LOST AT SEA.

That Will Probably Be the Condition of Admiral Ting's Chinese Troops—Other News.

Tokio, Sept. 20.—An official dispatch from the headquarters of the Japanese fleet says that the latter at 1 o'clock, on September 16, met eleven Chinese war ships and six torpedo boats thirty-five miles north of Hai Yang Toa, with the result that four Chinese ships were sunk and one burned.

THE LOSERS AT PING YANG.

Yokohama.—Particulars received regarding the battle of Ping Yang show that the Chinese lost 2,000 killed and 14,500 wounded and captured. The fourth part of the Chinese army escaped. The Japanese loss was only about eleven officers wounded and 260 soldiers killed.

LATEST FROM THE NAVAL BATTLE.

London.—Dispatches from Shanghai say that the Chinese fleet engaged in the battle fought off the mouth of the Yalu river was composed of twelve war ships and four torpedo boats. The Japanese fleet was composed of seventeen ships, some being all vessels. The Chinese claim to have sunk the Japanese war ships, Aburatsubo and Yoseino, and the Japanese transport, which had been converted into a cruiser and named Saiko. Private reports from Shanghai declare that the vessels were not sunk but retired from action disabled. It is reported that the Chinese transport, Tonan, was sunk after she had landed her troops, but this is thought to be incorrect. The report that Admiral Ting and Col. von Hannekin were severely wounded seems to be incorrect for they returned to duty.

The Fall Mail Gazette remarks that Admiral Ting has made a fatal mistake in trying to convey troops across before he had met and broken the enemy's fleet and that unless the troops have been landed at the Yalu river or reconveyed from sea, they are lost.

A Fatal Explosion.

Detroit, Sept. 20.—An explosion in the drying room of Davis and Co's. chemical works this morning, probably fatally burned Thomas Rutzick, and seriously injured James Anderson.

A Triple Murderer Hanged.

Pittsburg, Sept. 20.—George Schmort was hanged here to-day. He was convicted of the murder of his wife and two little daughters, his supposed object having been to obtain \$52 insurance.

A SERIOUS STRIKE.

Two Thousand Garment Weavers Stop Work—Probably Others Will Follow.

Roston, Sept. 20.—Two thousand garment weavers stopped work this morning by noon. Probably 3,500 will be on strike. The strike is the result of refusal of the contractors to concede to the demands of the union for the abolishment of the "lumping" and "sweating" systems; and for the introduction of a weekly wage system. The operatives are also desirous of establishing a working day of nine hours with fixed wages. Every man, woman and child responded to the call to quit work.

THE MARKET.

New York, Sept. 20.—Money on call, 1 per cent; prime mercantile paper, 3 @ 5 1/2. Silver, 63 1/2; lead, \$3.05.
Kansas City.—Cattle, best grades, steady; others, slow; Texas steers, \$2.20 @ \$3.00; Texas cows, \$1.90 @ \$2.35; beef steers, \$3.50 @ \$3.75; fat cows, \$1.95 @ \$3.10; stockers and feeders, \$1.75 @ \$2.35. Sheep, weaker.
Chicago.—Cattle in good demand, fairly active and steady. Sheep, steady and unchanged.

New York.—The wheat market made a new record this morning. December sold off to 58 1/2 against 59 1/2 the previous lowest record made last July.

Chicago.—Wheat, lower; September, 53 1/2; December, 55. Corn, lower; September, 53 1/2; October, 53 1/2. Oats, lower; September, 29 1/2; October, 29 1/2.

Boston.—Territory wools are rather quiet, with prospects of an increasing demand and slightly firmer prices. The quotations are: Ohio and Pennsylvania fleeces: No. 1, 21 @ 22 1/2; No. 2, 19 @ 20 1/2; Michigan, XX, 17 1/2 @ 18; Michigan, No. 1, 20; New England states, No. 2, 17 @ 17 1/2; No. 1, 19; Ohio delaine fleeces, 20; Montana, fine, 10 @ 13; No. 2, medium, 13 @ 14; other territory wools, 9c; medium, 11 @ 12c. California wools: Spring northern, 13 @ 15 c; middle county, spring, 11 @ 12c; southern defective and northern fall, 27 @ 30c. Australian: Combing, 48 @ 44c; average, 38 @ 40; clothing, 38 @ 40c.

Nominated for Congress.

Philadelphia, Sept. 20.—Congressman McAlister was defeated for re-nomination this morning by the Democrats of the 3rd district, and Joseph P. McCullen was chosen as his successor. The other congressional nominations were: 1st district, D. J. Callahan; 2nd district, Max Herzberg; 4th district, Geo. Muller; 5th, Dr. David Moffatt.

Their President Dying.

Colon, Columbia, Sept. 20.—The greatest anxiety prevails here in regard to the reports about the health of Dr. Rafael Nunez, president of the Republic of Columbia. He has been ill for some time past and is not expected to recover. It is even believed by some that he is dead. Telegraphic news is subject to press censorship and is liable to be suppressed.

Will Build Immediately.
Trinidad, Colo., Sept. 20.—F. E. Bissell, chief engineer of the Gulf system, has put his men at work at Graneros, surveying the line between Pueblo and Trinidad. It is the intention of the road to build this line immediately, and the work of surveying will be pushed liberally.

The Vanderbilts.

New York, Sept. 20.—At the fall end of the season, when the last of the social celebrities are departing from Newport, Mrs. W. K. Vanderbilt has given orders to have the famous marble palace put in order. Many rumors are afloat. One is to the effect that she intends to take up her abode in Rhode Island in order to secure a divorce, the laws of that state being almost as liberal as those of South Dakota. Another report says that Mr. and Mrs. Vanderbilt have patched up their troubles and that they are to live together in their Newport home.

