We repair all kinds of furniture, upholstery, mattresses remade, sewing machines and musical instruments of all kinds repaired and carpets sewed and laid. All work guaranteed satisfactory or money refunded.

GOLD BRICK MEN.

A Kansas Farmer Swindled Out of \$4,000.

Wichita, Kas., May 24.—Three slick gold brick men from the east dropped in here ten days ago and caught a wealthy farmer of Sumner county for \$4,000. He was warned of the trick by a local jeweler to whom he took the slings of the lamp of gold. The police discovered the trick too late to arrest the parties.

INDIANA POPULISTS.

Large Convention at Indianapolis—Omaha Platform Adopted—State Officers will be Nominated.

Indianapolis, May 24.—The Indiana Populists met in state convention at Tomlinson hall at 10 o'clock to-day. Enthusiasts of the party predicted that the attendance would be 5,000, but 2,000 is probably the size of the convention. Each precinct of the state is supposed to be represented and it would mean 1,000 delegates. Leroy Tompkins was made permanent chairman and a full state ticket will be nominated. The officers are seeking the men and there are no really avowed candidates. The platform is precisely the same as that adopted at Omaha and advocates an income tax and postal saving banks. A revision of the emigrant laws is asked and the abolition of convict labor and the election of United States senators by direct vote of the people is demanded.

Eight Hundred Ballots.

Olathe, Kas., May 24.—The second congressional convention resumed balloting this morning at 9 o'clock. One hundred and fifty-four ballots were cast without a change. After the eight hundred and eighty-first ballot the convention adjourned until 4 o'clock this afternoon.

BLOODY DEEDS.

Battle Between the Officers and Strikers in the Coke Regions.

Destruction of Mining Property in Illinois—Trouble in Kansas City.

Uniontown, Pa., May 24.—At daybreak the battle which has been threatened at the Stickle Hollow mines of the Washington Coal and Coke company for the past three days, occurred and as a result at least three strikers are lying dead and half a dozen more are seriously wounded. It cannot be said to have been a battle as not a shot was fired by the strikers, but seemingly without provocation volleys were fired by the deputies while the strikers were assembling on the public road. Shortly before midnight last night 2,000 strikers assembled at the Stickle Hollow plants, coming from Lucyville, Fayette, Freeport, Allenport and many other points on the Monongahela river. Some of them were armed but a majority were not. They went into camp near the plant where they remained till 1 o'clock, when they adjourned to the public road leading to the works, and over which the workmen have to pass to the pit. Here they formed a line to intercept workmen and attempt to get them to return home, according to their plans they stopped the first delegation of miners and after a little persuasion induced them to join the strike. The men turned back. About the time they were starting home the deputies, who were on guard and witnessed the affair, were ordered to shoot. They fired three volleys into the mob at a range of fifty yards. The first volley brought forth no response from the strikers, who were thought to be well armed, but instead they ran in various directions, leaving the dead and wounded lying in the public road. The deputies followed with two more volleys and were shooting when the last striker disappeared. The report of the affair given by the men of the company is to the effect that four strikers were picked up dead in the road after the shooting. About half a dozen wounded ones were carried away by their comrades. The company's officials say that the strikers served notice on them that they expected to assault the works, and acting on this information the deputies considered this interference with the workmen as the beginning of an assault and for that reason fired on them. Last night was one of

MORTAL TERROR

among the citizens. At the Stickle mines the strikers kept up threatening demonstrations and even threatened to visit the houses of workmen and give them the choice to quit work or meet death in the presence of their families. Camp fires were built and scouting parties were sent to keep a close watch on the plants. The force of deputies was doubled, all available men in the community being sworn in.

The latest news from the scene of the trouble is that the strikers are all gone and the situation is peaceful to-day. The workmen have not gone to work, but are willing to do so as soon as the excitement subsides.

To-day the situation at the Hill farm mines, where the company has been defying the strikers and running a full force under the gaze of a camp of 300 strikers, is decidedly alarming and an outbreak is feared before night. At 2 o'clock 500 strikers from the Southern End region marched to Hill farm and were joined by a few men who had been camped there, and now they are said to be planning an attack on the works. The plants are guarded by their families. Camp fires will result seriously. The strikers say they can not expect to win as long as the plants are allowed to run, and are determined to force all the plants to shut down regardless of the loss of life it may occasion. Supt. Kimball of the Hill farm mines, is here getting out an injunction restraining the strikers from camping on or near the works.

FIRING ON BOTH SIDES.

Uniontown.—A report received at 11 o'clock this morning says that there was firing on both sides. The deputies fired first, killing five and wounding others. Rainey has ordered four gatling guns for his plants. One will arrive to-day and be put in position at once. Shells for the guns are already here.

The extent of the daylight battle at Stickle Hollow is just known. There has not been so fierce a conflict in the coke region or river districts since the inauguration of the strike. In fact, it is the first engagement in which both deputies and strikers have shot to kill. Later reports place the number of killed at five and wounded at eight and other victims of the unfortunate affair may be found when time can be had for more thorough investigation of the results. It was not a one-sided affair as at first reported, but was a battle with as many guns on one side as on the other and with as much fighting by the strikers as by the deputies. Among the wounded are three deputies, while the

KILLED ARE ALL STRIKERS.

