### NATIONAL BUDGET.

An Anti-Silver Bluff That Failed to Connect—Many Presidential Nominations.

Mining Law Amendment—The Yuma Indian Lands—National News Notes.

Washington, March 24.—The house, with only fifty members present, is considering the postoffice appropriation bill in committee of the whole.

A COMMISSIONER APPOINTED. W. T. Levy, of Texas, has been appointed commissioner of immigration for the ports of Quebec and Pointe Léves, Canada, and Halifax, Nova Scotia.

A GOOD APPOINTMENT. Postmaster General Bissell has appointed F. D. Norton, of Missouri, superintendent of railway mail service at St. Louis, vice J. F. Lindsay, resigned. The division headquarters are at St. Louis and comprises the states of Colorado, Kansas and Missouri and the territory of New Mexico.

The president has sent the following nominations to the senate: Justice Henry Bohl, marshal of the United States; Harlan Cleveland, attorney of the United States, southern district of Ohio.

Treasury—Michael Ryan, assistant treasurer of the United States at Cincinnati; Albert J. Barra, surveyor of customs, district of Pittsburgh, Pa.; Henry D. Lemon, surveyor of customs, port of Cincinnati; Henry J. Schulte, appraiser of merchandise, Cincinnati.

Interior—John G. Newbill, register of lands at Springfield, Mo.; Jesse F. Murphy, register of land office at Olympia, Wash.; William H. Dunphy, receiver of public moneys at Walla Walla, Wash.; Edward K. Hawkins, receiver of public moneys at Olympia, Wash.

Navy—Eugene Houston Eldridge and Henry E. Wilson, to be lieutenants, junior grade.

### BLUFFS DON'T GO.

The anti-silver people who are trying to persuade the president to veto the seigniorage bill have made a bad blunder. A delegation of them in a visit to the white house conveyed the impression that if the bill was signed the eastern wing of the party in congress might go over to the Republicans and defeat the pending tariff legislation.

"Do I understand you to say that they propose to force me to veto this bill under the threat they will not pass the tariff bill?"

The speaker of the delegation tried to explain that he did not mean that any threat was implied. He had only mentioned as significant that there might be a delay in the passage of the bill, but as for himself he did not believe that Democratic members of the senate would defeat the tariff measure, however badly they might feel about the bill.

The visitors breathed easier. Each one of them felt, from the way in which Mr. Cleveland took the suggestion, that were any open threat made to "lever" up with him on the tariff bill the seigniorage measure would have been a law just as soon as the president could have attached his signature to it.

### A MINING LAW AMENDMENT.

Senator Wolcott has introduced a bill suspending the act which requires that in each claim located after May 10, 1892, and until patent has been issued thereon, not less than \$100 worth of labor shall be performed or improvements made during each year for a term of one year from Nov. 1, 1894 and also that the provision that on all claims located prior to the 10th of May, 1892, \$100 worth of labor shall be performed or improvements made by June 10, 1894, and each year thereafter for each 100 feet in length along the vein until a patent has been issued, be also suspended for the same time.

### NATIONAL NOTES.

Secretary Hoke Smith has sent to congress for approval agreements with the Yuma Indians in California for allotments in severalty and the sale of the remainder of their land, and with the Yavapai Indians in Washington for the cession of the Wapinitan fishery for \$2,000. He advises a lease to protect the Yuma lands along the Colorado river.

The estimated amount of revenue shown by the tariff bill reported to the senate is \$981,000,000, a reduction of \$15,000,000 from the estimate in the first bill reported to the committee. The principal loss is on domestic cigars and cigarettes and on tin plates and fruits. This will produce \$80,000,000 more than is needed.

### HE STILL LIVES.

A Man Coughs Up a Bullet Which Was in His Neck Thirty-one Years.

Lynn, Mass., March 24.—Augustus H. Sutherland, a veteran of the civil war, was seized with a coughing fit last night during which he ejected a pistol bullet which had been imbedded in his neck for thirty-one years. For three years he has been under the care of a physician who has been treating him for supposed cancer in the neck and an operation was to have been performed upon him within a few days.

