IS A CHURCH MEMBER.

She said, when asked whether she was a member of any church, she had been confirmed in the Episcopal church. "Are you a member now?" she was asked. "I was once a member of the Episcopal church and will always remain a member," came the epigrammatic reply. Her early ambition had been to write, Miss Pollard declared; Col. Brookenridge had told her she had wonderful talent in that line. She also desired to teach.

Lost Her Case.
London, March 19.—When the adjourned spring in the suit of Mrs. Holland against Mr. Francis Cook, husband of Tenny Maflin, was resumed to-day before Justice Hawkins, in the Queen's bench division of the high court of justice, Mr. Willis, counsel for the plaintiff, announced at the moment withdraw from the case and accordingly judgement was entered for costs for the defendant. Mrs. Holland sued for £12,000 damages, claiming a breach of promise made twenty-five years ago and that she had been induced to submit to a criminal operation.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, MARCH 19.

UNITED STATES DISTRICT ATTORNEY HEMINGWAY is attending to his official duties far too earnestly to please a certain element at Albuquerque. Just wait a bit, Mr. Citizen.

WHATangers most of the Republican obstructionists in the senate is the fact that the Democratic members of the ways and means committee have found a way to put the tariff bill in a fair way of passage.

THE NEW MEXICAN is managing to get along pretty well and its subscription lists are growing healthier each passing day. This is all and wormwood for some people, to be sure, but it looks as if they'll have to grin and bear it.

THE Agricultural college doesn't need the services "of a man whose intimate acquaintance with the needs and requirements of the community fits him eminently for the position," so much as it needs a man of broad views, willing to treat every part of New Mexico fairly.

How and it must make some of the avaricious political fossils hereabouts to reflect that all that gold has been laying out there on the Cochiti mountains for, lo, so many years, and they didn't know it. They'll probably try and account for the oversight on the theory that the stuff must be of modern growth.

It really begins to look as though two, and possibly four, of the new gold camps in this territory would be enjoying a genuine old time Colorado boom before midwinter comes around. Hillside and Amizet are sure of railroads, and Black Mountain and Cochiti are not far behind them, if all reports be true.

THE offering of those rewards by the governor in the interest of law and order and good government in New Mexico has had a very salutary effect. Nobody but the editor of the Albuquerque Citizen questions this, but the Citizens' position in the premises is easily understood—it is afraid some more of its party followers will become entangled because of these rewards.

THERE is no danger of the Democrats losing Mora county as long as such good men as Rafael Romero, A. L. Branch, Mariano Gallegos, Juan Navarro and Thos. Walton stand up for and work in behalf of law and order. These citizens deserve honorable mention because of the vigor and fearlessness with which they have aided the law officers in running down the gang responsible for the recent Mora county outrages.

THE senate won't know its tariff reform bill when it comes back from the conference committee. Senators Hill, Brice and few others are apparently doing their best to prevent the fulfillment of Democratic party pledges to relieve the country of McKinley methods, but there is a whole lot of real Democratic back bone in congress that will head them off before the tariff measure reaches the president.

A CLEAN JUDGE.

Judge Bradley, who is presiding over the nasty Breckenridge-Pollard scandal suit in Washington, deserves a national vote of thanks. He has issued an order excluding all women spectators from the court room during this trial. Presumably some of the ultra female suffragists will regard this as an infringement upon their rights, but the man, and the woman, too, who cares a penny about the purity of their own fire-sides will commend it.

CAN SHOW THEIR HAND.

We are glad to note that Congressman Grosvener, of Ohio, although a Republican, is with New Mexico in her fight for justice and statehood. But it won't do for Mr. Grosvener or any other Republican, in or out of congress, to try and shift blame for failure thus far to pass the bill upon Delegate Joseph. If the

Republicans are sincere in their professions of good will toward New Mexico they will have a fine opportunity to show it to-day when Mr. Joseph will endeavor to again get the bill up and have it favorably acted upon. By their works ye shall know them.

A BIG JOB ON HAND.

The St. Louis Globe-Democrat, although published in a city which depends largely upon the trade of the west for its very existence, never lets an opportunity escape whereby it is enabled to give the west a slap. It is now struggling desperately in an endeavor to defeat the admission of the territories by getting congress to annex Arizona to New Mexico. It would also have its readers believe that President Cleveland will veto the bills for the admission of the territories. Neither President Cleveland nor the west can be injured by such petty warfare.