Surprised the "400."

Anderson, Ind., Sept. 20.—Professor Louis Duval, of France, a French teacher and a master of arts, was engaged by America's "400" a few weeks ago. The importation arrived and was to have organized his private class last night. At noon, however, he took his stand on the public square and in a mixture of French and English, delivered a red-hot anarchistic speech. He was arrested and then addressed a large crowd of citizens from behind the bars. Now he is put on the street gang and the French class is "busted."

Border Cattle.

El Paso, Sept. 20.—John C. Jenkins, the local live stock agent for the United States Bureau of Animal Industry at El Paso, is in receipt of instructions from his superior officer, Albert Dean, whose official station is Kansas City, directing him to notify all persons interested that the United States Bureau of Animal Industry will consider all cattle from Mexico as "infectious" and that they will not be permitted in northern and eastern markets before December 1, 1894. This will make a change in the plans of those who, under the new tariff law, were about to import large herds of Mexican cattle into this country.

'Twas Very Queer.

The Santa Fe Engineer Thinks the Detectives Shot Over the Train Robber's Head.

Kansas City, Sept. 20.—James P. Wright, an old railroad brakeman, had a long talk with Engineer Prescott, of the Santa Fe train stopped by train robbers at Gorin, Mo., a couple of nights ago. "He told me," said Wright, "that the battle between the supposed train robbers and the detectives was very queer and he would never have been wounded if the detectives had met the men who stepped on the engine, with well directed shots. Prescott said that after he was shot he pointed to the man standing close to the engine and shouted to the detectives: 'Why don't you shoot that fellow?' Then he said the detective fired several shots at the man and he noticed the gun barrels were all pointed above the level of the man's head."

A New Paper.

Seranton, Pa., Sept. 20.—The Seranton Times, one of the leading newspapers of northern Pennsylvania has been purchased by William R. Bell and Samuel E. Hudson, two Washington correspondents. They have signed a ninety-year contract with the Associated Press, receiving the full leased wire service.

Wrecked a Train.

Paris, Sept. 20.—An official dispatch from Hui Noi, the capital of Tonquin, says that pirates attempted to wreck a train from Langston. The Chinese engineer was killed and two Frenchmen were carried off. Col. Gallien is pursuing the pirates.

To New York on a Bike.

Batavia, N. Y., Sept. 20.—Cyclist Searle left here at 8 a. m. to-day and expects to ride to Syracuse 113 miles in eight hours and to ride the whole 404 miles to New York without further stop.

Letter Carriers Meet.

Cleveland, Sept. 20.—In the national convention of letter carriers to-day, the entire morning was devoted to hearing charges against Chairman J. C. Powers of the legislative committee. The presiding officer found it almost impossible to maintain order. There was a well defined feeling that Powers will ultimately be vindicated. The specific charges were laziness, neglect of duty and misconduct.

A Fatal Accident.

Akron, Ohio, Sept. 20.—Joseph Ryan, aged 18, and Patrick Casey, aged 22, who were injured by the falling of a platform in the Athletic club rooms last evening, died this morning. Twenty-six others were injured, some quite severely.

Strikes in Coahuitl.

Parties just in from the Coahuitl district report that the Bland Tunnel company have just encountered a fine body of ore as strikes the Black Girl lead. The Hopewell, also, is in great luck having in its last assay beaten its recent return of 244 ounces of silver and one and a half ounces of gold.—Albuquerque Citizen.

COWBOY'S LASSO.

With It He is Almost as Good a Marksman as With a Rifle.

"The cowboys of New Mexico, Texas and Arizona are all skilled in the art of using the lasso," said Louis Edwards, of Santa Fe, at the Metropolitan. "I used to be in the ranching line myself and once thought I could throw a rope as straight as any man living. But that was before I mixed to any extent with the Mexicans."

"As good as the American cowboys are, they can't hold a candle to a native when it comes to the roping business. They can do things with the hemp that no other mortals can ever hope to accomplish. As the Australian stands out pre-eminently in throwing the boomerang, so does the son of the 'land of God and liberty' exceed all other men in this one accomplishment."

"A Mexican will chase a steer at full speed, and while he guides his broncho with one hand, while his rope with unerring aim with the other, and it isn't once in a thousand times that the noose will fail to catch just where the rider meant."

"A favorite trick with them is to stick a lot of long-handled knives in the ground close together within the limits of a narrow circle and bet with outsiders that they can ride past at racehorse speed and pick up any one of the knives designated, with a rope."

"They are good marksmen with the rifle, too, but in this regard the cowboys are fully their peers."—Washington Post.

Bandits in Greece.

Athens, Sept. 20.—Near Limna, on the Turkish frontier, the procureur du roi, the judge and the secretaries were returning, accompanied by two gendarmes from the villages where they have been collecting information in regard to brigandage. They were surrounded by Papaky Ritoles brigands, who carried off the procureur and the judge to their stronghold on Mont Othrys. Later the prisoners were allowed to send word to their friends. The brigands demanded that no pursuit be made until a ransom was paid. One hundred soldiers were sent to attack the brigands who exterminated them, but the procureur du roi was killed and the judge mortally wounded.

Fire insurance is a necessity. Be sure and get the best companies. Mrs. Coffin, on the plaza.

The "Oahpa" Bible.