The strikers stood their ground while their comrades were falling one by one, but their ammunition giving out and it requiring too much time to load the shot-guns they were forced to give up the fight and flee to escape the rain of bullets from fifty Winchester. It is said that the strikers were advancing on the line when the deputies fired the first shot.

A large number of strikers were arrested by the deputies to-day who had guns in their possession and who were equipped with ammunition. They are

now held as prisoners and will be brought to justice together here. It is now believed that the deputies had some provocation for shooting when they did.

DESTRUCTION OF PROPERTY IN ILLINOIS. Centralia, Ill.—About 500 striking miners from the Daquoin and St. Johns mines arrived in this city to-day on the Illinois Central freight train and proceeded to the Big Four mine in the limits of the city. They demolished considerable machinery and filled the shaft with fifteen feet of debris, dump carts and other loose material. The striking miners held a meeting and left the city on foot for Odin, eight miles north of here, to shut down the mines there. The sheriff has sworn in about fifty deputies who are equipped with Winchester rifles from the armory here. They left for Odin on a special train. The miners are well armed with pistols and plenty of ammunition.

PROTECTING RAILROAD PROPERTY. Hugo, Colo.—Under Sheriff Malone, of Lincoln county, has gone to Lamar with commissions as special deputy sheriffs for all the employees of the Rock Island railroad running through Lincoln county. They will be armed with repeating rifles and will resist the Denver Commonwealths should they capture a train as is feared by railroad officials.

MISSOURI AGITATORS. Leavenworth, Kas.—Capt. Ryan, leader of the band of Missouri miners, who intend to invade this city this evening, arrived at noon to hold a conference with Mayor Doolittle.

The mayor reiterated the warning given before and said that the agitators must not enter the city. Ryan then concluded to have his men go into camp south of the city and then enter by ones and twos to-night. Excitement is general throughout the city and it is believed the alarm of five thousands of men will respond.

The sheriff is swearing in 500 deputies and getting everything in readiness. A large number of extra police have been appointed and will await orders at headquarters. Ryan states that his men will not offer to resist the force. Consequently he thinks there will be no bloodshed. The 800 miners at work in the threemines are dreading the approach of the mob. In case they should be beset by the agitators there certainly will be serious consequences.

Want Him Restored. Denver, May 24.—A petition signed by 10,000 Catholics asking that Father Malone be restored in his pastorate has been presented to Archbishop Chapelle, with the request that he send it to Archbishop Satali, the apostolic delegate.

Snow Does Enormous Damage. London, Ky., May 24.—The damage to the wheat and fruit crop in the county, caused by the snow Sunday night, is enormous. Something like half the fruit trees are torn to pieces and the whole crop, which was more promising than it had been for years, is flat on the ground and totally ruined.

Bristol, Tenn.—Snow has been falling here and the neighboring mountains are crowned with it. On White Top, east of here, the snow is five inches deep.

PAROCHIAL SCHOOLS.

A Strong Opposition to Proposed Indian Educational Appropriations. Washington, May 24.—A campaign is being waged at the door of the house by a society called the National League for the Protection of American Industries against those items in the Indian appropriation bill providing for the support of parochial schools. The society is largely an ecclesiastical organization. The Rev. William H. Parsons is its president; Hon. William Strong, a retired justice of the supreme court, vice-president; and on the board of managers are Wheeler H. Peckham, who was nominated by President Cleveland for the supreme court; Norman B. Eaton and Henry E. Howland.

The society claims to have a large number of members of the house pledged to fight the grants when the bill is brought up. They represent that during the past eight years a total of \$2,366,416 has been given to the Roman Catholic schools out of \$3,767,951 appropriated, and that the proportion given to the Catholic schools is steadily increasing since the Congressional, Methodist, Presbyterian and Episcopal churches have withdrawn their applications for funds.

The whole amount asked for this year is said to be nearly \$400,000, to be distributed among forty-five Roman Catholic schools. The particular items in the bill are for the following schools: St. Boniface, Banning, Cal., \$12,500; Holy Family, Blackfeet, Mont., \$12,500; St. John's, Collegeville, Minn., \$10,000; St. Benedict's, St. Ignace, Mont., \$10,000; St. Paul, Clontarf, \$10,000; St. Ignace, Joeke, Cal., \$45,000; St. Joseph, Rensselaer, Ind., \$8,330; Kate Drexel, Umatilla, Ore., \$6,000.

Coxeites Mentions.

Cheyenne, Wyo., May 24.—B. F. Hughes, R. F. Weed and Chas. O'Brien, leaders among the commonwealers who stole a Union Pacific train at Montpelier, Idaho, last week and ran to Oskoville, Wyoming, where they were captured, have been sentenced by Judge Riner, of the United States court, to five months' imprisonment in the Laramie county jail. Twelve others who were in the party were sentenced to four months' imprisonment.

Loaning Tents to Coxeyites.

Denver, May 24.—At the request of Rev. Myron W. Reed, Gov. Waite to-day authorized the loaning of 100 tents and camp equipments of the Colorado national guard to the Corey army in camp at River Front park.

WASHINGTON BUDGET.

Investigating the Sugar Trust's Connection with the Tariff Legislation—New Postoffice for Chicago—Notes.

Washington, May 24.—The house committee on public buildings to-day decided to erect a new government building at Chicago on the site of the present postoffice. The Lake Front site has been abandoned and it is proposed that the new building shall cover an entire block and be ten stories high. Supervising Architect O'Rourke told the committee that the work could be completed in three years. Meantime the postoffice will occupy rented quarters. The amount of the appropriation has not been decided upon, but it is said that \$4,000,000 is the amount which members seem to favor.