### A FORGER SENTENCED.

Kalamazoo, Mich., March 24.—Stone-wall J. D. Frank, the convicted forger, was sentenced to-day by Judge Bank to eleven years at hard labor in the Jackson prison. He goes to Jackson to-night.

### A Murderer Sui'de's.

### A Descendant of George.

Huntington, W. Va., March 24.—Wallace Washington, a descendant of George Washington and who has been chief clerk to the chief of police at Richmond, died in this city last night from paralysis. He has been here on a visit to a son.

### A Ship Lost.

St. John, N. B., March 24.—The tug Dirgo and Neptune reached here to-day from the British bark Stillwater, which went ashore yesterday twelve miles from here. They report she will be a total loss, being on the beach with the bottom gone. The crew were all landed safely.

### AGAINST WAITE.

The Supreme Court Refuses to Answer His Questions—Precaution Taken to Prevent Trouble.

Denver, March 24.—There was a large crowd of attorneys and prominent citizens in the supreme court to-day when the judges filed in and took their places for the purpose of rendering an opinion in the famous police board controversy. The question was presented to the court by the governor and asks who are the legal members of the fire and police board. The unanimous opinion of the court is that this question must be determined by the district court. The decision is against the governor, for it does not answer his question and leaves the matter where it stood when he called out the militia over a week ago. The grounds upon which the opinion was rendered is that the case was irregularly brought and the court has no jurisdiction. Representatives of the committee of safety were present to watch the outcome and report to the committee at the earliest moment, in order that in case the court should not decide the controversy in a definite and positive way, prompt steps might be taken to protect the city interests, preserve peace and prevent a recurrence of the shameful scenes of a week ago.

The principal point in the decision is that the governor was greatly in error in assuming that it devolved upon him to enforce his order of removal of the fire and police commissioners of Denver. Though appointed by the governor they are practically municipal officers and these are not more charged with the duty of seating them, in case of any controversy, than he is with the seating of a city clerk or other municipal officer, over whose right to office a controversy has arisen. The governor was rendered and in reply to a question said: "I have absolutely nothing to say upon this subject."

There is considerable uneasiness in the city because of the fact that the supreme court having decided against the governor, he now threatens to take the matter into his own hands. The committee of safety has called a meeting for 4 o'clock and will endeavor to have a conference with the governor.

### Storm and Cold Weather.

Omaha, March 24.—The second edition of the blizzard of Wednesday, which started last night, made itself felt along the line of the Burlington in the northwest, completely blocking traffic between Omaha and the coast and forcing the railroad to suspend operations except at division points. Telegrams received at headquarters indicate that the storm is abating in the northwest, although it is intensely cold.

### WILL START TO-MORROW.

The Industrial Army Ready to Start On Its Pilgrimage to Washington—Sanguine Leaders.

Massillon, Ohio, March 24.—The march of the Commonwealth Army to the national capital will begin to-morrow precisely on the hour after noon. This is the declaration made to-day by the originator and leader of this extraordinary pilgrimage. According to present indications the army will be small when it starts out, but Gen. Coxey is sanguine that when it reaches the national capital it will contain 100,000 American citizens. His son will ride at the head of the army, wearing a combination suit of blue and grey and carrying as an emblem of the Commonwealth a white flag of peace. Gen. Coxey himself will follow in a carriage drawn by six white horses.

The object of the pilgrimage is well known. On arrival of the army at Washington it is intended to round-up before the capitol and demand the enactment of two bills. One of these authorizes the secretary of the treasury to issue \$500,000,000 in treasury notes to be used in improvements on the roads of the country and the second authorizes municipalities to issue non-interest bearing bonds and to secure the notes thereon. On the way to Washington the army is expected to be fed by voluntary contributions of sympathizers along the route.

The banks now hold \$79,077,600 in excess of the requirements of the 25 per cent rule.

### THE DEAD PATRIOT.

Kossuth's Remains Will Rest Beside Those of His Wife and Daughter.

Buda Pesth.—The upper house of the Hungarian diet was addressed to-day by the president who warmly eulogized Kossuth. After the president's address the upper house took formal cognizance of the resolutions adopted yesterday by the lower house.