A copy of the new book, "Oahpa, a New Bible or the Words of Jehovah," has been received at the state library. The book is published by the Oahpa Publishing company of Boston, and is termed a sacred history of the lower heavens on earth for the past 24,000 years. The book is attracting considerable attention and many persons have called to examine it in the past few days.—Denver Times.

This is the "bible" written by Dr. Tanner and his colleagues at the Shalim vegetarian colony, in the Mesilla valley.

FARM AND ORCHARD.

Judge Wielandy, who has a four acre garden over under the Knaebel heights, has been experimenting at potato growing and has made a good crop. He thinks, however, that lands adjacent to Santa Fe are far too valuable for raising anything like potatoes, corn or small grain. Fruits, particularly small fruits, and celery he deems the most profitable crops for Santa Feans to cultivate.

Mrs. H. Lockhart, of Albuquerque, writes to the New Mexican a letter in regard to the possibilities for fruit raising in the Rio Grande valley. She says the success attained there by herself and others can not be surpassed either in the Pecos valley or California or anywhere else in the world. At her orchard near Socorro there are apple trees seven years old, the fruit on which averages

eight ounces; and this although the trees have never been sprayed or, before the year's ownership, taken proper care of. The fruit is large, smooth and free from insects. Mrs. Lockhart is strongly in favor of home grown stock for orchards. She thinks the shipping in of stock from infected orchards is the cause of so much diseased fruit.

THURSDAY, SEPTEMBER 20.

Democratic Ticket

FOR DELEGATE TO THE 54TH CONGRESS,
ANTONIO JOSEPH.

Colfax county's first county fair opens at Maxwell City to-morrow. May success attend it.

JOSEPH! Democracy! Statehood and business! Success for New Mexico is embodied in these four words.

The Republicans of Arizona have nominated ex-Gov. N. O. Murphy as the man whom Mark Smith will defeat for delegate in November.

CHAS. REED'S promised visit to Illinois won't in the least interfere with Vice President Stevenson's boom for the presidency. This is official.

SOME of our eastern exchanges are hitting the nail on the head when they say that the cause of lynching in the south is not the color of the criminal but the color of the crime.

CONGRESSMAN TOM JOHNSON, of Ohio, seems to be afflicted with too much mouth. He certainly placed Senator Brice in a very embarrassing position yesterday. That's usually the way with toddlers.

The war department's long promised shake-up might have gone somewhat farther than it did and wiped out a few of those useless northwestern posts; but up there it is different, the people having U. S. senators to look after their interests at the national capital.

The Democracy of southern New Mexico could not find two able men to represent them in the next legislative council than Geo. Curry and G. W. Miles. The New Mexican congratulates the citizens of Lincoln, Eddy, Chaves, Dona Ana and Grant counties over the nomination of these two excellent gentlemen.

The Ashland district suffered a great spasm of virtue not to have given Breckinridge's chief opponent more than a paltry 269 plurality out of a total vote of nearly 20,000. Owens would doubtless have made a better showing had he not taken his aged mother about with him and exhibiting her on the political platform while he played the goody good boy act.

In connection with the resolution favorable to silver, which the Socorro congregation of politicians will pass to-day, it is well to remember the words of the great first president of the Republican party: "A political party may fool part of the people all the time, and all of the people part of the time, but no political party can fool all the people all the time."

The promotion of Hon. Chas. H. Mansur from the position of second comptroller of the treasury to that of assistant comptroller again demonstrates the fact that President Cleveland knows how to appreciate the services of a good Democrat and a faithful official. "Charlie" Mansur, as everybody in the west knows him, is a typical western Democrat, an able man and whose friends all over the country will be gratified to learn of his elevation in official rank and responsibility.

SPARKING of statehood, the Albuquerque Citizen is still haggling over the fact that the bill was not passed at the late session of congress, endeavoring to

create the impression that the Democrats had it in their own hands. The Citizen knows better than this, but such falsehoods may be expected from Republican sheets now that the campaign is coming on. The only reason the bill was not passed was because certain Republican senators threatened to knife it and joined with a few anti-silver eastern senators to prevent its consideration. These little difficulties will soon be overcome in short order when Mr. Joseph gets back to congress.

TAX DODGING.

The matter of taxation is of vital moment to every resident of New Mexico. In many of the counties the tax rate is a very great burden, largely because influential men and corporations are allowed by methods of a questionable character, to say the least, to dodge taxation. The selection of first-class men to serve as county assessors would go far toward strangling the work of the tax dodger. The New Mexican gives notice on this subject now in hopes that it may have attention before the several county tickets are made up.

PRESS COMMENTS.

Depends Wholly Upon Democratic Success.

There is a great responsibility resting upon the Democrats of New Mexico. The success of statehood depend upon the success of Democracy.

There are forty-four Democratic United States senators and not one of them would vote to admit a Republican territory into the Union. The statehood bill which is now with the senate committee on territories will never see the light of day if the Democrats fail to carry the territorial legislature on joint ballot. It would be folly to expect otherwise. The Democratic margin in the senate is now too small for effective work, and he who thinks Democratic senators will further weaken themselves in that body by taking in two Republicans, has misread political history.

The property owners and business men in the Democratic party ought to be wise enough to see this state of affairs in its true light. Our rapid growth, rapid extension of business and rapid increase of wealth depend upon a Democratic victory. Democratic success means three votes in congress in the interest of New Mexico, whereas we now have none. Republican success means a continuation of our present helplessness, without a single vote in congress. As a territory we are a nonentity in the political world. As a state, which consummation can only be reached by a Democratic victory, we would at least be a political unit with two men in the upper house of congress working for our interests.