TO-DAY'S SENATE.

The senate bribery investigating committee to-day began the inquiry touching the sugar trust's connection with tariff legislation. E. J. Edwards, author of the Holland letter in the Philadelphia Press, was before the committee for several hours. Owing to the fact that the committee sat behind closed doors and the additional fact that after emerging from the committee room Edwards was unwilling to discuss the proceedings, details of the inquiry can not be had.

Senator Kyle's resolution declaring against any attempt to restore the queen in Hawaii was taken up this morning and discussed. Unanimous consent was asked to put in on its passage, when the tariff bill came up as unfinished business and the resolution went over.

NATIONAL NOTES.

Senator Hill now thinks there are enough tariff bills without the necessity of preparing any new ones.

The senate voted down Peffer's amendment to put iron ore on the free list—16 to 4. The yeas were Allen, D. B. Hill, Kyle and Peffer.

The house rules committee will recommend that the house naval committee proceed with the investigation of the Carnegie armor plate frauds.

The house, by a vote of 118 to 84, declared the statute repealed which authorized the sergeant-at-arms to deduct from the salaries of members for absence.

The house committee on judiciary has endorsed the report of the Boatner subcommittee which investigated the matter of the injunction issued by Judge Jenkins.

Representative Doolittle, of Washington, has introduced a bill appropriating \$100,000 to ascertain the subterranean water supply in the states of Idaho, Montana, Washington and Oregon.

War department orders have been issued as follows: One month's extension of furlough granted Hospital Steward Ashford Twigg, Fort Marcy; Privates Eugene Gustafson, H. H. First cavalry, Fort Grant, and James J. Ramsey, company D, Eleventh infantry, San Carlos, discharged.

THE MARKETS.

New York, May 24.—Money on call easy at 1 per cent; prime mercantile paper 2 1/2 to 4 1/2 per cent.

New York.—Silver, 62 1/2. Lead, \$3.20. Copper, lake, \$9.00.

New York.—Wool, quiet; domestic fleeces, 19 to 25; pulled, 20 to 28c.

Kansas City.—Texas steers, \$2.55 to \$3.75; Texas cows, \$2.00 to \$3.15; shipping steers, \$3.00 to \$3.25; native cows, \$1.50 to \$3.15; stockers and feeders, \$3.00 to \$3.75; Sheep, steady.

Omaha.—Steers, \$3.50, to \$4.15; western, \$2.75 to \$3.70; Texas, \$2.60 to \$3.60; cows, \$1.50 to \$3.00; feeders, \$2.80 to \$3.50. Sheep, mutton, \$3.00 to \$4.50; lambs, \$3.50 to \$5.

Chicago.—Prime to extra native steers, \$1.25 to \$1.25; medium, \$4.00 to \$4.10; others, \$3.85 to \$3.95; Texas, \$3.25 to \$4.05. Top sheep, \$4.75 to \$5.00; top lambs, \$5.00 to \$5.75.

SHOCKING ACCIDENT.

Locomotive Running at Rate of Fifty Miles an Hour in Flames—Engineer and Fireman Badly Burned.

Galesburg, Ill., May 24.—When the Chicago, Burlington & Quincy fast mail train was four miles east of Kewanee to-day, running at the rate of fifty miles an hour, the glass in the lubricator can broke and instantly three quarts of kerosene were spilled by the steam pressure through the can, striking the hot boiler head. It was instantly ignited and the next moment the whole interior of the cab was in flames. Fireman Ed. Martin was standing in front of the lubricator and his clothes were saturated with oil and quickly blazed. He rolled on the cab door to extinguish the flames. Engineer V. B. Giddings set the brakes with his foot and brought the train to a stand still. Before the train stopped Martin jumped from the floor and with the flames streaming from his clothes rushed to the water tank, raised the cover and jumped in, extinguishing the flames. Giddings leaped from his engine and rolled around in the wet grass. Martin was put on a freight train and brought home. His clothes, save his undershirt, had been destroyed by the fire. He was horribly burned and in a precarious condition. Giddings' left hand was badly burned and his clothes burned off.

Sporting Man for Congress.

Chicago, Ill., May 24.—It is stated that M. C. McDonald, a well known sporting man, is a candidate for congress to succeed Allen C. Darborow.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

RAILWAY TELEGRAPHERS.

Report of Grand Chief Ramsay—The Order in a Prosperous Condition.

Denver, May 24.—In the convention of Railway Telegraphers to-day Grand Chief Ramsay presented his annual report. He congratulated the order on having obtained from the railroads during the past year four wage schedules. The membership of the order had, he said, decreased, but the critical period in its history had been passed; there was now a revival of interest and the membership was likely to increase rapidly; he reviewed in detail the grievances adjusted during the year; reported that he had arrested the charter of Omaha division No. 2 because of the publication by it of a paper called the Wasp, which belittled the grand officers and injured the order. This matter, he said, was now before the convention and it would be here to pass judgment. The grand chief opposed the state divisions of the order, but favored state organizations. He also favored the federation. Changes in the by-laws agreed upon by the grand officers of the various railway organizations were recommended for passage. Mr. Ramsay told in full the story of his indictment and acquittal on the charge of having conspired to cut the wires of the Cedar Rapids railroad, with which the order was having trouble.