### LIL WILL LECTURE.

An Indiana Man Says She Will Travel and Tell Her Story.

Indianapolis, Ind., March 24.—Dr. J. A. Houser, of this city, announces that he is about to close negotiations with ex-Queen Lilianakani for a lecture tour of the United States. Mr. Houser wrote to the ex-queen six weeks ago, offering to manage a tour for her, and she says the reply indicates that she will accept the proposition made.

"We shall begin the tour in San Francisco," said he, "as soon as the queen desires to come over. I will be there to meet her, and from that city we will make a prolonged tour of the whole country, visiting all cities of considerable size. I have arranged for the queen to wear a crown on the stage, and she will present precisely the same appearance that she does at Honolulu."

Having heard reports derogatory to Lopez, the young lady wrote him breaking off the engagement. Lopez called, pleaded to be reinstated, but she refused. The father invited the discarded lover to remain for dinner. The three sat down to eat and Lopez secretly put poison in the food. In a few minutes all three died.

### Looking For Bodies.

Pittsburg, March 24.—Until dark last evening searchers traversed the hills and ravines in Black's Run, the scene of yesterday's dynamite explosion, looking for fragments of the bodies of victims. ### Republicans in Session.

An informal meeting of the members of the Republican territorial central committee is in session this afternoon at the committee's room in the Catron block. In the absence of Mr. R. E. Twitchell, chairman of the committee, Hon. E. S. Stover, president, and Secretary L. A. Hughes are taking notes.

Less than half the members of the committee are present. Those in the junta are Messrs. T. B. Catron, L. A. Hughes, E. L. Bartlett, A. L. Morrison, C. A. Spies and Antonio Ortiz y Salazar, of Santa Fe; Pedro Perea and J. L. Perea, of Bernalillo; E. S. Stover, Thos. Hughes and M. S. Otero, of Albuquerque; John D. Bail, of Silver City; John P. Hyland, of Rincon; W. S. Williams, W. E. Kelly and E. W. Eaton, of Socorro. A general discussion of the political situation, territorial and national, is in progress, and much of the talk refers to Hatchism. It is probable that a resolution will be passed appealing to the Republican members of congress not to hold back longer, but come up to the legislative trough and join the western Democrats in admitting New Mexico as a state.

New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

SATURDAY, MARCH 24.

This Democratic administration is all right on the question of donating the arid lands to the western states and territories.

It seems almost superfluous, but for fear the few readers of such records as the Albuquerque Citizen prints may overlook the fact, we may here again remark: When you see it in the New Mexican it's so.

The Colorado papers continue to catch on. The first editorial paragraph in the Denver Daily Mining Record of the 21st inst. reads thus: "Colorado mining men who have recently visited Cochiti, the New Mexico mining camp, are of the opinion that there will be a population there of 8,000 people within ninety days."

A CONSERVATIVE Colorado man of thirty years experience in mining matters, sizes up the Cochiti district thus: "It is either the greatest mineral wonder on the continent, or the biggest fraud. I've been over the camp carefully, but I've not reached yet any final conclusion." This condition of things will continue to make all news from Cochiti of absorbing interest to the average New Mexico reader for some weeks to come. To get the facts rely on the New Mexican.

## THE WOMEN IN IT.

The agitation for woman suffrage is increasing. What a few years ago was treated with scorn is now engaging the best minds of the country in its solution. Last week a resolution to submit a woman suffrage amendment to the constitution was defeated in the Iowa senate by the narrow margin of twenty to twenty-six. The issue is a live and serious one, and will be a troublesome one until it is settled. Wyoming and Colorado have both given the right of suffrage to women. In Colorado the women have not yet had a chance to exercise their right, and it remains a question whether or not the experiment will be a successful one. Woman's proper sphere is home. She can do the world more good by attending to home duties than she can by mixing in politics, but there is no denying the fact that the tendency of the age is all towards allowing her a wider range of freedom in public affairs.