A Democratic victory means statehood as soon as the law can be passed and a constitution adopted; Democratic defeat means a continuation of New Mexico territory.—Albuquerque Democrat.

Moss Backs Not Apply.

The crime of Hon. J. F. Hinkle seems to be that he would encourage immigration and capital to come into the territory by offering reasonable inducements to such as come. His enemies are the enemies of enterprise. They fight it and would keep capital out of New Mexico's fertile valleys. But with the friends of progress, men who would build up the territory, Mr. Hinkle is the type of man for the times. If the property of a corporation should be exempted by law from taxation for such a time as would enable it to develop a business to sustain an enterprise that would add 10,000,000 value and 10,000 people to our wealth and population within the time of exemption, would not the territory be a clean gainer by that much? Would I not be added to the taxes of people already here by such action? If not, the kick is a kick from the mere nature of the animal and not for worthy purpose. New Mexico at this time needs the kind of men as law-makers who will use their influence toward the development of the soon-to-be state and not against it. J. F. Hinkle should be and will be elected to the assembly by wide-awake and enterprising people of the southeast, who are true friends of progress. Moss backs should stand off the track.—White Oaks Eagle.

You May Strike It Rich.

If you could pick up \$21,000 in gold by one week's work, it would be worth going a few hundred miles to get, wouldn't it? That's just what the Atee mine (Colfax Co., New Mexico) produced in seven days with total product to date of nearly a million dollars.

This rich mine is one of many in the newly discovered Monero valley and Ute Creek place and quartz gold districts. Take Santa Fe route to Springer, N. M., thence stage to the camp.

Short winters, delightful climate and rich prospects. This may be the chance of a life-time. Ask local agent A. T. & S. F. R. R. for illustrated pamphlet. It tells the truth about this new country.

Grand Canon of Colorado River.

On the Santa Fe route, in northern Arizona, 1,262 miles from Kansas City, is the town of Flagstaff. A tri-weekly stage line runs from Flagstaff to the Grand Canon of the Colorado river. More than a mile in depth, this is the sublimest of gorges—a Titan of chasms. Twenty Yosemite might be hidden unseen below, and Niagara would look scarcely larger than a brook.

Don't fail to visit this first wonder of the world. You can't resist about it by asking G. T. Nicholson, G. P. & T. A., A. T. & S. F. R. R. Co., Topeka, Kas., to mail you a free copy of an illustrated book describing this terra incognita. The book is no common affair; but is entertainingly written, beautifully illustrated and a gem of the printer's art.

SHOOTING STARS.

Professor D, a well-known and a very talented man, connected with one of our best universities, has a little son who has an exalted opinion of his father's ability. One evening a friend was showing the little fellow the stars, and said to him:

"Johnnie, do you know who made the stars?"

"The little boy thought a moment, then said earnestly:

"No; I am not sure, I think John D. (his father) did. That man is smart enough to do anything."

A Veteran of the Mexican War.
Oak Harbor, Ohio.—I met Geo. O. Mooney, an old veteran of the Mexican war, on the streets to-day who told me that after reading about Simons Liver Regulator he bought a bottle and the first three doses gave him immediate relief.—Geo. Goelnie. Your druggist sells it in powder or liquid. The powder to be taken dry or made into a tea.

First Anarchist: I am tired of life and want to die. I go me out and kill a mayor, or governor, or somebodies, so I get excited.

Second Anarchist: You take my advice, and don't kill no mayors or governors. They will take two or three years finding out if you are sane enough to hang. Shut up drive up to Shantytown and run off a pig. Den you get shot right away.

One advantage of taking Ayer's Sarsaparilla to purify the blood is that you need not infringe upon your hours of labor nor deny yourself any food that agrees with you. In a word, you are not compelled to starve or loaf, while taking it. These are recommendations worth considering.

Shocked Patron: Why do you allow boys to go through the audience selling candy at your symphony concert?

Orchestra Leader: They sell nothing but big sour balls.

What of that?
Peoples keep those dings in dere mouths gant talk.

If you have sick or nervous headache, take Ayer's Cathartic Pills. They will cleanse the stomach, restore healthy action to the digestive organs, remove every matter (the presence of which depresses the nerves and brain), and thus give speedy relief.

Doctor: Is there any medicine the effect of which can be predicted with absolute certainty?

No, not absolute certainty, but the tonic bitters for sale in a country grocery in a local option district come about as near it as anything I know of.

A NARROW ESCAPE!
How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which flared up almost incessantly. I had no appetite and could not sleep. I was so compelled to sit up in bed and belch gas from my stomach that I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath, as couldn't sweep a room without sitting down and resting. I thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it. I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians. Mrs. Harry Starr, Pontiac, Va., October 12, 1902.

A BROKEN DREAM.

Within the tasseled hammock, gay
With threads of color bright,
A dainty, white-robed form she lay,
While o'er her soft and light
Floated the clouds. A summer day
Was waning into night.

The paths were fringed with hollyhocks
Pure white, deep red and pink,
The garden trim was full of phlox—
The lingering perfumes sink
Into her soul. She slowly rocks
And lists a bobolink.

A world of lovely dreams is there,
The hammock gently sways,
A locust tree the lifeless air,
The western sky's ablaze.
Life seems to her without a care,
O'er all a misty haze.

She seems to live in days of old,
Herself a princess tall,
To her there comes a knight most bold,
Who loves her above all.