THE CITIZEN'S LATEST WHINE.

The resolution authorizing the governor to pay a reward of \$20,000 for the capture of the parties who made the attack upon Hon. J. A. Ancheta, was not, as the Albuquerque Citizen asserts, repealed by the last legislature. The governor had full power under law to offer the rewards noted in his recent proclamation, and the Citizen is guilty of the grossest misstatement of facts when it makes assertions to the contrary. As to the reward for other criminal cases while it is a fact that the legislative appropriation is but \$1,000 a year, yet the law distinctly authorizes the executive to spend more, if necessary to the bringing of criminals to justice, and very wisely places the limit of such rewards at \$500 for each criminal.

These are the facts in the case which the Citizen so pitifully whines about.

Press Comments on Territorial Affairs.

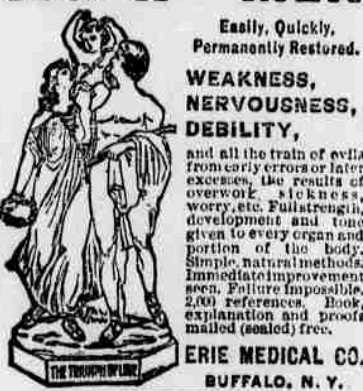

A Good Democratic Administration.

The present city administration will go into history as the most economical Albuquerque has ever had. If all the taxes of the year had been available, instead of only half, the city's debt would be reduced over \$8,000. This is the kind of a business administration the people like to see.—Albuquerque Times.

A Criminal Case Now on at Lincoln.

Devious and cruel are the ways of the law of man. Injustice and oppression seems to be the only outcome of nearly every law human ingenuity can prescribe for crime. Money and brains can certainly circumvent justice when no other than merely the officials are interested in the prosecution. It now transpires that Barrett, the murderer of Barnes and Holman, has friends who are secretly working for his acquittal, as if state prison for life or twenty-five years was too great a punishment for double murder. The facts are that \$350 was raised a short time since, and it is positively asserted to be true by those who know the facts that witnesses have been secured to swear that Barrett was insane. For he it from the will of any, the man should hang, but if society is to be protected he should never be turned loose. That Barrett at times was insane is undisputed, but is of a character that goes and comes with an unchangeable temper. Unless the prosecuting attorney has able assistance the murderer, Barrett, will go to the insane asylum on the insanity dodge.—Eddy Daily Current.

Grand Canon of Colorado River.
On the Santa Fe route, in northern Arizona, 1,262 miles from Kansas City, is the town of Flagstaff. A tri-weekly stage line runs from Flagstaff to the Grand Canon of the Colorado river. More than a mile in depth, this is the sublimest of gorges—a Titan of chasms. Twenty Yosemite might be hidden unseen below, and Niagara would look scarcely larger than a brook.

Don't fail to visit this first wonder of the world. You can "read up" about it by asking G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. R. Co., Topeka, Kas., to mail you a free copy of an illustrated book describing this terra incognita. The book is no common affair; but is entertainingly written, beautifully illustrated and a gem of the printer's art.

Why Take the Wabash
For ST. LOUIS?
Because it is the shortest line; the best equipped line; runs free chair cars, Buffet Pullmans and gives you ample time in Kansas City for supper.

For TOLEDO OR DETROIT?
Because it is the shortest line; avoids transfer across the city in case you are going further east, and makes close connections with all trunk lines.

For NEW YORK OR BOSTON?
Because it has solid through service from both Chicago and St. Louis, via NIAGARA FALLS; gives forty minutes' stop at the falls at reasonable time in the morning.

FOR ALL OTHER EASTERN POINTS?
Because its service is uniformly good and you can make no mistake in asking for tickets VIA THE WABASH.

SHOOTING STARS.

Macready tells of an actor who, in rendering the words, the poisoned cup, constantly said, The poisoned cup, to the great delight of his audience. On one occasion he rendered it correctly. Instantly there was an uproar, and he was not permitted to proceed till he had given the poisoned cup, when he was rewarded with shouts of applause.