## THOSE "ILLUSIVE" REWARDS.

The New Mexican seems to have been made very angry because the Citizen showed that the governor's "rewards," which are being so highly lauded as if they were proof of wonderful zeal and wisdom, were really only idle wind meant for show and nothing else. We do not mind the anger, but we do mind having facts misrepresented. The New Mexican says that the Anchaleta reward was not repealed by the last legislature. This is either ignorance or deception. Some one should send the editor a copy of the laws of 1895. There he will read chapter XIV, as follows: "Chapter XIV of the session laws of 1891, being an act entitled 'an act making an appropriation for the arrest and conviction of the persons concerned in the shooting and wounding of Hon. J. A. Anchaleta,' approved February 6, 1891, is hereby repealed." The New Mexican tries to deceive by saying that the resolution of the legislature relative to the reward was not repealed. This is true, for the resolution, which was passed hurriedly on the morning after the shooting, only had effect by its terms "until a special appropriation is made for such purpose." Then the legislature proceeded to make its special appropriation in chapter XI of the laws; and that was repealed in 1895. There is not a dollar that can to-day be legally used for that purpose.

Then it tries to evade the point that the appropriation for rewards is limited by law to \$1,000 per year, by saying: "Yet the law authorizes the executive to spend more." That is not true, and even if there were such a law, there would be no money to pay with. The limitation was first made in the finance act of 1889, wherein the item of appropriation for the 40th fiscal year is "For rewards to be offered by the governor for the apprehension of criminals, \$1,000." Exactly the same was appropriated for the 41st year. Thereupon, as stated before, Gov. Ross withdrew all the rewards that he had offered, so as not to violate the law, and

confined the amounts offered thereafter to \$100 each. Both he and Gov. Prince would have been glad to offer high rewards, but they felt bound to confine themselves to the law. The appropriation for the present fiscal year, (15th) reads exactly like the above, and appropriates \$1,000 (page 97, laws of 1895).

We have most stringent laws to prevent payments being made in excess of appropriations, and every sane man who can read knows that no more than \$1,000 can be paid for this purpose in a year. There is no way to prevent a governor from offering a million dollars if he chooses, but he can not bind the territory beyond the law; and hence we repeat that such offers are deceptive and simply made for political effect.—Albuquerque Citizen.

Now, let's see about this. Joint Resolution No. 5, passed at the legislative session of '90-'91, and approved February 6, of the latter year, provided that the governor be requested to offer a reward of \$20,000 for the capture and conviction of the parties who made the attack upon and attempted to murder Hon. J. A. Anchaleta, and that upon the certificate of the governor and the auditor should issue a warrant for this amount, payable out of any funds in the territorial treasury, "until a special appropriation is made for this purpose."

Chapter 11, acts of '91, was a separate act, and it was approved by the governor on the same day that Joint Resolution No. 5 was. This act requested and directed the governor to offer a reward for the persons who made the attack upon Mr. Anchaleta and also authorizing "the governor to employ competent persons to ferret out and detect the parties," and, mark the stipulation, "for which latter purpose the sum of \$10,000 is hereby appropriated, to be paid out of any moneys in the territorial treasury on the certificate of the governor and the warrant of the auditor."

Here we have two separate and distinct laws, providing for the payment of moneys for two distinct purposes.

Chapter 11, acts of '91, did not in the least effect Joint Resolution No. 5, the two being wholly independent of each other.

In 1893, Gov. Prince, having expended a large portion of the fund provided for in Chapter 11, acts of '91, an act was passed repealing Chapter 11, thus taking from the executive the power to spend more money in the employment of detectives to ferret out, etc.

No "special appropriation" has ever been made to provide for the expenditure of the \$20,000 authorized in Joint Resolution No. 5 and, therefore, by the terms of the resolution, the reward can yet be paid out of any moneys in the treasury. It was in accordance with this lawful authority that the governor issued his recent proclamation in the premises.