Just then her brother toward her strolled,
"Tom Green had come to call,"
—Mr. F. Nixon in Donohoe's Magazine.

A CONSPIRACY.

"I wouldn't marry the best man that ever lived!" And she meant it, or, what answers the same purpose, she thought so. After all, how very few of us really know what we mean? "I engaged myself once, when a girl, and the simpleton thought he owned me. I soon took the conceit out of him and sent him away about his business." The voice was now a little sharp. What wonder, with so galling a memory? "No man shall ever tyrannize over me—never! What the mischief do you suppose is the matter with this sewing machine?"

"Annoyed at your logic, most likely," said my friend, a bright young matron, as she threaded her needle. "My husband is not a tyrant, Miss Kent."

"I am glad you are satisfied," was the laconic reply.

It was quite evident by the expression of the seamstress's face that she had formed her own opinion about my friend's husband and was quite competent to form and express an opinion on any subject. Miss Kent was a little woman, fair as a girl and plump as a robin. She wasn't ashamed to own that she was 40 years old and an old maid. She had earned her own living money her life and was proud of it. She was a good nurse, a faithful friend and a jolly companion, but stroke her the wrong way, and you'd wish you hadn't in much shorter time than it takes to write it. Her views on all subjects were strikingly original and not to be combated.

"What are you going to do when you are old?" persisted the mistress of the establishment.

"But you can't work forever."

"Can't say that I want to."

"Now, Miss Kent, a husband with means, a kind, intelligent man—"

"I don't want any man. I tell you, Mrs. Carlisle, I wouldn't marry the best man living if he was as rich as Croesus and would die if I didn't have him. Now, if you have exhausted the marriage question, let me try on your dress."

There was something behind all this, I knew well. My friend's eyes danced with fun, and as Miss Kent fitted the waist she threw me a letter from the bureau.

"Read that," she said, with a knowing look. "It may amuse you."

This is what the letter said:

My DEAR JENNIE—I shall be delighted to spend a month with you and your husband. There must, however, be one stipulation about my visit—you must say no more about marriage. I shall never be foolish again. Twenty years ago today I wrecked my whole life. (Jennie embarked in a new ship, didn't she?) put in better, come voice.) So unsuitable was this marriage, so utterly and entirely wrong was it, that I should like to cry on your dress."

So unsuitable was this marriage, so utterly and entirely wrong was it, that I should like to cry on your dress."

The discussion was as deftly as was ever a fly drawn into the web of a spider.

"Who is that lady, Jennie?" Cousin Mark inquired in the evening.

"You mean Miss Kent?" said Jennie, looking up from her paper. "Oh, she is a lady. I have known her for a long time. She is making some dresses for me now. Why?"

"She seems uncommonly well posted for a woman."

Under any other circumstances Mrs. Carlisle would have resented this, but now she only queried, "Do you think so?" and that ended it.

Two or three invitations to the sewing room were quite sufficient to make Cousin Mark at home there, and after a week he became familiar enough to say:

"If you are not too busy, I should like to read you this article."

"Oh, I am never too busy to be read to," Miss Kent would say. "Sit down by the window in this comfortable chair and let's hear it."

After a couple of weeks, when the gentleman came in hoarse with a sudden cold, Miss Kent hustled about, her voice full of sympathy, and brewed him a dose which he declared he should not forget to his dying day, but one dose cured. After this occurrence Miss Kent was a really wonderful woman.

Ah, what an arch plotter! She let them skimpish about, but not for once did she give them a chance to be alone together. Her plans were not to be destroyed by premature confidence until this very evening preceding Cousin Mark's departure for California. Then Miss Kent was very demurely asked to remain and keep an eye on Master Carlisle, whom the fond mother did not like to leave quite alone with his nurse.

We are compelled to be gone a couple of hours," said she, "but Cousin Mark will read to you, won't you, cousin?"

"Certainly, if Miss Kent would like it," replied the gentleman.

The infant Carlisle, thanks to good management, was never awake in the evening, so the victim of this matrimonial speculation would have plenty of time. The back parlor was the room most in use during the evening, and out of that room was a large closet, with a large blind elevator, and out of this closet a door leading to the stoop and garden. Imagine my surprise when I was told that Mr. Carlisle was going to the lodge, and that we after profuse warnings about the baby and promises not to be gone too long, were to proceed to this closet overlooking the back parlor by way of the back gate and garden.

In vain I protested.

"Oh, you little goose!" said Jennie, laughing. "There'll be fun enough to last us a lifetime. John wanted to come awfully, but I knew he'd make an awful noise and spoil everything, so I wouldn't let him."

The wily schemer took the precaution to lock the closet door from the outside, so there was no fear of detection. On a high bench, as still as two mice, we waited results.

Presently Cousin Mark, as if arousing from a protracted reverie, asked:

"Would you like to have me read?"

"Oh, I am not particular," replied Miss Kent.

"Here is an excellent article on elective affinities. How would you like that?"

Jennie's elbow in my side almost took away my breath.

"Who is it by?" she inquired.

"That's to gain time. See if it isn't now for something interesting."

"It's by a prominent French writer, I believe," answered Cousin Mark.

"I don't think I care for a translation tonight," said Miss Kent.

"Nor I. Nor reading of any kind," he continued. "This is my last evening in New York, Miss Kent."

"I hope you've enjoyed your visit," she returned.

"Jennie!"—into my very head this time—she is as shy as a 3-year-old colt.

"I didn't think I should feel so bad about leaving," Cousin Mark went on.

"He is the wreck, you remember," whispered Jennie.

A long pause.