The Land of Promise

Is the mighty West, the land that "ticked with a hoo laugh a harvest," the El Dorado of the miner; the goal of the agricultural emigrant. While it teems with all the elements of wealth and prosperity, some of the fairest and most fruitful portions of it bear a harvest of malaria reaped in its fullness by those unprotected by a medicinal safeguard. No one working or dwelling in a malarial locality is safe from the scourge without Hostetter's Stomach Bitters. Emigrants bear this in mind. Commercial travelers sojourning in malarious regions should carry a bottle of the Bitters in the traditional grip. Against the effects of exposure, mental or bodily overwork, damp and malarious food or water, it is an infallible defense. Constipation, rheumatism, biliousness, dyspepsia, nervousness and loss of strength are all remedied by this genial restorative.

I think I'll get out and stretch my legs a little, said a tall man, as the train stopped at station. Oh, don't, said a passenger, who had been sitting opposite to him, and who had been much embarrassed by the legs of his tall companion, don't do that! They are too long ready.

Superior to All Others.
Alcock's Porous Plasters are the great external remedy of the day. The quick-acting, safest, surest, best. Not only innumerable superior to all other plasters, but also liniments, ointments, oils and similar unctuous compounds.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Alcock's and let no solicitation or explanation induce you to accept a substitute.

He was Practical—She (emphatically): How kind of nature to bestow upon the faculty of distinguishing colors by the sense of touch! He (philosophically): Yes; but it's not altogether confined to the sightless. In this hard world a fellow needn't be blind to feel blue!

A Doctor, on calling upon a gentleman who had been some time ill, put a fee into the patient's hand, and took the medicine himself which he had prepared for the sick man. He was not made sensible of his error till he found himself getting ill and the patient getting better.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 20 years, much of that time very seriously. For five years I was treated by one physician consistently. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was directed in a serious condition when a gentleman induced my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost purrified. I then had taken one bottle of the New Heart Cure the swelling had all gone down, and I was no longer troubled with heart disease. On my recommendation six others are taking this valuable remedy." Mrs. Morgan, 506 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, 50¢ per bottle, six bottles for \$2.50, express prepaid. It is positively free from all opiates or dangerous drugs.

AN OLD FRIEND.

He Objected to Being a Sucker More Than Once at a Time.

A good story is told on a certain western congressman, who came to Washington the first time officially at the opening of the present session. One night during the recent rainy season the representative was walking along the avenue in the vicinity of Sixth street at a very late hour. It was raining hard, the cabs were hard to get, and the sidewalks were very wet. He was walking along the avenue in the vicinity of Sixth street at a very late hour. It was raining hard, the cabs were hard to get, and the sidewalks were very wet. He was walking along the avenue in the vicinity of Sixth street at a very late hour. It was raining hard, the cabs were hard to get, and the sidewalks were very wet.

The lawmaker's heart was touched. He probably thought of one of his own family in a similar predicament. Diving into his trousers pocket, he said: "Let me assist you, madam. Here are \$2. Now you walk over to the depot and hire a cab to take you to your son's house." He pressed the money into the woman's wet hand and hurried on his way, while she murmured, "God bless you, kind sir."

They say that the generous congressman slept better that night than he had for some time. The next day he had not finished "feeling good" over his kind act. Three nights afterward about the same hour the same congressman was again walking along the avenue. It was a clear, cold night, and being engrossed in a deep study he did not know anybody was near him until the figure of a woman stood in his path, and he heard her say:

"Please, sir, can you tell me the way to Georgetown?" Glancing at the features of the speaker, the congressman at once recognized the woman he had befriended a few nights before, and as he cast a frowning glance at her he said: "Good Lord, woman, haven't you found your son yet? Well, you just wait for one other sucker to come along. I've been there once."—Washington Post.

Answered.
In the far west, where the sun habitually sets amid clouds of red, where the distance between drug stores is often great and correspondingly immense, where the buffalo wanders aimlessly and deplores the good old times, a young man twanged his guitar and sang blithely.

It was a tenor cantante of pure quality, and the phrasing was immense. "I don't want to be a hero," he sang. "I'd rather have a wheelbarrow. Wheelbarrows are something you can sit down in and rest when you get tired of pushing the thing."—Indianapolis Journal.