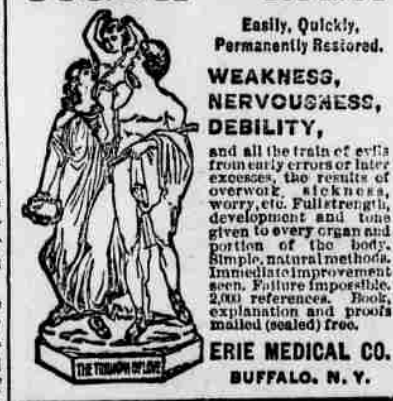

As to rewards in general, it may here also be stated that while it is true the legislature only provided for an annual appropriation of \$1,000 for the payment of rewards in criminal cases, it is equally true that by section 684, Compiled Laws of New Mexico, it is provided: "That the governor shall be authorized to issue his proclamation offering a reward, not exceeding \$500, for the apprehension and delivery of the accused to the proper officer."

It is something new in legal ethics that a general law is repealed by an item inserted in an appropriation bill. Does not the Citizen know that one of the first acts of nearly every congress and nearly every legislative assembly is to pass a deficiency appropriation bill, and that this territory provided by its last legislature for the issue of bonds to the amount of nearly \$100,000 to pay current expenses where they had been in excess of the amount originally appropriated?

The fact is, apparently, painfully apparent, that the Albuquerque Citizen does not wish the present administration to be successful in its well defined policy, the arrest of criminals and the punishment of crime, for fear that it will reflect on the inefficiency of former administrations in New Mexico.

The good result that has followed the offer of these various rewards speaks for itself, and all good and law abiding citizens can not but commend.

## Why Take the Wabash

For ST. LOUIS? Because it is the shortest line; the best equipped line; runs free chair cars, Buffet Pullmans and gives you ample time in Kansas City for shopping.

For TOLEDO OR DETROIT? Because it is the shortest line; avoids transfer across the city in case you are going further east, and makes close connections with all trunk lines.

For NEW YORK OR BOSTON? Because it has solid through service from both Chicago and St. Louis, via NIAGARA FALLS; gives forty minutes' stop at the falls at seasonable time in the morning.

FOR ALL OTHER EASTERN POINTS? Because its service is uniformly good and you can make no mistake in asking for tickets VIA THE WABASH.

## Grand Canon of Colorado River.

On the Santa Fe route, in northern Arizona, 1262 miles from Kansas City, is the town of Flagstaff. A tri-weekly stage line runs from Flagstaff to the Grand Canon of the Colorado river. More than a mile in depth, this is the sublimest of gorges—a Titan of chasms. Twenty Yosemite might be hidden unseen below, and Niagara would look scarcely larger than a brook.

Don't fail to visit this first wonder of the world. You can "read up" about it by asking G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. Co., Topeka, Kas., to mail you a free copy of an illustrated book describing this term incognita. The book is no common affair; but is entertainingly written, beautifully illustrated and a gem of the printer's art.

## ATTENTION DEMOCRATS.

Notice is hereby given that at a meeting held by the Democratic city central committee on the 13th day of March, 1894, it was ordered that the primaries of the four different wards of the city of Santa Fe be held on the 28th day of March, 1894, at 7 p. m., for the purpose of nominating the following ward officers in each of the respective wards.

Ward No. 1 (at the house of Pascual Padilla) two aldermen, one of which is to serve for the term of two years and one for the term of one year, to fill the vacancy caused by the removal of J. W. Schofield, and two members of the board of education, one to serve for the term of two years and one to serve for the term of one year.

Ward No. 2 (at Father DeFour's hall) one alderman and one member of the board of education, each to serve for the term of two years.

Ward No. 3 at the Armory hall (Perea's building) one alderman and one member of the board of education, each to serve for the term of two years.

Ward No. 4 (at the house of Antonio Simeros) one alderman and one member of the board of education, each to serve for the term of two years.

Also that ten delegates and ten alternates shall be chosen from each ward to the city convention to be held on the 29th day of March, 1894, at the county court house, at 7 p. m., for the purpose of selecting candidates for mayor, city clerk and treasurer for the coming city election to be held on the first Tuesday of April, being the 3d day of April, A. D. 1894.

What amuse me most at the opera, said an Arab chief who had been taken to hear Faust, was a musician in the orchestra seated a little higher than the rest, who performed on an invisible instrument with a stick.