"I think I hear the baby," exclaimed Miss Kent.

"Oh, no," said Cousin Mark. "You are fond of babies, are you not, Miss Kent?"

No answer from Miss Kent.

THE HISTORIC CITY.

Attractions Ancient and Modern—The Oldest Buildings on the Continent, Interesting Indian Pueblos, Beautiful Mountain Drives.

THE GATEWAY OF THE PECOS NATIONAL PARK.

The Fruit Grower's Paradise—Mountains of Mineral, Fruitful Orchards and Other Resources—Some Statistics Which Show Her to Stand Without a Rival.

Santa Fe, the city of the Holy Faith of St. Francis, is situated on the site of an ancient Indian Pueblo called Oga-pi-hoge. It is probably the oldest civilized community in the United States and the most ancient of American capitals. The Spanish town was founded in 1605. Authorities disagree as to whether this city or San Augustin, Fla., were first founded. Santa Fe was first visited by American traders in 1804 and from that time dated a wonderful era of prosperity. The thrilling incidents of the old Santa Fe trail, starting from Westport, Mo., gave it a world wide fame.

THE WORLD'S ONLY SANITARIUM.
Prof. Mark Harrington, chief of the U. S. weather bureau, says: "Santa Fe is in the driest habitable part of the United States. This region is extensive, and changes in form from season to season, but Santa Fe is always in it."

It is situated in a charming nook of the Santa Fe range, and its climate is dominated by the influence of mountain peaks that tower nearly 14,000 feet high. Together with this lies at an altitude of 7,015 feet, and latitude, about the 36th degree north, that gives it a peculiar advantage as a sanitarium. The elevation tempers the summer heats, which naturally should be about that of Memphis, Tenn., or Bakersfield, Cal., and its southern situation reduces the rigors of winter. As an illustration, during the winter of 1893, the daily public concerts in the plaza were only stopped three times by weather, and last winter the omission did not exceed half a dozen.

The altitude compels the lungs to work, and no one in Santa Fe can be accused of being "too lazy to breathe," as a great physician expressed it. The rare, ozonated air permeates every cell of the lungs, and thus prevents hemorrhage.

NATURAL BEAUTY.
Even the inveterately lazy can enjoy life here also if they have money. To the east Old Baldy lifts a snowy dome in winter, and his steeply sloping forested sides in summer rival his winter beauty. In the winter the full moon at night and the sun by day turn his crest into a diadem of brilliants. To the west the Jemez and Valle mountains, scarcely less grand than the Santa Fe range, reflect the sun's rays in a hundred glorious tones, while their purple basins lend an ideal background for all the splendor.

PUBLIC INSTITUTIONS.
Among the most important public institutions located here, in spacious and attractive modern buildings, are the U. S. court and federal office building, St. Vincent's sanitarium, territorial penitentiary, New Mexico orphan training school, St. Vincent's charity hospital, U. S. government Indian school, Ramona memorial institute for Indian girls, St. Catherine Indian boys training school, Fort Marcy barracks, St. Michael's college, Loretto academy, Presbyterian home mission industrial school for girls, New Mexico deaf and dumb institute, Catholic cathedral, and our parish churches, Episcopal, Presbyterian, Methodist and Congregational churches, the governor's palace, the archiepiscopal residence of Archbishop Lamy, the Chapelle and many others, including first-class hotel accommodations, and several sanitary institutions for the benefit of health-seekers.

The U. S. court of private land claims is in session here throughout most of the year, and the arguments therein, involving as they do points of historical and archaeological interest, are instructive, not only to the lawyer but to the layman.

RESOURCES.
Santa Fe county has an area of 1,498,000 acres and a population of about 17,000. The city itself contains over 10,000 actual residents. The valley soils are especially adapted to fruit raising, and the product is of the finest flavor and appearance. Peaches, sweet as nectarine, plums and apricots, large and luscious, apples, pears, berries and all the hardy fruits flourish in abundance uniformly commanding a better and more remunerative market than even the California fruits. The cloudless sunny days bring out all their fruit and saccharine qualities.

Large mineral deposits, including gold, silver, precious stones, principally the turquoise and garnet, are scattered about, and, to top it all, both bituminous and anthracite coal are found in giant veins. The two kinds sometimes run in parallel veins in the same mine. In addition to this "natural coal" the city has a fine

PROSPECTIVE RESOURCES.
The Chicago Municipal & Investment company has completed a magnificent water works system just east of town, furnishing water under 140 pounds pressure. All the modern improvements in the way of aeration, etc., are provided. In addition thereto preliminary work is now being conducted on reservoirs and canals that will irrigate over 100,000 acres of splendid land in and around the city. These will undoubtedly be completed within two years, as every effort is being made to hurry their construction.

THE WATERS OF SANTA FE.
Dr. J. F. Danter, vice president of the American Health Resort association, says: "It is worth traveling miles to drink of such waters as flow through this deep cut in the mountains and supply the city of Santa Fe for domestic purposes and for irrigation of the fruit farms. The water is absolutely pure, cold and fresh from the melting snows above, or trickling from springs in the mountain side. It is free from all lime, alkali or other ingredients, so very injurious to the consumptive patient. Such water is a great boon anywhere and at any time, but here, where other features of sunshine and pure air combine to produce an ideal climate, it is of special value."

