic.

La grippe, and complications of disease directly traceable thereto, particularly throat troubles, are very prevalent throughout the west at this time and New Mexico is no exception from the rule. The following from the Medical Times has been handed the New Mexican with a request to republish for the benefit of whomsoever it may interest:

"Alcohol, we make bold to say, is the prince of antiseptics, and the most perfect and reliable medicine of which we have any knowledge in diphtheria. Diluted with equal parts of water and given in small and repeated doses, the malignant symptoms of this fatal malady soon disappear, and convalescence becomes assured. It is interesting to note with what facility the alcohol dissolves the diphtheritic exudation in the throat, lowers the temperature and calms the pulse, showing its destructive action upon the germs of the disease, which have been absorbed by the glands and gained access to the blood. This remedy has been used by us in the treatment of diphtheria since 1873, during which time no case of the disease has slipped through our hands except in one solitary instance, and that case was in a child who had been here the remedy was given. The remedy is also prophylactic to the disease, as we have found in many instances where it has been expedient to quarantine the patient. For this purpose it is only necessary for exposed persons to use the remedy, diluted, as above stated, as a gargle, and to swallow a little of it three times a day." This remedy has been tested by a few well known citizens and found to cure as represented.

In two cases of grip the unfortunate (adults) went to bed in the inception, covered up warm and had administered internally teaspoonful doses every thirty minutes until five to eight doses had been taken, or until perspiration commenced; after a few hours of sweating the parties were entirely relieved, and by following the usual precaution of remaining indoors twenty-four to forty-eight hours thereafter they were convalescent.

MONTHLY WEATHER REPORT.

U. S. DEPARTMENT OF AGRICULTURE,
Weather Bureau,
Bulletin of the New Mexico Weather Service

FOR THE MONTH OF NOVEMBER, 1893.

The average temperature for the month was a little above the normal. The highest monthly mean was 48.6, at La Luz, and the lowest monthly mean was 30.0, at Hot Sulphur Springs.

The highest temperature reported during the month was 76, at Socorro, on the 1st, and the lowest temperature was 3 degrees below zero, at Hall's Peak and Hot Sulphur Springs, on the 12th.

The highest average daily maximum temperature was 65.4, at Las Cruces, and the lowest average daily minimum temperature was 36.1, at La Luz, and the lowest average daily temperature for the month was 43, at Chama, and the least local range of temperature total monthly was 0.85 of an inch, at Chama. Albert, Deming, Gallinas Springs, Las Vegas, Lordsburg and Watrous report no precipitation during the month, and no snow lay on the ground more than a few hours, except in the mountains.

The weather was very pleasant and agreeable during the month, being mild and clear with light variable winds. Average number of days on which rainfall occurred was 1. The average number of cloudy days was 2, partly cloudy 4 and clear 24.

Santa Fe, N. M., Dec. 16.

CHINESE REGISTRATION.

Those Already Registered Must Try it Again—New Instructions on the Subject.

The office of internal revenue collector for the district of New Mexico and Arizona is in receipt of new instructions relative to the registration of Chinese. The time in which Chinese laborers may register expires May 3, 1894. The peculiar phraseology of the amending clause makes it necessary, say the treasury department's instructions, that all Chinese laborers who made application and received certificates under the act of May 5, 1892, shall again make application and receive certificates of residence under the present act.

The new regulations call for two mounted photographs, instead of three, as heretofore, and "one creditable person of good character" shall act as witness. All Chinese must register with a deputy revenue officer at Santa Fe, Albuquerque or Tucson, except those residing in isolated districts may comply with the law by making affidavit before a clerk of court, notary or other officer of seal. Wherever it is possible for the deputy to reach the applicant or the applicant to reach the deputy such must be done. The Chinese will be notified by postal or otherwise as to when the deputies will be in their neighborhood.

There are 1,500 Chinese in New Mexico and Arizona and 460 of these have already registered, but, as above stated, these must register anew.

Beecham's Pill is cure sick headache.

East Side of Plaza.

A Novel Souvenir Spoon.

THIS SPOON, as a souvenir of Arizona, is decidedly unique and appropriate. It is distinctly Arizonian, picturing a scene that is an everyday feature on the streets of the cities and towns of the territory. A Pima Indian woman is represented supporting on her head an olla which rests upon a twisted wisp of bear grass, and awaiting a customer for her ware. Statuesque and graceful as the figure, it is perfectly true to nature, having been designed from a photograph taken from real life for the purpose.
The olla (usually pronounced over) is a large jar or bowl of pottery for containing and cooling drinking water. It is altogether an Indian invention, and is made of a mixture of clay and sand, the material being moulded exceedingly thin by the deft hands of women, and baked to a brilliant red.
In this climate receptacles for cool water are indispensable in every household and thus the dainty maid and matrons find a ready market for them in every town.
It is no uncommon thing to see four or five of these children of nature, picturesque in their gaudy colors, advancing with stately tread down the street, each with an olla on her head, as represented in this charming Souvenir.
Sent by mail to any address on receipt of price \$2.50. Made in Sterling only. The out exact size of spoon.

VANTILBURG & DAVIDSON'S
Phoenix, Arizona

DO YOU KNOW

That every window or door has from ten to twenty-five feet of crevices or openings around which the cold air and dust blows in, and when effectually closed with

Brown's Metallic Weather Strip

The saving of fuel, furniture and carpets each year (aside from comfort) will more than pay the cost. Anyone can apply it.