New Assignee Appointed.

Denver, May 24.—Judge Graham to-day appointed Judge Thomas B. Stuart assignee of the defunct Colorado Savings bank, vice Alfred Butters removed on account of his having been a director of the institution.

Charities and Corrections.

Nashville, Tenn., May 24.—The twenty-first annual session of the national conference of charities and corrections began to-day. The president appointed as a committee on business and resolutions Dr. Hoyt, of New York; Dr. Mills, of Colorado; Dr. Johnson, of Indiana; Dr. Hough, of Ohio; and Mr. Johnson, of Massachusetts. Mr. Myers, of Ohio, read the report of the committee on states which announced that reports had been received from forty states. These reports contained much interesting information.

DANGEROUSLY SICK.

Mrs. Lease Suffering from Inflammatory Rheumatism at Olathe.

Olathe, Kas., May 24.—Mrs. Lease is very sick. Dr. Roby, of Topeka, and several physicians from Kansas City have had a consultation on her case. She has sciatic rheumatism of the left leg and inflammatory rheumatism of the right hand. Her leg is so drawn that she rests with it drawn at the knee and it is impossible to straighten it entirely. The fingers of her hand are also drawn and the hand is swollen, and to add to her pain pus is forming in the palm, caused by a bruise received while traveling a few weeks ago.

Death of a Congressman.

Penn., Ind., May 24.—Hon. Charles G. Conn, representative in congress from Miami and Cass counties, died here to-day of apoplexy.

Successful Operation.

London, May 24.—An operation for cataract was successfully performed on Mr. Gladstone's eye to-day. The operation was in excellent spirits.

Another Dead-lock in Kansas.

Phillipsburg, Kas., May 24.—The sixth district Republican congressional convention which met here yesterday afternoon is in a dead-lock. Nineteen ballots have been taken without a change as follows: A. H. Ellis, 22; W. B. White, 17; W. S. Stilton, 24; J. H. Reeder, 16; C. A. Lewis, 8; W. A. Simpson, 18; M. C. Revilla, 3.

Elected Grand Engineer.

St. Paul, May 24.—The engineers to-day re-elected Delos Everett, of Philadelphia, as third grand engineer and publisher of the journal.

Second-Hand Goods.

David S. Lowitzki has opened up in the second-hand goods line and buys and sells everything from a baby carriage to a grave stone. He offers great bargains both to buyers and sellers. He has also ordered a carload of new furniture. Store two doors below Lowitzki's livery stable.

A choice stock of candies just received at C. L. Bishop's.

A Challenge.

The Santa Fe Base-Ball Club hereby challenges any club in New Mexico to play a game, or series of games of ball at Santa Fe. Time and purse to be agreed upon. DAVE SHORMAKER, Capt. CLAUDE WEBBER, Secretary.

MINES VS. PROSPECTS.

South Santa Fe County Miners Awakening to the Fact That Capital Must be Met Half-way.

Correspondence New Mexican.

Golden, Santa Fe county, N. M., May 22.—Wherever any depth has been attained in this district it has established the fact of the existence of large bodies of rich silver, gold and copper ores, in the shape of sulphides, sulphurets and carbonates. The surface gold ores are free milling and continue so to a considerable depth, then give way to the richer ores above named. In the copper belt the surface ores are principally carbonate of copper and free gold, which at the usual depth change to sulphurets carrying both copper and gold in paying quantities, while in the silver belt it is an iron cap, followed by galena and carbonate ores, rich in silver and gold.

This section has been kept back for various reasons, the principal one being and it is the same that has retarded the development of many camps, the mistaken idea of the owners that they must have the price of a "mine" for a "prospect," and placed such exorbitant figures upon their claims that capitalists were driven away in disgust. This has been the cause in by far too many cases, but it has been a good lesson and now the miners here have concluded to place a reasonable price on their claims and are ready and willing to meet the investor half way and will offer capital inducements to buy or obtain an interest in good property for development work.

Our camp is attracting more attention now than ever in the past and all who have examined it thoroughly express themselves surprised at the magnitude of mineral wealth almost at Santa Fe's door. I speak of experienced mining men's opinions.

Southern Santa Fe county will be heard from shortly in a way that will awaken many of her citizens to the fact they have had a bonanza in their very "door yard," so to speak, and they will then wonder why they did not "catch on." Echo answers, Why? Let them look around now before it is too late.

The work on the hydraulic company's wells is progressing nicely, which is evidence that Mr. Harold and his corps of diggers are thoroughly experienced and understand their business perfectly, for which we are very thankful as our camp has been cursed with inexperienced managers in several mining and other ventures much to the detriment of the community in general.

AMIZETT'S SUBSTANTIAL GROWTH.

Correspondence New Mexican. Amizett, N. M., May 22.—The substantial nature of Amizett's growth this spring affords the best kind of evidence that the people here have faith in the enduring character of the neighboring gold mines. Supt. Ballard is pushing development work on the Mexican Northern with gratifying results. The ore he has in sight shows some free gold, and is improving in quality.

Mr. Tarball is sinking a shaft in solid mineral on the Navajo claim. All the indications are that he will make a pretty good showing of pay ore before many weeks.

Work on the Iron Mask has been temporarily closed down on account of a dispute among the owners, but it is believed that a compromise will soon be reached whereby the development of this valuable property will soon be resumed with energy. The ore body is large and runs from \$25 to \$60 in gold per ton.