"I say, old man, lend me a fiver, will you?" "And I'll be everlastingly indebted to you!"—Judge.

Not a Private Affair.

Miss—Something private. Mary (suddenly)—No, mum; please, mum, he's a lance corporal.—London Tit-Bits.

LITTLE AND SWEET

—Dr. Pierce's Pleasant Pellets. Tiny, sugar-coated—anti-bilious—granules, they are easy to take and pleasant in their action—most effective too. Every child is ready for them.

Then, after they're taken, instead of disturbing and shocking the system, they act in a mild, easy, and natural way. There's no chance for any reaction afterward. Their help lasts. Constipation, indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels, are promptly relieved and permanently cured.

They're put up in glass vials, which keep them always fresh and reliable, unlike the ordinary pills in wooden or pasteboard boxes.

And they're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

They're none likely to be "just as good."

My love, said a wife, fondly am I not to have that beautiful dress pattern I spoke of? Be patient, my dear, he replied; I will only say there is a surprise in store for you. In store for me! she snapped; that's where it will stay. A real surprise would be something for me at home.

Overheard Coming out of Church—She: Next time you want to sleep during the sermon you'd better go and sit with Mr. A., and lay your head on him. You'd be really comfortable then. He: Why? Is Mr. A. nice and—ahem—soft? She: No; but he is one of the pillars of the church.

There was once a plain outspoken judge, who, addressing the jury, said: Gentlemen of the jury: In this case the counsel on both sides are unintelligent; the witness on both sides are incredible; and the plaintiff and defendant are both such bad characters, that to me it is indifferent which way to give your verdict.

Why, Nellie, exclaimed a mother to her little girl, how your hands do look! You never saw my hands as dirty as yours are! No, but your mamma did, was the prompt reply of the artless Nellie.

The Owner of the Lone Star Mine Talks of Cochiti District—Men Who Have Faith in the New Camp.

Mr. Thomas Lowthian, whose name is a familiar one to readers of the New Mexican, by reason of his connection with the Lone Star mine and also the high repute in which he is held by all old miners, is at the Palace. Mr. Lowthian arrived in the city from Cochiti yesterday morning to consult with his lawyer, Mr. Chas. H. Toll, of Denver, who arrived on last night's train. Mr. Lowthian has been confined to his bed by a severe cold ever since his arrival and was feeling very unwell when interviewed by a reporter of the New Mexican this morning. Despite the fact that he was in bed, Mr. Lowthian, who is one of the most affable of men, readily consented to tell what he knew of the new El Dorado. His statements are most interesting. He is very conservative and carefully weighs every statement before its utterance.

Contrary to all previous reports from the camp, Mr. Lowthian says the ore is not refractory but free milling gold and silver. His story is best told in his own words. He said: "There are plenty of veins in the district and they are apparently fairly well mineralized. I only know of three good prospects so far discovered; they are the Washington, Lone Star, in which I am interested, and the Crown Point. They all look well and will apparently turn out good, workable mines. We have done \$500 worth of work on the Lone Star and are not down over fifteen feet. We have done no shipping yet, but I should judge we have thirty or forty tons of ore on the dump. The Washington shipped a carload of ore which run thirty-five ounces in silver and one-half an ounce in gold, to the ton. We have not yet had an assay from the Lone Star, which run less than forty to fifty ounces, and from that up to 400 ounces, in silver, and from one-half to four or five ounces in gold, to the ton. I think we have a very fine showing for a mine."

"Apart from prospects, there are three or four parallel veins that are immense features. To what extent they are mineralized I can not say, as development has not yet gone far enough. I like the general make-up of the country and think from what I have seen, that the camp will be a permanent one."

"There is no question as to the permanency of the features; the only doubt is the extent of the mineralization. Everything looks favorable and the camp will attract a great deal of attention anyway, because times are hard and people are casting their eyes about in search of new fields."

"The ore is as simple to handle as any I have ever seen. It is not refractory, but is practically free milling gold and silver ore. It can be very easily worked by amalgamation. The ore can be likened to that of the Comstock in its character. The formation may change as depth is reached, but I doubt it, as I believe it to be true silver and gold ore. Everything indicates strength of formation and strength of feature. The entire make-up of the country is favorable for mining."