A friend called upon Rosini, the great musical composer, one day, and found him smoking. Ah, that is good, said he, taking out his cigar-case; you don't object? Pardon me, replied Rosini, placidly, the smoke of my own cigar satisfies me.

No one working or dwelling in a malarial locality is safe from the scourge without Hostetter's Stomach Bitters. Emigrants bear this in mind. Commercial travelers sojourning in malarious regions should carry a bottle of the Bitters in the traditional grip-sack. My feet and limbs were badly swollen, and I was in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost paralyzed. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. Conservative Men Who Have Been There Still Talking of Cochiti's Great Prospects.

The New Road and Telephone Line—Taos County's Gold Excitement—Pick-up from the Mines.

Mr. J. W. Akers returned from Cochiti last night. He says his confidence in the camp has greatly increased, and he expects to witness great things out there in a short time. The permanent value of the mineral discoveries is being proved up daily.

The new short road from Santa Fe to Allerton now under construction," said Mr. Akers, "is a fine one. About 100 men are at work on the road, and I expect it will be finished by the last of next week. It will be a great help to business in Santa Fe."

"There are a great many people going in with pack horses and burros. I don't know where they all go too, as they are scattered over an area of twenty-five or thirty miles. This is a good thing, however, as it will cause the whole country to be thoroughly prospected. I saw some ore from a new mine, the location of which I do not know, that looked very fine."

"The ferry is working excellently. It is carrying big four horse teams, hauling heavy iron pipes for the new water system, and is sufficient test to prove that it will carry heavy ore teams all right. Telephone poles are being put up fast between Cochiti and Allerton, and the wires will be strung in a few days. Work is progressing very rapidly on the Allerton water system, and that will also be finished shortly."

"There must be close to 1,000 people scattered over the district. One thing is very sure, they are in much faster than ever before. I really can not see how the camp can now prove a failure."

AN "OLD STAGER'S" OPINION.

Mr. Patterson, the stageman, left on his return to Cochiti this morning carrying a load of passengers and also taking with him blank books, stationery, etc., for Mr. W. J. Eaton, who has just been chosen recorder of the Cochiti district. Mr. Patterson says:

"I have not yet met a man who has seen the camp who has not expressed confidence in it and who does not think it will turn out to be a big and permanent one."

"The ferry is running all right. The river is too high to ford. At Allerton new buildings are going up constantly."

"The Washington mine has hauled out another carload of ore and it will soon be shipped. There are new discoveries being made every day, and I have more confidence than ever in the camp."

"GOT A MOUNTAIN OF IT."

George Metz, the nomadic boot black, walked in from Allerton yesterday. Arriving here at 9 o'clock last night George called on some friends whom he knew to be posted on mines and then and there he laid before them samples of as rich ore as has yet been found in the district. "See that!" said he, "all mine! Mountain of it, and my location is on the apex!"

The ore is fine indeed, and Metz claimed that he has struck it rich in being investigated by those to whom he has confided his discovery.

GOOD FOR TAOS.

Hon. Alex. Gaudin came down from Taos last night. He reports that there is quite an excitement in his county over the discovery of great hidden riches in the placer gold fields by the St. Louis parties, and says that several thousand acres of land have been located.

At Copper Hill, near Embudo, Messrs. Moffatt, Mears, Jeffrey and other Colorado capitalists have about twenty-five men at work, and within a few days seventy-five more men will be employed. The buildings for their accommodation were completed last Tuesday. It is proposed to at once sink two shafts upon the property just purchased to an additional depth of 100 feet each. Mr. Gaudin looks for this as the liveliest season Taos county has ever known in a mining way.

MUST HAVE IT.

Santa Fe business men should by all means take firmer hold of the subject of securing telephone connection with the Cochiti mining district. Outside of the fact that the few shares of stock now necessary to be subscribed to secure this line, will prove a profitable investment, it should be borne in mind that the indirect benefits to this city will prove

**BABY ONE SOLID RED**

Literally on Fire with Eczema. Screaming and Clawing all the Time.