The information that Amizett is outside of the lines of the Rio Hondo grant causes much rejoicing among the people interested, and inspires fresh confidence in the camp. Our titles are all right.

New Mexican Printing Co.,
Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, MAY 24

The New York Times recently pronounced the hardest conundrum of the day in five innocent looking little words: "Can the senate be cured?" Might try cyanide of potassium in "cold tea."

Evidence continues to accumulate tending to show that Republican harmony will be so thick this fall in New Mexico that each of the bosses will be able to cut it off in a chunk and go off by himself to contemplate it.

LA CRONICA DE MORA is the title of the latest journalistic venture in Mora county. If Editor J. L. Garcia stands up for law and order, his pockets ought to be lined with profits. Mora citizens should support at least one good weekly paper.

Compare the Pennsylvania Republican state platform with the platform as sent out by the Democrats of Missouri and you have the difference between Republicanism and Democracy as the two parties stand today. Which one of these platforms do you stand upon, voters of New Mexico?

BLAND is a sturdy statesman whose admirers are rapidly growing in numbers the nation over. If he will just quit monkeying with the congressional business of free coinage for awhile, and give international bimetalism a chance he may yet be president.

The French chamber of deputies has decided to do away with public executions on the ground that they tend to increase rather than diminish crime. The chief object of punishing criminals is to deter others from committing crime, and just why the private use of the guillotine will be more conducive to that end than its public use remains to be explained.

OUT on the Pacific coast the Californians are making an earnest effort to purify politics and have commenced at the bottom, the only place where election reforms must originate in the primaries. Los Angeles county is at work on a postal primary scheme, the result of which will be watched with no small degree of interest by everybody except the ward bosses and primary manipulators.

SENATOR TELLER did a good thing yesterday. He woke up the moss-backs and the back-sliders and sore-heads so suddenly that some of them scarcely knew where they were "at," but Hill had to show his hand, as did also the Populists on the subject of tariff reform. Senator Teller has thus done the whole country a timely service in showing it that the tariff bill now before congress is the one the majority are going to vote for.

PENNSYLVANIA REPUBLICANS SPEAK.

People of the west who have taken note of the remarkable growth of bimetalism during the past year, and particularly western Republicans, have been looking forward with no little unconcern to the meeting of the Pennsylvania Republican state convention. Everybody knew what that gathering would say on the tariff question, but it was upon the subject of finance that the west wanted light. It desired to learn how eastern Republicans were this year going to straddle the silver question. Many Republicans ventured to hope that Pennsylvania would, while standing up for the tariff, display some sort of regard for sincerity on that other great question of the day and take advanced ground in favor of just treatment toward silver. Well, the child was born on yesterday—and what an abortion it proves to be! Of all the wishy-washy, incoherent public announcements ever put forth as emanating from a body of American citizens, this is a little the worst.

It not only shows the Pennsylvania Republicans to stand where they have always stood, squarely by the manly power, on the side of corporate greed and in favor

of class legislation, but it shows that they are undertaking to play the plain people for a set of fools. Tallyrand said that words were made to deceive. Pennsylvania Republicans have got that idea in their heads, but their flow of language isn't smooth enough to justify them in tackling a job of that kind. Their platform which was "unanimously adopted," of course, makes a fearfully awkward stagger at trying to straddle the financial question. It flatly declares for the exclusive use of gold in paying government obligations, not even daring to use the word "coin," wants an increased gold reserve, and dismisses the silver question by saying that it "favors bi-metalism,"—but there is then added a very long string of ifs and provisos about legislative restrictions to maintain parity, and all that sort of rot. On the whole, it is the cheapest clap-net that has been given the country since the last meeting of the Republican National convention. The Republicans of the west ought to be proud of the pace set for them by their protectionist brethren of Pennsylvania.

PRESS COMMENTS.

Sized Up the New Mexican.

The New Mexican is a clean-cut, up-and-up advocate of Democratic principles and is deserving of support.—Gallup Gleaser.

The Lawyer-Politician.

The Albuquerque Citizen has experienced lots of trouble because of its friendliness to certain lawyer politicians. New Mexico is a great country for lawyers and politicians to endeavor to control the press, and in a great many instances they do it, but they always cause trouble. The cheapest way for politicians to secure the support of the press is to deserve it, and then it comes without purchase.—Socorro Advertiser.

The Significance of the Republican Howl.

The Republicans of this territory are howling over the fact that Delegate Joseph has failed to secure the passage of the statehood bill, when they know that he has twice attempted it, and twice been defeated by the non-action of the Republicans in congress. Now that Mr. Joseph has secured an order for the right-of-way for the bill on a certain day, they secretly hope that something will turn up to defeat the bill again. These territorial Republicans know that when New Mexico is admitted it will be a Democratic state; they know that there will be very little for them, and they don't regard anything as good unless they see pie in it.—Roswell Record.

A Straw on the Delegateship.