THE MILITARY POST.
At Santa Fe, the oldest established military station on American soil. The Spaniards occupied it as such in 1602. Old Fort Marcy was built by Gen. Kearney in 1846; and the present site was occupied in 1850; the post is garrisoned by headquarters, the land and two companies of the 10th U. S. infantry under command of Col. E. P. Pearson; its location here adds greatly to Santa Fe's attractions socially and commercially. The military band stationed here is one of the best in the army and renders delightful music daily in the public plaza for the pleasure of citizens.

METEOROLOGICAL DATA.
The following is taken from the records of the U. S. weather office of Santa Fe for 1893.

Socorro, N. M., Sept. 20.—The Republican territorial convention, called for the purpose of nominating a candidate for delegate in congress, met here at 10 o'clock this morning.

The attendance was surprisingly small, proxies being the rule.

CALL TO ORDER.

R. E. Twitchell, of Santa Fe, chairman of the Republican central committee, called the convention to order. There was absolutely nothing akin to enthusiasm among the delegates, and cold as the crowd was, it became actually frigid when the chairman announced that Theodore W. Heman, of Lincoln county, had been selected by the central committee to act as

TEMPORARY CHAIRMAN

of the convention. Appreciating the multitudinous sacrifices Mr. Heman had made for the Santa Fe-Las Cruces Republican machine in years gone by, some of the delegates almost expired in their seats when this announcement was made.

Max Luna, of Valencia, widely known as a ship of the old block, was made secretary.

Then the few colts that had managed to get in on the floor despite "the best laid plans of mice and men," knew their doom was sealed.

MAYOR ESTEVAN BACA,

of Socorro, tried, however, to make it as pleasant as possible for all concerned, and at this juncture he stepped forward and delivered a very pretty and earnest address of welcome to the visiting delegates.

Temporary Chairman Heman made a few remarks. Committees were then appointed on credentials, resolutions and permanent organization and rules, and the convention adjourned to 2 p. m.

T. B. Catron is present and has complete control of the convention.

AFTERNOON SESSION.

Upon reassembling the credentials committee reported 114 delegates represented in the convention, allowing Catron to represent eleven votes from Rio Arriba county, though the actual number of delegates present was sixty-five.

E. B. Storer, of Bernalillo county, was made permanent chairman; J. F. Chavez, of Valencia, S. B. Newcomb, of Las Cruces, O. A. Hadley, of Mora, J. J. Baca, of Socorro, and Gregorio Griego, of Taos, were named as vice-chairmen. Serapio Romero and M. A. Downing were named as secretaries.

A proposition to nominate by secret ballot was voted down.

IN A WRANGLE.

Later, 4 p. m.—At this hour the convention is in a lively wrangle over the nominees, though it is more than likely that J. Frank Chavez, the Catron candidate, will win.

Later 5:30 p. m.—A dispatch from Socorro at 5:15 says T. B. Catron was nominated on the 4th ballot.

DELEGATE JOSEPH'S MOVEMENTS.

Hon. Antonio Joseph reached Santa Fe late last night, leaving this morning on the Santa Fe Southern for his home in Taos county. He will return to Santa Fe

Saturday night, and at that time a rousing reception will be tendered him by his host of Santa Fe friends. Such a reception and ratification of his nomination was to have taken place this evening, but Mr. Joseph was compelled to hurry home to-day and complete his plans for entering actively upon his campaign duties. He will spend Saturday night and Sunday next in Santa Fe and on Monday is booked to visit Colfax county to attend the Democratic county nominating convention.

THE COMMITTEES.

The following is a full list of the committees that served in the territorial Democratic convention:

On Credentials—Wm. Burns, A. W. Paitt, Geo. E. Berringer, V. P. May, J. O. Cameron, Geo. W. Miles, Felix Martinez, George Curry, Macario Gallegos, Jose Montoya, J. H. Crist, A. P. Hill, James P. Harper, J. H. Wilton, Manuel Martinez, J. S. Holland, B. Romero.

On Resolutions—H. L. Warren, G. A. Richardson, D. H. Smith, R. L. Young, W. H. Malone, W. B. Walton, Felix Martinez, James F. Hinkle, A. Abeytia, Jr., Jose Montoya, J. H. Crist, Geo. T. Goud, J. P. Victory, W. S. Hopewell, J. H. McCutcheon.

On Permanent Organization—W. A. Maxwell, G. A. Richardson, S. Martinez, Finito Pina, Milton M. Phillips, L. Marshall, Felix Martinez, M. Gallegos, Jose Montoya, J. H. Crist, W. P. Cunningham.

On Rules and Order of Business—E. C. Gutierrez, A. W. Paitt, S. F. Valdez, D. Chavez, J. O. Cameron, L. A. Skelly, Felix Martinez, G. L. Ulrich, Pina Mace, Jose Montoya, J. H. Crist, Rafael Romero, E. Senna, W. F. Hall.

POLITICAL TIPS.

Where were the Republican colts? It looks as though Sheriff O. W. McCutcheon would be renominated at the Colfax county convention on Monday.

"Diphtheria here"—this is the sign that scared the Republican colts out of the Republican convention at Socorro.

Judge Joseph Boone, of Deming, has been nominated by the Democrats of Grant county as their legislative candidate.

Anto Ortiz y Salazar, of Santa Fe county, made good his pledge to the Santa Fe-Las Cruces Republican jackals—"Gillie Otero can't have anything."

The better element of the Republican party in Santa Fe was shocked beyond expression when the news came to-day announcing the result of the Socorro convention.

If half the energy spent in political efforts were devoted to the physical improvement of New Mexico, in ten years this territory would be a veritable paradise.—Optic.