Added to this were Abscesses and Suppuration.

Entirely Cured by CUTICURA. Now Stout and Hearty.

Our little baby, almost 2 years old, was taken with some form of Eczema when she was about three months old. Her little body was one solid red from the soles of her feet to the crown of her head, and she seemed to be literally on fire, screaming and clawing all the time. When she was about five months old, there was added to her affliction, abscesses and suppuration. We tried the local M. D.'s, and some other remedies without any relief. I had read considerable about the CUTICURA REMEDIES, and one of our neighbors had used them, claiming that they were as good as claimed. I concluded to try them, and after the use of three or four boxes of CUTICURA, and about one and one-half bottles of the CUTICURA RESOLVENT, with the CUTICURA SOAP, our little one is now entirely cured, and is stout and hearty. Your CUTICURA REMEDIES are all more than you claim them to be. I always have a good word to say for friends and neighbors for your excellent remedies.

C. H. WOOD, White Cloud, Mo.

very great. Every move that is calculated to bring Allerton and its rich adjacent region into closer communication with Santa Fe should have the heartiest encouragement. The camp is to be a great and permanent one, everybody says so who has been there, and before we know it the narrow gauge will be heading in there, and it will go out of Santa Fe if our people display the proper sort of enterprise in bringing the trade of the district this way.

The necessary poles for this telephone line are now ready, and the company will begin placing them along the new short road direct to Allerton as soon as the stock is taken. Thus far forty-six shares out of the eighty have been taken. Let the remainder be subscribed for at once.

MINE SUGGESTS.

Placer miners hereabout will be interested in reading this from the Trinidad Advertiser: "J. P. Hughes and W. H. The canons of a correct taste this year admit the sending of an Easter card to a married woman, provided it be in the shape of a cross. In England, it was long deemed bad form for a man to send such a token to a married woman, but the rule is changed this year, and the anglo-normans have followed the example thus set. But it is in shocking taste, it seems, to send a card to a woman on which anything sentimental is inscribed. Above all, no writing of any kind should be upon it, although last year it was quite the thing to write a verse or so in addition to what was already printed thereon.

The Minneapolis Times thus speaks of the return home of Prof. Cyrus Northrop, president of the State university, a recent visitor here: "Prof. Northrop was greeted with hearty and prolonged cheers as he entered the crowded room, and again after he had made a short address, in which he gave out the good news of his daughter's improved health. The climate of Santa Fe proves very beneficial to the convalescent, and the attending physician, after a recent examination,

pronounces her on the way to a complete recovery of health. The president looks five years younger than when he went away, and the students all rejoice at seeing his burden of anxiety removed and his old time spirits restored."

**THE MORA AFFAIR.**

The Newly Appointed Sheriff Talks of the Law and Order Sentiment Now Prevalent.

Sheriff Vicente Mares, of Mora county, appointed by Gov. Thornton in place of Agapito Abeytia, removed for causes, arrived in the city last night bringing with him two persons whom he lodged in the penitentiary. The two men are Gavino Garcia, aged 18 years, sentenced to twenty years for rape upon an 8-year old girl, and Ventura Archuleta, 22 years old, sentenced to one year for assault to commit murder. Archuleta's crime was accidental. He hit a boy with a bat while playing ball, but it is not thought the act was a premeditated one.

Sheriff Mares says that E. W. Pierce and ex-Sheriff Abeytia charged with implication in the Real murder, are still in jail at Mora. Abeytia was remanded to jail in default of \$20,000 bail bond, and although he has tried hard to secure it, he has up to the present been unable to obtain sureties. Both men are quiet, but are extremely angry, of course, over their incarceration.

Sheriff Mares declares there is nothing in the report that a body of 600 men were preparing to attack the jail and liberate Abeytia and Pierce. Everything is quiet and peaceable and the people have gone to work on their ranches. No attack is expected, but if one is made the sheriff is amply prepared to resist it. There was a great deal of excitement the first two nights after the arrests but everything has quieted down now.

Tomas Jasso, the seventh member of the gang, is still at large and no clue has been found as to his whereabouts.