In 1892 when the Republicans nominated T. B. Catron for delegate to congress they tied a mill-stone to the neck of the party—even the money and the prayers of his friends availed him nothing, and he was defeated by the biggest clump the territory ever produced in the way of a congressman or other public servant of minor rank. This paper opposed his nomination and did not support him after nomination, and should be again nominated just so sure he will be defeated. As to Mr. Catron's capabilities, no one can deny. Neither can his vicious legislative schemes be contradicted. A man that, while a member of a legislative body, who brings his intelligence and ill-gained power to bear against the common welfare of his constituents for the purpose of personal gain and plunder, could not be trusted in the national congress any more than he could be trusted in a territorial legislature—in the halls of congress he would smother his constituents at the first opportunity offered; in congress he would repeat his legislative corruption. In connection with his defeat eighteen months ago Mr. Catron congratulated himself on the fact that while he was defeated the Republican party was also defeated which is the definition of the war cry "Rule or Ruin" of the Santa Fe.—Las Cruces faction of the Republican party known as the bulldozers and bolters, and who style themselves the "Republican party"—Chloride Black Range.

MERCURIAL Mr. J. C. Jones, of Fulton, Arkansas, says: "About ten years ago I contracted a severe case of blood poisoning. Leading physicians prescribed medicine after medicine, which I took without any relief. I also tried mercurial and potash remedies, with unsuccessful results, but which brought on an attack of mercurial rheumatism that made my life a misery. After suffering four years I gave up all remedies and began using S. S. S. After taking several bottles I was entirely cured and able to resume work. Is the greatest medicine for blood poisoning to-day on the market."

DR. SYMINGTON DEAD.

The Sad Event Occurred at Baltimore Last Night—Sketch of an Eventful and Useful Life—Mourning in Santa Fe.

Yesterday's NEW MEXICAN contained an announcement, based upon a private letter from Baltimore, that Dr. John Symington was improving in health and that his condition was considered hopeful. This pleasing information was supplemented this morning by a telegram to Major Palen conveying the shocking tidings that Dr. Symington died at Johns Hopkins hospital, in Baltimore, at 9:15 last night. Several months ago the deceased discovered that he was breaking down, and as soon as he could arrange his affairs here, went to Baltimore with his wife for treatment. But the disease from which he was suffering—ossification or hardening of the liver—had proceeded too far to yield to treatment and death ensued as recorded.

Dr. John Symington was born in Baltimore, Md., about 44 years ago. He belonged to an excellent family. His father, Col. John Symington, was for many years connected with the ordinance department of the United States army and remained loyal to the union during the war. Young John, however, ardently espoused the cause of the south, ran away from school and joined the Confederate army as a private at the age of 16 years. He went through much hard service in a Confederate battery for several years and contracted chronic diarrhoea from which he never fully recovered.

At the close of the war he returned to Baltimore and resumed his studies. After completing a thorough academic course he graduated with honor at the Baltimore medical college and devoted several years to the practice of his profession in the hospitals of Baltimore, Philadelphia and New York. Thus he became a thoroughly equipped physician and surgeon.

Then he settled in St. Louis, where he met with so many discouragements that for a while he seriously meditated emigrating to the regular army. Just at this critical time in his life, Col. Smith, formerly medical director of the department of Arizona, came to the rescue and recommended the disheartened young physician to move to New Mexico. This advice was followed and in 1867 Dr. Symington crossed the plains from Kansas City to Santa Fe with a bull train. Among his companions on this long and tiresome trip were Mrs. Chavez and her young son Francisco, afterwards sheriff of Santa Fe county, who was assassinated on Granada street bridge on the night of May 29, 1892. The friendship then formed between Dr. Symington and Frank Chavez was enduring.

After a brief sojourn in Santa Fe Dr. Symington settled at Albuquerque, where he successfully practiced his profession for four or five years. There he married Miss Armitjo, daughter of Hon. Ambrosio Armitjo, with whom he lived most happily until death claimed him. He returned to Santa Fe in the spring of 1875 and has resided here ever since.

Nearly every resident of Santa Fe personally knew Dr. Symington, and the news of his death will sadden many hearts. He was a brilliant man both professionally and socially. More than this, he was as honest and painstaking as he was talented and capable. His cheery and hopeful voice proved a helpful tonic—sometimes more effective than medicine—to many a sick room. He struggled hard and achieved many triumphs in his noble profession. Peace to his long sleep.

Besides the sadly bereaved widow Dr. Symington leaves a namesake, a bright young man of 17 years, who is attending school in Exeter, N. H. Life insurance to the amount of \$20,000 testifies to the tender and thoughtful affection he cherished for his wife and boy. His other living relatives are an unmarried sister in Baltimore and a brother in St. Louis. It is presumed that the body will be buried at Baltimore.

ROUND ABOUT TOWN.

Wanted—At NEW MEXICO office laws of 1887 and 1889 and Compiled Laws of 1894. There will be the regular weekly meeting of Paradise Lodge No. 2 at Paradise hall this evening at 7:30.

Agent Lutz, of the A. T. & S. F., to-day received notice that the freight rate war is over, and that old rates will be restored on the 29th inst.

Manchico Gonzales, the sick man who was placed in the city jail last Saturday night, is very low and may not live. He is being attended by City Physician Crosson.

Tena Blanca, an insane woman who has been confined in the city jail for safe-keeping for a year or more, will be sent to the insane asylum at Las Vegas tomorrow.

Jim Sing and three other Chinese from Durango, Colo., have leased the Delgado store room lately vacated by Mr. Ireland and are fitting it up for a first-class restaurant. Another Chinese, So Lee, from El Paso, has lately opened a grocery store and bakery opposite Gold's museum and appears to be doing a lively business.