"I do not believe the ore will pay to ship, as it is very hard to assay. Reduction works must be built near the mines. As to comparing it to any other portion of the country in richness, that is absurd, because development has not gone far enough. I believe the country is all right and that we have a good thing. As to making any predictions, I am not yet ready to do it, as I have not gone far enough. Suffice it to say, however, I would not be working in the district did I not have faith in it."

More Faith Than Ever.

Mr. J. W. Akers returned from Cochiti yesterday. Mr. Akers said to a representative of the New Mexican: "I can not tell you very much, as I did not have time to go all over the district. I put in most of my time at the ferry, which we got started to-day."

"They are taking out ore in a Pino canon. The Crown Point has quite a shipment ready. The Washington is beginning to show up in excellent style. The quality of ore improves as depth is reached, and I take this as indicative not only of richness but also of the continuity of the vein."

"The snow is pretty near all gone. The river is high and quite swift and dangerous to cross with a load. The starting of the ferry, however, has done away with the necessity of fording."

"I think there must be between 600 and 700 people in the district. Everybody who has investigated the camp says it is a good one, and I believe so, too. All the Colorado mining camps are represented in Cochiti and the Colorado men are wild over the prospects. My faith in the camp is increasing daily."

Mr. Akers brought in a lot of rich looking samples which he has placed on exhibition at the Arcade.

Mine Notes.

Mr. H. Sayres, of Orray, and Mr. W. J. Donnelly, of Aspen, Colo., left by the Cochiti stage this morning for Cochiti.

L. A. C. Parsons, of Aspen, and H. C. Klinger, of Rico, Colo., will leave for the new camp to-morrow. They intend to take their own outfit.

Messrs. E. H. Littinghoffer, George M. Schoeb and John Harill, of Leadville, Colo., are in the city. They will outfit with burros for Cochiti to-morrow morning.

W. J. Hurley and F. S. Hester, of Creede, and W. D. Bragan, of Cripple Creek, Colo., outfitted here and left for Cochiti yesterday morning. They say that reports which have reached Creede and Cripple Creek concerning Cochiti are exciting widespread interest and a big exodus of miners is looked for.

ROUND ABOUT TOWN.

Prepare to plant trees.
The city council meets to-night.
Business men meet at the office of Mr. G. W. Knobel at 7:30 this evening.
If you want to see Santa Fe prosper, go to the meeting at the office of Mr. Knobel at 7:30 to-night.

Albert Breon was fined \$5 and costs each on two charges, fighting and being drunk, by Justice Garcia this morning.
Justice Garcia this morning fined Manuel Romero and Teofilo Lujan \$5 and costs each for being drunk and disorderly.

Mr. Randolph Kelly is in from Cerrillos and states that the Little Pittsburgh is scooping in the growing trade at Cochiti. The new road brings Allerton within sixteen miles of Cerrillos.

The members of the Republican territorial central committee are called to meet at Santa Fe, March 24, and leaders of the party throughout the territory are invited to meet with them.

Mr. E. B. Chapman, of New York, who represents the eastern owners of the Santa Fe southern road, is now in Denver, conferring with D. & R. G. officials. He writes that he will visit Santa Fe in a few days.

Some little interest is beginning to be taken in city politics, but it is not the sole topic of discussion on the streets, for Santa Feans have business to attend to this year, and, for the first time in history, business topics are taking precedence. It is a good sign.

Standing room only is to be had on all A. T. & S. F. west-bound trains. Santa Feans should certainly get out that pamphlet and advertise the city's attractions, for by so doing a reasonable percentage of this travel could unquestionably be induced to come here and locate.

Capt. W. F. Tibbitts, traveling passenger agent for the D. & R. G. road, left this morning. He will lay an elaborate report on Cochiti's riches before the D. & R. G. officials and will urge that they lose no time in advertising the sale of tickets from all northern points via the stages from this city direct to Allerton.

J. B. Ferguson, an old time citizen of Santa Fe who purchased the Frayley ranch in the Pecos country, came in Saturday night to purchase a month's supply of provisions, and left for home yesterday. He is making arrangements to trade off his cattle, and will convert his place into a horse ranch, for which it is well adapted.