Among the nominees at the recent Grant county Democratic convention is Mr. Baylor Shannon, who will represent the party as their nominee for sheriff. Mr. Shannon is a brother of Hon. C. M. Shannon, of the internal revenue office, and is one of the best men in his section of the territory.

Mr. G. W. Abbott, of the Springer Stockman, a mighty clever man and as independent a Republican as ever lived, is in the city to-day. He says Mr. Joseph stands well in Colfax; that on a straight vote the county is Democratic and that the nominee for delegate will run to the full strength of the ticket.

Hon. J. H. Crist, chairman of the territorial Democratic central committee, got home from Las Cruces this morning. He is much gratified over Mr. Joseph's renomination and is particularly proud of the fact that the Santa Fe county delegation went solid for the nominee. When Mr. Crist left Las Cruces the secretary of the convention, Mr. J. O. Cameron, of Eddy, had not yet made up a full list of the new central committee members and taken copies of the platform, so the chairman was unable to bring them up with him. He has telegraphed for them, however, and expects them shortly.

Capital City Gleanings Gathered Here and There and Condensed for Easy Perusal.

The county commissioners held a brief meeting yesterday. All were present, including Messrs. Dudrow and Kendall. No business was transacted beyond a reduction of the assessment of the St. Lazaro Gold Mining company for 1892, 1893 and 1894. The board took the view that the assessment was exorbitant and reduced it to \$1,000.

The third of the Cochiti cases is on trial to-day in the land court, this being the San Jose grant. Judge Laughlin and G. H. Howard appears attorneys; and the time of the court was taken up in examining Mr. Jose Albino Baca and several other witnesses. The Borrego grant which was on trial yesterday was concluded, and the present case will be followed by a trial of the Canada de Cochiti claim, in which the principal fight will be made.

Nothing has transpired in the way of district court proceedings during the last few days beyond the filing of two small suits. One of these is a suit by attachment on account in favor of Lowenthal & Myers against John Elder. Mr. A. B. Henahan filed the suit. The other was an appeal from a justice court, entitled H. Goodman against T. H. Downs.

Folsom and Dane are bookkeepers at the penitentiary, and the warden boasts that no prison in the United States can show a finer set of books. But, then, the warden must look out, or these experts in false entries, will soon own the penitentiary and leave the territory, like their late depositors, to mourn over vanished joys.—Las Vegas Optic.

Deputy U. S. Marshal Loomis returned last evening from Rio Arriba county where he placed Bachelor Bros. of Tres Piedras under arrest on the charge of cutting timber on the public domain. They gave bonds for their appearance before the U. S. district court.

The injunction suit against Sheriff Cunningham growing out of his levy on the Juana Lopez grant was to have come up before Judge Laughlin to-day, but owing to the inability of Judge Waldo and Judge Warren to reach here was postponed till Saturday.

Gov. Thornton was called to Las Cruces to look after his Bennett-Stephenson mining interests in the Organ mountains. He is expected home day after tomorrow.

Fort Marcy.

Speaking of the abandonment of Fort Marcy, a Washington dispatch to the St. Louis Republic of Tuesday says:

"There are no Indians in the neighborhood, and in case of trouble at Santa Fe troops could quickly be brought from Wingate, Bille and Logan. The abandonment of Fort Marcy has no bearing upon the future location of a strong post in that section of the country. The present establishment is unfit for occupancy."

Somebody must have taken particular pains to state this correspondence.

This morning Delegate Joseph was asked as to the proposed abandonment of Fort Marcy and reiterated the statements made in these columns two weeks ago regarding the assurances which the secretary of war and Gen. Schofield gave him as to the maintenance of the post. Mr. Joseph said he had written and wired the Washington authorities on the subject and was very hopeful that the order, if entered as stated, would be rescinded when the facts were made to appear fully to the departments.

Eddy Execution.

James Barrett, the double murderer, was executed at Eddy last Friday at 2:05 p. m. in the presence of about 1,000 people. The Eddy Current has an excellent report of the affair.

At 1:15 o'clock he was taken from the jail just after eating a hearty meal and carried to the place of execution. He showed no signs of excitement and to the last was as cool as if he were going about the most ordinary detail of business. The drop fell at the hour above named and in ten minutes he was dead. His last request was that his boots be taken off, saying: "I have been told I would die with my boots on. I'll just fool you a trip, so here goes my boots." Sheriff Kemp assisted by Deputy Sheriff Bush officiated.

Barrett killed two men, John Holahan and James Barnes, on July 23, 1893, in a Seven Rivers' grading camp. He was arrested July 24 and a change of venue was granted him to Lincoln county. He was tried there March 24, 94. His case was appealed, the judgment affirmed and a commutation of sentence refused him by Gov. Thornton. His hanging was the first legal execution in Eddy county.

It is the duty of everyone, whether at home or traveling for pleasure or business, to equip himself with the remedy which will keep up strength and prevent illness, and cure such ills as are liable to come upon all in every day life. Hood's Sarsaparilla keeps the blood pure and less liable to absorb the germs of the disease.

Army Marksmen.

At the preliminary practice for the annual rifle competition of the department of the Colorado at Fort Bayard, N. M., September 13 and 14, some excellent scores were made.

The following distinguished themselves as marksmen: Private F. Webster, company F, 11th regiment, aggregate, 254 points; Private William Weston, company C, 24th regiment, aggregate, 214; Corporal O'Flaherty, company E, 16th regiment, aggregate, 204; Sergeant E. Dreeshar, company C, 16th regiment, aggregate, 210; Sergeant R. M. Davidson, company G, 16th regiment, aggregate, 190.