Lovers of good music should not fail to attend the concert to be given next Tuesday evening under the auspices of the German Lutheran church. Among the soloists are Misses Wedeles and Schormeyer and Messrs. Butler, Crichton, Schormeyer and Bischoff. Tickets are on sale in the leading stores. Price of admission, refreshments included, 50 cents; children half-price.

Mr. Wilson Waddingham, the largest individual land owner in the nation and a gentleman of superior business and social qualities, is a guest at the Palace, having come over from Las Vegas last night. He is here to testify in the matter of Mr. Catron's solvency as brought into question by the court proceedings instituted by the Lincoln-Lucky Mining company. His testimony on this point is being taken this afternoon before Special Master Geo. W. Knebel.

PERSONAL.

Mr. M. A. Downing has returned from Cochiti.

Mrs. Sloan's condition is greatly improved to-day.

Mr. R. E. Twitchell returned this morning from Socorro.

Hon. Roman A. Baca, of Valencia county, is visiting the capital.

Mr. and Mrs. J. T. Forsha returned from Cerrillos this morning.

Mr. A. W. Tennant, the gold garnet promoter of Taos county, is at the Claire.

Hon. A. L. Branch, of Mora county, is here to confer with Mr. Catron on Mora grant matters.

At the Exchange: R. B. Willison, Borrego Springs; H. G. Finney, Chicago; A. L. Branch, Mora; A. C. de Baca, Clayton.

At the Palace: A. Mennet, Wilson Waddingham, Las Vegas; Miss Woodward, Miss Julia, Miss Ashcroft, Philadelphia.

Mr. A. C. de Baca, editor of the Weekly Democrat, Clayton, is in the city looking after his extensive interests at Cochiti.

At the Claire: A. W. Tennant, Taos; H. S. McDowell, Denver; C. J. Fleming, St. Louis; Miss Lyons, Denver; J. T. Kelly, Golden; John O'Connor, Prescott.

Hon. M. A. Otero and Mr. D. C. Winters left this morning for their home at Las Vegas after a pleasant visit among friends in the capital city.

Editor Lightfoot, of the Cochiti Call, left last night for Eagle City. He says the next issue of his paper will show great improvement over the first.

Col. Warner A. Root, the Record's traveling representative, is at Santa Fe, N. M., and from that point will visit all the mining camps of the territory. Treat him kindly, boys, for the colonel weighs 225 pounds and carries a gatling gun in his pocket.—Denver Daily Mining Record.

At the Bon Ton hotel: W. A. Crawford, Cochiti; E. M. McLure, J. J. Hogan, Los Angeles, Cal.; S. Taber, Lamby; J. Hoffman, New Mexico; W. D. Long, Pueblo, C. F. Howard, Chicago.

Mr. P. F. Hogan, the Cerrillos merchant, walked through the New Mexican office to-day and expressed surprise at the busy scenes he witnessed.

A PROTEST.

The D. & R. G. Called Upon to Define Its Policy—A Reasonable Train Service Demanded by Santa Fe and Cochiti.

Mr. H. S. McDowell, of Denver, having interests at Cochiti, came in over the narrow gauge last night and leaves for the great camp to-morrow. He says the D. & R. G. train service out of Salida is wretched, and that it is to this fact that so little travel to Cochiti via the D. & R. G. line must be attributed.

This train service has been a matter of common complaint for months. In the dead of night passengers coming south over the narrow gauge are compelled to lay over at Salida for five hours, and it requires twenty-four hours to make the trip, either from Denver, where the A. T. & S. F. it is three hours quicker. Both are slow enough, but the D. & R. G. could easily shorten its time six hours if its management had any sort of regard for the interests of its patrons in southern Colorado and northern New Mexico. On this subject the New Mexican would also call attention to the manner in which the D. & R. G. has all along behaved toward Santa Fe and Cochiti. It has made no sort of effort to promote business in this quarter although the attention of its officers has repeatedly been called to the matter. The Board of Trade should at its next meeting take some action appealing directly to President Jeffrey and secure some expression from the official head of the company as to what the policy of the company is toward this section of country. Supt. Helm, of the Santa Fe Southern, has done and is doing all he can in the premises, but without some reasonable co-operation on the part of the D. & R. G. people his hands are practically tied.

Scandal at Albuquerque.

Three cases for divorce will shortly be instituted in the Bernalillo county court. A former merchant, now a sheep man, at one time banker in this city, now a clerk in the Santa Fe offices at Chicago, and a gentleman now residing in Boston, formerly a broker in this city, will be the parties defendant.—Albuquerque Democrat.

Economy and Strength.

Valuable vegetable remedies are used in the preparation of Hood's Sarsaparilla in such a peculiar manner as to retain the full medicinal value of every ingredient. Thus Hood's Sarsaparilla combines economy and strength and is the only remedy of which "100 Doses One Dollar" is true. Be sure to get Hood's.

Hood's Pills do not purge, pain or grip, but promptly, easily and efficiently.

Colfax Notes.

The Springer Mercantile & Banking company, Springer, has just out of existence, H. M. Porter having concluded to conduct the business in his own name.

Angust Wolfe & Co., of New York, have made application for the appointment of a receiver for the Maxwell City Milling company and the case is set down for final determination at the Springer court on May 29.

The San Miguel National bank and others have suit against Moses E. Dane and others and the Vermejo Ranch company for a receiver for the Vermejo ranch. The case was heard by Judge Thomas Smith, in chambers, on Tuesday, and Chas. Springer named as receiver.

CLOSING EXERCISES

Of the New Mexico College of Agriculture at Las Cruces.

The annual commencement exercises of the New Mexico College of Agriculture at Las Cruces will take place next week. The baccalaureate address will be delivered by President Hiram Hadley at the Presbyterian church on Sunday morning. Monday and Tuesday will be devoted to written examinations of the several classes; the commencement address will be delivered by Prof. George Selby, superintendent of the Dering public schools, on Wednesday evening; on Thursday visitors will be shown the several departments of the college, including the experimental farm and orchards, and in the evening a reception will be tendered to the faculty and students by the Cordogan society. The graduating exercises will occur at McFie hall on Friday. A cordial invitation is extended to the people of New Mexico to attend all these exercises.

GOLD STIKES.

Glittering Quartz Picked Up in Several Localities Adjacent to Santa Fe.

Yesterday afternoon Allan Butcher, whose ranch is in the Santa Fe mountains at Rock Corral, ten miles out on the old Santa Fe trail, came into the New Mexican office and bought half a dozen mine location blanks for the purpose, as he explained, of locating claims in the vicinity of his home. He had a sample of splendid looking quartz with him in which abundant mineral was visible to the naked eye and it appeared to be free gold. Mr. Butcher declines to give details of the find at present, but says "the quartz exists in considerable quantity."

W. A. Gibson, late of Creede, who owns a number of good placer claims near the mouth of Red river, on the Rio Grande, came in from the north last night and set the local mining fraternity wild to-day by exhibiting a specimen of quartz. It is as big as a turkey egg and literally bristles with free gold. Mr. Gibson says he found it forty miles north of Santa Fe. Several business men have offered to stake him for an interest in his locations but all such offers were declined.

Another find near Santa Fe has been made by George Knight. In fact he has discovered gold bearing quartz in two localities—one twelve miles southwest of the city and one three miles up the Santa Fe canon. From the former place he got a gold button worth about \$4 out of fifty pounds of rock.

Baldness is either hereditary or caused by sickness, mental exhaustion, wearing tight-fitting hats, and by over-work and trouble. Hall's Renewer will prevent it.

Susano Caught.

Susano Ortiz, of Golden, a character who has long infested Santa Fe county, is in the toils. Pedro and Elias Garcia have lost 300 head of their Bernalillo county sheep in the past year. The other day forty-five head belonging to them were found in the possession of Susano Ortiz at Albuquerque yesterday. Ortiz was sent to jail in default of \$2,000 bail.

TO HANG TO-MORROW.

Herman Maestas, the Las Vegas Murderer, Spending His Last Day on Earth.

Herman Maestas, the brutal murderer of Juan Romero, a sheep herder in San Miguel county, is spending his last day on earth at Las Vegas to-day. The law has passed on his case and he will pay the penalty. The scaffold is ready in the Las Vegas court house yard, and a high board fence has been erected to keep out the curious crowd. However, Sheriff Lopez has issued a large number of admission tickets, and the execution will not be so private as at first thought. The hanging will take place at near 1 o'clock as possible.

Have Beecham's Pills ready in the household.

Attention Knights.

You are requested to meet at K. of P. hall Monday evening, May 28, at 8 o'clock sharp, for the purpose of considering the observance of Memorial day as requested by the grand chancellor.

THE NEW MEXICAN.

To California

Via the Santa Fe route, the greatest railroad in the world. You can take a Pullman car and go to San Francisco, Los Angeles or San Diego without change. No other line can give you this accommodation. For excursion rates and other information call at city ticket office.

H. S. Lutz, Agent.

Why Take the Wabash

For ST. LOUIS?

Because it is the shortest line; the best equipped line; runs free chair cars, Buffet Pullmans and gives you ample time in Kansas City for supper.

For TOLEDO OR DETROIT?

Because it is the shortest line; avoids transfer across the city in case you are going further east, and makes close connections with all trunk lines.

For NEW YORK OR BOSTON?

Because it has solid through service from both Chicago and St. Louis via NIAGARA FALLS; gives forty minutes' stop at the falls at seasonable time in the morning.

FOR ALL OTHER EASTERN POINTS?

Because its service is uniformly good and you can make no mistake in asking for tickets VIA THE WABASH.

C. M. HANSON, Com'l Agent, 1224 17th St., Denver, Colo.

Spring Races at Trinidad.

For the above occasion round trip ticket will be sold to Trinidad at one fare for the round trip. Tickets on sale May 24 and 25, good to return May 27.

H. S. Lutz, Agent.

For Ten Days, Only.

W. M. Bing, importer of Chinese and Japanese silk goods, can be found for the next ten days, at the house of Mrs. Aaron Gold, San Francisco St., where he will take orders for Chinese colored silks, 27 inches wide, 88 cents per yard; China pongee silks, 19 inches wide, 26 to 39 cents per yard, and 26 inches wide, 59 to 62 cents per yard, washable silk, good quality. Crepe silk, 26 inches wide, \$1 to \$1.15 per yard. Good orders by samples and sent C. O. D. Give him a call.

Notice.

Notice is hereby given that there will be a meeting of the board of school examiners of the county of Santa Fe, N. M., for the examination of teachers at the court house, on Monday, the 28th day of May, 1894. Each applicant for a certificate should be present as early as 10 o'clock a. m.
